Notice is hereby given that J. L. Stein has applied in writing for a License to be granted to him to sell Intoxicating Liquors for a period of one year from the 11th day of August, 1898, to the 11th day of August, 1899. The place where the said business is to be carried on is designated as follows:

On the ground floor of the two story building situated on lot twenty three (23), of block eight, (8), original townsite of the Village of Delano, Wright county, Minn.

Said applicant prays that such License be granted to him pursuant to the ordinance of said Delano of Wright County and the statutes of said State of Minnesota, in such case made and provided.

The above application will be heard at a special meeting of the Village Council, in the Council Room, at the City Hall, in Delano, at 8 o'clock P. M. Wednesday, Aug. 10, 1898.

Dated at Delano, Minn July 25, 1898.

L. M. MAXFIELD,
Village Recorder.

Yes; rouse, Americans! And cheer!
And let your voice be heard
Wherever men love liberty
And prize that sacred word.

For lo! on Santiago's heights
Our gallent standard waves,
And freedom dawns on souls of men
Who yesterday were slaves.

Where Shafter leads his conquering train;
With stern, heroic Miles—
Fair Cuba drops her captive chain
And lifts her head and smiles.

The proud Castilian hirelings bow
Before Right's stern decree:
The "Pearl of the Antilles" now
Is fated to be free

DIED.

HUTCHINSON.—At Chicamauga Camp, on Tuesday, July 19, John Stanley Hutchinson, of Co. H. 14th Minn. volunteers, aged 22 years 11 months 4 days.

The funeral was held at howard Lake where the body of the first Wright county man to die in the Spanish war was buried by a large concourse of friends.

Meeting of the Democratic State Central Committee.

The Democratic State Central Committee met in the ladies ordinary of the Ryan Hotel, St. Paul, on Wednesday. Chairman Rosing called the meeting to order. Committeeman O'Connor was made temporary Secretary.

The following members answered to roll call:

First District,—B. J. Mosier.
Second District,—Thomas R. Kane, Louis Betz.
Third District,—W. A. Allen.
Fourth District,—Matt Walsh, Alex Stewart.
Fifth District,—John Moonan.
Sixth District,—Henry Himmelmann.
Seventh District,—J. E. C. Robinson.
Eighth District,—S. P. Brown, by proxy R. H. McClellan.
Thirteenth District, E. C. Brownell, by D. B. Johnson.
Eighteenth District,—T. J. Catlin.
Members at large,—Willis, Winston, O'Connor, Thornton, Hill.
Stanton Came in late.

Officers were chosen for the ensuing two years:

Chairman,—L. A. Rosing.
Vice Chairman,—J. J. Thornton.
Secretary,—Thos. R. Kane.
Treasurer,—P. B. Winston.

On motion, Chairman Rosing was empowered to name the Executive Committee, of seven members, himself to be chairman of the same.

The plan of campaign was outlined and discussed.

A subscription for funds was started, several members of the committee giving liberally for a starter.

The location of headquarters was left to the Executive Committee. Both St. Paul and Minneapolis made liberal offers for headquarters. Probably St. Paul, for various reasons will be selected.

The wish of the candidate for Governor was said to be that a short, sharp campaign be carried on, consequently it may be some time before the committee is called to order.

Provisions were made for providing some campaign literature and a campaign book on which people can rely for information concerning questions at issue.

It was voted to give a banquet in honor of Chairman Jones of the National Democratic committee, who with his family will be at Lake Minnetonka in a couple of weeks.

The meeting was an enthusiastic one and will do much toward inspiring those present to do their utmost.

SYNONYM.

Papa, what's a synonym?
A synonym is, well,
A word that means somewhat the same,
And is easier to spell.

FOR THE 13th. MINNESOTA.

A Song By the Chaplain, Rev. C. A. Cressy.

(Tune, "Marching Through Georgia")

Fill your bugles up with song,
My Minnesota boys:
We'll gather 'round the camp-fire,
And we'll make a little noise;
We'll sing a song together
To intensify our joys,
For We are going to Manila.

Chorus:

Hurrah! Hurrah! We'll make a jubilee;
Hurrah! Hurrah! Hurrah! for you and me.
Hurrah! for Minnesota, and our country great and free,
For we are going to Manila.

We're going to see Dewey
And his sailor boys in blue,
Who fought the biggest battle
That the nations ever knew;
They met the Spanish navy,
And they knocked it all askew,
Down in the harbor of Manilla.

Chorus.

We'll never mind the hardship
While we sail the ocean blue;
If Neptune calls for tribute,
We'll give him all that's due;
For we're from Minnesota—
We can sing or we can spew
While we are sailing to Manilla.

Chorus.

We'll never let our courage lag,
Whatever comes along:
There may be danger for us,
But we'll spice it with a song;
In camp, or fight, or hospital,
We'll jolly be and strong,
When we arrive in Manilla.

Chorus.

Here's health to all the pretty girls
We've left so far behind,
And dear old Minnesota
That is never out of mind;
And when the war is over
What a welcome we shall find,
When we get home from Manilla.

Chorus.

TEDDY ROOSEVELT, was wounded by a Spanish shell, in the back of his head, at Santiago.

CHAIRMAN STEELE, of Eustis Republican State Central Committee is going a fishing the very first week. What will he do after that?

COL. SHANDREW, of the 15th Minn. Vol. is sick at his home with a paralytic attack. For a time he was speechless. He is reported much improved. Lieut. Col. Leonhauser has been acting Col. in his absence.

BISMARK, Germany's great man of this age, died Sunday, at his home Frederickshul. Although he has not been actually in political affairs for some time he was considered among the mighty men of his time.

NEW political issues are looming up in the distance. What shall we do with the Philippines? Shall the Nicaragua Canal be completed under control of the United States? Shall we have a large standing army?

MAJOR VAN WYCK, at Newport this week distinguished himself by saving the lives of three young ladies who went in bathing near his stopping place, and getting beyond their depth, cried for help. He, unaided, landed the trio.

GEN. GEO. C. SMITH, one of St. Paul's most prominent and oldest educators died Tuesday. He was for years Principal of the Madison School. He was an earnest S. S. man being superintendent and Bible teacher in the old Jackson Street M. E. Church.

SQUABBLING over what we shall do with the Philippines while General Merritt is calling for an army of 38,000 more men to take them, when it will require a month for our soldiers to get there to aid the 12,000 already there reminds one of counting the chickens before they are hatched.

COL. ROOSEVELT and other officers in Cuba have signed a paper stating that in their opinion the best thing to do with the troops at Santiago is to ship them North to the United States at once, if their lives are to be spared, as sickness is alarmingly prevalent among them. Heed should at once be gived these petitions.

ELABORATE arrangements are being made for an old settlers reunion and celebration of the Indian massacre, at Doty's Grove, at Courtland, Nicollect County, on Aug, 18, 1898. Judge Flandrau is to deliver the address. Judges Severance and Buck, of Mankato; Col. Pfaender, of New Ulm and other old timers, are to be on hand. It is expected that a big turn out, and a big time will be had.

VOTERS have tired of electing men to office because they happen to be on the ticket, when they know they are tricky, deceitful, and incompetent and unreliable. County offices should be filled by men who will fill them with dignity and honor. Men who will do their duty as they see it, regardless of what others may say. In this election the party that places the cleanest men on the ticket and conducts the cleanest campaign is most likely to win.

A MAN has so soon been appointed to look over the financial prospects of the Philippine Islands and report on the kind and quality of money used and things appertaining to business generally. Why don't the powers that be appoint a man to look into the Agricultural, Mineral educational religious and other interests of the people who, it is claimed have been so long oppressed? Why bend all energes to the dollar? Is money the only thing the United States cares for? It would look just a little that way.

MINNESOTA troops, it is claimed are not getting to the front fast enough to suit some people. The 13th, of course is far enough from home to suit the warlike. But the 12th, the first regiment to be mustered in under the call for volunteers, and the 14th, and the 15th are still hankering for a chance to see some war. While other regiments, raised long after the Minnesota boys, at Chicamauga Park are being sent to Porto Rico, the 12th and 14th remain in the south to drill and get ready.

ANOTHER big bond issue is talked of by Secretary Gage. The last one was for small amounts as widely distributed as possible. The next one will, doubtless be for larger amounts, so as to be more readily obtained. And when it comes to voting on matters appertaining to finances, of course bondholders, big and little, will be expected to support the interests of the money loaners. Some of the smaller holders may not be favorable to everything that the big ones want but there can be a fearful pressure brought to bear to whip them into line. The more bond holders of course the more voters for men who will favor bonds wherever possible.

A MINNEAPOLIS doctor has sued the County of Hennepin for his fees as a Commissioneer in lunacy on several cases at the rate of $7.65 for each case. If he had been a reader of the GAZETTE he would have known that according to the Public Examiner the Attorney General had decided that $5, was the regulation fee. Also that Wright county pays $3, Kandiyohi $5, and Meeker $7.80 for the same work, according to their published Financial Statements, and that the Public Examiner O. K's. the accounts of the county officers. There ought to be somebody in the Legislature who has had a little experience with these and similar matters to insist on having them straightened out so they won't look quite so bad. Corporation Attorneys seem only to muddle them up more and more each year.

SOME of our Republican papers are trying awfully hard to make people believe that John Lind agreed not to be a candidate for Governor if Gov. Clough would appoint him Quartermaster of the 12th Reg. Minn. Vol. We don't take any stock in most of their assertions. But in case they should get proof enough to establish the fact would it help matters any? It takes two to make a trade. If Lind had a bargain with Clough, wasn't Clough as bad as Lind? And didn't Eustis electioneer for Clough? Is he any better than the balance of the gang they wish to have people believe traded with our candidate? It don't help the candidacy of Eustis much even though they do make out that the G. O. P. put Lind into an office to keep him out of another one. Better talk on State issues and not go too much into personalities. If you do you are sure to get left.

Our Colored Regiment in Action.

To the Editor of the Scientific American:

In the article which appeared in the Scientific American of July 9, 1898, headed "Courage in Modern Warfare," special mention was made of the pluck, courage, and bravery of the "Rough Riders" as they charged up San Juan Hill. All honor to the brave soldiers who were willing to face such danger to defend the flag and honor of our country! But, since special mention was made of the Rough Riders (saying nothing about the gallant boys of the 71st N. Y. Volunteers), I think it is no more than right and just that the chivalry of the colored regulars, composing the 9th and 10th Cavalry, should not be overlooked.

Col. Roosevelt rode at the head of his troops "with the 10th Cavalry ranged alongside." "Up, up they (Rough Riders) went with the colored troops alongside of them."

"The shooting of the 10th Cavalry was wonderful. Their ranks closed as fast as they were thinned;" and, when the position was won by the American forces, "the Riders cheered the 10th, and the latter cheered the Riders." Thus, we see bravery and fraternal greetings shared equally by the men who made the gallant charge. The 9th and 10th Cavalry is a fitting representation of the courage to be found in the ranks of the 8,000,000 negroes of these United States, if called upon to sacrifice their lives for their country.

REV. JAMES MARCUS BODDY.

Troy, N. Y., July 11, 1898.

Many of our citizens will remember the 10th Cavalry, as they stopped for a few moments in Delano, on their way from the west to the front. How some of them said "Just you wait until they turn the 10th Cavalry loose on the Spaniards." This then was no idle boast. Their record proves they meant what they said, and they know how to fight.

WASHINGTON LETTER.

(Fromour Regular Correspondent.)

WASHINGTON, D. C., July 22, 1898.

Mr. McKinley and his advisers never had more need for all their wits than now that Spanish trickery has made a start, through the French Ambassador, for the opening of "negotiations" for peace. They have got to remember that while no European power would dare to fight the U. S., there are several of them that would be only to glad to aid Spain in getting the best of us through diplomacy, and if Mr. McKinley consents to make the terms of peace subject to "negotiations" there are numerous ways in which it might be done. There are men in this country, especially those who have connections with the great European financiers who have money invested in Spanish bonds that are secured by Cuban revenues, who would be only too glad to have a chance to try to save something out of the wreck by having the terms of peace arranged by diplomatic negotiations. It is not a case for negotiation, Senator Morgan correctly stated the case when he said: "It is the duty of Spain, if she wants to make peace, and that means if she wants to surrender, to ask terms of the U. S., and state what she will be willing to accept. Spain, having lost the control of her colonies because of her incompetence, either to govern or to defend them, the U. S. ought to accept nothing except a full and complete surrender of the soverignity of all of these islands, from Porto Rico to the Philippines. To make a treaty with Spain to which Cuba becomes a party by being an agent in the negotiation of the treaty or being provided for in the treaty itself will lead to embarrassment and complications in the future. The war has not yet progressed to that stage in which the people of Spain, or even the Spaniards in Cuba, have realized the fact that the U. S. has power to suppress Spain uttterly if it should choose to do so."

There is much anxiety to know how Mr. McKinley will meet the Spanish peace play, and fear is expressed that his desire to bring the war to a close may cause him to get caught in some diplomatic trap that may cost this country a whole lot of money. The people have been able to extract a great deal of satisfaction from the victories we have won from the Spaniards on land and aboveboard get to negotiating with men whose knavery is a byword all over the world, the result is seldom satisfactory to the honest man. A good motto for the administration just now would be "No negotiations, but unconditional surrender." If Spain won't accept that now we can soon whip her into doing so.

The news from Gen. Miles is entirely satisfactory, as far as it goes. He had no trouble in landing on Porto Rico early this week, without the loss of a man, and his force is being daily increased by new arrivals. The expectation at the War Department is that he will get his campaign actually started within a week.

Admiral Sampson's report of the fight that resulted in wiping out Cervera's fleet was received by the Navy Department and made public this week. It is more satisfactory to Commodore Schley's friends than was the cablegram sent the day of the fight, which seemed to indicate an intention on Sampson's part to appropriate to himself credit that properly belonged to Schley. His official report does not take anything away from Schley to which he is entitled, but it seems to indicate an unwillingness to give him all that he earned by the daring manner in which he fought the Brooklyn against ships that were her superiors in armament. However, Schley gives no sign of this in his report to the Admiral, unless his reference to the victory being "big enough for all of us" was a sly dig at Sampson. A notable feature of the reports of Commodore Schley and Captains Evans and Clark was their high praise of the officers and crews of the Brooklyn, Texas and Oregon for their conduct in the battle.

Official dispatches from Gen. Shafter bear out the contentions of those who have been claiming right along that the cases of yellow fever in our army were much more numerous than anything given out by the War Department in licated. More than 2,400 of Shafter's men, about ten percent of them are now down with the fever, and more than five hundred who have had the fever have returned to duty.

According to Shafter's statement, that fit of sulks in which Gen. Garcia took himself and his insurgents away from the vicinity of our army was inevitable, since Garcia asked for more than Shafter had any authority to give him, in the way of official recognition for himself and the government he represents. Among other things Garcia wanted to sign the articles of capitulation, something that Gen. Shafter himself did not do, they being signed only by the Commissioners who represented the two armies in drawing them up.

Pass 'Em Around.

During the 40 years that Minnesota has been a state, the Twin Cities have furnished the governors for 25 years while the entire balance of the state only furnished governors for the other 15 years. How does that come? Do the people of Minneapolis and St. Paul know more than the rest of 'em or have they only got a better chance to "get on the bandwagon?"—New London Times.

An Excellent Judge.

The Delano Gazette mentions the name of Charles S. Wheaton as a possible candidate for judge against Mr. Giddings. Mr. Wheaton would make an excellent judge, but is in no sense a candidate.—Sherburne County. Times.

An excellent Judge is just what the people of the 18th District want, and lots of excellent men who were not candidates have been elected, and have made most excellent officers.

A Trip Through Rockford.

In a trip through Rockford on Monday last we noted among other things and persons the following. Before arriving at the village we met D. R. Thompson, on wheels, on his way over the new cut road to the station. Through town we took a back street and didn't see much to be noted. On top of the hill Rev. Abbott was busy carrving the sheaves together, and of course cogitating the temperance problem. Charles Bugbee was getting up some nice stacks. Further on we came to a place where, like Christian's road, the way seemed completly blocked; but this was by a couple of middle of roaders the Georges Crandall, and Fredericks and a binder. We managed to drive around without upsetting. While they inquired what was the best way to get a big field of badly mixed up oats cut. We told them to "cut against the grain." Some fine apples were in sight on John Sleights place.

Much of the grain in the north part of town seemed to be very backward and some a very poor crop, though most of that in sight was better than in average years.

We saw the poorest horse and one of the poorest pigs on the road we think that ever stood alone. In some places pasture was quite short.

The road from the Buffalo road to Fred Brandes' place has had considerable work on it some time, but not very lately. A few days work would make traveling much easier, Messrs. Brandes and Bolduc were harvesting after the old fashion with the cradle, but have good crops.

Twasn't a good day for fish. They wouldn't bite.

Send More Pies.

Massachusetts and New Hampshire cannot lay exclusive claim to being in the "pie belt." Minnesota is no mean second to New England and the local supply at the Executive grounds is exhausted. Mrs. Fuller asks for more She asks that they be made this morning and sent to the grounds as soon as possible.—The Pacific Commercial Advertiser.

To the Big 100.

S. S. City of Para, at Sea, July 8, 1898. Mr. Geo. W. Smith, Chairman of the Citizens Committee of 100—Dear Sir:—On behalf of this Regiment permit me to express my sincere thanks for the delightful entertainment prepared for us by the people of your beautiful city. We have received many attentions since leaving our homes in distant Minnesota, and while we have enjoyed them all, not one has given us so much genuine satisfaction, savoring as it did of Home, as did your princely hospitality.

Most cordially yours,
C. McC. REEVE,
Col. Thirteenth Minn., Vol. Inf.

John Lind.

Chaplain Clemens of the 12th Reg. Minn. Vol., who is home on leave of absence for a few days to recruit his health, is reported as saying: "that the boys to a man like Quartermaster Lind, and although I do not agree with him politically. I must say that I have found him an honorable conscientious and painstaking officer."

Corsets In Russia.

Bogoljewow, the newly appointed Russian minister of public instruction, has begun the duties of his office by issuing a drastic order to the effect that corsets must not be worn by young women attending high schools, universities, and music and art schools; they are to be encouraged to wear the national costume. The minister says that he has spent much time in visiting girls' schools, and has made the discovery that the corsets as an article of dress is distinctly prejudicial of the health and physical development of the wearers.—Scientific American.

A Whipping Would Do Havana Good.

Havana is the actual hot bed of hate and enmity against the United States. Its people look upon us as cowards and believe that we do not dare to attack her. Our warships are supposed to be afraid to get within range of Blanco's big guns. If Havana were surrendered to us, it would always hold these beliefs and continue to be a hot bed of rebellion. Nothing but a good whipping will act as the needed medicine. If peace is not declared, Havana must be moved upon and its people taught a few truths about the United States.—New York Dispatch.

Camp Merrit.

From the Waverly Tribune we clip the following:

"The following note was received by D. W. Flannigan from his son Charlie:

Camp Merritt, Cal., July 28, '98.

Dear Father—We go on board in the morning and we are all packing up our knapsacks and getting ready. We had target practice this morning and I scored 48 out of a possible 50 points at 200 yards. * * We will see Dewey in about a month and maybe a few Spaniards—I hope we do. Well, we have not much news, so good bye, and if you hear of us having a fight you can bet I will be there. I wish you would write to Manila. Your loving son,

CHARLIE.

The Literary Mystery of the Century.

After eighty-one years evidence has been discovered which throws entirely new light on the mystery of Napoleon's autobiography. Apparently there have been resting in America all these years links which would have connected the entire chain; but no one thought of crossing the Atlantic for them.

Never has text of document borne more indisputable proof of authenticity upon its face than the memoirs of Napoleon now appearing in THE COSMOPOLITAN. They carry the stamp of a mind so large that no person of the period was great enough to be seriously suspected of having written them, although Madame de Stael and others of the brightest wits of the day were in turn accused until, when style and fitness were taken into consideration, the absurdity of the charge became evident.

It is a curious fact that never have so many interests combined to throw discredit upon any literary work. When they surreptitiously appeared in Paris in 1817, the publisher was thrown into prison and the issue suppressed and destroyed. The independent printing press was then a feeble institution and the monarchy was all-pervading in its influence. They not only suppressed the memoirs but found members of Napoleon's staff to discredit them and even a literary hack to confess to authorship. Yet there to-day comes testimony which seems to clear up the whole situation. To quote the document given in the August COSMOPOLITAN:

My father was Joseph Archambault. He was born in Fontainebleau in 1796, and became a member of Napoleon's suite when a boy of about ten. He went with Napoleon to St. Helena in 1815 and when the opportunity offered was dispatched to America with the manuscript of Napoleon's defense of his life and policy. I frequently heard him speak of the manuscript and of his delivery of it to Joseph Bonaparte at Bordentown. He said that in order to deceive British authorities he had used it as wrapping paper around things in his trnnk. I also recollect that my father showed me a book which he said had been printed from this manuscript.

Signed: Napoleon Bonaparte Arckambault.

Witness: Priscilla Ring Arckambault.

But that is not all; the search which was instituted by THE COSMOPOLITAN has resulted in finding the most positive testimony, dating back to 1819, contradicting the statements of Gen'l Gourgaud, upon whom was the main reliance for the discrediting of the memoirs. The entire account of the many month's research made by the Editor forms an interesting story itself. The facts bearing on both sides are stated in a way to allow the reader to judge for himself. From every side has come the expression of belief that no one but Napoleon could have so deeply comprehended the situation of 1800-15 and so clearly analyzed the problems of the time. Those who have held these opinions, and they embrace generals, economist and literary men, will be delighted with the many facts which go to prove that they were right in their judgement and that there was in 1817 no man in Europe able enough to have penned such an epitome of the great events of his career except Napoleon.

Collins For Mitchell.

St. Peter Free Press (Rep.): It is currently reported that Judge Collins intends to support Judge Mitchell of the supreme court for re election, and this has enraged several of our esteemed contemporaries that they seriously suggest to oust him (Collins), out of office and the party. When it comes to pass that a person cannot follow his honest convictions in voting for a candidate for the highest judicial office in the state without being abused there is something radically wrong. The mere fact that a candidate is a good party man does not particularly fit him to become Judge of the supreme court and it seems that this office above all others should be filled regardless of party affiliation.

OFFICIAL
WAR BOOK.
by Congressman James Rankin Young. All about War with Spain, the Navy, all defenses, Battle Ships, etc. Portraits and biographies of Dewey and all prominent officers. Nearly 600 pages. Massive volume. Marvelously cheap. Best authorship. Only authentic, official book. Experience not necessary. Any body can sell it. Ladies as successful as gentlemen. A Chicago man named his dog Dewey because, no matter what he is doing, he is always ready to suspend operations for breakfast.

Tramps are becoming troublesome again, and their colonization on some of the new islands is suggested. Why not try the Ladrones?

Another S has joined the sibilant procession. Spain, Sagasta, Santiago, Shafter, Sampson, Schley and Surrender. Nothing remains now but Scoot.

Recent investigations have shown that the principal source of the Gulf stream is not the Florida channel, but the region between and beside the islands of the West Indies.

One of the difficulties we shall have to encounter in the near future will be the impossibility of securing a map of the United States that shall not also be a map of the world.

The wealth of the United States is estimated by Prof. Mulhall at $81,750,000,000, or nearly $32,000,000,000 more than that of any other government in the world. Spain was not prudent in picking out a financial antagonist.

Some one has discovered a parallel to our extraordinary agreement to return the Spanish prisoners to Spain. After the French army of 22,000 men surrendered to the British army in Portugal under Sir Hugh Dalrymple, August 30, 1808, they were embarked on English ships and transported to Brest.

New York city has passed an ordinance forbidding the use of profane language in any public place under penalty of a fine of from two to ten dollars. The man who picks up a tack with his tire will have to ferry across to New Jersey to express his opinion of the small boy's idea of humor.

There is a grim sort of poetic justice in the fact that Santiago de Cuba, the first Cuban city to be brought by arms under the American flag, is the spot where 50 American citizens were ruthlessly murdered by Spaniards just a quarter of a century ago. The dark blot of the Virginius incident of 1873 is not forgotten by the American people.

"Don't cheer. The poor devils are dying," was the command of Capt. Philips, of the battleship Texas, when Admiral Cervera's vessels were afire and sinking. Contrast that respect for dead, dying and wounded soldiers, with the firing upon the dead, dying and wounded American soldiers, and upon the ambulances protected by the Red Cross at Santiago.

Surrenders, to be according to Hoyle, must be made under a tree. This facilitates the process of taking leaves and enables the terms to be kept shady. Lee surrendered under an apple tree at Appomattox, and Toral surrendered under a cedar tree at Santiago. Cervera did not need a tree because he had his bark with him, although the way in which his ships ran ashore was suggestive of a slippery helm.

A St. Louis physician says that the cooling draughts obtained from electric fans in the summer time are very dangerous, and that colds, pneumonia and death often result. The physicians and scientists have had us dodging microbes for a number of years, foregoing the pleasure of eating grapes for fear of appendicitis, boiling our water until it is tasteless for fear of typhoid and a hundred other diseases, and now they say we must keep out from under the electric fans. What will they have us not do next?

The Cincinnati Price Current's preliminary summary of the exports of pork products from the United States during the fiscal year ended June 30 last states that the gain in the exports of those products during the 12 months was 210,000,000 pounds—the aggregate export reaching 942,000,000 pounds the preceding year, and 855,000,000 pounds as the previous highest record, in 1880, on exports of hog products from this country. The value of hog products exported from the United States during the past 12 months was $110,000,000.

The captain of the Alfonso XII., which was knocked into kindling wood by the United States gunboat Hawk the other day, is conservative. Describing the occurrence, he relates how the Yankee boat plugged his ship full of cannonballs, smashed one of his engines and finally set fire to the vessel, compelling him to run her ashore. But he doesn't get excited over the matter. His only comment is: "I found the situation rather embarrassing," and he does not exaggerate. "Rather embarrassing" fully covers the Spanish idea of naval engagements.

Not content with bestowing the title of LL. D. upon Admiral Dewey, the University of Pennsylvania has sent him the degree, with its insignia, a doctor's hood of purple velvet, inclosed in a handsome box lined with velvet. No doubt the admiral is pining for the privilege of being called doctor, but if he has no need for the purple hood in the Philippine climate he can turn it over to Aguinaldo, who has a weakness for gay toggery. If all the colleges in the country are going to thrust titles and insignia upon him, however, the government must come to his relief.

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

A mail steamer for the island of Cuba carrying letters for other than the army left New York for Santiago for the first time since the war began.

Advices received in Washington say that the German fleet has been withdrawn from the harbor of Manila. The understanding between this government and Germany is said to be perfect.

It is said that as soon as fever conditions permit Shafter's army will be removed to a tract of land adjoining Montauk Point, Long Island. Gen. Shafter reports 4,122 of his men sick, 3,193 with fever of various types, but the low death rate shows the sickness to be of mild form.

Puerto Rico volunteers at Ponce revolted and would not fight the Americans.

Madrid received another dispatch confirming the report that Manila had surrendered to Admiral Dewey.

On the morning of July 25 Gen. Wesley Merritt and troops under his command arrived at Manila, after a trip devoid of startling event.

Gen. Miles reports that the city of Ponce, Puerto Rico, surrendered to his forces without opposition, and that the Spanish troops are retreating from the southern part of the island. The American flag now flies over Guanica, Port of Ponce, Ponce and Yauco. The people were delighted at the arrival of the Americans.

President McKinley's answer to Spain's peace proposal is: The absolute surrender of Puerto Rico to the United States. Recognition of the independence of Cuba. Cession of one of the Ladrone islands to the United States as a coaling station and the cession to the United States of at least a coaling station in the Philippines.

The natives of the Philippines and British subjects who have interests there urge President McKinley to put a stop to Spanish rule on the islands.

The Spanish troops in Puerto Rico were retreating toward San Juan. Gen. Miles and the United States soldiers were everywhere welcomed and our national colors were in demand.

Santiago advices declare Gen. Gercia is disgusted with the Americans and is willing to disband his separatists.

Admiral Dewey reports that our forces may have to fight the Philippine insurgents owing to the attitude assumed by Aguinaldo, their leader.

At Neuvitas, in the province of Puerto Principe, Cuba, the Spaniards evacuated the town, setting it on fire after it had been shelled by American ships.

Hopes are entertained in administration circles that the conference with M. Cambon will result in a peace agreement.

American troops in Puerto Rico have taken possession of the Ponce railroad and are operating the trains for the movement of supplies.

FROM WASHINGTON.

Throughout the country the business situation shows unusual indications of a season of general prosperity.

In the treasury of the United States a balance has been struck of the "conscience fund," showing that the total amount received since it was opened in 1811 was $297,452.

THE EAST.

At the leading clearing houses in the United States the exchanges during the week ended on the 29th aggregated $1,039,315,602, against $1,152,889,653 the previous week. The decrease compared with the corresponding week in 1897 was 0.3.

In the United States there were 189 business failures in the seven days ended on the 29th, against 207 the week previous and 259 in the corresponding period of 1897.

In the National league the percentages of the baseball clubs for the week ended on the 31st ult. were: Cincinnati, .681; Boston, .651; Cleveland, .616; Baltimore, .595; Chicago, .556; New York, .540; Pittsburgh, .511; Philadelphia, .476; Brooklyn, .384; Washington, .365; Louisville, .356; St. Louis, .261.

Near Waterloo, N. Y., the farmhouse of Mrs. J. Zartman was destroyed by fire and Mrs. Zartman and her married daughter and a hired man were burned to death.

WEST AND SOUTH.

In Chicago Mrs. Amelia Currier Vollar, who lives with her granddaughter, Mrs. George Haines, celebrated the one hundredth anniversary of her birth.

Because of family trouble James L. Hempton shot and killed his wife at Manitowoc, Wis., and then fatally shot himself.

The oldest mason in the United States, James Clark, celebrated his ninety-ninth birthday at Quincy, Ill.

One of the most prominent physicians in the country, Dr. William Pepper, of Philadelphia, died at Pleasanton, Cal., of heart failure.

Miss Ada Clemmons and Howard Fish, young society people of Monroe, Ill., were drowned in the lake at Sandusky, O., by the capsizing of a rowboat.

While fording a stream William Selden and Miss Minnie De Witt, of Anna, Ill., were drowned near Cobden.

In Jackson, Tenn., Dr. C. H. Strickland, D. D., aged 52, pastor of the First Baptist church, died in a bathtub.

At Parkersburg, W. Va., Jacques Brown and his wife committed suicide by placing themselves in front of a passenger train on the Ohio River railroad.

A cyclone destroyed a dozen farmhouses near Gower, Mo., and many persons were injured.

Herman Elbek and Peter Knass were suffocated by foul air in a well near La Salle, Ill.

AN EASY VICTORY.

Spaniards Surrender Port and Town of Ponce, Puerto Rico.

Demands of Gen. Miles Meet with Little Resistance—Our Casualties Are Four Men Wounded—Troops Welcomed by Inhabitants.

Washington, July 30.—The results thus far achieved by Gen. Miles and Capt. Higginson, in command of the naval squadron, in the occupation of Puerto Rico, have created a feeling of intense satisfaction among officials of the administration. Information received Friday directly from Gen. Miles was very gratifying to the president and his advisers. It indicates, as one official expressed it, that "Miles is cleaning up everything as he goes." The surrender of Ponce, practically without a struggle, is regarded by the war officials with especial satisfaction. In importance it is the second city of the island.

The Surrender of Ponce.

Washington, July 30.—The navy department has posted the following bulletin:

"St. Thomas, July 29.—U. S. S. Massachusetts. — Ponce, Puerto Rico, July 28.—Commander Davis, with Dixie, Annapolis, Wasp and Gloucester, left Guanica July 27 to blockade Ponce and capture lighters for United States army. Cities of Ponce and Playa surrendered to Commander Davis upon demand at 12:30 a. m., July 28. American flag hoisted at six a. m., 28th. Spanish garrison evacuated. Provisional articles of surrender until occupation by army; first, garrison to be allowed to retire; second, civil government to remain in force; third, police and fire brigade to be maintained without arms; fourth, captain of port not to be made a prisoner.

"Arrived at Ponce from Guanica with Massachusetts and Cincinnati, Gen. Miles and Gen. Wilson and transport at 6:40 a. m., 28th. Commenced landing army in captured sugar lighters. No resistance. Troops welcomed by inhabitants; great enthusiasm. Captured 60 lighters, 20 sailing vessels and 120 tons of coal.

"(Signed) HIGGINSON."

Washington, July 30.—The Dixie was largely manned by the Maryland naval reserves.

Miles Tells of the Victory.

Washington, July 30.—The war department has received the following dispatch from Gen. Miles:

"Port Ponce, Puerto Rico, via St. Thosas, July 29.—Secretary of War, Washington: On the 26th Garretson had a spirited engagement on the skirmish line. Our casualties, four wounded, all doing well. Spanish loss, three killed, 13 wounded. Yauca occupied yesterday. Henry's division there to-day.

"Last evening Commander Davis, of the Dixie, moved into this port, followed by Capt. Higginson with his fleet, early this morning. Gen. Wilson, with Ernst's brigade, now rapidly disembarking.

"Spanish troops are retreating from southern part of Puerto Rico. Ponce and port have a population of 50,000 now under American flag.

"The populace received troops and saluted the flag with wild enthusiasm. Navy has several prizes, also 70 lighters. Railway stock partly destroyed now restored. Telegraph communication also being restored. Cable instruments destroyed. Have sent to Jamaica for others.

"This is a prosperous and beautiful country. The army will soon be in mountain region; weather delightful; troops in best of health and spirits; anticipate no insurmountable obstacle in future. Results thus far have been accomplished without the loss of a single life."

"Port Ponce, Puerto Rico, July 28.—Secretary of War, Washington: In the affair of the 26th, Capt. Edward J. Gibson, company A, was wounded in the left hip; Capt. J. H. Prior, company L, slightly wounded in hand; Private James Drummond, company K, two wounds in neck, and Private Benjamin F. Bosbick, company L, slight wound in right arm. All of Sixth Massachusetts. All doing well. The Spanish retreat from this place was precipitous, they leaving rifles and ammunition in barracks and 40 or 50 sick in hospital. The people are enjoying a holiday in honor of our arrival.

(Signed) "MILES."

Later News from Miles.

Washington, Aug. 1.—Gen. Miles, in command of the Puerto Rican expedition, sent the following dispatch to Secretary Alger, which was made public at the war department at ten o'clock Sunday night:

"Ponce, Puerto Rico, July 31.—Secretary of War, Washington, D. C.: Volunteers are surrendering themselves with arms and ammunition. Four-fifths of the people are overjoyed at the arrival of the army. Two thousand from one place have volunteered to serve with it. They are bringing in transportation, beef cattle and other needed supplies. The custom house has already yielded $14,000. As soon as all the troops are disembarked they will be in readiness to move. Please send any national colors that can be spared to be given to the different municipalities. I request that the question of the tariff rate to be charged in the ports of Puerto Rico occupied by our forces be submitted to the president for his action, the previously existing tariff remaining meanwhile in force. As to the government and military occupation, I have already given instructions based upon the instructions issued by the president in the case of the Philippine islands and similar to those issued at Santiago de Cuba.

"MILES,
"Major General Commanding."

Marching on to San Juan.

Ponce, Puerto Rico, July 31, via St. Thomas, D. W. I., Aug. 2.—Col. Hulings, with ten companies of the Sixteenth Pennsylvania, has occupied Juan Diaz, about ten miles from Ponce, on the way to San Juan. The American flag was raised and greeted with great enthusiasm by the populace.

THE PEACE TERMS.

French Ambassador, Acting for Spain, Is Furnished with Demands of United States.

Washington, Aug. 1.—M. Cambon, French ambassador in Washington, on receiving President McKinley's reply to the Spanish note, presented credentials empowering him to act for Spain in the matter of peace negotiations. In consequence the terms as proposed by President McKinley were discussed at once, and when M. Cambon left the white house terms had practically been agreed upon. Should Spain ratify M. Cambon's action peace would come at once. The terms agreed upon are not made public. From a high source, however, it is learned that the answer to Spain is practically as follows:

Withdrawal by Spain of her forces and sovereignty from Cuba, the United States to exercise control until a stable government can be established.

Withdrawal of her forces and sovereignty from Puerto Rico and the absolute cession of these and the minor Spanish West Indies to the United States.

Acquiescence by Spain in the permanent occupation by the United States of Guam island in the Ladrones, already in the possession of the United States.

The United States is to exercise control over the city and bay of Manila and the immediate surrounding territory, including Cavite, until such time as the commissioners appointed respectively by the two countries determine upon the future disposition and government of the Philippines, which receives the ratification of the two governments, the United States neither waiving claim to the whole of the Philippines nor specifying the exact boundary limit of the territory she desires to hold permanently.

After strong argument the president and Secretary Day consented to a modification of the American terms in one particular. What that modification relates to is not disclosed, but it is believed not to apply to the condition for the absolute independence of Cuba, the cession of Puerto Rico, or the granting of adequate coaling stations to the United States in the Pacific, or to diminish in any vital particular the terms on which peace will be restored. The modification brought about practical unanimity between the president and Ambassador Cambon, as plenipotentiary for Spain, and the latter has now transmitted the results of the conference to Madrid for approval, which, if given, will end the war.

AN EARNEST PROTEST.

President McKinley Is Urged Not to Allow Spanish Rule in Philippines to Continue.

London, July 30. — Natives of the Philippine islands and British subjects who have interests there are alarmed by the reports that the peace terms include the return of those islands to Spain. As a result they have held a meeting here, and, after consultation with the Philippinas in France and Belgium, have cabled to President McKinley and to Senator Davis, chairman of the foreign relations committee. The message to President McKinley is as follows:

"The Philippinas resident in Europe pray you not to abandon the Philippine islands, for the sake of peace with Spain. Our loyalty and trust in the honor of America entitle us to your consideration and support. To hand over our country again to Spain is contrary to the humanitarian proceedings of your noble nation and the wish of all classes. Civilization, trade and order all will be lost if Spanish authority is reestablished in any form."

The message to Senator Davis says:

"A cast-iron agreement binding Spain to form a government satisfactory to the inhabitants is preposterous. To retain her sovereignty means deception, oppression and bigotry. We placed our rights in your hands and pray you to induce the president and senate not to abandon in the hour of peace a people who, trusting in American honor, fight for their common interests."

The President's Condolence.

Washington, Aug. 1.—By direction of the president the following dispatch was sent Sunday night to Hon. Andrew D. White, United States ambassador to Germany:

"Washington, D. C., July 31, 1898.—White, Ambassador, Berlin: The president charges you to express in the proper official quarter to the bereaved German nation and to the family of the deceased statesman the sorrow which the government and people of the United States feel at the passing away of the great chancellor, whose memory is ever associated with the greatness of the German empire.

(Signed.) "ADEE,
"Acting Secretary."

Snow in Nebraska.

Lincoln, Neb., Aug. 1.—An unprecedented cold snap is giving Nebraska a premature taste of fall. For two days the thermometer has not been over 70 and has been as low as 50 in the eastern portion and colder in the west. At Kimball, near the Wyoming line, it snowed for several minutes Sunday morning, the first time snow ever fell there in July. No damage to crops is anticipated save a checking of the growth of corn.

LETTER FROM SHAFTER.

Secretary of War Receives the Official Report of the Surrender of Spanish Army—Praise for Troops.

Washington, Aug. 2.—The secretary of war has received the following letter from Gen. Shafter transmitting the commissioner's report of the surrender of the Spanish army at Santiago:

"Camp Before Santiago, Cuba, July 18.—I take the liberty of sending to you a copy of the agreement between the commissioners, on my part, and the commissioners on the part of the government of Spain for the surrender of eastern Cuba. The schedule just submitted shows there to be a little over 22,000 men and officers—about 6,000 more men than I have had myself; and I am glad to say that we have got all these men with very little loss of life, compared to what it would have been had we had to have fought them. The city of Santiago is simply a network of fortifications at every street corner.

"I had no proper conception of its strength until I went into it, although I knew those old stone towns were naturally very strong. Everything is going admirably, so far as the transfer is concerned; and the Spanish troops are behaving well, as they are perfectly delighted at the thoughts of getting home.

"I send to you personally a telegram of Gen. Linares to his government, which one of the consuls gave me. It shows the straits to which they were put, and the feelings that animated them. He stated the case exactly. I did have him so surrounded that it was impossible for him to get away, and I could wait, and he could not.

"We have gotten a great deal more than I had any idea of getting in the way of munitions of war. In everything but food they were well supplied. Have got a few beautiful modern, high power guns—about a dozen.

"My only fear is that we shall have some sickness, and it is for that reason that I have wired you so earnestly about getting these prisoners away, so that we can go up in the mountains with my command 15 or 20 miles, at the end of the railroad, at San Luis, which is said to be very healthy. It is, at any rate, about 1,500 feet above the sea, and has communication by rail with Santiago. So far there is no fever in Santiago. I suppose because there is no one there except immunes. Three cases only so far this year, and the English consul tells me there was very little last year.

"Of those here who served throughout the civil war, all declare they never had anything that could compare with it for hardship. With only one set of clothes, officers have been until now rained on nearly every day, carrying three days' rations, like the men, on their person, and suffering every privation that any man can; added to all these privations, in addition, all the horrors of disease in an unknown land, and very limited accommodations should they be wounded. The spirit shown by them and by the whole army was simply grand.

"I can recall no instance where a greater surrender has been made than this. The final surrender of Gen. Toral and his generals to myself and my generals was highly dramatic, as well as the hoisting of the flag over the city of Santiago, one of the oldest cities in this continent.

"I want to thank you and the president for the words of cheer that have come to us, and to say that none of us have ever doubted that every effort possible to make our lives as secure and our situation as comfortable as is possible would be done."

AN EXTRA SESSION.

President McKinley Will Call Congress Together as Soon as Peace Terms Are Accepted.

Washington, Aug. 2.—The Post says:

"President McKinley will call an extra session of both houses of congress as soon as Spain accepts the terms of peace offered by the United States. It has always been understood that the senate would be convened as soon as the treaty of peace was ready to be acted upon by that body. The attention of the president has been called, however, to a situation which makes the assembling of the entire congress necessary. This situation can be explained in a few words. Under the law which provides for the raising of the volunteer army that army goes out of existence as soon as the war ceases. When this law was framed it was not for a moment supposed that after the war had ended there would be any necessity of keeping the army intact. The developments of the war make it very evident that instead of sending the army back to civil life fully 100,000 men will continue to be needed. It is the present intention to distribute no less than 50,000 soldiers throughout Cuba, with 30,000 in the Philippines and probably 20,000 in Puerto Rico. Under the law, as soon as hostilities cease, the volunteer army is disbanded and the regular army goes back to its peace footing, thus leaving only 27,000 men in the service. This is a total far too small for the work that will be required. Consequently the aid of congress will be needed to frame new laws which will keep an adequate army for garrison purposes.

"In addition to this, laws must be passed to meet the new requirements of government in the Philippines and Puerto Rico. The president is naturally averse to calling congress together during the hot weather, and it may be decided that the war is not ended until the senate has ratified the treaty of peace. In this case congress will not meet until the first or middle of September, as it will take at least a month or six weeks for the full details of the treaty to be discussed and framed. The present outlook is, however, for an extra session at a much earlier period, in the hope that its work can be concluded before the fall campaign has reached its height."

Thorn Electrocuted.

New York, Aug. 2.—Martin Thorn was put to death in the prison at Sing Sing at 11:17 a. m. for the murder of William Guldensuppe.

[The crime for which Martin Thorn paid the death penalty was the murder of William Guldensuppe, a bathhouse attendant, June 25, 1897. Mrs. Augusta Nack, who was charged with being an accomplice, turned state's evidence at the trial, and told how she had decoyed Guldensuppe to a cottage at Woodside, L. I., where Thorn was waiting to take his life. Guldensuppe was shot and his head dismembered from the body to prevent identification. The body was then placed in a table cloth and thrown into the East river. Mrs. Nack was allowed to plead guilty to manslaughter, and was sentenced to 15 years' imprisonment. The motive of the crime was jealousy.]

MERRITT IN COMMAND.

Assumes Control of American Forces in Philippines—Insurgent Leader Defiant.

Washington, Aug. 1.—The following has been received at the war department:

"Hong-Kong, July 26.—Adjutant General, United States Army, Washington.—Cavite, July 25.—Arrived to-day about 12. Health of commands good. Remainder of fleet about four days in the rear. All troops assigned me will probably be needed.

"(Signed) MERRITT,
"Major General Commanding."

Cavite, Manila Bay, July 26, via Hong-Kong, Aug. 1.—Aguinaldo, the insurgent leader, is going to cause trouble here, and already Admiral Dewey regards him as an enemy, rather than a friend. The fact is, that Aguinaldo has been two-faced with the Americans, and it has been evident for some time that he was jealous of the American power as transport after transport landed more and more American soldiers. While he has kept up a friendly front, he has issued secret orders to his men not to permit the Americans to secure necessary horses and other equipment. All this has been annoying to Admiral Dewey and the American generals, and Gen. Merritt, now that he has taken command in the field, will probably find Aguinaldo a more formidable opponent than Augusti.

Hong-Kong, Aug. 2.—Letters received here from Cavite, dated July 29 say Gen. Merritt is completing his preparations to attack Manila, and that otherwise there is nothing doing. The blockade is strictly maintained and no date has been fixed for the attack, though it probably will be made as soon as the remaining American troops arrive. The troops from San Francisco continue to enjoy good health. The Spaniards, it is further announced, have determined to hold out until peace is proclaimed. Philippine insurgents who are domiciled here say that the inhabitants of the islands are confident that a republic will be established there.

MAY NOT ACCEPT.

Belief That Spain Will Combat Cession of Puerto Rico—Prefers Loss in the Philippines.

London, July 30.—The Madrid correspondent of the Daily Mail says: The Spanish government will combat to the last against a cession of Puerto Rico to the United States. It would much rather sacrifice one of the Philippine islands, contending that Puerto Rico has always been loyal and outside the scope of the war.

London, July 30.—A special dispatch from Madrid says:

"Though it is not likely that the government will decide to prolong the war because of Puerto Rico, considerable feeling is manifested, and every possible diplomatic effort will be made to retain it. Apparently there is little objection to ceding a coaling station in the Philippines provided Spanish sovereignty is respected in the island, which, in the opinion of the government and official circles generally, will afford compensation in commerce for the loss of the Antilles, besides procuring occupation for the West Indian army in reestablishing Spanish rule. The American reply is still anxiously awaited. Judging from press opinions anything beyond the cession of Cuba will be considered harsh and unjust. This is the unanimous feeling among even the strongest advocates of peace. The people are beginning to realize that peace will mean almost a total loss of colonies, and looking to the delicate and difficult position of the queen regent, great care is still necessary to induce the nation to accept the terms. According to El Liberal, the government would not allow even the loss of some of the Philippines to hinder the conclusion of peace, because it is very doubtful whether the country would endorse sending an army of 40,000 men to crush the rebellion."

PLAN NOT CHANGED.

The Hawaiian Commission to Sail for Honolulu About August 10.

Washington, July 29.—Senator Morgan, of Alabama, a member of the Hawaiian annexation commission, saw President McKinley Thursday afternoon and suggested to him the wisdom of delaying the departure and work of the commission until about October 1 in view of the existing Spanish-American situation, and the desirability of adjudication first of matters connected with Hawaii's land laws. The president, however, thought that it was best to proceed with the important work at once and accordingly the present plan of the commission to sail from San Francisco on August 10 remains unchanged. The president in the course of the conference expressed himself as highly pleased over the enthusiastic reception of the news of the annexation in the islands.

Fatal Flames.

Chicago, Aug. 1.—Several persons lost their lives and others were badly injured in a fire which broke out in the Berwyn hotel, 148 North Clark street, at 2:45 o'clock Monday morning. The killed so far as known are William Tiedeman and Edward A. Seaman. Nine others are known to have been injured. Harry C. McClary and William Tiedeman roomed together. Both climbed on the window ledge. Tiedeman was unable to stand the smoke and fire and fell to his death. His chum was rescued by the firemen.

BISMARCK NO MORE.

Germany's Great Statesman Passes Away at Friederichsruhe.

His Last Hours Very Painful—Interment to Take Place in October—Brief Sketch of the Remarkable Man's Career.

Berlin, Aug. 1.—Bismarck is dead. Germany's "man of blood and iron" passed away at 11:20 o'clock Saturday night at his castle of Friedrichsruhe. The entire nation—the nation which he unified by his indomitable will and unyielding purpose—is shocked by the sudden news.

It appears that the ex-chancellor's death was not precipitated by sudden complications, but was rather the culmination of chronic diseases — neuralgia of the face and inflammation of the veins—which kept him in constant pain, that was borne with the iron fortitude which might have been expected.

PRINCE BISMARCK.

United States Ambassador White sent the following dispatch to Count Herbert von Bismarck at Friedrichsruhe:

"On behalf of the whole American people, whether official or unofficial, and of whatever birth or descent, I tender condolence upon the mighty career now ended and assurances of the most sincere sympathy for yourself and mourning family."

Berlin, Aug. 2.—The ceremony of blessing Prince Bismarck's remains was performed Tuesday, only the near relatives attending. The coffin was then closed, and it will remain in the castle until the mausoleum is completed, which will be in October next.

BISMARCK'S CAREER.

A Brief Resume of His Great Services to the Fatherland.

Otto Edward Leopold von Bismarck was born in the manor of Schoenhausen, in the district of Magdeburg, April 1, 1815. At the age of six he was placed in a boarding school at Berlin, and at 12 was sent to a high school at the capital. In 1832 he began studying law and political science at the University of Gottingen. Toward the end of the following year he entered the University of Berlin, and he was admitted to the bar in 1835. In 1836 he was made the official law reporter for a Berlin court, but he soon was transferred to Aix-la-Chapelle as a referendary, and in 1837 was appointed to serve in the crown office at Potsdam.

The next eight or nine years Bismarck passed in farming, hunting and soldiering. He went into society and took an active part in the local affairs of the neighborhoods in which he lived. In 1845 his father died, and the estate at Schoenhausen came into his hands. He withdrew almost entirely from social life, and settled down to the life of a country gentleman. July 28, 1847, he married Johanna, the daughter of Heinrich von Puttkamer, of Viatium, Pomerania, and in the same year he appeared in the united diet at Berlin as a parliamentary deputy, representing the nobility of the province of Saxony. In 1848 he participated in the gathering of the rural nobility in Berlin, known as the Junker parliament. His career as a parliamentary deputy ended in 1850. In 1851, after serving as secretary, he was appointed the Prussian representative at the Germanic diet at Frankfort, which was the administrative council of the Germanic confederation, founded by the congress in Vienna in 1815.

He was made the Prussian ambassador at St. Petersburg in 1859, where he remained until 1862, when he was transferred to the embassy in Paris. After a few months in the French capital, in September, 1862, Bismarck succeeded Prince Hohenzollern as prime minister. He formed an alliance with Italy early in 1866, and Prussia, under his guidance, declared war against Austria and her allies in the confederation in June of the same year. Three months later Austria had been crushed and Prussia had become the head of the North German confederation.

Bismarck concluded secret treaties with the South German states forthwith, in the expectation of war. In internal politics the next 19 years of Bismarck's life were occupied with his struggle to assure the Prussian government the control of the Catholic church in Prussia, with his campaign for the suppression of socialism in Germany and with the inauguration of a protective system of customs duties. He also secured for Germany several African colonies and gave the first impetus to the upbuilding of her merchant marine. Under his guidance the empire laid the foundations of its present industrial prosperity and maritime greatness. In foreign affairs he formed the triple alliance of Italy, Austria and Germany. Having united and solidified the empire by the war against Denmark in 1864, against Austria in 1866, and against France in 1870-71, he aimed in his later years to develop it internally without disturbance from without.

Dismissed by Present Emperor.

Bismarck was chancellor to the end of Emperor William I.'s reign and throughout of 99 days of Emperor Frederick. Two years after the present emperor ascended the throne he was dismissed from office. Since then he has lived in Friedrichsruhe, near Hamburg, where he went to receive his friends the year around, and thousands of admirers from all parts of Europe, on his birthdays. He was long estranged from the young emperor, and the feud between the old castle in Berlin and Friedrichsruhe caused a scandal of world-wide dimensions. A formal conciliation was effected eventually, but the wounds left by the conflict of four years were never healed.

Frau von Bismarck died about two years ago. The Iron Chancellor was never the same afterward. He failed slowly, complaining of loneliness, and, when his last illness began, was already a weak, sorrowful and broken old man.

Prince Bismarck leaves two sons, Count Herbert and Count William, and one daughter, Countess Rantzau.

Fox Hunters Killed.

St. Louis, Aug. 2.—A special to the Post-Dispatch from Hamilton, Mo., says: While attempting to dig a fox out of a hole in a hillside in Kidder township, ten miles west of here, a part of the embankment as large as an ordinary dwelling caved in, killing John and Will Parker instantly. James Keys was crushed and died later. Clarence Parker is badly bruised about the back.

Our Finances.

Washington, Aug. 2.—The monthly comparative statement of the government receipts and expenditures shows that during July the receipts amounted to $43,847,108, a gain as compared with July, 1897, of $4,827,000. The disbursements aggregated $74,263,475, an increase of a little more than $24,160,000.

HE SAVED THE FLAG.

Just Trotted Out His Old Shotgun and Told the Suspect to Make Himself Scarce.

"Course I couldn't swear that he was a Spanish spy," admitted the man who came in from a cross roads settlement in Redford, but he looked like one, be gosh, and we hain't the people out there to take chances on them kind of critters. His coloring was all dark, except his teeth, and they fairly glis'ened. He didn't act like he had any lawful bus'ness in the neighborhood and I sort o' suspected him right along."

"But what did he do?"

"I'll tell you what he done," said the big representative of Redford's yeomanry, as he straightened up. "Some of us fellers put up a flag down by the grocery, h'isting a pole just like we used to when politics got hot. T'other evenin' I see that feller hangin' 'round the corners with a crosscut saw. Don't take me long to put two and two together, so I just got my shotgun, advanced on him direct and tole him he had 20 minutes fur to git over the hill 'bout a mile away. He had time to spare, but I'm satisfied as I live he was a Spanish spy and out there fur to saw that pole down. When any of them chaps stirs up ole Redford they's courtin' all kinds o' troubles," and the man that saved the flag moved on so as to get a new audience.—Detroit Free Press.

YOUNG AT SIXTY.

Serene comfort and happiness in advanced years are realized by comparatively few women.

Their hard lives, their liability to serious troubles on account of their peculiar organism and their profound ignorance concerning themselves, all combine to shorten the period of usefulness and fill their later years with suffering.

Mrs. Pinkham has done much to make women strong. She has given advice to many that has shown them how to guard against disease and retain vigorous health in old age. From every corner of the earth there is constantly coming the most convincing statements from women, showing the efficacy of Lydia E. Pinkham's Vegetable Compound in overcoming female ills. Here is a letter from Mrs. J. C. Orms, of 220 Horner St., Johnstown, Pa., which is earnest and straight to the point:

"DEAR MRS. PINKHAM:—I feel it my duty to tell all suffering women that I think your remedies are wonderful. I had trouble with my head, dizzy spells and hot flashes. Feet and hands were cold, was very nervous, could not sleep well, had kidney trouble, pain in ovaries and congestion of the womb. Since taking your remedies I am better every way. My head trouble is all gone, have no pain in ovaries, and am cured of womb trouble. I can eat and sleep well and am gaining in flesh. I consider your medicine the best to be had for female troubles."

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.

ALLEN'S ULCERINE SALVE

Is the only sure cure in the world for **Chronic Ulcers, Bone Ulcers, Scrofulous Ulcers, Varicose Ulcers, Gangrene, Fever Sores,** and all **Old Sores.** It never fails. Draws out all poison. Saves expense and suffering. Cures permanent. Best salve for **Abscesses, Piles, Burns, Cuts,** and all **Fresh Wounds.** By mail, small, 25c; large, 50c. Book free. **J. F. ALLEN MEDICINE CO., St. Paul, Minn. Sold by Druggists.**

AN INCIDENT OF WAR

[Written for This Paper.]

William F. Crafts was an American resident of Santiago de Cuba. For ten years he and his family had lived in a pretty home on the outskirts of the city. In the business section he had a dingy office and warehouse, where he had accumulated a fortune in the business of exporting sugar and tobacco to the United States and European ports.

The Crafts household consisted of the father, mother and two children. The one a son of some 15 years and the other a daughter just past her teens, who had the beautiful fair complexion and golden hair so frequently seen in the New England states.

Every year during the summer months the mother, son and daughter visited the old home on the banks of the Hudson, near farfamed West Point, and it was at a graduation ball at our military school that Miss Grace made her debut into American society. It was here also that she met Lieut. Stanton, who had that day finished his course at the Point and graduated with honor.

The love the handsome young soldier felt for the fair girl at almost their first meeting was fully returned by her, and ere the summer was over and the time at hand for Mrs. Crafts and her two children to return to their Cuban home, and for Lieut. Stanton to join the regiment to which he had been assigned, he had secured her permission to ask her father for her hand. The opportunity for this presented itself a few days later, when the father came north on a business trip, and to remain until time for the family to return.

When Lieut. Stanton stated his case the father found no objection to him as a suitable husband for his daughter, but requested that the marriage be postponed till such time as the young lieutenant should be more firmly established in the army. To this the lovers readily consented, and after promising to spend his first leave of absence with his fiance Lieut. Stanton left for the far west to join his command.

In Santiago the Crafts family were universally respected by both Spanish, Cuban and foreign residents. They had not taken sides in the revolution which was devastating the island, and so had retained the good will of all those interested in it on either side. When they returned to their home, in the fall of last year, it was without a thought of danger to themselves or even the possibility of a war between Spain and the United States. Even when war between the two countries was finally declared they felt secure, and it was not until an invading army from the states had landed near Santiago and all egress and ingress to and from the city was shut off that their fears were aroused. Then all the years of friendship and respect the Spanish had given the American residents was forgotten. American offices, stores and warehouses were pillaged and sacked and the owners and their families insulted and threatened.

Among the officers of the invading army was Lieut. Stanton. His regiment of cavalry was one of the first to land on Cuban soil, and it was with a feeling of elation that he regarded the chances of soon claiming his bride at her father's house.

Cuban spies were sent into the city to gain information as to its defenses, and to one of these Lieut. Stanton intrusted a message to his fiance informing her of his presence with the American forces, and asking her if herself or her family needed assistance of any kind which he could render.

It was not until after the first shots at the battle of Santiago had been fired and the Spaniards driven in from the outposts that the spy was enabled to deliver his message to Miss Crafts. By that time true Spanish vengeance was being reeked against every American in the city. The Crafts' home was practically blockaded, and for any of its inmates to show themselves meant insults and violence.

It was with a prayer of thanksgiving that the fair girl read Lieut. Stanton's message. They were inside the inner fortifications while he and his regiment had but that day entered El Caney after a victorious charge. What a further advance of the American forces would mean to them was hard to tell. At any rate she would tell them of their troubles and trust to his regard for her and his good sense to lead him aright.

It was late in the evening before the spy had again succeeded in working his way through the Spanish lines and reaching the American forces at El Caney. He at once delivered the message to Lieut. Stanton, and the young officer became frantic with the desire to in some way assist his fiance and her family in the beleagured city.

Calling the members of his troop around him he asked for 20 volunteers who would follow him on a dash through the Spanish lines, provided the general commanding would give them the desired permission. The 20 men that he asked for were easily found. And after the Cuban spy had explained to the general the possibility of a small body of men working their way through the Spanish lines nearest the home of the Crafts, while their horses were held just outside, permission for them to go was readily given.

The Cuban guide was sure of his way and led them safely to the Crafts' home. From the shadow of the buildings and trees far down the street they could see the mob of frenzied Spaniards in front of the home which they wished to enter. To attempt to force a way through such a mob was sheer madness, but a little investigation showed them that the near entrance, which they could reach through a narrow alley, was not so well guarded.

To attempt to describe the scene in that home, when the friends were admitted, would be useless. The cry of joy with which the girl wecomed the young officer was almost their undoing.

But a few moments were needed to make their preparations to leave. Nothing but money and jewelry could be taken with them; the skirts of the mother and daughter were discarded, and in their place was the clothing of father and son.

Egress from the house and city was made in the same way the entrance had been. At the outer Spanish lines a sentry challenged them, the first they had met since leaving the American lines, but a saber thrust quieted him and no trouble was experienced.

It was not until all were mounted and they felt safely on their way back to El Caney that any serious trouble was met with. Then they encountered a troop of Spanish cavalry. To stand and fight was impracticable; it must be a run for the American lines. The little band of troopers, with Lieut. Stanton at their head, stopped for a few moments to hold the enemy in check while the Cuban guide was sent ahead at a run with the rescued family. All the way back to the American outposts it was a running fight. But when the brave young officer reported to his commanding general the next morning it was of a mission fully accomplished and with but one man slightly wounded.

The little band of troopers felt fully recompensed for their perilous ride when they were invited by Lieut. Stanton to attend a wedding at general headquarters on the evening of July 4.

The father felt that the young officer's position in the army was firmly established.

WRIGHT A. PATTERSON.

American Skill.

Many physicians in Germany and England, as well as in the United States and Canada, are referring their Hay-Fever and Asthma patients to Dr. P. Harold Hayes, of Buffalo, N. Y., whose success in curing these diseases has attracted their attention.

Temporarily.

Mr. Poppitt—How would you like me for your big brother, Tommy?

Tommy (who knows his sister)—Oh, I guess you'll do until the war is over.—N. Y. Journal.

What Will Become of China?

None can foresee the outcome of the quarrel between foreign powers over the division of China. It is interesting to watch the going to pieces of this ancient but unprogressive race. Many people in America are also going to pieces because of dyspepsia, constipation, blood, liver and stomach diseases. We are living too fast, but strength, vigor and good health can be retained if we keep off and cure the above diseases with Hostetter's Stomach Bitters.

That Is Why.

Fosdick—What made Spain think she could deal the United States a "terrible, glorious blow?"

Keedick—I suppose it was because she had so many terrible, glorious blowers.—Judge.

If You Leave Home

for the summer, go where you will find almost, literally, a new world. Such a spot is Yellowstone Park. There is no place like it in the world. You will be astonished at what you see and learn there. A month's outing in those mountains 7,000 feet above the sea level, in an atmosphere pure and invigorating, would add years to your life. There are four modern hotels, good roads—maintained by the U. S. Government—for riding, driving, or cycling; riding horses and pack trains. Geysers, canyons, mud springs, lakes, cataracts and cascades in large numbers, are crowded into a space 54 by 62 miles in size. If you can afford it, you wrong yourself by not going there, especially if you are a patriotic American. If you cannot afford it, then go to beautiful Leech Lake in Minnesota, a new and popular resort. New hotels, fine fishing and hunting, and good boating at reasonable rates. Send Chas. S. Fee, of Northern Pacific Railway, St. Paul, Minn., six cents for Wonderland '98, that describes by pen and picture both resorts. Mention where advertisement was seen.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

A Beautiful Present

FREE for a few months to all users of the celebrated ELASTIC STARCH, (Flat Iron Brand). To induce you to try this brand of starch, so that you may find out for yourself that all claims for its superiority and economy are true, the makers have had prepared, at great expense, a series of four

GAME PLAQUES

exact reproductions of the $10,000 originals by Muville, which will be given you ABSOLUTELY FREE by your grocer on conditions named below. These Plaques are 40 inches in circumference, are free of any suggestion of advertising whatever, and will ornament the most elegant apartment. No manufacturing concern ever before gave away such valuable presents to its customers. They are not for sale at any price, and can be obtained only in the manner specified. The subjects are:

American Wild Ducks, American Pheasant,
English Quail, English Snipe.

The birds are handsomely embossed and stand out natural as life. Each Plaque is bordered with a band of gold.

ELASTIC STARCH

has been the standard for 25 years.

TWENTY-TWO MILLION packages of this brand were sold last year. That's how good it is.

ASK YOUR DEALER to show you the plaques and tell you about Elastic Starch. Accept no substitute.

How To Get Them:

All purchasers of three 10 cent or six 5 cent packages of Elastic Starch (Flat Iron Brand), are entitled to receive from their grocer one of these beautiful Game Plaques free. The plaques will not be sent by mail. They can be obtained only from your grocer.

Every Grocer Keeps Elastic Starch.

Do not delay. This offer is for a short time only.

BUFFALO GAZETTE

DELANO, FRIDAY, AUG. 5, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

—A gang of ponies for sale accompanied by three cowboys arrived in town yesterday.

—Mat Fautch has put city water into his building on the corner of River and Bridge Streets.

—New wheat has no price in the market here now. Local buyers prefer to buy none at present.

—Dr. Walter shipped a couple of young dogs from the Delano kennels to the city one day this week.

—The Delano C. O. Foresters expect to have J. F. Niemeyer with them and be organized on Aug. 14, with 21 members.

—Maxfield & McDonald have finished their job building the Dassel Elevator. They say it is a nice one. Capacity 35,000 bushels.

—The Cargill Elevator is being overhauled and an elevator built to be run by a gasoline engine, preparatory to gathering in a share of the new wheat crop.

—The Delano wheat market ought to be the best in the country this fall. Two elevators and a mill should spur up prices a little.

—Better prices than usual are being paid harvest hands. The bountiful crop must be secured even though a part must go for help. There is enough to feed all in this part of the country.

—The I. O. O. F's. have set a splendid example by having their lots cleaned up. The big ugly weeds have been moved and lots raked over nicely Let others profit by the example.

—Fred Knoll has harvested his crop in the front and back dooryards of the Round Elevator and can now see when a load of wheat is coming without rising from his comfortable seat.

—S. S. Ball's lot on Second Street, directly opposite his residence in the rear, has been mowed; quite an improvement. If all such places were attended to nicely, there would, most likely, be fewer cases of hay fever in town.

—Fred Knoll says he shipped a carload of wheat, the same as he has been getting No. 1 and No. 2 for, about half and half in the car and it was graded in the city No. 3. He called for reinspection. Of course Fred, 1 and 2 makes 3. That's easy.

—Jenner Chance wrote his mother that for the first few days out on the broad Pacific's bosom he, and the other boys, were considerably sort of religious "casting their bread upon the water," but that it had not yet returned into them. Possibly the "sharks" got it.

—A continuous stream of wagons, buggies, bicycles, boats, men, women, children and dogs is pouring out onto the prairies from the cities. Prairie chickens must be very numerous this year if each hunter gets a taste to say nothing of shipping any home to his friends.

—Lon Smith one of the oldest engineers of the North Western, from Omaha, who is spending a short vacation in Delano gave our Prouty a thorough overhauling and oiling up this week, and now the GAZETTE'S are not so hard to turn out. Thanks Mr. Smith, thanks.

—The Delano Cemetery Association meeting on Monday evening was postponed until Tuesday evening when it was held as usual. Considerable cleaning up and fixing up of the cemetery has been done, and things seem to be taking on a little more life in the Association.

—Jim Hill's road seems to be growing somewhat liberal on express rates. Merchandise now comes for 25 cts per hundred by express, or 23 cts per hundred by freight. The freight travels further, sometimes to Willmar and back. Most people prefer to do business, under the circumstances by express.

—Harvest hands by the hundreds are flocking west. Every evening four or five cars loaded full have made up a part of the train. On Tuesday evening the train was divided into two sections the rear section was a good sized train loaded with the work seekers, and went through without stopping here.

—Umpire Chance, who is a doctor man with the Minnesota party, was hit hard with a thrown ball yesterday and all his boys advised him from the grand stand to take a pill. They said that was what he told them to do when they were hurt.—The Pacific Commercial Advertiser, Honolulu.

—On Monday afternoon one of our villagers, accompanied by a visiting friend took a fishing excursion to Charlotte Lake, said to abound with bass. After a long drive, and a couple of cups of milk, they got aboard a boat and baiting their hooks with frogs of which they had caught a good supply they sat down to await a bite. They must be the best fisherman in the county for they fished diligently for about three hours and succeeded in landing one undersized fish from a lake where a women caught six in half an hour. Then as the moon loomed up over the eastern shore they hied themselves home, after interviewing a neighboring farmer who informed them that if they had gone to the other end of the lake instead of where they did go their luck would have been different. They have adopted the maxien, "Live and learn."

—Dr. Niven at Waverly, Aug 6 and 7.

—Rev. Hanke preaches at the Presbyterian church at 10:30 A. M. next Sunday.

—A free show was given in a tent on 2nd Street last night by a traveling troupe. Parts of the entertainment were very good.

—Buffalo Bill's Wild West Show, and Congress of Rough Riders at Minneapolis and St. Paul Aug. 8 and 9. Reduced R. R. fares.

—T. S. Kerr has built a nice back plazza to his residence and now proposes to "Sit on his own stoop, and smoke his own pipe."

—If you haven't got your citizen papers by Aug. 8, you can't vote this fall. You have to have them 90 days before election if you vote.

—One of the hardest thunder storms and rains of the season occured last night. It was fine for potatoes and corn. But some of those who think wheat and oats should be dead ripe and stand in the shock for several weeks before being moved, are now wishing they had stacked yesterday.

—If you are interested, and every honest man should be, in having good men on the tickets yet to be nominated, don't stay away from the primary election and then tell how much better the ticket might have been. Be on hand and select delegates that will see to getting good men to run. Good men is what we want and must have in order to have a good government.

—Old Virginia Jubilee Quartet will give one of their popular entertainments at the City Hall, in Delano, on Tuesday evening, Aug. 9. Admission 20 cts, children 15. The entertainment will be given under the auspices of the E. L. society and is highly recommended by Mayor Pratt, Rev. Fielder, Rev. McAdoo, Rev. Mitchell, of Minneapolis, and others of note. Persons from neighboring towns desirous of seeing a genuine Negro Quartette, will doubtless be highly pleased if they attend.

—A few of our bicyclists who think they have attained sufficent proficiency in the art of guiding a wheel in any emergency are in the habit of taking up small children to ride. Probably they will not heed the warning until some of the little tots are crippled for life or killed outright. What would be the consequence if a team should come quickly up a cross street, where the bicycle overloaded was traveling; before a halt could be effected, or the course changed a collision and an accident would almost inevitably occur. Stop such dangerous practice.

Personal.

C. W. Kerrick was home over Sunday.

J. L. Stein visited the cities the early part of the week.

S. J. Cooper was on the sick list a part of this week.

Dr. Connelly, of Rockford, was a Delano visitor Tuesday.

John Bukoski left Monday for Herman to join the harvesters.

I. Gutzwiller and Charles Bentz left Monday on a trip to Duluth.

Mr. and Mrs. John Williams of Independence drove up to town on Wednesday.

Al Eppel, the smiling mail agent started out early Monday morning for headquarters.

Eugene Heck and wife, of Watertown, have made numerous trips to Delano recently.

W. D. Freeman announces his intention to take his family to Cincinnati for the winter.

County Attorney C. A. Pidgeon, of Buffalo, was in town yesterday on professional business.

John Brandser, merchant tailor visited Long Lake Saturday and took a few orders for suits.

Tom Lanway and John Nesland are both occupying their new residences on N. Third Street.

John Batdorf, one of Independence's prosperous farmers drove into town on business yesterday.

John H. Coolen, of Smith Lake, spent Sunday in Delano. His old home has attractions still for John.

Emma Roberts, of Buffalo, visited her cousins the Davis girls a few days lately, returned home Monday.

Mrs. John Czock, of Minneapolis, is visiting Delano relatives. John has gone to Montana to look up a location.

Mrs. Hattie Van Eman, of Faribault, and her sister, Mrs. Emma McKenney, of Dassel, visited Delano friends today.

Rev. Farber drove over to Buffalo Tuesday and brought his daughter Mamie, who attended the summer school home.

T. S. Kerr and family returned Tuesday evening from a short visit to Minneapolis. Thad says politics is awful quiet in the city.

Fred Farber attended the Summer School at Buffalo. He has secured a school to teach south of Howard Lake; to begin in November.

Miss Mabel Hobart, of New York, arrived Saturday evening to take charge of her room in the Public School as soon as the term begins.

Friend Williams, of Willmar, who is to teach at Watertown this winter was a passenger Monday morning on his way to the training school.

T. E. Wolfendon and Frank L. Scherer, of Litchfield, went to the cities Tuesday morning; Wolfendon to attend the photographers convention.

Rev. J. L. Parmeter, of Rockford, lately home from Washington, has taken charge of the Hopkins and St. Louis Park charge until conference.

Among campers at Lake Minnetonka the past week were parts of the families of Dickey, Wittman, Chance, Mulford, Shrader, Lawrence, and others.

Mr. and Mrs. Frank Yantes drove over to St. Michaels Saturday, to visit relatives. Frank returned Sunday evening. Mrs. Yantes will return next Saturday.

Thomas F. O'Hair, of Wheaton, came down from Waverly Saturday morning and spent a few hours visiting relatives and friends on his way home from the cities.

Eleazar Dickey, of Long Lake, was a GAZETTE visitor Saturday. Mr. D. thinks politics considerably mixed, the berry crop good, and crops fine in Hennepin county.

Stephen Lyons, of wayzata, a veteran of the 1st Minnesota and a hero of Gettysburg, visited with his father, and with his sister Mrs. L. M. Maxfield, of Delano, this week.

Prof. Willis E. Johnson, who has been doing institute work at Oskosh, Wis., for several weeks, spent Saturday with Delano friends, on his way home to Mayville, N. Dak.

County Cullings.

Why don't the Republicans want Ole Matson for Representative this time? Isn't he for C. K. Davis?

Hon. Nelson Warner, of Rockford, while oiling a binder last Monday got a finger caught, and crushed necitating amputation.

The Eagle says: "Gen. Lee should be accorded the honor of receiving Blanco's sword, and he should keep it." Does the Eagle mean the honor or the sword?

The Waverly Tribune contains a short but interesting letter from J. J. Barrett, who with his wife is seeking a fortune in the Klondike country. He don't want to remain there after the money is secured.

Among new post masters appointed Aug. 3, we notice, St. Michaels Station, Wright county, John P. Gull, vice, Thomas Walker, removed. Post masters are not forgotten even though war is going on.

Brother Buckley seems bound to have the last word as read the following from the Eagle: "Have we heard the last of the Judicial fight? Let us hope so. The aftermath was pretty nearly as long drawn out as the pre-convention discussion."

Some time ago some of our Republican newspapers said that Congressman Morris, of Minnesota was often pointed out as "the man who beat Charley Towne." Did any of them ever know of his having been distinguished in any other way since he entered Congress?

Brother Buckley is having a heap to say about R. R. cases being brought into Wright county for trial and the awful expense. Why don't he tell us something about the Howard case being taken out of Wright county for trial. Didn't Wright county foot the bill just the same?

John Nugent, George Carpenter and Mark Woolley are the three best Sheriffs Wright County have had in a quarter of a century, and some people seem to think no other man in Wright County fit for the office. But then we haven't tried any other. You can't always tell till you try a man whether or not he will make a good officer.

Alvah Eastman, of St. Cloud, seems to be taking more than an ordinary interest in Wright county politics. Is he really afraid that the Republican war in the 18th Judicial district will result in Anoka loosing the asylum she has come so near securing, and which Mr. Eastman was so instrumental in having them secure? Can't Wright county Republicans run alone any more?

Wright county Republicans are entirely torn to pieces it seems. They couldn't secure a nomination for Judge of the District court, because there were two candidates of two factions who could not harmonize. Now the Republican county papers are lamenting that they couldn't agree on a committeeman for the State Central Committee, and Mr. Dare, of Elk River, was given the position. It does look some as if about everything belonging to the Wright county Republicans had been swapped for a land office position at Duluth.

Teeth: Dr. Niven will be in Waverly Aug, 6 and 7. First class dental work. Lowest prices. Painless extracting.

Among Our Exchanges.

Aitkin Age: Congressman Morris' mother died the first of the week at Greesborough, N. C., and he has the sympathy of the entire Sixth district.

St. Paul Dispatch: This was Lind. day with the Minneapolis Times, but as there are seven days in the week and the Times switches every alternate day, next Monday will be Eustis' day.

Waseca Herald: Does any sane man expect that Donnelly can win an election in Minnesota for what he calls the "mid-road populists," at the next or any future election? He can assist the corporations; that is all. Let every true friend of real reform vote for John Lind.

St. Cloud Times: Chairman Rosing, of the Democratic state central committee, has named the following men to constitue the executive committee authorized, of which Mr. Rosing is to be chairman: P. B. Winston, Minneapolis; T. O'Connor, Renville; T. T. Hudson, Duluth; W. A. Allen, Winona; B. J. Mosher, Stillwater; John W. Willis, St. Paul.

Pioneer Press: Not much has been heard about the X-rays lately, but seventeen wounded soldiers were recently taken to the Long Island college hospital to have the Mauser bullets in their bodies located by this means. The examinations were all successful and as a result most of the bullets will be left where they lodged. Thus this still seemingly miraculous discovery is helping to mitigate the horrors of war. Think of the horrible probing that would have been necessary once in order to find those bullets.

Duluth Herald: Referring to a report that Mr. Eustis has said his campaign will be run with the least possible expenditure of money, the Hubbard County Enterprise says: "It is common political property read by all who run, that ever since the first Merriam campaign there has been a large use of money in Minnesota capaigns. The evil has been a growing one and has, more than any other one thing else threatened the perpetuity of Republican control in this state." The Enterprise congratulates its readers on the change proposed by Mr. Eustis. All of which sounds well. But does not the Enterprise knows that the nomination cost Mr. Eustis $20,000?

MAPLE PLAIN.

Harvesting with the farmers has been going right along, notwithstanding the war with Spain and the smash up of Leiter, the wheat gambler. Some farmers are making high estimates on their grain as to its yield. The crop is a good one but will not be as much as some think.

Armstrong has been afflicted with what they call a medicine show; but from what we learn it is neither good for the body nor soul.

Quite a delegation went from our town on Monday to Minneapolis and St. Paul on business.

The Swedish church at Lyndale is now enclosed and shingled, and when finished will be quite a nice building.

The wheat and oat harvest will all be finished this week if nothing prevents.

The seventh day Adventists are still holding meetings in Maple Plain.

Your correspondent was in Minneapolis on Monday. There seemed to be a lot of business before the Probate Court. Business in a general way did not show any morked appearance of activity. Yet a good many say times are looking up. Hope this prediction is true, for the war and internal revenue will require a good many extra dollars.

The papers talk that Spain is anxious to negotiate for peace, and the prospects are that the war will soon be at an end. This will be good news for many. While we believe the President has done well in the prosecution of this war, and used a good deal more judgement than a good many others, the question will come up, what will we do and how will we govern the mongrel race of people that is about to fall into our hands

I do not think much of the class of people we have been fighting for and if the islands we expect to get for indemnity, and to pay for the powder and shot we have burned and throwed at them dark skined, sun burned islanders of the sea, then we are out of pocket several billions. I fear too much territory beyond the sea will, in after years, cause us more or less trouble. Our country was already big enough.

Delmond Gould has purchased a new threshing outfit and will have two in the field this year.

Rev. A. E. Hatch preached at the Presbyterian church, Maple Plain last night, on "The Third Angel's Message."

Corn an vines would be better for a shower of rain.

Politics seems to be very quiet just now, but we suppose the spread eagle oratory, accompanied with brass band and tamboreen with torch light procession in the distance will come later on and patriotism will be dropping from the trees. The spoils of office is the pillar stone of many a man's patriotism. Some would not only change their garb but would change the color of their skin for the emoluments of office.

Distric Court.

A Special term of Distict Court was held at Buffalo, Monday, by Judge Tarbox. Cases were disposed of as follows:

Mary J. Parin vs. Samuel Parin for divorce; no appearance for defendant. Divorce granted.

W. T. Barrett vs. G. N. Ry. Co. Settled case allowed. New trial denied.

Thor G. Reed vs. G. N. Ry. Co. Settled case allowed. New trial denied.

State of Minnesota vs. Ashley C. Riggs. Order filed allowing settled case.

No further business; court adjourned sine die.

Notice of Hearing of Application to Sell Intoxicating Liquors.

Notice is hereby given that J. L. Stein has applied in writing for a License to be granted to him to sell Intoxicating Liquors for a period of one year from the 11th day of August, 1898, to the 11th day of August, 1899. The place where the said business is to be carried on is designated as follows:

On the ground floor of the two story building situated on lot twenty three (23), of block eight, (8), original townsite of the Village of Delano, Wright county, Minn.

Said applicant prays that such License be granted to him pursuant to the ordinance of said Delano of Wright County and the statutes of said State of Minnesota, in such case made and provided.

The above application will be heard at a special meeting of the Village Council, in the Council Room, at the City Hall, in Delano, at 8 o'clock P. M. Wednesday, Aug. 10, 1898.

Dated at Delano, Minn July 25, 1898.

L. M. MAXFIELD,
Village Recorder.

KEEP A-GOIN'!

(Frank L. Stanton.)

If you strike a thorn, or rose,
Keep a-goin'!
It it hails, or if it snows,
Keep a-goin'!
'Taint no use to sit an' whine
When the fish ain't on your line;
Bait your hook an' keep a-tryin'—
Keep a-goin'!

When the weather kills your crop,
Keep a-goin'!
When you tumble from the top,
Keep a-goin'!
S'pose you're out o' every dime,
C'ittin' broke ain't any crime;
Tell the world you're feelin' fine—
Keep a-goin'!

When it looks like all is up,
Keep a-goin'!
Drain the sweetness from the cup,
Keep a-goin'!
See the wild birds on the wing,
Hear the bells that sweetly ring,
When you feel like sighin' sing—
Keep a-goin'!

WEBSTER'S INTERNATIONAL DICTIONARY

Entirely New. Abreast of the Times. A Grand Educator.

Successor of the "Unabridged."

Everybody should own this Dictionary. It answers all questions concerning the history, spelling, pronunciation, and meaning of words.

A Library in Itself. It also gives the often desired information concerning eminent persons; facts concerning the countries, cities, towns, and natural features of the globe; particulars concerning noted fictitious persons and places; translation of foreign quotations. It is invaluable in the home, office, study, and schoolroom.

The One Great Standard Authority.

Hon. D. J. Brewer, Justice of U. S. Supreme Court, writes: "The International Dictionary is the perfection of dictionaries. I commend it to all as the one great standard authority."

Recommended by Every State Superintendent of Schools Now in Office.

☞ A saving of *three cents per day* for a year will provide more than enough money to purchase a copy of the International. Can you afford to be without it?

Have your Bookseller show it to you.

$1.00 A YEAR FOR DEMOREST'S FAMILY MAGAZINE.

The Subscription price of DEMOREST'S is reduced to $1.00 a Year.

Demorest's Family Magazine is more than a Fashion Magazine, although it gives the very latest home and foreign fashions each month; this is only one of its many valuable features. It has something for each member of the family, for every department of the household, and its varied contents are of the highest grade, making it, pre-eminently, The Family Magazine of the World. It furnishes the best thoughts of the most interesting and most progressive writers of the day, and is abreast of the times in everything,—Art, Literature, Science, Society Affairs, Fiction, Household Matters, Sports, etc.—a single number frequently containing from 200 to 300 fine engravings, making it the Most complete and Most Profusely Illustrated of the Great Monthlies.

Demorest's Magazine Fashion Department is in every way far ahead of that contained in any other publication.

Subscribers are entitled each month to patterns of the latest fashions in woman's attire, at no cost to them other than that necessary for postage and wrapping.

NO BETTER CHRISTMAS GIFT

than a year's subscription to Demorest's Magazine can be made. By subscribing At Once you can get the magazine at the reduced price, and will also receive the handsome 25-cent Xmas Number with its beautiful panel picture supplement.

Remit $1.09 by money order, registered letter or check to the

Entered as Second-Class Mail Matter at the Post Office in Delano, Minn

CONGRESSMAN MORRIS is quoted as announcing in an interview on his arrival at Duluth, that Free Silver is dead. Why take the trouble to dig it up, or haven't they got it buried yet?

THE canal connecting the Atlantic with the Pacific ocean, it seems now, has got to be an actual necessity to this country. And yet in time of war by a skillful maneouver the enemy might induce our ships to congregate on one side of the continent while they licked the other side.

GOV. FRANK A. BRIGGS, of North Dakota, who has been sick for some time, died Tuesday. Frank was an old Wright county boy, his father now living at Howard Lake. Frank at one time worked in the Delano Eagle office. He leaves many friends among his old neighbors to sympathize with his family in their loss of a member in the prime of life.

THE Republican Platform of 1900 proposed by Hon. S. Hartman, of Montana, in the House of Representatives, April 12, 1898, is a pamphlet sent out as a campaign document, which will be read clear through by most people into whose hands it chances to fall. There are many telling points bristling through the strain of humor all along through the speech. Get one and read it, and if you get one let your neighbors read it. Pass it around.

THREE good men are nominated for Judges of the Supreme Court of Minnesota. Their names are Judges Canty, Buck, and Mitchell. They have served in this capacity before. They are tried and true. The people are satisfied with them. The Supreme Bench of our State has become noted as one of the best in the union. Everybody knows either personally or by reputation these men. Voters prefer to cast their ballots for men they know. The prospects are that when the returns come in next November our Supreme Bench will still be what it has been a bench for the people, and the whole people, and no respector of persons.

WHEN railroads, telegraphs, and telephones come along they seem to go about where they please. Climb right over a man's farm or put their posts in his field and ask nobody. The owner can take what he can get. Private individuals who have owned farms and paid taxes on them nearly all their lives are obliged to see them disfigured, and cut up to suit the whims of corporations who charge about what they please for doing business over their right of ways. A little more respect should be paid to owners of property. Their rights ought to be respected, and if somebody else wants what they own they should go and make proper payment for the same before using it, and not run where they please and then go to work to settle after owners have been to trouble and expense suing or taking legal advice. We are not of the legal fraternity, but we do believe common sense and most juries would take this view of the matter and justify a land owner in keeping all trespassers off of his premises until proper authority had been given them by the owner to go ahead.

TOWARDS the end of the campaign in '96 Ex-Major Eustis made a speech in Delano. He appeared more than usually gruff and out of sorts for him. He seems to have been growing worse ever since and now, so soon in the campaign, he is reported as having had hot words with the man he wishes to supersede in office, Gov. Clough, and that, too, right in public, on the street cars. And this week he is said to have met your "Uncle Loren," who is generally known as one of his partners in the Guaranty Loan business, and who aspires to another term at the National capitol and who is best known, perhaps, as "hell of a fix Fletcher," and the two are said, by one paper at least, to have used language, which would empty the dash box to-repeat in print. This may be the style of man that some people wish to have represent them at the Capitol of the State and at the Capitol of the Country. Heatwold is another man who knows how to swear. Such use of their tongues may seem to them the most effective, and in some cases they do seem to win. But people are becoming more and more civilized, and that barbarious argument will surely fail along side of the more refined and civilized language of candidates who use arguments instead of cuss words, brains instead of buncome.

CHAIRMAN STEELE of the Republican State Central Committee is said to be out hunting. It can't be for Eustis' old friend "Golightly" Morrell for he is already on hand and addressing large audiences on good morals, etc. Possibly though he may have gone to Free Silver Mexico to find Manager Menage. He might help his old partners in distress while plodding through the wilderness. The Republican candidate for Governor surely will sail through troubled seas this fall and the chances are that after the people who ride on transfers on the Minneapolis street cars and save their nickles in spite of Mayor Eustis' veto, and all the preachers and religious societies, including women, have electioneered; and all the saloons friends who didn't stand in, and the old soldiers who were so old that they were not needed even so long ago as during the reign of "My Policy", and the new soldiers and their friends who think Gov. Clough did a nice thing in getting them into the field before the volunteers from any other state and who saw fit to tell the candidate for his old shoes just what he thought of him, right on one of those street cars where a vetoed transfer would probably have been very acceptable at the very first crossing they came to, and the numerous friends of John Lind are heard from it looks very much as if the vote for Eustis for Governor, in Minneapolis would be rather small. Mr. Eustis is quite a funny man on the stage but it will require more than his stale jokes to tickle Hennepin county into electing him Governor in the face of his record.

"Golightly" Morrill Again With Us.

G. L. Morrill, formerly pastor of Calvary church, arrived in the city yesterday from Owensboro, Ky., and is a guest at the Lurline hotel, Lake Calhoun, where his family have been during the past five weeks. Rev. Mr. Morrill intends to spend several weeks in Minneapolis and will be heard in the various pulpits of the city. He conducted services at the hotel yesterday, speaking on "Summer Vacation."—Pioneer Press.

Wanted, an Issue.

Under the above heading the Duluth News Tribune, concludes a short article as follows: "It looks as if the Democratic party would have to fall back on that old standby, free trade.

There is a chance now for some new arguments on the ancient subject." There may be a little chance yet for argument on that subject. But when the Islands of the sea have become ours by annexation, conquest, or through the Anglo American Alliance, there want be so much of the world left to play the freeze out game of protective tariff on.

What to Do With the Philippines.

Although not a beliver in grabbing up all the Islands of the seas, it seems to us after we have set out in the interest of suffering humanity to make our neighbors behave themselves; after having wrested from their grasp the wand of power, to degrade and even to kill those under their rule, that it would be the height of foolishness to turn back any part or parcel of the land taken or the subjects freed to be governed by their former masters.

If the countries freed can choose for themselves a good form of government and intelligent and capable officers to run it, let them. And when they are readly to become a part of the United States let them express that desire. Then will be time to talk about making them a part of our own country.

But as for allowing the Spanish dominion over any part of the country taken from them in the late war, it don't look like the proper thing to do.

Others Would be Just as Bad.

Mr. Satterlee, of the Annandale Advocate mellows down considerably this week. But, he has attempted to crawl out at rather a small knot hole. Instead of answering our charges or defending the actions of some who have apparently done wrong, or assisting us in helping to rectify such doings, he this week, quotes an article from the Fergus Falls Globe, a paper we don't remember having seen, and proceeds to do it up, as a sample of the "stuff" the GAZETTE prints. The Advocate if it wishes to refute what arguments the GAZETTE produces should, at least confine its remarks to something in the GAZETTE. However, since the Advocate has seen fit to bring in another subject we will allow it the benefit, if there is any for it. It has:

"When you vote, remember through Republican rascality that you paid six cents a pound extra for the twine you used this year. Of course Democratic rascality would have come the same trick on you. And there is where the trouble comes in.—Fergus Falls Globe.

The above quotation simply verifies our statements in the GAZETTE of two weeks ago that "he (Mr. Satterlee) wants to make out that other people are so bad." "Of course Democratic rascality would have come the same trick on you."

Now if the Advocate thinks that farmers really had to pay too much for binding twine, a charge that has been made, why don't it join in and do what it can to rectify the wrong, instead of quoting an article to show that "Democratic rascality would have came the same trick on you?" We are free to admit that rascality whether training in the Democratic or Republican party would play such a trick. But it is the rascality we wish to root out, to get rid of, no matter what party it is trying to muster with. Let the rascality go, and the People's Advocate all along the line ought to join in helping it go out of style and not to assist in making it more fashionable.

Anglo Saxon Alliance.

Will some of the goldbuggers tell us just what they mean by an "Anglo-Saxon Alliance?" Do they mean that we must put aside the farewell addresses of Washington and Jackson, the advice and writing of Jefferson and the Monroe doctrine, as mere rubbish, and embrace the monarchy and aristocracy of Great Britain? Has it come to pass that our democratic republic is no longer good enough for Americans? The English common people, like others, are our brothers, but the English monarchy and aristocracy are the enemies of our republic. Let not the people be deceived by the gold bug hirelings in the daily papers who are "working up a boom" for the sale of our liberties to the Rothschild syndicate, embracing the bondocracy of the world. Let us keep America for the use of free men, and eliminate monarchy and bondocracy from our shores. We neither need or want an alliance with any monarchy or oligarchy in the world.—Waseca Herald.

WASHINGTON LETTER.

(Fromour Regular Correspondent.)

WASHINGTON, D. C., Aug. 5, 1898.

Just when the administration is bringing the war to a successful close by forcing the acceptance of its terms of peace by Spain may seem an inappropriate time to entertain suspicions of the intentions of that administration, but those who keep their eyes open cannot ignore facts. Several men known to enjoy Mr. McKinley's confidence have said that he did not wish the treaty of peace that is to be negotiated by commissioners representing the U. S. and Spain to be completed in time to be discussed in the Congressional campaign, for fear that it might become a political question and thus cause its rejection by the Senate. What does he expect that treaty to contain? Evidently something that he thinks the people will not approve and which would, if known during the campaign, be likely to cost the republican party votes. This seems to justify the criticism of the terms of peace because of their not being more explicit as to what matters should be left for the Peace Commissioners to determine. Mr. McKinley and his administration have been loyally supported by Congress and by the people, regardless of politics, in the conduct of the war, but that support will not be extended to the treaty of peace, if that treaty includes anything to which Spain ought not to be entitled. Spain has been whipped as bad as any country ever was, and is entitled to nothing but what this country chooses to give her. For many reasons it is hoped that this supicion will prove to be unfounded, but it has been invited by Mr. McKinley's own talk.

Interest in the war served the republicans good turns this year, not the least of which was preventing the attention of the public being centered upon the big deficit the government closed the fiscal year with. Although the government received from the sale of the Pacific Railroads $64,751,223, the expenditures for the year were $38,047,247 in excess of receipts, and leaving the railroad money out of the calculation the deficit was $38,249,103. A very clever statement prepared by Assistant Secretary Howell, of the Treasury Department, has been made public, in which an attempt is made to show that war expenditures were largely responsible for the big deficit. But even accepting Mr. Howell's estimate; that $56,000,000 of the expenditures were made for war purposes, would leave a deficit of $42,249,103 for the year.

When the war is over there is likely to be some plain talk from men who kept their mouths shut while the fighting was going on, because they did not wish to even seem to encourage the enemy to believe that the government was not loyally supported by all our people in its conduct of the war. Among the acts of the administration that are likely to be fully ventilated at the next session of Congress, whether it be an extra session or not, are the following, already plainly touched upon by Representative James Hamilton Lewis: Why did the government pay $362,000 for the collier Merrimac, in bad condition, that only cost $142,000? Why was Senator Hanna's Brother paid $42,000 for a yacht that only cost $48,000? Why did the Navy Department offer Mr. Vanderbilt $250,000 for a yacht that only cost him $65,000? How did a wealthy New Yorker get $100,000 for an old hulk that was raised out of the mud to be sold to the government? Why were certain contracts made for transportation of troops at a rate of $12 a man when responsible bidders had offered to do the work for $7.29 a man? These are specimens of hundreds of questions that will be asked, and answers demanded, when it can be done without injury to the country. Unless an unusual lot of lying has been indulged in, the administration is responsible for putting a lot of unearned money into the pockets of favored individuals. Democrats will probe these stories to the bottom and let the people know the truth from the floors of Congress.

As the official statement of the terms of peace offered to Spain, issued this week from the White House, has no mention whatever of the $50,000,000 in Spanish bonds which are charged against Cuba, it seems that the newspaper statements saying that as a part of the terms of peace Spain was notified that neither Cuba nor the U. S. should be responsible for any portion of these bonds, was erroneous. This is to be regretted, because it will leave this bond question where the holders of the bonds will seek an opportunity to force it upon the consideration of the peace commission, something that should not be allowed. These bond holders have been entirely too great a factor in determining the attitude of this government towards the Cuban question. Spain received the money paid for these bonds, and to Spain alone should their holders look for their redemption.

State Fair.

Minnesota State Fair week will be full of interest to everybody. The Programme for the week begining Monday, Sept. 5th is Bicycle Day.

Tuesday, Reunion of Territorial Pioneers, who will have headquarters on the grounds.

Wednesday, St. Paul Day.
Thursday, Minneapolis Day.
Friday, Farmer's Day.
Saturday, Children's Day.

For several years past the State Fair has been earning a reputation as a clean show, which it hopes to fully sustain this year. Every public minded and enterprising citizen of the State should aid in this good cause.

Jas. R. Bennett, Jr., in Ohio

Toledo Bee, 2nd.

James R. Bennett, Jr., a prominent lawyer, of St. Cloud, Minn., is visiting Toledo friends after a vacation at Put-in-Bay. Mr. Bennett is one of the leading Silver Republicans of Minnesota and a close friend and warm admirer of Hon. Charles A. Towne.

He is quite confident that Towne will be elected to congress from his district this fall, as there is general dissatisfaction with the present congressman and a disposition to send Minnesota's great silver leader back to congress.

Mr. Bennett also thinks the silver forces of Minnesota will elect John Lind governor in November.—Saint Cloud Times.

It Seems So.

From the Willmar Tribune we clip the following:

"Ortonville Journal: The charges are unanswerable. The records are the proof. Eustis was one of the "slick" gentleman who made the robbery of the people through the infamous Northwestern Guarantee Loan Company a profession. It was very largely through his association with that gigantic fraud that the writer was swindled out of thousands of dollars a matter which he always took philosophically, and in which the people have no interest; but when he speaks of Eustis as a man unworthy of the confidence of mankind, he knows what he is talking about, and if the Republican party of Minnesoto is willing to take up one whose name is cursed by intimate association with a robbery that ought to have sent every man connected with it to the penitentiary, it ought to be damned with overwhelming defeat. The Journal knows enough of Mr. Eustis, and wants no more of him."

The above looks rather severe for a candidate for Governor, but what more could be expected from a man who went about the country two years ago making political speeches and telling how his brother George and himself used to carry water on a pole and how he slipped the pail along the pole until his brother was unconsciously carrying the whole load?

The County Exhibits at State Fair.

No feature of the Great Minnesota Fair is destined to be more popular or more profitable to those who take advantage of the advertising advantages offered, that the County Exhibits for which large prizes are offered. This feature of the Fair has attracted more attention this year than ever before, now that its purpose has come to be understood, and in September this year, there is certain to be an interesting contest between the counties for the $1,200 in prize.

Autopsies.

An interesting article in the Medical Council, of Philadelphia, calls attention to the fact that so many people are averse to having Autopsies held on the dead bodies of their friends. It points out the difficulties in the way of scientific research from that fact. The nation reserves the right to take the father or son to war, says the article, and "how much more just, then, that it should have the right to take and thoroughly examine the dead body (which can no longer be harmed) for the purpose of instructing and assisting those whose duty it is to guard the lying against our ever present foe disease."

How many people get sick and consult numerous physicians each of who give a different diagnosis of their ailments, the patient grows worse and dies, no post mortem examination is allowed to satisfy science. One after another families are carried away, with similar symptons, and from not being sure of what the matter really is, the doctor is unable to intellegently treat the case. Could an autopsy be had in a case or two, possibly enough might be learned that the lives of others might be prolonged, and much suffering alleviated.

Another thing doctors are supposed to know what ails his patients, and often times is sued for malpractice, when he has no method of informing himself; the law is against rather than in favor of his learning anything; public prejudice is also against the holding of post mortem examinations, though there can be no good reason for not allowing examinations after death, when they are carefully and honestly made in the interest of science.

Word from Caswell.

The following letter, taken from the Morris Sun, was written by Z. Caswell to his wife and shows that his party is still pushing bravely ahead;

Copper River, July 11, 1898.

As I carried a man across the river this morning he kindly offered to wait for me to write a few lines and said he would carry it out and mail it for me. We are still going up the river, but have a hard time of it; shall go to the head if possible. We are now in the big bend of the Copper river. We have four in our party, taken in one more. The parties that went different ways had a very hard time but got out all right. We will do all we can but the prospects for gold looks poor. I don't like the country and it don't look like a mining country, but as we can't go anywhere else at present we shall prospect this part good. We are still living well and in good health but oh the mosquitoes are a fright, I never saw the like any where. We left our clothing and trunks, one boat and tent and grub enough to get out at the mouth of the Tazana river. We expect to be gone from here three months. The river is very rough and hard to get up but we are careful; we have to pull with a rope which is slow work. We shall stay here as long as grub lasts and then if we can't buy more we will have to pull out. Z. CASWELL.
—Litchfield Review.

"The Blight of Free Trade—The Blessings of Protection."

is the title of a document just issued by the American Protective Tariff League. This document clearly demonstrates the effect of the system of Free Trade under the Wilson Tariff, and of Protection under the Dingley Tariff. It is based on the result of the Tariff League's Industrial Census, and should be in the hands of every voter. Seven copies to any address for six cents. Address W. F. Wakeman, General Secretary, No. 135 West 23nd Street, New York. 1w.

Only a Little Gold.

Seattle, Wash., Aug. 6.—The steamer Alliance arrived here to night from St. Michaels with 120 passengers, 112 of whom are from Dawson City. Of these only about forty had gold. The amount they had is estimated at $300,000.

Dewey Grateful.

(Sent by the Associated Press.)

ATLANTA, Ga., Aug. 11.—Congressman Livingston of Georgia has received the following letter from Admiral Dewey:

Flagship Olympia, off Cavite, Philippine Islands, June 17, 1898.—My Dear Sir: I have just learned from the last papers that I am indebted to you for the introduction in the house of representatives for the resolutions extending to me the thanks of congress for the naval engagement of Manilla bay, May 1st.

"I need hardly tell you that I am most sincerely grateful to you as the author of that resolution—bringing, as it does, the highest honor that can come to an American naval officer in his professional career. But it is a great pleasure to acknowledge my debt of gratitude and to thank you in unstinted measure for the part you took in obtaining for me that greatest distinction.

"It is a source of additional pleasure to me, a Vermonter, that the mover of the resolution was not a man from the North, but one from the far South. This is one of the good signs of the times. In the hour of danger there is no South, no North, but one united country. May we never hear of sectionalism again. There are no lines drawn in the navy. I need not say it may interest you to know that my flag lieutenant, Lieut. Brumby, is a Georgian by birth and appointment.

Again thanking you most cordially, I remain very gratefully and sincerely,
GEORGE DEWEY.

To the Hon. J. F. Livingston, House of Representatives.

OFFICIAL
WAR BOOK.
by Congressman James Rankin Young. All about War with Spain, the Navy, all defenses, Battle Ships, etc. Portraits and biographies of Dewey and all prominent officers. Nearly 600 pages. The Spanish authority, it is claimed, have signed President McKinley's Protocol, agreeing to have peace.

Democrats Meet.

The Executive Committee of the Democratic State Central Committee met yesterday at the Ryan Hotel, and decided to have the headquarters for the campaign remain in St. Paul.

Also, to tender a dinner to Senator James K. Jones, of Arkansas, Chairman of the National Democratic Committee, who is now at Lake Minnetonka. The dinner will probably be given next week.

The Gazette.

DELANO, Wright Co., - MINN.

CHARLES BRASSO, now in Havana, writes to a friend in New York that the "jack flag" of the Maine is now offered for sale in Havana by a Spaniard, who wants $5,000 for it.

SEVERAL valuable pictures on their way back to France went down in La Bourgogne, the most important of them being "Crossing the Ford," by Jules Dupre, which was worth $15,000, and had been bought by M. Georges Petit, together with the "Zuiderzee," of Cazin, and two canvases by Vibert, the total loss amounting to about $20,000, which was covered by insurance.

A BRONZE column, inscribed with a treaty between the Aetolians and Acarnanians made in the third century before Christ, has been found in Doric temple discovered at Thermos by the Greek archiological society. The terra cotta groups that adorned the gable ends of the temple have also been found.

MOST Chinese Mandarins pass the whole of their lives without taking a single yard of exercise. The late Nanking Viceroy (father of the Marquis Tseng) was considered a remarkable character because he always walked 1,000 steps a day in his private garden. Under no circumstances whatever is a mandarin ever seen on foot in his own jurisdiction.

A BORING has just been made at Rybintz, in Silesia, in which the earth's crust has been penetrated to the depth of 2,210 yards. This is the greatest depth ever attained so far. The boring was made for scientific purposes. No unusual features, however, presented themselves, except that the thermometer indicated at that depth the pretty high temperature of 150 degrees Fahrenheit.

THE reason why ships are not struck by lightning is attributed by German authorities to the general use which is now made of wire rope for rigging purposes, as well as to the fact that the hulls of ships are usually constructed of iron or steel. Thus the whole ship forms an excellent and continuous conductor by means of which the electricity is lead away into the ocean before it has time to do any serious damage.

IT is estimated that as many as 50,000,000 dozen, or 600,000,000 single clothes pins are manufactured in eastern and western factories every year. The product is superior in workmanship and finish to anything of its kind turned out anywhere in the world, and is shipped largely to all parts of Europe, where it can be sold cheaper than the rough and poorly made home article. Clothes pins are made in this country principally out of beach and maple.

THE countess of Castellane, formerly Miss Anna Gould, is so disgusted with the conventional French marriage, wherein the bride, no matter how humble, must bring a dower to her husband, that she has organized a society for promoting matrimony among the lower classes without any such obligation. She realizes the amount of prejudice and the weight of cusiom she will have to overcome and is credited with saying that if necessary, in meritorious cases, she will furnish the dowry herself.

DURING the last ten years the rapid growth of the live stock industry, the continually decreasing price of cotton and the more general appreciation of the advantages of diversifying crops have lead to a marked increase in the acreage of corn and a corresponding increase in the importance of this crop in all of the southern states. This increase has not been sudden or irregular, but has come naturally with the gradual and constant change in conditions, and all indications point to a still greater increase in the near future.

THE flag of Cuba, its colors and history that it tells, is in imitation of the flag of the United States. The five white and blue stripes represent the five original provinces of Cuba, just as the 13 white and red stripes of our flag represent the 13 original states. The flag is the creation of Gen. Lopez, who led the Cuban insurrection of 1851, and flung the banner of freedom over Cardenas in that year. Gen. Lopez had for his object annexation of Cuba to the United States after freedom had been won, and for that reason adopted the red, white and blue.

"IT has always been believed that violin, harp and banjo strings were made out of the viscera of the cat," explained a teacher of music, "but I have considerable doubt that there ever was a string so made. The gut of a cat is no more suitable for such use than that of a mouse, and as far as my investigation goes has never been so used. Violin strings are made of many kinds of skins, but principally out of sheep skins. The secret is in curing the skins, which has always been kept in Italy, where all the finer and better grade of strings are made."

HARDLY has a superior armor plate been invented than a new rifle is placed on deck to meet the occasion. British naval experts have produced a six-inch caliber quick-firing rifle which can render service equal to twice that of the old six-inchers. The new gun is wire-bound and weighs only seven tons, which is much less than the weight of the old guns. Projectiles were recently thrown with a velocity of 2,780 feet a second, and with a striking energy of 5,574 foot tons which is 2,018 foot tons greater energy than that produced by the common gun.

AT the battle of Santiago some of the American soldiers were shot at from some unknown point. One of the men fell and his companions could not tell where the shot came from, because the Spaniards were concealed and they used smokeless powder. The Americans propped their dead comrade up to the position in which he stood when he received the fatal shot, and then they figured the range from his posture and the position and slant of the wound. Then they fired a volley in that range and had the pleasure of dropping some Spanish sharpshooters from a tree.

THE ANSWER COMES.

Spain's Reply to Our Peace Terms Reaches Washington.

President Not Yet Officially Notified—An Outline of the Answer—Commission Will Be Appointed to Decide Minor Differences.

Washington, Aug. 9. — The concluding portion of the Spanish reply was received Monday evening, but it was not until a late hour that it was deciphered as a whole and gone over by the French ambassador. No effort was made to communicate it to the United States government beyond a note to Secretary Day advising him that the document had been received, but not disclosing its contents.

Will Stand on the Terms.

Late in the afternoon the president received an indirect intimation that the Spanish reply had come to the French embassy. A cabinet officer who was with him at this time said, on leaving:

"The information that has come from Madrid about the action of the Spanish cabinet indicates the Spanish have accepted our terms in a general way, but leaves several questions open that we did not include in the terms submitted. The communication offering those terms was explicit, specifically stating such points as would be left open to further negotiations. We will stand on those terms."

Madrid, Aug. 8.—The cabinet council terminated after having completely confirmed the reply of the United States, which, it is said, accepts the American conditions. The reply will be telegraphed to Senor Leon y Castillo, the Spanish ambassador to France, who will send it to M. Cambon, the French ambassador at Washington.

Senor Sagasta, the premier, concluded his conference with the queen regent. Her majesty approves the general lines of the reply of Spain to America's peace terms which Gen. Sagasta explained to her. The government believes that the United States will accept Spain's answer. As a consequence of the United States accepting the reply, hostilities will immediately afterwards be suspended.

From a well-informed source it is learned that while the answer does not discuss the four bases which the United States makes an esssential preliminary to peace, and which Spain accepts without reservation, it points out that in order to avoid the definitive negotiations being in any way complicated by incidents of the war, it is expected to agree beforehand to a suspension of hostilities. It is reported that Duke Almodovar de Rio, the minister of foreign affairs, and Monsignor Morry del Val, Spanish ambassador to the vatican, will be selected to represent Spain in the negotiations. The newspapers make no comments on the situation owing to the strictness of the censorship.

A Dignified Acquiescence.

According to the most reliable sources of information the Spanish note is couched in dignified language. It asserts that Spain bows to the force of circumstances, having done nothing to provoke the war, into which she has been unwillingly led in the defense of her rights and territory. It expresses a willingness to appoint delegates to meet the American commissioners to discuss a regime for the Philippines.

Outline of the Answer.

London, Aug. 8. — The Madrid correspondent of the Daily Mail telegraphing Sunday says: The answer of the Spanish government declares that Spain cannot discuss the American proposals but only accepts them because they are imposed on her by force. Only a few unessential changes in the American demands were asked for and it is not expected that President McKinley will refuse them. A commission composed of Spaniards and Americans will decide the question of the Cuban debt, the dates and manner of evacuating Cuba and Puerto Rico and the protection of Spaniards and Spanish interests in these places. The commissioners will also decide whether Spain is to be allowed to withdraw her artillery and the remainder of her arms and ammunition from the colonies, while the question of the future of the Philippines will be settled by the same body. Treaty will be signed subject to approval by the cortes, which will be convoked immediately. The cabinet council will appoint Spanish commissioners to meet the Americans to arrange as to the future of the Philippines and other details.

Indian Congress Opens.

Omaha, Neb., Aug. 5.—One of the largest crowds that has attended the Trans-Mississippi exposition since the opening two months ago witnessed the inauguration of the United States government Indian congress Thursday. The feature of Thursday's programme was a parade of several hundred reservation Indians in war paint and feathers. In the forenoon a few of the Omahas and Winnebagoes on ponies paraded the down-town streets headed by Capt. W. A. Mercer, United States army, who is in charge of the Indian congress, representing the United States government.

WAR IS COSTLY.

Liberal Estimates Place Expense to United States at $150,000,000—What It Has Cost Spain.

Washington, Aug. 8.—Estimating liberally that the expenses of the war were $1,000,000 a day since April 25, the war has cost the government up to this time, $103,000,000. But there are some items to be added to this which raise the grand total to $150,000,000. But as it is it appears that the popular loan of $200,000,000 is more than enough to meet all the expenses of the conflict. The heavy expenditure of money has been since July 1 with the army in operation. Some of the big items of expense to be met are:

Mobilization of troops and troopships	$ 17,000,000
Additions to the navy	20,000,000
For ordnance and arms	10,000,000
Commissary supplies	15,000,000
Pay for army and navy	27,000,000
Ammunition	8,000,000
Ammunition for navy at Santiago	4,000,000
Coal for warships	5,000,000
For Cuban relief	2,000,000
Harbor defenses and mines	10,000,000
Total	$118,000,000

Washington, Aug. 8.—Official tables on the total killed and wounded on each side since war was declared have not been compiled, and probably will not be for months yet. From the best sources obtainable the tables will approximate the following figures:

At Manila:

American killed	5
American wounded	5
Spanish killed	550
Spanish wounded	625

At Santiago:

American killed or afterward died of wounds received in battle	266
American wounded	1,287
Spanish killed	1,350
Spanish wounded	2,000

The Americans subsequently lost in Cuba from yellow fever and camp disease, so far as can be told now, 262.

In other Cuban engagements: Americans killed, 35; Americans wounded, 116; Spanish killed, 300; Spanish wounded, 400.

Total American killed or died, 563; wounded, 1,408. Total Spanish killed or died, 2,250; wounded, 3,025.

No attempt is made in the American list of dead to include those who died in camp after the mobilization of the state troops and volunteers. These number scores, but the official tables must be awaited before they can be given accurately. At the worst, the total American dead will not exceed 700.

Washington, Aug. 8.—Spain, for the sake of false pride, bigotry, politics and a child king, has buried in the depths of the sea 35 vessels of her navy, valued at $36,500,000. By their rusting hulks lie the bodies of more than a thousand gallant tars.

Spain has surrendered in territory to the United States directly Cuba, with a population of 1,500,000 and an area of 45,000 square miles, and Peurto Rico, with an area of 3,670 square miles and a population of 810,000; also the Ladrone islands, area 417 square miles and population 15,000. Her total direct loss of territory in square miles is 49,087 and loss in population 2,325,000. She has also jeopardized, probably beyond all future control by her, the Philippine islands, with an area of 114,326 square miles and a population of 8,000,000. So that in the end it appears the Spanish kingdom for the sake of the wrong has given up 165,000 square miles of territory and over 10,000,000 of tax-paying population.

This loss is the gain of the United States, which, to bring it about, placed in service a first-class navy, with 10,000 men and 50 effective vessels, and a volunteer and regular army of 278,500 men, of which New York gave the largest number, Pennsylvania next and Illinois the third.

The Spanish El Nacional concedes that in the destruction of Cervera's fleet Spain lost alone $20,000,000 of invested money. The Cristobal Colon was valued at $4,400,000 and the Vizcaya at $3,600,000. The estimated trading capacity of the territory of Spain which the United States has taken is placed at $200,000,000 per annum at the present time, and that must be tributary hereafter to American coffers and not to the blood-stained ones of Castile and Aragon.

Watson's Squadron May Sail.

Washington, Aug. 5.—Navy department officials insist that no change has been made in the orders to the Watson squadron. Indeed, there seems to be now evident a purpose to dispatch this fine squadron to European waters regardless of the termination of the war, the idea being that the splendid display which will be made by the American ships will have a beneficial effect in inspiring respect for our naval strength.

Took His Own Life.

Chicago, Aug. 8.—J. H. Banks, 20 years postmaster of Willow Springs, committed suicide in the Briggs house early Sunday morning by shooting himself. The only reason his friends give for the suicide is that he was insane. He left home apparently in high spirits and had $300 cash with him, but his money was gone when he was found dead.

Col. Broadhead Dead.

St. Louis, Aug. 8.—Col. James O. Broadhead, minister to Switzerland under Cleveland, is dead as the result of a disease of which he has been wasting away for some time. He leaves a widow and three children.

SITUATION IN PUERTO RICO.

American Forces Still Advancing on San Juan—Town of Guayamo Captured.

Ponce, Island of Puerto Rico, Aug. 9.—Gen. Brooke is here in conference with Maj. Gen. Miles. His force is still at Guayamo. A force of about 400 regular Spanish troops are stationed about eight miles away. The United States cruiser Montgomery and the hospital ship Relief have arrived at the Port of Ponce.

Washington, Aug. 8.—Late Saturday the first news dispatch came to the war department from Gen. Miles. It was as follows:

"Ponce, Aug. 6. — Gen. Brooke reports Haines' brigade, Fourth Ohio and Third Illinois, captured Guayamo yesterday; slight skirmish with enemy in and about town; enemy's strength estimated at about 500; not ascertained if any of them regulars; resistance not strong. Private John O'Cordner wounded below the knee; C. W. Riffee, both legs below thigh; T. W. Wolcott, right foot; none serious; all Fourth Ohio. One Spaniard killed, two wounded so far as known. MILES."

Puerto Rico, Aug. 8.—A general advance of the American forces began Sunday morning. The remainder of Gen. Ernst's brigade, constituting the advance center, supported by two batteries, moved out at six o'clock, and a part of the Eleventh infantry of Gen. Henry's division started to the left toward Adjuntas. Troop A. of New York, the Philadelphia city troop and troop H, of the Sixth regulars, are convoying Gen. Brooke's transportation column along the road through Salinas to Arroyo.

EX-MAYOR SUTRO DEAD.

Prominent San Franciscan Passes Away—Sketch of His Career.

San Francisco, Aug. 9.—Ex-Mayor Sutro died at 2:30 o'clock Monday morning.

[Adolph Sutro was born at Aix-la-Chapelle, Prussia, April 29, 1830. He received a liberal education, and after business reverses in his own country, came to the United States with his mother and ten other children in 1850. Adolph Sutro started almost immediately for California, arriving at San Francisco, November 21, 1850. He first engaged in mercantile pursuits, but later ventured into mining. In 1860 he visited the Comstock lode. Mr. Sutro conceived the idea of tunneling the lode, and with the cooperation of 41 companies operating on the lode, the work was commenced. Later on Sutro returned to San Francisco and engaged in other pursuits, but always interested himself in mining. He bought real estate all over this city in early days, and as the city grew the value of this property increased tremendously. He was elected mayor four years ago and served one term. Mr. Sutro was the largest individual property owner in San Francisco, and his wealth is estimated at about $4,000,000.]

Two Killed in a Wreck.

Cass Lake, Minn, Aug. 8.—A terrible accident, causing the loss of two lives, seriously mangling and maiming seven more, occurred Sunday morning 12 miles west of here. A construction train with 100 bridgemen and laborers engaged in the extension line of the Great Northern railway to Fosston left here to take the men to work. Twelve miles out it struck obstructions on the track. The bridgemen and laborers were riding on flat cars. Four flat cars with their loads of human freight were derailed. Two laborers were killed outright. Bridge Contractor Tom Mathews had his right leg crushed off; brakeman Berry had his left foot crushed off.

Capt. Sigsbee Promoted.

Washington, Aug. 9.—Two important changes in the command of vessels of the navy were announced Monday evening by Secretary Long. Capt. Charles D. Sigsbee, who commanded the battleship Maine when she met her fate in the harbor of Havana and who has been in command of the auxiliary cruiser St. Paul since the war began, has been ordered to relieve Capt. John W. Philip, of the command of the battleship Texas, now undergoing repairs in New York. It is understood that Capt. Philip will be assigned to shore duty, probably the command of the Mare Island navy yard at San Francisco.

Dying of Starvation.

Halifax, N. S., Aug. 6.—The schooner Cambridge arrived here Friday and brings a tale of terrible suffering on the Newfoundland and Labrador coasts. The party was on a prospecting expedition and included Dr. Morris, whose services were required at Lewis Inlet night and day to give relief to persons sick and dying from starvation. Large quantities of provisions were distributed from the vessel. The same condition of affairs exists all along the coast. There are 1,600 persons similarly situated and immediate relief is necessary.

Tragedy Out West.

Omaha, Neb., Aug. 9.—Elmer E. Green, of Goldfield, Col., shot his wife and himself Monday evening. Mrs. Green is not badly wounded. Green died instantly. The couple had separated about three months ago and Mrs. Green was living with her sister, Mrs. Cora Baker, at Bellevue, a short distance from Omaha. Green came there and sought an interview with his wife, the shooting being the result.

SAIL FOR HOME.

Transports Loaded with Soldiers Leave Santiago for Montauk Point, L. I.—Spanish Prisoners Go Home.

Santiago de Cuba, Aug. 9. — The transports Miami, Matteawan and Vigilancia, loaded with United States troops, sailed for the United States Monday morning. To-day the transport Grand Duchess will leave with 742 men and officers of the Thirteenth infantry and six companies of the Seventy-first New York, aggregating 458 men and officers.

Washington, Aug. 9. — Information was received by Adjt. Gen. Corbin from Col. Humphrey, in charge of the transportation arrangements at Santiago, that the Spanish hospital ship Alicante sailed from here Monday with 800 of the Spanish prisoners for Spain. It is supposed that the Alicante carries a majority of the sick and wounded of Gen. Toral's army, as he would naturally send them first. The war department has no definite information as to the sailing of other Spanish vessels.

Washington, Aug. 8.—The troops of Gen. Shafter's command at Santiago have begun to leave Cuba for the United States. A part of two regiments of cavalry are now en route from Santiago to Montauk Point, L. I. Three other transports bearing troops will leave Santiago to-day and two are scheduled to leave Tuesday. All of them will sail for Montauk Point.

Washington, Aug. 6. — Gen. Shafter's orders for the movement of his command provide the following programme:

The embarkation of the Third and Sixth regular cavalry, then the First regular cavalry and First volunteer cavalry (rough riders) will be embarked. These regiments have been ordered to be ready to go on board ship the day after to-morrow. For the present the Ninth and Tenth cavalry will remain in camp. Only the private horses of the officers will be taken. The other horses will be turned over to Gen. Wood, who remains here as military governor.

All the tents will be left standing, and all the extra worn clothes and bedding, which may possibly be infected, will be destroyed.

The First brigade, of Gen. Lawton's division, under Gen. Chaffee, will go next.

All the men able to ride will be put on ponies and taken to the wharf. The others will be conveyed there in wagons.

All the men who are suffering from yellow fever or infectious diseases will be left here. Every precaution will be taken to provide for the safe and healthy arrival of the men north.

The volunteer regiments will next be Illinois, First District of Columbia, Seventy-first New York, Ninth Massachusetts, Second Massachusetts, Eighth Illinois, Thirty-third Michigan, Thirty-fourth Michigan.

No tenting or surplus baggage will be taken back to the United States.

TEN VESSELS SUNK.

Spanish Loss in the Engagements at Manzanillo—Full Report Is Received at Navy Department.

Washington, Aug. 5.—The navy department has received full reports of the naval operations against Manzanillo on July 18. They show that much more damage was done than is generally understood. The reports specify no less than ten Spanish vessels burned, sunk or destroyed.

The American ships engaged in this operation were the Wilmington, Helena, Scorpion, Hist, Hornet, Wampatuck and Osceola, with Commander C. C. Todd, of the Wilmington, in command. The reports show that no damage was done the American ships and there were no casualties. The engagement lasted from 7:30 to 10:30 a. m. The Spanish gun vessels destroyed were mostly small ships.

Lightning Kills Outlaws.

St. Louis, Aug. 9.—A special to the Republic from Red Sulphur Springs, W. Va., says: On Sunday in Roane county the bodies of Wade Counts, the leader of the notorious "Consolidated Band" of outlaws, and his son were found under a tree, where they had been struck by lightning. Every bone in the elder Counts' body was broken, but there was no abrasion of the skin except where the bolt entered his head. The two were credited with a long list of murders, but had never been brought to justice. Recently officers of the law have been so active that the band was practically broken up.

Hanged by a Mob.

Palestine, Tex., Aug. 9.—Sunday morning the wife of a prominent railroad man and a young lady visiting her were awakened by a negro in their room, endeavoring to chloroform them. They screamed and he escaped. Later, Dan Ogg, a negro, was arrested and identified by the ladies. At midnight a mob of 200 men invaded the jail, secured Ogg and hanged him in the courthouse yard. A volley of 100 shots was fired into the swinging body. The negroes are excited and sullen, claiming Ogg was innocent.

Lynched.

Griffin, Ga., Aug. 9.—John Meadows, a negro who attempted to assault a little girl at Carmel, was captured near here by officers of the law Monday. While conveying the negro to jail the officers were overpowered by a mob of 150 incensed citizens, who took their prisoner from them, strung him from a limb and riddled his body with bullets.

UNCLE SAM, CHIEF MUSICIAN TRAINING THE NEW MEMBERS OF HIS BAND.

His Turn Has Come.

A Missouri recruit was overheard soliloquizing as follows: "I never saw anything like it. Talk about the prodigal son and the fatted calf! Why, they weren't in it at all. The prodigal son doesn't figure. I could give him cards and spades and beat him on his own deal. Why, nothing's too good for me. The folks kiss me when I go out, and kiss me when I come in. I can take my bicycle in the front way, a thing I never dared to do before. I can smoke in the parlor. It all goes. Nobody says a word. I never amounted to anything before. I was always in the way about the house. But now, say, I own the block. The girls all look at me as if I was a little tin deity. Why, even my sister, who never had any use for me before—said I was stupid and never could do the right thing at the right time—is doing the loving-embrace act every other minute. Why, I believe that I could sprinkle the sitting-room floor with ashes and she would never register a kick."—N. Y. World.

If You Leave Home

for the summer, go where you will find almost, literally, a new world. Such a spot is Yellowstone Park. There is no place like it in the world. You will be astonished at what you see and learn there. A month's outing in those mountains 7,000 feet above the sea level, in an atmosphere pure and invigorating, would add years to your life. There are four modern hotels, good roads—maintained by the U. S. Government—for riding, driving, or cycling: riding horses and pack trains. Geysers, canyons, mud springs, lakes, cataracts and cascades in large numbers, are crowded into a space 54 by 62 miles in size. If you can afford it, you wrong yourself by not going there, especially if you are a patriotic American. If you cannot afford it, then go to beautiful Leech Lake in Minnesota, a new and popular resort. New hotels, fine fishing and hunting, and good boating at reasonable rates. Send Chas. S. Fee, of Northern Pacific Railway, St. Paul, Minn., six cents for Wonderland '98, that describes by pen and picture both resorts. Mention where advertisement was seen.

Immediate Reconciliation.

She—You know you married me, John Henry, to get into good society!

He (having stopped to count five)—Of course I did, dear. And I got into it, too—your society.—Chicago Tribune.

Wheat 40 Cents a Bushel.

How to grow wheat with big profit at 40 cents and samples of Salzer's Red Cross (80 Bushels per acre) Winter Wheat, Rye, Oats, Clovers, etc., with Farm Seed Catalogue for 4 cents postage. JOHN A. SALZER SEED CO., La Crosse, Wis. K

The statutes should provide that any man is entitled to a divorce without trial if his wife saves the coolest room in the house for visitors.—Atchison Globe.

Fits stopped free and permanently cured. No fits after first day's use of Dr. Kline's Great Nerve Restorer. Free $2 trial bottle & treatise. Dr. Kline, 933 Arch st., Phila., Pa.

One is always surprised if a workman who is always bragging about his work is found to be doing it well.—Washington (Ia.) Democrat.

The Kind You Have Always Bought

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

A Beautiful Present

FREE for a few months to all users of the celebrated ELASTIC STARCH, (Flat Iron Brand). To induce you to try this brand of starch, so that you may find out for yourself that all claims for its superiority and economy are true, the makers have had prepared, at great expense, a series of four

GAME PLAQUES

exact reproductions of the $10,000 originals by Muville, which will be given you ABSOLUTELY FREE by your grocer on conditions named below. These Plaques are 40 inches in circumference, are free of any suggestion of advertising whatever, and will ornament the most elegant apartment. No manufacturing concern ever before gave away such valuable presents to its customers. They are not for sale at any price, and can be obtained only in the manner specified. The subjects are:

American Wild Ducks, American Pheasant, English Quail, English Snipe.

The birds are handsomely embossed and stand out natural as life. Each Plaque is bordered with a band of gold.

ELASTIC STARCH has been the standard for 25 years. TWENTY-TWO MILLION packages of this brand were sold last year. That's how good it is. ASK YOUR DEALER to show you the plaques and tell you about Elastic Starch. Accept no substitute.

How To Get Them:

All purchasers of three 10 cent or six 5cent packages of Elastic Starch (Flat Iron Brand), are entitled to receive from their grocer one of these beautiful Game Plaques free. The plaques will not be sent by mail. They can be obtained only from your grocer.

Every Grocer Keeps Elastic Starch.

Do not delay. This offer is for a short time only.

MINNESOTA NEWS.

Mortgages.

Labor Commissioner Powers has compiled some interesting figures relating to the evolution of mortgages in the twenty-three southeastern agricultural counties of the state. These counties are Blue Earth, Carver, Chisago, Dakota, Dodge, Faribault, Fillmore, Freeborn, Goodhue, Houston, Le Sueur, McLeod, Mower, Nicollet, Olmstead, Rice, Scott, Steele, Wabasha, Washington, Winona, Wright.

The mortgages upon acre property in these counties showed the highest ratio in the years 1880 and 1881. The foreclosures numbered 1,449, and were for the sum of $1,872,371 and covered 172,287 acres of land. Since the year 1881, with the adoption of a good system of farming, of a diversified character, there has been a continuous decline. The years 1896 and 1897 record the lowest amount of foreclosures covered by the investigation. The number for these years was 357 and for the sum of $464,133, covering 35,231 acres of land, being about one-fourth of the number, amount and acreage foreclosed in 1880 and 1881.

Crop Report.

U. S. Department of Agriculture, Minnesota Section, Climate and Crop Service, Weather Bureau.—There have been rains in some part of the state every day in the week except the 3d; those in the early part of the week were light and scattered, while those on the 4th and 5th were more general and much heavier.

Spring wheat harvest has advanced northward to Norman county, and it will reach the northern boundary about the 15th. Wheat and oat cutting is well advanced to north of center of the state, and nearly finished in the south, where it would all have been in shock except for the rain. In the region where the rain was heavy the uncut grains are badly beaten down and tangled so that cutting will be slow and attended with loss. Grain shocks not in good condition were soaked with water, and some fears were expressed that wheat would sprout, but only one or two cases of sprouting are reported.

Fish Protection.

Secretary of State Berg received a letter from the American secretary of the joint high commission, which meets in Quebec, Aug. 10, asking for information in regard to the reciprocal privileges between Minnesota and Canada in protecting the fish preserves in international waters. For a number of years Minnesota has been unable to secure laws uniform with those existing in Canada for the protection of the fish in the waters bordering both countries.

At the last session of congress an act was passed providing for a high commission to act in conjunction with a similar commission appointed by the Canadian government to secure a uniformity of the laws of all the boundary states with those of Canada, and also secure concession from the Canadian government along the same lines.

The commission will also take up the matter of the use by both governments of canals crossing and near the border lines of the two countries.

Fuel.

The state fuel commissioners, at a recent meeting, received bids for 3,000 tons of coal for state institutions. The range of the prices which the big coal companies agreed to supply the state was considerably lower than last year. Soft coal ran from 30 to 50 cents per ton lower. Last year the price paid by the state for anthracite coal was $7.70, and this year the range of this class is lower than $7. The fuel commission, which consists of the governor, auditor and state treasurer, will award contracts in a few days, as soon as the figures submitted can be assembled and tabulated. The contracts will go to the lowest bidder.

Gave Himself Up.

A man with a badly bruised face and his left ear torn and bleeding came into the sheriff's office at Winona and surrendered himself to that official, saying he had set fire to a strawstack and barn on the farm of Emil Timm, between Bethany and Altura, while under the influence of liquor. A telephone message developed that only the strawstack was burned, the barn being saved by hard work. The man gave his name as Paul Kurgus.

Minnesota Briefs.

Charles J. Evans, a prominent farmer of Douglass county, was kicked to death by a mule.

A mysterious poisoning occurred at Pease station, three miles south of Milaca. N. Myers, a farmer, was found dead and his wife claimed he took poison himself. They did not live happily together.

Hans S. Bentrude, living near Pelican Rapids, was kicked to death by a horse.

According to the new city directory Winona has a population of 24,000.

Louis W. Olson fell three stories through an elevator opening in a new building at Red Wing. He broke an arm and received other injuries.

Lightning killed nine head of cattle and two sheep for Fred Willner near New Ulm.

A large pulp mill is to be built at Cloquet.

The Winona board of education has decided to issue $17,000 worth of bonds for school enlargement.

A branch office has been established at Duluth for the sale of internal revenue stamps.

The body of Charles Nelson was found in the river at St. Paul.

Chief Fire Warden Andrews states that there is scarcely a 20 years' supply of white pine now standing in the state, and that there was promise that at least 1,500,000,000 of white pine logs would be cut in Minnesota during the fall and winter.

Hans Hanson, from Turtle Lake, Wis., was killed by the cars at Elk River. He was on his way to Dakota to get work.

Assistant Dairy Commissioner Lawrence paid the first installment to the state auditor of collections from 968 milk licenses received from towns of 1,000 population or over throughout the state. Of this amount Minneapolis furnished 450, St. Paul 300.

Thomas Kelley, a clerk in the office of the Chicago Great Western railway at St. Paul, attempted suicide by taking an ounce of laudanum. The doctors saved him.

Sauk Center is to have a new bank, with $25,000 capital.

Wm. Klussman, a farmer, was found dead in his grove near Jackson.

LAID IN RUINS.

Best Part of Bismarck, N. D., Destroyed by Fire—Losses Estimated at Fully $1,000,000.

Bismarck, N. D., Aug. 9.—Fire Tuesday night quickly ate up property of the value of $1,000,000. Oil, powder and frame buildings contributed in causing the spread of the conflagration, which a poorly equipped fire department was utterly unable to cope with. The best portion of the city is a mass of ruins. The flames originated in the agent's office of the Northern Pacific depot. Almost before they were discovered the entire building and the immense warehouse of the company were in flames, which had spread to the block of brick buildings across the alley, destroying the Tribune, Hare's hardware store and an entire row of buildings. The flames then leaped the street to the magnificent First national bank building, which melted away in a few minutes.

The Central block followed, and the flames spread to the post office, sweeping over the entire block and carrying down the post office, the Merchants' Bank block, Griffin block and all the intermediate frame and brick structures. The fire then spread across and devoured Kupitz' store and a great part of the block. The flames also spread north into the residence block and completely gutted it. The firemen were powerless to check the inroad of the fire, which spread to hundreds of buildings, licking them up as so much waste paper. The origin of the fire is unknown, as no one was in the freight office when it started. It is impossible to estimate the loss. All wires are burned out, the Western Union office being one of the first to go, and the railroad office destroyed. A temporary cut-in was made to handle imperative business.

Over 40 buildings were destroyed.

[Bismarck is the capital of North Dakota and is situated in Burleigh county. The town is very advantageously situated on the Northern Pacific railroad and is one of the famous towns of the new west. It has been known for all sorts of typically western traits, but always has been prosperous and well to do. It is on the east bank of the Missouri river, and the waters of the stream are navigable for boats of 700 tons for not less than 1,200 miles above the city. Bismarck has an immense river warehouse and the water traffic is considerable. It is estimated that not less than 25,000,000 pounds of freight are shipped annually over the river. Ships are constantly in the docks at Bismarck, and this traffic is really the greatest of the city's trade. The city has a population now of from 4,000 to 5,000, having increased from the time of the last census—1890—when it was 2,186. Bismarck contains the state capitol, a splendid building, which cost over $500,000. The state penitentiary is also in the city, as well as a courthouse, a big high school building, waterworks of a superior grade, an electric light plant, a large flouring mill, an extensive brewery and many important manufactories. One of the features of the town is the great Missouri Pacific railroad bridge, which was erected at a cost of $1,500,000.]

FREED BY BLANCO.

Captain General Says War Is Over and Liberates All Cuban Prisoners.

Washington, Aug. 8.—News has just reached Washington from Havana of a recent astounding proclamation of amnesty in which Gen. Blanco has made known to the Spanish people of Cuba that Spain had, through the intervention of foreign powers, been forced to the disgraceful issue of suing for peace, and that there would be no more war and no further use for soldiers. He offered a pardon to all Cuban political prisoners, and over 150 were released in Havana.

In explaining Spain's defeat in his proclamation Gen. Blanco informs his credulous readers that Spain, having suffered so much in the present war, could not resist the interference of the foreign powers and go to war with all countries at once, so she was compelled to accede to their dictation and sue for peace.

Havana, Gen. Blanco says, will be given over to the Americans and Cubans and the Spaniards will be forced to evacuate. He assures the soldiers and all Spanish residents who wish to return to Spain or go to other Spanish possessions that they will be given free transportation by their mother country to their destination and will be protected from interference on the part of either Cubans or Americans. He suggests that the Cubans be forgiven and no longer regarded as enemies and that no unkind feeling be cherished.

Offers to Parole Cervera's Men.

Washington, Aug. 9.—The United States has offered to parole the 1,300 Spanish naval prisoners taken at the destruction of Admiral Cervera's fleet whenever Spain is ready to receive them. With the exception of the officers, who are enjoying American hospitality within the limits of Annapolis, the bulk of these prisoners are confined off Portsmouth, N. H., where they have the liberty of a large and picturesque island and are comfortably quartered and fed in temporary buildings erected especially for their use.

Basket Factory Burned.

Painesville, O., Aug. 9.—The large plant of the Robinson Basket company, the largest grape basket factory in the United States, was entirely destroyed by fire early Sunday morning. The fire started in the dry kiln, and the fire department was unable to do anything towards extinguishing the flames, owing to there being no water in the vicinity. The total loss is estimated at $100,000; insurance, $55,000.

Foully Murdered.

London, Aug. 9.—The Vienna correspondent of the Daily News says: From St. Petersburg it is reported that a band of thieves entered the residence of Princess Chunkaloff near Simferopol, capital of the government of Taurida, in the Crimea, foully murdered the princess and two lady companions, strangling them in their sleep, and after pillaging the house of valuables decamped.

Father and Son Perish.

Cincinnati, Aug. 9.—A special to the Commercial Tribune from Upper Sandusky, O., says: Oliver Barth and his son, aged 18, both lost their lives by descending into a well where there was "fire damp." The son went down first and was asphyxiated and the father descended to help him and suffered a like fate.

Many Badly Burned.

Baku, Russian Transcaucasia, Aug. 9.—The mine and towers of the great naphtha works at Wischau have been destroyed by fire. Fourteen people were badly burned.

FORCE OF A PROJECTILE.

The Path of the Shell That Struck the Texas Strikingly Illustrated Their Appalling Energy.

The correspondent of the London Telegraph at Guantanamo describing the effects of the projectile that struck the Texas while she was silencing shore batteries during the army landing at Baiquiri says:

"The projectile was a steel six-inch shell fired, it is believed, from one of the high-power ship's guns that have been mounted on the fortifications since Admiral Cervera's fleet was blockaded in Santiago harbor. It struck the Texas on the port bow, between the gun deck and the spar deck, bursting in the forward compartment, where there are six six-pounder guns, three on either side. The crews of all these guns were at quarters and there were besides a number of other men in the compartment at the time.

"It is miraculous that only one man was killed and eight wounded. The part of the ship hit is outside the central citadel and above the protected deck. The sides of the ship at the point of impact consisted of a steel plate 1¼ inches thick. The shell pierced this like so much paper, hit a metal stanchion amidships and exploded about seven feet from the plating on the starboard side. A noteworthy feature of the steel plating was that it afforded no splinters or debris to carry inboard. It was torn into ribbons and folded back in a way that gave the impression that the tough metal had been half melted by the impact and passage of the projectile. The shock, however, was not sufficient to explode the shell, and had it missed the stanchion it would have passed through the starboard side and possibly exploded outside the ship. Unfortunately, the stanchion was directly in the path of the shell, and the heavy metal column offered enough resistance to explode it. The effect was terrific. Although the shell was only a small one, six inches in diameter, and, therefore, not weighing more than 70 pounds, it practically wrecked the big compartment in which it burst, while the smoke from it forced itself down the ammunition hoists and into the forward compartments of the ship, so that for a few minutes the crew were almost suffocated. The stanchion was shivered into atoms for two feet of its length, and the fragments of the burst shell, flying forward against the starboard side, bulged the stout steel plates outward to a depth of three inches. Just at this point one of the big double-headed angle irons of the ship's frame was situated. This great rib of steel, nearly twice as thick and heavy as a railroad rail, was cut through in two pieces as if it had been made of cheese, and nearly two feet of it was carried away bodily in minute pieces.

"The base of the shell plowed a furrow down the steel deck just as a plow would cut through the soft soil of a fallow field. It hit and broke another rib of the ship, and, breaking itself in two, both pieces lodged in a cable reel standing close to the starboard side. The core of this reel was a prism of oak over two feet in circumference, and there was wound on it at the time a coil of hemp hawser that made a cylinder about four feet in diameter. The hemp rope was cut through to the wood and the stout oaken prism was shivered to splinters. This one fact alone would be sufficient to give an idea of the appalling energy of a modern projectile. Showers of steel splinters, resulting from the exploded shell itself and the torn stanchion and angle irons, swept along the starboard side for about 30 feet, cutting off heads of bolts, breaking gunfittings and stripping off the paint as if a score of men had worked for hours with steel chisels.

"Every man in its path was wounded. One gunner was hit with no fewer than 15 pieces of steel, each about the size of a hazel nut. At the moment the shell exploded one man was standing right in its path. He was literally blown to fragments. He was talking to a comrade, and, strange as it may seem, the latter, although less than arm's length away, was unhurt, save for being knocked down by the shock of the explosion. Others of the men, 30 feet from the fatal shot, had a dozen pieces of the steel plunged into their bodies. A remarkable feature of the explosion was the smallness of the pieces into which the shell burst. It shivered into fragments weighing about an ounce. The only piece of any size picked up was rather less than half the base, just enough to enable it to be ascertained that it had been a six-inch shell, fired from a high-power breechloading gun, and exploded by a percussion fuse fixed in the nose."—N. Y. Herald.

Fishing for Anchors.

One of the queer occupations of mankind is that of dragging for lost anchors. It is carried on in bays and rivers, and even in the open sea along the coast. Several sloops and schooners are engaged almost exclusively in this pursuit. The hunters are as familiar with the ground where anchors are to be found as fishermen are with the favorite haunts of the living inhabitants of the sea. The matter of fishing for lost anchors is most simple. A chain is let down in a loop long enough to drag along the bottom, and the vessel goes on her way with all hands on board alert for a bite, and a bite usually ends in a catch. The recovered anchors are generally sold again at a price of about two pence a pound, which is a half-penny under the market price for new anchors. A big anchor will weigh 6,000 pounds, so that the fishermen make £50 out of it. More often, however, the anchors fished up weight from 1,000 to 2,000 pounds, and there is a pretty profit in the business even then.—London Tit-Bits.

Able Defense.

"Prisoner at the bar, have you anything to say before sentence shall have been passed on you for sandbagging this man?"

"Well, your honor, I tried to git his money peaceable; I offered 'im his choice of the shells, poker, an' craps, and he wouldn't stand fer none of 'em."—Indianapolis Journal.

BEAUTIFUL HOMES.

The Tendency of the Age Is Toward Mural Decorations.

Probably at no time in the world's history has as much attention been paid to the interior decoration of homes as at present. No home, no matter how humble, is without its handiwork that helps to beautify the apartments and make the surroundings more cheerful. The taste of the American people has kept pace with the age, and almost every day brings forth something new in the way of a picture, a draping, a piece of furniture or other form of mural decoration. One of the latest of these has been given to the world by the celebrated artist, Muville, in a series of four handsome porcelain game plaques. Not for years has anything as handsome in this line been seen. The subjects represented by these plaques are American Wild Ducks, American Pheasant, American Quail and English Snipe. They are handsome paintings and are especially designed for hanging on dining room walls, though their richness and beauty entitled them to a place in the parlor of any home. These original plaques have been purchased at a cost of $50,000 by J. C. Hubinger Bros. Co., manufacturers of the celebrated Elastic Starch, and in order to enable their numerous customers to become possessors of these handsome works of art they have had them reproduced by a special process, in all the rich colors and beauty of the original. They are finished on heavy cardboard, pressed and embossed in the shape of a plaque and trimmed with a heavy band of gold. They measure forty inches in circumference and contain no reading matter or advertisement whatever.

Until September 1st Messrs. J. C. Hubinger Bros. Co. propose to distribute these plaques free to their customers. Every purchaser of three ten-cent packages of Elastic Starch, flat-iron brand, manufactured by J. C. Hubinger Bros. Co., is entitled to receive one of these handsome plaques free from their grocer. Old and new customers alike are entitled to the benefits of this offer. These plaques will not be sent through the mail, the only way to obtain them being from your grocer. Every grocer store in the country has Elastic Starch for sale. It is the oldest and best laundry starch on the market and is the most perfect cold process starch ever invented. It is the only starch made by men who thoroughly understand the laundry business, and the only starch that will not injure the finest fabric. It has beten the standard for a quarter of a century and as an evidence of how good it is twenty-two million packages were sold last year. Ask your dealer to show you the plaques and tell you about Elastic Starch. Accept no substitute. Bear in mind that this offer holds good a short time only and should be taken advantage of without delay.

AN AUTHOR'S WOES.

He Was Bound to Have His Hero Look Pale If He Had to Change the Book.

With a smothered curse the great novelist threw away his cigarette and dashed water on the blaze in his front bangs, that, falling in graceful profusion over his face, had been ignited. Quickly recovering his poise, he resumed his dictation.

"——and turned pale with rage!"

"But," interrupted the omniscient young lady stenographer with a Washington monument souvenir brooch, "the hero is a swarthy Cuban."

"Make him a Norwegian, then, confound it!" shouted the novelist, pinning back his bangs and lighting a fresh cigarette.

"Yes, but the scenes are all laid in Cuba, you must remember!"

"Lay 'em over again! Transplant 'em! Put 'em in Norway and let it go at that."

"But Weyler, you know, wasn't ever in Norway; at least not that I ever heard of, and the story's all about him."

"He—oh, B-r-r-r! I'll swear in a minute! Throw Weyler out and make it about Nansen!"

"Oh, but how can you? The plot deals with guerillas, morasses, yellow fever and—"

"Wow, wow! Make it about milkmaids, mashes, immigration fever! Make it about any old thing! Blank it, woman!" screamed the great novelist, tearing out great handfuls of his hair. "I am going to have that hero turn pale with rage if it's the only thing in the book! He's got to do it. Dash it, do you take me for one of these new-fangled, up-to-date literary fakirs that don't give a whoop for sacred traditions! Not on your life!"—N. Y. Journal.

Perhaps some people do not know that the sphinx got its reputation for being very wise by keeping its mouth shut for 3,000 years.—Chicago Daily News.

No wonder so many bank clerks go away, because they all have such cheque-ered careers—L. A. W. Bulletin.

SUMMER CATARRH

Catarrh of the bowels, because it is most prevalent in the summer months, is called summer catarrh.

It surprises many that bowel trouble is catarrhal. Dr. Hartman's books make this plain. Write to the Pe-ru-na Medicine Co., Columbus, O., for them. They tell all about catarrh and how Pe-ru-na cures it wherever located.

"I had chronic diarrhœa for fifteen years," writes Mr. T. E. Miller, Grand Prairie, Tex. "I tried many medicines and doctors in vain. At last Pe-ru-na was recommended, and it relieved and cured me at once."

Mr. John Harting, 633 Main St., Cincinnati, O., writes: "My wife and myself took your Pe-ru-na for chronic diarrhœa and it cured us. No doctor or medicine we tried before helped us."

Mr. Edward Wormack, Ledbetter, Tex., writes: "Pe-ru-na for bowel troubles is unequalled by anything in my experience. I owe my life to Pe-ru-na, and shall always recommend it to those suffering as I was."

Mr. John Edgarton, 1020 Third Ave., Altoona, Pa., says: "I suffered from dysentery for three years I took Pe-ru-na and am now well."

HOW JAMIE PASSED.

He Plays Tricks on His School Principal While That Personage Is Calling on His Sister.

Jamie has a big sister—a blooming, bounding destroyer of hearts, and the principal of Jamie's school used to call on her. He came one evening, just before the close of the last term, and wore rubber overshoes. He always was afraid of catching cold. He left these shoe protectors in the hall. Jamie, by no means sure of passing from seventh into eighth grade, was conning his geography—from necessity, not choice, and he saw those goloshes.

So he got the tack hammer and two tacks and nailed through the rubber soles into the floor. When Mr. Principal departed an hour later Jamie was watching him. Mr. Principal, still smiling on the big sister, inserted his feet in his rubbers—and then he braided himself up in the most amazing fall that ever an educated man accomplished. The big girl picked him up and extracted him from his stationary footwear, but she was shaking with laughter.

Next day Jamie, sweet seraph, drifted past the principal's desk with a look of angelic innocence on his chubby face.

He paused a moment.

"Who called you?" asked the petulant principal.

"The kids called me. They called me 'rubbers!' Say, Mr. Soandson, do I pass?"

And the eyes of the two met for one tense moment. Then the principal surrendered.

"Yes—you pass!" he snapped.

If he had said "no" he would have dodged to the end of his days every time he heard a boy cry "rubbers!"

And Jamie was honest about it. He told no one—not even when his big sister paddled him.—Chicago Chronicle.

THREE HAPPY WOMEN.

A Trio of Fervent Letters to the Sympathetic Friend of Her Sex.

HONOR TO WHOM HONOR IS DUE.

Each Letter Tells in a Different Way of Agonies Relieved by Lydia E. Pinkham's Vegetable Compound.

Before using Lydia E. Pinkham's Vegetable Compound, my health was gradually being undermined. I suffered untold agony from painful menstruation, backache, pain on top of my head and ovarian trouble. I concluded to try Mrs. Pinkham's Compound, and found that it was all any woman needs who suffers with painful monthly periods. It entirely cured me.

MRS. GEORGIE WASS,
923 Bank St., Cincinnati, O.

I sat right and Liver I feel like a is a thing of the Vegetable for me.

For years I had suffered with painful menstruation every month. At the beginning of menstruation it was impossible for me to stand up for more than five minutes, I felt so miserable. One day a little book of Mrs. Pinkham's was thrown into my house and down and read it. I then got some of Pinkham's Vegetable Compound Pills. I can heartily say that to-day new woman; my monthly suffering the past. I shall always praise Compound for what it has done

MRS. MARGARET ANDERSON,
363 Lisbon St., Lewiston, Me.

Lydia E. Pinkham's Vegetable Compound has cured me of painful menstruation and backache. The pain in my back was dreadful, and the agony I suffered during menstruation nearly drove me wild.

Now this is all over, thanks to Mrs. Pinkham's medicine and advice.—MRS. CARRIE V. WILLIAMS, South Mills, N. C.

The great volume of testimony proves conclusively that Lydia E. Pinkham's Vegetable Compound is a safe, sure and almost infallible remedy in cases of irregularity, suppressed, excessive or painful monthly periods.

LAND OF CHRIST. TO MRS. PINKHAM

From Mrs. Walter E. Budd, of Patchogue, New York.

Mrs. BUDD, in the following letter, tells a familiar story of weakness and suffering, and thanks Mrs. Pinkham for complete relief:

"DEAR MRS. PINKHAM:—I think it is my duty to write to you and tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I feel like another woman. I had such dreadful headaches through my temples and on top of my head, that I nearly went crazy; was also troubled with chills, was very weak; my left side from my shoulders to my waist pained me terribly. I could not sleep for the pain. Plasters would help for a while, but as soon as taken off, the pain would be just as bad as ever. Doctors prescribed medicine, but it gave me no relief.

"Now I feel so well and strong, have no more headaches, and no pain in side, and it is all owing to your Compound. I cannot praise it enough. It is a wonderful medicine. I recommend it to every woman I know."

BUFFALO GAZETTE

DELANO, FRIDAY, AUG. 12, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

—Michael Ray, of Watertown, who occupied the old C. S. Kohler, hotel, died Friday last, after a brief illness.

—R. M. Bohn is building another story to his residence on Second street. He claims it is necessary to have more room.

—Peterson & Son unfortunately got caught in the rain while building their new store room adjoining the shoe store and got a small wetting down.

—Brother Buckley, of the Eagle shows symptons of being in need of some "brain surgery" that Ex-Mayor Eustis, of Minneapolis, lectured on a couple of years ago.

—The Old Virginia Jubilee Quartette entertainment at the City Hall Tuesday evening is well spoken of by those who attended. A fair sized audience was in the hall.

—Work on the Cargill Elevator engine house was commenced Monday morning and suspended Monday evening until permission could be obtained from headquarters to procced.

—Buffalo Bill's Wild West show was a much more drawing card for Delano citizens than was the laying of the corner stone of the State Capitol, with C. K. Davis oration and all. It seems to be only a matter of taste.

—Wheat is reported as yielding 25 and 30 bushels to the acre about Delano, and is of good quality. If some Joe Leiter takes the field early farmers may get good prices again. If no gambling is done prices are apt to be low.

—A. W. Wittman has worked up quite a trade in the photographic business. He does the developing for many amature photographers hereabouts. Some of his views of Camp Ramsey, soldier boys, and other views bear comparison to city work.

—M. J. Stone has made an ingenious discovery for tightening tires on wagon wheels. He claims it is considerably superior to any previous invention. He is looking for a moneyed man for a partner to help get it patented when he expects to be wealthy soon.

—Joe Nieson and Peter Maholla, hauled a new seperator from Minneapolis Tuesday. They expect to thresh in this vicinity. Al. Hitsman has his threshing outfit here too. It looks as if farmers ought to get threshing out of the way early enough this season.

—Dr. Walter has in his kennel a seven months old Russian Wolf hound. He is a long, lean fellow and it is hard for the Dr. to convince most of our citizen that he would cut much of a figure in a pack of wolves, except to make them a few mouths full of mince meat.

—At Saturday evening's meeting the new school board consisting of, J. E. Borsch, A. W. Wittman, L. M. Maxfield, W. H. Frazee, Dr. J. S. Shrader and M. A. O'Hair, organized, by electing for President, M. A. O'Hair; Secretary, L. M. Maxfield; Treasurer, John E. Borsch.

—If conductors on trains have a right to collect 10 cts extra on fares where the passenger has no ticket, and give a receipt for the extra amount, depot agents should be authorized to redeem the papers, and passengers not be obliged to go to headquarters of the company for their 10 cts back. Railroads should have rights, but so should the traveling public.

—The dog ordinance has not been enforced in Delano this year any more than it was last year and quite a few dogs are trotting about town that don't seem to have anymore respect for the rights of the people than the council has for the enforcement of the dog ordinance. If the dog ordinance is dead, it should be cut out of the book; so long as it remains among the ordinances it should along with the rest of the ordinances be enforced.

—The St. Paul Pioneer Press of the 9th inst, contains a letter from Capt. Henry A. Castle, Auditor of the Post office, Washington, D. C. Concerning mail to Manilla, he says: Manilla has been made a military station, a branch of the San Francisco post office. Mail going over the route via San Francisco will cost just the same to Manilla as it would to Minneapolis. The route via Vancouver, Hong Kong, 'etc, costs 5 cents for each half ounce. To be sure to get word through quickly try both roads. But for ordinary mail the regular U. S. military plan is very good, as every boat going from San Francisco takes along the mail on hand.

—Many children and even those grown to be men and women, living in this vicinity have never been vaccinated. In some cities children before they are admitted into schools are required to be vaccinated: soldiers have to submit to the operation. Many Insurance companies have a wayer of all rights of those who die from smallpox. The proper thing to do is to be vaccinated, while young and at home where it can be more easily and safely done than to wait until away from home and under unfavorable circumstances. Our school board, we understand are to take some action on requiring pupils to be vaccinated. It might prevent an epidemic of smallpox as in this day of travel, where people from every land are met very often it is an easy matter to expose a community. A word to the wise is sufficient.

—Al Whittaker, formerly of Cokato, but late of Marshall, is to be depot agent at Litchfield.

—John Williams, of Independence, has traded his farm for a house and lot in Rockford and will move there soon.

—Litchfield's band celebrated the 13 th anniversary of their organization this week. Wonder when Delano will have hers.

—The police force was called to lower River street one evening this week. No arrests were made however.

—Coffin & Babb are about through painting the iron bridge across Crow River. It improves the appearance of the bridge very much.

—Three applications for license to sell intoxicating liquor are published this week. This fills Delano's quota of saloons for the year, seven.

—John Muckenheirn lost his fine big barn and a nice lot of hay by fire a few days ago. Insurance small. The small boys, it is said set the fire.

—Quite a number of telephone poles on the Watertown and Delano line are said to have been badly splintered by lightening during the recent electrical storm.

—E. F. Ziebarth has concluded that brick making is too much trouble for the money there is in it and has concluded not to manufacture any for awhile at least.

—While driving on the road to William Ziebarths, Wednesday night, in the dark, Mr. Crafts drove into Dr. Catlin's buggy which was ahead of him. He got the wheel repaired.

—Alois Roth living near town has been afflicted for some time with an aberration of mind. He seems to think his wealth is unlimited and to want to buy things for which he has no need.

—The Carver County News gives an account of the poisoning, by drinking fly paper water, of the 19 months old daughter of Mr. and Mrs. John Swanberg, of Watertown. Too many poisons are left carelessly where children can get them.

—John Longosh, on the West side, is at work on his brickyard. Should he be successful, as he thinks he will, in making good brick, this will be quite a convenience and probably something of a saving to builders in this vicinity; besides furnishing work for a crew of hands. Success John, success.

—The new sidewalk around the property on R. R. Ave, and River Street is quite an improvement. But, it should have been laid on the grade and in accordance with the ordinance if it is expected to have any body else pay any attention to such things. There is no use in trying to enforce ordinances and grades unless everybody, and especially those who are able to do so, come to the scratch.

—We recieved yesterday our Overland Monthly, a magazine published in San Francisco, and which is of more than ordinary interest to Minnesotans. It contains articles in which we are all interested concerning troops, ships, places, and things generally connected with the war now being waged between Spain and the United States. It has some nice cuts, among them one of the City of Para with its load so precious to us, the 13th Reg. Minn. Vol. U. S. A. now in the Philippine Islands.

—Maxon's threshing outfit from near Loretto halted for noon on Third Street, on its way to Hutchinson for its fall's work. When one sees the ponderous engine traveling through the country by steam and hauling big loads, the querry comes up how long will it be before steam, electricity, condensed air and other powerful agencies propel the machinery and do the transporting for the world, relieving the animal kingdom from any part whatever in such matters, save the guiding hand of man himself?

—It begins to look as if a back door to our school house would be made in the near future. At least a good many of the people whose children attend school thinks there will. It is a shame and a disgrace to the civilization of the 19th century to have such a house as Delano's school house, occupied by so many people as it is during school terms and with no way to get out back but to come out the front door, and run around the house, no matter how cold or stormy it may be. To say nothing of the probability of injury or death in case a panic should be started in case of fire. Build a back door. People want it.

—The 13th Reg. Minn. Vol. containing several Delano boys sailed with the third Manila expedition, and according to the newspaper reports have had a large and varied experience. The first couple of days out from San Francisco was rough and most of the boys sick. At Honolulu they were distributed about town among families and treated like princes.

Then after starting out again for Manila, on account of broken machinery on one boat, they were obliged to return for a day. After again sailing about three days out, the Morgan City was found to be on fire in the hold, with 600 soldiers aboard from Idaho and Nebraska. The soldiers didn't find it out and the crew fought fire night and day till Manila was reached when it was extinguished. They also past a volcano in full blast. When the ships reached Manila a monsoon was raging and the boys couldn't be landed. Fighting was going on ashore while they waited to be landed.

Personal.

Prof. Bohn visited Montrose Tuesday night.

Thomas R. Briggs, of Howard Lake, was in town Monday.

Miss May Mowatt is visiting relatives in Chicago this week.

Mrs. Charles Carlton returned home yesterday from Long Lake.

Dr. Ed Shrader, of Watertown, was in town Wednesday afternoon.

O. L. Billings made a professional trip to Minnetrista, Tuesday.

Mrs. M. J. Mulford left yesterday for a visit at Howard Lake and Litchfield.

Mrs Wise and two children, of Minneapolis, are visiting at Charley Weises'.

Mrs. Charles Bugbee, of Rockford, made Delano a business visit yesterday.

Mrs. Louis Kespohl, was taken quite sick Wednesday evening, but is convalescing.

Mrs. Strickland who has been on the sick list for a few weeks is able to be about again.

Miss Joy Kerr drove home to Waverly with her sister Mrs. Wright and children, yesterday.

William Otto and Frank Meholsok left Wednesday for Big Stone county on a threshing tour.

Mrs. John Burl, of Annandale, spent several days visiting relatives in this neighborhood lately.

Ennis Brandon and family, of Annandale, visited Delano friends a few days during the week past.

Miss Ella McEachran, of Iowa, is visiting Wright county relatives during her summer vacation.

L. A. Meister is once more about his hotel. He is convalescing from the operation he had performed on his leg.

Dr. J. H. Dunn, of Minneapolis, drove to Watertown from here with Dr. Shrader professionally, last Friday.

Miss Marion E. Williams had a birthday party Wednesday. She was 11 years old. Thanks for a nice boquet.

A. D. Smith and daughter Hattie and Misses Julia and Viola Cunningham visited Watertown friends the first day of the week.

Dr. Soper left Sunday for a trip to England where his mother is very sick. Mrs. Soper has gone to Minneapolis to visit in his absence.

Ed Farnham, of Cokato, returning from the county seat passed through town Monday evening. He says politics is quiet at Cokato.

Mrs. Arthur Meister returned home to Houston, Monday, for a couple of week's visit. Arthur will remain at the Meister House for the present.

Del Young and wife came from Maple Lake, where they have been visiting, Monday. They will spend a week with his father J. D. before returning home to Minneapolis.

Ed Farnham, wife and children visited Delano friends over Sunday. They went to Cokato Monday to visit Mr. F's father. Ed is working in the Tribune office at Minneapolis.

Among Minneapolis visitors Monday were C. J. and Queeny Buckley, C. A. Brunkow and two boys, Miss May Mowatt, C. W. Kerrick, Miss Mable Hobart, Tom Lanway and A. L. Mealey.

Mr. and Mrs. Jeff Benner, Mr. and Mrs. F. J. Benner, D. R. Thompson Geo. Irving, D. D. Ames, Chape Farnham, K. Bucklin, I. Harvey, Mell Powers, and others from Rockford, went by train from here to Howard Lake to attend the funeral of Gov Briggs.

County Cullings.

We wouldn't be surprised to learn that I. Gutzwiller, is on the Republican State Campaign Committee, as some of those fellow travellers of his met yesterday with Chairman Steele to appoint such a committee.

What does Brother Eaton mean by this announcement? Has he concluded to go over to the side of the corporation? It sounds a little that way. Better stay with the people, A. Y. They must be respected.

Wonder how it happened that the business head of the Eagle happened to be riding around on one of Jim Hill's big steam boats on Lake Superior in company with Hon. Page Morris, Auditor Dunn and Treasurer Koerner, and that while Marcus Aurelius Hanna was hoverin' about the Zenith City by the unsalted sea.

"There are some people so thick headed that they cannot understand and others so mulish that they won't. Dr. Catlin certainly belongs to one class or the other." is what the Eagle has to say about the fact that Meeker County pays $7.80, Kandiyohl $5, and Wright $3, for Examinations in Lunacy. Suppose the Dr should be in such a dilemma as the Eagle says what would that have to do with the facts above stated? Or with the other fact that the state pays a Public Examiner to look after the county officials, accounts and he O. K's. them notwithstanding this discrepency? When you wish to talk politics stick to the text and don't misuse or abuse Dr. Catlin or anybody else, even though you are "thick headed" or "mulish".

If Wright County Democrats do their duty they once again stand a good chance of electing some officers. They must organize thoroughly, and see that the best possible ticket is placed in the field; there is abundance of good material. Then will voters who have become throughly disgusted with the old style of leading them up to the polls, and who now read up and know how to vote on their own hook, and who will not, if they can help it, be driven to elect men who are trading, and trafficing with the opposition, support our ticket. Trading and traficing between leaders of parties has well nigh become obsolete here. Things appear to have changed in Wright County. There are plenty of honest voters who wish to see honorable men in every position. There are honorable men enough who can be prevailed upon to run for every office. Let us elect them.

Among Our Exchanges.

The fight against Great Northern influence in this county is now over.—Buffalo Journal.

World: The time to grant an armistice is when Gen. Blanco and his baggage are going up the gangway.

Waseca Herald: Every editor and publisher in Minnesota who publishes the statement that J. J. Hill president of the Great Northern, is opposing Eustis and supporting Lind is either a liar or a fool.

News Tribune: Judge Morris is another gentleman who is apparently unable, as the esteemed Superior Leader would say, to grasp the essential facts of the naval battle at Santiago. The judge thinks Schley the hero of the affair.

Oregon Agriculturist: The Puyallup Citizen says that in the Puyallup valley, Wash., they think a man a very poor farmer, indeed, who cannot make a living from a single acre of land. The Citizen promises to give at some time the actual figures showing how this is done. We await those figures with considerable curiosity.

Broad Axe: Resignations from the cabinet of President McKinley are now talked about at Washington. It is rather late in the day for some of the cabinet officers to resign. They could have served their country better by resigning long ago. Especially is this true with regard to Alger, but the old proverb may be applied to this case with a great deal of truth and a large majority of the people will thankfully: "Better late than never."

Pioneer Press: "Thaddeus of Warsaw" is called to mind by two recent incidents One of these was the recognition by the count of Turin of an old associate in the person of a hired Italian musician whom he met at somebody's reception in Newport, and with whom he cordially shook hands, much to the disgust, it is said, of some American would-be aristocrats present. The other incident was the appearance on the streets of Chicago of a fruit-dealer's push cart propelled and presided over by the distinguished Prof. S. J. Geordiades, a learned, graduate of the University of Athens former occupant of the chair of Greek in the University of Berlin and later occupying a similar chair in several American colleges. He had latterly been unable to make a living out of his varied scholastic acquirements, which include many other branches beside Greek, and he had, therefore, resorted to fruit-peddling. Among his former pupils were Prof. Wheeler, now instructor in Greek in Columbia college, and Prof. Thurber, who holds the chair of Greek language and literature in the University of Chicago

Notice of Hearing of Application to Sell Intoxicating Liquors.

Notice is hereby given that Nick Klein, according to law has applied in writing to the Village Council of the Village of Delano, in the county of Wright, and State of Minnesota, for a license to sell Intoxicating Liquors for a period of one year from the 31st day of August 1898 to the 31st day of August 1899.

THE DAWN OF PEACE.

Put off, put off your mail, O kings,
And beat your brands to dust!
Your hands must learn a surer grasp,
Your hearts a better trust.

O, bend aback the lance's point,
And break the helmet bar:
A noise is in the morning wind,
But not the note of war.

Upon the grassy mountain paths
The glittering hosts increase—
They come! They come! How fair their feet.
They come who publish peace.

And victory, fair victory,
Our enemies are ours!
For all the clouds are clasped in light
And all the earth with flowers.

Aye, still depressed and dim with dew,
But wait a little while,
And with the radiant deathless rose
The wilderness shall smile.

And every tender, living thing
Shall feed by streams of rest;
Nor lamb shall from the flock be lost,
Nor nursling from the nest.

JOHN RUSKIN.
—Our Dumb Animals.

FROM the Carver County News we learn that Congressman Heatwole will if he should be called upon to do so, accept a renomination to Congress. But as it is not sworn to how are we to know if he is really in earnest?

HENNEPIN County Democrats placed in nomination for Judges of the District Court, Frank A. Brooks, Charles M. Pond, John Day Smith and J. P. Giest. This it is claimed is an exceptionally strong quartette for the bench.

C. K. DAVIS after all accepts the position on the Peace Commission, tendered him by President McKinley. This looks as if a determination had been arrived at to take all we can get, and hold all we take, and settle matters up pretty quick.

LUMBERMAN'S DAY at the Omaha Exposition, Sept. 9. The 9th day of the 9th month. Attractive programme. Log rolling contest, open to all comers. Four prizes offered. Grand parade of Hoo Hoos in costume. Fireworks. Concatenation in the Minnesota building. Nebraska lumberman act as hosts. Reduced rates on all railroads.

SOME Generals are all right in an offensive campaign, but when it comes to fighting on the defensive they are no good. Mr. Eustis has done fairly well for his associates when victory was pretty sure, but now that he is the candidate and on the defensive he seems to have few effective shields for the firey darts that are being hurled at him from every side.

THANKS to George B Aiton, Inspector of State High Schools, for a copy of his Fifth Annual Report. It is quite instructive on the subject to those interested in High Schools. We are pleased to see that he is earnestly working to make the State Examinations what they should be and we think he is on the right line, and we hope the time may soon come when State Examinations will be looked forward to as something to be deserved and not dreaded by the average country teacher and pupil. State Examinations are all right if properly carried on from start to finish.

NOT candidate Eustis, but his county newspaper political fellows, are on the defensive. Even Editor Dare of Elk River, a member of the State Central Committee feels called upon to deny that he said that the nomination cost Mr. Eustis $20,000. He claims the nearest he came to saying so was before the state convention and was as follows: "It is estimated that the legitimate expenses for governer up to the convention were twenty thousand dollars apiece." This he claims was printed as a "news item and was not intended to express the opinion of the editor."

IF, as it now seems will be the case, the volunteers who went at their country's call to help free the Cubans from Spanish tyranny, and to aid in feeding the starving in our neighboring island return home to resume their usual avocation, to again take up the ordinary duties of citizens of this great country, Lieut. John Lind will be a factor in Minnesota politics after all, personally meeting his opponents at every corner. Wonder if Eustis will be green enough to challenge him to a few joint debates. Probably his State Central Committee would be allowed to object to such an arrangement. William Henry likes to have full swing when he talks, and there is a great deal of his speech usually which wouldn't look well, not even consistent after a logical analysis by Hon. John Lind.

NOW that our country has gained a reputation as a fighting nation they seem determined to keep it. The Turks, who have been permitted for so long a time to tread on the rights of American citizenship and murder missionaries, etc., etc., are to be made to recompense, so far as possible, those injured. Three new battleships a little superior to any afloat are to be made, besides numerous smaller vessels. Our army is to be kept on a little bigger footing than heretofore. We are to spread out in territorial acquisitions to the East and to the West. On the whole it looks as if we had recently grown a size or so; that we are indeed to stand among the foremost nations of the earth; that our flag shall be known and respected over the known world. This is a commendable disposition in any country, and yet there are those who talk about an Anglo-American alliance. What do they want it for? Surely for no patriotic purpose? Let us preserve our identity as a nation. Let us grow when necessity demands, yet not be grasping and greedy for what we should not have. Let us be indeed the land of the free and the home of the brave.

ADMIRAL Dewey, it is claimed, has recommended that the United States make some manifestation of gratefulness to the Chinese on his ships who so nobly did their duty while our country's battles were fought. He thinks that should they choose to do so, they should be allowed to become citizens of the country in whose behalf they have risked their lives. That is right, and shows Admiral Dewey to be a man of broader ideas than some who are willing to accept aid from those they would not allow to become citizens. These covetous money gatherers are willing to annex and capture the islands of the sea, and to even partition up among themselves lands of great nations who flourished before they themselves came into existance. But, they don't seem to care for the inhabitants of these acquisitions. Like the red men of our own country they must give way to the stronger race. In order the better to carry out their aggressive plans the Chinese have been prohibited from becoming citizens of our country; though it is usually acknowledged that, as a rule, they are industrious, frugal, and attend to their own business for better than many who are citizens even native born. Just why a distinction should be made against Chinese alone becoming citizens of this country we never could quite clearly see. Perhaps Admiral Dewey, in this recommendation, has widened the doors of our boasted free and liberty loving country, the home of the down trodden and oppressed of every clime a little wider than some others would. Possibly this will redound to his honor as much as did his decisive victory, in which his Chinese friends participated over the enemies of liberty and of freedom.

Honest Political Differences.

There seems to be an unusual number of political changes now-a-days. Men who have stood together during many campaigns and fought nobly for the same opinions, and principles, now are working with equal earnestness against each other. It is hard to find a man who will admit that he has changed his views one yote; but, where the voter happens to be opposed to the party, by name, with which he formerly trained he insists the party left him. Men, who, like Lind and Towne, who give every evidence in the sincerity of their actions and speeches, are advocating the free and unlimited coinage of silver as the best thing for this country's ills are supported by many of the brightest of those who have voted for them, as Republicans, for years. A few good Democrats, who have always been Democrats, and who now claim to be as good Democrats as ever, turn about and vote for Eustis and Page Morris because, they claim, they, and not the Democratic party, are now standing for the best interests of the financial country. It is not to be supposed that all these men are less honest in their new efforts for the good of the country than they always have been. It is not fair as is often done, to charge each other with wrong purposes, with evil and corrupt motives for the apparent changes in political affiliations, and which apparent changes they seem honestly to believe are not real changes in their own beliefs.

FROM "THE BIGLOW PAPERS".

JAMES RUSSELL LOWELL.

"Whenever contending princes fight
For private plaue or public right,
Armies are raised, the fleets are manned,
They combat both by sea and land.

When, after many battles past,
Both tired with blows, make peace at last,
What is it, after all, the people get?
Why, taxes, widows, wooden legs and debt."

Our Dumb Animals.

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, D. C., Aug. 12, 1898.

If proof were needed that Mr. McKinley made a serious mistake in not definitely naming all the terms of peace that Spain must accept, instead of leaving some of them to be settled by a joint commission, it was furnished in chunks by Spain's first answer, accepting the the terms of peace, but on condition that numerous thing, including whether Cuba should be responsible for a portion of the Spanish bonded debt, should be determined by the Peace Commission. That it was compelled to waive the conditions and accept the terms of peace without conditions, does not lessen the mistake Mr. McKinley made in leaving anything to be settled by commission, as the country will realize long before that commission completed its work. Spain was whipped to her knees and was bound to accept any terms of peace Mr. McKinley chose to offer and there was not a single good reason why the terms should not have been made such that their acceptance would have settled the whole business for good and all. The excuse for not doing that is not a valid one. It is that the administration had not decided what should be done with the Philippines. The people have decided that Spanish rule ought not to be continued in any part of the Philippines, if the administration hasn't.

Sampson's "pull" extended to Mr. McKinley, as it has been decided to make him a Rear Admiral for his services in the war, although not a few persons say that his share of prize money, on prizes he had no hand in taking, will largely overpay him for anything he has done. The public agitation in favor of Schley is doubtless the cause of his also gettting made a Rear Admiral, but the pleasure at his promotion is lessened by Sampson being promoted ahead of him, thus keeping up the injustice by which Sampson was jumped over his head in the first place.

The wily Sultan of Turkey appears to have talked this government to a standstill in the game of diplomacy that has been going on for several years over the claims of American missionaries for $100,000 for property destroyed by Turkish mobs. The claim was first made by the Cleveland administration, and from its first filing until very recently the public has been told from time to time that the government was about to compel the Sultan to settle up. Nothing official can be obtained at the State Department, but from other sources it is learned that the Sultan has positively refused to pay a cent, taking the ground that his government was not responsible. Ordinarily such a refusal could have been easily met, but in this case the refusal was based on a quotation from an answer given by this government to another government that had presented a claim for property destroyed by a riotous mob. That is what brought this government to a standstill, until the next move can be thought out. It would be an easy matter to send a strong fleet to Turkish waters and force payment, but it must first be decided that it would be wise to establish such a precedent.

Now that they no longer have the Spaniards to fight, the army officials who have been so busy trying to shift the responsibility for the shameful shortcomings in the furnishing of proper spupplies to the men in the army, not only at Santiago, but in camps in the U. S from their own to somebody else's shoulders, can give their entire attention to fighting each other, instead of wielding the official, whitewash brush. Perhaps it may be possible when Congress assembles to get an investigation that will really investigate. If so, there is little doubt that much incompetence will be located, and some crookedness, too. By that time many volunteers now in the service will have ceased to be soldiers and their evidence will be available, while now their tongues are tied by military regulations.

There is trouble, and lots of it ahead of the War Department, on account of its management of its end of the war, and that may account for the rumor that Secretary Alger intends shortly to resign and that his portfolio will be offered to Gen. Joe Wheeler of Ala. It would be a shrewd move on the part of the administration to attempt to head off Democratic criticism of the War Department by making such a good democrat as Gen. Wheeler Secretary of War, but it remains to be seen whether Gen. Wheeler would accept the place if it were offered him. Gen. Wheeler is as good a politician as a fighter, and he would probably decline with thanks. It is very probable that Alger contemplates resigning as an easy method of escaping criticism.

Honesty In Norway And Sweden,

Had Abraham Lincoln lived in Norway or Sweden, probably he would never have been known to the world as "Honest Abe," because there honesty is so common as to attract no attention. Travellers tell us that at the railway restaurants passengers help themselves to whatever they wish, and then report what they have eaten and pay for the same without any questions being asked. A person's word is always taken, and he is never watched. On the steamboats, after each meal, a traveller writes down in a large book what he has eaten. When ready to go ashore, he calls a waitress, who affixes a price to each item, adds up the amount, receives the money, and puts it in her pocket. When filled, she gives the money, without counting, to the stewardess. Instead of making them careless, they are more scrupulously honest than any other nation in the world.—Our Dumb Animals.

3d Reg. Reunion.

John Cunningham, a member of the old 3d, hands us the following card for publication:

MINNEAPOLIS, MINN., August 10th, 1898.

Comrade:

You are respectfully informed that the old Third Regiment Minn. Vet. Vol. Infty. Association, will hold its fourteenth annual reunion at Minneapolis, on Tuesday, September 6th, next, in Jno. A. Rawlins Post Hall, 4th floor of the Masonic Temple, corner of Hennepin avenue and 6th street at 10 o'clock a. m. sharp. If you are not permitted to carry the musket, or wield the sabre in Porto Rico, Cuba and Manilla, you can shoulder your little grip and hie away to Minneapolis, meet the old boys once again, and have a good time as usual.

W. E. HALE, President.
J. F. FULLER, Secretary.

Advertise in the GAZETTE.

Peace Commissioners.

The proposed peace commissioners to settle the question of the ownership of the Philippine Islands, may sound all right to some. But it looks to us as if it was an useless commission. After the war with Spain the President knows we want Cuba to be free. He knows we want Porto Rico. He knows we want an Island of the Ladrone groupe, but for the life of him he don't seem to know what disposition to make of the Philippine Islands. To most people it looks as if he could decide that important question just as easily as he could the question of what to do with the other islands mentioned. We have defeated Spain at every point. We have wiped out of existance most of their boasted fleet. We are entitled to know what we want before the Peace Commission is made as well as afterwards. We could just as well say we will take the Island of Luzon, or a part of it; or we will pull out and leave it as we found it, a very poor thing to do now, as to appoint a Peace Commission to quarrel over it, while drawing a big salary, and discussing whether we shall pay the $500,000,000 Cuban bond, and a lot of other matters that can be rung in to make political issues until after election anyway. We could make our proposition to Spain and Spain could accept concerning the Philippines just as well as in regard to the other Islands. If we have not finished the war. If we have not punished Spain enough so that she is willing to agree to about what we ask of her in reason, then our duty is to finish the job while we are at it, and not leave it to be done over again after the Peace Commission has listened to all the powers and possibly got several of them into open hostilities on the question.

C. K. Davis, it is given out will be tendered a place on the Peace Commission and refuse to serve. He evidently sees no chance for making unto himself any glory by being a member of that commission. Of course it will be made a catch basin for washing all the ugly questions that capitalists, speculators, religious, political or other people with a pull can ring in. It would be better for Mr. McKinley to get his opinions of his big men, if that is what he wants, and then make his demands now, than to wait after using guns to defeat the Spanish, to allow them to wring from us our victory by diplomacy.

Why not quit when we are done, or fight till we are ready to quit, while we are at it. No use leaving the door open for another disagreement at once, nor is there any use of suspending hostilities with Spain's Philippine troubles on our hands. Make a clean, square ending to hostilities when we do quit, without any Peace Commission tinkering.

Fletcher's Fix.

Hon. S. M. Owen, who was nominated by the democrats and silver republicans for congress in this district, declines the nomination. He has so written to E. S. Corser, who made the nominating speech in his behalf. Mr. Owen was tendered the support of democrats, silver republicans and populists prior to the primaries, when a committee waited upon him to secure his consent to support him for the place. It has therefore been a forgone conclusion that he would resign. This leaves Prof. T. J. Caton the sole candidate in the field against Loren Fletcher Caton has taken the stump for Lind and Gray and the allied state and city tickets, and is earning for himself the deserved praise of the allied forces. He will make an aggressive and able campaign.—Free Press.

Worthy Of Thought.

"No sympathy is worthy of the name which is a respector of persons. Some centuries ago but a few loving and Christ like souls claimed brotherhood with all humanity; to-day the circle is wide which does this, and we feel in a sense that we are all our brothers' keepers."—Our Dumb Animals.

A Dewey Story.

Admiral Dewey was always a strict disciplinarian, and occasionally inflicts punishment in curious ways.

Once while in a foreign port he suddenly ordered the heaviest tackle to be gotten out of the hold without delay. After two hours' work his order was carried out, and he then directed that a large chew of tobacco which had been thrown under one of the guns be hoisted overboard. Never again on that cruise was such an unpardonable offense committed.—New York Dispatch.

All About Flirting.

The first question a man asks when he sees a girl flirting is whether she is respectable or not; it raises a doubt at once. This being the case, no modest girl can afford to indulge in the pastime. When the down is brushed from a peach its beauty is so marred it can never be restored, and when a young girl throws lightly aside that sweet and modest reserve so becoming to a maiden, and which so elevates her and enables her to command the respect of all, she loses her great charm, and becomes rather cheap and common, to use no rash term. Flirting may seem to the giddy and thoughtless girl wonderfully amusing, and she may get the idea that she is fascinating, but it is a most degrading thing, and should be frowned upon by every young lady who has an ambition to become a worthy and charming young woman.—Maquon (Ill.) Breeze.

FOOLISH QUESTIONS.

I saw a sweet young mother with
Her firstborn at her breast;
"And what's the baby's name?" I asked
Of her so richly blessed,
She looked at me with pity, as
She proudly polsed her head:
"We call him Dewey, sir, of course,"
In tender tones she said.

I met a dainty little girl
Who led a kitten by a string,
And as I stroked her head I asked:
"What do you call the pretty thing?"
She looked at me with wide blue eyes,
And, as she went her way,
"I call my kitten Dewey, sir,"
I heard her sweetly say.

I met a curly-headed boy
Who had a brindle pup;
"And what's your doggy's name?" I asked,
As I held the creature up.
He gazed at me in wonder, and
He proudly cocked his head:
„I call him Dewey, sir, of course!"
He pityingly said.

I stopped beside a rustic stile,
And heard a milkmaid sing a song:
"And what's your bossy's name?" I asked
The lassie, as she came along.
She looked at me in mild surprise,
And as she strode away,
"Why, Dewey is her name, of course!"
I heard the maiden say.

—S. E. Kiser in Cleveland Leader.

Latest News

Battle of Manila.

The 13th Minn. in the Fight. Bugler Patterson Co. I, Killed.

After a bombardment by Dewey's fleet and a land charge by Merritt's men, and the insurgents Manilla surrendered last Saturday. Reports give from six to eight killed, and from 39 to 45 wounded. Spanish loss much heavier. Reports are not complete.

The names of those killed and wounded, in the 13th Minn. at the battle of Manilla are:

ARCHIE PATTERSON, Killed.

Capt. BJORNSTAD, Co. H. Wounded.

Capt. OSCAR SEEBACH, Co. G. Wounded.

A report from Singapore dated Aug. 18, says that heavy fighting occured between the Spanish and Insurgents in Southern Lozon, near Paglatuan, Pilar and Ponsol. The Spanish burned Pilar and massacred 500 natives.

The American troops are in complete control of Manilla. All the forts are in their hands, and they have about 6,000 prisoners.

AUGUST—1898.

Sun.	Mon.	Tue.	Wed.	Thur.	Fri.	Sat.
....	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30	31	....	....	....

Hawaii received the news of her annexation with joyful acclamations. The volcano had an eruption and one or two of the islands trembled with delight.

The pig-iron production of the United States has gone far beyond the record during the first six months of 1898. A total of 5,909,703 tons is nearly 20 per cent. greater than in previous years.

Two troopers named Moon and Angel were among the cavalry at Camp Alger, near Washington. They were bosom friends, being seldom apart and their comrades named them "the heavenly twins."

The latest atrocity in the song line is "The Rough Riders' Serenade." It begins, "I am lying in my tent, sweet Marie," and is on the same emotional order as "After the Ball" and "Grandma's Teeth Are Plugged With Zinc."

The American girls now propose to buy a battleship. This we consider much preferable to the scheme so long popular of buying titled Europeans for husbands. With enough battleships they can go and take them, like the Amazons.

Gov. Leedy has pardoned a convict in the Kansas penitentiary who was sent there for stealing a pair of trousers. The sentence was for six years, only four of which had expired, but the governor doubtless took into consideration the fact that trousers have shrunk a good deal since 1892.

The powers of Europe have suddenly discovered that the United States have a right to do as they please with reference to the disposition of territory conquered from the Spaniards. The achievements of the American navy since this war began have had a wonderful effect in clearing the vision of our foreign friends.

So far as is known the Sixteenth Pennsylvania volunteers is the only regiment which includes in its muster roll three brothers who are triplets. They hail from Jeannette, and their name is Wentzell. In the same company with the Wentzell boys are a father and son, the second lieutenant being an ordained Presbyterian minister.

Dwight L. Moody says that during the war with Spain 5,000 men in the American army have been converted. This has been the work of the Army and Navy Christian commission. The influence exerted in the camps by the commission has been wonderful, and more than one boy in blue will come home a better man than he was when he went to the front.

The simplest public railroad now operated is thought to be one between Atami and Odawara, in Japan. It is a narrow-gauge road, and is run by man power. The cars have seats for four persons each, who sit back to back. A train consists of two or three cars and is drawn uphill by half a dozen coolies. At the top of the inclines the coolies jump on the platforms and the train runs down to the terminus by gravity with the speed of an express. It is said there has never been an acident on this road.

It is fair to presume that naval and military heroes of the war with Spain would feel indignant if rewarded for their gallantry as were those of revolutionary days. Gen. Stark, for instance, after the battle of Bennington was presented by congress with "two ells of blue and one of yellow cloth to make him a coat, and half a dozen shirts of Dutch linen." And he was charged with ingratitude when he complained that congress had overlooked the matter of giving him cambric with which to make the cuffs!

A majority of the generals in our army are well along in years. The ages of some of them are given as follows: Gen. Young is 58, Shafter 63, Wheeler 62, Hawkins will reach the retiring age of 64 this year, Kent is 62, Lawton 55 and Sumner, Bates and Chaffee each 56. These are the general officers in Cuba with Shafter. The age of the generals in camp at home is also advanced. Coppinger is 63, Brooke 60, Corbin 56, Sheridan 58, Henry 59, Graham 64, Wilson 51, Butler 62 and one-legged Lee is 63. Wade is 55, the youngest of the major generals.

No wonder Spain mourns over her honor and the American disregard of international law! Here is Gerald O'Grady, a rough rider, writing from Cuba to his home in the state of New York that when out on a scouting expedition, with nothing but an unloaded pistol, he was attacked by an armed Spanish soldier, who had just killed his companion, and he says that he "punched the enemy in the nose with his fist and knocked him silly." By all the rules of civilized warfare Gerald should have submitted to being killed or captured.

"Where did these Yankees learn to fight?" "How did they master the art of war?" These are the questions which representatives of foreign governments who were with the land and naval forces of the United States are asking themselves. The thing is not at all puzzling to one who understands the genius and spirit of American institutions. The European soldier is in the ranks because he is compelled to be. The American soldier is there because he has a country to defend, and regards it as a duty to aid in her cause. This is why the Yankees can fight.

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

Notice was sent to Gens. Miles, Shafter and Merritt and Admirals Sampson and Dewey of the progress of peace negotiations.

Gen. H. W. Lawton has been appointed military governor of the province of Santiago.

Great precaution is being taken by both the war and treasury departments to prevent the introduction of yellow fever into the United States.

After a sharp skirmish in which two Americans and many Spanish soldiers were killed Gen. Schwan's command captured Mayaguez, Puerto Rico.

In Washington on the 12th the formal act of signing the peace protocol was performed. Secretary of State Day's name was affixed in behalf of the United States and that of M. Cambon, French ambassador, for Spain. President McKinley issued a proclamation suspending hostilities and orders were cabled to the military and naval commanders. The peace commissioners will meet in Paris not later than October 1.

Orders were given Admiral Sampson to proceed with his largest warships to Tompkinsville, N. Y., at once. The monitors were ordered to remain at Puerto Rico. Commodore Remy and the blockading squadron at Havana were ordered to Key West.

For the present the army is to be kept consolidated as the men will be needed for garrison duty in Cuba and elsewhere. Secretary Alger says the troops at present in Puerto Rico will be kept there.

The blockading squadron guarding Havana harbor was fired upon from Morro castle, and the flagship San Francisco was damaged by a shell.

From Washington comes the announcement that no more troops would sail for Manila.

W. A. Kenson and H. M. Hone, of Toledo, O., and Clarence Babcock, of Gibsonburg, O., were arrested at Toledo for deserting from Chickamauga.

Orders were issued raising the censorship on all cable messages, except in Cuba and Puerto Rico, and in those islands it has been limited to cipher messages and messages obviously detrimental to the United States.

Washington advices state that it has been determined to retain the volunteer army in service for several months and to increase the peace standing of the regular army to probably 100,000 men.

Gens. Machias and Blanco officially acknowledged receipt of the orders for suspension of hostilities, and state that the instructions were being obeyed.

The war department at Washington has been advised through the Cuban junta that the Cuban insurgents will accept the terms of the peace protocol between the United States and Spain and that hostilities will cease on their part.

The City of Sydney, one of the first fleet of transports to carry troops to Manila, returned from the Philippines to San Francisco.

FROM WASHINGTON.

In July the total imports of dutiable sugar were $5,299,970, against $2,281,287 for July, 1897.

By filing a bond of $250,000 with the secretary of the treasury the North American Trust company has been made fiscal agent of the government at Santiago.

A statement of the imports and exports of the United States shows that during the month of July the imports of merchandise amounted to $50,647,366 and the exports amounted to $71,189,742.

THE EAST.

In a drunken rage Henry C. Hawley, a New York city policeman, fatally shot his wife, his mother, his son and daughter and then killed himself.

At the leading clearing houses in the United States the exchanges during the week ended on the 12th aggregated $1,221,929,527, against $1,187,638,574 the previous week. The increase compared with the corresponding week in 1897 was 5.8.

In the United States there were 196 business failures in the seven days ended on the 12th, against 196 the week previous and 239 in the corresponding period of 1897.

In Dover, Del., Mrs. J. Polk Deane, and her sister, Mrs. J. F. Dunning, died from eating poisoned candy.

The democratic state committee of New York has decided to hold the state convention at Syracuse Wednesday, September 28.

Percentages of the baseball clubs in the National league for the week ended on the 14th were: Cincinnati, .650; Boston, .643; Cleveland, .608; Baltimore, .591; New York, .556; Chicago, .545; Pittsburgh, .521; Philadelphia, .479; Brooklyn, .389; Louisville, .374; Washington, .354; St. Louis, .283.

WEST AND SOUTH.

Democrats of the Twelfth district of Illinois nominated J. M. Thompson for congress.

On the Burlington road near St. Joseph, Mo., robbers held up a train and took $8,000 from the express car.

In Chicago Charles Baier and his wife, Minnie, an old German couple, were burned to death in their home by a fire started by robbers.

Fire destroyed the entire business portion of Wheatland, Cal.

The death of Rear Admiral Kirkland, commandant of the Mare Island navy yard and senior officer of the United States navy, occurred at Vallejo, Cal.

For killing his stepfather Summerfield Dennis, a negro boy less than 17 years old, was hanged at Snow Hill, Md.

With Admiral Miller and staff on board, the United States steamship Philadelphia arrived in Honolulu, and the admiral will raise the American flag over the Hawaiian islands.

In Crooked Lake, near Angola, Leonard Roby, son of Judge Roby, of Auburn, Ind., and Miss Lena Rempis were drowned.

About 40 miles from Sitka, Alaska, large and extensive coal deposits have been discovered.

Flames at Fresno, Cal., destroyed property valued at $500,000 and caused the death of four persons.

Albert Robinson and James Davis were drowned in a lake near Paducah, Ky., by the overturning of their boat while fishing.

Democrats of the Eighth congressional district of Texas nominated S. W. Lanham to succeed himself.

The sheriff and a posse of 13 men made a raid on a crowd of negro gamblers at Bayboro, Ga., killing five of them and mortally wounding three others.

The oldest woman in Nebraska, Mrs. Delilah Cromwell, died at her home in Table Rock, aged 120 years.

FOREIGN INTELLIGENCE.

Fire destroyed the Criterion hotel in Cormanstown, Australia, and 40 inmates were cremated in their beds.

By accident in the harbor of Yokohama, Japan, Miss Bella J. Allen and Miss Maud E. Simon, American missionaries from Chicago, lost their lives.

Fire nearly wiped out the city of Kazan, capital of the government of the same name in Russia.

Near Bonvillers, France, seven persons were killed and 41 injured by the derailing of a train.

Melbourne advices report that the American bark C. C. Funk, which sailed from Tacoma, Wash., on May 22 for Melbourne, has been wrecked on Flinders island, Tasmania, and that 11 of those on board were drowned.

LATER NEWS.

Charles H. Meyer, German consul in Philadelphia, died of apoplexy, aged 72 years.

The death of Prof. John C. Fillmore occurred at New London, Conn. He was a noted authority on Indian music.

The Spanish steamer Isla de Luzon sailed for Spain from Santiago, having on board 2,136 Spanish soldiers.

It was said at Washington that Gen. Fitzhugh Lee would enter the senatorial race in Virginia.

It is reported in Washington that Col. Roosevelt intends to resign his commission on account of the action of Secretary Alger in making public a private letter of the colonel.

Governor-General Augusti, of the Philippines, has arrived at Hong-Kong on his way to Spain, having renewed his resignation. Augusti turned over his office to a subordinate pending the surrender of Manila.

It was said that 32 lives were lost in the recent cloudburst in Hawkins county, Tenn., instead of 20, as previously reported.

Terrible wind and rainstorms were reported in several states, doing much damage to property and crops.

A cyclone near Gary, S. D., destroyed much valuable property besides killing a number of people.

Consul Wildman, at Hong-Kong, cabled the state department that Admiral Dewey had bombarded Manila and the city surrendered unconditionally.

Maj. F. W. Read, of Savannah, Ga., was found dead in his room at a New York hotel. His wife died about the same time at her home in Savannah.

It was reported that Gen. Blanco has resigned his office as governor of Cuba, wishing to avoid his humiliating duties in connection with the evacuation.

At a meeting of American and Cuban officers in Santiago it was resolved to disband the Cuban army and the United States would pay the men off.

John Searles, a wealthy farmer, murdered his young wife and then killed himself at their home west of Peru, Ill.

Gen. Wheeler and Col. Roosevelt disembarked with their regiment of rough riders from the Miami at Camp Wikoff, Montauk Point.

The mortality was said to be so great in the camp of Spanish prisoners at Santiago that no longer are the dead buried, but a funeral pile of ten or twelve bodies is made, saturated with kerosene and set fire to, cremating the bodies in the open air.

MINOR NEWS ITEMS.

John H. Lane, storekeeper of the United States transport Minnewaska, dropped dead on his boat at Savannah, Ga.

The total earnings of 56 railroads for the month of July amounted to $24,423,483, an increase of $650,278 over the same month in 1897.

One of the first business enterprises to follow the acquisition of Puerto Rico is likely to be a new cable connecting that island with the United States.

Pettit, the missing millionaire real estate dealer of New York, is reported to have been among the passengers who perished on the steamer La Bourgogne.

A company of New York business men are making arrangements for the erection of an American hotel in Havana, as soon as the city is evacuated by Gen. Blanco.

F. A. Leach, superintendent of the United States mint in Port Townsend, Wash., estimates that the gold output of the Klondike this year has been only about $5,000,000.

Three hundred and sixty-seven thousand acres of land will be restored to the public domain in Minnesota and on October 5 next entries for homestead titles can be made.

Mme. Charles Frederick Worth, widow of the famous costumer who died in March, 1895, and his successor in the superintendence of the Worth establishment, died in Paris.

Col. Roosevelt has sent five dollars to each of the five rough riders lying wounded in the post hospital on Governor's Island, with the message to notify him if they needed anything.

Correspondence published by Secretary Long goes to show that Commodore Schley agreed with Admiral Sampson as to the danger of entering Santiago harbor as long as the mines were in position.

While leaning from a window of the knitting works in Shamokin, Pa., Miss Jennie Allison, aged 18 years, was electrocuted by her nose coming in contact with a telephone wire that had been crossed by a live arc light wire.

The president has appointed Judge J. M. Hobson, father of Lieut. Hobson, of Merrimac fame, postmaster at Greensboro, Ala. Mr. Hobson is a democrat, and the nomination was made at the earnest request of his republican fellow townsmen as a mark of good feeling.

MANILA HAS FALLEN.

City Is Bombarded and Soon Unconditionally Surrenders.

Gov. Gen. Augusti Resigns His Post and Is Now on His Way to Spain—Gen. Blanco Has Tendered His Resignation.

Madrid, Aug. 16.—According to La Correspondencia de Espana, the surrender of Manila occurred after the last attacks made upon the city.

Washington, Aug. 16.—The department of state has just issued the following:

"The following dispatch was received at the department of state at 11:15 p. m. August 15 from Consul Wildman, Hong-Kong: 'Augusti says Dewey bombarded Manila Saturday. City surrendered unconditionally. Augusti was taken by Germans in launch to Kaiserin Augustin and brought to Hong-Kong. I credit report.'"

Action Has Been Expected.

The information contained in Consul Wildman's brief message aroused intense interest, but created no surprise among those officials who received it. For two or three days news of the fall of Manila has been expected. The last dispatches received from Admiral Dewey and Gen. Merritt indicated that it was their purpose to force a surrender of the city as soon as possible. It is believed that they joined in a note to Gen. Augusti demanding the surrender of Manila, threatening to make a combined sea and land attack upon the city unless the demand was acceded to. While no further information than that received in Consul Wildman's dispatch has been received by the administration, it is in a measure confirmed by a brief dispatch from Madrid.

Augusti Fled Too Soon.

If the report of Gen. Augusti be true, and its accuracy is not questioned here, the probabilities are that official dispatches will be received by the government in a day or two, at latest. The flight of Gen. Augusti from Manila created some amused comment here. As one official expressed it: "Had he maintained his position, hard as it was, until the arrival of the news of peace, he would have been a hero; but he fled, and he will be branded as a coward."

Augusti at Hong-Kong.

Hong-Kong, Aug. 16.—Gen. Augusti, captain-general of the Philippines, arrived by the Kaiserin Augustin. He refuses to be interviewed and will say nothing more than that he is going to Spain at the first opportunity. The precise facts are not known, but it is supposed that Gen. Augusti fled from the Philippines.

Blanco Resigns.

Madrid, Aug. 16.—The government has received from Capt. Gen. Blanco a dispatch tendering his resignation. The reason given by Gen. Blanco for resigning is that he does not wish to superintend the evacuation of Cuba.

MASSACRE IN PUERTO RICO.

Spaniards Fall Upon Women and Children and Slay Them with Machetes.

Ponce, Puerto Rico, Aug. 16.—Six Puerto Ricans, accompanied by a priest, arrived at Coamo Monday morning from Ciales, 30 miles northwest of that place. They had walked all the way across the mountains. They reported that Spanish soldiers, crazed by liquor, came from Maniti to Ciales Saturday. An improvised American flag had been raised on the plaza. The sight of it so enraged the Spaniards that they attacked with machetes all the men, women and children they could find. They killed or wounded about 90 persons. Then they sacked the town. The priest asked Gen. Wilson to send aid.

A Jealous Husband's Revenge.

Omaha, Neb., Aug. 12. — A special from Deadwood, S. D., to the Bee says: Three men dead and a woman dying is the net result of a shooting affray at Central City Thursday morning. Judge J. P. Giddings, Ed Shannon and Jack Wear are the men, and Mrs. Ed Shannon is the woman. Shannon had a boarding house at Terry and one at Central City. He stayed at night at Terry's, leaving his wife to look after the other place. At 6:30 Shannon returned to Central City and roused Judge Giddings. Just what happened in the office no one knows, but the two men suddenly burst into the street engaged in a death struggle. Shannon had a revolver. Jack Wear tried to separate them and was shot through the body, dying instantly. Shannon then shot Giddings through the head, killing him. He then went to his wife's bedroom and beat her about the head with his revolver until he thought he had killed her, and then with a fresh revolver shot himself.

Death of an Aged Lady.

Lincoln, Neb., Aug. 15.—Mrs. Delilah Cromwell, the oldest woman in Nebraska, is dead at her home near Table Rock. She was a small girl when Washington was president and insisted some months ago that she was born in 1778. Neighbors who have known her for 30 years believe she was about 110 years old. Her fourth husband died of old age a quarter of a century ago.

Court-Martialed and Shot.

Milwaukee, Aug. 15. — A special to the Journal from Marinette, Wis., says: Word has been received here from Ponce, Puerto Rico, that Private La Luke, of the Second Wisconsin regiment, who shot and killed Private Stafford, of the regular army, during a quarrel in a saloon at Ponce, was court-martialed August 3, found guilty and shot on the morning of August 4.

Censorship Raised.

Washington, Aug. 15.—Gen. Greely has issued orders raising the censorship on all cable messages except in Cuba and Puerto Rico, and in those islands it has been limited to cipher messages and messages obviously detrimental to the United States. Spain has been restored to the use of the cable the same as other nations.

Fatal Flames.

San Francisco, Aug. 15.—Fire late Saturday night destroyed $500,000 worth of property in the raisin-packing section of Fresno City and caused the loss of four lives—three Chinese and a white watchman named Harper. The property destroyed represented the best part of the raisin-packing plant of the city.

BIG NAVAL DISPLAY.

Sampson's Fleet to Be Reviewed in New York Harbor—Will Fire a Salute at Gen. Grant's Tomb.

Washington, Aug. 16.—The navy department has decided to yield as far as practicable to the public desire at New York for a naval review of the ships of Admiral Sampson's fleet. Accordingly Acting Secretary Allen issued the following order:

"The department is much gratified at the desire expressed to see a review of the warships and cruisers recently ordered home, and so far as practicable is desirous of carrying out the wishes of the citizens who wish to see the ships. But neither the officers nor the men of the fleet are in condition to participate in a street parade. The department is taking the opportunity of the armistice to put these ships at once into the best possible condition for such uses as may hereafter be required of them. It is expected all other work will be suspended and the entire available force of the navy yard directed to this work in order to secure the greatest possible dispatch. The department will direct that, upon arrival in New York harbor, the fleet will steam up the North river as far as Gen. Grant's tomb, fire a salute and steam back to the anchorage. It is expected that the fleet will reach New York on Saturday, the 20th inst."

The plan is to have Admiral Sampson met off Sandy Hook with orders for the procession up the North river. It is expected that the fleet will be off Sandy Hook some time Friday night, but they will lie outside the harbor until Saturday morning.

ROUGH RIDERS AT HOME.

Roosevelt and His Command, Together with Gen. Wheeler, Reach Montauk Point.

New York, Aug. 16. — The rough riders with Gen. Wheeler and Col. Roosevelt have been landed from the Miami at Montauk Point and are now in the detention camp, where they will remain in quarantine for a few days. Some of the men were so weak that they were hardly able to walk. The newspaper men could not get near enough to either Col. Roosevelt or Gen. Wheeler to have interviews with them.

After the rough riders had all landed and started for the detention camp, Col. Roosevelt was met by the newspaper men. They endeavored to get him to tell about his experiences, but failed. He refused absolutely to talk about his achievements, but gladly spoke of the work of his men. He said they were all brave and went into danger without hesitation.

Washington, Aug. 16. — A cable message was received at the war department from Gen. Shafter at Santiago de Cuba saying that he expects that the last of the troops of his corps (the Fifth) will have left Santiago for the United States by Thursday next, and that he, Gen Shafter, will start for home next Saturday.

THE NATION PROSPERS.

The Balance of Trade Is Still Largely in Favor of the United States.

Washington, Aug. 15.—The monthly statement of the imports and exports of the United States shows that during the month of July the imports of merchandise amounted to $50,647,366, of which $19,581,265 was free of duty. As compared with July, 1897, a decrease is shown of about $3,000,000. The exports of domestic merchandise amounted to $71,189,742, an increase of over $1,000,000.

The gold imports for July aggregated $2,613,530, as compared with $938,951 for July, 1897. The exports of gold amounted to $1,497,013, against $5,462,869 for July, 1897, the imports of silver aggregated $3,026,192, against $2,693,864 a year ago.

The exports during July were $4,879,783, which is practically the same as for July, 1897.

For the last seven months there is shown to have been a decrease of $129,585,399 in the imports of merchandise, and an increase in the exports of $131,736,099. The gold imports during the same time increased $88,043,441, and the exports decreased $22,835,866. The imports of silver decreased $1,822,193, and the exports $3,381,424.

Hold-Up in Missouri.

St. Joseph, Mo., Aug. 12.—The incoming Omaha flyer on the Burlington road was held up at Dug Hill, two miles north of here, at nine o'clock Thursday night by five or six well-armed men. After securing possession of the express car the robbers rolled the Adams Express company's small safe out of the car door into a wagon and endeavored to haul it away. They abandoned their task, however, and soon dumped the safe out upon the highway. The safe was recovered two hours after the hold-up, and had not been opened, the trainmen say. Though several shots were fired to intimidate the trainmen, none of the passengers on the train were molested.

Kansas City, Mo., Aug. 12.—Soon after the express robbery on the Burlington road was reported here a railroad official who ought to have been well informed made the statement that the robbers secured $8,280 from the safe which they took from the Adams Express company's car. The treasure, it was stated, consisted of six packages of $1,000 each, four packages of $500, one of $250 and another of $20.

Murdered His Family.

New York, Aug. 12.—After years of wrongful living and secret drunkenness, Policeman Henry C. Hawley, who was accounted "a very good officer" by his superiors and brother policemen at the "Tenderloin" station, to which he was attached, finished his earthly career shortly before noon Thursday by killing himself, after murdering the mother who raised him, his wife and their two young children in a squalid apartment on the top floor of the tenement 643 Sixth avenue.

Cremate the Bodies.

Santiago, Aug. 16.—The mortality is so great in the camp of Spanish prisoners, where disease is rampant, that no longer are the dead buried. A funeral pile of ten or twelve bodies is made, saturated with kerosene and set fire to, cremating the bodies in the open air. The embarkation is being pushed rapidly.

Japan Will Protest.

Seattle, Wash., Aug. 15.—Japanese papers received here contain a story to the effect that the Japanese ministry will protest against the United States holding the Hawaiian islands in order to remove the opposition of the upper house to it by raising an issue of foreign complications.

MINNESOTA NEWS.

Telegraphed the President.

Gov. Clough feels in common with many citizens that in the matter of assignment of troops this state has not been fairly treated. Recently the following telegram was sent to the president:

"Under the first call for troops, Minnesota was the first state in the union to mobilize troops and get them out of the state. The Twelfth and Fourteenth regiments, now at Chickamauga, are second to none in the United States, according to all reports, and at the same time they are still in camp. It seems to me that Minnesota has been sadly neglected, so many other regiments, far inferior to Minnesota troops, in equipment, drill and general fitness for field work, have been given preference and sent to the front. Our officers and soldiers and also the entire people of our state feel that we are not receiving fair treatment.

"Is it not possible to get at least one of our regiments now at Chickamauga into active service?

—"D. M. Clough, Governor.

Crop Report.

U. S. Department of Agriculture, Minnesota Section.—Wheat harvest is progressing very nicely in the Red River valley, and in all parts of the state south of Otter Tail, Cass and Carleton counties stacking has been going on as rapidly as possible, except in that portion where the showers of the 9th caused delay. The grain put in stack after being well dried, subsequent to the heavy rains, is in good condition, but where the rains were heavy some grain in shock is in poor condition, and some stacks are injured, but on the whole the crop is well cared for. Threshing from the shock continues in most parts of the south, and the returns show satisfactory yields of wheat, barley and oats. Early flax is being cut, and late flax is approaching maturity. The crop is a good one. Cool nights have tended to retard the ripening of corn, but most of our correspondents think it will be secured safely if frost holds off till Sept. 15; the crop is a very good one.

Two Big Attractions.

The Minneapolis Festival of Fire has acquired two new features that outshine all the rest thus far on the program. Colonel Haskell received from Assistant Secretary of State Cridler a very kind offer to contribute his splendid collection of war relics from Manilla—the only collection in America commemorating Dewey's great victory. At the same time Colonel Haskell was informed by Secretary of War Meiklejohn that he would gladly loan a famous collection of war relics from the battlefield of Santiago. These two famous collections, constituting as they do a complete panoramic history of the American arms during the present war, will be seen for the first time in Minneapolis, never having been exhibited publicly before.

A New County Wanted.

Petitions have been placed in circulation in Duluth and on the iron ranges for a division of St. Louis county into two parts, the dividing line to run east and west and the new county to be known as Iron county, to contain the Vermillion and Mesaba iron ranges. The temporary county seat is to be at Virginia. When the necessary number of signatures—4,500—are obtained, the matter will be submitted to a vote at the general election in November. The arguments in favor of the division are that St. Louis county is too large for one government, and that the long distances make it too expensive.

Bad Accident.

The first serious accident on the Fosston extension of the Great Northern occurred near Cass Lake, two men being instantly killed, and a number seriously, possibly fatally, injured. A construction train, with about a hundred bridge men and laborers, left Cass Lake early in the morning to take the men out to work on one of the new bridges. The bridgemen and laborers were riding on flat cars. Twelve miles out from Cass Lake the train struck an obstruction on the track and four flat cars were derailed and their human freight scattered in every direction.

Baby Dies from Burns.

The 1-year-old child of C. I. Francis, at South St. Paul, died from scalds. The child was sitting at the table, and near it was a pan of milk which had just been taken from the stove. When the mother's back was turned the child seized the tablecloth and pulled. The pan of boiling milk was upset over the child's head and breast, causing frightful burns, and 24 hours later the baby died.

Minnesota Briefs.

The government steamer Fury and fleet have begun operations on the river improvements below Hastings.

Mrs. Martha Wederbrand, of St. Paul, died from burns received by the explosion of a gasoline stove.

In an attempt to fleece Edward Hart, a railroad conductor, out of a sum of money, Clarence Cahill was arrested by Detective Murnane at St. Paul.

Three hundred operatives are thrown out of employment by the explosion of a boiler in the saw mill of the Crookston Lumber Co. One of the seven boilers let go, blowing out the walls of the engine room, slightly scalding one man. Two others were hit by flying bricks. The plant was shut down.

The large breeding barn of Nathan Butler, at Barnesville, was burned. Loss $1,500.

The work of the Ramsey county board of equalization is completed. The total valuation of property in St. Paul and Ramsey county for taxation will amount to $97,000,000.

The State Dental association will hold its thirteenth annual session in St. Paul, Sept. 6-8.

Minneapolis has a girl baby named Manilla Philippina Miller.

A half grown mountain lion escaped from its cage in a Minneapolis dime museum and make things lively until lassoed by a cowboy.

The democrats of Minneapolis nominated James Gray, city editor of the Daily Times, for mayor.

E. W. Kern, of Rochester, was robbed of his shoes and watch while asleep in a Minneapolis saloon.

A. B. Ovitt, St. Paul, was appointed commissioner of federal juries, vice O. C. Merriman, resigned to accept the office of referee for the Hennepin division under the new bankruptcy law.

The populists of the 4th Congressional district nominated N. S. Beardsley, of St. Paul, for congress.

Mary Subhardt was arrested at Winona for shoplifting.

Warm Weather

Weakness is quickly overcome by the toning and blood enriching qualities of Hood's Sarsaparilla. This great medicine cures that tired feeling almost as quickly as the sun dispels the morning mist. It also cures pimples, boils, salt rheum, scrofula and all other troubles originating in bad, impure blood.

Hood's Sarsaparilla

America's Greatest Medicine. $1; six for $5.

Hood's Pills cure biliousness, indigestion.

The Grand Army Official Route.

The comrades believe in the principle of "staying by their friends." Having used the MINNEAPOLIS & ST. LOUIS R. R. for several years in attending annual encampments, and always finding them obliging and courteous as well as redeeming every promise given in regard to superior train service and and accommodations, that the line has been again selected as the most desireable route.

The HEADQUARTERS SPECIAL TRAIN to Cincinnati will leave Minneapolis & St. Louis Stations on Sept. 3d, as follows: St. Paul 7:30 p. m., Minneapolis 8:00 p. m., Waterville 10:10 p. m., Waseca 10:30 p. m., arriving at Cincinnati Sunday Evening, Sept. 4th.

The train will consist of chair car (seats free), smoker, tourist cars (berths $1.50, large enough for two persons,) and Palace sleepers (berths $4.00, large enough for two). The rate is $17.50 from St. Paul and Minneapolis, and correspondingly low from other points. Tickets will be on sale Sept. 3, 4, 5, good returning from Cincinnati up to Sept. 13th, and may be extended to Oct. 2d, on payment of 25 cents at Office of Joint Agent. Department Commander Mortimer will have charge of the train, insuring all comrades the best of attention.

Rates by THE MINNEAPOLIS & ST. LOUIS OFFICIAL ROUTE will be as low as any, and the accomodations superior. An attractive feature is the diverse route going via Peoria and returning via Chicago. For berth reservations and tickets write to Department Commander E. W. Mortimer, No. 1 Washington Ave. South, Minneapolis.

Making Out a Case.

"I am wondering," said Blanco, as he turned over his piece of army mule steak.

"What, your excellency?" asked the minion.

"If Cervera isn't guilty of treason in accepting all those square meals up there in America."—Philadelphia North American.

Shake Into Your Shoes

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, nervous, smarting feet and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired, aching feet. *Try it to-day.* Sold by all druggists and shoe stores, 25c. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.

Wars Within Wars.

"Another quarrel going on next door."

"What's the matter this time?"

"She wants to name the baby 'Dewey' and he wants the name for his wheel."—Indianapolis Journal.

Help for Hay-Fever.

Dr. Hayes' treatment controls the Asthma, relieves the itching and sneezing, checks the catarrhal symptoms, stops the cough and makes life endurable, at the same time bringing about a change of constitution which removes the cause and cures to stay cured. If you want to know about it, write to Dr. Hayes, Buffalo, N. Y. No charge for book on Hay-Fever and Asthma.

"So that is the famous playwright? But why is it that one reads so little about him nowadays?" "Oh, he has been famous too long."—Fliegende Blaetter.

AIDED BY MRS. PINKHAM.

Mrs. W. E. PAXTON, Youngtown, North Dakota, writes about her struggle to regain health after the birth of her little girl:

"DEAR MRS. PINKHAM:—It is with pleasure that I add my testimony to your list, hoping that it may induce others to avail themselves of your valuable medicine.

"After the birth of my little girl, three years ago, my health was very poor. I had leucorrhœa badly, and a terrible bearing-down pain which gradually grew worse, until I could do no work. Also had headache nearly all the time, and dizzy feelings. Menstruations were very profuse, appearing every two weeks.

"I took medicine from a good doctor, but it seemed to do no good. I was becoming alarmed over my condition, when I read your advertisement in a paper. I sent at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and after taking two-thirds of the bottle I felt so much better that I send for two more. After using three bottles I felt as strong and well as any one.

"I think it is the best medicine for female weakness ever advertised, and recommend it to every lady I meet suffering from this trouble."

Maternity is a wonderful experience and many women approach it wholly unprepared. Childbirth under right conditions need not terrify women.

The advice of Mrs. Pinkham is freely offered to all expectant mothers, and her advice is beyond question the most valuable to be obtained. If Mrs. Paxton had written to Mrs. Pinkham before confinement she would have been saved much suffering. Mrs. Pinkham's address is Lynn, Mass.

PEACE NOW A REALITY.

President Issues a Proclamation Ordering a Cessation of Hostilities.

THE PROVISIONS OF THE PROTOCOL.

Conditions Which Have Been Agreed to by Both Countries—Spain Will Leave Western Hemisphere—Commission to Be Appointed—Interesting Data Concerning War.

Washington, Aug. 13.—The president has issued the following proclamation:

"By the President of the United States of America—A Proclamation: Whereas, By a protocol concluded and signed August 12, 1898, by William R. Day, secretary of state of the United States, and his excellency Jules Cambon, ambassador extraordinary and plenipotentiary of the republic of France at Washington, respectively representing for this purpose the government of the United States and the government of Spain, the United States and Spain have formally agreed upon the terms on which negotiations for the establishment of peace between the two countries shall be undertaken, and

"Whereas, It is in said protocol agreed that upon its conclusion and signature hostilities between the two countries shall be suspended, and that notice to that effect shall be given as soon as possible by each government to the commanders of its military and naval forces;

"Now, therefore, I, William McKinley, president of the United States, do, in accordance with the stipulation of the protocol, declare and proclaim on the part of the United States a suspension of hostilities, and do hereby command that orders be immediately given through the proper channels to the commanders of the military and naval forces of the United States to abstain from all acts inconsistent with this proclamation.

"In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington, this 12th day of August, in the year of our Lord one thousand eight hundred and ninety-eight, and of the independence of the United States the one hundred and twenty-third.

"WILLIAM M'KINLEY.

"By the President:
"WILLIAM R. DAY, Secretary of State."

A copy of the proclamation has been cabled to our army and navy commanders. Spain will cable her commanders like instructions.

Text of the Protocol.

Madrid, Aug. 15.—The text of the protocol signed between Spain and the United States is as follows:

"His excellency M. Cambon, ambassador extraordinary and minister plenipotentiary of the French republic at Washington, and Mr. William Day, secretary of state of the United States, having received, respectively, to that effect plenary powers from the Spanish government and the government of the United States, have established and signed the following articles, which define the terms on which the two governments have agreed with regard to the questions enumerated below, and of which the object is the establishment of peace between the two countries, namely:

"Article 1. Spain will renounce all claim to all sovereignty over and all her rights over the island of Cuba.

"Article 2. Spain will cede to the United States the island of Puerto Rico and the other islands which are at present under the sovereignty of Spain in the Antilles, as well as an island in Ladrona archipelago, to be chosen by the United States.

"Article 3. The United States will occupy and retain the city and bay of San Juan de Puerto Rico and the port of Manila pending the conclusion of a treaty of peace which shall determine the control and government of the Philippines.

"Article 4. Spain will immediately evacuate Cuba, Puerto Rico and the other islands now under Spanish sovereignty in the Antilles. To this effect each of the two governments will appoint commissioners within ten days after the signing of this protocol, and these commissioners shall meet at Havana within 30 days after the signing of this protocol, with the object of coming to an agreement regarding the carrying out of the details of the aforesaid evacuation of Cuba and other adjacent Spanish islands; and each of the two governments shall likewise appoint within ten days after the signature of this protocol other commissioners who shall meet at San Juan de Puerto Rico within 30 days after the signature of this protocol to agree upon the details of the evacuation of Puerto Rico and other islands now under Spanish sovereignty in the Antilles.

"Article 5. Spain and the United States shall appoint to treat for peace five commissioners at the most for either country. The commissioners shall meet in Paris on October 1, at the latest, to proceed to negotiations and to the conclusion of a treaty of peace. This treaty shall be ratified in conformity with the constitutional laws of each of the two countries.

"Article 6. Once this protocol is concluded and signed, hostilities shall be suspended, and to that effect in the two countries orders shall be given by either government to the commanders of its land and sea forces as speedily as possible."

Some Data.

Here are some of the most important facts connected with the war:

War began	April 21, 1898
War closes	August 12, 1898
Duration of hostilities	114 days
Expense of actual warfare	$141,000,000
Americans killed	279
Americans wounded	1,465
Spaniards killed	2,199
Spaniards wounded	2,948
Vessels destroyed (American)	0
Vessels destroyed (Spanish)	35

Territory Lost by Spain.

	Square miles.	Population.
Cuba	41,655	1,631,000
Puerto Rico	3,670	806,708
Guam	150	8,000
Philippines	52,650	7,000,000

Reached Montauk Point.

New York, Aug. 15.—Four transports, the St. Louis, Vigilancia, Matteawan and Miami, having on board troops who were ordered home from Santiago de Cuba, have arrived off Cape Wikoff, Montauk Point, L. I.

WAR LEADERS NOTIFIED.

Receive Order Directing Them to Cease Hostilities Immediately—Troops in Puerto Rico.

Washington, Aug. 13.—As soon as the peace protocol was signed the president sent for Secretaries Alger and Long and Gen. Corbin, and by his direction orders to cease hostilities forthwith were sent to Gens. Miles, Merritt and Shafter, to Admiral Dewey and Sampson, and military commanders generally.

The orders to Gen. Merritt to suspend were as follows:

"Adjutant General's Office, Washington, Aug. 12, 1898.—Merritt, Manila: The president directs all military operations against the enemy be suspended. Peace negotiations are nearing completion, a protocol having just been signed by representatives of the two countries. You will inform the commanders of the Spanish forces in the Philippines of these instructions. Further orders will follow. Acknowledge receipt.

"By order of the secretary of war:
"H. C. CORBIN, Adjutant General."

In accordance with the proclamation issued by the president suspending hostilities, orders were issued to the naval commanders at the several stations in the United States, Cuba and the Philippines carrying into effect the directions of the proclamation. The navy department not only transmitted the president's proclamation in full to the several commanders in chief, but also directions as to the disposition of their vessels. The following orders are in that sense self-explanatory:

"Navy Department, Washington, Aug. 12.—Sampson, Santiago: Suspend all hostilities. Blockade of Cuba and Puerto Rico is raised. Howell ordered to assemble vessels at Key West. Proceed with New York, Brooklyn, Indiana, Oregon, Iowa and Massachusetts to Tompkinsville. Place monitors in safe harbor in Puerto Rico. Watson transfers his flag to Newark and will remain at Guantanamo. Assemble all cruisers in safe harbors. Order marines north in Resolute.

(Signed) "ALLEN, Acting Secretary."

"Navy Department, Washington, Aug. 12.—Remey, Key West: In accordance with the president's proclamation telegraphed you, suspend immediately all hostilities. Commence withdrawal of vessels from blockade. Order blockading vessels in Cuban waters to assemble at Key West.

(Signed) "ALLEN, Acting Secretary."

Ponce, Puerto Rico, Aug. 16.—On Saturday Gen. Miles notified Gen. Macias at San Juan by cable of the signing of the protocol, and Monday received from Macias an acknowledgement of the receipt of the notification. Gen. Miles also sent Capt. Mickler, under a flag of truce, to communicate the intelligence to the Spanish commander at Aibonito.

Gen. Miles says Aibonito would have been his within four days had not the protocol been signed. Gen. Wilson was moving to turn the enemy's right flank. Gen. Miles threatened his front; Gen. Brooke was pushing into his rear; Gen. Henry was within 15 miles of Arecibo, and Gen. Schwan had reached Mayaguez.

Gen. Miles personally is uncertain whether he will remain here during the period of the negotiations for peace, but the four army columns will remain where they are until the negotiations are completed.

Will Keep Force of 125,000.

Washington, Aug. 13.—Thus far the question of the disbandment of the volunteer army has not been given serious consideration by the war officials. A considerable force necessarily will have to be maintained for several months, perhaps a year. In the opinion of war department officials this force will be about 125,000 men. It will be kept in Cuba, Puerto Rico and the Philippines principally, although a few troops will be stationed in Hawaii in addition to the regular army force distributed among the various posts in this country.

Sutro Estate Insolvent.

San Francisco Aug. 16.—The Evening Post says that the $3,000,000 estate of the late Adolph Sutro is insolvent, and that unless the creditors agree to withdraw their claims for the time being that the estate will be hopelessly swamped. Much of Sutro's property is mortgaged and the interest and other necessary expenditures are eating the estate up very rapidly. The executors of the estate say that if time is given them every possible demand will be met and that there will be a residue for the heirs.

Heavy Loss by Floods.

Portsmouth, O., Aug. 12.—The floods in the Scioto valley have covered over 12,000 acres of corn land in the Scioto bottoms in the immediate vicinity of Portsmouth, causing a loss of over $200,000. The Ohio and Scioto rivers are still rising, and it is feared that the loss will be increased fully $100,000 more.

Work Resumed.

Somersworth, N. H., Aug. 16.—Number 1 mill, of the Great Falls Manufacturing company, employing 800 hands, resumed work Monday morning after a six weeks' shut down, due to a scarcity of orders.

Named for Another Term.

Tupelo, Miss., Aug. 12.—"Private" John M. Allen was on Thursday renominated for congress from the First Mississippi district.

DEATH IN A CYCLONE.

Much Property Destroyed and Eight Lives Lost in South Dakota—Cloudburst in Tennessee.

Minneapolis, Minn., Aug. 16.—A special to the Tribune from Gary, S. D., says: A terrific cyclone, accompanied by hail, running from northeast to southwest, struck Mortz Siding, about five miles west of here, Monday. Everything in the path of the storm was swept away. Eight people lie dead here, and more have been found. Thousands of dollars' worth of property are destroyed, and many cattle and sheep were killed. The Northwestern railroad is torn up, telegraph poles and snow fences are down. The wounded are being taken to Canby. One farmer had 200 acres of wheat in shock, and it was taken up by the wind, and no trace of the crop is left. The dead were found on the prairie with their clothing nearly stripped from their bodies, and badly mangled.

Knoxville, Tenn., Aug. 16.—Additional details relative to the terrible cloudburst in Hawkins county last Friday morning were received in this city Monday night. It was previously reported that 20 lives were lost in the flood, but it is now estimated that perhaps 32 persons became victims of the downpour.

St. Louis, Aug. 16.—Specials received here indicate that the severe wind, rain and hailstorm which visited southeastern Iowa and western Illinois Sunday and Sunday night caused considerable damage. Hail as large as apples is reported. Corn is leveled and fruit and melon growers have suffered considerable loss. The rain was the heaviest in many years, ranging from four to six inches in depth. Several bridges were washed out between Keokuk and Fort Madison.

REGRET HAY IS TO LEAVE.

Afternoon Papers of London Hope He Will See His Way Clear to Decline Day's Place.

London, Aug. 16.—The afternoon papers, without exception, express regret at the probable return of Ambassador Hay to the United States to succeed Secretary Day, and they hope that he will see his way clear to decline the appointment to the state department, as it would be a "pity to interrupt an ambassadorial career promising great results for the future of the two nations."

Ready to Raise the Flag.

Honolulu, Aug. 4, via Victoria, B. C., Aug. 13.—The United States steamship Philadelphia arrived here yesterday, six days and 20 hours from San Francisco, with Admiral Miller and staff on board, who came for the purpose of raising the American flag over the Hawaiian islands. Admiral Miller has orders to confer with Minister Sewall, and until after the conference nothing definite will be decided as to the flag-raising programme. It is generally understood that the flag will not be raised until the commissioners arrive on the 17th inst.

Rather Warm.

Walla Walla, Wash., Aug. 12.—All records for hot weather since the establishment of the weather bureau 27 years ago were broken Wednesday, when the thermometer reached 113 degrees in the shade.

Spokane, Wash., Aug. 12.—Wednesday was the hottest day ever experienced in Washington. In Spokane the maximum temperature was 108 degrees, one degree less than the record-breaking maximum of Monday. A telephone message from Pendleton reported 115 degrees.

A Sad Affair.

New York, Aug. 16.—Maj. F. W. Read, of Savannah, Ga., was found dead in his room at the Marlborough hotel Monday. In the morning he received a telegram signed M. Read which read: "Ma critically ill; come at once." Late in the afternoon when another telegram was delivered at the hotel for Maj. Read, being unable to arouse him, the door of his room was broken and he was found on the floor dead. Death was due to cerebral apoplexy. The second telegram announced the death of Mrs. Read.

Frightened to Death.

Macomb, Ill., Aug. 15.—Horace Adcock, a lad about 12 years of age, died at his home here Sunday afternoon from fright at the heavy electrical storm. The heaviest rain of the season occurred Sunday, over four inches of water falling in five hours. The corn is blown flat in nearly all parts of the county, and the damage to small grain in shock is considerable. The peach and apple crops were also badly damaged.

Given a Name.

Washington, Aug. 12.—Adjt. Gen. Corbin announces that hereafter the designation of the camp at Montauk Point will be Camp Wikoff, in honor of Col. Charles A. Wikoff, of the Twenty-second United States infantry, who was killed at the head of his brigade on the 1st of July at Santiago. This order was issued by direction of the president.

OFFICIAL MAP OF THE EASTERN END OF CUBA.

SYRUP OF FIGS

NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

1498—1898.
Calico's Four Hundredth Anniversary.

Calico was first manufactured in India in 1498, so that its use has been constant for more than four hundred years. William Simpson & Sons, most extensive manufacturers of this country, now produce the best grade of this kind of goods possible to make. Their prints are always attractive, the colors bright, clear and lasting. Dealers as well as buyers recognize this fact, and very wisely give them preference. Ladies who have not worn them will do well to remember this, as the piece of calico which bears the ticket upon which appear the magic words "William Simpson & Sons" is not only the best that the world has produced for four hundred years, but is doubtless as good as will be made four hundred years hence.

A DOCTOR'S DIRECTIONS.

They save a daughter from blindness.

When a father writes that yours "is the best medicine in the world," you can allow something for seeming extravagance in the statement if you know that the medicine so praised, cured a loved daughter of disease and restored to her the eyesight nearly lost. The best medicine in the world for you is the medicine that cures you. There can't be anything better. No medicine can do more than cure. That is why John S. Goode, of Orrick, Mo., writes in these strong terms:

"Dr. Ayer's Sarsaparilla is the best medicine in the world. My daughter had a relapse after the measles, due to taking cold. She was nearly blind, and was obliged to remain in a dark room all the time. The doctors could give her no relief; one of them directed me to give her Ayer's Sarsaparilla. Two bottles cured her completely."

The thousands of testimonials to the value of Dr. Ayer's Sarsaparilla repeat over and over again, in one form or another the expression: "The doctors gave her no relief; one of them directed me to give her Dr. Ayer's Sarsaparilla. Two bottles completely cured her."

It is a common experience to try Dr. Ayer's Sarsaparilla as a last resort. It is a common experience to have Dr. Ayer's Sarsaparilla prescribed by a physician. It is a common experience to see a "complete cure" follow the use of a few bottles of this great blood purifying medicine.

Because, it is a specific for all forms of blood disease. If a disease has its origin in bad or impure blood, Dr. Ayer's Sarsaparilla, acting directly on the blood, removing its impurities and giving to it vitalizing energy, will promptly eradicate the disease.

The great feature of Dr. Ayer's Sarsaparilla is the radical cures that result from its use. Many medicines only suppress disease—they push the pimples down under the skin, they paint the complexion with subtle arsenical compounds, but the disease rages in the veins like a pent-up fire, and some day breaks out in a volcanic eruption that eats up the body. Ayer's Sarsaparilla goes to the root. It makes the fountain clean and the waters are clean. It makes the root good and the fruit is good. It gives Nature the clements she needs to build up the broken down constitution—not to brace it up with stimulants or patch it up on the surface. Send for Dr. Ayer's Curebook, and learn more about the cures effected by this remedy. It's sent free, on request, by the J. C. Ayer Co., Lowell, Mass.

A Beautiful Present

FREE for a few months to all users of the celebrated ELASTIC STARCH, (Flat Iron Brand). To induce you to try this brand of starch, so that you may find out for yourself that all claims for its superiority and economy are true, the makers have had prepared, at great expense, a series of four

GAME PLAQUES

exact reproductions of the $10,000 originals by Muville, which will be given you ABSOLUTELY FREE by your grocer on conditions named below. These Plaques are 40 inches in circumference, are free of any suggestion of advertising whatever, and will ornament the most elegant apartment. No manufacturing concern ever before gave away such valuable presents to its customers. They are not for sale at any price, and can be obtained only in the manner specified. The subjects are:

American Wild Ducks, American Pheasant,
English Quail, English Snipe.

The birds are handsomely embossed and stand out natural as life. Each Plaque is bordered with a band of gold.

ELASTIC STARCH has been the standard for 25 years. TWENTY-TWO MILLION packages of this brand were sold last year. That's how good it is. ASK YOUR DEALER to show you the plaques and tell you about Elastic Starch. Accept no substitute.

How To Get Them:

All purchasers of three 10 cent or six 5 cent packages of Elastic Starch (Flat Iron Brand), are entitled to receive from their grocer one of these beautiful Game Plaques free. The plaques will not be sent by mail. They can be obtained only from your grocer.

Every Grocer Keeps Elastic Starch.

Do not delay. This offer is for a short time only.

ALL MEN LOVE BEAUTY.

Mrs. Pinkham Counsels Young Wives to Keep Their Attractiveness—A Letter From a Young Wife.

Seven-eighths of the men in this world marry a woman because she is beautiful in their eyes.

What a disappointment then to see the fair young wife's beauty fading away before a year passes over her head!

I feel as if I would like to say to every young woman who is about to be married—"Strengthen yourself in advance, so that you will not break down under the new strain on your powers." Keep your beauty, it is a precious possession! Your husband loves your beauty, he is proud to be seen in public with you; try to keep it for his sake, and your own.

The pale cheeks, the dark shadows under the eyes, the general drooping of the young wife's form, what do they mean? They mean that her nerves are failing, that her strength is going and that something must be done to help her through the coming trials of maternity.

Build her up at once by a course of some tonic with specific powers. Such as Lydia E. Pinkham's Vegetable Compound. You can get it at any druggist's.

Following we publish by request a letter from a young wife—of her own accord she addresses it to her "suffering sisters," and while from modesty she asks to withhold her name, she gives her initials and street number in Chambersburg, Pa., so she can easily be found personally or by letter:

To my Suffering Sisters:—Let me write this for your benefit, telling you what Lydia E. Pinkham's Vegetable Compound has done for me. I am but nineteen and suffered with painful menstruation, leucorrhœa, dizziness, burning sensation back of ears and on top of my head, nervousness, pain and soreness of muscles, bearing-down pains, could not sleep well, was unable to stand without pain, and oh! how I longed to be well!

One day I wrote to Mrs. Pinkham telling her all, knowing I could do so in perfect confidence.

She wrote me a lovely letter in reply, telling me exactly what to do. After taking nine bottles of the Compound, one box of Liver Pills, and using one-half package of Sanative Wash, I can say I am cured. I am so happy, and owe my happiness to none other than Mrs. Pinkham.

Why will women suffer when help is near? Let me, as one who has had experience, urge all suffering women, especially young wives, to seek Mrs. Pinkham's advice.—Mrs. R. S. R., 113 E. Catherine St., Chambersburg, Pa.

Remember

if you are dissatisfied with the size of piece or with the quality of the chewing tobacco you are now using—

get BattleAx PLUG

and you 'll get your money's worth. The 10-cent piece of Battle Ax is larger than the 10-cent piece of any other brand of the same high quality, and is the largest piece of really good chewing tobacco that is sold for 10 cents.

Remember the name when you buy again.

BUFFALO GAZETTE

DELANO, FRIDAY, AUG. 19, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

--There will be no church services in the M. E. church, Sunday evening.

—Several of our villagers spent a few days at neighboring lakes during the week past.

—The Ladies Aid of the M. E. church will meet with Mrs. Soper on Thursday, Aug. 25th from 2 to 5.

—A. W. Wittman has resigned from the Board of Education, and his place was filled by the election of A. L. Mealey.

—Jim Hill's red tape having run to the end work was resumed on the engine house of the Cargill elevator early in the week.

—Rev. Hanke preached at the Presbyterian Church Sunday afternoon. Rev. Farber held usual evening services at the M. E. Church.

—John Longosh is industriously experimenting with his clay on the West side. It is hoped he may succeed in making some good brick.

—State Inspector of Factories made us a visit yesterday. He is looking after the safety of employers, the covering of dangerous machinery, etc., etc.

—A number of piles have been driven to strengthen up the two G. N. bridges at this place. The bridge crew spent several days in this vicinity lately.

—The Ladies Aid, of the M. E. church met with Mrs. Eb Brandon yesterday afternoon. Several of them procured teams and hauled the rest out.

—J. D. Young made an overland trip to Maple Lake and brought his son Dell's team home to take the place, on his farm, of the horse that died recently.

--Charlie Kaemmer, who is up from the Southern part of the state on a visit, was welcomed to his old home by a dance given at the City Hall, Tuesday evening, by his numerous friends.

--Miss Grace O'Hair entertained a number of young folks at her home, Wednesday evening, in honor of her cousin, Miss Ella McEachran, of Iowa, who is spending part of her summer vacation here. The evening was spent very pleasantly in games (among them "What is it?") and other amusements. Refreshments were served.

—About twenty young friends surprised Miss Hattie Smith at the home of John Cunningham Tuesday evening before her departure for her home at Omaha. The occasion was a very pleasant one and enjoyed by all. The evening was spent in playing games. Refreshments were served and shortly after the party disbanded, about 11 o' clock.

—Children who intend learning any thing this winter should be preparing to attend school the first day, and all other days of the term. Little can be accomplished by an occasional day's visit to school. The regularity is a big factor in making the educated person. Teachers can't do it alone, though by example and precept they may do much.

—30 bushels of No. 1. wheat to the acre is being reported in this neighborhood right along. If dame nature does so much for the farmer he can afford to sell his wheat a little below prices in years when it is scarce, to his unfortunate laboring neighbor who has to buy. Thus notwithstanding men's attempts to regulate what belongs to nature, nature will with her superior wisdom, provide abundance for all her children. None need suffer for want of bread.

—The Board of Education has appointed as Teachers Examiners for the ensuing year, Emery M. Cunningham, Miss Grace O'Hair and F. H. Lindsley. It is to be hoped that the new board will attend to its duties and that the law will be strictly complied with and no contracts made with teachers until the Examining Board has reported the teachers qualified. These matters heretofore have run entirely too loose, unless the school officers attend to their duties, it is hardly to be expected that the teachers and pupils will do the best possible work.

—Delano has two young expert bicyclists Morris Corey rides his father's wheel, and Harry Wilder rides his big brother's wheel. The two boys ride alike, Morris having originated the trick. They simply hang onto the diamond putting one arm over and one foot through the diamond on to the opposite pedal, while the other is used on the side of the wheel the performer's body is hanging to. They present rather a novel appearance when coming down street together. The feat is unique, difficult and might prove rather a dangerous one to beginners.

--Farmers in this vicinity appear happier than ever before at this time of year. They have the largest and finest hay stacks, the most, largest, and best stacks of wheat and other grain; corn, potatoes, and other crops are fair, and work is well under way. Some have threshed, others are ready for the job. Manure is being spread for fall plowing. Quite a few have already begun turning the ground over for next years crop. All have a smile on the face. And most of them attribute their peace of mind to the blessings bestowed upon them by a kind Providence and not to the Dingley bill.

—The latest enterprise in Delano has gone into the Frazee Machine shed on lower River Street. It has a sign out that reads. "G. D. Murphy, Ship Yard and Dry Dock. Boats built while you wait. First Class Hunting Boat only $15. They now have a beautiful little boat designed by Naval Constructor Murphy in course of construction which is intended to run down the wily duck and mud hen. We understand that C. H. Green is Chief Engineer. We hear that there is another ship yard in town, running under the supervision of Constructors Baltuff and V. Eppel Jr. One of their products was launched yesterday in the river, and the latter head of the firm made a trial test of its speed. Power was turned on, the boat turned bottom side up, and the captain picked himself up in the water an pulled for the shore.

Personal.

W. J. Walsh, Waverly's genial druggist, made Delano a visit Tuesday.

Miss Mollie Maxfield visited at Ferndale several days last week. She returned Monday.

Roscoe Guptil, of Waterville, Maine, is visiting his aunt, Mrs. Wm. Hawker and other relatives here.

John E. Borsch, delegate from Delano Court attended the state convention of C. O. F. at LeSueur this week.

Miss Julia Cunningham was called to Minneapolis Monday on account of the sickness of her brother Charley's wife.

Ed Freeman came home last week for a visit with his parents before they leave for Cincinnati. Ed will winter at the "U".

Charley Kaemmer, from near Albert Lea, visited Delano friends this week. He says Nels Sandburg is working with him yet.

Miss Irene Checley, formerly primary teacher here, visited Delano friends this week before beginning her winter school at Hector.

Private James Murphy, of Co. E. 15th Minn. Vol. visited home a couple of days this week. Jim is sprucing up finely in his new uniform.

Superintendent Lee, of Annandale, was noticed in town early this morning. He is to have teacher's examination here to day we understand.

Miss Julia Cunningham returned home from Minneapolis, Wednesday evening. She reported her sister-in-law as feeling some better, though quite sick.

A. D. Smith and family who have been spending a short vacation in Delano, started for home, Omaha, Wednesday. Miss Viola Cunningham accompanied them.

Thad S. Kerr and family drove to Lake Minnetonka and attended a picknic one day this week. Their daughter Mrs. John Walker and her daughter returned home with them for a visit.

Rev. Hilscher, formerly Presbyterian pastor here, now of Iowa, wheeled through town early yesterday morning. Ed Freeman accompanied him to Buffalo, near where his family is visiting.

J. H. McGary, John Williams and Earl Hoislington formed a trio of Independence farmers to call yesterday. They seem to agree that prosperity has, in a measure come to the farmer this year, but attribute no thanks to the Dingley bill therefor.

Sr. M. Regina, O. S. B., Pharmacist at St. Raphaels' Hospital, St. Cloud, and Sr. M. Raymond, O. S. B., a teacher in the school at St. Cloud, visited their brother Herman Otto and other relatives and friends about Delano this week. We acknowledge a pleasant call.

Notice.

All persons indebted to me on account will take notice that I must have some money. Crops are good. I have waited in many instances a long time, and now must be paid. Unless prompt attention is given to this notice you may expect a collector to call for a settlement soon. Call and settle and oblige.

Yours Respectfully,
T. J. CATLIN, M. D.
DELANO, Minn., Aug. 19, 1898.

County Cullings.

The Farmer's Elevator at Waverly is about completed, under the able administration of W. J. Walsh, it is likely to be a success.

W. S. Huntington, Wright County's Congressional committeeman has been visiting in Kansas we understand. Perhaps he is getting political pointers.

Northern Minnesota M. E. Conference will convene at Hutchinson, on Oct. 5. Ministers stand a chance of getting new locations then, and business appertaining to church work will be attended to.

A couple of county papers are having a kind of a "scrap" about whether Mr. Carney or Kennedy did some track work near Rockford. Stick to politics boys. Don't get mixed up with other matters; only be sure and get your news straight.

The fight against Great Northern influence in this county is now over.—Buffalo Journal.

What does Brother Eaton mean by this announcement? Has he concluded to go over to the side of the corporation? It sounds a little that way. Better stay with the people, A. Y. They must be respected.

That Buffalo Lam-son with the accent on the Lam, must be rather a tough specimen, and no spring Lam, judging from the time the Journal has chewing him. The Journal man is having a terrible Eaton time, with the accent on the Eat.

N. Andrew Mattson, was found last Sunday, hanging by the neck and dead in his son's barn in Marysville. His wife was killed in a runaway last spring and he has been living with his son since. The County Attorney and Coroner pronounced it a case of suicide.

Several of our County newspapers are discussing a mongrel ticket of some kind. We have no confidence in such a movement at this time. People desire to be for straight goods, and not for cast off garments from anywhere. If regular parties desire to unite it is all right to do so in a right way, but not by the appointment of self constituted candidate, who care very little whether Towne or Morris goes to Congress; whether our Governor is a good or a bad man for the place, or for anything much political, so far as principle goes, but only that their individual selves secure a coveted position along side the public crib.

The Maple Lake Messenger said a few weeks ago: "Hear ye! hear ye! voters of the eighteenth judicial district, the Messenger places for nomination for Judge of this district a well known man," etc., etc. The Buffalo Standard says of it. "The way the above item starts out sounds like a sheriff calling court to order and it is not out of the range of possibilities that our sheriff is engaged in literary pursuits."

It does sound like a sheriff calling court to order, and as it could hardly be ex sheriff Woolley or Sheriff Carpenter, there could hardly be any one else to attribute it to but the present incumbent of that office.

J. S. Fertney, of near Albert Lea, lately returned from the Klondyke, visited his brother Aaron last week, in Frankfort. Mr. Fertney was with a party the members of which grew discouraged before arriving at their destination and sold out and returned home. He couldn't go on alone so came home with the rest of the party. He had a nugget $22.50, some dust, and other specimens. He thinks there is gold in that country, and claims that so far as he knows only two men were killed by evil men while he was their and the murderer was caught and hung within two hours. And the reports of sickness he claims are entirely overdrawn. He talks of returning to the gold country again as soon as he can make arrangements.

Farmers come to town with No. 1 wheat and growl because it isn't graded and weighed to suit them. The elevator men claim they must submit to the decision of the wheat inspector, though they are as wise as he, and that the farmer is right in his claims. Then the wheat buyers and farmers go to the polls and vote for members of the legislature who are pledged to vote for C. K. Davis next winter, and for Senators who will not only vote for Davis next winter but for Knute Nelson in two years from then and never dream that they might be doing themselves a great deal more good by electing men to the legislature who would attend to making some laws regarding wheat handling that would at least give the farmer a fair chance with other people; men who would have some interest in the affairs generally of the state; who would do the right thing with pine lands, mineral lands, with the construction and government of public buildings; with the various inspections of flour, oil, steam boilers, and various other more or less conveniences to those fortunate enough to secure the offices, also to those who can strengthen their political fences by appointing those officers; but while performing these desirable duties would not fail to send the best man that could be chosen to represent us at the National Capitol A man who is willing to pledge himself in advance to vote for Tom, Dick, or Harry for anything is not always the most desirable legislator. Let the farmers attend primaries and send delegates who want men in the legislature who will take a lively interest in things appertaining to the good of our state at home as well as in washington, and then we can expect things about our own county to suit us better than they do now.

It is preposterous to suppose that any big hearted, freedom loving, patriotic citizen of this country would knowingly and willingly do aught to harm the whole country, or to injure the inhabitants thereof. It can be only the greedy, covetous, narrow minded loyer of filthy lucre, or the seeker after notority at any cost who would if he could avoid it try to elect men who are not honest to administer the affairs of our country, state or county. Where men have been honest, upright and reliable all their lives it is hardly fair to believe or presume them thieves and rascals, all at once, because of their now lining up with the other party. On the other hand, where men's reputation have long been established as catering to the party or men where the most profit, to them, was in sight, are suddenly changed in campaigns like the present it is well to look into the reasons therefore.

Be careful to send only good men to conventions as delegates, this often hangs on one vote in a primary election. Be there and do your duty, then will we have a ticket that no man can conscienciously condemn, but that we will stand a good chance of electing.

Among Our Exchanges.

Educate a boy and you get an intelligent man. Educate a girl and you get an intelligent family.—Indiana Journal of Education.

Millions are poured into our colleges and universities to educate the brains of America, while almost nothing is done to educate the heart.--Our Dumb Animals.

Duluth Herald: Make Dewey a full-fledged admiral and Schley vice admiral and merit will have been properly rewarded. Then Sampson can remain a rear admiral—he was in the rear at the Santiago engagement.

Mr. and Mrs. Buckley and daughter drove over from Delano last Saturday. Mr. Buckley spent the day consulting with the politicians and sich while Mrs. enjoyed the friendly society of a number of her lady friends. The Journal congratulates Mr. Buckley on having a patriotic, American lady for his wife. Mrs Buckley is an ardent beliver in the doctrine of Free Silver Coinage.—Buffalo Journal.

Pioneer Press: By a poll of almost two to one the Canadian proyinces of Ontario, Nova Scotia, Manitoba and Prince Edward Island have voted to have the dominion parliament pass an act prohibiting "the importation, manufacture or sale of spirits, wine, ale, beer, cider and all other alcoholic liquors for use as beverages." This looks as if there might be an early exodus of distilleries across the line, not to mention a hegira of those that support distilleries.

Willmar Tribune: GAME wardens are busy. Woe to the luckless wight who is caught using his blunderbuss on wild fowls before the date established by statute. The law to "preserve" the game is to give all who own guns an equal chance. When the hour set by law arrives all go forth, the organized gun clubs and city dudes with their latest pattern of shotgun and fancy bred dogs in the van and the birds who have hitherto enjoyed "a state of preservation" are speedily reduced by the leaden hail and keen-scented hounds. The title of the law should be changed to "An act to Establish a Uniform Date for the Execution of Game."

Brainard Journal: A number of men who recently went to the Dakotas looking for harvest work have returned. Some of them took teams when they went, and were glad to drive back. They found nothing to do, but were told that when thrasing is under full headway there will be a better demand for men. The entire wheat region is overrun with work hunters. In the towns the police and citizens are rounding them up in crowds and driving them out into the country, although no work is to be had. Many of them have no money to buy food with. Yet they continue to come in large crowds on every train. Those who get work will receive very low wages, and thousands will not be able to get any employment at all.

"The Buffalo Gazette says that W. H. Eustis, Loren Fletcher and Joel P. Heatwole are bad men because they use cusswords. Wonder if the doctor will support any candidate this fall, who uses profane language? If not, his ticket will be a very small one, and decidely undemocratic."--Carver County News.

We expect to be obliged to vote for men who do occasionally swear, or refrain from voting for some offices. But when it comes to voting for men who pride themselves on their ability to utter oaths, distressingly painful for many people to listen to, we don't like it. And all things else equal should chose one who at least didn't parade that qualification as an argument that he should be elected to office. Let politicans refrain from profanity, and many other evils and our country will have made a marked advance in civilization and Christianity.

Notice of Hearing of Application to Sell Intoxicating Liquors.

Notice is hereby given that Nick Klein, acording to law has applied in writing to the Village Council of the Village of Delano, in the county of Wright, and State of Minnesota, for a license to sell Intoxicating Liquors for a period of one year from the 31st day of August 1898 to the 31st day of August 1899.

The place where the said business is to be carried on is designated as follows: On the first floor of Matt Fausel's two story brick building situated on lot nineteen (19) of block eight (8) Original Townsite in the Village of Delano.

Said applicant prays that such License be granted to him pursuant to the ordinance of said Village of Delano and the Statutes of said state of Minnesota in such case made and provided.

The above application will be heard at a special meeting of the Village Council in the Council Room at the City Hall, in Delano, at 8 o'clock, Monday, Aug. 29.

Dated at DELANO, Aug. 11, 1898.
L. M. MAXFIELD,
Village Recorder.

WEBSTER'S INTERNATIONAL DICTIONARY

Entirely New. Abreast of the Times. A Grand Educator.

Successor of the "Unabridged."

Everybody should own this Dictionary. It answers all questions concerning the history, spelling, pronunciation, and meaning of words.

A Library in Itself. It also gives the often desired information concerning eminent persons; facts concerning the countries, cities, towns, and natural features of the globe; particulars concerning noted fictitious persons and places; translation of foreign quotations. It is invaluable in the home, office, study, and schoolroom.

The One Great Standard Authority.

Hon. D. J. Brewer, Justice of U. S. Supreme Court, writes: "The International Dictionary is the perfection of dictionaries. I commend it to all as the one great standard authority."

Recommended by Every State Superintendent of Schools Now in Office.

A saving of three cents per day for a year will provide more than enough money to purchase a copy of the International. Can you afford to be without it?

Have your Bookseller show it to you.

PERILOUS HIGHTS.

The boy who lives across the way—a jolly little elf—
Procured a pair of poles one day, just to amuse himself.
He tho ght he wasn't tall enough. He fixed them nice and neat
With handles to take hold and with blocks to fit his feet.
And now he's ten feet high at least. He proudly nods his head
And stalks around the sidewa'k with the most uncertain tread.
He thinks he is majestic, though he's scarcely out of kilts,
It's fun to look at Johnny when he's walking on his stilts.
His father was an amiable and simple spoken man,
But since he got an office, he has somehow changed his plan.
Most everybody likes him, spite of this desire of his
To make us think he's much bigger than he really is.
He seems a bit uneasy when he's towering around.
He steps as if he wasn't wholly sure about his ground.
He tries to be impressive, but he wobbles and he wilts,
He makes us think of Johnny when he's walking on his stilts.
—Philander Johnson in Washington Star.

CAN it be possible that acquiring a number of silver countries has had anything to do with equalizing the prices.

THE 15th Minnesota which has been so badly afflicted with Typhoid fever at Camp Ramsey have moved to Fort Snelling. The 12th Minnesota has moved from Chicamauga Park, Ga., to Lexington, Ky.

THE annual re-union of the Second Regiment Minnesota Infantry will be held at St. Paul, on Sept. 7 and 8, in the rooms of the Chamber of Commerce. Excursion to Lake Minnetonka and other attractions. Mrs. H. P. Van Cleve, (the mother of the regiment) will be present.

GEN. MILES, it is claimed, will stir up something of a disturbance at Washington as soon as convenient for him to get things moving. It is claimed, also that Secretary Alger, in order to obviate the appointment of a committee by Congress, to investigate the affairs, will call for an investigation of things appertaining to war himself.

PROHIBITION seems to be working its way to the front in Minnesota. It is claimed that the prohi. candidates will occupy second place on the ticket this fall. If Democrats are not more careful than when they voted the whole eighteen electors for Bryan and Palmer both, two years ago, the Prohibition vote may turn out to be a big one in November.

WHO says bankruptcy don't make business. Already a new Judge is talked of to assist Judge Lochran in whose court these cases come, and who it is claimed is unable to attend to the additional business consequent on the new bankruptcy law. R. G. Evans, of Minneapolis, on account of friendship to McKinley and labors performed for the party chiefly is advanced as the probable appointee to this interesting branch of the judicial business.

IF the report concerning Jim Blaine's escapade in Honolulu is correct he got about the treatment he deserved. The newspapers say that while in Honolulu he imbibed too freely and insulted a lady, whose husband stepped up to Jim and said: Your father tried for years to get our country and now you come here to get our wives, and gave him a fist in the face knocking him sprawling as he most likely deserved. Maj. Diggles of the 13th Minn., is said to have interfered, and received the same treatment.

OHIO Democrats in convention assembled on Aug. 24, passed ringing resolutions endorsing the Chicago platform and W. J. Bryan for President in 1900. They especially endorsed the 16 to 1 plank. This does not look just as it our Republican friends were telling the truth when they say Free Silver is dead; or Bryanism is dead. Such issues can't be killed off that way any more than good times could be brought when McKinley was elected by whistling to keep up courage.

WHY don't some of our Republican brethren who claim that Charley Towne flopped, say the same of Cushman K. Davis whose flop is so apparent to all. His old lecture on feudalism, and his avowed antagonism to monopolies got him into the U. S. Senate, of course by the skin of his teeth, and in opposition to our Senator A. Y. Eaton and others. Now he comes out as a great defender of corporations, as an attorney for the union of the N. P. and G. N. Ry's. or against the people. And lo! and behold, A. Y. is for him. Has not C. K. flopped? Surely he has. And made a bad flop too.

THE Bankruptcy business is wrong. Instead of encouraging men to buy on credit all they possibly can, and trust out to others, or sell it for cash, and then go into bankruptcy, and pay 10 cts, more or less, on the dollar, squaring accounts, and beginning over again, it would be better to say that unless a man can pay cash for what he wants he must wait for it until he can. Then only the poor manager himself would be looser, and not those who honestly made and sold the goods and wares. It looks to the average man as if the biggest rogues had the best chance under bankruptcy proceeding.

A GREAT deal of argument has been had pro and con on the question of Uncle Sam's dismissing volunteers from further service. The boys volunteered to serve for two years or during the war. As the war is not over until the treaty of peace has been signed of course Uncle Sam must keep his contract with his soldiers. He must continue to clothe, feed, pay and care for them for two years unless the war is sooner ended. Of course a natural agreement might be made between Uncle Sam and individuals who have enlisted for them to return home. But for officers to keep up regiments simply because they desire to do so against the wishes of the rank and file many of whom are their equals in every way don't seem just right.

Democrats Banquet.

Speeches by Senator James K. Jones, Charles A. Towne, and others.

The Democratic Banquet in honor of the visit of Senator James K. Jones, Chairman of the Democratic National committee, to our state, held at the Ryan Hotel, St. Paul, was a success, and was one of the pleasantest occasions of the kind it has ever been our lot to attend.

The banquet was nicely gotten up and served in good style and well taken care of by the hungry men who congregated about the tables at 9 o'clock, P. M.

One of the best features of the banquet was the entire absence of liquors of any kind. This is a democratic innovation in the right direction. Let this precedent be followed in future, and the party will loose nothing on that account.

After the feast came the speeches of the evening in the form of toasts Hon. L. A. Rosing in his usual happy style made the address of welcome, and introduced as toast master of the evening, T. D. O'Brien, who is an adept in that line.

"The Political Situation in Minnesota" was responded to by A. Ankeny, in an able and interesting manner. Many of the shortcomings of the party in power were referred to, and splendid chances for correcting some large mistakes were pointed out.

"The Judiciary" by Patrick Fitzpatrick, of Winona county was ably handled. He advocated preserving the present honorable Judiciary of Minnesota from the trammels partisanship.

"The Bank Examiner" was toasted a rich brown, by an able speaker, John L. Townley, of St. Paul.

"Politics and Reform" James Gray, candidate for Mayor of Minneapolis, proved himself a very good cook, at least so far as reform toasting especially in his neighboring city of St. Paul.

"Democracy, The Guardian of the Farmers and Workshops". C. W. Stanton, of Appleton, showed very conclusively that Democracy had always been the particular friend of those from whose labor others lived and some grew rich.

The address of Senator James K. Jones was a very forcible and conclusive argument for Mr. Bryan and the platform of 1896. He claims no question is settled until it is settled right, and the people will not be thrown off the track until they have settled rightly the issues of '96. Mr. Jones is a large man physically and an unusually forcible speaker.

"John Lind" responded to by Hon. Charles A. Towne, needs no comment for our readers. It is enough to simply remind you that the subject was a good one, and the speaker eloquent.

The banquet and speaking lasted until after 1 a. m. The last Minneapolis car waiting until 1 o'clock, and several bound to see the end remaining in St. Paul over night.

A CRYING NEED

We've Dewey dogs and Dewey cats.
And Dewey infant boys,
We've Dewey suits and Dewey hats—
Ten thousand Dewey toys.

The name 'most everywhere you'll see
Now here, now there again,
We've lots of Dewey things but we
Are short on Dewey men.
—Detroit Free Press.

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, D. C., Aug. 19, 1898.

Hurrah for Admiral Dewey! He's the top-notcher of the whole outfit. He fought the first battle of the war, and the last battle, and won both without the injury of a ship or the loss of a man, and some of his ships may be fighting yet, as he started them, after the capture of Manilla, and before he knew anything of the armistice, for some of the other islands in the Philippines, with orders to take possession of everything in sight and to raise the American flag over everything captured. There was no way of recalling these ships after news of the armistice reached him, so that it is among the probabilities that every one of the Philippine Islands may be under the American flag before the commanders of those ships find out anything about an armistice, and the armistice is not binding upon them until they have official knowledge of it.

No man's hand has been shaken oftener or more cordially this week than that of "Fighting Joe" Wheeler, who came to Washington in response to orders from the War Department. Gen. Wheeler has a better opinion of the Cuban insurgents than most of the officers who have been heard from on the subject. He said of them: "The Cubans were poorly clad and poorly fed. They did not make a very impressive appearance as soldiers. They probably misunderstood the conditions and circumstances about Santiago. Very few of them talked any English, and communication between Americans and Cubans was very difficult. I know of the charges that they would not work on the roads and other projects for the assistance of the American army. I think that was due to a large extent to their not understanding what the work was for. I found Cubans who were willing to work after interpreters had explained to them why the work was necessary."

Maj. Gen. M. C. Butler, who with Maj. Gen. J. F. Wade and Rear Admiral Sampson, will represent the U. S. on the military Commission to arrange for the evacuation of Cuba, said of their duties? "I think I realize the responsibility that rests upon the commissioners. It is very great, but I shall do my best to win the approval of the country." Gen. Butler said the Commission would go to Havana on a warship upon which they will for a time make their headquarters. The Porto Rican Commission consists of Maj. Gen. J. R. Brook, Rear Admiral Schley, and Brig. Gen. Gordon.

Senator Allison, who is noted as one of the shrewdest dodgers in his party, has declined to serve as a Peace Commissioner, probably because he was afraid that he would be compelled to put himself on record for or against something. In an interview he talks on both sides of the Philippine question, in the following language: "The feeling in the west is universal that where the flag has been raised, it must not come down. Therefore, as respects a coaling station or a commercial base, there is little difference of opinion. On the larger question of holding the entire archipelago, the public mind is not fully made up. I find men talking for and against such a proposition. I do not believe that two-thirds of the Senate would vote for a treaty that retained the entire group, and yet I am certain that we could not get two-thirds to ratify a treaty that surrendered everything. Consequently, we will hold something just how much no one can say." This leaves Mr. Allison entirely free to take whatever side of the question he may decide to be the most popular and is in that respect strictly Allisonian.

While in Washington this week Gen. Fitz Lee made formal announcement of his candidacy for the U. S. Senate, although the campaign will not actually be fought until next year. Senator Martin is a candidate for re-election.

No republican has publicly criticised the selection of Col. John Hay, American Ambassador to England, to succeed Secretary Day at the head of the Department of State, but not a few unprintable thing shave been said by many of them in private. Col. Hay is a republican, but not a politician; hence the kicking.

The first plan of the administration, to keep all the volunteers in service until the treaty of peace with Spain was completed, has been changed, and it is now announced that about 100,000 of the men will be mustered out as rapidly as possible.

List of Patents

Granted to Minnesota Inventors this week Reported by C. A. Snow & Co., Solicitors of American and Foreign Patents. Opp. U. S Patent office Washington, D. C.

C. Anderson, Minneapolis, Swivel connection. J. H. Atkinson, Winnebago, Wrench. J. O. Bane, Waseca, Spring attachment for pumps. G. R. Beckwith, Minneapolis, Window-screen. C. H. Gilkerson, Minneapolis, Automatic measuring-tank. G. A. Goodson, Minneapolis, Composing-machine. J. F. Hennessy, Winona, Vehicle-running-gear. J. Lauritsen, Tyler, Tension device for twine-binders. H. G. Macwilliam, St. Paul, Suspenders. T. G. McWithey, Cloquet, Corn-popper. J. Sanford, Elysian, Tire-furnace. E. H. Schultz, Grant, Back-pedaling brake. J. Simpson, Minneapolis, Coal-pocket. S. L. Smith, West Duluth, Speed-gearing for cycles. L. Twist, Albert Lea, Combined scoop and hand-truck. J. N. Wilson, Minneapolis, Two-horse evener.

For copy of any patent send 10 cents in postage stamps with date of this paper to C A. Snow & Co., Washington, D C.

His Duties.

They tell a story in the Rough Rider's camp of a recruit from the west and a certain Capt. H——. who is somewhat of a martinet, and consequently unpopular.

The recruit was on stable guard one day. The captain, while making the rounds of the camp, chanced to see the recruit.

"What are you doing?" he asked brusquely.

"Stable guard, sir," said the recruit.

"What are your orders?"

"I'm to watch these horses; see they don't get loose or tangled up, and to keep them in order generally."

"Anything else?"

"Not that I know of, sir."

"Think now; have you no other orders?"

Silence for a moment. Then the recruit cried:

"O! yes. The boys told me to keep an eye peeled for a son of-nineteen they called the officer of the day."

Capt. H—— turned and walked away. —New York Evening Sun.

MAPLE PLAIN, Minn., Aug. 23., 98.

Buffalo Gazette,

Mr. Editor: Have not been so well pleased since I saw my name written on the fly leaf of my first school primer as I was when I heard the war with Spain and the United States was over. We have met the enemy, and the isles of the sea, the reconcentradoes, the buzzards and the mongrel race of people with all their filth and squalor are ours. In this matter of prosecuting the war we believe the administration done well. But we must now spend our money to christianize and civilize these semibarbarian races which will take more than a century. We must add a few more feathers to the tail of the American Eagle and strengthen her voice by adding a chime whistle. The American flag must run higher so as to proclaim to the nations of the world, that we are a nation born to be great in the eyes of the civilized world. It has already cost us much money and a good many lives to float the American flag over the islands once belonging to Spain, and the question naturally arises, will the game be worth the ammunition. Our generals fought well and so did the men and they are worthy of great praise, but the theme is becoming tedious and as tiresom as a twice told tale.

We farmers would like to hear something about dollar wheat that was promised under the Dingley bill, and the Babylonian single gold standard. Last spring when wheat went up to $1.50 a bushel it was the Dingley bill that done it. Now it has gone down o less than half that. It is the Democrats and the other fellow that done it. There is no righteousness save among the Jews. The pettifog politicians may proclaim from the rostrum; the subsidized press may publish it from their sanctum, but they can not make all the people believe that a single gold standard and a high protective tariff is a blessing to this country, for a good many people know better, and when we read in some of the papers, about how much they have to say, how much good the single gold standard and the Dingley bill is doing for the country. I feel as if that is the only saving ordinance; that we will be doomed to destruction same as Sodom and Gomara.

The more territory we have and the bigger the country gets the more chance the money power will have. The farmer must pay the same interest and as much taxes, when wheat is fifty cents a bushel as when it is one dollar a bushel.

Prosperty and the good times that promised to the farmer and all the laboring cast have not arrived yet, but the string is to fool the people, and some of them like small fish will nibble at any kind of bait. When it comes to landlord and tenant and serfs, then and not until then will the people get their eyes open. When the rich has every thing, and poverty and the Lazereth house is all that is in sight then the scales may fall from our eyes. FARMER.

War an Educator.

The Americo Spanish war has been an educator in this country. Our citizen have studied Geography as they haven't studied it before in years. Most of them have learned something of Cuba, Porto Rico, the Ladeones and the Philippines they never dreamed of before.

Military tactics and manoeuvers, naval movements, arms and ammunition have been investigated by many. Laws and International laws have been discussed; statesmanship and diplomacy have been more or less criticised. On the whole the war has certainley opened up the fountains of investigation into the world's affairs as nothing has done before for many years.

Saloon Keepers Bondsmen Liable.

It is a cause of rejoicing to law abiding citizens that the Minnesota District Court has made a ruling that a saloonkeepers' bondsmen are liable to the extent of their bonds when the saloonkeeper violates the conditions of his license by selling to minors, or on Sunday, or in other ways. The officers and committees of our Anti-Saloon Leagues will please take notice of this new weapon placed in their hands by the court. It places new and heavy responsibility upon saloon bondsmen to be sure But the point is, decent citizens must keep their names off from these law-breaker's bonds. It is high time hundreds of our otherwise good citizens withdrew their "business courtesy" from these crime factories called saloons.—The Minnesota Issue.

More Silver Needed.

DENVER, Aug. 21.—G. G. Merrick has received a letter from Moreton Frewen, the British bimetallist, in which he expresses the hope that the party in this country which favors currency expansion will also favor national expansion. Regarding the currency experiment in India, he says: "I understand that the commission now sitting-a commission carefully packed with complacent officials—are yet unable to get any evidence which they dare print which favors the gold standard in India. It cannot, then be very long before the Indian mints reopen."—Times.

Among Our Exchanges.

Prof. Dewey has notified the school board that he will be on hand to take charge of the schools when they open. —Litchfield News Ledger.

Arch-Bishop John Ireland:—"The saloon-keeper is alcohol's soldier and he is America's danger and disgrace." "The lawless traffic is sapping the foundation on this republic."

Minneapolis Tribune: The commissioned officers of the volunteer regiment who are opposing the desire of their men to be mustered out are in danger of getting themselves disliked at home, where the friends of the rank and file are naturally in the majority.

Aitkin Age: It is stated that public opinion will decide the fate of the Phillipines; that the President wisely wishes to carry out the will of the people. If that's so, and you have anything to say on the subject, do it now, or forever after hold your peace.

Hon. William Windom:—"The saloon system is itself a league of law-breakers, whose example affords a most powerful stimulus to disorder of all kinds." "Whiskey is a more deadly weapon than shot or shell, or any of the implements of our improved modern warfare." —The Minnesota Issue.

Litchfield News Ledger: John A. Logan jr., laid aside his fine clothes and dude ways and went to the front to demonstrate that the blood of his father was in his veins. He has fully established the fact and the wonder is now whether or not, on his return to civil life, he will keep on the up-grade or drop back to cigarettes and red neckties.

The war tax has something to do with vaccination. Every child who goes to school for the first time must show a certificate of vaccination made within five years. The internal revenue bureau has made a ruling that a certificate of vaccination must have a 10 cent stamp, but allows that no stamp is necessary when the certificate comes from a city health inspector. The result will doubtless be that more children than ever will go to the city's office instead of to a doctor.—Pioneer Press.

Litchfield Independent: The plutocratic press, which includes most of the daily papers, are all advocating imperialism or expansion of our territory by taking in the Philippine and other outside territory. They are urging this course because they hope it will divert the attention of the people from home questions. They are in hopes it will overshadow and bury the silver question, and that in the excitement and hurrah of the war and its results they can fasten on the people the gold standard. The whole thing is being engineered by the money power.

Wire Grass.

Wire grass, which grows abundently in all Minnesota marshes and has heretofore been considered worthless, bids fair now to be put to use. A firm in Minneapolis has commenced the manufacture of rope and twine out of this commodity, and it is said to be a success.—Litchfield News Ledger.

Hinds for Congress.

Special to the Dispatch.

HUTCHINSON, Aug. 25.—Charles G. Hinds of Shakopee was nominated by acclamation for congress by the democratic convention of the Third district. on a platform endorsing the Chicago platform, opposing entangling foreign alliances, and upholding the Monroe doctrine.

Snug little fortunes have been made in work for us, by Anna Pepp, Austin, Texas, and Jno. Bonn, Toledo, Ohio. See cut. Others are doing as well. Why not you? Some earn over $500.00 a month. You can do the work and live at home, wherever you are. Even beginners are easily earning from $5 to $10 a day. All ages. We show you how and start you. Can work in spare time or all the time. Big money for workers. Failure unknown among them. NEW and wonderful. Particulars free. W. Hallett & Co., Box 880 Portland, Maine

The Gazette.

DELANO, Wright Co., - MINN.

GEN. COPPINGER is the only United States commander who has seen service in the British army. He is the son of a Warwickshire esquire, and after serving with the 1st battalion of the Warwickshire militia—as far back as 1856—joined the regular service as a lieutenant. Subsequently he emigrated to the United States.

CAPT. CHICHESTER of the British cruiser Immortalite, now in Manila bay, has just become a baronet through the death of his father, Sir Arthur Chichester of Youlston hall, Devonshire. It was he who, when the German admiral Deitrichs asked him about English intentions, created a mild sensation by referring him to Adm. Dewey.

CANADIAN newspapers are circulating this paragraph: "Adm. Sampson, chief in command of the United States navy, has many relations in Cape Breton. Adm. Sampson's father was born at L'Ardoise, Richmond county, and when a young man left that place for the United States, where he married, the famous admiral being one of his sons."

MENELEK, the Negus of Abyssinia, has definitely decided to enjoy a European holiday. He will leave home some time in August and will travel on some chartered steamer, unless one of the powers can be induced to lend a warship. Menelek will make his principal visits at Paris and St. Petersburg, and will be accompanied by a retinue of dusky courtiers and servants.

EUROPEAN advices report that Turkey is so impressed with the work of the Yankees in the war with Spain that she wants to buy a lot of American guns. There is one thing, however, that foreign governments should keep in mind with reference to this matter, and that is that an American gun attains its highest efficiency only when an American gunner stands behind it.

A SOLDIER dead for three days was about to be dissected at the Algiers military hospital, when he woke up and, before the doctors recovered from their surprise got off the dissecting table and walked into the next room, where he wrote down some words on a piece of paper to make sure that he was alive and awake. The doctors now say that he has completely recovered from his lethargy.

THE postmaster general does not want to interfere with the exercise of private taste or with the habits of the patrons of the mails, but since the department has gone into business in tropical countries he feels called on to advise the public generally that letters without sealing wax are likely to be transmitted with greater safety than if this device for sealing letters or for displaying the family crests is used.

PROF. BARON of Berne has left all his property to the city of Berlin for the establishment of a vegetarian children's asylum, and the authorities have accepted the legacy. Prof. Baron's vegetarianism was limited to the exclusion of all food derived from dead animals, so that the products of living beasts, such as eggs, milk, cheese, butter and honey, may be used. The will provides that no physician shall ever be a trustee of the asylum.

THE mass of work which the German emperor has to do may be understood from the following figures, representing 12 months' labor: He received 1,026 immediate reports, including 158 telegrams, gave 751 decisions and signed 802 cabinet orders, appointments and other documents. Five thousand eight hundred and fifty-seven reports were laid before him; but the civil cabinet had to deal with about 50,000 documents addressed to his majesty and about 400 letters and telegrams arrived daily.

IT is observed that bankers here are of the opinion that the actual balance which Europe owes us and which must in any event be paid ultimately in gold, is not far from $50,000,000. That was the estimated figure of the credit balance upon the 1st of last July. The figures are very much smaller than those which have been in the public mind as representing our credit balance. But it is noticed that Europe has been paying off its indebtedness to us in other ways than those which are noted in the exchanges or of which official records are kept.

THE death rate of Uncle Sam's army has not been abnormally large. Out of an army of 544,000 men France lost 3,736 in 1895, which is a death rate of nearly 7 in 1,000. And these men were quartered in barracks, in a healthy climate, and not in tents in a new climate. At the same rate the American army, which is just about one-half as large as the French army, should have 1,868 deaths in a year, or 467 deaths in three months, not counting deaths caused by active service. Compared with the French record, there is surely no cause for complaint.

A BALANCE has just been struck of the "conscience fund" in the treasury of the United States on the 30th of June last, showing that the total amount received and credited to it since it was opened, in 1811, was $297,452. These moneys are covered into the general treasury as a miscellaneous receipt, and may be used like other assets of the treasury for any purpose. Remittances come in almost weekly. Occasionally there are two or three cases a week, and, as a rule, the letters are not signed. Frequently they are forwarded by clergymen at the request of penitents.

PREPARATIONS are being made at Trieste to raise the wreck of the French frigate Danea, sunk in 1812. The Danea had 350 men and 44 guns on board, and was blown up through an explosion on board, the cause of which has remained unknown, on September 5 in that year. All Trieste suffered. Chimneys fell and doors sprang off their hinges. Not a window-pane remained intact and the houses on the quay were all more or less damaged. Besides all the men on board, many persons walking on the quay were killed. The French government gave orders that the catastrophe be hushed up.

A FITTING WELCOME.

Rousing Reception of Sampson and Schley on Their Return.

Imposing Pageant in New York Harbor of the Ships That Sent Cervera's Fleet to Destruction—Salute Gen. Grant's Tomb.

New York, Aug. 22.—Hundreds of thousands of people lined the banks of the Hudson Saturday to welcome the return of the North Atlantic squadron under command of Rear Admiral Sampson, and as fine an August day as could be desired was nature's tribute to the return of the victors. For almost three solid hours steam whistles of all sizes, steam sirens and small guns along the shores shrieked and boomed in the effort to display the heartiest enthusiasm for the homecoming of the naval heroes with their battle-scarred ships.

Seven Big Ships in Line.

Early in the morning the seven big ships, the New York, Iowa, Indiana, Brooklyn, Massachusetts, Oregon and Texas, lay in New York bay just off Tompkinsville, S. I. There was no idea with Admiral Sampson that New York city was prepared for a rousing reception, but the news was brought shortly by a tug from the navy yard, and all the ships of the squadron were immediately put under preparation for dress review. By nine o'clock the big, dull-looking fighting ships, looming high above the picturesque confusion of smaller craft which had come down to get a glimpse of the ships, were ready for movement. Strung out along their decks in long, regular lines were the white uniformed jackies, with here and there a bluecoated officer, all strongly contrasted against the somber, lead-colored armor of the ships.

The Start.

When the hour for the start came it looked as if it would be impossible for

ADMIRAL SAMPSON.

the ships to make their way through the perfect jam of river craft. Suddenly there was a movement on the flagship New York as the big ship started forward with a slow, stately glide. She was immediately followed by the other six vessels in the following order: Iowa, Indiana, Brooklyn, Massachusetts, Oregon, Texas. It was some time before the ships could get into review formation, but by the time the New York's prow came in line with

ADMIRAL SCHLEY.

Governor's island the other ships had formed in a regular line. The start was accompanied by tremendous cheering, screeching voices and booming cannon.

At Gen. Grant's tomb, which marked the beginning of the return of the squadron, a national salute of 21 guns was fired. The salute ended, the return of the squadron along the line of review was begun. It was a repetition of the enthusiastic scenes on the way up the river.

The parade of the ships, from the time it passed the Battery on its way up the river to the time it repassed on its way to anchorage off Tompkinsville, S. I., occupied just two hours and 35 minutes.

To Raise Spanish Ships.

New York, Aug. 23.—Lieut. Hobson has left this city on the Seguranca for Santiago, where he will superintend the raising of the Spanish warships.

BIG SUM OF MONEY.

The Appropriation Made by the Last Congress Amounts to Over Eight Hundred Millions.

Washington, Aug. 23.—The volume of appropriations, new offices, etc., required by law to be prepared at the end of each session of congress under the direction of the committees on appropriations of the senate and house of representatives, has just been completed for the second session of the Fifty-fifth congress by Mr. T. P. Cleaves and Mr. J. C. Courts, chief clerks respectively of the senate and house committees. A summary of the appropriations shows the grand total to be $893,231,615. Of this amount $361,859,927.26 are to meet expenses on account of the war with Spain.

The total number of new offices and employments specifically authorized amount to 301,383, at a cost of $53,691,911, of which number 274,909 at a cost of $43,240,380 are for the military establishment and 25,996 at a cost of $9,544,109, for the naval establishment, on account of the war.

A comparison of the total appropriations for 1899, excluding the war appropriations for 1898, shows an increase for 1899 of $2,636,608.

SPAIN'S COMMISSIONERS.

Names of Those Appointed by the Madrid Government Under the Peace Protocol.

Washington, Aug. 23.—The state department received a call from M. Thiebaut, secretary of the French embassy, and in charge during the absence of Ambassador Cambon, who bore a notification from the Spanish government of the military commissioners for Cuba and Puerto Rico. Under the peace protocol each government was to name its military commissioners within ten days, their meetings to begin within 30 days. The ten days was up Monday, and accordingly Spain gave the official notice of the appointments. They are as follows:

For Cuba—Maj. Gen. Gonzales Parrado, Rear Admiral Pastor y Landero, Marquis Montore.

For Puerto Rico—Maj. Gen. Ortega y Dias, Commodore of First Rank Vallerino y Carrasco, Judge Advocate Sanchez Del Aguila y Leon.

Seven Men Killed.

Pittsburgh, Pa., Aug. 23.—A terrible accident by which seven men lost their lives occurred in the tunnel of the Chartiers division of the Pan-Handle railroad at Carnegie.

The work of tearing out the tunnel has been pushed night and day by a force of 200 men. Much blasting has been done, and although it is said every precaution had been taken to prevent casualties it seems that, by using too large a quantity of explosive, an unexpected amount of earth and rock was loosened, which caved in on the workmen.

Miles Coming Home.

Ponce, Puerto Rico, Aug. 23.—The steamer Aransas, with Gen. Miles on board, left for New Orleans, Congressman Wadsworth accompanying him. Gen. Brooke has returned to Guayama, where his headquarters will be located until the commission arrives, when he will proceed overland to San Juan. Immediately upon his departure Gen. Wilson's headquarters will be moved to this place.

Beaten to Death.

Selma, Ala., Aug. 20.—Alex Walker, a negro living near Pleasant Hill, was called from his cabin by a party of white men and carried to the woods. Here he was strapped to a stump and beaten with buggy traces. He was released and managed to crawl back to his home, where he died half an hour later. The negro had been very troublesome in the neighborhood.

Bank Failure.

Preston, Minn., Aug. 23.—The Fillmore county bank of this place has failed. M. B. Todd was cashier and his mother-in-law, Mrs. J. T. Greenleaf, was president. Todd assigns as the reason for its failure that he lost heavily in wheat options. The assistant cashier, J. J. Hagen, states that the deposits are about $50,000.

Sigsbee Promoted.

Washington, Aug. 23.—The president has promoted Capt. Charles D. Sigsbee, U. S. N., now commanding the St. Paul, by advancing him three numbers on the list of captains in the navy for "extraordinary heroism."

Fatal Floods.

Simla, Aug. 19.—Heavy floods and dangerous landslides have occurred below Nainital, in Kumaan province. A brewery was destroyed. The European residents are believed to have escaped, but many natives were killed.

Four Men Killed.

Philadelphia, Aug. 19.—Four men were killed and five others badly injured Thursday afternoon by the collapse of a cornice on the new building in the course of erection at 475 and 477 North Fifth street.

OLD GLORY IS RAISED.

The Stars and Stripes Are Now Floating Over Hawaii.

President Dole Turns Over the Islands to Minister Sewall, Who Accepts Them in the President's Name—The Ceremony.

San Francisco, Aug. 23.—The steamer Belgic brought the following:

Honolulu, Aug. 12. — Precisely at eight minutes to 12 o'clock to-day the Hawaiian flag descended from the flagstaffs on all the government buildings, and at exactly five minutes to the same hour the stars and stripes floated on the tropical breeze from every flagstaff.

An Impressive Ceremony.

The ceremony was a most impressive one. To hear the strains of "Hawaii Ponoi" for the last time as a national anthem; to hear the bugle blow taps as the Hawaiian ensign sank from its position, and to notice the emotion of many who had been born under it and had lived their lives under it, was solemn. But then came the bright call for the raising of old glory and the strains of "The Star Spangled Banner" broke forth as that banner was unfurled to the breeze. Then the cheers broke forth, and eyes that had been dim for a few minutes became bright and lightened up when the stars and stripes blew out.

The Transfer.

The ceremonies opened with prayer. United States Minister Sewall then rose, and, addressing President Dole, presented him with a certified copy of the joint resolution of congress annexing the Hawaiian islands to the United States.

President Dole answered, acknowledging the making of a treaty of political union, and formally yielded to Minister Sewall, as the representative of the government of the United States, the sovereignty and public property of the Hawaiian islands. Mr. Sewall replied:

"Mr. President: In the name of the United States I accept the transfer of the sovereignty and property of the Hawaiian government."

After the Hawaiian flag had been taken down and the American flag raised, Minister Sewall read a proclamation stating that President McKinley directs that the civil, judicial and military powers of the government shall continue to be exercised by the officers of the republic of Hawaii. All such officers will be required to take the oath of allegiance to the United States and renew their bonds to the United States government.

The powers of the minister of foreign affairs will cease, so far as they relate to diplomatic intercourse between Hawaii and foreign nations.

The municipal legislation of Hawaii and the existing customs regulations will practically remain in force until the congress of the United States shall otherwise determine.

At the conclusion of the ceremonies the national guard was marched to the parade grounds where the oath of allegiance was administered.

A ball at the executive building, at which 2,000 guests were present, was the culmination of the festivities which followed the ceremony of flag raising.

MERRITT IS MASTER.

Says He Has Sufficient Troops to Control Aguinaldo and the Philippine Islands.

Washington, Aug. 23.—Gen. Merritt is master of the situation at Manila. He is in a position to control Aguinaldo and his insurgent horde.

He sent word to the war department that he needed no more troops. This statement was in response to an inquiry from the white house.

The president and his war managers are much pleased with the general's dispatch. They accept it as an assurance that the American commander has the Filipinos under control.

First in Havana.

Havana, Aug. 22. — There arrived here Sunday from Sancti Spiritus Lieut. Wight with some American cavalry. Capt. Johnson, of the Tenth United States infantry, has also returned from the field. Capt. Stewart Brice, of the volunteers, a son of Senator Brice, arrived here this morning on the Norwegian steamer Bratsberg from Santiago de Cuba. He will sail for New York on Thursday, on account of illness.

Gen. Morales Is Dead.

Panama, Colombia, via Galveston, Tex., Aug. 20.—The insurrection headed by Prospero Morales is finally crushed, ending in his death. Morales was captured and his forces were defeated and scattered. His followers betrayed the hiding place of Morales. When captured he was very ill, and died soon after the capture. He is supposed to have been exhausted by privations while hiding among the rocks of the mountains.

End of War Causes Idleness.

Philadelphia, Aug. 23.—Notices have been posted at the Frankford arsenal to the effect that the services of all the extra men who were put to work since the outbreak of the war will be dispensed with on September 1. About 700 persons are affected by the order. The reduction in force will reduce the daily output from 30,000 to 40,000 cartridges.

Iowa Regiment Ordered Home.

Washington, Aug. 20.—The secretary of war Friday ordered the Fifty-second Iowa regiment, now in camp at Chickamauga, to proceed at once to Des Moines, Ia., where they eventually will be mustered out.

TO RETAIN CONTROL.

Admirals Sampson and Schley Will Keep Their Respective Commands in the North Atlantic Squadron.

Washington, Aug. 23.—Rear Admiral Sampson will retain command of the North Atlantic fleet, notwithstanding his service on the Cuban military commission, and Rear Admiral Schley will continue in his present naval command, although serving temporarily on the Puerto Rican commission. This statement was made authoritatively at the navy department. The list of naval assignments posted contains that of Admirals Sampson and Schley to the Cuban and Puerto Rican commissions respectively, but no reference is made to any change in the fleet commands.

Washington, Aug. 23. — Admiral Sampson called on President McKinley Monday and spent 35 minutes with him in discussion of the Cuban commission's plans and other matters.

TROOPS ORDERED HOME.

Will Go Into Camp at Various State Capitals—May Soon Be Mustered Out.

Washington, Aug. 19.—Orders were issued by Adjt. Gen. Corbin Thursday night for the Second New York, now at Fernandina, Fla., to proceed with all its equipment, except wagon transportation, to Troy, N. Y., and there go into camp; the Second Maine to proceed from Chickamauga to Augusta, Me.; the First Illinois cavalry to proceed from Chickamauga to Springfield, Ill., and the Twenty-third Kansas, now in camp at Topeka, to proceed at once to Santiago, Cuba, and there report to Gen. Lawton. The Twenty-third Kansas is a regiment of colored troops and is said to be an excellent organization. It is the purpose to make the regiment a part of the permanent garrison of Santiago. The movements of the other three regiments is believed to be preparatory to mustering them out of the service.

Fatal Fire at Hot Springs.

Hot Springs, Ark., Aug. 22.—A fire which resulted in the loss of two hotels, a livery stable and several private residences and cost at least three human lives started in the National hotel at three o'clock Sunday morning. The identified dead are: Abe Matthews, Greenville, Miss.; W. H. Wills, Randolph county Ark., and Mr. Hughes, Tulsa, I. T. Among the seriously burned are Mrs. Eula Jeffreys, a visitor from the Indian territory, and Patrolman Wiley, of the local police department. A dozen or more were more or less injured, and it is believed by some of the guests and employes of the hotel that more lives were lost and that when search is made in the ruins several bodies will be found.

Slaughter Continues.

London, Aug. 20.—The Hong-Kong correspondent of the Times says the slaughter in southern China continues. Corpses float past Wu Chau daily. Two hundred rebels who had entered Tai Wong Kong were defeated by Gen. Mawho, who killed 100 of the rebels and took 40 of them prisoners. The gentry in the districts of Paklan and Wungun daily send to the magistrates between ten and twenty rebels for execution.

Aged Couple Suicides.

Milwaukee, Aug. 20.—Hugo Zellner and wife, of Chicago, aged respectively 65 and 70, were found dead in their room Friday night at the boarding house of Mrs. Goelz, No. 91 Martin street, having committed suicide by taking chloroform. The aged couple came to Milwaukee on June 13, and have been here ever since.

Will Leave for Spain.

New York, Aug. 23.—A dispatch to the Herald from Havana says that the steamer Reina Maria Cristina, which some time ago ran the blockade into Cienfuegos harbor, has arrived at Havana and is prepared to sail for Spain with mail, passengers and sick soldiers.

Garcia Resigns.

Havana, Aug. 23.—Calixto Garcia, the rebel leader who had trouble with Gen. Shafter at Santiago and tendered his resignation to the rebel government, is now at Gibara. He has handed in his resignation for the second time and it has been accepted.

Claimed to Be 130 Years Old.

Omaha, Neb. Aug. 23.—One hundred and thirty years of age was what Lewis Washington claimed to be, a colored man who died of old age at his residence here. His wife died in February, 1890, in this city, at an age of 104 years.

Successfully Launched.

Philadelphia, Aug. 19.—The Admiral Dewey, the first of the four steamers being built by the Cramps for the American Mail Steamship company, was successfully launched at 2:40 o'clock Thursday afternoon.

Renominated.

Toledo, O., Aug. 19.—The republicans of the Tenth congressional district nominated James H. Southard to succeed himself as congressman.

A DISASTROUS FLOOD.

Cloudburst at Pittsburgh, Pa., Causes a Tidal Wave That Drowns Six Children.

Pittsburgh, Pa., Aug. 20.—A cloudburst up Sawmill Run caused a tidal wave in that stream and endangered the lives of a dozen persons. Six children are missing and are supposed to have been drowned. They are:

Irene Loftus.
Regis Loftus.
Genevieve Shaughnessy.
Margaret Shaughnessy.
Nellie Sauls.
Anna Holzapfel.

The water in the run began to rise during the morning, and at nine o'clock a great volume of water came down. The missing children, together with some older persons, were standing on the porch of a tenement house in Toilet alley, in the rear of Main street, near West Carson. This porch overhung the run. When the great wave, 20 feet high, came down, the porch was carried away and the people went with it.

The great body of water did much damage. A sandbar 15 feet high at the foot of the run was washed away.

REAR-END COLLISION.

Conductor Fails to Warn Engineer of an Incoming Train—Seven Passengers Killed.

Sharon, Mass., Aug. 22.—A frightful rear-end collision occurred in the Sharon station of the New York, New Haven & Hartford railroad at 7:30 Sunday night, when an express train which was running as the second portion of a long train crashed into the first section, composed of local cars. As a result seven persons were killed and 26 seriously injured. The injured were nearly all removed to Boston on a special train, which was met by ambulances and surgeons. The rear car of the local train was completely demolished and a portion of the second car, while the engine of the express train was crippled.

The dead are:

C. B. Fry, selectman of Revere, Mass.
Franklin M. Waters, Somerville, Mass.
Mrs. William J. Fitzpatrick, Boston, her granddaughter, Mary Fitzpatrick, ten years of age, and her grandson, 15 years old.
A woman supposed to be Mrs. Watson, of Westerly, R. I.
Mrs. C. H. Briscoe, Revere, Mass.

THE STATE TICKET.

Men Placed in Nomination by the Convention of Republicans in Wisconsin.

Milwaukee, Aug. 19.—Following is the complete makeup of the ticket as

GOV. SCOFIELD.

nominated by the republican state convention:

For Governor—Gov. Scofield, renominated.
For Lieutenant Governor—Jesse Stone, of Watertown.
For Secretary of State—William H. Froehlich, of Jackson.
For Treasurer—J. O. Davidson, of Soldiers' Grove.
Attorney General—E. R. Hicks, of Oshkosh.
Superintendent of Public Instruction—L. D. Harvey, of Milwaukee.
Railroad Commissioner—Graham L. Rice, of Superior.
Insurance Commissioner—Emil Giljohan, of Milwaukee.

A Murder Mystery.

Detroit, Mich., Aug. 20.—The body of Valmore C. Nichols, a farmer who lived near Pittsfield, Mich., was found floating in the river near Belle Isle park. Yards of copper wire held the legs together and two heavy stones weighted the corpse down. Nichols left home a week ago Wednesday and the body had the appearance of having been in the water at least a week. He had several hundred dollars in his possession when he left Pittsfield, and as no money was found on the body the police believe the motive of the murder was robbery.

Absorbed Another Bank.

Milwaukee, Aug. 18.—The Wisconsin national bank of this city, having a paid-up capital of $1,000,000 and of which Capt. Fred Pabst is president and Charles Best, cashier, has absorbed the Central national bank of Milwaukee, purchasing its entire stock. George G. Houghton, former president of the Central national bank, becomes a director and Herman H. Wolf, who was cashier of the Central national bank, will be assistant cashier of the Wisconsin national bank.

Powder Mill Explosion.

Chattanooga, Tenn., Aug. 23. — A tremendous explosion at the plant of the Chattanooga Powder company at Ooltewah station, 18 miles from here, killed two white men, Lucius B. Eakin and Norton Mortchke, and wounded seriously, if not fatally, six others. After the explosion the plant was destroyed by fire.

St. Paul to Be Given Back.

Philadelphia, Aug. 23.—The auxiliary cruiser St. Paul arrived at Cramps' ship yard late Monday afternoon. The St. Paul will be returned to the International Navigation company by the government as soon as she is put in the same condition as when the great liner was chartered for naval service.

To Be Returned to Spain.

Washington, Aug. 23.—A dispatch received by Adjt. Gen. Corbin from Gen. Shafter indicates that with the fall of Santiago 23,726 Spaniards surrendered. Of this number a few less than 3,000 were guerrillas and volunteers, making the total number to be returned to Spain about 21,000.

Tragedy in Louisville.

Louisville, Ky., Aug. 22. — John Waecker shot and killed his housekeeper, Lena Metzger, because she would not marry him. He then turned his weapon upon himself with fatal effect.

Nervous People

Are great sufferers and they deserve sympathy rather than censure. Their blood is poor and thin and their nerves are consequently weak. Such people find relief and cure in Hood's Sarsaparilla because it purifies and enriches the blood and gives it power to feed, strengthen and sustain the nerves. If you are nervous and cannot sleep, take Hood's Sarsaparilla and realize its nerve strengthening power.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1; six for $5

Hood's Pills cure all liver ills. 25 cents.

SHE KNEW HIM.

Mr. Blimber's Wife Was Not Afraid of His Going to the Front and Being Killed.

Blimber thought he would test his wife's affection.

"My dear," he said, as he looked over the paper at her, "in the event of war it becomes the duty of every patriotic citizen to take up arms for his country."

"I suppose so," said Mrs. Blimber, calmly.

Mr. Blimber felt a little irritated.

"Do you know what that means?" he somewhat sharply inquired.

"I think I do," said Mrs. B——.

"It means hardships, and deadly dangers, and perhaps death."

"Yes," said Mrs. Blimber.

"It means sleeping in the open fields and in malarious swamps."

"Yes," said Mrs. Blimber.

"It means long forced marches, and wild forays, and desperate charges, and ambuscades, and—and—other things."

"Yes," said Mrs. Blimber.

"It means hospitals, and stretchers, and amputations."

"Yes," said Mrs. Blimber.

"It means fatal fevers and ghastly chills."

"Yes," said Mrs. Blimber.

"It means—say, Mrs. Blimber, have you any heart? Do you mean to sit there and hear me tell about these frightful contingencies without expressing the least regrets? Do you want me to go to war and get killed? Do you want me to be exposed to a thousand mishaps by field and flood? What do you mean, anyway?"

Mrs. Blimber went on with her fancy work.

"Don't get excited, Joseph," she calmly remarked, "there isn't going to be any draft."—Cleveland Plain Dealer.

The Grand Army Official Route.

The comrades believe in the principle of "staying by their friends." Having used the MINNEAPOLIS & ST. LOUIS R. R. for several years in attending annual encampments, and always finding them obliging and courteous as well as redeeming every promise given in regard to superior train service and accommodations, that the line has been again selected as the most desireable route.

The HEADQUARTERS SPECIAL TRAIN to Cincinnati will leave Minneapolis & St. Louis Stations on Sept. 3d, as follows: St. Paul 7:30 p. m., Minneapolis 8:00 p. m., Waterville 10:10 p. m., Waseca 10:30 p. m., arriving at Cincinnati Sunday Evening, Sept. 4th.

The train will consist of chair car (seats free), smoker, tourist cars (berths $1.50, large enough for two persons,) and Palace sleepers (berths $4.00, large enough for two). The rate is $17.50 from St. Paul and Minneapolis, and correspondingly low from other points. Tickets will be on sale Sept. 3, 4, 5, good returning from Cincinnati up to Sept. 13th, and may be extended to Oct. 2d, on payment of 25 cents at Office of Joint Agent. Department Commander Mortimer will have charge of the train, insuring all comrades the best of attention.

Rates by THE MINNEAPOLIS & ST. LOUIS OFFICIAL ROUTE will be as low as any, and the accomodations superior. An attractive feature is the diverse route going via Peoria and returning via Chicago. For berth reservations and tickets write to Department Commander E. W. Mortimer, No. 1 Washington Ave. South, Minneapolis.

Boiled Down.

An amusing story is told of the editor of a go-ahead evening newspaper, who, in the eternal rushing to press to get ahead of the opposition, was constantly impressing upon his reporters the necessity of condensing all news.

A terrible boiler explosion had taken place on board a big ship lying at Portsmouth.

"Get down there as hard as you can," he said to one of his men. "If you catch the 11:40 from London bridge you'll be there soon after two, and you can just wire us something for the extra special—but boil it down."

And the reporter went.

Soon after three o'clock that afternoon they got a wire from him:

"Terrific explosion. Melpomene. Boiler empty. Engineer full. Funeral to-morrow. No flowers."—Spare Moments.

As It Is in Puerto Rico.

This is what happens in Puerto Rico every morning: "I am not feeling very well this morning, general," says Gen. Miles to Gen. Garretson. "I think I'll take something." "Take something with me," says Gen. Garretson to Gen. Miles "Guess I will," responds Gen. Miles. "I'll just go out and take a town."—St. Louis Chronicle.

G. A. R. Encampment Sept. 5-10. $5.00 Queen & Crescent Route, Cincinnati, Chattanooga and return. W. C. Rinearson, Gen'l Pass'r Agt., Cin'ti, O.

The Lord prevents some men from succeeding because it would be too mean.—Washington (Ia.) Democrat.

Men are like rivers; the deeper they are the less noise they make.—Chicago Daily News.

WILLING TO HELP

Securing freedom from the grip of catarrh makes loyal friends for the liberator.

Pe-ru-na has been making friends of this kind for many years. It cures catarrh wherever located.

Mrs. R. Eades, of 35 Twenty-eighth St., Detroit, Mich., is one of the many thousand of Pe-ru-na's friends. This is what she says to Dr. Hartman:

"We have used your Pe-ru-na with the most remarkable results and would not be without it. We have always recommended it to our friends. A few years ago I purchased a bottle of your Pe-ru-na and after seeing its results, recommended it to my grocer who was troubled with dyspepsia, the curing of which induced her to sell it in her store. She has sold large amounts of it. My daughter has just been cured of jaundice with Pe-ru-na. My pen would grow weary were I to begin to tell you of the numerous cures Pe-ru-na has effected in our immediate vicinity within the last couple of years."

Dr. Hartman, President of the Surgical Hotel, Columbus, Ohio, will counsel and prescribe for fifty thousand women this year free of charge. Every suffering woman should write for special question blank for women, and have Dr. Hartman's book, "Health and Beauty." All druggists sell Pe-ru-na.

25 CTS PISO'S CURE FOR CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists. CONSUMPTION 25 CTS

AT LAST.

To-day my heart hath but this prayer:
Although the day be long,
And though upon the twilight air
I hear no even-song,
Though here on earth I may not know
Why shadows o'er me fall,
Sometime within the morning's glow
Wilt Thou not tell me all?

Perhaps I may not understand
This side of Heaven's gate
Why pain hath stayed my willing hands,
Why I must only wait;
Perhaps it is the secret sweet,
My heart's deep mystery,
That when safe at the Master's feet
His love will tell to me.

Perhaps to only watch and wait
Will be unto the King
More precious than the gifts so great
My soul had longed to bring;
Perhaps to only bear the cross
Just in this little while
Will bring for all the pain and loss
His glad, approving smile.

Be brave, my restless, longing soul,
Keep back the blinding tears,
For soon far, far behind shall roll
The oceantide of years;
Soon, in that gladsome morning land,
When shadows all have passed,
My heart, perhaps, shall understand,
Shall understand at last.
—Ladies' World.

In the Chamber of Cats

"THERE'S only one reason I hate to have him come," said Mrs. Blackstone. "Only one, and that's enough, goodness knows!"

"The cats?" inquired Mr. Blackstone.

"The darned cats!" rejoined his wife with vindictive emphasis.

"I'll tell him about the cats when I write," said Mr. Blackstone. He did. Here is the letter:

"Dear Regulus:—Of course, we want you ot come, and, of course, there is plenty of room, though it isn't the best kind of room, the good wife fears. You must know our flat is as narrow and long as the lane between your own mansion and that where you house the cows. Our guest chamber is the last room of all at the rear. It is the biggest and the lightest, but we don't use it to sleep in because of the cats. The international cat dueling ground for the borough of Manhattan is under the windows. Why don't we kill 'em? When one dies six come to bewail his death. So we evacuated the room for night use and live in the place the landlord calls the guest chamber. There isn't time before you come to take the bedsteads down and transpose them. It takes ten days to do that, including the time spent in hospital.

"So if you can stand the cats come, and we hope you will win your case. Sincerely,

"WILLIAM BLACKSTONE.

"To Hon. Regulus McShane, District Attorney's Office, — County, N. Y."

Hon. Regulus McShane arrived on a Saturday evening, and was conducted to his room. There were windows on two sides of the room. The bed ran obliquely into the room between them. On each of the unwindowed sides was a closet door. One closet ran through to the bedroom of the Blackstones. It contained a fixed washstand and the family medicine shelves. The shelves of the other closet were piled high with discarded shoes, empty mineral water bottles, and fragments of broken furniture.

"There!" said Mr. Blackstone, as he opened the door of this closet and pointed with pride to the display on the shelves. "That is your only relief from cats. That is the magazine. When they begin to howl bombard them. Use the Spanish method. Don't hit. If you do they'll only make twice as much noise."

The district attorney smiled grimly.

"I rather think I'll stay awake for fear I shouldn't wake up when they begin to sing."

Then he went out and showed Mrs. Blackstone his new shoes. They were wonderful shoes. Very large they were, because his feet were large, and the larger because the soles flared out beyond the uppers. They were yellow as a quarantine flag and shone with the soft radiance of the setting sun.

"I wish you would tell me," the lawyer said, plaintively, to his hostess, "what you really and honestly think of them. I'm feeling a little doubtful about them myself."

"Why?" asked the young woman, with magnificent innocence. "I don't see why."

"Well, you know," he explained, "I bought them in Syracuse. I had to stop over an hour and a half there between trains. The man who sold them to me told me that everybody in New York was wild over this breed of shoe—or would be as soon as enough of them were sold here to begin to supply the demand. I don't see much to go wild over about them."

"Oh, don't you?" said Mrs. Blackstone, increasing the proportion of the innocence in her surprise. "I do."

Mr. Blackstone retired carelessly behind a door jamb and shook his fist at her. But the district attorney was too much pleased with her comment to consider too closely.

"I'm greatly relieved," he said, with a sigh of relief that proved his sincerity. "I am, indeed. You see, they're the only pair I have with me. The ones I left at Syracuse weren't worth saving. And, besides, there wasn't any room for them in my bag."

Mrs. Blackstone's lips parted as if to utter more innocent comment.

"Don't you think, my dear," her husband put in, hastily, "don't you think it is time to let the weary traveler within our flat go to the chamber of cats? You trot to bed and I'll take Regulus and show him what beautiful decorations there are inside the refrigerator."

She went her way and they went theirs. So well did the up-country dignitary appreciate the refrigerator that it was near midnight when he parted with his host at the door of the chamber of cats. As they passed her door Mrs. Blackstone noticed that the district attorney's feet seemed to drag a little.

"Poor thing," she said, to herself, as she winked solemnly at her pillow. "He is tired. Perhaps he can't help dragging his feet, the responsibility of carrying those lovely shoes is heavy—heavy—"

As she dozed she heard her husband saying:

"If you can, old man, you better undress in the dark. The mosquitoes are awful up here. We would have put in screens, but if we had you couldn't have got at the cats."

It was perhaps an hour later when Mrs. Blackstone awoke. The night was very still. She wondered what had waked her. In a moment she knew.

"Pr'r'r'ow-wow!" came a challenge from a half a block away, "Pr'r'r'ow!"

"Er—wowu!" came the answer from under the back window.

"Will," said Mrs. Blackstone, hoarsely, to the next pillow. "Will, wake up! They're coming!" She sat up and clapped her hands softly in her glee.

"Lemme know when they get here," mumbled Blackstone, as he dug his head into the pillow again. Mrs. Blackstone sat up and distended.

"P-r-r-ow-wow!" The challenger was drawing nearer. Not one, but three voices answered him. For a moment, as they converged, all was silent. Then came a masterly battle cry; it was like that of a six months' infant who has swallowed his bib pin.

"Will!" said Mrs. Blackstone. "Wake up. They've come!" He sat up and rubbed his eyes.

In the next room they heard the bump and the pounding of bare feet on the floor. They heard a door open and the clinking of glass.

"Goodness, Will!" whispered Mrs. Blackstone. "I'd forgotten that you could hear things in that room so clearly."

"It's a very still night," her husband mumbled wisely.

The footsteps moved softly across the room again. "Slum-chunk!" The fragments of a bottle tinkled on the hard surface of the yard. This noise had not died away before there arose the long wail of the overtures to cat battle.

"W-o-o-o-o-o-o-ow, wow-wow!"

Softly cautious footsteps crossed the room again. Again a bottle broke and scattered. Again rose the wail of war.

There was nothing cautious about the footsteps this time. Instead of the clink of bottles heavy boot soles clattered together. The time consumed in gathering ammunition indicated that an armful was being collected.

Swat! Bang! Biff! Swat! Boom!

"T-f-f-t, wiawow!" yowled a victim.

"Thank the Lord," shouted Hon Mr. McShane. "Whoop!"

Boom—slam—smash—slap—biff!

"There, by Hades!" they heard Mr. McShane mutter. The silence of Sunday morning settled down again.

The Blackstones slept righteously into daylight. But not so late as they had intended. At about the time folks up the state go out to feed the stock before preparing for church, there came a rapping at their bedroom door.

"Bill! Say, Bill!" said a worried voice.

"Wassermat?" asked Mr. Blackstone.

"Did you send anybody into my room to take my shoes out and clean them?" asked Mr. McShane.

"No," responded Mr. Blackstone. "What's up?"

"They're gone, that's all," was the melancholy answer. "I put them in the closet when I went to bed, the one that isn't the magazine, you know, so that in the excitement of battle I wouldn't get mixed up and throw them. And now they're gone."

Mrs. Blackstone slipped out of bed and gingerly opened the door of the narrow closet that connected the two rooms.

"If he put them in here," she said, peeping in the darkness, "they certainly must be here." She opened the door a little wider and shrieked. Her husband was beside her in an instant.

"Look!" she cried, pointing into the closet. "Look!"

"For goodness' sake, you people," said a wondering voice in the hall. "what's the matter?"

The voice of Blackstone answered him, enunciating slowly and solemnly recounting a catalogue of things.

"One quart bottle of mucilage, one quart bottle of red ink, one quart bottle of green ink, one half-gallon jug of whisky, one bottle of Pond's extract, one box of dry plates, two bottles of developer, one large bottle of lime water—"

"One pair russets, one pair bicycle shoes," Mrs. Blackstone took up the list. "The skirt frame. Your big shoes, your patent leathers, your winter shoes—"

"Gone, all gone!" they said, in chorus.

"Have you found my shoes yet?" asked a voice from the hall.

"Your shoes!" howled Mr. Blackstone. "You good-for-nothing-but-shark-bait, steam snow-plows. Oh you—"

"William!" said Mrs. Blackstone.

Her husband strode out into the hall. He took his guest by the scruff of the neck and led him to the window. There in the area they looked down upon such an ink-spattered gummy wreck as seldom man is privileged to look upon. On the stone steps lay one dead cat and by his side a huge, yellow, gore-stained Syracuse boot. The other rested under the largest fragment of the ink bottle.

"I must have got into the wrong closet after all," said Hon. Mr. McShane, after awhile. "And they cost $8.50."

His case went against him by default the next day because he had to wait for Blackstone to go downtown, his own feet clad in tennis shoes, and order a full assortment of shoes sent to the house "for a gentleman with the biggest feet on earth." But Blackstone was unfeeling enough to say he didn't care much.—N. Y. Sun.

The Mines and the Demons.

Mountain demons are widely distributed throughout the world as far even as China and Japan. Miners used once to dread meeting them in the bowels of the earth, for in such a case it was believed that the face of the beholder was liable to be twisted round so as to look behind him all the rest of his life. Robert Burton, however, in discussing subterranean devils, says that "the metal men in many places account it good luck, a sign of treasure and rich ore, when they see them." These imps are, of course, the lineal descendants of the dwarfs of Teutonic mythology; but northern Europe has no monopoly in such supernatural dwellers underground, though their characteristics vary with their localities. Gervase of Tilbury, an old chronicler of the twelfth century, tells of a dark, unfathomable lake on the almost inaccessible summit of Mount Canigou, in the eastern Pyrenees, where the demons have a dwelling that is like a palace for size, but to most people both the palace and the demons themselves are invisible. If anyone drops a stone or other solid substance into the lake, a tempest immediately breaks out, as though the demons were enraged at the insult.—Gentleman's Magazine.

MINNESOTA NEWS.

Weekly Crop Bulletin.

U. S. Department of Agriculture, Minnesota Section, Weather Bureau.—On the evening of the 14th there were severe local storms in Polk, Isanti and Yellow Medicine counties; in Polk and Isanti counties, hail accompanied the storm, causing damage to standing crops over large areas; in Yellow Medicine county the storm seems to have been tornadic in character, causing considerable loss of life, and great destruction of stock, buildings and crops. In the regions where harvest is over, stacking has advanced well during the dry part of the week, and in southeastern counties it is finished. Threshing from the shock has gone on during the driest weather. There are complaints in some sections that barley is colored. Considerable flax is being cut. Though the nights early in the week were rather cool, corn is maturing nicely; the acreage in this crop is larger than ever before in Minnesota. Where clover and timothy have been threshed for seed, the yield is satisfactory.

The Old Man Ejected.

Thomas Hyde, who, since 1883, has been living in a shanty on the famous section 30 in a vain attempt to hold a portion of that iron land, has been ejected and the Minnesota Iron company is now in full possession. Sheriff Wilson, of Lake county, moved Hyde's goods while the latter was absent.

Old man Hyde for many years never left his shanty, fearing an ejectment, and kept an arsenal there for whoever might attempt to put him out. At one time he refused $75,000 cash for the relinquishment of his right. Even now his appeal is pending before the United States supreme court, but the chances are very slight for him.

The forty on which is Hyde's cabin joins that on which Miller and Brown are now at work developing a mine. Section 30 is the most famous undeveloped iron land in the world. For 20 years it has been in the courts, and over a half a million dollars has been expended in lawyers' fees and other expenses.

Claim of the State.

The claim of the state of Minnesota against the United States government for $200,000 expended in fitting up the four regiments of the volunteer army organized in this state will be presented at the next session of congress in December.

Whether Minnesota's claim will be taken care of under a general law, or whether by special law is not known, but Adjt. Gen. Muehlenberg is inclined to the belief that the state will be reimbursed partly in equipment for the national guard and partly in cash.

In view of the fact that the wheels of the legislative body at the nation's capitol do not move very fast, and this is especially true in regard to claims, the very earliest relief sought for could not be obtained until some time next year. The next session of the legislature will, therefore, be asked to appropriate anywhere from $50,000 to $100,000 to fit out the new national guard.

Will Use Swamp Grass.

The farmers of Minnesota and the Dakotas will soon have a market for their waste swamp grass in St. Paul, for within a few weeks the Minnesota Grass Twine company will have its plant in operation, and agents will be in the country buying all grass that is suitable for the company's business.

A deed was filed Friday transferring the property of the Northwestern Cordage company on Como avenue to the Minnesota Grass Twine company, and that was the last link in the chain of negotations that has been going on for several months. The latter company is now in a position to go ahead and put its machinery in the buildings purchased by it, and to begin work as soon as machinery and men are ready.

Revenue Question.

Answers have been received from Revenue Commissioner Scott to some questions which are the daily puzzle of every register of deeds in the state. They hold in general that an order or certificate which is equivalent to a conveyance, bears the same tax as a conveyance. Orders permitting conveyances are not taxable, nor certificates on instruments already taxed, nor the stamped advertisements of the registers of deeds, nor the statements of local officials attached to deeds that are paid on property that is being transferred.

Minnesota Briefs.

Ruth Plummer, aged 3½ years, fell into a cistern in Minneapolis and was drowned.

Col. Charles McC. Reeve, of Minneapolis, is now chief of police of Manilla, and the 13th Minnesota regiment is performing police duty in the city.

During a strong electric storm, Herman Eggestein and wife, living six miles south of Jackson, were killed by lightning. Heavy rain and wind followed, doing considerable damage to outbuildings and stock. Lightning struck and burned considerable grain.

Wm. Hatton, living near Wykoff, blew his head off with a shotgun. Ill health is supposed to be the cause.

Rush City laid the corner stone for the new $12,000 brick school building. The ceremony was largely attended.

The wheat stacks of M. B. Drew, near Marshal, were destroyed by lightning.

An electrical storm at Currie damaged several buildings and blew down a number of grain stacks.

John H. Gebhart fell from a freight train at Le Sueur and was killed.

The Minneapolis dairy board of trade was organized only a little over a year ago, but in the first seven months the products handled through the board aggregated 52 carloads, valued at $147,196.22. This is a slight indication of the great and growing importance of the dairy interests in Minnesota, which takes front rank in quality of dairy products.

While crossing a bridge near Belview with a steam threshing outfit, the bridge broke, throwing the engine into the stream and killing Edward Darling.

Matt Nagier, a farmer near Lake Wilson, was stabbed to death by his hired man, J. C. Voelkil.

The breaking of the harness threw a party of picknickers onto the ground at Duluth, killing August Lida and fatally injuring William Clement.

Jo Wadylad Janascha was drowned in the river at St. Paul.

The revenue authorities have decided that all certificates of vaccination presented by children seeking admission to schools must bear a 10-cent revenue stamp, except in cases where the certificate is signed by an inspector of the board of health.

The Enormous Gold Product of 1898.

This will be the greatest gold year in history. From South Africa, the Klondike and Australia the precious metal is being shipped in large quantities. It is believed that this year's output will be nearly double that of any previous twelve months. The sales of Hostetter's Stomach Bitters are also increasing very fast, and this year that famous remedy will cure more people of dyspepsia, indigestion, constipation, nervousness and weakness than ever before.

The Falling Leaves Give Warning of Winter

So the falling of the hair tells of the approach of age and declining power.

No matter how barren the tree nor how leafless it may seem, you confidently expect leaves again. And why?

Because there is life at the roots.

So you need not worry about the falling of your hair, the threatened departure of youth and beauty. And why?

Because if there is a spark of life remaining in the roots of the hair

AYER'S HAIR VIGOR

will arouse it into healthy activity. The hair ceases to come out: it begins to grow: and the glory of your youth is restored to you.

We have a book on the Hair and its Diseases. It is free.

The Best Advice Free.

If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be easily removed. Address,

DR. J. C. AYER, Lowell, Mass.

Calico from Calicut in 1631.

Calico was first manufactured in a city of India called Calicut, from which it derives its name. It was introduced into England in the year 1631, and finally into this country, but as the United States consumes by far the largest quantity of calico of any country in the world, it is necessarily manufactured here most extensively. The highest grade made has a ticket on every piece upon which is printed the name William Simpson & Sons. These goods are noted for their general excellence, brilliancy and permanency of color.

War Prices.

He—I would give the world for you.

She—Is that all? Why, you offered that much before the war raised prices.—Indianapolis Journal.

Wheat 40 Cents a Bushel.

A Beautiful Present

FREE for a few months to all users of the celebrated ELASTIC STARCH, (Flat Iron Brand). To induce you to try this brand of starch, so that you may find out for yourself that all claims for its superiority and economy are true, the makers have had prepared, at great expense, a series of four

GAME PLAQUES

exact reproductions of the $10,000 originals by Muville, which will be given you ABSOLUTELY FREE by your grocer on conditions named below. These Plaques are 40 inches in circumference, are free of any suggestion of advertising whatever, and will ornament the most elegant apartment. No manufacturing concern ever before gave away such valuable presents to its customers. They are not for sale at any price, and can be obtained only in the manner specified. The subjects are:

American Wild Ducks, American Pheasant, English Quail, English Snipe.

The birds are handsomely embossed and stand out natural as life. Each Plaque is bordered with a band of gold.

ELASTIC STARCH has been the standard for 25 years.

TWENTY-TWO MILLION packages of this brand were sold last year. That's how good it is.

ASK YOUR DEALER to show you the plaques and tell you about Elastic Starch. Accept no substitute.

How To Get Them:

All purchasers of three 10 cent or six 5 cent packages of Elastic Starch (Flat Iron Brand), are entitled to receive from their grocer one of these beautiful Game Plaques free. The plaques will not be sent by mail. They can be obtained only from your grocer.

Every Grocer Keeps Elastic Starch.

Do not delay. This offer is for a short time only.

"FORBID A FOOL A THING AND THAT HE WILL DO." DON'T USE

SAPOLIO

STOP, WOMEN!

You Are Asked to Consider an All-Important Fact.

You Can Talk Freely to Mrs. Pinkham, But It Is Revolting to Tell Your Troubles to Any Man.

In addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience in treating woman's diseases is greater than that of any living physician—male or female.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides, a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman, whose knowledge from actual experience is greater than any local physician. The following invitation is freely offered; accept it in the same spirit:

MRS. PINKHAM'S STANDING INVITATION.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

DR. BUSH'S MALARIAL PILLS 50 cents a Box. We guarantee to CURE Fever and Ague in 48 hours; a 25c box Malarial or Hay Fever or La Grippe; mailed for price, postpaid by SALISBURY PHARMACY, CORRY, Pa.

BUFFALO GAZETTE

DELANO, FRIDAY, AUG. 26, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

—F. T. McFarland, formerly of Murdock, has opened a drug store in Len Dedrick's building.

—County Superintendent Lee held a teachers examination at the school house, last Friday and Saturday.

—Chester Williams left us a fine crookneck summer squash a few days ago. He says he sells them for a cent apiece.

—Swadner & Son contemplate the addition of shop and machinery to their blacksmithing business in the spring or sooner.

—Shrader & Eppel are among the hardest worked men in town lately. They are shipping several car loads of wood; working early and late.

—Editor Buckley last week announced in his paper the Eagle that "Tariff is a Tax." Surely the world do move. Most of the other papers in the county had arrived at that conclusion before.

—A fine rain Tuesday evening cooled the atmosphere, laid the dust, placed pastures in better condition and moistened the ground so that plowing is a more pleasant occupation.

—Fine stacks of wheat, oats and other straw are being burned every day now. There should be some provision for working up such fine material into straw paper or some other useful article.

—Philip Martin, on Tuesday morning presented us with a cluster of fine Dutchess apples grown in his garden. He says the tree is loaded. If such fruit can be grown here why isn't there more of it?

—Rev. Hanke preached Sunday morning at the Presbyterian church. Rev. Barber being absent, working on his farm, only the usual Epworth League meeting was held at the M. E. church in the evening.

—The Bryants, in Independence, are having considerable family trouble lately. Several neighbors as witnesses visited Minneapolis with them this week to try to adjust matters before the Judge of Probate and others.

—In giving an account of camp moving of the 15th Reg. from Camp Ramsey to Fort Snelling, the Globe says: "Lieut. Dewey, chief engineer, and Adjt. Catlin will lay out the new camp." This is our Prof. Dewey formerly Principal of the Delano High School.

—Mayor Pratt's son Sydney, of Minneapolis, private in the 13th Minnesota, died at Manilla, of typhoid fever. Charles Little, of Howard Lake, private Co. F. 13th Minn. was among those wounded in the battle at Manilla. So far as heard from the rest of the Wright county boys are all right.

—We object. We hereby object to and protest against the Village council of Delano granting licenses to sell intoxicating liquors to any one who will not comply with the law and carry out their side of the contract, and would ask that sufficient police force be appointed to see that this is done.

—B. Restler & Co., of Minneapolis, vs. Johnson Brothers, of Rockford. The suit was for goods purchased. Johnson Bros., having an offset for goods previously purchased and paid for, but, which they claim were not according to order. Justice Frazee took three days to decide the knotty question.

—The Cargill Elevator Company have boarded up their basement presenting a much neater appearance than heretofore; but robbing traveling men of a stopping place. The new gasoline engine outfit created considerable excitement on Friday before it would run. An explosion got a few men out of the engine house in a hurry and brought many neighbors to the sidewalk to learn the cause. No one hurt.

—Saloon rows are becoming altogether too frequent for the good name of Delano. Last Sunday, two farmers who had no business in a saloon on Sunday, got into an altercation. One called to exhibit his chawed up cheek to a doctor, and threatened to invoke the aid of the law. If he would appear before the council and object to the granting of license to men who break their license contract he could, possibly, prevent the man who furnished the drinks on Sunday, doing so again.

—Our Board of Education, when it undertakes to do business with business men, learns a few points. We understand the Insurance companies don't want to go on School Treasurer's bonds, because of their past experience. The laws are quite plain and where they are not lived up to any better than they have been by the Delano Board of Education we would be more surprised at Insurance companies going on school Treasurer's bonds than we should at their refusing to do so. When the Treasurer is liable in twice the amount he pays out not in compliance with law, and teachers are hired who have never been before an examining board, as required by law, it looks as if any one saw fit to do so he could compel the Treasurer to refund to the treasury twice the amount paid out for the year to teachers. No wonder insurance companies don't want to assume such risks. It is even strange that a Treasurer would run his chances on such risks. The provisions of the school laws must be a little more closely followed.

—Charles Conzet's harness soap is becoming the popular shoe blacking in town.

—Otto Marr is having his well repaired and put into ship shape. Guy Murphy is doing the job.

—The wheat price goes down, down. It seems determined to seek the level of the silver dollar sure enough.

—There will be a special business meeting of the Epworth League, tomorrow evening, at half past seven at the home of Dr. T. J. Catlin.

—Jacob Bryant was before the Probate court in Hennepin county Thursday. The application to appoint a guardian for him was denied.

—Numerous hunting parties are going prairiewards in search of prairie chickens, which it is claimed are uncommonly plenty this season.

—The Pioneer Press ought not to publish a picture of company B. 13th and label it "company B. 15th. 'Taint right. Still that's what they did this morning.

—Several trains of "Streets Western Stable Cars," and "C. C. C. C's" passed through town this week carrying fine western beef cattle to market, and returning for more.

—The book social given at the City Hall last night, by the Christian Endeavor, was a complete success. There was quite a large attendance and a good time was had.

—Several fine patches of broom corn are growing in the vicinity of Delano. Messers Strauch & Brenner are looking after them, and expect to spend the winter in making up some of it into first class brooms for their numerous customers.

—The combination to the depot safe refused to combine, went on a strike, or a lock out, or some such, and on Monday after Pendergast had spent Sunday with it, the safe was not very tenderly loaded on to a baggage car bound for Twin cities for an opening.

—Rudolph Reider received by express on Wednesday fresh from Washington, three of the new government bonds of $20, each bearing 3 per cent interest. He can clip off coupons for 45 cents once in three months. So Rudolph has become bloated bondholder already.

—We are creditably informed that an enterprising farmer near Delano treated a party of friends a few days ago to some nice peanuts, raised on his farm. He claims that he has several bushels and that they are fine. As he is so modest as not to have brought us a sample, perhaps it is hardly fair to give his name.

—Considerable anxiety has been manifested in Delano by those having friends in the 13th Reg. Minn. Vol. since the battle of Manilla. But as no lists furnished so far shows that any Delano boy has been sick, or injured, the friends begin to breathe more easily again. The 13th is reported as policing the city of Manilla, and as their Col. is famous for the discipline of his soldiers they will probably fare as well as any in Manilla.

—Trains don't seem to respect any laws concerning going slow through town. They back up for a run and go through Delano, across the bridge, and two street crossing, at about as lively a rate as possible in order to make the grade out of town. If this rate of speed is to be premitted it is about time a flagman was posted at River street and Third street crossings. It is claimed at Maple Lake, that the train was running about 30 miles an hour when it struck little Clara Backus injuring her, resulting in her death.

—After reading of recent decisions of courts, holding bondsmen responsible for the lawbreaking of saloonkeepers, on whose bonds they were, it looks as if it would be a hard matter to get any responsible man who thinks anything of his standing in the commercial world to assume further chances in that line, and especially in a town notorious for its constant violations of the liquor laws. No good business man can afford to impare his standing by carrying such a weight if he is to be called upon to make good all deviations from law indulged in by those who are making money by selling intoxicating liquors.

—Delano intoxicating liquors seem to grow worse instead of better. On Saturday, an old Swede from the neighborhood of Lyndale, with a one horse wagon load of feed started ont of town as hard as the horse could go, pounding the poor beast every jump, while he could hardly keep himself in the wagon. It must have been while the police force was asleep. The man should have been run in, and the individual, who must have been a poor specimen of manhood, who supplied him with liquors, knowing the old fellows failing, ought to have been run in with him, and the village authorities that allow people to run saloons and sell to such men, to run on Sunday and break the law, should be traded off for some that will preserve order, and at least see that the contracts are kept. The bondsmen are generally reliable and responsible for damage in this direction and it might be well to let some of them find it out.

—John Hawker died at his home in Texas township, near Tracyville, Saturday, July 2, 1898, aged 78 years and three months. The deceased was born in Cornwall, England, and came to this country in 1844, and until the last few years he conducted a shoe making business on Main street He then retried to his farm near the Root's Brook, where he remained for the rest of his life. He was a prominent member of the M. E. church, leading the choir in the old church, and at times officiated as a local preacher. He was a man entirely above reproach in every way. He was twice married, his first wife being Mary Sarah Rodgers, whose remains rest in the old cemetery, and who is survived by one daughter, Mrs. Mary Wright of Salem. He afterward married Rosina, daughter of John Surrine, an old resident of this place. She died in 1879, leaving two daughters. Mrs. Delia Polly, now living in Nebraska, and Miss Ida, who cared for her father until his death. He is also survived by four brothers and one sister, Isaac, now in Australia; Abram, in Honesdale; Thomas, in the West; Charles, in Cornwall, England, and the sister in London, England.—The Wayne County (Pa.) Herald.

Thomas is dead and William, of Delano, should have been written instead of him in the above article.

Personal.

Prof. R. M. Bohn observed his tin wedding Aug. 23.

The Kerr family drove to Waverly today for a good time.

Frank Mayer, of Minneapolis, visited Delano friends this week.

Miss Isa Kerr, of Minneapolis, spent Sunday with her parents in Delano.

Albert Wandersee came home from Minneapolis Thursday morning.

Roy Mulford returned home this morning for a visit with his mother.

Emil Gutzwiller, wife and son of St. Mich. all visited Delano Thursday.

C. M. Johnson, of Rockford, paid Delano one of his old time visits Sunday.

Mrs. Hattie Van Eman and Mrs. Wash Rader returned from Monticello Monday.

Sam Pape passed through town a few days ago. He is still located at Hancock.

Squire Will Guptil and F. H. Johnson, of Rockford, were Delano visitors Tuesday.

Chris Gast came down from the prairie Monday evening for a brief visit with his family.

Mrs. M. J. Mulford, who has been camping with friends at Howard Lake, returned home Monday.

S. V. Snodgrass of N. W. Franklin, was a caller Tuesday. Si. says he is building a new residence.

Col. Greear, of Old Kaintuck, arrived home Saturday night and spent a few days with Delano friends.

Misses Viola, Clara and Rosella Sturman went to Annandale today to attend Advent Camp meeting.

N. K. Coffin and family drove to St. Peter Thursday for a week's visit at his old home near that place.

J. E. Borsch says the Catholic Forester's convention at LeSuer was a grand success, and he enjoyed it immensely.

S. D. Coffin, Lindale, spent Monday in Minneapolis, making arrangments for entering the University this fall.

Emery Cunningham went to Howard Lake this A. M. to see about securing the principalship of that school there.

Adam Schaffer, wife and daughter, of Vicksburg, Miss., are visiting with his brother George and family here.

Miss Mable Hobert has returned from a visit to Nebraska. She says the Omaha exposition is a splendid affair.

George W. Bolton and family, having finished their vacation outing returned home Monday. They had a good time.

Sam McGuire who has been spending a vacation with friends at Waverly was a passenger home to St. Paul, Wednesday evening.

Miss Annie R. Quinn who has been attending the Winona Normal summer school is at home again ready to resume her place in the public school.

Charley and Laura Lohmiller, who have been visiting at Long Lake came home this morning Their friends Claudie and Lyda Oleson came with them.

Bernard Larson and his sister, Mrs. Hobsberg and husband, of Minneapolis, formerly Delanoites, are camping at Lake Rebecca. They were also guests of R. M. Bohn and Mrs. F. Kelsey.

County Cullings.

Among those wounded at the battle of Manilla appears the name of Charles Little of Howard Lake. How badly he was hurt was not reported as yet.

Any of our readers wishing to attend the Christian Endeavor Union at Omaha. we are informed by a notice from Chas. A. Mangum, chairman of Special Hotel Committee, should apply to him or to A. L. Emmons or C. W. Hill, in case of Y. W. C. A. Building.

Wright County Republicans being for Collins, and Anti-Eustis, are apt to give John Lind a good many votes. The probabilities are that Wright will give a majority for Mr. Lind.

It has sort of leaked out that Ole Mattson is a Silver man is why the Republican are anxious to unload him.

A ten years old daughter of Henry Becker, of Maple Lake, while walking on the track caught her foot in a cattle guard and before it could be extricated a passing train injured her. Dr's. O'Conner and Ridgway amputated the leg and she is likely to recover a cripple for life.

LATER. From the Maple Lake Messenger we learn that little Clara died Monday.

The Democratic nominee for Judge of the 18th Judicial district don't seem to be rustling about so much for a nomination, as were the numerous aspirants for that position on the Republican ticket. We mentioned Charles Wheaton, of Elk River as a possible nominee. His home paper the Star News, run by Editor Dare who knows, says Mr. Wheaton would be a good man. We are not personally acquanted with him, but have always heard him well spoken of.

The only representative of Wright County Democracy at the Senator Jones Banquet, Wednesday night was Dr. Catlin, of Delano. Possibly we are mistaken, but it looks to us very much as if old Wright's empty seats in the bald headed row on occasions of that kind meant at least an indifference to the principles of Democracy, on the part of those who have heretofore been faithful in season and out of season, and who have long fed at the public crib. Wake up boys! wake up! Show your colors.

Still the Republicans are quarreling over who shall have the nomination for various offices which they consider surely theirs if they but get the nomination. It looks some as if Wright County would, by no means, be surely Republican this year if the Democrats put up their cleanest and best men.

BORN.

LINDSLEY.—In Delano, Aug. 23 to Mr. and Mrs. F. Q. Lindsley, a son.

But when the Republicans are pretty sure they can't carry the concern some of them go in with some Democrats for office, and get up a mongrel ticket which at all events keeps the better Democrats at the bottom. It has been played once too often now. Let true Democrats be at the primaries and send good delegates to the county convention and put up a winning ticket. Good straight Republicans will vote for it instead of for the mongrel.

Editor Eaton, with the accent on the "Eat," seems to have fancied a change of fare, and last week added to his menu, of "Lam," "Cat." He is willing to admit "Cat" don't "know any more than the law allows." Yet he says: "Still he knows what was meant, and so does everybody else." When the Journal said "Opposition to the G. N. influence is now over in this country."

If Mr. Eaton, who rather intimates, in the article alluded to, that he thinks he knows more than the law allows, will kindly inform us, in his paper, just what he does mean it may be to his advantage one way or the other. If he is catering to the G. N. influence, as is openly charged by some, surely the people don't have any use for him, if not, and he knows a whole lot more than the law allows him, which we fear may be true, he had better out with it. Speak right out A. Y.

"Poor Dr. Catlin is still bemoaning that $2.00 which he says the public examiner cheated him out of."—Eagle.

That is the kind of argument the Old Bird has in store for those who honestly point out to the reading public that the financial statements of Wright County shows that $3, is paid for each member of a board in lunacy, while Kandyohi paid $5, and Meeker $7 80. If the Eagle is satisfied to have her neighbor loose $2, that may be only a matter of spite, or it may be taking it only as a pleasantry, it matters not. But when the Eagle considers that there are quite a number of cases in each county in a year, that there is two members besides the Judge of Probate in each case, and that if Dr. Catlin has lost $2, each of those who have been on a board have done the same, it ought to consider their losses as well. No law that will admit of such wide differences in construction ought to be allowed to remain on the statutes of the state, and an examiner of Public accounts should aid in ferreting out rather than in covering up such matters The Eagle says we need a member of the Legislature from this end of the country. The Eagle is right about that. But we want a member who will try to rectify such absurd blunders in the laws, rather than make fun at those who happen to find them and point them out to the voting public.

Who the Carlists Are.

A correspondent asks what is meant by the frequent reference to the fear of a "Carlist uprising" in Spain. At the death of King Ferdinand of Spain, in 1833, his three year old daughter, Isabella II., succeeded to the throne, though Carlos, Ferdinand's brother, claimed to be entitled to the honor under the salic law, which provided that no female should go to the throne as long as any male descendant of the king was living. This law, however, had been revoked by Ferdinand, who had no children at the time, but six months after his death a daughter was born, and she became queen to the exclusion of Carlos. The latter's descendants, who are called Carlists, have since persistently insisted that, by right of succession, the throne belongs to them, and for over fifty years Spain has been subject to Carlist uprisings, which have simply meant a number of unsuccessful wars, the destruction of property, and general public unrest. The Carlists have found their strength in what are called the Basque provinces, dominated mostly by the clergy, who believe in the divine right of kings and of kingly succession. The inhabitants of the Basque region are largely shepherds and farmers. They are good fighters, and have been the main strength of the Carlist forces. A strong sentiment in favor of a republic exists in the cities, where the people have been led to independent view by education, reading, travel. It is unnecessary to say that between what are called the Republicans and the Carlists there is a strong antipathy, for their aims are radically different. In 1873 Spain was a republic, and the people owe to that brief peroid of the popular government many of the liberties which they now enjoy.—Leslie's Weekly.

Notice.

All persons indebted to me on account will take notice that I must have some money. Crops are good. I have waited in many instances a long time, and now must be paid. Unless prompt attention is given to this notice you may expect a collector to call for a settlement soon. Call and settle and oblige.

Yours Respectfully,
T. J. CATLIN, M. D.

WEBSTER'S INTERNATIONAL DICTIONARY

Entirely New. Abreast of the Times. A Grand Educator.

Successor of the "Unabridged."

Everybody should own this Dictionary. It answers all questions concerning the history, spelling, pronunciation, and meaning of words.

A Library in Itself. It also gives the often desired information concerning eminent persons; facts concerning the countries, cities, towns, and natural features of the globe; particulars concerning noted fictitious persons and places; translation of foreign quotations. It is invaluable in the home, office, study, and schoolroom.

The One Great Standard Authority.

Hon. D. J. Brewer, Justice of U. S. Supreme Court, writes: "The International Dictionary is the perfection of dictionaries. I commend it to all as the one great standard authority."

Recommended by Every State Superintendent of Schools Now in Office.

☞ A saving of *three cents per day* for a year will provide more than enough money to purchase a copy of the International. Can you afford to be without it?

Have your Bookseller show it to you.

LITTLE BREECHES.

I don't go much on religion,
I never ain't had no show,
But I've got a middlin tight grip, sir
On the handful of things I know;
I don't pan out on the prophets
And free will and that sort of thing.
But I b'lieve in God and the angels
Ever sence one night last spring.

I came into town with some turnips,
And my little Gabe came along—
No four-year old in the country
Could beat him for pretty and strong;
Peart and chipper and sassy,
Always ready to swear and fight—
And I'd larnt him to chaw terbacker
Jest to keep his milk teeth white.

The snow came down like a blanket
As I passed by Taggert's store
I went in for a jug of molasses
And left the team at the door.
They scared at something and started,
I heard one little squall,
And hell to split over the prairie
Went team, Little Breeches and all!

Hell to split over the prairie!
I was almost froze with skeer,
But we rousted up some torches
And sarched for 'em far and near.
At last we struck hosses and wagon,
Snowed under a soft white mound,
Upsot dead beat, but of little Gabe
No hide nor hair was found.

And here all hope soured on me
Of my fellow critters' aid.
I jest flopped down on my marrow bones,
Crotch deep in the snow and prayed.
By this the torches was played out,
And me and Isrul Parr
Went off for some wood to a sheepfold
That he said was somewhar thar.

We found it at last and a little shed
Where they shut up the lambs at night.
We looked in and seen them huddled thar,
So warm and sleepy and white,
And thar sot Little Breeches and chirped
As peart as ever you see.
"I want a chaw of terbacker,
And that's what's the matter with me!"

How did he get thar? Angels,
He could never have have walked in that storm!
They just scooped down and toted him
To whar it was safe and warm,
And I think that saving a little child
And bringing him to his own
Is a derned sight better business
Than loafing round the throne!

—John Hay.

A GREAT deal is being said about Mr. Eustis going to run a cheap campaign. So long as rich men are selected more on account of their money than their other qualifications as candidates for office so long will such charges be made.

GEN. MILES it seems will have the best end of the fuss between Secretary Alger and himself. The boys in the field can probably tell something about who was to blame for a lot of mismanagement in the field and who was instrumental in correcting the abuses.

MR. HAMMOND, who was nominated in the Second district to run for Congress against the present incumbent Mr. McCleary, has declined to run. This leaves the door open, probably for Editor Johnson of the St. Peter Herald. Mr. Johnson would run like a prairie fire in a high wind.

PARIS is in an uproar. Lieutenant Col. Henry is reported to have been arrested on the charge of having forged a letter that was used in preventing a reopening of the Dreyfus case, and to have cut his throat with a razor he had concealed in a satchel in his cell. Gen. Le Mounton de Boisdeffre, chief of the general staff of the French army, has tendered his resignation. The Dreyfus case is liable to be reopened and wrongs righted. People are beginning to look into the affairs of high officials, even in Europe.

IT IS very singular that the Republican papers should devote so much of their space to trying to convince their readers that free silver is dead. If it is dead why don't they leave it alone? Can't they find a live issue on which to write leading editorials? Democrats enjoy reading live editorials, and are glad to see the activity displayed by several countries to climb back onto the old bimetallic band wagon. How dead free silver must be when the bankers can't find gold enough on which to do business in poor old India on a gold basis but will have to submit to having silver money there again.

THE Duluth News Tribune wants Mr. Kriz, and the St. Cloud Journal-Press wants Mr. Bede to debate with Hon. Charles A. Towne, but the Republican committe and Mr. Morris think that as between Messrs Morris and Towne, such a debate at this time would "subserve no useful purpose". Perhaps there was a mistake made in not nominating Mr. Kriz or Mr. Bede instead of Mr. Morris for Congress, as Mr. Towne prefers to measure his talents against his opponent, and not by parading over the country helping J. Adam or Mr. Kriz amuse the people while Page Morris works his way back to Congress. Doubtless Mr. Towne will take care of his end of the campaigning and allow Messrs Bede, Kriz and others to amuse the people on their own hooks, while the present incumbent will find plenty to do.

THE Peace commission appointed to draw up articles of peace between Spain and the United States will have to get together and act, and their report will have to be sanctioned by the President, before peace can be formally declared. It may be weeks, months, or years before they agree. The war is not closed until they do, consequently troops may be held until peace is declared. It seems as if after licking Spain so soundly that it ought to be an easy matter to tell her what we would take and settle, but Spain don't seem to be of that mind. With good men on the commission they may soon wind up the affair. C. K. Davis, an aspirant for the Presidency and a member of the Peace committe, can not afford to have things drag along and hold the boys in the army who desire to get home. He would loose votes that way. But the bond holders are a power in politics and may have to be heeded by the committee more than the thousands of women and children and parents who wont their relatives and friends sent home from the army.

The boys enlisted for patriotic purposes and are patriotic enough to discharge their duties like men so long as they are in the army. But it does seem hard for some who gave up good positions to take that of a private soldier in defense of his country to be obliged to guard property for wealthy people at the meagre pay they receive. But perhaps the Peace Committee will get a hustle on and Congress can soon arrange for enlarging the regular army and allowing those volunteers who desire to do so to return to their homes.

Men are in Demand.

In a short time the primary elections will be held for the purpose of selecting delegates to attend the County Conventions, to select candidates for county officers. The primary elections are run on a different plan from the old caucus. The delegates must be elected by ballot. Everybody belonging to the party holding the primary election has a right to vote and that for the person he chooses. Select good men; stir about and get enough of your neighbors to attend the primary to elect them for delegates. If you get good delegates, which you can if you get good men to go to the primary and elect them, you will get a ticket to vote for, of which you will be proud; a ticket made up of men whom you will not have to defend from the first day, but men who you will be glad to ask your neighbors to help elect. You will get a ticket in harmony. The State, Congressional, Legislative, Judicial and County ticket put up to be elected if possible, by honest means. No part of the ticket will be to leave off when you vote. That's what people want now. They want men on whom they can rely to take charge of public business; who will try to have things as near right as possible, and with a ticket of that kind there are plenty of honest voters who will help elect it.

Old Soldiers vs. Eustis.

The story that the old soldiers in Minneapolis would do up Eustis looses nothing as the campaign progresses. One day this week an old soldier who had been to Minneapolis informed us that whild he was in Minneapolis one day last week he was traveling about with an old comrade who was a Republican, and they met another comrade, who holds a high office in their society. Politics of course soon became the topic of conversation. The high officer of the old soldiers, who is a good Republican, said;

"I don't believe Eustis will carry Hennepin county. There are 6,000 or 7,000 old soldiers in Minneapolis, who will vote against him, and their numbers are rapidly increasing."

If the old soldiers won't vote for him because he misused them; if the people who use transfers on the street cars won't vote for him because he vetoed the bill granting them that privilege; if the people who are acquainted with his hospital site deal won't vote for him because they didn't approve of his methods; if the people who lost money in the Guarantee Loan business won't vote for him because of his connection with that institution; if the people who used to fight him on account of "My Policy" won't vote for him; if the salable vote won't support him because he is not going to hire them, (which is the best part of his career, from all accounts, provided he lives up to it,) where in the world does he expect to get votes enough to make any showing? How is he to carry Minneapolis without at least some of these people? Surely it does look a little dubious.

Devoted to a Corpse.

Albany, N. Y., August 27.—A conference of silver Democrats held in this city to-day decided to fight for the recognition of free silver by the state Democratic convention and for the nomination of candidates known to be free silver men in 1896. The conference resolved to hold a convention in Syracuse on Sept. 17, the day preceeding the meeting of the Democratic state convention.

From the Pioneer Press we clip the above item as a specimen of those being circulated broadcast over the country. The gold bug press evidently think their readers incapable of forming judgments of their own. But when they come to read that in Ohio the silver men have already won; in Minnesota they have their own candidates, and in a few days when they probably will read that New York has, also, embraced the Corpse, it won't look so cadaverish as it might. It may be funny a little while to talk of ghosts, but arter a majority of the states have Democratic tickets advocating the platform of '96 they will begin to think about rejuvinating their old "bimetallism by international agreement" platform. If it should come to this, then the cry of ghost would be in order, but never on so live issues as those maintained by Democracy.

Wheat Prices.

Moneyed men who are possessed of the gold of the country, and who have unbounded faith in the gold standard don't care to pay out their gold for wheat this season, consequently notwithstanding the gold standard, the Dingley bill, and the prosperity that we hear so much about; and the assistance of a kind providence, seeking by her very bounteousness to mitigate the evils which man in his greed, or ignorance, is fixing upon this country, the wheat remains mostly in the full granaries of the farmers throughout the land.

While prices are falling the man who has gold is sharp enough to keep it hid away. When a man knows that he can buy more property today for a dollar than he could last year, and the indications are that he can buy still more next year he is not going to invest his money in wheat or any other commodity the price of which is continually going down, down.

Of course along towards election time it will be necessary to show the western voters that gold will be paid for wheat and that the Dingley bill, and prosperity is just the thing to raise the price of wheat, and with an international agreement, or an Anglo-American alliance among those who hold gold it may be possible to find a man who, like Joe Leiter, will buy wheat and raise prices, until the election is over at least

It would seem that people would, after the lapse of time, and having been fooled for several years, begin to see through some of this kind of manipulating. We have the words of Honest Old Abe that "You can fool all the people some of the time; you can fool some of the people all of the time, but you can't fool all the people all the time."

Sensational Politics.

Some sensational political developments may be expected in the near fucher—There are several hens and two or three roosters now on.—Buffalo Journal.

Sensations may do to increase the sale of daily newspapers for a few days, as it did at the commencement of the war with Spain. Sensational disturbances may serve the purposes of tricky politicians for a few times. It may allow men who are outcasts from their own and every other party to so manipulate things as to appear before the people as nominees of the people and secure an office. But such things have had their day. Donnelly is an example; and there are others, even in Wright county. We favor plain, everyday, politics with principles in them, and men with good principles. Let's have no sensational political developments in Wright county. We've had enough. Let each party hold an honest, lawful convention, and nominate its best men for every place on the ticket and come before the people for their decision. Don't lets' get up a sensational ticket to humbug and befuddle the voters. Nobody, but those who, for purposes of their own, wants that kind of a ticket, unless the old parties fail to give us the best men they have got for candidates.

"There are several hens and two or three roosters now on" Of course the result of so many incubators will be what it usually is. The eggs will not hatch, but will, doubtless, stink as usual, when the nest comes to be broken up. Let her stink. It is natures way of relieving itself of such things, and sensible people yield cheerfully to nature, unless they have become wise enough to allay the rank odors. The best way to do if we are to hatch out a brood, is to get some good, fresh, up to date eggs, (principles) and find some incubators in whom we have faith, (men with principles). Go at the business right. This way of trying to raise good Democratic roosters by setting a lot of old crowing hens and feminine roosters on all the goose eggs, (voters who follow such things, and allow themselves traded off every year) is about played out in Wright county. Now A. Y. if you want to help your country, your county, and yourself, and you know so much about these "sensational political developments" it is about time you were putting your readers on their guard, by pointing out the setting hens and roosters. And while you are at it you might interpret that ambiguous sentence which appeared in the Journal a couple of weeks ago. We mean where you said: "Opposition to G N. influence is now over in this county".

MAPLE PLAIN, Minn., Aug. 30, 1898.
Buffalo Gazette,

Mr. Editor. Times are booming. Everything is on the top shelf. We have captured a buzzard's nest in the Pacific ocean and one or two in the Atlantic, and soon there will be a call for a troop of Missionaries to go and civalize the semi barbarian races, but before they take transport from this country they must annex a government stamp to their posterior marked with the initial I. R., interpreted "Infernal Regions". This is for the purpose of paying the war debt. Whether it is a specific or or an advalorum duty we are not certain but all things worketh good to them that love the single gold standard.

As predicted by some, the war and the Dingley bill has brought the price of wheat up to 50 or 60 cents a bushel, and the farmers are so excited and elated over their prospects for the future that they have to have a blowing machine to keep them cool. When wheat is only 50 cents a bushel, then it is over production and the Democrats. When it is one dollar and twenty five cents a bushel, then it is the Dingley bill and the Republican party. How the Lord made the earth without having a Republican to help him is something of a mystery. It is lots of comfort for some people to blow their own horn.

The Republicans say Davis must go back to the U. S. Senate. What for? For voting against an income tax; for voting against coining the silver bullion; for voting against a non bearing interest currency and giving the national banks control of our monetary system? No, but for voting for a ten cent specific duty on tea, etc. Eifty years ago such acts would have killed a U. S. Senator so dead he never would have had a resurrection; but times and things have changed. Money is the power behind the throne. It is the lever that moves the world, while honesty, truth, and veracity won't move a pismire hill. If the acts and doings of this country in politics could be made a panorama for five minutes and the people could look upon it the road to the crazy house would be overdone. There are many good and honest Republicans and Democrats in this country, but it seems that the dirt and rot that is in the parties will drive them to the garbage cart.

Last week there was quite a delegation went from our town to Minneapolis as witnesses in the Bryant case that came up before Judge of Probate. We are sorry these thing happen but such are the trials and vexations in life.

I was told by a prominent Republican of Minneapolis, while in that city that William Henry Eustis would not carry the old soldiers vote of Hennepin county; that there were six or seven thousand combined against him and they were increasing every day, and the prospect is John Lind will be our next Governor and Charley Towne will go to Congress from the Sixth Congressional Dist. Minnesota has had a straight, all wool Republican Governor for the last 40 years, and we think it would be no harm to have a change.

Farmers are plowing and threshing wheat.

R. M. Mills has put up a post office building, and will build a dwelling house soon

The Seventh Day Advents are still holding meetings in their pavilion in the village. Some, under their preaching have been made to believe that Saturday, the seventh day, is the true Sabbath. This is only a matter of opinion.

Pumpkin pie and spring chickens are ready to pick.

Politics is nearly ripe and ready for market. The highest price will be paid for full blood boodler politicians; must be gold standard and a yard wide.

FARMER.

The Jamaica Proposition.

Special dispatch to the Times.

WASHINGTON, Aug. 26.—Senator Davis, of Minnesota, in an interview today, says: "I think that the United States should not encourage Jamaica to break away from England for the purpose of annexation to the United States. Such an attitude should be avoided, principally on account of the present friendly relations of the two countries. He intimates however, that if England is willing to consent to the proposition, it might be to the advantage of the United States to take steps looking to the annexation of Jamaica.—Saint Cloud Times.

Republican County Convention.

Primary Election.

A Republican County Convention for the County of Wright and State of Minnesota will be held in the Court House in the Village of Buffalo in said County, on Saturday the 24th day of September, 1898, at 11 o'clock A. M. for the purpose of placing in nomination candidates for the following named county offices of said county, viz:—Auditor, Treasurer, Sheriff, Register of Deeds, Judge of Probate, County Attorney, Superintendent of Schools, Surveyor, Coroner, also County Commissioners for the second and fourth Commissioner Districts.

And also for the purpose of placing in nomination candidates for the following named offices in the Forty sixth Legislative District of the State of Minnesota, viz:—One Senator and Two Representatives.

A Primary election in each election district in said County, to elect, delegates to said County Convention, will be held in each election precinct in said County on Thursday the 22nd day of September, 1898, commencing at 7 o'clock P. M. and continuing one hour, at a place to be designated by the respective precint committee.

The several election districts in said Wright County, Minnesota, are entitled to representation in said County Convention, as follows:—

Albion,	5	Silver Creek,	4
Buffalo,	4	South Side,	4
Chatham	2	Stockholm,	1
Clearwater,	4	Victor,	4
Cokato,	7	Woodland,	3
Corinna,	3	Villages—	
Frankfort,	2	Annandale,	3
Franklin,	4	Buffalo,	4
French Lake,	6	Cokato,	3
Maple Lake,	2	Delano,	4
Marysville,	4	Howard Lake,	4
Middleville,	5	Maple Lake,	1
Monticello,	5	Monticello,	4
Otsego,	3	Montrose,	2
Rockford	6	Waverly,	2

Dated at Buffalo, Minn. August 27th 1898.

By order of the County and Legislative Committees, George C. Carpenter. Chairman of the County Committee, Wm. E. Culkin, Chairman of the County Legislative Committe. 49, 3t.

HOW A PUZZLE WAS SOLVED.

When you want a certain article, you want the best make of that article, don't you?
But how to determine which make is best is what puzzles you, isn't it?
And when the puzzle is solved for you, authority which cannot be questioned, you are pleased, aren't you?
And you would like to hear of one puzzle that has been solved for the people of the whole world, wouldn't you?
Well, we will tell you about that very puzzle, and its solution.
At the Universal Exposition of 1889 at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France.
This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered, the GRAND PRIZE, giving other companies only gold, silver and bronze medals.
The French Government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor, the most prized honor of France.
That is how the puzzle of the best sewing machine in the world was fully solved by the most competent authority in the world in favor of the No. 9 and No. 12 Wheeler & Wilson machines.
The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.
And now, when you want a sewing machine, if you do not get the best, it will be your own fault.
Ask your sewing machine dealer for the No. 9 Wheeler & Wilson machine, and if he does not keep them, write to us for descriptive catalogue, prices and terms.
Agents wanted in all unoccupied territory.

It is estimated that since the Christian era began over 4,000,000,000 human beings have perished in war.

The battleship Texas, now commanded by Capt. Sigsbee, has done its full duty in helping the Spaniards to remember the Maine.

The Spanish newspapers made the mistake of overlooking the bristles when they commented a few months ago so flippantly upon the American pig.

The Hawaiian alphabet has but 12 letters, and now we've got to go to work and teach them 14 more. That's one of the drawbacks we encounter by taking them in.

"Another sad but glorious day for Spain," remarked the Spanish soldier as he picked himself up on the next block after attempting to force the American army mule to carry his baggage to the transport.

The new governor general of Canada, the earl of Minto, has had a great deal of military experience. He served with the Turkish army in 1877, took part in the Afghan war of 1879 and was in the Egyptian campaign of 1882.

A number of new post offices are now struggling to live up to the reputation of the great names they bear. Since the 20th of July there has been a post office named Hobson, another Sigsbee, another Dewey, another Sampson and another Manila.

One result of the war is that no navy in the world will be anxious to tackle an American fleet. It is an undertaking that means the hottest kind of fighting and a hurricane of shells, big and little. Sailors who can shoot faster or straighter than the American are undiscovered.

Dewey entered the service in 1854, Watson, Schley and Philip (of the Texas) in 1856, Sampson and Higginson (of the Massachusetts) in 1857, Evans of the Iowa, Taylor of the Indiana, Cook of the Brooklyn, Clark of the Oregon, in 1860; Sigsbee of the Maine and Barker of the New York in 1859, Chadwick of the New York, Folger of the New Orleans in 1861. These men have known each other through 40 years of service.

Police Magistrate Pool, of New York, took occasion a few days ago, during the trial of a man accused of stealing live lobsters from a restaurant keeper, to declare that the boiling or broiling of live lobsters is a crime. He told the restaurant keeper, who was not on trial, but who admitted that he cooked live lobsters, that such practice was a violation of the excise law. The prisoner was discharged, and so, also, after a lecture, was the complaining witness.

One result of the war with Spain will be to enhance the value of American citizenship in the eyes of the world. Hereafter the American flag and the American citizen will be respected abroad as they have never been before. Among all but the best educated and most traveled classes we have always had the reputation of being a nation of shopkeepers, shrewd, boastful, vulgar, but of little account outside of commercial transactions. They know better now.

A New Yorker has introduced a new profession, and advertises in the papers that in one week's time he can teach children to play such a number of interesting games that henceforth they will be of no trouble to their parents. What is this world coming to? If a man had made a suggestion of that sort to an old-fashioned mother of 25 years ago he would have had to break the world's record on running to keep out of the way of a dog.

The interiors of many of the Philippine islands are filled with aboriginal savages who not only have never recognized Spanish rule, but have never heard of it and know nothing of this turmoil of white races on the edges of their archipelago. The island of Mindanao has never as a whole been under Spanish rule, and although the port town has for a number of years been held by the Spanish, the large proportion of the fine-spirited Moros of Mindanao are as independent of all allegiance to the whites as King Philip was.

The naval parade at New York was in some respects unique. A greater number of battleships have been seen in peaceful naval reviews, but never before an equal number so recently engaged in a great naval engagement and with the marks of battle still upon them. The procession, consisting of Admiral Sampson's flagship New York, the cruiser Brooklyn and the battleships Oregon, Iowa, Indiana and Massachusetts, moved up the river as far as Grant's tomb, where they saluted and turned. The pageant was one long to be remembered.

The sultan of Turkey as a despot is, of course, most fabulously rich. His annual expenses are said to amount to $30,000,000. A million and a half of this goes for the clothing of his harem, $400,000 for his own wardrobe, $7,500,000 for presents, $5,000,000 for pocket money, and another $5,000,000 for his table. It certainly seems incredible that one man can spend so much money in one year, but when it is remembered that 1,500 people live within the palace walls, live luxuriously and dress expensively at the cost of the civil list, it is more comprehensible.

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

On the part of the government there is no intention to diminish the fighting strength of the North Atlantic squadron until peace has actually been declared.

The Comal sailed from Tampa for Havana with 1,000,000 rations for distribution to the starving people of Cuba.

Gen. Miles was ordered to send home from Puerto Rico all troops not actually needed for service there.

Spanish transports left Santiago de Cuba for Spain with 4,468 Spaniards.

With his staff Gen. Shafter left Santiago on the United States transport Mexico for America.

John P. Philip, of the battleship Texas, has been assigned to the command of the North Atlantic squadron. Admiral Sampson has been assigned to duty as a member of the military commission to attend to the evacuation of Cuba by the Spaniards.

In the vicinity of Arecibo, Puerto Rico, Spanish volunteers were terrorizing the people. They burned a large number of buildings near Adjuntas and tried to drive the planters from their homes.

President McKinley has selected peace commissioners as follows: Secretary of State Day, Senator C. E. Davis, of Minnesota; Senator William P. Frye, of Maine; Whitelaw Reid, of New York, and Justice White, of the supreme court.

The insurgent leader in the Philippines, Gen. Aguinaldo, says he is anxious to support the authority of the United States in the islands, and that he has persuaded the other rebel leaders to accept his views.

A line of steamers to run between New York and Cuban ports to carry mail and supplies has been established by the government.

From San Francisco the transport Scandia sailed for Honolulu and Manila, carrying troops, supplies and $1,000,000 for Gen. Merritt's army, and also the balance of the New York regiment for the Hawaiian islands.

Gen. Castillo expresses the opinion that the disbandment of the Cuban insurgents can be effected without trouble.

The Puerto Rico troops were being concentrated at Ponce preparatory to the homeward movement.

In Havana and Matanzas the feeling in favor of annexation to the United States is growing rapidly.

FROM WASHINGTON.

During July the average number of war revenue stamps issued was 22,775,527 daily.

Rear Admiral Schley was given a most hearty reception by the people of Washington, where he went to confer with the president on Cuban affairs.

Throughout the country the volume of business is 20.4 per cent. larger than last year and 26.8 per cent. larger than in 1892, heretofore the year of the largest business and highest prosperity ever known.

Chief Wilkie, of the secret service, in his report shows that in the past fiscal year 705 arrests were made and the value of counterfeit notes recovered was $117,243.

THE EAST.

At the leading clearing houses in the United States the exchanges during the week ended on the 26th aggregated $1,249,607,012, against $1,221,927,527 the previous week. The increase compared with the corresponding week in 1897 was 6.4.

In the United States there were 179 business failures in the seven days ended on the 26th, against 196 the week previous and 223 in the corresponding period of 1897.

In Buffalo, N. Y., John Carrigan, about 60 years of age, was brutally murdered by his son Frank, aged 33 years, while he slept.

The socialist labor party has nominated Benjamin Hanford, of New York city, for governor.

The wife and child of Rev. George Jefferes, of Philadelphia, died in Shippensburg, Pa., from the effects of eating toadstools.

The president and Mrs. McKinley arrived at Somerset, Pa., on a visit to his brother. He will be absent from Washington one week.

In the National league the percentages of the baseball clubs for the week ended on the 28th were: Cincinnati, .637; Boston, .633; Baltimore, .632; Cleveland, .591; Chicago, .563; New York, .560; Pittsburgh, .496; Philadelphia, .472; Louisville, .389; Brooklyn, .387; Washington, .364; St. Louis, .283.

At Whiting Crossing, Mass., George Whiting, his wife and two daughters and the crossing boy were killed instantly by the cars.

WEST AND SOUTH.

The republicans of Oklahoma nominated Ex-Delegate Dennis Flynn for territorial delegate to congress.

The republicans nominated Smith McPherson for congress in the Ninth Iowa district.

Henry H. Holt, once lieutenant-governor of Michigan, died at his home in Muskegon after a short illness.

The committee to report on a form of government for the territory of Hawaii commenced its work in Honolulu.

At Ypsilanti, Mich., Dr. I. P. Fryer and son Terrice were drowned in Huron river. The boy was taken with cramps while swimming, and in endeavoring to save him the father also was dorwned.

At the closing session of the American Bankers' association in Denver, Col., George H. Russell, of Detroit, Mich., was elected president.

In convention at Oshkosh Wisconsin prohibitionists nominated a ticket headed by E. W. Chaffin for governor.

On the way to Alaska the steamer Stickeen Chief was lost and 43 persons were drowned.

In session in Indianapolis the supreme lodge, Knights of Pythias, elected Thomas G. Sample, of Allegheny, Pa., supreme chancellor.

The following congressional nominations were made: Alabama, Fourth district, G. A. Robins (dem.). Indiana, Third district, Rev. George T. Mayfield (pop.); Fifth, W. E. Carpenter (pro.). Ohio, Seventeenth district, Frank Taggart (rep.).

California silver republicans have indorsed the nomination of James Maguire (fusionist) for governor.

On September 6 the National Association of Naval Veterans of the United States of America will hold their thirteenth reunion in Cincinnati.

The fusionists in the Second Nebraska district nominated Gilbert M. Hitchcock, publisher of the Omaha World-Herald, for congress.

In Cleveland, O., Harry S. Stevens, a well-known broker, committed suicide by shooting himself. Business troubles were the cause.

Two soldiers of the Sixty-ninth New York volunteers were killed, another was fatally injured and four were slightly hurt in a railway wreck near Birmingham, Ala.

At the age of 53 years ex-Gov. Claude Matthews, of Clinton, Ind., died at Meharry's grove from a second stroke of paralysis.

In Idaho the silver republicans and democrats nominated a fusion ticket headed by Frank Steunenberg (dem.) for governor.

FOREIGN INTELLIGENCE.

By the flooding of a mine at Nience, Silesia, 300 miners were drowned.

An international conference to secure universal good feeling is urged by the czar of Russia.

LATER NEWS.

It is announced from Washington that Gen. Merritt will go to Paris to give the peace commission the benefit of his experience in the Philippines. The original plan had been to send Admiral Dewey to Paris for that purpose, but this was changed upon representations from the admiral that he could be of greater service at Manilla than at Paris.

A Hong Kong dispatch says the relations between the Americans and the Filippinos are much strained in consequence of the collision at Cavite last week. The insurgent general at Cavite has been ordered to evacuate the place and remove his troops two miles into the country in order to prevent further disturbances.

The father of Geo. B. Meek, who was killed on the torpedo boat Winslow, at Cardenas, May 11, has received a check for $100 and a letter, which goes to show that young Meek was the first American born sailor killed in the Cuban war.

It is officially announced that there were 2,300 deaths from the plague last week in the Bombay presidency. The epidemic is spreading.

Surgeon General Sternberg has received a dispatch from Santiago saying that 420 non-infected convalescents, slightly ill, will sail on the Roumania, leaving about 300 sick of the Fifth corps in Santiago.

A hospital train of thirteen coaches arrived at Fort Monroe from Tampa. The train brought eighty-five patients. Most of the men are suffering from typhoid and malarial fever.

The funeral of the late Lieutenant Tiffany of the Rough Riders, who died in Boston last week, was attended by an imposing military escort.

The United States hospital ship Solace, having on board seventy-four soldiers and marines, arrived from Santiago de Cuba.

The steamer Roanoke arrived at Seattle from St. Michaels with 450 passengers and $1,500,000 worth of gold dust.

While under the influence of liquor, Judge Levin Johnson of Jackson county, Ky., shot and killed his wife and then committed suicide.

Dispatches have been received to the effect that the outskirts of Manilla are in a complete state of anarchy. The insurgents are hunting and pillaging the Spaniards, while the natives generally are sacking villages, robbing vehicles and stealing horses.

The president will visit Camp Wikoff.

WEYLER PLOTS.

He Wants to Be Dictator of Spain---Advocates a Sweeping Policy of Rehabilitation.

Madrid, Aug. 30.—General Weyler has outlined his future policy. He proposes to be independed both of the government and of the opposition, "always aiming to preserve the country and reorganize army." He says the united republicans have no personal animus against the queen, their only object being to "adopt a firm, international stand, one result of which would be to check in a measure some of England's ambitions."

The general intends to advocate a sweeping policy of rehabilitation of the government. He will refuse to aid in any temporary measures and will propose a military dictatorship for the reorganization of the army and navy. Their honor, he remarked, has been lost as well as the Antilles, owing solely to military inefficiencies. General Weyler expresses the belief that the present cabinet will be succeeded by a military dictatorship or by a Silvela ministry. He added that he did not desire a changed form of government. He urges Spain to abandon her attitude of international neutrality, in order to be prepared to oppose Great Britain, when the latter, desiring to enlarge her sphere of action at Gibralter, demands the Sierra Carbonera, Melilla or other adjacent Spanish possessions. The general deems it better to lose the Philippines, the importance of which he did not appreciate, than territory around Gibralter.

In conclusion General Weyler deplored the loss of the Antilles for the sake of the Spaniards who resides in the islands and on account of the national commerce.

MARKETS.

Minneapolis, Aug. 30.

Wheat—No. 1 northern, new 63 to 66c. No. 2 northern, 60 to 63c; Sept., 60¼c.

Oats—No. 3 white, 22 to 23c.

Corn—No. 3, 30c.

Cattle—Steers, $3.80 to 4.20, cows, $3.25.

Sheep—Muttons, $4.10 to 4.25 lambs, $5.40.

Butter—Caeamery, extras, 17 to 18c; creamery, firsts, 16 to 16c; dairy, fancy, 14 to 15.

Poultry—Turkeys, 7 to 8c; spring chickens, 7 to 8c.

THE COMMISSIONERS.

Men Who Will Draw Up the Treaty of Peace.

Messrs. Day, Davis, Frye, Reid and White to Represent the United States—Spain's Commissioners Also Named.

Washington, Aug. 27. — Secretary Day, upon leaving the cabinet meeting Friday afternoon, announced that Whitelaw Reid had been selected as peace commissioner, and that Justice White, of the United States supreme court, had accepted the appointment made several days ago. This completes the commission, which is as follows: Secretary of State Day, Senator C. K. Davis, of Minnesota; Senator William P. Frye, of Maine; Whitelaw Reid, of New York, and Justice White.

John Moore, of Massachusetts, now assistant secretary of state, will be secretary of the commission, and J. R. MacArthur, of New York, assistant secretary.

The Spanish Peace Commissioners.

London, Aug. 30.—The Madrid correspondent of the Daily Mail says: The peace commissioners will be Senor Leon y Castillo, Spanish ambassador at Paris; Senor Urrutia, Spanish minister at Brussels; the duke of Najer, governor of Cadiz; Senator Marcoartu and Senor Abarzuza.

Merritt Will Aid.

Washington, Aug. 30.—It is announced at the war department that Gen. Merritt is to go to Paris to give the peace commission the benefit of his experience in the Philippines. The original plan had been to send Admiral Dewey to Paris for that purpose, but this was changed upon representations from the admiral that he could be of greater service at Manila than in Paris. Whether or not Gen. Merritt will return to the Philippines has not yet been determined; that will depend entirely upon the state of affairs in the islands when the peace commission concludes its labors. The choice of a route is left to himself, but it is expected that he will be in Paris within 30 days at the latest.

THE AMERICAN PEACE COMMISSION.

Hoar May Succeed Hay.

Boston, Aug. 27.—The Journal's Washington correspondent says: "If George F. Hoar will consent to accept an appointment as ambassador at the court of St. James the appointment will probably be made. The president is seriously thinking of asking the senior senator from Massachusetts to take the place which will soon be vacated by Ambassador Hay.

Named Two Tickets.

Boise City, Idaho, Aug. 30.—The two wings of the populist party, after a vain effort to get together, nominated a full state ticket. The Taylor wing named George B. Hill for governor and James Gunn for congress. The other convention nominated D. H. Andrews for governor and L. T. D. Anderson for congress.

Has All He Needs.

Washington, Aug. 30. — Admiral Dewey has informed the navy department that he has an abundance of supplies for the present needs of his squadron. In a dispatch to the department he announces the arrival of an Australian refrigerator ship with fresh meats and other provisions.

Couldn't Agree.

Henderson, Ky., Aug. 30.—The republican convention of the Second congressional district held here split into two factions, one nominating W. T. Fowler, and the other George W. Jolly, for congress.

Six Persons Injured.

Minneapolis, Minn., Aug. 27. — Six persons, one of whom may die, were injured in the explosion of nearly a ton of fireworks in the manufacturing plant of George W. Porter.

Puerto Rico Troops Coming Home.

Washington, Aug. 26.—Orders have been issued directing Gen. Miles to send home from Puerto Rico all troops not actually needed for service there.

Gen. Clay Asks Divorce.

Richmond, Ky., Aug. 29.—Gen. Cassius M. Clay has filed a petition for absolute divorce from his child-wife, Dora Richardson Clay.

THE HAWAIIAN COMMISSION.

Men Who Will Form a Government for the Islands Meet and Organize at Honolulu.

San Francisco, Aug. 26.—The steamship Moana has arrived here from Australian ports, via Honolulu. A press correspondent writes from Honolulu under date of August 18 that the congressional members of the committee to report on a form of government for the territory of Hawaii arrived August 17 on the Mariposa.

The three commissioners met President Dole and his cabinet at the executive building by appointment. The compliments of the president and his colleagues had been sent to the United States senators and the representatives earlier in the day.

To-day the commission met at the home of Justice Frear to qualify as members by taking an oath. As soon as the members were regularly listed, the commission proceeded to elect a secretary, a stenographer and a sergeant-at-arms. Senator Cullom is chairman. The men for the clerical positions and the sergeant-at-arms have been brought from Washington.

PRESIDENT TAKES A HOLIDAY.

McKinley Leaves Washington for a Much Needed Rest—Goes to Cleveland.

Washington, Aug. 29.—The president and Mrs. McKinley left Washington at nine o'clock Saturday morning over the Pennsylvania road for Somerset, Pa., where they will spend some days with Mr. Abner McKinley, the president's brother. The only other members of the party were Mr. Cortelyou, assistant secretary to the president, and Mrs. McKinley's maid.

Cleveland, O., Aug. 30.—The train bearing President McKinley and party arrived in Cleveland at 5:45 p. m. Monday. The presidential party left the train at the Euclid avenue station and were driven directly to the residence of Col. Myron T. Herrick on Cedar Heights. There was a small crowd at the station, the hour of the president's arrival not being generally known. The president will probably remain in Cleveland a week and will visit Canton one day during his stay in this city.

Rations for Starving Cubans.

Washington, Aug. 26.—In accordance with the determination of the administration the Comal sailed from Tampa to Havana with 1,000,000 rations for distribution to the starving people of Cuba. These rations will be distributed by Lieut. A. D. Niskern, under the direction of Capt. Lotus Niles, of the artillery, in conformity with the orders of the president and secretary of war. Supplies will be furnished to other provinces in the island under the direction of officers of the army as emergency may demand.

Were Not Drowned.

Frankfort, Ky., Aug. 30.—An afternoon paper here prints a letter from R. Chilcott, of Seattle, to the family of Capt. John Murphy stating that there is absolutely no foundation for Seattle dispatches widely published that Capt. Murphy and 14 other Kentuckians had been drowned on the steamer Jessie, in a branch of the Yukon.

War Seems Near in China.

London, Aug. 29.—Authoritative advices from Peking say that relations between the Chinese foreign office and the British minister are strained to the point of breaking. Sir Claude Macdonald has intimated that Great Britain will regard as a cause of war any failure on the part of China to observe her wishes.

No Mines in Havana Harbor.

Madrid, Aug. 29.—Gen. Correa, minister of war, has replied to the inquiries of M. Cambon, the French ambassador at Washington, concerning the condition of Havana harbor, saying that the mines have been removed from the harbor and merchant vessels are entering and leaving daily.

Gift for Sick Soldiers.

New York, Aug. 27.—From Sir Thomas Lipton, the challenger for the America's cup, there was received to this city a cable message stating that he had contributed $10,000 for relieving the sick and wounded American soldiers.

EX-GOV. MATTHEWS DEAD.

Paralysis Causes the Decease of One of Indiana's Favorite Sons—His Career.

Lafayette, Ind., Aug. 29.—Ex-Gov. Claude Matthews had a second stroke of paralysis on Saturday afternoon and expired at 6:30 Sunday morning. He was conscious from Friday morning until the second stroke occurred and recognized his family and friends, but was speechless.

[Gov. Matthews was born in Bath county, Ky., December 14, 1845. He left Kentucky in 1868 and settled in Vermillion county, Ind., where he had a farm of 2,600 acres. He organized the Indiana Short Horn Breeders' association, and was one of the founders of the national association of Short Horn Cattle Breeders of the United States and Canada.

Although always having a strong predilection for politics, Mr. Matthews rarely sought office. He served a term in the legislature in 1876. In 1890 he was nominated and elected secretary of state, and in 1892 he was chosen governor.

In 1896 the friends of Mr. Matthews resolved to make him a conspicuous candidate for the democratic presidential nomination. The state convention was enthusiastically in favor of his nomination by the national democratic convention which met in Chicago in July, 1896.

On January 7, 1868, he married Martha R. Whitcomb, daughter of the late James Whitcomb, who was governor of Indiana from 1843 to 1849, and was afterward United States senator from this state.]

CZAR IS FOR PEACE.

He Wants an International Conference Held to Secure Universal Good Feeling.

St. Petersburg, Aug. 29.—By order of Emperor Nicholas, Count Muravieff, the foreign minister, handed to the foreign diplomats at St. Petersburg a note declaring that the maintenance of peace and the reduction of the excessive armaments now crushing all nations is the ideal for which all governments ought to strive.

The czar considers the present moment favorable for the inauguration of a movement looking to this end, and invites the powers to take part in an international conference as a means of thus insuring real and lasting peace and terminating the progressive increase of armament.

PUERTO RICO TROOPS.

They Are Concentrating at Ponce Preparatory to Movement for the United States.

Ponce, Puerto Rico, Aug. 29.—Concentration of the troops here preparatory to the homeward movement has begun.

Six light batteries, five troops of cavalry, the Fourth Pennsylvania, the Sixth Illinois and the Second Wisconsin infantry, all volunteers, about 5,000 in all, will leave. This will leave about 10,000 United States troops on the island.

Gen. Miles will leave in about three days, as will also Gen. Wilson. This will leave Gen. Henry in command.

Shafter Leaves Cuba.

Santiago de Cuba, Aug. 27.—Gen. Shafter and his staff sailed Friday afternoon on the United States transport Mexico. His departure was not marked by special incident. All troops not actually needed on the island have now left. On arriving at Montauk Point Gen. Shafter will go with Maj. Miley to Washington to meet President McKinley and Secretary Alger, afterward proceeding to San Francisco. Col. Greene, of Gen. Shafter's staff, and captain of the signal corps, will remain for another ten days or until he is relieved by Capt. Leigh, who, with 50 men of the signal corps, is expected on the Segurança.

Insurgents Ready to Disband.

Santiago de Cuba, Aug. 29.—Gen. Castillo, who has been in consultation with Gen. Lawton, expresses the opinion that the disbandment of the Cubans can be effected without trouble.

He says the hostility of the Cubans, growing out of the refusal of the Americans to permit joint military occupation of the conquered territory, with the Cuban flag floating over the palace beside the stars and stripes, is disappearing, and under the advice of cool heads the scheme of making an armed demand for their alleged rights has been abandoned.

Admiral Schley in Washington.

Washington, Aug. 27.—Rear Admiral Winfield S. Schley reached Washington at 4:10 o'clock Friday afternoon over the Pennsylvania railroad. He was cheered all along the trip, and when he reached the city he was given a hearty welcome by the multitude that was waiting for his arrival. In the afternoon he called on the president, who gave him a most cordial reception. During his visit they discussed the work of the Puerto Rican commission, of which he is a member.

At Camp Wikoff.

Washington, Aug. 29.—Secretary Alger returned from Camp Wikoff, Montauk Point, L. I., Saturday morning. He said that the camp is in better condition than has been reported, and that the sick are being well cared for in the hospitals, while the convalescents have the best of wholesome food, which will, in the salubrious climate of Montauk, build up the men and put them in condition to go home in comfort.

Died Penniless and Alone.

New York, Aug. 29.—A beautiful 18-year-old girl, who died of heart disease in a flat in this city was identified by Baron P. De Lange, an Austrian banker, as Wanda von Speno Bodenback, baroness and viscountess of Spierenbergh of Austria, and heiress to $4,000,000. She had eloped from home with a young man who robbed her of her jewelry and money and then deserted her.

Appeal by Aguinaldo.

Manila, Aug. 29.—Aguinaldo has decided to send delegates to Paris to present the cause of the insurgents to the members of the peace commission. They will also make known to Europe and America the nature of the rebellion against Spanish authority and the claims of the insurgents for recognition in the future government of the Philippines.

Thinks Jamaica Will Come In.

Berlin, Aug. 29.—The Post professies that Jamaica will be soon under the stars and stripes. Then, it says, the small Antilles under the French, Dutch and Danish will gravitate to Washington whether their home governments like it or not.

Feed Your Nerves

Upon rich, pure, nourishing blood by taking Hood's Sarsaparilla, and you will be free from those spells of despair, those sleepless nights and anxious days, those gloomy, deathlike feelings, those sudden starts at mere nothings, those dyspeptic symptoms and blinding headaches. Hood's Sarsaparilla has done this for many others—it will cure you.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1: six for $5.

Hood's Pills cure Sick Headache. 25c.

THE DIGNIFIED WOMAN.

She Was a Little Severe on the Curious Woman, But She Was Provoked.

She is a dignified woman, and sometimes she is overpowering. The unwary do not perceive this quickly, however. The dignified woman has been spending some time in one of the hospitals of this city. She went there for rest and quiet. Since she has recovered her health she tells some amusing stories of her experiences. Here is one:

The dignified woman was walking down the hall one day when she was accosted by the curious woman. The curious woman had been wondering about the dignified woman, and she said:

"I beg your pardon, madam, but I would like to know what you have been operated on for?"

"What?" exclaimed the dignified woman.

"Well, explained the curious woman, "my friend in the next room and I have been wondering about you. You walk about the hall with such a light and springy step that we wonder about what kind of an operation you have undergone."

The curious woman held her ground. She was determined to know what was the matter with the dignified woman.

The dignified woman replied:

"I have not been operated upon yet."

"Oh!" said the curious woman, sympathetically.

"No, I am not familiar with operations," said the dignified woman.

The curious woman interrupted: "They are very successful here. Don't be worried."

"I am wondering about an operation on the brain," said the dignified woman, in a very dignified and distant manner. "I wonder if they could operate upon the brain in such a way as to enable people to attend to their own affairs."

The curious woman snorted and walked away in high dudgeon.

The dignified woman was severe, it is true, but she was provoked to it.—St. Louis Republic.

G. A. R.—Cincinnati Encampment.

The Monon Route, with its four trains daily, is the best and most comfortable line to Cincinnati. The rate will be only one cent a mile. Tickets on sale Sept. 3d, 4th, 5th and 6th, good to return September 6th to 13th inclusive, and by extension to October 2nd. Send four cents in stamps for the Monon's beautifully illustrated book on the Cincinnati Encampment. Frank J. Reed, G. P. A., Chicago. L. E. Sessions, T. P. A., Minneapolis, Minn.

If a married man compliments a pretty woman in the presence of his wife, his wife reproves him, and if the wife is not present, the pretty woman thinks it her duty to reprove him.—Atchison Globe.

Ball bearings are about to be applied to the rowlocks of boats.—L. A. W. Bulletin.

Keep Coughing

We know of nothing better to tear the lining of your throat and lungs. It is better than wet feet to cause bronchitis and pneumonia. Only keep it up long enough and you will succeed in reducing your weight, losing your appetite, bringing on a slow fever and making everything exactly right for the germs of consumption.

Stop coughing and you will get well.

Ayer's Cherry Pectoral

cures coughs of every kind. An ordinary cough disappears in a single night. The racking coughs of bronchitis are soon completely mastered. And, if not too far along, the coughs of consumption are completely cured.

Ask your druggist for one of

Dr. Ayer's Pectoral Plasters

It will aid the action of the Cherry Pectoral.

If you have any complaint whatever and desire the best medical advice you can possibly obtain, write us freely. You will receive a prompt reply that may be of great value to you. Address,
DR. J. C. AYER, Lowell, Mass.

Biliousness

"I have used your valuable CASCARETS and find them perfect. Couldn't do without them. I have used them for some time for indigestion and biliousness and am now completely cured. Recommend them to every one. Once tried, you will never be without them in the family." EDW. A. MARX, Albany, N. Y.

"WAITING ORDERS."

Oh, ye that shine in thickest fight,
And ye with labor spent,
That bear the heat and dust and sweat,
On victory intent,

Look not with scorn upon the ranks
Of those that idly stand,
While on your empty scabbards gleam
The glare of burning brand.

There is a fate more hard to bear
Than that which takes away
The warrior from his cherished hearth;
It is the long delay.

The heart grown sick from hope deferred,
The summons never given,
The thought that other hands shall bear
The flag in battle riven;

It is to hear the trumpet's call,
The cannon's loud alarm,
And see the smoke on distant fields
While all around is calm;

To feel that we could battle, too,
If but the call would come,
And not be lagging at the sound
Of bugle, fife and drum.

And then, because our hopes grow faint,
Self-trust is shattered, too;
At last we wonder, could we strike
As hard as others do?

And could we stand the storm of fire,
The bullets' dreadful hail,
Like that heroic vanguard stands,
Nor at the carnage quail?

Ah, sadder than to storm the height,
And on its slope to die,
And crueller than in the dust
With parched lips to lie,

It is to wait with beating heart
A chance to do and die,
Till others have the victory won
And fighting days are by.
—J. S. Taylor, in N. Y. Sun.

The Doctor's Vindication

An Unperformed Miracle.

THERE was once a learned doctor who had studied long and hard, but in Cucuguano, where he had settled, no one had faith in him. Meeting him always with a book in his hand, the Cucuguanese said:

"That doctor knows nothing, he is always studying; if he studies so much, it means he has need to learn; if he needs to learn, it means he does not know; if he does not know, he is an ignoramus."

A doctor without patients is like a lamp without oil. Without other resources, forced therefore to earn a living by hook or by crook, up to this time the poor devil had not been able even to pay for the water he drank. He decided there would have to be a change. So one day he managed to spread abroad through all Cucuguano the report that his science was so sublime and all-powerful that not only could he heal the sick—mere child's play—but raise the dead as well, a miracle of God, surely. And this miracle he promised to perform openly in broad day, in the graveyard amid the multitude.

Few gave credence to the report. Yet even the incredulous said: "We will let him attempt it, anyhow. Let's see him at work—the proof of the pudding is the eating. He may succeed—he reads so much, and nowadays such wonderful discoveries are being made. If he succeeds, we will applaud him; if not, we will hiss him out of the countryside. Let him bring a man to life again and we will say he is the cleverest doctor we have ever had."

Finally it was settled that on the following Sunday, at the stroke of noon, in the cemetery of Cucuguano, the doctor would raise a man from the dead—nine or ten, some old women went so far as to say:

That Sunday, long before noon, the graveyard was as jammed as is the church on Holy Easter day. True to his word, on the second stroke of the bell appeared the doctor, all in black. He elbowed his way to the steps of the central cross. There he saluted the crowd, spat on the ground, blew his nose and began:

"My dear friends, I have promised to bring one of your dead back to life. I intend to keep my word. Be silent and hearken to me. It will cost me absolutely no effort to raise from the tomb Giascomo or Giovanni, Nannina or Betta, Amadoe or Simone. Shall I raise Simone? Simone—what was his last name? Simone Capannaro, who died of pleurisy a year ago?"

"Excuse me, signor dottore," said Caterina, poor Simone's widow. "Certainly he was a fine fellow; he made me very happy, and I will mourn him as long as I have eyes for tears. But, pray, do not bring him back; for, you see, toward the end of the month I'm to put off mourning, and, to please my family, I'm to marry Pasqualone. The banns are already published, and I've acceptedthe presents."

"You did well to tell me, Caterina. Then I will raise Nina Carota, who died Candlemas day."

"For heaven's sake, signor dottore!" cried Giacomo Carota; "Nina was my wife; we lived together ten years—ten years of purgatory, as all Cucuguano knows. Let her stay where she is, for her rest and mine. What a peppery temper, doctor! Obstinate as a mule, lazy and quarrelsome, and slovenly and ragged! And that is not all. Wasteful, and a tongue!—a viper's tongue that would have set St. Joseph to quarreling with the Madonna. I might add. But that's better left unsaid."

"Yet, my dear fellow—"

"Excuse me for interrupting, signor dottore. A new broom sweeps clean. Nina left me three brats, who certainly do not take after their father, and, as I could not handle them all, I have married again—so, you see, it is useless."

"Well and good. I can conceive it would be martyrdom to have two wives in the house; one is more than enough sometimes. Then whom shall I restore to you, my dear people? I must find some one. How about Master Pietro?"

"Ah, my poor father!" cried a voice. "May God rest his soul! A good man was he! But don't bring him back, pray, doctor! He who wished so much to see us a united family would be heartbroken to find our affairs in such a muddle. After a dozen lawsuits, the six of us—four sons and two daughters—have finally divided the property into six little strips. Each of us has a swarm of children; each of us has to shift for himself. There is not one of us who has anything to spare."

"So it cannot be?"

"No; if you should bring him back we would have to make up a little income for him among us all. Only the times are so hard, doctor, you know! The silkworms don't hatch well, nor spin when they do; the vines are diseased, the grain is thin, the olives are wormy, there is no rain, the taxes are heavy—"

"Enough; we will let Master Pietro sleep on. But I have not come here to string beads and to have the crowd gape at me. Tell me whom to raise."

"Ghita—bring back Ghita, my Ghita!" cried a poor old woman, weeping like Mary Magdalen.

"No, no, doctor, do not wake her," interrupted a girl. "Oh, no, pretty creature, it's well she died. Before she left us she told me all. We dressed her in white and put a wreath on her hair till she looked like a bride. Leave her in holy ground. The man she loved deserted her for some one else."

"Poor Ghita! But you must admit you are making it hard for me. To put an end to it all, I will bring back Gringaletto, who choked to death eating codfish, not a month ago."

"You must not, you must not!" cried Lina Paparero, wringing her hands. "He sold me that vineyard of his on the installment plan. For ten long years I've been paying in hard coin far more than its value, and now would you have me begin all over again? It's not fair, signor dottore!"

"What a state of things! But we will let that go. I will now propose one who left to mourn him neither brother nor sister, wife nor parent; one who left only a blessed memory, an example of all the virtues, and his little savings to the hospital—I mean your good priest, who loved you so well, whom you regretted so deeply, who made, you remember, such a dreadful journey to the other world, seeking, poor pilgrim, his Cucuguanese in every corner, even in yawning hell itself, not missing a single one. Shall I restore him to you?"

"No, no!" cried various devout members of the flock. "No, no!" added Lena Russolina, the mother of the congregation. "He was old, poor man, and deaf as a post, so much so that at confession he always absolved us of sins we had never committed. Leave him in glory, especially since we now have a young and hearty curate. He is as good as a saint, he sings like an organ, he preaches like a seraph, and he swims with the current."

"What's to be done? I'll try some one else. I see over there a little white wooden cross; the harebells seem trying to hide it; the tall grass is almost on a level with it. You can read that that narrow grave holds a ten-months-old baby. True, it seems half a pity to bring the tender soul back to this world to bear—what you have all been bearing. Still, if you wish him raised, say but the word, and I will display my power."

"Signor dottore," whispered a wrinkled crone, "that little one is ours, alas! I am the grandmother. My daughter had not yet weaned him; he was just getting his teeth, when suddenly he died. But God took him from us. God's will be done! Now there is another babe at the breast. God knows what He is doing. What He takes with one hand He gives back with the other. My daughter couldn't suckle both, and we are too poor to put him out to nurse."

At this the doctor burst out: "Enough for to-day, if not too much, indeed! Since you won't have the miracle now, I will perform it on another occasion. Only I beg of you to agree beforehand on the person to be brought to life." And he strode away.

From that memorable Sunday our doctor has done wonders in Cucuguano. It is true he does not raise the dead, but he saves the lives of the sick. The Cucuguanese, now fully trusting him, say: "If he did not fulfill his promise, to tell the truth, it was not his fault—it was ours, for we wished to leave our dead underground."—Translated for the Argonaut from the Italian of D. Ciampali.

AN OLD-TIME FIGHTER.

He Belonged to the Old School of Seamen, Where Polish Was Often Lacking.

"Some men are born naval fighters," declared an old Detroiter who served on a man-of-war as long as his years would permit," says the Free Press, "and they are just as liable to be born in the woods as where the roar of the sea reaches them by day and night.

"My father used to tell of a captain who won fame as a hard and skillful fighter under the old naval regime. Through an exercise of political influence he was appointed a midshipman from a remote rural district in North Carolina. In this capacity he made his first appearance upon a war frigate. He gazed about him in open-mouthed astonishment, and finally, going to the center of the deck, looked into the hold. His impression was that he was being hoaxed, but surprise gained the mastery and in a bewildered way he exclaimed: 'Begosh, she's holler!'

"After he had reached a captaincy and while he was in port for a few days one of the friends of a petty officer who had been having too much fun ashore reported the young man's arrest. The captain's first talk was about bombarding the town and hanging the mayor at the yardarms.

"'No use in that,' smiled the intermediary. 'I've bailed him out and will fix the thing peaceably.'

"'Baled him out!' roared the captain. 'Then I maroon him. He's left to his fate. When one of my men disgraces the navy by gettin' so full that you have to bale him out I throws off the line and aban'ons him.'

"Yet that same captain was one of the most successful of the old-time naval men."

She Was.

"Matchless girl!" exclaimed the agitated young man, as he stared wildly at her.

"Matchless girl!" he repeated bitterly, flinging his unlighted cigarette away.

For it was his regular time for smoking, and they were miles from anybody else.

And he had forgotten his matches, too.—Chicago Tribune.

She Had Her War Paint On.

"Ugh!" said the real Indian in the museum. "White man him paleface, yes! But white squaw? Her paleface? Nit!"

And the golden-haired lady who sang sentimental songs wondered deeply at his intense scrutiny.—Up to Date.

MINNESOTA NEWS.

At Fort Snelling.

The Fifteenth regiment is at home at Fort Snelling, and it breathed a regimental sigh of relief as it laid itself down to sleep the first night. The new location is appreciated by the officer and private alike, and is infinitely the superior of sun-parched Ramsey of unhappy memory. Sick men, in the field hospital, which is situated in the depths of a shady grove, are fast getting better and feel rejuvenated. Col. Leonhauser has made arrangements for bathing in the Minnesota river. A non-com. will take charge of a squad of men, armed with soap and towels, and daily baths will be taken under his direction. The colonel is a believer in the adage that "Cleanliness is the next to Godliness," and he is trying to teach willing pupils the same. While the entire regiment was bathing one of the privates, Leidroven, was seized with cramps and quickly sank, but was rescued upon his first appearance above water.

New Grades.

The Minnesota railroad and warehouse commission held its annual meeting for the revision of grades and added two new grades on account of new demands created by more extensive mixing. A description of these grades is contained in the following report of Chief Grain Inspector Clausen, which was adopted.

In case of the admixture of winter wheat or Northern white wheat with Minnesota grades of Northern spring wheat, or with each other, and such admixture is in excess of 5 per cent, it shall be graded according to the quality thereof and classed as Nos. 1, 2, 3, etc., mixed wheat, with inspector's notations, describing its character.

The grades Nos. 1, 2 and 3 Chevalier barley shall conform in all respects to the grades of Nos. 1, 2 and 3 barley, except that they shall be of the Chevalier variety grown in Montana, Oregon and on the Pacific coast.

Racing Program of the State Fair.

The managers of the Minnesota State Fair have always kept the practical and educational features of the exhibition in the foreground, but they have not neglected a clean amusement program. For the fair, to be held September 5th to 10th inclusive, they have been fortunate in securing the greatest race attractions ever listed at any fair in the state. Up to this year the largest sum ever hung up in purses for racing events was $7,600. This year it has jumped to a total of $20,000, made possible by the liberality of the business men of the Twin Cities, who contribute the magnificent sum of $10,000, $5,000 for each city.

Crop Report.

U. S. Department of Agriculture, Minnesota Section, Weather Bureau—The temperatures were very high on the 22d, but after that date they have been moderate. In the southern half of the state there has been practically no rain, but early in the week there was rain in the northern half. Threshing is general in the Red River valley, all grains but small areas of flax and oats being cut. In other portions of the state stacking is finished, or nearly so, and threshing from the shock is well advanced. Corn is approaching maturity satisfactorily, and on light lands some is already being cut. A good deal of corn was blown down by the storm of the 19th in the southwestern counties. Apples are plentiful in southern counties. Plowing is going on in many parts of the state.

County Exhibits at the State Fair.

No feature of the great Minnesota fair is destined to be more popular or more profitable to those who take advantage of the advertising advantages offered than the county exhibits, for which large prizes are offered. This feature of the fair has attracted more attention this year than ever before, now that its purpose has come to be understood, and this year there is certain to be an interesting contest between the counties for the $1,200 in prizes.

Need Not Be Stamped.

Internal Revenue Commissioner Scott has notified Collecter von Baumbach that a new rule has been made in regard to placing instrument stamps upon acknowledgements for deeds and mortgages. These acknowledgements, the commissioner rules, need not be stamped, whether the deeds or mortgages have instruments upon them or not. This reverses the original rule made.

Not Divided.

The proposition for the division of Polk county has been downed, almost before it had a beginning. The state board, composed of the governor, state auditor and secretary of state, to whom were submitted petitions from two counties, met recently in the office of Gov. Clough. When the case was submitted to the board, the vote was unanimous for denying the petition for division.

Minnesota Briefs.

There was only one sheep reported for taxation in Ramsey county.

The dates of the Minnesota State Fair this year cover Sept. 5 to 10 inclusive.

Senator Davis will endeavor to arrange to have the bodies of the dead soldiers of the 13th Minnesota brought home from Manilla.

E. P. Erickson, a farmer living near Harmony, hanged himself in his cellar.

A carrier pigeon owned by J. H. Barton, of Minneapolis, was liberated at Mankato at 1:30 and reached Minneapolis at 3:45 p. m. The distance is about 100 miles, and the bird must have made about 1,200 yards a minute.

The Minnesota State Fair week, September 5 to 10 inclusive, will be a great week. Do not fail to enjoy it. No event of the year will equal it.

N. Hattemer, of Wacouta, was killed by a Milwaukee freight train at Red Wing.

At the semi-annual meeting of the Mississippi Valley Lumbermen's association, at Minneapolis, the price of lumber was advanced 5 per cent.

Over $35,000, the largest sum ever offered, will be paid to winners of premiums and purses at the Minnesota State Fair. Of course this means a big show, a big crowd and a big fair.

The railway commissioners are making ready to resume the hearings in the iron ore rate cases at Duluth Sept. 6, and they are making a careful analysis of the evidence thus far adduced.

Edward E. Webster was nominated by the republicans for mayor of Minneapolis.

The Minneapolis division of the Red Cross society has decided to send two nurses to Manilla.

TOLD BY THE SERGEANT.

From the Democrat, Grand Rapids, Mich.

At the Michigan Soldiers' Home, in Grand Rapids, lives Sergeant Richard Dunn, hale and hearty, although he carries the scars of several wounds sustained in some of the battles of the Civil War. In recounting his experience to a reporter, Mr. Dunn said:

"About a year and a half ago I began to have trouble with my stomach. My suffering was so intense that I tried different medicines and doctored with several physicians, but without permanent relief.

A Wounded Soldier.

"I read an account of Dr. Williams' Pink Pills for Pale People having cured a case much like mine, and I decided to give them a trial, which I did. After taking five boxes I was cured. I never felt better than I do now, even in my younger days. I am naturally a robust man, but that stomach trouble, together with rheumatism, which afterward set in, were making fast inroads upon my health and I am satisfied that it would have been but a short time before my comrades would have been conducting the regulation funeral ceremonies over my remains, had I not chanced to read of and taken Dr. Williams' Pink Pills.

"There are several others in the home who are taking these pills and are receiving great benefit." RICHARD DUNN.

Subscribed and sworn to before me, this 1st day of Nov., 1897.

HENRY GIBSON, Notary Public.

Sergeant Dunn is perfectly willing that anyone should write him in reference to his case, provided stamp is enclosed for reply.

All the elements necessary to give new life and richness to the blood and restore shattered nerves are contained in a condensed form in Dr. Williams' Pink Pills. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. In men they cure cases arising from mental worry, overwork or excesses of whatever nature.

She Scored That Time.

"What's that?" said the old gentleman as he entered while the eldest daughter was saying things confidentially to her mother.

"Bess was just telling me that the young man that visited the Broketons last summer has written her, and that he sent love and kisses."

"He did, did he? The impudent puppy. Write him and squelch him at once, or you're no daughter of mine. Let him know so there is no possible chance of misunderstanding that you have the utmost resentment for such conduct, and if he ever comes here again I'll kick him out of the house."

"Well, did you attend to that matter, Bess?" asked the old gentleman at breakfast next morning.

"Yes."

"Good. What did you say?"

"I told him distinctly that if he didn't know any better than to send such things in a letter, instead of bringing them in person, I would have to forego the pleasure of his acquaintance."

For the next five minutes the family were terror-stricken under a conviction that the head of the household had burst a blood vessel.—Stray Stories.

ENTIRELY CURED ME.

No Mother Should Be Without Pe-ru-na.

So Mrs. Margaret Veldman, of Lake Mills, Wis., writes in a recent letter to Dr. Hartman. Pe-ru-na is the special friend of women in all of her peculiar ills, irregularities, painful periods, weakening discharges, exhausting drains, unavoidable excesses, overwork, prostration and debility. Mrs. Veldman's letter states: "Five years ago I was pronounced incurable. I suffered with a complication of diseases—kidney trouble and catarrh of the bladder. I tried a number of medicines without relief. Pe-ru-na was recommended and I took it as a last resort. Then I thought I would write to Dr. Hartman. He advised me to take Man-a-lin also. I took the two remedies. My troubles were of long standing. No mother should be without Pe-ru-na. We keep it in the house all the time and recommend it to everyone complaining. Pe-ru-na entirely cured me and I believe it will cure others who are similarly affected."

Send to Dr. Hartman, Columbus, O., for his free book written expressly for women.

Lacked Originality.

He—And am I really and truly the first man you ever kissed?

She—Why, of course, you are, stupid.

"Stupid! Why do you call me that?"

"Because you are not original. At least a dozen men have asked me the very same question."—Chicago Evening News.

Poor Girl.

She—Oh, please don't tease me to sing. I'm so hoarse to-night that I can hardly make a sound.

He—Yes, I know. That's why I think this would be a good time to have it over with.—Chicago Evening News.

In a Job Lot.

Dason—What sort of a policy do you think Spain ought to adopt now?

Mason—Accident, fire, marine and as many other kinds of policy as she can lay hands on.—N. Y. Journal.

People who don't know what they want, are harder to please than those who do know and can't have it.—Ram's Horn.

NO WOMAN IS EXEMPT.

Regularity is a matter of importance in every woman's life. Much pain is, however, endured in the belief that it is necessary and not alarming, when in truth it is all wrong and indicates derangement that may cause serious trouble.

Excessive monthly pain itself will unsettle the nerves and make women old before their time.

The foundation of woman's health is a perfectly normal and regular performance of nature's function. The statement we print from Miss GERTRUDE SIKES, of Eldred, Pa., is echoed in every city, town and hamlet in this country. Read what she says:

"DEAR MRS. PINKHAM:—I feel like a new person since following your advice, and think it is my duty to let the public know the good your remedies have done me. My troubles were painful menstruation and leucorrhœa. I was nervous and had spells of being confused. Before using your remedies I never had any faith in patent medicines. I now wish to say that I never had anything do me so much good for painful menstruation as Lydia E. Pinkham's Vegetable Compound; also would say that your Sanative Wash has cured me of leucorrhœa. I hope these few words may help suffering women."

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.

All suffering women are invited to write freely to Mrs. Pinkham, at Lynn, Mass., for advice about their health.

Wm. Non, as Usual.

There was great jubilee and there would have been feasting in Madrid had provisions been cheaper.

"Shout, stranger, shout!" urged the high-born hidalgo. "An American town was completely destroyed!"

"Ah, by Camara's squadron?" inquired the stranger.

"Well, the information from American sources says it was destroyed by a cyclone. What that may be none of us know, but it surely means some form of Spanish power. At any rate, it was a great victory."—N. Y. World.

Shake Into Your Shoes

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, nervous, smarting feet and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired, aching feet. *Try it to-day.* Sold by all druggists and shoe stores, 25c. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.

The Maidservant — "Professor, madam has just returned from her journey." Professor—"Remind me by and by to give her a kiss."—Tit-Bits.

Fits stopped free and permanently cured. No fits after first day's use of Dr. Kline's Great Nerve Restorer. Free $2 trial bottle & treatise. Dr. Kline, 933 Arch st., Phila., Pa.

A fiddle is about the only thing on earth that is better second hand than new.—Washington (Ia.) Democrat.

G. A. R. Encampment Sept. 5-10. $5.00 Queen & Crescent Route, Cincinnati, Chattanooga and return. W. C. Rinearson, Gen'l Pass'r Agt., Cin'ti. O.

A shower is distressing to wheelmen, but the man with a horse ought to welcome a driving rein.—L. A. W. Bulletin.

We think Piso's Cure for Consumption is the only medicine for Coughs. — Jennie Pinckard, Springfield, Ill., Oct. 1, 1894.

Even a good dog is appreciated.—Atchison Globe.

The Biggest Bicycle in the World.

A German has just completed a bicycle that has one wheel nine feet in diameter. Two people ride it—one on each side of the monster wheel. It runs as easily as a smaller bicycle because of its scientific construction. The scientific formula of Hostetter's Stomach Bitters is the reason of its great virtues in making the weak strong, and in curing most of the every-day ailments of men and women. If your health is poor, try a bottle.

The Greatest in History.—"Spain has learned one thing, at least." "What is that?" "That the explosion of the Maine was a terrible catastrophe for her country."—Detroit Free Press.

Wheat 40 Cents a Bushel.

How to grow wheat with big profit at 40 cents and samples of Salzer's Red Cross (80 Bushels per acre) Winter Wheat, Rye, Oats, Clovers, etc., with Farm Seed Catalogue for 4 cents postage. JOHN A. SALZER SEED CO., La Crosse, Wis. K

There is a satisfied—glad I've got it—expression on the faces of all who discover the rich quality of

BattleAx PLUG

It is an admirable chew fit for an Admiral.

In no other way can you get as large a piece of as good tobacco—for 10 cents.

Remember the name when you buy again.

A Beautiful Present

FREE for a few months to all users of the celebrated ELASTIC STARCH, (Flat Iron Brand). To induce you to try this brand of starch, so that you may find out for yourself that all claims for its superiority and economy are true, the makers have had prepared, at great expense, a series of four

GAME PLAQUES

exact reproductions of the $10,000 originals by Muville, which will be given you ABSOLUTELY FREE by your grocer on conditions named below. These Plaques are 40 inches in circumference, are free of any suggestion of advertising whatever, and will ornament the most elegant apartment. No manufacturing concern ever before gave away such valuable presents to its customers. They are not for sale at any price, and can be obtained only in the manner specified. The subjects are:

American Wild Ducks, American Pheasant,
English Quail, English Snipe.

The birds are handsomely embossed and stand out natural as life. Each Plaque is bordered with a band of gold.

ELASTIC STARCH has been the standard for 25 years.

TWENTY-TWO MILLION packages of this brand were sold last year. That's how good it is.

ASK YOUR DEALER to show you the plaques and tell you about Elastic Starch. Accept no substitute.

How To Get Them:

All purchasers of three 10 cent or six 5 cent packages of Elastic Starch (Flat Iron Brand), are entitled to receive from their grocer one of these beautiful Game Plaques free. The plaques will not be sent by mail. They can be obtained only from your grocer.

Every Grocer Keeps Elastic Starch.

Do not delay. This offer is for a short time only.

"WELL BRED, SOON WED." GIRLS WHO USE SAPOLIO ARE QUICKLY MARRIED.

SYRUP OF FIGS

NEVER IMITATED—QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, Cal.
LOUISVILLE, Ky. NEW YORK, N. Y.

BUFFALO GAZETTE

DELANO, FRIDAY, SEPT. 2, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

—Len Dedrick has put down a nice peace of cement sidewalk in front of his double building.

—Cramer's meat wagon is quite a convenience to country customers who can't spend time to come to town for meat.

—A. F. Mrozok has purchased a new separator and proposes to have a hand in saving the bountiful harvest in this vicinity.

—William Stynor lost his separator by fire a few days ago, but we understand he has bought a new one and is again busy at work.

—An enterprising firm got up a fine lot of fruit yesterday and supplied the local market cheaper than it has been buying and with a better quality.

—Among pensions recently granted we notice the names of George E. Goodrich, Delano, $6. Increase: Henry M. Carll, Monticello, $6 to $10., Romaine Streeter, Montrose, $6.

—About the worst smashed up buggy we ever saw was a short distance this side of Wm. Sturman's where the road turns, last Tuesday. It was scattered along the road in great shape.

—While returning home on the Rockford road, Tuesday evening, liveryman Jones had a lively runaway. He with the remains of the rig were rescued near Cramers' farm and returned home.

—We are in receipt of another copy of the Honolulu Comercial Advertiser, which gives a glowing account of affairs in that part of the United States recently annexed. Honolulu papers certainly are a credit to that part of the country.

—A. W. Wittman has succeeded in coaxing one plant to grow from several seeds sent by Alva Catlin in a letter while in Honolulu on his way to Manilla. Mr. W looked up the long name and found that he is liable to have to build a tower to his house if he keeps the forty foot bread fruit tree.

—Justice Chancellor had his first case before him Saturday. T. J. Catlin vs. E. F. Ziebarth, on account. After the pleadings were in, a change of venue was taken by the defendant, and a continuance one week. The case is to appear before Justice John O. Torngren, tomorrow.

—Miss Sadie Van Eman and a lady friend from Watertown were driving through Delano one day lately, and while in the north part of town a part of the harness became disarranged, the horse became frightened and tore around considerably, frightening the young ladies nearly to death but was finally steered into a potato patch where the ladies were rescued.

—Several members of Company C. 15th Minn. Vol. on leave of absence went west Tuesday to visit their homes. This is the company Lieutenant Dewey belongs to. One of the men told us the Lieutenant had a 30 days furlough. He thinks the regiment will not be mustered out before their two years are up. He said many are sick. They would like to go some place. They want to be on the move.

—The Examining Board appointed by the Board of Education lately seem determined to discharge its part of the business connected with hiring teachers. That is what there is of it. Prof. Cunningham and Miss. Grace O'Hair have done what has been done. F. H. Lindsley refusing to act. It is to be hoped that charges that teachers are not properly examined and contracted with will not be heard at least for this year.

—Peterson & Son have opened up their new store adjoining the shoe store of O. Peterson, on Bridge street, opposite the City Hall. They now carry, besides their large line of shoes, a fine stock of staple and heavy groceries. Their canned goods are as fine as ever came to town. They solicit a share of the grocery trade and Pete will ever be found smilingly ready to wait on all customers in the grocery department, while Olaf will talk shoes to all comers.

—Complaints are made that Jim Hill keeps his cars standing across the crossing to the depot which he had put in some time ago. It often looks as if the cars had been purposely left at that particular spot. It is not pleasant for people to be obliged to crawl around through ditches, etc. to get to the depot. Possibly it is a gentle hint to the people who congregate at the depot whenever a train passes, to stay away. If so, he is excusable in so far as it serves the purpose.

—J. E. Borsch informs us that he had no trouble in securing bonds from an insurance company, as treasurer of the Board of Education. The first offer was for $10 per $1,000. The next offer was for $5 per thousand. He took $3,000 in the latter. This speaks well for Mr. Borsch's personal standing, inasmuch as when the agent for the Fidelity company wrote for rates on such risks he was informed that their company didn't care to carry risks for county or city officials, on account of past experience. It seems to make considerable difference however who the treasurer is. Mr. B. will probably see to it that all orders are properly drawn before he pays any of them and his bondsmen will not be called upon to adjust his business.

—Maj. Diggles with the 13th Reg. recruits has arrived at Manila.

—Erick Erickson of Cokato is reported as having been found dead in bed yesterday morning.

—Augie Sieloff has been painting the Sisters School. He also built a ware house for J. B. Platners lately.

—Monday, Sept. 5th, has been set apart by Gov. Clough as Labor Day. No arrangments have been made here to observe it.

—Hatches Battalion will hold its third reunion at the Court House in Minneapolis Wednesday next. Many of the members were from Wright County.

—Crow River is getting low again. It takes a great deal of rain to keep up much of a stage of water, since so much of the timber has been removed from the country contributary to that stream.

—Free beer at Fautsch's saloon Wednesday night, got a few young men from the country quite talkative. Mr. Fautsch gave the free beer on account of its being his last night in the business. We understand he will resume his position on the railroad.

—We understand that a new cornet band has been organized in Delano, minus some of the warring factions and that we are to have some first class music for the coming campaign. Hoop 'er up boys give us the latest and best there is going.

—It looks to us as if the Eagle Editor had gone considerably out of the reasonable latitude of legitimate journalism to slur Justice Chancellor. Possibly the Editor was seeking for someone to preform that "brain surgery" on him. He had better hear both sides of a lawsuit before he so promptly gives his verdict.

—Read the account of the Peace Commission, and see their pictures on the second page of this paper. Minnesota ought not to complain of a lack of representation as C. K. Davis is one and Arch Bishop Ireland is said to have been instrumental in selecting Judge White, the only Democratic representative on the Commission.

—Some of the teachers, we understand, complain that there is some new laws concerning examining teachers in our district. The only trouble is an Examining Board has been appointed a part of which is endeavoring to discharge its duties, and the people who desire a good school should assist in seeing that the letter of the law is carried out a little more completely.

—About a dozen young friends surprised Miss Adeline Wittman, last Wednesday evening, on the occasion of her seventeenth birthday. The evening was spent in playing games in the house and on the lawn. The gramaphone also contributed greatly towards making the evening a success. Refreshments were served. The party broke up about half past eleven. They all join in a hearty wish that Miss Adeline may pass many another happy birthday.

—Because some of our citizens favor living up to the law and having the teachers come before the Examining Board of the Delano High School before contracts are made with them, and which would be void if they did not comply with the law, is no sign that they have anything against any teacher. If the teachers want to draw their pay they should see to it that the letter of the law has been complied with before their contracts are made.

—On Tuesday evening several fellows got funny and carried a lot of plows from an agricultural depot to a livery barn, and shoyed the buggies of the latter place out into the street, and did a large amount of labor of that kind, among other things putting a lot of beer cases in front of Charley Brunkow's store, More than likely it was the hardest work the fellows have done this summer and possibly the most they have carried, unless it be beer. Where was the police force? It can't be everywhere unles it is larger than now. If such carryingson are to be indulged in we favor an enlargement of the police force.

—Republicanism in Delano, as in other parts of the country is on the wane. Why? People are reading; they talk over war news; they find they often disagree with those of their own party, while men of opposite parties in politics agree with them on war measures. They find the leaders of their own party are not in unison; they don't all see things alike, and, often times they can agree with leaders of the opposition party better. They are completely fagged out being led about by the nose.

The Delano P. M. tried to raise money to get up a flag pole for party use, only about a third enough was pledged. It is kind of hard seeing, just now, what particular use there is for a party flag to be raised. Our people are patriotic, they are for the country and the country's colors, but all are tired of being led like sheep to vote or hurrah for a lot of stuff they don't believe in, or a lot of men in whom they have little faith just for party's sake. Principles are in demand.

—The naughty Old Bird up street, instead of helping us fight for the rigid enforcement of laws, as usual undertakes to belittle our efforts in the matter of having the Delano High School set the example by living up to the school laws, because we said: "We understand the Insurance companies don't want to go on School Treasurer's bonds, because of their past experience." The Eagle in winding up its customarily abusive, wild article on the subject, says: "But his source of information regarding the bond was certainly unreliable or he imagined what he wrote. Perhaps it was a case of needed "brain surgery".

If Mr. Buckley will read the following letter written in reply to one asking the rates for school Treasurers bonds he may learn something, This is "brain surgery."

The Fidelity and Casualty Company, of New York.

ST. PAUL, Minn., July 25th, 1898.

MR. F. A. KNOLL,
DELANO, Minn.

Dear Sir:—Yours of the 21st, received and not attended to before, because I was absent from the City. This company I am sure does not care to write City or County officials a Surety bond as that business has been very unsatisfactory to us. Please write to E. J. Collins, Rookery Bldg, Chicago Ills. and he will give you this information. You furnish this company with amount of bond I sent you and I think it will be large enough to cover all departments.

Yours truly,
H. R. DAVIS,
State Agent.

—Don't fail to hear the Concert to be given under the auspices of the Ladies Quartette, at the City Hall. The destinguished German Violinist, Theodore Gravert, with his 200 years old Italian violin of great value, under his magic touch turns out some wonderful music.

Mr. Gravert's exceptional abilities as a soloist are recognized by the leading musical critics and educators of both Europe and America, and includes such well known men as: Hinrichs, of Lunden, Kalthoff and Gebauer, of Berlin, Germany, H. Huyke, Musical Director Andrews Opera Company; William Conrad, Chicago; F. Warren, Milwaukee; Oscar Moline, Sioux City; Kirk Towns, of Philadelbhia, and many others.

The chief characteristics of Mr. Gravert's playing are: Wonderfully delicate touch, magnificent tone, a finished technic, brilliant execution, elegant bowing, deep, earnest, musical feeling, a remarkable memory and an individuality as well as an originality of style seldom found in so young an artist.

Personal.

J.E. Borsch visited Minneapolis Wednesday.

Nick Frank visted the big cities Monday on business.

John and Oscar Brandser visited Winsted last Sunday.

Miss Sadie Van Eman, of Watertown, was in town over Sunday.

Al Hitzman and crew left Tuesday, for De Graffe to thresh.

Leo, Laura, and Katy Schaffer visited friends at Watertown this week.

Mamie Dedrick has gone to Minneapolis, to visit with a sick cousin.

Miss Alice Arnold Principal of the Delano High School is in town.

Sam Coffin, of Lyndale, called in Monday. He says wheeling was hot work.

Mrs. Chance, Freddy Peters and Troubl got home Monday from Little Falls.

Mr. Klein, of Excelsior, has moved into town superseding Mat Fautch in business.

Mr. Brabec, of Howard Lake, has been spending some time in Delano lately.

Hon. and Mrs. C. G. Halgren, of Watertown, were visiting Delano friends Saturday.

John Meyer and son, of Watertown, were doing business in Delano Wednesday.

Mrs. Lawrence, of Minneapolis, visited her daughter Mrs. Dr. Soper, over Sunday.

Rev. Farber returned home Sunday in time to hold regular services in the evening.

Mrs. Martin Nelson and child left Monday morning to join her husband at Bemidji.

Rev. Hanke preached his farwell sermon on Sunday afternoon at the Presbyterian church.

Miss Emma Holstrom, who has been teaching in N. Dak., visited Delano friends this week.

Mrs. Charles Wright and family, of Waverly, visited her father T. S. Kerr and family yesterday.

M. E. Muckey was on the sick list a few days this week. He complains of overwork lately.

Mrs. Mulford and son Roy, and Mrs. Staples of Howard have gone to Little Falls, to visit friends.

Earl Hoisington, of Independence, was being interviewed Monday by some of our citizens.

Rev. Westlund, Swedish Lutheran, of Stockholm, held services at the Presbyterian church Sunday.

L. M. Maxfield has secured work in the Fosston country and expects to be away for a few weeks.

Mrs. F. W. Lorenz and son, of Minneapolis, came up yesterday for a visit with Mrs. Geo. W. Bolton.

Allen Williams is working for William Stacy at Montrose. He was in town with a load of Hay, Monday.

A. C. Heath, of Buffalo, transacted business in Delano Tuesday. He says "Tariff is a tax, I suppose".

Andrew Reider and wife are to leave in the morning for Cincinnati to attend the old soldier encampment.

Mr. and Mrs. Ed Lucia, of Burshville, drove over Saturday and visited her father, Harris Williams and family.

Mrs. G. W. Bolton and Miss Mary Catlin, who drove to the cities Tuesday, returned home yesterday morning.

Mr. Christian Barth, Mrs. Cathern Beckers and Mrs. A. Sieloff drove to Lester Prairie on a visit to return today

J. H. McGary, of Ineependence, visited Delano Monday. He says politics are beginning to boil in Hennepin county.

Mr. Smith and Adam Schaffer and others, of Vicksburg, who have been visiting George Schaffer, returned home Monday.

Miss Helena Reider, of Prescott Arizona, is visiting her brothers and other relatives in this place and neighborhood.

Revs. Adams, Campbell, and Henke were three Presbyterian ministers returning to the cities Monday morning from country work,

Jack Steffes, assistand P. M. took a trip to Toronto, Monday. Miss Veronica Steffes is holding down his post office position until his return.

Mr. Giddings, candidate for District Judge of the 18th district, made us a pleasant call Tuesday evening. Mr. G. is looking after his prospects of election, a little.

Miss Bessie Yeaton, of Minneapolis, who has been visiting with her cousin, Mrs. Dr. Soper, of this place, for the past month, returned home Wednesday evening.

Mrs. C. M. Conzet and Maudie accompanied by Mrs. P. Darrow, of Rockford, went by team, Thursday, to Big Lake, thence by train to Deerwood, on a couple of weeks visit.

BORN.

EPPEL.—On Wednesday, Sept. 1, to Mr. and Mrs. Albert Eppel a daughter.

DIED.

METZ.—In Delano, on Monday, August 29, George Metz, aged 53 years.

County Cullings.

Mr. Dellaven who superseded Mr. Hamilton, a good Democrat, in the management of the Maple Lake Messenger, although a new arrival in the county seems inclined to make a ticket for the people to vote this fall. So far he has nominated:

For Sheriff, John Nugent.
For Judge, A. Y. Eaton.
For Dog Catcher, C. J. Bucklev.

This is about as good a mongrel as some of the "sausage" he has so much to say about, and would probably be ground about as fine if it took the field this year.

Local pride is being played upon by some of our county politicians for the purpose of nominating a Wright Co. man against Mr. Giddings, of Anoka, for District Judge. It matters not to the man who may happen to be obliged to appear before a Judge what county of the district he lives in, so he is fair, honorable, and just with all alike. We don't know of any good reason why the Judge of the 18th district should necessarily be from Wright county so long as the district is composed of the four counties of Wright, Sherburne, Isanti and Anoka. Wright has had the office since it was established, up to now, through appointment of Judge Tarbox by Gov. Clough. If a good man from one of the other counties happens to be elected, let's don't kick too hard just because he don't live in Wright county.

As election draws on it begins to look more and more as if Mr. Lind and Mr. Towne would be elected. The Sixth District is being stirred up in good shape and prospects brighten all along the line. People are tired of the old regime. They want a change. The prospects are also good for the Legislative ticket. provided able, honest candidates are placed on the ticket. Men are tired of turning over our great state interests to a few greedy individuals to do as they please with the help of a lot of men pledged to vote for C. K. Davis, Knute Nelson, or any other individual. Let us have a Legislature that will look after state interests and elect a good man U. S. Senator, too.

Commissioners Proceedings.

The board met Aug. 22 in special session of two days.

An order establishing county ditch in Woodland was approved.

The resolution appropriating $200 for Mill Creek hill was rescinded. (This is for only temporary purposes).

Committee was appointed to view proposed county road between Silver Creek and Clearwater towns.

Petition of Charles Pomerank for refunding tax was recommended to State Auditor.

School petitions of H. A. Mattson and Olaf Lundeen granted. Those of Gustaf Dahlin and Henry Erickson rejected because petitioners do not reside on said lands.

Several bills were allowed.

Among Our Exchanges.

The Aitkin Age: Each day brings added evidence that no cessation of hostilities should have been granted until a complete treaty of peace had been signed. Spain is too treacherous to trust with even her own best interests.

The Aitkin Age: The proposition to go after the "unspeakable Turk," with a fleet of battleships, and compel him to account for the massacre of American citizens will meet with the hearty approval of all the people.

Courier Journal: That "single, swift and awful blow," which, according to Sagasta, Spain was to land on Uncle Sam is probably to be struck in the Peace Commission. There is going to be a lot of wind in that concern.

St. Peter Herald: Every volunteer who desires to be mustered out of the army, now that the war is over, should be permitted to come home. They enlisted as volunteers for the war, and not for garrison duty as regular soldiers, and the government can do no less than muster them out. Those who desire to remain can join the regular army, which will now have to be enlarged to maintain peace and order in our foreign possessions.

Litchfield Independent: The probability that John Lind will be mustered out with his regiment and be at home in time to take a hand in the campaign this fall causes some wry faces in the opposition ranks. Can't be helped boys.

Notice.

All persons indebted to me on account will take notice that I must have some money. Crops are good. I have waited in many instances a long time, and now must be paid. Unless prompt attention is given to this notice you may expect a collector to call for a settlement soon. Call and settle and oblige.

Yours Respectfully,
T. J. CATLIN, M. D.

T. J. CATLIN, Publisher and Proprietor

Entered as Second-Class Mail Matter at the Post Office in Delano, Minn.

CITY papers claim over 8000 people were in attendance at the State Fair Monday. A pretty good showing for the fisst day.

SOMEBODY wants to konw why the free silver editors don't attack Congressman Morris' record. His biggest record is "the man that beat Charley Towne."

THE latest concerning Minnesota soldiers is that the 12th and the 14th will be mustered out, the 13th and the 15th remaining in the service for awhile yet, may be for the two years of their enlistment.

FROM reports it looks as if William Henry would have about as hard a time carrying Hennepin county at the election as he had carrying it for the nomination. If so how is he going to get the balance of the state; or is John Lind to have that?

HISTORY seems inclined to give the victory at Santiago to Gen. Miles rather than to Gen. Shafter; to ascribe the victory of our fleet over the Spaniards to Schley rather than to Sampson; but up to date, Dewey's disputant for laurels or prize money hasn't been heard from.

STATE Democratic headquarters has been opened at the Merchant's Hotel, St. Paul, Rooms 72 and 73. It is expected now that Lieut. Lind is coming home that he will take an active part in the campaign, and that within a couple of weeks things will begin to move.

IT would seem that somebody blundered in haying so much sickness and so many deaths among the soldiers who did not leave their native land as well as among some who did. Such fearful decimation of ranks as that experienced by the 15th Reg. at Camp Ramsey is as much to be dreaded as are Spanish bullets, and should be as carefully guarded against.

THE silver cause is dead, say most of the goldbug papers, in about every issue. But yesterday they contained accounts of a terrible shooting affray at Colorado Springs, in which Charles Harris was fatally wounded. Two factions of the Free Silver Republican party were fighting over who should have the hall. It seems Chairman Town deposed from the chairmanship of the State committee a man who was accused of joining the anti fusionists and the fight was between fusionists and anti fusionists, another man was shot in the cheek. A pretty lively time for so dead a party as the papers have advertised the free silver party to be.

Political Prefferment.

Political prefferment seems to be the ruling idea with many men. They appear to believe that the government owes them a living, and all that it is necessary for them to do is to get their names on a ticket, any ticket; for an office, any office, and the dear people will do the rest, and they will draw the salary, the main object, unless perhaps it be the perquisites. These men, like so many barnacles, fasten onto the hull of a party until the vessel becomes entirely untrustworthy; but, being tenacious of life, when one hulk is sunk out of sight, or they from hard knocks are detached from one ship, they fasten onto another. Like cancers they eat away the good of the body politic, it becomes more and more corrupt with age, one small sore runs into another until the whole system becomes a mass of putrid and offensive debres to be shuned of all men. We are with the people and opposed to such things. Let's lop off all the cancerous tissue and start out healthy.

Let's scrape our bottoms clean of barnacles and even though our vessel may loose in weight, it will be to her advantage and she can outsail the barnacle covered hul's that compete with her for the goal.

Democracy once more has an opportunity in Wright County. Republicans are divided. Wright County is a legislative district by itself now and should see to it that representative men are sent to the State Capitol to aid in making and unmaking laws. Wright is one of the large and wealthy counties of the State and deserves to be heard on all questions appertaining to State government. It is not enough to know that our representatives and senator will vote for this or that man for United States Senator, but we should know that they are honorable, capable men and will help look after State interests which have become so tangled up and run in such a bad shape.

Towne vs. Morris.

In the Saint Cloud Times appears an open letter from Charles A. Towne to Hon. Page Morris of Duluth, from which we take the following questions on the joint debate proposed by Mr. Towne and refused dy Mr. Morris and his advisors.

Mr. Towne says one objection offered by Mr. Morris' committee to the joint debate was that it "would likely to degenerate into a mere wordy personal contest * * * in which the real issue of the campaign would be lost sight of." Mr. Towne thinks his record is good on that line and cites the fact that in '96. Mr. Morris made personal acknowledgment for the fairness with which Mr. Towne refered to him.

Another reason was given for refusing to discuss the questions of the day that Mr. Towne would have been unable to have discussed any thing but free coinage of silver. Mr. Towne opens up his batteries in fine style here. He asks "Inasmuch as my challenge to you was to debate "the political issues of the campaign," do you not think it somewhat gratuitous to assume that I did not mean what I said?" He then mentions a number of live questions besides free silver coinage, all of which he would willingly discuss with Mr. Morris. Among them trusts and monoplies, income tax, government postal savings banks, sympathy with Cuba, war amendments to the Dingley bill, $500,000,000 of bonds sold, unnecessarily, to gratify bond holders, $2 per thousand tariff on pine lumber, 50cts and 60cts wheat, gold standard, C. K. Davis' alliance with England. These are but a few of the many questions which Mr. Towne proposes to enlighten his large audiences on, and if Mr. Morris isn't there to put in his answer the case is liable to be decided by the people forninst him.

Mr. Towne has promised to be around before election and tell us all about it. He can do it too. He was an eloquent man two years ago but has now had more experience and has improved matertally in his manner of presenting the great political truths of the day to his hearers. Everybody wants to hear him and notwithstanding the Republican press to the contrary, hearers are more numerous, interested and convinced than are listeners to any other orator in our state to day.

Money Tight

We hear on every hand "Money is plenty; so plenty as to be piled up in banks awaiting investment." Why don't the bankers invest in wheat, cheap wheat? Are they afraid that the price will go still lower? Lands are cheap, much cheaper than they were a few years ago, why don't the moneyed people invest in cheap lands? The trouble is they don't want to loan wealth at 3 or 4 per cent interest, because they can make more by storing the gold away and waiting still longer until prices of commodities and gold diverge still farther.

Farmers are holding onto their wheat until they can get a bigger price standing off their creditors from month to month; some of them from year to year. The most satisfactory way in the end would be for farmers to sell enough to pay up small debts and thereby ease the condition of the money question with neighboring tradesmen, merchants and others.

It is hard for people with small capitals to do business long unless their customers pay up, they grow discouraged when they read that the banks are overflowing with money they can't lend, and see the farmers granaries filled with wheat nobody wants to pay money for, unless grading it down so low the farmer won't stand it. Things don't seem to jibe just right. Things should be arranged so that there would not be an ever widening difference between commodities and money; between capital and labor.

Among Our Exchanges.

Litchfield Independent: The probability that John Lind will be mustered out with his regiment and be at home in time to take a hand in the campaign this fall causes some wry faces in the opposition ranks. Can't be helped boys.

St. Peter Free Press: Wonder what ailed the republican convention of Blue Earth county last week when it ignored Congressman McCleary in its resolutions of endorsement? The matter should be investigated by Postmaster Hunt.

Oregon Agriculturist: There are complaints in England and Australia of the tendency of agricultural shows (fairs) to degenerate into holiday occasions where people congregate to be amused by side shows and games. This tendency has long been observed in the United States and in some parts of the country the evil became so great that a reaction has set in greatly to the benefit of the fairs.

Not A Success.

From the Minneapolis Tribune.

The old soldiers, in attacking ex-Mayor Eustis, are going back on their best friend-and the more intelligent and responsible of the boys know it, and refuse to have anything to do with the campaign of personal spite prosecuted by "Stepladder Kirkham" and a few other disgruntled schemers."

Then there is really something in the movement of old soldiers against Eustis is there? And does the Tribune hope to chase them from the "Stepladder" by calling them names? If Eustis is the best friend of the old soldiers why don't the Tribune point out wherein? Why dont they say when; in what instance? That would be better argument than calling those opposed to their candidate "Stepladder." It is currently reported that 6,000 or 7,000 old soldiers in Hennepin county are not going to vote for the Tribune's "friend of the old soldier" Eustis, but will support Lieutenant John Lind for Governor.

Rumor That Pope Leo Inspired The Peace Note of the Czar.

ROME, Sept. 5.—It is reported here that the czar's peace manifesto is really a triumph for the pope, and that it was inspired through his influence at St. Petersburg. The pope's desire that he shall not die until he sees all the nations of the world at peace is a well known fact, and now that the emperor of such a great power as Russia has taken so conspicuous a stand in favor of a general disarmament it is announced that his holiness is intensely gratified. Of his holiness' direct personal efforts and apparent success in the cause there can be no doubt.

The source of inspiration of the imperial document as given is not less astonishing than the document itself. The fact that the diplomatic note did not originate in the brain of the autocrat of the Russians, nor in that of any of his ministers or courtiers, would indicate that Nicholas II. merely consented to accept the paternity of it.

It was Leo XIII. who conceived the project and who, with the assistance of Cardinal Rampolla, his secretary of state, prepared it in all its details for publication

A similar appeal has already been made to the nations of Europe by the pope himself. This one, coming as it does from the czar, has new importance and is to be an epoch making event.—Globe.

Wheat Prices.

Moneyed men who are possessed of the gold of the country, and who have unbounded faith in the gold standard don't care to pay out their gold for wheat this season, consequently notwithstanding the gold standard, the Dingley bill, and the prosperity that we hear so much about; and the assistance of a kind providence, seeking by her very bounteousness to mitigate the evils which man in his greed, or ignorance, is fixing upon this country, the wheat remains mostly in the full granaries of the farmers throughout the land.

While prices are falling the man who has gold is sharp enough to keep it hid away. When a man knows that he can buy more property today for a dollar than he could last year, and the indications are that he can buy still more next year he is not going to invest his money in wheat or any other commodity the price of which is continually going down, down.

Of course along towards election time it will be necessary to show the western voters that gold will be paid for wheat and that the Dingley bill, and prosperity is just the thing to raise the price of wheat, and with an international agreement, or an Anglo-American alliance among those who hold gold it may be possible to find a man who, like Joe Leiter, will buy wheat and raise prices, until the election is over at least

It would seem that people would, after the lapse of time, and having been fooled for several years, begin to see through some of this kind of manipulating. We have the words of Honest Old Abe that "You can fool all the people some of the time; you can fool some of the people all of the time, but you can't fool all the people all the time."

The Jamaica Proposition.

Special dispatch to the Times.

WASHINGTON, Aug. 26.—Senator Davis, of Minnesota, in an interview today, says: "I think that the United States should not encourage Jamaica to break away from England for the purpose of annexation to the United States. Such an attitude should be avoided, principally on account of the present friendly relations of the two countries. He intimates however, that if England is willing to consent to the proposition, it might be to the advantage of the United States to take steps looking to the annexation of Jamaica.—Saint Cloud Times.

WANTED—SEVERAL TRUSTWORTHY PERsons in this state to manage our business in the county and nearby counties. It is mainly office work conducted at home. Salary straight $18 a year and expenses advanced, but made to grow more, no less salary. Monthly $75. Reference. Business self-addressed stamped envelope. Herbert E. Hess Prest., Dept. M, Chicago. 51-2t

And swearing he would ne're consent, Hon. Joel P. Heatwole consented.—Duluth News Tribune.

We would much prefer a less profane Representative in Congress, even though he were less good looking. Joel's swear words are too "convincing" for us.

Maple Plain.

MAPLE PLAIN, Minn., Sept. 7, 1898.

Farmers are busy threshing, cutting corn and plowing. The farmers do not care to sell wheat at 49 and 50 cts per bushel, and only those are selling that have bills to meet and no other way to get the money. Wheat may take a jump up about election time, and then drop again.

Politics in our town has not warmed up much yet but no doubt will begin soon.

Many of our county Republicans seem to be sure of Eustis' election; but there are others that are not so sure about it. Time will tell.

Our county politics seem to be badly mixed up especially in regard to the sheriff. Phillip, the present imcumbent, intends running on an independent ticket but it seems as if he may have a hard fight of it.

R. M. Mills has taken posession of the Maple Plain P. O. It is located near the G. N. depot,

Delmont Gould will go west with his threshing rig next week.

School has begun at Armstrong, James Personett teacher. School will begin at Maple Plain next Monday.

B. H. Hall went to St. Paul today to attend the reunion of the 2nd Minnesota Regt.

Quite a number of our townspeople will attend the Minnesota State Fair this week.

Republicans now say there is an overproduction of wheat, and yet thousands of people are out of bread and wheat only 50 cents a bushel. It seems there must be something out of joint somewhere. Is it possible that the iniquity of the whole world is laid upon the Democrats? If so Lord help the rest of the people. FARMER.

Oregon Agriculturist: A correspondent of the Oregon City Press reports that canvassers are at work in Clackamas county taking orders for soap with which a large amount of crockery etc. is to be given. Those who order pay half the amount down. The correspondent pertinently suggested that those who give orders will never see soap, crockery or anything else in return for their money. This sort of swindling is now going on in many portions of the United States all the way from the New England states to Oregon. It is safe to consider any man a swindler who offers to sell goods at prices far below their real value, and if in addition he wants your money before he delivers the goods his rascality is assured.

From the 13th Reg.

In answer to an urgent request from Gov. Clough, Col. C. Mc C. Reeve, of the 13th Minn. Vol. at Manila sent the following cablegram:

MANILA, Aug. 30, CLOUGH, St. Paul, Minn.: Seebach, Bjornstad, Carleton, Williams, Crowell nearly well. Little improving. Lieut. Bunker, Company C. Lawrence, Lehman, very sick. REEVE.

MANILA, Aug. 31.

Special Cable to the Pioneer Press.

Following is the health status of the Thirteenth Minnesota: Died from typhoid fever, Wood, Company D; Watson; from rheumatism, Lieut. Morley.

Sick with typhoid fever, Lieut. Bunker, Webb, Luhmann, Barden, Laurence, C; Overton, Carlstrom, Schwartz.

Sick with malarial fever, Abele, Helms, Smeby, Nicolas, Michaels, Alson, Behnke, Ratican.

Wounded are recovering. The others are well.

—Ritchie, Surgeon.

The Fidelity and Casualty Company, of New York.

ST. PAUL, Minn., July 25th, 1898.

MR. F. A. KNOLL, DELANO, Minn.

Dear Sir:—Yours of the 21st, received and not attended to before, because I was absent from the City. This company I am sure does not care to write City or County officials a Surety bond as that business has been very unsatisfactory to us. Please write to E. J. Collins, Rookery Bldg., Chicago Ills. and he will give you this information. You furnish this company with amount of bond I sent you and I think it will be large enough to cover all departments.

Yours truly,
H. R. DAVIS, State Agent.

Notice.

All persons indebted to me on account will take notice that I must have some money. Crops are good. I have waited in many instances a long time, and now must be paid. Unless prompt attention is given to this notice you may expect a collector to call for a settlement soon. Call and settle and oblige.

Yours Respectfully,
T. J. CATLIN, M. D.
DELANO, Minn., Aug. 19, 1898.

HOW A PUZZLE WAS SOLVED.

When you want a certain article, you want the best make of that article, don't you?

But how to determine which make is best is what puzzles you, isn't it?

And when the puzzle is solved for you, by authority which cannot be questioned, you are pleased, aren't you?

And you would like to hear of one puzzle that has been solved for the people of the whole world, wouldn't you?

Well, we will tell you about that very puzzle, and its solution.

At the Universal Exposition of 1889 at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France.

This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered, the GRAND PRIZE, giving other companies only gold, silver and bronze medals.

The French Government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor, the most prized honor of France.

That is how the puzzle of the best sewing machine in the world was fully solved by the most competent authority in the world in favor of the No. 9 and No. 12 Wheeler & Wilson machines.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best, it will be your own fault.

Ask your sewing machine dealer for the No. 9 Wheeler & Wilson machine, and if he does not keep them, write to us for descriptive catalogue, prices and terms.

The Gazette.

DELANO. Wright Co. - MINN.

During the year 1897 disease cut short the lives of 32,534 Spanish soldiers in Cuba, and malarial fever was slightly more fatal than yellow fever.

The sultan of Turkey has decided not to allow indemnity for the killing of American missionaries in Armenia. What the sultan needs is a war for humanity, with Dewey trimmings.

It is said that in Mexico the bridegroom always furnishes the trousseau of the bride. This is expensive somewhat in Mexico, but it would be a trivial matter in the Philippines where beads and shells are cheap.

In one county in Vermont in one week 23 barns and 13 dwellings were struck by lightning and more or less damaged. If that was a region full of wires a theory would be advanced, but it happens to be the reverse.

The total loss of the American army and navy in the recent war is reported to be 23 officers and 236 men killed and 87 officers and 1,406 men wounded, an aggregate of 1,752. In the civil war the union army alone lost 4,142 officers and 62,916 men killed, and in addition 43,012 died from wounds.

Dr. Patrick Manson, whoever he is, announces in an eastern paper that mosquitoes carry malarial fever. The physicians have us jumping sideways to get out of the way of microbes, boiling our water to avoid certain death, and now we will have to be on the lookout for mosquitoes.

It has been found that the X-ray shines through a fox terries as if he were a Chinese paper lantern. The experiment was tried upon an animal of this species which had swallowed a diamond ring, the trinket appearing in his midst as visible as a fly in amber or a gold fish in a glass globe.

France employs over 5,000 women in her civil service, telephone and telegraph offices. The municipality of Paris alone gives work to 900 women, while the Bank of France pays salaries to 400 more. Two hundred women have permanent positions in the Credit Foncier, with earnings varying from $175 to $375 a year.

It is given out that Chicago chemists have discovered a process of vulcanizing the oil of corn, with the result of producing an article superior to india rubber. The chemists made the discovery while experimenting in a glucose refining factory. It is said that the artificial rubber is admirable for mackintoshes, bicycle tires and like purposes.

Mrs. Harriet R. Stafford, of Cottage City, Mass, is the possessor of the original stars and stripes, the flag of the United States frigate Bonhomme Richard, the first displayed by Commodore Paul Jones in the famous engagement with the British Serapis. The flag is five feet seven inches wide, and was originally about 15 feet long, but relic hunters have shorn it of at least six feet.

Several object lessons have been presented for the consideration of nations in the war with Spain. One is that America can strike swiftly and strike hard. Another is that spirit of generosity toward a conquered foe which is as much a tradition here as the love of freedom. The one lesson is a warning; the other is an example which will certainly bear fruit in future wars.

The resignation of Col. Como, chief officer of the military staff of Capt. Gen. Macias, in Puerto Rico, becomes significant when coupled with the fact that his action is due to his desire to remain in Puerto Rico, instead of returning to Spain when the Spanish troops are withdrawn from the island, in accordance with the conditions of peace. That means he desires to remain under the protection of the American flag.

John Burns, of Boston, has returned from a visit to Juan Fernandez, the famous island home of Robinson Crusoe. He visited the large cave where Robinson Crusoe made himself safe from savage barbarians, as he supposed, when he discovered the footprints of Friday in the sands. The cave runs back in the mountains for at least 50 feet. It does not start from the water, but has its mouth somewhat inland. It is largely grown over with bright green leaves and is attractive even to this day.

The Daughters of the American Revolution feel that they share in the distinction accorded to Dr. Anita McGee, whose appointment to the army medical staff, with rank of lieutenant, marks the first woman who has ever held such a position in the American military. She was regularly sworn in as assistant surgeon, and by order of the secretary of war is entitled to wear the uniform of a second lieutenant—if she choose. The war department gave her charge of the selection of women nurses, and she placed 700 of them in the field.

The newspapers of Spain, in discussing the probable terms of peace to be arranged by the commissioners who meet in Paris, make but one demand, and that is that the remains of Christopher Columbus be returned to Spain. The remains are now in the cathedral at Havana. Columbus died in 1506 at Seville, and was buried there, although in his will he asked that he be buried on the island of San Domingo. Thirty years later his son was able to carry out his father's wish and the discoverer of American was laid to rest in the cathedral of San Domingo.

The war department has decided that in the future all of our armored cruisers and battleships, and possibly all of our cruisers, will have to be fitted with "fire-proof" wood. This fire-proof wood is a new thing, but it has been demonstrated to be practical. The process of fire-proofing consists in elimination of the volatile and fermentable constituents of the wood, and the substitution therefor of fire and heat resisting ingredients which are forced into the pores of the wood. Wood treated by this process, a secret one, is free from liability of either wet or dry rot.

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

In Fernandina, Fla., the hospital ship Olivette, which had been lying near the quarantine station, sunk through some mysterious agency. All on board were saved.

In the transport Mexico Gen. Shafter and his staff arrived in New York from Cuba.

With all well on board the transport St. Paul arrived at Manila.

With 2,279 soldiers from Santiago on board the steamship Covandanga arrived at Santander, Spain.

Orders were issued by Adjutant General Corbin for the mustering out of 19 volunteer organizations, numbering over 20,000 officers and men.

The government has returned the auxiliary cruisers St. Paul and St. Louis to the International Navigation company.

Gen. Brooke issued an order assuming command of the troops in Puerto Rico.

Many of the wealthiest natives in the Philippines called upon Consul Wildman in Hong-Kong and urged that every possible effort be made for the annexation of the Philippine islands to the United States.

The torpedoes placed at the entrance to the harbor of Havana have been raised without accident of any kind.

The president spent five hours in Camp Wikoff, Montauk Point, bareheaded most of the time, visiting the sick in the hospitals and inspecting the well in their cantonments.

loughs.

Up to the present time the war department has issued orders for mustering out nearly 100,000 volunteers, and this will be done as soon as the men have had their 30 and 60-day fur-

FROM WASHINGTON.

The statement of the public debt issued on the 1st shows that the debt decreased $34,789,711 during the month of August. The cash balance in the treasury was $927,144,640. The total debt, less the cash balance in the treasury, amounts to $1,012,870,717.

The annual report of the commissioner of pensions will show that the number of pensioners on the rolls June 30, 1898, was 993,714 and the amount paid for pensions during the fiscal year ended June 30, 1898, was $144,651,879.

On August 31 the total circulation of national bank notes was $230,508,524, being an increase of $481,745 for the month and a decrease of $3,329,909 compared with the same date last year.

The government receipts in August were $41,782,707, an increase of $22,785,655 over August, 1897.

In the United States treasury the gold reserve reached the highest point in its history on the 2d, with a total of $219,320,372.

THE EAST.

At the leading clearing houses in the United States the exchanges during the week ended on the 2d aggregated $1,269,381,948 against $1,249,607,012 the previous week. The increase compared with the corresponding week of 1897 was 12.4.

In the United States there were 171 business failures in the seven days ended on the 2d, against 179 the week previous and 191 in the corresponding period of 1897.

At Windham, Vt., George W. Dimick and wife lost their lives in a fire which destroyed Mr. Dimick's farm buildings.

On the 2d 30 deaths and 82 prostrations from heat occurred in New York city. All over the country intense heat and many prostrations in the past five days were reported.

The accidental jibing of the sail of a pleasure yacht on Presque Isle bay, near Erie, Pa., swept overboard Mary, Della and Ella Pardine and Jessie Moore and they were drowned.

In the National league the percentages of the baseball clubs for the week ended on the 4th were: Cincinnati, .639; Boston, .632; Baltimore, .622; Cleveland, .588; Chicago, .556; New York, 548; Pittsburgh, 496; Philadelphia, .495; Louisville, .425; Brooklyn, .394; Washington, .351; St. Louis, .261.

In New York city 50 dead and over 100 prostrations is the record of the heat on the 3d.

Near Stamford, Conn., Frank, George and Mabel Ferguson, aged 24, 19 and 14 years, respectively, of Brooklyn, N. Y., were drowned by the upsetting of a rowboat.

WEST AND SOUTH.

At Topeka, Kan., the Kansas Loan and Trust company failed for $400,000.

In convention in Milwaukee the social democracy of Wisconsin nominated a state ticket headed by Howard Tuttle for governor.

Fire destroyed 14 buildings at Rapid River, Mich.

Dynamite exploded prematurely while blasting rock at Stinesville, Ind., killing John W. Williams, John Grubb, Buck Wampler and Edward Watts and fatally injuring Ben Fyffe, Milton Hike and Willie Liford.

For this year the southern cotton crop is estimated at 11,199,994 bales, valued at $320,553,000.

At the age of 91 years Wilford Woodruff, of Salt Lake City, president of the Mormon church, died in San Francisco.

The death of Col. T. C. Tupper, a retired officer who won distinguished honors in the civil and Indian wars, occurred at his home in Cleveland, O., aged 60 years.

Twin daughters of Mr. Prater, aged seven, and a baby girl were burned to death at Speegleville, Tex.

In the pulpit at the High Street Methodist church in Springfield, O., Rev. James Stephenson, of Jamestown, O., dropped dead from heart trouble at the beginning of his sermon.

In Baltimore Frank Waller went 494 miles on a bicycle in 24 hours, making a new record.

In the Mississippi river near Fort St. Philip the United States steamer John Meiggs of the snagboat service was blown up, and Capt. Starr, Sergt. Needham, Ralph Rogers, Pat Corless, H. Jackson and J. D. Malone were killed.

Near Columbus, Ga., three children of Mary Ring died from being bitten by a rattlesnake, and a fourth child fell into a spring during the excitement and was drowned.

FOREIGN INTELLIGENCE.

In the Bertram shipyards in Toronto, Ont., fire caused a loss of $450,000.

Near Paris Lieut. Col. Henry, one of the chief witnesses against Capt. Albert Dreyfus, killed himself. He had made confession that the document which he offered at the trial had been forged to aid the army in the prosecution of Dreyfus.

Well posted officials in Europe predict war between France and Germany as a result of exposures to be made in the Dreyfus case and war between Great Britain and Russia over complications in the far east.

In France M. Cavaignac, minister of war, has resigned because of a disagreement with his colleagues, who desire a revision of the Dreyfus case.

Two shocks of earthquake at Santiago de Cuba shook every house in town with unusual force.

Under Sir Herbert Kitchener the Anglo-Egyptian forces defeated the dervishes in a great battle at Omdurman, on the Nile, the losses on the British side being 200, while thousands of the dervishes were killed or wounded.

Fire destroyed the chintz factory of Gartaide & Co., at Melannay, France, the loss being 2,000,000 francs.

LATER NEWS.

The British and Egyptian forces now possess Khartoum.

General Jaudenes, ad interim governor of the Philippine islands, replying to the government's request for information as to the true situation of affairs in the archipeligo, reports that "to assure the re-establishment of Spanish sovereignty over the islands would require a permanent army of 60,000 men, a fleet, and endless quantities of materials."

A hurricane swept over St. Joseph, Mo., accompanied by rain and hail. The rolling mills and five other houses were wrecked.

Gen. Numez says many of the Cubans are still short of food.

There have been several labor strikes at Manilla, the demand being for excessive wages.

The German government has asked that the same tariff decreases granted France in the recent treaty shall be accorded Germany, under the most favored nation clause.

The steamer City of Seattle arrived at Victoria, B. C., with $200,000 in gold. She had sixty passengers from the Klondike region.

The war department is getting up a statement to show that sickness and disease among volunteer soldiers is by no means confined to tropical latitudes and southern climates.

At Cohoes N. Y a locomotive struck a trolly car loaded with people killing 18 and wounding 10 others. The cars entering the city from Lansingburg were crowded with passengers returning from a Labor Day picnic at Rennsalaer Park, a pleasure resort near Troy. Car No. 192 of the Troy city railroad was the victime of the disaster. It came over the bridge about 7:35 o'clock laden with a merry party of people fresh from the enjoyment of the day.

The election in Arkansas resulted overwhelmingly in favor of the democrats.

Rev. J. P McIntyre, chaplain of the battleship Oregon will be courtmartialed for savage citicism of Admiral Sampson, Captain Evans, and other officers of the fleet.

There were 8 deaths from the heat in New York the 5th.

The Carnegie company secured another great victory over its competitors at Pittsburg, Pa. The Cambria Iron company, at Johnstown, must cease to operate its bessemer steel process. The court says it infringes upon the Carnegie patents.

At Candia, on the Isle of Crete, a collision between the Mussulmans, who were demonstrating against European control and the British authorities, who have been installing Christians as revenue officials, culminated in bloody fighting between the Mussulmans and the British troops. Riots took place in various parts of the city and many have been killed. When the outbreak was fiercest a warship stationed in the harbor began firing shells with the result that a portion of the city was burned.

The president has issued a proclamation directing that at all the ports in Cuba controlled by United States forces, food supplies for suffering Cubans be admitted free of customs duty.

The middle-of-the-road populists, in convention at Cincinnati, O., nominated Wharton Barker, of Pennsylvania, for president, and Ignatius Donnelly for vice president.

Gov. Lord has called a special session of the legislature of Oregon to elect an United States senator to fill a vacancy now existing by reason of a deadlock.

Pana, Ill., has been placed under martial law on account of a miners' strike.

The Spanish government will negotiate with the Philippine insurgents to ransom the 5,000 Spanish prisoners now in their hands.

President McKinley will make a tour of the Western Country visiting the Omaha exposition before his return to Washington.

Two south spans of the international bridge of the New York and Ottawa railroad, now under construction across the St. Lawrence river about three miles above St. Regis Indian village, N. Y. fell without warning, with over 60 men at work on the bridge, all being thrown into the river, some 60 feet below. Over 20 were picked up and taken to Cornwall hospital and over 30 are now missing.

VISITS SICK HEROES.

President McKinley Greeted by Troops at Camp Wikoff.

Closely Inspects the Hospitals and General Camp—Praises the Soldiers Who Stood Ready for the Brunt of Battle.

Camp Wikoff, Montauk Point, Sept. 5.—President McKinley spent five hours in the camp Saturday, bareheaded most of the time, visiting the sick in the hospitals and inspecting the well in their cantonments. He made a speech to the assembled infantrymen, reviewed the cavalrymen, expressed his opinion of the camp to the reporters, and issued an order directing the regulars to return to their stations east of the Mississippi.

On the train returning to New York Mr. McKinley made this statement: "I was very much pleased to meet the heroes of Santiago and to observe their splendid spirit. What I saw of the care of the sick men in the hospitals by those in charge, and by the noble women engaged in that work, was especially gratifying to me."

Gen. Wheeler arranged for the inspection party to go through the detention camp, past Gen. Shafter's tent, where the president could greet the commander of the Santiago forces.

With the president, besides the secretary of war, were:

Vice President Hobart, Attorney-General Griggs, Senator Redfield Proctor, of Vermont; Brig. Gen. Egan, Brig. Gen. Ludington, Maj. Webb C. Hayes, son of the late President Hayes; Col. M. T. Herrick, of Cleveland; William McKinley Barber, of Canton, O.; H. H. Herrick, of Cleveland; Secretary Porter and Assistant Secretary Cortelyou.

The ladies of the party were Mrs. Alger and Miss Hecker.

Maj. Gen. Wheeler was surrounded by a number of his staff. The carriages, preceded by the cavalry, wound up the hill to Gen. Wheeler's headquarters. From there the president drove through the detention camp to Maj. Gen. Shafter's tent. The general was in full uniform, but his face was flushed with fever. He endeavored to rise from the chair in which he sat as the president entered the tent.

"Don't get up, general," said Mr. McKinley, as they shook hands. "You are entitled to rest. How are you?"

"A little achy," replied the general, "but otherwise all right."

Inspects the Camp.

The president went into the tents alone or with Gen. Wheeler and made a personal inspection. The tents were in admirable condition. Everything was clean and attractive, and the wan patients smiled joyfully as the president went to them grasping many by the hand, as if they were his own brothers and sons. So the visiting was continued from tent to tent, from division to division until the entire camp had been inspected.

Introduced by Gen. Wheeler.

A visit was paid to the infantry plain, where the cheering was prolonged and the men showed themselves in high spirits. Men of the Ninth Massachusetts, First Illinois, Eighth Ohio and Thirteenth, Twenty-first, Twenty-second and Twelfth regular infantry were assembled without arms. About 5,000 stood in close order and Gen. Wheeler said:

"The president of our great country has come here to greet the soldiers who marched so gallantly up San Juan hill on July 1. He comes here to express the nation's thanks to these brave men. I wish to tell you that when the president sent me here, two weeks ago, to command this camp he enjoined me in the most emphatic language that I should, without regard to expense, exercise any and every authority necessary to make comfortable this body of brave men, who, by their courage, have raised this republic to the highest position among the great nations of the earth. I have the honor and pleasure of introducing to you the president of the United States."

Speech by the President.

When the cheering subsided President McKinley responded as follows:

"Gen. Wheeler, Soldiers of Camp Wikoff, Soldiers of the Fifth Army Corps: I trust that you will put your hats on—I am glad to meet you. I am honored to stand before you to-day. I bring you the gratitude of the nation to whose history you have added by your valor a new and glorious page. You have come home after two months of severe campaigning, which has embraced assault, siege and battle, so brilliant in achievement, so far-reaching in results as to command the unstinted praise of all your countrymen.

"You had the brunt of the battle on land. You bore yourselves with supreme courage, and your personal bravery, never before excelled anywhere, has won the admiration of your fellow citizens and the genuine respect of all mankind, while your endurance under peculiar trial and suffering has given added meaning to your heroism. Your exertions made easy the conquest of Puerto Rico under the resistless army commanded by Maj. Gen. Miles, and behind you, to proceed at a moment's summons, were more than 200,000 of your comrades, ready to support you, distappointed that the opportunity which you had did not come to them, yet filled with pride at your well-earned fame and rejoicing over your signal victories.

"You were on the line of battle—they, no less than you, were in the line of duty. All have served their country in its need, all will serve it so long as they may be required, and all will forever have the thanks and regard of a grateful people.

"We cannot bid you welcome here to-day without our hearts going out to the heroes of Manila on sea and on land, whose services and sacrifices, whose courage and constancy in that far-distant field of operations have never been surpassed by any soldiers or sailors the world over.

"To the army and the navy, to the marines, to the regulars, to the volunteers and to that Providence which has watched over them all the nation to-day is full of thanksgiving and praise. The brave officers and men who fell in battle and those who have died from exposure and sickness will live in immortal story and their memories will be perpetuated in the hearts and the histories of a generous people, and those who are dependent upon them will not be neglected by the government for which they so freely sacrificed their lives."

Would Take Army and Navy.

Madrid, Sept. 6.—Gen. Jaudenes, ad interim governor of the Philippine islands, replying to the government's request for information as to the true situation of affairs in the archipelago, reports that to assure the reestablishment of Spanish sovereignty over the islands would require a permanent army of 60,000 men, a fleet and endless quantities of materials.

Spain's Peace Commissioners.

Madrid, Sept. 5.—It is currently reported that the Spanish ministers at Friday's cabinet meeting definitely selected the three following peace commissioners:

Gen. Rafael Cerero y Saenz, general of engineers.

Senor Eugenio Montero Rios.

Senor Villaurutia, under secretary of state for foreign affairs.

BELIEVE DREYFUS GUILTY.

But the French Ministry Will Yield to Popular Clamor and Grant a New Trial.

Paris, Sept. 6.—Gen. Zurlinden, military governor of Paris, has accepted the ministry of war in succession to M. Cavaignaic, resigned. Gen. Zurlinden was a member of the Ribot cabinet, which went out of office October 28, 1895.

Paris, Sept. 6.—Interviews with the premier, M. Henry Brisson, and the late minister of war, M. Godefrey Cavaignaic, on the subject of the political situation in France as it has been affected by the recent developments in the Dreyfus case, are printed in the Echo De Paris. M. Brisson is reported as having said that all the members of the ministry are convinced of the guilt of Capt. Dreyfus, but that the government must consider the change that has come over public opinion since the suicide last week of Lieut. Col. Henry. M. Brisson expressed the view that it is the duty of the government to end the excitement which is paralyzing the best interests of Paris and of the country.

Opinions differ as to how the latest developments affect the situation. There is a rumor that Gen. Zurlinden, the new minister for war, will advocate a mere annulling of the Dreyfus judgment and sentence as a safer way out of the imbroglio than a retrial involving all sorts of awkward revelations. Whether or not this be true, there is much speculation as to how President Faure induced Gen. Zurlinden to accept the war portfolio after twice refusing it.

A TRIUMPHAL ENTRY.

Queen Wilhelmina Goes to Amsterdam to Be Formally Crowned Ruler of Netherlands.

Amsterdam, Sept. 6.—Beginning at early dawn Monday vast crowds of people gathered in the streets, which were lavishly decorated, in anticipation of the entry of Queen Wilhelmina. Six hours before Queen Wilhelmina's arrival 200,000 people had assembled in the streets and around the palace. Her majesty appeared at 3:30 o'clock p. m. preceded by 30 divisions, including representatives of the army and navy, governmental and municipal officials and princes from Holland's East Indian colonies, who came here expressly to witness the enthroning of the young queen.

In front of the palace the army and navy were drawn up in the form of a great square. The coach passed along the four sides of the square before drawing up at the entrance to the palace. A few moments later Queen Wilhelmina appeared upon the balcony and bowed repeatedly to the 60,000 people who approached the palace waving handkerchiefs, hats and flags. Meanwhile many bands were playing national airs, chimes of bells were ringing and steam whistles shrieking their salutes to the young sovereign.

Election in Arkansas.

Little Rock, Ark., Sept. 6.—Arkansas on Monday elected a full corps of state officers, 100 members of the lower house of the legislature, 16 state senators, local officers in each of the 75 counties, and voted on the adoption of two important constitutional amendments, as well as the question of the liquor license in the different counties. The democratic state ticket, headed by Dan W. Jones, is undoubtedly elected. the only question of doubt being the size of the democratic plurality.

The Gold Reserve.

Washington, Sept. 3. — The gold reserve in the United States treasury reached the highest point in its history Friday, with a total reserve of $219,320,372. The highest previous amount was $218,000,000, which was recorded in March, 1888. The reserve was established in 1879 with $116,000,000. It first reached $200,000,000 in October, 1887, when the figures were $2,000,000 above that mark. The lowest point reached was $44,000,000 in January, 1895. In June, 1897, there was $140,000,000 and one year later the amount was $167,000,000.

Damage by a Hurricane.

St. Joseph, Mo., Sept. 6.—A hurricane swept over St. Joseph at 5:20 Monday afternoon. Rain and hail, accompanied the wind. Residenees were unroofed, stacks and barns were torn down, and many buildings were utterly demolished. The St. Joseph rolling mills were wrecked, damage, $10,000; Carey's saloon, five other houses and a field full of tents in the packing house district were scattered to the winds. Many families were rendered homeless. The monetary loss is placed at $150,000.

THE SOUTHERN STORM.

Further Reports of Great Damage —Coast Islands Suffer Severely.

Savannah, Ga., Sept. 3.—While Savannah suffered heavily from the cyclone which swept over this section of the coast Wednesday morning, the damage on the coast islands and in the interior as far as the storm reached is probably greater. The flooded condition of the country renders communication difficult and in many sections it is entirely cut off and no news has been received to indicate what the conditions are. The first news from the Carolina sea islands which were the scene of the great tidal storm of 1893, in which thousands of persons perished was received Friday. While the storm was nothing like that of five years ago the loss is heavy. The beaches north of Tybee are lined with wrecks of small craft and at Bluffton and the other small settlements nearly all the houses were unroofed and many were destroyed.

The loss to the rice crop on the Savannah river alone is estimated at $200,000 to $250,000. Three-fourths of the crop has been destroyed. The loss to planters between Savannah and Augusta will run into the hundreds of thousands. A heavy flood is reported in the upper Savannah river and messengers were sent out from here to warn planters of its approach. The cotton crop in the counties adjoining Savannah is practically ruined.

G. A. R. ENCAMPMENT.

Big National Meet of Veterans of the War of the Rebellion at Cincinnati Opens.

Cincinnati, Sept. 6.—Although Camp Sheridan was not dedicated till ten o'clock in the morning, it was partially occupied by veterans Sunday night. The festivities of the week opened early when the naval veterans formed at six a. m. to escort Rear Admiral Kelley from the depot. The opening exercises of the naval veterans, under the auspices of the National Naval Veterans' association, occurred at nine a. m.

The camp fire of the naval veterans, known as the dog watch, at Music hall Monday night was attended by over 8,000 people. Congressman Jacob H. Bromwell presided, and in addition to Weber's military band and a chorus of several hundred voices, there was music by the Cambro-American Choral society and noted soloists. The biograph was used during intermissions for the display of war pictures, which gave vivid views of scenes in which many of the comrades had participated. The principal address of the evening was by Gen. J. P. S. Gobin, commander-in-chief of the G. A. R., who was profuse in his praise of the arrangements made in Cincinnati for the encampment. He spoke of the heroic conduct of American soldiers in the Spanish war as well as in the civil war. Rear Admiral Daniel F. Kelley spoke of the great progress made in the American navy since the time the present naval veterans were in active service. Addresses were also delivered by Col. Isaac K. Archer, Rear Admiral B. S. Osborne and others.

Fleet Reaches Boston.

Boston, Sept. 3. — Amid the greatest enthusiasm from thousands both afloat and ashore, a fleet of nine warships, fresh from hard fighting in Cuba, headed by the stately Massachusetts, sailed up the harbor Friday afternoon and quietly dropped anchor off the wharves, salutes only being fired in honor of Commodore Howison, of the navy yard, and as Gov. Wolcott left for the shore. At night the officers, in their best uniforms, came ashore, and with Gov. Wolcott and Mayor Quincy held a well attended reception in historic Faneuil hall, while the fleet, with the assistance of a lively thunderstorm, lighted up the harbor with their searchlights.

Germany Withdraws.

Berlin, Sept. 3. — A semi-official note issued Friday says: "A state of peace having been reestablished between the United States and Spain, orders have been given that the German naval force at Manila be reduced to one or two ships, which, pending the complete restoration of order in the Philippine islands, will suffice for the protection of German subjects and interests in that region."

Populists Meet.

Cincinnati, Sept. 6.—The middle-of-the-road populist national convention met at 12:30 Monday and listened to a speech by Ignatius Donnelly, the temporary chairman. Mr. Donnelly was very bitter against all fusionists, and especially against Gen. Wheeler and Senator Butler.

LEADING CHARACTERS IN THE DREYFUS SCANDAL.

No other event in the history of the year has caused as much international excitement as the latest development of this cause celebre, which ended in the suicide of Col. Henry, a French officer high in the esteem of the war office, who, prior to his death, confessed that the letters on strength of which Capt. Dreyfus was degraded and expatriated were manufactured by him "to save the honor of the French army." Other actors in this despicable drama are expected to destroy themselves before the much-wronged Dreyfus can be brought back to France for a retrial.

Pimples

Are the danger signals of impure blood. They show that the stream of life is in bad condition, that health is in danger of wreck. Clear the course by taking Hood's Sarsaparilla and the blood will be made pure, complexion fair and healthy, and life's journey pleasant and successful.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1; six for $5.

Hood's Pills cure indigestion, biliousness.

THE MINISTER GOT MIXED.

And Rang Several Changes on a Scriptural Sentence Before He Got It Right.

The minister had reached the critical point in his "missionary" sermon. He had finished his firstlies and secondlies, and with one neat figure would link them to an impassioned appeal that would strike his congregation's hearts, and make their rocks flow like water.

"If," he exclaimed, "it has truly been said that he who makes two glades of brass to grow where one—"

The puzzled look on the face of a deaf old member in a front pew led him to pause and repeat:

"That he is a benefactor who makes two grades of blass—"

Smiles throughout the house and his own sense showed him there was something wrong, but, with an attempt at lightness, he said, airily:

"As I meant, two braids of glass."

The choir was now keen-eared, and the pastor felt as if he had met Dewey. So he shouted: "Two blads of grace."

Then the senior deacon had pity on him and arose. "My brethren," he spoke, "our pastor has been upset by the intensity of his emotions, and has tripped on two blades of grass."—San Francisco Examiner.

WHAT WOMEN SAY

Of Dr. Hartman's Free Advice and Remedies.

Dr. Hartman is constantly receiving letters from grateful women who have received the benefit of his free advice, and are entirely well once more, after years of suffering. The following are brief extracts from two such letters: Mrs. F. K. F. Gille, Box 19, Navasota, Tex., writes: "I think it is time to let you know what your treatment has done for me. I am rid of that terrible trouble I had when I wrote to you. When I would stoop over I could not straighten up without the most severe pain. I am well of that and much better in other ways." Mrs. Phoebe C. Carr, Orifino, Idaho, writes: "I am glad to tell you that I am entirely well. I am stouter than I have been for years and weigh more than I ever did in my life. I want to tell you that it was your advice and medicine that cured me. I think it is the greatest medicine in the world. I will never be without Pe-ru-na. Everybody ought to keep Peru-na in the house."

Dr. Hartman's latest book of advice to women will be sent free to any address by The Pe-ru-na Drug Manufacturing Company, Columbus, Ohio.

Wouldn't Take Chances.

Smith—One can't always judge a man's patriotism by his conversation.

Jones—No, I suppose not.

"Take Brown, for instance; would you call him a coward?"

"Well, er—I might if I was sure he wouldn't fight."—Chicago Evening News.

Made Them All Work.

Mr. Luxoe—Then you don't believe in foreign servants?

Mr. Tariff—With a wife and three grown daughters? Not I. I believe in encouraging home industry.—Brooklyn Life.

Too True.

"It's a peculiar thing about barbers," mused the philosopher, "that no sooner do they scrape acquaintance with a man than they immediately proceed to cut him."—N. Y. World.

When people find fault with everything they hear, they ought not to complain if they do not hear everything.—Ram's Horn.

Keep Your Youth

If you are young you naturally appear so.

If you are old, why appear so?

Keep young inwardly; we will look after the outwardly.

You need not worry longer about those little streaks of gray; advance agents of age.

Ayer's Hair Vigor

will surely restore color to gray hair; and it will also give your hair all the wealth and gloss of early life.

Do not allow the falling of your hair to threaten you longer with baldness. Do not be annoyed with dandruff.

We will send you our book on the Hair and Scalp, free upon request.

Write to the Doctor.

If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be easily removed.

Address, DR. J. C. AYER, Lowell, Mass.

OLD SORES CURED

Allen's Ulcerine Salve is the only sure cure in the world for **Chronic Ulcers, Bone Ulcers, Scrofulous Ulcers, Varicose Ulcers, White Swelling, Fever Sores,** and all **Old Sores.** It never fails. HEROES OF WAR.

From the Chicago Times-Herald.

The feeling of admiration for heroes of war seems to be innate in the human heart, and is brought to the surface as the opportunity and object presents itself.

Among those who proved their heroism during our Civil War was A. Schiffeneder, of 161 Sedgwick Street, Chicago. He is an Austrian by birth, came to America at the age of twenty, and became an American citizen. He was living at Milwaukee when the call for volunteers came early in 1862, and he promptly enlisted in Company A, of the Twenty-sixth Wisconsin Volunteers. In the Army of the Potomac he saw much fighting, campaigning in the Shenandoah Valley.

He received a wound.

In the first day's fighting at the battle of Gettysburg, Schiffeneder received a wound in the right side, which afterward caused him much trouble. With a portion of his regiment he was captured and imprisoned at Bell Island and Andersonville, and afterward exchanged. He returned to his regiment, which was transferred to the army of General Sherman, and marched with him through Georgia to the sea.

In this campaign Mr. Schiffeneder's old wound began to trouble him and he was sent to the hospital and then home. He had also contracted catarrh of the stomach and found no relief for years.

"I happened to read an account of Dr. Williams' Pink Pills for Pale People about a year ago," he said, "and thought that they might be good for my trouble. I concluded to try them. I bought one box and began to take them according to directions. They gave me great relief. After finishing that box I bought another, and when I had taken the pills I felt that I was cured. I recovered my appetite and ate heartily. I can testify to the good the pills did me."

Mr. Schiffeneder is a prominent Grand Army man in Chicago, whither he moved some years ago with his family.

Perish the Thought!

"John," said a Topeka wife to her husband, "I will quit drinking tea and save the war tax if you will do the same with beer."

"Woman," responded John, with cold severity, "do you think it is the part of patriotism to abandon your country in its time of peril?"—Kansas City Journal.

Successful Treatment for Asthma.

Dr. P. Harold Hayes, of Buffalo, N. Y., sends his book on "Asthma and Hay-Fever Cured to Stay Cured" free and postpaid to any sufferer who applies for it. Dr. Hayes has now treated upwards of forty thousand cases, and quotes many cases of former sufferers who have stayed cured for from five to twenty years. Names and addresses of these are given, so that any inquirer can investigate fully and be convinced of the reliability of the statements made. Dr. Hayes says that any case of spasmodic or bronchial Asthma not complicated with organic disease of heart, lungs or kidneys can be radically cured.

No Wonder the Query.

When the news came to the Chickamauga hospital of the destruction of Cervera's fleet one of the nurses commenced to read it aloud. He had got as far as the statement that the Brooklyn had been hit 45 times, when a fever patient, a little out of his head, shouted: "Great Scott! Who pitched for Brooklyn?"—San Francisco Wave.

What Is the Use

of making up clothes that go to pieces before the end of the season or fade and get limp and sleazy after the first washing? One of Simpson's Prints will outwear three of the inferior calicoes. The colors are absolutely fast, and any fabric bearing the name of William Simpson & Sons is guaranteed of the highest standard of quality and finish and will give perfect satisfaction.

A clause should be inserted in the marriage service asking the man to promise that he will not make it necessary for his wife to open a boarding house.—Atchison Globe.

MINNESOTA NEWS.

Crop Report.

U. S. Department of Agriculture, Minnesota Section, Climate and Crop Service, Weather Bureau.—A succession of generally light showers in the Red river valley has retarded all work but plowing, and it is said that in Marshall county there was sufficient rain to cause the wheat to start growing in the shock; in other portions of the state the weather has been very dry and excessively hot till the morning of the 3d, when the temperature began falling, and there were scattered showers, but the rains were not heavy enough to be of more than temporary benefit. The warm weather has very much hastened the ripening of corn, so that it will be safe from frost by the 10th, and its harvest is already well begun. On sandy soils corn has suffered some injury by the too rapid drying of the plant. Threshing is well advanced in all sections but the Red river valley. Fall plowing is general, though the very dry condition of the soil in all the southern half of the state makes it hard work. Winter wheat seeding is begun in Houston county.

The Sick Men.

In answer to the telegram from Col. Van Duzee that there were 72 men on the sick lidt os the 24th regiment, Gov. Clough telegraphed his congratulations to the colonel at once.

"It is a wonderful showing," he said. "Do you know that the 15th, which has never been outside of the state, has more men disabled by 100 than both of these regiments together, which have been four months in the terrible South? I don't believe that there is another regiment in the country that can show a record as the 14th. It's the healthiest regiment today in the United States."

The governor has cabled to Col. Reeve to ask if nurses would be of any assistance. If the 13th has use for them he will get permission from the war department to send them, as the Red Cross societies suggest.

Saved His Own Son.

A serious accident occurred in a runaway at Winnebago City. Paul Regan, assistant cashier of the Faribault county bank, saw the runaway horse dashing down the street and near by a child in danger. He rushed for the child, caught him to rescue him, but was a second too late. The wheel of the buggy struck the boy's right side just as he was being drawn aside and broke his leg near the hip joint. Mr. Reagan discovered that he had his own 5-year-old son in his hands. The boy seems to have escaped other injuries. Mr. Reagan was struck by the vehicle but not injured beyond slight bruises.

A Thrilling Experience.

K. B. Armour, a prominent banker and packer of Kansas City, arrived at Duluth over the Eastern Minnesota railroad. He was accomsanied by his wife, daughter, and several others. A few miles out the party met with a thrilling experience and very serious consequences were narrowly averted. As the train was approaching a bridge at full speed, the engineer noticed the structure was in flames. It was too late to stop and he opened the throttle and dashed through the fire. The train passed safely over, but the rear sank several inches in crossing the bridge.

The Wrong Man.

Coroner Nelson of St. Paul was notified that Joseph Minne, the colored man who was supposed to have died in a cottage at White Bear last week, was still alive. His real name is Minne Branch, and he is employed at the Town and Country club. When the body was found it was generally supposed that it was that of Minne, because he was last seen in the cottage where the body was found, and because Minne has two fingers missing from the left hand. The same fingers were missing from the hand of the corpse.

County Treasury Shortage.

The bondsmen of County treasurer Beaudry, of Polk county, became aware of the shortage in cash necessary to balance the books of that office. The amount is not known, but is believed to be in the neighborhood of $6,000. The shortage is laid to Deputy Treasurer Joseph Matthews, who left early in July to attend the Omaha exposition, and has not been heard from since.

Minnesota Briefs.

The first woman ever authorized to wear a uniform of the United States army is Dr. Anita Newcomb McGee, of Minneapolis. She has been sworn into the military service as acting assistant army surgeon, and has been assigned to her station to minister to the sick and wounded boys in blue.

Minnesota's 39th annual fair opened under more cheering and auspicious circumstances than any of its predecessors.

A fire destroyed the barns owned by George Vorce, Julius Ewart and John Graves at Dodge Center. Several adjoining houses were damaged, but by heroic efforts a serious conflagration was averted.

A brand new threshing machine, owned by S. B. Marvin, of Redwood Falls, together with four stacks of wheat, owned by Rev. S. D. Westphal, were destroyed by fire.

O. L. Cutter, of Anoka, prominent in politics throughout the state dropped dead while riding his bicycle.

WEIR OF THE WHEEL.

The skating record has at last been surpassed by the bicycle, the latter now being the fastest man-power means of traveling.

The German war office has forbidden all active soldiers to start in races with the humbler civilians, only allowing purely military races.

J. S. White and G. Sutherland have won the half, one, five and ten miles amateur, and the one, five and ten miles professional championships of New Zealand, respectively.

The adjusting cone of the head should be tight at all times, otherwise there will be a rattle and every part of the frame will suffer because of the vibration caused by a loose head.

If the oil hole cover becomes lost the opening should be wound with tire tape. Otherwise dust will collect in the bearings, and as this is a simple and easy means of keeping it out, it should be remembered.

Bicyclers will appreciate a new toe-clip, which is hinged to the side of the pedal and has extensions on the front and rear, which spring the clip into place as soon as touched by the foot, the pedal being always balanced for use either side up.

GORDON AVENGED.

Decisive Battle Won by the British in the Soudan—The Capture of Omdurman.

London, Sept. 5.—The war office has received the following:

"Omdurman, Opposite Khartoum, On-the-Nile, Nubia, Sept. 2, by Camel Post to Nasri.—The sirdar, Gen. Sir Herbert Kitchener, with the khalifa's black standard, captured during the battle entered Omdurman, the capital of Mahdiam, at four o'clock this afternoon at the head of the Anglo-Egyptian column, after completely routing the Dervishes and dealing a death blow to mahdism. Roughly, our losses were 200, while thousands of the dervishes were killed or wounded. Karl Neufeld was rescued unharmed.

"Last night the Anglo-Egyptian army encamped at Agaiza, eight miles from Omdurman. The Dervishes were three miles distant. At dawn to-day our cavalry, patrolling toward Omdurman, discovered the enemy advancing to the attack in battle array, chanting war songs. Their front consisted of infantry and cavalry, stretched out for three or four miles. Countless banners fluttered over their masses, and the copper and brass drums resounded through the serried ranks of the savage warriors, who advanced unwaveringly, with all their old-time ardor.

"Our infantry formed up outside the camp. On the left were the First battalion Northumberland fusileers, the Second battalion Lancashire fusileers and the First battalion grenadier guards, with the Maxim battery, manned by the Royal Irish fusileers. In our center were the First battalion Warwickshire regiment, the First battalion Cameron highlanders and the First battalion Lincolnshire regiment, with Maxims worked by a detachment of the Royal artillery, under Maj. William. On our right were the Soudanese brigades, commanded by Gen. Maxwell and Gen. McDonald. The Egyptian brigades held the reserves, and both flanks were supported by the Maxim-Nordenfeldt batteries.

"At 7:20 a. m. the enemy crowded the ridges above the camp and advanced steadily in enveloping formation. At 7:40 our artillery opened fire, which was answered by the Dervish riflemen. Their attack developed on our left, and in accordance with their traditional tactics they swept down the hillside with the design of rushing our flank. But the withering fire maintained for 15 minutes by all our line frustrated the attempt, and the dervishes balked and swept toward our center, upon which they concentrated a fierce attack. A large force of horsemen, trying to face a continuous hail of bullets from the Cameron highlanders, the Lincolnshire regiment and the Soudanese, was literally swept away, leading to the withdrawal of the entire body, whose dead strewed the field.

"Among the chief incidents of the battle was a brilliant charge by the Twenty-first lancers under Lieut. Col. Martin. Galloping down on a detached body of the enemy, they found the Dervish swordsmen massed behind, and were forced to charge home against appalling odds. The lancers hacked through the mass, rallied and kept the Dervish horde at bay. Lieut. Grenfell, nephew of Gen. Sir Francis Grenfell, was killed; four other officers were wounded, 21 men were killed and 20 wounded.

"When the Dervishes withdrew behind the ridge in front of their camp, the whole force marched in echelon of battalions toward Omdurman. As our troops surmounted the crest adjoining the Nile, the Soudanese on our right came into contact with the enemy, who had reformed under cover of a rocky eminence and had massed beneath the black standard of the khalifa, in order to make a supreme effort to retrieve the fortunes of the day. A mass, 15,000 strong, bore down on the Soudanese. Gen. Kitchener swung round the center and left of the Soudanese and seized the rocky eminence, and the Egyptians hitherto in reserve, joined the firing line in ten minutes, and before the Dervishes could drive their attack home.

"The flower of the khalifa's army was caught in a depression, and within a zone of withering cross fire from three brigades, with the attendant artillery. The devoted mahdists strove heroically to make headway, but every rush was stopped, while their main body was literally mown down by a sustained deadly cross fire. Defiantly the Dervishes planted their standards and died beside them. Their dense masses gradually melted to companies and the companies to driblets beneath the leaden hail. Finally they broke and fled, leaving the field white with jibbah-clad corpses, like a snow-drift dotted meadows. At 11:15 the sirdar ordered an advance, and, our whole force in line, drove the scattered remnant of the foe into the desert, our cavalry cutting off their retreat to Omdurman.

"The heroic bravery of the Dervishes evoked universal admiration. Time after time their dispersed and broken forces reformed and hurled themselves upon the Anglo-Egyptians, their emirs conspicuously leading and spurning death. Even when wounded and in death agonies they raised themselves to fire a last shot. Among the wounded is Col. Rhodes, the correspondent of the London Times and a brother of Cecil Rhodes."

London, Sept. 5.—The news of Gen. Kitchener's victory over the Dervishes at Omdurman was received with the greatest satisfaction here, where it is held that England has at last wiped out the stigma attaching to her defeat in the previous expedition to the Soudan. Early Sunday morning crowds gathered about the statue in Trafalgar square of Gen. Charles (Chinese) Gordon, who was killed at Khartoom, January 26, 1885, after having been besieged in that city by the Dervishes for 337 days.

London, Sept. 6.—The war office received Monday evening the following dispatch, dated Omdurman Sunday, from the sirdar, Gen. Sir Herbert Kitchener: "This morning the British and Egyptian flags were hoisted with due ceremony upon the walls of the Saraya (the palace) in Khartoum. All the British wounded have left for Abadia in barges towed by steamers. I saw them before leaving. They were all doing well and were comfortable. The cavalry sent in pursuit of the khalifa were compelled to abandon the attempt, owing to the exhaustion of the horses, but I have ordered camel squads to continue the pursuit."

Anglo-German Alliance.

London, Sept. 3. — A report was current here Friday that a treaty alliance between Great Britain and Germany, on the lines of the speech of Mr. Chamberlain, the secretary of state for the colonies, was actually completed Thursday. This probably is an amplification of the gossip relative to the daily visits of Coun. Von Hatzfeldt-Weidenburg, the German ambassador, to the British foreign office during the past fortnight, which have been attributed to a desire on the part of Germany and Great Britain to formulate a common policy in regard to Russia and China.

It is said that as a quid pro quo for Germany's support in Egypt Great Britain will recognize Germany's claims to utilize Syria as an outlet for her surplus population.

Receipts and Expenditures.

Washington, Sept. 2.—The monthly statement of receipts and expenditures of the government for August shows that the receipts from all sources aggregated $41,782,707, an increase of $22,759,093 over August, 1897.

The expenditures for the month aggregated $56,260,717, an increase of $22,672,670. The heavy increase on both sides of the ledger are due to the war expenditures on the one side and the internal revenue law on the other.

Justice White Declines.

Cooperstown, N. Y., Sept. 2. — Justice White stated positively Thursday night he had declined a peace commissionership. His reasons are not made public.

OBSERVE LABOR DAY.

Big Parade in Chicago—Over 30,000 Toilers March the Streets—In Other Cities.

Chicago, Sept. 6.—Chicago threw aside its working clothes Monday and donned gala-day garb in honor of labor's national holiday. From one end of the city to the other factories, foundries, brick yards, quarries, workshops and building sites were deserted, while their toilers flocked to the mighty army that at ten o'clock began its triumphal detour through the cheering, enthusiastic masses that lined the streets paraded.

Between 30,000 and 40,000 of the toilers marched through the streets, while many times that number proceeded to enjoy the holiday in their own individual way.

Washington, Sept. 6.—Labor day was spent in a quiet manner by Washington. The trades' display which in previous years has been the principal feature of the day was dispensed with and the observance of the holiday took the form of excursions to the river resorts under the auspices of the labor fraternities where specially arranged programmes provided amusement for all.

Baltimore, Md., Sept. 6.—Labor day was celebrated in a very quiet manner in this city. The chief feature of the day was a mass meeting of the labor organizations of the city at Meeter's park, which was addressed by Hugh O'Donnell, who became prominent as chairman of the advisory committee of the strikers at Homestead.

New York, Sept. 6.—Labor day was observed in New York by an almost total cessation of all effort save that of trying to keep cool. There was no parade, and as soon as dawn came individual toilers and family parties began rushing for the country, and the raid on the trolley and all kinds of transportation lines lasted all day.

WITHOUT A LEADER.

Death Takes President Wilfred Woodruff, Head of the Mormon Church in America.

Salt Lake City, Utah, Sept 3.—A private telegram from George Q. Cannon, who is now in San Francisco, announces the death of the president of the Mormon church, Wilfred Woodruff. Mr. Woodruff died at 5:40 Friday morning. He had been troubled with kidney complain for some time and went to the Pacific coast for the improvement of his health about a month ago. He apparently slept well Thursday night and died without a struggle.

PRESIDENT WOODRUFF.

MANY VICTIMS OF HEAT.

Awful Record Is Reported from New York City and Philadelphia for Saturday and Sunday.

New York Sept. 5.—Fifty dead and over 100 prostrations in one day is the record of the heat in New York city Saturday. The sun beat relentlessly on the sweltering city all day long.

Up to midnight Sunday there had been reported to police headquarters 43 deaths and 44 prostrations from the heat.

Several deaths and many prostrations were reported in the borough of Brooklyn. The names of only five dead have been secured by the police.

Philadelphia, Sept. 5.—There were nine deaths from the heat Sunday in this city and about 25 prostrations. Sunday, for the first time since the present hot spell, did the thermometer show any signs of falling. For the past three days it has hovered between 98 and 95, but the maximum reached Sunday was 91 degrees.

The John R. Meigs Sinks.

New Orleans, Sept. 5.—A Fort Philip special to the Picayune says: The John R. Meigs had her forecastle blown off and six men were hurled by the shock into the Mississippi and never came to the surface. Three others were thrown into the river, but were not so badly injured as to prevent their climbing back upon the boat. Contrary to the advices received Saturday night the Meigs did not sink immediately. Disabled as she was, she was carried by the tide and a stiff wind to the east bank, where her stern grounded and her bow swung out and pointed down stream. Nearly everything of value had been recovered before she lurched off the bank on which her stern rested and plunged bow foremost into the deep water of the channel. The men hurled to death by the dynamite never saw the mine that exploded. The shock came when it was several feet beneath the surface.

The Switch Was Open.

Syracuse, N. Y., Sept. 2.—A special to the Herald from Fulton says: Train No. 5 on the New York, Ontario & Western railroad, known as "the Chicago Limited," was wrecked at Ingalls' Crossing, four miles south of this village, at five o'clock in the morning. The wreck was doubtless due to the dastardly work of tramps, who threw open the switch at which the train was wrecked as well as two switches to the north of the wreck. Engineer Dowd and Fireman Hall both jumped and were found under the wreckage of the tender by passengers from the sleeper. Dowd died in a few minutes and Hall three hours later. The body of Brakeman Osborn was torn in two.

Grand Choral Congress.

Omaha, Neb., Sept. 3.—One of the leading events of the exposition will be the grand choral congress to be held September 23-26, inclusive. All choristers who can read music and sing selections under their own leaders are invited. The object is to bring together for a social and musical union the singers who are scattered, and to get the musical people of the territory within a few hundred miles of Omaha acquainted with each other.

PENSION ROLL GROWING.

Commissioner Evans Predicts That It Will Not Decline Very Soon—Spanish War Pensioners.

Washington, Sept. 6. — The annual report of H. Clay Evans, commissioner of pensions, was made public Saturday. Following is a synopsis of the main points:

The commissioner says that the roll is not only increasing in numbers, but in value. It is believed that it will increase from the war of the rebellion, as there probably are 200,000 ex-union soldiers living who have never had pensions, and it will increase in amount naturally by reason of increased disabilities as provided by law. The amounts paid out at the several agencies for the year on account of pensions under the general laws were $75,275,383, and on account of pensions under the act of June 27, 1890, $66,255,670. The number of pensioners in foreign countries at the close of the fiscal year was 4,371, having increased 309. The total amount paid to pensioners living abroad was $369,862.

There were 17 survivors and 211 widows of the Indian wars and 46 survivors and 502 widows of the Mexican war pensioned during the year. There are surviving five widows and seven daughters of the American revolution. One survivor and seven widows of the war of 1812 were pensioned during the year just closed.

Pension claims pending June 30, 1898, numbered 635,059. The commissioner is confident that there are not over 75,000 of these (invalids and widows) that are genuine original claims. The others are cases where the claimants are already pensioned.

Attention is called to an extract from the pension laws, providing that all pensions granted under the general laws regulating pensions of widows in consequence of death occurring from a cause which originated in the service since March 4, 1861, shall commence from the death of the husband.

It is recommended that the payments of pensions be made to the wife or some other suitable person in the case of pensioners who are likely to dissipate their money.

A treatise has been prepared to facilitate the settlement of pending claims by placing before examiners, as simply as practicable, the requirements of the bureau in the different classes of claims, thus enabling claimants and those who adjudicate these claims to proceed to their settlement in a more expeditious and intelligent manner.

It is recommended that additions be made to the law and medical libraries of the department and that a commission be appointed on the revision of the laws, rules and regulations governing the issuance of pensions.

A special division has been established to adjudicate claims growing out of the Spanish war. These will be paid under the general laws. Only about 100 claims of this class have been filed up to the close of the fiscal year and none have been adjudicated.

CRASHED INTO A TROLLEY.

Grade Crossing Accident Results in Eighteen Deaths—Ten More Fatally Injured.

Cohoes, N. Y., Sept. 6.—An appalling disaster occurred in this city shortly before eight o'clock Monday night. A trolley car of the Troy City Railroad company was struck by the night boat special of the Delaware & Hudson railroad at a crossing at the west end of the Hudson river bridge, which connects this city with Lansingburg, and its load of human freight was hurled into the air. Eighteen of the 35 passengers are dead, and at least ten of the remaining will die. The cars entering the city from Lansingburg were crowded with passengers returning from a Labor day picnic at Renssalaer park, a pleasure resort near Troy.

The crash was frightful in its results. Headless women with gay summer dresses bathed in their own and the blood of others, limbs without trunks or any means of identifying to whom they belonged; women's and men's heads with crushed and distorted features, bodies crushed and flattened, these sights constituted a spectacle most horrible to behold.

The train of the Delaware & Hudson road, immediately after the accident, proceeded to Troy. The engineer stated that he did not see the car until he was upon it. He tried to prevent his train from striking the car, but his efforts were fruitless. His train was going at a high rate of speed at the time. He was some minutes late, and was trying to make up lost time. In consequence of the caution taken by the trolley road to ascertain if the tracks were clear at this crossing, the engineers have always felt safe in running by at a high rate of speed. The engineer says that the first he knew that the car was coming was when it hove in sight at the corner of the street at which the crossing is situated. He was but a short distance from the car at the time. It was utterly impossible for him to bring his train to a standstill.

Seek Their Release.

Washington, Sept. 3.—Having arranged for the release and return to Spain of the Spanish sailors captured after the destruction of Cervera's fleet, the Spanish government is now seeking to secure the release of the Spanish soldiers who are still held captives in this country. There are a few of these confined at Fort McPherson and our government is entirely willing to be rid of them. Our government having finally consented to release the sailors upon the sole condition that the Spanish government would transport them home M. Thiebaut, acting in the interest of the Spanish government, has just made application to the state department for similar treatment in the case of the Spanish soldiers. The request is now under consideration and doubtless will be granted.

Victims of Dynamite.

Indianapolis, Ind., Sept 3 —A special to the Sentinel from Bloomington, Ind., says: A horrible accident occurred at Stinesville Friday afternoon, in which four men were instantly killed by a dynamite explosion and many others seriously injured. The men were blasting rock for a new pike, when a terrific explosion of dynamite occurred, instantly killing the following: John W. Williams John Grubb, Buck Wampler and Edward Watts. These were fatally injured: Ben Fyffe, Milton Hike, Willie Liford.

Four Young Ladies Drowned.

Erie, Pa., Sept. 3.—By the accidental jibing of the sail of a pleasure yacht on Presque Isle bay Friday evening four young women were swept off into the water and drowned before assistance could be rendered them. Their names are: Mary, Della and Ella Pardine, daughters of William Pardine, an Erie machinist and Jessie Moore, daughter of John H. Moore, an engineer of the Erie & Fittsburgh railroad.

Gen. Shafter Returns.

New York, Sept. 2. — The transport Mexico, with Gen. Shafter on board, anchored off Montauk Point Thursday. Gen. Shafter came ashore and was driven to the detention hospital.

An Instance.

DeCrop—May is intensely feminine.

Miss Upton—More so than other girls?

"Well, she asked the blacksmith the other day if her horse couldn't wear shoes a size smaller."—Puck.

A Gentle Hint.—He—"It's reported that we're engaged." She—"Well, I'm not to blame for the fact that it is only a report."—Brooklyn Life.

Has Not Slept for Five Years.

It is reported that a man in Indiana has not had an hour's sleep for five years. He constantly walks about, unable to rest, and is now little more than a skeleton. There are thousands of men and women who are unable to sleep more than an hour or two a night because of nervousness, weakness, dyspepsia, headache and constipation. A certain remedy for these disorders is Hostetter's Stomach Bitters. All druggists sell it.

BUFFALO GAZETTE

DELANO, FRIDAY, SEPT. 9, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

—Nights are growing so cool that tender plants and flowers are carried in the house at eventide to preserve them from frost which is nightly expected.

—One of the greatest corn crops for years is now being cut and cared for. Feed should be cheaper and more plentiful this winter than it has for years past.

—Peterson & Son and John Brandser are among the latest to have nice cement walks put down in place of the old ones in front of their places of business.

—Delano High School will be represented this winter at the University of Minnesota by Miss Grace O'Hair, Ed Freeman and Samuel Coffin in the literary department and by John J. Catlin in the Medical Department.

—The Delano High School opened Tuesday, Monday being Labor Day, with half the corps of teachers in their places, the rest not having complied with the requirements, in the eyes of the powers that be, sufficiently to secure contacts.

—Theodore D. Strauch has moved with his family into his new residence on South Third Street. It seems to be growing fashionable for farmers grown old, to turn over to the younger people the care of the acres, while they come to town to live more comfortable.

—Delanoites interested in the 13th Reg. Minn. Vol. are pleased to learn from a telegram to Gov. Clough from Col. Reeve that the 13th is exceptionally healthy and not in need of doctors or nurses, They, so far, seem to have been the luckiest regiment from this state.

—Coal is being unloaded here for those who use it, and others begin to look about for wood. Nights and some of the days are so cold as to necessitate keeping up fires to be comfortable. If we have to fire from September to June it will be about nine months. Yet a part of the time is quite fine.

—During the hot days of last week three plants from the seeds of Papaya sent from Honolulu by Alva Catlin and planted by his aunt Mary came up, these with the one Mrs. A. W. Wittman is nursing make four in town. If they grow as large as A. W. says they do in their native clime these will make quite a forest.

—The Examining Board of the Delano High school was made complete by the substitution of A. F. Corey for F. H. Lindsley resigned, at the Saturday evening meeting. And the vacancy caused by the resignation of A. L. Mealey was filled by electing A. E. Johnson a member of the Board of Education.

—Quite a number of our citizens bought tickets at reduced rates as advertised by small posters in the Postoffice, on Jim Hill's railroad to the state fair and other city attractions this week and stood up while riding to the City, that is we suppose they did as the train was crowded to overflowing when they took passage.

—We have on hand for distribution a few copies of Hon. Charles A. Towne's speech on the financial question, delivered at Seattle, Washington, on the 19th of last March. Also a few of his "Silver Restoration" speeches made in the House of Representatives, Saturbay, Febuary 8, 1896. These speeches are authority on the financial situation of the country in which we are all interested. Call and get one free.

—Numerous hunters and dogs are now busy hunting for the game birds farmers have raised and fed on their farms. It does look as if a farmer should be entitled to what he feeds on his farm, and as if men and dogs from the cities ought at least to pay a fair price per head for all the game they shoot; also to pay for damage done in running over premises. Quails are about half grown, and ought to be let alone yet awhile.

—The agitation in favor of law and order that has been so vigorously waged lately has begun to bear fruit. The Saloon keepers were out enjoying a quiet walk Sunday afternoon, while people were commenting on the unusually quiet Sunday in town. The most noise going on was over the question of whether the Teachers Examining Board should be useful, or as heretofore, for several years, purely ornamental. The useful idea seemed to be in most favor. Let law and order prevail.

—Delano has been dreadfully torn up over the hiring of teachers this week. The old board neglected to have an Examining Board examine the teachers as the law requires. And engaged teachers for the year. And the new board appointed an Examining Board and asked the teachers ot furnish evidence of their qualifications before contracts would be made. The Treasurer promised to secure a copy of the school laws and pay out money only as provided for there; this would prohibit his paying teachers who had not secured contracts according to law, unless he laid himself liable to be obliged to refund into the Treasury twice the amount illegally paid out. New boards and not the old ones should hire teachers. And all teachers should comply with the repuirements of law when they go to terch.

—A good soaking rain Monday night was highly acceptable to farmers who can now do their fall plowing much more comfortably.

—The Stars and stripes now float gaily over the Delano High school once more; the flag staff and tackle having been put in order. This is as it should be.

—Boys of the 15th Reg. going home for a short visit yesterday, while the train stopped shook hands with acquaintances and said the Reg. expects to leave Tuesday, for Pennsylvania.

—While attending the Fair call on Peterson & Son, for groceries, finest, newest and best in the market. Also for shoes of every variety. Opposite the City Hall. Double Store. Good trades. Call on us.

—M. J. Stone has employed Mat Tompers, of Long Lake, to assist him in his blacksmith shop. It will seem kind of natural to see Mat in the old shop again. Stone and Tompers will be a full team shoeing.

—Farmers have on hand a fine lot of wheat. The banks of the country are said to be full of gold. The farmers would like to sell some of the wheat for gold but can't. Why is it? Is it because we are trying to do business on the gold standard plan?

—The musical entertainment by Prof. Theodore Gravert, under the auspices of the Ladies Quartette given at the City Hall Wednesday evening was well attended and enjoyed by all. Prof. Gravert is a fine violinist and the home talent did their parts well. Some disappointment was had by the Ladies Quartette not being on the programme for a number or two.

—John Catlin has left to attend the University where he expects to take a medical course. He is at present employed in the printing office of the University Press, the school term in the medical department not commencing until October. John is one of Delano's brightest boys and there is little doubt that he will make a faithful student and make his way in the world.—Delano Eagle.

—In a recent number of State Notes of the Y. M. C. A. of Minnesota Army Number, we read of the work done at the camp, among the soldiers. At Camp Ramsey a large room, well furnished with reading matter and writing material was kept open for and well patronized by the boys. The Y. M. C. A. is interested in the soldiers and has workers in every camp, even has two men at Manila. The society is entitled to the help and deserves the encouragement of all.

—The Catholic Foresters have organized in Delano by electing officers as follows:

C. R. J. E. Borsch.
V. C. R. John Schaust.
P. C. R. G. E. Schmid.
R. S. L. P. Probst.
F. S. F. G. Schaffer.
O. S. F. Speckel.
I. S. I. Eppel.
J. C. J. Brenner.
S. C. John Steffes.
S. D. Rev. M. Saye.
T. S. Weldele.
Trustees { A. Sieloff, J. Stein, V. Eppel.
D. H. C. R. John Tischler.

Dr. T. J. Catlin, has been commissioned Medical Examiner for Delano Court.

The Foresters is a secret society and insurance company. They have engaged the K. P. hall and will meet the 1st and 3d Tuesdays of every month.

Personal.

John E Borsch, visited Twinelte, Thursday.

Miss Hattie Gross came home from St. Paul Saturday.

W. H. Frazee and C. F. Herman visited the cities yesterday.

W. J. Dannehr sent some of his family to the State Fair Thursday.

William T. Ziebarth and family of Herman visited his old home this week.

Dr. E. Y. Chilton, of Howard Lake, visited Delano professionally, Tuesday.

Miss. Anna Probst, of Denver, is visiting with her brother Louis and family.

Nels Sandberg, of Glenville, came home for a visit with the family, and others.

Mat Tompers, Long Lake's sturdy blacksmith spent Sunday with Delano friends.

Rev. Mr. Penny, of Minneapolis, preached Sunday afternoon at the Presbyterian church.

Seargent Geore Washington, of Independence, was a business visitor to Delano yesterday.

John Williams, formerly of Independence, an old Mexican pensioner, has moved to Rockford.

Mrs. R. M. Walter and children who have been visiting her sister, in St, Paul, returned home Saturday.

Misses Emma Holstrom, Maud Sherry and Anna Parslow, are visiting friends at Beebe Lake this week.

Misses Arnold and Rudberg drove to Buffalo on the way to Annanale, to visit Superintendent Lee Wednesday.

Miss. Viola Cunningham returned Wednesday evening from a visit with friends and the Exposition at Omaha.

Al Hitzman and threshing crew and outfit are back from the prairie. Al says water was too scarce there.

Mrs. M. J. Mulford and Miss Sadie VanEman who have been spending a short time in St. Paul have returned home.

Mr. and Mrs. John Seyfang, wife and daughter, of Clarence, N. Y. are guests of Mrs. S's. brothe, Dr. J. E. Shrader and family.

John Mossberg, of Minneapolis, visited Delano friends this week. He has lost none of his old time vigor in behalf of Free Silver.

Mrs. P. L. Gross, of Minneapolis, Mrs. C. M. Coffin, of Benson, and Mr. Stephen Lyons, of Wayzata, were in attendance Tuesday at their father's funeral.

Mrs. Hank Ball, on her way to the G. A. R. meeting at Cincinnati passed through town Sunday morning. She left a splendid bouquet for Mrs. Mulford.

Pat. Conway, with his buckthorn cain fresh from Old Ireland landed here last Friday, on his way to Watertown to visit his cousins, the Murphy boys and girls.

Chester Johnson, of Rockford, rode over on a wheel Sunday monring and took the early train east. He said the temperature at Rockford was 48 when he left, but it warmed up considerably by the time he made close connections with the train.

—Some of our subscribers are in arrears on subscriptions. We need money and would be pleased to have them pay up at once.

the GAZETTE.

County Cullings.

Messrs Hanaford, Grant and Larson were in Delano this afternoon looking after political fences.

We hereby acknowledge the receipt of a cordial invitation to attend the 30th Annual Fair of the Wright County Agricultural Society, September 27, 28 and 29 to be held at Howard Lake. W. J. Tousley, President. J. C. Holbrook, Secretary.

Wright county is now a Senatorial district by itself. It is entitled to one Senator and two Members of the Legislature. These should be men capable, qualified and who will help look after the great interests of our state. The way to get good men in the Legislature is for all parties to nominate the best men they have. Then the voters who want good state laws should vote for the best men to make them.

That new editor at Maple Lake is certainly a mono metallist. He, so soon, after suggesting several candidates for office, wants to know: "How would it do to have the county and legislative ticket made up exclusively of the editors of Wright county, with Buckley for Sheriff? What, does he want an office already? Isnt that "brass" for you?

In another item true to the instincts of his supposed advisors he comes right out and offers, "We may make some kind of a trade, but would like boot for Buckley." We have always opposed trading stock being put onto tickets. We want nothing to do with a ticket that is made with a view to trading off with the opposition any part of it. We want an honest ticket, honest principls. An honest election.

This week a general opening up of the fall and winter terms of the Public schools throughout the county have taken place. Each year sees the school laws more closely followed. Those who pay no attention to doing business according to the laws of the land are, as they should be, being relegated to the rear. Teachers are beginning to learn that in order to get any pay from the treasurer they must have a contract that will stand in law, and that in order to secure a contract they must have the required papers or stand an examination. School officers are learning that they can't do things in a haphazzard way, or they may be obliged to refund into the treasury twice the amount they paid out on orders wrongly made. Things educational are assuming a brighter look, and it is to be hoped that Wright county will soon be noted for its liberty loving and law abiding citizens. The school is the proper leader in these matters.

The genial Doctor is worrying himself awfully these fine days for fear he will not be recognized as the democratic leader in this county this fall.—Buffalo Journal.

What objections have you A. Y.? You are at liberty to state them. But when you do, please explain that other conundrum of yours, "Opposition to G. N. influence is now over in this county," With petitions being circulated to induce the man who was turned down for the Republican nomination for Judge because of the alleged obligations he was under to the G. N. influence, to run independent, and to head a ticket of barnacles of various parties or of none, most of whom are known to have long been subject in a greater or less degree to G. N. influence, and to have lived out of the public crib, don't look as if the G. N. influence is now "over" in this county; even though A. Y. has ceased his "opposition" to it. Unless it is all "over" the county.

Commissioners Proceedings.

The board met Aug. 22 in special session of two days.

An order establishing county ditch in Woodland was approved.

The resolution appropriating $200 for Mill Creek hill was rescinded. (This is for only temporary purposes).

Committee was appointed to view proposed county road between Silver Creek and Clearwater towns.

Petition of Charles Pomerank for refunding tax was recommended to State Auditor.

School petitions of H. A. Mattson and Olaf Lundeen granted. Those of Gustaf Dahlin and Henry Erickson rejected because petitioners do not reside on said lands.

Several bills weye allowed.

BORN.

JOHNSON.—On Wednesday, Sept. 7, to Mr. and Mrs. A. E. Johnson, a daughter.

MARRIED.

BLACKETTER, LIGHT.—At the M. E. church in Delano, by Rev J. L. Farber, on Sunday evening, Sept. 4, Mr. O. D. Blacketter and Miss Emma Light, both of Watertown.

DIED.

LYONS.—At the home of his daughter Mrs. L. M. Maxfield, on Monday, Sept. 5, Mr. Alexander Lyons, in his 82nd year.

LITTLE BREECHES.

I don't go much on religion,
I never ain't had no show,
But I've got a middlin tight grip, sir
On the handful of things I know;
I don't pan out on the prophets
And free will and that sort of thing.
But I b'lieve in God and the angels
Ever sence one night last spring.

I came into town with some turnips,
And my little Gabe came along—
No four-year-old in the country
Could beat him for pretty and strong;
Peart and chipper and sassy,
Always ready to swear and fight—
And I'd larnt him to chaw terbacker
Jest to keep his milk teeth white.

The snow came down like a blanket
As I passed by Taggert's store
I went in for a jug of molasses
And left the team at the door.
They scared at something and started,
I heard one little squall,
And hell to split over the prairie
Went team, Little Breeches and all!

Hell to split over the prairie!
I was almost froze with skeer,
But we rousted up some torches
And sarched for 'em far and near.
At last we struck hosses and wagon,
Snowed under a soft white mound,
Upsot dead beat, but of little Gabe
No hide nor hair was found.

And here all hope soured on me
Of my fellow critters' aid.
I jest flopped down on my marrow bones,
Crotch deep in the snow and prayed.
By this the torches was played out,
And me and Isrul Parr
Went off for some wood to a sheepfold
That he said was somewhar thar.

We found it at last and a little shed
Where they shut up the lambs at night.
We looked in and seen them huddled thar,
So warm and sleepy and white,
And thar sot Little Breeches and chirped
As peart as ever you see,
"I want a chaw of terbacker,
And that's what's the matter with me!"

How did he get thar? Angels,
He could never have have walked in that storm!
They just scooped down and toted him
To whar it was safe and warm,
And I think that saving a little child
And bringing him to his own
Is a derned sight better business
Than loafing round the throne!

—John Hay.

DOUBLE STORE.

Opposite the

City Hall.

WANTED—SEVERAL TRUSTWORTHY PERsons in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $900 a year and expenses—definite, bonafide, no more, no less salary. Monthly $75. References. Enclose self-addressed stamped envelope. Herbert E. Hess, Prest., Dept. M, Chicago. 50-26t.

THE SONG OF THE "No. 9."

My dress is of fine polished oak,
As rich as the finest fur cloak,
And for handsome design
You just should see mine—
No. 9, No. 9.

I'm beloved by the poor and the rich,
For both I impartially stitch;
In the cabin I shine,
In the mansion I'm fine—
No. 9, No. 9.

I never get surly nor tired,
With zeal I always am fired;
To hard work I incline,
For rest I ne'er pine—
No. 9, No. 9.

I am easily purchased by all,
With instalments that monthly do fall;
And when I am thine,
Then life is benign—
No. 9, No. 9.

To the Paris Exposition I went,
Upon getting the Grand Prize intent:
I left all behind,
The Grand Prize was mine—
No. 9, No. 9.

At the Universal Exposition of 1889, at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France. This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered—the GRAND PRIZE—giving other companies only gold, silver and bronze medals.

The French government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor—the most prized honor of France.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best it will be your own fault. Ask your sewing machine dealer for the No. 9 Wheeler & Wilcon machine. If he doesn't keep them, write to us for descriptive catalogue and terms. Agents wanted in all unoccupied territory. WHEELER & WILSON MFG. CO. Chicago, Ill.

WEBSTER'S INTERNATIONAL DICTIONARY

Entirely New. Abreast of the Times. A Grand Educator.

Successor of the "Unabridged."

Everybody should own this Dictionary. It answers all questions concerning the history, spelling, pronunciation, and meaning of words.

A Library in Itself. It also gives the often desired information concerning eminent persons; facts concerning the countries, cities, towns, and natural features of the globe; particulars concerning noted fictitious persons and places; translation of foreign quotations. It is invaluable in the house, office, study, and schoolroom.

The One Great Standard Authority.

Hon. D. J. Brewer, Justice of U. S. Supreme Court, writes: "The International Dictionary is the perfection of dictionaries. I commend it to all as the one great standard authority."

Recommended by Every State Superintendent of Schools Now in Office.

A saving of three cents per day for a year will provide more than enough money to purchase a copy of the International. Can you afford to be without it?

Ask your Bookseller about it to you.

THE OLD SNARE DRUM.

It's yourn, my boys, the yaller horn, ter toot it if you will,
But give ter me the old snare drum ter lead the column still;
Aye, bring the war-worn drumsticks back ter roll the reveille:
Go fetch the fife, the same ole fife, the fife that used to be.

An' while the breezes fan aloft the ole red white and blue,
Jes' make the footsteps young again with "Yankee Doodle Doo!"
The same ole drum that led the blue, the same that led the gray—
That sorter cheered us while it soothed the mother's tears away.

Yer bugle may do jes' as well—Old Glory nod as neat—
Yet footsteps seem ter miss somethin' a marchin' down the street.
The ole feet sorter seem ter lag; the head don't soar so high,
An' som'ers in my bosom heaves a humsick kind o' sigh.

Yer might's well call a petticoat the old red, white and blue,
As toot a yaller whistle fer ole "Yankee Doodle Doo"
Then give us back hhe ole-time drum our fathers used to beat,
An' hear that voice o' freedom call our might an' manhood neat.

An' when Ole Glory says "Come on," ter write yer country's scroll,
Jes' give us back the martial drum ter call the battle roll!
Ther's somethin' 'bout the ole long roll that sorter seems ter say:
"Columbia's got her eye on you—her honor's yourn to-day!"

An' when the final call of "taps," "lights out," fer me an' you,
No bugle blare can softly roll the soldier's last tattoo.
The soldier's last tattoo—the van, the soldier's bier,
The rifle song your only hymn, the muffled drum, the rear!

Oh, gratitude! Vague butterfly! Yer hosts endure a day;
Ter "fold their tents like Arabs an' as ligh ly steal away"
Ye heard the drummer's long tattoo, the column's tramp and tread,
Along the path that ends beside the trenches o' the dead!

Then take yer yaller horn, my boys, an' toot it if yer will,
But give ter me the ole snare drum ter lead the column still!

—George E. Powell, in Chicago Inter Ocean.

SOME Republican voters in Minneapolis say they will vote for Eustis as the lesser of two evils. Now isn't that a manifestation of considerable of a lack of enthusiasm for William Henry?

IT took the signatures of a 1st Lieutenedent, 2 Captains a Colonel and 3 Generals, according to Chaplain Clemens, for John Lind to get 8 cents worth of chalk cut down to 4cts worth, issued to him for government use. That's red tape for you.

COL. WILLIAM JENNINGS BRYAN goes with his regiment, the 3 Nebraska to Cuba. Republicans are priding themselves on getting him out of this falls campaign so early. Possibly they are but adding to his laurels by giving him a military reputation.

JOHN LIND seems to be gaining votes daily. Gold Democrats are coming into the fold. Of course they are a little slow to admit that, free silver coinage would not run the country. Aside from this they think John Lind the better man for Governor, and favor a change from the long Republican rule. It makes no difference to John Linds' principles who votes for him. Besides it is hardly to be expected that Governor Lind will order free coinage of silver and dollar wheat the first day after taking his seat at the State Capitol. There are other issues before the people of Minnesota as well as those set out in the platforms of the National parties.

Could people be brought to see their own interests some might vote for Mr. Lind notwithstanding his advocacy of the free coinage of silver. But it looks as if the genuine gold bugs are going to make a strenuous effort to carry the state for every man on the State ticket, and the Judicial ticket, notwithstanding the great satisfaction everywhere expressed with Hon. Thomas Canty, Hon. Daniel Buck and Hon. William Mitchell. As if they would require a pledge from every one of their nominees for State Senator to vote for C. K. Davis this winter, and Knute Nelson in two years from this winter; and from every candidate for member of the House of Representatives to vote for C. K. Davis this winter, and of course that includes a pledge to work teeth and toenail for gold standard wherever opportunity presents.

If you desire to have United States Senators elected by the people you must cease electing Republican State Senators and Representatives pledged to vote for C. K. Davis, Knute Nelson or any other man.

A BIG discussion on finances, was held at the Omaha Exposition this week. Noted orators represented the different phazes of the money question. Among the orators were our Sixth District next Congressman Hon. C. A. Towne of Duluth.

ALVA Eastman of St. Cloud worries considerable because Charles A. Towne won't come to that place and enter into a joint discussion with J. Adam Bede, on his varied plan of fun making for the people. Perhaps Mr. Towne would respond to a call to talk in St. Cloud with the Hon. Alva himself as opponent, the discussion to be confined to locating Insane Asylums. Now don't flunk Alva, you surely know something about that subject.

UNTIL the Peace Commissioners report is made and acted on the war with Spain is not ended. The government refuses to disband any more troops than has already been ordered home. The Oregon and Iowa are to sail for the Pacific coast soon as in repair. Reinforcements are talked of for Admiral Dewey, at Manila. And the Turks are to make satisfactory, as far as possible, amends for their depredations on American Citizens, or some of our vessels are to go over and take satisfaction. Things don't look altogether peacable just yet.

GOV. CLOUGH and Congressman Morris are pulling and hauling at the officials at Washington to have the 14th Reg. discharged at St. Paul or at Duluth. Morris seems to have won the case, then Gov. Clough came in again claiming that the soldiers would get pneumonia and wants them discharged at St. Paul. Duluth people claim that the Gov. favors St. Paul in the interist of St. Paul merchants who might get a few dollars of the soldiers money. The boys should be discharged where the majority of them would be most benefitted, and not where merchants or railroads or any other people would make the most out of them.

Didn't Turn Out.

Minneapolis blames St. Paul for not turning our more numerously to hear Senator Davis, and St. Paul claims that Minneapolis is no place to get up a crowd. But Senator Davis talks to the whole country, not to the Twin cities alone. They are very small part of his audience.—Duluth News Tribune.

Indications each day become stronger that the old Soldiers Anal-Eustis Society in Minneapolis; the people who ride on "vetoed" transferrs, on the street cars; the people acquainted with the hospital deal; those who invested in Garanty Loan business; and those who didn't like "My Policy" have heard all they care to on that line and wouldn't even furnish a crowd to listen to Senator Davis, chairman of the Senate committee on Foreign relations, and a member of the Peace Commisson, for fear they might be contributing to the election of a man not their choice. Any way thats' how it looks when the leading Republican papers get to quarreling over the crowd was so small at the opening of the campaign in Minneapolis, the home town of would-be Governor Eustis, by so eminent an orator as Cushman K Davis. It does, from this small item from a Republican paper, look as if the Democrats knew what they are talking about when they claim that Eustis want carry his own county, nor that of Ramsey either.

The Duluth News Tribune says "But Senator Davis talks to the whole country, not to the twin cities alone. They are a very small part of his audience." It would appear, from the instance under consideration that they were "a very small part of his audience." But about all he had.

And if it is true that Eustis is not going to fool away his money on newspapers already favorable to him, but expects them to publish Mr. Davis opening speech free, and on their own expense, doubtless Mr Davis' audience won't be so very much bigger than what he looked at in Minneapolis after all.

WASHINGTON LETTER.

(Fromour Regular Correspondent.)

WASHINGTON, D. C., Sept. 9, 1898.

Gag the soldiers and whitewash every official is the remarkable policy that has been adopted by the administration in dealing with all complaints made as to hardships caused by mismanagement and inefficiency in providing supplies for the troops. It would hardly have been possible to have adopted a more foolish policy. The mouths of the men can only be stopped while they remain in the service; as soon as they are mustered out they will tell everything they were made to suffer. The idea of those who persuaded Mr. McKinley to adopt such a shortsited policy is to keep the mismanagement of the War Department from figuring in the Congressional Campaign. They think that when Congress meets arrangements can be made to have an investigation of the conduct of the war made by a picked committee that will whitewash everybody and every thing. If the people were all fools and there were no such things as newspapers such a scheme might succeed. McKinley is likely to live to bitterly regret that he did not have every man's complaint investigated and every man punished who was found guilty of having caused unnecessary suffering among the soldiers, instead of allowing himself to be made to assume the role of apologist for and protector of the guilty officials.

Complaints of a serious nature are being made by the privates of many volunteer regiments against their officers, in connection with the failure of regiments to get mustered out when the privates were practically unanimous in their wish to be allowed to return to their civilian occupations. It is claimed that in numerous instances the officers misrepresented the wishes of their men because of their own desire to retain commissions which carry larger salaries than their holders can command elsewhere, not to mention the petty authority they enjoy, which is a source of the greatest pleasure to men of small caliber. It is announced by the War Department that no more regiments will be ordered mustered out except for special reasons, for sometime to come. Under their terms of enlistments the volunteers belong absolutely to the government for years, if the government chooses to keep them that long, and yet the government can muster them out at any time it sees fit to do so.

An oversight of the administration, in not making the terms of peace with Spain include immediate American control of Havana and all other parts of Cuba, will cost a few thousand poor devils, who are unfortunate enough to be residents of Cuba, their lives. Captain General Blanco has prevented the landing of supplies carried to Havana by the Red Cross Society, for free distribution to the needy, although he knows that thousands are on the verge of starvation, and, owing to that oversight of the administration, those who would gladly feed those hungry Cubans and Spaniards must bow to the inhuman will of Blanco. The best that the administration could do was to announce that food for the poor would be admitted free of all duty or prescriptions at all Cuban ports that are under our control, which means Santiago, and several smaller places.

Senator Burrows, of Mich., came to Washington with his war paint on this week. He came for the purpose of compelling the administration to either keep out of the Senatorial fight in his state or to fight out in the open, and he is said to have given Mr. McKinley and Secretary Alger to understand that he did not care a continental what the administration did, further than to know it. The idea seems to have got out among Pingree's friends that Alger, backed by the administration, was encouraging Pingree'c fight on Burrows; also in Washington. Busrows says he secured positive denials from both McKinley and Alger, but his manner leaves one to suppose that he still entertains doubts. It seems that the democrats of Michigan ought to be able to take advantage of the Burrows-Pingree fight to elect a majority of the legislature and secure the Senator.

Some of the defenders of the War Department system of doing things should bump themselves for a while and explain how it was possible under such a perfect system that an entire regiment of troops the Thirty-second Michigan was absolutely lost, so far as the War Department knew, for several days, and was only found after spending a goodly sum in telegraph tolls.

Among Our Exchanges.

Globe: Ignatius Donnelly has two whole years in which to run for the vice presidency. If he can't win out in that time, what sort of a handicap does he expect?

Buffalo Journal: At the Republican legislative convention held last week at Sauk Centre, Sterns Co., resolutions were adopted in favor of Senators Davis and Nelson and Governor Clough, but there was not a whimper about Page Morris. Why was this thus?

The Zanesville Incident.

The worm when trodden upon will turn, and the patient, long-suffering American worm has finally turned on his deadly oppressor, the politician armed with his campaign speech.

It was at Zanesville, O., at the Muskingum County Fair and Gen Grosvenor, the "spokesman of the Administration," a statesman who can and does speak in Congress, and who can does fill pages of Congressional Record with speeches spoken and unspoken, was on hand to divert the bucolic happiness of the county fair to his political uses. But the people would have none of him. For once the meek American arose against the haughty oppressor and hustled him away in ignominy.

Such an incident is full of hope for a better future. If we can keep politics out of our county fairs we may succeed in keeping politics out of school matters and city governments and army management and other public departments where its influence is always a pernicious one.

What a different story we should have had to tell of the treatment of our soldiers if we had kept politics out of the war as successfully as the people of Zanesville kept it out of the county fair!—World.

WANTED—SEVERAL TRUSTWORTHY PERSONS in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $900 a year and expenses—definite, bonafide, no more, no less salary. Monthly $75. References. Enclose self addressed stamped envelope. Herbert E Hess, Prest., Dept. M, Chicago. 50 25t

Maple Plain.

MAPLE PLAIN, Minn., Sept. 13, 1898.

It was a superstitious notion among many people for centuries that the world was flat like a pancake and revolved on its axes like a cart wheel; but since the war with Spain everybody has found out that the earth is round. So when all those islands of the sea are dovetailed into the United States there will be no danger of upsetting us.

When it comes to war the people of the United States never know defeat, and we have never lowered our flag for any nation on earth, and never will. The war with Spain was a quick one. As for the President he did well, and we believe he meant well. But, it appears from the papers of both parties that some of his subordinates have made many blunders in supplying the army with medicine and provision and the guilty parties should be punished for neglect of duty. But it has always been a question in my mind whether or not the boodlers of this country did not want this war more for conquest and the spoils thereof than for revenge or for humanity. A part of those islands are all right; but I can't see what we can do with the inhabitants unless the United States starts a zoological garden or a monkey show; and yet the enterprise might not be self-sustaining.

A commission has been appointed by the President to confer with a like commission in the interests of Spain to see if they can properly adjust matters. Whatever the outcome may be we have no fear that Spain will again put on the war paint and buckle on the helmet and shield to fight the United States. With them this war was more than an ordinary bull fight. War, pestilance and famine are the three greatest evils that can befall a nation; unless it is a single gold standard.

We have a big country and a good one, and if things are properly managed there is no reason why every man in the United States should not sit under his own vine and fig tree. When Columbus discovered this country he did not know there was so much daylight west of him; but this country lent marvelous attractions to the people of the old world and emigration followed in, until we have a continent extending from ocean to ocean unsurpassed by any in the world. Our resources are immense, and our fields produce food for the people of the world. The smoke from our navy and the tread of our army strikes terror to the rest of the civilized world. What more do we need? Less of self and more of grace which will cause us to bow the knee at the shrine of our fathers. The old proverb says: "The love of money is the root of all evil", and many of our people are acquiring the love of money making. Some want it to hoard up and others want it so as to make a display, sail high for a few years and then fall flat leaving their creditors to hold the bag.

Some people have made money making a hobby. "When the Gods showered humanity with blessings, one of the of the biggest in the bunch struck the man with a hobby."

I see in a recent paper that a Milwaukee Brewing Co sent a consignment of 67 car loads of bottled beer- 489,600 bottles--to Manilla. It is claimed this is to civilize the insurgents. Pretty soon some syndicate will want to send a shipload or two of missionaries there to convert that monkey race of people and will ask the United States to pay the freight. This might be good policy in some ways; but will come hard on the dear people with the present price of produce, high taxes and high salaried officers We have about all we can do to pay our own bills and keep out of the poorhouse. Our wheat should bring 75 cents or $1 00 a bu. There is no over production of wheat take it the world over; but those who speculate in wheat have it all their own way. They make it up or down just as they want it. The producer and the laborer must furnish the wealth of the world.

County politics has not blossomed yet, but it will soon be time for brass bands and torchlight processions. Many of the Republicans are very enthusiastic about William Henry and think he is sure to be elected. It must be remembered that our governor has quite an appoting power; and as one side has been sucking the teat for 40 years, it would be only fair to give the other side a smack at it for a while.

PATENTS
Caveats, and Trade Marks obtained, and all Patent business transacted for Moderate Fees.
Our Office is opposite the U. S. Patent Office, and we can secure patents in less time than those remote from Washington.
Send model, drawing or photo., with description. We advise, if patentable or not, free of charge. Our fee not due till patent is secured.
A Pamphlet, "How to obtain Patents," with names of actual clients in your State, county, or town, sent free. Address,
C. A. SNOW & CO.
Opposite Patent Office, Washington, D. C.

From Manilla.

Jenner Chance wrote home from Manila to his mother quite a lengthy and interesting letter, from which we publish a few extracts:

"We left Honolulu on Friday, and the same farwell sendoff was given us there as at Frisco. Honolulu is the grandest spot on earth and it has been rightly called the "Garden of Eden" They have summer there most of the year round and the temperature ranges from 80 to 90 all the time. The nights are cool a blanket being used. The people are truly grand."

"The sights of the country are grand. The island rises abruptly out of the ocean and it is a grand sight after eight or nine days sailing, seeing nothing but water, water, on all sides, to come suddenly upon towering mountains, beautiful valleys extensive volcanoes with their cracked sides, in plain view; where years ago, rivers of molten fire rained down their sides and the whole now covered by the most wonderful tropical foliage and vegetation of an eternal summer."

"The 13th Minn. took the city by storm and all the boys fairly outdid themselves in endeavoring to be soldiers, and so left a record that will be hard to beat."

"All the home boys are as happy as larks and we sit hours talking what we will do when we get back home. Want it be a sight for the "Gods" to see us on Decoration Day walking up the street with G. A. R. with a badge "Veteran of the Philippines."

Jenner says he landed Aug. 2. with the sick at Cavite. Later he says he is going back to the field hospital, and excepts a fight soon. His last note was dated Aug. 6, at the hostpital at Cavite. He says "If I could only hear from home" "The only tough thing about this is the feed and rain, rain, all the time. No wonder the Pacific is so large.

Notice.

All persons indebted to me on account will take notice that I must have some money. Crops are good. I have waited in many instances a long time, and now must be paid. Unless prompt attention is given to this notice you may expect a collector to call for a settlement soon. Call and settle and oblige.

Yours Respectfully,
T. J. CATLIN, M. D.
DELANO, Minn., Aug. 19, 1898.

HOW A PUZZLL WAS SOLVED.

When you want a certain article, you want the best make of that article, don't you?
But how to determine which make is best is what puzzles you, isn't it?
And when the puzzle is solved for you, by authority which cannot be questioned, you are pleased, aren't you?
And you would like to hear of one puzzle that has been solved for the people of the whole world, wouldn't you?
Well, we will tell you about that very puzzle, and its solution.
At the Universal Exposition of 1889 at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France.
This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered, the GRAND PRIZE, giving other companies only gold, silver and bronze medals.
The French Government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor, the most prized honor of France.
That is how the puzzle of the best sewing machine in the world was fully solved by the most competent authority in the world in favor of the No. 9 and No. 12 Wheeler & Wilson machines.
The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.
And now, when you want a sewing machine, if you do not get the best, it will be your own fault.
Ask your sewing machine dealer for the No. 9 Wheeler & Wilson machine, and if he does not keep them, write to us for descriptive catalogue, prices and terms.
Agents wanted in all unoccupied territory.
WHEELER & WILSON MFG. CO.,
165 and 167 Wabash Avenue, Chicago, Ill.

Republican County Convention.

Primary Election.

A Republican County Convention for the County of Wright and State of Minnesota will be held in the Court House in the Village of Buffalo in said County, on Saturday the 24th day of September, 1898, at 11 o'clock A. M. for the purpose of placing in nomination candidates for the following named county offices of said county, viz:—Auditor, Treasurer, Sheriff, Register of Deeds, Judge of Probate, County Attorney, Superintendent of Schools, Surveyor, Coroner, also County Commissioners for the second and fourth Commissioner Districts.

And also for the purpose of placing in nomination candidates for the following named offices in the Forty sixth Legislative District of the State of Minnesota, viz:—One Senator and Two Representatives.

A Primary election in each election district in said County, to elect, delegates to said County Convention, will be held in each election precinct in said County on Thursday the 22nd day of September, 1898, commencing at 7 o'clock P. M. and continuing one hour, at a place to be designated by the respective precint committee.

The several election districts in said Wright County, Minnesota, are entitled to representation in said County Convention, as follows:—

Albion,	5	Silver Creek,	4
Buffalo,	4	South Side,	4
Chatham	2	Stockholm,	7
Clearwater,	4	Victor,	4
Cokato,	7	Woodland,	3
Corinna,	3	Villages—	
Frankfort,	2	Annandale,	3
Franklin,	4	Buffalo,	4
French Lake,	6	Cokato,	3
Maple Lake,	2	Delano,	4
Marysville,	4	Howard Lake,	4
Middleville,	5	Maple Lake,	1
Monticello,	5	Monticello,	4
Otsego,	3	Montrose,	2
Rockford	6	Waverly,	2

Dated at Buffalo, Minn. August 27th 1898.

By order of the County and Legislative Committees, George C. Carpenter. Chairman of the County Committee, Wm. E. Culkin, Chairman of the County Legislative Committe. 49, 3t.

On the day the peace protocol was signed the flag went up over Hawaii, though Uncle Sam was not aware of it. It takes time in these days to hear from all our national interests.

Longwood, Bonaparte's house at St. Helena, is now a barn; the room in which he died is a stable; on the site of his grave is a machine for grinding corn.

"There was never yet a family with an old maid belonging to it," observed Rev. Anna Shaw in a recent address, "that didn't rely upon that old maid to help it out of all financial difficulty —past, present and future."

Joseph Jefferson not long ago wrote a check for two dollars upon a piece of birch bark in the mountains because he had no paper with him. The bank which cashed the check now has it framed and hanging on the wall.

British India, the best-known large area in the torrid zone, embraces tropical islands and hot plains as well as the snow-covered peaks of the Himalayas, and contains the region of the greatest annual rainfall, 600 inches, with arid sands where rain is sometimes unknown for years in succession.

President Kruger is reported to believe that the world is as flat as a pancake. When Joshua Slocum, who is making the grand tour in an eight-ton boat, ran up to Pretoria for an interview with the head of the Boer government he observed that he was voyaging around the world. "You mean across the world," said Oom Paul.

A traveler who has just returned from Athens says that the Greeks, who, not so long ago, were shouting their favorite cry of "Down with the king! Out with his right eye!" have now returned to the most extravagant loyalty, and King George has never enjoyed so much popularity since he came to the throne.

When Havana sent its first cargo of tobacco and cigars to New York the other day it inaugurated a new era in Cuban-American commerce. That cargo will soon be followed by others, not only of tobacco, but of sugar, lumber, tropical fruits and all the varied products of the rich island. It will not be long before that single steamer has grown to a fleet, every ship of which will be heavily laden both going and coming.

Admiral Cervera stated to a friend in Annapolis, Md., that before hostilities began between his country and the United States he warned his countrymen that their ships could not stand up against the ships of the United States; that torpedo boats and torpedo boat destroyers, nor any other kind of vessel, would be of any avail; that the United States would wipe the Spanish navy out of existence.

In all wars the deaths by disease exceed those from wounds received in battle. The best authorities state that in our civil war twice as many union soldiers died of disease as were killed in battle or died consequently of wounds. In the recent war the liability of troops to disease was increased by the fact that the war began in the spring and had to be prosecuted during the summer in a tropical climate.

Russia is tugging away in an effort to wrench off the head of the flowery kingdom; Germany and France are each pulling one of its legs; England has her surgical case open and her sleeves rolled up preparing to cut off and appropriate the trunk, while little Japan is buzzing around, waiting expectantly for an arm, a finger, a foot or the pigtail, which may be thrown into the grabbag or upon the ash heap by the dismembering powers.

These are the days that try the souls of the makers of American maps. All the maps made in the part of 1898 just ended purporting to show the extent of the United States domain will be almost as antiquated 12 months hence as were the old French maps of North America at the close of the Seven Years' war in 1763, or as the British maps of George III.'s early days became after the war of American independence. American territory is expanding, and what the next few years may have in store for us in territorial acquisition no one can foretell.

The London Saturday Review, always unfriendly to the United States, quite overdoes the thing in its latest attack on the country and people. It admits that there are "many worthy private persons in the United States," but says: "Socially it is sordid to the last degree; its courts of law and all its civil institutions are corrupt; it has contributed nothing to the self-respect of humanity." No intelligent Englishman will indorse such blackguard abuse of a country which has given as many evidences of political health and social advancement as has Great Britain.

Holland's youthful queen has begun her reign. Wilhelmina is the only child of the late King William III. The death of William Alexander Charles Frederick, Prince of Orange, in June, 1884, left her, then a little child, the heiress of the crown of the Netherlands. Wilhelmina, by the provisions of the Dutch constitution, ascends the throne, but does not inherit the ducal crown of Luxemburg belonging to her father. The young queen rules over a small country, but one great as a defender of human rights and liberties. May she reign long and prosperously.

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

While bathing at Montauk Point, L. I., Thomas H. Wheeler, son of Gen. Joseph Wheeler, and Second Lieut. Newton D. Kirkpatrick, First cavalry, were drowned.

The war department has decided to dispatch 7,000 more troops to Manila, owing to the danger of war with the Philippine insurgents.

The secretary of war left Washington to make an inspection of a number of the army camps, and will go as far south as Jacksonville, Fla., before returning to Washington.

Secretary of War Alger has requested the president to order a thorough and searching investigation of the war department, and in this request the secretary has been joined by Gen. Corbin.

Three Filipinos, appointed by Aguinaldo, have left Hong-Kong in order to confer with President McKinley upon the future of the Philippine islands.

The president has decided to appoint a commission to investigate the war department. Maj. Gen. Schofield and ex-Senator John B. Gordon, of Georgia, have been asked to accept places upon the commission.

The president has named Senator George Gray, of Delaware, as the fifth member of the peace delegates, thus completing the personnel of the commission.

Manila advices were to the effect that Admiral Dewey considers the situation there as critical, Aguinaldo's exasperating conduct calling for the most careful management of affairs by the American commanders.

The president has decided that the Forty-ninth and Fiftieth Iowa regiments are needed and will be kept in the service.

Secretary Alger, before leaving Washington to inspect the army camps, directed an order to be issued that instead of the regular allowance of ten dollars for the burial of a soldier $35 shall be allowed, and the remains transported home at the government's expense.

About 50 Spanish prisoners, captured at the naval battle on July 3 off Santiago de Cuba, were put aboard an Anchor line boat in New York and sent back to Spain.

Capt. Gen. Blanco has appealed to his government for funds, representing that the situation in Cuba is most distressing, and 30,000,000 pesetas were granted.

The attitude of insurgent leaders in the vicinity of Manila has caused uneasiness and a feeling of insecurity among residents, and the troops are kept under arms day and night.

Except Gen. Pareja, his staff and 80 men, who are very sick, the last of the Spanish prisoners at Guantanamo, Cuba, have sailed for home.

Orders have been issued by Gen. Miles directing that Camp Wikoff be broken as soon as possible.

In the hall of the Colonial parliament in Havana the American and Spanish commissioners held their first conference. The proceedings were private.

THE EAST.

In the seven days ended on the 9th there were 164 business failures in the United States, against 179 the week previous and 215 in the corresponding period of 1897.

Leading commercial agencies report the volume of business to be unprecedentedly large and the outlook for fall trade very encouraging.

Flames destroyed the entire business portion of Livermore, Me.

Col. Theodore Roosevelt will accept the nomination for governor of New York should it be tendered him by the republican convention.

In the National league the percentages of the baseball clubs for the week ended on the 12th were: Boston, .653; Cincinnati, .627; Baltimore, .619; Cleveland, .579; Chicago, .552; New York, .541; Philadelphia, .504; Pittsburgh, .500; Louisville, .433; Brooklyn, .397; Washington, .326; St. Louis, .268.

WEST AND SOUTH.

Republicans in the Twelfth (Mich.) district nominated Carl Shelden for congress.

Francis G. Newlands was nominated for congress and P. Sadler for governor in the silver party convention at Reno, Nev.

Illinois naval reserves to the number of 500 and the Seventh Illinois regiment arrived in Chicago and were given a most enthusiastic welcome as they marched through the streets to their quarters.

The thirty-second encampment of the G. A. R. came to a close at Cincinnati, after completing the election of officers and adopting resolutions in praise of President McKinley and Secretary of War Alger.

Democrats of Colorado in state convention rejected fusion with the silver party unanimously and nominated a state ticket from congressman down.

A divorce was granted Gen. Cassius M. Clay from his girl-wife, Dora Richardson Clay, by Judge Scott, of the Madison county (Ky.) circuit court.

Honolulu advices were to the effect that the Hawaiian commissioners had decided upon the name of "Territory of Hawaii" as the name hereafter to be used to designate the islands.

At a hotel in Denver W. H. Lawrence, of Cleveland, O., was shot and mortally wounded by a woman named Florence Richardson. The woman then shot herself in the heart, dying almost instantly.

Sarah Ann Gray died at Hamilton, Ill., aged 101 years.

Ezekiel Lazetti killed his wife at Wyandotte, Mich., and then killed himself. Jealousy was the cause.

Fire wiped out the town of Jerome, Ariz., entailing a loss of over $1,000,000 in property. Eleven bodies had been recovered, while a score or more were in the ruins.

James McCrau, James W. Watson, Ben Michaels, Sr., and Joseph Michaels, Jr., killed each other at Dry Ridge, Ky., in a fight over fences.

The oldest man in Michigan, Henry Banks, celebrated his one hundred and fifth birthday at Bangor.

Flames at Red Bluff, Cal., destroyed a block of fine buildings in the town, entailing a loss of more than $100,000.

A prominent woman suffragist, Mrs. Eli Potter, was robbed of $10,000 by highwaymen in the outskirts of Kansas City, Kan.

In a jealous rage Jesse Badgerow, a farmer living near Grand Rapids, Mich., killed his wife and fatally stabbed her sister, Miss Aylesworth, after which he committed suicide.

Fire destroyed the Masonic temple at Washington Court House, O., the loss being over $100,000.

FOREIGN INTELLIGENCE.

In London a committee of the Anglo-American league presented United States Ambassador Hay with an address congratulating him upon his acceptance of the portfolio of secretary of state at Washington.

At the election in Guatemala 300 people were killed in riots at the polls.

Louis Sass and Carl Smith, two of Chicago's well-known newspaper men, were drowned at the head of the Saguenay river, in the province of Quebec, Can.

At Geneva, Switzerland, Elizabeth Amelia Eugenia, empress of Austria and queen of Hungary, was assassinated as she was walking from the Hotel Beaurivage, where she had been at luncheon, to the steamboat dock. Her murderer, who is an Italian anarchist, was arrested shortly after he committed the crime.

LATER NEWS.

A dispatch from Candia, Island of Crete, says: "About 600 men, women and children were either burned or massacred last week. The Turkish are now patroling and blocking up the streets. The Mussulmans are ransacking the ruins of the burned quarters of the town, where the devastation is complete. Blood is visible everywhere. Such bodies of the slain as were not burned were removed in parts and buried outside the town limits."

A train on the Texas & Pacific was wrecked by running into a washout near Texarkana, Tex., and several lives were lost.

The state election in Maine resulted in the success of the full republican ticket, by a majority of over 20,000.

Aside from the loss of her colonies and ships destroyed in battle, the war has cost Spain about $374,800,000.

Private E. A. Callaghan was shot and killed by a policeman at Galveston, Tex., while resisting arrest.

Three hundred men are to be enlisted at the San Francisco naval recruiting station to supply vacancies in Dewey's fleet.

News from St. Michael, Alaska, brings confirmation of the loss of the steamer Jessie, with 18 lives, at the mouth of the Kuskowill river, in July. The passengers of the Jessie were known as the Columbia Exploration company.

Admiral Dewey reports the situation at Manilla as critical. It is understood he has asked for an additional cruiser and a battleship. The whole island of Luzon is in the hands of the insurgents, except at Manilla and Cavite.

The Citizens' Union of New York city has indorsed the independent state ticket headed by Theodore Roosevelt for governor.

Rear Admiral General Noel, commander of the British naval forces in Cretan waters, issued an ultimatum to to Edhem Pasha, the Turkish military governor of Crete, demanding that within 48 hours he should deliver up the ring-leaders of the recent outbreak and massacre, surrender the fort and ramparts defending the town, and disarm the Mussulman troops.

Senor Arellano, the Philipino lawyer, declined Aguinaldo's offer of the presidency of the Philipine government on the ground that the later himself, as the military leader, was qualified for the post. On being asked to reconsider his decision, Senator Arellano suggested the advisability of awaiting the result of the Paris conference, declaring that if independence were granted his services would be at the disposal of the nation.

The following was received at the war department the 13th: The number of sick among the troops in Porto Rico, 1,886—about 18 per cent—177 typhoid, 447 malaria, 1,262 other diseases. Investigation of two deaths at Ponce have been removed to camps. Gen. Henry has taken precution to prevent disease spreading.

The assassin of Empress Elizabeth will be tried next month.

Nat Goodwin, the actor, while out riding in the country near Woolrich, England, was thrown from his horse and badly injured.

The Third Nebraska regiment, Col. Wm. J. Bryan, will be ordered to Cuba for garrison duty.

Fourteen postal clerks have left New York to fill positions in the service in Porto Rico.

It has been semi-officially announced that the reports of the attempted assassination of Queen Wilhelmina and the shooting of Countess Limburg Stirum are entirely without foundation.

Three persons were killed and several badly injured at Wichita, Kan., by a passenger train striking a carryall containing 13 persons on their way to a show.

Adopt the Peace Protocol.

Madrid, Sept. 13.—The chamber of deputies today adopted the Hispano-American protocol by a vote of 151 to 48, after considering it in secret session.

The republicans, Carlists and dissenting conservatives were absent.

The president, Marquis Vega d'Armijo, called Senor Uria to order for intimating that General Primo de Rivera had enriched himself at the expense of the treasury.

MARKETS.

Minneapolis, Sept. 13.

Wheat—No. 1 northern, 62 to 63¾c. No. 2 northern, 58 to 60c; Sept. 60¾c.

Oats—No. 3 white 22 to 23c.

Corn—No. 3 30c.

Cattle—Steers, $3.80 to 4.20, cows, $3.25.

Sheep—Muttons, $4.10 to 4.25 lambs, $5.25.

Butter—Creamery, extras, 17 to 18c; creamery, firsts 16 to 17c; dairy, fancy, 14 to 15.

Poultry—Turkeys, 7 to 8c; spring chickens, 7 to 8c.

AN EMPRESS SLAIN.

Elizabeth of Austria Dies by an Assassin's Hand.

Tragedy Occurs at Geneva, Switzerland — The Murderer, Who Is an Italian Amarchist, Is Caught —The Late Empress.

Geneva, Switzerland, Sept. 12.—Elizabeth Amelia Eugenie, empress of Austria and queen of Hungary, was assassinated at two o'clock Saturday afternoon as she was walking from the Hotel Beaurivage, where she had been at luncheon, to the steamboat dock. She intended taking a steamer to the

EMPRESS ELIZABETH OF AUSTRIA.

Castle Chillon, at Territet, and was accompanied only by the ladies of her suite. As the empress was passing the Brunswick monument a rough-looking man rushed at her and struck her a blow in the chest, which knocked her to the ground. The ladies with her picked her up and carried her to the boat, while her assailant ran away. The empress was carried on a litter to the hotel. A physician and the mayor were called and everything possible was done to restore her majesty, but she breathed her last at three o'clock without regaining consciousness.

Stabbed with a File.

A more careful examination was now made and it was discovered that the empress had been stabbed to the heart with a stiletto apparently made from a triangular file. An autopsy showed that the lung as well as the heart was pierced. After striking his death blow the assassin ran along the Rue Alps, but was caught by two men, who handed him over to a gendarme. He proved to be Luigi Laochini, an

FRANCIS JOSEPH.
(Emperor of Austria.)

Italian anarchist from Paris. When arrested he said: "I have struck well. She must be dead. I came to Geneva purposely to assassinate her." The empress had been staying at Montcaux, near Geneva. Her majesty was visiting Geneva for pleasure, accompanied only by her suite.

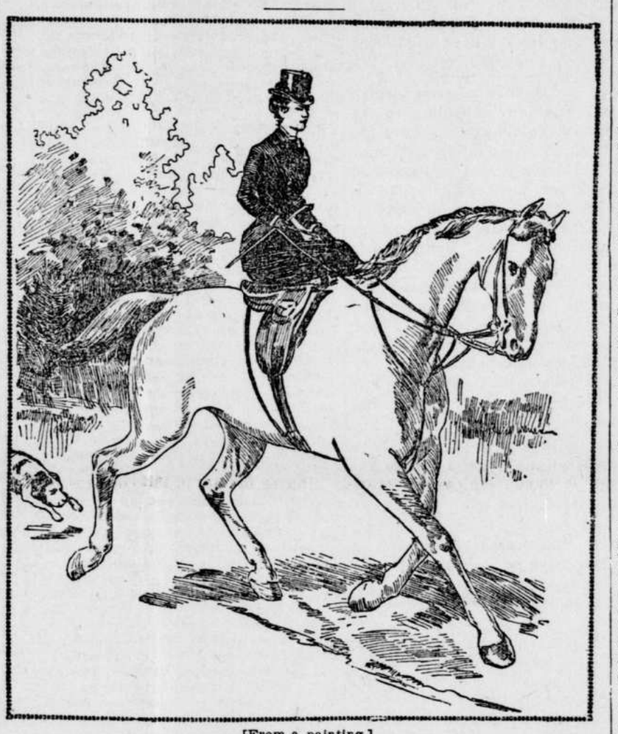
After the Duc d' Orleans.

The assassin while being interrogated by the magistrate said he came to Geneva with the intention of killing Duc d'Orleans, but the latter had already left. Loachini followed the duke to Evian, about 25 miles northeast of Geneva, on the lake, where he was again unsuccessful. He then returned to Geneva and learned from the papers the presence of the Austrian empress.

The Late Empress.

[The empress of Austria was born December 24, 1837. She was a daughter of Duke Maximilian of Bavaria, and was married to Francis Joseph, emperor of Austria and king of Hungary, April 24, 1854. They had three children, Archduchess Gisela, who is married to Prince Luitpold, of Bavaria; Archduke Rudolph, who married Princess Stephanie of Belgium, and who was (seemingly) assassinated in 1889, and Archduchess Maria Valeria, who married Archduke Franz Salvator, of Austria-Tuscany. The late empress was an enthusiastic horsewoman.]

THE ASSASSINATED EMPRESS OF AUSTRIA AT HER FAVORITE SPORT.



[From a painting.]

The empress was noted as one of the best horsewomen among European royalty. She was fond of hunting, and the picture shows her on the chase.

GRIEF AT VIENNA.

News of the Empress' Death Overpowers the People—Terrible Shock to the Emperor.

Vienna, Sept. 12. — The news of the assassination of the empress became known here shortly after six o'clock Saturday evening. It spread like lightning. Extra editions were issued by all the papers. Many Viennese considered the report incredible, until the semi-official Weiner Abendpost appeared, confirming the statements of the other papers. All the papers accompanied the announcement with warm tributes to the empress. An incredible grief overpowers the people. The performances at the court theaters and the jubilee exhibition have been canceled.

The emperor's fortitude is the topic of universal admiration. He is bearing up manfully despite the terrible shock, which, in view of his age, had inspired the greatest apprehension. Although at first stunned and then slightly hysterical, he soon regained his self-control, and displayed remarkable calmness. Occasionally, however, completely overpowered by his grief, he moaned piteously, repeatedly sobbing the name of the empress.

Hundreds of dispatches of condolence have arrived at the palace, from all parts of the world, testifying to profound horror and sympathy. Among them are messages from President McKinley, from Emperor William and from nearly all the European sovereigns. The court will go into mourning for six months.

Berne, Switzerland, Sept. 12. — The president of Switzerland and other members of the government were stunned with horror and grief when the news reached the palace that the empress, so beloved by all Europeans, had fallen a victim to an assassin within the borders of their country. They immediately arranged to hold an extraordinary federal council on Sunday morning in order to consider the measures to take against the assassin. The latter must be tried according to the statutes in the canton in which the crime was committed, which forbid capital punishment and make life imprisonment the most severe penalty which can be imposed.

The Massacre at Candia.

London, Sept. 13.—The correspondent of the Times at Candia, Island of Crete, who has just landed after five days in the roadstead, says: About 600 men, women and children were either burned alive or massacred in the outbreak last week. The Turkish troops are now patrolling and blocking up the streets. The Mussulmans are ransacking the ruins of the burned quarters of the town where the devastation is complete. Blood is visible everywhere. Such bodies of the slain as were not burned were removed in carts and buried outside the town limits.

Spain Protests.

London, Sept. 10. — The Madrid correspondent of the Standard says: The government has forwarded to M. Cambon, the French ambassador at Washington, a long and strongly argued statement respecting the Philippines, which he will communicate verbally to the Washington government. Spain protests against the capitulation of Manila because made two days after the protocol was signed.

Wants His Old Command.

Washington, Sept. 10.—Gen. Shafter has expressed his wish to the war department that when the department commanders are sent to posts, he would prefer to have his old command, the department of California. It is probable that it will be given him, but such action will be a long time in the future, as the organization of the army upon the old basis is not likely to occur for some time.

Senator Gray Named.

Washington, Sept. 10.—The president named Senator George Gray, of Delaware, as the fifth member of the peace commission. This completes the personnel of the commission, which stands: Secretary Day, Senators Davis, Frye and Gray and Hon. Whitelaw Reid. In selecting Senator Gray, the president has given democratic representation on the commission.

Must Not Implicate Emperor.

Paris, Sept. 9.—Count Munster, the German ambassador, has informed M. Delcasse, minister of foreign affairs, that if the French government presumed to show in the Dreyfus revision letters alleged to be from Emperor William, he was instructed to demand his passports and leave Paris, as such letters are forgeries.

DESTROYED BY FIRE.

Town of Jerome, A. T., Is Completely Wiped Out—New Westminster Is Visited—Other Places.

Prescott, A. T., Sept. 12.—The town of Jerome, near here, was completely wiped out Sunday morning by fire, entailing a loss of over $1,000,000 in property. Eleven bodies have so far been recovered, while a score or more are said to be in the ruins or missing. The fire originated from a gasoline stove in a cabin and spread so rapidly and fiercely that it was impossible to save even the clothing. The fire was confined exclusively to the business portion of the town, and the open space intervening between it and and the mammoth works of the United Verde company saved the latter's plant, otherwise the loss and suffering would have been terrible.

The area of the fire was confined to a narrow gulch and ravines leading to it, in which were located substantial wooden and stone buildings, the latter melting as rapidly before the flames as pasteboard. Over 150 residences, averaging in value $2,000; 25 general merchandise and other stores, saloons, etc., of all kinds, are wiped out; in short, not a single business house remains. The only building to escape was the Methodist church.

The number of people who are homeless is placed at 1,500, and they are being cared for by Messrs. Giroux and Allen, of the mining company.

Vancouver, B. C., Sept. 12.—The city of New Westminster has been visited by a conflagration causing the loss of millions. The fire started about midnight from a spark from a steamer on the water front. A fierce gale was blowing at the time. Within three hours all the buildings along ten streets were blazing. Handsome blocks, banks and churches went up in smoke. Two newspaper offices are gone. The Canadian Pacific railway station, three river steamers, the railway bridge, the cathedral and many private residences are destroyed. Hundreds of people are homeless and relief is being rushed from Vancouver. Two women are reported to have died from the shock. The telegraph office at Westminster has been destroyed.

The loss by fire is roughly estimated at $2,500,000, with insurance of $1,500,000. The London Assurance company is said to be the heaviest loser. The vaults of the bank buildings withstood the fire.

Red Bluff, Cal., Sept. 12.—Fire broke out early Sunday morning on Main street and before it was extinguished destroyed an entire block of the finest buildings in the town. The loss to property owners will be more than $100,000, of which the insurance is barely half that sum. The origin of the fire is unknown.

New York, Sept. 13.—Fire Monday night did $50,000 damage in the five-story brick building at 54 Beekman street, occupied by Leeburger Brothers. Fourteen firemen were overcome by the fumes of burning essential oil in the basement, and had to be carried to the street, where fresh air and medical attention restored them to consciousness.

THEIR AWFUL FATE.

Three Men Burned to Death as the Result of the Explosion of a Barrel of Alcohol.

New York, Sept. 9.—Three workmen were burned to death in a fire in Max Stiner & Co.'s whisky house at No. 36 Vesey street Thursday afternoon. The fire was started by the explosion of a barrel of spirits of alcohol. The dead are: William Witt, foreman, of 65 Atlantic avenue, Brooklyn; Rudolph Schoenborff, residence in New Jersey; a man known as "Paul," residence unknown. The first two named were married and had families. All three bodies were found in the basement where the explosion occurred and where the liquors are blended. The fire spread with great rapidity and it was with great difficulty that the other employes made their escape. The explosion is believed to have originated from the flame of an open gas jet. Loss, $10,000.

Judge Cooley Dead.

Ann Arbor, Mich., Sept. 13. — Judge Thomas M. Cooley, the noted jurist and constitutional lawyer, died early Monday at his home. He recently returned from a private sanitarium at Flint, Mich., where he had been treated chiefly for mental weakness. He was then so much improved in mental health that he was able to recognize acquaintances. Several weeks ago he relapsed into a comatose condition. During the ensuing interval the only intelligible utterance he made was once when he inquired for his oldest son. He had had a distinguished career in jurisprudence, mounting step by step to an exalted rank among legal writers and gaining the highest appointments on the bench of the state of Michigan. He was born in Attica, N. Y., January 6, 1824.

Suffer from Cold.

Camp Wikoff, Montauk Point, N. Y., Sept. 12.—The fall of ten degrees in the temperature which was predicted by the signal service came Saturday night, and before midnight the whole camp was shivering. The cold wave was accompanied by a high wind, and for several hours during the night there seemed to be some danger that many of the tents would be blown down, but they withstood the storm, which moderated towards morning.

Will Be No Parade.

Washington, Sept. 13.—The plan of having a parade in New York of the troops returning from Puerto Rico and those at Montauk has been definitely abandoned. This is the result of several conferences on the subject between the president and Gen. Miles, and of consultations with army officers in New York and at Camp Wikoff.

Plea of Gold Miners.

Tacoma, Wash., Sept. 10.—American miners on the Yukon have joined in an urgent request for the government to locate an assay office and government bank depository at Circle city. Their object is to protect miners against the money brokers, who charge what are considered extravagant fees for drafts or exchange.

Death of a Veteran.

Washington, Sept. 9.—Brig. Gen. John Kemp Mizner, United States army (retired), died very suddenly Thursday afternoon at his residence in this city. He had been ill about a week, but was believed to be improving. The immediate cause of his death was heart disease. He was 63 years of age.

Scrofula

Taints the blood of millions, and sooner or later may break out in hip disease, running sores or some more complicated form. To cure scrofula or prevent it, thoroughly purify your blood with Hood's Sarsaparilla, which has a continually growing record of wonderful cures.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1; six for $5.

Hood's Pills cure indigestion, biliousness.

Thirty-Five Thousand Miles of Calico.

There is enough calico made in the United States every year to make a sash which would go completely around the earth with 10,000 miles of material left for a bow. The great popularity of this fabric is justified by the fact that the goods known as Simpson's Prints are of the highest standard of quality and finish. The colors are absolutely fast and will not fade nor will the goods become limp with washing and wringing, and as the material is cheap and exceedingly pretty, there is little wonder that many millions of yards are used annually in the dresses of women and children.

Delicately Put.

He would not say that she painted, powdered and all that. He was too much of a gentleman for that.

"Still, I may, as well confess," he said, "that she impressed me as one who thinks she can improve upon the Lord's handiwork."—Chicago Post.

Equal to It.

Briggs—How well and strong you are looking.

Griggs—Yes. I've almost made up my mind to go away on a vacation.—Chicago Evening News.

"Why did the commanding officer order a retreat just as the advance began?" "He decided that there was no quorum of the enemy present."—Town Topics.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the California Fig Syrup Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the California Fig Syrup Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the California Fig Syrup Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

MINNESOTA NEWS.

The State Fair.

Approximately 80,000 people visited the state fair this year. The number of admissions last year was 70,643, and Secretary Randall estimates that the attendance this year was fully 10,000 greater than last year.

From a financial standpoint the fair was a success. The receipts, as estimated, were about $4,500 in excess of the expenditures, which is an exceptionally good showing.

The privileges this year netted $4,400, as against $4,531 last year, the difference being accounted for by the smaller number of side shows and Midway features permitted. In this connection especial care was taken with the concessionaries, and "blind pigs" were kept out strictly. Revenue officials were on the grounds all week, and failed to locate any illicit liquor sellers.

As far as obtainable the cash receipts from admissions and grand stand in detail were: Monday, $1,561.65; Tuesday, $2,509; Wednesday, $8,842; Thursday, $10,022; Friday, $3,842; Saturday, $3,138.75.

It costs over $40,000 to bring off a successful state fair, and the expense this year was about the average. The largest single item was the purses, aggregating $20,000. Premiums took $15,000 of the fair money. All the large premiums were paid by check on the closing day of the fair, and the horsemen and cattle exhibitors went away with their winnings securely tucked away. All the smaller premiums, of which there are hundreds, are paid by check through the mail.

The Sick Soldiers.

The work of unloading the 173 sick soldiers of the 14th regiments, brought from Kentucky and Tennessee, was completed Sunday morning, the boys having spent a comfortable night in their sleeping car berths. Of the entire number, 54 men were obliged to be taken to the hospitals in the Twin Cities. Of these, 26 were taken to St. Paul hospitals, and 28 to the hospitals of Minneapolis. Several men were allowed to go at once with friends living in the Twin Cities, while about 80 of them were taken to Windsor hotel to await trains going to their homes. The work of unloading was done systematically, the entire train force assisting. Gov. Clough personally superintended the work. The hospitals had sent a full supply of ambulances, and only a single trip had to be made. During the day about 25 men were placed on board trains taking them to their respective homes throughout the state. The entire trip was accomplished without the loss of a man, and without any casualties.

Crop Report.

Light and scattered showers fell early in the week, which somewhat delayed operations in the grain fields in the extreme north, and had a tendency to lower the grade of wheat in those portions of the Red River valley where showers were reported in the last bulletin. The rains have nowhere been sufficient to revive pastures, or to soften the ground for plowing. Notwithstanding the very hard condition of the soil, plowing is generally pretty well advanced. Threshing is still going on in all parts of the state, though in many parts of the south it is nearly finished. The seeding of winter rye will begin this week in Dakota county.

Successful Societies.

Thirty-eight agricultural societies have qualified for a share of the $14,000 state appropriation and will receive $245.54 each. Last year the division was $206. The requirements are an association with at least 25 members and a fair at which a sizable amount is given in premiums. Some of the societies have 300 or 400 members, and the premium lists range from $150 to $510, the latter at Garden City, Blue Earth.

Minnesota Briefs.

Arthur C. Middleton was found dead in his rooms in St. Paul, evidently murdered.

The re-union of the 10th Minnesota regiment during fair week was largely attended and successful in every respect.

A. Jackman, an Illinois man, shot himself through the breast while visiting in a store at Preston. The wound is fatal. No cause for the deed is known.

The first car of freight shipped through over the new Fosston line was a car of coal shipped from Duluth to Fosston.

The dwelling house of Mrs. Eliza Black, near Hastings, was burned, including most of the contents.

Swan P. Heller, a St. Paul tailor, while crazy with liquor, attempted to kill his wife because she could not prepare a meal in the middle of the afternoon. He shot her three times, but not fatally. He then sent a bullet into his brain, dying instantly.

Joel P. Heatwole was renominated for congress by the republicans of the Third district.

It is said that the Northern Pacific and Great Northern express companies have brought through St. Paul the past two weeks $2,000,000 of Klondike gold for the Philadelphia mint.

Gov. Clough has appointed Judge Thomas Wilson, of St. Paul, a member of the board of regents of the state university, to fill the vacancy caused by the resignation of M. R. Todd.

J. F. R. Foss, of Minneapolis, was elected rear admiral by the National Association of Naval Veterans.

John Allen, was held up in Larrabee's saloon at Moorhead by two men and robbed of $1, all the money he had.

Tyron Sisson, of Stewartville, aged 16 years, had one of his legs nearly blown off by the accidental discharge of a gun.

Blooming Prairie and Hallock have been made presidential offices.

As a result of reckless riding, Patrick Dooney, of Winona, was thrown from his bicycle, badly fracturing his skull.

FOREIGN NOTES OF INTEREST.

The value of the annual plum crop in France is $3,000,000.

The church holidays in the Philippines average about three a week, and they are generally observed.

Whistling is practically unknown among the Icelanders, who regard it as irreligious and a violation of the divine law.

The present population of Bordeaux, France, is 297,000, of whom 18,864 are in receipt of assistance from charitable societies.

COL. SEXTON WINS.

Is Elected Commander in Chief at the Annual Encampment of the G. A. R.—The Closing Session.

Cincinnati, Sept. 9. — Illinois and Pennsylvania celebrated their victories at their respective headquarters Thursday night. The one has secured the commander in chief, Col. James A. Sexton, of Chicago, and the other the location of the thirty-third annual encampment of the G. A. R. at Philadelphia next year.

At the afternoon session, after various matters of business had been disposed of, and a report from the committee on pensions had been heard, the convention proceeded to the selection of a place for the next annual encampment. The contesting cities were Philadelphia and Denver. A vote resulted in the choice of the former city—395 to 295.

A motion was then made to go into the election of commander in chief. The roll of states was called and the vote was announced, showing the election of James A. Sexton, of Illinois, who received 424 votes, while Albert D. Shaw, of New York, received 241 votes. Comrade Shaw in a well-worded speech moved the unanimous election of Sexton and the motion was carried. Sexton being called, returned his thanks in very brief form and the encampment immediately adjourned.

The parade of the civic and industrial organizations in the afternoon was the most magnificent pageant ever witnessed in this city. The old demonstrations under the order of Cincinnatus at the openings of expositions and on other occasions were eclipsed by the peace jubilee parade, in which it is estimated there were 40,000 in line and over 500,000 spectators along the line. There were more people in the city than at any other time of the week or on any other day in the history of the city.

Cincinnati, Sept. 10.—The work of the thirty-second encampment of the Grand Army of the Republic was happily concluded late in the afternoon

JAMES A. SEXTON, OF ILLINOIS.

Friday. The encampment opened Friday morning, and proceeded to finish the election of officers. The following were elected by acclamation:

Senior vice commander in chief, W. C. Johnson, of Cincinnati.
Junior vice commander in chief, David Ross, of Delaware.
Surgeon general, Dr. Pierce, of Nebraska.
Chaplain in chief, Col. Lucas, of Indianapolis.

Two resolutions indorsing the course pursued by President McKinley and Secretary Alger were read and adopted, and the lengthy report of the committee on pensions was then read. It was adopted without discussion. After the conclusion of other business of minor importance, the appointment of the national council of administration, installation of new officers, and adoption of a vote of thanks to the retiring commander in chief, Gen. Gobin, the encampment finally adjourned.

Famous Hotel Burned.

Newport, R. I., Sept. 10.—The Ocean house, one of the largest and best known hotels on the Atlantic coast and the center of attraction to visitors in the city for over half a century, was burned to the ground Friday afternoon. Sparks from the great conflagration fell all over the thickly-settled portion of the city, and caused three or four roof fires. Fortunately none of them caused much damage. The Ocean house was owned by Henry J. Barbey, of New York, and was valued at $100,000.

Drowned in the Rapids.

Quebec, Can., Sept. 10. — Louis Sass and Carl Smith, members of the editorial staff of the Chicago Record, who arrived here Tuesday on a holiday tour, were drowned Friday in the heavy rapids of the Grande Discharge by the upsetting of their birch-bark canoes. The Grande Discharge is the outlet of Lake St. John, for which resort the newspaper men had left here Wednesday morning.

Republicans Win in Maine.

Portland, Me., Sept. 13.—The state election Monday resulted in the success of the full republican ticket as follows: Governor, Llewellyn Powers, of Houlton; congressmen, First district, Thomas B. Reed, of Portland; Second district, Nelson Dingley, of Lewiston; Third district, Edwin C. Burleigh, of Augusta; Fourth district, Charles A. Boutelle, of Bangor.

Mr. Croker's Filly Wins.

London, Sept. 13.—At the first day's racing of the Warwick autumn meeting Monday Mr. Richard Croker's four-year-old bay filly Georgiana won the Leamington handicap plate of 150 sovereigns. Seebac was second and Stream of Gold third. This race was for three years old and upwards; distance, one mile.

Urge Action Against Anarchists.

London, Sept. 12.—Many of the principal European journals are again urging international action against anarchists. They recall that both the late M. Carnot, president of the French republic, and the late Senor Canovas del Castillo, the Spanish prime minister, were victims of Italian anarchists.

Harry Varnell Dead.

Chicago, Sept. 13.—Harry Varnell is dead. The one-time king of the gambling fraternity of Chicago, a former political leader, and once indicted and convicted of boodling while a member of the board of county commissioners, died at eight a. m. Monday. Heart disease was the cause of death.

Cervera Bids Farewell.

Portsmouth, N. H., Sept. 13. — The City of Rome, with Admiral Cervera and staff and over 1,700 Spanish prisoners, sailed Saturday afternoon for Santander, Spain. Of the number, 1,668 men were from the prison at Seavey's island.

GASOLINE EXPLODES.

And a Heavy Loss of Life Is the Result—Four Bodies Recovered from the Ruins.

Philadelphia, Sept. 12.—By the explosion of 40 gallons of gasoline in the cellar of a grocery store at 1444 South street Sunday, certainly four and possibly a dozen or more lives were lost. As an immediate consequence of the explosion the building where it occurred and those adjoining it on either side collapsed and up to ten o'clock, four hours after the occurrence, four bodies had been recovered from the ruins and three of these identified as follows: Samuel Schattenstein, keeper of the grocery store; his 19-year-old son, Abraham; a ten-months-old child named Goldberg. The fourth body was that of a girl about ten years old.

Estimates of the number of missing vary from eighteen to six.

The accepted theory of the accident is that Schatterstein went into the cellar with a lighted lamp, which ignited the fumes of the gasoline. From the position of his body and that of his son on the front steps it is thought they were emerging from the house when caught by the falling walls. The collapse of the buildings occurred within two minutes of the explosion, and the occupants had little time or chance to escape.

FOUR WILL NOT SERVE.

Men Selected for the Commission of Army Inquiry Refuse to Act.

Washington, Sept. 12. — The president has urged the following named gentlemen among others to accept place on the committee requested by Secretary Alger to investigate the conduct of the war:

Lieut. Gen. John M. Schofield.
Gen. John E. Gordon.
Gen. Grenville M. Dodge.
President D. C. Gilman.
Gen. Charles F. Manderson.
Hon. Robert T. Lincoln.
Daniel S. Lamont.
Dr. W. W. Keene.
Col. James A. Sexton.

Gen. Schofield has declined to serve on the commission. Declinations have also been received from former Secretaries of War Robert T. Lincoln and Daniel S. Lamont. Gen. Gordon has already informed the president his health will not permit him to take part in the proposed investigation. President C. D. Gilman, of Johns Hopkins university, will, it is now believed, accept. There is some hesitation to accept on the part of others who have been invited to serve on the commission, but have intimated that they would accept and have asked further time to consider.

SITUATION IN MANILA.

Regarded by Admiral Dewey as Extremely Critical—Asks for More Warships.

Manila, Sept. 13.—Rear Admiral Dewey says he considers the situation critical. It is understood he has asked for an additional cruiser and a battleship. The Spaniards assert that Germany will take a coaling station here, and that Spain will retain the remainder of the islands. The last Spanish garrisons at Ilocos and Laguna have surrendered, and the whole island of Luzon is in the hands of the insurgents, except at Manila and Cavite. Aguinaldo went to Lelollos on Friday. He has announced his intention of convening an assembly of the Filipinos on September 15, in order to decide upon the policy to be adopted by the insurgents.

A correspondent has had an interview with Aguinaldo, who said there were 67,000 insurgents armed with rifles. He added he could raise 100,000 men. Indeed, the insurgent leader pointed out, the whole population of the Philippine islands was willing to fight for their independence. Continuing, Aguinaldo said he had 9,000 military prisoners, including 5,000 in the vicinity of Manila, besides civil prisoners.

HAWAII'S POSITION.

Annexation Committee Decides to Call It "the Territory of Hawaii"—Form of Government.

San Francisco, Sept. 10.—The steamer Coptic, from Yokohama and Hong-Kong via Honolulu, brings the following advices from the latter city under date of September 3: It will be the "territory of Hawaii." That is the name which the annexation committee has decided to recommend to congress. Thus will be preserved in the political nomenclature of the United States the distinctive origin of this part of the United States. The history and tradition of the islands and the associations that no citizen here wants forgotten will go on in unbroken union with the name. The form of the government will be modeled on that of existing territories. There will be no more further departures from this than local conditions and national political considerations make necessary.

Promotions in the Navy.

Washington, Sept. 12.—Among the naval orders Saturday were the following promotions: Capt. Higginson, of the Massachusetts, to be commodore from August 10; Assistant Naval Constructor R. P. Hobson, to be full naval constructor, to date from June 23, the delay in making the last promotion being caused by the impossibility of having an earlier examination.

Three Murdered.

Columbus, O., Sept. 9.—A special to the Dispatch from Cambridge, O., says: Squire John Boyd, his daughter and son-in-law, living four miles east of here, were murdered Wednesday night. Boyd's little granddaughter reported the fact to neighbors. The house was ransacked. Boyd was wealthy. A drug was used by the murderers.

An Aged Brute Lynched.

Liberty, Mo., Sept. 12.—Benjamin Jones, a gray-haired man 68 years of age, was taken from the Clay county jail Sunday night and swung to an iron beam at the front entrance of the courthouse for a criminal assault committed upon Annie Montgomery, an 11-year-old girl, Saturday evening. He confessed his guilt just before he was hanged.

Return with Gold Dust.

Seattle, Wash., Sept. 13.—Steamer Rosalie has arrived here from Skaguay, Alasga, with 60 passengers from Dawson, who brought out about a half million dollars in gold dust and drafts. William Stanley, of this city, has about $150,000 in drafts. The 800 pounds of gold on which they were issued was shipped down the river to St. Michael.

A LITTLE NONSENSE.

His Nephew—"Do you like mint juleps better than cocktails, uncle?" The Colonel—"You youngsters do ask some hard questions!"—Puck.

"Now, this tax on beer—" the Garrulous Boarder began. "As usual," said the Cheerful Idiot, "the consumer must carry the load."—Indianapolis Journal.

Don't Shoot.—"Your terms are too severe," said Sagasta. "Oh, I don't know," replied the president. "I have seen Cervera."—Philadelphia North American.

Couldn't Be Helped.—"Yes," remarked the press agent to the reporter, "there was only one dry eye in the audience, and that was a glass one."—N. Y. Journal.

Mrs. Sweet—"Isn't it strange that Harry will never permit Edith to open his watch?" Mr. Sweet—"Humph! There be another girl in the case."—Jeweler's Weekly.

Contractor—"You want a regular mosaic floor, I suppose?" Owner of the building—"Yes, if that's the style. Just as lief have the modern orthodox, though."—Chicago Tribune.

Abe Coller—"Whad yo' puttin' pizen on de seat ob dem pants fo'? Is yo' losin' yo'r mind?" Lew Wemple—"No, sah; but mah bes' girl's father am gwine toe lose a bulldog."—Judge.

Judge—"You robbed your benefactor in a most shameful way. Do you feel no compunctions of conscience?" Prisoner—"Before answering, sir, I would like to consult my counsel."—Tit-Bits.

THE FIRST WAR MEDALS.

Were Presented to Army and Navy Officers by Congress During the Revolutionary War.

The first medals ever presented by congress were given to the officers of the American army and navy during the revolutionary war, and of those only 12 were issued. Gen. Washington was the first American who received a medal from his government. Gen. Gates received one because he beat the British at Saratoga; Gen. Wayne for attacking and capturing Stony Point, on the Hudson; Gens. Greene, Lee, Morgan and five other American officers for victories obtained by them over the enemy. Congress presented Paul Jones with a medal for his successful sea fights against the British battleships. At the close of the war, when Washington was elected the first president of the United States, congress had struck off in his honor a medal. As it was one of the first given to anyone during time of peace, a short description of it may be of interest to the boys who read this article. The medal was about the size of the present silver dollar; on one side was stamped the head of Washington, with the inscription: "Washington, President, 1791." On the reverse were arrows, an eagle and laurel wreath and the words: "Unum E Pluribus." An earlier medal, made in 1785, was of copper; it was stamped with a sun, surrounded by 13 stars, a laurel wreath entwined about the letters "U. S.," and bore the inscription, "Libertas et Justitia, 1785." Nearly all of the first medals presented by the American congress were made in France.

During the war of 1812 congress presented 27 medals of honor to the nation's sailors and soldiers, but most of these were given to commanders of the navy. Hull, the first commander of the frigate Constitution, received a medal from congress for his victory over a British ship. It was also the custom in those days for congress to give a sum of money to the city at which they first landed to get up a banquet in honor of the captain and crew.

Four medals were given during the Mexican war, but it was not until the late civil war, in 1861, that the presentation of medals by an act of congress gained any headway. In 1861 congress directed the secretary of the navy to have made medals of honor to be given to petty officers and sailors in the navy who distinguished themselves by acts of bravery. Three hundred and twenty persons received them; they were in the shape of a five-pointed star. Other medals were also presented by congress to men in the army and navy whom the government wished to honor. It has always been the purpose of congress to recognize brave actions among American sailors by presenting a medal, and the small number which have been given out make them all the more valuable.

Perhaps the most famous peace medal and certainly one of the first which was ordered to be struck by congress was the one in commemoration of the treaty of peace between the United States and the English governments and which ended the war of 1812. It was widely circulated and was eagerly welcomed by the people. England also caused to be made a peace medal in honor of the treaty.

The custom of giving a medal to such chiefs as visited Washington was begun at a very early date in the history of the government. The most famous of this class was the one presented to Red Jacket, a noted chief. He was very proud of the honor conferred upon him and always carried it in a prominent place.

One of the first medals presented during the civil war Maj. Anderson received for his brave defense of Fort Sumter. This was more simple than those given by the government during the war of 1812. One side was stamped with the head of Maj. Anderson; on the reverse was a soldier planting the American flag upon the top of a fort. This medal was presented by the chamber of commerce of New York to the commander of Sumter and to each man of the garrison. — Cincinnati Enquirer.

Cuban Courtesy.

The ever-present politeness of the Cuban is a perpetual wonder. An American lady entered a shop on Obispo street some time ago, and asked for an article which the merchant did not have in stock. "If the senora will permit me, I will beg to assist her in finding it," said the obliging shopman. He thereupon closed and locked his store and accompanied the stranger to shop after shop, until she had been supplied. The Cuban then simply bowed and bade her "Adios!" to return again to his place of business, content in the thought that he had rendered only the kindly duty which a true Cuban holds always his due toward others.—Edward Page Gaston, in Woman's Home Companion.

HE WAS NOT GLADSTONE.

Which Was Just Why She Did Not Care to Listen to His Gentle Flow.

"No," remarked the early morning man in the car down from Mount Pleasant; "no, I can't say that I have my wife trained as perfectly as I could wish to have her trained, or that I shall be so fortunate as ever to have her so, but there is a good deal of pleasure in trying to. It at least gives her an idea that she is not perfect, and as long as a man can keep his wife in that state of mind it is almost as much of a comfort as it is to have her just what he wants her to be."

"Geehoolipins!" exclaimed a little man with a pale blue eye and a fidgety manner, "I wish I could only get my wife to your way of thinking."

"Did you ever try?" inquired the early morning man.

"Did I?" chuckled the little man, with a profound internal convulsion not entirely clear to the understanding of his auditors. "I should say I did. It hasn't been half an hour ago. I had something to say to my wife on the lines you suggest and was endeavoring to get an opening for my remarks, but she was talking to such an extent that I had no show at all. Finally, quite driven to desperation, but not wishing to do anything violent, I merely gave her a hint of the situation by telling her that when Mr. Gladstone talked his wife always listened in silence. And did she take it as I had intended?" he asked of himself, with another one of those ambiguous chuckles.

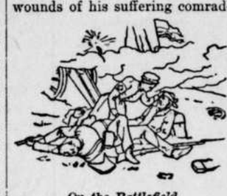
"Did she?" inquired the early morning man, with much interest.

"Did she?" chuckled the little man. "Well, says she to me, 'I don't doubt it at all, but think who it was that Mrs. Gladstone was listening to,' and then she went right ahead with her conversation as if I hadn't been within ten miles."—Washington Star.

WOMAN'S HEROISM.

From the Register-Gazette, Rockford, Ill.

During the civil war nearly as much heroism was shown by the women of our nation as by the brave soldiers. Many a woman, weeping for her dead son, bound up the wounds of his suffering comrades, rejoicing in their renewed strength, even while sorrowing for the one who was gone. At that time was laid the foundation for the world-famed organization known as the Woman's Relief Corps, whose aid to the soldier of to-day, fighting against the world for a living, is no less notable than the heroism of the '60's.



On the Battlefield.

One of the most earnest members of the corps at Byron, Ill., is Mrs. James Houseweart, but illness once put a stop to her active work. A year or so ago, when she was nearing fifty years of age, the time when women must be most careful of their strength, Mrs. Houseweart was taken seriously ill. The family physician told her that she had reached a critical period of her life, and must be very careful. His prescriptions and treatment did not benefit her, and other treatment proved unavailing.

At last Dr. Williams' Pink Pills for Pale People were brought to her notice, with indisputable evidence that they were helpful in cases such as hers, and with renewed hope she tried the remedy. Last March she took the first box of the pills, which gave much relief. She was determined to be cured, and kept on with the medicine, until now eight boxes have been consumed, and she feels like a new woman.

Mrs. Houseweart said: "I have taken eight boxes, and have been improving since I took the first dose. I do not believe I could have lived without the pills. They have done me more good than any physician or any medicine I have ever tried."

Dr. Williams' Pink Pills are sold in boxes (never in loose bulk) at 50 cents a box or six boxes for $2.50, and may be had of all druggists, or direct by mail from Dr. Williams' Medicine Co., Schenectady, N. Y.

UNTRANSLATABLE.

The American Phrase, "Get There," Is Difficult for Foreigners to Translate.

"What gives me most trouble," said a foreign military attache, "is trying to translate your American language into English first, and then into my own language, so as to give my government a correct understanding of the spirit and character of your soldiers. I find the phrase 'get there,' for example, difficult. When I saw your infantry going forward against the opposing troops in the forts and intrenchments, I said to the officer with me that the infantry should not attempt such a movement without the artillery. 'You're right,' he told me, 'but the boys will get there.' At night, when we were all so hungry, I ventured to inquire if a further movement were contemplated till your army was provisioned. Then the officers, who were gentlemanly, all laughed, and said the army would think about rations when they 'got there.' The second day we met many of your wounded men coming back as we were going forward. When the colonel asked them about the fighting, so many times I heard them say 'We got there.' And afterwards I also heard those words used very often. But it is so difficult for me to explain so my own people will understand it, what nature of tactics is 'get there.' "—Boston Transcript.

The Fighting Seventy-First.

Out in Salt Lake City, when a paper speaks of "the fighting Seventy-first," one is in doubt whether the item refers to the regiment now in Santiago or some man's latest matrimonial venture.—Yonkers Statesman.

Instructor—"There is no point to this theme." 1901 (confidingly)—"Oh, I always was bad at punctuation."—Harvard Lampoon.

MRS. PINKHAM'S ADVICE.

What Mrs. Nell Hurst has to Say About It.

DEAR MRS. PINKHAM:—When I wrote to you I had not been well for five years; had doctored all the time but got no better. I had womb trouble very bad. My womb pressed backward, causing piles. I was in such misery I could scarcely walk across the floor. Menstruation was irregular and too profuse, was also troubled with leucorrhœa. I had given up all hopes of getting well; everybody thought I had consumption. After taking five bottles of Lydia E. Pinkham's Vegetable Compound,

I felt very much better and was able to do nearly all my own work. I continued the use of your medicine, and feel that I owe my recovery to you. I cannot thank you enough for your advice and your wonderful medicine. Any one doubting my statement may write to me and I will gladly answer all inquiries.—Mrs. NELL HURST, Deepwater, Mo.

Letters like the foregoing, constantly being received, contribute not a little to the satisfaction felt by Mrs. Pinkham that her medicine and counsel are assisting women to bear their heavy burdens.

Mrs. Pinkham's address is Lynn, Mass. All suffering women are invited to write to her for advice, which will be given without charge. It is an experienced woman's advice to women.

Swallowed a Needle and Died.

A tailor in Chicago accidentally swallowed a needle and died as a result of the inflammation set up by the small needle. Little things have frequently great power, as is seen in a few small doses of the famous Hostetter's Stomach Bitters, which, however, has an entirely different effect from the needle in this notice. The Bitters make nervous, weak and sickly persons strong and well again. They are also good for dyspepsia and constipation.

Only for Music.

"Have you a soul for music?" she asked as she turned from the piano.

"For music, yes," he replied, and then he hastily changed the subject and neglected to ask her to sing again.

But she knew. You can't always fool a girl, even if she does think she has a voice.—Chicago Post.

The Best Reason.

Little Clarence (who reads and ponders)—Pa, I have just been reading a paragraph, which says there are various reasons why a man who talks in his sleep should not marry; what are some of those reasons, pa?

Mr. Callipers—The best reason, my son, is because he talks in his sleep.—Puck.

Heroic Honors.—"Evelyn," said her father, "what particular feat of bravery did that young man who called on you last night perform during the war?" "None, father. He stayed at home at my request. But why do you ask?" "Oh, judging from the way you kissed him I thought perhaps he had directed the movements of Dewey and Schley during the conflict."—Philadelphia North American.

"I told my wife," said Gobang, "that I had stayed down town to get war news." "And what did she say?" "Well, she furnished me with an illustrated account of hostilities nearer home than Cuba."—Town Topics.

Nothing gives one such a feeling of wasted time as to get up real early to go somewhere and then find that the trip is not necessary. —Washington (Ia.) Democrat.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets.. All druggists refund money if it fails to cure. 25c.

Some people are forever putting their feelings under other people's feet and then crying because they are hurt.—Ram's Horn.

I could not get along without Piso's Cure for Consumption. It always cures.—Mrs. E. C. Moulton, Needham, Mass., Oct. 22, '94.

A rich man's will is something like the shower. It settles the "dust."—L. A. W. Bulletin.

Hall's Catarrh Cure

Is taken Internally. Price 75c.

No fraud is more wicked than cheating in a love game.—Ram's Horn.

How Old She Looks

Poor clothes cannot make you look old. Even pale cheeks won't do it.

Your household cares may be heavy and disappointments may be deep, but they cannot make you look old.

One thing does it and never fails.

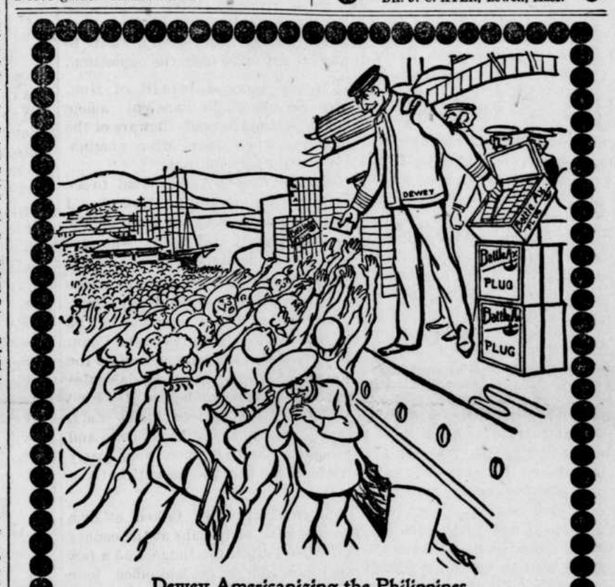
It is impossible to look young with the color of seventy years in your hair.

Ayer's Hair Vigor

permanently postpones the tell-tale signs of age. Used according to directions it gradually brings back the color of youth. At fifty your hair may look as it did at fifteen. It thickens the hair also; stops it from falling out; and cleanses the scalp from dandruff. Shall we send you our book on the Hair and its Diseases?

The Best Advice Free.

If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be easily removed. Address, DR. J. C. AYER, Lowell, Mass.



Dewey Americanizing the Philippines.

Wherever Battle Ax goes it pacifies and satisfies everybody—and there are more men chewing

BattleAx PLUG

to-day than any other chewing tobacco ever made.

The popularity of Battle Ax is both national and international. You find it in Europe:—you find it in Maine:—you find it in India, and you'll find it in Spain (very soon).

Our soldiers and sailors have already taken it to Cuba and the Philippines! Are you chewing it?

Remember the name when you buy again.

ONE CENT FOR AN INTERESTING STORY.

Do You Want a Piano for $10? We have it!

$100 will buy a GOOD ONE; $200 A FINE ONE. You get your money's worth. EVERY TIME. CASH OR MONTHLY PAYMENTS. You can have a Piano in your home on approval by spending just ONE CENT for A POSTAL.

WE PAY FREIGHT BOTH WAYS!

TRY IT, WE MEAN WHAT WE SAY!

BUFFALO GAZETTE

DELANO, FRIDAY, SEPT. 16, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

--Willie Mowatt has become sole owner and proprietor of a bird dog.

--The corn crop appears to be one of the best for years, and there is lots of it.

—F. A. Cramer's meat wagon gong now rings through the woods so far as Mound City where regular trips are made.

—More coal is being delivered to Delano customers this week. It begins to look as if winter would soon be here.

—L. M. Maxfield's family moved from the Johnson residence, on Third street, back into the rooms over the City Grocery.

--Burt Goodrich was brought before His Honor Justice Walter Tuesday, charged with assault in the second degree with a deadly weapon.

—Delano Fair was not so largely attended as some. This is a busy time of year for farmers and they can't spare time to attend fairs very well, except on business.

—The drenching rain that fell Tuesday was pleasing to farmers, it moistens up the ground for plowing and brings out fall pasture in good shape. It was getting pretty dry.

—The corps of teachers in the Delano High school was not complete last week; but Monday morning this week Miss E. Hellwell of Minneapolis, took charge of the Grammar department making the full force at work.

—The members of the Young Ladies' Society and of the German Rosary Society of the Catholic church combined their forces and efforts and furnished in grand style their priest's parlor, diningroom, study and bedroom, lately. All of which Rev. M. Savs says he thankfully appreciates, and boasts enjoying twentieth century comforts.

—Those of our citizens having relatives and friends in the 13th Reg. Minn. Vol. now at Manilla were made glad Saturday morning by the receipt of letters from them. The letters were writen on board the City of Para, on July 31 to Aug. 4 and a few lines by Jenner Chance, on land at Cavite. The battle that our boys was in had not yet been fought. Some of the things written home appear in another place in this paper. The boys appear to have fared as well as any on the trip.

—John J. Catlin writes home from the "U." that he thinks he will be able to hold his own with the rest of them this winter. He says foot ball is being played every evening and that he watched them some, and got in a few kicks himself and pretty nearly, kicked his leg out of joint. He surely must be doing well, as he has, so soon, acquired a handle to both ends of his name and signs "Dr. John J. Catlin, M. D. He will doubtless loose at least one of these handles as soon school starts up in earnest.

—Rev. Savs, of St. Peter's Church, Delano, informs us that "The Catholic Foresters is in the eyes of the Catholic Church NOT a secret society. According to the Catholic view a society has to be considered as secret, if it refuses to show its constitution and ritual to the authoritative church or government officials. All secret societies demanding from the members a BLIND OBEDIENCE to the rules, constitution or ritual of the society or order, are strictly forbidden to Catholics, and no Catholic is to be considered a practical Catholic, if he becomes or is a member of such a society. Of course, all anti catholic orders or societies (A. P. A.) are also forbidden to Catholics."

—The village council should locate a place for a dumping ground somewhere on a farm near town that has low places needing leveling up, and where the dumped material can be plowed under. Dumping in the river along the bank is poor policy and liable to generate disease. Typhoid Fever Diphtheria and like troubles come from contaminated water. Several alleys should be cleaned up before winter and then kept clean. Dumping swills and slops in the alleys is not conducive to good health and shou'd be stoped. The Health Officer has, several times recommended reformations in these lines but the Village Council pays no attention to them, not even to having a proper dumping ground for those who would make use of it.

--An indignation meeting was called and met at the City Hall Saturday evening. F. H. Lindsley called the meeting to order and Prof. Hawker was chosen chairman and Guy Murphy Secretary. Mr. Lindsley in a few remarks said the meeting was called for the purpose of investigating the actions of the Teachers Examining Board of the Delano High School. After several matters came to be better understood by all parties Mr. L. said he had modified his views of the situation somewhat and mooved the meeting adjourn, which motion was carried. Otto Marr made the speech most to the point, when he said he had a boy who had been running about town for a week, with no teacher in his room at school; that he paid tax in the district and what he wanted to know was "will there be school next Monday."

Personal.

William Gent expects to be home from Virginia soon.

Mrs. John Hough, of Minneapolis, visited Delano yesterday.

John Cunningham and son Emery drove to Minneapolis, Sunday.

Dr. E. E. Shrader, of Watertown, visitrd Delano friends yesterday.

A. F. Mrozok moved his threshing outfit to Brukfield, Renville County this week.

A letter from Rev. William Wilson of Seattle says he expects soon to be in Minnesota.

George Florida, Rockford's genial miller, smil on Delano acquaintances Fair Day.

Madames Bolton and Shaw, arrived home last evening in the rain from Minneapolis.

Robert Bulen is moving his family into the Tim Gleason house cor. Third and Elm steets.

Mrs. William Hitzman who has been sick for several months, went to Minneapolis on a visit Monday.

S. A. Putman, of Buffalo was a Gazette caller to-day. He says politics are sizzling at the county seat.

Miss Vinnie Chance has concluded to remain with her father at Little Falls and attend the High School this winter.

County Commissioner John Buckman, visited with his sister Mrs. Boerner, who is sick at Charley Plath's, this week.

John McGary, of Independence, was a caller on Thursday. John thinks Eustis stands a poor chance of getting elected in Hennepin County.

Phil Martin attended the re-union of his old Reg. the Minnesota 2nd. They took a trip on Lake Minnetonka. He says it was the finest time they have had yet.

Andrew Reider and family returned Sunday evening from the G. A. R. meeting, at Cincinnatti. He says it was fine; but about the only way to call to mind each other was by "dont you remember who shot that hog" or "who stole them chickens." He visited Camp Thomas and says the new soldiers ought to be ashamed to complain.

County Cullings.

The Journal this week publishes an Ordinance relating to saloons and the regulation thereof. It prohibits the use of curtains or screens during the hours when saloons are required by law to be closed. Surely the county seat is going to be law abiding a little bit.

Democratic primaries will soon be called. If you intend voting the Democratic ticket this fall turn out and send good delegates to the County Convention. Men who will see that a good straight ticket is put up. Democrats want only their best men on the ticket. They don't want to swap off any office with the opposition.

For the especial benefit of Hon. John Sherman the ancient adage should be made to read: Beware ot the politicans when they offer nominations. —Buffalo Journal.

Good sentiment A. Y. Glad to see you know a good thing. How wou'd your new adage work on some of the Wright County politicans who are nominating themselves?

The Republican primary elections have been called for Thursday, Sept. 22, in each voting precinct in the County, to send delegates to the County Convention to be held at Buffalo the following Saturday. On the delegates sent by the primaries depends the kind of a ticket to be placed in the field. Turn out if you are a Republican and help send the best men your party affords to put up the best ticket you can.

The mongrel ticket talked off by a few scheming politicians at the county seat with Tarbox for Judge, and a few other men who have had office long enough to satisfy all their friends if not themselves, don't seem to meet with the approval of the rank and file of the democratic party throughout the county. Good democrats here say they want none of it in theirs. There is plenty of material from which to make a good, respectiable ticket, that will need no defense, or apology, from among those who have not sat up nights scheming to get nominated, no matter how, and planning with the opposition to leave weak spots in their ticket. Away with such politics. There has been enough of that kind. Be at the primaries and vote for delegates to the county convention who will effectually suppress all such efforts to crawl into office over the downtrodden will of the people.

From Montana

BUTTE, Mont., Sept. 5th, 1898.

EDITOR GAZETTE, Dear Sir:—Please send Buffalo Gazette to 817, N. Wyoming Street, Butte, Mont. I have moved my family out here. They arrived here last Thursday morning all well. My sister Sophia accompanied my wife and is staying with us. We all like Butte City very well; it is a large place about 60,000 population. We are enjoying good weather at present. We had a big shower of rain last Friday in the valleys and snow in the mountains. We also had some snow this morning; but it is nice and warm again.

Today we had a big turnout and a parade of all the unions in the city, being Labor Day.

I would have a lot more news to write but it would take too much time to do so. Wish you success with your paper which I enjoy reading, very much.

Yours Very Truly
JOHN CZOCK.

From the 13th Reg.

ON BOARD CITY OF PARA,
MANILA, July 31st, 1898.

FATHER --Having come so near the end of our long, tiresome voyage across the Pacific, and laying in wait of something I will endeavor to give you a sketch of the trip.

Thursday, the 7th we were ready for sea. At 9:30 Friday we made our start; but after about four hours out it was discovered that the Indiana had broke down. We all pulled back arriving at 4:00 P. M. Saturday, at 1 P. M. we again started, leaving Honolulu for the last time.

There not being very much of importance on the voyage except eating, I will give you the mileage of each day (except of the 15th, as that is the nay we skipped) at noon.

Sunday, July 10,	205	miles.
Monday, July 11,	243	"
Tuesday, " 12,	254	"
Wednesday, 13.	236	"
Thursday, 14	247	"
Saturday, 16	242	"
Sunday, 17	248	"
Monday, 18	242	"
Tuesday, 19	229	"
Wednesday, 20	251	"
Thursday, 21	226	"
Friday, 22	251	"
Saturday, 23	258	"
Sunday, 24	227	"
Monday, 25	241	"
Tuesday, 26	237	"
Wednesday, 27	224	"
Thursday, 28	220	"
Friday, 29	233	"
Saturday, 30	156	"

——4661 miles.

While in the harbor of Honolulu we saw several sharks. Just out of the harbor we saw a number of white Albatross. All the way we saw flying-fish.

The first thing of interest and about the only one was a large active volcano in mid-ocean.

The shores of the Philippines seem to be covered with trees and look lovely. The scenery is the finest tbus far, since leaving home, with the exception of a little part of California.

We have had rain two or three times a day for a couple of weeks. The climate seems to be as cool here as it is in Minnesota when we have April showers, but of course after the rain stops it gets a little warmer.

Il the BOYS are well. Jenner was sick a little while, but he is O. K. now. The Colonel was rowed over to one of the other ships, the Indiana, on the 21st. Three men had died up to that date, We lost one since, on the 27th; he was buried in the blue deep within an hour.

We had on board, several evening entertainments.

We are about to enter the bay now so will close.

Your Son.
A. G. CATLIN.

DEMOCRATIC
County Convention and
Primary Election

A Democratic County Convention for the County of Wright and State of Minnesota, will be held in the Court House in the village of Buffalo in said county on Saturday, the 8th day of October, 1898, at 11 o'clock a. m. on said day, for the purpose of nominating candidates for the following named county offices of said Wright County, viz: Auditor, Treasurer, Sheriff, Registrr of Deeds, Judge of Probate, County Attorney, Superintendent of Schools, Surveyor, Coroner, one Commissioner for the Second and one for the Fourth Commissioner districts.

And also for the purpose of placing in nominateon candidates for the following named offices in the Fourty-sixth Legislative District in the State of Minnesota, viz: One(1) Senator, and two (2) Represenatives.

Also for the futher purpose of electing 15 delegates to represent said Wright County in the Democratic Judicial Convention for the Eighteenth (18th) Judicial District of said State of Minnesota, to be held in the village of Elk River, Sherburn County, Minnesota, on the 13th day of October, A. D. 1898, at 1 o'clock p. m.

A primary election will be held in several election districts in said county, to elect delegates to said County, Convention on Tuesday, the 4th day of Octoder, A. D. 1868, commencing at 7 o'clock p. m. and continuing one hour, at a place to be hereafter designated by the respective precinct committees.

Each of the several election precincts in said Wright county, Minnesota, are entitled in said convention to one delegate and one additional delegate for each forty (40) votes or major fraction thereof cast for John Lind for governor in 1896, as follows:

Albion	3	Marysville	5
Buffalo	3	Middleville	4
Chatham	3	Montecello	3
Clearwater	2	Otsego	3
Cokato	4	Rockford	3

WANTED—SEVERAL TRUSTWORTHY PERSONS in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $900 a year and expenses—definite, bonafide, no more, no less salary. Monthly $75. References. Enclose self-addressed stamped envelope. Herbert E. Hess, Prest., Dept. M, Chicago. 50-26t.

THE SONG OF THE "No. 9."

My dress is of fine polished oak,
As rich as the finest fur cloak,
And for handsome design
You just should see mine—
No. 9, No. 9.

I'm beloved by the poor and the rich,
For both I impartially stitch;
In the cabin I shine,
In the mansion I'm fine—
No. 9, No. 9.

I never get surly nor tired,
With zeal I always am fired;
To hard work I incline,
For rest I ne'er pine—
No. 9, No. 9.

I am easily purchased by all,
With instalments that monthly do fall;
And when I am thine,
Then life is benign—
No. 9, No. 9.

To the Paris Exposition I went,
Upon getting the Grand Prize tatent:
I left all behind,
The Grand Prize was mine—
No. 9, No. 9.

At the Universal Exposition of 1889, at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France. This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered—the GRAND PRIZE—giving other companies only gold, silver and bronze medals.

The French government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor—the most prized honor of France.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best it will be your own fault. Ask your sewing machine dealer for the No. 9 Wheeler & Wilson machine. If he doesn't keep them, write to us for descriptive catalogue and terms. Agents wanted in all unoccupied territory. WHEELER & WILSON MFG. CO.

WEBSTER'S
INTERNATIONAL
DICTIONARY

Entirely New. Abreast of the Times. A Grand Educator.

Successor of the "Unabridged."

Everybody should own the Dictionary. It answers all questions concerning the history, spelling, pronunciation, and meaning of words.

A Library in Itself. It also gives the often desired information concerning eminent persons; facts concerning the countries, cities, towns, and natural features of the globe; particulars concerning noted fictitious persons and places; translation of foreign quotations. It is invaluable in the home, office, study, and schoolroom.

The One Great Standard Authority.

Hon. D. J. Brewer, Justice of U. S. Supreme Court, writes: "The International Dictionary is a perfection of dictionaries. I commend it to me as the one great standard authority."

Recommended by every State Superintendent of Schools Now in Office.

A saving of three cents per day for a year will provide more than enough money to purchase a copy of the International. Can you afford to be without it?

Ask your Bookseller show it to you.

BETTER DAYS.

Better to smell the violets cool than to sip the glowing wine;
Better to hark a hidden brook than to watch a diamond shine.
Better the love of gentle hearts than beauty's favors proud;
Better the roses' living seed than roses in a crowd.
Better to love in loneliness than bask in love all the day;
Better the fountain in the heart than the fountain by the way.
Better be fed by mother's hands than eat alone at will;
Better to trust in God than say, my goods my storehouse fill.
Better to be a little wise than in knowledge to abound;
Better to teach a child to love than fill perfection's round.
Better sit at a master's feet than thrill a listening state;
Better suspect that thou art proud than be sure that thou art great.
Better to walk in the realm unseen than watch the hour's event;
Better the "Well done" at the last than the air with shouting rent.
Better to have a quiet grief than a hurrying delight;
Better the twilight of the dawn than the noonday burning bright.
Better a death when work is done than earth's most favored birth;
Better a child in God's great house than a King of all the earth.
—George Macdonald.

Subscribe for and advertise in the Gazette.

IT would be something of a joke if the forces would fuse, in the congressional district, and while schoolteacher McCleary is running about the country telling people how to vote, would in his own district elect his opponent on the Prohibition ticket.

THE Pioneer press in a lengthy editorial admits that the chances for the election of C. A. Towne and Mr. Ringdoll to Congress from the Sixth and seventh districts is among the possibilities. Quite an admission for a leading Republican paper. The P. P. however, cautions the faithful to be on the lookout and try to accomplish their defeat if possible. Mr. Morris only had a few hundred more votes than Mr. Towne two years ago, and Mr. Eddy in the Seventh had something over 2,000 more than his opponent. And this, too, in a presidental year. The chances certainly are, as the Pioneer Press fears, inclined to be favorable to Towne and Ringdoll.

THE Pioneer Press has a suggestive picture of candidate Eustis firing by the help of a large cannon, speeches at the Democrats, who are represented as on the run. We would suggest that the Democrats would be perfectly safe if they would just hold up for sheilds "veto of transfer" "Guaranty Loan directorship." "Old soldiers have outlived their usefulness." His Delano speech of two years ago when he thought people were not hurt so long as they did not find it out, any more than was his brother, who in his younger days was obliged to carry the full pail of water which William Henry slipped along the pole until the whole weight came on his brother's sholders, Try one like that, Pioneer.

Among Our Exchanges.

Aitkin Age: Judges Mitchell and Canty are deservedly popular and will poll a very large republican vote. They have been tried and not found wanting and people will lose nothing by retaining them.

The Too-Full Treasury.

When the present Administration came in the money locked up in the Treasury and unavailable for industrial uses was $196,526,796 15.

To-day the money locked up in the Treasury and unavailable for business purposes is $214, 069, 836 01.

In both cases we omit the amounts of Treasury money deposited in banks and therefore available.

But the difference does not actually represent the amount of circulating money available for business purposes. For in the interval there have been coined $110,000, 000 in gold and $28,000, 000 in silver - in all $138,000,000 - all of which has gone into circulation.

Nevertheless our present combination of Dingley tariff and internal-revenue taxes is rapidly locking up the country's money, as the rise in the interest rate shows.—World.

County Politics.

Some of our used-to be Democratic bosses are said to be figureing with bosses of the Republican party in Wright County to arrange a ticket with men from both parties to win. That is an old game. It has been played too often. People are heartily tired of that kind of politics. They don't want any more of it. It is claimed that several candidates on the Republican ticket are to be endorsed by the Democratic convention!

Possibly if the Democrats fail to attend primary elections and vote for delegates to the county convention who will represent them as they wish to be represented this endorsement business may go. But if the democrats who are opposed to making a ticket of Republicans, of men who have manipulated the machine for a quarter of a century claiming to be democrats, and of castouts from their own parties, or men of no party nor principles, see to sending delegates to the County Convention who will do right, then this miserable mongrel ticket will die a bornin' as it should. Honest Republicans, and we believe there are some, don't want to have their candidates for one or two of the most important offices in the county defeated at the polls, on account of this double dealing. Honest Democrats denounce the talked of ticket as an imposition upon their intelligence, and good intentions.

Both parties to the trade of course will tell you, provided the bargain is consummated, that they did so in the interest of their respective Congressman, and state ticket. As a matter of fact, it appears to us, and to others, that so far as the Democratic nominees for Governor or for Congress being helped by the talked of trade their chances would be materially affected in the wrong direction.

We believe the Republicans have good men that are able to take care of county offices and who can get elected to some of the offices without tricking and trading with the Democrats. And there are plenty of good, straight Democtats in Wright County, who if honestly nominated by a convention of delgeates representing the party can beat all such mongrel tickets as that which has been suggested clear out at the polls.

Give us straight men, on straight tickets; the issues between the National, and between the State ticket is a sufficient line of demarcation. The Democrats that are Democrats, believe in the platform of the Democracy of 1896; they believe in reforming things in the state. The Republicans want to jog along in the old ruts, they want to keep the old officers; they want to do bussiness on the old plans. Soon the cry will be what has become of Minnesota's boasted wealth in lands, forests, minerals' ect, ect, at the rate things have been going. Already people want to know why banks are reported in good standing at about the same time they break, and a whole lot more things too numerous to mention. Let us, as Democrats, see to it that delegates representing our sentiments, and who can be relied on to work for truth and morality and everything that is right go to Buffalo to the County Convention. Of course those advocating the mongrel ticket will be more than ever in evidence, pay no attention to them. If you are a good respectable citizan go as a delegate yourself, if you can, good delegates representing Democracy is what is wanted; then the ticket will be all right.

ALVA Eastman of St. Cloud worries considerable because Charles A. Towne won't come to that place and enter into a joint discussion with J. Adam Bede, on his varied plan of fun making for the people. Perhaps Mr. Towne would respond to a call to talk in St. Cloud with the Hon. Alva himself as opponent, the discussion to be confined to locating Insane Asylums. Now don't flunk Alva, you surely know something about that subject.

UNTIL the Peace Commissioners report is made and acted on the war with Spain is not ended. The government refuses to disband any more troops than has already been ordered home. The Oregon and Iowa are to sail for the Pacific coast soon as in repair. Reinforcements are talked of for Admiral Dewey, at Manila. And the Turks are to make satisfactory, as far as possible, amends for their depredations on American Citizens, or some of our vessels are to go over and take satisfaction. Things don't look altogether peacable just yet.

GOV. CLOUGH and Congressman Morris are pulling and hauling at the officials at Washington to have the 14th Reg. discharged at St. Paul or at Duluth. Morris seems to have won the case, then Gov. Clough came in again claiming that the soldiers would get pneumonia and wants them discharged at St. Paul. Duluth people claim that the Gov. favors St. Paul in the interist of St. Paul merchants who might get a few dollars of the soldiers money. The boys should be discharged where the majority of them would be most benefitted, and not where merchants or railroads or any other people would make the most out of them.

DEMOCRATIC Judicial Convention.

A Democratic Judicial Convention for the Eighteenth (18th) Judicial District of the State of Minnesota will be held at the Court House in the village of Elk River, in the County of Sherbourne and State of Minnesota on the thirteenth (13) day of October, A. D., 1898, at one (1) o'clock P. M., on said day for the purpose of placing in nomination a candidate for Judge of the District Court from the above named District, and for the transaction of any other business that may properly come before said convention.

Each county will be allowed one delegate-at-large, and one delegate for each one hundred and fifty (150) votes or major fraction thereof cast for William J. Bryan for president in 1896, as follows:

Anoka	6	Isanti	6
Sherburne	5	Wright	15

Dated at Elk River, Minnesota, September 11th, 1898.

By order of the Judicial Committee for the Eighteenth Judicial district.

CHARLES S. WHEATON, Chairman,
J. N. NILES, Secretary.

A Few Words To Girls Traveling Alone.

A FEW words about how a young woman should conduct herself when traveling. There is no country in the world where woman are treated with more respect than in America, and it is proverbial that they travel from one end of the country to the other without being molested or annoyed, if they are sufficently dignified But this is a very large "If," and it means that girls should be careful whom they speak to or even look at when traveling alone. Men very often will offer newspapers and magazines to woman on board a train or boat. It is safer to accept nothing from a stranger, as it invariably leads to conversation. Conversation of any kind with anyone of the opposite sex whom you do not know is considered very bad form, and generally dangerous. There is no necessity for being prudish and prim' but be perfectly natural, and refuse all offers of politeness from strangers in a quiet, but firm manner. Buy your own ticket, check your own baggage, and keep to your yourself. It may not be quite so amusing, but safer in the end, and may save you a great deal of annoyance.—From "Phisical Culture for Busy Women:" in Demorest's Magazine for October.

WANTED—SEVERAL TRUSTWORTHY PERsons in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $21 a year and expenses—definite, bonafide, no more, no less salary. Monthly $75. References. Enclose self addressed stamped envelope. Herbert E. Hess, Prest., Dept. M, Chicago. 51-2t

IF you desire to have United States Senators elected by the people you must cease electing Republican State Senators and Representatives pledged to vote for C. K. Davis, Knute Nelson or any other man.

A BIG discussion on finances, was held at the Omaha Exposition this week. Noted orators represented the different phazes of the money question. Among the orators were our Sixth District next Congressman Hon. C. A. Towne of Duluth.

Didn't Turn Out

Minneapolis blames St. Paul for not turning out more numerously to hear Senator Davis, and St. Paul claims that Minneapolis is no place to get up a crowd. But Senator Davis talks to the whole country, not to the Twin cities alone. They are very small part a of his audience.—Duluth News Tribune.

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, D. C., Sept. 16, 1898.

Mr. McKinley may be compelled to abandon that investigation of the war by a commission, owing to his inability to get men of prominence to serve thereon. John Sherman, who was kicked out of the Cabinet because it was alleged that his wits had gone wool-gathering, punctured this commission scheme when he called attention to the fact that it could not compel witnesses to testify. That is a fatal defect. The Commission can only take voluntary testimony, and every school-boy knows that military officers are not likely to volunteer to give testimony that will reflect upon their superiors. Mr. McKinley may succeed in forming his commission, and it may go through the form of making an investigation until it is made by a Congressional Committee cloaked with all the authority of a court of law. Then the facts and the rascals will become known.

The Peace Commissioners have had their powwow with Mr. McKinley, received their instructions, and departed for Paris, via New York. It would be easy to follow the majority of the Washington correspondents, and give what purported to be the substance of those instructions, but as the instructions have never been put upon paper and are absolutely unknown outside of the administration and of the Peace Commission, they can be guessed at by one man about as good as by another. So each of your readers may do his own guessing.

This administration has made a specialty of handling seats in the U. S. Senate as though they were petty Federal appointments. The scheme to send Senator McMillan, of Mich., to England as American Ambassador in order that Secretary Alger might step into his seat in the Senate has had to be abandoned, owing to the unpopularity of Alger since the public has known of his culpable mismanagement of the War Department, but it was at once succeeded by a new one, which only needs the consent of Senator Hoar, which has been once refused, to go through. This scheme is to send Hoar to London as Ambassador, put Secretary Long in his seat in the Senate, and make Assistant Secretary Allen, Long's successor in the Cabinet. Pressure is now being used to bring about acquiescence on the part of Senator Hoar, but its success is by no means sure. Hoar doesn't wish to leave the Senate, of which he regards himself as one of the principal owners, and it is doubtful whether he can be forced to do so, as John Sherman was. The scheme does not commend itself to republicans from other states, as Massachusetts already has one Ambassador.

The use of the power of the War Department to prevent a parade of troops in New York City, which Gen. Miles was for some reason anxious to have take place, and which he had positively said would take place, was in itself and insignificent matter, but it shows the bad feeling existing between Miles and the Department, and the intention of the department to humble Miles whenever possible to do so.

According to stories which have reached Washington, there is more trouble among the Maine republicans than that caused by the falling off in their vote. There has been opposition to Senator Hale in the party ranks for a long time, and his marked friendliness for Spain, just previous to the war, increased it to formidable proportions. Czar Reed has encouraged this opposition as much as he could without openly participating therein, although he has repeatedly said that he would not accept a seat in the Senate himself; but the statement that "Joe" Manley would be a candidate for Hale's seat may result in making Reed help Hale to get reelected, as he would rather see the devil in the Senate than "Joe" Manley.

There isn't the slightest doubt that the republicans are becoming alarmed over the prospects of the capture of the House by the democrats. Chairman Babcock and Secretary Overstreet, of the Republican Congressional Committee, have both made visits east within a week, one to Boston and the other to New York, and there are reasons to believe that both of them went after the same thing money to be used in the campaign. That the sentiment of the country is now with the democrats is what all the correspondents of the Democratic Congressional Committee say, and all the callers at committee headquarters tell the same story. Unless there is a great change before election there is every reason to expect that sufficient democratic gains will be made in the following states to give the party control of the House by a good working majority: Kentucky, Va., N. Y., N. J., O. Ill., Wis., Mass., and Conn. One democrat, after sizing up the situation said: "The only thing I fear is that the situation may change again before election. But I don't see how it can."

ADVERTISE HERE.

DEMOCRATIC County Convention and Primary Election

A Democratic County Convention for the County of Wright and State of Minnesota, will be held in the Court House in the village of Buffalo in said county on Saturday, the 8th day of October, 1898, at 11 o'clock a. m. on said day, for the purpose of nominating candidates for the following named county offices of said Wright County, viz: Auditor, Treasurer, Sheriff, Register of Deeds, Judge of Probate, County Attorney, Superintendent of Schools, Surveyor, Coroner, one Commissioner for the Second and one for the Fourth Commissioner districts.

And also for the purpose of placing in nominateon candidates for the following named offices in the Fourty-sixth Legislative District in the State of Minnesota, viz: One(1) Senator, and two (2) Represenatives.

Also for the futher purpose of electing 15 delegates to represent said Wright County in the Democratic Judicial Convention for the Eighteenth (18th) Judicial District of said State of Minnesota, to be held in the village of Elk River, Sherburn County, Minnesota, on the 13th day of October, A. D. 1898, at 1 o'clock p. m.

A primary election will be held in the several election districts in said county, to elect delegates to said County Convention on Tuesday, the 4th day of October, A. D. 1868, commencing at 7 o'clock p. m. and continuing one hour, at a place to be hereafter designated by the respective precinct committees.

Each of the several election precincts in said Wright county, Minnesota, are entitled in said convention to one delegate and one additional delegate for each forty (40) votes or major fraction thereof cast for John Lind for governor in 1896, as follows:

Albion	3	Marysville	5
Buffalo	3	Middleville	4

HOW A PUZZLE WAS SOLVED.

When you want a certain article, you want the best make of that article, don't you?

But how to determine which make is best is what puzzles you, isn't it?

And when the puzzle is solved for you, 7 authority which cannot be questioned, you are pleased, aren't you?

And you would like to hear of one puzzle that has been solved for the people of the whole world, wouldn't you?

Well, we will tell you about that very puzzle, and its solution.

At the Universal Exposition of 1889 at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France.

This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered, the GRAND PRIZE, giving other companies only gold, silver and bronze medals.

The French Government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor, the most prized honor of France.

That is how the puzzle of the best sewing machine in the world was fully solved by the most competent authority in the world in favor of the No. 9 and No. 12 Wheeler & Wilson machines.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best, it will be your own fault.

Ask your sewing machine dealer for the No. 9 Wheeler & Wilson machine, and if he does not keep them, write to us for descriptive catalogue, prices and terms.

Agents wanted in all unoccupied territory.

WHEELER & WILSON MFG. CO.,
165 and 167 Wabash Avenue, Chicago, Ill.

Republican County Convention.

Primary Election.

A Republican County Convention for the County of Wright and State of Minnesota will be held in the Court House in the Village of Buffalo in said County, on Saturday the 24th day of September, 1898, at 11 o'clock A. M. for the purpose of placing in nomination candidates for the following named county offices of said county, viz:—Auditor, Treasurer, Sheriff, Register of Deeds, Judge of Probate, County Attorney, Superintendent of Schools, Surveyor, Coroner, also County Commissioners for the second and fourth Commissioner Districts.

And also for the purpose of placing in nomination candidates for the following named offices in the Forty sixth Legislative District of the State of Minnesota, viz:—One Senator and Two Representatives.

A Primary election in each election district in said County, to elect, delegates to said County Convention, will be held in each election precinct in said County on Thursday the 22nd day of September, 1898, commencing at 7 o'clock P. M. and continuing one hour, at a place to be designated by the respective precint committee.

The several election districts in said Wright County, Minnesota, are entitled to representation in said County Convention, as follows:—

Albion,	5	Silver Creek,	4
Buffalo,	4	South Side,	4
Chatham	3	Stockholm,	7
Clearwater,	4	Victor,	4
Cokato,	7	Woodland,	3
Corinna,	3	Villages—	
Frankfort,	2	Annandale,	3
Franklin,	4	Buffalo,	4
French Lake,	6	Cokato,	3
Maple Lake,	2	Delano,	4
Marysville,	4	Howard Lake,	4
Middleville,	5	Maple Lake,	1
Monticello,	5	Monticello,	4
Otsego,	3	Montrose,	2
Rockford	6	Waverly,	3

Dated at Buffalo, Minn. August 27th 1898.

By order of the County and Legislative Committees, George C. Carpenter. Chairman of the County Committee, Wm. E. Culkin, Chairman of the County Legislative Committe. 49, 3t.

The Gazette.

DELANO, Wright Co., - MINN.

The returns of the comptroller of the currency show that individual deposits in banks have increased 14 per cent. during the past year. The largest percentage of gain has been in the west and south.

A Manila native has appeared wearing a Yankee plug hat, smoking a cigarette, and with an air of new-born freedom. Civilization advances with mighty rapid strides when she gets the proper move on herself.

Eldress Dorothy Durgin, whose death is announced from Concord, N. H., was probably the most widely-known Shaker among the 18 societies in America. She came to the Shakers at Canterbury when she was only eight years old.

Gordon was killed and Khartoum captured by the native forces January 26, 1885. The British were compelled to fall back to make a more deliberate advance. They have fought it out successfully, though it took 13 summers.

The judge advocate general of the navy has decreed that $200,000 in prize money be awarded Admiral Dewey and his men for the victory at Manila on May 1 when Montijo's fleet was destroyed. Admiral Dewey's share is $10,000.

The pursuit of the golden fleece is as perilous as ever. While there is news of arrivals of men who have made their fortunes in the Klondike, there is sadder news of broken hopes and broken health, and now and then of despair, ending in suicide.

Palestine is to have a daily paper, which will probably be established at Jerusalem by a Mr. Yehouda, a native of Russia, and a Turkish subject. We shall now hear how Ismail Effendi's horse ran away in front of the Methodist kiosk and was stopped by Emir Smith on the Mount of Olives parkway.

M. Lockroy, France's secretary of the navy, has stated that the new vessels to be built for that country's navy will be built of the dimensions and as near like the vessels of the American navy as possible. It is only a year or two since La Petit Journal of France referred to our navy as "a wash-tub navy."

The real author of "A Hot Time in the Old Town To-night" is, according to a dispatch from Denver, an old negro woman, named Amanda Green, who sang it for years until it was finally picked up by a traveling actor, who got the tune and fixed up the words to suit himself, retaining, however, the title and the main idea.

Rev. Wesley Blakely, of Keystone, W. Va., is 107 years old. He has preached 7,763 sermons, baptized 6,023 people and married 1,817 couples in 85 years. He says he has 1,081 living descendants, embracing five generations. He served in the war of 1812. His first vote was for James Monroe. In 1896 he walked five miles to vote for McKinley.

A Canadian exchange is responsible for the story that an Indian belonging to the Creek nation, and bearing the name of Jack Pot, is now living in comparative peace with his four wives, and seems to be happily consoled for the death of their 22 predecessors. Jack Pot is 108 years old. The sound teeth in his head are said to be the third set with which nature has endowed him.

We are in the habit of thinking of Russia as a compact, powerful nation, able to crush any other single nation on the face of the earth. On paper she has the largest army, and it would seem that just by mere force of numbers she ought to prove irresistible. But when we consider that there are considerably more than 100 nationalities in Russia, and that more than 50 languages are spoken there, the idea of solidarity vanishes and we see the elements of weakness in an overgrown monster.

It is of interest to note the manufacturing statistics which show that 500,000 sewing machines are made in this country in a year, and that not less than 65 factories are in operation, giving employment to 10,000 persons, and having annual receipts of more than $15,000,000. It appears from these rather impressive figures that this useful invention has taken its place among the things indispesable to domestic comfort and no longer needs a brass band to call the attention of "the lady of the house" to its merits.

The idea that it has never been given to any American lady until now to play such a part in the British empire as has fallen to the lot of Mrs. George Curzon is a mistake. The marquis of Wellesley, was not only one of the most celebrated of all the British rulers of India, but likewise served two separate terms as viceroy of Ireland. His consort was an American lady, one of the three beautiful daughters of Richard Caton, of Philadelphia, and the granddaughter of Charles Carroll, of Carrollton, signer of the declaration of independence.

A warm welcome is extended by everybody to the returning soldiers of the Spanish war. Though it happened that some of them were not called on to fight any of the country's battles, they proved their courage and their loyalty when they left home and business and volunteered for whatever service offered. They have not had to fight, but they have endured a long and trying summer and have proved their mettle hardly less than they would have done in actual war. That they are privileged to return at this time is matter for general rejoicing.

B. J. Hallberg, of Osage City, Kan., has received a check for $35 from the auditor of the navy department, together with a letter to the effect that the money was his share of a fund raised in New York for the benefit of the relatives of those killed by the blowing up of the battleship Maine. More than five years ago Hallberg's son ran away from home, and his parents heard nothing of him until his name appeared on the list of the Maine's dead. Then Mr. Hallberg sent a photograph and a description of his son to the navy department.

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

Capt. Evans has been relieved at his own request of the command of the battleship Iowa, and Capt Silas Terry succeeds him.

Orders were issued by Secretary Long disbanding the eastern squadron and assigning its commander, Commodore J. C. Watson, to duty as commandant of the Mare island navy yard in California.

The battleship which is to be built by the Union iron works in San Francisco will be named the Ohio. The Cramps will build the Maine and the Newport News company the Missouri.

Upon arrival at Vigo, Spain, Gen. Toral, who surrendered the Spanish army at Santiago to the Americans, was greeted with a storm of hisses and abuse.

Advices from Gen. Otis at Manila state that the insurgents have acceded to all demands imposed by him and that they have evacuated the entire city.

Spain's queen regent has signed the decrees ceding territory to the United States, thus making complete the terms of the protocol.

At Malolos the Philippine national assembly was inaugurated and in an address Aguinaldo, the insurgent leader, said his followers desired complete independence.

Montero Rios, president of the senate, will preside over the Spanish peace commission.

The president has fixed the army of occupation for Cuba at 50,000 men, that of Manila at 20,000, Puerto Rico 12,000 and Honolulu 3,000.

United States commissioners to conclude the terms of peace with Spain sailed from New York on the steamer Campania for Paris.

At Camp Wikoff, Long Island, the Society of the Army of Santiago was organized with Gen. Shafter as president.

In San Juan the work of the military commission is practically over, all arrangements for the evacuation by the Spanish troops and the receipt of government property having been determined upon.

All but eight of the Spanish prisoners in Santiago have been returned to Spain.

In Spain the supreme council of war suspended Admiral Montijo, whose squadron was destroyed by Admiral Dewey in Manila bay, and has summoned him to come to Madrid at once.

FROM WASHINGTON.

Throughout the country the volume of business is reported to be larger than for years past.

Mr. Day tendered to the president his resignation as secretary of state and Assistant Secretary Moore also resigned.

In the month of July the total internal revenue receipts amounted to $27,804,673, a net increase of $8,331,710 over July, 1897.

THE EAST.

In the seven days ended on the 16th there were 174 business failures in the United States, against 164 the week previous and 204 in the corresponding period of 1897.

Off Martha's Vineyard, Mass., a steamer collided with the schooner Alice Jordan and nine of the Jordan's crew were drowned.

In the National league the percentages of the baseball clubs for the week ended on the 18th were: Boston, .656; Baltimore, .635; Cincinnati, .611; Cleveland, .579; Chicago, .550; New York, .535; Philadelphia, .504; Pittsburgh, .500; Louisville, .434; Brooklyn, .392; Washington, .323; St. Louis, .268.

At the age of 35 years Miss Winnie Davis, daughter of the late Jefferson Davis, died at Narragansett Pier, R. I., of malarial gastritis.

By the upsetting of a boat Patrick Kelly, aged 26; William Kelley, 24, and William Gorman, 18, were drowned at Middletown, Conn.

John Marsh and Ernest Branford, confined in the lockup at Stafford Springs, Conn., were suffocated by a fire that destroyed the building.

At Morristown, N. J., Findlay Douglas, of Greenwich, Conn., won the amateur golf championship of America.

WEST AND SOUTH.

Conductor D. M. Riley, Engineer John Pittinger and Fireman Fred Proctor were killed in a wreck on the Rio Grande railroad near Saparino, Col.

At their convention in Denver Henry R. Wolcott, of Denver, was nominated for governor by the Colorado republicans.

In Louisville, Ky., Nellie McGuffin killed Joseph F. Villier and his little child and then ended her own life. The cause for the deed was unknown.

Marshall Field, Philip D. Armour and Norman B. Ream, of Chicago, are said to have obtained control of the Baltimore & Ohio railroad.

At a sawmill near Evergreen, Ala., a boiler burst and Bud Archer, the engineer, his wife and child and his wife's sister were instantly killed.

On the Chicago & Northwestern railway a special train established a new record between Chicago and Omaha, making the run of 493 miles in nine hours and 29 minutes.

At Sioux City, Ia., Bloomfield, Neb., and at Elk Point and Hurley, S. D., severe earthquake shocks were felt.

James E. Jones was nominated for congress by the democrats on the one hundred and fortieth ballot in the Second Wisconsin district.

At the age of 61 years Gen. George W. Smith, ex-treasurer of Illinois and a veteran of the civil war, died in Chicago.

In Fort Wayne, Ind., Chevalier Maximilian de Proskowetz, consul-general of Austria-Hungary, in Chicago, fell from a train while en route to New York and was killed.

In the Eighth congressional district of Alabama Gen. Joseph Wheeler was unanimously renominated for congress.

In Columbus, O., Brig. Gen. Joseph T. Haskell died suddenly at his home, aged 60 years. He commanded the Seventeenth infantry at the battle of El Caney, Cuba, and was twice wounded.

Fred Benfield, in a fit of drunken rage, fatally shot Mrs. Emma Jungenberg and her baby son, Emil, in Chicago, and then committed suicide.

The Interstate Baseball league season closed with the Dayton (O.) club as winner of the championship.

FOREIGN INTELLIGENCE.

The American and French missions were attacked and burned in riots at Ho Chou, China.

Further reports from the West Indies show that in the hurricane at St. Vincent 300 persons were killed and 20,000 were injured and rendered homeless.

President Diaz said in opening the Mexican congress that peace and friendship characterized all the relations of Mexico with foreign nations.

Dr. John Hall, for 30 years pastor of the Fifth Avenue Presbyterian church in New York, died in Belfast, Ireland, aged 69 years. He was on his annual trip to Europe.

It has been ordered by the sultan that all arms in possession of the Mohammedans at Candia, Crete, be surrendered in compliance with the demands of the British.

The remains of Elizabeth, empress of Austria and queen of Austria-Hungary, victim of an assassin, were buried in the imperial cemetery under the church of the Capuchins in Vienna.

LATER NEWS.

Captain Brown, of the American schooner Maryland, died on board his ship in Havana harbor of yellow fever. Four of his sailors are sick with the disease.

Aguinaldo sends a message of good will to the people of the United States and says the rumors regarding strained relations are slanders.

As the result of an attempt of a party of non-union men to enter the works of the American Wire Works, Cleveland, O., where a strike has been on for some time past, a pitched battle took place between them and the strikers. A number were seriously hurt.

An attempt was made to poison Aguinaldo, but unsuccessful. A Spanish prisoner who had been allowed freedom was seen tampering with a bowl of soup, whereupon the steward tasted a spoonful of the soup and fell dead.

A severe hurricane passed over the northern portion of Spain, killing and wounding a number of persons and razing many buildings.

Senator C. J. Faulkner, of West Virginia, was appointed to the position on the Canadian commission made vacant by the retirement of Senator Gray.

A deal is on foot for the organization of all plug tobacco factories into a combine or trust. Two St. Louis companies are holding off for a good stiff price.

Five regiments now at San Francisco have been ordered to Manilla. Arrangements for their transportation will be made at once. The regiments ordered to Manilla are the following: Fifty-first Iowa, Twentieth Kansas, First Tennessee, First Washington and a detachment of the Second Oregon.

The administration will send to Cuba as a garrison force for the island about forty thousand troops in addition to the force now in Santiago under command of General Lawton.

Secretary Alger and party inspected Camp Hamilton, at Louisville, Ky., and reviewed the troops. The health of the troops is excellent.

It has been practically decided by the war department that Camp Meade will be abandoned within 30 days. The 15th Minnesota and other troops will be sent to various places in the South.

Eight men cremated and eight more fatally burned is the result of the most disastrous fire that ever occurred in Toledo, O. The spontaneous combustion of dust in the grain elevator owned by Paddock, Hodge & Co., caused this terrible destruction of life and none of those who were tagen out after the fire started were far enough from death's door to tell any of the details.

The first American flag in Havana was hoisted the 20th on the flag staff of the Trocha hotel, the headquarters of the American Evacuation committee. All the members of the commission raised their hats and cheered the stars and stripes.

The diplomatic representatives of Russia, France, Belgium, Spain and Holland, at Pekin, China, called upon Li Hung Chang to condole with him upon his dismissal from the Chinese foreign office. Much comment has been excited by the action of these members.

The sovereign grand lodge of I. O. O. F., in session at Boston, Mass., unanimously elected Alfred S. Pinkerton, of Worcester, Mass., grand sire. The next meeting will be held at Detroit, Mich.

The workmen of Bilbao, where the cruisers which belonged to Admiral Cervera's fleet were built, have decided to go to Santander in order to make a demonstration against the defeated Spanish admiral on his return to Spain. The government, however, has taken measures to prevent the plan being carried out, and the ministry has forbidden demonstrations welcomming Cervera home.

It is expected that the 15th Minnesota troops will be ordered to Cuba the first or middle of October when the details of the evacuation will have taken some shape and danger from fever will have become less menacing. In addition to the seventh army corps of about 30,000 it is planned now that the remaining six immune regiments also now in this country will go to Cuba.

Poultry—Turkeys, 7 to 8c; spring chickens, 7 to 8c.

ANSWER DEATH'S CALL.

Five War Veterans Pass Away—Two Were Heroes of the Cuban Campaign.

Columbus, O., Sept. 17.—Brig. Gen. Joseph T. Haskell died suddenly at his home at the Columbus post about 4:30 Friday afternoon. He was stricken with apoplexy, the excitement through which he had passed during the day being the immediate cause of the attack. Gen. Haskell commanded the Seventeenth infantry at the battle of El Caney and was twice wounded in the left shoulder and knee. He came home about a month ago and was rapidly recovering. The wound in his shoulder, however, had paralyzed his left arm, which he carried in a sling. Friday morning the Seventeenth regiment returned home, and Gen. Haskell went to the depot in a carriage to welcome his gallant men. He rode at the head of the regiment through the city to the post, and the cheers of the immense crowds of people that lined the streets were directed almost as much to him individually as to the regiment. At the reviewing stand the crowd surrounded the carriage and flowers were fairly showered into the vehicle from every side. He was born at Cincinnati November 19, 1838.

Washington, Sept. 19. — Capt. Allyn Capron, First artillery, died at his home near Fort Meyer, Va., Surday. Capt. Capron was one of the best-known officers in the regular army. When Gen. Shafter's corps went to Santiago Capt. Capron accompanied it, and his battery did notably fine work in the battle of Santiago. During the first day's fight before the city Capt. Capron's son, Capt. Allyn K. Capron, of the rough riders, was killed.

Chicago, Sept. 17.—Gen. George W. Smith, ex-treasurer of Illinois, a prominent attorney and a brave soldier who commanded the Eighty-eighth Illinois regiment during the war of the rebellion, died suddenly Friday at his home, 514 North State street. For some time Gen. Smith had not been in good health, but no apprehension was felt by the family. He was seized with an attack of heart trouble early Friday morning and died at four o'clock, having been ill only two hours.

Philadelphia, Sept. 16. — Maj. William E. Baldwin, of the Sixth Illinois volunteers, died Thursday in the Orthopaedic hospital in this city, of typhoid fever. Maj. Baldwin was brought to this city about ten days ago on the hospital ship Relief from Puerto Rico.

Keene, N. H., Sept. 16.—Gen. James Jensen Dana died in this city Thursday after a short illness. He went through the civil war, rising to the rank of brigadier general in the quartermaster's department.

GATHER IN BOSTON.

Supreme Grand Lodge of Odd Fellows Warmly Welcomed at the Hub.

Boston, Sept. 20.—An official welcome to the Sovereign Grand Lodge of the Independent Order of Odd Fellows was given in the Y. M. C. A. hall Monday. The members of the sovereign grand lodge, 200 in number, and the ladies representing the Order of Rebekah were escorted to the hall by committees.

J. W. Venable, of Hopkinsville, Ky., grand chaplain of the sovereign grand lodge, began the exercises with prayer. Charles N. Alexander, of Boston, chairman of the executive committee of the grand lodge of Massachusetts, then assumed the chair and after a few remarks announced Gen. F. B. Appleton, of the governor's staff, who welcomed the grand lodge and members of the Rebekah branch in behalf of the state.

Gov. Wolcott had intended to be present and welcome the visitors, but he attended the dedication of the Massachusetts soldiers' monument at Antietam, Md., on Saturday and was unable to reach this city in time. Mayor Josiah Quincy spoke for the city of Boston The other speakers included Hon. Charles Q. Terrel, grand master, for the grand lodge of Massachusetts; Charles O. Fuller, grand patriarch, for the grand encampment; Gen. Edgar R. Emerson, of the patriarchs militant, and Mrs. Mary O. Nevins, representing the Rebekah branch of the order, in this state.

DEATH IN THE WIND.

Awful Havoc Caused by Hurricanes in the West Indies—Many Lives Reported Lost.

St. Vincent, British West Indies, Sept. 16.—The official reports reduce the number of deaths here during the hurricane. It was at first estimated that 300 lives were lost, but it is now believed the number is considerably smaller. The exact figures are not obtainable.

People are flocking into Kingston, St. Vincent, from all the country round for shelter and food. Everywhere it appears that all the small buildings and many large ones were destroyed, and there is no doubt that the fatalities were numerous.

Trinidad, British West Indies, Sept. 16.—A steamer which has arrived here from Barbadoes reports that fearful havoc was caused there by the hurricane on Saturday night. The destruction of property was immense. It is believed over 150 persons were killed throughout the island and numbers were rendered homeless and destitute. The shipping suffered seriously. The ship Loando, a bark and two barkentines broke from their anchorage and were driven to sea. They had not returned when the steamer left Barbadoes. Many local vessels were wrecked or blown out to sea. Bridgetown, the capital of the island of Barbadoes, is a scene of desolation and ruin. Demolished or roofless houses are to be seen on every side and hardly a tree is standing.

Found No Gold.

Seattle, Wash., Sept. 20.—The steam schooner Excelsior arrived Monday afternoon from Copper river, Alaska, with 200 prospectors who failed to find gold. They report that the gunboat Wheeling will bring down 150 destitute men from Copper river.

Soldier Nominated.

Cincinnati, Sept. 20.—Lieut. Col. W. J. White, superintendent of schools at Dayton, O., and awaiting with the Third Ohio regiment to be mustered out, has been nominated by the republicans of the Third district for congress.

LAID AT REST.

Body of the Dead Empress Placed in the Tomb—Requiem Mass at Washington.

Vienna, Sept. 16.—The funeral train arrived at ten o'clock Thursday evening, Prince Von Liechtenstein, the chief court marshal, the officers of the general staff and a miltary guard of honor were waiting at the railway station, which was heavily draped with crepe. The clergy having blessed the remains, the procession started for the hofburg. The whole route was lined with troops, and immense crowds, bareheaded, stood silently watching. The soldiers presented arms as the procession passed. The streets were imposingly decorated. On reaching the hofburg the remains were transferred to the chapel. Emperor Francis Joseph, with the principal mourners, had driven from Schonbrunn to the chapel to attend the ceremony of blessing the body.

The emperor's coming had been kept a secret from the people. He was accompanied by his daughters and his sons-in-law. After the benediction all departed except the emperor and the relatives, who remained along with the beloved dead until shortly before midnight, when they returned to Schonbrunn. All the festivities in connection with the jubilee of Emperor Francis Joseph have been completely abandoned. The emperor will spend six months in almost absolute retirement, only attending to state business and not going even for the usual autumn deer shooting.

Vienna, Sept. 19.—The body of the late empress was Saturday placed in the tomb amid impressive ceremonies. Emperor William and many royal princes attended the funeral. The coffin will remain in the crypt until the sarcophagus is completed, when the body will be placed beside that of her son, Crown Prince Rudolph.

Washington, Sept. 19.—President McKinley drove at 10:20 o'clock Saturday to St. Matthew's church, where Cardinal Gibbons said mass for the repose of the soul of the late empress of Austria. It was a most imposing service, and was attended by the president, members of the cabinet, and of the diplomatic corps in the city. Ambassador Cambon returned to Washington especially to be present.

New York, Sept. 17.—A solemn requiem mass for the repose of the soul of the dead Empress Elizabeth of Austria was celebrated in St. Patrick's cathedral Friday. Archbishop Corrigan was seated on the throne in the sanctuary and Father M. J. Lavelle by his side. There were present the consul generals of Austria (who acted as usher), Switzerland, France, Japan, Turkey, Greece, Russia and Guatemala, all in full uniform, and about 200 persons, including many Austrians.

THE TRADE SITUATION.

As Reviewed by R. G. Dun & Co.—Grain and Iron—Failures for the Week.

New York, Sept. 17.—R. G. Dun & Co.'s weekly review of trade says: "Business is passing well through the difficulties that attend the winding up of a war, which are generally greater than those involved while war is in progress. The rush of orders kept back while war lasted, by those who thought it shrewd not to take any chances, has lifted prices a little and caused a larger demand for the time than can continue, but though it has passed, there is an evidence that the consuming demand is very large. How large can only be judged after some weeks of waiting. But once more it looks as if those who wait longest are likely to pay most. The business of the country is expanding so that payments through clearing houses in the second week in September were 22.5 per cent. larger than in 1892, and for two weeks 12.0 per cent. larger. From these and railway returns, and such trade reports as are instructive, it must be concluded that much more business is being done than in the best of past years, though not always with much profit.

"Wheat has come forward much more freely and the price has advanced two cents. It is supposed that the advance is largely due to milling demand coming upon a narrow supply. The foreign demand will be smaller and the American crops larger than last year. The slight yielding in corn was due rather to the government report, which is not entirely discredited as to that report, than to any change in movement, which has been small compared with last year.

"With the starting of 19 furnaces idle a month ago, partly not included as yet, the weekly output September 1 was 213,043 tons against 206,777 August 1, and the decrease in stock is 116,929 tons in two months, indicating a consumption but little below a million tons per month. Structural work is the heaviest ever known in Pittsburgh, though smaller at New York. Bar mills are crowded with the general railway demand for automatic couplers and orders for new cars, 800 for one road, and a large order for street cars to Japan, and plate mills are everywhere crowded. The demand for pipe is the largest for a long time, and also for boiler tubes, and the sheet mills are crowded west of Philadelphia, while the foundry consumption is heavy and the rail mills not yet ready to accept orders which they cannot deliever for months, being engaged far ahead.

"Failures for the week were 174 in the United States, against 204 last year and 23 in Canada, against 40 last year."

SCHOONER RUN DOWN.

Steamship Collides with Sailing Vessel Off Martha's Vineyard—Nine Sailors Drowned.

Boston, Sept. 17. — The steamship Gloucester, of the Merchants' and Miners' Transportation company, which arrived here in the morning from Baltimore, reports that at 1:30 o'clock Friday morning she collided with the Gloucester schooner Alice Jordan off Martha's Vineyard and that nine of the Jordan's crew were drowned. Seven of the crew were saved and brought here on the Gloucester.

Will Insist on Retention.

London, Sept. 19.—The Daily Mail's Madrid correspondent says a long conference was held between Senor Sagasta, the premier, and Senor Montero Rios, the president of the Spanish peace commission, Sunday, which resulted in the decision that the peace commission shall strenuously defend the retention of the Philippine islands by Spain.

Rev. Dr. Hall Dead.

Belfast, Ireland, Sept. 19.—Rev. Dr. John Hall, of New York, died Saturday morning at Bangor, County Down. Dr. Hall was on his annual visit to Europe. He died at his sister's residence. His health had been broken down for more than a year.

Mr. Howell Accepts.

Washington, Sept. 19.—Mr. Evan P. Howell, of Atlanta, Ga., who was asked by the president to serve on the commission to investigate certain departments of the army in connection with the war, has formally accepted the appointment.

HERO HAD HIS TROUBLES.

Woman's Care and Kindness Makes Him Think of Cuba with Longing.

"War is pretty bad, of course," remarked a blue-coated man with a bandage under his coat, "but I declare, in some ways, women are as bad as Spaniards—only they kill you with kindness instead of bullets. I came home from Santiago with this little wound in my hip, and, really, I can't tell you how I've suffered since, from the women of my family. It is all right, of course; this world would be a den of wild beasts without the love and sympathy of woman—but the dear creatures—especially those nearest to us—generally overdo it. They didn't believe my message that I was only slightly wounded, so on my arrival I was met by my wife, her mother, two maiden aunts and a girl cousin, all rallied from the four quarters of Michigan and adjoining states to nurse me. I don't need any nursing worth mentioning, but, believe me, if I've drawn a long breath in two weeks without those five women jumping up and rushing at me. I will eat my army blanket. If I wink my wife says: "What is it, dear?—if I move one leg, my girl cousin springs at me with another pillow in her hand; during the night my two aunts wake me up to see if I want anything; and my mother-in-law—well, the dear soul hasn't sat down or been to bed since I came—to my knowledge. My wound is nearly healed, and that's a blessing, for if I don't get back to Cuba pretty soon I'll be a ruined man. I can't stand such coddling—it will make a bloated tyrant out of me, so it will. A man needs war once in awhile to get him away from woman—dear, loving woman—she would make a spineless infant out of him in no time."—Detroit Free Press.

HOSTILITIES AVERTED.

But It Took the United Efforts of the Whole Crowd to Prevent a Hot Engagement.

"One of the liveliest brushes I have witnessed since the opening of hostilities," said one of the representatives at the recent meeting of the credit men, "took place in a quiet New England village of my state. Both participants had passed their three score years and ten, but were still vigorous in mind and body, and especially vigoruos in language, for both had been followers of the sea.

"One of these old fellows espoused the cause of Spain, declaring that she had been jumped on because she was little, and that this country was playing the part of a great big bully. After they had exchanged hot shots for a few minutes, the champion of the government got things to going his way by shouting that the other fellow came honestly by his principles and was bred a traitor.

"'What do you mean, you old shrimp?' from the advocate of Spain.

"'During the war with Great Britain the British entered the harbor and burned the town of New London, didn't they?'

"'Course they did. What of it?'

"'Why, somebody piloted them there and when he come home his pockets was full of British gold, paid for his dirty work, and his neighbors, hearin' of what he had done, got ropes and made him an evenin' call. He scudded by the back door and never stopped till he got to Bermuda, and he never had the cheek to come back.'

"'What you tryin' to git at?'

"'That there pilot was your grandpap.' And it took a dozen bystanders to keep the two old sea dogs from clinching."—Detroit Free Press.

True Greatness.

"Now," said the interviewer, "as to your method of working?"

"Well," replied the great author, "I take a writing pad—"

"Yes."

"And a pencil—"

"Yes."

"Seek out a quiet spot—grasp the pad firmly in one hand and the pencil in the other hand—and—"

"Yes. And—"

"And write."—Philadelphia North American.

Should Have a Commission.

Patient—What, doctor, do you mean to say you charge me two dollars a visit?

Doctor—Certainly; just the same as I charge anyone else.

"Oh, but you ought to make a reduction for me. Why, I introduced typhoid into the neighborhood!"—Illustrated American.

Illusions.

"My illusions," said she, "are all gone."

"Why," he asked, with that brutality only manifested by a man who has promised to love and cherish, "don't you go to the drug store and get some more?"—Indianapolis Journal.

Her Platform.

Mr. Willikins—Do you believe in annexation?

Miss Bidsley—Oh, Arthur, this is so sudden. But if you can gain papa's consent I will try to learn to love you.—Chicago Evening News.

A Masculine Accomplishment.

A man can carry a baby in such a fashion that he can even delude its mother into the belief that he is bringing home a package of meat for dinner.—Chicago Times-Herald.

Sure Cure for Colds

When the children get their feet wet and take cold give them a hot foot bath, a bowl of hot drink, a dose of Ayer's Cherry Pectoral, and put them to bed. The chances are they will be all right in the morning. Continue the Cherry Pectoral a few days, until all cough has disappeared.

Old coughs are also cured; we mean the coughs of bronchitis, weak throats and irritable lungs. Even the hard coughs of consumption are always made easy and frequently cured by the continued use of

Ayer's Cherry Pectoral

Every doctor knows that wild cherry bark is the best remedy known to medical science for soothing and healing inflamed throats and lungs.

Put one of

Dr. Ayer's Pectoral Plasters over your lungs

TROOPS FOR MANILA.

Five More Regiments to Be Sent to the Philippines.

Will Sail Without Delay—To Garrison Cuba — Aguinaldo Protests His Friendship—Attempt to Poison Him.

Washington, Sept. 20.—Five regiments now at San Francisco have been ordered to Manila. Arrangements for their transportation will be made at once.

The regiments ordered to Manila are the Fifty-first Iowa, Twentieth Kansas, First Tennessee, First Washington and a detachment of the Second Oregon.

It was stated at the quartermaster general's department that the returning transports which have been to Manila on one trip will be used to take the troops now at San Francisco to the Philippines. Two of these steamers which will accommodate about half the command are expected to arrive in a day or two. Other steamers now on their way will be sent back as soon as loaded with troops. Four steamers will be sufficient for the transportation of the troops and supplies. It is believed that less time will be consumed by using these transports than in fitting up new vessels.

A Garrison for the Philippines.

Washington, Sept. 20.—It was stated at the war department that no exigency had arisen which made it necessary to send the troops now at San Francisco to Manila, but the order issued Monday was in accordance with the general plan of the department regarding a garrison of the Philippines. That plan of garrison duty included 20,000 men for the Philippines, 12,500 for Puerto Rico and 60,000 for Cuba. The troops to be sent to Manila under Monday's order will fill the complement for that station.

To Garrison Cuba.

Washington, Sept. 20.—It is the present intention of the administration to send to Cuba as a garrison force for the island about 40,000 troops in addition to the force now in Santiago under command of Gen. Lawton. The organizations which are to comprise the Cuban garrison have not all been designated yet, but it is assured that at least half of them will be volunteers. Within two weeks orders will be issued for the movement to Cuba of the first 10,000 of the permanent garrison and it is the expectation now that they will sail from the United States about October 10. These troops will be followed quickly by others, until the entire force of 40,000 has been established on the island.

A Dispatch from Aguinaldo.

New York, Sept. 20.—The following dispatch has been received here:

"Manila, Philippine Islands, Sept. 19.—The Filipino government desire to inform the American government and people that the many rumors circulated regarding the strained relations between the Filipino and American forces are base, malicious slanders of the enemy to both parties, are without any truth and are circulated for the purpose of prejudicing the appeal of the Filipinos for their release from the oppression and cruelty of Spain.

"The relations of our people and yours have been and will continue to be of the most friendly nature and we have withdrawn our forces from the suburbs of Manila as an additional evidence of our confidence in the great American republic.

"(Signed) AGUINALDO."

Tried to Poison Aguinaldo.

Manila, Sept. 20.—The Republica Filipina asserts that an attempt was made to poison Aguinaldo on Friday night. A steward, it is alleged, saw a Spanish prisoner who had been allowed his freedom make a movement which appeared like tampering with a bowl of soup intended for Aguinaldo, whereupon the steward tasted a spoonful of the soup and fell dead. Eleven Franciscan friars are alleged to have been engaged in the conspiracy. The populace, it is further said, attempted to lynch all the Spanish prisoners, but Aguinaldo intervened.

"Daughter of the Confederacy" Dead.

Narragansett Pier, R. I., Sept. 19.—Miss Winnie Davis, daughter of Mrs. Jefferson Davis, died at noon Sunday at the Rockingham hotel, to which place she came as a guest in the early part of the Pier's social season. She had been ill for several weeks and a fortnight ago her ailment was diagnosed as malarial gastritis. Miss Winnie Davis, the "Daughter of the Confederacy," was born in the confederate executive mansion at Richmond, Va., in 1863.

France Is Conciliatory.

London, Sept. 19.—From Cairo and from an entirely independent source the Mail learns that France has assumed an entirely conciliatory attitude towards Great Britain and has declared that the expedition of Maj. Marchand is quite unofficial. The sirdar will offer to take Maj. Marchand to Cairo, and it is probable that the major will accept and that Fashoda will be occupied by Egyptian troops.

Fatal Storm in Spain.

Madrid, Sept. 20.—A destructive hurricane swept over southern Spain, doing great damage in the provinces of Seville and Granada. Six persons were killed and many injured and a number of buildings were destroyed at Seville and 85 houses were demolished and many persons fell victims to the storm at Guadix, in the province of Granada.

IS AFTER CEBU ISLAND.

Germany Said to Be Ready to Seize One of the Philippines for Its Coal Deposits.

New York, Sept. 20.—A special to the Herald from Washington says:

As an indication that Germany has been scheming to share in the disposition of the Philippines, the authorities have heard that, acting under instructions from Berlin, the German commander in chief of the Asiatic station has made an exhaustive investigation of the coal deposits of the islands.

He was assisted by a German engineer who has been temporarily assigned to his squadron for the special purpose of locating coal.

That engineer conducted a thorough investigation, and his report, which has been submitted to the Berlin government through Vice Admiral von Diedrich, shows that the best lignite deposits are located on the island of Cebu, one of the Visayas group.

Aware of Germany's proceedings, the authorities are taking precautions to prevent the consummation of any new plan which will enable them to reach fruition. The Berlin government, by the reduction of its fleet in Manila bay, gave an indication of its desire to remain on friendly terms with this government.

It is no longer a secret that Germany is the only nation from which the government apprehends trouble in the settlement of the Philippine question, and it was to avert the commitment of an overt act that the president determined to so strengthen Rear Admiral Dewey's command as to make it the superior of the German fleet in Asiatic waters.

A TRIPLE TRAGEDY.

A Former Servant Kills a Louisville Man, His Child and Herself.

Louisville, Ky., Sept. 16.—Joseph F. Villier, his two-year-old child and a woman named Nellie McGuffin were found dead in a room in the Enterprise hotel Thursday morning. From notes left by the woman it was learned she had given Villiers and the child morphine in wine, but, fearing that this would not be effective, had shot him through the right temple and then turned the revolver upon herself, death being instantaneous in each case. The child was already dead from the effects of the drug. Villier was a motorman for the Louisville City Railway company and was 26 years old. He was a widower. The woman had once been employed by Villier as a servant.

Philippine National Assembly.

Manila, Sept. 17.—The Philippine national assembly was inaugurated at Malolos Thursday with great enthusiasm. In an interview Aguinaldo declined to discuss the American army and protested his undying gratitude to the Americans. He said they had come to the Philippines to fight the Spaniards only, and, now that they had finished the task, it was to be expected that they would return to America. He was unwilling to believe that the Americans would demand a reward for an act of humanity.

Peace Commissioners Sail.

New York, Sept. 19. — The United States commissioners to conclude the terms of peace with Spain sailed on board the Cunard line steamer Campania, en route to Paris. The commission consists of Former Secretary of State William R. Day, United States Senators William P. Frye, Cushman K. Davis and George Gray and Whitelaw Reid. Each commissioner is accompanied on the trip by his wife or other members of the family.

Named at Last.

London, Sept. 19.—A special dispatch from Madrid says the Spanish peace commissioners have been appointed. They are Senor Montero Rios, president of the senate, who is president of the commission; General Cerero and Senors Abnarzuza, Villarrutia and Garnica.

TROOPS TO GO SOUTH.

Will Be Assembled in Southern Stations for Winter Camps—About 70,000 Are Now There.

Washington, Sept. 17.—The military movements are being directed rapidly towards the assembling of a large army in southern stations for winter camps and preparatory to the military occupation of Cuba and Puerto Rico. About 70,000 troops are now located in the south and orders will be issued sending the First, Second, Sixth, Ninth and Tenth cavalry from Montauk to southern stations. The Third cavalry already has gone south and the First and Second infantry have been ordered to Anniston, and the Eighth and Sixteenth to Huntsville. This leaves the Seventh, Twenty-fourth and Twenty-fifth infantry, the Second volunteer engineers and companies G and H, Fourth artillery, at Montauk. Within a day or two these last remaining troops will be ordered south and Camp Wikoff will be no more.

The purpose is to establish winter camps between the 31st and 35th parallels. The major part of the army thus assembled is destined for service in Cuba, with a much smaller force for Puerto Rico and a reserve in the winter camps. It is not the intention, however, to send the army of occupation to Cuba until after the unhealthy season has passed, and meanwhile the troops will be put in the best possible condition.

READY TO QUIT.

Secretary Alger Said to Have Tendered His Resignation to President McKinley.

New York, Sept. 20.—A dispatch to the World from Washington says: Secretary of War R. A. Alger has placed his resignation at the president's disposal. This was his last official act before leaving Washington, ten days ago, yet the fact has just come to light. Secretary Alger's decision to take this step was not the result of hasty action, but the logical outcome of weeks of unfavorable criticism from the press and public on the conduct of the war. Although he has endeavored to maintain an outward calm, it is known that he has suffered severely under fire. Whether or not the resignation will be accepted is undetermined. The president has the highest regard for Secretary Alger and believes him to be a worthy and competent official. Unless an investigation determines to the contrary, the president will probably stand shoulder to shoulder with his secretary.

SECRETARY DAY RESIGNS.

Lays Down the Portfolio of State and Takes Formal Leave of His Associates.

Washington, Sept. 17.—The cabinet was in session an hour Friday, Secretary Alger being the only absentee. Secretary Day tendered to the president his resignation as secretary of state and took leave of his cabinet associates. A telegram from Gen. Otis at Manila was read showing that the situation there was entirely satisfactory. The instructions to the peace commission were gone over for the last time and officially approved.

Washington, Sept. 17.—Assistant Secretary Moore, of the state department, has also tendered his resignation to the president.

Fatal Wreck in Colorado.

Denver, Col., Sept. 16.—A special to the News from Gunnison, Col., says: A serious wreck occurred Thursday afternoon on the Rio Grande railway near Black canon, six miles west of Saparino, Col., in which three and perhaps more lives were lost. An extra train consisting of empty coaches going to meet the National Editorial association, which is coming from the west, ran into a rock slide and it is reported the whole train was thrown down an embankment into the Gunnison river. This train crew, consisting of Conductor D. M. Riley, Engineer John Pittinger and Fireman Fred Proctor, are said to have been killed and there may be others.

THE MAINE AS SHE RESTS IN HAVANA HARBOR TO-DAY.

MINNESOTA NEWS.

The Twelfth.

The Twelfth Minnesota, about one thousand strong, was greeted upon its arrival at New Ulm, the final mustering out place, with an ideal September day, and by an enthusiastic crowd of people that thronged every foot of space about the St. Lonis depot and lined the streets for blocks.

The moment the first section of the train appeared from behind the bluffs on the opposite side of the river every whistle in town was set blowing, and Capt. Burg's battery, a local artillery organization, fired a salute.

When the train reached the station the Great Western band struck up, handkerchiefs were waved, everybody cheered and the boys yelled back with vigor.

The Grand Army veterans had the place of honor on the platform, and as the men stepped from the cars they were warmly welcomed.

The local executive committee was also present to see that the troops received every possible attention, and carriages were on hand to receive the sick. Fortunately there were very few of the latter, probably not to exceed a dozen or fifteen. These were conveyed at once to St. Alexander's hospital. The four companies were marched to German park, a beautiful place, and there ordered to stack arms and await the arrival of the balance of the regiment.

Within an hour all were on hand and the march through the city to the camp was commenced. The route was through the principal business street, the buildings on both sides of which were covered with flags. Notwithstanding the men were tired as the result of their long trip, they presented a splendid appearance. Major Bach and Captain Morgan, of the regular army, witnessed the march and both remarked that the regiment had been very well drilled.

When the soldiers reached the fair grounds they saw that which made every one of them join in a lusty cheer. Spread out over the grounds were tables enough to accommodate them all, and loaded down with all that they could eat. This evidence of hospitality was the work of New Ulm's women.

With a hundred young ladies to serve them, the soldiers were unanimous in pronouncing it noble treatment. As the train carrying the stock and camp equipment did not arrive till 8 o'clock, it was quite late in the evening before the tents were up and the regular camp regulations enforced.

The camp grounds were highly satisfactory to all of the officers and men and by reason of the excellent water and good drainage facilities are sure to prove healthful.

Indians Are Mad.

The Indian situation on the reservation is rather serious. At the conference between Agent Sutherland and the Indians they stated that their grievance was that half-breeds and others from the White Earth reservation had a contract on the Leech Lake reservation for cutting dead and down timber, which they wanted stopped.

The agent informed them that it was a matter for the department to settle. The spokesman replied that they did not intend to follow the laws any longer, but would do what their hearts told them to do, even to fighting; and that their rights had been trampled on too long.

They will not surrender the two Indians for whom bench warrants have been issued. It will be difficult to capture them on account of the dense pine forests and so many lakes which form avenues of escape.

A New Industry.

J. B. Carey, of Duluth, has been at work for some time on an industry that promises much for him and his associates. He has found that the moss that grows abundantly in the spruce and tamarack swamps is valuable for upholsterers, and has sent east several carloads for experiment, which have fully met his hopes. He has now found a large tract of land along the line of the D. & I. road, in which there are hundreds of thousands of tons of moss, and will begin gathering it and baling and shipping at once.

Minnesota Briefs.

While Albert Fehoe was burning rubbish at Minnesota Lake, the clothes of his 3-year-old son caught fire and fatally burned the child.

Arty Fuller, of Barnesville, aged 14 years, was killed by the accidental explosion of a shotgun.

Louis Stover, an 8-year-old boy, fell 30 feet from the electric light mast at Winona, broke a leg and arm and bruised his head.

Louis Roberts, while intoxicated, jumped through the third story window of a St. Paul hotel and was killed.

Mrs. Polly Cameron, decrepit with 97 years of life, and totally blind, was admitted to membership of a Minneapolis Baptist church by immersion.

Secretary Bliss has decided a case involving the claim of Minnesota to swamp lands in the ceded portion of the White Earth reservation. The claim has been pending in the department for some time. The secretary's decision holds that the state is entitled to swamp lands in reservations. It is understood that it will benefit the state to the extent of several thousand acres.

Len Robinson was found dead in his barn in Compton township, Otter Tail county. He was subject to fits.

Private Joseph Kaiser, Co. D, 12th Minnesota, who returned from the South on the hospital train, died in a hospital at St. Paul. He was from Winona.

While out walking near St. Cloud, Herman Meyers was shot through the neck by a revolver in the hands of a young lady who "didn't know it was loaded."

Wm. Eddy, an old man of 70 years, on his way from Oregon to Winnibago City, was robbed of $100 on the depot platform at Mankato.

At a Polish dance near St. Cloud, Theo. Klofte was hit over the head with a club and seriously injured.

A piece of tin carelessly flipped in the air by a companion, struck Edward Riedel, a young boy at Winona, in the left eye, completely destroying the member.

There is a greater number of moose and deer in the vicinity of the chain of lakes extending from Embarrass to Squagema lakes this season than has been noticed since the opening up of this country. It is thought, there being no forest fires this year, accounts for the increase.

THE OFFICIAL TIME.

It Was Carried by the General and Had to Be Recognized as Such.

The necessity that there shall be only one man who "has the say" in a military command is thoroughly recognized in the United States army. A story is told of Gen. Shafter, commander of the American expeditionary force for the invasion of Cuba, which illustrates the punctilio of the regulars in this regard.

At a certain frontier post at which Shafter, who then held an inferior rank, was commander many years ago, a discussion arose among several officers as to the exact time of day. A captain, with his watch in his hand, said:

"It is now exactly three o'clock."

"Oh, no," said a lieutenant, "by my time it's eight minutes past three."

A third officer drew his watch out of his pocket. "I know my time is exactly right," he said, "and my watch says two minutes past three."

At this juncture Maj. Shafter looked at his silver watch.

"I don't know what your watches say," he remarked, "but I wish you to understand that in this command it is five minutes past three."

Then the young officers remembered that the authority of the commanding officer extended even to the time of day.—Pittsburgh Dispatch.

WELL-NIGH BRUTAL.

But the Stern Parent Was Not Wholly Without Cause for His Unkindness.

He was a well meaning young man.

He had a way, however, of standing by the side of a piano and rolling his eyes at the chandelier while unsweet noises gurgled from his throat. Friends were too kind to suggest to him that his efforts were other than melodious. Such is the patient charity of this much maligned world.

The man with iron gray side whiskers and an eagle eye showed signs of overtested endurance. It was his daughter who was playing accompaniments, and it was his gas they were burning.

"Did I understand you were going to sing 'On the Banks of the Wabash, Far Away?'"

"Yes."

"When?"

"Why, right away."

The questioner took out his watch and said:

"Well, I'm afraid you haven't much time to spare. The next train for the west goes in less than three-quarters of an hour, and you'll have to start for the Wabash far away, right away, if you're going to sing there before the week is out. Good-by, I hate to have you cut your visit short, but I wouldn't have those folks on the Wabash, far away, disappointed for anything!"—Washington Star.

THE RUSH FOR GOLD.

From the Times, Bluffs, Ill.

The rush of gold seekers to the Klondike brings thrilling memories to the "forty-niners" still alive, of the time when they girdled the continent or faced the terrors of the great American desert on the journey to the land of gold. These pioneers tell some experiences which should be heeded by gold seekers of to-day. Constant exposure and faulty diet killed large numbers, while nearly all the survivors were afflicted with disease, many of them with rheumatism. Such a sufferer was Adam Vangundy, who now resides at Bluffs, Ill., where he has been justice of the peace and was the first president of the board of trustees. In a recent interview he said:

"A Forty-niner."

"I had been a sufferer of rheumatism for a number of years and the pain at times was very intense. I tried all the proprietary medicines I knew of but received no relief.

"I finally placed my case with several physicians and doctored with them for some time, but they failed to do me any good. Finally, with my hopes of relief nearly exhausted I read an article regarding Dr. Williams' Pink Pills for Pale People, which induced me to try them. I was anxious to get rid of the terrible disease and bought two boxes of the pills. I began using them about March, 1897. After I had taken two boxes I was completely cured, and the pain has never returned. I think it is the best medicine I have ever taken, and am willing at any time to sign my name to any testimony setting forth its good merits."

(Signed) ADAM VANGUNDY.

Subscribed and sworn to before me, this 29th day of September, A. D. 1897.

FRANKLIN C. FUNK, Notary Public.

Mr. Vangundy's statement ought to be regarded as a criterion of the good merits of these pills, and what better proof could a person want than the above facts.

Why He Was Troubled.

Jack—Come, old man, cheer up. What if she did break the engagement; she's not the only fish in the swim.

Tom—Oh, I don't care about her breaking the engagement, but you see I've got to go right on paying installments on the ring for the next six months. That's where the icy breeze comes in.—Chicago Evening News.

Starving for Breath.

Several hundred thousand people in the United States and Canada are literally starving for breath because of chronic Asthma, when if they would consult Dr. P. Harold Hayes, of Buffalo, N. Y., by letter, he would inform them how to be cured of this most distressing and treacherous disease, and cured to stay cured. Dr. Hayes makes no charge for examination by mail and his opinion as to the curability of any case.

Mamma—"It is naugthy to tell lies, Eva. People who do so don't go to Heaven." Eva—"Did you ever tell a lie, mamma?" Mamma—"No, dear, never." Eva—"Won't you be fearful lonely in Heaven, mamma, with only George Washington?"—Oswego Daily Palladium.

Free Lands in Montana.

Homesteads and pre-emptions can be taken in the Milk River Valley and other parts of the state within sight and hearing of daily trains on the Great Northern Railway. Renters and others should avail themselves of this chance to get a footing and become independent. For printed matter and other information, address Moses Folsom, Immigration Agent G. N. Ry., St. Paul, Minn.

Ethics of Friendship.—"How sweet to have a friend whom you can trust!" "Yes, especially if he doesn't ask you to trust him."—Chicago Record.

Improvements in Flying Machines.

Inventors are plenty who can make a machine that will rise and float in air, but the one improvement which none has succeeded in making is an apparatus that will guide the machine through the many treacherous currents of air. In this respect humanity is fortunate in having Hostetter's Stomach Bitters, which acts as a safe guide by curing treacherous stomach, liver and blood diseases, giving a good appetite, a strong constitution and nerves like steel.

To Cure a Cold in One Day

MRS. PINKHAM'S WARNING TO WOMEN.

Neglect is the Forerunner of Misery and Suffering—A Grateful Husband Writes of His Wife's Recovery.

Nearly all the ill health of women is traceable to some derangement of the feminine organs. These derangements do not cure themselves, and neglect of the sensations resulting from them is only putting off trouble.

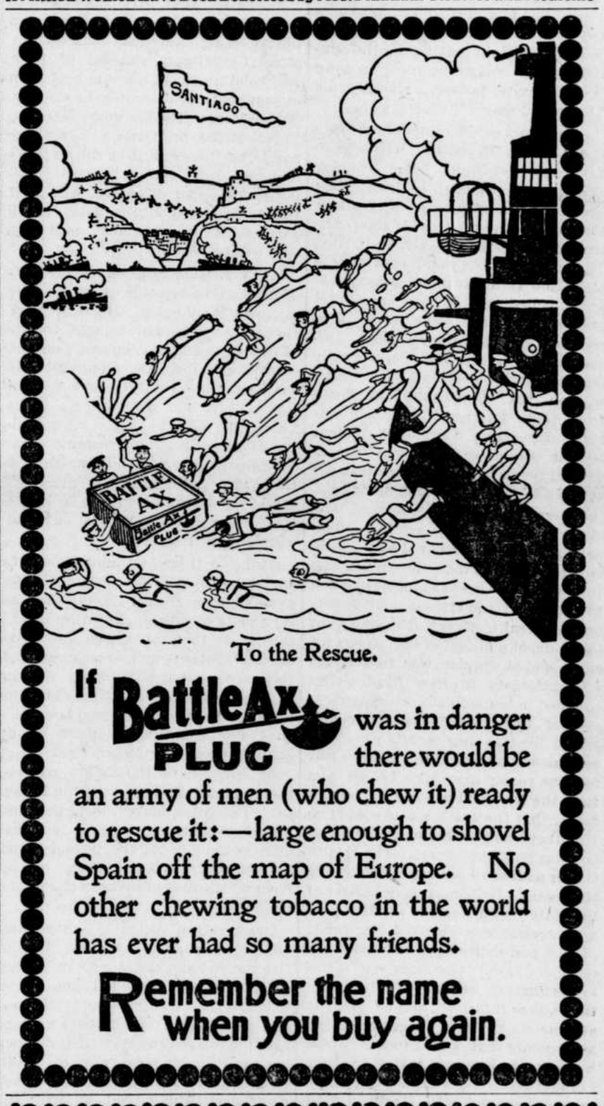
Pathetic stories are constantly coming to Mrs. Pinkham of women whose neglect has resulted in serious heart trouble and a whole train of woes. Here is the story of a woman who was helped by Mrs. Pinkham after other treatment failed:

DEAR MRS. PINKHAM:—It affords me very great pleasure to be able to state that I believe my wife owes her health to your medicine and good advice. For three years her health failed rapidly; she had heart trouble, often falling down in dizzy and fainting spells, shortness of breath, choking and smothering spells, bloating of the stomach, a dry cough, dyspeptic symptoms, menses irregular, scanty, and of an unnatural color. She had been treated by physicians with but little benefit. She has taken your treatment according to your directions, and is better in every way. I am well pleased with the result of your treatment, and give you permission to use my letter for the benefit of others.—CHAS. H. and Mrs. MAY BUTCHER, Fort Meyer, Va.

The healing and strengthening power of Lydia E. Pinkham's Vegetable Compound for all female ills is so well established that it needs no argument. For over twenty years it has been used by women with results that are truly wonderful.

Mrs. Pinkham invites all women who are puzzled about their health to write to her at Lynn, Mass., for advice. All such correspondence is seen by women only, and no charge is made.

A Million Women Have Been Benefited by Mrs. Pinkham's Advice and Medicine



To the Rescue.

If BattleAx PLUG was in danger there would be an army of men (who chew it) ready to rescue it:—large enough to shovel Spain off the map of Europe. No other chewing tobacco in the world has ever had so many friends.

BUFFALO GAZETTE

DELANO, FRIDAY, SEPT. 23, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

--Charley Bentz fell from a buggy last Saturday and broke his left arm below the elbow.

—After twenty years' service in the schools of Martin county, Miss Mary D. Nutter is refused a certificate.—Pioneer Press.

That beats Delano. Delano school has been run for sometime without teachers being examined but not for twenty years. And this year like Martin county examinations were required. "The world do move."

—Caucuses were held last night to elect delegates to represent the Republicans at Buffalo tomorrow. The Town of Franklin elected, Ed Wood, Geo. Sutton, Andrew Horsch and Fred Kespohl only five votes cast. Delano sent Dr. Shrader, T. B. Rader, J. W. McDonold and A. L. Mealey. 71 votes were cast including men of most all parties. Two Saloon keepers and an ex-saloon keeper among them. This relieves Delano Democrats of the charge of having a solid saloon element. Each has got two.

--"Dad" Corsen of the Eagle tells a good joke on their new "devil" Eddie Erickson. While at work in the press room pressman Mowatt needed something from up stairs and in his usual hurried manner mumbled it out to Eddie, who soon appeared on the next floor and rushing up to a compositor cried out "Mowatt wants a melancholy space." "I havn't got any, ask Dad" replied Mr. Gott. He rushed up to "Dad" and made known his errand. "Dad" told him "Go to Catlin's, ours are all out." By that time Mowatt had succeeded in getting the information to the composing room in spite of the "devils" failure. He wanted a "Nonpariel space."

—Dr. Bracken, Secretary of the State Board of Health visited Delano Monday night returning home Tuesday morning. He came up to investigate the case of the shipment of Wallace Plath aged 14 years, from Walker, via. Brainerd and the G. N. Ry. to Delano. The remains of the young man arrived at Delano Thursday night of last week, accompanied by J. B. Spencer, a hotel keeper at Walker The corpse was enclosed in an ordinary coffin surrounded by a tin box hermetically sealed and all enclosed in a rough wooden box. Certificates of death from Acute Laryngitis, a non-infectious disease, from doctors at Walker and at Brainerd were sent along. Several young men met Mr. Spencer at the 8:30 P. M. train and helped get the remains to his former home. His mother was bound to see him. Tinner's shears were procured and the tin box cut open and the coffin carried into the parlor and opened for inspection by the family and friends. Neighbors notified Health officer Catlin who went to the depot and found the papers all right, and on inquiry was told that it was customary to have dead bodies enclosed in hermetically sealed coffins, even of the disease was not contagious. By this time reports were current about town that Mr. Spencer had told the young men who helped him from the train to the home of the boy's father that the death was caused from Diphtheria and the hermetically sealed box was not to be opened. The Health Officer addressed a letter containing the facts to Dr. Bracken, Secretary of the State Board Health. By the time a telegram was received in reply, "Order post mortem, if refused make Coroners' case," the body was buried in the Shrader cemetery. The Secretary was so informed, and on Monday afternoon another telegram came, announcing that Dr. Bracken would be here on evening train, to have Coroner here. Both he and the Coroner were here and with Health Officer Catlin and Dr. Shrader after notifing County Attorney, and boy's mother, proceeded to the burying ground and had the remains exhumed, and opened the trachea, and found abundance of membrane, and the case was pronounced Diphtheria.

The immediate family and a few friends were exposed to the contagion. But owing to the warnings of the Health Officer and to the alarm from the reports being circulated that the case was Diphtheria and that two or more other cases were now in the same family where Walace was visiting, no public funeral was held. About a score of friends assembling at the house in another room from that containing the coffin, where a briet funeral service was conducted.

The whole affair is a sad one, and the sorrowing family have the sympathy of many friends who dare not go to the house, at present, to express it. Laws are very strict concerning shipment of corpses dead of contagious disease, Dr. Bracken is to be commended for his energetic efforts to stamp out so dreaded a disease before it has gained a foothold in our state.

Notice.

All persons indebted to me on account will take notice that I must have some money. Crops are good. I have waited in many instances a long time, and now must be paid. Unless prompt attention is given to this notice you may expect a collector to call for a settlement soon. Call and settle and oblige.

Yours Respectfully,
T. J. CATLIN, M. D.

DELANO, Minn., Aug. 19, 1898.

Personal.

John Steffes says the finest old trip of all, is the trip down to Montreal,

John Schumacher, of Loretto, made a trip to Delano on business, Saturday.

Editor Wharton, of the Willmar Argus, was interviewing old Delano friends Sunday.

W. D. Freemon and wife leave Monday for Cincinnati to make their future home.

William Gent returned home from Virginia this week. He says politics are hot there.

Miss Hattie Hellwell, Grammar room teacher, visited her home in Minneapolis Sunday.

Mr. and Mrs. Harris and the baby, of St Paul, visited with her father Valentine Eppel, and family this week.

Winnie Ball visited friends in town Saturday. He don't appear to be so noisy as his father "Hank" used to be.

Rev. Schrader, of New Ulm, visited with I. Gutzwiller, Monday. We understand he intends sailing for Europe soon.

Deputy Sheriff Pat Callahan, of Minneapolis spent Tuesday night in Delano. He noted many improvements in our village.

John Jacobs, of Greenwood, was a GAZETTE caller Wednesday. He says his wife has gone to Pennsylvania for a visit with friends.

Chris Smith and son of Minneapolis, are visiting at his Mother-in-law Mrs. Jos. Cramers.

F. H. Lindsley and Mrs. Dr. Soper were among early passengers bound for Minneapolis Wednesday.

Mr. and Mrs. William Hawker visited Minneapolis yesterday to attend the wedding of their son Charles.

Judge Alley chaperoned Mr. Giddings Republican candidate for Judge, of Anoka, about our village Wednesday.

J. D. Young required a heap of brotherly attention Sunday, as he was considerably sick, and his family was all away from home.

Prof. Charles S. Hawker left Wednesday morning for the east. He expected to attend law school at Harvard College this winter.

County Cullings.

No matter what party you belong to it is your privilege, and duty, as a liberty-loying American citizen to attend the primary election of your party and try to get the very best men in your party as delegates to County Conventions. The law now allows you to vote at the primaries of only one party. So things must be run on party lines to a great extent. Only by having good men for delegates will good tickets be placed in the field. If all parties put up good men, good men only will be elected.

Mr. A. E. Giddings, County Attorney of Anoka County made us a call while in town Wednesday. He is a good appearing young man; belongs to one of the oldest and best known families of Anoka, that of Dr. Giddings. He has been in Wright County several times lately, and don't appear to be loosing any votes so long as his opposition is confined to the prospective independent candidacy of Judge Tarbox. Even former friends of Tarbox's don't approve of his running with a ticket made up of sore heads, cast offs and worn out politicians.

Owing to the recent amendment to our State constitution disfranchising so many of our former voters, the vote is liable to be much lighter throughout the county then it has been for years before. There is no knowing until the votes are counted which party will be gainers by the law. Pains should be taken by those favoring good laws, and good administration of them to be out at the primary election and help elect good delegates to the county convention, no matter what party you belong to. Delegates make the ticket, and people wishing a voice in political affairs should be at the primary, and not wait until two tickets are put up from which you endeavor to choose the least evil.

Democrats of Wright County cannot afford to put up a county, legislative nor judicial ticket not in accord with the Congressional and State ticket. The Wright County Democratic "bosses" evidently have no time for Lind nor Towne. If they do they have a miserably poor way of manifesting it to the ordinary voter. They don't seem to affiliate at all with the State Democrats nor the Congressional District democrats. All they seem to desire is to place in the field a ticket called Democratic, with as few genuine Democrats as possible thereon; make a small sized hurrah and get one Democrat (so called, but really one of the hardest workers in the county for gold standard and monopoly, and boss rule) elected, while the genuine Republicans take the balance. Don't let Democracy be strangled that way.

One kind of politics, and a very poor kind, is to nominate for office men who live in certain parts of the County. To make up a ticket on Geographical lines. Another poor plan is to make a ticket from people belonging to different nationalities, so as to get out a number of votes because one of the voter's old countryman friends is on the ticket. Still another poor scheme, is to make up a ticket of men belonging to certain churches, or societies. All these plans are used, often regardless of the qualifications of the persons placed in nomination. Such things are wrong. When we go to vote we should first weigh in our minds who are best adopted to the offices to be filled, and vote for them. Occasionally a good man looses votes because the voters are persuaded to vote for another man because the one of his choice "has no show." If everybody votes for the men and principles of his choice, we are apt to have representative men in office. When we want to elect a man for a county office we want an honest, active man, capable of discharging the duties required of him. When we want a legislator, we want a man of good sound sense, good principles, and who is capable and will look after the affairs of the State. When we want a Judge we want an honorable, upright, impartial man, and we don't want to vote for a man to that high office simply to "vindicate his character." He should be a man whose character needs no vindicating.

All citizens of our county, whether native or foreign born, of whatever church or society should stand on an equal footing when we are looking for candidates, we should select the best. Let us select such men and elect them.

To Democrats!

Don't stay away from the Primary elections to be held in every voting precinct in the county on Tuesday, the 4th day of October, and then whine about the delegates to the County convention on Saturday following at Buffalo, electing judge Tarbox delegates to the judicial convention, and making a ticket of Republicans, gold democrats and other material for which you do not wish to vote, on purpose to disgust you with politics and keep you from the polls. Be at the primary. If necessary lay aside your work for a day and go as a delegate to the county convention.

THE REGULARS.

No state'll call him "noble son,"
He ain't no ladies' pet;
But, let a row start anyhow,
They'll send for him, you bet!
He don't cut any ice at all
In fashion's social plan,
He gets the job to face a mob—
The Reg'lar Army man;
The millin," drillin,'
Made fer killin',
Reg'lar Army man.

They ain't no tears shed over him
When he goes off to war,
He gits no speech nor prayerful "preach"
From mayor or governor;
He packs his little knapsack up
And trots off in the van,
Ter start the fight and start it right—
The Reg'lar Army man.
The rattlin', battlin',
Colt or Gatlin',
Reg'lar Army man.

—L. A. W. Bulletin.

IF WE DIDN'T HAVE TO EAT.

Life would be an easy matter
If we didn't have to eat.
If we never had to utter,
"Won't you pass the bread and butter,
Likewise push along that platter
Full of meat?"
Yes, if food were obsolete
Life would be a jolly treat,
If we didn't—shine or shower,
Old or young, 'bout every hour—
Have to eat, eat, eat, eat, eat—
'Twould be jolly if we didn't have to eat.

We could save a lot of money,
If we didn't have to eat.
Could we cease our busy buying
Baking, broiling, brewing, frying,
Life would then be oh, so sunny
And complete;
And we wouldn't fear to greet
Every grocer in the street
If we didn't—man and women,
Every hungry, helpless human—
Have to eat, eat, eat, eat, eat—
We'd save money if we didn't have to eat.

All our worry would be over
If we didn't have to eat,
Would the butcher, baker, grocer
Get our hard-eared dollars? No, sir!
We would then be right in clover
Cool and sweet.
Want and hunger we could cheat,
And we'd get there with both feet,
If we didn'd—poor and wealthy,
Halt or nimble, sick or healty—
Have to eat, eat, eat, eat—
We could get there if we didn't have to eat.

—NIXON WATERMAN in L. A. W. Bulletin.

THE SONG OF THE "No. 9."

My dress is of fine polished oak,
As rich as the finest fur cloak,
And for handsome design
You just should see mine—
No. 9, No. 9.

I'm beloved by the poor and the rich,
For both I impartially stitch;
In the cabin I shine,
In the mansion I'm fine—
No. 9, No. 9.

I never get surly nor tired,
With zeal I always am fired;
To hard work I incline,
For rest I ne'er pine—
No. 9, No. 9.

I am easily purchased by all,
With instalments that monthly do fall;
And when I am thine,
Then life is benign—
No. 9, No. 9.

To the Paris Exposition I went,
Upon getting the Grand Prize intent:
I left all behind,
The Grand Prize was mine—
No. 9, No. 9.

At the Universal Exposition of 1889, at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France. This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered—the GRAND PRIZE—giving other companies only gold, silver and bronze medals.

The French government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor—the most prized honor of France.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best it will be your own fault.

Ask your sewing machine dealer for the No. 9 Wheeler & Wilcon machine. If he doesn't keep them, write to us for descriptive catalogue and terms. Agents wanted in all unoccupied territory. WHEELER & WILSON MFG. CO.
Chicago, Ill.

Send your money and address plainly written to BUFFALO GAZETTE,
Delano, Minn.

If It's Worth Printing the Twice-a-Week Courier-Journal Will Print It.

And Every Democrat, Every Republican, Every Man, Woman or Child who can read will want to read it.

* * * "Meantime we prefer to take our chance with the conservative Democrats, fighting within the party, to reform it of its excesses, and to restore it to its better uses, than to pursue an Ignis Fatuus which, if it had been more real, would have resulted in the election, instead of the defeat, of the Free Silver Fusion in 1896, and which with singular unanimity, the voters have refused to follow. * * * * The Courier-Journal is a Democrat, not a Republican; and it will under no circumstances or conditions pursue a policy whose only effect is to continue the Republican party in power."

The Twice-a-Week Courier-Journal is a Democratic paper, of six or eight pages, issued Wednesday and Saturday of each week. The Wednesday issue prints all the Clean News, and the Saturday issue prints stories, Miscellany, Poetry, all matters of special interest in the home. It is edited by Henry Watterson.

Price $1.00 a Year.

You get 104 good papers of six or eight pages each, for $1—less than one cent a paper.

WASHINGTON LETTER.

(Fromour Regular Correspondent.)

WASHINGTON, D. C., Sept. 24, 1898.

Frantic appeals are being made to Mr. McKinley by the Republican Congressional Campaign Committee and by republican candidates for Congress for assistance in various ways. The most pressure is probably being brought to get the long-delayed executive order, throwing down the civil service bars to a large number of Federal positions, issued before the Congressional elections. Mr. McKinly has been told that the issuing of that order within the next two or three weeks will be worth many votes to republican candidates for Congress, because by promising those positions many of those who were at the last election republican workers but are now sulking could be got to work again. He is also being urged to declare the Government Printing Office to be outside the civil service law and rules. Mr. McKinley has been told that if he doesn't do these things now, there will be no occasion, so far as party politics are concerned, for him to do them at all. It is doubtful whether he will do all that he has been asked to do, but he has intimated that he will do something.

Boss Platt had a conference with Mr. McKinley this week, and there are reasons to believe that he told him that the democrats had more than a fighting chance to carry New York this year, and asked him to use his influence with the anti-Platt republicans. There was a report that Mr. McKinley did not want Roosevelt nominated for governor by the New York republicans, but if he had any idea of trying to throw "Teddy" down in the convention, he gave it up after talking with Boss Platt and "Teddy" is going to be nominated. While Mr. McKinley will go through the form of throwing the administration influence to Roosevelt after he is nominated, he would rather see him defeated than elected. If he is defeated he will be shelved for a while; if he is elected, he may become the young republicans candidate for the Presidential nomination in 1900.

A War Department official is quoted as having said of Secretary Alger's trip of inspection: "Alger is shrewd. During his swing around the camps he will find any number of men who will be willing to appear before the investigating committee to testify that camp life had been one long, sweet dream; that they had been fed on the fat of the land; had been provided with all the comforts of home, and that they had never seen any sickness, suffering, starvation, or dying. It is a good thing to pick out your witnesses and have a quiet little talk with them before they go on the stand."

There is no news in the published statement that the Commission to decide upon a government for Hawaii, the members of which are now on their way from Hawaii to Washington, had settled upon the territorial form of government for the islands. It is quite well known in Washington that the matter was settled long before annexation was accomplished. As long as the islands remain under a territorial form of government there will be trouble, and lots of it, when an attempt is made to admit them as a State. It will be a long time, if ever, before the people of this country will be willing to see two Hawaiian Senators and three Hawaiian Presidential electors, who may at any time hold the balance of power in the Senate or in the electoral college.

No better answer to the question of why there was such a falling off in the republican majorities in Maine this year has been heard in Washington than that given by Mr. R. F. Allen, of Lewiston, who replied, when asked the question: "Some republicans didn't vote; others did—the democratic ticket."

Nothing could better illustrate the existing fright of the republicans than the fact that Postmaster General Smith, and Webster Davis, Assistant Secretary of the Interior, have gone on stumping tours. Of late years it has not been considered just the proper thing for a member of the Cabinet to take the stump, even in Presidential campaigns, and not since Arthur's administration has one gone on the stump in a Congressional or State campaign.

After many trials and many refusals to serve, Mr. McKinley has got together his commission to investigate the War Department, and the work is to begin right away. If Mr. McKinley had any doubts the public statements made to Secretary Alger since he started upon his carefully prepared for inspection of camps and hospitals, by high military officers, have convinced him that the commission will not have much trouble to locate personal responsibility for mismanagement, and worse. But will they be punished, when found guilty?

Col. Bryan and Gov. Holcomb are in Washington, trying to get Col. B's regiment of Nebraska volunteers mustered out.

If you desire to have United States Senators elected by the people you must cease electing Republican State Senators and Representatives pledged to vote for C. K. Davis, Knute Nelson or any other man.

The Thirteenth Regiment Loses Three More Members.

New York, Sept. 23.—A Manila Special to the Herald says: Privates Currier, Dennis and Schultz, of the Thirteenth Minnesota regiment, have died in the hospital this week. The regiment has forty-five men on the sick list.

CANDIDATE W. H. EUSTIS AND HIS PUBLIC RECORD

His Guaranty Loan Directorship and the City Hospital Steal Under His Minneapolis Administration.

UNQUESTIONABLE PROOFS FROM THE PUBLIC RECORDS

Eustis Was an Active Director in the Menage $9,000,000 Swindles---He Was One of the Special Committee of the Directors Which "Investigated" Menage and Whitewashed Him. What Was Shown in the Streeter Criminal Trial---The Testimony of a Well Known Republican Editor---Eustis' Official Connection With the Celebrated City Hospital Steal---The Record—Eustis' Responsibility Fixed by the Chief Beneficiary of the $100,000 Job, the Personal and Political Friend of Eustis—Read and Be Convinced.

W. H. Eustis has not denied over his own signature that he was a Guaranty Loan Co Director during the period of its steals, and he dare not so deny it.

W. H. Eustis is before the people of the state as the reform, "machine-smashing" candidate for governor, in view of which it is the right of all the people to know his actual, official connection with that mammoth swindle of the century, the Northwestern Guaranty Loan company, at the head of which was Louis F. Menage, now for five years a fugitive from justice, in the uttermost parts of the earth.

William Henry Eustis was not only connected with that company, but WAS FOR THE WHOLE TERM OF ITS LARGEST OPERATIONS, AN ACTIVE, WORKING DIRECTOR OF THE COMPANY. When the charges against the concern originally brought by John H. Barkes could no longer be suppressed, as a "bluff" President Menage, at a meeting of the directors at which Director Eustis was present, resigned the office of president. Thereupon a special investigating committee of the directors was appointed, to investigate the charges against Menage. Director Eustis was one of this committee, and it soon after reported, completely whitewashing Menage, and the latter thereupon returned to his position. IT IS ESTIMATED THAT FULLY $3,000,000 OF THE SWINDLES OF THE COMPANY WERE EFFECTED AFTER THIS WHITEWASHING BY THE DIRECTORS, OUT OF THE GRAND TOTAL OF $9,000,000. Director Eustis thus did a double duty. His name and influence, with that of Lowry, Fletcher and others, had roped in the dupes from the beginning; but after this "investigation" the victims came in at a lively rate, until, at the final collapse, when Menage had fled, they covered all parts of the country, included people from all walks of life, and the pall thrown over the good name of the city of Minneapolis and the state has not to this day been removed—and never will be until all the rascals responsible for the terrible crimes committed in the name of Director Eustis' company are brought to justice.

Will the reader and voter note this: THAT W. H. EUSTIS HAS NOT, AND PROBABLY WILL NOT, OVER HIS OWN NAME, DENY HIS ACTIVE, OFFICIAL DIRECTORSHIP IN THAT COMPANY.

Others deny for him, as occasion requires, but he prudently makes no denial calling for the actual proofs. At a few places where he has been extending the glad hand in the campaign the matter has been mentioned to Mr. Eustis by the friendly reporter and the reporters have variously given responses. In all cases they are denials which do not deny. If one says that Mr. Eustis denies, as one of the Mankato papers, it is always in such a way, and so given, as that if Candidate Eustis wishes he can say that he never so stated to a reporter, or that the reporter had not quoted him correctly.

Candidate Eustis HAS NEVER TAKEN HIS PEN IN HAND AND WRITTEN:

"THE CHARGE THAT I WAS A DIRECTOR IN THE GUARANTY LOAN COMPANY IS FALSE.

(SIGNED) "W. H. EUSTIS"

Should Candidate Eustis ever be driven to the rash step of denying that he was such active director, or should anyone wish to know the proofs the same can be found in numerous places and sources. The Minneapolis Trust company, as receiver of the Northwestern Guaranty Loan company has the records, showing several times when Eustis was elected director and acted as such. Those records also contain the names of the victims of the swindlers. The names of Eustis, Lowry, Fletcher and the rest were widely used in the circulars and pamphlets of the company, and it was these with which the large crop of victims was gathered in. In the State Historical society will be found, or was to be found till recently, at least, files of country papers in which these charges, subsequently made good by investigation, and by the trial of Streeter, Menage's scapegoat, were stated with the proofs, by Mr. Burke. He used those papers because he could not get a hearing in all of the daily press. Copies of the Burke correspondence with Director Eustis, his persistent efforts with the Department of Public Examiner, to get the department to investigate the concern and his charges; his circulars to the directors themselves, informing them of the crookedness that was going on—all this and other information is to be found in the files mentioned. Much of it will also be found in the "Representative," some in the "Minneapolis Tribune," "West St. Paul Times," and other papers. In view of the proposed elevation of Director Eustis to the Governorship, all this matter makes interesting reading. The members of the bar find clear proofs, in the supreme court decision in the 61st Minnesota.

FIND STATE OFFICIAL PROOF THAT EUSTIS WAS SUCH DIRECTOR, in the office of Public Examiner Kenyon, and also find his report on the concern, finally wrung from him by his office.

SHOWN IN THE STREETER CASE.

Eustis' Directorship Shown in That Criminal Trial.

The criminal trial of W. S. Streeter brought out certain instances of Eustis' connection with the Menage concern. Streeter was on trial in the district court in 1894. In one of the daily papers for June 5 in that trial appears the following condensation of the report of the trial for that day:

"Charles Robinson, a clerk of the Guaranty Loan company in September, 1891, and a director of the company since that time, was called. He examined a page of the book of records and identified that some of the minutes of the directors' meetings meetings were taken by him and dictated to the clerk, Miss Rosenquist, who copied them. He swore that they were the correct record of the proceedings.

"Mr. Robinson then read the minutes of the meeting of the directors held Jan. 28, 1891, which contained the statement that a special committee consisting of W. H. EUSTIS, H. E. FLETCHER, LOREN FLETCHER and C. H. Petit to pass upon all future loans to be made by the company was appointed. The report further states that Mr. Menage called Mr. Streeter to the chair and then stated that as he, Mr. Menage, personally had been attacked, he wished to resign as president of the Guaranty Loan company. He then left the room, after asking that his resignation be acted upon at once. BY UNANIMOUS VOTE THE DIRECTORS REFUSED TO ACCEPT THE RESIGNATION. THE DIRECTORS PRESENT AT THAT MEETING WERE W. H. EUSTIS, C. H. PETIT, W. S. STREETER, H. E. FLETCHER, CHARLES ROBINSON, B. H. BAIRD, G. A. PILLSBURY, L. F. MENAGE AND THOMAS LOWRY."

"The minutes of a special meeting held Jan. 29, 1891, which the witness also read, contained the report of the committee on loans as named above, which stated that reliable and disinterested parties had declared to them that the loans placed upon certain property under investigation were good, and the property good security."

This was the investigation under the charges made by John H. Burke on which the committee "whitewashed" Menage.

REPUBLICAN EDITOR KNOWS.

The Loser of $10,000 Investigated the Matter For Himself.

O. G. Wall, formerly a Republican member of the state legislature, and now editor of a Republican paper, Ortonville Journal, lost $10,000 in the failure of the Guaranty Loan company. Before the late Republican state convention Mr. Wall published these two editorials in his paper, which certainly speak for themselves:

"Mr. Eustis' special champions, with less discretion than zeal, raise the Guaranty Loan issue and prate about Mr. Eustis' name having been used by the swindling company without his permission. THIS IS PURE ROT, AND THE LESS SAID ABOUT IT THE BETTER, SO FAR AS MR. EUSTIS IS CONCERNED. Mr. Eustis was a director of the infamous Guaranty Loan concern, his name was used as a director because he was a director, and the record, unless it has been destroyed recently, as is hinted, will show that he participated in the meetings of the directors of that unholy fraud. THE WRITER KNOWS WHEREOF HE SPEAKS, HAVING LONG SINCE INVESTIGATED THE MATTER BECAUSE HE WAS PERSONALLY INTERESTED IN AN INVESTIGATION OF THE FACTS. The less said about the Northwestern Guaranty Loan swindle the better, SO FAR AS THE REPUBLICAN NOMINEE FOR GOVERNOR IS CONCERNED, and his fool friends should touch the subject lightly.

"The charges are unanswerable. The records are proof. MR. EUSTIS WAS ONE OF THE 'SLICK' GENTLEMEN WHO MADE THE ROBBERY OF THE PEOPLE THROUGH THE INFAMOUS NORTHWESTERN GUARANTY LOAN COMPANY A PROFESSION. IT WAS VERY LARGELY THROUGH HIS ASSOCIATION WITH THE GIGANTIC FRAUD THAT THE WRITER WAS SWINDLED OUT OF THOUSANDS OF DOLLARS—a matter which he always took philosophically and in which the people have no interest. WHEN HE SPEAKS OF EUSTIS AS A MAN UNWORTHY OF THE CONFIDENCE OF MANKIND HE KNOWS WHAT HE IS TALKING ABOUT, and if the Republican party of Minnesota is cursed by intimate association with a robbery that OUGHT TO HAVE SENT EVERY MAN CONNECTED WITH IT TO THE PENITENTIARY, IT OUGHT TO BE DOOMED WITH OVERWHELMING DEFEAT. THE JOURNAL KNOWS ENOUGH OF MR. EUSTIS AND WANTS NO MORE OF HIM."

THE CITY HOSPITAL STEAL.

Accomplished in the Eustis Administration—The Brackett $100,000 Job and Eustis' Official Responsibility Therein—Statement of Geo. A. Brackett Himself.

STATEMENT OF GEO. A. BRACKETT

"It having been stated that Mayor Eustis was not conversant with this transaction, and did not approve it, I must here state (although I am sorry that he is absent, for I would much prefer to make it to him), in justice to myself, the facts in this case. I CONFERRED FULLY WITH THE MAYOR, AS I DID WITH THE BOARD OF CHARITIES, THE CITY ATTORNEY AND THE ALDERMEN, in connection with this deal, AND CERTAINLY HAD THE APPROVAL OF THE MAYOR, ALTHOUGH HE WAS NOT PRESENT TO VOTE; and when the warrant was drawn for the payment of the $25,000 Mr. Nye took that warrant to the Mayor and asked him if it was all right. HE SAID TO NYE THAT IT WAS ALL RIGHT, TO PAY IT; THAT ALTHOUGH HE WAS NOT PRESENT AT THE BOARD, THAT IF HE HAD BEEN HE WOULD HAVE VOTED FOR IT. THIS STATEMENT WAS MADE TO ME BY MR. NYE, AND I CERTAINLY HAD THE APPROVAL OF THE MAYOR IN THIS TRANSACTION AS BEING A STRAIGHTFORWARD BUSINESS TRANSACTION."

When Mr. Eustis was elected mayor of Minneapolis his official connection with the towering swindles of the Guaranty Loan company as director in that institution was not known. He was mayor when the bubble burst and the knowledge of that iniquity began to spread over the community. But local pride, since Director Eustis was now the much vaulted mayor of Minneapolis, operated to keep the matter from public discussion. The city was also in financial panic, and the friends of Eustis, Lowry and Fletcher hushed the matter up with the plea that talk of the Guaranty Loan would still further add to the panic, and all the facts would injure the standing of those connected with the concern, and especially the good name of Minneapolis and Minnesota. But at the same time the Republican ringsters continued the jobs and steals which drained the treasury of Minneapolis, closed the public schools of that city and landed some of the guilty in prisons, though proposing to reward other ringsters by elevating them to still higher positions.

The City Hospital steal was one of those jobs, and in this case the city was mulcted to the amount of $100,000. It was the easier worked because its charitable purpose appealed to the sympathies of the people. In fact such was the sentiment of the people, in the crash of falling structures in which the money and confidence of the people had been swallowed up, that it is doubtful if another scheme than a hospital could have been worked through, even by the able and adriot gentlemen who conducted jobs of that sort in Minneapolis.

In its essence, the hospital job was the working off upon the city, the private residence of one who had been a wheelhorse of Minneapolis, and of the Republican state and city machine, George A. Brackett. When the first suggestion of city hospital was made to the public it responded approvingly, and immediately offers appeared of property and locations, some of them so advantageous and low in cost, that the ringsters were put to their stumps to ward off the tenders which put to shame the Brackett offer. It is needless to stop to detail these, but one case will suffice. Land was offered near the University, on the east side of the river, where a hospital location would have been of immense advantage for clinical purposes, in connection with the medical department. This offer was for an absolutely free site, a nominal rental of $1 a year, and the hospital demanded as condition for the property, involved an expenditure of but a small part of the money swept into the Brackett purchase. The sum of $25,000, even, would have constructed all that was immediately needed. The details of the offers are not material, as there were plenty of others. Besides, there was the old court house property, but a short distance from the Brackett site, just about to be vacated for that other colossal Republican job, the $3,000,000 court house that is only partly finished, the old court house property belonging to the public, and which has now gone into its natural use by the Red Cross society, which would have made a public hospital perfectly adapted, with a slight expenditure.

These staggered the workers of the Brackett scheme, but in due time, and in their own way, they got their machinery into working order, and soon it was known that the Board of Corrections and Charities, of which the mayor in his official position, Mr. Eustis, was the head, was determined to acquire the Brackett property. It was Brackett's old home, where he had lived for many years, and his house was of course no more fit for a public hospital building than for a cathedral. Members of the city council were violently opposed to the purchase, and some of the weaker of the papers ventured to remark against the deal; but in due time after many meetings of the Board, committees, etc., the deal went, and the property was purchased for the sum of $100,000. Of course it was supposed that for that exorbitant sum the city would actually get the property, but lo, and behold it leaked out that THE PROPERTY SOLD WAS COVERED BY A HUGE MORTGAGE. Investigation followed and the real facts, taken from the official records, are thus summarized:

The property was six lots, in block 93 of Minneapolis, on Seventh Avenue south, between Fifth and Sixth streets, the land being 130 by 330 feet, OR ABOUT ONE AND ONE HALF ACRES. The contract for purchase was made about May 26, 1893. It called for a warranty deed to be delivered, and such was made and delivered June 16, by Brackett. It was about this time that it was discovered that the property, instead of being clear, as called for in the warranty deed, WAS INCLUDED IN PROPERTY THAT HAD BEEN MORTGAGED MARCH 7, 1893, TO THE NEW YORK LIFE INSURANCE COMPANY FOR THE SUM OF $130,000. The city had not yet paid any money, fortunately, and in the storm of public criticism that was aroused, it was expected that none would be paid, and the discovery in time, was regarded as most fortunate. However, those who had engineered the deal, including Mr. Brackett, proceeded in the ways and means best known to themselves to get the money paid over. The first down payment ($25,000) was covered by a pretended "additional security deed," Brackett deeding other property to the city and being paid the sum of $25,000 toward his purchase money of $100,000. But it was then found that THIS DEEDED PROPERTY WAS ALSO INCLUDED IN THE SAME MORTGAGE THAT WAS ON THE HOSPITAL PROPERTY. The howl was louder than ever, and committees of citizens waited on the city's officers in protest, and even public meetings were held, voicing the protest to the mayor and board that no more money should be paid. The oracle was worked, however, AND BRACKETT WAS PAID ANOTHER $25,000, he giving another deed as "additional security," to THE PROPERTY DEEDED BEING, AS BEFORE, SOME OF THE SAME MORTGAGED PROPERTY.

The sum of $50,000 had now been paid and no reduction whatever made in the mortgage indebtedness on any of the property involved, and $50,000 was still due Brackett on the purchase contract. It was agreed that this deferred payment of $50,000 should draw interest at the same rate as the insurance company's mortgage was drawing, and, finally, by an arrangement which Mr. Brackett stated was made by himself and Mayor Eustis and City Treasurer A. C. Haugan, the latter commenced the payments of such interest, Haugan having issued therefor certificates of indebtedness for $50,000 on the late Washington bank. Such payments of interest were continued more than a year, or until February, 1895, when they were discontinued by Haugan, and the certificates cancelled. Something like $3,000 was thus paid to Brackett. Meanwhile the New York Life had foreclosed its whole mortgage, the foreclosure proceedings being so divided, as that $75,000 of the total of $130,000 stood against the Hospital site lots, the balances being divided as between the other parcels which had been deeded as "additional security." Also as to one of the latter deeds, the first, it was discovered that the lots had not been, as supposed, deeded at all, as the description placed them in block No. "ninety," instead of "ninety-three." This was corrected by a deed of April, 1895.

All efforts by Mr. Brackett and by the city itself, were unavailing to get from under the New York Life claim, to which there was also added further debts, mortgages, judgments, etc., etc., involving Brackett, increasing the embarrassment and entanglements. The upshot of the whole matter was that the city was out the amount paid Brackett, $50,000, the interest paid on the other $50,000, and had to pay the New York Life's claim of $75,000, to complete the city's title.

The only defense ever attempted for Mayor Eustis was that he DID NOT ACTUALLY VOTE FOR THE STEAL AND WAS NOT PRESENT AT THE MEETING OF THE BOARD OF WHICH HE WAS A MEMBER WHEN IT VOTED THE PURCHASE On this point let friend Brackett speak. The deal was investigated by a special committee of the city council which brought out the facts as above outlined, and before that committee Mr. Brackett himself appeared and made a full statement which is on file in the clerk's office in Minneapolis. In the course of his statement, as if filled with indignation that W. H. Eustis, his old political and personal friend, should seek to avoid his full responsibility, Mr. Brackett said:

"It having been stated that Mayor Eustis was not conversant with this transaction, and did not approve it, I must here state (although I am sorry that he is absent, for I would much prefer to make it to him), in justice to myself, the facts in this case. I CONFERRED FULLY WITH THE MAYOR, AS I DID WITH THE BOARD OF CHARITIES, THE CITY ATTORNEY AND THE ALDERMEN, in connection with this deal, AND CERTAINLY HAD THE APPROVAL OF THE MAYOR, ALTHOUGH HE WAS NOT PRESENT TO VOTE; and when the warrant was drawn for the payment of the $25,000 Mr. Nye took that warrant to the Mayor and asked him if it was all right. HE SAID TO NYE THAT IT WAS ALL RIGHT, TO PAY IT; THAT ALTHOUGH HE WAS NOT PRESENT AT THE BOARD, THAT IF HE HAD BEEN HE WOULD HAVE VOTED FOR IT. THIS STATEMENT WAS MADE TO ME BY MR. NYE, AND I CERTAINLY HAD THE APPROVAL OF THE MAYOR IN THIS TRANSACTION AS BEING A STRAIGHTFORWARD BUSINESS TRANSACTION."

DEMOCRATIC
County Convention and Primary Election

A Democratic County Convention for the County of Wright and State of Minnesota, will be held in the Court House in the village of Buffalo in said county on Saturday, the 8th day of October, 1898, at 11 o'clock a. m. on said day, for the purpose of nominating candidates for the following named county offices of said Wright County, viz: Auditor, Treasurer, Sheriff, Register of Deeds, Judge of Probate, County Attorney, Superintendent of Schools, Surveyor, Coroner, one Commissioner for the Second and one for the Fourth Commissioner districts.

And also for the purpose of placing in nomination candidates for the following named offices in the Fourty-sixth Legislative District in the State of Minnesota, viz: One(1) Senator, and two (2) Represenatives.

Also for the futher purpose of electing 15 delegates to represent said Wright County in the Democratic Judicial Convention for the Eighteenth (18th) Judicial District of said State of Minnesota, to be held in the village of Elk River, Sherburn County, Minnesota, on the 13th day of October, A. D. 1898, at 1 o'clock p. m.

A primary election will be held in the several election districts in said county, to elect delegates to said County Convention on Tuesday, the 4th day of October, A. D. 1868, commencing at 7 o'clock p. m. and continuing one hour, at a place to be hereafter designated by the respective precinct committees.

Each of the several election precincts in said Wright county, Minnesota, are entitled in said convention to one delegate and one additional delegate for each forty (40) votes or major fraction thereof cast for John Lind for governor in 1896, as follows:

Albion	3	Marysville	5

The Gazette.

DELANO, Wright Co. - MINN.

An inch of rain falling upon an area of one square mile is equivalent to nearly 17,500,000 gallons, weighing 145,250,000 pounds or 64,844 tons.

The island of Luzon is five times the size of Massachusetts and, with its area of 40,000 square miles, will be some offset to the cost of the war.

The emperor of Japan, while encouraging horse racing at Tokio, is sternly opposed to betting. He is said to have about 3,000 horses in his various stables.

The net loss in the membership of the Grand Army of the Republic last year was 13,793. It is a host in itself, and shows how fast the rolls of the veterans are diminishing.

A score of vessels in the coastwise trade of the Philippines which formerly flew the Spanish flag are now sailing under the stars and stripes. This is another of Dewey's doings.

One result of the war is to make the Nicaragua canal a live question of the day. A speedy passage from ocean to ocean is demanded by our commerce as well as our naval safety and convenience.

A seaman who landed in New York "loaded to the gunnels" with glory and large stories claimed that there was a gunner on the Texas who could kill a mosquito at four miles with a 12-inch gun. At half a mile he can knock the spots out of a five of hearts with a one-pounder. Wonderful gunnery, wonderful!

The newest club is the Woman's Klub of Klondike, whose colors are yellow and white, typical of gold and snow, and whose motto is "Kulture in Koldest Klondike." The badge of the club is a gold pick on a field of ice in white enamel. The club has issued a year book or manual, and is already considering the question of joining the general federation.

The three new battleships to be built at Philadelphia, Newport News and San Francisco will have a continuous speed of 18 knots. Each will have 2,000 tons more displacement than the Oregon, or a total of 12,500. One feature of the batteries will be 14 six-inch rapid-fire guns. The ships will be ready in 1901. They will be named the Ohio, Maine and Missouri.

The empress of Austria was in her sixty-second year at the time of her death, but all her portraits represent her as a very youthful woman. This is accounted for by the explanation that she would have no photographs taken or portraits painted after her beauty began to fade. If she had studied the arts of the modern actress she might have acquired a make up that would deceive even a camera.

Every ninth person in France is a trained soldier, in Germany there is one soldier for every sixth man, while the Austrian army is made up of every eleventh man, and the Italian army comprises one-seventh of the male population. One man out of every 14 in Russia is a soldier, while in England it is but one in 55. In our own country before this war came we had a soldier for every 12,000 men. That is the difference between living in a warlike monarchy and a peaceful republic.

The death of Miss Winnie Davis, the beautiful and accomplished daughter of Mrs. Jefferson Davis, brings into sad prominence a family that has borne a historic part in American affairs. Miss Davis was born at the most critical time in the life of the American people, when her father was conspicuous as the leader of the most tremendous rebellion the world ever saw; and though her own life has been lived since those days of strife, her name and parentage instinctively associate her with that momentous struggle.

The Klondike Nugget, one of the two papers published at Dawson, laments over the trouble of finding its town subscribers, who pay $24 a year for the privilege of getting a semiweekly edition. A paragraph in a recent issue explains the difficulty by saying that it is very hard to find some of the houses according to addresses left at the office. Among those mentioned were "the cabin with the screen door," "the slab house facing the river," "the big tent with two stove pipes," and "the cabin three doors south of where all the dogs are."

Admiral Dewey's naval victory at Manila was as cheap from a money point of view as it was in casualties to his men or ships. So much has been said about the immense cost of ammunition for big guns of battleships that it was supposed his destruction of the Spanish fleet was a costly affair, but his official report of the number of shots fired enabled the naval authorities to ascertain that only $47,000 worth of powder and shell were used. The United States could have afforded to pay for several naval victories at that rate, but at Manila one sufficed.

The treasury bureau of statistics has issued a series of interesting tables concerning the production and coinage of precious metals. The amount of money in circulation in the United States at various periods is shown. The amount in circulation in 1800 is given at $4.99 per capita; in 1810, $7.60; in 1820, $6.96; in 1830, $6.69; in 1840, $10.91; in 1850, $12.02; in 1860, $13.85; in 1865, $20.57; in 1870, $17.50; in 1880, $19.41; in 1890, $22.82, and in 1898, $24.74. The gold production of the United States in 1897 is given at $57,363,000 Coinage of gold, 1897, $64,634,865.

As the result of the introduction by Gen. Wood, military governor of Santiago de Cuba, of American methods of conducting municipal affairs, this ancient and always unhealthy city presents a health record to-day which is extraordinary, considering the condition that existed there. Under the present system Santiago is divided into five divisions, under five physicians, each division having inspectors of sewers, streets and houses with 100 street cleaners. Disinfectants are distributed everywhere and a fine is imposed for failure to comply with laws.

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

On his tour of inspection Secretary Alger fixes the blame for the sickness in the different army camps throughout the country on the commanding officers.

Admiral Cervera said in an interview in Madrid he had a clear conscience regarding Santiago. Spain, he said, had lived in a dream, and she now had to face reality.

The plan of Maj. Gen. Miles for the reorganization of the volunteer forces into corps, divisions and brigades has been completed.

From San Juan the Spanish steamship San Francisco sailed for Spain with 800 Spanish soldiers on board.

Instead of mustering out 50,000 volunteers wholesale within the next two or three weeks, it will be the aim of the military authorities to weed out the sickly, married and unfit volunteers gradually.

An appeal has been made by Aguinaldo to the powers for recognition of the independency of the Filipinos.

The war department issued an order that furloughed men are not entitled to transportation to their homes at government expense.

Gen. Blanco has ordered that the remains of Columbus, which are in the cathedral in Havana, be transported to Spain.

The evacuation of the Island of Puerto Rico by the Spanish troops is proceeding satisfactorily.

The president has informed the American commissioners at Havana that the evacuation of the island by the Spaniards must begin not later than October 15 and be completed by December 31 next.

Gen. Garcia denies the legality of the present Cuban government and says he does not recognize any government in Cuba save that of the United States.

Lieut. Hobson has raised the Spanish cruiser Infanta Maria Teresa.

The president has extended the jurisdiction of Military Gov. Wood and it now embraces the whole province of Santiago de Cuba.

Capt. Evans, late of the Iowa, has been ordered to duty at the navy department as a member of the board of inspection and survey.

In Havana the American commission received from the Spanish government a note claiming that Spain is still absolute in Cuba, despite the protocol.

In Washington the military investigating commission organized and began its work.

FROM WASHINGTON.

In Washington the Austrian legation will observe six weeks' mourning in memory of the late Empress Elizabeth.

Nearly 500 applications for pensions arising out of the war with Spain have been filed at the pension office in Washington.

President McKinley announces that the commission to investigate the conduct of the war department has been completed and will consist of nine members.

Our government will object to the intention of Capt. Gen. Blanco to have the remains of Christopher Columbus removed from Havana to Spain.

THE EAST.

John Shannon, George H. Morgan and John A. Jones were killed by a fall of coal in a mine at Nanticoke, Pa.

By a gas explosion in a mine near Brownsville, Pa., eight men were killed.

Because of lack of support the Arena, a high-class free silver monthly in Boston, has suspended publication.

It is said that Charles W. Woodruff, under arrest in Buffalo, N. Y., has married more than 50 women since 1885.

For the week ended on the 25th the percentages of the baseball clubs in the National league were: Boston, .669; Baltimore, .647; Cincinnati, .611; Cleveland, .556; Chicago, .543; New York, .523; Philadelphia, .519; Pittsburgh, .489; Louisville, .444; Brooklyn, .392; Washington, .323; St. Louis, .267.

James Corbett announces that his fighting match with McCoy in Buffalo, N. Y., is off.

In session in Boston the sovereign grand lodge of Odd Fellows decided that no more insurance licenses will be issued.

WEST AND SOUTH.

In a sawmill explosion at Milan, Mo., two men were killed and three others fatally scalded.

Near Millers, Ind., A. P. Johnson and his son and Erick Bergman, fishermen, were drowned.

Many persons were present at the funeral of Miss Winnie Davis at Richmond, Va.

On the Missouri Pacific railroad a passenger train was held up by masked men near Leeds, Mo., and the express car was robbed.

Near Batesville, Ark., Rosser G. Brown, a farmer, and his two young daughters were killed by lightning.

The lighter Monitor foundered in St. Mary's river and Joseph Prior, William Corbier, John Robare and Emanuel Robare, of Sault Ste. Marie, Mich., and John Foley, of Bay City, were drowned.

At Charlotte, Va., Joseph Terrell (colored) was hanged for the murder of his mother-in-law, Malinda Brown.

In Colorado forest fires threatened over half of the timber in the state.

C. M. Barnes, governor of the territory of Oklahoma, in his annual report shows a rapidly-increasing immigration and a prosperous condition of all the industrial interests of the territory, and says statehood is earnestly desired.

At the age of 70 years John M. Toucey, for many years manager of the New York Central railroad, died in Fishkill Landing, N. Y.

Martha B. broke the record for two-year pacing at the races in Wichita, Kan., by making a mile in 1:04.

Oregon's legislature convened in Salem to elect a United States senator.

At Lima, O., and vicinity, a tornado did an immense amount of damage. Elmer Baty was crushed to death and 50 other persons were injured, two fatally.

Against Mississippi every state in the south has established a rigid quarantine because of yellow fever.

Above its liabilities the Omaha exposition has in bank $50,000.

FOREIGN INTELLIGENCE.

Off Fecamp the French vessel Ville de Fecamp foundered and her crew of 36 were drowned.

Japan and China have been visited by thunderstorms and disastrous floods, in which many hundreds of people lost their lives.

In heavy storms in the Baltic sea 120 fishermen were drowned between Polangen and Libau.

Dispatches from the Barbadoes say that 30,000 persons were rendered homeless by the recent hurricane and 4,787 houses were destroyed.

Along the eastern and northern shores of Formosa floods and typhoons destroyed 5,000 buildings and 400 people were killed.

In session in Toronto, Ont., the locomotive firemen reelected F. P. Sargent grand master.

In China the emperor and all the higher state officials have bowed to the dowager empress and everything was quiet.

The steamer Campania with the United States peace commission on board arrived in Queenstown.

LATER NEWS.

John Williams, a negro rapist, was taken from the jail at Mountain City, Tenn., by a mob of 100 men and hanged.

Gen. Otis cables that the health of the men at Manilla is good.

There are 2,500 men sick at Ponce, Porto Rico.

A dispatch from Ashbury Park, N. J., says the Corbett-McCoy fight is indefinitely postponed.

The American evacuation commission has been officially notified that Manzanillo will be evacuated by October 7.

At a meeting of the French cabinet, all the ministers being present, a decision was taken in favor of a revision of a trial of former Captain Dreyfus, and the documents in the case will be sent to the court of cessation.

The peace commissioners of the United States reached Paris the 26th. They were met by the United States embassy, a number of Americans, and many reporters.

The well known actress Fanny Davenport (Mrs. Melbourne McDowell) died the 26th at her summer home at Duxbury, Mass., of enlargement of the heart.

A cyclone struck Meriton, Ont., wrecking many buildings and killing three persons.

The department decides that soldiers are entitled to travel pay from the place of discharge to the place of enlistment.

At 9 o'clok a. m. the 26th at Havana, the official exhumation of the remains of Columbus took place in the presence of General Blanco, Secretary Govin, the civil governor, the bishop, the dean of the cathedral and other authorities. The general public were ordered out of the cathedral at 8 o'clock and no one was allowed inside after that hour.

The republican state convention of New York nominated Theodore Roosevelt for governor, the first ballot standing 753 to 218 in his favor.

The most appalling storm in the history of Niagara peninsula passed over the strip of land between Lake Erie and Ontario, passing about parallel with the Welland canal, cutting a swath 300 feet wide through the peninsula and cutting off a portion of it, went almost at right angles with the main path of the cyclone and took in Tonawanda. It struck St. Catherines, Merriton and Grantham, Ont., hardest. The number of lives lost is estimated at six, and at least six more are fatally injured. The death list may reach fifteen.

The Spanish government has sent 35,000,000 francs to Gen. Blanco at Havana with orders to disband the volunteers.

The Northern pacific liner Columbia, laden with 1,300 tons of tea, narrowly escaped being wrecked in a typhoon off the coast of Japan, Aug. 29.

The Farmers' Bank at Flora, Ind., was entered by burglars, the safe blown open, and nearly $13,000 in currency secured. The cashier, Wm. Lannun, who was aroused and appeared upon the scene, was shot and probably fatally injured.

The Spanish people have commenced the formation of a plan to build a new navy by popular subscription.

Secretary Long cables Admiral Dewey that his action in seizing the insurgent steamer Abbey, loaded with carbines is approved.

The freedom with which the Spanish minister for foreign affairs, the Duke Almodovar del Rio, has given publicity to the instructions to the Spanish commissioners as to the disposition of the Philippines, has given rise to the suspicion among the officials there that there is behind it a deliberate purpose to draw out in advance the position of the American commissioners on this most important point.

It is semiofficially announced that if the Turkish government replies unfavorably to the demands of the powers respecting the island of Crete, which must be complied with by Oct. 11, the powers will blockade certain places in Crete by land and sea.

An American company, styled the Island of Cuba Real Estate company, has opened business on Obisbo street, Havana. It will deal in country lots. Note is made of this fact, as it is the first opening of American business there under the new order of things.

MARKETS.

Minneapolis, Sept. 27.

Wheat—No. 1 northern, 64 to 65c. No. 2 northern, 61 to 62c; Dec. 61¼c.

Oats—No. 3 white 22 to 23c.

Corn—No. 3, 28c.

Cattle—Steers, $3.80 to 4.20, cows, $2.70.

Hogs—$3.75 to 3.85.

Sheep—Muttons, $4.10 to 4.25 lambs, $5.25.

Butter—Creamery, extras, 17 to 18c; creamery, firsts 16 to 17c; dairy, fancy, 14 to 15c.

Poultry—Turkeys, 7 to 8c; spring chickens, 7 to 8c.

A MINE DISASTER.

Explosion of Gas and Firedamp Takes Eight Lives.

It Occurs Near Brownsville, Pa.,—Seventy Men at Work in the Mine at the Time—Three Are Killed at Nanticoke, Pa.

Brownsville, Pa., Sept. 24.—Seventy men were entombed Friday in the Empire mine of Snowden, Gould & Co., one-fourth of a mile below town, as the result of an explosion of gas followed by another explosion of fire damp. Of the number entombed all escaped or were taken out by rescuing parties except eight, who were killed outright and three more or less hurt. The dead are: John Haiston, miner, aged 35 (colored), wife and two children; Salem Haiston, miner, his brother, aged 25, single; Robert Davidson, miner, aged 45 (white), no family; John Bennett, driver, aged 22, single; William Pritchard, miner, aged 50, wife and seven children; Henry Hagar, aged 17; John Cartwright, miner, aged 50, married but no children; James Hall, miner, aged 17, unmarried.

The explosion is said to have been caused by the loosening of a large block of coal which opened a pocket of gas. Immediately following the explosion of gas there was a second explosion of fire damp. There were 70 men at work in the mine at the time of the disaster and at first it seemed an impossibility for the 54 men in entries nine and ten, where the explosion occurred, to escape. Four men, Jacobs, Davis, Whetzel and Walker, who were near the entrance, managed to crawl out, and the others with the exception of those caught by falling coal escaped by traversing a mile and a half of underground passages coming out at the entrance near Lynn station. This point is four miles from the opening of the mine on the Monongahela river.

Disaster in a Nanticoke Mine.

Nanticoke, Pa., Sept. 24.—By a rush in coal in No. 1 shaft Friday three men were entombed and probably instantly killed. They were George H. Morgan, aged 34 years; John Shannon, aged 32, and John A. Jones, aged 28. Two other miners, John Woolford and John Jones, narrowly escaped with their lives. The men were driving a rock plane in the shaft and had driven it about 35 feet above the adjoining chamber, which had been worked full and played out. This chamber was about 180 feet from the main gangway, and a stout box had been built around the pillars to prevent a rush of coal. It is supposed that this box gave way.

WANTS TO BE A STATE.

Oklahoma Has Ambitions, According to Gov. Barnes' Annual Report.

Washington, Sept. 26.—The secretary of the interior has made public the annual report of C. M. Barnes, governor of the territory of Oklahoma. The report is a voluminous document, and takes up all the questions which affect the interest of the territory. On the question of statehood Gov. Barnes says:

"Since the passage of the Curtis bill, changing to some extent the status of the five civilized tribes, and apparently postponing the question of statehood therein for several years, the sentiment in Oklahoma is somewhat stronger for immediate statehood than when I made my last report. All political parties have this year declared in favor of statehood upon such terms and with such boundaries as may seem best to congress."

Cervera Arrives at Madrid.

Madrid, Sept. 23.—Admiral Cervera arrived here Thursday. There were no incidents worth noting in connection with his arrival at the capital. In an interview, he said he had a clear conscience regarding Santiago. Nations, he said, grew great by their victories and not by their defeats, however glorious they might be. Spain had lived in a dream and she now had to face reality. The admiral added that his warships were not destroyed in battle but by fire.

To Honor La Fayette.

Chicago, Sept. 26.—Dispatches to the governors of all the states in the union asking them to make public proclamation setting aside October 19 as La Fayette day were sent out from the Paris exposition office Saturday. The telegrams were alike and were repetitions of a cablegram received from Commissioner-General Peck.

A Financial Success.

Omaha, Neb., Sept. 26.—The total receipts of the exposition to date have been nearly $700,000. Its cash balance in the bank is $120,000, or more than $50,000 above its liabilities. The total attendance for last week was 189,615, or a daily average of 27,088. There is no doubt that every premium will be paid promptly.

Famous Actress Dead.

Duxbury, Mass., Sept. 27.—Mrs. Melbourne McDowell, the noted actress, better known as Fanny Davenport, died at her summer home, Melbourne hall, at half past ten o'clock Monday night, of enlargement of the heart. She was born in London April 10, 1850.

TO FIX THE BLAME.

Commission to Investigate Conduct of War Department Holds Its First Formal Session.

Washington, Sept. 27.—The commission selected by the president to investigate the conduct of the war department held its first formal session Monday with all the members present.

The meeting was strictly secret, no newspaper representatives or others not connected with the board being admitted.

The session was confined to a meeting of two hours' duration in the forenoon, after which an adjournment was taken until ten o'clock Tuesday. The proceedings were limited to the outlining of a general policy and the formulation of letters of inquiry.

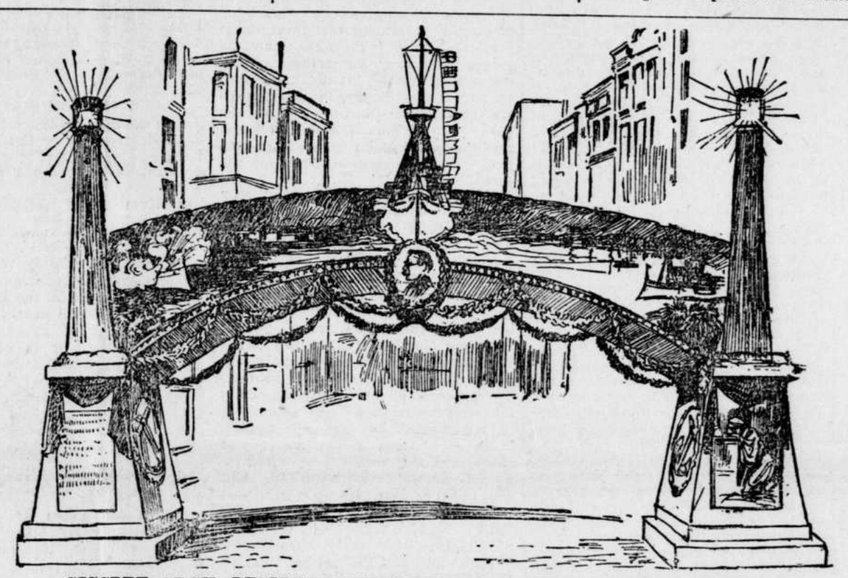
The members of the commission are: Maj. Gen. Granville M. Dodge, of Iowa; Col. J. A. Sexton, of Illinois; Capt. E. P. Howell, of Georgia; Maj. Gen. J. M. Wilson, chief of engineers of the United States army; Hon. Charles Denby, of Indiana, late minister to China; ex-Gov. Urban A. Woodbury, of Vermont; ex-Gov. James A. Beaver, of Pennsylvania; Maj. Gen. H. McD. Cook, of the army (retired), and Dr. P. S. Connor, of Cincinnati.

Granville M. Dodge is chairman and Richard Weightman is secretary of the commission. Maj. Mills, of the inspector-general's office, is to be military recorder.

HIS WESTERN TRIP.

President McKinley and Party to Leave Washington for Omaha on October 10.

Omaha, Neb., Sept. 27.—A special to the Bee from Washington says that Senator John M. Thurston, accompanied by W. N. Babcock, transportation manager of the exposition, interviewed President McKinley Monday in reference to his train to Omaha. Four members of the cabinet will accompany the president, namely: Secretaries Gage, Smith, Bliss and Wilson, with their wives, as will Gen. Nelson A. Miles and Commodore Philip, of the Texas, and Assistant Postmaster-General Heath. The president will leave Washington October 10 in the morning, arriving at Chicago Tuesday at 11 a. m., via the Pennsylvania. Without stop-over he will take the Burlington for Omaha, making a daylight run through Illinois and a portion of Iowa. After the Omaha visit the president will go to Denver, returning via Omaha and the Northwestern railroad to Chicago to attend the peace jubilee exercises in that city October 18.



SIGSBEE ARCH, DESIGNED FOR THE GREAT CHICAGO PEACE JUBILEE.

FLOODS IN THE ORIENT.

Thousands in China and Japan Suffer from Storms of Unusually Severe Character.

Vancouver, B. C., Sept. 23.—Advices from the orient by the Empress of India state that China and Japan have been visited by thunderstorms and disastrous floods, in which many hundreds of people have lost their lives. The region north of Ah Shang mountains has been inundated for hundreds of miles by the Yellow river. Several hundred thousand persons have been plunged into the deepest distress and many into absolute penury, which local authorities are unable to alleviate.

Brewery Syndicate.

Columbus, O., Sept. 27.—Papers will be filed here in a day or two incorporating a brewery syndicate with a capital of $25,000,000. It is asserted on reliable authority that Jay Cooke, of Philadelphia, is at the head of the syndicate which proposes to buy up all the large breweries of the country. It is said that options have been secured on nearly all the large breweries in Ohio. Hon. D. J. Ryan and T. E. Powell, of Columbus, and Senator Foraker are engineering the Ohio deal. It is said the syndicate already has secured $35,000,000 worth of brewery stock and that the interests finally involved will aggregate $50,000,000.

Damage by a Cloudburst.

Charlotte, N. C., Sept. 24.—Specials to the Observer from points in western North Carlonia tell of serious damage from a cloudburst. The Yadkin and Catawba rivers are booming. The river bottom corn crops are covered with mud and are ruined. The hay crop is also seriously damaged. Some families have been driven from their houses to the hills by the freshet. Louis Moser was drowned in the Yadkin, near Donnaha, while attempting to rescue pumpkins that were floating down the stream.

Infanta Maria Teresa Floated.

Playa del Este, Guantanamo Bay, Cuba, Sept. 26.—The wrecking company engaged under Lieut. Hobson in the work of saving the wrecked Spanish warships has succeeded in floating the crusier Infanta Maria Teresa. The cruiser after being got afloat was taken in tow by the Potomac and convoyed by the cruiser Newark, the Scorpion and the Alvarado, proceeded for Guantanamo bay.

TO HAVE ANOTHER TRIAL.

French Cabinet Decides on Revision of the Dreyfus Case—Action Is Approved.

Paris, Sept. 27. — At a meeting of the cabinet, all the ministers being present, a decision was taken in favor of a revision of a trial of former Capt. Dreyfus, and the documents in the case will be sent to the court of cassation.

The crowds of people outside the ministry of the interior, where the cabinet council was held, loudly cheered the ministers and there were shouts of "Vive Brisson," "Viva la revision."

The cabinet ordered the minister of justice, M. Sarrien, to lay before the court of cassation the petition of Mme. Dreyfus, wife of the prisoner of Devil's island, for a revision of her husband's case. The court, therefore, will decide the legal question as to whether the first trial of Capt. Dreyfus was vitiated by the forgery committed by the late Lieut. Col. Henry, who was a witness before the court-martial, and who confessed to having forged a document in the case.

The minister of justice has announced that he has given instructions that proceedings are to be taken immediately against anyone attacking the army.

The cabinet meeting was prolonged and animated. The minister of agriculture, M. Vigor, is reported to have bitterly opposed a revision and it is rumored he will resign. He left the meeting before it ended, remarking to a newspaper man that he was completely voiceless.

REPRESENT THE FILIPINOS.

Emissaries of the Philippine Provisional Government Arrive —Will Visit McKinley.

San Francisco, Sept. 23.—The United States transport China arrived Thursday from Manila via Hong-Kong, Nagasaki and Kobe. She brought with her as passengers several distingushed military and naval men, besides several journalists and two representatives of the provisional government of the Philippines who are en route to Washington to plead with President McKinley for the independence of the island, after which they will probably proceed to Paris to appear before the peace commission. The Filipinos are named Fillipe Agoncillo and Jose Lopez, the former being Aguinaldo's chief emissary. In an interview he said the insurgents fully expected to be allowed to govern themselves and even hinted that some sort of agreement had been made with United States Consul Wildman regarding the outcome of the war made by the insurgents against Spain, but what the terms were Agoncillo would not state. He said that he expected definite instructions from Aguinaldo by cable, but diplomatically refused to give the slightest hint of any he might have already received. The Filipinos are very shrewd and spoke English fluently.

TEN PERISH.

Wrecking of the Schooner C. C. Funk —Only Two Seamen Escape Death.

San Francisco, Sept. 23.—Australian papers received here on the steamer Alameda report the wreck of the schooner C. C. Funk, on Flinder's island on July 31, with ten of her crew, all of whom shipped on the well-known coaster either here or in the north. Only two seamen, Albert Krough and John Petersen, were saved, and but one body had been recovered when the Alameda sailed. It was that of Peter Neilson.

Must Hurry Evacuation.

Washington, Sept. 26.—The instructions sent the American evacuation commissioners at Havana, practically amounting to an ultimatum to Gen. Blanco, insist that the evacuation of the island by the Spaniards begin not later than October 15, and that it be complete by December 31 next. What the result of this demand will be is not yet known, but it is said that the administration is determined to tolerate no dilatory tactics on the part of the Spanish forces in leaving the island, although disposed to permit reasonable indulgence.

Aged Farmer Murdered.

Akron, O., Sept. 27.—Oscar Osborne, an aged and wealthy farmer living in Richfield, this county, was murdered Friday, but his body was not discovered until Monday morning. He lived alone, and was considered to have considerable money about him. The head was crushed in and a haiter was about his neck. The intention had evidently been to force Osborne to disclose the hiding place of his money by choking him.

Empress of China in Control.

Washington, Sept. 24.—The Chinese minister, Mr. Wu Ting Fang, Friday received a cable dispatch from the Chinese foreign office at Peking giving the text of the edict issued by the emperor Thursday, in which, owing to the critical condition of Chinese affairs, he calls back to power the empress dowager, and commits to her hands the direction of the vast affairs of the empire.

Good Blood Makes Health

And Hood's Sarsaparilla makes good blood. That is why it cures so many diseases and makes so many people feel better than ever before. If you don't feel well, are half sick, tired, worn out, you may be made well by

Hood's Sarsaparilla

America's Greatest Medicine.

Hood's Pills cure all Liver Ills. 25 cents.

A SMALL BOY'S SCHEME.

He Had an Idea About Eggs Which Promised a Splendid Result to His Mind.

A small boy who is not familiar with rural ways was taken by his fond mamma for a brief stay in the country.

On a farm in a neighboring county he waxed fat and sunburnt, and picked up a wondrous store of astonishing experiences.

One day the farmer smilingly said to his mother:

"Just ask your boy what he hid two eggs in the stable for?"

So the very first opportunity the mother said to the six-year-old:

"My dear, what did you do with those eggs you took from the hen house?"

"Oh, mamma," replied the boy, "I didn't want you to know about it."

"Why, it's all right," said mamma. "I only want to know what my boy did with them."

"I hid them in the stable," said the little fellow.

"And what for?"

"'Cause it's my scheme."

"Your scheme? And what is your scheme?"

"Why, you see, mamma," said the little philosopher, "when eggs is borned in a chicken house they is always little chickens, an' I fink if they was borned in a stable dey might be little horses!"

It is needless to add that up to the time of his leaving the farm the miracle was still unaccomplished.—Cleveland Plain Dealer.

PRACTICAL KINDNESS.

One Hundred Thousand Grateful Soldiers.

These war times have tried men's souls in many unexpected ways, but like a shaft of sunshine and good cheer out of the cloud of privation and endurance has been the work that The American Tobacco Co. has done among the U. S. Soldiers and Sailors ever since the war began—for when they discovered that the camps and hospitals were not supplied with tobacco they decided to provide them, free of cost, with enough for every man, and have already given outright to our Soldiers and Sailors over one hundred thousand pounds of "Bat-Ax Plug" and "Duke's Mixture" Smoking Tobacco, and have bought and distributed fifty thousand briar wood pipes, at a total cost of between fifty and sixty thousand dollars.

This work has been done quietly and thoroughly, by establishing headquarters in each camp, so that every camp and every hospital of the United States Army has been supplied with enough tobacco for every man and the sailors on thirty United States Ships in Cuban waters have shared with the soldiers this most welcome of all "rations."

Perhaps it will be only fair to remember when we hear the remark again that "corporations have no souls," that there is one American corporation whose soul has been tried and has not been found wanting in "practical kindness."

Where a Strong Bond Is Needed.

Jeweler—Narrower and lighter wedding rings are fashionable. Why do you want one so broad and heavy?

Customer—We expect to move to North Dakota after the wedding.—Jewelers' Weekly.

Making Them Useful.

There are too many people who use their friends as coaling stations.—Atchison (Kan.) Globe.

But he did not reply. He gasped for breath, and the hostess, appearing at that moment on the scene, deflected the line of conversation.—N. Y. Sun.

There's something crooked about the business of a corkscrew manufacturer.—Chicago Daily News.

The expense of repairing tire punctures should be added to our in-come tacks.—L. A. W. Bulletin.

Another pugilist gone wrong—he's dead.—Buffalo Times.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO.

MINNESOTA NEWS.

Indians Still Hostile.

The Chippewa Indians on the Leech Lake reservation are still acting in a manner which forebodes trouble. The strained relations commenced when, over a week ago, the Bear Island Indians rescued one of their chiefs who had been arrested by United States Deputy Marshal Morrison. The Bear Island pillagers are very clannish, and the old chief, when handcuffed, had only to exclaim in the Chippewa language, "Where are all my boys?" and in a few moments he was rescued. The same evening a number of Indians went over to Walker, procured whisky and tried to run the town. They were held in check, however, by the Walker police. Last week the Indians held an informal council and resolved to ignore Uncle Sam and the government of the "Great Father," and they further resolved that they would burn down all the lumber camps opened up this winter to cut dead and down timber, when such camps are run by half-breeds or Indians who do not belong to the Leech Lake reservation. It is feared there will be trouble, as the Indians are growing more insolent every day.

Paid His Bet.

Charles Stone, of Minneapolis, is a man who pays his bets. Mr. Stone has been a staunch republican for four years, and this summer he was a firm adherent of Van Sant. He bet heavily on the gubernatorial nomination, and his sporting blood being aroused, he entered into an agreement with a supporter of William Henry Eustis that if the said Eustis carried Hennepin county, he would cut off his first finger. The other party to the deal promised if Van Sant carried Hennepin, to sacrifice his digit in the same heroic manner.

When the returns of the Hennepin county primaries came in, and the Eustis majority rolled up unceasingly, Mr. Stone did not hesitate. He had given his word, and his word should be kept. With a firm step he walked into the back yard, and, seizing the family hatchet, which had ofttimes been stained with the gore of hapless chickens, he laid the first finger of his left hand upon the chopping block, and with one fell blow the deed of destruction was done. The first joint of the devoted finger lay severed from its parent member, an offering to the ghost of the Van Sant boom.

Assessment Values.

The state board of equalization has raised the assessment on yearling cattle $1 per head, making the valuation $6 to $7; on 2-year-olds, $1 per head, making the valuation from $9 to $10 per head, and on cows $2 per head, making the valuation $12 to $14 per head. The valuation of oxen was also increased $2 per head, making it from $17 to $20 per head. In St. Cloud the assessment on cattle was raised 30 per cent. Fergus Falls received an increase 10 per cent, and Sauk Center 15 per cent. These three towns had local boards of equalization. The general assessment of Stearns county was raised 60 per cent.

Foiled.

While the wife of Senator C. K. Davis was going over the Northern Pacific from the Pacific coast a robber climbed on the truss rods as the train was leaving Glyndon, and attempted to crawl through the window into the stateroom she was occupying. Mrs. Davis warned him away and the fellow made some threatening remarks. In an open satchel on the seat Mrs. Davis had a revolver. She thrust that in the would-be robber's face and he dropped from the rapidly moving train to the ground.

Found Gold.

Two Boston mineralogists sent to the Rainy Lake gold district by the banking firm of Francis Rice & Co., returned after an examination of the placer deposits in that country. They report placer diggings of very profitable character found there, discovering sand worth from $4 to $50 a ton. The existence of placers in the Rainy Lake section has always been a debatable question.

First Spanish War Pension.

The first Spanish war pension was granted Mrs. Robert Sinclair of St. Paul. Her son died at Camp Ramsey. Mrs. Sinclair will receive $12 per month and $2 per month for each of two minor children until they become 16 years of age.

Minnesota Briefs.

In the last fiscal year the state has patented to purchasers 59,798 acres of land in 999 parcels. The year before it was 32,152 acres in 394 parcels. A little over half was school land, with smaller amounts from the university and permanent improvement lands, and lands transferred from the latter account to the school or university fund.

A. Wallenberg was burned to death in St. Paul in a fire that destroyed the residence of his daughter, Mrs. Oscar Gibbellen.

A movement is on foot to test the legality of the law by which the governor was authorized to appoint county commissioners for Cass county for four years. It is claimed that in good faith, when Cass county was organized, the commissioners should have been appointed for only two years, and until the approaching elections.

Henry W. Bartlett, of St. Paul, has filed a petition in bankruptcy.

Burglars took $200 worth of goods from the hardware store of Wm. Harrison at Barnesville.

The war department announces that Col. Reeve, of the 13th Minnesota regiment, has been promoted to be a full brigadier general.

The state board of equalization has placed the value of each dog in the state at $5.

The St. Paul police state that they are still trying to find the murderer of Arthur Middleton, the tea merchant, who was killed in his store the night of Sept. 6, and that suspicion rests upon two burglars who robbed the man for his money.

Milo White, of Chatfield, was nominated for congress by the populists of the First Congressional district.

The democrats of Dakota county refused to endorse Ignatius Donnelly for the legislature.

Ignatius Donnelly was nominated for the legislature by the populists of Dakota county.

L. B. Albright, of St. Cloud, was elected president of the State Association of Horseshoers.

The 42d annual meeting of the General Congregational association of Minnesota was held at Owatonna with large attendance.

TO ESCAPE THE FEVER.

Southern People Coming North Through Fear of Attack by "Yellow Jack."

Jackson, Miss., Sept. 26.—The yellow fever epidemic, which is now costing the state of Mississippi $2,000 a day, not to mention the loss to commerce, prostration of business and a tie-up of railroads throughout the state, is now at its height, and the chances are good for its continuance until the frosts of November. The situation practically shows no recent change. The epidemic is still confined to the counties of Lafayette and Hinds, which are 150 miles apart. A few sporadic cases have appeared in other counties, but they were quickly isolated and the disease stamped out. Up to the present time 120 cases of genuine yellow fever have appeared, from which 25 deaths have resulted, the death rate being about six per cent. heavier than during the epidemic of last year.

Every state in the south has established a rigid quarantine against all portions of Mississippi, infected or noninfected, and business is practically at a standstill. Freight traffic is in a great measure suspended and many railroads have discontinued their train service altogether. Every road in the state is operating at a great loss on account of the quarantine, which in nearly every instance is a shotgun affair and a very bad thing to trifle with.

In Jackson, where five cases have appeared to date, fully three-fourths of the population has left the city, and each outgoing train carries special coaches loaded with refugees for northern points. The town is almost deserted. The capitol building is closed and nearly all the state officials have gone. The banks of the city are open about an hour each day, merely for the purpose of keeping the time locks in order. A ten-mile cordon surrounds the town and no one is allowed to enter. Those who desire to leave must go north. The board of health advises a total depopulation of the city.

EFFECT WAS AWFUL.

First Reports of the Recent Hurricane in the West Indies Not Exaggerated.

Kingston, Jamaica, Sept. 24.—Mail advices which reached here Friday brought melancholy relief to the suspense regarding the full extent of the hurricane disaster at the islands of St. Vincent, St. Lucia and Barbadoes, showing that the first accounts were not exaggerated. At St. Vincent about 300 lives have been lost, not counting the loss of life suffered through the destruction of shipping. The coast is strewn with the wrecks of vessels, many of which were from Barbadoes. The storm raged from ten o'clock in the morning (Sunday, September 11) until two o'clock in the afternoon, completely wrecking the island. At the capital, Kingston, fully 200 houses were demolished, while the suburbs, Coxheath and Montebello, were obliterated.

Throughout the island the destruction was on a wholesale scale, not only the estates and buildings being razed and cultivation being obliterated.

The hurricane struck the island of Barbadoes on the night of the 10th, completely wrecking that flat, exposed island and sweeping away 10,000 houses while damaging thousands more. This left three-quarters of the inhabitants homeless. Over 100 people were killed so far as known. The city of Bridgetown was partially destroyed and the suburbs of St. Michael and Belleville were entirely demolished. All the shipping was wrecked or blown out to sea. The total estimated damage besides the loss from the cane crop and provisions is about $1,500,000 at Barbadoes.

THE PEACE TERMS.

Spanish Commissioners to Contend for Retention of Philippines and Payment of Cuban Debt.

Madrid, Sept. 27.—The cabinet Monday evening had under discussion Capt. Gen. Blanco's dispatch concerning the American claims in connection with the evacuation of Cuba. Duke Almodovar de Rio, minister of foreign affairs, states that the Spanish peace commissioners have been instructed to contend strongly for the integrity of Spanish sovereignty in the Philippines, on the ground that the protocol between Spain and the United States was signed before Manila capitulated; and also to make a firm stand regarding the Cuban debt and the Philippine loan of 1896, if Luzon is ceded to America. Should the United States prove less exacting than is expected, the commissioners have power to make all possible concessions, political and commercial, compatible with the retention of Spanish sovereign in the Philippines; but in the event of losing a portion of the islands, they are instructed to resist to the utmost any attempt of the United States to claim the right of preference over other powers should Spain desire to sell or cede the remainder of the islands. It is understood, however, that all instructions are only ad referendum. Most of the commissioners and attaches speak English.

Cyclone in Ohio.

Lima, O., Sept. 26.—A storm which passed over Lima Saturday afternoon at 1:50 o'clock did thousands of dollars' worth of damage by wrecking buildings. A large number of people were injured and one child, the six-year-old son of Sidney Walthey, 374 South Scott street, cannot be found. When Mrs. Walthey saw the storm coming up she called to her son, who was in the yard, but just then the tornado struck, and the child was carried away in the flying debris. Hundreds have searched for him in vain ever since the storm. The wind and rain continued for fully an hour. The storm starting point was about three miles east of the city.

Honor the Dead.

Richmond, Va., Sept. 24.—The "daughter of the confederacy" lies at rest. From the time the body of Miss Winnie Davis arrived in Richmond until it was buried in Hollywood cemetery Friday business in the city was practically suspended. More than 70,000 people either took part in or gathered on the streets to look upon the procession. Men of national fame came from a dozen states to honor her memory. All flags were at half mast, the stars and stripes and the confederate flag as well.

ETIQUETTE NOTES.

Various Little Actions Which Are Not Considered Good Form in Public.

It is vulgar to overload the fingers with rings, no matter how beautiful the hand or the jewelry. A few very choice rings, say two, are quite sufficient to wear at once.

It is not good form to beckon to an acquaintance in public places, or to use the hand in pointing out places.

The proper way to serve celery is in a low dish filled with cracked ice.

When leaving a party or reception it is not necessary to take leave of any person but one's hostess or hostesses, and the leave-taking and departure should be done as quietly as possible.

It is not considered polite to smoke in the presence of ladies, and young women should not permit it, or encourage it by easy tolerance. A man who is a gentleman and who respects a woman can and does deny himself the pleasure of smoking when he is in her society.

Dyed hair is considered bad form; it certainly is in the worst possible taste and never deceives any person; neither does it make anyone look more youthful.

For a simple yet perfect little dinner four courses are sufficient; they may consist of soup, a roast with its suitable vegetables, a salad, and a sweet dish; for instance, a pudding, or ice cream and black coffee.

A pretty feature of country house weddings is the winding up of the festivity with a dance.; another feature, and one which makes the affair less trying to the bride and groom, is the air of informality that seems inseparable from country fetes.

Afternoon weddings are more in vogue than for many years; the high noon hour is a favorite hour for weddings this year, especially in the country.

Patriotic lawn parties are in high favor, and it goes without saying that wherever the national colors can gain a foothold there they are seen.

Good form requires reserve of manner, grace of bearing and refined modesty to be shown as much in a bathing costume as in a ball dress, therefore one must be more than careful in one's conduct at the seashore.

There is a certain amount of freedom allowable at the seaside and at the mountains, but among refined people it never degenerates into the license shown by public loungers and loud-voiced merriment.—Ladies' World.

CANNING BEANS.

The Best Time for This Work Is October—Some Points of the Process.

Butter beans and string beans may be successfully canned at home, but we do not recommend anyone to put up peas, lima beans or corn at home. They require a greater heat to sterilize them than boiling water, and are cooked by expert canners with superheated steam. Corn sometimes keeps well when canned with tomatoes.

The best time to can string beans is in October. When they are put up before this time they must be protected against the heat of summer and early fall, and there is greater danger of their not keeping. Select the small beans. The "refugee" beans are considered excellent for this purpose. String them and throw them into boiling water. Drain them and fill cans which have been rolled in boiling water with the whole bean. Cover the beans to the top of the can with boiling water in which a teaspoonful of salt has been dissolved to every pint. Close the cans without the rubbers or with the vents open, set them in hot water on a wooden rack in a large boiler with straw or cloths packed between the cans to prevent their knocking together. Let them cook in this way with the water around them for half an hour. Then close the vents or put on the rubbers and screw the cans tightly. Let the water boil around them three-quarters of an hour longer. Remove from the fire, and when they are cold tighten them again and set them away in a dark, cool place where the temperature does not rise above 70 degrees. Butter beans are put up in the same way as string beans. One of the best ways to keep string beans is in a strong brine in the same way cucumbers are put up for pickles. They must then be freshened, however, for use.—N. Y. Tribune.

Fashion's Latest Whims.

Revers of all shapes, both fanciful and plain, will be a conspicuous feature of the bodice this season. Chemisettes, either severe in style or made fancy and fluffy, will be used on house and street gowns, and may be in contrasting color or to match the gown. Tucks will be seen in all widths, running in every direction, singly and in clusters. All the new tucks turn upward instead of downward. All dressy costumes have a touch of white, either of ribbon or lace. Braids of all widths and weaves will be quite as popular as ever all through the autumn and winter, and will be applied both plainly and in intricate designs, some of the latter showing touches of velvet here and there, which have the effect of medallion trimming. Ribbons and velvet bands, both bias and straight-cut, are used in plain up-and-down and straight-all-around trimming, and are put on either plain or gathered.—Woman's Home Companion.

Peach Fritters.

Make a batter of the yolks of three eggs well beaten, a half cupful of milk, a little salt and about four ounces of flour. Pare and halve the peaches, removing the seed; dust the pieces with powdered sugar, dip each piece in batter and fry in boiling fat. For a sauce, cream together a teacupful of sugar and butter the size of an egg; add half a teacupful of boiling water and set it over a kettle of boiling water ten minutes. Before sending to the table add half a grated nutmeg and the whites of two eggs beaten to a stiff froth.—Ladies' World.

Farina Balls.

Scald two cupfuls of milk, add gradually one-half cupful of farina, one-quarter cupful of sugar and one-half teaspoonful of salt. Cook 20 minutes and add one beaten egg. Cool the mixture, shape in balls, dip in crumbs, egg, and again in crumbs, fry in deep fat and drain on brown paper. Serve with currant jelly. — Philadelphia Press.

WHAT THEY EXPECT.

An Instance of the Unreasonable Expectations of Some New Women.

She was a new woman and was rather proud of the fact that she had a place in the world of business that enabled her to regard herself as being on an equality with man. But there was one thing that annoyed her.

"I go down on the car early every morning," she said, "with a young man who lives a little farther out than I do, and I don't mind saying that he doesn't know what courtesy and gentlemanliness is."

"What does he do?" inquired her big brother, who doesn't think very much of new women, anyway, and is consequently opposed to his sister being in the world of business.

"It isn't what he does," she replied; "it's what he doesn't do. Time and again he has let me stand up all the way downtown, when it would seem as if the very least he could have done was to get up and offer me his seat."

"That is wrong, isn't it?" returned the big brother.

"It's contemptible selfishness; that's what it is," she answered.

"The fact that he is in possession of a seat," went on the big brother, "of course does not entitle him to it if a fellow clerk of the opposite sex happens to want it. And yet men in business will do those things. Why, I know a girl who has twice the grievance you have in that line."

"What's happened to her?" she asked.

"Man there first and refused to give up when she came along," he explained.

"Give up his seat?"

"No; give up his job. She has discovered that it would just about suit her, but the great big brute of a man hasn't chivalry and courtesy enough to get up from his desk, bow politely and say: 'Madam, permit me to offer you my job.' Actually, he just hangs right on to it himself and lets her go hunting round for something to do. Most ungentlemanly, isn't it? But, do you know, I think the old-fashioned courtesy is—"

However, she did not wait to hear about that. She merely said he was a mean thing and didn't understand what was due to a lady at all. And he himself admits that constantly changing conditions make it mighty hard to find out.—Chicago Post.

FELL FROM A SCAFFOLD.

From the Herald, Watertown, N. Y.

John Young, of Le Roy, N. Y., is 72 years old, and is well known in that and neighboring towns. While putting some weather boards on a barn, standing on a scaffold twenty-two feet from the ground, he felt dizzy, lost his balance and fell to the ground. The side of his face, arm and one entire side of his body, on which he struck, were badly bruised. Picked up and carried to the house, he was under a doctor's care for several weeks. The doctor finally came to the conclusion that his patient had received a stroke of paralysis and was beyond medical aid. He could not use one arm, or turn over in bed.

Paralyzed by the Fall.

One day, while lying on the bed, he read of a case something like his having been cured with Dr. Williams' Pink Pills for Pale People. He coaxed his granddaughter to get him a box of the pills. After that box had been used he secured another. In three weeks he began to feel a little life in his arm; at the end of four he could move his fingers; at the end of two months he could walk, and in three months he could shave himself with the injured hand.

As he told his story in the Herald office, he looked the perfect picture of health. He carries a box of the pills in his pocket, and whenever he does not feel just right, he takes them. They cured him after doctors had given him up, and his death was daily expected.

All the elements necessary to give new life and richness to the blood and restore shattered nerves are contained, in a condensed form, in Dr. Williams' Pink Pills for Pale People. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

No Cause for Jealousy.

Mrs. Benham—Don't you really care anything about mother?

Benham—Well, not enough to make you jealous.—N. Y. Journal.

A Word to Baldheads.

Don't comb your hair over the bald spot on your head and then kick because your grocer puts the big potatoes on top of the measure. —Chicago Evening News.

His Impression.

Brown—Isn't millennium a Latin word?

Smith—Yes; I think it means "money to burn," or something like that.—Puck.

In the Language of the Day.

He—I shall never love again.

She—Ah. An immune. — Indianapolis Journal.

"There goes another camp victim." "Why, he isn't a soldier." "No, but he camped out this summer and got engaged to a girl." —N. O. Times-Democrat.

Mrs. Banks—"Why did you let your cook go?" Mrs. Brooks—"She said one of us would have to leave."—Truth.

The Spaniards try to avoid engagements, but the summer girl isn't built that way.—Chicago Daily News.

Why isn't memory the thing we forget with?—Chicago Daily News.

The Growth of Socialism.

It is argued by deep thinkers that the growth of socialism is due to the large standing armies of the world, in which men are often made to enlist against their will, and thus become discontented with existing conditions. The growth of a stronger race of people is due to the large sale of Hostetter's Stomach Bitters, which is the best medicine for costiveness, dyspepsia, fever, ague and all nervous troubles. Try one bottle.

He Didn't Know About Hairpins.

"By Jove!" exclaimed the bridegroom, as he sat down and tugged away at his mustache, "this is too bad!"

They had just arrived at Niagara Falls, and the porter had bowed himself out after carrying up a trunk that weighed 487 pounds, for which he received a 50-cent "tip."

The frightened girl dropped her traveling hat upon the center table and stood as if transfixed, with one of her gloves half off.

"What is it, Harry?" she asked.

"This is a fine go," he muttered. "I wonder how in the world I ever came to do such a foolish thing."

Then he felt in his pockets again, and cast a helpless look at the big trunk.

"You—you haven't lost your pocketbook, have you?" she asked.

"No, darling," he answered, "but I left my keys at home, and the one that opens your trunk is among them."

"Oh, is that all?" she exclaimed, with a happy little sigh. "Here"—and she removed a hairpin from her rich brown locks—"open it with this. Now I know that I am the only girl in whom you ever took a real interest. Otherwise you would have known. Ah, Harry, dear, I am so happy!"—Cleveland Leader.

Tickets.

When a manufacturer has succeeded in making his name a guarantee of the excellence of his goods he has reached the highest point attainable in the commercial world. As an example the name of Wm. Simpson & Sons on any fabric is a guarantee of the highest standard of quality, color and finish. Every piece of their goods bears a ticket on which appears the name William Simpson & Sons. This insures the quality. Dealers who have sold and women who have bought and worn the material made by that house are assured of the excellence of every piece of goods which bears the name, and the women of the United States who have worn Simpson's prints as long as they can remember are still wearing them and will naturally insist upon having the goods bearing that particular name on the ticket because they give the most perfect satisfaction.

Two Different Views.

She was a charming young lady and naturally had many admirers of the so-called stronger sex. One evening one of them called and the conversation chanced to drift toward another.

"I think Mr. Davis is quite an intellectual young man," she observed.

"Oh, you do," sneered the other.

"Why, yes," she replied. "It seems to me that he is a very hard thinker on many important subjects."

"Well, now that I come to consider it," retorted the undaunted rival of Mr. Davis, "I believe you are right. I never knew a man who thought with so much difficulty."—Chicago Evening News.

Free to Teachers and Scholars.

In 1897 we had thousands of requests from teachers and scholars for Wonderland '97. The edition—a large one—was exhausted long before the end of the year. Wonderland '98 can now not only be supplied to those unable to secure the former, but also to others. It is entirely different, however, from the first named book. It has a chapter on The Agricultural Northwest, crammed full of valuable information; one on Yellowstone Park, written especially for teachers; another on Alaska and Klondike, and one on A Canoe Lake Trip, that will be of interest to schools. The book has a high art cover designed by Leyendecker, and it is profusely illustrated from new photographs. The Northern Pacific Railway will send the book and a revised folder map of Yellowstone Park, upon receipt of six cents in stamps or postal order. Send to Chas. S. Fee, Gen. Pass. Agent, St. Paul, Minn. Write address plainly, and state where you saw the advertisement.

When It's Really Solemn.

"It's a very solemn thing," she said, "when a woman intrusts a man with her affections."

"It's a mighty sight more solemn when she makes him think she has intrusted them to him while they are still locked up in her jewel box," he replied.

Then they looked at each other, and each realized that it was time for their summer flirtation to end.—Chicago Post.

Improved Mathematics.

"What are you working on now?" was asked of the man who is always inventing but never invents.

"Nothing very big just at present. I'm about completing a method for calculating compound interest with a rubber stamp."—Detroit Free Press.

As to Riches.

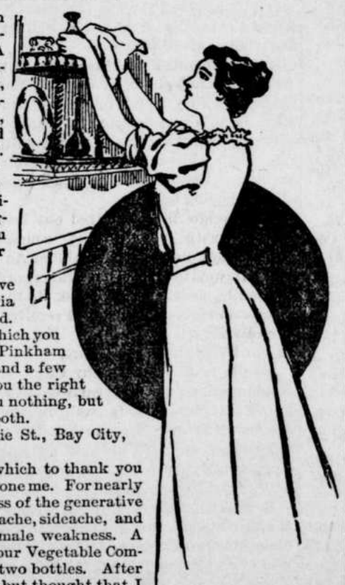
Paradoxical.—"How was your amateur opera performance?" "It was so poor that it was really rich."—Cincinnati Enquirer.

Hall's Catarrh Cure

Is taken Internally. Price 75c.

MANY FEMALE ILLS RESULT FROM NEGLECT.

Mrs. Pinkham Tells How Ordinary Tasks May Produce Displacements That Threaten Women's Health.



Apparently trifling incidents in women's daily life frequently produce displacements of the womb. A slip on the stairs, lifting during menstruation, standing at a counter, running a sewing machine, or attending to the most ordinary tasks, may result in displacement, and a train of serious evils is started.

The first indication of such trouble should be the signal for quick action. Don't let the condition become chronic through neglect or a mistaken idea that you can overcome it by exercise or leaving it alone.

More than a million women have regained health by the use of Lydia E. Pinkham's Vegetable Compound.

If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice, and a few timely words from her will show you the right thing to do. This advice costs you nothing, but it may mean life or happiness or both.

Mrs. MARY BENNETT, 314 Annie St., Bay City, Mich., writes to Mrs. Pinkham:

"I can hardly find words with which to thank you for the good your remedies have done me. For nearly four years I suffered with weakness of the generative organs, continual backache, headache, sideache, and all the pains that accompany female weakness. A friend told my husband about your Vegetable Compound and he brought me home two bottles. After taking these I felt much better, but thought that I would write to you in regard to my case, and you do not know how thankful I am to you for your advice and for the benefit I have received from the use of your medicine. I write this letter for the good of my suffering sisters."

The above letter from Mrs. Bennett is the history of many women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

Ask Mrs. Pinkham's Advice—A Woman best Understands a Woman's Ills

BREAD, POTATOES and MILK.

He Lived on Lenten Fare.

A Dyspeptic's daily diet.

Dyspepsia is one of the most prevalent of diseases. Thousands of people suffer from it in a more or less aggravated form. Few diseases are more painful to the individual or more far reaching in their effects on human life and happiness. What the dyspeptic needs is not local treatment, not mere temporary stimulus. The real need is the toning up of the entire system. Fortify the system and it will do its own fighting, and promptly eject any intruding disease. The success of Dr. Ayer's Sarsaparilla in curing indigestion and dyspepsia is due to just this quality which it possesses, of renewing the vital forces, repairing the waste and loss of the body. The ordinary treatment brings the food down to the level of the weak stomach. Dr. Ayer's Sarsaparilla puts strength into the stomach, and brings it up to the level of the strong food fit for men. It does this by strengthening the entire system. The stomach cannot stay weak when all the other organs are gaining strength. What Dr. Ayer's Sarsaparilla will do for dyspepsia is best illustrated in cases like that of M. S. Shields, Meridian, Miss. Mr. Shields had got down to the last level of dyspepsia. But let him tell his own story:—

"For years, I was afflicted with dyspepsia which gradually grew worse until I could eat nothing but bread and potatoes seasoned with a little salt, and drink only a little milk. I became so bad that a trifle too much of even these caused terrible suffering in the regions of the stomach, darting pains back of the eyes, attended with dizziness and partial loss of sight. The only way I could get relief was by vomiting. Finally I had such a severe attack that the entire left side of my body felt numb and partially paralyzed, and in this condition. I was taken to my room unconscious. The physicians failed to help me, and none of the many remedies I took did me any good. At last a friend presented me with a bottle of Dr. Ayer's Sarsaparilla and before I had used half of it, I could see a decided change for the better. I used three bottles and was so completely cured that for four years I have not been troubled with the old complaint, but am rugged and hearty and able to eat anything that can be eaten. It would be impossible to say too much in praise of Dr. Ayer's Sarsaparilla, and I would not give one bottle of it for a dozen of any other kind."—M. S. SHIELDS, Meridian, Miss.

Try Dr. Ayer's Sarsaparilla if you are dyspeptic. If you want more testimony to the value of the medicine, get Dr. Ayer's Curebook. It is sent free on request by the J. C. Ayer Co., Lowell.

Satisfies that dry taste in the mouth.

BUFFALO GAZETTE

DELANO, FRIDAY, SEPT. 30, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

Dr. Niven, at Delano Oct. 10 and 11.

—This GAZETTE is No. I, Vol. XI.

—The region of Cumberland, Wis., is having an experience with forest fires.

—Electrician Muckey now has a helper Frank Yantos. Both men are kept pretty busy.

—Last night's Dispatch says Congressman Towne and John Lind will speak at Buffalo the evening of Oct. 8.

—A crew is at work in the east end of town putting in some much needed side track on the G. N. right of way.

—Several letters from Manila, received this week gladdened the hearts of those having friends in the 13th. Alva's appears on this page.

—The hour for holding services at the M. E. Church has been made thirty minutes earlier. League begins at 6:45 and preaching at 7:30 P. M.

—Hon. J. J. Ryder, and other speakers, will entertain a few of those who would like to here the William Henry, Page Morris, politics talked, at the City Hall, on Tuesday evening, Oct. 4.

—We acknowledge the receipt of a plate of fine wedding cake with compliments of Mr. and Mrs. F. Roban who were married Tuesday. Thanks and may they enjoy a long and happy married life.

—The primaries for selecting deligates to the Democratic county convention will be held on Tuesday evening. Don't fail to attend and vote for deligates who don't want a mongrel ticket put up to be defeated.

—The Democratic primary election will be held at the Council room, in the City Hall, from 7 to 8 P. M. Tuesday October 4. Be there and vote for the men you want for delegates to make a ticket for county, legislative and judicial officers.

—Several cases of sore throat have been complained of during the week past, but, so far, nothing serious. At St. Cloud and other points north of there Diphtheria is at work. It is about the time of year when we have before had cases of it here. It is well to be suspicious and on guard whenever children are sick.

—On Sunday evening, an 8 year old boy of Len Dedrick's met with quite a serious accident, resulting in a compound fracture of the left leg below the knee. A couple of young ladies were riding down the street on bicycles and one of them ran over the boy who was playing in the street in front of his fathers place of business.

County Cullings.

The County Fair was held at Howard Lake this week.

Mrs. Christine Anderson wife of Herman Anderson, died Sept. 18, in Buffalo township.

Charles Bugbee of Rockford is said to have a legislative bee in his bonnet. Possibly he would take Sheriff.

S. E. Olson, of Woodland who was injured by a threshing engine breaking through a bridge near Winstead, died last Saturday.

Among Editors at the reporters tables at the Republican convention Saturday were Buckley, Catlin, DeHaven, Eaton, French, Lamson and Schmidt.

In case your voting precinct fails to hold a legal primary don't be discouraged, but, if you are a good Democrat and have honest politics in your heart drive to the county seat on the day of the Convention and see to it that your precinct is properly represented.

Great care should be exercised by the Democratic Convention in selecting the deligates to the Judicial convention to be held at Elk River. Wright county has within two of a majority and possibly some other county may have a candidate. The deligates should be men that will be caretul.

The news has been brought down from Duluth that John C. Nugent of Wright County applied for the Buffalo Post Office, and came within one of getting it on the ground of being a gold bug; and now they say he wants to be elected Sheriff on the Lind and Towne ticket. Why didn't the Republicans put him up?

If you are not in favor of endorsing Judge Tarbox, and three or four of the nominees on the Republican ticket for the best offices, or of putting up men who everybody knows will not be elected against them on purpose to be defeated, be at the voting precinct Tuesday evening between 7 and 8 o'clock and vote for delegates who will not permit it.

Judge Tarbox, after all, comes out in a card announcing his candidacy as an independent candidate for Judge. If he wants to run independent let him, but it will be the hight of foolishness under the circumstances for the Democrats to endorse a man who, in his speech before the convention at Buffalo said he wanted to run to "vindicate his character." Let him run independent if he wishes; but the Wright County political manipulators should be voted down, and he should be left entirely independent. Wright county Democrats have "characters" ehough of their own that need "vindicating" without taking up independent candidates if that is what they want.

Personal.

Pat Greer was in town a few days this week.

Mr. Peterson of Cokato got off the train here this morning.

M. A. O'Hair attended the K. P. convention at Minneapolis Tuesday.

Mr. and Mrs. W. D. Freeman left Monday for their new home Cincinnati.

C. W. Kerrick went to Duluth to oversee his work on the Foston branch Tuesday.

Clarence Bullen returned to Winona county this morning to assist the folks in moving to Delano.

Casper Gunser, of Belt Mont., visited friends in and about Delano, this week. He left Thursday for home.

Dr. Catlin attended the opening lecture by Dr. J. H. Dunn of the Medical Department of the State University Monday evening.

The Senatorial and legislative tickets are of the most importance to our voters. The county convention now selects the candidates for these offices instead of choosing delegates to do so. Only the best men should be nominated

With the best men from every voting precinct at Buffalo, at the County convention there is no doubt but a good, clean ticket will be put in the field, and our voters will then be pleased to go to the polls and work for the whole ticket. Be at the primaries and help send the best men. Let every town send a full delegation. Let no good man elected remain away; they are all needed.

Wright County Republicans, of respectability are sore, as well as respectable Democrats. Deep laid schemes, have, quite evidently been worked to nominate two tickets, most of the Republicans and one or two so called Democrats to be elected. The rest to spend all the money they can scrape up to carry on the campaign and help do the hurrahing. This has been played once too often in Wright County. Many wide awake Republicans can see through the schems now. Good Democrats have long been onto the racket, and are willing to do what they can to turn down the Scheme bad Democrats are participating in.

The County Commissioners last Friday met, and resolved to lay a new Maple floor in the Court House. And appropriated money for roads and bridges to Cokato, $85; Victor, $90; Stockholm, $75; Marysville, $70; Rockford, $70; Woodland, $75; Franklin, $100; Frankfort, $75; Monticello, $75; Otsego, $75. Petition of Johanna Rundquist, hearing set for Oct. 24.

Committee appointed to view road between Clearwater and Silver Creek, recommended petition be rejected.

Claims were allowed. That of Chris Muller being laid over to next meeting. That of A. J. Wood rejected. Board to meet in special session Oct. 24.

DEMOCRATIC Judicial Convention.

A Democratic Judicial Convention for the Eighteenth (18th) Judicial District of the State of Minnesota will be held at the Court House in the village of Elk River, in the County of Sherbourne and State of Minnesota on the thirteenth (13) day of October, A. D., 1898, at one (1) o'clock P. M., on said day for the purpose of placing in nomination a candidate for Judge of the District Court from the above named District, and for the transaction of any other business that may properly come before said convention.

Each county will be allowed one delegate-at-large, and one delegate for each one hundred and fifty (150) votes or major fraction thereof cast for William J. Bryan for president in 1896, as follows:

Anoka,	6	Isanti,	6
Sherburne,	5	Wright,	15

Dated at Elk River, Minnesota, September 14th, 1898.

By order of the Judicial Committee for the Eighteenth Judicial district.

CHARLES S. WHEATON, Chairman,

J. N. NILES, Secretary.

AFTER THE BATTLE.

From the 13th Minn. Vols. U. S. A.

MANILA, Philippine Islands, Aug. 15, 1898.

FATHER: About two weeks ago I wrote you and told everything I knew of then. At the present time there are 35 men killed, all told, on the U. S. side, and about 400 Spaniards. There seemed to be continuous fighting every night with a couple of exceptions, since we came into the harber till we landed. The Monterey arrived at 9:30 on 4th. Company K. disembarked on the 6th. The regiment landed on the 7th. On the 11th the regument was sent out on the advance. But I could not go, being on 24 hours duty; but didn't miss anything except a muddy march and a wet bed.

Saturday, the 13th, the day our regiment looked and longed for so came. We were ordered out under light marching order, 100 rounds of ammunition; the 23d marched on our right; 18th, Idaho, California, Pennsylvania; Colorado on our left, Utah battery on the left and Astor battery on the right. We advanced at 6:30. At 8:40 the batteries opened. At 10:15 the infantry began to move. The left of the line began first, taking a couple of block houses; then we advanced. As the head of the battalion rounded a cornor in the rord, about a dozen fell; among them was Patterson Company I's buglar, killed; the rest wounded. Companies B and A supported M in a scurmish; Companies G and H supported Company I. There was supposed to be a battolian of Dakota in our support; but it was found the Major was at the head of Company B. N. B. who were intrenched in our rear.

In the heat of battle the Astor boys lost two cannon; but made a daring pistol charge and recovered them, carrying them through native huts and houses to save being exposed. When assembly was blown we were so badly mixed up we had to march to a church then be told where the rest of the regiment was being formed. Our regiment lost one killed and about 17 wounded.

And now we are in for it. The orders have been to let no Insurgents into the city armed; but if they are armed they can go out. Now the Insurgents, it is reported have retaliated, and stop all Americans from crossing the river at bridge if armed. You can safely bet that want last long because there isn't a man here but wants a chance to drill holes in them. We don't need them at all; and in order to restore peace on these islands it would cost milllions. The natives are a barbarious lot of fellows; for example they came to a Spanish officer who was dead and cut his fingers off because a ring was to tight to slip off with ease. They put what few prisoners they had into a dungeon, and then sold them stuff to eat. They want to go in and loot the town; but we are the victors so we will defend the spoils.

The Spanish soldiers seem to be good natured boys. During the battle a detail was taking about 20 prisoners to the rear; all the prisoners took off their hats and bowed, with pleasant smiles on their faces, to us while we were lying in the road with the mud about a foot deep and bullets whistling pleasant tunes.

An English gentleman who was on top of the English club house watching the fight said that he never saw how there could be such regularity in a battle till he saw this one. Also that it was one of the sharpest and most decisive he ever saw. And when the Spaniards broke they never stopped till they got to the wall of old Manila. And of course he treated when we were posted on guard. Natural he should. There were six on each relief on that corner and two reliefs.

Ever since we have been thinking of how pleasant it will be to defeat natives and how long they would have had to fight to take the city. The fortifications are the strongest and very best (up to date, in short) with the exception of sea coast. There are only 2 10 inch guns in the main battery. On the wall of this barrack is a figure showing the destruction of the Oregon. [Gives a sketch.] This is the exact sketch and seems to be their favor, because they shoot too high; that is the only consolation. Now you see the only trouble must have been the change of the Oregon to the Atlantic. Because they never fired a shot but loaded the two cannon, (the battery,) then spiked them and probably threw the breech block into a well or bay; (brave act of course.)

Two regiments marched in last night well armed and plenty of ammunition (something they could not have run short of in 3 months constant firing) each regiment having a different suit, laid down their arms in a peacable manner. They seem to be glad that they are going home.

The foreign fleet mooved out last Friday, with pleasure, of course. Today they came in and saluted Admiral Dewey, in the United States port of Manila, being glad to talk to the Admiral in a friendly way. I received the GAZETTE last Thursday. Not one of our Delano boys was hurt.

Manila is a very wealthy City. It would remind one of the early days 400 or 500 years ago, strong wall around houses with stone floors; ancient buildings, also; some very ancient fighting equipments from armor mail down to a '94 model 10 inch rifle.

Even the natives are barbarious, they are not up to the American Indians, nor even take the Indians of 100 yeary ago, they would beat the natives. There is no one who likes the race. They live in tribes; fight with spears yet. Some of the boys have some for relics.

I shall draw this letter to a close.

A. G. CATLIN

The convention then proceeded to nominate for:

Auditor, B. S. Swanberg, by acclamation.

Treasurer; Al Hansford, by acclamation.

For Sheriff, A. H. Grant, and Alex McVeety were nominated.

The chair appointed August Zech and O. M. Palmquist tellers.

A vote showed 111 ballots cast of which Alex McVeety received 38, and A. A. Grant 71. McVeety moved to make the nomination unanimous, carried.

For Register of Deeds three ballots were taken; 110 votes being cast each time as follows:

J. J. Erickson	30	27	18
S. R. Bartholomew	31	34	36
August Hafften	49	49	56

For Judge of Probate, whole vote 111 W. H. Cochrane 53, J. J. Woolley 58.

For County Attorney, 105 votes A. T. Larson 39, C. A. Pidgeon 66.

Superintendent of Schools; J. F. Lee was nominated by acclamation.

Survevor, Committee to fill vacancy,

Coroner: Dr. C. B. Powell, by acclamation.

County Commissioners, 2nd Dist. C. C. Rice. 4th Dist. William Riek.

The Convention then resolved itself into a Legislative convention.

C. A. French read a resolution which was adopted as follows:

RESOLVED: That we commend the course of Senator C. K. Davis the senior senator from this state, and earnestly urge that the nominees of this Senatorial Convention give him their undivided support, if elected to again return him to the United States senate at the close of his present term.

E. D. Washburn presented the following resolution, which was also passed:

WE, the Republicans of Wright County in convention assembled, renew our allegiance to the principles of the republican party, and pledge our loyal support to all the nominees of the party in which as voters we exercise the rights of suffrage.

A vote for senator gave Dr. Chilton, 69, H. C. Bull 38. Chilton was declared the nominee.

For Representatives the first ballot showed G. P. Boutwell 22; Frank Swanson 61; Dr. J. S. Shrader, 15; Andrew Bertram 4; John Belden 1. Frank Swanson was declared elected.

2nd ballot. G. P. Boutwell 52; Dr. J. S. Shrader 15; Andrew Bertram 17, G. P. Boutwell was declared elected.

Convention adjourned.

DEMOCRATIC TICKET

For Governor,
JOHN LIND.

For Lieutenant Governor,
J. M. BOWLER.

For Secretary of State,
J. J. HEINRICHS.

For State Auditor,
GEO. M. LAMPHERE.

For State Treasurer,

If you desire to have United States Senators elected by the people you must cease electing Republican State Senators and Representatives pledged to vote for C. K. Davis, Knute Nelson or any other man.

THE Pocket Manuel of Politics and Finances, absolutely non-partisan Containing the Dingley tariff bill, Election returns, the financial question Conventions and platforms of '96, with much more useful information is at hand. For sale by Calderwood & Hefron, 32 Hennepen Ave. Minneapolis, Get yourself one, for 15 cts. It is useful book during the campaign.

AFTER hearing W. H. Eustis' speech in Delano two years ago when he told how he fooled his brother George, by slipping the pail full of water along the pole until his brother was unconsciously carrying the whole load; and advocating that so long as his brother didn't find it out it was all right, people are ready to believe the stories about the Guaranty Loan; the Hospital site; the street car veto, and almost any kind of a story where William Henry was engaged in slipping the pail for his fellow men. But now that they have found it out, they don't approve of the plan so extensively practiced by Mr. Eustis

THIS mornings St. Paul Globe has an editorial on "The Story from the North." Such stuff might do down east, but it want work here. The Globe editor surely never read much history of this part of the country. He even has the audacity to ask "Can any one point to a single act of humanity and nobility practiced by a Northwesteru Indian" Did the Globe's young man ever hear of John Otherday, and of his saving the lives of 62 whites by piloting them to civilization through a country filled with Indians who were on the war path; and even one of the squaws of which tribe would have been sufficient to scare a writer of such rot.

ADVERTISE, IF YOU'D BE WISE.

Republician Rally.

On Tuesday evening about a hundred people attended the opening rally of the Republicans in the City Hall.

F. H. Lindsley said it was his duty and privilege to introduce the speakers of the first meeting of the campaign, and gloried in the party that taught principles of Lincoln, Blaine, Garfield and McKinley. Don't he know that each of them were limetallists, that all of them favored gold and silver both for money.

J. J. Ryder the advertised speaker of the evening has a good voice and makes a fair appearance before an audience, when he has one. He used to be a Democrat, and said two years ago he found it hard to talk for Republicans, and envied the Democratic speakers. He evidently isn't quite at home among his new friends yet. He rather overdrew his story about Auditor Bierman never being talked of earnestly for a second term. He possibly didn't think he might have as a hearer a man who as a delegate to the State Convention helped nominate Mr. Bierman for another term in which he was defeated. Hill, Doran & Co laving no further use for him after they found he wouldn't run things to suit their sweet wills. There not being much inspiration to be derived from the small, mixed audience, Mr. Rider did not wax very eloquent. But did well considering things generally.

Rev. William Wilkinson arrived on the evening train and entertained the audience at the close of Mr. Ryder's speech for an hour or so. Mr Wilkenson is not unknown here having visited our town on several occasions before. He is a pleasant speaker and did not grow so abusive as some speakers, and took a good broad view of how politics should be run. He believes in God in politics, and that it is a minister's place as a citizen to do what he can for the purifying of government offices. He believes in the protective system, and Republicanism generally. But we think he must be mistaken about free silver being "dead as Caesar." If it is the Republican orators are like the Reverend gentleman's dog story, "barking at the hole of a dead wood chuck" for they all seem called upon to tell their audiences how dreadfully dead it is.

WALKING THE PLANK.

THE Indian battle at Leech Lake seems to be worse in proportion than one with Spaniards. Maj. Wilkinson, of the 3d Regular and four others are reported killed and eight wounded.

THOSE Old Soldier's Anti-Eustis Club pamphlets sent out from Minneapolis are the 13 inch shots of the campaign. They sink the boat when they hit; and lots of them are hitting.

Conundrnm Still.

"Opposition to G. N. influence is now over in this County."—Buffalo Journal.

A. Y. Eaton is as mute as an oyster as to what he maent by the above astonishing item in his paper a few weeks ago. We have given him several opportunities to explain but he has failed to do so. It is now fair to presume he meant, so far as he was concerned.

County Cullings.

As the campaign progresses things grow hotter and hotter for candidates. Eustis has so many serious charges to meet in the course of his political record that he don't appear to know where to begin to object to them. We haven't yet seen even a general denial to each and every allegation.

From the present outlook the "mongrel" ticket has been dropped. And a complete ticket of respectable citizens is to be nominated to bring out the voters. Now if a first class set of free silver men are put up for the Senate and legislature. Men that will get the votes of all that believe in such doctrine, and the endorsement of Judge Tarbox is not mentioned, perfect peace and harmony may again prevail in the ranks of Wright County Democracy. But they have had a terrible shaking up.

Three good respectable men from Delano are talked of by the "bosses" as a trio from which to choose a candidate for the legislature. The troubles with them for the people is the question are they in harmony with the State and congressional ticket; or are they opposed to them? Neither of them was sufficiently interested in the welfare of the State to attend the primary election and vote for delegates to nominate a Senator, two legislators and a county ticket, and delegates to a judicial convention. Would they be interested in voting for, or against any measures of importance in the legislative halls,?

Abu Lincoln is credited with having said: "You can fool all of the people a part of the time: you can fool a part of the people all of the time; but you can't fool all of the people all of the time." Some of our Wright county politicians evidently take no stock in the last clause; but think they can fool the Democrats all the time. They have come pretty near doing so many times in the last score of years. "It is a long lane that has no turn" and the turning point must be near to view. "Every dog has his day" and some of the dogs in the manger have been there a good while. There is as good material in the Democratic party in Wright county as the county affords, but it is latent, covered up, discouraged and don't dare to venture out. Whenever a good man among them is mentioned for office, every gun big and little, is aimed at him. It is not good reliable men the party "bosses" want. It is tools they are looking after. And an old jack knife with broken blades will do to swap, "sight unseen," as well as any, and a plentiful supply of that kind is usully put on to boom tickets to serve the purposes of both incubators.

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, D. C., Sept. 30, 1898.

Boss Hanna has been appealed to by Mr. McKinley to save the House, by the same methods he carried the Presidential election the unlimited use of money. Hanna is now in Washington preparing to make assessments on the men who put up the boodle in '96. Chairman Babcock, of the Republican Congressional Campaign Committee, told Mr. McKinley that unless something was done at once the democrats would certainly elect a majority of the House. That is why Hanna was telegraphed for. If money can elect a majority of the House, Hanna is going to do it, unless the men who contributed money for him to use two years ago go back on him.

At the present rate of progress Mr. McKinley's commission will not get through investigating the War Department by the time the Presidential campaign opens. A week ago the commission was organized, and not a line of testimony has been taken; in fact, a majority of the Commission have been away from Washington nearly all this week. They say the taking of the testimony will be started next week. The kick against making the investigation secret has caused the commission to modify its original intention so far as to agree to allow representatives of the press associations to be present when testimony is being taken.

Democrats who attended the New York democratic State Convention say that Roosevelt's defeat is assured, and that his nomination will help the democratic candidates for Congress. They are calling "Teddy" a "dime novel candidate", a "comic valentine", a "man full of grit, nerve and wheels," and other picturesque things. The German vote will go almost solidly to the democratic ticket, and many other republicans will refuse to vote for a tax dodger, as Roosevelt has acknowledged himself to be. Some of the old Blaine men will also knife him.

"Little Billy" Chandler dropped into Washington this week and gave out a somewhat remarkable interview. He began by admitting that many mistakes were made in the conduct of the war, and excused Alger, placing all the blame on the army officers who are at the head of the various bureaux of the War Department. But the most extraordinary portion of this interview was its closing paragraph, which means, if it means anything, a notice served upon Mr. McKinley's investigating commition that it must not expose mismanagement. The paragraph closes with this thinly veiled appeal to the Commission not to find out anything discreditable: "The whole world looks on with wonder and admiration and recognizes the U. S. as again one of the great powers of the earth Shall we refuse this position and dishonor and disgrace ourselves by demonstrating that we did not know how to make war; not even how to transport our men and supplies; to locate our camps; to subsist our armies and to take care of our sick and wounded; but have a War Department full of incompetents from head to foot? How degrading such a scandalous scheme. We should take warning from the spectacle which France now presents in the Dreyfus case." Senator Chandler's appeal to patriotism to help shield incompetent, neglectful and criminal officers is not lovely. It will not lower the country in the eyes of the world to punish the men who caused unnecessary suffering among our soldiers

That there will be an extra session of the next Congress next Spring is the opinion of many, because it is doubtful whether it will be possible to get all necessary legislation put through during the short session of the present Congress, but it is not true that the democratic leaders intend to try to force an extra session, if they elect a majority of the next House. On the contrary, it is the desire of the democratic leaders to avoid an extra session of Congress.

Representative Pally, of Texas, who is now on a stumping tour, said on this subject before he left Washington. "As a matter of party politics, if we succeed in getting control of the next House, as I firmly believe we will, I hope that we may be able to avoid an extra session of Congress. An extra session would be full of danger to the party and might lose us the Presidency in 1900."

The navy conducted its side of the war in a manner so satisfactory that it is not likely that any proposition will be made in Congress to investigate the navy, but it may be set down as certain that a resolution will be offered by a democrat and supported by all the democrats in Congress to investigate the purchase of vessels from private individuals and corporations by the government. It is admitted by officials that extravagant prices were paid for a number of vessels, but they say that the government was bound to have the vessels and had to submit to the extortion of the owners. Even if this were known to be true, such an investigation would still be needed: to inform the country of the names of the men and corporations which took advantage of the necessities of the government to rob the country.

EUSTIS AND THE CORPORATIONS

The Republican Candidate and His Service of the Lowry Monopolies When Mayor of Minneapolis.

VETO OF THE HARVEY ORDINANCE

The Record in the Case—Respect for Memorial Day Could Not Restrain Him From Servile Service of the Railway Company — His Announced Principle Would Deliver Minnesota, Body and Soul, to the Corporations—How Eustis Would Stand if Elected Governor.

The Reform Press of Minnesota have shown the people the undeniable facts of the connection of W. H. Eustis, Republican candidate for governor, with the swindling North western Guaranty Loan company, and his official responsibility for the $100,000 City Hospital job of his administration as mayor of Minneapolis. While the victims of the one are scattered all over the land, and those of the other are Minneapolis taxpayers, the people of the Twin Cities suffered losses to the amount of thousands of dollars from another important act of his administration, to-wit, his service of the Minneapolis Street Railway company, in the struggle which the people had with that monopoly during his administration, to obtain a reasonable and fair transfer system on the Lowry lines; while the case at the same time disclosed that W. H. Eustis holds principles touching the proper regulation of the corporations which if applied in this state by his election would mean the complete surrender of all our material interests to the corporations and the monopolies.

Read the facts from the record, in the celebrated Harvey Transfer ordinance and its veto by Mayor Eustis, and see if this is not the unquestionable conclusion.

When the City of Minneapolis conferred upon the Street Car Company the privilege of substituting electric power in place of the much more expensive horse power, the company agreed to transfer passengers without charge from any of its lines to any other line connecting therewith. But it largely ignored its obligation. It wholly refused to issue transfers to its "parallel" lines, and so ignored the spirit of its agreement as to render the privilege to a large extent valueless. There were at the time 30 connecting points where lines intersected, but the company only gave transfers at six of these points. It required that any passenger desiring a transfer at any of the outlying connecting points, should, in order to obtain it, ride upon the car to a central station, and from there back to the point of intersection. And under this system, passengers desiring to transfer at any one of 24 intersecting points were compelled to pay an additional fare or travel unnecessarily a distance varying from one-half mile to more than five. Furthermore, under the old system, the transfer could only be obtained, if at all, after the passenger had left the car and was upon the street, in the business part of the city, where danger from passing vehicles could only be evaded by the utmost diligence.

The Street Railway Company's purpose in thus failing to provide a suitable transfer privilege was apparent. First, upon its so called "parallel" lines (many of them running more than half a mile apart) many passengers were compelled to pay two fares in place of one. Second, the securing of the transfer at the outlying points was so inconvenient and dilatory that most passengers preferred, rather than go to the central station, to pay an additional fare.

Thousands of readers of this article know from experiences when in the Twin Cities how iniquitous this system was. But the company wanted it, for by its own showing in court ITS INCOME WAS INCREASED UPWARDS OF ONE HUNDRED THOUSAND DOLLARS A YEAR BY THIS MEANS. It was interested, therefore, in continuing the oppression as long as possible.

On July 14, 1893, the Minneapolis City Council undertook to remedy this evil, by the passage of an ordinance requiring the railway company to deliver "at the junction or intersection of any of its lines * * * a transfer to any passenger demanding the same;" and providing also that "said transfer shall be issued to said passenger * * * from and upon the car on which said passenger has paid his full fare."

THIS ORDINANCE WAS PASSED UNANIMOUSLY.

In the language of the official record of the council proceedings for 1893 (p. 435) "there were—yeas, 24; nays, none." Every person in Minneapolis, save only the officers of the Street Car Company and the Mayor, at that time favored this ordinance. Not a newspaper raised its voice against it. Nevertheless, William H. Eustis, unfortunately at that time Mayor of Minneapolis, proceeded to veto the proposed ordinance. The veto message is set forth on pages 441, 442 and 443 of the Council proceedings for the year 1893. He declared the ordinance invalid; and so far as he could deprived the courts of any power to pass upon its validity.

In this message Mr. Eustis assumed that the transfer privilege then in operation was entirely satisfactory, when in fact, its burdensome and oppressive conditions were imposed, as was well understood by all, FOR THE EXPRESS PURPOSE OF EXACTING ILLEGAL FARES FOR THE BENEFIT OF THIS RAILWAY CORPORATION. In this message Mr. Eustis said:

"I have faith to believe that whenever the public are seriously inconvenienced, whether in the location or method if issuing transfers, that the company will accede to the necessary changes, ESPECIALLY IF WE ASK AS FAVORS THINGS WE MAY NOT DEMAND AS RIGHTS. * * THE RAILWAY COMPANY SHOULD BE CONSULTED ON ALL THESE QUESTIONS, AND I BELIEVE WHEN THEIR BUSINESS INTERESTS ARE NOT MADE TO SUFFER, THEY WILL, AS THEY SHOULD, GLADLY YIELD TO ANY REASONABLE REQUEST ON THE PART OF THE PUBLIC."

The city council, urged by the outraged public, repassed the ordinance over the mayor's veto, July 28, 1893, yeas 18, nays 7, a three-fourths vote, not a vote to spare. The company for a time disobeyed the ordinance, and appeal to the courts by the city was necessary to enforce it. With F. C. Brooks, now one of the Democratic judicial nominees in Hennepin county, as special counsel, mandamus proceedings were taken and resulted in a decision by the late Judge Smith, Feb. 23, 1894, which declared the ordinance valid and determining that it must be obeyed by the Railway Company. The case was so clear and convincing that the company carried the fight no further. And thus, IN SPITE OF MR. EUSTIS AND HIS VETO, THE PEOPLE OF MINNEAPOLIS HAVE AT LAST ACQUIRED, AND NOW ENJOY, THE RIGHTS AND PRIVILEGES OF WHICH HE SOUGHT TO DEPRIVE THEM. Efforts as bold, Mr. Eustis endeavored to prevent the passage and enforcement of this ordinance. Had his will prevailed, the people of Minneapolis would already have been robbed of hundreds of thousands of dollars, for the benefit of the greatest monopoly within the Twin Cities; and had there not been eighteen members of the City Council who refused to be controlled by Eustis, and a judge who was able to interpret the law and willing to enforce it, this unlawful exaction would still continue.

Confirmatory of this is the case which has been made notorious all over the state by the protests of the G. A. R., in which Eustis sided with the Street Railway company and against the veterans, in the efforts of the latter to protect Memorial Day from desecration. For that day, 1894, the Minneapolis Park Board had granted privileges for games, bicycle racing and other sports on the Park Boulevard and grounds adjoining Lakewood Cemetery where the Soldier Burial Plat is located, and where the principal exercises of the hallowed day were to be conducted by the G. A. R. The people were very much aroused over the matter, and the G. A. R justly indignant. A committee of the latter, on May 14, appeared before the Park Board, asking it to withdraw the permits for the sports at the point in question. The Street Railway, interested in the harvest of five-cent fares, opposed the request, and when the G. A. R were apparently about to succeed, hustled in Mayor Eustis, who was ex-officio member of the Board. He made an extended speech for the Company, and by his official influence and his vote carried the day. The veterans and patriotic citizens were defeated, the races and games proceeded, and the Street Railway received its additional crop of nickels.

It might be added that this was the crowning act of his administration that assured his defeat for renomination, when with the combined efforts of his police and election machinery, and of the monopolies he had favored, he could only muster one-fourth of the delegates, and was overwhelmingly defeated.

Judging from his record, WHAT WOULD BE THE ATTITUDE OF MR. EUSTIS RESPECTING THE CORPORATIONS SHOULD HE BECOME THE GOVERNOR OF THIS STATE?

Would he, as in the case of this transfer ordinance, VETO ALL LEGISLATION DISTASTEFUL TO THE CORPORATION? Would he, as heretofore, ignore the rights, convenience and welfare of the public, IN ORDER TO STILL FURTHER ENRICH THE CORPORATIONS OF THIS STATE? Shall we be told by the Governor of Minnesota, as we were by the Mayor of Minneapolis, that in dealing with corporations we should "ASK AS FAVORS" those things which it is our privilege to "DEMAND AS RIGHTS;" and that a mere "REQUEST ON THE PART OF THE PUBLIC," from these monopolies is not permissible unless "THEIR BUSINESS INTERESTS ARE NOT MADE TO SUFFER" should they comply therewith?

No man has ever sat in the gubernatorial chair of Minnesota who had before hand so demonstrated his unfitness to administer laws and public interests. As Mayor he boldly set aside such ordinances as he did not choose to enforce, and by his veto power and influence did all in his power to thwart the legislation of the city lawmakers, in favor of the corporations. What mattered it that he had held his hand aloft and sworn to execute the laws and ordinances? What would it matter, as governor? The Eustis principle would endanger every interest of the people. What a reformer would this be to right the crying needs of the farmers for protection against the binding twine iniquities, in the sale of the state's product to those dealers having the political "pull," that the farmer for whose benefit twine is supposed to be manufactured, must purchase from the favored dealer at his marked up price, when he was to have had it at cost? Imagine "Governor" Eustis correcting this evil by application of his principle that we should ask "as favors" what we should demand as rights. Applied to appointment of Railway commissioners, he would simply ask of the Railway companies whom they would have appointed, or the elevators to reform the crying outrages of grain inspection and under grading. All legislation regulating the corporations or favored interests would certainly be vetoed, unless it was shown that they had "been consulted on these things." Administration of the matters of taxation, of the public lands, of the school fund, the mining industry, and all the great interests of the state, must be such as that none of the corporations are "made to suffer;" for has he not declared that corporations always yield to "any reasonable request on the part of the public"

DEMOCRATIC
County Convention and Primary Election

A Democratic County Convention for the County of Wright and State of Minnesota, will be held in the Court House in the village of Buffalo in said county on Saturday, the 8th day of October, 1898, at 11 o'clock a. m. on said day, for the purpose of nominating candidates for the following named county offices of said Wright County, viz: Auditor, Treasurer, Sheriff, Register of Deeds, Judge of Probate, County Attorney, Superintendent of Schools, Surveyor, Coroner, one Commissioner for the Second and one for the Fourth Commissioner districts.

And also for the purpose of electing in nomination candidates for the following offices in the Forty-sixth Legislative District in the State of Minnesota, viz: One (1) Senator, and two (2) Representatives.

Also for the further purpose of electing 15 delegates to represent said Wright County in the Democratic Judicial Convention for the Eighteenth (18th) Judicial District of said State of Minnesota, to be held in the village of Elk River, Sherburne County, Minnesota, on the 13th day of October, A. D. 1898, at 1 o'clock p. m.

A primary election will be held in the several election districts in said county, to elect delegates to said County Convention on Tuesday, the 4th day of October, A. D. 1898, commencing at 7 o'clock p. m. and continuing one hour, at a place to be hereafter designated by the respective precinct committees.

Each of the several election precincts in said Wright county, Minnesota, are entitled in said convention to one delegate and one additional delegate for each forty (40) votes or major fraction thereof cast for John Lind for governor in 1896, as follows:

Albion	3	Marysville	6
Buffalo	3	Middleville	4
Chatham	3	Monticello	3
Clearwater	2	Otsego	3
Cokato	4	Rockford	2

Dated at Maple Lake, Minnesota, September the 13th, 1898.

By order of the County Legislative and Judicial Committees.

J. E. MADIGAN.
Chairman of the County Committee.

What 20 Cents Will Do,

By sending the above amount to The Detroit Free Press, Detroit, Mich., they will send you The Twice-a-Week Detroit Free Press, from date of receipt of your order until January 1, 1899. This special reduced rate is given to introduce the paper to new readers. The Twice-a-Week Free Press is a clean, up to date family newspaper, and everyone should take advantage of this special offer. The greatest value ever offered for 20 cents. Send in your order at once.

Add 25 cents and send to us and get the Detroit Free Press and the Buffalo Gazette both until January 1. This through the coming hot political campaign.

In Every County to Supply the Great Popular Demand for

AMERICA'S WAR FOR HUMANITY

TOLD IN PICTURE

AND STORY

Compiled and Written by

SENATOR JOHN J. INGALLS,

Of Kansas

The most brilliantly written, most profusely and artistically illustrated, and most intensely popular book on the subject of the war with Spain. Nearly

200 Superb Illustrations from Photos,

taken specially for this great work. Agents are making $50 to $100 a week selling it. A veritable bonanza for live canvassers. Apply for description, terms and territory at once to

Texas has 108,000 more bachelors than old maids. This must be the reason it is called the Lone Star state.

American geography classes of the future will have an easy time in describing the productions of the United States. "Almost everything" will cover the subject.

European nations may acquire our superior guns and armor plate, but they cannot acquire by purchase our man behind the gun. He belongs to us, and there is none like him.

One-half of the restaurant menus in Havana are now written in English. After we occupy the town this natural mistake will be corrected and the bills of fare changed to bad French.

Col. Earl Hobson, of Bowling Green, Ky., a cousin of the naval hero, was made a colonel for his conspicuous coolness and courage at the battle of Pittsburgh Landing, when he was not quite 20 years old.

John Bright predicted that in half a century not a gun would be fired in the world without the consent of the Americans. This would be hard on the European whose neighbor owned a cat with operatic aspirations.

Prof. A. G. Webster, of Clark university, has invented an instrument which shows that there is no such thing as absolute silence. A number of married men are out in interviews claiming that they knew it before.

Residents of Ponce are changing the pronunciation of the town to one syllable "Ponce," because that's United States, and they want to be like us. At the same time, people of the United States are changing their pronunciation to "Pon-tha," because that's Spanish, and they want to appear well educated.

Since the recent railway accident in London the railway people have made up their minds to adopt the American cow-catcher in front of engines. The late disaster was caused by a truck falling in front of an engine. A cow-catcher would have swept it off the track. John Bull is gradually accepting and adopting American ideas. The cow-catcher is a purely American device.

The president of Argentina has offered Hon. J. Sterling Morton, of Minnesota, a very large salary to come there and organize a department of agriculture similar to ours. In a similar way many years ago Argentina paid Horace Mann a large sum to go there and superintend the organization of a public school system. The Argentina government evidently knows where to go for progressive ideas.

Speaking of questions of diet, the Christian World says: "If a man finds that he can think better, pray better and see further on a changed diet or restricted diet, let him take to that, in God's name! Only, for his soul's sake, we would beseech him to avoid making the Pharisee's fuss over it, and reviling his neighbor who sees differently." This is sound sense. The crank is harmless, but the crank with a mission is a nuisance.

General Manager Rawn, of the Baltimore & Ohio South Western railway has prepared a detailed statement of the number of people carried into Cincinnati on the occasion of the thirty-second annual encampment of the Grand Army of the Republic, September 3 to 12 inclusive. According to the train records 37,997 people were transported, the largest number being on September 5, when the total reached 8,522. According to these statistics the Baltimore & Ohio South Western carried about 30 per cent. of the travel.

There is one locality in the world which has thus far resisted the invasion of the bicycle, and that is Aden, on the Red sea. The United States consul there, in reply to the inquiry relative to the bicycle industry in that far off quarter, reports that owing to the rough streets and hills and the heat, to which no one can expose himself on the wheel without danger, as well as to the fact that the natives are too poor to buy wheels even if they wanted them, there is no prospect "of a demand in this market for bicycles of any description or make."

In one respect Gen. Joe Wheeler's experience will be like Washington's. He will be elected to congress by a unanimous vote. All parties—republicans, populists and democrats—have united on him. Congressmen are occasionally elected without any opposition. This happens in districts in which one party is so much stronger than the other that opposition would be useless. All parties participated in nominating Gen. Wheeler and all will vote for him. Such a tribute as this is seldom paid to any public man in this or any other country. It is as deserved as it is rare.

The recent general order of Gen. Gomez is a most hopeful indication. It shows that the leading insurgent is in earnest to insure the people of Cuba the tranquillity which alone can come from the protection of life and property. He declares that all citizens will be protected in their properties and expresses entire confidence and good will in the good faith of the United States. He recognizes that independence will come to Cuba through the assistance of the United States. The cause of the insurgents, he says, was hopeless until it was espoused by the United States.

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

A dispatch from Paris says Premier Sagasta will ask the United States to pay $400,000,000 for the Philippines.

Capt. Gen. Blanco has ordered the release of all political prisoners now undergoing confinement in Cuba.

The government has ordered that all sick soldiers of Gen. Brooke's army in Puerto Rico be transported to the United States.

The Spanish troops in Cuban provinces have been ordered to coast cities to be in readiness for transportation to Spain.

The American army will begin its movements into the island of Cuba as early as October 15 if possible.

Having reached the age of 62 years Rear Admiral Montgomery Sicard was retired, but he is to retain his place at the head of the promotion board.

A report from Admiral Dewey says that Manila is far from being an unhealthy city, and that the climate is as fine as that of any place in the tropics.

In the detention hospital cemeteries in Camp Wikoff, Long Island, impressive military services were held over the graves of the soldiers buried there.

It was decided by the war department to send officers to Cuba to investigate and report upon locations of camps for the army of occupation.

The death of Rev. Thaddeus S. K. Freeman, of Logansport, Ind., chaplain of the cruiser Baltimore, occurred at Manila.

President McKinley issued an order creating the territory of Puerto Rico into a new military department, to be known as the "Department of Puerto Rico," with Maj. John R. Brooke in command.

Lopez and Agoncillo, the representatives of Aguinaldo, the Philippine insurgent leader, called at the white house and had a private conference with President McKinley.

FROM WASHINGTON.

Instructions were given all diplomatic and consular officers of the United States to hoist the flag at half-mast over their buildings and keep it so for ten days in memory of the late Thomas Francis Bayard.

Col. John Hay was sworn into office as secretary of state.

A statement of the government receipts and expenditures for September shows the receipts to have been $39,778,070 and the expenditures $54,223,921.

The statement of the public debt issued on the 1st shows that the debt increased $54,608,488 during the month of September. The cash balance in the treasury was $940,105,524. The total debt, less the cash balance in the treasury, amounts to $1,067,479,205.

THE EAST.

In the United States there were 195 business failures in the seven days ended on the 30th ult., against 173 the week previous and 194 in the corresponding period of 1897.

Henry George, son of the single tax advocate, was nominated for governor to head an independent democratic ticket at a meeting of the Chicago platform democrats in New York.

In the National league the percentages of the baseball clubs for the week ended on the 2d were: Boston, .679; Baltimore, .655; Cincinnati, .603; Cleveland, .558; Chicago, .549; New York, .514; Philadelphia, .507; Pittsburgh, .486; Louisville, .464; Brooklyn, .376; Washington, .343; St. Louis, .254.

Bertha Beilstein, despondent over the death of her father, killed her mother in Pittsburgh, Pa., and then took her own life.

Flames in the Midvale mine at Wilkesbarre, Pa., caused the death of five men.

In Philadelphia Lawrence Greenwood, president of the Coatesville (Pa.) national bank, was robbed of $10,000 worth of bonds.

In Manchester, N. H., N. A. & J. Sawyer, woolen manufacturers, assigned with liabilities of $1,000,000.

The death of Caaroline Miskel Hoyt, the well-known actress, wife of Charles H. Hoyt, the playwright and manager, occurred in New York, aged 25 years.

WEST AND SOUTH.

At El Paso, Tex., a well-organized and successful gang of counterfeiters has been rounded up.

In Milwaukee Charles Pittelkow, doing a real estate, loan and insurance business, failed for $138,000.

In Pana, Ill., martial law now rules, and the streets are patrolled by armed militiamen. An armed body of strikers held up a train at Tower Hill and compelled the negroes who were en route to Pana from Washington, Ind., to work in the mines to return to Indiana.

In Greentown, Ind., an incendiary fire destroyed the big grain elevators of Paddock, Hodge & Co. and the Corona mills. Loss, $100,000.

Senators Cullom and Morgan and Congressman Hitt, members of the Hawaiian commission, arrived in San Francisco from Honolulu.

Dr. F. A. Todd, aged 33, assistant superintendent of the Ohio state hospital for the insane at Toledo, died of hydrophobia in a Chicago hospital.

Miss Elizabeth Stephenson, of Marinette, has been chosen to christen the new war vessel which is to bear the name of Wisconsin.

The veteran Illinois politician, Jehu Baker, has become blind as the result of a serious illness four years ago.

In Wisconsin, South Dakota and Colorado forest fires continue to spread and threaten many towns with destruction.

Fire swept away the business portion of Ipswich, S. D., except one block.

Rain and snow have checked the progress of the forest fires in Colorado.

At Indianapolis, Ind., Robert Lesh shot and killed his wife and then killed himself. Domestic troubles were the cause.

Insane over religion, Mrs. S. L. Williams poisoned her two children and cut her own throat at Detroit, Mich.

Fire wiped out eight blocks of the best portion of Colorado Springs, Col., including the Antlers hotel. The loss is $1,000,000.

Near Murfreesboro, Tenn., John Hollingworth, a murderer, and some of his friends killed five men.

Over 100 persons are missing in the burned-over sections in the northern part of Wisconsin and many bodies of others have been found, but all so badly burned that identification is in most cases impossible.

FOREIGN INTELLIGENCE.

The Dominion of Canada by popular vote has declared for prohibition, Quebec being the only province enrolled on the side of liquor.

A plot to assassinate the king of Roumania was discovered.

In the joint note of the powers presented to the sultan demands are made that Turkish troops and officials be withdrawn from Crete in October.

Canada's historian, William Kingsford, died at his home in Ottawa, aged 79 years.

Six reformists were hanged in Peking, China, for alleged conspiracy against the dowager empress.

Consent has been given by all the European governments to Italy's proposal for a conference for the suppression of anarchists.

Turks and Armenians fought at Alashgorb, and 50 of the latter were killed.

In Japan floods destroyed over 1,000 houses, and 250 persons were killed.

Advices from Shanghai say that the emperor of China committed suicide on September 21.

LATER NEWS.

The request of Col. Bryan, of the 3rd Nebraska infantry, for the discharging of a number of men of that regiment, who desire to return to their homes, was granted by the secretary of war in about fifteen cases.

Secretary Alger has rejected Gen. Miles' recommendation in regard to caring for the troops during the winter or until they are needed for garrison duty in Cuba or Porto Rico. Gen. Miles' plan was to quarter the troops in buildings in the large cities, but the secretary overruled the commanding general and the army of occupation will be sent to the Southern camps, where they will remain until they leave the country.

At the meeting of the voting trustees of the Northern Pacific at New York the board was re-elected with the exception of Mr. Francis Lynde Stetson, in whose place Mr. George Baker was elected.

The Philippine envoys will not be allowed to visit the White house.

The schooner Sarah E. Palmer was wrecked off the coast of South Carolina and eight lives lost.

The Democratic state convention of Massachusetts nominated Alexander B. Bruce for governor and endorsed the Chicago platform.

Col. Roosevelt has been notified of his nomination for the governorship of and accepts the same.

It is asserted that the emperor of China was forced by the empress dowager to take poison. He had planned to dispose of her but an adherent of his proved false.

The battleship Illinois was launched at Newport News, Va., the 4th.

It is semi-officially asserted that M. Manan, the French procurator-general, has sent a report to the Court of Cassation, which insures a revision of the Dreyfus case.

MARKETS.

Minneapolis, Oct. 4.

Wheat—No. 1 northern, 59 to 60c. No. 2 northern, 57 to 58c; Dec. 58⅞c.

Butter—Creamery, extras, 17 to 18c; creamery, firsts, 16 to 17c; dairy, fancy, 14 to 15c.

Poultry—Turkey, 7 to 8c; spring chickens, 7 to 8c.

MINOR NEWS ITEMS.

Minnesota's state fair has closed with a cash balance of $11,000 on hand.

Four monuments to West Virginia soldiers were dedicated on Gettysburg (Pa.) battlefield.

Lieut. Col. Brodie, of the rough riders, has been nominated for delegate to congress by the Arizona republicans.

Mr. and Mrs. A. G. Peters, of San Francisco, have studied law together and were recently admitted to the bar.

Rev. Anson Dodge, of St. Simon's island, Georgia, has endowed an Episcopal mission in Allahabad, India, with $40,000.

Prof. J. W. Johnson, of Oregon state university, who has just died, crossed the plains driving an ox team with his parents in 1850.

Rev. J. M. Riddle, who has just been installed in the pastorate of the Second Baptist church in Columbus, O., was formerly a slave.

The Chinese emperor has sent to the Chinese consul in Havana 1,000 bags of rice to be distributed among his hungry subjects in Cuba's capital.

Russell Sage is the only living original director of the New York Central railroad and the only survivor of the founders of the Fifth avenue bank.

W. H. Riehl, of Cleveland, was arrested at Niagara Falls while on his way to the falls to commit suicide. The police had been warned by his son to watch for him.

The geological survey has received returns showing that the total production of lead in the United States from all sources during the last six months of 1898 was 156,113 net tons.

The official call for the twenty-fifth annual convention of the National Woman's Christian Temperance union has been issued. The convention will be held in St. Paul, November 11-16.

Andrew Carnegie is said to be the head of a syndicate which will establish a colossal ship-building plant at New York. The syndicate will have a capital of over $100,000,000 and expects to control ship-building in this hemisphere.

Patrick Kelly, a boiler-maker in Atlanta, Ga., three weeks ago took a total abstinence oath, praying to be struck dumb if he broke it. The other night, surrounded by friends, he drank a glass of liquor and speech instantly deserted him.

THE FOREST FIRES.

They Continue to Devastate Land and Homes in Wisconsin.

Partially Checked in Polk County—Reports Received at Cumberland Say That Nine Persons Have Perished—Hundreds Homeless.

Cumberland, Wis., Oct. 3.—From reports received here, nine people have perished.

A dispatch from Rice Lake says that many unidentified bodies have been found charred in the woods, and that so far as heard from there are over 100 persons missing. Advices from Rice Lake state that the fires in the neighborhood are worse than ever, and that the loss of life will be much greater than it was supposed it would be.

The property loss in this county will aggregate $400,000 besides the farm buildings and crops. A large amount of stock has been burned and much hardwood timber has been destroyed.

Cumberland, Wis., Oct. 4.—The fire is still raging on one side of the city, but the greatest danger is believed to be over. In the town of Johnstown, Polk county, eight miles distant, heavy loss of farm property is reported and fires are still raging. Reports from county districts tell of the finding of the bodies of an unknown man and boy in the woods between Almena and Poskin Lake, burned beyond recognition. Several persons were still missing, and these are supposed to be two of them.

Hundreds Are Homeless.

Turtle Lake, Wis., Oct. 3.—The damage done by the forest fires of the last few days cannot be estimated or overestimated. Hundreds of families are homeless, many are almost naked, and in a few days all will want for food, as the small supplies in the towns are not sufficient. The people are in no condition to pay for what there is. The devastation wrought by the fire is so great that it cannot be comprehended by anyone not on the ground.

Colorado Fires Checked.

Denver, Col., Oct. 4.—Reports received Monday from various points in the regions where the forest fires have been spreading for a week or two past are to the effect that the fires have ben checked in many places by snow and rain.

In the vicinity of Glenwood Springs the fires are almost entirely extinguished.

Idaho Springs reports that the fires on the west slope of the divide are pretty nearly under control, and there is not now much danger of their reaching the east slope. However, the fires will smolder for months, and another dry spell, followed by winds, might revive the flames. Hundreds of miles of fine timber have been laid waste in the range of mountains to the west of Middle Park, and some ranches have been destroyed.

Had a Hard Fight.

Cheyenne, Wyo., Oct. 4.—Special Abbott, of the interior department, has returned from Carbon county, where he was engaged for three weeks in fighting forest fires along the west side of Bald mountain, the east and west sides of the Platte valley, near Bennett, on the head of Spring creek, the forks of the Encampment river and around Battle lake.

The department of the interior authorized Mr. Abbott to spare no expense in extinguishing the Carbon county fires. From where he was working Mr. Abbott states that the immense fires around Hahn's peak, Colorado, could be plainly seen. The Colorado fires are driving large numbers of deer and antelope north into Wyoming.

FEARS FOR THE FUTURE.

Minister Conger, at Peking, Hints at Possible Serious Riots in the Chinese City.

Washington, Oct. 4.—The state department has received the following cablegram from Minister Conger at Peking:

"There is no serious danger yet, but considerable anxiety for the future. The foreign fleet is assembling at Tien Tsin. Some of the ministers are ordering marines to Peking for legation guard."

Washington, Oct. 4.—Secretary Long upon advices received at the state department showing the existence of threatening conditions in China has ordered Admiral Dewey to send two warships immediately from Manila to a point as near the Chinese capital as possible for a warship to approach. The vessels selected for this undertaking are the Baltimore and the Petrel. It is expected that the Baltimore will not be able to get beyond the Taku forts at the entrance of the Pang-He river, upon which Peking is situated, but the Petrel, being of smaller proportions, may be able to reach Tien-Tsin, 80 miles above the mouth and about the same distance below Peking.

Secretary Long said that the sole purpose of ordering the Baltimore and the Petrel to Tien-Tsin was to safeguard American interests and protect life and property of American citizens in the event of an outbreak in the interior, Tien-Tsin being the nearest point to Peking accessible to warships.

Henry George Declines.

New York, Oct. 4.—Henry George has declined the nomination for governor on the ticket placed in the field by the Chicago platform democrats and the committee having authority to fill the vacancies nominated Henry M. McDonald, of the county of New York, for the place. Mr. George in his letter says that by pursuing uninterruptedly the duty of writing his father's biography he can do more for the principles of freedom than by engaging actively in politics.

Col. Hay Sworn In.

Washington, Oct. 1. — Col. John Hay was sworn into office as secretary of state at 11 o'clock in the morning. The ceremony took place in the president's room at the white house and the oath was administered by Justice Harlan, of the supreme court. Mr. Hay immediately joined his colleagues in the regular Friday cabinet session.

Deed of a Dissipated Husband.

Omaha, Neb., Oct. 3.—A special to the Bee from Essex, Ia., says: Walter J. Yates on Sunday shot and dangerously wounded his wife and her friend, Mrs. E. J. Brown, and then shot himself through the head. Domestic infelicity, caused by Yates' dissipation, brought about the tragedy.

MINNESOTA NEWS.

Affairs at Leech Lake Reservation.

Walker, Minn., Oct. 4.—There will be no trouble at Bear Island for a day or so.

The council between the authorities and the Indians called for noon yesterday was adjourned until noon today. At noon yesterday it looked as though the Indians would stay away from the administration building at the agency, but towards 4 o'clock they began to put in an appearance, and at that hour the council was called to order by Col. A. M. Tinker, inspector of Indian agencies, and for one hour the Indians were given an opportunity to explain their position, and to make known what grievances they might have.

The council was attended only by agency Indians and a few from Pine Point, the latter being generally recognized as agency. The Bear Island, Cass Lake and Otter Tail Indians kept away, notwithstanding the fact that the heavy wind which has been blowing on the lake for several days had subsided sufficiently to permit of passage to the agency in their canoes.

United States Marshal O'Connor late last night received a message from Gen. Beacon stating that 80 infantry men accompanied by himself would leave Fort Snelling today, arriving here the same evening.

An Executive Mansion.

The state capitol commission will consider the advisability of recommending in its report to the legislature that the state provide for an executive mansion for the governor, to be located conveniently near the new capitol building.

It has been suggested that the state purchase the site of the old Merriam mansion on Merriam's hill, which was destroyed by fire in 1896, and erect on it a residence for the governor.

The authors of the project urge that at present the property could be secured at merely a nominal figure, and if a small "white house" were erected on the hill back of the main building, it would furnish a fine relief for the massive structure of white marble which is fast assuming substantial proportions.

The capitol commission would have no authority to spend any of the appropriation for this purpose, and to secure such a building an appropriation from the legislature would be necessary, as the functions of the commissioners do not extend beyond supervising the construction of the new building and authorizing an occasional bond issue to meet the monthly payments on the contract.

Eastern Minnesota Cutoff.

It is learned that the Eastern Minnesota railway's cutoff, which will shorten the distance between St. Paul and Duluth by 30 miles, will be built this year. It will start at Mora and run south through Kanabec, Isanti and Anoka counties, reaching the present line at Coon Creek. The plans were completed recently and the contract will be let within a few weeks. This is one of the improvements which Mr. Hill has in contemplation for his lake terminals. He also has in mind the building up of a corn market at Duluth and it is said will soon erect a corn elevator there.

At Manilla.

Civil honors have been bestowed upon several officers of the Thirteenth Minnesota, now occupying Manilla. If a Minnesota man should drop in on the boys he would find Col. Ames acting as police inspector of the city, Major Diggles discharging the duties of magistrate of San Miguel, Paco and Sampuloc, and Major Friedrich the police inspector for the districts of Touda, Binoda, Santa Cruz and Iniapo. The boys themselves patrol their beats clad in white uniforms and straw hats. Harry Luxton has congenial occupation as health inspector of Manilla.

Minnesota Briefs.

Louis Mattison, a workman on the new reservoir at Duluth, was badly injured by a premature blast.

The millinery store at Perham owned by the Gerber sisters was destroyed by fire.

The Duluth office of the Schwarzchild & Sulzberger Beef company was entered by thieves and robbed of between $300 and $400. They were experts and worked the combination of the safe.

The jury in the case of Ole Severson of Winona, charged with a brutal assault on his 8-year-old daughter, returned a verdict of guilty and placed his punishment at imprisonment for life.

Capt. J. R. Lowe, of the Faribault Jeffersonian, who received the people's party nomination for congress for the Third district, has filed his certificate and will at once make an active canvass of the district. Mr. Lowe served four years in the army, and was at one time prominent in Alliance circles in South Dakota.

Otto Axtelson, a well dressed gentleman who claimed he was from Idaho, walked into a Minneapolis hospital and asked for medical attendance, saying he was very sick. He immediately lapsed into unconsciousness, and in half an hour was dead. A post mortem examination revealed the fact that typhoid fever was the cause.

Thomas Brodeneels has discovered gold on his farm, near the village of Douglas. An expert assayist declares that gold can be mined there in paying quantities.

Rudolph Larson, aged 8 years, was killed by the Minneapolis street cars. He was amusing himself by running across the track in front of the cars.

J. W. Walters, of Beldenville, Wis., who had his leg broken in a runaway at Hastings last November, his team becoming frightened at a switch engine, was awarded a verdict of $5,000 damages against the Milwaukee company.

Burglars entered the store of A. Anderson, at Milan, blew open the safe and secured over $400 in money and about $7,000 worth of notes. They went in through the cellarway. The notes were found.

John Reinbola and John Monson, of Red Wing, who went to Alaska last January, returned recently without even seeing any of the yellow metal. They were in the Copper river district.

The ninth annual convention of the Woman's Relief Corps was held at Winona, with a large attendance.

The depot at Fosston was robbed of $6 in cash and a small amount of merchandise.

J. P. Granberg, of Rush City, seeing a shotgun leaning against a porch took hold of the barrel and pulled it toward him, when the gun was discharged, carrying away the whole of his face.

AN AUTUMN IDYL.

In Which Is Depicted Somewhat of the Sorrowfulness of the Expiring Year.

A great wave of perspiration had swept up from the briny depths of the sea of humanity, and on its white-capped top the month of August had taken passage to the shoreless realms of eternity.

Tip-tilted on the petals of the blooming melancholy days of poesy and song, September in her golden glory stood, and from her harvest finger ends threw ripening kisses to the world.

There was no sadness in her eyes, and in her voice was only the music of rich, ripe fruit falling to the ground.

As she swept along on the crimson tide of her leafy glory, a simple Oyster crossed her path.

In his face was the shadow of Fate.

His requiem was sounding in the key of R.

September saw him, but she wot not what he was to her, nor she to him. She nodded at him smilingly.

"Good morrow, Master Lowly," she sang. "Look upon me, I prithee. Am I not indeed in it?"

The Oyster was amazed.

"I beg your pardon," he answered, though he knew full well what she had said.

"Dearie me, Master Lowly," she chirruped, "do but look at me. Am I not in it?"

"Do you mean the soup?" lugubriously inquired the Oyster.

"No, indeed. Why should I?" laughed the warm September. "I mean the Autumn, of course, stupid."

Then the Oyster sighed as if his shell would break, and he wondered why one could be so heartless as to jest upon such a serious subject.—Washington Star.

A SOLDIER'S ESCAPE.

From the Democrat-Message, Mt. Sterling, Ill.

When Richmond had fallen and the great commanders had met beneath the historic apple tree at Appomattox, the 83d Pennsylvania Volunteers, prematurely aged, clad in tatters and rags, broken in body but of dauntless spirit, swung into line for the last "grand review" and then quietly marched away to begin life's fray anew amid the hills and valleys of the Keystone State. Among the number Asa Robinson came back to the old home in Mt. Sterling, Ill., back to the fireside that he had left at the call to arms four years previous. He went away a happy, healthy farmer boy in the first flush of vigorous manhood; he came back a ghost of the self that answered to President Lincoln's call for "300,000 more."

The Soldier's Return.

To-day he is an alert, active man and tells the story of his recovery as follows:

"I was a great sufferer from sciatica rheumatism almost from the time of my discharge from the army. Most of the time I was unfitted for manual labor of any kind, and my sufferings were at all times intense. At times I was bent almost double, and got around only with the greatest difficulty. Nothing seemed to give me permanent relief until three years ago, when my attention was called to some of the wonderful cures effected by Dr. Williams' Pink Pills for Pale People. I had not taken more than half a box when I noticed an improvement in my condition, and I kept on improving steadily. I took three boxes of the pills, and at the end of that time was in better condition than at any time since the close of my army service. Since then I have never been bothered with rheumatism. Dr. Williams' Pink Pills for Pale People is the only remedy that ever did me any good, and to them I owe my restoration to comparative health. They are a grand remedy."

His Business.

A lawyer trying to serve his client by throwing suspicion on a witness in the case, in the course of his cross-examination, said: "You have admitted that you were at the prisoner's house every evening during all this time?"

"Yes, sir," replied the witness.

"Were you and he interested in any business together?"

"Yes, sir," answered the man, unhesitatingly.

"Ah! Now, will you be good enough to tell us how and to what extent and what the nature of this business was in which you and he were interested?"

"Well, I have no objection to telling. I was courting his daughter."—St. Louis Globe-Democrat.

Free to Teachers and Scholars.

In 1897 we had thousands of requests from teachers and scholars for Wonderland '97. The edition—a large one—was exhausted long before the end of the year. Wonderland '98 can now not only be supplied to those unable to secure the former, but also to others. It is entirely different, however, from the first named book. It has a chapter on The Agricultural Northwest, crammed full of valuable information; one on Yellowstone Park, written especially for teachers; another on Alaska and Klondike, and one on A Canoe Lake Trip, that will be of interest to schools. The book has a high art cover designed by Leyendecker, and it is profusely illustrated from new photographs. The Northern Pacific Railway will send the book and a revised folder map of Yellowstone Park, upon receipt of six cents in stamps or postal order. Send to Chas. S. Fee, Gen. Pass. Agent, St. Paul, Minn. Write address plainly, and state where you saw the advertisement.

A Family Affair.

Rich Uncle—You might as well stop mooning about Miss Beauty. She hasn't been in love with you, after all. She's been after the money she thought you would inherit from me.

Nephew—Impossible! Why do you think so?

"I have proposed to her myself and been accepted."—N. Y. Weekly.

Would-Be Writer—"What do you consider the most important qualification for a beginner in literature?" Old Hand—"A small appetite."—Tit-Bits.

Our idea of a difficult task for anyone to fill would be for a woman to make herself popular at her boarding house.—Atchison Globe.

There are some people so afraid they will be fooled that they refuse to believe the truth.—Atchison Globe.

Pure Blood Good Digestion

These are the essentials of health. Hood's Sarsaparilla is the great blood purifier and stomach tonic. It promptly expels the impurities which cause pimples, sores and eruptions and by giving healthy action to the stomach and digestive organs it keeps the system in perfect order.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1; six for $5. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

The Honor of a Soldier

By CHARLES B. LEWIS.

—Copyright, 1898.

"Five guns in the outwork on the left flank. Breastwork of logs and dirt. Six guns in center. Strong outwork on right flank, with five or six guns. Barricade at end of bridge. Force numbers about—"

"You cussed spy!" growled a voice in his ear, and the big sunburned hand of a soldier in blue seized the arm of the man who was using the pencil and note book and twisted them out of his grasp.

It was in a bit of a thicket which was included within the federal outpost lines at Carson's cross roads. There were four highways there, with the long bridge across Dover's creek. It was a strategic point in front of the federal army, and there were 4,000 men there to defend it. A young man, hardly 20 years old, dressed neither as a federal nor a confederate, had crept down through forest and thicket all along the front and back again, and was jotting down the results when so brusquely interrupted. He had spent the whole day at the work, and had made close estimates. In five minutes more he would have been creeping away as he had come, but a federal soldier, sent back to camp from one of the outposts on an errand and taking a short cut through the woods, had come upon him.

"Yes, a spy!" said the federal, as he pointed to the little book on the ground and ran his eye over his prisoner. "Say, now, but you can't begin saying your prayers any too quick. Gen. Haynes don't waste over 15 minutes hanging such fellows as you."

"Don't be too hasty, my friend," answered the spy, as he uttered a laugh in which there was alarm instead of merriment. "I am perfectly willing to go to the general with you and explain matters. Just lead the way and I'll follow."

He meant to bolt. He had been so unexpectedly interrupted that he had not had time to make up any sort of a story. The federal was armed with his musket, but a dash into the dense undergrowth offered even chances of escape. He had drawn a full breath and gathered his legs under him when the captor reached out and took him by the collar and said:

"Oh! You would, eh! I'll put a stop to that—come along!"

It was a clear case. When Gen. Haynes had the note book in his hands it was useless for the spy to make excuses. And yet the rough old soldier felt a softening of the heart as he looked at the boy before him. That he was a southerner by birth was easy to see. He had a handsome face and a proud bearing. He was one who should have died following the battle flag, instead of by the hangman's rope.

"You—you were writing this when captured?" asked the general, as he pointed to the penciled lines.

"Yes, sir."

"It was information for the confederates?"

The spy inclined his head.

"You are hardly more than a boy, yet old enough to know the penalty. There is but one penalty for spying—but one death for spies. Sentry, call in the corporal. Corporal, escort the prisoner to the guardhouse, and send Capt. Strong to me."

"If he were a man I'd hang him at sunrise!" said the general to the captain, ten minutes later. "As he is only a boy, and as this must have been his first work, I'll give him three days to prepare for death. You will be in charge of the execution."

The captain went over to the guardhouse to see his prisoner. As he looked into the boy's face he started back with an oath and a groan.

"You—you—you!" he gasped. "My God, but this can't be Charlie Phillips? Why, boy, how is it—why are you here?"

"I was helping the cause," replied the boy.

For more than a year Capt. Strong had been on detailed duty at Washington. The best society had given him welcome. As an old bachelor he had a right to flirt a bit, and eventually to fall in love. When a good little woman had promised to be his wife scores congratulated him; but scores also whispered to each other that it was unfortunate she was southern born and bred, and had relatives in the confederate ranks. When the captain first knew her she had a brother Charlie with her—a young Hotspur who was held down almost by main force. The boy had one day disappeared, but the captain had simply noted his absence and made no inquiries. And now, months later, the two faced each other again—the one as a spy condemned to a disgraceful death, the other as his executioner.

"Oh, boy, why did you do it—why did you do it!" wailed the captain, as he laid his hand on the prisoner's shoulder.

"I owed it to my country," was the reply, "and I'd do it again and again. Only—only, I'm sorry for Nina."

"God, boy, but it will break her heart! You have been captured as a spy, and I am to see the sentence of death carried out! Why wasn't it some one else—why didn't you go elsewhere? God! God! but what a situation!"

That evening a telegram went to Washington. Next day a dozen passed back and forth. A pale-faced, weeping woman sought an audience with the president—with the secretary of war—with members of congress. The spy arrested at the cross-roads was her youngest brother, she said—a hothead—a mere boy—one who could not realize what he was doing. In another day she was at the camp, and she had powerful friends with her. The president had promised that he would look into the matter; the secretary of war had promised that there should be further investigation; a senator had pledged his word that he would save the boy's life. There was delay, but the sentence stood. There had been spies in that camp before this time; to pardon him meant that there would be spies after him. Had it been desertion—some flagrant breach of discipline—or had he only been suspected of spying—mercy would have prevailed. When the guns of war are thundering they drown the wails of appeal sent up for the life of a captured spy. "The sentence cannot be interfered with," said the president. "The sentence must stand," said the secretary of war. "The sentence will be carried out to-morrow morning at sunrise!" said Gen. Haynes.

"But it will not be carried out!" whispered Capt. Strong to the weeping, wailing woman who had promised to be his wife. "I can save him—the honor of the family—and I will do it."

"If Charlie is hung—" she sobbed.

"He will not be hung. I pledge you my word and the honor of a soldier."

He was pale-faced and earnest. She had never seen his face wear such a hard, set look. He had put her away from him, still sobbing and uncomforted, and as he made his way from the farmhouse to the camp he did not once turn to look back. The sun had just dropped behind the wooded hill as the captain dismounted in camp. He entered his tent to remain a quarter of an hour, and then passed out and walked straight toward the guardhouse. The soldier prison was an old log hut which had been repaired and strengthened. A sentinel paced to and fro across its front—a second along the south side under the single window. The door was fastened with hasp and padlock.

"Corporal of the guard—the key to the door!" called the captain, as he came to a halt.

It was brought him from the guard tent near by, and a lantern with it. He passed in to find the prisoner asleep. With a touch he roused the boy and said:

"Come with me!"

"But it is night, and they do not hang until sunrise," protested the prisoner.

"They will not hang you at all—come on!"

It was an irregular proceeding, and the sentries and the corporal muttered their surprise. An order should have come from the officer of the day—a corporal's guard should have escorted the prisoner. But the captain's stern look checked the mutterings, and he handed back the key and walked off, followed by the spy. They passed along the tented streets until they reached the western side of the camp—until they had passed the sentinel on post No. 7. Then, when outside of camp limits, the captain halted and pointed up at the dark woods and said:

"This is your way—make haste!"

"But how—how does it come?"

"It is for Nina's sake—for the honor of the family. You are a spy, but you will not be hung."

The boy hesitated and wanted to question further, but the captain put a hand on his shoulder and pushed him forward and said:

"They may be here in five minutes—go!"

Without a word the boy hurried forward, and in 20 seconds was out of sight in the darkness. The captain stood looking after him—listening to his footsteps as they grew fainter and fainter—and by and by there was no further sound. Darkness and the shelter of the woods would make recapture impossible. He was still peering—still listening—from behind him he heard the tramp! tramp! tramp! of marching men.

"They are coming to arrest me," whispered the captain, as he drew his revolver. "It was for Nina's sake—for the honor of the family. Now for the honor of a soldier."

Half a dozen men hurried forward at sound of the shot, and presently one of them tripped over a body lying on the ground. He rose to his knees and struck a match, and as all bent forward to get a look he exclaimed:

"Good God, but it's Capt. Strong, and he's shot himself through the head."

"Over to Port."

To the visitor from the shore who sees its working (on an English ship) for the first time, the rule of the starboard side—to give it a name—has an odd appearance. One does not know why everybody swarms over to port when a certain cap with gold on the peak emerges through a hatchway. It may even be unpleasantly enforced. Thus it chanced once to me to be a guest in the gunroom mess of a ship which was out for target practice. I was walking with the paymaster, both of us void of any intention of offense, on the sacred starboard side, when a midshipman came up with a message from the captain, who was on deck, though not on the quarter deck, that we must confine ourselves to the port. There was a plentiful lack of humor on the part of that officer, and no sufficiency of politeness; but rules there must be, or else a man-of-war would speedily become a regular-built privateer.—Blackwood's Magazine.

Getting Even.

Mrs. de Bloom tried to get Mrs. de Janes' cook away from her, and actually went to Mrs. de Janes' house when she was out and offered the cook more money. The next time the ladies met at a dinner party Mrs. de Janes took no notice of Mrs. de Bloom. Some one who sat between them said:

"Mrs. de Janes, you know Mrs. de Bloom, do you not?"

"No—I believe not," said Mrs. de Janes; "she sometimes calls on my cook, I understand!"—Tit-Bits.

Poor Girl.

She—Oh, please don't tease me to sing. I'm so hoarse to-night that I can hardly make a sound.

He—Yes, I know. That's why I think this would be a good time to have it over with.—Chicago Daily News.

Easily Arranged.

"Av ye plaze, mem, there's no fresh eggs to be had in the market this marrnin'," announced the kitchen lady.

"Then, Norah!" said the young wife, "go out at once and get some canned eggs."—Chicago Tribune.

Very Likely.

First Tramp—What do you suppose the lady meant by asking me how long I had been out of work?

Second Tramp—She was probably trying to get at your age.—Puck.

FIGURES ON THE WAR.

Some Queer Statistics Regarding the Army and Some of the Supplies Used.

Now that the war is over some persons would like to know how many bullets were fired during the conflict, but since that cannot be ascertained, it is striking enough to consider that the 277,000 men now composing the army of the United States carry in their cartridge belts more than 27,000,000 rifle balls. At all events they would carry that many if all of them were armed with the new magazine rifle, commonly known as the Krag-Jorgensen, 100 cartridges being allowed to each man. Before long all of Uncle Sam's soldiers will be provided with this weapon instead of the "archaic" Springfield.

Thus equipped, the 277,000 men now enlisted would carry 372 tons of bullets at their waists; and this makes reckoning of only the leaden balls, and not of the cartridges containing them. Each of the cartridges is a bit over three inches long, and if all of those contained in the belts of the soldiers were placed end to end they would stretch 1,366 miles. Just think of the destructive power represented by that line of cartridges!

The barrel of one of these regulation rifles is 30 inches long. If all of them—the 277,000—were placed end to end, so as to make a continuous tube, the latter would extend 131 miles, or just about the distance from Washington to Philadelphia. But, to render the thing more striking, consider the fact that the new rifle will kill a man at 4,400 yards. This makes a total effective range of 692,500 miles for 277,000 rifles. Accordingly, if the velocities of all the bullets could be combined, three sharpshooters on the earth would be able to shoot far enough to kill three men on the moon.

Each soldier's uniform, with cape overcoat, requires 11¼ square yards of material. Hence it appears that the cloth used for making war costumes for the 277,000 men in the army, if spread out, would cover just about 644 acres, or a little over a square mile. At $18.65 a suit an outfit of uniforms for all the troops of the United States costs the government $5,166,050, enough to build, furnish and arm the biggest and finest kind of a battleship, such as the Oregon.

Most of the volunteers in the war have received only one blanket apiece from Uncle Sam, though the usual allowance is two. These blankets are of exceptionally fine material, costing $3.33 apiece. To provide every man in the army with one means an expense of $922,410, and these 277,000 blankets would cover 244 acres of ground. They are seven feet long by five and a half feet wide, and it is agreed by both officers and men in the service that better poker can be played on them than on any other kind of cloth.

To make an army shirt of flannel requires three square yards of stuff, and the government pays $1.95 for the finished garment. Thus it is easily calculated that such shirts for all the troops would come to a total of $540,000 and the material for them would spread over 172 acres. More interesting is the fact that 34,625 calves would be required to furnish leather for the shoes of all the regiments, and this would take no account of the soles and heels which would have to be supplied by 90,233 cows. The rubber cloaks for the army, called "ponchos," would cost $390,570, and would cover 143 acres.

One acre of good land yields 375 pounds of cotton, which can be woven into 147 half tents of the "shelter" kind used in the field. Each two soldiers have a tent between them, one carrying the right half and the other the left half. Such a tent costs $3.97 complete, with jointed pole, etc., the total expense of sheltering the entire army under canvas being $549,845. Spread out the canvas needed would cover 272 acres, each half tent having four and three-fourths yards of material. To produce the cotton for making all this tentage would need 1,889 acres or nearly three square miles.

An ordinary canteen holds two quarts. With all these receptacles filled, the present army of 277,000 men carries 3,644 hogsheads of water. This in fact is about equivalent to the daily requirement of water for the troops. The quantity would last one man more than 760 years. Each man has a tin cup that holds a pint and a half. If all of them were filled they would contain 2,733 hogsheads. But soldiers are thirsty people, and their belt capacity is wonderful. Forty-nine inches long, by the way, is the average cartridge belt, and 277,000 of them put end to end would stretch 214 miles.

One of the most interesting questions in relation to the fighting problem is that of transportation. It is impossible to ascertain, even approximately, how many miles were traversed by the army as a whole, or by the average soldier. However, it may be said that the average enlisted man during the present war did not travel less than 200 miles. If it be supposed that the journey taken by the average enlisted man was 200 miles, it will appear that the total number of miles traversed was 55,400,000. This total represents more than half the distance from the earth to the sun, and a paid ticket on that basis would entitle an individual soldier to 115 round trips to the moon.

The war department says that it costs 18 cents a day to maintain a soldier. This, of course, means simply the regular rations. Transportation of provisions means an extra expense and so it is reckoned that a fighting man requires 22 cents a day for his maintenance. Now, at this rate, the government is obliged to pay $60,940 a day for food for the 277,000 men enlisted. Each man is entitled to an allowance of 20 ounces of fresh meat a day, which means a total of 346,250 pounds for the entire army. Of flour the allowance is 18 ounces a day, amounting to 1,589 barrels a day for the whole army. Reckoning things on the same basis, the army as at present constituted requires 1,731 barrels of potatoes daily, and for the same period 27,700 pounds of coffee, 41,550 pounds of sugar, 11,279 pounds of salt, 5,639 pounds of soap, 4,324 pounds of candles, 692 pounds of pepper, and 44 hogsheads of vinegar.

During the war the loss to the Spaniards by ships destroyed has been $24,000,000. The cost of the war to the United States may reach a billion dollars.—N. Y. Sun.

Proposed Alliance with England.

If the United States and England should form an alliance, the combined strength would be so great that there would be little chance for enemies to overcome us. In a like manner, when men and women keep up their bodily strength with Hostetter's Stomach Bitters, there is little chance for attack from disease. The old time remedy enriches the blood, builds up the muscles, steadies the nerves and increases the appetite. Try it.

Pip—"Did you suppose the good really do die young?" Nip—"Don't know, I'm sure; but I'm perfectly convinced none but the young ever die good."—Town Topics.

TWENTY-FIVE DOLLARS FINE

For Wearing a Calico Dress and $100 Penalty for Selling the Goods.

It is a singular fact, but none the less true, that in England in the year 1700 women were not allowed to wear calico dresses at all, and in 1721 a penalty or fine of £5 was laid upon the wearer, and the unfortunate dealer who sold calico in those days had to pay a penalty of $100 for the offense. It is hardly necessary to say that no one of them ever undertook to sell more than one dress pattern. The women of this country may bless their lucky stars that nothing has ever interfered with their privilege to buy and wear calico to their heart's content. Moreover, they can be thankful that they are able to purchase the best quality the world produces right here at home. The goods of one firm are especially sought after by both consumers and dealers and their recognized superiority is assured when the name William Simpson & Sons is found on the ticket. At least that is what the ladies and the storekeepers say, and they ought to know.

Stop! Women,

And Consider the All-Important Fact,

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience in treating woman's diseases is greater than that of any living physician—male or female.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides, a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman, whose knowledge from actual experience is greater than any local physician in the world. The following invitation is freely offered; accept it in the same spirit:

MRS. PINKHAM'S STANDING INVITATION.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken.

Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

"The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women a year."

Mrs. Brewer's Humane Work.

A well-to-do Rhode Island lady, who looks after the sick of her city, writes to Dr. Hartman of her practical experience with Pe-ru-na.

Mrs. Lizzie M. Brewer.

HUMANITY is blessed with some good samaritans. Mrs. Lizzie M. Brewer, of 196 High St., Westerly, R. I., is a noble woman who devotes a great deal of time and money to caring for the sick of Westerly. She has been for several years one of Pe-ru-na's strongest friends, and under date of March 17, 1898, she writes the following letter to Dr. Hartman, Columbus, O., the originator of Pe-ru-na:

"Your welcome advice is at hand, and my gratitude is unbounded for the privilege I enjoy of consulting so renowned a physician as yourself, always receiving such prompt and satisfactory replies to my questions. And what amazes me most is that this can be done year after year, with unfailing certainty, free of charge. I have learned that you have become to thousands and thousands of households the same beneficent guide and adviser that you are to my household.

"As for your free books, I read them everyone, and treasure their contents as the choicest wisdom. I I have used Pe-ru-na in my family for over four years. I find it a sure cure for all catarrhal affections so common in this part of the country. It cures a cold at once; there is no cough medicine that can at all equal Pe-ru-na; as for la grippe there is no other remedy that can at all compare with Pe-ru-na. I notice in medical journals and from the testimony of my neighbors that the doctors seem quite unsuccessful in treating la grippe, especially in removing the after effects of la grippe. From personal observation in many cases I know that Pe-ru-na is a sure specific for these cases. I am among the sick a great deal in our city, and have supplied many invalids with Pe-ru-na, simply because I am enthusiastic in my faith as to its results. I have never known it to fail to quickly and permanently remove that demoralized state of the human system which follows la grippe.

"In cases of weaknesses peculiar to my sex I am sure that no other remedy can approach in good results the action of Pe-ru-na. It meets all the bad symptoms to which females are subject. The irregularities and nervousness, the debility and misery, which afflict more or less the women from girlhood to change of life, are one and all met and overcome by your excellent Pe-ru-na. I wish every young lady in our city could read your book 'Health and Beauty.' Any one wishing to inquire of me further can do so by enlcosing a stamp for reply."

BUFFALO GAZETTE

DELANO, FRIDAY, OCT. 7, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

DEMOCRATIC TICKET

For Governor,
JOHN LIND.

For Lieutenant Governor,
J. M. BOWLER.

For Secretary of State,
J. J. HEINRICHS.

For State Auditor,
GEO. M. LAMPHERE.

For State Treasurer,
ALEX McKINNON.

For Attorney General,
JUDGE J. F. KELLEY.

For Clerk of Supreme Court,
Z. A. AUSTIN.

Justices,
MITCHELL, CANTY, BUCK.

For Congress,
CHARLES A. TOWNE.

Dr. Niven, at Delano Oct. 10 and 11.

—Page Morris is billed for Delano, Tuesday evening, Oct. 11.

—Hear John Lind at Cokato Wednesday, Oct. 12. He will interest you.

—Those pictures of Lind and Towne hanging in windows about our village look well.

—Campaign buttons can be bought of E. R. Williamson & Co., 202 Hennepin Ave. Minneapolis.

—A number of Franklin farmers intend driving to Buffalo to hear Charley Towne tomorrow evening, Oct. 8.

—If any of our voters have been led to believe free silver is dead just let them be at Buffalo Saturday night; or at Cokato Wednesday.

—Possibly Towne will speak here. But he may not. You had better make sure of hearing him by driving to Buffalo Saturday evening, Oct. 8.

—The Democratic caucus was held at the City Hall Tuesday evening, and Henry J. Bock, A. E. Johnson and M. A. O'Hair elected delegates to the county convention.

—Dr. Niven will be at the Gilmer hotel Monday and Tuesday next.

--Just imagine how Mayor Eustis squirmed when Parson Wilkinson turned loose his fund of jokes in one of the Minneapolis indignation meetings during the reign of "My Policy".

—Several Delanoites expect to be at Cokato Wednesday, 12, to here John Lind, speak. Some will probably hear him at Minneaplis, but all are anxious to see and here the next Governor of Minnesota.

—On the list of those suffering loss by the recent fires in Wis., appears the name of Mat Huser, residence. Mat used to live here and at Montrose. His many friends in this neighborhood are sorry to learn of his loss. But Mat is known as a hustler and will, doubtless soon have another residence.

--H. J. Bock and A. E. Johnson delegates from Delano to the Democratic county canvention are pronounced silver men. M. A. O'Hair said Saturday night at the caucus that any man that said he was a gold bug was a liar; so of course they will be expected to work for silver men on the ticket.

—Several of our citizens have moved, or are about doing so, preparing Winter quarters; among them Rudolph Pickron has the Winch house, on Franklin Ave. Charley Brandes, Louis Kunkels' west side, house, Gotlieb Herman, the Martin Conzet residence on Maple st. Robert Bullen the Gleason house on N. Third st. Mayor Rader the Brasie house on N. Third St. Elmer S. Babb is living in his new Second St. house, Mrs. Erb has mooved into her S. Third St. house.

--Dr. Niven will be in Waverly Oct. 12. Good work guaranteed.

—The Republican speakers on Tuesday evening didn't have a word to say about the candidate, for Governor, but McKinley was a great man. We were reminded some of how Dan Atwood used to trade horses. He commenced by telling all the good qualities of the nigh one and convincing the buyer that the animal was just what he wanted, and ended by saying: "that off one is his mate," only the speakers didn't even claim that much for Eustis. Ryder did advise his audience to look him over carefully when they get a chance.

—At an early hour Monday morning the village was shocked to hear that Casper Janikula, one of the River Street saloonkeepers, had committed suicide. He had been drinking lately and having troubles with his family, wife and five small children. His wife who speaks very little English appeared about 1 A. M. at her neighbor Billings and tried to tell of her discovery. They thought she meant he was after her. The night watch was called. His little girl by this time had informed the neighbors that "Papa has cut his throat." Doctors were summoned but Casper was found at the foot of the stairs; his throat cut almost from ear to ear, in a pool of blood. A razor was on the floor where he appeard to have dropped it. A note was found in the saloon announcing that he was tired of life and requesting that he be buried in the Delano Cemetary. Coroner Shannon was called and pronounced it a case of suicide.

John Lind is to speak at Minneapolis Oct. 10. and at Cokato Oct. 12.

C. A. Towne, and Z. Austin are to speak Saturday evening Oct. 8, at Buffalo.

THE Autumn Edition of the Saint Cloud Times arrived this morning. It is one of the finest out. Send for one you will appreciate it.

Personal.

Coroner Shannon drove over on business, on Monday

Charles Bugbee, of Rockford, was a Delano visitor Monday.

John Boylan of Watertown was in Delano on business, Monday.

Sheriff J. C. Nugent passed through town several times this week.

Miss Annie Parslow will begin a term of school next Monday in District No. 18, near Clearwater.

Mrs Henry Felt and her mother expect to go Washington soon to visit with her father Peter Borke.

W. E. Culkin, of Duluth, and C. A. Pidgeon and Joseph Van Eman of Buffalo, visited Delano Sunday.

Dr. J. E. Soper arrived home from England Wednesday. Mrs. S. came with him from Minneapolis.

Mrs. George Goetzman, of Lester Prairie, and Frank Girard, of Minneapolis, were transacting business here, Monday.

Paul Janekula, of Minneapolis, came up in answer to a telegram early Monday morning, on account of his brothers death.

At a special term of District Court held at Buffalo, Monday, the divorce case of Isadore Higgins vs. John Higgins was heard and divorce granted.

Mathias Webber vs. Wm Grabash to set aside a writ of attachment. Writ was set aside.

W. H. Wright vs. S. U. Stacy, ordered that arguements be presented on briefs.

Tomorrow, Saturday, the Wright County Democratic Convention will be held at Buffalo. We sincerely hope that the delegates will, like independent, free American citizens, that they are, nominate the fittest men in the county for every office on the ticket. That every delegate will express himself fully and freely and vote accordind to the dictates of his own conscience, and not listen to the flattering and persuasive tongues of those who seek to delude and mislead them into the hands of gold bugs. Don,t be persuaded into voting for what you believe is wrong.

The talk of a mongrel ticket is having its effect. Notwithstanding some of the promulgators visited this section of country several times lately, there appeared but one lone Democrat from the Town of Franklin at the City Hall, to attend the primary, on Tuesday evening. In Delano village after the corporation attorney peddling tickets and working hard to save John Nugent but 22 votes were cast, more than one third of which were cast against said attorney who was elected as a delegate. If the hatched up, ticket, don't draw better than that there will be some sorely disappointed politicians, and some characters left unvindicated when election is over. Better put up a good silver ticket it wouldn't be half so dead nor rotten.

DEMOCRATIC Judicial Convention.

A Democratic Judicial Convention for the Eighteenth (18th) Judicial District of the State of Minnesota will be held at the Court House in the village of Elk River, in the County of Sherbourne and State of Minnesota on the thirteenth (13) day of October, A. D., 1898, at one (1) o'clock P. M., on said day for the purpose of placing in nomination a candidate for Judge of the District Court from the above named District, and for the transaction of any other business that may properly come before said convention.

Each county will be allowed one delegate-at-large, and one delegate for each one hundred and fifty (150) votes or major fraction thereof cast for William J. Bryan for president in 1896, as follows:

Anoka,	6	Isanti,	6
Sherburne,	5	Wright,	15

Dated at Elk River, Minnesota, September 14th, 1898.

By order of the Judicial Committee for the Eighteenth Judicial district.

CHARLES S. WHEATON,
Chairman,

J. N. NILES, Secretary.

DR. NIVEN

will be in Delano Oct. 10 and 11.
Waverly, Oct. 12.
Howard, Oct. 13.

EXTENDING THE GLAD HAND!

REFORMER EUSTIS BEFORE THE PEOPLE.

John McGary Again.

The political campaign is now on. Never since our fathers fell asleep has there been such a rustle for the spoils of office and political prefferment. All the little banty roosters have on their dress parade suits and are sitting on the fence waiting for the band wagon. Politicians have visionary dreams. In imagination they see themselves installed in office and the other fellow left out while many times the other fellow is installed in office and they are left out. It has been fashionable for the last two years at least for the two old parties to make faces at each other and call each other liars and fools. From a political standpoint this may be all right, but is not according to the good book.

The Republicans of Minnesota seem to be very certain they will elect there man for Governor (William Henry Eustis.) Well, they have had everything for so long from forth class Post office up to President, that it is hard for them to come down to small joy and cheap grub. They have swaved the scepter over this fair Republic ever since 61, with the exception of eight years. The Democrats had a podunk of a President who sold himself and party for a mess of pottage, and left no name or heritage to his Country or party. His is as though he had not been, has been weighed in the ballance and found wanting.

Lincoln said it was wrong for a country to burden its people with debt, and then after while, when the debt was yet in force to contract ahe currency of that country. And this is what is being done in this country, and who is doing it? History will point it out a hundred years hence.

Our friends on the other side of the house tell us everything is backed by gold. That Israelitish Calf that our fathers made in the wilderness is what we should swear by. Both gold and silver is money of the Constitution, one as much so as the other and can be no different until changed by national law. Our friends claim that gold is and should be the only money of redemption.

Silver being demonetized in 1873, under the cover of night made silver bullion a commodity, therefore could no more be coined on private account and brought silver from a premium of three percent down to 68 cents per oz. If gold had been demonetized instead of silver the result would have been the same, but gold being the dearer money and finest metal the money power could corner that much better than silver. Babylon set up a golden image and fell down and worshiped it. And in that night was the King of the Chaldeans slain. Gold is no more a money of redemption than is silver. One is independent of the other each circulates as a medium of exchange on its own merits. And to say that silver is backed by gold is a silly and foolish assertion, for there is no statute law or any other law declaring any such thing. Some people seem to think that is the case, but it is only imaginary and without any foundation.

President Cleveland and his secretary (John G. Carslile) was in favor of a single gold standard, and so is President McKinley and his secretary (Gage,) and they could as lawfully pay out silver dollars to redeem greenbacks and government bonds as to pay out gold, but they paid out gold as redemption money, and then raised the cry that the Treasurer was flooded with silver this was all done for a purpose. If their high officials had been able to outlaw silver without the authority of Congress it would have been done long ago. I would like to ask my friends who earn their bread by the sweat of their brows and have no other means of obtaining a living what they want with a single gold standard? Do they suppose the money power of their country wants to inaugurate a single gold standard for the benifit of the poor? Not a bit of it. If this is your hope and expectation you will find you have been deceived by a delusive phantom when it is to late.

The fact that all the bankers, all the trusts monoplies, corporations, and combines, including the whole money power of the country is for a single gold standard should be evidence enough that it is not in the interest of the poor man. O ye foolish Gallatians and what was this allurement dost thou ask? A dust dug from the bowels of the earth which, being cast into the fire came out a shining thing that fools admire and called a God.

Silver is an every day money and has always been the money of the poor, but our friends will fink out when this country for certanty has secured a single gold standard then all obligations, such as mortgages etc. will be made payable in gold and the poor D— will have to pay a premium to get it. Bankers, money loaners and such like will be all right, of such there is not many in our town.

If our government should fail and become insolvent our gold and silver would at least retain its bullion value, but our greenback and national currency would be worthless' provided the government had not gold and silver enough to redeem them and no doubt the government would not have, for the bankers and money power would have a corner on the coin, and the poor man that had paper would be without money, food or raiment.

Then there is that Dingley bill that righteous edict decreed by an American Congress, for the purpose of bringing wheat up to fifty cents per bu. and increasing the price of lumber

As jewels of gold in a swines snout, so is a man without discretion. The Dingley bill is good enough to fool the people with but is not a saving ordinance, it is worth about as much to a farmer as the minutes of a last year's campmeeting would be.

But Mr. Editor many of the people are given over to their Idol, and to say any thing in favor a reform seems like throwing pearls before swine. When the national bankers get control of the currency of this country, and establish the monetary system which is there hope and expectation, then the people of all work will find they have been caught in a spiders web.

Some of our friends say the silver question is dead and only needs to be burried, but this can hardly be true when men like Charley. Towne and others are pushing it to the front.

I can't see what the Republican party will have for an issue now unless it may be their piety and good looks they claim silver is dead and they have got a protective tariff so high they will have to go up in a balloon to let it down. I do not know who claims the honor of whiping Spain the Republicans or the Democrats perhaps both and will divide the spoils and the honor one taking the Islands and the other the Monkey mongrel race of people no doubt they would make a good fat roast for the Cannibal Islanders, but would be poor diet for a high blood American to breakfast on.

What the people of this country most need is plenty of honesty, plenty of money (no objection to silver) and plenty of religion. We have got all the rest, water fresh an and an empty pocket.

Yours in hopes of a better day but no relation to the Grover Cleveland administration.

$1.00 A YEAR FOR DEMOREST'S FAMILY MAGAZINE.

The Subscription price of DEMOREST'S is reduced to $1.00 a Year.

Demorest's Family Magazine is more than a Fashion Magazine, although it gives the very latest home and foreign fashions each month; this is only one of its many valuable features. It has something for each member of the family, for every department of the household, and its varied contents are of the highest grade, making it, pre-eminently, The Family Magazine of the World. It furnishes the best thoughts of the most interesting and most progressive writers of the day, and is abreast of the times in everything,—Art, Literature, Science, Society Affairs, Fiction, Household Matters, Sports, etc.—a single number frequently containing from 200 to 300 fine engravings, making it the Most complete and Most Profusely illustrated of the Great Monthlies.

Demorest's Magazine Fashion Department is in every way far ahead of that contained in any other publication.

Subscribers are entitled each month to patterns of the latest fashions in woman's attire, at no cost to them other than that necessary for postage and wrapping.

NO BETTER CHRISTMAS GIFT

than a year's subscription to Demorest's Magazine can be made. By subscribing At Once you can get the magazine at the reduced price, and will also receive the handsome 25-cent Xmas Number with its beautiful panel picture supplement.

The Way to Run a Farm.

(An old farmer's talk with his boys.)

When I was young at farming,
I'd watch the turnip tops,
And quickly go to wishing
For good, big rousing crops,
I wished for mammoth pumpkins
All others to outweigh;
In short it took to nothing
But wishing all the day.

A solace sweet and soothing
In every wish would lurk,
Till dreaming speculation
Seemed surer than hard work.
I wished my cellar full of
Potatoes with a will;
I wished the granary groaning
With corn to go to mill.

While other farmers wished for
A good supply of rain,
I thought it as sound logic
To wish for fruit and grain,
And so I went to wishing,
Contented with my lot,
In autumn no potatoes
Were boiling in my pot.

I tell you I discovered
That wishing only breeds
Keen disappointment; wishing
Won't pull up choking weeds;
It won't hoe corn in summer,
Or husk it in the fall;
I tell you, boys, that wishing
Won't run a farm at all.

That winter my potatoes
I had to go and buy
Right from my smiling neighbors,
Who had a good supply.
They'd slyly nudge their elbows,
And taught me with a laugh,
That labor's wheat that's golden,
And speculation chaff.

I learned this goodly lesson—
And in my heart it seems—
One day of honest labor
Is worth ten years of dreams:
And now in idly wishing,
My duty ne'er I shirk;
But just roll up my shirt-sleeves,
And like a beaver work.
—R. K. MUNKITTRICK, in Colden Days.

THE Brainerd Journal, for 17 years under the management of H. C. Stivers, one of the ablest of the Sixth District editors, has been sold to George H. Smith, a young man of Brainerd. We are sorry to loose from our ranks one of our veterans. Mr. Smith announces that the Journal will henceforth be Independent Republican. That's better than one of the hide-bound sort.

LAST Saturday's Aitkin Age goes for the Duluth Herald about its report of Page Morris' speech at Duluth. Among other things it says: The Herald could only make the sneering comment that Mr. Morris neglected to state that "the consumer pays the tax." The Age futher says: "Literally the statement is untrue, but in effect it is partly true;" Now how can the Age prove it is untrue? And if it can do so, why did it loose so fine an apportunity of doing so? If the consumer don't pay the tax does the laborer pay it; and if so why? And if neither the consumer nor the laborer who makes the things, nor the farmer who raises them pays the tax, will the Age please tell us who does pay it?

The next congress will be strongly republican. Chas. A. Towne is an able man, but could not begin to secure the legislation for his constituents that Judge Morris can. Judge Morris will act with the majority.—Aitkin Age.

Just give the majority to Charles A. Towne and see for yourselves. Did he not succeed in the last session of the term he was in Congress in securing for Duluth more benefits than Page Morris has ever got not forgetting Mr. Morris' $2. tariff on white pine lumber?

Judge Canty Ranks High.

Judge Canty of the supreme court has a most enviable record. No judge in the history of the state has ranked so high during so short service.—Aitkin age.

The Age is published by Charley Warner, a son of our "Old Nate," of Rockford. We are pleased to see that he is capable of recognizing merit where it crops out plainly. Judge Canty is remembered by our citizens as having delivered a fourth of July oration here before he was elevated to his present position. The Judge, he was then District Judge, gave us an able oration; and it made him many friends among our people.

Duluth Herald: Page Morris denies that he ran for congress on a free trade platform in Virginia. But he cannot deny that he was a Mahone readjuster-in other words he favored repudiation of the state debt.

FIFTY CENT WHEAT.

PARTY IN DOOR: "Peek-a-boo, Papa, You Can't Lose Me."

INSTEAD of taking active measures to suppress the publication of the affidavits of respectable old soldiers of Minneapolis as to their grievances against the Republican candidate for governor, and their reasons why he should not be elected, the Republican press is filled with plate matter saying: "During his service as mayor of Minneapolis, he violated the rules of the police department in order to give appointments on the force to four or five veterans who were young enough and strong enough to perform police duty." There was consiberable of a time on several occasions about the Mayor violating rules; but the one admitted don't seem to be among those pronminently brought before the indignation meeting. Insted of healing the breach among republicans Mr. Eustis' friends publish that "an organization of the veterans of this City (Minneapolis) was formed last week which promises to be an object lesson to the people of Minnesota as to the excellent quality as well as the large number of reputable veteran soldiers who are cordially supporting Mr. W. H. Eustis for Governor of Minnesota. These old soldiers are not of the effusively loud mouthed type. The association is composed of that class of veterans who went to work to build competences for themselves as soon as they had completed the great work of restoring the union of the states in 1865. Among the names recorded as supporting the whole Republican ticket at the approaching election are some of the best known men of the Mill City, lawers, physicians, merchants, mechanics, journalists, good citizens, all of them, as they were good soldiers in the hour of the country's trouble."

"Arrayed against these are a few discontented and disgruntled old veterans who have devoted their lives to shouting the story of their extraordinary services in the ears of the rising generation, and who have for years been proclaiming from the housetop that they are the men who put down the rebellion Your readers well know the type."

So far as readers of the GAZETTE in this immediate vicinity is concerned all the argument necessary to refute the continued insult upon insult offered old soldiers who do not want Mr. Eustis for Governor is to get one of the pamphlets that is stirring up such a tempest among the followers of Eustis and read the list of officers. The Treasurer of the old soldiers Anti Eustis club is none other than our old time, and very much respected citizen, who was always at the front in anything good in our town and who never was a quarter part so loud mouthed as Eustis and who is now a business man in Minneapolis. You all know the old veteran W. H. Landis.

His word here, where he lived for years is good against a whole regiment of W. H. Eustis, J. Adam Bedes, and men of that ilk who are noted for their loud mouthedness. When the Republican committee descends to the depths of durty politics to try to cover up with slime the fair names of such soldiers as W. H. Landis, they are injuring rather than helping the cause of William Henry Eustis.

JOHN LIND is making some vigorous campaign speeches this week. He spoke at Minneapolis, Monday; and since at Duluth, Cokato and St. Cloud. He meets them on every point.

Aitkin Age: The St. Peter Journal closed its 15th year last week with half a column of reading matter and an advertising cut up side down. It wasn't that way when Horace Greeley Perry run the paper, and we trust the present publishers will get started on the new year right side up.

Vote for John Lind for Governor. Give him a chance to reform things.

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, D. C., Oct. 7, 1898.

The covert threat to reopen the war by sending a strong fleet to the coast of Spain, sent out from Washington this week, was ostensibly intended to scare the Spanish government into directing the Peace Commissioners, at Paris, to speedily accept the propositions made by the American Peace Commissioners, but its real object is to try to make votes for the republican candidates for Congress by stirring up the war spirit among the people, and asking them to stand by the administration because the war isn't over. It is a queer sort of voter that this sort of thing will influence.

That the Spanish Peace Commissioners will quibble and delay as long as possible is the natural thing to expect from Spaniards, but every fairly well-informed persons knows that Spain is just as much bound to accept the terms of peace imposed by this government as Greece was bound to accept the terms imposed by Turkey, last year. The war with Spain will not be reopened, and if there is any bluster in that direction, it will be solely for political effect.

War Department officials are unduly elated because the testimony of Gens. Joseph Wheeler, H. V. Boynton, and Fitz Lee, taken by Mr. McKinley's Commission, this week, has been of the not proven order. That is to say, neither of the generals named were personally cognizant of any mismanagement or neglect. It is beginning to be pretty well understood in Washington that the work of the Commission is to be so managed that no damaging testimony is to be taken until after the Congressional elections, unless it shall be given by some witness who gets marked "all right" by mistake.

Representative Dockery, of Mo., who has been making Speeches in more than thirty counties, out side of his own Congressional district, was in Washington long enough, this week, to say that Missouri would give one of her old-time democratic majorities next month, and that the legislature to be elected would certainly re-elect Senator Cockrell.

In a long reply to questions asked him concerning his branch of the War Department, by Mr. McKinley's Commission, Adjutant General Corbin attempts, by implication, to throw all the blame upon Admiral Sampson for the troubles the army had in connection with the movement against Santiago. He doesn't, of charge that Sampson was responsible for Shafter's making the movement before arrangements for the welfare of his men was completed, but his reproduction of the following dispatches from Sampson, dated July 7, implies just that: The first depatch reads: "If ten thousand men were here the city of Santiago would be ours in 48 hours," and the second: "Only await arrival of troops to reduce Santiago." By the same sort of implication Sampson is made to appear responsible for the cooping up of our troops on the transports during the week they were delayed in Florida waters by reports of danger from a spook Spanish fleet. Whether correct or not, the impression is now growing that Gen. Corbin in writing his answers, tried to make Sampson the scapegoat for all the mistakes made in the Santiago campaign, taking it for granted that Sampson's unpopularity would make the public take kindly to the scheme. It may stir up enmity between the War and the Navy Department that may lead to uncovering some things which were thought to be safely buried. The public does not need to be informed that Sampson is a pet of the Navy Department.

Aguinaldo's man, who has just left Washington is as good at concealing his disappointment as a professional gambler. Although he has received from the administration neither promise nor recognition, he is out with a published statement declaring himself pleased with what he has accomplished in Washington and announcing his intention to go to Paris to lay the claims of the insurgents before the Peace Commission, and his belief that the independence of the Philippines is assured. If he doesn't succeed in getting more attention paid to Aguinaldo's claims in Paris than they have received in Washington, he is wasting his own time and somebody's money by going over there, and there isn't the slightest probability that he will. The American Commission will have their orders from Washington long before he gets there.

Another very decided difference of opinion between the War Department, and Gen Miles, commander of the army, has become known. Secretary Alger has repeatedly said that the volunteers who have not been ordered mustered out would be kept in service to do garrison duty in Cuba, Porto Rico, and the Philippines for an indefinite period. Senator Berry, of Ark., who has been trying to get some Arkansas volunteers mustered out, was also told that by Alger. Senator Berry then went to see Gen Miles, and was told by him that it was not intended that volunteers should do garrison duty to any extent, and that he was absolutely certain that all of the volunteers would be mustered out shortly after the treaty of peace was signed.

VOICE OF STATE REFORM PRESS.

TERRIBLE ARRAIGNMENT OF THE REPUBLICAN PARTY BY REPUBLICAN EDITORS—ITS CANDIDATE UTTERLY UNWORTHY AND UNSAFE.

COMMENT ON THE EUSTIS RECORD

Vigorous Work of the Reform Press—The Cause of Party Slavery—Reform Can Only Be Secured By Burying the G. O. P. Under an Avalanche of Votes. Good Words for John Lind, the Winner.

A most significant feature of the state campaign is the unanimity of the Reform Press in the sledge hammer blows they are dealing for the Reform cause. Their news and editorial columns are crowded with the most effective matter. And so effective has this been that in some instances they are joined by representative and hitherto straight out Republican papers. The latter not only repudiate Guaranty Loan Candidate Eustis, but denounce the party itself. A specimen of this is the Anoka Union, edited by Granville S. Pease, who for a generation has upheld the Republican party banner through thick and thin. In taking such course Mr. Pease makes the following arraignment of his party:

"The Republican Party of Minnesota is today controlled by the most unscrupulous lot of politicians that ever disgraced any party. They realize their strength and power fully. There is a gang far reaching, almost as the limits of the state: from Lake Saperior to the Iowa line. They will stoop to everything to carry their point. These leeches and hangers on are encountered everywhere. Their bread and butter depends upon the success of the Republican party, for they are not fitted to hold any position save a political one and that by the grace of the gang. Money is their God and money is all that talks with them. A REPUBLICAN LEAISLATURE MUST BE BOUGHT IF A BILL IS PASSED AND MANY OF THE MEMBERS HAVE TO BUY THEIR WAY TO THE LEGISLATURE. A candidate for most any office must throw money to the right and left if he wants the nomination. THE QUESTION IS NEVER ASKED NOW. 'IS HE FIT FOR THE POSITION?' BUT 'HOW MUCH MONEY WILL HE PUT IN TO WIN?'

"The people, and if you sound them, you will have to admit it, ARE WEARY OF FOLITICS AS EXEMPLIFIED BY THE REPUBLICAN PARTY OF MINNESOTA. They realize that they are powerless to improve the conditions as long as they blindly follow the beaten paths as provided by the leaders of several years past. THEY ARE WILLING TO RISK TURNING OVER THE STATE FOR TWO YEARS TO THE OPPOSITION, TO RID THE STATE OF LEECHES, THESE CORRUPTIONISTS, THESE MAMMON WORSHIPPERS, believing that in so doing they are performing an act which will ultimately redound to the benefit of every self respecting man in Minnesota. They do not believe it possible to dissolve the fetters now holding a death like grip upon the politics of the state UNLESS THAT GRIP IS LOOSENED BY BURYING THEM SO DEEPLY BY AN AVALANCHE OF VOTES THAT THOSE WHO KNOW NOW WILL KNOW THEM NO MORE FOREVER."

THE BEAUTIFUL FROST.

Commenting on the statement of the Anoka Union (Republican) that 40 out of 300 Republican papers in Minnesota are supporting Eustis, the Martin County Sentinel says:

"The Eustis frost is not confined to the newspapers—it exists everywhere among old soldiers, Republican voters, in the State Capitol building, in Minneapolis and especially wherever a Guaranty Loan victim resides. When a reporter goes in search of Eustis enthusiasm he is invariably directed to the next county."

The vigorous character of Reform Press comment is indicated by some extracts.

EUSTIS AND GUARANTY LOAN.

Winona Herald: Elsewhere in the columns of the Herald may be found a summary of the record of Mr. W. H. Eustis AS AN ACTIVE AND BONA FIDE DIRECTOR OF THE NOTORIOUS GUARANTY LOAN COMPANY. A company that absorbed thousands upon thousands of dollars of the peoples money in this state, through the rascality of Louis F. Menage, combined with the board of directors of this company, who failed to give it that investigation it was their duty to do. AMONG THESE DIRECTORS WAS W. H. EUSTIS THE REPUBLICAN CANDIDATE FOR GOVERNOR OF MINNESOTA. The victims of this notorious swindle, which was the most gigantic ever organized in the Northwest, are found NOT ONLY IN THE LARGER CITIES, BUT ALSO IN THE SMALLER CITIES AND TOWNS OF MINNESOTA. There is scarcely a hamlet in the state, but can furnish one or more, who were the sufferers from this financial maelstrom into which they were unsuspectingly drawn.

A great many citizens of our state were induced to become investors in what proved to be a mammoth swindle FROM THE VERY FACT THAT W. H EUSTIS AND OTHER MINNEAPOLIS CAPITALISTS WERE DIRECTORS. HE LENT HIS NAME AND "MORAL INFLUENCE" TO THIS OCTUPUS, AND HIS FELLOW CITIZENS BY THE SCORE WERE INVEIGLED INTO ITS MESHES.

He is the candidate on the Republican ticket who is now making a tour of the state, asking the people to entrust to his keeping the highest executive office within the commonwealth of Minnesota. IS IT PROBABLE THAT A VICTIM OF THIS SWINDLE WILL VOTE FOR MR. EUSTIS? IS IT PROBABLE THAT A VICTIM OF THIS SWINDLE WILL ADVISE ANY OF HIS FRIENDS TO VOTE FOR MR. EUSTIS?

BLOW TO FINANCIAL STANDING.

The Northfield Independent makes this application of the Guaranty Loan record of Candidate Eustis, as to the effect his election would have on our financial standing in the East. "Two years ago," says The Independent, "they said that if it became known in the East that John Lind had been elected governor, our financial prestige would be ruined and thousands of dollars would be withdrawn from this state Now, what will these same people think if the state elects for governor A MAN WHO WAS A DIRECTOR IN THE CONCERN THAT SWINDLED THEM OUT OF MORH MONEY THAN ANY OTHER SCHEME EVER WORKED? The Northwestern Guaranty Loan Company is known all over the East by the thousands whom it swindled. HOW WILL IT EFFECT THE FINANCIAL STANDING OF THE STATE TO HAVE IT KNOWN THAT ONE OF THE DIRECTORS OF THIS COMPANY HAS BEEN ELECTED GOVERNOR? DOES ANY ONE THINK THIS WOULD BE A GOOD RECOMMENDATION AMONG EASTERN CAPITALISTS?"

A JUST COMPARISON.

Fulda Free Press: Hon. John Lind is the "Honest John" he is reported to be, and that is why the people will vote for him and make him governor. You cannot vote for a man more honest, upright, able and better a statesman than John Lind. What more do you want? Does his opponent come up to this mark? We hardly think it.

THEY CANNOT EXPLAIN.

Moorhead News: Let the Republican press explain to the farmers of the state how they were benefitted by the state prison board turning over to dealers the product of the twine plant, under which said dealers were able to make a profit of 100 per cent on such product, in BUYING THE TWINE FOR SIX AND ONE-HALF CENTS PER POUND AND SELLING IT TO THE FARMERS FOR TWELVE TO FIFTEEN CENTS. Let them explain the actions of the state grain inspectors at Duluth and Minneapolis, in grading wheat that fully answers the discription of No. 1 Northern as No. 2, THEREBY STEALING FIVE CENTS PER BUSHEL FROM THE FARMERS.

OUT WITH THEIR GUNS.

Pine County Record: There is such a pronounced feeling against Eustis all over the state, and especially among the better class of people, that there is no way to stem the unpopularity. The G. A. R. men are out gunning for his scalp all over the state, and their influence will be felt. They mean business. They are paying an old score on which there is lots of accumulated interest which must be wiped out.

GIVING THE RECORD.

Fertile Journal: On our last page we publish an account of the connection of W. H. Eastis, Republican candidate for governor, with the Guaranty Loan company, that gigantic fraud of Minneapolis, in which hundreds of poor people lost their all. Next week we will have something to say of his connection with the Minneapolis City Hospital steal.

A PUBLIC FOE.

Speaking of the City Hospital site deal in Minneapolis, The Democrat of that city says: "All the people of this state are interested in this matter, and none should plead ignorance of the fact herein stated. THEY ARE MATTERS OF PUBLIC RECORD, AND HONEST PEOPLE SHOULD INVESTIGATE, and with the results of the investigation arm themselves to ward off a public foe."

DROP A TEAR, PLEASE.

Minneapolis Democrat: The poor old g. o. p! At last it has been brought to its knees by the vandals having it in charge! Drop a tear here, please!

A POOR DEFENSE.

Moorhead News: The only defense that the Minneapolis Journal makes for Eustis against the charges in relation to his connection with the Northwestern Guaranty Loan Association and the Minneapolis city hospital steals and robberies is that Mr. Eustis did not make a dollar out of either. THIS WILL HARDLY SATISFY THE PEOPLE. THERE IS LITTLE DIFFERENCE IN HIS CULPABILITY WHETHER HE MADE MONEY FOR HIMSELF OR HIS CLOSE POLITICAL AND BUSINESS FRIENDS.

JOHN LIND WILL DO IT.

Fertile Journal: John Lind, in a recent speech, touching upon state issues, said there never was a time in this state when it behooved honest and conscientious men to be alert as it does this year. Abuses had existed, and do exist—abuses in the matter of taxes and transportation rates that work an injustice to the great mass of the people. Certain state institutions had been run to the detriment and scandal of the state. He did not expect to be able to correct everything if elected, but he would do his best.

Latest News

The commission at work trying to adjust the treaty with Spain are getting on slowly.

The Indian war near Walker, Minn. seems about over. Provided the Indians will accept the white man's terms.

A battle with more killed than at Bear Island, took place this week in Illinois. Negroes imported to work in mines caused the trouble.

And Tarbox ran again at Elk River. This time carefully selected delegates succeeded in placing him on the Democratic ticket. A. E. Giddings of Anoka, is the Republican nominee for Judge of the 18th Judicial District.

What 20 Cents Will Do.

By sending the above amount to The Detroit Free Press, Detroit. Mich., they will send you The Twice-a-Week Detroit Free Press, from date of receipt of your order until January 1, 1899. The Gazette.

DELANO, Wright Co., - MINN.

The great periodic star shower which is seen at intervals of 33¼ years is due November 12 or 13, 1899.

Twelve towns in Connecticut contain a majority of all the people in the state. The growth of urban population continues, but electric railroads are bringing country and city closer together.

It has been 88 years since Mexico declared her independence of Spanish sovereignty, but the Mexicans are still so proud of it that the annual recurrence of the date is celebrated with enthusiasm.

Molly Pitcher is properly to be included in the gallery of illustrious personages in the capitol at Albany, N. Y. Molly took the place of her wounded husband in a battery at Monmouth and after the fight carried water to the helpless. She represents an American type that can be found whenever needed.

In the death of Fanny Davenport, which occurred at her home in Duxbury, Mass., the American stage has lost one of its most striking figures. Miss Davenport descended from a family of players and inherited a love for the stage which took her behind the footlights when she was only ten years of age and kept her there uninterruptedly through life.

All the railways in Belgium have changed their clocks and time tables so as to make them read one to twenty-four, midnight being 24 o'clock. The Cleveland Press says that the system will never be popular here, and adds: "What would a poor man do when he slipped into the house at 25 minutes after 23 with his shoes in his hands, and his wife asked him what time it was?"

The $5,000 given in trust by Benjamin Franklin in 1790 to help worthy apprentices and for other public objects in Boston now amounts to $500,000 and has been decided to be at the disposal of the city. A difference of opinion exists as to its proper use. One proposition is to expend it in building trade schools, this being in line with Franklin's intent.

Henri Dunant, the founder of the Red Cross society, is now about 70 years old. He spent half his fortune in his great work and then lost the other half by business reverses. He was in absolute want, but has been pensioned by the dowager empress of Russia and the federal council of Switzerland. The citizens of Stuttgart have also raised a generous subscription for him.

The floating of the Spanish armored cruiser Maria Teresa is a matter of some historical importance. She will be an object of national pride and a great naval curiosity. She was Cervera's flagship as she steamed out of the harbor of Santiago to try conclusions with an American fleet. Yankee courage sunk her, and Yankee ingenuity raised her. Under our flag she enters on a new and better career.

A Connecticut clergyman on a recent Sunday gave out the following notice: "The regular session of the Donkey club will be held, as usual, at the close of this service. Members will line up just outside the church door, make remarks and stare at the women who pass, as is their custom. Any member known to escort a young woman to a church like a man and sit with her like a gentleman will be promptly expelled from membership."

A peculiar trait of American character is shown in the Cervera incident. He was captured while the war spirit was highest, but as soon as he became a prisoner he was treated with the utmost consideration by the very people who might naturally be expected to manifest the greatest hatred for him. The old admiral had to wait until he had landed again on home soil before he could realize that he had been engaged in a war.

A New Jersey woman divorced her husband because he would not allow her to put pie on the family bill of fare. The wretched man pleaded self-defense, but the plea didn't work. He tried to show that he couldn't afford pie, because he didn't have the dough. He insisted that pudding is really pie with the lid missing. He even advanced the proposition that pie had a bad effect on his wife's temper, by making her crusty. But the judge was obdurate, and the brutal husband got his just deserts.

The military governor of Santiago, Gen. Wood, reports that since the American occupation of the city the death rate has dropped steadily and is now about one-fourth of what it was formerly. This shows what determined effort along scientific lines will do in the tropics. Cuba has been a pest hole simply because of the criminal negligence of the authorities in relation to the sanitation of the island. It is not the climate but the filth that has caused the big death rate. But the future is bright with promise.

Rev. W. H. Milburn, the blind chaplain of the United States senate, has known personally more presidents than any other man. He was elected chaplain of the house of representatives in 1845; served two terms and left Washington in 1855. He says: "John Sherman, of Ohio, and Senator Morrill, of Vermont, entered the house of representatives the following December. They are called the fathers of congress, but as I served ten years before they entered I must be the grandfather. I was again elected chaplain in 1885, and have held the position ever since."

Rear Admiral Sicard, who has just been retired, saw hard service during the civil war, participating in the bombardment and passage of Fort Jackson and Fort St. Philip, assisting in the destruction of the rebel flotilla and gunboats, and in the capture of the Chalmette batteries and the capture of New Orleans, in 1862. Just a month before the war with Spain was actually declared, the admiral, then with his fleet lying off the coast of Florida ready to swoop down upon Cuba, broke down in health and by order of a medical board was relieved by Capt. Sampson.

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

Maj. Gen. Lee before the war investigating committee detailed the conditions prevailing at the camp at Jacksonville. He said the site was a good one, the supplies were plentiful, and the men were taken care of, and he had no complaint to make of the war department's treatment of his command.

Gen. Garcia left Santiago de Cuba for the interior on his mission of disbanding the Cuban insurgents.

Col. Lee, Gen. Greene and Maj. Hersey testified before the war investigating committee in Washington that the vast majority of complaints were exaggerated, if not without foundation.

An order was issued organizing new army corps and designating various points in the south where the troous shall be stationed.

The president notified the United States military commission at Puerto Rico that the island must be evacuated by the Spanish forces on or before October 18.

It has been decided by the government to make Camp Wikoff a winter hospital camp, and to erect there the largest and best equipped hospital in the world.

Spain has been informed that the evacuation of Cuba by the Spanish army must be completed by December 1.

It was reported that Admiral Sampson was seriously ill in Havana.

In Havana the American evacuation commissioners gave a banquet in honor of the Spanish commissioners.

It is shown by an official statement that in the war with Spain 17 persons in the navy were killed and 67 wounded.

The military commander of the department of Santiago, Gen. Lawton, sailed for New York on the transport Michigan. Gen. Wood will succeed him.

The Japanese papers strongly favor the retention of the entire Philippines by the United States.

FROM WASHINGTON.

Advices received by officials of the war department in Washington from the Indian outbreak in Minnesota were of a reassuring character, and they now feel that the uprising may be regarded as over.

Commissioner of Indian Affairs W. Jones in his annual report shows a general steady advancement in the condition of the "nation's wards."

THE EAST.

At the leading clearing houses in the United States the exchanges during the week ended on the 7th aggregated $1,466,580,990, against $1,240,877,751 the previous week. The increase compared with the corresponding week in 1897 was 4.7.

In the United States there were 169 business failures in the seven days ended on the 7th, against 195 the week previous and 212 the corresponding period of 1897.

At the age of 72 years Oakey Hall, who was mayor of New York from 1868 to 1872, the closing years of the Tweed regime, died suddenly in that city.

The death of Sherman Hoar, ex-congressman and United States district attorney, occurred in Concord, Mass., of typhoid fever.

Michael Brennan, John Burns and two unknown men met death in a burning freight car at Northampton, Mass.

In the Hoosic valley, New York, a flood caused damage to buildings and railway tracks estimated at $100,000.

At Salem, Mass., Alfred C. Williams was hanged for the murder of John Gallo, an italian farmer.

Throughout the country the volume of business continues very heavy.

In the National league the percentages of the baseball clubs for the week ended on the 9th were: Boston, .688: Baltimore .650; Cincinnati, .611; Chicago, .564; Cleveland, .552; Philadelphia, .521; New York, .507; Pittsburgh, .486; Louisville, .452; Brooklyn, .370; Washington, .340; St. Louis, .262.

Corbett has issued a challenge to any man in the world to meet him in a contest of limited rounds or to a finish.

On the beach front at Atlantic City, N. J., 20 buildings, occupied by 50 business establishments, were burned, the loss being $200,000.

In large cities trade unionists have inaugurated an active agitation in favor of devising some more effective method of fighting their opponents than the boycott.

WEST AND SOUTH.

In the fight with the Indians at Bear Island, Minnesota, Maj. Wilkinson, six privates and one Indian policeman and 30 Indians were killed. Fighting was still in progress, and Gov. Clough telegraphed Secretary Alger asking him to authorize the use of the volunteer regiments just about to be disbanded for the protection of the frontier.

Boys stoned Elsie Jackson, aged ten years, to death, at Shelbyville, Ind.

At Liberty, Mo., the Bankers' & Merchants' Mutual Fire Insurance company assigned.

In session in Chicago the Rock River Methodist conference declared for equal lay representation by a vote of 200 to 6.

In the streets in Canton, O., George D. Saxton, the only brother of Mrs. William McKinley, was murdered, and Mrs. Anna George, an intimate friend of the dead man, was under arrest, charged with having fired the fatal shots.

A large number of counterfeit $100 silver certificates were discovered in San Francisco.

At Garrett, Ind., Jesse Chaney shot and killed his divorced wife and then took his own life.

On his flagship, the Philadelphia, Admiral Miller, who raised the United States flag over Hawaii, returned to San Francisco.

The American board of foreign missions, in session in Grand Rapids, Mich., for the first time in the 90 years of its history, elected a woman, Margaret J. Evans, of Minnesota, as a member.

The president and wife arrived in Canton, O., to attend the funeral of George D. Saxton, brother of Mrs. McKinley, who was murdered.

Mattie Mahoney and Howard Clark were shot to death near Rockport, Ind., by officers from Owensboro, Ky., while resisting arrest for murder.

The Oregon legislature elected Joseph Simon (rep.), of Portland, United States senator.

Harry Jones, of Chicago, was killed and ten other persons were seriously injured in a collision of trains in Omaha.

Fire destroyed the Hotel Grand at Leeds, Ia., and two men were burned to death.

The yellow fever has nearly depopulated Jackson, Miss., and persons who remain there are on the verge of starvation.

Frank and Emil Daniels and Joe Junkle were burned to death in a barn near Green Bay, Wis.

FOREIGN INTELLIGENCE.

Russia, while urging disarmament of the nations and universal peace, is actively preparing for any possible war.

One thousand lives were probably lost in a fire that nearly destroyed Hankow, China.

In accordance with the demands of the powers the sultan will withdraw the Turkish troops from Crete.

England sent an ultimatum to Paris giving France 24 hours to order Maj. Marchand out of Fashoda, in the Nile valley.

LATER NEWS.

It is settled that the United States will take charge of Cuba Dec. 1.

The naval board at Brooklyn announces that Sampson planned the destruction of Cervera's fleet.

Spain now talks of keeping troops in Cuba.

While a salute was being fired for the presidential train at Boone, Iowa, Fred Reinhart ran in front of the cannon and his head was blown off.

Jesse James, Jr., son of the noted outlaw, is under arrest at Kansas City for train robbery.

MORE PEACEFUL.

Gen. Baker's Ultimatum Withdrawn--Pardon Offered Hostile Indians.

Walker, Minn., Oct. 11.—The hand of war is stayed, awaiting the peaceful ministrations of the church.

Father Aloysius has left for the hostile camp, accompanied by Gus Beaulieu, Chief Kay-Gway-Way-Be-Nung of the Bear Island Pillrgers, and Frank Ellis, the half-breed teamster at the agency.

The embassy bears a message of peace from Commissioner Jones, instead of the rather warlike one written yesterday by General Bacon and signed by Inspector Tinker before the arrival of Mrs. Jones.

Soon after Mr. Jones arrived last night he had a long conference with General Bacon. When he learned the nature of the message that was to be sent, he advised that it be recalled, not because of the promises made, but for fear that the threats made would offend the hostiles and stiffen their backbone.

Both these Indians have relatives in the hostile camp and runners who returned this morning from Black Duck Point brought a request that they accompany Father Aloysius.

MARKETS.

Minneapolis, Oct. 11.

Wheat—No. 1 northern, 62 to 63c. No. 2 northern, 58 to 60; Dec. 61½c.

Oats—No. 3 white 22 to 23c.

Poultry—Turkey, 7 to 8c; spring chickens, 7 to 8c.

MINOR NEWS ITEMS.

The Kentucky court of appeals holds the separate coach law valid.

Commodore W. P. McCann says Gen. Blanco is the man who ordered the Maine blown up.

T. P. Gore, a blind man, has been nominated for congress by the populists of a Texas district.

Just at present two women—Queen Victoria and the empress of China—rule over one-half the world's population.

Two prominent members of the Missouri legislature are A. T. Sober, of Carthage, and A. L. Booze, of Marysville.

A San Francisco character is Capt Goddard E. D. Diamond, who claims to be 102 years old, and gets his living as a book agent.

Dora Richardson, the divorced child wife of Gen. Cassius Marcellus Clay, was married at Keene, Ky., to Riley Brock, 24 years old.

Rear Admiral Phelps is the only surviving member of the first graduating class from the naval academy. There were 47 members in the class.

The grand camp, United Confederate Veterans of Virginia, has placed itself on record as claiming the right to secede from the union at will.

Ignacio, the aged chief of the Utes, has been paying his second visit to Denver. When he was there before only one white man lived there.

While a circus was exhibiting at Franklin, Va., a lion tamer put his head into the brute's mouth, when the lion shut down, biting his head off.

Miss E. Bonomi, who has received the M. D. degree from the University of Genoa, is said to be the first woman to secure a degree from any Italian university.

The voyage of the Oregon and Iowa from New York to Manila by way of the Straits of Magellan will be the longest continuous voyage ever made by any warship.

Queen Liliuokalani will leave Honolulu for Washington about the middle of November, it is said, to present her claims against congress for remuneration for the loss of her throne.

John D. Rockefeller has let the contract for the largest monolith ever quarried in the United States. It will mark the family lot of John D. Rockefeller in Lakeview cemetery, Cleveland, O.

IS GROWING SERIOUS.

Further Trouble Is Feared with Bear Island Indians.

Government Will Deal Strictly with Rebellious Ones—Federal and State Authorities Working in Harmony—Many Loyal Indians.

Minneapolis, Minn., Oct. 11. — The federal and state authorities are now working in harmony toward the quelling of the Indian revolt. Gen. Bacon offered to come down from Walker to confer with Gov. Clough, but the latter advised conference by wire.

He received the following message from Gen. Bacon:

"Situation bad; conference yesterday resulted in nothing. None of the Indian chiefs were there. The lumbermen are all coming in to Walker. Troops needed at Cass Lake."

Nevertheless the governor believes that the situation is well in hand and that the recalcitrants are practically surrounded by soldiers.

War to the End.

Walker, Minn., Oct. 11.—War will be declared against the Bear Island Indians if they do not surrender the 20 men for whom the marshal holds warrants. The United States government is committed to this policy by a communication sent to all the camps of the Chippewas Monday afternoon. It was formulated at the council here Monday and is as follows:

"To All Rebellious Indians: The government makes law for you as well as for the whites, and punishes all alike who disobey the law. The Bear islanders must come in and surrender the men whose names are written on the marshal's list. The others will be permitted to return to their homes and be good. If they do not come in and surrender without delay they will be hunted and killed or captured by the soldiers in both winter and summer and not allowed to return to Bear island. The government has many soldiers already here and around the lake and will have many more if needed.

"ARTHUR W. TINKER,
"United States Indian Inspector."

Gen. Bacon will await an answer and in the meantime will strengthen his guards at strategic points. He regards the outlook as less threatening, at least for the moment. He is hopeful that the Bear islanders, when they find their bucks are not to be held responsible for the killing of the soldiers, will hasten to take advantage of this easy way open for their escape. Others, including United States Marshal O'Connor and a majority of men prominent in this crisis, have no faith in the red men, and believe force will be necessary to make the fighting Pillagers respect the law.

Will Take No Chances.

Washington, Oct. 11. — Officials of both the war department and the interior department are inclined to the belief that the seriousness of the Indian uprising in Minnesota has been exaggerated. They are not disposed, however, to take anything for granted. Adjt. Gen. Corbin has telegraphed Gen. Bacon that he could have all the troops he might deem necessary to quell the demonstration of the hostiles. The Fourth infantry, now at Fort Sheridan, Chicago, and the Seventeenth infantry, now at Columbus barracks, have been placed at Gen. Bacon's disposal. Both regiments are prepared to move to the scene of the uprising at a few hours' notice.

Militia Start for Reservation.

Minneapolis, Minn., Oct. 11.—At ten o'clock Monday morning 130 men of the Fourteenth Minnesota left for towns on the Fosston extension of the Great Northern road on the northern border of the Leech Lake reservation. Lieut. Col. Johnson was in command and had with him Maj. Schaeffer, Capt. Holmes, Adjt. Winne, Capt. Surgeon Dorsey, Lieuts. Baker, Brisbin, Smiley, O'Brien and Quartermaster Coxe. The men carried tents, 100 rounds of ammunition and several days' rations. They are mostly from companies E and I, but all the 12 companies are represented. They will be stationed mostly at Farris and Bemidji. The special train goes by the Eastern Minnesota to Duluth, thence west on the Fosston line.

Armed Bucks Move South.

Minneapolis, Minn., Oct. 11.—A special to the Journal from Cass lake says that armed bucks are undoubtedly proceeding south. Calls were received from Bemidji for troops, but none were sent, as this was considered the more crucial point. There is considerable apprehension and an undoubted necessity for troops to allay panic in the small towns along this line.

Declare Their Loyalty.

White Earth, Minn., Oct. 11.—A grand council composed of 30 chiefs and head men, including leading mixed bloods of the White Earth reservation, representing some 3,000 people, was held here Monday. Resolutions were adopted deploring the sad state of affairs existing at Leech Lake and denouncing the authors of the mischief. A petition of loyalty to the government was signed by all present.

Spain Makes Reply.

Paris, Oct. 8.—At Friday's session of the joint peace commission, which lasted only 50 minutes. The Spanish commissioners presented Spain's reply to America's demands regarding Cuba and Puerto Rico. The tenor of the reply is eminently satisfactory. Spain yielding on all essential points. No allusion was made to the Philippines in the Spanish reply, as it dealt exclusively with protocol matters, and the Philippines are not mentioned in that instrument.

Blanco to Hold Havana.

Paris, Oct. 11.—The Spanish commissioners were instructed Monday that if the demands in regard to the Philippines are insisted upon by the United States, Gen. Blanco, whose army is now reprovisioned and supplied with arms and ammunition, and consists of veteran, acclimated troops, will not evacuate Havana and its defenses until the Philippine question is settled on the basis of the recognition of Spanish sovereignty in the archipelago.

Suddenly Called.

Chicago, Oct. 7.—Ex-Judge Sidney Smith, a resident of Chicago since 1856, an old-time member of the Cook county bar, and prominent on the bench and in politics, died suddenly Thursday, aged 69. He had been in feeble health for the last few years. In 1884 Judge Smith was the unsuccessful republican candidate for mayor of Chicago against the elder Carter Harrison.

A STATE OF PANIC.

Thousands Are Fleeing from Yellow Fever in Mississippi—Starvation Is Imminent.

Jackson, Miss., Oct. 10.—With every hour the panic in Mississippi continues and all who can are fleeing from the dread yellow fever. Nine carloads of fugitives passed through the city Saturday night, and every train for the east or north is crowded with those who have means sufficient to warrant such a step. With the great majority of citizens, however, flight is impossible, and among these thousands are already in the direst need. Mercantile houses are closed, manufacturing plants shut down and all business abandoned, throwing employes out of work, which means in most cases actual starvation. Few of the wage-earning classes are thrifty, and the loss of salaries leaves them dependent upon public charity for food. It is estimated that over 6,000 are suffering for the necessaries of life, and this number does not include thousands within reach of private charities.

At present there are 17 infected towns in the state, including Ridgeland, Madison county, reported at a late hour, where there are a number of northern people. These people came here from Illinois and established a colony. They have been advertising and booming the town, raising vegetables and fruit for shipment north, and this visitation is a heavy blow to them.

Jackson, Miss., Oct. 10.—An unknown white man, stricken with yellow fever, who had taken refuge in a negro church, was burned alive Saturday near Philips, a small country town in Leflore county, Miss., within 200 miles of the state capital.

LOSSES OF THE NAVY.

During the Late War Seventeen Sailors Were Killed and Sixty-Seven Wounded.

Washington, Oct. 10.—Seventeen sailors killed and 67 wounded was the total loss suffered by the United States navy during the war. The figures have just been compiled at the navy department. In Dewey's great fight in Manila bay not a man was killed and every one of the nine men wounded returned to duty. In the battle of July 3 off Santiago one man was killed and there were 11 wounded, all returning to duty. In the attack upon the forts at the entrance to Santiago, June 22, one sailor was killed and 11 wounded, of whom only seven were able to return to duty. The heaviest loss of the navy was at Guantanamo. There were 22 casualties in that 100-hour fight and of the list six marines were killed. Of the wounded nine returned to duty.

In the battle with the forts and gunboats off Cienfuegos the list aggregated 11 wounded and two killed. One man continues under treatment. The fierce battle between the torpedo boat Winslow and revenue cutter Hudson with the Spanish land batteries and artillery forces at Cardenas resulted in five deaths. The wounded afterwards returned to duty. In the bombardment of San Juan the casualties numbered eight with one man killed. One of the wounded men was invalided home, while six returned to duty.

There were four other casualties occurring in as many separate engagements, and that completes the list of naval losses. Of the 67 men wounded in the war, 54 were returned to duty, one died of wounds, six were invalided from the service and six continue under treatment. Considering results obtained, this list is said to be the most remarkable in the naval history of the world.

GEN. BLANCO HAS BEGUN TO PACK UP.

ELECTED TO THE SENATE.

Deadlock in the Oregon Legislative Session Is Broken—Joseph Simon, of Portland, Is Chosen.

Salem, Ore., Oct. 10.—In the joint session of the Oregon legislature Saturday Joseph Simon, of Portland, was chosen United States senator. He received the full republican vote, as follows: Simon, 64; Kincaid, 23; Dennett, 2; absent, 1. The deadlock was broken by the withdrawal of H. W. Corbett and the centralization of republican votes on Simon.

[Joseph Simon was born in Germany of Hebrew parentage and is 47 years of age. He came to New York with his parents when one year old and in 1857 arrived in Portland. He was admitted to the bar in 1872. He has been a member of the senate of the Oregon legislature continuously since 1880, with the exception of two years. He has been three times chosen president of the senate. Simon is a pronounced advocate of the gold standard.]

Soldier Threatened with Lynching.

Lexington, Ky., Oct. 11.—This city is all excitement over the threat of the members of the Twelfth New York and the First territorial regiments to take from the county jail and hang Alvie Kitchen, a member of the provost guard, who on Sunday night shot and killed Private Henry Nygran, of company B, Twelfth New York. The jail is surrounded by 150 soldiers supplied with four rounds of ammunition, the provost guard has been doubled and two companies of the Third Kentucky are in the city to protect the life of their man. Policemen Delaney and Hanley approached a crowd of Twelfth New York men they suspected of being members of the gang intending to lynch Kitchen, and the officers were overpowered and badly beaten. Private Nygran was shot and killed before daylight Sunday by the provost guard while running away to evade arrest.

Brother of Mrs. McKinley Murdered.

Canton, O., Oct. 8.—George D. Saxton, a brother of Mrs. William McKinley, was shot dead at 6:10 o'clock Friday evening in front of the residence of Mrs. Eva B. Althouse, widow of the late George Althouse, 319 Lincoln avenue, where he is presumed to have gone to make a call. Five shots were fired, three of which entered his body, and Mrs. Anna C. George has been placed under arrest on suspicion of the murder. Saxton was unconscious when neighbors arrived to investigate the cause of the shooting and was dead when the physicians and officers arrived, the former having expressed the opinion that death was instantaneous, three bullets having entered the vital spots.

Iowa Campaign Opened.

Des Moines, Ia., Oct. 10.—The republican campaign was opened in Iowa Saturday by large meetings at various points addressed by the leading speakers of the party. Senator Allison spoke at Emmettsburg. Senator Allison talked on the money question, taking an unequivocal stand for the gold standard, and all the speakers discussed national issues from much the same standpoint.

Navigation Closed.

Vancouver, B. C., Oct. 11.—Representative Mason, who has just arrived from Dawson, reports that navigation on the Yukon is now closed. The last steamer to leave for St. Michaels was the Sarah.

HAS FAIRLY COMMENCED.

The Triennial Conclave of the Knights Templar at Pittsburgh, Pa.

Pittsburgh, Pa., Oct. 7.—With the arrival of Grand Commander H. H. Kuhn, of Pennsylvania, and the opening of the headquarters at the Monongahela house, the triennial conclave of the Knights Templar may be said to have been fairly commenced. From this time on small bands of knights will arrive and by Saturday night the first commanderies will be here. Some commanderies from distant points are now on their way here, but intend stopping at various points of interest. The executive committee is hard at work and little in the way of preliminaries remains to be arranged for the entertainment of the visitors. The latest estimate of the knights expected here places the number at 30,000.

A Fatal Collision.

Indianola, Neb., Oct. 7.—Two trains collided in the Burlington yards at this place at midnight Wednesday night, causing the loss of three lives, slight injuries to four others and damage to railroad property amounting to many thousands. The dead are: Sol Brace, engineer; E. J. Walters, fireman, and William McCarl, brakeman. The injured are: Engineer Anson, Engineer Burton, Brakeman Bundberg, and a stockman, name unknown. An east-bound freight standing on the main track was run into by a west-bound fast stock train. Both engines were totally wrecked. The responsibility for the accident has not yet been placed.

The War Investigation.

Washington, Oct. 8.—Three witnesses were before the war investigating commission Friday. Gen. Greene, who participated in the battle at Manila; Col. Lee, chief quartermaster at Camp Thomas, and Maj. Hersey, who was for a time in command of the Roosevelt rough riders. Each admitted the possibility of individual cases of suffering and discontent, but all said that the vast majority of complaints were exaggerated, if not without foundation. They agreed in saying that no army was ever so abundantly and luxuriously supplied as was the American army in the Spanish war.

Death of Admiral Febiger.

Easton, Md., Oct. 11.—Admiral John Carson Febiger, United States navy, retired, died at Londonderry, his residence near Easton, in his seventy-eighth year. He was of Danish ancestry and entered the navy as a midshipman from Ohio in 1838, and was in the Concord, of the Brazil squadron, when she was wrecked on the eastern coast of Africa in 1843. Later he was for some years in the coast survey service and in the East India squadron.

The Title Expires.

Richmond, Va., Oct. 7.—The Virginia grand camp of confederate veterans adopted a resolution to the effect that there could be no successor to Miss Winnie Davis as the "Daughter of the Confederacy," the title having expired with her death.

Fall Medicine

Is Fully as Important and Beneficial as Spring Medicine.

Hood's Sarsaparilla is just the medicine to keep the blood rich and pure, create an appetite, give good digestion and tone and strengthen the great vital organs. It wards off malaria, fevers and other forms of illness which so readily overcome a weak and debilitated system. Remember

Hood's Sarsaparilla

Is America's Greatest Medicine.

Hood's Pills cure indigestion. 25 cents.

Too General.

Smithson—You can always judge a man by the company he keeps.

Johnson—That's pretty rough on a jailer of a prison, isn't it?—Illustrated American.

Those who are always looking for favors are not the most willing to give them.—Ram's Horn.

Cure Rheumatism with St. Jacobs Oil—Promptly. Saves money, time and suffering.

We like anyone honest enough to admit laziness.—Atchison Globe.

Go to work on Lumbago as if you intended to cure it. Use St. Jacobs Oil.

Life is made up of meetings, greetings and fleetings.—Life.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

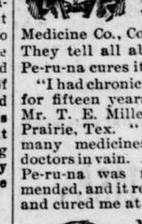
I have valuable information of a profitable deal now under way. Write for particulars. E. P. J., P. O. Box 2497, New York.

SUMMER CATARRH



Catarrh of the bowels, because it is most prevalent in the summer months, is called summer catarrh.

It surprises many that bowel trouble is catarrhal. Dr. Hartman's books make this plain. Write to the Pe-ru-na Medicine Co., Columbus, O., for them. They tell all about catarrh and how Pe-ru-na cures it wherever located.

"I had chronic diarrhœa for fifteen years," writes Mr. T. E. Miller, Grand Prairie, Tex. "I tried many medicines and doctors in vain. At last Pe-ru-na was recommended, and it relieved and cured me at once."

Mr. John Harting, 633 Main St., Cincinnati, O., writes: "My wife and myself took your Pe-ru-na for chronic diarrhœa and it cured us. No doctor or medicine we tried before helped us."

Mr. Edward Wormack, Ledbetter, Tex., writes: "Pe-ru-na for bowel troubles is unequalled by anything in my experience. I owe my life to Pe-ru-na, and shall always recommend it to those suffering as I was."

Mr. John Edgarton, 1020 Third Ave., Altoona, Pa., says: "I suffered from dysentery for three years. I took Pe-ru-na and am now well."

A DOMESTIC INCIDENT.

From the Observer, Flushing, Mich.

"Early in November, 1894," says Frank Long, who lives near Lennon, Mich., "on starting to get up from the dinner table, I was taken with a pain in my back. The pain increased, and I was obliged to take to my bed. The physician who was summoned pronounced my case muscular rheumatism accompanied by lumbago. He gave me remedies and injected morphine into my arm to ease the pain.

"My disease gradually became worse until I thought that death would be welcome release from my sufferings. Besides my regular physician I also consulted another but he gave me no encouragement.

On Getting Up from the Table.

"I was finally induced through reading some accounts in the newspapers regarding the wonderful cures wrought by Dr. Williams' Pink Pills for Pale People, to try them. I took the pills according to directions and soon began to notice an improvement in my condition. Before the first box was used I could get about the house, and after using five boxes, was entirely cured.

"Since that time I have felt no return of the rheumatic pains. I am confident that Dr. Williams' Pink Pills saved my life and I try to induce my friends who are sick to try the same remedy. I will gladly answer inquiries concerning my sickness and wonderful cure, provided stamp is enclosed for reply. "FRANK LONG."

Sworn to before me at Venice, Mich., this 15th day of April, 1898.
G. B. GOLDSMITH, Justice of the Peace.

MISTAKEN IDENTITY.

He Looked Like the Man Who Had Exhibited an Educated Pig.

"My pride had a fall the other day," said a well-known man who is prominent in public affairs. "A few days back I had to go to a little town in the western part of the state on a matter of business. The matter that took me there was soon transacted, and to amuse myself until it was time to take my train back, I attended the fair that chanced to be in progress at the time.

"I noticed as soon as I was on the grounds that I was attracting a good deal of attention, and it rather flattered me, as I was not aware that I was known in that part of the state. Wherever I went I could see that I was being pointed out, and such expressions as 'That's him!' 'He's the feller!' greeted my ears.

"I began to think that I would be called upon to make a speech, and was thinking up what I could say that would be of interest to them, when a man, a little bit bolder than the rest, approached me, and said:

"'Say, mister, when ar' ye goin' ter open up?'

"'Open up what?' I asked.

"'Why,' said he, 'ain't ye the feller what owns the educated hog?'

"I had to admit that I wasn't, and as soon as that fact became known the attention that I had attracted was gone, and I was only one of the common herd, looking at the big pumpkins and crooked-nosed squashes.

"It seems that a party, who looked like me, had exhibited an educated pig the year before, and I had been mistaken for him."—Detroit Free Press.

THOROUGHLY EXPERIENCED.

He Had Moved His Wife's House Plants and Was Fit for a Hazardous Undertaking.

The grimy captain of the mountain battery hurried forward to meet the infantry colonel.

"Colonel!" he shouted, with a hasty salute, "I want you to detail a man from your ranks to help us work the guns. That last charge thinned us out."

"Certainly, sir," cried the colonel, "what sort of a man do you want?"

"I want a man who is strong in the arms," the captain replied; "one who is regularly accustomed to carrying heavy and awkward weights. I want him to handle the ammunition for gun No. 4. He must carry the shells and solid shot from the caisson to the gun."

The colonel turned to his command and in a ringing voice stated the artilleryman's desire. Then he called for a volunteer.

Instantly a little man with a pale face and a somewhat bent back stepped briskly from the ranks and saluted.

The colonel looked him over.

"He wants a man who is strong in the arms," he repeated.

"Yes, colonel," said the little man.

"But you—where did you acquire the necessary strength?"

The little man smiled and again saluted.

"Well, colonel," he said, with an air of conscious triumph, "I reckon I'm as fit as any man in the regiment. I moved my wife's house plants more than 400 times during the spring months!"

"He'll do!" roared the artilleryman, and the two hastily climbed the hill.—Cleveland Plain Dealer.

His Happiest Moment.

"John," she asked, cuddling up to him for it was the seventh anniversary of their marriage, "what was the happiest moment of your life?"

"Ah, dear," he replied, "I remember it well. I shall never forget it. If I live to be a hundred years old that moment will always stand out as plainly as it does tonight."

She sighed and nestled a little closer, looking longingly up into his honest blue eyes. After a moment's silence she urged:

"Yes, but John, dearest, you haven't told me when it was."

"Oh," he answered, "I thought you had guessed it. Surely it ought to be easy enough for you to do so. It was when you came to me last fall, if you remember, and told me that you had decided to trim over one of your old hats so as to make it do for the winter."

Then the celebration of the seventh anniversary of their marriage became formal and uninteresting.—Cleveland Leader.

Free to Teachers and Scholars.

In 1897 we had thousands of requests from teachers and scholars for Wonderland '97. The edition—a large one—was exhausted long before the end of the year. Wonderland '98 can now not only be supplied to those unable to secure the former, but also to others. It is entirely different, however, from the first named book. It has a chapter on The Agricultural Northwest, crammed full of valuable information; one on Yellowstone Park, written especially for teachers; another on Alaska and Klondike, and one on A Canoe Lake Trip, that will be of interest to schools. The book has a high art cover designed by Leyendecker, and it is profusely illustrated from new photographs. The Northern Pacific Railway will send the book and a revised folder map of Yellowstone Park, upon receipt of six cents in stamps or postal order. Send to Chas. S. Fee, Gen. Pass. Agent, St. Paul, Minn. Write address plainly, and state where you saw the advertisement.

The Font of Knowledge.

Mr. De Science—The officers of the Smithsonian institution are having the chatter of monkeys photographed, in the hope that in time their language may be understood, and it may be possible to converse with them.

Mrs. De Science—Isn't that grand? I hope they'll ask the monkeys, the very first thing, whether we are descended from them or not.—N. Y. Weekly.

The first element of good table manners is either fortitude or dyspepsia, usually the latter.—Detroit Journal.

Nothing makes a man so sad as to have a girl jolly him.—Chicago Daily News.

JOHN LIND SPEAKS.

He Opens the Campaign in Minneapolis and Discusses State Issues Entirely.

A Clear and Forceful Statement of the Issues Now Confronting the Voters.

The seating capacity of the Minneapolis Exposition building was taxed the night of Oct. 10 to hear Hon. John Lind's opening address of the campaign. He spoke as follows:

Mr. Chairman, Ladies and Gentlemen: Two years ago it was my good fortune and pleasure to address an audience in this vast building almost as large as this one. It was gratifying to me then to receive the cordial treatment which you accorded; it is doubly gratifying to-night to see that, not deterred by temporary defeat, your heart is still in the work.

My friends, what is the work before us? What is the real issue in this campaign? My opponent has given us his definition—the definition of the republican party. He said in his speech at St. Paul, in opening this campaign: "Our citizens have now their first opportunity to express their approval or disapproval of the war. In my judgment all other issues in this campaign sink into insignificance in comparison with the moral approval or disapproval we shall give to the righteousness of our cause and the administration that has carried on the war. All other issues, ephemeral in their character, can well wait another election. What would be the moral effects in the capitals of Europe," he asks, "if we should return an opposition congress, different from the one that declared and carried on the war?"

My friends, does this present an issue, or is it an attempt to create what the old lawyers called a "feigned issue?" What political party opposed the war? Did the democrats? Did the populists? Did the silver republicans? Not one of them. As Mr. Eustis well says in another part of his speech, "The American congress was a unit, not only in voting for the war, but in voting the money with which to carry it on. The only opposition that developed at any time came from sources largely republican, who felt a keener interest in the quotation of Spanish bonds than they did for the sufferings of Spain's victims. Who is there in this vast audience that disapproves of the Spanish war? I pause for an answer—none comes. The American people were a unit for the war. They are a unit for the war co-day, and in the nature of things a congress cannot be returned that will be opposed to the war or opposed to the wise and patriotic settlement of the questions growing out of it.

But, says Mr. Eustis, the moral effect would be bad in the capitals of Europe, if we should elect men of different party from the president's. Conceding this to be true, then let me ask you, my friends, supposing the moral effect of such a change in our capital and in our state should be good, then would you regret it? Do we hold our elections to produce moral effects in Europe or at home? But, really, so far as the war is concerned, do you think that the moral effect of the election of Mr. Eustis would be much greater than that of my election? I say to you that the moral effect in the capitals of Europe, and it was one that will last, was produced on that May morning in the harbor of Manilla, at El Caney and on San Juan's hill, when Cervera's fleet was sunk and when hundreds of thousands of our citizens responded to the call of the president and tendered their lives in defence of American honor and human liberty.

Upon the settlement of the questions growing out of the war there is and will be a great variety of individual opinion. It cannot be otherwise. We are not possessed of all the facts. We know but little of the countries and of the populations involved. Even the president and his cabinet, with their opportunities for information, have not yet formulated any definite plans. As soon as we have had time and opportunity to study these questions in the light of fuller knowledge of the true conditions that prevail, I have an abiding faith that a public opinion will be evolved that will guide the solution of this question in a way that will neither be a menace to our institutions nor a betrayal of duty on our part.

Continuing, Mr. Lind paid a glowing tribute to the wisdom of the American people, to whom he looked for a right and satisfactory adjustment of the conditions brought about by the war, and added that the American people, along all lines of human endeavor, were second to none in the world.

The Real Issue.

"But, my friends," said the speaker, "pardon this digression. Let us return to the question. What is the real issue in this campaign? The war issue is a feigned issue. It does not touch the great questions that are uppermost in men's minds. I sought to give expression to this issue in my letter of acceptance two years ago. I then said, commenting on the union of reform forces: 'Nothing but questions of vital importance—a sense of common danger and an aroused patriotism—would make this great body of our people forget all past differences, ignore considerations of creed, nationality, party prejudices and party pride and unite in harmonious action, both nationally and in this state. The underlying cause of this great movement it may be difficult to express in apt words; but, in my mind, I am clear that however it may be formulated by different individuals or in different platforms, the conviction has forced itself upon the great mass of our people that in appropriation of the natural wealth of our country and the distribution of the increased products of human industry, caused by the employment of modern inventions and labor-saving machinery, the few and the owners of capital have obtained more than their fair share."

The Gold Standard.

This is as true now as it was then. We contended in that campaign, and believe now, that the adoption of the gold standard has been one of the most potent factors in producing the present inequality in the distribution of wealth. But the political judgment of the people, as expressed in the last campaign, was that the gold standard should be continued. It is now in file. If it produces good results; if under it prices cease to fall, production is encouraged and the exchange of commodities is facilitated, we shall be content. If not, it will again be an issue. But it is not and cannot be an issue in this state election.

We do not come before the electors of this state with any patent device or any Utopian scheme to cure all the ills of society. No one comprehends more fully than we do that the deep-seated difficulty to which I have referred has come about by degrees, by the methods of our industrial developments and by force of circumstance. The cure must be brought about in the same way, honesty of purpose, intelligence, patience, and time must guide society away from the pitfalls that threaten us. The social body as it exists to-day is the growth of thousands of generation of human effort and experience. It has always had ills. Its present ills are perhaps no worse than those that have beset it heretofore. We propose no "kill or cure" remedy, but we hope and propose to remove at least some of the conditions that have and are producing our present ills. The task that we have set before us in this state, by the platform adopted by our forces, is to so reform the administration of the laws and the conduct of the affairs of the public as to secure to the producers of the capital state a more just proportion of the products of their toil; to save to the public what is left of the public riches of the capital state; to see to it that taxation shall be as just and equal as it is possible, and that every penny collected from the people shall be honestly expended and devoted to public and not to personal or partisan purposes; to give the people an efficient and economical administration of our state institutions, and to confer upon the citizens a direct voice in legislation.

These are the issues that we have tendered and that we shall discuss. My opponent did not deem one of them worthy of the slightest reference. My friends, I believe that there is more method, more policy, than oversight in this omission. The republican party has been in power for some forty years in this state. During that time all of our great corporations have been formed, railroad franchises granted, booming privileges, street car, telegraph, telephone and all other franchises given away—frequently in perpetuity and without restriction. To get these and to get them in such form as was most profitable to the promoters, it was always policy and sometimes, perhaps, necessary for the promoters to stand in with the party in power. They have invariably done so and do to-day. Favors have been conferred and reciprocated between the party in power and these special interests until their end and aim have become almost one. It is hard to tell where the one commences and the other ends. The same is true of our public institutions. They have been built during this period and have in many instances become part and parcel of the political machine of this state. Under these circumstances, to ask the party's leader, for the time being to discuss questions affecting the prerogatives of those various interests is asking a great deal of frail human nature. As an excuse for this omission to discuss these questions, my opponent refers to the phenomenal growth and development of our state. He says that that speaks well for the management of its affairs by the party in power. You might as well refer to the phenomenal growth of the city of Minneapolis as an evidence of the good management of its finances. He refers to the fusion legislature of 1891, and charges it with excessive expenditure. Perhaps the appropriations were larger than they should have been, but if they were, why did not the republican governor veto them? He was there for that very purpose.

Mr. Lind then cited some comparative statistics showing the receipts and disbursements of the state treasury during the years 1891, 1892, 1893 and 1894, and added that, if the fusion legislature of 1891 was profuse in its expenditures, the succeeding republican ones must have been profligate. The legislature of 1891 was entitled to credit for several things that had benefited the people. It put the binding twine plant in the state prison on its feet. It broke the cordage trust and reduced the price of that indispensable article to the farmers by one-half. It also passed the railroad legislation, under which the supreme court made the now famous decision in the Stenerson rate case—a decision more far-reaching and more conducive to the future welfare of the state than any decision ever promulgated by our supreme court.

"The most fertile expedient by which unscupulous men have robbed the public through corporations," he continued, "has been by the practice know as 'watered stock.' Now, I do not wish to be understood as investigating against corporations as such. I only condemn the abuses that have crept in and which they have been guilty of. A corporation is a sort of fictitious personality, created by the law. It is indispensable for carrying on many of the operations of modern society.

"The shares of stock of a corporation and the bonds it has issued are supposed to represent that money paid into its treasury and expended for corporate purposes. The stock and bonded indebtedness of the railroads in this state averages in excess of $30,000 per mile, and this notwithstanding the fact that they have received approximately one-third of all our lands, besides large cash donations. How much of this capitalization represents money actually paid in no one can tell. The legislature never required the railroads or any other corporations to make or file any itemized statement of moneys actually expended in the construction or equipment of the public undertakings. It is safe to say that fully one-half of the existing capitalization is 'water,' that is that proportion of the oustanding shares does not represent any actual capital paid in to the corporation."

The speaker laid special stress upon the baleful influences of great corporations conducted by cunning individuals. That the condition of affairs was unfortunate no candid citizen could deny. The railroads had played a most important part in the political history of the state.

The conviction on the part of our people that their railroad partners in business have not put in the amount of capital for which they exact profit has been and is the root of all this trouble. And the worst feature of it was that our state government had provided no means by which the truth in regard to the matter could be ascertained.

This board also has another important duty to perform—the establishment of the grades of grain, and the control and selection of the inspection force. Have these duties been properly performed? Are they being properly performed now? Our farmers say no. My opponent says that this is one of the questions that will keep till another election. Will you allow it?

The republican party have professed to favor an independent judiciary. I say that the judges who have made that decision have shown more independence, wisdom and patriotism than any court in the land that has been called a court to consider these delicate questions. Perhaps their independence was not of the right kind for the republican party managers? Two of these judges are republican in politics; three of them were elected by the fusion forces six years ago. Of these, two justices, Canty and Mitchell, wrote opinions in the case. All the others concurred. The attorneys representing the producers and the state at the trial were Halver Steenerson and our present attorney-general, Mr. Childs. That they performed their duty well the result shows, and every one who knows them appreciates it. They are both republicans. All of these men, with the exception of Chief Justice Start were candidates for the nomination for office at the hands of their respective parties. Justice Collins for governor; General Childs to succeed him on the supreme bench; Mr. Steenerson and Justices Mitchell, Canty and Buck for the positions which they now hold. If those who have the policy of the republican party in their keeping had sought the welfare of the state, would they not have said to Judge Collins and to General Childs, "Well done, good and faithful servants, you deserve continuance and promotion"; and to Mr. Steenerson, "Your merit deserves recognition." If they had been true to their professions or desire an independent judiciary, would they not have recognized the acknowledged ability and integrity of the three fusion nominees? Justice Mitchell had been indorsed by the republicans once. Either they did not desire men with their convictions, or did not suit their partisan ends to nominate them. I care not which; the reflection is equally painful.

Continuing, Mr. Lind assumed his premise for an arraignment of the railroads. The supreme court, he said, had solved the question for Minnesota. He then put in simple language the substance of the decision in the famous Steenerson rate case, and in the course of his remarks said:

I noticed by the papers that the attorney for the street railway company stated before the state equalization board, the other day, that if the ground had not been broken, or a rail laid, the whole street car system of the twin cities could be put down for $3,000,000 or less. He undoubtedly knew what he was talking about. If my information is correct, the public is made to pay interest on many times this amount. Will the people continue to do so?

What we need now to obtain the full benefit of this decision is an able, honest and fearless board of railroad and warehouse commissioners, a board that will not be trammeled by any partisan or political consideration; that will be just to all interests and command their respect; a board that will apply the principles of that decision to all cases of unjust rates in the state. Such a board the people of this state shall have, if I am intrusted with its election.

State Lands Squandered.

Mr. Lind went into an exhaustive review of the land grant policy pursued by the republican party in this state under which one-third of the area of Minnesota had been given to railroad corporations. Mr. Lind said that the prodigacy of this policy was sickening to contemplate. He also charged that fraud had crept into the administration of the school lands. He cited the case in which a republican state auditor, after selecting the famous section 30, containing the Rockefeller mines, estimated to be worth $12,000,000, released the state's claim without giving any reason therefor and the state lost this valuable property. As for the swamp lands, it was impossible to give an intelligent statement of their condition. Railroad schemers got from the republican legislature to give them a swamp land grant or get the existing one changed to suit their ends. The parties interested in these swamp land grants apparently controlled the appointment of the government deputy surveyor. Untold acres of state land had been squandered.

Taxes are unrelenting and continuous. There is perhaps no subject of such vital interest to society upon which we have made comparatively so little progress as in the matter of properly collecting and adjusting the necessary taxes for meeting the public demands. Under existing laws, as they are enforced, it is undeniably true that the chief burden falls upon property employed in production and upon the hands for a livelihood.

Income-bringing wealth is practically exempt from national taxation by the recent decision of the supreme court. No attempt has yet been made to subject it to state and local taxation.

That this could be done by proper legislation and amendment of the constitution no lawyer questions. The feasibility of it is a subject which I commend to your attention.

Public Institutions.

After going into the subject of taxation exhaustively Mr. Lind turned his attention to the public institutions of the state. He spoke with much sincerity of the legislation which should be enacted for their benefit and regretted that many of them were conducted so as to serve personal and partisan ends. If continued, the tendency would be to undermine the spirit of popular generosity with which they had been supported. That the economical expenditure of the people's money had been lost sight of was evident by the report of the present state auditor, which shows that the cost of maintenance per capita is higher than it should be.

"I personally," said the speaker, "witnessed scenes at the last meeting of the state dairymen's association in my own town which were as humiliating and disgusting to the unbiased observer as could well be imagined."

Mr. Lind explained his remark by telling of the ousting of a man by political treachery who had contributed more to the dairy interests of the state than any other individual. Such abuse of public power and duty should not be tolerated.

State Examiner's Office.

The conduct of the state examiner's furnishes a striking example of official incompetency and indifference to the welfare of the public. This was demonstrated first when Mr. Berg, nearly a year before the collapse of the Guaranty Loan association, called the attention of the public examiner to the rottenness of that institution and was rewarded with physical violence as his thanks, and again in the recent bank failures both in this city and in St. Paul. Professional duties required me to investigate the affairs of the bank of Minnesota after its failure. A worse condition of mismanagement I have never seen. Over $800,000 of the bank's money had been used, borrowed by its president. This state of affairs had existed for a year. The bank examiner must have known it. It is a remarkable fact that though that bank was the largest state bank in the state, the public examiner had not either by himself or deputy entered its doors for over a year before the failure. Is this the kind of supervision, the kind of protection that you want for your savings and the savings of the widow and of the orphan's share. The only thing that the present bank examiner has accomplished that I am aware of was to draft a bill which the legislature of 1895 enacted into law. That bill had some good provisions, some that might be commended. It changed the liability of stockholders in state banks from double liability to single; in other words, before 1895 stockholders in state banks were responsible to the creditors and depositors of the bank in case of its failure $2 for every $1 they held in stock; since 1895 they are only responsible dollar for dollar. Was this not a strange recommendation for the guardian of the public credit to make and for the legislature to adopt; and at that particular time was some people getting ready for what was coming?

No one need fear that I shall cripple the public service by indiscriminate removals, but if elected whenever I find or so soon as I find that the public can be better served or protected by having a change, the change shall be made. There are many other questions of interest that might be profitably referred to and discussed on this occasion, but neither the time nor my strength permit. There is one question, however, upon which I desire to express my convictions before I close. I have already called attention to the facilities that our legislature has afforded capital to associate and assume the functions of the individual entity with recognized rights and attributes before the law; that is, as I said before, where the privilege has not been abused, conducive to the best interests of society and humanity, but in this period of rapid and material and industrial development, in the hurry and scurry to utilize the powers of nature, and in the factors of steam and electricity, to make faster and more goods, new mills and additional ones and to rake in the almighty dollar, it would seem almost as though society had permitted its brains to run away from its heart. Material things have been provided for; man has not been lost sight of. He stands but little chance in opposition to the great aggregations of capital and wealth. Experience, and bitter experience, demonstrated this fact long ago. The laboring man has found it necessary for his self-protection to associate himself with his fellow workman. This I regard not only as a necessary result of the association of capital, but as absolutely indispensable for the protection of the working man and for the protection of society.

Society as a whole has a vital interest in the welfare of its every member. We as a state or as a nation could not long survive the degradation of the workers. Association and co-operation on the part of capital without like action on the side of labor would present not only an unequal contest, but one in which I believe the laborer would suffer. I am not here to apologize for the many mistakes of organized labor, nor do I commend all their actions; they have made mistakes; so has organized capital, so have we all. But I do contend that under the new condition of affairs the association and organization of labor has become an absolute necessity, and I say the people of this state, yes of the nation, have been derelict in their duty to the laboring man and to society in not giving organized labor such recognition before the law and a standing in all courts the same as organized capital. The interests of society and the American spirit of fair play demand that this should be done, and whatever service I can render in office or out of office to bring about that much-needed reform will be cheerfully performed.

Another question akin to this, and which appeals strongly to my mind, is the necessity of affording the individual an opportunity for a direct voice in the matter of legislation for his protection. Under the new condition of affairs, which has made the nonhuman or capitalistic element so potent a factor, it is necessary that the individual should be given more efficient voice in the enactment of the laws of the commonwealth. This is not a new or novel proposition under our constitution. Our constitution can only be changed by a direct vote of the people; that many subjects of legislation has been put beyond the scope of the legislature without reference to the people by popular vote. That this could be carried out that it could be done safely I have no doubt. Prudent, well-considered legislation of this kind would, in my judgment, prove a great protection to the public as well as the citizen, and prevent the reoccurrence of the scandals in legislation such as blotted the pages of its past history in this state. On these questions, to which I have so briefly referred, the republican party and its standard-bearer are silent. They discourse on the greatness and the power of the nation and its future of promise; we share all these sentiments. We think we are as zealous for its future as they are, but, my friends, we do not propose to ignore the present. My friend Eustis, in his speech, exclaims with eloquence: "We will build a great city in the Philippines." Why, my friends, so we may, but, first of all, let us save this great city right here at home. If these questions to which I have referred, if the issue which I have sought to define, merits your attention, then they entitle us to your co-operation. It is not, my friends, a question of electing a particular man to office. If we are right in the diagnosis of the difficulties that beset us and in the remedies that we propose, then co-operation with us becomes a question of duty to yourself and to society. And in this work let us stand together man to man and shoulder to shoulder. Remember that every man on the ticket, from the governor to the last name for supreme judge, should receive your vote and be elected. Anyone of us succeeding alone could accomplish but little, and in this work let us forget all bickerings of creed and nationality and remember only the duty we owe to society, to the cause of good government and to ourselves.

Street Scene in Paris.

The Velo reports an amusing incident in Paris. A roadman was watering the street with a hose. An omnibus coming up to him caused a bicyclist to collide with another wheelman, and both fell. Over them went a third, and a cab horse, driven with the usual Parisian skill, danced on the pile of machines, the cabman plying his whip as the only solution of the trouble that occurred to him. One of the fallen, rising hurriedly, was floored again by a tandem, which also capsized, and another coupe and a moter car cannoned one another within an ace of running over the debris. At this moment the omnibus moved off, and the hoseman, unaware of the tragedy that was being enacted on the other side of the 'bus, turned on the stream across the rear of the departing vehicle. Tableau!

Of Many Tongues.

The occupants of the Philippines represent such a variety of races that 81 languages are spoken there.

Illusions.

"My illusions," said she, "are all gone."

"Why," he asked, with that brutality only manifested by a man who has promised to love and cherish, "don't you go to the drug store and get some more?"—Indianapolis Journal.

Suspicious.—Nephew (to rich uncle, who has fallen down stairs)—"I hope you are not hurt." Uncle—"Oh, you do, do you? You know very well that I must be either hurt or dead."—Cincinnati Enquirer.

When a worthless man isn't staring at the clock he is gazing at the thermometer.—Atchison Globe.

Delicately Put.

He would not say that she painted, powdered and all that. He was too much of a gentleman for that.

"Still, I may as well confess," he said, "that she impressed me as one who thinks she can improve upon the Lord's handiwork."—Chicago Post.

Grocer—Sugar-cured, madam?

"No! I want some thot has niver bin deazed."—Judge.

Mamma—"It is naugthy to tell lies, Eva. People who do so don't go to Heaven." Eva—"Did you ever tell a lie, mamma?" Mamma—"No, dear, never." Eva—"Won't you be fearful lonely in Heaven, mamma, with only George Washington?"—Oswego Daily Palladium.

Some people are so hopeful that it amounts to laziness.—Atchison Globe.

THE APPARENT REASON.

She Readily Accounted for the Constant Wearing of the Halos.

Dotty sat on a stool beside her mother looking at the pictures in an old church book. There were angels and cherubim and harpists galore, and in them the child found much to interest her. The last picture in the book was of a dozen or more angels floating on the clouds. Above the head of each shone the symbolic halo. Those halos bothered Dotty. She had never seen such a head dress and she was perplexed.

After a minute's thought she held the book up to her mother and said: "See, mamma, the ladies what's got wings and funny things on their heads."

The mother looked. "Those are angels, dear," she said.

"And what's the funny rings on their heads, mamma?" the child asked.

"Those are halos, Dotty."

"Does they wear them always, mamma? Does all angels wear them?"

"Yes, Dotty. All angels wear them and they wear them all the time."

"When they's in the house?"

"Yes, Dotty."

"When they's asleep?"

"Yes."

"I guess they wears their halos all the time, mamma, 'cause they're afraid if they took 'em off and hung 'em on the hat rack they'd get broke, don't they?"—Detroit Free Press.

The Cost of Freeing Cuba.

The United States are certainly entitled to retain possession of the Philippine islands if the peace commissioners so decide, for the cost of the war runs far into the millions, and the end is not yet. The money paid out reaches an astonishing total. To free the stomach, liver, bowels and blood of disease, however, is not an expensive undertaking. A few dollars invested in Hostetter's Stomach Bitters will accomplish the task easily. The poor as well as the rich can afford it.

Not at All Afraid.

"They say," he suggested, just to see how she would take it, "that disease may be communicated by kisses."

"I'm an immune," she replied, promptly. Of course her fearlessness was rewarded.—Chicago Post.

You Can Get Allen's Foot-Ease FREE.

Write to-day to Allen S. Olmsted, Box 852, Le Roy, N. Y., for a FREE sample of Allen's Foot-Ease, a powder to shake into your shoes. It cures swollen, aching, tired feet. The greatest comfort discovery of the age. An instant relief for Corns and Bunions. All druggists and shoe stores sell it. 25 cents.

Judge—"You say the defendant turned and whistled to the dog. What followed?" Intelligent Witness—"The dog."—Cleveland Plain Dealer.

From sudden weather changes come Soreness and Stiffness. From St. Jacobs Oil comes prompt cure.

Ideals are pleasant, steady company, but they are inclined to be tyrannical when they are wedded to.—Detroit Journal.

Dear Editor:—If you know of a solicitor or canvasser in your city or elsewhere, especially a man who has solicited for subscriptions, insurance, nursery stock, books or tailoring, or a man who can sell goods, you will confer a favor by telling him to correspond with us; or if you will insert this notice in your paper and such parties will cut this notice out and mail to us, we may be able to furnish them a good position in their own and adjoining counties. Bad, Worse, Worst Sprain. Good, Better, Best Remedy—St. Jacobs Oil.

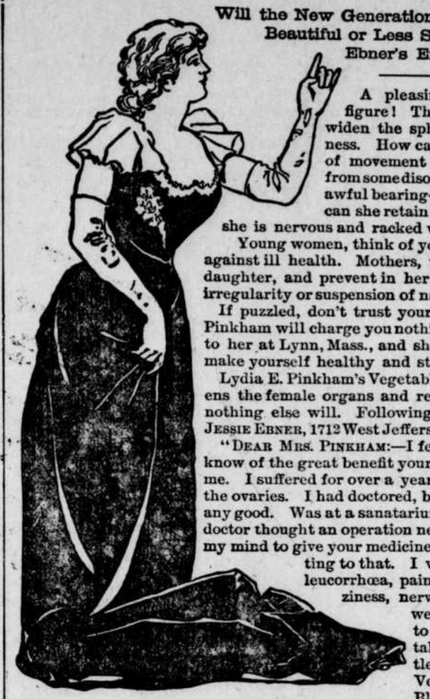
MRS. PINKHAM TALKS TO THE FUTURE WOMAN.

Will the New Generation of Women be More Beautiful or Less So? Miss Jessie Ebner's Experience.



A pleasing face and graceful figure! These are equipments that widen the sphere of woman's usefulness. How can a woman have grace of movement when she is suffering from some disorder that gives her those awful bearing-down sensations? How can she retain her beautiful face when she is nervous and racked with pain?

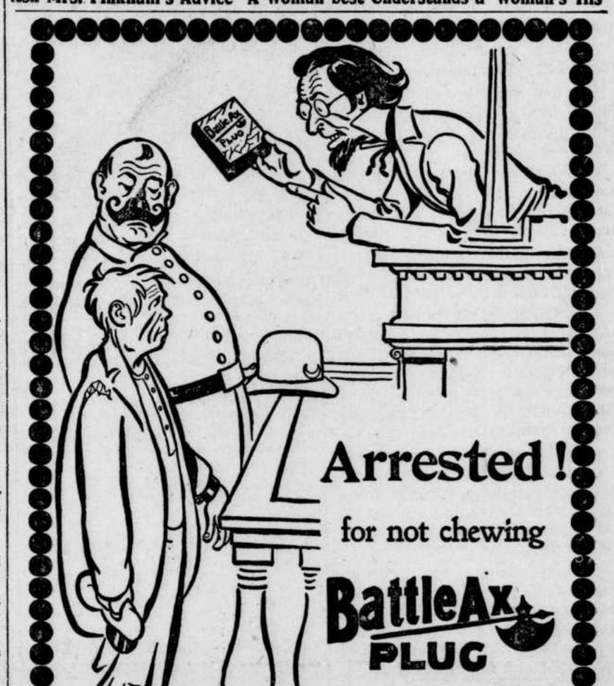
Young women, think of your future and provide against ill health. Mothers, think of your growing daughter, and prevent in her as well as in yourself irregularity or suspension of nature's duties.

If puzzled, don't trust your own judgment. Mrs. Pinkham will charge you nothing for her advice; write to her at Lynn, Mass., and she will tell you how to make yourself healthy and strong.

Lydia E. Pinkham's Vegetable Compound strengthens the female organs and regulates the menses as nothing else will. Following is a letter from Miss JESSIE EBNER, 1712 West Jefferson St., Sandusky, Ohio.

"DEAR MRS. PINKHAM:—I feel it my duty to let you know of the great benefit your remedies have been to me. I suffered for over a year with inflammation of the ovaries. I had doctored, but no medicine did me any good. Was at a sanatarium for two weeks. The doctor thought an operation necessary, but I made up my mind to give your medicine a trial before submitting to that. I was also troubled with leucorrhœa, painful menstruation, dizziness, nervousness, and was so weak that I was unable to stand or walk. I have taken in all several bottles of Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and am now in good health. I will always give your medicine the highest praise."

Ask Mrs. Pinkham's Advice—A Woman best Understands a Woman's Ills



Ignorance of the Law is no excuse, but ignorance of BATTLE AX is your misfortune—not a crime—and the only penalty is your loss in quantity as well as quality when you buy any other kind of Chewing Tobacco.

Remember the name when you buy again.

FIFTY YEARS OLD

Why let your neighbors know it?

And why give them a chance to guess you are even five or ten years more?

Better give them good reasons for guessing the other way. It is very easy; for nothing tells of age so quickly as gray hair.

Ayer's Hair Vigor

is a youth-renewer.

It hides the age under a luxuriant growth of hair the color of youth.

It never fails to restore color to gray hair. It will stop the hair from coming out also.

It feeds the hair bulbs. Thin hair becomes thick hair, and short hair becomes long hair.

It cleanses the scalp; removes all dandruff, and prevents its formation.

We have a book on the Hair which we will gladly send you.

If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be easily removed. Address, Dr. J. C. Ayer, Lowell, Mass.

BUFFALO GAZETTE

DELANO, FRIDAY, OCT. 14, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

DEMOCRATIC TICKET

For Governor,
JOHN LIND.

For Lieutenant Governor,
J. M. BOWLER.

For Secretary of State,
J. J. HEINRICHS.

For State Auditor,
GEO. M. LAMPHERE.

For State Treasurer,
ALEX McKINNON.

For Attorney General,
JUDGE J. F. KELLEY.

For Clerk of Supreme Court,
Z. A. AUSTIN.

Justices,
MITCHELL, CANTY, BUCK.

For Congress,
CHARLES A. TOWNE.

—Mrs. William Sturman has been quite sick for several weeks.

—Dr. Niven dentist, will be in Rockford Tuesday, Oct. 18. Good work.

—Read John Lind's Minneapolis speech, on the inside of this paper.

—A new steam laundry is being built here. The frame is already up.

—A new cement sidewalk is being laid in front of Meister's Hotel. The grading is done for some sidewalk on North Second Street.

—Page Morris lectured here Tuesday evening. He had the hall comfortably full, and talked better than he did two years ago.

—Robert Bullen's son and daughter, arrived yesterday with the household goods from Winona county. Mrs. B. is in a hospital in Minneapolis.

—Maj. J. M. Bowler, candidate for Lieutenant Governor, and Z. A. Austin, candidate for Supreme Court, on the Fusion ticket will lecture on political points, at the City Hall, next Tuesday evening, Oct. 18.

—The Ladies' Aid Society of the M. E. Church had a fine supper and fair last evening in the City Hall. Everybody enjoyed the evening. About $33. was taken in. This will nearly settle the ministers salary.

—Several from this vicinity attended Charlss A. Towne's lecture at Buffalo and they were not sorry. Mr. Towne has improved as much as any other orator in the field, and is the most convincing talker in Minnesota.

—Dr. Shrader reports ten cases of diphtheria at Maple Plain. Four houses quarantined. People should be extremely careful not to spread it. Mild cases may be as dangerous to neighbors as severer ones are.

—Saturday's fair was a big one. The weather was perfection, roads fine, and people having completed fall work pretty well, took time to attend the fair. Some of the finest horses ever in town are reported to have been on exhibition.

—Delano was represented at the Democratic County Convention by Henry Bock and M. A. O'Hair; A. E. Johnson, who was elected, not attending. The Town of Franklin was represented by E. F. Ziebarth, he being the only man present from that township. Why this apathy? We predict election day will find most of the voters at the polls.

List of Patents

Granted to Minnesota Inventors this week Reported by C. A. Snow & Co., Solicitors of American and Foreign Patents. Opp. U. S Patent office Washington, D. C.

E. S. Markre, Wanamingo, Wire-winding machine. N Svenson, Minneapolis, Horse-shoe with removable calks.

For copy of any patent send 10 cents in postage stamps with date of this paper to C A. Snow & Co., Washington, D C.

THE SONG OF THE "No. 9."

My dress is of fine polished oak,
As rich as the finest fur cloak,
And for handsome design
You just should see mine—
No. 9, No. 9.

I'm beloved by the poor and the rich,
For both I impartially stitch;
In the cabin I shine,
In the mansion I'm fine—
No. 9, No. 9.

I never get surly nor tired,
With zeal I always am fired;
To hard work I incline,
For rest I ne'er pine—
No. 9, No. 9.

I am easily purchased by all,
With instalments that monthly do fall;
And when I am thine,
Then life is benign—
No. 9, No. 9.

To the Paris Exposition I went,
Upon getting the Grand Prize intent:
I left all behind,
The Grand Prize was mine—
No. 9, No. 9.

At the Universal Exposition of 1889, at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France. This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered—the GRAND PRIZE—giving other companies only gold, silver and bronze medals.

The French government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor—the most prized honor of France.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best it will be your own fault.

Ask your sewing machine dealer for the No. 9 Wheeler & Wilson machine. If he doesn't keep them, write to us for descriptive catalogue and terms. Agents wanted in all unoccupied territory. WHEELER & WILSON MFG. CO.
Chicago, Ill.

Personal.

Mrs. L. M. Maxfield visited Minneapolis during the week.

A. F. Corey and wife spent Sunday with friends at Howard.

Rev. and Mrs. J. L. Farber are at Conference at Hutchinson this week.

Paul E. Datko writes us to change the address of his paper from Louisburg to Benson.

Burt Farber, son of Rev. Farber, is expected home in a few days from Porto Rico, where he went wite the Signal Corps.

William Fredericks, corporal in the 11th Reg., a son of Billy Fredericks, formerly of Rockford, passed through town last week on his way to visit relatives at his old home.

E. J. Swedback, of Bermidji, visited Delano this week. He wore his scalp as usual, and said he did not know there was an Indian war so near him until after he had got away from last Thursday.

William Kespohl, one of Duluth's biggest citizens, and a Tounesman the full size of him, visited his old Wright county home this week. He says Duluth will give Towne a rousing majority this time.

County Cullings.

If you desire to have United States Senators elected by the people you must cease electing Republican State Senators and Representatives pledged to vote for C. K. Davis, Knute Nelson or any other man.

WEBSTER'S INTERNATIONAL DICTIONARY

Entirely New. Abreast of the Times. A Grand Educator.

Successor of the "Unabridged."

Everybody should own this Dictionary. It answers all questions concerning the history, spelling, pronunciation, and meaning of words.

A Library in Itself. It also gives the often desired information concerning eminent persons; facts concerning the countries, cities, towns, and natural features of the globe; particulars concerning noted fictitious persons and places; translation of foreign quotations. It is invaluable in the home, office, study, and schoolroom.

The One Great Standard Authority.

Hon. D. J. Brewer, Justice of U. S. Supreme Court, writes: "The International Dictionary is my selection of dictionaries. I commend it to everybody as the great standard authority."

Recommended by every State Superintendent of Schools Now in Office.

A saving of *three cents per day* for a year will provide more than enough money to purchase a copy of the International. Can you afford to be without it?

Ask your Bookseller to show it to you.

G. & C. Merriam Co.
Publishers,
Springfield, Mass.

Also publishers of a full line of cheap photographs of ancient and modern noted persons. Send for free prospectus containing specimen pages, testimonials, etc.

WEBSTER'S INTERNATIONAL DICTIONARY

Democratic Convention.

The Democratic County Convention was called to order by Chairman Madigan, at Buffalo on Saturday, Oct. 8, at 11:30 A. M. The chairman read the call and asked for nominations for Temporary chairman.

J. F. McDonnell nominated William Tubbs, of Monticello. Mr. Tubbs was elected without opposition. He made a short speech calling attention to the fact that 25 years ago he used to meet here with many now present, and who are now, old gray headed men. This means something.

S. R. Wells, of Buffalo was chosen Secretary, after a speech by J. F. McDonnell, advising that the secretary should be chosen from Buffalo so that he might sign the credentials.

J. D. Murphy, of Chatham, moved that a committee of five on credentials be appointed. Carried.

The chairman appointed as committee on credentials: J. D. Murphy, Chatham; Joe Giblin, Waverly; W. S. Huntington, Annandale.

On permanent organization, J. L. Harwick, Monticello; John Walker, Rockford; M. A. O'Hair, Delano.

Convention Adjourned till 1:30 P. M.

AFTERNOON SESSION

At 1:45 P. M. Chairman Tubbs called the convention to order.

W. S. Huntington read the report of the committee on credentials as follows:

ALBION.

Thomas Dygert, Peter Shafer, John B. Rahrer.

BUFFALO.

Peter Bjorklund, Michael Ryan, O. E. Stromberg.

CHATAAM

J. E. Murphy, Dan Scanlon, John Mera.

CLEARWATER.

W. E. Rigby, A. Stevens.

COKATO.

Not represented.

CORRINNA.

J. E. Madigan, J. H. DeHaven.

MONTICELLO.

Wm Tubbs, J. L. Harwick.

MONTROSE.

Not represented.

WAVERLY.

J. F. McDonnell, Wm Spath, John Giblin, Jr.

The following were allowed to represent their voting precincts in the convention upon recommendation of the credentials committee.

FRANKLIN.

E. F. Ziebarth.

SOUTHSIDE.

John Rudolph.

COKATO.

A. P. Richie, J. C. Johnson, John Nygren.

S. A. Gordon, moved that the report be adopted. Carried.

On motion of J. L. Harwick the temporary organization was made permanent.

Nominations of officers was announced by the chairman.

J. F. McDonnell moved that the list of officers be passed till we come to Judge of Probate. Carried.

J. F. McDonnell then nominated A. Y. Eaton. S. A. Gordon nominated James E. Madigan.

Tellers were then appointed by the chair as follows: Levi Cochran, Owen Daily, S. A. Gordon.

J. E. Madigan received 48 votes, A. Y. Eaton 22 Madigan was declared the nominee of the convention.

On motion County Attorney was passed.

For Superintendant of Schools, on motion of J. F. McDonnell, the Secretary cast the ballot for A. P. Ritchie, who was declared nominated.

County Surveyor, H. T. Moland was nominated by W. S. Huntington. The Secretary cast the ballot and Mr. Moland was declared the nominee.

For Coroner, Dr. E. A. Shannon was nominated, also Dr. Catlin, who declined in favor of Dr. Shannon. On motion of M. A. O'Hair the Secretary cast the ballot and Dr. Shannon was declared the nominee of the convention.

On motion of James F. McDonnell, nominations returned to Register of Deeds James E. McDonnell nominated John C. O'Leary. M. A. O'Hair moved that the secretary cast the ballot for O'Leary. Carried. John C. O'Leary was declared the nominee.

James F. McDonnell moved we proceed to nominate a Sheriff. Carried.

James F. McDonnell moved that the Secretary cast the ballot for John C. Nugent. Carried.

Levi Cochran nominated A. Y. Eaton for County Attorney. He was declared the nominee

S. A. Gordon nominated Frank T. Hamilton for County Auditor. He was duly elected and declared the nominee.

James F. McDonnell, nominated for Treasurer, Charles Bugbee. He declined to run, as did S. R. Wells. Frank McKnight, Henry Berning, S. W. Junken. August Lorenz was finally nominated.

Johnston Mealey, of Howard Lake, was nominated for Senator.

For Legislators, Henry Kelly, Annandale, and J C. Johnson, Cokato

Chairman Tubbs was empowered to appoint a committee of five to select 15 delegates to attend the Judicial Convention at Elk River. W. S. Huntington, Peter Schaffer, M. A. O'Hair, S. R. Wells, J. C. Nugent were appointed.

The Committee appointed to select delegates to the Judicial convention reported the following names: J. C. Nugent, R. H. Melrose, J. H. Wendell, M. A. O'Hair, A. Y. Eaton, J. L. Harwick, J. C. O'Leary, William Tubbs, Joseph Reems, Levi Cochran, D. W. Flannigan, Owen Daily, Frank Aydt, T. G. Mealey, James McDonnell.

Chairman Madigan, having been nominated to a county office, tendered his resignation as chairman of the County Committee. His resignation was accepted. On motion of Henry Frank McKnight was chosen chairman.

The following resolution was read by the Secretary:

RESOLVED that we, the Democratic party of Wright county in convention assembled renew our allegiance to the principles of the Democratic party and pledge our loyal support to all the nominees of the party in which as voters we exercise the right of suffrage.

The above resolution was frowned out of the convention, not even being put to a vote.

S. A. Gordon then offered one something as follows.

RESOLVED that we pledge allegiance to the Democratic platform of '96.

This met the approval of the convention and received the most vigorous cheers of any transaction of the day.

Chairman Tubbs in putting the motion said "National" platform, to which Mr. Gordon quickly retorted that "we want no National" Democratic platform. So the plain Democratic platform of '96 was adopted amid cheers and applause.

The ticket nominated at the Democratic County Convention at Buffalo last Saturday was Auditor, Frank T. Hamilton, Maple Lake.

Treasurer, August Lorenz, Albion.

Sheriff, John Nugent, Chatham.

Register of Deeds, John C. O'Leary.

County Attorney, A. Y. Eaton, Buffalo.

Judge of Probate, James E. Madigan, Maple Lake.

Surveyor, H. T. Moland, Silver Creek.

Coroner, Dr. E. A. Shannon, Buffalo.

County Commisioner 2nd Dist. Joseph Reems.

4th Dist. D. W. Flannigan.

C. A. French read a resolution which was adopted as follows:

RESOLVED: That we commend the course of Senator C. K. Davis the senior senator from this state, and earnestly urge that the nominees of this Senatorial Convention give him their undivided support, if elected to again return him to the United States senate at the close of his present term.

E. D. Washburn presented the following resolution, which was also passed:

WE, the republicans of Wright County in convention assembled, renew our allegiance to the principles of the republican party, and pledge our loyal support to all the nominees of the party in which as voters we exercise the rights of suffrage.

WANTED—SEVERAL TRUSTWORTHY PERsons in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $900 a year and expenses—definite, bonafide, no more, no less salary. Monthly $75. References. Enclose self-addressed stamped envelope. Herbert E. Hess, Prest., Dept. M, Chicago. 50-26t.

$1.00 A YEAR FOR DEMOREST'S FAMILY MAGAZINE.

The Subscription price of DEMOREST'S is reduced to $1.00 a Year.

Demorest's Family Magazine is more than a Fashion Magazine, although it gives the very latest home and foreign fashions each month; this is only one of its many valuable features. It has something for each member of the family, for every department of the household, and its varied contents are of the highest grade, making it, pre-eminently, The Family Magazine of the World. It furnishes the best thoughts of the most interesting and most progressive writers of the day, and is abreast of the times in everything,—Art, Literature, Science, Society Affairs, Fiction, Household Matters, Sports, etc.—a single number frequently containing from 200 to 300 fine engravings, making it the Most complete and Most Profusely illustrated of the Great Monthlies.

Demorest's Magazine Fashion Department is in every way far ahead of that contained in any other publication.

Subscribers are entitled each month to patterns of the latest fashions in woman's attire, at no cost to them other than that necessary for postage and wrapping.

NO BETTER CHRISTMAS GIFT

than a year's subscription to Demorest's Magazine can be made. By subscribing At Once you can get the magazine at the reduced price, and will also receive the handsome 35-cent Xmas Number with its beautiful panel picture supplement.

Vote for John Lind
Vote for Charles A. Towne
Vote the State ticket favoring reform
Bust all rings and turn down the "bosses"

THE one great bugbear with the present Republican campaign is the wonderful lack of "confidence" in the promises made by the leaders; and the lack seems to grow and strengthen with the approach of election day.

Z H. AUSTIN is termed a "fire eater" by some of Delano's citizens. Well he did make a few "pin feathers" fly from the Delano Eagle; rather ruthlessly turned down a Page of the Republican book.

JOHN LIND is quoted by some of the Republican papers as good authority on jail birds and democrats: and as having years ago announced the terms as almost synonymous. What comfort can they derive from that? Has not Honest John found the Republican party now so corrupt that he prefers to cast his lot with the more respectable democracy?

SOME of our local politician, who are of course too young to have carried the emblem of our county in the days of the rebellion, and had too much to do to enlist in the war with Spain are complaining that Maj. Bowler was a little rough on the starry flag. Preposterous! How absurd to accuse the old veteran of the 3d Minn. Vol. in the great rebellion who for four long years helped uphold the flag and what it then stood for, of now being disrespectful to his country's colors because he dares thrust them aside for an instant while he discloses a few of the evil acts and actors hidden behind its beautiful and ever respected folds.

Reform Rally.

The first rally of the reform forces for this campaign, in Delano, was held at the City Hall Tuesday evening. Maj. Bowler, candidate for Lieut. Gov. and Z. C. Austin, candidate for Clerk of the Supreme Court, spoke. The audience was, owing to rain and mud dy roads, not large, but listened with interest to the two speakers as they proceeded to point out the imperfections of the ruling party machine, and to tell of how, with a change of administration our State affairs would be better run. Both are good talkers and argued well their points.

The audience was given to understand that it was entirely unnecessary for Republacans to go to Manila to import an issue for this campaign, or even to resurrect the "ghost" of free silver they have been telling us so much about. There are innumerable things that need explanation, before the people can see their way clear to vote for men charged with abusing the confidence of the people by Guaranty Loan schemes; by hospital deals; by vetoes in the interests of street railways rather than in transferring of the toiling masses of Minneapolis to and from their homes and places of labor; with insulting old soldiers; with tramping under foot the protests of the people and preachers in favor of morality; with making returns favorable to money institutions which very soon after went broke, and deprived many a poor fellow of the earnings of years of hard work; of "O. K.'ing" the accounts of officers of counties through out the state that differed materially in the amounts paid out for the same labor. Of filling the state with petty political offices which the people have to pay for little if any return for their money. People are beginning to understand these and will carefully consider for whom they will vote.

Judge Canty Ranks High.

Judge Canty of the supreme court has a most enviable record. No judge in the history of the state has ranked so high during so short service.—Aitkin age.

The Age is published by Charley Warner, a son of our "Old Nate," of Rockford. We are pleased to see that he is capable of recognizing merit where it crops out plainly. Judge Canty is remembered by our citizens as having delivered a fourth of July oration here before he was elevated to his present position. The Judge, he was then District Judge, gave us an able oration; and it made him many friends among our people.

From Manila.

MANILA, Philippines, Sept. 10, 1898
FATHER: I having just had the good fortune to secure a new lot of writing paper, and it is not writing paper either, thought I would tell you about it. It is a Relative Pronoun standing for time and the past time.

After the capture of Manila we have been having a good time kicking about the "grub" on account of quantity. We now have a good cook and are drawing half Gov. rations which is a little better than the past. Also we, as a company, were allowed to stroll along the street for 48 hours at a time, every four days to do our post duty. We slept on the sidewalk, which is two or three feet wide and stone at that. We usually carried our rubber ponchoes with us so it wasn't quite so hard. Ants, mosquitoes or flies till you can't rest. Allowing all armed persons going out of town to go, but relieving all with arms (except natural arms), of their weapons, before returning to the city. We are now in permanent quarters; they are built of brick with a stone foundation, all the windows having strong iron bars depriving any one from entering. We have been sleeping on the floor so long and carelessly rolling over at leisure that we have acquired bad habits. Yesterday we were issued canvas hammocks, which are a little narrow, and naturally a couple of fellows tried to dent the floor. Pay day is coming; (naturally would be) we have been expecting it every day for 10 days. All the boys seem to be doing well except Jenner. He has evidently hurt himself from working, possibly, but the Dr. claims it is typhoid, he is much better.

The natives have an elegant band consisting of about 50 talented musicians. We received their airs with pleasure, also with a light fantastic toe, with half soled government shoes, and many other things, the other night about 9:00 o'clock. I must say that these gifted musicians are the Philippino's army band. They have already picked up the popular American air "A Hot Time in the old Town To-night".

A very peculiar thing I saw today was a woman that wasn't smoking. Two men just passed with a large dresser. They carry about as much as a horse. Several days ago I got in a loaded two wheeled cart, which was loaded and the horse was suspended in the air till the harness broke. The farther a load travels the bigger it gets.

I understand that the mail has come to town, some "mule" from here went down to the Company's quarters to meet it.

After thoroughly investigating the labor question I must say that 10 cents a day is big wages. The way lumber is made here is by hewing mahogany logs then marking each board out with a chalk string, being sawed by two Chinamen with a two handled ripp saw. It is a very slow process.

We do things here we wouldn't think of doing in America, and that is eagerly read newspapers one and two months old. But it is interesting to find out how far behind the times the people in the states are at present.

One week ago tomorrow our recruits joined us, and a more inquisitive lot of fellows you never saw, but I saw some of our boys when we landed.

The rainy season is over I think as it has not poured down for two weeks, but must say it more than lays the dust occasionally now

Yours, with best regards,
A. G. CATLIN.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Official Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merritt, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manila. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barber. Sec'y. Star Insurance Bldg., Chicago.

Vote for John Lind for Governor. Give him a chance to reform things.

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, D. C., Oct. 14, 1898.

It was fitting that Mr. Perry Heath, who is acting Postmaster General while the Postmaster General is on the stump, and who owes his present position to Boss Hanna, should be the mouthpiece of the administration in informing the Federal office holders that they are expected to pitch in and take an active part in the Congressional campaign. Being a newspaper man himself, Mr. Heath knew that this information could be more adroitly given through the newspapers than by means of personal communications to the office-holders. He gave out a carefully prepared interview with himself, this week, in which he invited the office-holders to come to the rescue of the g. o. p.

Having taken a sufficient quantity of one sided testimony for use in the Congressional campaign, Mr. McKinley's alleged investigating committee will start on Sunday for a pleasant autumn tour of the camps, beginning with that of Gen. Fitz Lee at Jacksonville, Fla. Why this junket is taken only the Commission knows. It will be as useless as that of Secretary Alger, a short time ago, but it will probably fill in the time until after the elections.

Representative Elliott of S. C., has succeeded in getting Secretary Long to order four U. S. war vessels to proceed to Charleston for the purpose of participating in the Peace Jubilee to be held in that city on the 24th.

The ships ordered to Charleston are the Wilmington, the Nashville, the Montgomery, and the Princeton.

That the authorities do not intend to punish those guilty of neglecting their duties in connection with the care of our soldiers, even when their guilt is plainly shown, is made plain by the recommendation of Surgeon General Sternberg in the case of Contract Surgeon Tabor, who was charged with having caused the death of Private Hugh Parrett, at Camp Wikoff, by his neglect and incompetence. The evidence taken by a board of inquiry is understood to have left no doubt of the truth of the charge. Instead of recommending some fitting punishment, or that the surgeon be declared exonerated, in accordance with his guilt or innocence, Surgeon General Sternberg merely recommends that Dr. Tabor's contract as an army surgeon be cancelled, which is, in effect, declaring him guilty and then letting him go without punishment.

It is estimated that Representative De Graffenreid, of Texas, whose fame as an orator has been widely spread by his colleagues in the House, has received invitations to speak in a larger number of Congressional districts than any individual ever received in a single campaign. Much as he would like to help all of his democratic friends, Mr. De Graffenreid cannot speak at all these places, but he will devote his entire time until election to making speeches, and I will cover as much ground as possible.

After awhile, it will get so that this government can do nothing without some syndicate being allowed to get a big profit out of the transaction, if taxes continue to go as they have gone under the Hanna regime. It was syndicates that compelled the government to pay fancy prices for vessels it bought for use in the war, and now that a board of naval officers have recommended the sale of a number of vessels that are no longer needed, a syndicate of rich men is said to have been formed for the purpose of buying all these vessels at bargain prices and selling them again at a profit. It will be easy enough for the administration to block the game of this syndicate, if it desires to do so. If the vessels are widely advertised and sold at public sale to the highest bidder, this syndicate will have no advantage over any other bidder.

Unless all surface signs are wrong, Secretary Alger and General Miles will be the leading opponents in a very warm fight in Congress this winter. Ever since Alger became the head of the War Department, he has made hard sledding for Miles; important orders have been issued in his name that he knew nothing about until he saw them in the newspapers, and everything he has wished to do has been thwarted. The first gun in the fight is likely to be the annual report of Miles, which will contain his idea of what legislation is needed for a reorganization of the army. It would probably have been in his testimony before Mr. McKinley's alleged investigating commission, but Alger took good care to see that he was not asked to testify.

Confidence continues to increase at the headquarters of the Democratic Congressional Campaign Committee that the democrats will elect a majority of the next House. Present indications are that the gain necessary to put the republicans in a minority, will be made in the Middle and Atlantic States, in which states the committee is doing much work that promises results.

According to Washington advices from Minnesota, John Lind is almost certain to be the next Governor. The Scandinavians, who are usually with the republicans, are supporting Lind almost to a man; there is much dissatisfaction with the War Department, not only because of its shortcomings in the war with Spain, but because of the bungling manner in which it handled the Indian outbreak at Bear Island.

THE PUBLIC LANDS OF MINNESOTA

Enormous Losses to the State From Republican Maladministration.

AN APPALLING ARRAY OF FACTS

Millions of Acres to Railways—Timber Lands Squandered—Mineral Lands Worse Than Stolen—What the Figures Show—What's to Be Done?—Change Men and Methods—John Lind For the Sacred Trust.

At the close of 40 years of Republican rule in Minnesota, a complete history of the dealings of that party and its varied officials with the public lands lying within the state, would read like a romance. Unfortunately no such history has been written. It never can be written. Much of it has never seen the light of day, and what is official, or semi-official, is the record of bare results. We know what has gone from us, but the arts used, the tricks and stratagems employed, alas! these are buried beneath the vast and colossal fortunes to corporations and individuals, which simply challenge the admiration of the passer-by. For vastness of enterprise, it is without limit; for wealth, it is "beyond the dreams of avarice;" and for the general paralyzing effects upon the common industries of the masses of the people, it stands without a parallel.

The public lands of Minnesota have been a source of immense revenue to many of her distinguished citizens. They too have not been wholly ungrateful for the favors so received. They have at all times been conspicuous in the council chambers of the grand old party. They have furnished the suggestions as well as the means by which for all this long period Republican ascendancy has been maintained. Meanwhile the meeker followers shouted lustily for the flag, and thanked God that no matter how other states might revolt, Minnesota was sure, and as steady as the needle to the pole. Can the game be continued longer, is now the one great question for the masses.

What the Railroads Have Received.

In round numbers the state of Minnesota contains about 54,000,000 acres of land. Of this amount there are today about 6,500,000 acres under cultivation by our farmers. Of the entire amount the railroads own or claim about 22,500,000 acres. This is about two-fifths of the entire area, and about three times as much as all our farms. Of course most of this came direct from the general government, and at a time when congress was giving away everything for the purpose of building railroads, and so opening up the country. But our legislatures followed the same rule. The state received from the government a grant of all the swamp lands with a view to their drainage and reclamation. From 1861 to 1836 practically all of these were given away to railroads by our various legislatures. THEY NEVER DRAINED AN ACRE OF THEM EXCEPT AS BECAME NECESSARY IN THE BUILDING OF THE LINE. A more wasteful disposition of lands cannot easily be imagined.

The Timber Lands.

In the northern half of this state once grew the finest of pine forests. For over 30 years the one work has been to first acquire the title. This has been done by sales, by pre-emptions and by homesteading. Careful explorers estimated the timber, the next thing was to secure the title. Practically everything was taken as fast as surveyed, and it may now be said that the bulk has fallen into the hands of speculators, and at the minimum price of $1.25 and $2.50 per acre. On lands owned by the state and where trespasses were committed and detected, the matters were adjusted as best they could be. The saw and the axe have been at work all these years and there is as much left as has been taken. Vast corporations now control all that is left, and both the general government and the state have been fleeced at every turn.

The Mineral Lands.

The same may be said of the mineral lands. Some 10 to 15 years ago it began to develop that iron ore in immense quantities existed on the Vermillion and Mesabi ranges. Then came the day of the speculator, the explorer, and later the millionaire. A single instance will show some of the gains and losses. In 1884 the state of Minnesota had selected certain lands as indemnity school lands. In 1887, however, these selections were relinquished. Two private citizens claimed them as homesteads, although a crow could not have lived there. They ultimately turned up in a company controlled by Rockfeller. He in turn leased them to Carnegie for $600,000 in cash, and a bonus or royalty of 50 cents per ton for 50 years. The amount to be taken out each year was at least 600,000 tons. This gave the Mountain Iron mine a value of fully $16,000,000. One of the Merrits placed the value at $20,000,000. Meanwhile the state leases its mines on a royalty 25 cents per ton.

Of the 3,500,000 acres or thereabouts, donated for our public school fund, about 1,500,000 acres have so far been sold. The price averages less than $6 per acre. This, with receipts for stumpage and royalties, makes the school fund now about $12,000,000. THAT IS TO SAY, ALL SUCH SALES AND RECEIPTS ARE FAR LESS THAN THE VALUE OF THAT ONE MINE! Yet it once fairly belonged to the school fund and was afterwards lost. The legislature in 1897 took steps looking to its recovery. The chances for success are infinitesimal. Those robber barons follow the rule of Robin Hood:

"The good old rule, the simple plan,
That they shall take who have the power,
And they shall keep who can."

Thus it is that what is the school fund's loss is the corporation's gain.

Taxation of Railroad Lands.

During all these years the railroads managed in one way or another to keep their unused lands out of taxation. The Anderson bill and the supreme court decision changed all this, and now some three or four million acres are to be taxed just as other property is taxed. The valuation will probably be from fifteen to twenty million dollars. THIS DECISION, COUPLED WITH THAT IN THE STEENERSON RATE CASE, HAS DONE MORE FOR THE PEOPLE OF MINNESOTA THAN ALL OTHER ACTS COMBINED. THE LATTER ALONE WILL SAVE THE SHIPPERS A MILLION DOLLARS THIS FIRST YEAR. Remember that this decision is due to Justices Canty, Buck and Mitchell, the reform candidates for supreme court.

Selections of Land.

The railroads always claimed the right of making selections of lands so granted by the state. To this end they kept surveyors and explorers out, and they never failed to select the best, be it a farm or a mine. It mattered little whether a swamp. In 1894, however, the Democratic state auditor, Mr. Biermann, conceived it to be his duty to make the selections, which he did for some 271,000 acres. The company simply rebelled, and the deed therefor is still untaken. The legislature, however, has since been besieged "to adjust the matter." Will the adjustment succeed?

Nothing to Say.

Upon all these important matters the late Republican platform has not a word to say. Indeed it has nothing to say about any state matter except "good roads." Is its solicitude for good roads prompted by a desire to make more comfortable the carriage of the millionaire? Or is the solicitude for the wagon of the farmer?

With such mighty interests at stake as the proper care of our public lands, and the proper maintenance of that most sacred of all objects—the fund for the education of our children—who do the people of Minnesota prefer as their next governor?

Will it be William Henry Eustis, WHO BOWED THE KNEE TO THE MINNEAPOLIS STREET CAR COMPANY WHEN IT REFUSED TRANSFERS, AND TOOK UP THE FIGHT AGAINST HIS OWN NEIGHEORS AND FRIENDS? Who later on allowed the city of which he was the mayor to be swindled in the hospital deal?

OR WILL IT BE HONEST JOHN LIND? THE MAN WHO NEVER WAS FOUND ON THE SIDE OF THE OPPRESSORS OF THE PEOPLE!

The answer at once comes back: WE DEMAND A CHANGE OF MEN AND A CHANGE OF METHODS! LIND ALONE CAN AND WILL GIVE TO THE PEOPLE OF MINNESOTA AN HONEST AN CAPABLE ADMINISTRATION OF OUR STATE AFFAIRS!

SHAME ON HYPOCRISY.

Mankato Review, referring to the ridiculous "charges" against Quartermaster Lind: It is just such pretenses as this that cover up and protect thievery. Mr. Lind is an intelligent man, undoubtedly understands the powers of his position and the means of redress. When he says he spent hours every day protesting against those things he undoubtedly made his complaints to the proper channel. That they were not heeded and the evils redressed, is sufficient and convincing proof to these reckless and partisan papers that Mr. Lind, the accuser, and not the perpetrators high in authority and protected by the war department, is to blame. Shame on such hypocrisy and downright dishonesty.

ELECT JOHN LIND.

Irish Standard: If William Henry Eustis is elected governor of the state the interest of Dives will be attended to as they have been by his Republican predecessors during the past 40 years. We trust the people will exercise common sense and consult their own interests by electing honest John Lind, the unanimous choice of the reform forces of the state.

JUDGES FOR ALL THE PEOPLE.

Progressive Age: The corporations and combines favor the defeat of Justices Canty, Mitchell and Buck. Do not forget this cogent fact. It was the courage of these men that made the railways pay taxes on their lands as well as the actual settler, and of course they want a court that will favor their interests. Do the people want a court that the railways want?

WANTED—A HOUSECLEANING.

Twin City Guardian: If John Lind is elected governor of this state Nov. 8, 1898, we will have an opportunity of cleaning up our state board of equalization. A general housecleaning is very much needed at this time.

ALGERIAN WHITEWASH.

Litchfield Independent: Twenty dollars a day and expenses is what each of the nine investigating commissioners are to get for clearing Alger of the charge of incompetency in his management of the war department. This is a pretty steep figure to pay for whitewash.

INJURED INNOCENCE.

Litchfield Independent: The administration at Washington is now busy investigating itself. If it don't make out a clear case of injured innocence we will be mistaken.

A Point For Schoolgirls.

THERE are very few schoolgirls, whose parents are in moderate circumstances, who would not gladly give every Saturday morning to regularly earn fifty cents or a dollar.

Well, each one of these thriftily inclined girls can earn, or save, fully this amount by devoting half of her holiday to going through her wardrobe and systematically mending, brushing, and arranging her clothes, airing and sunning closets and bureau drawers, and seeing that her handkerchief case, glove case, veil sachet, manicure set, and, indeed, all her toilet appurtenances, are in perfect order.

After this system of care-taking is once well under way it is a question if it would require all of Saturday morning each week. Two hours of the precious day would probably do the work satisfactorily, and not only aid in materially reducing household expenses, but contribute to peace of mind and physical well being throughout the ensuing week.—From "How Every Girl Can Save Money," in Demorest's Magazine for November.

What 20 Cents Will Do.

By sending the above amount to The Detroit Free Press, Detroit, Mich., they will send you The Twice-a-Week Detroit Free Press, from date of receipt of your order until January 1, 1899. This special reduced rate is given to introduce the paper to new readers. The Twice-a-Week Free Press is a clean, up to date family newspaper, and everyone should take advantage of this special offer. The greatest value ever offered for 20 cents. Send in your order at once.

Add 25 cents and send to us and get the Detroit Free Press and the Buffalo Gazette both until January 1. This through the coming hot political campaign.

It is mainly office work conducted at home, salary $18 a night $780 a year and expenses advanced, inquire, no more, no less salary. Monthly Reference. Enclose self-addressed Stamped envelope, Herbert E. Hess, Press., Chicago. 35 20t

If It's Worth Printing the Twice-a-Week Courier-Journal Will Print It.

And Every Democrat, Every Republican, Every Man, Woman or Child who can read will want to read it.

"Meantime we prefer to take our chance with the conservative Democrats, fighting within the party, to reform it of its excesses, and to restore to its better uses, than to pursue an ignis fatuus which, if it had been more real, would have resulted in the election, instead of the defeat, of the Free Silver Fusion in 1896, and which with singular unanimity, the voters have refused to follow.

"The Courier-Journal is a Democratic paper, of six or eight pages, issued Wednesday and Saturday of each week. The Wednesday issue prints all the Clean News, and the Saturday issue prints Stories, Miscellany, Poetry, all matters of special interest in the home. It is edited by Henry Watterson.

Price $1.00 a Year.

You get 104 good papers of six or eight pages each, for $1—less than one cent a paper.

USEFUL PREMIUMS.

Are given Club Raisers, and good-paying commissions are allowed agents.

Daily Courier-Journal, 1 year, $6.00
Daily and Sunday, 1 year, 8.00
Sunday alone, 1 year, 2.00

Twice-a-Week Courier-Journal
And the
Buffalo Gazette
Both one year
For Only $1.30.

We have made a special clubbing arrangement with the Twice-a-Week Courier-Journal and will send that paper and our paper for the price named to all our subscribers who will renew and pay in advance, or to all new subscribers who will pay in advance. Sample copies of either paper sent free on application.

Miss Antoinette Greely, daughter of the arctic explorer, and Miss Rosemary Sartoris, a granddaughter of Gen. Grant, will be among the debutantes in Washington this season.

Admiral Dewey is still capturing vagrant vessels, holding the fort, and generally conducting the affairs of his jurisdiction on the American plan, regardless of the nerves of other nations.

Within the next three years the United States navy will be increased by 35 new vessels. The addition is a valuable peace preservative and therefore in line with the czar's proposition.

The Cleveland theatrical manager who has decided to restrict his advertising to the newspapers will not regret the policy. Newspaper advertising is immeasurably the best way and never misses fire.

There is a big demand for bicycles in Asia Minor, and American manufacturers sell more than 50 per cent. of the trade. Many more would be sold if the roads were in good condition, but the Turks do not bother themselves very much about good road making.

Nearly 2,000,000,000 gallons of beer, ale and distilled liquors are produced in the United States each year. Perhaps the sentiment in favor of christening battleships with water grows out of the possibility that it may soon become the most precious and uncommon of all the liquids.

Observations made at the Massachusetts agricultural experiment station show that 80 per cent. of the food of the ungainly and repulsive-looking toad is made up of insects injurious to agriculture. The toad is an especial enemy of the army worm, the cutworm and greenhouse pests generally, and does a lot of good in its modest way.

As an incentive to the study of good literature the plan adopted in the New York public schools of celebrating the birthdays of distinguished American authors has much to commend it. The celebration includes a brief sketch by the teacher of the life and career of the author, and this is followed by the readings of selections from some of his works.

C. Godfrey Gumpel, an English scientist, has spent 27 years in studying the effects of salt upon the body, and is about to publish a book which he thinks will be revolutionary. He attributes diphtheria, apoplexy and various other diseases to a deficiency of common salt in the system. This will be a serious setback to the anti-salt diet reformers.

At the meeting of the Cambridge, (Eng.) congress of zoology, Prof. Haecket, in a paper on the present knowledge of the descent of man, declared that science had now established with absolute certainty that man descended through various stages of evolution from the lowest form of animal life during a period estimated at 1,000,000,000 years. This goes back some years beyond the memory of the oldest inhabitant.

An ingenious Illinois scientist has announced a discovery that bids fair to make great inroads on the poultry business and at the same time add luster to the already brilliant halo that surrounds the cow. He is about to perfect a process whereby eggs may be made out of milk, and already there is marked depression in gallinaceous circles. It is currently reported that the savant is not content to rest on his laurels, but is already in hot pursuit of an idea to make duck eggs out of the milk of the sea cow.

The question of profit in sugar beet culture was lately discussed by a farmers' association in Pennsylvania whose members had been experimenting with beets with a view to raising them for sugar factories. The conclusion was reached that the cost of growing beets was greater than that of raising corn; that beets alone are not a wholesome food for cattle, but corn and sugar beets together are very nourishing; finally, that it is much more profitable to raise sugar beets and feed them than to sell them at five dollars a ton for making sugar.

The uprising of the Pillager Indians at Leech Lake, Minn., brings to mind previous Indian wars, and it will be somewhat surprising to most people to learn that these wars have been 20 in number, have cost over $100,000,000, and have called for the sacrifice of thousands of soldiers during the past two-thirds of a century. In the early days of the west, when Uncle Sam's soldiers had not yet learned to fight the Indian and meet him at his own game of trickery, the loss of life among the troops sent out to fight the red men was very large.

The highest mountain peak in North America, it is said, has been discovered in Alaska by the G. H. Eldridge geological survey party. It is situated to the right of the Sushitna river, near Mount St. Elias. The government topographer took triangulations of the elevations, ascertaining the exact height of the peak, which he declared to be more than 20,000 feet. The mountain was named Bullshae, a word spoken in exclamation by the Indian guide of the party upon first beholding the wonderful peak. An assent would be almost impossible.

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

With sealed orders from Washington the battleships Oregon and Iowa sailed from New York.

His men not being furnished with rations, Capt. E. V. Walsh, of company F, First Missouri volunteers, marched his company out of Jefferson barracks in St. Louis and dismissed them—a thing unparalleled in military history.

The American flag will be raised over San Juan October 18.

In Havana Maj. Beebe, of the American commission, died of yellow fever.

The Third Illinois infantry has been ordered back from Puerto Rico.

The Spanish officials at San Juan have signified their willingness to turn over the government of Puerto Rico to the Americans.

The war department issued orders reducing the number of men in the Nebraska regiments to 81 men, but Col. Bryan will remain in the service.

The demand of the United States that the island of Puerto Rico shall be turned over to this government on October 18 has been agreed to by Spain.

The Spanish steamer Reina Maria Cristina sailed from Havana for Spain with 1,073 officers and troops.

In the case of Joseph P. McIntyre, chaplain of the warship Oregon, the court-martial found him guilty of conduct unbecoming an officer and sentenced him to dismissal from the naval service.

Maj. Gen. Greene has been ordered to report to Gen. Fitzhugh Lee, and will command a division of the army of Cuban occupation.

There are 55 war vessels now under contract for the government, and when completed America will rank third in naval power.

A dispatch from Manila says that Macabulos, the chief controlling the five northern provinces of Luzon, has revolted against Aguinaldo, and that sharp fighting between the insurgents is proceeding.

Spain's government cabled Gen. Blanco not to turn over any further territory to the Americans until the peace treaty had been definitely signed.

The president of the Spanish commission, Montero Rios, said in Paris that Spain would never give up the Philippines, no matter what the consequences might be.

FROM WASHINGTON.

The wife of the former secretary of state, John Sherman, suffered a stroke of paralysis and was in a critical condition at her home in Washington.

THE EAST.

The richest man in New England, John Murray Forbes, died at his home in Milton, Mass., aged 85 years.

By an explosion of gas in a colliery at Coaldale, Pa., five men were killed and 11 injured.

The firm of J. McD. Scott & Co., wholesale shoe dealers in Pittsburgh, Pa., failed for $200,000.

The firm of Adams & Bishop, manufacturers and wholesale dealers in paper in New York, failed for $200,000.

Reuben H. Lloyd, of San Francisco, was elected grand master at the meeting in Pittsburgh, Pa., of the grand encampment of the Knights Templar.

Because of a defalcation on the part of Eli W. Stone, the assistant cashier, the doors of the Tioga national bank of Owego, N. Y. were closed.

At the leading clearing houses in the United States the exchanges during the week ended on the 14th aggregated $1,389,261,652, against $1,466,580,990 the previous week. The increase compared with the corresponding week in 1897 was 6.1.

In the United States there were 205 business failures in the seven days ended on the 14th, against 169 the week previous and 223 in the corresponding period of 1897.

En route from London for New York the British steamer Mohegan ran ashore between the Manacles and Lizard point on the coast of Cornwall and 169 persons lost their lives.

WEST AND SOUTH.

At Virden, Ill., an attempt to place negro workmen in the mines brought on a battle in which 11 men were killed and over a score were badly injured. Troops were ordered by the governor to the scene.

In Canton, O., Mrs. Annie E. George was held to the grand jury charged with the murder of George D. Saxton.

Near Walker, Minn., three railway employes were drowned by the capsizing of a boat.

One-half of the business portion of Coloma, Mich., was destroyed by fire.

The Colorado middle-of-the-road populists have chosen Judge James Glynn, of Leadville, as their nominee for governor in the place of Simon Guggenheim, who declined.

Near Middlebury, O., James Prall, a farmer, shot his wife fatally and then killed himself.

Chicago had a snowstorm, the first of the season and the earliest in the past 26 years.

At San Quentin, Cal., John Miller was hanged for killing James Childs, of San Francisco, in November, 1896.

Julia Wilson died in New Albany, Ind., aged 100 years.

Further reports from Virden, Ill., say that 14 persons were killed in the recent battle between miners and 22 were wounded. The militia were in control, but further trouble was feared.

The president left Omaha for St. Louis, was greeted by immense crowds at every stopping place and made several brief speeches.

Misses Adda and Alma McKee, twin sisters, were married to twin brothers, William and Frank Brindle, at Wilmington, O.

On the 24th inst. the National Council of Women of the United States will meet at Omaha.

A furnace exploded in Youngstown, O., and Dominick Joyce, Thomas Mackin, Matt Gloney and Will Elgon were fatally injured.

In Lake Michigan, off Waukegan, the schooner Churchill, of Chicago, laden with iron ore, foundered, and Capt. Cain and Barney Nelson were drowned.

The safe of the Consolidated Milling and Hardwood company in Minneapolis was robbed of $56,000 worth of United States bonds.

At Visalia, Cal., an earthquake rocked houses on their foundations, broke crockery and aroused many people.

Three tramps were killed by the colliding of trains near Decatur, Ark.

In Chicago George H. Jacks and John Druggan were hanged. Jacks killed a man named Andrew F. McGhee and Druggan took the life of Robert F. Gudgeon.

The president arrived in St. Louis and was given a public reception, after which he spoke at the exposition.

FOREIGN INTELLIGENCE.

Germany's emperor and empress started from Berlin on a trip to the Holy Land.

Advices from customs officials at all the points in China show that American imports are increasing, while those of other countries are decreasing.

In the Fashoda affair France has concluded a treaty with Abyssinia against England.

The police in Alexandria, Egypt, arrested nine Italian anarchists and thereby frustrated a plot to kill Emperor William, now on his way to the Holy Land.

In Paris plans to overthrow the government of France were discovered.

LATER NEWS.

The Chicago University makes President McKinley a doctor of laws.

The impression is growing in the minds of the American commissioners that Spain expects the United States will ultimately assist in sending the Spanish troops back to the peninsula. It may be that the present vexatious delays are caused for the purpose of tiring American patience until McKinley will be glad to send ships in order to expedite matters.

The city council of Cleveland, O., has passed an ordinance reducing street railway fares to four cents and seven tickets for a quarter.

Russia has hastily concentrated 40,000 troops at Port Arthur, to be ready for any emergency at Pekin.

At the meeting of the peace commission the 17th, Judge Day in a forcible manner informed the Spanish members that under no circumstances would the United States assume any part of the Cuban debt.

Gen. Brooke has plenary powers in Porto Rico and will have sole charge of the government of the island until some other arrangement is made.

The earliest winter storm in the Southeast in 25 years, and the worst early storm on record almost completely shut Kansas City off from wire communication with the South, the West and the North. An opening on the east has alone kept the city from being totally isolated.

Burglars made an unsuccessful attempt to rob the Farmer's bank at Promise City, Io. The nitro glycerine failed to open the doors of the vault.

The first official recognition of the regular commercial transportation service in Porto Rico was an agreement entered into the at postoffice department for carrying the mails between Ponce and San Juan, the chief cities of the island.

Gen. Brooke telegraphs that American flags have been raised on all public buildings in San Juan, Porto Rico, and occupation of the island is complete.

Jesse James, Jr., is indicted by the grand jury at Kansas City, Mo., for train robbery.

The Indian commissioner believes the Leech Lake troubles are ended.

The German National Bank of Pittsburg, Pa., has suspended payment.

Judge Hammond, of the United States circuit court, granted the application of the American Steel and Wire company, of Cleveland, O., for an injunction against the striking wire drawers.

Both houses of the Vermont legislature, by an overwhelming vote, re-elected Senator Proctor to the United States senate.

Gen. Lawton and staff arrived at New York from Santiago.

NO HOPE FOR SPAIN.

No Part of the Cuban Debt Will be Assumed by the United States Under Any Circumstances.

Washington, Oct. 18.—The dispatches from Paris printed today describe the situation in the joint peace commission as acute. None of the Cuban debt will be assumed by the United States. No negotiations in Paris or elsewhere can change the positive attitude which President McKinley and the administration, through the commissioners at Paris, will take. Therefore the American people can put aside as groundless all reports, no matter from what source they come, which indicate that any portion of the Cuban debt is to be shouldered by this country.

The dispatches also show that Judge Day stated this fact very plainly to the Spanish commissioners and it is very well understood here that those gentlemen know by this time it is absolutely useless for them to hope to make any change in that part of the program for the settlement of a peace treaty.

It is equally well understood here that while the Spanish commissioners are convinced themselves that the United States will make no change in in this regard, they must make a pretense and go through the form of endeavoring to secure some concessions. That is necessary for its effect in Madrid, where anything looking like an easy surrender to the demands of the United States might provoke a crisis.

MARKETS.

Minneapolis, Oct. 18.

Wheat—No. 1 northern, 64 to 65c; No. 2 northern, 62 to 63; Dec. 63¼c.

Oats—No. 3 white, 22 to 23c.

Corn—No. 3, 28c.

Cattle—Steers, $3.80 to 4.20, cows, $2.70.

Hogs—$3.75 to 3.85.

Sheep—Muttons, $3.10 to 4.25 lambs, $5.25.

Butter—Creamery, extras, 17 to 18c; creamery, firsts, 16 to 17c; dairy, fancy, 14 to 15c.

Poultry—Turkey 7 to 8c: spring chickens, 7 to 8c.

AN EARLY BLIZZARD.

Snowstorm in Missouri That Almost Isolates Kansas City—Earliest Date in 25 Years.

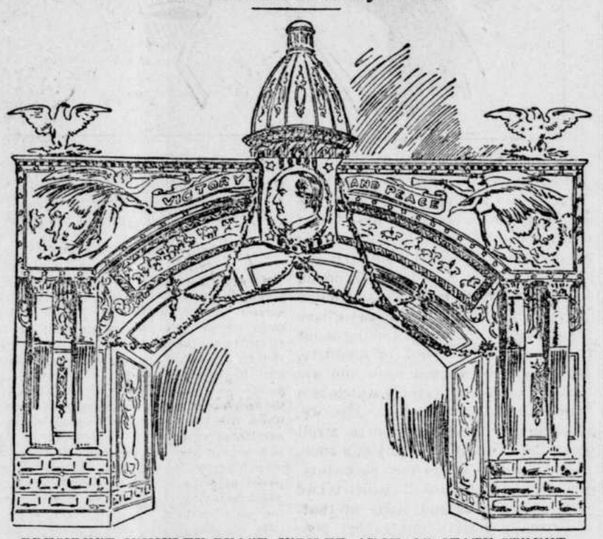
Kansas City, Mo., Oct. 18.—The earliest winter storm in the southwest in 25 years and the worst early storm on record has almost completely shut Kansas City off from wire communication with the south, the west and the north. An opening on the east has alone kept the city from being totally isolated. On the south a slow wire to Fort Scott, Kan., and Springfield, Mo., has been the limit; on the west, Lawrence, Kan., was the farthest point penetrated and on the north, St. Joseph Mo., has been the boundary. Arkansas City, Wichita and Hutchinson, Kan., on the southwest; Denver on the west, and Omaha on the north have been as silent as if off the map.

At Fairmont Park, near Kansas City, where portions of the Third and Fifth Missouri and Twenty-first and Twenty-second Kansas regiments respectively, are encamped, many tents were blown down and the soldiers made to suffer acutely.

St. Louis, Oct. 18.—The first blizzard of the season reached St. Louis Monday. A heavy wind blew all day at the velocity of nearly 30 miles an hour, and a drizzling rain fell. The rain began Sunday night changing to sleet in the early morning hours and then settling down to a continuous cold drizzle. Not much damage has been caused in the city, outside of the prostration of telegraph and telephone wires. The heavy wind made landing very difficult for the steamboats along the river. The Belle of Calhoun was driven against the wharf boat and narrowly escaped an accident. At night the rain ceased, but the cold, raw wind blew steadily.

Lincoln, Neb., Oct. 18.—Snow fell steadily throughout Nebraska during Monday night, with an increasing gale blowing and lower temperature. It has all the marks of a January northwester. Farmers and stockmen were unprepared for it and unhoused cattle will suffer. Trains have been delayed little thus far, as up to nightfall the snow melted nearly as fast as it fell. Street car traffic in this city is slightly impeded.

THE CHICAGO PEACE JUBILEE.



PRESIDENT M'KINLEY PEACE JUBILEE ARCH ON STATE STREET.

DISMISSED FROM SERVICE.

The Charges Against Chaplain McIntyre, of the Battleship Oregon, Are Found Proven.

Washington, Oct. 14.—The navy department has made public the findings and sentence of the court-martial in the case of Chaplain McIntyre.

The chaplain was charged first, with scandalous conduct, tending to the destruction of good morals, with three specifications; second, conduct to the prejudice of good order and discipline, with four specifications; third, conduct unbecoming an officer of the navy, three specifications. All these charges were founded upon the chaplain's criticism of his superior officers in a lecture delivered in Denver. All the specifications were found proved as alleged; the accused was declared guilty under the three charges and he was sentenced to be dismissed from the United States naval service.

The case is now under review at the department.

La Fayette Day in Chicago.

Chicago, Oct. 15.—Friday was celebrated as "La Fayette day" in Chicago. The date was advanced in this city from the 19th, the day originally set, and the date which is to be observed throughout the country, on account of the peace jubilee celebration, which will occupy the 17th, 18th and 19th of the month. The 250 public schools of this city held special exercises and each school contributed handsomely to the fund for a monument. The total amount contributed was about $10,000.

Stranded in St. Louis.

St. Louis, Oct. 15.—Fifty-seven negroes who came from Alabama to work in the mines at Virden, Ill., are stranded in this city. They arrived here Friday night over the Chicago & Alton road from Springfield, Ill., and as they have no transportation beyond St. Louis the men are unable to get out of the city. For the night the unfortunate men who were not allowed to stop at Virden were cared for in the emigrants' waiting-room.

Well-Known Actor Dead.

New York, Oct. 17.—A dispatch to the World from Lake Placid, N. Y., says: E. J. Henley, the well-known actor, died here Sunday afternoon from tuberculosis. He had been here for some time past on account of ill health, but had been seriously ill only a few days. He was born in England in 1861 and appeared on the American stage in many roles. His widow is Helen Bertram, the opera singer.

To Be Formally Deposed.

London, Oct. 17.—The Peking correspondent of the Daily Telegraph says: It is expected in the highest circles that the emperor will be formally deposed on November 23, the birthday of the empress dowager, and that Prince Jun, a boy of 13, will be nominated as his successor.

SCORES PERISHED.

Over 100 Persons Were Drowned by the Wrecking of the Mohegan Off Falmouth, Eng.

Falmouth, England, Oct. 17.—More than 100 lives were swallowed up by the sea when the steamer Mohegan went down Friday night. Although the number of victims is not so large as at first reported, the best accounts obtainable show two-thirds of those aboard perished. All day long bodies were washed ashore along the coast, and wreckage is scattered along the beach for miles. The survivors are receiving the best of attention and care. Of the 161 persons on board the Mohegan when she struck the rocks only 45 escaped, and these were nearly all picked up by a boat from the life-saving station.

Up to midnight 51 bodies had been recovered. Some were found miles away, in coves, and it is expected that more will be washed ashore to-day. Many persons undoubtedly were killed by being dashed on the rough rocks who would have escaped if cast ashore on an ordinary coast. Some of the bodies are horribly mangled. A good deal of jewelry and money has been found. As all the navigating officers were lost, it is doubtful whether light will ever be thrown on the causes of the disaster.

From the best evidence obtainable at St. Keverine it appears that the Mohegan foundered five minutes after she struck the rocks. She was going at full speed; she struck twice, stopped and rapidly settled in the water. As the captain and the executive officers of the steamer went down with her, it has been impossible thus far to ascertain how she got out of her course, as Falmouth light and the coast were visible.

[The Mohegan was built for the Wilson & Furness-Leyden line in England last year. She was one of the five steel ships, and took the highest class register at Lloyds. She was 480 feet long, with a beam of 52 feet and depth of 31 feet. She was of 7,000 tons gross register and had a carrying capacity of 10,000 tons. She had a speed of 14 knots, which enabled her to make the trip in about ten days. She was purchased from the Wilson line by the Atlantic Transport line last June, and made her maiden trip as the Cleopatra, arriving in New York August 12. Her name was then changed to the Mohegan, and this was her first voyage under the new name. Her freight was usually cattle.]

TWO MEN HANGED.

George H. Jacks and John Druggan, Convicted Chicago Murderers, Die on the Gallows.

Chicago, Oct. 15.—George H. Jacks and John Druggan, convicted murderers, were hanged in the county jail Friday. Contrary to the usual custom when two men are condemned to die upon the same day, the doomed men were not hanged at the same moment. Druggan was hanged first. The trap was sprung beneath him at a few seconds past 12:02 o'clock. Over 30 minutes later Jacks paid the penalty of his alleged crime. Both men died of strangulation, the fall having failed to break the cervical vertebrae. Death in each instance came after about 17 minutes of dangling at the ends of the ropes.

Jacks' crime was the murder of Andrew J. McGhee at 2030 Indiana avenue February 27 last. Robbery was the motive. Druggan killed Saloon Keeper R. F. Gudgeon at Johnson and Eighteenth streets January 11.

A PLOT DISCOVERED.

Military Plans to Overthrow the Government at Paris—Situation Serious.

Paris, Oct. 15.—It is announced here that a military plot against the government has been discovered. The Rappel, Aurore and Petite Republique Francaise publish almost identical stories of the subject. It appears that the plot was discovered by a general holding an important position. The plotters were to have taken action on Saturday, during the absence of the minister of war, M. Chanoins. It further appears that when the government was warned of the plot the ministers were not surprised, having already obtained information regarding the conspiracy.

London, Oct. 15.—The situation in Paris is regarded in well-informed quarters here as being more serious than at any time since the commune.

Given Comfortable Quarters

New York, Oct. 13.—A hundred and sixty soldiers from the Obdam, which arrived Tuesday, were taken in charge by Miss Helen Gould's agent Wednesday and comfortably housed in "Camp Walworth," on East Fifteenth street. The men are members of the First Kentucky, Fourth Ohio, Third Wisconsin, Twelfth Wisconsin and First United States volunteer engineer corps.

Southern Colonel Resigns.

Atlanta, Ga., Oct. 18.—Col. John S. Candler has resigned command of the Third Georgia and will continue to preside in the court of the Stone Mountain district. The move is made, Col. Candler says, in obedience to the wishes of his friends and the duty due his family.

FINANCE.

A Lady Depositor Who Sprung a New Sensation on the Paying Teller.

With sweet indifference to business ethics she stepped to the head of a line of men who were waiting to transact business with the young man at the window of the bank. He smiled mechanically while she reached into her pocket, but his fingers drummed nervously on the glass shelf, and his eyes looked far away, with the expression of one who hopes the future holds better things. At last she drew forth a little bundle of checks which had been tightly folded so as to fit into the smallest compartment of her pocket book.

"There," she said, with a smile which would have reconciled the long line of men to delay had they seen it, "I want the money on those."

The young man looked them over and exclaimed:

"Why, these have been paid!"

"I know that. I made them out myself and got the money for them. Then I went to the cashier and got them all back again. Now I want 38 cents."

"I confess I don't quite understand."

"The war is over, isn't it?"

"Certainly."

"And those little revenue stamps they made us put on each check was to pay the expenses of the war?"

"Of course."

"Well, now that we've got Puerto Rico and the Philippine islands and a whole lot of other valuable things, of course the government doesn't need our money any more. You will find 19 checks there, each with a two-cent stamp in the upper left-hand corner. That'll be 38 cents, please."

The receiving teller hadn't the heart to disappoint her himself. He told her she would have to see the note clerk, who attended to all such business.—Washington Star.

Misused.

Purchaser—I say, see how those knickerbockers have gone to pieces!

Tailor—Perhaps, sir, you sat down.

"Of course I sat down."

"I sold it to you as a walking suit, sir—only as a walking suit, sir!.'—Judy.

In Plain English.

Johnny—What does the paper mean, pa, by saying that Mr. Tomlinson bore the loss of his handsome property by fire very philosophically?

Johnny's Pa—Umph! It means that he was insured.—Stray Stories.

What She Called It.

Maud—I'm a little uneasy in my mind. Ned asked me to marry him, and I told him I might, some day. Now, would you call that a promise?

Marie—No; I should call it a threat.—Puck.

All Right.

Nodd—I signed a blank check and gave it to my wife yesterday.

Todd—Do you think that was prudent?

"Certainly! I know that the bank won't give her any more than I have."—Puck.

STATE OF OHIO, CITY OF TOLEDO, } ss.
LUCAS COUNTY,

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, County and State aforesaid, and that said firm will pay the sum of One Hundred Dollars for each and every case of catarrh that cannot be cured by the use of Hall's Catarrh Cure. FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886. A. W. GLEASON, [Seal] Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free. F. J. CHENEY & CO., Toledo, O.

Sold by druggists, 75c.

Hall's Family Pills are the best.

When a loafer finds a man busy he always inquires in the genial way common to loafers: "Busy?"—Atchison Globe.

It is easy, sure. It will vanish. Use St. Jacobs Oil for Neuralgia. It's done.

We have but little respect for a man who can't discover the easiest way to do things. —Washington (Ia.) Democrat.

Dear Editor:—If you know of a solicitor or canvasser in your city or elsewhere, especially a man who has solicited for subscriptions, insurance, nursery stock, books or tailoring, or a man who can sell goods, you will confer a favor by telling him to correspond with us; or if you will insert this notice in your paper and such parties will cut this notice out and mail to us, we may be able to furnish them a good position in their own and adjoining counties. Address AMERICAN WOOLEN MILLS CO., Chicago.

No one has ever been able to explain why bald-headed men have their hair cut oftener than other men.—Chicago Daily News.

How My Throat Hurts!—Why don't you use Hale's Honey of Horehound and Tar? Pike's Toothache Drops Cure in one minute.

It's a wise man that follows the races—at a safe distance.—Chicago Daily News.

"It's gone," he said. "10 years of rheumatism. St. Jacobs Oil did it."

Almost anybody can own a horse and buggy.—Washington Democrat.

The Fall

With its sudden changes, its hot days and chilly nights, dampness and decaying vegetation, is peculiarly trying to the health. A good Fall Medicine is as important and beneficial as Spring Medicine. Hood's Sarsaparilla keeps the blood pure, wards off malaria, creates a good appetite, gives refreshing sleep, and maintains the health tone through this trying season.

Hood's Sarsaparilla

Is America's Greatest Medicine.

Hood's Pills cure all liver ills. 25 cents.

A perfect type of the highest order of excellence.

TRADE-MARK

Walter Baker & Co.'s Breakfast Cocoa

Woman's Mysterious Ills.

Explanation of their nature by Dr. Hartman, who tells how to cure them.

YOUNG

women are constantly puzzled about their health. Indeed female troubles puzzle all women. Older women have experience, but few possess knowledge of the subject. The periodical suffering is painful. It is accompanied by many varying sensations that distress. How much of this is necessary is a matter of guesswork. The whole question is shrouded in professional mystery.

Dr. Hartman's book for women, called "Health and Beauty," treats these matters with delicacy, and at the same time with clearness. Write to the Pe-ru-na Medicine Company, Columbus, O., for it: it is mailed free. It is a practical printed talk to women. Dr. Hartman defines women's diseases as catarrh and tells how Pe-ru-na cures them.

Mrs. C. C. Naeve, 386 Morrison St., Portland, Ore., writes as follows:

Pe-ru-na Medicine Co., Columbus, O

DEAR SIRS:—"I began to take Pe-ru-na when I lived in Columbus, O., in 1887, and have used it and the Man-a-lin ever since whenever I needed medicine. I have never found an equal to Pe-ru-na for regulating the menses, and before I began to take it I was never regular and always had more or less pain. I had tried many different medicines before I saw Pe-ru-na but without success."

There is nothing mysterious about the action of Pe-ru-na. It is not a "cure-all," but it cures catarrh wherever located, and there may be catarrh in any organ of the body, as all are lined with mucous membrane.

Mrs. M. C. Mehl, 504 Walnut St., Columbia, Pa., says: "I have been troubled with catarrh and a soreness in my bowels for several years. I tried everything that was recommended. I tried Pe-ru-na and am happy to say that I am now entirely well."

Dr. Hartman's advice may be had without charge by any woman who will write for it. His book on Chronic Catarrh is also mailed free. It explains the danger of local treatment. All druggists sell Pe-ru-na.

THE MAJOR'S EXPERIENCE.

From the Detroit Free Press.

One of the stanchest supporters of the deep-water way from the Great Lakes to the ocean is Major A. C. Bishop, of 715 Third Ave., Detroit, a civil engineer of wide experience and considerable prominence in his profession. He was assistant engineer on the Hudson River Railroad in 1850 and has since conducted large engineering operations. He has been located in Detroit, since 1815, and has a large acquaintance among the business men and citizens of this city.

Two years ago, for the first time, Major Bishop was in the hospital. For two months he had the best of medical attendance, but when he was discharged he was not like the Major Bishop of old. When asked regarding his health, he said: "When I had my last spell of sickness and came out of the hospital I was a sorry sight. I could not gain my strength, and could not walk over a block for several weeks.

Major Bishop.

"I noticed some articles in the newspapers regarding Dr. Williams' Pink Pills for Pale People, which convinced me that they were worth trying and bought two boxes. I did not take them for my complexion but for strength. After using them I felt better, and know they did me worlds of good. I am pleased to recommend them to invalids who need a tonic to build up their constitutions.

"A. C. BISHOP."

Subscribed and sworn to before me this eighth day of January, 1898.

ROBERT E. HULL, Jr. Notary Public.

The pure, powerful vegetable ingredients in Dr. Williams' Pink Pills for Pale People supply the antidote for poisonous matter in the blood and add those elements needed to build up body and brains. Many diseases long supposed by the medical profession to be incurable have succumbed to the potent influence of these pills. They can be taken by young or old, being harmless in their nature, but powerful in eliminating disease.

Often what a man calls principle is a mere bit of seeking to force his views upon others.—Washington (Ia.) Democrat.

A New York Central Innovation.

George H. Daniels, of the New York Central & Hudson River Railroad, has made an announcement which is of a rather startling nature, but it is one which ought to please the patrons of that great system, and particularly those who travel on mileage books. The circular reads as follows:

Mileage books, good for 500 miles and 1,000 miles travel, are now on sale at all stations on the New York Central (divisions and branches) at the rate of $10 and $20 respectively.

These tickets are good until used, and are available for passage on the main line of the New York Central, and all of its branches and divisions, including the Harlem, Putnam, Rome, Watertown & Ogdensburg, Carthage & Adirondack, Geneva & Lyons and the Adirondack (Utica to Montreal) divisions.

Mileage books will be issued in the name of the head of a family or firm, and will be available for the use of any member of such family or for any traveler for a firm, provided the name of such member or traveler is written in the book by the agent selling it, in the place designated. They will be honored for transportation by the conductors of all trains, including limited trains, but only to the end of the run of each conductor.

If the holder of such ticket desires to ride beyond the run of a conductor, or on a night train, or to a point on a branch line, he should present his mileage ticket to the ticket agent, who will detach the proper mileage and issue a mileage exchange ticket, on which baggage will be checked to any station on the New York Central or any of its branch lines, thus avoiding the necessity of being disturbed after retiring, or of rechecking baggage.—From the Pittsburgh Post, August 21, 1898.

A good many women carry amiability too far.—Atchison Globe.

It Hangs On

If it was only health, we might let it cling.

But it is a cough. One cold no sooner passes off before another comes. But it's the same old cough all the time.

And it's the same old story, too. There is first the cold, then the cough, then pneumonia or consumption with the long sickness, and life trembling in the balance.

Ayer's Cherry Pectoral

loosens the grasp of your cough. The congestion of the throat and lungs is removed; all inflammation is subdued; the parts are put perfectly at rest and the cough drops away. It has no diseased tissues on which to hang.

Dr. Ayer's Cherry Pectoral Plaster

draws out inflammation of the lungs.

Advice Free.

Remember we have a Medical Department. If you have any complaint whatever and desire the best medical advice you can possibly obtain, write the doctor freely. You will receive a prompt reply, without cost.

Address, DR. J. C. AYER, Lowell, Mass.

MINNESOTA NEWS.

NEW REGIMENT.

Work has already been commenced on the reorganization of the new Minnesota National Guards, and it is quite certain that the Fourth Regiment will be organized at once. Gov. Clough and Adjt. Gen. Muehlberg commenced working on the reorganization.

This action was taken in accordance with an opinion handed the governor by Attorney General Childs. It is to the effect that the governor may make such increase in the national guard as he sees fit without first mustering out any of the three regiments still in service. The plans, as set about immediately by the governor and adjutant general, is to organize two companies in Minneapolis and two in St. Paul.

The governor received a reply to his message to the war department informing him that 500 guns, 50,000 rounds of ammunition and the other equipment asked for had been expressed to this state from the Rock Island arsenal.

DOUBLE.

George A. St. Clair, a University of Minnesota lay school graduate of last June, has just come out of a disagreeable ordeal at Duluth with flying colors. Mr. St. Clair has the embarrassing distinction of resembling a famous and clever forger, who passed a batch of bad checks at Duluth and then fled, leaving the young attorney to bear the consequences. The latter was arrested as fitting the description of the man who rushed into several places as a hatless clerk from a neighboring store to cash a check, and one lady cashier stated positively that the right man had been arrested. Fortunately, however, young St. Clair could account for his time at the exact hours when the checks were passed, and this fact, together with his known good standing, finally convinced the police that a mistake had been made. Further investigation developed St. Clair's unfortunate resemblance to the real forger.

CHRISTMAS FOR THE BOYS.

The Minneapolis Auxiliary has done good work with the very gratifying result that at least nearly every boy in the Thirteenth regiment has been provided for, and a Christmas box will be sent to every boy in the regiment. All the boxes have been taken, and still offers are coming in. The committee has found considerable difficulty in locating all of the boys, as many of them came to the city from various points in the country on purpose to join the regiment, and are consequently unknown in the city. These have been now nearly all located and provided for.

A number of the boys in the regiment have been reported as now returning, and if the boxes have been sent in for these, they will be sent to some other man in the regiment unless there is some objection on the part of the packers of the box.

EXPENSES OF STATE INSTITUTIONS

State institutions filing expense lists for September with State Auditor Dunn yesterday were: University of Minnesota, $3,175.01; state experiment station, $1,-450.76; support substitution at Grand Rapids, $556.26; equipment station, Grand Rapids, $226.23; experimental farm (coeducation), $17.13; general library, $78.43; equipments, engineering department, $54; current expenses (farm), pay roll, $3,-766.81; current expenses (pay roll), $17,-425.37; salaries (school of mining and engineering), $430; current expenses, $868.21.

State prison, expense list, $3,287.57; St. Peter hospital, $16,420.28; Rochester hospital, $13,670.73; Fergus Falls hospital, $20,336.24; reformatory at St. Cloud, $5,-161.54; institute for defectives, $7,619.45; school for the feeble-minded, $8,862.51; school for the blind, $2,186.71.

A NEW TOWN.

With the development of the newly opened territory of the ceded Red Lake lands comes the filing of the plat of a new town which is being started on Shottley brook, a tributary of the south arm of Red lake.

The projectors are Capt. H. Buhse, of the steamer Viking, which plies between Thief River Falls and Red lake points, his sons, Max and Henry Buhse, and W. E. Brown, of Minneapolis. Associated with them is Walter Stremmel, who will open a general store.

The new town will supply the settlements which are being made on the lands newly opened. A new boat, christened the Inez Brown, has been built by the company for use at their settlement.

FOREST RESERVE.

Congressman Stevens wrote to B. E. Fernow, former chief of the forestry division of the agricultural department, relative to making a forest reconnaissance in Minnesota. In his reply Mr. Fernow stated that in 1897 a reconnoissance was made in Wisconsin and proved a great success. The Wisconsin state geological survey helped, and the document secured made very interesting reading. The initiative should come from the state, Mr. Fernow says. The letter concludes: "Your state has an institution headed by a chief fire warden, who has, in a manner, attempted to supply information derived from correspondents, while we would want to send a man or several men into the field."

AGAINST THE PROHIBITIONISTS.

The supreme court discharged the order to show cause issued against Secretary of State Berg in the matter of the order of party names on the state ballot. The discharging of the order means that the fusionists will have the second place on the ballot as Mr. Berg intended.

The decision was made from the bench and was announced by Justice Mitchell, the chief justice not being present. Only the interested attorneys and court officials were present. The formal written order and memoranda will be filed later.

BROKE HER NECK.

Minnie Olsen, a young lady about 22 years of age was almost instantly killed at Winona, being struck by a horse and buggy driven by Louis Heintz, a young clothing merchant. The girl was riding a bicycle and was struck while turning a street corner. Her neck was broken. She died a few minutes later, after being removed to a physician's office. Heintz immediately after the accident gave himself up to the police and is now in jail.

WHEAT STILL IN SHOCK.

The rainfall in the northern counties in the valley has been much heavier than in Polk, and as a consequence a large amount of wheat is still in shock in Marshall and Kittson counties. Competent authorities say that three-quarters is yet unsecured, and of this nearly the entire amount is sprouted. The loss is heavy any way the condition is viewed.

NEWS IN BRIEF.

Henry Weiss, who was convicted of having stolen hives of bees from a farmer at Bloomington, was sentenced to two years in the penitentiary. He is said to be one of a gang of St. Paul thieves who have been stealing from the farmers out that way of late.

Game Warden Terrill, at Winona, confiscated a barrel of fish consigned to Milwaukee parties. It had been accepted by the United States Express Company. The fish were shipped by J. Miller. Warrants have been issued for both parties.

It is a notable point that where a year ago the public stock of wheat in Minneapolis was 2,780,000 bushels, and in 1896, 13,545,000 bushels, at present it amounts to only 732,000 bushels.

Gov. Clough announced the appointment of E. V. Smalley as a delegate from Minnesota to attend the convention in the interest of the Nicaragua canal, which will be held in Chicago next month.

Rev. D. N. Beach, Plymouth Congregational church, Minneapolis, has been called to be pastor of the First Congregational church of Denver, Colo., by unanimous vote of the congregation.

The result of the football game between the University of Minnesota and Grinnell College, Iowa, was won by the latter. Score, 16 to 6.

A movement has been set on foot by Charles K. Levy, recently returned from the Omaha Exposition, to obtain for one of the parks of Minneapolis the Minnesota building at the exposition.

INDUSTRIAL COMMISSION.

The Body Created by the Last Congress Holds Its Initial Session.

Washington, Oct. 18. — The industrial commission, created at the last session of congress, held its opening meeting Monday at the capitol and outlined the general work before it. The commission is made up of five United States senators, five members of the house of representatives and nine persons from private life, who according to the act, "shall fairly represent the different industries and employments." The senators on the commission are Messrs. Kyle, Mantle, Penrose, Mallory and Daniel, , all of whom were present Monday except Mr. Mantle. The representatives in congress are Gardiner, Lorimer, Otjen, Livingstone and Bell, the absentees Monday being Messrs. Lorimer and Bell. All the members from private life were present, viz.: Messrs. A. L. Harris, of Ohio; S. D. N. North, of Massachusetts; A. A. Smythe, of South Carolina; E. V. Conger, of Michigan; T. V. Phillips, of Pennsylvania, J. M. Farquahar, of Buffalo; J. J. Harris, of North Carolina, and M. D. Ratchford, of Ohio. Chief Sargent of the Railway Firemen's organization, has declined to accept a place on the commission, and the vacancy caused by this action has not yet been filled.

At the meeting Monday a committee on organization was named, as follows: Phillips, Gardiner, North, Daniel and Livingstone. Later in the day this committee met and arranged a plan of organization. Messrs. Mallory, Otjen and Farquahar were named as a committee to secure quarters for the commission. Most of the time of the meeting was devoted to general discussion on the scope of the work ahead. The meeting was behind closed doors, but it is expected that the hearings to come later will be public.

IS NOW A LL. D.

The High Honor Is Conferred Upon President McKinley by the Chicago University.

Chicago, Oct. 18.—The University of Chicago on Monday conferred upon President William McKinley the degree of doctor of laws. Eight hundred people, as many as could be jammed into Kent theater, applauded to the echo as President Harper placed around the shoulders of the nation's executive the hood of purple—purple to indicate, as Dr. Harper said in Latin, that the recipient of the degree "had surpassed other men in native genius and devoted toil."

At four o'clock he left the university grounds and was driven to the First regiment armory, where for some time he received the public informally. Great crowds of people thronged the streets, clamoring for admission to the armory, and only a part succeeded in meeting the president during the time scheduled for the reception. In the evening a dinner was tendered the president at the Auditorium hotel by President Harper, of the university.

BRITISH VESSEL BURNED.

Suddenly Enveloped in Flames Off Margate, England—Twelve Lives Lost.

Margate, England, Oct. 18.—The British ship Blengfell, Capt. Johnson, from New York, September 19, for London, was destroyed by a sudden fire off this place early Monday morning. Nine of her crew, including the captain and a pilot, perished. The survivors were landed here and at Dover.

Later it developed that the captain's wife and children, the first and second mates, also were lost.

The Blengfell was passing here in a tow on her way to London at 6:50 a. m. four miles off the coast. She was suddenly enveloped in flames and smoke poured from her hatchways. Two lifeboats immediately put off to her assistance, but before they reached her both masts fell and she was burned to the water's edge. Her hull eventually drifted upon the Goodwin sands.

ARE READY TO QUIT.

Hostile Pillagers Decide to Surrender—Indian War in Northwest at an End.

Washington, Oct. 18.—Adjt. Gen. Corbin has received the following dispatch from Gen. Bacon, indicating that the Indian uprising in Minnesota is practically at an end:

"Walker, Minn., Oct. 18.—Adjutant General, Washington: At a council with hostile Indians the latter said they wanted no more fighting with United States soldiers, and agreed to come and surrender on Wednesday. This is the result of their defeat when engaged with me on the 5th. Commissioner of Indian Affairs Jones has been shown this telegram and concurs in the entire foregoing statement.

(Signed) "BACON, Brigadier General."

Charged with Murder.

Danville, Ill., Oct. 15.—Albert Underwood, Peter Card, Joseph Bilcus and Walter Halbert, of Westville; were arrested late Friday afternoon on bench warrant for murder of Swank in that city three weeks ago. Halbert's folks are very wealthy, his father being superintendent of Westville's largest mine. A bond of $50,000 was offered for his release, but was refused.

Indictment Against Jesse James.

Kansas City, Mo., Oct. 18.—The grand jury has returned indictments against Jesse James, son of the noted outlaw; William W. Lowe, the self-confessed train robber; Charles Polk, Andy Ryan and Cale Stone for holding up and robbing a Missouri Pacific train at the Belt Line Junction on the night of September 23.

Turks to Leave Crete.

Canea, Island of Crete, Oct. 17.—Ismail Bey, the Turkish military governor, has informed the admirals of the foreign warships that the sultan had ordered the withdrawal of all the Turkish troops in Crete, in compliance with the joint note of Great Britain, Russia, Italy and France.

Has Made Money.

Omaha, Neb., Oct. 17.—A cash balance in bank exceeding $300,000 now stands to the credit of the trans-Mississippi exposition. There are 15 days remaining.

Will Import More Gold.

New York, Oct. 15.—Lazard Freres announce that they will import $500,000 more gold.

RELATIONS ARE STRAINED.

Judge Day Calls a Halt on Delays of the Spanish Commissioners—Refuses to Consider Cuban Debt.

London, Oct. 18.—A dispatch to a London news agency from Paris says: Monday the peace conference reached a crisis for the first time. Judge Day presented the demands of the American commission in threatening words. He said that delay was the only possible object attainable by the persistent efforts of the Spanish commissioners to saddle the United States with the Cuban debt, and it would be tolerated no longer, as the United States would neither assume nor guarantee any part of the debt.

The Spaniards replied that this placed Spain in a position of repudiating or of reducing the face value of the Cuban bonds from 50 to 60 per cent., paying only half the stipulated interest on their reduced value. Before they would adopt either alternative they would surrender to the United States the entire Philippines.

Judge Day responded that the surrender of the Philippines would probably be demanded, irrespective of the Cuban or any other debt. This, to the Spaniards the first intimation of the intentions of the United States as to the Philippines, resulted in a whispered conference, followed by a request for adjournment in order to communicate with Madrid. Judge Day said that President McKinley had instructed him to demand the entire surrender of Puerto Rico Tuesday.

NIPPED IN THE BUD.

Plot to Assassinate Emperor William at Alexandria, Egypt, Is Foiled.

Alexandria, Egypt, Oct. 15.—The Alexandria police have arrested nine Italian anarchists and have thereby frustrated a plot against Emperor William, now on his way to the Holy Land, to be present at the consecration of the Church of the Savior at Jerusalem. The first to be arrested is a cafe keeper, a well-known anarchist, in whose house the police discovered two wire-wound bombs of great strength, full of bullets. This arrest was made in consequence of a notification from the Italian consul general at Cairo that two anarchists had left Cairo for Port Said. The police investigation showed that the arrested cafe keeper had bribed the steward of a steamer sailing from Alexandria to Port Said and Syria to take on board a box of bombs. Apparently the anarchists originally intended to use the bombs at the Palais Abidin, at Cairo, while Emperor William and the khedive were there. When the kaiser decided not to visit Egypt the anarchists changed their plans and decided to attack him in Palestine. The liveliest satisfaction is felt over the smart captures; and the German consulate has expressed its warmest thanks.

COSTS FIVE LIVES.

Awful Result of a Gas Explosion in a Mine Near Tamaqua, Pa.—List of the Victims.

Tamaqua, Pa., Oct. 14.—Five men were killed and 11 injured by an explosion of gas Thursday afternoon in colliery No. 8, at Coaldale, near here. The dead are: Fire Boss Thomas Smith, William R. Reese, Mattis O'Larkey, William Cook and John Konicka. All were married and leave large families. The most seriously injured are William Lawton, of Lansford, badly burned; James Rodgers, of Coaldale, leg broken; James Walter, of Coaldale, burned about the head; James Powell, of Summit Hill, shoulder broken; Evan Evans, of Coaldale, seriously burned about face and body; Daniel Dorrian, Lansford, leg broken; Reese Price, Coaldale, badly burned; Patrick O'Donnell, Summit Hill, burned about the body; John Gallagher, of Lansford, nervous shock.

The colliery is the largest producer of four in that valley owned by the Lehigh Coal & Navigation company. It has a capacity of over 300,000 tons of coal and employs 500 hands.

DISASTER IN ENGLAND.

Trains Collide Near London—Nine Persons Killed and More Than a Dozen Injured.

London, Oct. 18.—A terrible railway accident occurred Monday evening on the Great Central railway near Barnet, about 11 miles north of London. An express train running at the rate of a mile a minute came into collision with a freight train that was switching across the track at Barnet junction. The express piled up a complete wreck. Nine dead and 13 seriously injured have been recovered from the wreckage and there are others under the debris.

Beat the Record.

Louisville, Ky., Oct. 17.—At a benefit tendered to the Louisville league players Sunday, Hans Wagner, the Colonels' first baseman, beat the long-distance throwing record made by John Hatfield in 1872 by one yard and one-half inch. Wagner threw the ball 134 yards one foot and eight inches. Precisely 26 years ago Hatfield, then a member of the Mutuals, made a world's record of 132 yards, one foot, seven and one-half inches at the Union grounds, Brooklyn.

Order Is Restored.

Springfield, Ill., Oct. 17.—Col. Young, of the First Illinois cavalry, commanding the troops at Virden, was in Springfield Sunday and reported to Adjt. Gen. Reece that all is quiet there and that he does not fear any more trouble. Battery B, under Capt. Craig, remains at Virden, and Adjt. Gen. Reece says he will not order it away for a few days yet.

Killed by a Runaway Horse.

New York, Oct. 17.—James W. Glendenin, a millionaire coal merchant of this city, died at Roosevelt hospital Saturday night from injuries received from a runaway horse at Central Park circle.

Sultan Receives Minister Straus.

Constantinople, Oct. 17.—The sultan on Sunday gave an audience to Oscar S. Straus, the new United States minister, with the customary ceremonies of reception, which were of the most cordial character.

For Congress.

Boston, Oct. 18.—The democrats of the Eighth district nominated George A. Perkins for congress.

Our Treatment of Spanish Captives.

Never before in history was there a case where a defeated and captive enemy received such generous treatment as we gave the Spaniards. Other nations are astonished. Equally astonishing are the cures brought about by Hostetter's Stomach Bitters. Never before in history has there been so successful a medicine for the weak, debilitated and nervous, for stomach and liver disorders like dyspepsia, indigestion, biliousness and constipation. All nations have benefited by it, and all praise it.

If people kick to you take it so good-naturedly that they will feel ashamed of themselves. This is good advice, but we don't expect you to take it; no one takes good advice.—Atchison Globe.

Never mind a cane or crutch. St. Jacobs Oil will cure lame back.

"Some time, Phoebe, I shall show you a picture of the only girl I ever loved." "That's so kind of you, Mr. Sweetly; I always did think composite photographs were interesting."—Chicago Sun.

St. Jacobs Oil cures Soreness.
St. Jacobs Oil cures Stiffness.

The easiest way to take the conceit out of an amateur is to induce him to become a professional.—Brooklyn Life.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 25c.

More people would have bad habits if it didn't cost too much.—Washington (Ia.) Democrat.

Where's it gone? Ask St. Jacobs Oil. It cured that bruise—gone.

Some men are so dignified that they never unbend until they are dead broke.—Chicago Daily News.

Piso's Cure cured me of a Throat and Lung trouble of three years' standing.—E. Cady, Huntington, Ind., Nov. 12, 1894.

The most tiresome thing on earth is a practical joke.—Atchison Globe.

See! Bad sprain is cured. St. Jacobs Oil's magic worked it.

HAPPY MOTHERS AND HEALTHY CHILDREN.

Lydia E. Pinkham's Vegetable Compound Goes Straight to the Cause of All Female Troubles and Assures a Healthy Maternity.

Mrs. M. SINGER, 104 Hudson Ave., Rochester, N. Y., writes to Mrs. Pinkham as follows:

"When I applied to you for advice I had been suffering some years from debility, nervousness, etc. I had had several miscarriages and was pregnant when I wrote to you.

"I am grateful to say that after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was considerably better, and after using three more it brought me where I am to-day. I am well, and the mother of a three-months' old baby.

"Doctors had failed to help me. I have no one to thank but Mrs. Pinkham and her wonderful remedy."

Mrs. ELLA DUNGAN, Reeder's Mills, Iowa, writes:

"DEAR MRS. PINKHAM:—I thank you for what your medicine and advice have done for me.

"I have a baby two months old. When he was born I was sick only fifteen minutes, whereas with my other children I was sick for two or three days, and also suffered with my left leg, and could get nothing to relieve the pain but morphine. My leg did not trouble me at all this time. I had no after pains and was not as weak as I had been before.

"I cannot praise Lydia E. Pinkham's Vegetable Compound too highly. May God bless you in your noble work."

Mrs. J. W. PRUETT, Medford, Oregon, says:

"My health, also the baby's, we owe to Lydia E. Pinkham's Vegetable Compound."

Mrs. JOHN W. LONG, Wyoming, Iowa, writes:

"I had shooting pains all over my body, was very weak and nervous. I could not straighten up. I wished to become a mother but was afraid I never could. Seventeen months ago I got some of your Vegetable Compound, and after taking half a bottle was much relieved. I took four bottles and was cured. Now I have a big baby boy which I feel I owe to your Compound. Many thanks for your kind advice."

The Youth's Companion...

THOSE who subscribe at once for the 1899 volume will receive **Free** all the November and December issues from the time of subscription to January 1, 1899, including the beautiful Double Holiday Numbers. Among the many famous contributors to these issues will be . . . .

Rudyard Kipling Nov. 10th issue. "The Burning of the 'Sarah Sands.'" The story of a hero.

W. D. Howells Dec. 1st issue. "The Watermelon Patch." A story of fruit-loving boys.

Lillian Nordica Dec. 22d issue. "Incidents in a Singer's Life." An American prima donna's trials and triumphs.

THE volume for 1899 will be the best THE COMPANION has ever published. Each of the 52 weekly issues will contain half a dozen delightful stories, besides articles of rare interest. Famous soldiers, sailors, statesmen, scholars and story-writers will give their best work to readers of THE COMPANION.

50-CENT CALENDAR FREE TO NEW SUBSCRIBERS.

NEW SUBSCRIBERS who will cut out and send this slip, with name and address and $1.75, at once, will receive THE COMPANION every week from the first November issue until January, 1900, including:

FREE—All the November and December issues of 1898, inclusive of the beautiful Double Holiday Numbers.

FREE—The exquisite Companion Calendar for 1899, richer and costlier than any of the famous Companion Calendars of former years. Designed and lithographed in twelve colors exclusively for THE COMPANION. A charming ornament for the home.

AND THE COMPANION for the 52 weeks of 1899—a library in itself. M 31

Illustrated Announcement and Sample Copies Free.

BUFFALO GAZETTE

DELANO, FRIDAY, OCT. 21, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

DEMOCRATIC TICKET

For Governor,
JOHN LIND.

For Lieutenant Governor,
J. M. BOWLER.

For Secretary of State,
J. J. HEINRICHS.

For State Auditor,
GEO. M. LAMPHERE.

For State Treasurer,
ALEX McKINNON.

For Attorney General,
JUDGE J. F. KELLEY.

For Clerk of Supreme Court,
Z. H. AUSTIN.

Justices,
MITCHELL, CANTY, BUCK.

For Congress,
CHARLES A. TOWNE.

—The new laundry is proceeding to completion.

—Several prominent Republicans in town are avowed Towne men.

—Several letters from Manila arrived this week. We give that of our son Alva in another column.

—It is expected that C. A. Towne will speak in Delano before election day. He will have a houseful of people to hear him.

—Jerome Teichnors new residence on South Second street is drawing toward a finish. Jerome hopes to occupy it before cold weather.

—The continued rain and muddy roads has produced almost a wood, hay and feed famine. Nearly everybody is out of every thing.

—Farmers are now satisfied that there has been enough rain for the week past. They are waiting for a dry spell to finish up their fall work.

—See that your name is on the poll list so there will be no trouble about your being entitled to vote on election day. The list should be posted tomorrow.

—Politicians are having a hard time seeing their constituents this campaign. It is too muddy, we mean the roads. Perhaps voters will have a chance to vote their own sentiments once.

—Six tin boxes of Christmas presents were shipped from Delano this week to Minneapolis to be sent with the other similar boxes, one to each member of the 13th Reg, at Manila, Philippine Islands.

—Page Morris when he closed his address here said he would now leave his cause in the hands of the ladies and he expected them to see that he got a good vote. Just why he took it out of Post Master Lindsley's hands he did not say.

—The fire alarms brought the fire company and citizens into the street Wednesday evening after supper. After dilligent search for the cause a chimney on Mrs. Maggie Anderson's residence was found to have created the disturbance.

—Several festive parties were enjoyed by some of Delano's citizens this week. Miss Minnie Nelson and E. J. Swedeback and family moving to Bermidji, and J. W. Lindsley and wife who have been married for 30 years each were honored by their friends.

—Some of the country people coming into town over the Montrose road report having seen a sign nailed by the roadside about a mile out "A wife wanted." It is pretty muddy, but we expect as soon as the news becomes known the road will be like mortar from the tread of numerous dainty footed damsels answering the advertisement.

—Several interesting communications are unavoidably left out of our columns this week, one from Johnston Mealey, candidate for Senator, who says his nomination was unsolicited; one from a gentleman at Clearwater claiming to have met 25 Democrats who would not vote for Tarbox; one from a gentleman of a statisticial turn of mind living in Delano. We hope to be better situated for attending to correspondence later, but just now have to do the best we can.

—This morning's mail brought to us the following letter which will interest some of our readers:

GREAT NORTHERN R'y., N. Dakota.
Oct. 18, 1868.

DR. CATLIN:

I will write you about the wreck. At 6 o'clock this morning the freight and passenger ran together breeking the engine of the passenger and three box cars all to slivers, delayed us one day. It took 500 men to clear away the wreck today and fix up the track. It occurred between Berwick and Towner. The engineers arm broke, fireman badly injured, a man riding on the engine fatally injured; no other passengers hurt. The mail car was turned over; the baggage car off the track.

I write this to let the Delano folks know how I am enjoying my trip to Washington.

MRS. H. FELT.

Personal.

Sheriff Nugent was seen on the streets this morning.

Mr. and Mrs C. G. Halgren and son Dr. Harry drove over Wednesdy to the funeral of Mrs. Cunningham.

Miss Sadie Van Eman come up from Minneapolis last evening and went home to Watertown this A. M.

Will Koepohl returned to Duluth yesterday evening.

Will Guptil drove over and took Maj. Bowler to Rockford to speak Wednesday evening. The Maj. says he had a splendid meeting there.

County Cullings.

Some of the papers report John O'Leary at Hanover electioneering Sunday. He had better have been at church.

If you desire to have United States Senators elected by the people you must cease electing Republican State Senators and Representatives pledged to vote for C. K. Davis, Knute Nelson or any other man.

John O'Leary and August Hafften are trying to see who will get the most votes for Register of Deeds.

J. E. Madigan, is a candidate for Judge of Probate. One good Republican, at least, proposes to support him because he is a son in-law of Tim Desmond's. Jim will make a good run.

County Attorney will be Eaton Pidgeon; or Pidgeon Eaton we don't know which.

For Superintendent of schools Absie Ritchie is likely to be chosen. He is qualified, and in every way seems to suit the people. Superintendant Lee has had the office two terms and should not make too vigorous a kick against surrendering it to Mr. Ritchie for a season.

H. T. Moland most likely will be our next surveyor.

E. A. Shannon our present efficient Coroner deserves a reelection.

Joe Reems will probably be the next County Commission from the 2nd Dist. He filled the office before.

The Tarbox seems to be a pretty heavy loud for some of the Democratic bosses to keep along with the procession. We wouldn't be surprised to learn, after election, that the nasty stuff had stuck the "bosses" fast and that with the Tarbox they had not brought up at the goal to be counted better than among those who ran also.

Several of the county papers contain big head lines "Sheriff Nugent Gets Him," at first glance we thought it meant the nomination; later that perhaps he had captured a murderer at least, so many of whom appear uncaptured in our county. But on reading further we find it is Nick McVicor, who had been arrested for burglarizing a store in Buffalo and who had been at large for two years last June.

It has been runmored that Grant would not run for Sheriff. But from the Standard we learn that he is in the field, and as it is so bad getting about it his party supports him he may be elected. He was Carpenter's Deputy and knows how to run the office.

Frank T. Hamilton, of Maple Lake, who is running for County Auditor is a hustler, and is quite likely to surprise some politicians by being elected. If he should win the race he would doubtless make a first class Auditor.

From the Journal we learn that John H. Coolen, of Smith Lake, has been put up for County Treasurer. John used to live in Delano, is a son of our old lumberman John Coolen. He would run the office well if elected. But as he is put on the ticket at so late a date and the traveling is so poor his friends will have to exert themselves to pull his vote up.

August Lorentz, Independent, William Riek, Rep. and D. W. Flannigan Dem. are running in the 4th district for County Commissioner.

Johnston Mealey, of Howard Lake, J. C. Johnson, of Cokato, and H. K. Kelly, of Annandale, will, if elected, represent our county in the Senate and Legislature, to the satisfaction of the people. So far as we have learned all are good men.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Offical Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merrit. In the hospitals at Honolulu, in Hong Kong. In the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manill. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Large book. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barber, Sec'y., Star Insurance Bldg., Chicago.

On the Situation.

MAPLE PLAIN, Oct. 17, 1898.

EDITOR GAZETTE:—If I mistake not I promised to write you a letter. I will now try to fulfill my promise. I must say, in truth, your much esteemed paper, the GAZETTE, is so imbued with liberal thought and general intelligence that it ought to command the endorsement of every honest person. Now do not think the above taffy, for I mean it. I wish to say to any one who reads a strictly partizan paper and nothing else, that it will make that individual the most egregious, base fool, of which we can conceive. All such papers are calculated to lead astray all who rely on them.

Now Mr. Editor I intend to make this note as short as possible, and will say I think our state is in a desperate condition. You know very well this State has been mostly under republican rule, and as such, the people have been educated in republican doctrine mostly, and it is hard to learn old dogs new tricks. But the tricks of the G. O. P. have become so flagrant, so despotic and mean, it is enough to make a child strike its daddy to think of it. Prof. Cator and others were at Maple Plain last Saturday night and Mr. Caton delivered a lecture that was beyond precedence on the subject of good government. He also delineated to his hearers the malfeasance in office of the Republican party for lo these many years, which was the most astounding, heart rending, and diabolical budget of facts conceivable. Mr. Caton told us nearly all of the officers of the City of Minneapolis had stolen and robbed the city of its funds He said they had robbed the Treasury of thousands of dollars; had bribed people where they could; bribed each other to cover up their iniquity; and he made them out a gang of thieves and highway robbers. It was fully equal to Tammany, New York. How long must we, the tax payers, stand such a drive as that? If I were to express my candid opinion of the Republican party since it has been in existance, I should say, as a party, it has done more damage to this country than all other parties combined since we have had a government. The proofs of the above can be clearly given, but not in this letter. I will say further, that there is a pretty good prospect of turning the rascal boodlers out this fall, and having a change of administration, and we sincerely hope for the better dawn. In Nebraska they have turned the boodle G. O. P. out only what they have turned into the penetentiary, and have saved to the state a great many thousands of dollars. Now farmers put on your thinking caps and vote for honest men; vote for farmers and you are all right; because we have to carry all the load of taxation. If your have gold or silver you can hide it away in the ground where it came from and the Government can't get hold of it, to tax you, and you can go to Europe, and get the bullion value for it any time.

A FARMER.

Minneota Mascot: While under the influence of liquor, Thos. Heyden went to sleep on the track near Russel and was run over by a freight train, being, of course, ground to pieces, the remains being scattered along the road for a distance of about eighteen rods. Heyden was from Rock Valley, Iowa, and had been working with a threshing crew between Marshall and Russell.

John McGary Again.

Last Saturday week, your correspondent made a trip to Buffalo, county seat of Wright county, partly on business and to take in the Democratic Wright county convention: and, also, to hear Charles Towne speak; the noted Orator of the north west who stands head and sholders above any other speaker from the state of Minnesota. For two hours Mr. Towne held his audience in almost breathless silence while he expounded to them the Political issues of the day, his arguments were logical and to the point, and there is none of the opposite side who dare meet him on the platform. He is smart and brainy, and the argument is on his side.

On Saturday I had the pleasure of meeting a genial lot of fellows from different parts of Wright County who came there to represent their precincts in the Conty Convention. The convention passed off very quietly, and was very much unlike some of the Conventions we have in Hennepin County, which are more like an Indian war dance than a body of men who are in convention assembled.

The late rains will help out the farmer about their plowing.

It is claimed Maple Plain has several cases of Diphtheria and several houses have been quarentined.

There will be a free silver Democratic Rally at Schoolhouse Hall next Saturday evening, Oct. 15 1898. It is free to everybody. Come out and get your Jeffersonian strength renewed it will do you good.

The speakers will be T. J. Caton, Louis Thain, Mart Whitcomb and others. Remember the speaking begins at early candle light. Free silver or the money question is not dead as some suppose but it ever liveth and is alive forevermore.

DIED.

CUNNINGHAM.—On Sunday, Oct. 16, Mrs. Harriet A. Lowell, wife of John Cunningham, aged 64 yrs. 9 mo. 11 da.

Deceased was an old settler here having come into the Territory from Lowell, Mass., in '56. She was a loving wife and mother, a kind friend and neighbor. She leaves a husband, two sons, five daughters, and seven grandchildren, with many other friends to mourn her sudden death. She had retired early and about 9 o'clock had arisen from bed and was found by her daughter, sitting in a rocker, much distressed for breath; she complained of pain in the back. The members of the family at home, her husband, Emery and Viola, and her son in-law Dr. Catlin who was visiting with the others in the back part of the house came to her aid; but in a very few minutes her spirit had fled. The funeral was conducted from the M. E church, by Rev. J. W. Powell, Jr., of Minneapolis, and was a beautiful tribute to the departed one whose remains were laid in the Delano Cemetery near the side of her daughter who was named for her and who had preceded her a few years, to the other home.

C. A. French read a resolution which was adopted as follows:

RESOLVED: That we commend the course of Senator C. K. Davis the senior senator from this state, and earnestly urge that the nominees of this Senatorial Convention give him their undivided support, if elected to again return him to the United States senate at the close of his present term.

E. D. Washburn presented the following resolution, which was also passed:

WE, the republicans of Wright County in convention assembled, renew our allegiance to the principles of the republican party, and pledge our loyal support to all the nominees of the party in which as voters we exercise the rights of suffrage.

WANTED—SEVERAL TRUSTWORTHY PERsons in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $900 a year and expenses—definite, bonafide, no more, no less salary. Monthly $75. References. Enclose self-addressed stamped envelope. Herbert E. Hess, Prest., Dept. M, Chicago. 50-26t.

T. J. CATLIN, Publisher.

Entered as Second-Class Mail Matter at the Post Office in Delano, Minn

Vote for John Lind
Vote for Charles A. Towne
Vote the State ticket favoring reform
Bust all rings and turn down the "bosses"

MR. EUSTIS wasted a lot of eloquence on the Duluth breezes, the other day trying to make himself solid with the "Swedes" who it is claimed he insulted in a speech at Omaha. He took great pains to deny ever having said such things against the Swedes; but he seems to have entirely forgotten to talk about the Guaranty Loan and other things he is charged with.

ONE of the Republican City papers lately said Mr. Eustis never changes. That's just what we have been claiming all along. When he spoke here 2 years ago he said, when a boy he used to slip the bail of the water pail along until his brother George was carrying the whole load. Hasn't he slipped the bail onto his brothers end of the pole ever since? And want his actions result in the people slipping the ballot box along to the John Lind end of the pole on Nov. 8?

Page Morris Punctured.

A listener to Page Moris' recent Delano speech and a statistitian, gave us the following a few days since for publication. It leaves Page's sheep argument fearfully lame; and punctures several other bubbles:

That Morrs the high protection'st exaggerated the benefits of high protection, is natural. But as there are always two sides to every political question it is worth while to look at the other side too. The prosperity of the north west rests not on high tariff rates, but on the price the farmes get for their products. If there is much demand for his products, mainly in Europe, prices raise, the farmer is able to pay his debts, buy more goods and prosperity rules. If the demadd falls off prices decline and we have hard times.

No government can alter this iron rule, though hard times can be some what moderated by reciprocity treaties. That is to allow such countries as admit our products duty free, without vexation a fair reduction on our import duties on such articles as they export. Such treaties are impossible with prohibitory duties on imports On the prosperity of the farmer rests the nations prosperity—he has to feed us all.

But Mr. Morris stated with pride that he protected the farmers interest, by putting 10cts duty on each pound of raw wool. That was a haul for those capitalistic farmers, who keep on large ranges, immense flocks of sheep, in the western wilderness. Please do not run after that sheep which the friend of Mr. Morris sold for 50cts. It is a ghostly critter. Minnesota had in 1896, 435,381 sheep young and old; officially rated, not at 50 cts. but at $2 00 each. Divide these sheep among the people of Minnesota and each family gets about one sheep. Take as a rule that each family uses at least 25 lbs of wool per year, which is not too high, figuring stockings, mittens, underwear, and all that wearing apparel which is all wool or half wool. So the 400,000 families of the state would use 10,000,000 pounds of wool. Deduct from this the wool shorn from 435,000 sheep produced at 62 million pounds; leaves 8 million pounds at 10 cts taxes, makes 800,000 dollars the population pays tax on wool.

Probably there are more sheep in Mr. Morris' vicinity than in Wright county, but as they are in that official list that would not alter the amount paid.

It is true that high tariff rates, by shutting out foreign competition creates more work here. That principle holds good by taxing Canadian lumber as well as any other article.

If the taxpayer was convinced that these taxes were solely for the benefit of the american laborer, he would feel satisfied. As an example, take lumber. The tax on this made work scarce in Canada and plenty here, consequently Canadian laborers came over the line and offered to work cheaper than Americans. And nobody will believe that these lumber kings will pay more for American labor because it is protected.

[To be continued.]

Vote for John Lind

The Maple Lake Messenger, last week under the head "Our Choice," gives a short biography of "some" with the accent on the some, of the candidates nominated by the late Democratic convention at Buffalo. It continues its choice, however, to the offices of Sheriff, Judge of Probate, Register of Deeds, Surveyor, Superintendent of Schools, County Attorney and the two County Commissioners.

What's the matter with Frank T. Hamilton, predecessor of Mr. DeHaven, in the Maple Lake Messenger? Don't the Messenger prefer him to Mr. Swanberg? Frank always seemed to us like an honest, fearless supporter of true democracy, personally we had little aquaintance with him but consider him a rustler and he may surprise some of those engaged in holding the machine together.

Why don't John H. Coolen have a little bit of the biography? Don't the Messenger want to knock out Mr. Hanaford?

Then the Coroner, Dr. E. A. Shannon has so far as we have heard given satisfaction for one term and deserves re election surely as much as do the Republicans who appear satisfactory to the Messenger.

As a matter of fact we have considered the Messenger the sole proprietor and advocate of Wright County ring rule, as far as the Democratic ring goes, among newspapers, ever since Mr. Hamilton's fearless pen gave place to the new comer who began telling his readers about the first thing that they must elect John Nugent Sheriff, and A. Y. Eaton Judge, and similar things too numerous to mention, and now the article headed "Our Choice" leaving out from the biographical mention the opponents to the identical men that, before the convention was held it was currently circulated would be endorsed, although already on the Republican ticket goes to strengthen our belief that the Messenger is completely at the mercy and dictation of ring rule as participated in by goldbug Democracy.

Some of the candidates mentioned by the Messenger we do not believe are in a Gold Bug ring: and are worthy of the votes of people believing in Democratic principles, and if they do not receive a majority of the votes cast we believe it will, largely he due to the company they are in, and the weight of the ring influence, which although surly tottering may not, as yet, be completely broken.

Mahono Morris.

The following letter has been forwarded to us by Wm Kespohl, of Duluth, and may interest some of our readers:

LYNCHBURG, Va., Sept. 3. 1896
W. K. TWOMEY, Esq.
Duluth Minn.

My dear Sir:—It is impossible to get the old papers in Lynchburg as they only exist in files preserved by the proprietor. There is no dobut about the fact that Mr Page Morris stumped the state for Mahone but I have not the material to furnish you in reference to his speeches

I hope that Hon. Chas Towne will be elected. He is one of the ablest exponents of bimetallism in the country.

Very truly yours.
Jno. W. Daniel.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Official Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merritt, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the rear of battle at the fall of Manila. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barber, Sec'y. Star Insurance Bldg., Chicago.

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, D. C., Oct. 14, 1898.

Next to boodle, Boss Hanna rates Mr. McKinley, as a republican vote-getter in the present campaign. Consequently he has decided that Mr. McKinley shall take a swing through the East, in order to arouse the voters in that section. Like the western trip, the eastern trip is to be scheduled as strictly nonpartisan, but that did not prevent Mr. McKinley begging support for the administration in almost every speech he made, and it will not prevent his doing the same thing in the east. It may be possible, of course that Mr. McKinley has made votes for his party among the crowds that have turned out to greet him on his trip to and from Omaha, but, judging from the effect of similar trips by other Presidents it is not probable. There are a number of good reasons for crowds turning out to see the President, entirely aside from political considerations, respect for his official position, admiration of his personal qualities, and last, but by no means least, idle curiosity. That all of these reasons added to the number of persons who turned out to see Mr. McKinley in the West is certain, and it is equally certain that they will do the same in the East; but there is nothing in the sight to show that the whole business will enable the republicans to carry a Congressional district that they would not have carried had Mr. McKinley remained in Washington and attended to his duties.

Democratic expectation of wresting the control of the House away from the republicans is not based upon visionary hopes, but upon figures carefully prepared to show how each Congressional district in the country will vote on the 8th of November. According to those figures, there are sixty-one districts which may go either way by very small majorities. An attache of the Democratic Congressional Campaign Committee, who came within three of estimating the result of the Congressional election of '96, estimates that 41 of these doubtful districts will be carried by the republicans and 20 by the democrats. Should this estimate, which is ultra-conservative, turn out to be correct, the next House would contain 170 republicans and 167 anti-republicans democrats and populists combined. This estimate leaves out conditions in Pennsylvania and New York which may result in sending the anti-republican majority as high as 40, because those conditions are contingent, and may be changed before election.

Secretary Alger received a hurry call from Pingree, and has gone to Michigan to see what he can do to save the republicans of the State from the defeat which Pingree fears they are going to get.

The War Department is still extending all the protection it can to officers appointed from civil life, who are under suspicion or have been proven to be inefficient or negligent. Advantage was taken of the absence of Mr. McKinley, who held up a similar order several weeks ago, to order the honorable discharge from the service of Lieut. Col. Rush Hukeoper, the horse doctor who was chief surgeon at Camp Thomas, Chickamauga Park, and whose administration of medical affairs in that camp was so openly criticized by officers and men. It was believed to have been Mr. McKinley's intention, when he prevented this man's honorable discharge, that he should appear before the Dodge Commission. Why he did not, is probably known to Secretary Alger and other War Department officials, if not to Mr. McKinley. Capt. James G Blaine, the young man who made such disgraceful exhibitions of himself and his jags at Honolulu and at Manila that he was ordered home, turned up in Washington this week, and he also is to be given an "honorable" discharge. Chaplain McIntyre, of the battleship Oregon, must be a friendless poor devil or that court-martial sentence, dismissing him from the service, would be set aside and he would get an honorable discharge.

Secretary Long has made public the report of the board of naval officers, presided over by Commander Wainwright, locating the ships that participated in the destruction of Cervera's fleet. The report does not differ materially from the reports made by the Captains of the ships, and will not change anybody's mind as to who is entitled to credit for that brilliant victory.

A great bluff is being put up by the administration by the pretence that Judge Day is making extraordinary efforts to compel the Spanish Commissioners to hurry up their end of the negotiations, at Paris. It is dollars to ginger cakes that Judge Day is doing nothing of the sort. No matter how anxious the Spanish Commissioners should be to reach an agreement on the treaty of peace, they would not be able to do so before Congressional election, as it was a part of Judge Day's private instructions to prevent an agreement being reached before that time. Should the Spanish Commissioners wish to protract the negotiations after election, Judge Day may put the screws on them, but he isn't doing so now for fear that the treaty might add to the probabilities of republican defeat.

VOTE for LIND and TOWNE.

LAND GRANT AND RUINED SETTLERS

The Political Sequel to the Hastings & Dakota Land Grant.

WHEN WILL REPUBLICAN OUTRAGE END?

Having Tricked the State by Deeding Lands to Russell Sage, to Defeat the Forfeiture Bill, Sage's Agent and Attorney in Evicting Settlers, Lyndon A. Smith, Is Made Candidate for Lieutenant Governor—Fraud and Trick a Companion to Guaranty Loan.

Two years ago, although somewhat late in the campaign, attention was called to the manner in which the State of Minnesota was defrauded out of more than 5,000 acres of land in the western part of the state by the Russell Sage—Hastings & Dakota—land grant fraud, better known as the Hastings & Dakota steal. In the time that has elapsed the matters come home to individuals and people and come into the campaign with peculiar applicability, from two facts. First, that the settlers on the lands are being ejected therefrom; and second, that the instrument or attorney in Russell Sage's evictions IS THE REPUBLICAN CANDIDATE FOR LIEUTENANT GOVERNOR, LYNDON A. SMITH, of CHIPPEWA COUNTY.

Two years ago the state Democratic committee officially stated the case from the records, and from the same source the Reform Press now presents the following summary:

Hastings and Dakota Grant.

The land grant of the Hastings & Dakota railroad had never been finally adjusted, but in the course of time the supposed rights remaining due under it had come into the ownership of Russell Sage, the many times millionaire of New York. In what manner this occurred, and how the hocus pocus has been worked to keep the lands from the tax assessment rolls, is not important to the case now. Concerning the grant itself, the facts are old to most residents of the western portion of the state. Congress granted the lands away back in 1866, reserving, and by subsequent act continuing to withhold, such lands in the certain belt, as might have been taken by the settlers. In the years following there were numerous changes, lapses and extensions, during which time settlers continued to go upon the lands which the railroad company expected to obtain, and the question of title and ownership became greatly complicated. One thing remained clear, however, that people settled on lands in good faith and went on to make their homes and improve the country, increasing the other lands in value.

Where Sage Comes In.

In due time the Hastings & Dakota company dissolved, and what it possessed, or expected to possess, passed, as has been said, into the hands of Russell Sage. What remained? The people claimed that nothing remained, but that the lands belonged to those who had secured them under the government laws and the protection of the state. This matter has been agitated for years and reached several sessions of the legislature, and was the stock in trade of several very active Republican politicians. It came to a head in the session of 1895, under the efforts of two such politicians, respectively, Representative J. F. Jacobson, of Lac qui Parle, in the House, and Senator E. T. Young, of Swift county, in the Senate, as representatives from the region where many of the victims of what has come to pass reside—or did before ejected from their homes. Those gentlemen made the campaigns of their lives for their friends and neighbors, oppressed by these adverse claims on the part of Russell Sage. The Hastings & Dakota land grant was more talked of than any other proposed legislation of the period. In a previous session something had been attempted, but not till the session of '95 was success attained. These "defenders of the poor settlers," united the whole Republican strength of both houses for the bill they agreed on, which declared a forfeiture of all rights and interests of Sage and any one else but the settlers occupying the lands. Lands not occupied by settlers became the property of the state. This was agreed to be the only way in which relief could be had for those people in that part of the state.

Where the People Go Out.

Senator Young, by agreement with Representative Jacobson, introduced the bill in the senate, and piloted it through that body. It passed there on the 11th of April by a vote of 32 to 6. Then Mr. Jacobson took it up in the house, where it passed on the 18th of April by a vote of 90 to 1. While both managers talked much of corporate opposition to the measure, and expended oratory galore, it was notorious that there was little or no opposition to the measure from the railroad lobby, which usually fought such legislation. The reason came out later. The bill became a law on the 18th of April by being signed by the Republican governor and being deposited in the office of secretary of state, and the legislature a few days later adjourned. When it was safely departed, then was the discovery made that on the 13th of April, FIVE DAYS BEFORE GOVERNOR CLOUGH HAD SIGNED THE FORFEITURE BILL, THERE HAD BEEN MADE, SIGNED, SEALED AND DELIVERED, BY THE SAME GOVERNOR, A DEED FOR THE STATE, TO THE SAME RUSSELL SAGE, FOR THE VERY LANDS DECLARED FORFEITED BY THE YOUNG-JACOBSON BILL. Thus, not only had the whole legislative machinery of the state been employed in a shameful trick upon the people, at the latter's expense, BUT THE POOR VICTIMS FOR WHOM SO MUCH TALK HAS BEEN MADE ARE FASTENED DOWN IRRETRIEVABLY IN THEIR MISFORTUNES.

Lyndon A. Smith, Attorney.

There has been no recourse but to leave their homes and their property, or to make settlement at Russell Sage's own terms. This engages the attention of much of the court machinery and the several agents in the counties chiefly interested, those of Chippewa, Big Stone and Traverse, including Candidate Lyndon A. Smith. The following is a list of the lands which Sage thus obtained, by Republican assistance, and from which the farmers will be evicted, unless they pay Russell Sage:

Parts of Sections—	Sec.	T.	R.	Acres

How the Old Thing Works.

The sequel to this interesting story is to be found, first, in the actions to deprive the farmers and other owners of the lands on which for the most part settlements have long since been made, and next in the action of the Republican party in making its candidate for Lieutenant Governor, the attorney for Russell Sage in the evictions which have followed. The actions are found in the courts of Bigstone, Swift and Traverse counties, where the lands for the most part are located. The cases are so numerous that the complaints on which they are brought are printed by the wholesale, all ready for filling out and filing. Some of the farmers are able to defend by having occupied the lands long enough, under the statute, to make them secure by adverse possession, fifteen years. Such as have not this defense must leave, or what is mostly desired, settle, and pay Sage's agent or agents. THE RESULT IS THE CONSTANT REMITTANCE TO THE NEW YORK OFFICE OF SUCH SUMS OF GOOD MINNESOTA MONEY AS ARE EXCEEDINGLY GRATIFYING TO ALL CONCERNED, EXCEPT THE POOR VICTIMS. The whole is well illustrated in the picture, "How the Old Thing Works."

In the Republican state convention, after Guaranty Loan Candidate Eustis had been selected to head the ticket, the attorney and agent of Russell Sage, Lyndon A. Smith of Montevideo, was very properly selected as the candidate for Lieutenant Governor. Guaranty Loan, and the Hastings & Dakota grant, with their sequels of ruin and distress, are proper companion pieces. THE DEFEAT OF BOTH SUCH CANDIDATES WILL BE ATTENDED TO CAREFULLY BY THE VOTERS OF MINNESOTA AT THE POLLS NEXT MONTH.

EUSTIS UNDER A GALLING FIRE.

Preston National Republican: William Henry Eustis is under a galling fire from his outraged Minneapolis constituency. His conduct as mayor of the city was flagrantly wrong and inimical to the sacred rights of the whole population, except those of the Guarantee Loan Association and the Tom Lowry street car combine, and now he is called to account for his absurdities and corrupt peculations. In favor of the street car company he disobeyed the law as laid down by Judge Smith. The City of Minneapolis has never been aroused by a mayor more heedless of its municipal righs. What he has been to that municipality he is expected to be, if elected governor, to the pine land rings, the school land and iron moantain thieves, and all other combinations organized to rob the state. All of the local political rings that are now shouting for Eustis do so with a full knowledge of his unworthiness. From the tables of his central masters in political fraud the most of their crumbs are distributed. In return misrepresentation and lies are manufactured to deceive voters. These proclaim that Eustis is clean and has a saintly horror for the detestable outrages of which the party that nominated him is guilty. Those who want an honest man for governor must vote for John Lind. His patriotism is genuine.

A Point For Schoolgirls.

THERE are very few schoolgirls, whose parents are in moderate circumstances, who would not gladly give every Saturday morning to regularly earn fifty cents or a dollar.

Well, each one of these thriftily inclined girls can earn, or save, fully this amount by devoting half of her holiday to going through her wardrobe and systematically mending, brushing, and arranging her clothes, airing and sunning closets and bureau drawers, and seeing that her handkerchief case, glove case, veil sachet, manicure set, and, indeed, all her toilet appurtenances, are in perfect order.

After this system of care-taking is once well under way it is a question if it would require all of Saturday morning each week. Two hours of the precious day would probably do the work satisfactorily, and not only aid in materially reducing household expenses, but contribute to peace of mind and physical well being throughout the ensuing week.—From "How Every Girl Can Save Money," in Demorest's Magazine for November.

What 20 Cents Will Do.

By sending the above amount to The Detroit Free Press, Detroit, Mich., they will send you The Twice-a-Week Detroit Free Press, from date of receipt of your order until January 1, 1899. This special reduced rate is given to introduce the paper to new readers. The Twice-a-Week Free Press is a clean, up to date family newspaper, and everyone should take advantage of this special offer. The greatest value ever offered for 20 cents. Send in your order at once.

Add 25 cents and send to us and get the Detroit Free Press and the Buffalo Gazette both until January 1. This through the coming hot political campaign.

AGENTS WANTED

In Every County to Supply the Great Popular Demand for

AMERICA'S WAR FORHUM ANITY

TOLD IN PICTURE

AND STORY

Compiled and Written by

SENATOR JOHN J. INGALLS,

Of Kansas

The most brilliantly written, most profusely and artistically illustrated, and most intensely popular book on the subject of the war with Spain. Nearly.

200 Superb Illustrations from Photos,

taken specially for this great work. Agents are making $50 to $100 a week selling it. A veritable bonanza for live canvassers. Apply for description, terms and territory at once to

The Gazette.

DELANO, Wright Co., - MINN.

A bed of anthracite has been found in China, but it will probably turn out to be the bottom of the Pennsylvania mines.

The sultan of Turkey is said to have about completed the largest hotel in the world at Mecca. The hotel will care for 6,000 pilgrims at one time.

The New York Sun estimates that 750,000 typewriters are in use in the United States. The business is the growth of 20 years and an instance, along with telephones and the trolley, of American enterprise.

The dowager empress of China was born a slave, and she owes her power primarily to her beauty, which always wins when united with a little gumption. It has always been so, from Cleopatra down, and so it will ever be while the world wags.

Theodore Camp, of Mount Vernon, N. Y., has been teaching school for over 62 years, and now, although in the eighty-first year of his age, is still energetic, and seems to have a deeper interest than ever in his class of boys and their studies.

If Spain had only stopped to think that there are in this country 240,698 public schoolhouses and 14,465,370 children in the public schools, it would have chosen some other antagonist. The difference in the men behind the guns began in the schoolrooms.

There was a most peculiar double wedding at Wilmington, O., twin sisters marrying twin brothers, the sisters being the Misses Adda and Alma McKee, and the brothers William and Frank Brindle. To cap the climax they are going to live in a large double house.

A town in Kansas had a butterfly plague. "Although there were countless billions of them," says the veracious correspondent, "there was no sound, save a gentle and scarcely perceptible pur." Butterflies can hardly be expected to get on the street corners and give a college yell.

The American scientists are anxious to undertake a botanical exploration of the island of Puerto Rico, and an expedition has already been organized for the work. The Yankee is never easy in his mind until he knows all about the natural flora of every part of the country in which he lives and pays taxes.

A cablegram announces that four American women who undertook to get a close view of Mount Vesuvius in eruption the other day got lost and nearly perished. Maybe it isn't polite to call attention to the fact, but feminine curiosity has been responsible for some very foolhardy adventures ever since Eve bit into that apple.

The United States government will assume complete control, military and governmental, of the island of Cuba on December 1. This being the case, Capt. Gen. Blanco and his friends, should they decide to remain in Cuba longer than the date named, will have to register if they expect to vote at the next election for mayor of Havana.

Germany maintains 40 commercial schools and 13 textile schools as an aid to its manufacturing interests, and in this connection it is interesting to note that during the past quarter of a century that country has increased its manufactures ten times. The fostering of industries is one of the prime necessities of a nation's progress.

Miss Lotta Burns, famed as the "mother of Klondike," having been the first white woman to live at Dawson, took her bicycle with her on her last trip to that place. She had no sooner landed in Dawson than scores of miners were bidding for it. The offers went up until they reached $700, when a young man named McWilliams became the owner of the first wheel ever seen in the Klondike.

The republic of Nicaragua has delegated its sovereignty and the management of all its foreign affairs to the new government called the United States of Central America, which is composed of Nicaragua, Salvador and Honduras. Each of these retains the right to control its local affairs after the manner of our states, but by the adoption of the new constitution merges its nationality into a confederation.

The London Academy has issued a warning to literary and art collectors to be careful about buying letters or manuscripts alleged to have been written by Robert Burns, because a clever imitator has made "some very superior imitations of Burns" and has succeeded in selling many of them as originals. What difference does that make? It is certain that the great majority of all such articles are imitations, but if their present owners think that the imitations are genuine no one will have the right to complain.

The Russian minister of war is experimenting with aluminium shoes, and is having the artillery horses shod with them—one shoe to each animal, the remaining feet being shod with the regular iron shoe. So far as the experiments have gone it has been demonstrated that the aluminium shoe wears much longer than the others. The uses of this light but immensely strong metal are becoming more numerous every day, and its manufacture is now a great industry, though it has been less than ten years since its first discovery.

According to a French authority this country annually consumes 26,000,000 more pounds of coffee than all Europe together, and the annual consumption in this country has increased 210,000,000 pounds in the last six years, showing to a certainty that the coffee drinking habit is largely on the increase. As individuals, however, we do not consume as much coffee as some of the other races. The Hollanders, for instance, each consume an average of 23 pounds per year and the Belgians 11 pounds, while the per capita in this country is 9.95 pounds.

A WEEK'S HISTORY

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

At Jacksonville, Fla., the war investigating commission concluded its labors and said they were pleased with the result.

The first proclamation of Gen. Wood since assuming the command of the department of Santiago was issued. He said the policy of America was freedom in religion and strict justice, and that no property would be taken without fair compensation to the owners.

Capt. L. W. V. Kennon, Fifth infantry, has been made chief mustering officer of Ohio.

In Milwaukee companies I, K, L and M of the First Wisconsin volunteers were mustered out of the United States service.

At San Juan Judge Advocate Hunter inducted into office five native supreme court justices.

Admiral W. T. Sampson has been elected president of the United States Naval institute at Annapolis, Md., for the ensuing year.

In Paris the peace commission proceedings have reached a deadlock over the Cuban debt, and the American commissioners are satisfied that the Spaniards are adopting a deliberative policy of delay.

By birth or naturalization 84 per cent. of the enlisted force of the navy are now Americans.

In Havana the American military commission notified the Spanish commission that American troops will come to the island in November whether or not evacuation is completed by the Spaniards.

In Chicago the Seventh regiment, Col. Marcus Kavanaugh commanding, was mustered out of the volunteer service.

Advices from Manila says a new customs tariff will be put in force on November 11, under which goods of Spanish origin will be treated as foreign products.

Gen. Blanco has offered to discharge from the Spanish army all soldiers who wish to remain in Cuba.

From Manila the transport Rio Janeiro arrived in San Francisco with 151 sick soldiers on board and on the voyage seven men died.

The establishment of a military post office station in Cavite, Philippine islands, has been ordered.

All the insurgents in the Philippine islands were ordered to vacate the surrendered territory, and anarchy and outrages in the provinces will be stopped.

FROM WASHINGTON.

In September last the total internal revenue receipts from all sources were $21,713,380, a gain, as compared with September, 1897, of $8,858,883.

The president and Mrs. McKinley returned to Washington from their western trip.

James A. Dumont, supervising inspector general of steamboats, in his annual report says that in the past year 31 steamers were wrecked and 283 lives were lost, an increase over the last previous year of 100.

THE EAST.

In Jersey City, N. J., Sig. Perugini received a decree of divorce from Lillian Russell, the actress.

At the leading clearing houses in the United States the exchanges during the week ended on the 21st aggregated $1,321,633,294, against $1,389,261,652 the previous week. The increase compared with the corresponding week in 1897 was 1.1.

In the United States there were 221 business failures in the seven days ended on the 21st, against 205 the week previous and 224 in the corresponding period of 1897.

The two little daughters of William Meyer fell into an acid vat in a fertilizer factory in Middletown, N. Y., and were suffocated.

Garrett French and Henry Jones, two jealous husbands, killed their wives and themselves in Jersey City, N. J.

WEST AND SOUTH.

John Stevenson, Henry Scherf and Michael Vail were torn to pieces by dynamite which they were thawing out in Duluth, Minn.

The doors of the First national bank of Lisbon, O., capital $50,000, were closed.

In Sand lake near Jonesville, Mich., a boat capsized, and John and Charles Keating and Frank Evans were drowned.

Boilers in a furniture factory at Pentwater, Mich., exploded, killing two men and injuring three others, one fatally.

The schooner Annie Rowe and 11 passengers were lost in the North sound in Alaska.

A continuous ovation marked the passage of President McKinley over the states of Indiana and Ohio.

In southern Texas a storm did immense damage to the cotton crop and several persons were killed and many injured.

In a freight wreck five laborers employed on the Rock Island railroad in the Indian territory were killed.

Nine negroes and one white man were killed in a race war at Harpersville, Miss.

At the Judson powder works in San Francisco an explosion blew two workmen, Peter Anderson and John Roach, to pieces.

It is said that I. A. Childs, cashier of the First national bank of Lisbon, O., who absconded, is $60,000 short in his accounts.

On November 17 and 18 the seventh annual convention of the American college league will be held at Indianapolis.

In Minnesota the Pillager Indians were each sentenced to pay $100 in addition to serving a term in jail for resisting arrest.

In Omaha John Melchart, a Chicago photographer, shot and killed Lillian L. Morris, his affianced wife, and then committed suicide. Jealousy was the cause.

Among the Comanche, Kiowa and Apache Indians and cattlemen in Oklahoma territory serious trouble is brewing.

Near Tompkinsville, Ky., Arch Baur, a colored man who had assaulted Miss Annie Morrison, was captured by a mob and hanged.

The famous Apache Indian chief, Geronimo, escaped from the guards while going from El Reno, O. T., to Fort Sill, where he has been stationed for the past ten years as a military prisoner.

A mob lynched John Anderson (colored), charged with the murder of Charles Holmes, a well-known white farmer, at Lafayette, Ala.

Philip Vergallito and Michael Timlin were suffocated by gas at a furnace in Youngstown, O.

FOREIGN INTELLIGENCE.

In Candia, Crete, seven Mussulmans were hanged for the murder of British soldiers during the recent outbreak.

At Wu Chow, China, eight subordinate leaders of the Kwangski rebellion were beheaded.

In Japan disastrous typhoons, sandstorms and floods have caused fearful loss of life and property.

Eliza Burrill, wife of a mechanic at Toronto, Ont., became demented and strangled her three young children.

In the city of Fieume, Austria, high water caused a loss of 2,000,000 florins.

Orders have been given all officers of the English army or navy in leave in this country to hold themselves in readiness to return home.

LATER NEWS.

It is again reported that the emperor of China has been "removed."

Snow fell all over the state of Nebraska the night of the 24th.

Gen. Io del Pilar, who is looked upon as being the foremost rival of Aguinaldo for the leadership of the Philippine insurgents, has been summoned to Malolas, the insurgent headquarters, and arrested. The charge against him is disregarding Aguinaldo's authority and attempting to defy the Americans.

Seven gypsies were arrested at Cumberland, Wis., charged with highway robbery.

A syndicate for the reorganization of the Clover Leaf railroad is being formed in New York.

Admiral Schley cables the navy department that with the sailing the 24th of the last detachment of Spanish troops the evacuation of Porto Rico is complete.

The commanders of all warships of the British North American squadron have been ordered to mobilize at Halifax.

The Cuban general, Jose Martel, has issued a proclamation addressed to the people of Cuba, demanding Cuba for Cubans. The proclamation ends by urging all Cubans to resist the landing of the American troops by force. It is a highly inflamatory document, but finds few to justify it.

Maj. Gen. Wesley Merrit, who was recently in command of the United troops at Manilla, was married privately at London the 24th to Miss Laura Williams, of Chicago, who recently arrived from New York.

The president has aproved the sentence of the courtmartial dismissing from the naval service Chaplain McIntyre of the Oregon, for remarks made in a lecture at Denver reflecting on Admiral Sampson and others.

The supreme court of Illions decided that the action insituted by ex-Attorney General Maurice T. Moloney during his term of office to compel the Pullman Palace Car company to restrict its charter limitations should stand, and remanded the case to the circuit court of Cook county, where it will now be tried.

The French ministry, headed by M. Brisson, has resigned. This action was taken as the result of a stormy sitting of the chamber of deputies, during which Gen. Chanoine, minister of war, after a violent attack made upon him by a deputy, presented his resignation to the chamber, which later rejected by a vote of 236 to 254 a resolution of confidence in the ministry.

Snow fell throughout Iowa, Wisconsin and Illinois the 25th. Several places in Iowa reported a depth of six inches, while at Chicago all telegraph wires were prostrated.

The Iowa corn crop has been badly damaged by the recent wet weather.

A 2-year-old daughter of Joseph Baker of Stevens Point, Wis., fell into a kettle of boiling water and was killed.

The first session of the Cuban assembly was held the 24th, at Santa Cruz del Sur. A majority of the delegates were military delegates, each of the six army corps being represented by eight delegates. The sensation of the assembly was the appearance of Gen. Calixto Garcia as one of the delegates from the sixth army corps, a fact which practically rendered him supreme at the assembly session.

At a recent cabinet meeting it was decided to give the Spaniards until Jan. 1 to evacuate Cuba.

The strike of the 135 girls at the American Cereal company at Cedar Rapids, Io., promises promises to be one of the most important disturbances in local labor circles for many years. The demand of the strikers is for an increase of 2 cents per hundred packages and other coucessions.

After a session of three weeks the Episcopal triennial conncil of 1898 came to an end at Washington, D. C.. Probably never before at one convention has the council transacted more business than at this meeting, or so much of vital importance to the church.

The American peace commission was in session during the whole afternoon of the 25th. The deliberations had no relation to the question of the Cuban debt, upon which the United States has been strictly determined. The commissioners discussed the Philippine question, and decided upon a policy.

MARKETS.

Minneapolis, Minn. Oct. 25.
Wheat—No. 1 Northern, 67@68c; No. 2 northern, 65@66c; Dec. 65¾c.

Cattle—Steers, $3.40@4.25; cows, $3.15.
Hogs—$3.40@3.70.
Sheep—Muttons, $3.25@3.75; lambs, $4.75.
Butter—Creamery, extras, 22c; creamery, firsts, 20½@21c; dairy, fancy, 19@19½c.
Poultry—Turkey, 8@¼c; spring chickens, 7½@8c.

TO LEAVE FASHODA.

French Said to Have Decided Upon That Course.

In the Meantime Both France and Great Britain Are Continuing Active Preparations for Possible Hostilities.

London, Oct. 25. — The Paris correspondent of the Daily Chronicle claims to have authority to say that a decision has already been taken by the French government speedily to evacuate Fashoda, and that M. Delcasse, the French foreign minister, will do his utmost to facilitate a pacific solution.

Ordered to Mobilise.

Halifax, N. S., Oct. 25. — The commanders of all warships of the British North American squadron have received orders to mobilize at Halifax.

Admiralty Takes Precautions.

London, Oct. 25.—The British admiralty issued a number of significant orders Tuesday morning. The dock yards at Portsmouth, Devonport and Chatham have each received instructions to prepare six 30-knot torpedo boat destroyers for commissioning so that they will be able to put to sea in 24 hours. Over time hours have begun in the first-class cruisers Europa and Andromeda so as to hurry them for sea service. Several gunboats in the different dock yards have been ordered to postpone unnecessary refitting.

Finally the Cunard line and White Star line have received from the admiralty an intimation to hold their subsidized steamers in readiness for turning over to the navy officials.

France Preparing for Trouble.

Paris, Oct. 25. — The municipal authorities at Toulon have been notified that that place will be the center of important naval and military preparations, and have been instructed to arrange for the immediate reception of four battalions of infantry, 1,500 marines and 600 artillerymen. The municipal council has decided to close the schools, and the schoolhouses will be used for lodging the troops.

The naval authorities have been ordered to expedite the preparations for the outfitting of the new squadron.

The Figaro says that if the British government rejects France's moderate and just proposition it can only be because the government of Great Britain desires before everything else the humiliation of France.

Feeling Seems Improved.

London, Oct. 25. — In spite of the news of the warlike mobilizations which came from France and different parts of England Monday, with the decline in rentes and consols, there is a distinctly better feeling in diplomatic circles and a growing belief that the Fashoda dispute will be arranged.

Peace Cross Unveiled.

Washington, Oct. 24.—A most impressive ceremony in this city Sunday was the unveiling of the peace cross on the summit of Mount St. Albans, the site for the new Episcopal cathedral. The ceremony was in lieu of laying the corner stone of the edifice, which will be known as the Cathedral of SS. Peter and Paul. President McKinley attended and delivered a brief address. Many other distinguished men were present, besides 300 bishops and other high dignitaries of the church, which has been holding its convention in Washington.

Indian Trouble Threatened.

Perry, O. T., Oct. 24.—Serious trouble is brewing among the Comanche, Kiowa and Apache Indians. For 30 years, since the Medicine Lodge treaty, the government has fed these Indians, but that treaty expired July 1. They have commenced killing cattle belonging to Texas cattlemen, and a crisis is near. These Indians have no crops, few cattle and have had no money for months. Men who know predict great starvation among them this winter and serious trouble. There are 1,500 Comanches. 1,300 Kiowas and 600 Apaches.

May Marry Again.

Vienna, Oct. 24.—Efforts are being made by influential members of the court to persuade Emperor Francis Joseph to marry again. The heir apparent, Archduke Francis Ferdinand, is so unpopular that grave trouble is feared when he ascends the throne. For that reason the birth of a new successor to the aged emperor would cause rejoicing throughout the kingdom.

Emperor Closely Guarded.

Haifa, Palestine, Oct. 25.—The police made an important arrest of a well-known anarchist here Sunday. Extraordinary precautions are being taken to insure the safety of Emperor William and Empress Augusta Victoria. During the time that they are here veiled women will not be allowed in the streets, as the police fear that anarchists might assume this disguise.

Word from Dewey.

Washington, Oct. 22.—A telegram was received by the secretary of the Navy Friday from Admiral Dewey at Manila, in which he said nothing with regard to the political situation in the Philippines or the capture of any more ships belonging either to the Spaniards or to the insurgents, or at least, if he did, the officials of the department will not admit it.

Killed a White Youth.

St. Louis, Oct. 24.—A special to the Republic from Dallas, Tex., says: Three negroes shot and killed Julius Redd, a 16-year-old white boy, Sunday night, near the Texas cotton mills, on South Lamar street. Witnesses claim the murder was unprovoked. A mob chased the negroes to a house in the outskirts of the city and surrounded it.

Daly's Latest Success.

New York, Oct. 21. — The great success of Mr. Daly's production of "Cyrano de Bergerac," with Miss Rehan as Roxane, has precluded the repertoire, and though "Taming the Shrew" and "School for Scandal" were announced in Philadelphia and Baltimore, both were withdrawn for "Cyrano."

Fear a Ministerial Crisis.

Madrid, Oct. 24.—The newspapers here regard a ministerial crisis as imminent, and they urge the ministers to sink their differences, in view of Spain's many difficulties.

MORE BLOODSHED FEARED.

Not Thought That the Mississippi Race War Is at an End—Dead Now Number Twelve.

New Orleans, Oct. 25. — The Picayune's Forest, Miss., special says: Eleven dead negroes, one dead white man and one negro, and three white men seriously wounded, is the result at this writing of the bloody war being waged between the white and black races in the Harpersville neighborhood of (this) Scott county. Several of the rioters have been captured and lodged in jail at Forest, but the others escaped into the swamps. Large crowds of white men are in close pursuit, however, and more names are hourly expected to be added to the death list. It is impossible to obtain a full list of the killed for the reason that some of the negroes were shot down in the woods and hurriedly buried by the whites where they fell. A member of the posse said that he helped bury the negroes in trenches, but neither himself nor anyone in his crowd knew their names, and they did not care enough about them to inquire.

Gov. McLaurin went to Harpersville Sunday night and appealed to the whites not to molest the prisoners in the custody of the sheriff. The governor's talk had a good effect on the majority of those in the crowd, but some of the hot-headed members did not relish the governor's interference, but he finally persuaded the crowd to permit the sheriff to take the prisoners to jail. Sheriff Stephenson placed additional guards at the Forest jail to prevent the lynching of the rioters now in custody. Two negroes who are under arrest have made full confession. Later Sheriff Stephenson considered the situation so serious that he decided to take the prisoners to Meridian for safe keeping. A large posse was organized and the negroes were placed on the nine o'clock train.

FLOUR GOES UP.

Advance of $1 Per Barrel in the Chicago Market—Higher Price for Wheat in New York.

Chicago, Oct. 25.—Flour is making another record for itself in the rapidity with which it is going up in price. To-day mill men will ask $4.30 a barrel, an increase of ten cents over the price of Monday and 30 cents more than was asked two weeks ago. The commodity is following the wheat market, and every cent rise in wheat adds five cents a barrel to the price of flour. Wheat went up three cents Monday. The increase in price has not affected sales to any extent as dealers are buying freely. Cold weather is the time chosen to stock up, as flour keeps better in winter than in summer, and the price is liable to many fluctuations.

New York, Oct. 25.—The highest prices of the season were reached in the wheat pit Monday. December sold up to 77¾ cents during the regular session and reached 78 cents on the late curb. The advance followed a weak opening and was based on a sharp drop in consols and a late advance in Liverpool cables resulting from a war scare.

FOUND GUILTY.

Pillager Indians Must Each Pay $100 in Addition to Serving a Term in Jail.

Duluth, Minn., Oct. 24.—The trial of the Bear Island Indians who surrendered at the Leech Lake agency and went into the United States court for trial on a charge of resisting a United States court officer at the agency on September 15 last was completed Saturday evening. After being out 35 minutes the jury at six o'clock brought in a verdict of guilty in each case and sentence was immediately passed by Judge Lochren. With but two exceptions each was fined $100 in addition to a jail sentence.

Double Tragedy in Jersey City.

New York, Oct. 24.—Two jealous husbands killed their wives and themselves in Jersey City Sunday. Henry Jones (colored) shot his wife to death and then sent a bullet into his brain at their home on Van Horne street early Sunday morning. The police had barely completed their investigation and sent the bodies to the morgue, when five shots were heard in a flathouse on Montgomery street, opposite St. Bridget's church, as the people were assembling to worship. Garrett French, a Pennsylvania railroad locomotive engineer, had mortally wounded his wife and wounded himself so badly that he died within a few minutes.

Attacked by Chinese.

London, Oct. 25.—The Peking correspondent of the Daily Telegraph says: Chinese soldiers attacked a party of English engineers Sunday at the Marco Polo bridge, on the Peking-Hankow railway. Two engineers were injured and a railway coolie was killed. The situation there is serious. The telegraph wires have been cut at Pao-Ting-Fu, in the province of Pe-Chi-Li.

Ordered to Manila.

New York, Oct. 25.—The cruiser Buffalo will leave the navy yard to-day for Manila. Sailing orders were received Monday, and work was rushed all day long to get the vessel's supplies of coal and stores aboard. The Buffalo will cross the Atlantic and go through the Suez canal, and it is expected she will arrive at her destination before the battleships Iowa and Oregon.

Three Drowned.

Chicago, Oct. 24.—A small skiff, in which were Louis Babon, son of a wealthy brick manufacturer of Evanston; William Schaffer, and another man whose identity has not been established, capsized in Lake Michigan about five miles above Wilmette Sunday and all were drowned.

Col. Bryan Again Ill.

Savannah, Ga., Oct. 25.—Col. W. J. Bryan, who is here with his regiment, the Third Nebraska volunteers, as a part of Lee's corps, is ill at the Desoto hotel. He is suffering with fever, but his condition is not regarded at all serious.

Lynched.

Lafayette, Ala., Oct. 24.—John Anderson (colored), charged with the murder of Charles Holmes, a well-known white farmer, was lynched here Sunday by a mob of people of Fredonia and West Point, Ga.

NOW PUERTO RICO, U. S. A.

Insular Cabinet Swears Allegiance to the United States—Last Spanish Troops Depart.

Washington, Oct. 25. — The navy department Monday received the following:

"San Juan, Oct. 23.—Secretary of the Navy: Evacuation of Puerto Rico completed by sailing of last detachment of Spanish troops to-day.

(Signed) "SCHLEY."

San Juan de Puerto Rico, Oct. 25.—The members of the insular cabinet took the oath of allegiance to the United States Sunday with befitting solemnity. They will issue a manifesto announcing their resolution to avoid partisan politics and end party strife.

About $12,000 have been collected as customs duties since October 18, the day the United States formally took possession of Puerto Rico.

The efficient work of the United States commission has won popularity with its members among the people of San Juan, and there have been a number of graceful farewells exchanged.

A movement has been started to send a Puerto Rican commission to Washington in order to represent to the authorities there the needs of the people of this island.

AN ULTIMATUM.

Positive Refusal of the Americans to Assume the Cuban Obligation.

Paris, Oct. 25.—The meeting of the joint commission Monday was the longest yet held, and it is learned on direct authority that the Cuban debt was the sole question under consideration. The American commissioners returned a resolute and final refusal to assume any obligations in Cuba arising out of contracts made by Spain or on her guarantee. The American reply traversed all the arguments put forward in the memoranda handed in at the last meeting by Spain, and its preparation in both languages occupied considerable time. The American commission demanded that the proceedings should be accelerated. The next meeting is fixed for Wednesday. It is fully expected the Spaniards will now accept the inevitable on the Cuban debt, as they will do on all other points when it comes to the scratch. The notion that Spain has any idea of breaking off negotiations and resuming war is regarded as sheer craziness, as she has neither money, men, arms nor ships to defend her shores.

BACK IN WASHINGTON.

Presidential Party Arrives in Washington—Work to Begin on Message at Once.

Washington, Oct. 24.—President McKinley and his party arrived here at 2:25 Saturday afternoon, after an absence of two weeks. The train made no long stops between Pittsburgh and Washington, and the schedule was arranged to anticipate the gathering of no large crowds, so that the ride through Pennsylvania and Maryland was really a rest for the president after his hard work in the west. President McKinley has been seeing crowds, speaking, shaking hands and receiving congratulations every day from soon after daylight until nearly midnight, and yet his marvelous physical endurance has left him looking even better than when he left the white house. It is all the vacation he will have, in spite of the nervous strain during the war, and to-day he will begin work on the annual message to congress, which will necessarily be one of the most important state papers of this generation.

Failure of the Apple Crop.

Chicago, Oct. 25. — The Orange Judd Farmer says that the apple crop of the United States is smaller than it has been since reliable statistics have been collected. The total supply from the 1898 crop of the United States is 27,700,000 barrels, compared with something over 40,000,000 barrels last year and 70,000,000 in the record breaking crop of 1896. The failure is widespread, reaching from the Pacific coast to Maine, and in none of the states does the output of the fruit approach an average.

Deed of a Demented Mother.

Toronto, Ont., Oct. 22.—A dreadful tragedy was enacted in the east end of the city Friday night when Eliza Burrill, wife of a well-to-do mechanic, became demented and strangled her three children, Ethel, aged eight; Stanley, aged three, and Harold, aged 11 years. The husband of the woman found all of them on their mother's bed dead when he came home from work. The woman is evidently demented. She says her reason for the terrible deed was that she did not want them to grow up wicked.

Killed His Wife.

Austin, Minn., Oct. 25.—Sheriff Johnson brought in John B. Anderson, aged 50, a Swede living on a farm in Marshall township, who murdered his wife Sunday. They had quarreled repeatedly for several years, and he wished to get a divorce. He pounded her head to a jelly and gashed and cut her terribly. He has served in jail before for abusing his wife. Six children survive. The coroner's inquest resulted in a verdict of murder.

To Raise the Vizcaya.

Santiago de Cuba, Oct. 24.—It is reported from Guantanamo that Naval Constructor Hobson, who left there early last week for Jamaica with the intention of taking the Atlas line steamer for New York, is going to Washington to obtain an appropriation, if possible, of $1,000,000 for the purpose of raising the sunken Spanish cruiser Vizcaya.

Gen. Merritt Privately Married.

London, Oct. 2.—Maj. Gen. Wesley Merritt, who was recently in command of the United States troops at Manila, was married privately late Monday afternoon to Miss Laura Williams, of Chicago, who recently arrived here from New York. The greatest secrecy is maintained regarding the ceremony.

Tug and Barges Sink.

Kingston, Ont., Oct. 24.—The Montreal Transportation company's tug James A. Walker and two barges, the Hector and Kildonan, from Charlotte, N. Y., for Kingston, with coal, sank during a gale on Lake Ontario Saturday night. One man named Laduke was drowned. Loss, $100,000.

Scrofula Cured

Sore on His Limb Had Troubled Him for Years.

"I had a bad case of scrofula, and there was a sore on one of my limbs which troubled me for three or four years. I saw Hood's Sarsaparilla so highly recommended for scrofula that I began taking it, and it has completely cured me. I am sound and well." CLARENCE L. DELANEY, Waller, Ill.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1; six for $5.

Hood's Pills cure sick headache. 25c.

CONGENIAL OCCUPATION.

Light and Profitable Employment for a Poor Old Man Who Had Nothing But Money.

The old stock broker limped wearily down the familiar country road on which in boyhood days he had often driven the cows homeward to their barn at milking time, and ever and anon some familiar feature of the landscape caught his eye. Years ago his father had died and left the farm to his brother and himself. Soon tiring of the dull toil of a farmer's life, he resolved to go to the city and seek his fortune.

Here his honest face secured him a position with a Wall street firm, the members of the firm assuming that an honest, ingenuous countenance was such a rarity in their line of business that it might attract attention and add to their clientele. Soon branching out for himself, he in time became one of the largest operators on the street. But, caught in a crash, he was penniless, and was now forced to seek a home with his brother's sons, who had prospered with the farm.

As he reached the familiar gate the young husbandmen saw him, and with a yell they rushed to meet their uncle.

"Come right in! You shall not want for anything!" cried Jabe.

"The room you occupied when a boy is ready for you!" shouted Bijah.

"Not a lick of work shall you do!" chimed in another of his nephews.

"Hush, boys!" said the old stock broker. "I'm still able to work, and shall do my share. Never shall it be said that I ate of anyone's bread and ended my days in slothfulness."

"Well," answered one of the nephews, "can you think of any light work about the place you could do? Something congenial, you know, that won't seem too strange and hard for you?"

"Yes," replied the uncle, after a pause, "I have it. I shall water the stock!"—Cincinnati Enquirer.

When She Was Young.

Mr. De Bussy—Do you know that lady in blue? How beautiful she is!

Miss Debutante—That is Miss Charmian. I think she must have been quite pretty when she was young.

"How old is she?"

"Twenty-two, if she's a day."—Brooklyn Life.

Liked Variety.

The Judge—No two witnesses tell the same story.

The Lawyer—Your honor, I arranged it that way. I didn't want to make the trial too monotonous for you.—Yonkers Statesman.

The meaner a man is the harder he tries to lower his record.—Chicago Daily News.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO.

OVER-CAPITALIZATION.

Miss Counterfeit Capital—"I know I am false, but to you I am true, my dear."

Evils of Watered Stocks and Bonds, and the Burdens they Impose on the Producers.

The Reform Press has given its readers the facts of the escape of the Lowry-Twin City Company's property in Minneapolis and St. Paul, from having its assessment for taxation raised by the Republican state board of equalization. The bearing of that case on the general question of over capitalization and the enormous burdens imposed by what may well be termed false wealth, is most pertinent to the issues of the campaign.

It was shown, in the Lowry cases, that at the rates charged for street car fare the company in the last year earned a net surplus of $225,000, after paying all expenses and interest on outstanding bonds the exact amount of which is not known, but believed to be not less that $12,000,000 to $15,000,000, and dividends on its outstanding stock, known to be nearly $17,000,000. Also that the such net surplus for the four years, 1894 to 1897 inclusive, was $1,913,000, no part of which was anywhere taxed. The company has property and assets aggregating $29,000,000, as its statement to bondholders and others show; has 1,000 in Hennepin county and 600 in Ramsey, which are valued as "wagons" at $10 each, as against wagons of farmers at $42. The company is valued for taxation at $710,000 in Hennepin county, and a little less in Ramsey, total about $1,400,000, on which it pays taxes. It escaped raising by showing the board that its whole property could be reproduced for $3,000,000; yet its rates earn the surplus of a quarter of a million a year, after paying the interest and dividends on nearly $20,000,000 of stock and bonds. The difference between what the company's property is worth, $3,000,000, and what its rates of fare makes the people pay interest and dividends on, $20,000,000, is false or counterfeit capital. It is water stock and bonds:—over-capitalization. Under the Steenerson decision, rates cannot be charged for this bogus wealth.

The company which has gone scott free in the people's attempts to have it pay taxes comensurate with the privileges it enjoys, is the same company which candidate Eustis favored by fighting the people of Minneapolis in their efforts to obtain transfer privileges, covering into the company's pockets thereby $100,000 a year.

The people have no quarrel with the corporations, their own creatures, but with the abuse of the privileges granted them they may justly deal. It is a hopeful sign, as in the Great Northern, concerned in the Steenerson case, that the corporations show respect for the people when the latter assert their own rights.

SHOWN IN SOUTH DAKOTA.

The application of false values of counterfeit capital has been made very emphatic by our sister state of South Dakota, in dealing with the Milwaukee railway. As showing the railway plan of having one valuation for basing freight and passenger rates on, and another for taxation, this case is worth noting. The valuation for taxation for 1897 was on an average of $2,300 per mile. The people claimed that the company's rates should be based on such approximation value, but the company claimed that its value for such basing rates was much greater, not less than $19,000 per mile, being the actual cost.

Judge Garland, to whom the case came on appeal, after hearing all the facts, fixed $10,000,000 as the value of all the company's lines in the state. The mileage being 1,100, this was a little under $10,000 per mile. The company appealed to the United States supreme court. This was last year.

This year the populist governor, Lee, led the people in their effort to have the valuation of the company for taxation raised, and used the same showing the company had made in the former case to fix its valuation at from $15,000 to $19,000 per mile. The company resisted, claiming that valuation was far too high. Gov. Lee and the people only asked that the valuation be made an average of $5,000 per mile. As in the Lowry case in Minnesota, the company had sufficient "pull" with the Republican board, and the people were defeated. The valuation for taxation remains at $2,300 per mile. But, in fact, the capitalization of the company is $40,000 PER MILE ON WHICH ITS PREVAILING RATES FOR FREIGHT AND PASSENGERS ARE EARNING THE REGULAR RATE OF INTEREST.

RAILROAD vs. AGRICULTURAL TAXATION.

Hon. S. M. Owen has publicly called attention to a circular recently issued by certain railway interests on this subject, stating that the railways in 1897 paid the enormous sum of $43,000,000 in taxes in the United States, or nearly one-half of the total income available for dividends. The national census of 1890 showed that but 39 per cent of the real value of property was taxed in that year, and the average rate of taxation was 1.85 per cent. At this rate the railroads, to pay taxes as other people do, would have paid 1.85 per cent on $4,680,000,000, or $86,580,000, which is twice the sum they claim to have paid. The farmers of the United States paid in the same year $116,365,000 of taxes, OR NEARLY THREE TIMES THE TOTAL PAID BY ALL THE RAILROADS. AND YET THE TOTAL VALUE OF ALL FARMS IS BUT TWENTY-FIVE PER CENT MORE THAN ALL THE RAILROADS.

A farmer in the southwestern part of the state thus puts the case:

While in town today my merchant told me that three thousand farmers in this locality raised an average of 1,000 bushels of grain last season, or a total of 3,000,000 bushels, which cost them an average of 9 cents a bushel to get to market, or $270,000 for the entire crop, and as it was carried on railways capitalized for over three times their real cost, we were mulct to the tune of $180,000. IN OTHER WORDS, HAD THESE ROADS CARRIED OUR GRAIN ON THE BASIS OF THEIR ACTUAL COST WE WOULD HAVE PAID 3 CENTS PER BUSHEL, OR $90,000, INSTEAD OF 9 CENTS, OR $270,000, WHICH WOULD HAVE LEFT US $60 EACH, OR $180,000, THAT WENT INTO THE POCKETS OF PROBABLY NOT MORE THAN SIX MEN. When we contemplate a system like this operating in every other county in the United States, is it any wonder that we are in the midst of mortgaged farms, carpetless, curtainless and bookless homes? I OFTEN WONDER HOW MANY FARMERS ACTUALLY SEE WHAT VICTIMS THEY ARE TO IMAGINARY CAPITAL. One thing is certain: votes indicate that a good many of them don't see it.

Another thing is certain, and that is that thousands are seeing the point who have not seen it before, and nothing has opened their eyes more than the Steenerson rate case and what has recently been seen in the Twin City (Lowry) case.

IT IS TIME TO WAKE UP.

A statistician estimating the wheat yield of Minnesota and the two Dakotas for 1898 at 200,000,000 bushels, says its transportation to market over over-capitalized railways will cost the growers over $20,000,000, of which $13,000,000 goes to pay interest and dividends on counterfeit capital. What patient, uncomplaining farmers, indeed.

THE DEMOCRATIC AND PEOPLE'S PARTIES OF MINNESOTA STAND AS THE DEFENDERS OF ONE HUNDRED CENT DOLLARS, BUT ARE OPPOSED TO TAXING MUSCLE, BLOOD, BONE AND BRAINS TO PAY INTEREST ON THE MILLIONS OF NO-CENT DOLLARS CREATED BY THE RAILWAYS OF THE STATE.

Farmers and others would like to toil and sweat and sweat and toil in the interest of the holders of bonds and mortgages which represent imaginary values only should keep right on voting the Republican ticket.

The man who counterfeits a genuine dollars three times is a criminal, but he who counterfeits railway stocks in the same proportion, for the "dear people" to pay tribute to, is a genius.

To contemplate, when paying 90 cents for a railway ticket, that 60 cents of it goes to pay interest on counterfeit capital and 30 cents to real capital does not tend to lift the eyebrows and raise the corners of the mouth.

Organize, incorporate, secure a franchise (monopoly) Invest one good, genuine dollar, capitalize it up to four dollars—by creating three imaginary (counterfeit) dollars—and you have all the requisites to become a modern corporation magnate and to "prosper" under the Republican system of legislation, which fosters the trust and the combine, while destroying the small dealer and pauperizing the producer.

When It's Really Solemn.

"It's a very solemn thing," she said, "when a woman intrusts a man with her affections."

"It's a mighty sight more solemn when she makes him think she has intrusted them to him while they are still locked up in her jewel box," he replied.

Then they looked at each other, and each realized that it was time for their summer flirtation to end.—Chicago Post.

Spanish Deterioration.

That the Spanish character has deteriorated greatly since Isabella's reign is again shown by the fact that, while poor Columbus can't lie still, his descendants can.—Kansas City World.

We are annoyed until we are 30 by the "example" we should follow, and annoyed after that time till death gets us of the "example" we are setting others.—Atchison Globe.

"Did you enjoy the cathedrals abroad, Miss Shutter?" "No; the horrid things were too big for my camera."—Chicago Daily Record.

When a man begins to put in his time looking out for his rights he is getting so he needs watching.—Washington (Ia.) Democrat.

It is more flattering to have people wonder why we are not famous than why we are.—Town Topics.

Upshaken Confidence.

"It's always pretty safe to judge a man by the company he keeps."

"Oh, I don't know. There are exceptions. My Uncle John's business makes it necessary for him to associate with aldermen a good deal, and still I'd trust him with every dollar I've got in the world.—Chicago Evening News.

Improved Mathematics.

"What are you working on now?" was asked of the man who is always inventing but never invents.

"Nothing very big just at present. I'm about completing a method for calculating compound interest with a rubber stamp."—Detroit Free Press.

Couldn't Be Marked Twice.

Lawyer—You have an excellent case, sir.

Client—But a friend of mine said he had an exactly similar case, and you were the lawyer on the other side, and you beat him.

"Yes, I remember that; but I will see that no such game is worked this time."—Green Bag.

What She Called It.

Maud—I'm a little uneasy in my mind. Ned asked me to marry him, and I told him I might, some day. Now, would you call that a promise?

Marie—No; I should call it a threat.—Puck.

In these days the matrimonial match only seems to light on the money box.—Truth.

MINNESOTA NEWS.

Disease Among Hogs.

A disease that has been prevailing among the hogs in the vicinity of Langdon for the past five or six months has resulted in the death of hundreds of the animals, and everyone is at a loss to understand whether it is hog cholera or not; some reason that it is not, as hardly two animals are afflicted in the same manner. Several parties have lost over 100 head each, and a great many their entire herds. Farmers in that locality have always engaged extensively in swine raising, many having valuable blooded stock, and it is considered an enormous loss to them, as it will be some time before they will care to invest in any more pigs. With the exception of three or four farms, where the disease has not struck yet, every hog is gone.

The Bullet Found.

A section foreman working on the section west of Deer River, while visiting at the home of Mr. Farman, one of the section men, was accidentally shot with a 32-calibre revolver. Both parties had been examining the revolver, when Mr. Farman, thinking it unloaded, snapped it, and the ball entered the foreman's leg just below the knee. He was taken to a hotel and Mr. Bloom, steward of the First battalion light artillery, was summoned. After probing and not finding the ball there he suggested that someone go to the house where the accident occurred. This was done, and the ball was found on the floor, having struck the bone and glanced, coming out at the same place it entered.

Troops Ordered Home.

Gen. Bacon signed and sealed his decision that the Leech Lake Indian insurrection was over when he sent a message the other day to Adjt. Gen. Sturgis, of the department of Dakota, directing that all the troops now in the neighborhood of the disturbance be recalled, with the exception of one company, which will be retained at Walker for moral effect.

It was a brief order, yet it had to do, with nearly 700 men who have been on their mettle for two weeks expecting attacks momentarily from the enraged reds. The quartermaster's department was apprised of the order at once and preparations were made for the transportation of the troops.

Northfield Gets It.

The committee of the grand lodge of Minnesota I. O. O. F. has decided to locate the Odd Fellows' home at Northfield, and $15,000 was appropriated for the construction of the first building.

The land is beautifully situated in sight of Cannon river, only four blocks from the school. It is near the center of the town depot and two blocks from the public school and between the town and St. Olaf's College. There are forty acres of oak forest on the property and the whole thing can be arranged as a park without any difficulty.

The other cities anxious to secure the home were Minneopolis, Owatonna and Montevideo.

Torn to Pieces.

Three men were terribly mangled at Duluth by an explosion of dynamite. They are: Henry Scherf, of Sault Ste. Marie, and John Stevenson and Michael Vail, of Duluth. They were working on a scow on the government canal, blowing up an old hulk. Scherf, the diver, was thawing dynamite over a small engine. Twenty-five pounds exploded, tearing the engine and boiler to pieces, and throwing the three men 25 feet and literally tearing their bodies to pieces.

Successful Land Sale.

State Auditor Dunn conducted a successful sale of state school lands at Crookston, the second of the year, a number of the pieces not having been appraised when the sale occurred in the spring. The bidding was spirited and a number of pieces sold up to $15 per acre. The bulk of the offerings were in eastern Polk county.

Mangled by an Explosion.

E. E. Morgan, of St. Cloud, received news of a terrible accident which befell his son John, at Central City, Colo., by which the unfortunate young man lost both eyes, had his head crushed and one arm blown off by a previous explosion of nitro-glycerine. Young Morgan was employed as a mining foreman.

Burglars Scared Away.

Burglars at Pirz, 15 miles west of Little Falls, blew open the safe of Dashman & Grell, general store. The force of the explosion broke out the whole front of the building, and the burglars were scared away, leaving $200 which was in the safe.

News in Brief.

The body of Mrs. August Gleason was found in the Mississippi river at Fountain City. She had been ill all summer and it is supposed took her life while temporarily deranged.

Patrick Boyle, private Co. G, Third infantry, is missing. His accoutrements were found.

John Steenerson, who is charged with killing Ruth Parish at St. Paul, has been indicted by the grand jury.

A. J. Dwyer, of the logging camp of Dwyer & Long, has leased the tow boat Martin Lally on Red lake, and it will be put into commission to tow logs across Red lake to the outlet, whence they will be run to the mills at Red Lake Falls and Crookston.

A laboring man at Stephen, named F. A. Gordon, committed suicide by drinking carbolic acid. He had been out of work for some time and drank a good deal and became despondent. He leaves a wife and three small children.

Mrs. Stevens, who fermerly edited the Morris Tribune, died in St. Paul of typhoid fever contracted through her son, a member of the 14th regiment, whom she nursed since his return from Chickamauga.

Telesphore Robillard, living east of Crookston, has slept almost continuously for ten days. He went to sleep in his usual health.

MUSICAL NOTES.

The antiquarian bookseller, Liepmannssohn, in Berlin, has issued a special catalogue of works appertaining to Wagner, Liszt and Berlioz, 483 in number, of which 379 relate to Wagner.

King Humbert has decreed that the Milan conservatory of music shall hereafter be called Conservatorio Guiseppe Verdi. When Vardi applied for admission to the school he was rejected after examination on the ground of "absolute lack of musical faculty."

POOL IS NOT LEGAL.

Supreme Court Delivers an Opinion That Crushes Joint Traffic Association.

Washington, Oct. 25.—By its decision Monday afternoon the United States supreme court knocked the last prop from under the system of railroad pooling devised by the trunk line magnates. The great east-bound pool known as the Joint Traffic association is declared to be a combination in restraint of trade, and in defiance of the provisions of the Sherman antitrust law. The principle laid down by the court in the famous trans-Missouri cases has been completely affirmed, and the trunk line magnates are apparently made liable to punishment for persisting in a violation of the law. The cases have been in the courts for nearly three years, and have been bitterly fought on both sides. The railroad combination was the strongest ever known in this country, and the defendants, who are now pronounced by the highest court in the land as violators of law, include the following:

New York Central, West Short, New York, Ontario & Western, Erie, Allegheny Valley, Baltimore & Ohio, Baltimore & Ohio Southwestern, Central Railroad of New Jersey, Chesapeake & Ohio, Chicago & Erie, Chicago & Grand Trunk, Cleveland, Cincinnati, Chicago & St. Louis, Delaware, Lackawanna & Western; Detroit, Grand Haven & Milwaukee; Grand Rapids & Indiana, Grand Trunk of Canada, Lake Shore & Michigan Southern, Lehigh Valley railroad, Michigan Central; New York, Chicago & St. Louis; Northern Central, Pennsylvania, Philadelphia & Reading; Philadelphia, Wilmington & Baltimore; Pittsburgh & Lake Erie, Pittsburgh & Western; Pittsburgh, Cincinnati, Chicago & St. Louis; Terre Haute & Indianapolis, Toledo, Peoria & Western, and Wabash Railroad companies.

VICTIMS OF A STORM.

Loss of Life and Enormous Damage to Property Results from a Hurricane in Texas.

St. Louis, Oct. 21.—A special to the Republic from Houston, Tex., says: The electrical and windstorm which swept over Texas Wednesday night was very severe in South Texas. Damage to cotton is enormous. At Deer Park, 20 miles from Houston, the residence of C. E. Adams was demolished. Adams, his wife and baby sustained minor injuries, while A. J. Cook was crushed to death. At Pasadena the residence of John Stout was turned over and completely wrecked. Six occupants were injured. The wind was so high at Missouri City, 35 miles west of Houston, that it blew a number of freight cars from the siding out on to the main track. The California express, running 40 miles an hour, dashed into the cars at full speed. The engine turned over, instantly killing George Johnston, of San Antonio, the engineer, and badly scalding the fireman and injuring the head brakeman. None of the passengers was badly hurt.

THE OLD STORY.

Three Men Torn to Pieces by Dynamite Which They Were Thawing Out.

Duluth, Minn., Oct. 22.—Three men were terribly mangled here by an explosion of dynamite. They are Henry Scherf, of Sault Ste. Marie, and John Stevenson and Michael Vail, of Duluth. They were working on a scow on the government canal blowing up an old hulk. Scherf, the diver, was thawing dynamite over a small engine. Twenty-five pounds exploded, tearing the engine and boiler to pieces and throwing the three men 25 feet and literally tearing their bodies to pieces.

Philadelphia's Peace Jubilee.

Philadelphia, Oct. 24.—The peace jubilee began Sunday. It fittingly opened with special services of prayer and thanksgiving in all the churches of the city, irrespective of creed and doctrine. Sermons were preached on the inevitable horrors of war and the consequent blessings of victorious peace, and there were services of song and worship on these themes. This was the spiritual inauguration. The material and spectacular beginning will not be until Tuesday, and the intervening day will be devoted to housing the city's guests and perfecting the final details.

Slain Before the Camera.

Omaha, Neb., Oct. 24.—A lovers' quarrel ended in murder and suicide in the parlors of a downtown photographer at noon Sunday. John Melchert blew out the brains of Lillian Morris and then his own. They were standing before the camera at the time preparing to have their pictures taken. She desired to have their attitude one indicative of love when the picture was made and was posing with her arms around her lover's neck when he suddenly drew a pistol and slew her.

New Cruiser for Japan.

Philadelphia, Oct. 26.—Japan's fine new cruiser, the Kasagi, was turned over by the Cramps Monday to the Japanese government, as represented by Commander N. Kashievabra, and he at once went into commission and run up the mikado's flag. During the naval review the Kasagi will fly the stars and stripes, with her own ensign, as a special courtesy to Secretary Long and officers of our navy.

Crew Perishes.

New London, Conn., Oct. 24.—Sunday morning an unknown schooner, off shore about 1½ miles east of Bartlett's reef light, was wrecked in a southwest gale and those on board were drowned. The identity of the schooner, which was a good-sized one, is unknown.

More Victims Found.

Toledo, O., Oct. 25.—The last of the victims of the Union elevator fire were accounted for Monday when the men who were removing the grain found the charred remains of Sam Alexander and portions of another body believed to be that of the son of Superintendent Parks.

Snow in Kansas.

Kansas City, Mo., Oct. 21.—Snow is reported from several points in Kansas. The thermometer averages between 33 and 37 degrees. The indications are for frost throughout the southwest.

Captain Is Killed.

Pittsburgh, Pa., Oct. 22.—The towboat Rescue, belonging to Jutte & Co., was blown up at lock No. 3, near Elizabeth. The captain was killed and nine of the crew were injured.

Then She Sat Down.

"In Hawaii," said the man who was occupying the greater part of two seats, "the women have hogs for pets."

"In the United States," said the woman who was hanging on to a strap, apparently speaking to the woman next to her, "the women often marry hogs."

Immediately thereafter three men got up and made believe that they really preferred to stand.—Chicago Post.

Wheat $2 a Bushel.

Some farmers are holding their wheat because they think the price will go to $2 a bushel. The price, however, may go down instead of up, and thus great losses will follow delay in selling. In all matters delays are dangerous, particularly so in sickness. At the first sign of biliousness, dyspepsia, indigestion or constipation cure yourself with Hostetter's Stomach Bitters. Don't wait for your condition to improve itself, for it is apt to get worse still.

The Real Facts.

"Many a man," said the Cumminsville sage, "thinks he has something to say, when, really, he only has a job of talking to do."—Cincinnati Enquirer.

Damp weather brings Rheumatism. St. Jacob's Oil brings the cure, promptly.

Enough for a Row.—"Pa, what are the dogs of war?" "Well, your mother's fine poodle and that mongrel pup next door."—Detroit Free Press.

Beware of Ointments for Catarrh That Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is often ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c per bottle.
Hall's Family Pills are the best.

BILIOUSNESS

Do you get up with a headache?
Is there a bad taste in your mouth?
Then you have a poor appetite and a weak digestion. You are frequently dizzy, always feel dull and drowsy. You have cold hands and feet. You get but little benefit from your food. You have no ambition to work and the sharp pains of neuralgia dart through your body.
What is the cause of all this trouble?
Constipated bowels.

Ayer's PILLS

will give you prompt relief and certain cure.
Keep Your Blood Pure.
If you have neglected your case a long time, you had better take
Ayer's Sarsaparilla
also. It will remove all impurities that have been accumulating in your blood and will greatly strengthen your nerves.
Write the Doctor.
There may be something about your case you do not quite understand. Write the doctor freely; tell him how you are suffering. You will promptly receive the best medical advice. Address,
Dr. J. C. Ayer, Lowell, Mass.

MRS. PINKHAM TALKS ABOUT OVARITIS.

Letter from Mrs. Carrie F. Tremper that all Suffering Women Should Read.

Ovaritis or inflammation of the ovaries may result from sudden stopping of the monthly flow, from inflammation of the womb, and many other causes. The slightest indication of trouble with the ovaries should claim your instant attention. It will not cure itself, and a hospital operation with all its terrors may easily result from neglect.

The fullest counsel on this subject can be secured without cost by writing to Mrs. Pinkham, at Lynn, Mass., and asking for her advice.

Your letter will be confidential and seen by women only.

MRS. CARRIE F. TREMPER, Lake, Ind., whose letter we print, is only one of many that have been cured of ovarian troubles by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I was suffering from congestion of the ovaries, misplacement of the womb, irregular, scanty, and painful menstruation, also kidney trouble. I had let it go on until I could not sit up, and could not straighten my left leg. My physician gave me relief, but failed to cure me. Reading the testimonials of different women, telling what Lydia E. Pinkham's Vegetable Compound had done for them, I decided to give it a trial. I had almost given up hopes, as I had suffered untold agony. The first dose helped me. And now, after using eight bottles of Vegetable Compound, one bottle of Blood Purifier, one box of Liver Pills, I am proud to say I am as well as I ever was. I might have saved a large doctor's bill and much suffering, had I tried your precious medicine in the beginning of my sickness. All in the village know I was not expected to live, when I had the first and second attacks. In fact, I had no hope until I began taking your Vegetable Compound. It has saved my life."

A Million Women Have Been Benefited by Mrs. Pinkham's Advice and Medicine

"No use for a duster — there 's no dust on BattleAx PLUG It sells too fast"!

Every dealer who has handled Battle Ax knows this to be a fact. There is no old stock of Battle Ax anywhere:—nothing but fresh goods, as Battle Ax sells five times more than any other brand in the world.
All who chew it never change.

BUFFALO GAZETTE

DELANO, FRIDAY, OCT. 28, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

DEMOCRATIC TICKET

For Governor,
JOHN LIND.

For Lieutenant Governor,
J. M. BOWLER.

For Secretary of State,
J. J. HEINRICHS.

For State Auditor,
GEO. M. LAMPHERE.

For State Treasurer,
ALEX McKINNON.

For Attorney General,
JUDGE J. F. KELLEY.

For Clerk of Supreme Court,
Z. H. AUSTIN.

Justices,
MITCHELL, CANTY, BUCK.

For Congress,
CHARLES A. TOWNE.

—Wood sawing is a thriving industry at present.

—Fred Japs has moved into the residence of Mrs. Jonas Johnson, on N. Third Street.

Politicians are prowling about the county. Be sure they are good men and not in any ring before you believe all their promises.

—Street commissioner Welker is at work to day on a new crossing for the ally between Dedrick's and Meister's places of business.

—Don't forget to come to Delano to hear Charles A. Towne Saturday evening, Nov. 5. He will speak at Waverly in the afternoon.

—Presbyterians here are now alternating their Sunday services; having preaching in the morning one week and in the evening the next.

—The Ladie's Aid will hold a Hallow'een Social at the M. E. Parsonage next Monday Eve, Oct. 31st. A cordial invitation extended to all.

—A part of the sidewrlk from Brandser's corner to the Post office on second street has been laid. When completed if it ever is, Delano can boast of one entire block enclosed by sidewalk.

—Street Commissioner Welker has moved into the Roosen building on R. R. Ave.; Joe Stine having purchared the Swadner house on Franklin Ave. and 3d street, where Welker formely lived.

—The Town of Franklin will hold election in the Roosen Opera House, opposite the Round evelator. Their poll list is posted there. If your name is not on see to getting it there next Tuesday.

—Wet weather, muddy and rough roads produced theit usual effect this week, and aided by a cold snap advanced prices on wood and hay a little bit, temporarily. The dealer prepared to take advantage of such times is apt to reap the cream of the trade in these lines.

—Frends of the 13th Minn. Vol. of St. Paul and Minneapolis are uniting in a strong effort to have the Reg. sent home. Of course we would be glad to see our boys home again, but we should hear from the well ones that they desire to come, before relying too much on what the unfortunate sick thought of the country, and of the treatment the boys received. Uncle Sam ought not to allow his soldiers to suffer, and anyone who tries to grow rich at their expense should be handed over to the Reg. he tries to defraud and see what it will do with him.

—Emery Cunningham received a letter yesterday from his nephew Alva Catlin. It was dated Sept. 15 It was the only one to arrive in that mail for Delano. Alva says soldiering looks nice on Nicollet Avenue or laying the corner stone for the new capitol, but many of the boys have concluded it looks different to be on active duty with two hardtacks and a small piece of bacon a meal. He thinks Uncle Sam has sent them enough to eat but for some reason or another it don't get to the men. Alva was surprised to find two old Wright County boys in his company, Mr. Cochran of Monticello and Mr. Preeby of Rockford.

—Charley A. Towne, of Duluth; Minnesota's most noted political orator, will be at the City Hall, in Delano, no preventing Providence, on Saturday evening, Nov. 5. He speaks as if he was in earnest, and without fear of condradiction. He evidently means what he says and carries his audience, usually all the biggest hall in town will hold, right along with him. If the will of the people is expressed at the polls on Tuesday following his speech here, he will doubtless receive a large majority in our part of the county. Be sure when you vote to place a cross opposite Mr. Towne's name, as well as opposite the names of John Lind and the state ticket, and Judge Canty, Buck and Mitchel. When you mark your ticket further be careful to mark only men not in political rings and deals, no matter what your politics is; nor how good a fellow the ringster may be. The only way to thoroughly wipe out a ring is to dispose of the several pieces se effectually that they cannot be reunited in a full circle.

—Hon. Geo. Kuzlowski, a Polish speaker, will address the citizens of Delano and Franklin Township on Thursday evening, Nov. 3, at the City Hall, on the political issues of the campaign.

—Delano's election board has been selected as follow's: T. B. Rader, C. M. Conzert, Charles L. Belt judges; John Lohmiller, J. W. McDonald, clerks. A chance will be given to register at the City Hall Tuesday. See that your name is on the list.

—Rev. Mr. Ray will hold Episcopal services in the Presbyterian church next Tuesday evening instead of Wednesday evening, as announced in the EAGLE. The change is occasioned by the fact that the Presbyterian prayer meeting is held on Wednesday evening.

A Card of Thanks.

We, the undersigned, tender our sincere thanks to our friends and neighbors who assisted us in our late bereavement.

JOHN CUNNINGHAM and FAMILY.

Personal.

Mrs. A. D. Smith and children left Saturday morning on their return home to Omaha, Mrs. S's father John Cunningham went with them for a couple of weeks visit.

Judge Tarbox, of Monticello, is said to have attended the I. O. O. F's Lodge here, Friday evening.

Van Clark, of Howard Lake, visited his cousin Joe Merriman and father, of Delano, this week. Van thinks of attending college this winter at Minneapolis or at Dixons, Illinois.

Mr. and Mrs. Wolfendon, of Litchfield visited Delano friends during the week.

Scott Gunn returned from the Fosten branch last week. He left for Waverly Monday to work at his trade.

E. J. Swedeback and family left last week for Bermidji where they will make their future home. Delano was sorry to lose them

Rev. J. R. Davies, was a GAZETTE caller on Wednesday. He was on his way to his new appointment at Excelsior, where he is moving his family.

Frank T. Hamilton candidate for County Auditor was interviewing Delanoites Wednesday. He made a very good impression.

Ennos Brandon of Annondale, was a Gazette caller todsy.

Boutell, Church, Haffion and Vorse were among Republicans in town this week.

County Cullings.

Hon. Charles A. Towne, will speak at Waverly Saturday afternoon, and at Delano Saturday evening, Nov. 5. Be sure to hear what he has to say on the political issues of this campaign.

The largest and most interesting meeting of this campaign in Wright County will probably be the one at Waverly Saturday afternoon and at Delano Saturday evening Nov. 5. Don't fail to be at one or the other and hear Hon. Charles A. Towne.

Politics makes strange bedfellows it is often said. Truly when the same G. N. train lands French, Tarbox and Nugent in town it looks as if "Three in a bed was pretty thick" And then when Hon. A. Y. Eaton rides on the G. N. too, and a few lesser lights, people do begin to suspect the answer to that conundrum "Opposition to G. N. influence is now over in this county."

Railroads have their rights, as well as do individuals; and are as well entitled to have them observed, and the matter ends there. Because a railroad is a great moneyed congregation of men is no reason why their rights should be any more or less respected. Right is right whether for the President or for the engine wiper, whether for the wealthy money loaner or the humblest borrower. And the right should be respected.

That man reported captured by Sheriff Nugent last week with a big head line in several boom papers, it is now claimed on good authority, had been serving a term for some other misconduct and when he had finished the sentence was simply turned over to our Sheriff. Easy as falling off a log! He couldn't hardly help catchihg him under the circumstances. John's friends must have been hard up for campaign arguments when they trotted that out

For a great number of years the Republicans of Wright County have held the controlling power at elections, and during that long time they have steadily seen to it that the Democratic Sheriff was elected every time he ran for office. But this year it does begin to look as if they had tired of their old love, and as if unless exertions extraordinary are made, that the Republican nominee may be elected, in spite of the combinations. So far as we have been able to learn Mr. Grant would make a good Sheriff and, under the circumstances ought to be elected for the honor of his own party as well as that of reformers generally.

The County Democratic ticket is not very harmonious. It is generally understood that the powers that set up the pins allowed some men nominated because they couldn't well help themselves, and hoped to "knock them out" as usual, at the polls. Honest men in all parties will prefer honest men, not tied up to rings, for county officers. For our part a man that attends two State conventions in the intesest of ringsters and gold bugs, and runs for Sheriff on a "Free Silver" ticket and is the only man on the Democratic free silver platform elected, all the same year, is straddling too many horses for us. And when parties tell us that they have seen the papers whereby this same "Free Silver" Sheriff tried to get a Post office as a "Gold Bug" and failed, it is about time to "let him out" of office for a season or so, surely so, after more than 20 years service. Why the gold bugs should give him an office as a "Free Silver" man when they ref use him one as a "Gold Bug" demands explanation by honest men everywhere.

HOW THE OLD THING WORKS.

SEQUEL TO HASTINGS & DAKOTA LAND GRANT FORFEITURE ACT.

John McGary Again.

The time for Spring chicken and pumpkin pie being over, we come to a more important feature along the pathway of life, and as the November election is almost here, the attention of the people is naturally drawn in that direction. This being a State Political, and not a National Campaign is naturally not quite so exciting. And yet the woods is full of Politicians most of them being on a still hunt. In our town we have both Lind and Eustis men. and it would seem from outside appearances that the Eustis button is in the lead, dut can't most always tell about these things untill after the votes are counted. The Republican Rally at School Hall last week, was about the same as to numbers as was the Democratic rally only a night or two before. Last week's Eagle seems to think the Democratic Rally at Delano last week of rather light weight, and hardly up to the standard, but it is not always the largest numbers that do the most service.

Some say Eustis is the man to lead the people, and will be elected; but we hardly think he will fill the bill. He is an old batch and has an impediment in his walk, and we do not think he could make a second Moses. Our speach maker on the gold standard, high Protective Republican side of the house, say the money question, (free silver is dead) and can neyer rise again. Money is a creature of law, and can not be killed off by a few unruly Politicians. If the national banking system and money question was thoroughly understood by the people of this country there would be an uprising among them demanding that these things be put on a different foundation. because we are a free Republic is no sign that we can not be humbugged. I know that thousands of people do not take the time nor avail themselves of the opportunity to inform themselves on the money question for it is a preplexed problem and they leave the matter to the leaders of their party and they receive instructions from them, but in this they fool thtmselves, the leaders generally explain things to their own liking. People should not depend too much upon their leaders, for by their knowledge and power in office they become corrupt, and sometimes one man has been known to lead a whole nation astray. Like the Demonetization of Silver, it seems that only a few men at the time were knowing to it and yet it came very near working death and destruction for us, and even now thousands of people will listen with a silly grin on their faces about the policy of a 53 cent silver dollar. If this be true that we have only a 53 cent silver dollar then our head officials and the whole of Congress should be under indictment, and they should be impeached. Both Gold and Silver is constitional money, and its ratio can not be changed only by an act of Congress.

Our leaders want that this country should become one of the great powers of the world like Europe etc. The children of Isarel wanted to be like other nations and they asked for a King so Samuel anointed Saul, son of Kish to be King over Isarel, but he soon got them and himself into trouble. Now when we get all those Islands of the sea annexed to our public domain, and settled over by squatters from this country, raising sugar cane and tropical fruit, we can boast of a country inhabited by by monkeys orangotangs, and gold standard plutocrats a country the sun ever shines on and leaves us not in Egyptian darkness.

It is all right to be selfsustaining, and if convenient lay up a few dollars for a rainy day, but when the whole attention is turned to money making as a rule the spiritual interest of a nation or individual is greatly neglected. In time of war and just after we always hear a good deal about lovalty and patriotism, but some peoples patriotism consists of nothing but noise We should have felt bad if Spain had whipped us, but I fear the more we have of them the worse off we will be.

According to an amendment, to the State Constitution two years ago there will be quite a number in our town deprived of their vote having neglected to take out their second papers; this they should have attended to.

If John C. Nugent is Sheriff next year it will be due to Republican votes. What,s the matter with their regular nominee, Angus Grant of Buffalo. He has been deputy and knows how it's done. We think the Republicans after these many years ought, in justice to themselves, to support their nominee. unless for cause.

As it seems almost a certainty that John Lind will be our next Governor, Wright County should send Johnston Mealey and Representatives Kelly and Johnson to the Capitol to help him fix things as ought to be.

Our State ticket is a strong one in making exes after names be sure to find those with Democrat after them.

For Judge of Supreme Court it is easy to pick out Canty, Mitchell, Buck. Do so and give us good men.

Will Hon. Page Morris Kindly Explain the Change?

From the following language of the Republican State Platform of 1894:

"The Republican Party believes in the use of both gold and silver as money, maintaining the substantial party of value of every dollar in circulation with that of every other dollar.

"It believes in bimetallism, and that the restoration of silver as ultimate money to the currancy of the world is absolutely necessary for business prosperity, proper rates of wages, and the welfare of the people."

To this language of the Republican State Platforun of 1898:

"We believe the national honor and the material interests of the American people require the maintaining of the present gold standard."

$1.00 A YEAR FOR DEMOREST'S FAMILY MAGAZINE.
The Subscription price of DEMOREST'S is reduced to $1.00 a Year.

Demorest's Family Magazine is more than a Fashion Magazine, although it gives the very latest home and foreign fashions each month; this is only one of its many valuable features. It has something for each member of the family, for every department of the household, and its varied contents are of the highest grade, making it, pre-eminently, The Family Magazine of the World. It furnishes the best thoughts of the most interesting and most progressive writers of the day, and is abreast of the times in everything,—Art, Literature, Science, Society Affairs, Fiction, Household Matters, Sports, etc.,—a single number frequently containing from 200 to 300 fine engravings, making it the Most complete and Most Profusely Illustrated of the Great Monthlies.

Demorest's Magazine Fashion Department is in every way far ahead of that contained in any other publication.

Subscribers are entitled each month to patterns of the latest fashions in woman's attire, at no cost to them other than that necessary for postage and wrapping.

NO BETTER CHRISTMAS GIFT

than a year's subscription to Demorest's Magazine can be made. By subscribing At Once you can get the magazine at the reduced price, and will also receive the handsome 25-cent Xmas Number with its beautiful panel picture supplement.

IN THE VOTING BOOTH.

To be Carefully Read Before Going to Vote.

BY HENRY SLADE GOFF.

Here I weigh the declarations
And the purposes of men;
Here I view the drift of nations,
Summoning all my powers of ken.
Not in sordid disposition
Shall I set this day my part,
But that favorable transition
May give hope to human heart.

Cannon shot and bullet's rattle
Men have dared for you and me;
Sires and sons have faced the battle
That their country might be free.
High above all prostitution
Must we set our part, in truth:
Party zeal or vile pollution
Shall not rule this blood-bought booth.

Get thee, satan, far behind me:
Worlds or kingdoms shall not win,
Coupled with a vow to bind me
Here to servitude of sin
Unimpelled by motives selfish
Shall this vote of mine be cast;
Action here shall be unselfish
As the race of man is vast.

Sacred this as last transaction—
Last, indeed, for ought I know;
Here's for right a benefaction,
And for wrong its overthrow.
Holy ground where prophet tarries
At the bush on Horeb's soil;
Hallowed this, where patriot carries
Woe or weal for human toil.

Page Morris Punctured.

In last week's Item read, 2 million sheep instead of 62 million.

As we are not legally compelled to pay taxes to protect the wages of the American laborer, the natural consequence is, that we must legally compel protected manufactorers to employ only American labor Aliens may find work in unprotected labor.

Therefore nobody should be allowed to work in a protected industry who cannot prove by certificate to the owner, that he is native born, or the offspring of a fully naturalized citizen. Every owner of an establishment, protected by import duties who employs a laborer without such a certificate should be fined $500 for the benefit of a fund to be used as a support of the laborers in case of sickness. That will put the laborers in control. Without such a law the protection of American labor by high tariff rates is a humbug.

Would any part in Congress favor such a law? Not much! Either the importers, or the factory owners or the silver kings are the main contributors to the campaign funds of the parties, with which are paid ward heelers, traveling orators, brass bands, etc., used to influence the vote of the people. None of these contributors are in favor of such a law and so we will not have it. All candidates are supported by the money of either one of these pecuniarily interested parties. But all these questions, silver or gold, high or low transportations are insignificant and should be left alone for awhile, as there are questions looming up which are strictly against our present democratic rule.

Shall we leave that road marked: "The only right of government rests on the consent of the ruled" which carried us to greatness unsurpassed; or follow the trail of European imperialism at the antipodes? Will we force our boys by proscription to serve as the tools of oppression?

Will we change our laws to make us fit for military imperialism? Does the maltreatment of our boys in the drill ing camps justify such proceedings?

Criticism.

MAPLE LAKE Oct. 31.

EDITOR GAZETTE: —Dear sir your criticism of the Maple Lake Messenger last week, met with warm approval of the Citizens of our Village, who are acquainted with Jack DeHaven and who knows the circumstances under which he happened to be the present editor? of that Paper. It seems Mr. Dell. is not the owner of the Messenger as was at first supposed, but is simply running the paper under a lease. He has been in town 4 months, I doubt he will be with us 8 more. He never misses an oppertunity to make a dollar. He is loyal to the party or candidate who gives him the most money. He is in sympathy with there desires, and means to make the Messenger pay while he has it.

In reply to your criticisms of the Messenger, Dellaven will no doubt publish this week a lot of rot. Concerning Mr. Frank T. Hamilton Our Candidate, you spoke so deservedly well of in your paper last week, but it will have very little weight with those who know both men personaly.

Very respectfully yours,
JUSTICE.

Pioneers can Vote.

Territorial pioneers of foreign birth who were qualified electors at the time of the admission of the state into the union do not have to take out second papers, provided they had taken out their first before the admission of the state. This is in substance the ruling of Judge Elliot; in the case of Thomas Warwick, who yesterday secured an alternative writ of mandamus to compel the election judges of the fourteenth district of the fifth ward to show cause why he should not be allowed to register. Mr. Warwick claimed that he came to the territory of Minnesota in 1850 and took out his first papers in 1855, thereafter voting as a fully qualified elector until and after the admission of the territory as a state. He, therefore, contended that he, with others, was substantially naturalized by the admission of the state into the union.

Judge Elliott ruled "that the admission of a state on an equal footing with the original states of the United States involves the adoption as citizens of the United States of those whom congress makes members of the political community, and who are recognized as such in the formation of the new state with the assent of congress. It follows that a man who had declared his intention of becoming a citizen of the United States while a resident of the territory of Minnesota, and who, under the territory, was entitled to vote, became a citizens of the United States on the admission of the territory as one of the states without any further act on his part."

The ruling followes that in the case of Boyd against the state of Nebraska, which was decided by the supreme court of the United States Feb. 1, 1892, and is important just at the present time because the matter was never before decided in this state and affects a large number of voters who might be debarred from voting otherwise. Election judges are expected to take note of the decision in deciding upon any similar cases during the registration of this evening.—Minneapolis Journal.

THE one great bugbear with the present Republican campaign is the wonderful lack of "confidence" in the promises made by the leaders; and the lack seems to grow and strengthen with the approach of election day.

WASHINGTON LETTER.

(Fromour Regular Correspondent.)

WASHINGTON, D. C., Oct. 28, 1898.

The suspicion is growing daily that one of the causes the principal one, of delay in the peace negotiations at Paris is the influence of the holders of the $500,000,000 in Spanish bonds that Spain calls Cuban bonds. These bondholders have satisfied themselves that public opinion in the U. S. would never consent to the payment of any portion of these bonds by this country, even if officials could be "persuaded" to agree to such payment. They are now working on another tack. They wish to secure a promise from this government, entirely outside of the treaty of peace, of course, that it will use its influence with the Cuban government that is sooner or later to be set up to recognize these bonds. They know very well that no such promise can be made officially, but they believe that it can be secured in such a way that it can be made effective. A hint of the work in this line that has been done at the Paris end of the line was contained in a recent news paragraph cabeled over, which stated that one of the American Commissioners had said the Cuban government, after its establishment, and not the U. S. peace commissioners, would be the proper party for Spain to negotiate with concerning Cuban bonds. If the capitalists who are trying to make this exchange can get these bonds recognized by Cuba, with a sort of tacit consent by this government, they can pocket at least $300,000,000 in profits. That may be considered as the stake in the game now being played.

The semi official statement sent out from Washington, that Mr. McKinley had sent an ultimatum to Spain, threatening to withdraw the American Commissioners and declare the entrance at an end if the Spanish Commissioners did not proceed more rapidly with the negotiations of the treaty of peace is nothing more nor less than a bit of campaign buncomb, put out solely for effect upon the Congressional campaign. Members of the administration have been very careful not to father this statement, or even to admit that it is true, but it originated from a source that the administration constantly makes use of to get things before the public. It is absolutely certain that no ultimatum has been sent.

The publication of the letter from Chairman Babcock, of the Republican Congressional Campaign Committee, to Senator Penrose, imploring him to show the letter to prominent republicans who are opposing the Quay ticket in Pennsylvania, in order to get them to try to save the party the loss of a number of Congressional districts, indicates, how frightened the republican managers are at the outlook. This letter was not intended for publication, but was to be shown around to republicans only. There are good reasons for saying that Mr McKinley would not care a continental if Quay was defeated, if his defeat does not cause the loss of enough Representatives to give the House to the democrats, and it is just the same with Roosevelt in New York. If Mr. McKinley could be assured that republicans would retain control of the House, even by a largely reduced majority, he would be perfectly willing to see Quay and Roosevelt defeated. He has had it in for Quay a long time, and he fears the election of Roosevelt may make him a dangerous rival for the republican nomination in 1900. How much that had to do with his refusal to go from the Philadelphia Peace Jubilee to New York and make a speech, only himself knows.

It would be something entirely new for a republican administration to make anything even resembling a fight against the trusts. Therefore no one was surprised when Attorney General Griggs said in reply to a question as to whether his office intended to take advantage of the Supreme Court decision that railroad trust, known as the "Joint Traffic Association", was illegal, to prosecute other trusts: "This office is not looking for jobs. It has all the work on hand that it can stagger under now." While the Department of Justice probably has lots of work to do, there is little doubt that the right sort of an Attorney General could use that anti-trust Supreme Court decision to make things very lively for the trusts, and if the present force of the department was insufficent to do the work, it could easily be increased, if it were made known why the increase was desired.

Secretary Kerr of the Democratic Congressional Campaign Committee, declines to make public a statement of all the Congressional districts he expects to go democratic, because there are some of them that the republicans do not regard as in danger; but he expresses confidence that the democrats will control the next House by a good working majority, and his looks express his confidence plainer than his words do. Lack of money confines the work of the democratic committee to a few districts, as it was early in the campaign decided that with the means at its disposal better results could be obtained by concentrating its efforts in those districts that were carried by a small majorities by the republicans in '96. The republican committee has been run on the scale of a Presidential campaign, having at times more than one hundred persons engaged in sending out literature, and must have spent more money than was ever before spent in a Congressional election, but that has not prevented their winding up on the anxious bench, fairly shivering in dread of defeat.

LAND GRANT AND RUINED SETTLERS

The Political Sequel to the Hastings & Dakota Land Grant.

WHEN WILL REPUBLICAN OUTRAGE END?

Having Tricked the State by Deeding Lands to Russell Sage, to Defeat the Forfeiture Bill, Sage's Agent and Attorney in Evicting Settlers, Lyndon A. Smith, Is Made Candidate for Lieutenant Governor—Fraud and Trick Companion to Guaranty Loan.

Two years ago, although somewhat late in the campaign, attention was called to the manner in which the State of Minnesota was defrauded out of more than 5,000 acres of land in the western part of the state by the Russell Sage—Hastings & Dakota—land grant fraud, better known as the Hastings & Dakota steal. In the time that has elapsed the matters come home to individuals and people and come into the campaign with peculiar applicability, from two facts. First, that the settlers on the lands are being ejected therefrom; and second, that the instrument or attorney in Russell Sage's evictions IS THE REPUBLICAN CANDIDATE FOR LIEUTENANT GOVERNOR, LYNDON A. SMITH, of CHIPPEWA COUNTY,

Two years ago the state Democratic committee officially stated the case from the records, and from the same source the Reform Press now presents the following summary:

Hastings and Dakota Grant.

The land grant of the Hastings & Dakota railroad had never been finally adjusted, but in the course of time the supposed rights remaining due under it had come into the ownership of Russell Sage, the many times millionaire of New York. In what manner this occurred, and how the hocus pocus has been worked to keep the lands from the tax assessment rolls, is not important to the case now. Concerning the grant itself, the facts are old to most residents of the western portion of the state. Congress granted the lands away back in 1866, reserving, and by subsequent act continuing to withhold, such lands in the certain belt, as might have been taken by the settlers. In the years following there were numerous changes, lapses and extensions, during which time settlers continued to go upon the lands which the railroad company expected to obtain, and the question of title and ownership became greatly complicated. One thing remained clear, however, that people settled on lands in good faith and went on to make their homes and improve the country, increasing the other lands in value.

Where Sage Comes In.

In due time the Hastings & Dakota company dissolved, and what it possessed, or expected to possess, passed, as has been said, into the hands of Russell Sage. What remained? The people claimed that nothing remained, but that the lands belonged to those who had secured them under the government laws and the protection of the state. This matter has been agitated for years and reached several sessions of the legislature, and was the stock in trade of several very active Republican politicians. It came to a head in the session of 1895, under the efforts of two such politicians, respectively, Representative J. F. Jacobson, of Lac qui Parle, in the House, and Senator E. T. Young, of Swift county, in the Senate, as representatives from the region where many of the victims of what has come to pass reside—or did before ejected from their homes. Those gentlemen made the campaigns of their lives for their friends and neighbors, oppressed by these adverse claims on the part of Russell Sage. The Hastings & Dakota land grant was more talked of than any other proposed legislation of the period. In a previous session something had been attempted, but not till the session of '95 was success attained. These "defenders of the poor settlers," united the whole Republican strength of both houses for the bill they agreed on, which declared a forfeiture of all rights and interests of Sage and any one else but the settlers occupying the lands. Lands not occupied by settlers beeame the property of the state. This was agreed to be the only way in which relief could be had for those people in that part of the state.

Where the People Go Out.

Senator Young, by agreement with Representative Jacobson, introduced the bill in the senate, and piloted it through that body. It passed there on the 11th of April by a vote of 32 to 6. Then Mr. Jacobson took it up in the house, where it passed on the 13th of April by a vote of 90 to 1. While both managers talked much of corporate opposition to the measure, and expended oratory galore, it was notorious that there was little or no opposition to the measure from the railroad lobby, which usually fought such legislation. The reason came out later. The bill became a law on the 18th of April by being signed by the Republican governor and being deposited in the office of secretary of state, and the legislature a few days later adjourned. When it was safely departed, then was the discovery made that on the 18th of April, FIVE DAYS BEFORE GOVERNOR CLOUGH HAD SIGNED THE FORFEITURE BILL, THERE HAD BEEN MADE, SIGNED, SEALED AND DELIVERED, BY THE SAME GOVERNOR, A DEED FOR THE STATE, TO THE SAME RUSSELL SAGE, FOR THE VERY LANDS DECLARED FORFEITED BY THE YOUNG-JACOBSON BILL. Thus, not only had the whole legislative machinery of the state been employed in a shameful trick upon the people, at the latter's expense, BUT THE POOR VICTIMS FOR WHOM SO MUCH TALK HAS BEEN MADE ARE FASTENED DOWN IRRETRIEVABLY IN THEIR MISFORTUNES.

Lyndon A. Smith, Attorney.

There has been no recourse but to leave their homes and their property, or to make settlement at Russell Sage's own terms. This engages the attention of much of the court machinery and the several agents in the counties chiefly interested, those of Chippewa, Big Stone and Traverse, including Candidate Lyndon A. Smith. The following is a list of the lands which Sage thus obtained, by Republican assistance, and from which the farmers will be evicted, unless they pay Russell Sage:

Parts of Sections—	Sec.	T.	R.	Acres

How the Old Thing Works.

The sequel to this interesting story is to be found, first, in the actions to deprive the farmers and other owners of the lands on which for the most part settlements have long since been made, and next in the action of the Republican party in making its candidate for Lieutenant Governor, the attorney for Russell Sage in the evictions which have followed. The actions are found in the courts of Bigstone, Swift and Traverse counties, where the lands for the most part are located. The cases are so numerous that the complaints on which they are brought are printed by the wholesale, all ready for filling out and filing. Some of the farmers are able to defend by having occupied the lands long enough, under the statute, to make them secure by adverse possession, fifteen years. Such as have not this defense must leave, or what is mostly desired, settle, and pay Sage's agent or agents. THE RESULT IS THE CONSTANT REMITTANCE TO THE NEW YORK OFFICE OF SUCH SUMS OF GOOD MINNESOTA MONEY AS ARE EXCEEDINGLY GRATIFYING TO ALL CONCERNED, EXCEPT THE POOR VICTIMS. The whole is well illustrated in the picture, "How the Old Thing Works."

In the Republican state convention, after Guaranty Loan Candidate Eustis had been selected to head the ticket, the attorney and agent of Russell Sage, Lyndon A. Smith of Montevideo, was very properly selected as the candidate for Lieutenant Governor. Guaranty Loan, and the Hastings & Dakota grant, with their sequels of ruin and distress, are proper companion pieces. THE DEFEAT OF BOTH SUCH CANDIDATES WILL BE ATTENDED TO CAREFULLY BY THE VOTERS OF MINNESOTA AT THE POLLS NEXT MONTH.

EUSTIS UNDER A GALLING FIRE.

Preston National Republican: William Henry Eustis is under a galling fire from his outraged Minneapolis constituency. His conduct as mayor of the city was flagrantly wrong and inimical to the sacred rights of the whole population, except those of the Guarantee Loan Association and the Tom Lowry street car combine, and now he is called to account for his absurdities and corrupt peculations. In favor of the street car company he disobeyed the law as laid down by Judge Smith. The City of Minneapolis has never been aroused by a mayor more heedless of its municipal rights. What he has been to that municipality he is expected to be, if elected governor, to the pine land rings, the school land and iron mountain thieves, and all other combinations organized to rob the state. All of the local political rings that are now shouting for Eustis do so with a full knowledge of his unworthiness. From the tables of his central masters in political fraud the most of their crumbs are distributed. In return misrepresentation and lies are manufactured to deceive voters. These proclaim that Eustis is clean and has a saintly horror for the detestable outrages of which the party that nominated him is guilty. Those who want an honest man for governor must vote for John Lind. His patriotism is genuine.

Pioneer Non-partisan.

The Pioneer Press has heretofore taken several occasions to give expression to the deep regret of a multitude of Republicans that the Republican state convention committed the grave mistake of failing to renominate Judge Mitchell. He was the one man on the supreme bench that could least be spared. He was put there originally by appointment of Gov. Pillsbury seventeen years ago, both because of the high reputation he had gained as a district judge, and also because he was a Democrat, it being the strong desire of Gov. Pillsbury to satisfy the prevailing public sentiment in favor of a non-Partisan judiciary. Since that time, until the last Republican state convention, the principle of non partisanship in the judiciary has been respected by both parties in the person of Judge Mitchell, however it may have been disregarded in other instances. Appointed originally by a Republican governor, he has been three times nominated by the concurrent action of the state convention of both parties and elected by the unanimous vote of the electors of all parties. And this not only because he has represented the principle of non-partisanship in the judiciary, but because of his exceptionally high standing and reputation as judge; because he united the intellectual and moral qualities the ability, learning and acuteness of a great jurist with the purity and unbending integrity of an honest man which constitute the ideal judge.—Pioneer Press.

AGENTS WANTED

In Every County to Supply the Great Popular Demand for

AMERICA'S WAR FORHUN ARMY

TOLD IN PICTURE

AND STORY

Compiled and Written by

SENATOR JOHN J. INGALLS,

Of Kansas

The most brilliantly written, most profusely and artistically illustrated, and most intensely popular book on the subject of the war with Spain. Nearly.

The adaptability of the Puerto Ricans to American institutions is shown in the fact that the hotel keepers of San Juan have already formed a trust and boisted prices 100 per cent.

La Fayette was a youth of 20 when he offered his fortune and his life in aid of American liberty. The $250,000 desired to erect an American monument to his memory in Paris will not be hard to obtain.

The trolley has emancipated the car horse, and before many years will release the camel in Africa from his ancient thraldom. Steam and the electric current are powerful workers in the field of philanthropy.

Gen. Denver, the man after whom the Colorado city was named, is still living. It has been his good fortune to see his namesake expand from the status of a frontier village to the dignity of a hustling western city, with a population of 170,000.

The three prizes offered by the Century company for the best stories written by college graduates of 1897 have all been won by young women. In times of expansion the young men have to hustle in the production of history instead of romance.

William Barclay Parsons, the chief engineer of the American syndicate that is to construct a railroad between Hong-Kong and Han Kow, has sailed for China to look over the ground and have the preliminary surveys made. The line will be 650 miles long and will be strictly American made.

"Sanda," the Ohio girl who has been making a sensation in Europe as a hypnotic violinist, is said to possess a power which defies explanation by the doctors, either of medicine or music. As soon as the notes of Sanda's violin steal through the concert chamber a lethargy seizes the audience and they fall asleep.

Observations made at the Massachusetts agricultural experiment station show that 80 per cent. of the food of the ungainly and repulsive-looking toad is made up of insects injurious to agriculture. The toad is an especial enemy of the army worm, the cutworm, and greenhouse pests generally, and does a lot of good in its modest way.

In proportion to its size Switzerland has more inns than any other country in the world. The entertainment of tourists has become the chief industry of the land. No less than 1,700 hostelries, stationed for the most part on mountain tops or near glaciers, are on the list, and the receipts of the hotel keepers amount to $25,000,000 a year, so it cannot be such a bad business.

The five big express companies doing business in Kansas City have combined for the purpose of devising some means of putting a stop to the frequently repeated train robberies that are taking place in Missouri and especially in the suburbs of Kansas City. Six trains have been robbed during the past year within a dozen miles of Kansas City. Armored cars with loop holes for rifles and riot guns, and revolving turrets on top of express cars for guards are being discussed.

A report comes hurtling down the pike from Havana that the Cubans are disposed to resist the United States authorities. The further claim is made that the Spaniards would have prolonged the war indefinitely had they known the true condition of Shafter's army. These are interesting topics for country debating societies to wrangle over, but the probabilities are quite strong that both Cuba and Spain have had all the fighting they are likely to want for the next 50 years.

General Traffic Manager McNicholl, of the Canadian Pacific railway, says that 50,000 people have gone to the Klondike gold fields this season and that in his opinion 20,000 of them will return penniless and without even seeing the gold fields. He says that at least $30,000,000 has been spent by prospectors in purchasing outfits, reaching the country and in living there for a time, and that taking into consideration everything, there has been about as much spent in reaching and working the gold fields as there has been taken out in gold dust.

Three different recommendations as to the size at which the regular army should be put will reach congress at its coming session, from high quarters. Gen. Miles will say the army should number about one soldier to every 1,000 of the country's population. This would make the army number about 73,000 at the present time. Secretary Alger will favor 75,000, and Chairman Hull, of the house military committee, will introduce a bill calling for 100,000. A regular army large enough to meet all the immediate needs of the nation will probably be provided.

The steady growth of American export trade is bringing out some curious incidents. One of these is reported from the town of Hastings, England, where the town council invited proposals for 2,085 tons of water pipe, of 16-inch, 10-inch and irregular sizes. The lowest bid from any British firm was $11,610, and an American bid of $10,359 was accepted. The contract is not a large one, to be sure, but it emphasizes the increasing importance of American competition in a country which enjoyed, for a long period, undisputed supremacy in the iron and steel trade.

A WEEK'S HISTORY

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

The Spanish commissioners at a joint meeting of the peace commission in Paris finally accepted the American refusal of all responsibility for the Cuban debt.

Gen. Merriam says in his report on camp facilities for the American troops in Honolulu that it will be necessary to construct barracks for the soldiers.

A special committee of the Santiago board of trade, representing the commerce of the province, congratulated Gen. Wood, military governor of the department of Santiago, on the work he has already done.

Eighty post offices on the American system have already been established in Puerto Rico.

The American commission in Havana was assured by Gen. Parrado that the harbor is absolutely clear of mines and torpedoes and safe for any vessel that may wish to enter.

The Mail is the first paper in Puerto Rico to be published in the American language.

From Puerto Rico the hospital ship Bay State reached Boston with 113 sick and convalescent soldiers of the Sixth Massachusetts regiment.

Wholesale emigration of indigent Jamaicans to the island of Cuba caused the American officials to warn British subjects not to proceed to Cuba without visible means of support.

A request has been made by the Acme Wrecking company of San Francisco upon the navy department for authority to raise the battleship Maine.

It has been decided by the United States to assume the Philippine debt of $40,000,000 and to claim the entire Philippine archipelago, and the Spanish commissioners will be notified to this effect.

The commissioner of pensions says that up to September 30 the war with Spain has caused the loss of the lives of 2,906 American soldiers and sailors.

In a report to the navy department concerning the mineral resources of the Philippine islands Admiral Dewey says that coal in large quantities and good quality is to be found on Luzon and adjacent islands.

The repaired Spanish cruiser Infanta Maria Teresa sailed from Cuba for Norfolk, Va.

With 590 men the transport Zelandia sailed from San Francisco for Manila.

In Havana the American military commission sent word for the last time to the Spanish commission that the evacuation of the island by the Spanish troops must be completed before January 1.

Maj. Gen. Lawton, who arrived in Washington from Santiago, expressed satisfaction at the manner in which affairs were moving in Santiago province.

FROM WASHINGTON.

The treasury department has practically completed the issue of the $200,000,000 of three per cent. bonds authorized at the last session of congress.

An official statement of the sealing industry for the season just closed shows a total of but 27,885 skins, by far the lightest catch in years.

The president issued a proclamation naming November 24 as Thanksgiving day.

Second Assistant Postmaster-General Shallenberger in his annual report shows the number of mail routes at the close of the year was 33,795; total mileage, 480,461, and says $56,944,000 will be required for expenses next year.

THE EAST.

In the United States there were 226 business failures in the seven days ended on the 28th, against 221 the week previous and 219 in the corresponding period of 1897.

Fire destroyed the Tonkin river engine works at Oswego, N. Y., the loss being $105,000. Otto Snyder, night watchman, perished in the building.

In Philadelphia the great peace jubilee was brought to a glorious conclusion after the rededication of Independence hall, the historic building from which the declaration of independence was read to the people of the new republic on July 4, 1776.

In Philadelphia the University of Pennsylvania football team defeated the University of Chicago players by a score of 23 to 11.

At the age of 67 years Col. George E. Waring, president of the Cuban sanitary commission, died of yellow fever at his home in New York.

David Harpster, aged 82 years, known throughout the country as one of the most extensive wool growers in Ohio, died at his home in Harpster.

WEST AND SOUTH.

W. H. Wilkins, who bore the distinction of being the youngest volunteer in the confederacy, died in Louisville, Ky., aged 52 years.

Manuel Morris and Peter Autre (negroes) were hanged from a double gallows for murder at Richmond, Tex.

For the murder of Mrs. John P. Dunning in Dover, Del., Mrs. Cordelia Botkin has been indicted and will be tried in San Francisco.

In Lenora, Kan., William Elliott killed Miss Fannie Leshell, who had refused to marry him, and then committed suicide.

In Cleveland, O., three distinct earthquake shocks were felt.

Elmire Marie Charpentier, who for the last 16 years has been in a trance, died in New Orleans.

John Gillies, William Boyer and William Mallon were killed and Daniel La Frenier was fatally injured by the explosion of a boiler at the Calumet & Hecla mills at Houghton, Mich.

In Springfield, O., the Second national bank decided to go into liquidation.

Almost the entire business portion of Tuskegee, Ala., was destroyed by fire.

The death of Col. William Hyde, aged 62 years, occurred in St. Louis. He was for many years managing editor of the Republican, now the Republic.

In Atlanta Allen D. Candler was inaugurated governor of Georgia.

George Moore was sentenced to 99 years in prison at Fort Worth, Tex., for his connection with the Santa Fe train holdup near there in July last.

The torpedo boat Farragut in a trial trip at San Francisco attained a speed of better than 30 knots an hour.

In Knoxville, Tenn., John Kennedy, aged 15, shot and mortally wounded his sweetheart, May Peck, and then killed himself. Jealousy was the cause.

One of the oldest newspaper men in the country, C. A. Wall, died in Worcester, Mass., aged 79 years. He had been connected with the Spy since 1837.

FOREIGN INTELLIGENCE.

The British cabinet has, it is said, decided to proclaim the protectorate of Great Britain over Egypt.

In Paris the court of cassation, which is to decide the question of reopening the case of Alfred Dreyfus, alleged to have been falsely convicted for selling important military plans to agents of a foreign power, was opened.

C. H. Henning, wanted in Louisville, Ky., for robbing the Bank of Louisville of $8,200, was arrested in London.

Ottawa, Ont., was shaken by an earthquake.

An arrangement is said to have been made which removes all danger of friction between France and England.

In London H. S. Nicholls, publisher of rare books, failed for $520,000.

Flames in Serinagur, one of the capitals of Cashmere, India, destroyed all the public buildings and many residences.

Five Mussulmans convicted of taking part in the massacre of British soldiers on September 6 were executed at Candia, Crete.

LATER NEWS.

After a chase across two continents, Lambert Wilt, chief comptroller of the Bungulau Savings bank, at Burgbunzlau, Bonemia, with his wife and her aunt, were arrested at the Hotel Moseier, St. Louis, Mo., on the charge of having absconded with 100,000 guldens, equivalent to $41,420.

The worst accident on the Canadian Pacific road in recent years occurred to the special military train chartered by the British government to rush reinforcements across the continent for the Pacific coast men-of-war. The train was derailed near Rat Portage by a broken rail. Frank Fleckney and William Miller, two boys from the training ship Agincourt, Chatham, England, were killed.

After four days' public discussion the Nicaraguan congress has unanimously approved of the agreement provisionally made between President Zelaya and the American contractors and engineers, E. F. Cragin and Edward Fyre, authorizing the construction of an interoceanic canal, and empowering the concessionaires to negotiate with the Maritime Canal Co.

The powder house of the New York & New England Titantic Smokeless Powder company was demolished by an explosion at South Acton, Mass. There were 20 men employed in the building, all of whom escaped with the exception of two, who were slightly injured in the rush to get out.

An explosion of natural gas fatally injured six workmen in the Bellaire, (O.) steel works.

A party of boys at Toledo, O., playing Haloween pranks frightened Mrs. William Sager so badly that she died before help could get to her.

The peace commissioners at Paris have formally notified the Spanish government that the United States would hold the entire Philippine archipelago as a right of conquest. A show of resistance may be made by Sagasta.

The Ninth regiment, New York volunteers, has been mustered out of the United States service.

It is a significant fact that the English papers are pledged to silence by the war office and will publish nothing regarding England's war preparations.

The great exposition at Omaha closed at midnight of the 31st. It was a financial success, something over $400,000 remaining to be divided among stockholders. The receipts were a little less than $2,000,000 and expenses $1,500,000.

The official returns from the prohibition plebescite in Canada shows a majority for prohibition of 10,000.

Commander Snow, who is to relieve Admiral Schley, in command of the San Juan naval station, sailed from New York on the Solace.

Adam Hamner, of Beaver Dam, Wis., suddenly became violently insane, and securing a gun wounded nine men, and was shot and then arrested to prevent him doing further damage.

The schooner General Gley arrived at Seattle from Alaska with 40 miners. They confirm the wreck of the sloop Johnson and the drowning of nine men.

A dispatch from the Visayas group of the Philippine islands says that several companies of native troops there have rebelled. They were pursued and several of them killed. The governor of the Visayas group expressed the hope that the rebellion would not spread.

The Empress Dowager of China has forbidden the publication of newspapers and severely punished the editors.

Four soldiers of the Nineteenth U. S. infantry were badly burned at Fort Wayne, Mich., by the explosion of a quantity of powder.

Nicaragua the 1st ceased to exist as a republic and any further action respecting foreign concession in connection with the canal will have to be taken by "the United States of Central America," comprising what will hereafter be known as the state of Honduras, Salvador and Nicaragua.

The Hist has arrived from League island for Boston. The Topeka has sailed from Philadelphia for Havana. The Nashville has sailed from Port Royal for Norfolk. The Montgomery and the Princeton have sailed from Charleston for Norfolk. The Cincinnati has arrived at Cainnanera.

Hogs—$3.75@3.85.

Sheep—Muttons, $3.10@4.25; lambs, $5.25.

Butter—Creamery, extras, 17@18c; creamery, firsts, 16@17c; dairy, fancy, 14@15c.

Poultry—Turkeys, 7@8c; spring chickens, 7@8c.

WILL KEEP THEM ALL

President Definitely Decides Upon Retention of Entire Philippines.

Spanish Peace Commissioners Notified as to the Decision—United States Will Assume Part of Debt of the Islands.

Washington, Oct. 31. — Possession of the whole of the Philippines by the United States has been decided upon, substantially as outlined. Formal instructions to the peace commissioners at Paris were forwarded Saturday. They contain the decision of the president that, as Spain manifestly cannot guarantee proper government to the outlying islands, it will be necessary for the United States to assume the whole group. The president has not yet formally decided the question of compensation for the debt. The American commissioners have been much impressed, it is said, with the Spanish theory that the debt of $40,000,000 on the Philippines is a legitimate one, contracted and expended for the government of the islands, and that as the United States proposes to abstract the security it should assume the debt.

The situation now is that the president has moved forward to the position of extreme expansion. That is settled. He will at least discuss the Philippine debt, which he would not do in regard to Cuban bonds, but he has left the way open to refuse all cash payments after all, and that is the only point now to be settled by the commissioners.

Paris, Nov. 1. — The American commissioners presented a written expression of the purpose of the United States to take the entire group of Philippine islands and to assume such proportion of the Philippine debt as has been spent for the benefit of the islands or their inhabitants, in public works, improvements and permanent betterment.

It was also set forth that the United States would not assume any part of the Philippine debt which had been incurred by Spain for the furtherance of military or naval operations to quell insurrections of the natives.

The session was adjourned until Friday, in order to give the Spaniards time to prepare a reply.

The session lasted a little over an hour.

WILL CURTAIL THEIR TRIP.

Emperor and Empress of Germany Will Hasten Home Because of European Complications.

Jerusalem, Nov. 1. — The emperor and empress of Germany are curtailing their visit to the Holy Land. They have abandoned their trip to Jericho owing to European complications, and it is believed they will not go to Syria.

Various reasons are ascribed for the emperor's curtailment of his journey, but it is said that the main cause is the excessive heat and the discomfort of travel. Nearly 40 horses have already succumbed and the emperor has, therefore, decided to return to Haifa from Jaffa by sea.

Their majesties have spent considerable time amid the scenes connected with the Saviour's nativity. They have visited the pool of Bethesda, the traditional sight of the ascension and the garden of Gethsemane, and have enjoyed the magnificent view of the Dead sea and the plain of Jericho, to be had from the summit of the Mount of Olives.

GRAIN GOES ABROAD.

Enormous Shipments of Wheat and Corn to European Ports Are Being Made.

Philadelphia, Oct. 31.—More than 600,000 bushels of wheat and corn cleared the custom house Saturday on steamers bound to European ports. The shipments consisted principally of corn, the British steamship Picton taking 116,563 bushels for Ipswich; the British steamship Cairo 110,000 bushels to Sligo, and the British steamship Strathisla 70,000 bushels to Rotterdam, besides a large general cargo. The cargo of the Bristish steamship Roxby consisted of 144,000 bushels of wheat for Antwerp. The American line steamship Aragonia took out to Liverpool more than 100,000 bushels of grain, besides a large general cargo. The shipments of wheat and corn from Philadelphia since January 1 have aggregated over 25,000,000 bushels.

DISASTER ON LAKE ONTARIO.

Schooner St. Peter Goes Down—The Captain Alone Saved—At Least Eight Perished.

Rochester, N. Y., Oct. 28.—A special to the Herald from Sodus says: The three-masted schooner St. Peter, of St. Vincent, sank Thursday noon about five miles northwest of Sodus, on Lake Ontario, with all on board save Capt. John Griffin, who was rescued in a precarious condition. The wife of the captain was lost, also Mate McLaren, of Kingston. Eight persons at least perished. Olen Jolley and Jacob Verburg, of this town, were standing on shore when the St. Peter went down, and declare that the boat was not more than half a mile from shore. It is thought that the St. Peter lost her rudder, and that the heavy seas caused her to spring a leak. The St. Peter was bound from Oswego to Toledo, with 700 tons of coal.

An Uncle's Infatuation.

Lenora, Kan., Oct. 29—William Elliott followed Miss Fannie Lashell and her sister home from a dance, and shooting over the head of the sister, who tried to save her, killed the first named in the street. He then fired three shots into his own body and may die. Elliott came here from Chicago three weeks ago. Notwithstanding he is the girl's uncle, he had persisted in paying her attentions. The shooting was the result of her refusal to marry him.

Warlike Preparations.

London, Oct. 31.—There is the greatest activity at Devonport, the site of the largest arsenal in Great Britain, and of two of the finest drydocks in the world. The government is assembling an emergency squadron, which it is understood will go to Gibraltar.

Mustered Out.

New York, Nov. 1.—The Ninth regiment, New York volunteers, was mustered out of the United States service Monday.

RAILWAY MAIL SERVICE.

General Superintendent Submits His Annual Report, from Which Extracts Appear Below.

Washington, Nov. 1.—The annual report of the general superintendent of the railway mail service shows that at the close of the year there were 8,074 clerks employed and that with the closed pouch and express pouch service the grand total of miles traversed in the service was 285,565,343. Matter so illegibly addressed as to require special attention before delivery could be effected, or which could not be delivered at all, amounted to 13,564,486 pieces for the year, 7,655,585 pieces of which were returned to writers or corrected and forwarded to destination, the rest being turned into the dead letter office for disposition.

The general superintendent deplores the fact that the number of casualties last year exceeded the record of any previous year, though the number of fatalities was not so great. There were 597 casualties, in which seven clerks were killed, 34 seriously injured and 146 slightly injured. It is urged that some provision be made by congress for the relief of the families of clerks killed while on duty and for the creation of a railway mail service relief fund for the benefit of mail clerks totally disabled or injured in the line of duty.

An innovation is proposed in the way of establishing postal stations in railway depots, and this and other recommendations have been approved by the second assistant postmaster general.

Quite a comprehensive statement on the part that the railway mail service took in the forwarding of mails to and from the military camps during the war just closed and the dispatching of mails to and from the army and navy in and around Cuba, Puerto Rico and the Philippine islands is given and a long list of improvements and extensions in the service is shown.

It is estimated that $8,928,118 will be required for salaries of railway postal clerks for the year ending June 30, 1900, and $4,204,500 for railway post office cars (exclusive of subsidized lines).

REVISION IS GRANTED.

Court of Cassation Decides to Rehear the Dreyfus Case But Refuses to Order His Release.

Paris, Oct. 31. — Despite evidence which many consider absolute proof of his innocence, Alfred Dreyfus, the prisoner of Devil's island, must await in his cage the result of the revision of his case ordered by the court of cassation Saturday. With liberty for the captain apparently at hand, this decision comes as a severe blow to his wife and friends, for fear each hour of imprisonment is taking years from the prisoner's life. No one can tell how many days or even months it will be until the technicalities of the law are complied with and Dreyfus' innocence publicly proclaimed. It is even hinted that documentary proof of the prisoner's freedom from guilt may never be obtained, as those who would suffer in his stead have had ample time to destroy incriminating evidence.

Although the liberation of Dreyfus has not been ordered, the court can order him brought to France at any moment, and will probably do so at an early stage of the inquiry. The court refrained from ordering his release on Saturday because it would have been a presumption of his innocence.

London, Oct. 31.—The Paris correspondent of the Daily News says the decision of the court of cassation on Saturday was given by a vote of nine against four.

FIVE INDIANS KILLED.

Desperate Fight Between Whites and Redskins in Oregon—More Trouble Feared by Settlers.

Canyon City, Ore., Oct. 28.—A young man who was a member of the sheriff's posse just returned here with a report of a desperate fight between the whites and a renegade band of Indians. The 19 white men and five buck warriors were about 40 feet apart when the battle began. George Cuttings, son of David Cuttings, received a ball in the left arm, and it passed through his lungs. He started, in company with M. Mosier, for Izee, near the scene of the trouble. The wounded man became so weak that he was left near the trail, propped up against a tree. When a searching party went to look for him they found his dead body near a spring, where he had crawled. The posse continued the pursuit, and after a running battle killed all five Indians. Settlers have been sent to this place for more ammunition, stating that the Indians are gathering around Izee in large numbers.

FRENCH CABINET.

New Ministry as Formed by Premier Dupuy— The Fashoda Affair.

Paris, Nov. 1.—The new cabinet is constituted as follows:

M. Lebret, minister of justice; M. Dupuy, premier and minister of the interior; M. de Freycinet, minister of war; M. Lockroy, minister of marine; M. Delcasse, minister of foreign affairs; M. Peytral, minister of finance; M. Leygus, minister of public instruction; M. Deloncle, minister of commerce; M. Guillaine, minister of the colonies; M. Vigier, minister of agriculture; M. Krantz, minister of public works.

Paris, Nov. 1.—The Eclair says it learns on reliable authority that the Fashoda question will be settled favorably to Great Britain by the recall of Maj. Marchand. France, the paper says, yields all, reserving only the question of the right to the Bahr-El-Ghazal district, which she does not consider as belonging to Egypt.

Will Quit Business.

Boston, Nov. 1.—The stockholders of the Tremont national bank were notified Monday that the affairs of the bank would be at once wound up and the business and the good will transferred to the Eliot national bank. This action was decided at a meeting of the directors. It is an entirely independent move and bears no direct relation to the liquidation of the other nine banks. The Tremont bank was incorporated in 1814, being the sixth oldest bank in the city. Its capitalization formerly was $2,000,000, but it was reduced to $1,000,000 a couple of years ago. Its surplus fund is about $121,000.

Powder House Demolished.

South Acton, Mass., Nov. 1.—The powder house of the New York and New England Titantic Smokeless Powder company was demolished by an explosion Monday. There were 20 men employed in the building, all of whom escaped with the exception of two, who were slightly injured in the rush to get out.

The Plague in Russia.

St. Petersburg, Oct. 28.—It is now recognized that the epidemic prevailing at Samarkand is the true plague The mortality is high.

Shall We Keep the Philippines?

Public opinion is divided as to the wisdom of keeping the Philippines. Wise statesmen are found on both sides of the question. Public opinion, however, is all one way in regard to the wisdom of everybody keeping their health. For this purpose Hostetter's Stomach Bitters is widely used. This medicine is both preventive and cure for malarial fevers, stomach disorders, torpid liver and impure blood. It is agreeable to weak stomachs and soothing to the nerves.

Why He Did It.

As young Hankinson looked furtively at the girl in the pale blue dress talking in an animated manner to young Spoonamore in the cozy corner beyond the piano he bit his lip.

But it was an accident.

He was trying to bite his mustache, and it wasn't long enough.—Chicago Tribune.

He Wanted Too Much.

Patient—Well, doctor, do you think it's appendicitis?

Eminent Surgeon—I never think, my friend; I always know.

"Yes, I know you always know after the operation, but can't you break over the rule and work up a little doubt now?"—Chicago Evening News.

One of Them.

"Yes, Miss Biddleton is one of our most celebrated war heroines."

"Indeed! What did she do, go to the front as a Red Cross nurse?"

"No; she got up an endless chain scheme for the purpose of providing the soldiers with ginger snaps."—Chicago Evening News.

Confused.

"You went fishing with Miss Keedick yesterday, didn't you?"

"Yes."

"Catch anything?"

"Well, we came back engaged, but I didn't know whether I caught her or she caught me."—Illustrated American.

Woman, Lovely Woman.

Mattie—That idiotic young Softleigh had the audacity to propose to me last night!

Helen—Did he, really! I always thought he was a little off in the upper story, but I had no idea he was as bad as that.—Chicago Evening News.

When a Man Looks Sad.

If you should meet a man wearing a long, pain-wrinkled, thoughtful face nowadays do not jump at the conclusion that there has been a death in his family. He may have staked a Klondiker a few months ago.—Denver Post.

Worth Considering.

She—Humph! What has any member of your family ever done to make your name to ringing down the corridors of time?

He—Well, my Uncle John had 13 children, mostly boys.—Cleveland Leader.

The Value of Experience.

"With what a gracefully sweeping motion she handles a fan." "Yes; she used to keep the flies off the table in her father's Omaha lunchroom."—Cleveland Plain Dealer.

At the Summer Resort.

First Mosquito—What makes Daggers so stuck up?

Second Mosquito—Oh, he's got noble blood in him; just bit a count.—N. Y. Journal.

Swift.

"The fight was all over in a minute," said the witness. "Why, it was all done as quick as a ole married man kissin' his wife goodby."—Indianapolis Journal.

Mrs. Styles—"Have you heard of any fall openings yet?" Mr. Styles—"Well, yes; there's Vesuvius."—Yonkers Statesman.

Trip—"Between a beautiful woman and a rich woman, which would you prefer?" Grip—"The second first."—Town Topics.

"Did he tell his love by word of mouth?" "Well, not exactly by word."—Town Topics.

Soldiers

From the War

Bring the germs of malaria, fevers and other diseases, which may prove contagious in their own families. Hood's Sarsaparilla is a special boon to soldiers, because it eradicates all disease germs, builds up the debilitated system and brings back health. Every returned soldier and every friend and relative of soldiers should take

Hood's Sarsaparilla

America's Greatest Medicine. $1; six for $5.

Hood's Pills cure sick headache. 25 cents.

Do You Want to Live

In a fine, mild and healthy climate, where cyclones and blizzards are unknown; where good rich lands can be bought at low prices, near cheap transportation and with educational and industrial advantages? Homeseekers' Excursions to Virginia via the "Big 4 Route" and the Chesapeake and Ohio Railway. Write for descriptive book of Virginia, list of farms for sale, excursion rates, dates, time-cards, &c. J. C. Tucker, G. N. A., 234 Clark St., Chicago, Ills.

Advice Quickly Taken.

Physician—You are living too high.

Patient—That's so; I've got to get a cheaper doctor.—N. Y. Vim.

TRADE-MARK.

A NATION OF DYSPEPTICS.

From the Mountaineer, Walhalla, N. Dak.

The remorse of a guilty stomach is what a large majority of the people are suffering with to-day. Dyspepsia is a characteristic American disease and it is frequently stated that "we are a nation of dyspeptics."

Improper food, hurried eating, mental worry, exhaustion, any of these produce a lack of vitality in the system, by causing the blood to lose its life-sustaining elements. The blood is the vital element in our lives and should be carefully nurtured. Restore the blood to its proper condition, dyspepsia will vanish and good health follow.

For example, in the county of Pembina, North Dakota, a few miles from Walhalla, resides Mr. Ernest Snider; a man of sterling integrity, whose veracity cannot be doubted. He says:

The Doctors Disagreed.

"I became seriously ill three years ago. The doctor gave me medicine for indigestion, but I continued to become worse. I had several physicians at intervals who gave me some relief, but nothing permanent.

"I read in the newspapers articles regarding the wonderful curative powers of Dr. Williams' Pink Pills for Pale People, and finally concluded to try the pills. I purchased six boxes. This was five months ago. The first box gave me much relief. I continued taking the pills, and after using four boxes was cured."

These pills are recognized everywhere as a specific for diseases of the blood and nerves. For paralysis, locomotor ataxia, and other diseases long supposed incurable, they have proved their efficacy in thousands of cases.

THE WEST HAS MOVED.

Montana Man in New York Objects to Former Geographical Classification.

"We of the east," said a New York man, "do not appreciate how the country has spread, as a result of the war with Spain, as our fellow-citizens in the west appreciate it. I was in the office of my hotel, near the counter, when a new arrival wrote his name and town and said he wanted a front room with a private bath. My business keeps me on the alert for people who live beyond the Mississippi, and as soon as I could do so with propriety I looked at the register and saw that the new arrival was from Helena, Mont. Then I made my advances by asking him how business was in the west. At that he flared and asked:

"'How do you know where I am from—what makes you think I am from the west?'

"I explained that I had looked at the register, and in order to appease any suspicion on his part that I had a gold brick to dispose of I handed him my card and apologized, for when you have done that to a western man he is yours.

"'But I am not from the west,' he protested.

"'You are from Montana?' I asked.

"'That's what; but you don't call Montana the west, I reckon,' he replied, with a combination of southern and western accent.

"I said as mildly as I could that it was so classified in the geography I knew and so regarded by people in the east.

"'Not since the war,' he replied.

"For a moment I did not know where I was 'at.' But he came to my relief:

"'I reckon you know we've recently took the Sandwich islands in out of the wet?'

"I acquiesced with proper American pride.

"'I reckon you know about that other island, Luzon, or whatever they call it? That's just as good as ours as long as Dewey's there.'

"I followed him in his enthusiasm, for it was infectious, and I assented.

"'Well, then,' he asserted as a clincher, 'if you want to know how business is in the west, you had better call up Honolulu or Manila. Strikes me, if there was no mistake made by Dewey—and I don't think there was—that Helena, Mont., comes pretty nigh being in the middle of the United States as they lay at the present writing.'"—N. Y. Sun.

Mr. De Science—"The officers of the Smithsonian institution are having the chatter of monkeys phonographed; in the hope that in time their language may be understood, and it may be possible to converse with them." Mrs. De Science—"Isn't that grand? I hope they'll ask the monkeys, the very first thing, whether we are descended from them or not."—N. Y. Weekly.

A great deal of ability is necessary to properly manage a $10 bill.—Atchison Globe.

If mirrors portrayed us as others see us we wouldn't use them.—Chicago Daily News.

Only Thirty and Gray

How is this?

Perhaps sleepless nights caused it, or grief, or sickness, or perhaps it was care.

No matter what the cause, you cannot wish to look old at thirty.

Gray hair is starved hair. The hair bulbs have been deprived of proper food or proper nerve force.

Ayer's Hair Vigor

increases the circulation in the scalp, gives more power to the nerves, supplies missing elements to the hair bulbs.

Used according to directions, gray hair begins to show color in a few days. Soon it has all the softness and richness of youth and the color of early life returns.

Would you like our book on the Hair? We will gladly send it to you.

Write us!

If you do not obtain all the benefits you expected from the Vigor, write the doctor about it. He may be able to suggest something of value to you. Address, Dr. J. C. Ayer Co., Lowell, Mass.

MINNESOTA NEWS.

Our Dairy Interests.

The total number of milch cows in Minnesota at present is 830,000.

The average buttermaking capacity of the Minnesota cow is 140 pounds of gilt edge every year.

There are about 665 creameries in Minnesota. These creameries are supplied by 435,000 cows.

Each year these creameries distribute to Minnesota dairymen $9,550,000.

Minnesota has 365,000 milch cows which do not contribute to creameries, but the value of their product is $6,570,000 annually.

The average increase in the number of cows for the last ten years in Minnesota has been about 28,000 a year.

The average increase in productiveness per cow has been about 7 pounds of butter a year, owing to intelligent feeding.

The total weight of Minnesota's butter output for 1898 is estimated at 116,200,000 pounds, which, at the retail price of 20 cents per pound, would amount to $23,240,000. But the dairyman doesn't get full retail price, of course.

Total cheese product of the state for 1898 roughly estimated at 10,000,000 pounds, which, at a retail price of 12 cents a pound, would bring $1,200,000, but, of course, the dairymen doesn't get all of that, either.

Minnesota is now shipping her butter in large and increasing amounts to the New York market, where it commands the highest price, and on this butter the Minnesota dairyman nets 15 cents a pound after deducting cost of manufacture, freight and commission.

The State Militia.

Seven of the twelve companies in the Fourth Minnesota National Guard regiment have been mustered—three in Minneapolis, two in St. Paul, one in Lake City and one in Owatonna. The companies at Rochester and Brainerd are ready for mustering and will be sworn in as soon as General Muehlberg can visit those places.

Governor Clough has definitely stated that if the Thirteenth returns from Manilla with further desire for service it may retain its organization and place in the N. G. S. M. as the Fifth regiment. There is no necessity of mustering them out of the national guard, as he is empowered to add as many regiments to the guard as he thinks necessary, and the Indian experience shows that there is need for a larger guard.

Helping Forestry.

Direct assistance to the individual forest owner is the latest plan of the national forestry bureau to encourage scientific forestry. Circulars announcing the undertaking of the novel work have just reached Minneapolis. Their contents ought to interest many owners of forest lands in Minnesota and elsewhere.

The bureau, recognizing the fact that many owners of wood lots and forests would conduct them in scientific and economical manner if they knew how to go about the work, undertakes to give direct and practical instruction. The object of this instruction is to demonstrate that wood lots and forests can be made profitable.

New Rulings.

Insurance Commissioner Dearth made two rulings of interest to insurance men and the public generally. One was that railroad, grain and elevator companies, under the law, cannot place the blanket fire insurance policies upon all of their property as heretofore, but that there must be a Minnesota standard policy for Minnesota property. The other ruling relates to life insurance companies, to the effect that life companies must pay the 2 per cent gross receipt tax on the dividends used to reduce premiums as well as on the balance of the premiums. The companies have contended that dividends so used should be exempt.

A Thrown Ball.

The St. Paul courts will be made the scene of a great legal battle over an accident that is claimed to have occurred at the St. Paul baseball grounds in 1897. Thamas Campbell, the father of Dan Campbell, is the plaintiff, and Manager Comisky the defendant. The plaintiff claims that his son was struck in the face by a carelessly thrown ball during the practice preliminary to a game which his son had gone to the grounds to witness. The damage claimed is $500.

Lost His Job.

John E. Aigley, of Battery A, St. Paul, was called to Cass lake so suddenly that he had no opportunity to explain his absence to his employer, J. F. A. Williams, manager of the Credit Clearing house. When Aigley reported for duty on his return, Williams refused to take him back. As state troops are compelled by law to report on call, Gov. Clough, whose attention has been called to the case, has promised that Aigeley will not lose by his employer's lack of patriotism.

Both Dead.

A terrible tragedy occurred at St. Paul. An aged man named Coughlin killed his niece, Miss Kittie Marrinas, and then committed suicide. The bodies were found by Mrs. Coughlin on her return to her home after a short absence.

Coughlin was an old railroad engineer and nearly blind. The mother of the murdered girl died about a week before the tragedy, and since that time Miss Marinas and Coughlin had quarreled several times.

News in Brief.

J. K. Mertz, assistant adjutant general of the department of Minnesota G. A. R., died suddenly at the Brunswick hotel in Minneapolis.

Several prominent citizens of Winona were swindled of sums from $12 to $15 by a pretty female book agent.

Gen. Bacon reviewed the Twelfth regiment at New Ulm and was much pleased at the appearance the boys made.

By the bursting of a steam pipe in the saw mill of the C. A. Smith Lumber company, Camden Place, James McArdle, fireman was fatally scalded.

The postal authorities have given the university an additional mail carrier.

The schools of Minneapolis are more crowded than ever.

The trustees of the soldiers home have decided to ask the legislature for a new system of water works. The present one is inadequate.

Work has begun on the new electric light plant and city hall at Barnesville.

Jimmy Ross, who broke jail at Duluth last July was captured at Toledo, O. and returned.

THE POSTAL SERVICE.

Facts Regarding Transportation of Mails Given in Second Assistant Postmaster General's Report.

Washington, Oct. 31.—The immense work of transporting the mails throughout the United States is dealt with in the annual report of Second Assistant Postmaster-General William S. S. Shallenberger, which has been made public. The main feature of the report is a vigorous arraignment of existing star route methods. Mr. Shallenberger refers to the present system of speculative bidding for star routes as "discreditable to the government."

The report shows the number of mail routes at the close of the year was 33,795; total mileage, 480,461, and averaging on each route nine trips per week. There were 434,332,691 miles traveled on these routes, costing almost $107 per mile of length each, or almost $12 per mile traveled. The total annual rate of expenditure for both routes within the United States and in the foreign mail service was $53,023,454.

The report commends the use of pneumatic tubes, but voices regret that in some cases the tubes are not fully utilized. This service in Boston is especially cited as operating 21 hours daily and carrying all the first-class mail. The New York postmaster, however, takes the position that it has not been possible to make such reductions in the regular mail wagon trips as it was thought would result from instituting tube service.

The expenditure to railroads for mail transportation, so far as shown by accounts stated to September 30, was $30,449,837, and the estimate for railroad transportation for the fiscal year ending June 30, 1900, is, $33,275,000. A deficiency of nearly $1,000,000,000 in this fiscal year for transportation is probable.

Concerning the railway mail service, the report shows there were 1,263 miles of traveling post offices, and recommendation is made for a reclassification of the service, legislation requiring newspaper publishers to make primary separation of their papers and periodicals for mailing, requiring postal clerks to wear a badge instead of the present regulation cap and for general establishment of postal stations in railroad depots.

For ocean mail transportation in the next fiscal year $2,154,000 is estimated. Over 14,000,000 letters and postal cards have been distributed in transit in our international sea post offices and only 1,500 errors were reported. Negotiations are now pending looking to secure reciprocal benefits from Great Britain in the way of a sea post office on the Cunard and White Star lines in the near future. These two English lines carry a very large amount of mail and will extensively profit by separation of mail in transit and the consequent early dispatch and delivery of mail by the harbor boat service at New York.

Mr. Shallenberger submits estimates for his entire service of $36,944,000 for next year, and says the estimated expenditures the present year will be $34,215,738. Special recognition is given to the courage and faithfulness of the postal clerks and other officials who during the yellow fever epidemic in the south remained at their posts.

TRADE REVIEW.

Influence of the Foreign Situation on Business—Active Demand for Our Products.

New York, Oct. 29.—R. G. Dun & Co.'s weekly review of trade says:

"Business has been more affected by foreign affairs than many realize. London's apprehension of war first caused advance in wheat and fears of monetary pressure here. Then came confidence in London, with a flight of French money across the channel, and stock markets advanced, while wheat fell. Mobs in Paris did not mean to influence American interests from New York to San Francisco, but electric wires have made the world small. So the wires moved a cargo of wheat from the Pacific coast, started $2,500,000 more gold from Australia to this country on London account, and the selling of American securities one day and buying the next. There has been no domestic change of much importance, and the rise in prices of western railroad stock indicates that the supreme court decision against the Trans Line association is considered helpful to railroads.

"Wheat rose 3 cents from Friday to Monday, and then fell 4½ cents to Friday. But such changes do not represent actual conditions, and with western receipts for the week 9,558,205 bushels, against 6,996,487 last year, nobody can pretend that holding of stocks by western farmers is an important factor.

"The iron manufacture has still a good demand, late as it is, but the makers are depressing prices by bidding against each other, although in the average of all quotations the decline has been less than half of 1 per cent. from the highest point. But the wire nail manufacturers have reduced prices 5 per cent., and the rail manufacturers, according to current reports, have decided not to advance prices, and there is a prospect that heavy demand for products will be further encouraged by the later quotations.

"Failures for the week have been 226 in the United States, against 219 last year, and 24 in Canada, against 25 last year."

BIG SHOW ENDS.

Trans-Mississippi Exposition at Omaha, Neb., Closes—Enterprise a Splendid Success.

Omaha, Neb., Nov. 1.—The Trans-Mississippi and International exposition closed at midnight. The closing hours of the enterprise were the most brilliant in the history of the five months' exhibition. It is estimated that 75,000 people crowded the grounds Monday. It was Omaha day and everybody was there. Up to Monday morning 2,552,398 people had registered at the turnstiles, so the grand total will considerably exceed 2,600,000. The exposition was a financial success, something over $400,000 remaining to be divided among the stockholders. A fraction less than $2,000,000 have been received and $1,500,000 expended. The concessions paid the exposition, $300,000, and the exhibitors $200,000. Eighty thousand dollars were received from other sources. The highest number of people in any one day was the opening day of the peace jubilee, when President McKinley spoke, 98,785 persons being present on that occasion. The exposition owed $200,000 when the gates were opened; $390,000 was subscribed for the exposition and all but $90,000 of that amount paid in. In addition corporations donated $160,000. It is estimated that the subscribers should receive back about 80 per cent. of their subscriptions.

Killed His Friend.

Park Rapids, Minn., Nov. 1.—On Sunday Nelson Rust shot and killed William McMullen, a settler, near Lake Itasca. They were hunting together and had been separated but a few moments when Rust heard something in the brush not far away. As he turned he saw McMullen's white necktie and took it for the flag of a deer. He fired and the bullet struck McMullen near the heart, killing him instantly. Rust is an old hunter and was a near friend of McMullen.

Hermit Slain.

Springfield, Mass., Oct. 31.—Isaac Stetson, a hermit, was found dead in the woods near his home in the vicinity of Wahconah Falls, having been probably murdered. An autopsy showed that Stetson had been shot down and that death was instantaneous. Stetson was known to have had considerable money in his hut, but there was nothing to indicate that the place had been rifled. Robbery was probably the motive for the murder, if murder it is.

AN IMPOSING PAGEANT.

Grand Military Parade Reviewed by President at Philadelphia—25,000 Men in Line.

Philadelphia, Oct. 28.—For three hours Thursday William McKinley, commander in chief of the United States army and navy, saw his victorious sons pass in review before him. It was military and naval day of the great peace jubilee. Twenty-five thousand men marched in the most brilliant and spectacular pageant the country has witnessed in many years. In a semi-circular enclosure of the big reviewing stand in the magnificent court of honor the president stood erect and uncovered throughout the entire procession.

Many illustrious heroes were in line, but there was little partiality displayed in the kind or quality of enthusiasm accorded them. Maj. Gen. Miles, as chief marshal, rode at the front, immediately behind the emergency corps, until he reached his special reviewing stand at Broad and York streets, the northern end of the route. Here he dismounted and from the stand watched his men file past. Gen. "Joe" Wheeler rode behind the governors, his gray head bared for some minutes before and after the presidential stand was reached, and bowing repeatedly to the president's waving hat and the applause of the others of the party and the people generally. Gen. Sumner, Capt. "Bob" Evans, Commodore Philip, Capt. Sigsbee, Col. Huntington, with his marines of Guantanamo fame, all received tumultuous applause, but after all, perhaps the loudest ovation was that given Hobson and his Merrimac crew. They rode on a tally-ho and as they reached the reviewing stand, all arose, faced the president and bowed their bared heads.

So far as any body of men was concerned, perhaps the Twenty-first regular infantry, the "President's Own," received the greatest tribute. They marched 300 strong, under Col. McKibbin. With them marched the "Fighting Musicians" of the regiment, the men who in the thick of the combat flung their instruments from them and made music with the guns snatched from their fallen brothers. There are only 20 left of the original 38 bandsmen. The others fell in the fight. The Twenty-first carried the colors presented to them by Mrs. McKinley who called them the "President's Own," and also those given by a lady of New York city.

The Tenth cavalry (colored) were dismounted, and to them the president repeatedly flourished his hat.

Huntington's marines, who made the first hostile landing on Cuban soil, were immediately preceded by the Marine band.

The sailors were no less well received than the soldiers. A line of jackies from the Texas, Gloucester, Mayflower, Marblehead and New Orleans, with a few scattering men from the Yosemite, Yankee and other ships, followed.

The rear of the line was held by the Grand Army of the Republic and their allied military organizations.

The procession started from Broad and Snyder avenue at 11 o'clock and proceeded via Broad street over a route of about seven miles. About four hours was occupied in passing a given point.

Philadelphia, Oct. 28.—President McKinley was the guest of honor Thursday night at the peace jubilee banquet of the Clover club, where he met nearly all of the distinguished visitors to the city, and the leading citizens of Philadelphia as well. Two hundred sat around the table.

CRISIS IS APPROACHING.

Great Britain Making Hurried Preparations for Trouble with France—Activity in the Navy.

London, Nov. 1. — There was an unexpectedly gloomy feeling Monday morning on the stock exchange and the Paris bourse, both these markets being influenced, it is inferred, from the aggressive tone of some of the French papers. Besides this, something extraordinary seems to have happened and if looks as if a crisis were approaching. The British naval preparations are being pushed with great activity. The British emergency squadron is gathering at Devenport with all possible speed. Seven battleships and one cruiser have been thus far designated to join this squadron. Officers and sailors have been hurriedly recalled from leave of absence, several battleships and cruisers at Portsmouth are taking their full crews on board and other warlike preparations are being made. A number of signal men, now on duty with the British channel squadron, which arrived at Gibraltar, have been ordered home, for service, it is presumed, on board the auxiliary cruisers, if the latter should be required for active service.

It is also asserted that the commanding officers of the London volunteer regiments had received orders to prepare for immediate mobilization and it was asserted that the different artillery corps have been informed as to the forts on the southern and eastern coasts to which they have been allotted.

Col. Waring Dead.

New York, Oct. 31.—Col. G. E. Waring, Jr., died of yellow fever at his home in this city, where he had been since he arrived from Havana on the Yucatan on Tuesday last. He was 67 years of age.

Col Waring was a native of New York state, and much of his early life was spent in the study and practice of scientific agriculture. He was for some time in charge of Horace Greeley's farm at Chappaqua, N. Y.

In 1857 he was appointed agricultural and drainage engineer of Central park New York city.

He entered the army in 1862 as a major in the Garabaldi reserves, but was transferred to the army of the southwest, where he helped consolidate the Fremont and the Benton reserves into the Fourth Missouri cavalry, of which he became colonel.

During the yellow fever epidemic of 1878 in Memphis Col. Waring devised the system of sewerage in vogue there now, which has since been adopted in many other American and European cities.

Col. Waring was appointed commissioner of the bureau of street cleaning in New York city by Mayor Strong and made a highly creditable record for efficiency.

Prosecution Stopped.

Springfield, Ill., Oct. 31.—The injunction cases against Edward Cahill and 25 other miners of Virden, brought by the Chicago Virden-Coal company, enjoining miners from interfering with the operation of the mine, were dismissed in the circuit court by the complainant. It is believed that this is preliminary to an effort to the arbitration of the difference between the company and the employes

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. Cheney & Co., Props., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

West & Truax, Wholesale Druggists, Toledo, O.

He struck it. St. Jacobs Oil struck his Rheumatism. It was stricken out.

A waitress should always wear a fetching costume.—Chicago Daily News.

Feeze and fret? Why? St. Jacobs Oil cures Neuralgia. Soothes it down.

Woman's Mission.

Successful competition in any field depends on physical health.

FAMILIAR questions about woman's future are constantly asked.

Shall women vote? Shall they practice law? Shall they compete with men in every field? Whatever woman's mission may finally be declared to be, it is certain that something must be done for her physical health.

Ignorance, superstition and mystery surround woman's delicate organism. Heroic efforts to endure pain is part of woman's creed. Many women's lives are a constant struggle with lassitude; many are violently ill without apparent cause, and few indeed are in normal health.

This is all wrong and might be different if women would follow Dr. Hartman's advice. Perhaps the most practical printed talk to women to be found anywhere is in Dr. Hartman's book called "Health and Beauty," which the Pe-ru-na Medicine Co., Columbus, O., will mail free to women only. It is certain that Dr. Hartman's Pe-ru-na has proved a perfect boon for women's diseases of the pelvic organs. It treats them scientifically and cures them permanently. All druggists sell it.

"I received your book and commenced the use of your medicine at once," writes Mrs. H. D. Amoss of Greensboro, Ga., to Dr. Hartman. "I took five bottles of Pe-ru-na and two of Man-a-lin. I feel like a new woman. When I commenced taking Pe-ru-na I could hardly walk across my room; now I am doing my own work and can walk to church. I shall never cease to thank you for prescribing for me. I had been under the treatment of two doctors but never received any benefit until I commenced taking your medicine. I wish every woman who was suffering as I was would send for one of your books. May God bless you and spare you many years to relieve women who are suffering as I was."

Fifty thousand women will be counselled and prescribed for this year free of charge by Dr. Hartman, president of the Surgical Hotel, Columbus, O. All women suffering from any disease of the mucous membrane, or any of the peculiar ills of women, may write to him and the letters will receive his personal attention. Write for special question blank for women.

Fifty Cents a Year!

THE LEDGER MONTHLY

Is a richly illustrated and beautiful periodical, covering the whole field of popular reading.

ATTRACTIVE COVERS The covers of the LEDGER MONTHLY are elegantly printed or lithographed in colors, making them worthy of preservation as works of art, and each cover is alone worth the price of the magazine.

SERIAL and SHORT STORIES THE ORANGE GIRL, by Sir Walter Besant, is now running. The short stories in each number will be by the most entertaining and distinguished writers of the day.

FASHION DEPARTMENT Up-to-date fashions are a strong feature of the LEDGER MONTHLY. This department, with illustrations from original drawings by the best designers of fashions, is a true guide for every woman. *SPECIAL DEPARTMENTS* are devoted to *Embroidery, Decorative Art, Home Employments for Women, etc.*

PICTORIAL ILLUSTRATIONS The LEDGER MONTHLY is replete with pictorial illustrations appertaining not only to the reading matter, but with illustrations of special beauty and interest, appealing to the artistic taste and the desire for the beautiful, such as *"The Prayer,"* by Jean Paul Selinger, recently purchased for $800.

THE GREAT FAMILY MAGAZINE The LEDGER MONTHLY is the Great Family Magazine. For sale by all newsdealers, price 5 cents; yearly subscriptions 50 cents. Sample copies sent to any address on receipt of 5 cents.

REGAINED HEALTH.

Gratifying Letters to Mrs. Pinkham From Happy Women.

"I Owe You My Life."

Mrs. E. WOOLHISER, Mills, Neb., writes:

"DEAR MRS. PINKHAM:—I owe my life to your Vegetable Compound. The doctors said I had consumption and nothing could be done for me. My menstruation had stopped and they said my blood was turning to water. I had several doctors. They all said I could not live. I began the use of Lydia E. Pinkham's Vegetable Compound, and it helped me right away; menses returned and I have gained in weight. I have better health than I have had for years. It is wonderful what your Compound has done for me."

"I Feel Like a New Person."

Mrs. GEO. LEACH, 1609 Belle St., Alton, Ill., writes:

"Before I began to take your Vegetable Compound I was a great sufferer from womb trouble. Menses would appear two and three times in a month, causing me to be so weak I could not stand. I could neither sleep nor eat, and looked so badly my friends hardly knew me.

"I took doctor's medicine but did not derive much benefit from it. My druggist gave me one of your little books, and after reading it I decided to try Lydia E. Pinkham's Vegetable Compound. I feel like a new person. I would not give your Compound for all the doctors' medicine in the world. I can not praise it enough."

Success in Curing Asthma

under Dr. Hayes' system of treatment is certain if no organic disease exists and the patient follows directions fully. By removing the cause of the disease the

Asthma

is cured to stay cured. At the same time the general health is built up and the nervous system is strengthened and a power of resistance established which is the patient's safeguard against recurrences. Write to Dr. P. Harold Hayes, Buffalo, N. Y., for advice.

DELANO DIARY

DEMOCRATIC TICKET

For Governor,
JOHN LIND.

For Lieutenant Governor,
J. M. BOWLER.

For Secretary of State,
J. J. HEINRICHS.

For State Auditor,
GEO. M. LAMPHERE.

For State Treasurer,
ALEX McKINNON.

For Attorney General,
JUDGE J. F. KELLEY.

For Clerk of Supreme Court,
Z. H. AUSTIN.

Justices,
MITCHELL, CANTY, BUCK.

For Congress,
CHARLES A. TOWNE.

—Vote for Hamilton and Ritchie.

—The new steam laundry of Wandersee Brothers started up this week. Delano people can now get their washing done at home.

—The meeting at the City Hall on Saturday evening, Nov. 5. is to be the grand rally of the campaign. Turn out and hear Hon. C. A. Towne.

—Sylvanus A. Merriman, will have an auction of household and other goods, half a mile north of the old Minnetrista store on Saturday, Nov. 12. He expects to spend the winter with friends in Kansas.

—Some people in Delano might be dollars ahead and possibly more than that, if they would buy themselves a statute of Minnesota and read about tearing down bills properly posted in proper places, etc. Considerable complaint has been made lately.

—Ice formed on water left in pails or other receptacles out of doors Sunday evening. Quite a heavy freeze occurred. Perhaps the boys in the Philippines would have enjoyed the evening; if they had their heavy clothing with them. It would have at least put a quietus on the mosquetoes.

—ANOTHER FLOP. Those who heard Page Morris in Delano will remember that he tried to poke fun at Charley Towne's remarks about his dear old mother. This year Mr. Morris closed his speech by saying he would leave his cause in the hands of the ladies. Why has he flopped?

—On Friday evening of last week Dr. Shrader reported to the Health Officer, five cases of Diphtheria in the family of William Haynes, lately moved into the house owned by Miss Annie Quinn, on South Second Street, from Aitkin. The premises was promptly placed under quarantine regulations, and it is hoped to have no futher cases in town. Still all persons suffering with sore throat, no matter how slight, should be kept away from others, espicially children, until an inspection has been made by competent judges to find out if the case is, or is not diphtheria.

Waseca Herald: Readers of newspapers of last winter will remember the published statements that W. H. Eustis, during his visit to Mexico, dined with Menage, the Guarantee Loan swindler. They will also remember that the Minneapolis papers published Eustis' interviews as to the desires of Menage to arrange so as to get back to Minnesota. It is a well known fact that Menage is under indictment by the district courts of Hennepin county, and might be gotten easily were it not for the rest of the "gang" that would be uncovered were he brought to trial.

Riding Too Many Horses.

The Democratic Convention at Buffalo endorsed the Democratic platform of 1896, and men who are running on the Democratic county ticket should endorse the platform or not call themselves Democrats and ask for Democratic votes because they are on the tibket not by the wish of the Democrats of the county but against their wishes.

Our Flag Stands for Something.

MINNEAPOLIS, Oct. 30 1898.

EDITOR GAZETTE: Your Local politicians who * * * are complaining that Major Bowler was a little rough on the Starry flag" will not I hope do anything desperate. I loved the starry emblem well enough to enlist under it in 1861 and am ready to do so again whenever my services are needed and will do any good.

We should love the flag not for its style or makeup but for what it represents for what there is behind it. Our forefathers once loved the British flag but when it ceased to represent justice and equality to them they struck it down and put another in its stead.

Let us see to it that our flag shall never be stained by injustice and oppression, that is for us and not the flag, to see to.

Let us do it by electing such men as John Lind and C. A. Towne to office, men who stand with the people instead of men who are put forward and backed up by the corporation.

Yours truly.
J. M. BOWLER.

—The Hallow'een sociable at the M. E. Manse. Monday evening was a success.

—Be sure and hear Hon. C. A. Towne tomorrow night at the City Hall, Nov. 5. Ladies invited.

—We have a postal card from Samuel L. Rank, of Annandale asking us to mention that through an error the offical ballot will read "Henry" Kelly, vote for him just the same.

—The 1st Quarterly conference of the M. E. Church will probably be held on this circuit Saturday Nov. 12 or the following Monday. Dist Stewarts meeting at Litchfield Nov. 15.

—Some of our fellow townsmen are arguing about the streets that Silver money need not be quarantined against in a famify where six children have the diphtheria, and play with the silver coin. They know not whereof they speak. It may be as dangerous as anything in the house as a disease spreader.

Personal.

Miss Helliwell, left Tuesday morning for Minneapolis.

Mr. Helliwell, brother of our Grammer school teacher was in town over Sunday.

John Nugent came up from the cities Tuesday evening and remained in town over night.

Messrs Madigan and Moland made us a call today. They are good fellows. Give them a vote.

O. L. Billings, M. A. O'Hair and Estelle Davis were among passengers Wednesday morning for the cities.

John Cunningham came home yesterday evening from Omaha. He pronounces the Exposition, all right.

Mrs. Staples come up from Minneapolis Tuesday evening on her way home to Howard Lake She spent the night with her mother.

Mrs. Tupper, formerly a teacher at New Ulm has applied for the Grammar department in the Delano school, lately vacated by Miss Helliwell.

History Repeats Itself.

A generation or so ago all Europe was made to tremble by the roar of Napolian's cannon. His soldiers were true and tried; his ambition great, and some seemed to think he had come to rule the world, and no telling how long he would be a fixture. But he fought the battle of Waterloo; and how changed.

A few years ago John L. Sulivan was the champion heavy weight of America. He had claimed the position for years and other pugilists were afraid to try him. Nearly everybody would bet on John. There was probably considerably more in the blow and bluster, than in the actual capabilities and sand of John L. He finally met Jim Corbet, and the latter has since met Fitzsimmon, and yet the world moves.

John C. Nugent has been Sheriff of Wright county for more than 20 years; Post Master at Buffalo, for a term or two. He has been looked upon, like Napoleon, as unconquerable. He, like John L. Sulivan, has been considered a champion among big weights. But the indications now are that Waterloo is not very far off. That the new Champion is after the belt. We can't well help it. It is a way of the world; the other fellow's day must come sometime.

History repeats itself. There is an end to all things, even the time a man can be Sheriff of Wright county.

Against Imperialism.

Our republic stands on the principle, that the right of government rests soley on the consent of the people, against European imperialism which clames the right of the victor to drive the people of the vanquished like cattle, without their consent into their own pen.

Our peace conditions with Spain claim that this power relinquished its soyereignty and rights on Cuba; that it cedes her soyereignty over Porto Rico, the smaller islands in the West Indies, and on the Island in the Carolines to the United States. Further that the United States hold and occupy the City and bay of Manilla till a treaty of peace has determened the control, disposition and government of the Philippines.

This was in agreement with our principles, as well as with the opinions of such representative leaders as Reed, Sherman, Edmonds. etc. Manila and the bay was the only place where our flag waved victorious. Meanwhile the Islanders gained their independence from the Spanish without our help. The President did not even claim soyereignty over Cuba, thohgh those Cubans who were paraded before our eyes as National heroes turned out to be a lot of ungreatful sneak theives and murderers, entirely unfit for self rule. We have a mission in Cuba and that is to give the negroes (45 per cent of the population) equal rights with the whites. Till now they have no right at all. They are kept in bondage, as surfs on the sugar plantations and would be used by both parties as voting cattle. Equal rights, fully established under our rule will give, in a few years an unbiased vote of the population.

Our Senator Davis is for the annexation of the Philippines, consequently the bulk of the candidates in Minnesota are too. Trumpeters and flag wavers figure, those who think that the American rule will create a lot of fat officesthere, to which they feel to be naturally entitled.

The bulk of the annexationists are made up by those, who have every year something new on their brain. Sometime ago it was the cry "America for Americans." Then they cast longing eyes on Canada without effect. At that time John Bull was an oppressor of mankind, and the British lion a cowardly beast, whose tail must be twisted. The other year the cry was "Cuba Libre" and those natives were peerless heroes and this is a statement made by a Republican, Senator their pockets were lined with bonds, by the Cuban revolutionary Junta. And now! arm in arm with the former oppressor of mankind, our dear cousin, they march into far away Asia as oppressors. They destroy our reputation as champion of self rule, they weaken our position on this continent. But we must go with John Bull to Asia to strengthen his position there, against that of the other European land grabbers.

I wonder how our annexationists will feel when one of these dreadful Asiatic scourges strikes our boys; or is it with the march of civilization the war cry "Asia to the Asiatics" is raised by the population of that vast continent.

The people know that there are 1300 islands, with about 8 millions inhabitants. But they are not told that Spain tried after nearly four centuries to subjugate these people without success. They are not told that on Luzon are mountain tribes that never bore the Spanish yoke. They are not told that on the second largest island Mindano, Spain possesses only a few coast towns, and that the whole interior is in possession of native chiefs, whose entire independence is acknowledged qy Spaine. It is said that these independent chiefs can put an army of 100,000 warriors in the field. Cannot any foreign power join hands with these independents? We are told that these Malays are cowards. What is the reason then that they freed themselves from the Spanish yoke inafew months, that we must protect the small remnants of the Spanish power on some other islands against Annihilation? That power was only nominal.

The climate of these islands in the interior is so unhealthy, that the Spaniards had to employ mainly native soldiers to hold this power. With the glorious victory of Dewey in Manila bay, the natives raised the flag of independence, the native soldiers deserted and Spains rule ended. It is to be expected that these islands will fight for the preservation of their gained independence, and it is to be expected that this will be a war of long duration. Will our boys volunteer to serve as tools of oppressors, 8,000 miles from home in a deadly climate? Will they do that after their experience of mistreatment in the drilling camps during this war? There will be no volunteers for that! Consequently we must accept the European rule of military imperialism; must force our boys into this war; we must pay for a long time enormous taxes; we must abandon some of our state rights to the central government. we must put our war department on a strictly military footing from top to bottom; we must expect a fearful death rate of our boys in the Philippines.

If you agree with that; if you will bring the imperialist into power in the republican party, you may vote for the Republican candidates.

Not gold nor silver; not high or low tariff are the real issues of this campaign, but shall we accept military imperialism? If you will not do that, vote the opposition ticket.

What 20 Cents Will Do.

By sending the above amount to The Detroit Free Press, Detroit. Mich., they will send you The Twice-a-Week Detroit Free Press, from date of receipt of your order until January 1, 1899. This special reduced rate is given to introduce the paper to new readers. The Twice-a-Week Free Press is a clean, up to date family newspaper, and everyone should take advantage of this special offer. The greatest value ever offered for 20 cents. Send in your order at once.

Add 25 cents and send to us and get the Detroit Free Press and the Buffalo Gazette both until January 1. This through the coming hot political campaign.

HOW THE OLD THING WORKS.

SEQUEL TO HASTINGS & DAKOTA LAND GRANT FORFEITURE ACT.

Will Hon. Page Morris Kindly Explain the Change?

From the following language of the Republican State Platform of 1894:

"The Republican Party believes in the use of both gold and silver as money, maintaining the substantial party of value of every dollar in circulation with that of every other dollar.

"It believes in bimetallism, and that the restoration of silver as ultimate money to the currancy of the world is absolutely necessary for business prosperity, proper rates of wages, and the welfare of the people."

To this language of the Republican State Platform of 1898:

"We believe the national honor and the material interests of the American people require the maintaining of the present gold standard."

T. J. CATLIN, Publisher.

Entered as Second-Class Mail Matter at the Post Office in Delano, Minn

FOR the first time in 40 years the Republican party nominee for Governor has failed of election. The Hon. John Lind will now occupy that position at our state Capitol. He can't give us free silver, nor raise the price of wheat right away, but he can appoint some men to look after grading wheat, and after transportation companies, and bank examinations and a few other things that will have a tendency to give the farmer a chance to get what belongs to him. Of course Mr. Lind alone can't do everything just as he would like to; but he can veto any bills that look to injuring the people in the interest of corporations and monopolies.

The Senate and Legislature contain a few good Democrats and others who will do what they can to help Mr. Lind to renovate things political as far as is in their power. We must be patient and take the good things as they come and not be too greedy to turn everything upside down all at once and so fail to accomplish anything.

People are becoming enlightened concerning political matters they are getting a better understanding of how things have to be done; and of what a little consequence one man may be even though in a high office toward rectifying the State affairs.

THE Australian system of voting, now in use, is a great improvement on the old plan of having somebody peddle marked tickets ready for use and to be voted without being looked at by the voter. If some plan could be put in practice whereby the people could make nominations to suit themselves things would be much improved. But, under the present plan, a few men manipulate caucuses to suit themselves, they arrange who shall be delegates, and who shall be nominated. The main trouble is the same knot of politicians run both conventions and put up strong men and weak men on either ticket to suit their own whims; one on purpose to be elected by combined efforts of politicians of both parties. Things should not be so. A good, honest, healthy rivalry between people who believe one way and those of opposite views on the same question is good for the county. But a combination, and a conspiracy to capture a few petty offices, by a few men of both parties is wrong. Men have the privilege, in this country, inherited from their forefathers, of voting for the men and principles they wish to. They should sedulously guard this privilege. They should also have the privilege of nominating for office the men they want. A revision of the primary election business seems called for; or a more rigid enforcement of the laws already in existence.

Supreme Judges.

The great Republican party with its 25,000 majority in Minnesota, saw fit to allow Mr. Lind to try his hand as Governor for a term. But at the same time they turned down the balance of reform ticket. In turning down the Judges of the Supreme Court, who have for a long time served the people to their satisfaction the G. O. P. has made a grand mistake. They had it in their power to keep the Judiciary out of politics by re-electing those true and tried, they failed to do so. The corporations didn't want Canty, Mitchell and Buck, and their terms of office will soon expire.

After the Battle.

Election passed off quietly in Wright county though a few individuals had to be up early and late looking after their fences.

Judge Tarbox asked the nomination for Judge, in order to vindicate his character. He ran also. But Mr. Giddings will wrap the judicial ermine about himself.

The Senator and Representatives have been elected to vote for C. K Davis.

Waterloo has been fought and the democratic phalanxes decimated to the satisfaction of some. Napoleon Nugent and his Marshals Flannigan and Reems are yet unvanquished. "The old guard dies but never surrenders." Of course they were kept unusually busy saving their own carcasses. What are principles or what are a few men, to some people, so county affairs are in certain hands?

John Lind is Elected.

Thanksgiving Day.

Thursday, Nov. 24, has been set apart by President McKinley and by Gov. Clough as Thanksgiving Day.

The custom has become general, to observe a Thursday, usually the last, in November, each year as a thanksgiving day, for the many blessings we have received at the hands of the God of all.

This year Minnesota has been blessed with bountiful crops, which ensure plenty for all, and with many lesser benefits. Each individual, can for himself, give thanks for what he or she feels is most precious to them.

The custome is a good one and should be observed by all. Every family is supposed to eat the traditional turkey on this occasion. Let all observe the day.

Pioneers can Vote.

Territorial pioneers of foreign birth who were qualified electors at the time of the admission of the state into the union do not have to take out second papers, provided they had taken out their first before the admission of the state. This is in substance the ruling of Judge Elliot; in the case of Thomas Warwick, who yesterday secured an alternative writ of mandamus to compel the election judges of the fourteenth district of the fifth ward to show cause why he should not be allowed to register. Mr. Warwick claimed that he came to the territory of Minnesota in 1850 and took out his first papers in 1855, thereafter voting as a fully qualified elector until and after the admission of the territory as a state. He, therefore, contended that he, with others, was substantially naturalized by the admission of the state into the union.

Judge Elliott ruled "that the admission of a state on an equal footing with the original states of the United States involves the adoption as citizens of the United States of those whom congress makes members of the political community, and who are recognized as such in the formation of the new state with the assent of congress. It follows that a man who had declared his intention of becoming a citizen of the United States while a resident of the territory of Minnesota, and who, under the territory, was entitled to vote, became a citizens of the United States on the admission of the territory as one of the states without any further act on his part."

The ruling follows that in the case of Boyd against the state of Nebraska, which was decided by the supreme court of the United States Feb. 1, 1892 and is important just at the present time because the matter was never before decided in this state and affects a large number of voters who might be debarred from voting otherwise. Election judges are expected to take note of the decision in deciding upon any similar cases during the registration of this evening.—Minneapolis Journal

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, D. C., Nov. 4, 1898.

The threatening attitude of the Spanish Commissioners, at Paris, may not have been intentionally brought about by the administration for effect upon the Congressional election, but it has a suspicious look, and there are not a few persons who think that the wording of the written demand for the Philippine islands, handed to the Spanish Commissioners by our Commissioners, was purposely made exasperating, so that the Spaniards would get up a few howls and threaten to with-draw from the peace negotiations. There's another thing that may have something to do with the Spanish yowling. They had been given to understand, unofficially, that our Commissioners would agree to sugar coat the Philippine pill by agreeing that the government should pay $4,000,000 of Spanish bonds issued as a charge upon the Philippines, but as soon as that was published over Europe the protests were so numerous and vigorous that Mr. McKinley ordered the bond deal erased from the programe, and a promise to pay back what Spain had actually spent for the betterment of the Philippines an indefinite sum substituted therefor.

Not for many years have so many republican office holders gone from Washington to vote in a Congressional election, and not for many years has so much compulsion been used to make republican voters in the government departments go home. Very few democratic government employes have succeeded in getting leave of absence to go home to vote, and the most of those who did get leave vote in states that are so certainly democratic that their votes will make no difference. Democrats who have votes in close districts or states who applied for leave to go home, were told that their services could not be dispensed with, owing to important business in their respective offices.

How officials regard Roosevelt's chances to be elected Gov. of New York may be judged by the fact that they are talking about making him Ambassador to England, as a balm for his defeat, and to get him out of the country.

Gen. Greeley, Chief Signal officer of the army, is very particular in all his public utterances to speak in high terms of Secretary Alger, and other officials who had anything to do with the direction of the war, but in a sdeech to a church club he let the cat out of the bag by saying that one of the principal reasons why the Signal Corps operated so successfully during the war with Spain was that it had a ship of its own, chartered in the name of a private individual, and not subject to control of the army or navy.

They are repeating a story in army and navy circles about how Gen. Shafter tried to bluff Lieut W. H. Stayton, commanding U. S. S Allene, who had charge of the assignment of positions for anchorage, for sanitary inspection, to the troopships which brought Shafter's men from Santiago to Montauk. When the ship which brought Gen. Shafter was sighted off Montauk Point, Lieut. Stayton put out in his boat and ordered her to heave to. The only reply he got was an order to get out of the way or be sunk. Lieut. Stayton then ordered the captain to stop or he would fire a shot through his ship. That's where Shafter made his bluff. "I am not going to stop for anybody", he yelled, and then asked: "Who are you, anyway?" "I am Lieut. Stayton, of the Navy", replied that officer, "and am directed by the Secretary of the Navy to see that no vessel lands passengers without having been certified by the health authorities, and I order you to heave to, under penalty of a shot." Shafter then retired, leaving the captain of the ship to appologize, and to ask Lieut. Stayton where he should anchor pending the medical inspecton.

It is evident to everybody that the bureau chiefs of the Navy Department are not friendly to Lieut. Hobson. He was ordered to Washington to tell a board, composed of these chiefs the present status of the wrecking work that is being done upon the sunken warships of Cervera, and to present his recommendations as to what should be done. Hobson made a long statement, showing what had been done and expressing confidence that if he was allowed to have his way he could save three more of those vessels the Colon, the Vizcaya, and the Mercedes and the collier Merrimac, sunk by him. Incidentally he recommended that the contract under which a private wrecking company is being paid $800 a day be annulled and all the work done by the government. Hobson also said that he was disposed, if the department refused to furnish the money to continue the work of trying to save these vessels, to appeal to the people for contributions for that purpose. The board will recommend that none of Hobson's recommendations be adopted; that work on the Vizcaya and Colon be abandoned and that the Merrimac be dynamited instead of raised. In addition to this turn down, Hobson has been told that it will be considered "insubordination" if he attempts to do anything contrary to the recommendations of the board of chiefs. To show how real experts regard Hobson's assertion that the Colon and Vizcaya can be saved it may be mentioned that a Swedish wrecking Co., the largest in the world, has offered to undertake the raising of both ships, this government not to pay a cent unless they are raised.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Official Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merritt, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manila. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barbor, Sec'y. Star Insurance Bldg., Chicago.

John McGary Again.

This is election day. Today brings an end to all campaign boodleism, And the fellow who is running for office is shaking in his boots as if he was having a spell of buck ague.

Tomorrow the votes will be counted and after the official count comes the office with the emoluments as an appendage.

Last Saturday evening a good many went from our town to Delano to hear Charley A. Towne speak; the great Orator of the north west.

Mr. Towne gave a talk of about two hours which was both logical and instructive. The hall was full of intelligent listeners and silence reigned supreme throughout the meeting. Now if any one of his listeners could dispute what Mr. Towne said that evening they should have done so or forever after hold their peace. He made everything plain as noonday sun and told them he was no tool and not for sale at any price. But with many party affiliation is closer to them than the skin, and they would not vote different from there party if they knew they were wrong.

But if this same state of affairs continue long enough (and it want need to be very long either) in regard to money banks, corporations, tariff, etc., it will bring many of those fellows who are throwing their hat for the fellows that are robbing them to a Lazarus house and a paupers grave. Then perhaps they would be glad of a few silver sheckels to buy with it a lot in some potter's field where they might have the priyilege of a burying place. "The land is worth four hundred shekels of silver; what is that betwixt me and thee bury therefore thy dead".

Now we had silver as current money as far back as Abraham's time, and it was even good enough to buy the cave of Machpelah wherein the old Patriarch and his wife Sarah were buried But now days I suppose that some of my unsophisticated friends are so much married to the single gold standard and so opposed to free silver they would not be buried in a piece of ground bought with silver. Of course, the money question has become hackneyed and tedious as a twice told tale and even some say it is dead, but it will never die as long as the fires burn bright upon the altars of liberty until it is fixed right, right for the many as well as for the few. If men will not look after their own interest they must suffer the consequence. It is strange that the fallacy about a 53 cent silver dollar fooled the people so much, and then there is the Mexican dollar fad all calculated to fool and mislead the people. The amount of it is the bankers, the money loaners, the stock gamblers, the trusts and corporations, have made up their mind that the rest of the people are for sale. If you have got the money you have got nine points of law, that is their argument.

Well Mr. Editor this is John Lind and Eustis day. Out from under the ballots of a sovereign people girded in the robes of royalty will come John Lind with tripple crown and scepter in hand, to rule the people of the great state of Minnesota sovereign in power. And by the apointing power vested in him will he not do something to help put down the ring rule and at least give breathing freedom to the people?

SHORTHAND SELF-TAUGHT How? By the study of the *Manual of Phonography*, by Benn Pitman and Jerome B. Howard. A perfect self-instructor. Over 355,000 sold. Thousands have mastered it; so can you. Sold by all book-sellers, or we will send it by mail, with the *Phonographic Reader* and *Phonographic Reporter* for $1.25.

The Gazette.

DELANO, Wright Co., - MINN.

THERE still stands close to the River Ver, in England, an old, octagonal shaped house, built during the reign of King Offa, of Mercia, about the year 795. This makes the house over 1,100 years old. It was fortified at one time. It is the oldest inhabited house in England. The lower walls are thick and its upper portion is built of oak.

THE wife of an English clergyman has made a collection of all the buttons placed in the offertory bags during the last two or three years, and has fastened them to cardboard in various cunning shapes of animals, birds and flowers. As a bazar is shortly to take place in connection with the church she has had these button pictures photographed and copies will be on sale at the exhibition.

EVERY continent on the globe, with the exception of Australia, produces wild roses. There can be little doubt that the rose is one of the oldest flowers in the world and perhaps grown from the wind-blown seeds in paradise. In Egypt it is depicted on numbers of early bas-reliefs, dating from 3,000 to 3,500 B. C. Rosewater, or the essence of roses, is mentioned by Homer in the Iliad and of the flower is it spoken in the proverbs of Solomon.

A LARGE paper house with 16 rooms has been erected by a Russian gentleman upon his country estate at Savinowka, in Podolia. The house was constructed in New York by an American engineer, and cost 80,000 rubles. Its architect declares that it will last longer than a stone building. To make the triumph of paper more emphatic, the proprietor has resolved that the whole of the furniture shall be made of the same material.

JAMES S. WORCESTER, of Newark, after having made a long study of the manner in which fish swim, has invented a unique propeller which works on the fish fin principle. An engine of 4½ inches diameter and 4½ inches stroke will furnish the motive power. It is hoped to make 20 miles an hour, with a propeller which is to be but six inches wide and 18 inches long. The propeller will not revolve, but will imitate the motions of the fish's tail and fins.

A STEAMBOAT company which operates boats on one of the Bavarian lakes has introduced a curious innovation in the manner of children's fares, which are in future to be regulated by measure. Children under 60 centimeters in height are to go free; children measuring over 60 and under 130 centimeters must pay half price. Presumably this regulation has been introduced because parents, however capable of cheating as regards their offsprings' age can not deceive the company in regard to their height.

THE newest disease to be added to the troubles of mankind is called emphysema. The death from the disease at St. Vincent's hospital, a few days ago, of John McGuire, was the sixth death from it so far recorded, and three of these were in St. Vincent's. The disease is produced from a germ known as the aerogenes bacillus, which becomes active underneath the skin and produces air. The skin is expanded in such a way that the victim takes shape out of all resemblance to that of a human being.

ARKANSAS has passed a road law providing for the appointment by county courts of road and bridge commissions. Their duty is to divide counties into road districts and to appoint overseers. All male persons more than 18 years and less than 45 years of age are subject to road duty for at least five days in the year, exemption to be obtained upon payment of $1 a day. County courts are authorized to levy taxes not to exceed three mills for road purposes. Convicts may be worked on the roads by the counties at the rate of 75 cents a day.

THE faculty of the University of Michigan is investigating a case of initiation into the mysteries of one of the fraternities. A freshman candidate, whose name is concealed, after being blindfolded, was taken to a railroad sidetrack near the Michigan Central track and tied to the rails. He was left there until the through passenger train came, and as it thundered down upon him he screamed and struggled and finally lost consciousness just as the train went by a few feet from him. The freshman has since been delirious.

THE first of the new crop of pineapples from the neighborhood of Orlando, Fla., has begun to move, and it is estimated that the pineries in that neighborhood will ship about $50,000 of that fruit before January 1. The pineries now being planted, or made ready for planting, within a couple of miles of Orlando, according to a dispatch to the Savannah News from that place, will call for 100,000 new plants. These come from the old fruiting plants in the form of suckers. The old plants will produce two to five or six of these each year.

AT Warsaw, Ind., O. A. Light, who resides at Wilmost, was relieved of a leech which he took into his stomach 14 months ago, and which had in that time almost wrecked his constitution. Mr. Light believed he swallowed it one night while drinking at a spring. He went to the sanitarium, and the physician in charge used a stomach pump on him, bringing up the leech, which adhered to the eye in the stomach tube. Light's appetite was destroyed, and the little food he took did not assimilate, and he was reduced to skin and bones. He believes himself entirely cured.

LAST June Russia began work on a canal proposed to connect the Baltic and the Black seas. It will be 1,100 miles long, but by taking advantage of rivers, 125 miles of the course will not have to be dug. The walls are to be of solid masonry in order to resist the wash of the vessels. Travel will be made possible at night by lighting the entire length of the canal with electric lights. The czar's canal will be built large enough to admit the greatest Russian battle ships. Thousands of workmen are laboring on this waterway and the people are squeezed to supply the funds.

VERDICT OF BALLOTS.

One of the Hardest Fought Campaigns is Over.

The Result in Minnesota Close and Very Doubtful.

New York Elects Roosevelt Over Judge Van Wyck.

Republicans Will Probably Control The Next Congress.

NEW YORK.

New York, Nov. 8—(Midnight)—Theodore Roosevelt, republican, late colonel of the First United States volunteer cavalry, has been elected governor of this state by a plurality anywhere from 18,000 to 20,000. All Col. Roosevelt's associates on the state republican ticket are probably elected with him.

The returns, both from Greater New York and from the counties outside of this municipality are incomplete, but enough have been received to indicate a heavy falling off in the vote up the state, while that in the city was well sustained. The consequence is a falling off in the republican plurality in the state from 221,000 to the approximated figures given above.

There appears to be a loss of four republican congressmen in the Brooklyn districts, the second, fourth, fifth and sixth, and Congressman Quigg, who had a majority of about 9,000 at the election last year, has been defeated by Wm. A. Cuanler. In the Albany district, the twentieth, Glynn (dem) has been elected to succeed Southwick (rep..

In addition to the foregoing there are, seemingly, democratic gains in the eighth and thirteenth districts, both in this city, Daniel J. Riordan being elected in the one and Jefferson M. Levy in the other.

This makes a total democratic gain of seven congressmen.

New York, Nov. 8—At republican headquarters Senator Platt was asked what he thought was the reason for the general increase in the democratic vote in the cities of the state and of the republican in the country districts. "I think it was due to the Raines law," he replied. "It was unpopular in the cities, I think, and was liked by the country people.

"Col. Roosevelt," he continued, "is the only republican who could have carried the state. His splendid canvass has won him the election. His canvass was wonderful. It is the most wonderful thing in the history of politics. No other man would have had the endurance to go through the work he has gone through."

The judiciary issues in New York county had, Platt thought, not figured as strongly in the campaign as was thought. Congressman Quigg came over to the state headquarters and told of his defeat.

The boroughs of Manhattan and The Bronx, with thirty-six election districts missing out of 884 give the following vote for supreme court judges:

Cohen (rep.), 110,104; Daly (rep.), 115,366; Taft (rep.), 104,632; Andrews (dem.), 156,418. Fitzgerald (dem.), 156,935; Leventritt (dem.), 156,243.

The bar association made a special fight to elect Cohen, Daly and Taft. Daly is a democrat, and Richard Croker refused to permit his nomination by Tammany.

NORTH DAKOTA.

Fargo, N. D., Nov. 9.—At 1 o'clock this morning, the outlook for the republican state ticket and congressman is that all are elected by a majority of about 4,000, except Halland, superintendent of public instruction, against whom the W. C. T. U. has waged a bitter fight, on the ground of immorality.

Chairman Robinson of the republican state central committee stated at 1 o'clock: "The returns received from Grand Forks, Traill, Cass, Tychland, Ransom, Lamoure, Barnes, Eddy, Steel, Burleigh, Benson and Pierce and other counties give a republican vote over and beyond the estimate of the state central committee, and the state ticket, with the exception of Halland, will be elected by 4,000 majority. The legislature will be republican on joint ballot by thirty."

"There are not sufficient returns to indicate whether Halland is elected or defeated. In Richland county he ran from 100 to 200 ahead of the ticket. Grand Forks gave Holmes, fusion nominee for governor, 200 and more majority than was conceded him by the republican committee, but this is more than offset by republican additional gains over the committee's estimate in Barnes, Burleigh and Pierce."

SOUTH DAKOTA.

Sioux Falls, Nov. 8.—Returns from the state are very incomplete; twenty precincts in Lawrence, Pennington and Fall River counties, show a republican gain over two years ago of 265. Hutchinson county, a republican stronghold, shows a net republican loss of 300. McPherson county gives a republican gain of 195.

Chairmann Kidd of the Populist central committee, claims the election of the entire state ticket by from 3,000 to 5,000. John A. Bowler of the democratic state committee, claims the state and congressional ticket by 1,000. Bowler admits that Gamble, republican, for congress, is running ahead of his ticket. Chairman Herrid, of the republican state committee, says the entire republican ticket is elected.

There are no returns from the legislative tickets in different districts. The same is true with regard to the amendments which have been submitted to the voters. The canvass of the legislative and county ticket will not be completed before 7 or 8 o'clock in the morning. This (Minnehaha) county elects the entire fusion county and legislative ticket, with possibly one exception, Black, republican candidate for the legislature. He is a printer, and organized labor has stood behind him, irrespective of party.

WISCONSIN.

Milwaukee, Nov. 8.—At 10 o'clock tonight not enough returns have been received from the state to form anywhere near an accurate estimate on the outcome of the election. Only sixty precincts have thus far reported, including ten in the city of Milwaukee, which give Scofield (rep.), for governor 6,399, and Sawyer (dem.), 5,502. On these figures Chairman Treat of the republican state central committee figures that Scofield will carry the state by about 40,000, and claims the legislature and at least eight out of ten congressmen.

INDIANA.

Indianapolis, Nov. 8.—Scattering returns from precincts in Indianapolis and Marion county indicate democrats have carried the city and county. This secures Bailey's (dem.) election to congress over Overstreet (rep.), the present incumbent, and also seven democratic members of the legislature, instead of seven republicans, the present incumbents.

At midnight only about 220 precincts out of 3,259 have been heard from, no one having reported in full. Returns come in slowly, owing to the great number of candidates running on the various tickets, and both parties claim the state.

WASHINGTON.

Spokane, Wash., Nov. 8.—Indications from nearly every precinct in eastern Washington show large republican gains, with a probability of the defeat of the fusion ticket. This city and several large county precincts give republican majorities.

Tacoma, Wash., Nov. 8.—Three precincts in Pierce county, two of them fusion strongholds, show an average gain of 80 per cent for the republican ticket.

MASSACHUSETTS.

Boston, Nov. 8.—After a canvass without state issues and confined almost entirely to four congressional districts and a few local districts, the republicans have again carried Massachusetts and elected Roger Wolcott governor for the fourth time, as well as the entire state ticket, by a safe majority.

Governor Wolcott's plurality over A. B. Bruce, his democratic opponent, will be about 70,000 or 15,000 less than his lead last year. The vote this year was much heavier than in 1897, and Mr. Bruce made substantial gains over George Fred Williams, the democratic candidate last year.

ILLINOIS.

Chicago, Nov. 8.—Five, and probably six, congressmen have been gained in Illinois by the democrats, and the next congressional delegation from this state is likely to be evenly divided—eleven democrats and eleven republicans. It is possible for the republicans to have twelve of the twenty-two congressmen, as all the returns are not yet in, but the indications are for an even split on the delegation.

The entire republican state ticket is elected by about 30,000 plurality. In Cook county the vote has been very close, the republicans carrying the county, and the democrats the city of Chicago. The democratic plurality in the city is about 3,000, and the republican plurality about the same in the county.

Cook county democrats claim the state by over 4,000 democratic plurality, and say eleven counties in the state show a democratic gain of 1,350, and they claim to have elected twelve congressmen and probably fourteen.

CONNECTICUT.

New Haven, Nov. 8.—Connecticut elects the republican state ticket and four republican congressmen.

The republicans claim the state by 15,000 plurality.

The legislature is republican by a considerable majority.

The result of the election in this state today was a complete victory for the republican ticket. Complete returns from 165 towns of the 168 in the state give Lounsbury rep.) 75,057; Morgan (dem.), 58,406. The same towns in 1896 gave Cooke (rep.) 100,999, Sargent (dem.) 51,396.

The majorities of the candidates on the state ticket will average fully 15,000.

The republican candidates appear to have suffered from the general decrease in vote, but no particular disaffection can be said to be shown by the general result. The only real contest was in the second district, where Congressman N. D. Sperry, the republican nominee, and James M. Webb (dem.) were the opposing candidates. Sperry's majority was 3,325. The returns indicate that the republicans will have a majority of at least fifty in the general assembly.

DELAWARE.

Wilmington, Nov. 8.—Partial returns received from the state up to 2 p. m. indicate that the republicans have elected their state, congressional and legislative ticket. This estimate, if verified by the full returns, indicates the election of a republican successor to United States Senator Gray and a gain of one republican congressman.

The adherents of William H. Addicks claim that he will control a majority of the republicans elected to the legislature and he will be next senator from Delaware.

COLORADO.

Denver, Nov. 8.—Returns from a few of the 1,280 precincts in the state indicate that Thomas (fusion) is elected over Wolcott (rep.) by 29,000 to 40,000.

The Republican says "that owing to a snow storm in the mountains, the vote was light, and that returns received up to 11 o'clock indicate the election of Thomas, fusion silver candidate, by an overwhelming majority."

IOWA.

Des Moines, Nov. 8.—Returns from 90 precincts show that the republican majority this year will nearly equal that of President McKinley in 1896. Ninety precincts show a net republican loss of 31. Fifty precincts showed a net gain of 87; so that the majority is running even. The vote is falling off from 10 to 20 per cent. But an 85 per cent vote is more than has been expected by the managers.

Returns are unusually slow in coming in, only one precinct in this city even having been heard from.

MICHIGAN.

Detroit, Nov. 8.—Gov. Pingree held his own tolerably well in today's election. At 10 o'clock tonight the republican state central committee claimed his election by from 50,000 to 60,000 majority. The democratic state committee do not yet concede defeat. The governor ran several ahead of his ticket in Detroit and ran up a plurality of 2,000 in Grand Rapids.

In Saginaw he doubled on his plurality of 1896. In Jackson, Lansing, Bay City and other small cities he was cut considerably, but the country districts surrounding went quite strongly for Pingree.

The balance of the republican state ticket is elected. The upper peninsula gave its usual republican majorities, but there was a great amount of splitting on governor in the lower peninsula. The vote on congressman is close in half of the twelve districts, the others returning republicans with certainty. The legislature will have a republican majority, but whether for or against the equal taxation issue is as yet undetermined.

MINNESOTA.

Minneapolis, Nov. 9, 4 a. m.—Two hundred and forty-seven precincts out of 2,115 give Eustis 17,993, Lind, 18,022. Same precincts in 1896 gave Clough 24,175 and Lind 22,022.

Three hundred and twenty-three precincts scattering in the state give Eustis 24,339, Lind 25,185.

At 2 o'clock this morning Chairman L. A. Rosing of the Democratic state central committee, stated that there was no doubt whatever of the election of John Lind as governor and of the three judges of the supreme court. He claims the election of at least two congressmen and perhaps three. That while the Democrats have made large gains in the various legislative districts, that body will probably be republican by a greatly decreased majority. Outside of the judges and governor he had no claims to make as to the state ticket.

At the same hour Chairman Steele, of the Republican state central committee, admitted that the governorship was in doubt, but thought that Mr. Eustis would come under the wire, a winner by a small margin. Tams Bixby and Eli Warner were at Republican headquarters casting up the votes with Chairman Steele, and they say that it is beyond doubt that the entire republican state ticket, including justices of the supreme court, is safe, with the possible exception of governor. They say also that the entire seven republican congressmen are sure of reelection with the exception possibly of Page Morris in the sixth district.

Returns from the sixth district are very meager, and as the contest is very close, the result there cannot be known for some time. While the democrats claim the election of Ringdal in the seventh district, the figures fail to bear out their assertion. Every point heard from in the seventh district shows that Congressman Eddy is running away ahead of his ticket. His election seems practically certain.

The result in Ramsey county and the fourth district as to governor is especially disappointing to the republicans, and they are entirely unable to account for the big slump shown in the vote. In the third congressional district, also, and especially in Goodhue county, Mr. Eustis made a showing which was greatly disappointing to his friends. In the first congressional district the returns, meager as they are, seem to indicate that he will have a plurality almost equal to that which was expected. From the second district the returns are very, very few, and it is almost impossible to make an estimate, but it is probable that Eustis will make a better showing than Gov. Clough did two years ago. The vote in the fifth district was not far from that which was anticipated, but in the sixth it would seem that Lind has gotten much the best of it. In the seventh all returns received up to date indicate that Mr. Eustis has made considerable inroad into the Lind plurality of two years ago.

At this hour the situation will appear to be in favor of the fusionist candidate, although it is possible and entirely probable that Mr. Eustis has been elected governor of the state.

With 25 precincts in Hennepin county to hear from at 2 a. m., it seems probable that Lind will have a small plurality in the county, not to exceed 3,000. With 18 city and 7 country towns heard from, Eustis has 1,845 and Lind 1,696; the same voting districts two years ago gave Clough 2,614 and Lind 2,652. This indicates that Lind has suffered more by the falling off in the vote than the republicans have.

The remainder of the state ticket will go out of Hennepin county with from 4,000 to 6,000 majority, polling a normal republican vote everywhere. The supreme court judges are being cut in favor of Canty and Mitchell, but this is partialy offset by democrats who have scratched Buck, and applied their votes on the republican ticket. Judge Lovely runs ahead among the republicans. Judge Canty will probably lead Judge Mitchell slightly in Hennepin county.

The fall election of 1898 in St. Paul will be recorded as being the most orderly and uneventful ever known in the history of political events in the city. The day passed off without especial incident, though a spirit of earnestness pervaded it that has not been witnessed before in years.

At 5 o'clock yesterday afternoon a large proportion of the vote in each of the precincts, as shown by the registration, had been cast.

As early as the noon hour an unusually large vote had been thrown. Perhaps no other election in the county has been so businesslike.

Minneapolis, Nov. 9.—For the first time since P. B. Winston laid down the reins of municipal government in Minneapolis, this city will on the first Monday of January next have as its chief magistrate a democrat.

There was an election yesterday, to the results of which this is due. Young Mr. Gray proved a Warwick, and ran from Shingle Creek to Minnehaha, and from Lake Harriett to the St. Paul city limits with an agility that surprised even his most enthusiastic supporters. At this writing (2 a. m.) the returns are not all in, but if they keep on coming to the end as they have thus far from the beginning, the next mayor's plurality will be somewhere from 5,000 to 7,000, probably nearer the latter figure than the former.

Fergus Falls, Minn., Nov. 9.—Chairman Adams says Congressman Eddy seems sure of 1,000 plurality which may be increased.

Ottertail will give Lind less than 1,000 plurality and Ringdal less than 500. The republicans will get half of the legislative and county ticket.

Duluth, Minn., Nov. 9.—Morris is gaining ground in Towne's stronghold, in the west end of Duluth, while Towne is gaining in the east end.

Morris' losses on the Iron range are heavy, while Towne holds up well. He will probably have 300 majority in St. Louis county.

A NATION'S FINANCES.

United States Treasurer Roberts Submits His Annual Report on the Condition of the Treasury.

Washington, Nov. 4.—The treasurer of the United States, Hon. Willis H. Roberts, has submitted to the secretary of the treasury the annual report on the transactions and condition of the treasury for the past fiscal year. The net ordinary revenues of the government were $405,321,335, an increase of $57,597,639 over those of the previous year, while the net ordinary expenditures were $443,368,582, an increase of $77,594,423. The resulting deficiency of $38,047,274 exceeds that of the preceding year by $19,994,793. In the receipts are included $64,751,223 paid into the treasury on account of the Union Pacific and Kansas Pacific railroads. Out of them were paid $29,850,952 of the bonds issued for the construction of the Pacific railroads, which went to increase the expenditures.

Up to the close of the fiscal year the increase of the expenditures on account of the war with Spain was $43,041,732 for the war department, and $24,262,428 for the navy department. For the four months of July, August, September and October, 1898, the expenditures of the war department were $107,520,568, being $81,613,131 greater than for the same months in 1897. For the same months this year the navy department expended $27,459,577, which was $16,014,926 more than it spent in the like period in 1897. Up to October 31 the war with Spain added to the disbursements of these two departments the sum of $164,922,228.

Independently of the prospects of revenue or expenditure the treasurer regards the treasury as having been stronger at the close than at the opening of the fiscal year, the insignificant shrinkage in the amount of the assets having been more than compensated for in the improvement which took place in this character. Against a net loss of $7,500,000 in the total holdings available for the fiscal operations of the government, there was a gain of upward of $25,000,000 in free gold, coupled with an increase of nearly $23,000,000 in absolutely secured deposits with banks, and these changes were effected at no greater cost than the loss of so much in silver and treasury notes.

The total available assets were $874,764,377 on June 30, 1897, and $839,606,736 a year later. By the addition of the unavailable assets carried by the department these totals are swelled to $904,411,576 and $869,202,941 respectively. On June 30, 1898, the treasurer's liability to the general treasury fund was $775,751,368, with one of $66,465,160 sustained in his capacity as the depository of public officers, and one of $36,986,413 for moneys paid into his hands, but not yet covered by warrant into the general account.

In every year, during the period of the movement of the crops, there is a demand in the producing parts of the country for small notes.

By forethought and care during the past fiscal year and the autumn following it an adequate stock of notes of different denominations was provided and the exchange of small notes for large was readily made. The outstanding notes of the denominations of $20 and under, which decreased in volume by $11,522,157 from September 30, 1896, to the same date in 1897, increased by $41,657,037 in the 12 months ended September 30, 1898. The gold in circulation rose steadily, by $49,327,363 in the former of the two periods and by $94,551,059 in the latter. The total currency of all kinds in circulation shows an increase of $96,539,249 in the former year and one of $137,755,854 in the latter, a gain of $234,294,103 for the two years.

In answer to inquiries from the west and northwest the treasurer has prepared a table which shows the amount of the capital, surplus, undivided profits and deposits of the national banks in the territory north of the Ohio river and west of the Mississippi in July in each of the last three years. The aggregates for the three periods are successively $923,979,746, $918,252,479 and $987,840,166. While these figures do not show the resources of this sort in their completeness, they furnish irresistible evidence of the strength which this immense region has gathered in the instruments of commerce.

In a chapter in which the treasurer reviews the history of the net gold balance in the treasury, he says that prior to September 1, 1898, the highest point which this balance had ever attained was $219,059,232, on April 3, 1888. On June 6, 1893, the amount was $89,589,364, the lowest in 15 years, or from June, 1878. By the exchange of notes for gold with the banks, the net gold balance was brought up to $103,863,230 by August 16, 1893. Another minimum mark was reached February 1, 1894, at $65,428,378. By the proceeds of a sale of bonds amounting to $58,660,917, the net gold balance was increased to $167,446,802 by March 6. Under reaction, however, it again fell to $54,975,607 by the end of July, 1894. Another sale of bonds, in November and December of that year, brought in $58,719,710, and the gold balance on December 4, 1894, was again $111,142,021. The remedy was effectual for only a brief period, for on February 11, 1895, the treasury held only $41,340,181 in free gold. Again bonds were sold, for which payments aggregating $65,428,636 were received from February to June. Thus the net gold balance was carried up to $107,591,230 by July 8, 1895. Once more the relief was but temporary, and by February 8, 1896, the gold balance had fallen to $44,563,493. For the fourth time, resort was had to a sale of bonds, which produced, up to June, $111,355,612, and brought the gold balance up to a maximum of $128,713,709, from which point it sank again by July 22, 1896, to $89,669,975.

Since that month the reserve of $100,000,000 has not been trenched upon. With some fluctuations, the tendency of the gold balance has been steadily upward. The sources of supply have been the mines of the northwestern states, Alaska and Australia, with importations from Europe, the customs and the hoards of the banks. Until the beginning of the calendar year 1898 the receipts of gold at the New York custom house were a negligable quantity, but in March they rose to 17.6 per cent. of the whole; in April, to 52.7 per cent., and after some fluctuations reached 78 per cent. in September and 79.6 in October. The tenders of gold from banks and individuals in exchange for paper have been greater than the resources of the treasury have enabled it to accept.

The only change of importance in the public was the payment of $29,850,552 of the Pacific railroad bonds. The remainder of this loan outstanding on June 30, was $14,133,560, all of which will be payable after January 1, 1899.

Gen. Kitchener Honored.

London, Nov. 5.—The streets of the city were crowded all the morning, an immense number of people seeking to witness Gen. Kitchener's triumphal progress to the Guild hall, to receive the freedom of the city of London and the sword of honor presented to him in recognition of his defeat of the dervishes at Omdurman. The general received a great ovation as, accompanied by three aides-de-camp and dressed in full general's uniform with the Egyptian sash, he drove through the streets. In the evening a banquet was given in his honor.

A Fugitive Returns.

Philadelphia, Nov. 4.—Gideon W. Marsh, the fugitive president of the now defunct Keystone national bank, returned to the city Thursday after an absence of seven years and a half and surrendered himself to his bondsman, William H. Wanamaker. Late Thursday afternoon Mr. Wanamaker accompanied Marsh to the office of United States District Attorney Beck and the latter at once turned the fugitive bank president over to the custody of the United States marshal to await a hearing.

Mob Hangs a Negro.

Toluca, Ill., Nov. 8.—George Stewart, a negro, was taken from the Marshall county jail at Lacon, Ill., at 12:30 o'clock Monday morning and lynched a mile and a half from the Lacon city limits by a mob of 200 Toluca citizens. The lynching was done to avenge an assault on Miss Mary O'Brien, daughter of John O'Brien, a pit boss in the mine at Toluca, where the crime occurred at nine o'clock Friday night.

Justly Offended.

No wonder the colonel got mad. He was shot in the leg at Santiago, and on coming home was deservedly a hero. He was met by one of these fussy old chaps who likes to hear himself talk and who broke out with: "Why, colonel, I see that you limp. What's the matter with you?"

"Fell out of bed'" roared the colonel. "Don't you read the papers?"—Detroit Free Press.

One Thing Needful.

"What we need in this country," howled the political orator, "is an elastic currency—"

"Right you are, mister," interrupted a man near the door; "something that will stretch a man's income so as to make both ends meet."—Chicago Evening News.

In Confidence.

First Doctor—Yes, I've been his family physician for years.

Second Doctor—And he appreciates all you have done for him?

"More than that. He appreciates all he thinks I've done for him."—Brooklyn Life.

A FATHER'S STORY.

From the Evening Crescent, Appleton, Wis.

A remarkable cure from a disease which has generally wrecked the lives of children, and left them in a condition to which death itself would be preferred has attracted a great amount of attention among the residents of the west end of Appleton.

The case is that of little Willard Creech, son of Richard D. Creech, a well known employe of one of the large paper mills in the Fox River Valley. The lad was attacked by spinal disease and his parents had given up all hope of his ever being well again when, as by a miracle, he was healed and is now in school as happy as any of his mates.

Mr. Creech, the father of the boy, who resides at 1062 Second Street, Appleton, Wisconsin, told the following story:

He Goes to School.

"Our boy was absolutely helpless. His lower limbs were paralyzed, and when we used electricity he could not feel it below his hips. Finally we let the doctor go as he did not seem to help our son and we nearly gave up hope. Finally my mother who lives in Canada wrote advising the use of Dr. Williams' Pink Pills for Pale People and I bought some.

"This was when our boy had been on the stretcher for an entire year. In six weeks after taking the pills we noted signs of vitality in his legs, and in four months he was able to go to school.

"It is two years since he took the first of the pills and he is at school now just as happy and well as any of the other children. It was nothing else in the world that saved the boy than Dr. Williams' Pink Pills."

A WAY TO SETTLE IT.

They Were Rivals and There Was a Chance for Trouble But Peace Prevailed.

"Now, then, sir, I think we have a little business with each other. Suppose we settle it right here."

"I know what you mean. Say, look here. You and I are courting the same girl, and naturally we don't like each other. That's the trouble, isn't it?"

"That's it, and we don't need to waste many words over it, either."

"We won't. I would like to occupy your time just about two minutes, however, and if we can't settle this thing without fighting I'm your man, from a Cuban machete to a Philippine parang or any other weapon belonging either to normal or to expanded America. Suppose you kill me. You couldn't marry the girl. Even if you escaped hanging it wouldn't do you any good. She would never look at you again. Suppose I kill you. I couldn't marry her, either. But you wouldn't get much satisfaction out of that. You wouldn't be in a position to do any crowing. Suppose we kill each other. If the girl cares for either of us it would break her heart. So what's the good of fighting? Why not arbitrate the case?"

"Arbitrate it?"

"Yes. It's a toss-up, anyway. One of us stands as good a show as the other, and it wouldn't muss things up as a fight with deadly weapons would. We can state our case and leave the decision to the arbitrator."

"But, great Scott! Whom could we get to do the arbitrating?"

"Suppose we leave it to the girl herself?"

"All right. I hadn't thought of that."—Chicago Tribune.

"I don't mind buying channel cat for kippere herring," said Mrs. Parvenoo to the shopkeeper, "and angle worms for anchovies, but when I order a staple article like pink tea that no society lady should be without I don't expect this green stuff, even if I am Irish."—Chicago Sun.

Little Girl (to small boy, who is strutting around with his hands in his pockets)—"Come over and play with me, Johnnie." Small Boy—"Can't." "Little Girl—"Go and ask your mother if you can." Small Boy—"Can't ask her; she is out somewheres, looking for me."—Sketch.

Honesty is a shield with two sides. The two parties to a business transaction see it from different points of view.—Life.

You can tell the caliber of a man by the way he counts the change a person gives him.—Washington (Ia.) Democrat.

CLEAN PEOPLE

Cleanliness goes with health. If we have catarrh anywhere we cannot be wholly clean.

Makesystematic efforts to be free from this disgusting disease. Mrs. L. A. Johnston, 103 Pilham and Ripley Sts., Montgomery, Ala., tells her experience with catarrh of the stomach and how she was cured:

"I will state to you that I have taken eight bottles of your Pe-ru-na and two of Man-a-lin and rejoice to say, 'God bless Dr. Hartman and Pe-ru-na.' And I earnestly assure you that it has done me more good than any medicine I have ever taken in my life. I prescribe it to every one I meet who is suffering, as the best medicine in the world, and have made many converts who are now rejoicing in the great good which they have derived from the same. I can tell you that I am almost entirely relieved of indigestion, that great foe which has tortured me so many years, and can now eat anything I desire without it is fruits or something acid."

To understand the scientific action of Pe-ru-na it is best to have Dr. Hartman's special book for women or his book on chronic catarrh. These books are mailed free by the Pe-ru-na Medicine Company, Columbus, O. All druggists sell Pe-ru-na.

CatarrhCured

Blood Purified by Hood's Sarsaparilla and Health is Good.

"I was a sufferer from catarrh. One of my neighbors advised me to take Hood's Sarsaparilla and I did so. A few bottles purified my blood and cured me. I have remained in good health ever since." JAS. T. ADKINS, Athensville, Illinois.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1; six for $5.

Hood's Pills cure all Liver Ills. 25 cents.

If You Are Looking For a Home

Dont waste time and money—Dont "wonder into the wilderness," but secure land close to schools, churches and railways. Come and see us and let us show you the beautiful "Red River Valley", where crops never fail. We sell our land on the crop payment plan, at very low rate of interest. For full information, circulars, list of lands, maps, &c., write us at once, and you will receive prompt reply. Grandin & Edwards, Mayville, N. D.

Revenue.

Clearly it was advisable to go to war.

"But how about revenue?" ventured the courtly Sir Godfrey.

"Revenue?" repeated the queen, lightly. "I have but to stamp my foot and abundant revenue will be forthcoming!"

It will be observed that in those days there was no stamping of bank checks, vaccination certificates or chewing gum, to say nothing of cigarettes and keg pilsener.—Detroit Journal.

DAMAGED BY FIRE.

Explosion Causes Ruin in the Capitol Building at Washington.

Supreme Court Room the Greatest Loser—Damage Not So Large as at First Feared—Valuable Manuscripts Destroyed.

Washington, Nov. 8.—The big capitol building was the scene of wreck and desolation Monday following the explosion and fire of Sunday which wrought such serious havoc. The fire was started by a gas explosion in the vicinity of the supreme court chamber. An examination of the courtroom showed that the damage was confined to discolored walls and ceilings and soaked carpets. No substantial damage had been done.

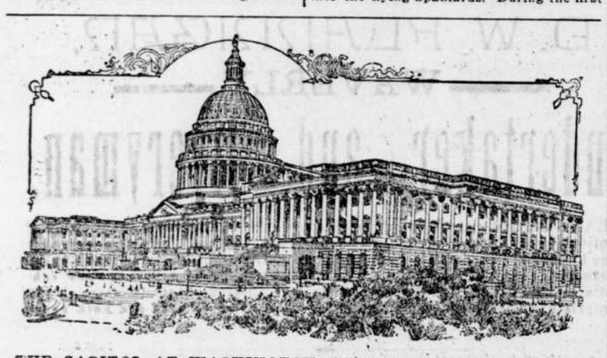
Valuable Records Damaged.

The only damage that cannot be made good was done in the fileroom of the supreme court, in the basement, where were stored all the official records and the original copies of opinions, from the foundation of the government. All these opinions have been printed, but the original manuscripts were highly valued.

This room was almost over the scene of the explosion, and it was one of the first compartments of the capitol to be attacked. The documents here were stored away in an orderly manner in wooden cases, and none of them had any other protection except the records of the court from 1792 to 1832, which were encased in tin boxes. The flames appear to have completely enveloped this room, but they were only sufficiently intense to badly char all the woodwork and many of the documents. Comparatively few of the papers were absolutely destroyed, but those which suffered this fate were among the most valuable in the room. They included the original opinions of the court in the early days of the republic, and among them were many manuscripts prepared in the handwriting of the jurists of the days of Washington, Jefferson and Adams.

Damage to the Building.

The library of the supreme court, which, next to the congressional library, is the most valuable collection of books in Washington, escaped with little damage, the wrecked elevator shaft and upheaved stone floors being at the



THE CAPITOL AT WASHINGTON, DAMAGED BY FIRE NOV. 6.

library entrance. It is estimated that the loss in the library will be covered by $1,500. The books escaped intact, the loss being confined to singed woodwork. The floor of the electrical room under which the explosion occurred was as completely demolished as if it had been directly over the center of an earthquake. Fortunately no one was in the room when the explosion occurred. Mr. Wood at the close of the day expressed the opinion that the damage to the capitol building could be repaired for $20,000.

KILLED BY THE CARS.

Two Women Meet Death While Trying to Cross Railway Tracks at Langdon, Md.

Washington, Nov. 4.—Mrs. Florence George and Miss Kate McAtee, both of this city, were killed by a Baltimore & Ohio railroad train Wednesday night at Langdon, Md., about four miles out of town. They had been attending a party and were crossing the tracks to take a train for Washington when they were struck by an express train and instantly killed.

More Trouble at Pana, Ill.

Pana, Ill., Nov. 7.—There was a renews of hostilities Sunday between union miners and imported negroes from Alabama. A negro attacked James Boyle, a union miner, near the depot, which caused a battle. Twenty-five or 30 shots were exchanged. Two negroes were wounded. No white miners were wounded. Maj. Butler immediately sent a detachment of soldiers and a gatling gun to the scene. No arrests have been made thus far. No further trouble is expected.

Would-Be Assassins Sentenced.

Rio de Janeiro, Nov. 7.—Five of the men who were engaged in the plot to assassinate the president of Brazil, Dr. Prudente de Moraes, on November 5, 1897, were sentenced Saturday. The so-called ringleader, Dooclesiano, was condemned to 30 years' imprisonment, and the others have sentences of from 14 years to 24 years' imprisonment imposed upon them.

Will Go to Santiago.

Washington, Nov. 7.—The army investigation commission will soon go to Santiago, and very probably, though not certainly, to Porto Rico. This is according to the announcement made several weeks ago. They met no opposition on the part of the president, who was understood to acquiesce perfectly in the decision of the committee.

Their Graves Marked.

Manila, Sept. 24, via San Francisco, Nov. 5.—Head boards have been erected over the graves of the Astor battery dead, who lie in the native cemetery, and their effects have been sold at auction, bringing large sums. A coat belonging to Private Dunn brought $20, and a tobacco pouch $12. The money will be sent to relatives.

One Hundred Died on Way Home.

Malaga, Spain, Nov. 7.—The Spanish transport steamer Gran Antilla, Capt. Bayona, from Havana on October 13, via Porto Rico, with repatriated Spanish troops on board, has arrived here and reports that there were 100 deaths among the soldiers during the voyage across the Atlantic.

FOUNDERS IN A STORM.

Maria Teresa, the Raised Spanish Cruiser, Lost Off the Bahama Islands—History of the Boat.

Charleston, S. C., Nov. 7.—The former Spanish cruiser Maria Teresa, the flagship of Admiral Cervera's fleet, which was raised by Naval Constructor Hobson, was lost in the storm which raged off the Bahama islands on Tuesday afternoon. The cruiser was abandoned by the crew only a short time before she went to the bottom. Everything was lost. The crew, however, was rescued without the loss of a man. The Teresa had been leaking all of Tuesday, and it was found that she was going under despite the work of the men at the pumps. As soon as this was known all energies were devoted to saving the crew. The Teresa's men were put into the sea by means of slings and afterward picked up by surfboats from the wrecking tug Merritt. A short time after the crew left the Teresa a splashing noise was heard, and she was lost to view. Just previous to the sinking a hawser which held the cruiser to the repair ship Vulcan parted.

[The Infanta Maria Teresa was in her prime the pride of Spain. It was not so much her power as a fighting ship that made her dear to the hearts of the Spaniards as the circumstances in which the vessel was built and launched. When the cruiser was floated it was the queen regent herself that released the boat from the ways. The building of the Maria Teresa was attended with great enthusiasm at a special plant in Bilbao under the name of La Sociedad Anonima de los Astilleros del Nervion. From this plant the Infanta Maria Teresa was launched in 1890.

This superb war vessel was 364 feet long, 65 feet 2 inches of beam, 21 feet 6 inches mean draft, and her displacement, with all stores on board, 7,000 tons. She was what is called technically an armored cruiser. Her protection consisted of a belt on the water line 12 inches thick, extending over a length of 315 feet. Around the positions of the heavy guns was worked armor 10½ inches in thickness. She had a protected deck three inches thick. The main armor belt was five feet six inches in width. For armament the Maria Teresa had two 11-inch and ten 5.5-inch Homioria guns in her main battery and 16 rapid-fire guns in the secondary battery. In speed she was the queen of the Spanish navy.

The Infanta Maria Teresa was disabled in the great naval battle just outside Santiago de Cuba harbor July 3 last, when Sampson's ships, under the temporary command of Commodore Schley, wiped out Cervera's squadron. The Teresa sailed out of the bay at 9:35 o'clock that morning, bearing Cervera's flag and leading the Spanish squadron in its rush for liberty. The Brooklyn, Texas, Oregon, Indiana and Iowa, assisted by the other vessels in the American navy, poured a storm of shell into the flying Spaniards. During the first 15 minutes of the engagement the Oquendo and the Maria Teresa were set on fire by the American shells and were run to shore and beached. There the Maria Teresa lay until raised by Lieut. Hobson and entered into the American navy as one of its cruisers.

The cruiser cost the Spanish government $2,000,000 and the United States spent $125,000 refitting her for the sea. She represented Spain at the ceremony of the Grant monument unveiling in April last year.]

LYNCHED A NEGRO.

A Mob Takes a Brute from Officers in Florida, Puts Him to Death and Burns His Body.

Jacksonville, Fla., Nov. 7.—Arthur Williams, a negro under arrest for the murder of Miss Elina Ogden, at Wellborne, Fla., on Friday, made a confession Saturday night, implicating two other negroes, Buck James and Monroe Leggitt. At 11 o'clock Saturday night the constable and his guards were overpowered by a crowd of incensed citizens and Williams was taken from their custody, riddled with bullets and a fire built upon his body. James and Leggitt are now under arrest, but it is likely that they will go the way of Williams.

Mines to Be Consolidated.

Detroit, Mich., Nov. 5.—A Free Press special from Houghton, Mich., says the Mass, Ridge, Ogemaw, Hazard and Merrimac mines, located near Ontonagon, are to be consolidated. After consolidation they will be known as the Mass Consolidated Mining company. At the outset the company will be stocked at $2,500,000. The consolidation will give the company control over about 3,000 acres of land on the mineral belt. It is hoped that 500 men will be employed within a year.

Floods in Cuba.

Havana, Nov. 8.—Owing to the constant rains which have fallen recently the streams in the province of Matanzas have overflowed, flooding over 1,000 acres in the Roque district of that province. The land inundated had just been planted with sugar cane and fruit trees after three years of neglect, and the disaster has again plunged the inhabitants of this district into the deepest misery. The Yumuri valley has also been flooded.

Gen. West Dead.

Washington, Nov. 2.—Gen. Joseph Rodman West, at one time senator from Louisiana and later one of the commissioners of the District of Columbia, died here from paralysis, aged 76 years. He was a native of New Orleans but was educated at the University of Pennsylvania. He participated in the Mexican and civil wars.

Schley Relieved.

Washington, Nov. 8.—Admiral Schley has cabled the navy department that Capt. Snow had arrived at San Juan on the Solace, and that he has relieved the admiral of the command of the naval station there. The admiral announced that he would start for the United States on the Newark, his flagship.

Consul-General at Berlin Dead.

Chicago, Nov. 4.—Word was received Thursday that Julius Goldschmidt, consul-general for the United States at Berlin, died in the German capital after an illness of several months. Mr. Goldschmidt had been seriously ill some time, but his death at this time was not looked for.

REFUSE TO ACCEPT TERMS.

Spanish Peace Commissioners Formally Reject Our Proposition Regarding the Philippines.

Paris, Nov. 5.—The Spanish commissioners, in the course of a two-hours' session of the peace conference Friday, flatly refused to accept Monday's proposition by the Americans to take the entire Philippine group and to reimburse Spain for her "pacific" expenditures there. This negative action was expected. The Spanish commissioners had also a number of positive declarations which filled some 37 sheets of a typewritten presentment. In this statement the Spaniards held that the United States had no ultimate rights in the Philippine islands and could have none save by the consent of Spain in these negotiations and upon terms satisfactory to her. According to the Spanish contention in the formal statement, the United States entertained no thought of annexing the Philippines when the protocol was signed, or it would have been expressed in the protocol as clearly as the conditions regarding the cession of territory in the Antilles and the orient. M. Cambon, before the signature of the protocol, received from Madrid—the presentment alleged—a cable dispatch clearly setting forth that the maintenance of Spain's authority over the Philippines should not be affected by the protocol, to which reservation the United States made at that time no protest or objection. This dispatch to M. Cambon, as the Spaniards claimed, embodied also the view that the United States had no valid basis for claims in the archipelago. It was further held by Senor Rios and his colleagues that the capitulation of Manila, having occurred after the signing of the protocol, and thus after the suspension of hostilities, was invalid.

TO BE SENT TO NEUVITAS.

Order Issued for the Movement of Troops to Cuba About November 22.

Washington, Nov. 4.—Secretary Alger issued the first order looking to the military occupation of Cuba by the United States troops. The order was issued only after very careful consideration of the reports of the military officers now in Cuba, and of the Hecker board and other expert commissioners, which have been in the field. The order looks to the occupation of two points to begin with, namely: Neuvitas and Puerto Principe, but the occupation will be extended as rapidly as the Spanish evacuation proceeds. The order directs the movement to begin at once, but according to the calculations of the department it will scarcely be possible to make the first landing before November 22.

It was explained at the war department that this first movement of troops to Cuba was ordered in advance of the date originally intended for the reason that the Spanish evacuation commissioners had unexpectedly notified the American commissioners that they intended to evacuate Puerto Principe on the 22d of the present month. Consequently it became necessary to have United States troops on hand in Cuba to replace these Spanish forces to maintain order and protect life and property.

TRAGEDY DOWN SOUTH.

Man Kills Two Brothers at Pineville, Ky.—Principal Witness to the Affair Found Dead.

Livingston, Ky., Nov. 4.—John Meadows shot and killed John and Clayton Mathews, brothers, at Pineville this county, at night. Meadows was a school-teacher. Meadows surrendered and is now in jail. Fagan, the most prominent witness, was found dead Thursday in his storeroom, where he slept for years. The indications are that he was murdered, and the coroner is holding an inquest.

Terrible Disaster in Detroit.

Detroit, Mich., Nov. 7.—The new five-story Wonderland theater is in a hopeless mass of debris, and at least twelve lives were sacrificed by an accident which occurred Saturday afternoon. The known dead are as follows: John Creszelski, laborer; James Gegerschke, laborer; August Januschowski, laborer; Cornelius McCarron, lather; Theodore Mertens, laborer; August Sallach, laborer; Martin Shafer, painter; George W. White, tinner; Peter Pfeifle, Frank Wolfe, Max Poll and Charles Mielke. The cause of the catastrophe was either too much weight in the roof or faulty steel beams used in the construction.

A Turko-German Alliance.

London, Nov. 4.—The Constantinople correspondent of the Standard says: Emperor William's visit to Constantinople has resulted in an agreement with the sultan whereby the latter gives the kaiser the right to plant a large German colony along the whole frontier of Tripoli. This arrangement will protect the sultan against French encroachments across the Tripoli-Tunis frontier and will avoid granting a concession in Asia Minor, which would induce Russia to demand compensation.

Burned at Sea.

Vineyard Haven, Mass., Nov. 5.—A disaster at sea, with loss of life, five persons in all, was made known Friday by the landing here of 22 persons who escaped from the burning steamer Croatan, of the Clyde line, bound from New York for Wilmington, N. C., and Georgetown, S. C. The disaster occurred on November 1, about 18 miles north of Cape Charles, and about 206 miles from New York, from which port the steamer sailed on October 31, with a general cargo and eight passengers.

Voluntary Liquidation.

Chicago, Nov. 4.—The Bank of Commerce, a state bank with $500,000 capital and $1,000,000 deposit, has voted to go into voluntary liquidation. Its deposits and an equal amount of its bills receivable will be taken over by the Union national bank. The affairs of the Bank of Commerce will be wound up by the directors and the proceeds paid to its stockholders.

Cuban Exiles Return.

New York, Nov. 5.—Seventeen Cubans arrived here on the steamer Kaiser Wilhelm, having been released from the Spanish prison at Ceuta recently. They were sent to this country at the expense of the United States government and are the first batch of released political prisoners to arrive in New York. They will be returned to Cuba at the expense of the United States.

MINNESOTA NEWS.

Minnesota the Best Place.

Nine months ago Ole Peterson, a North Minneapolis liveryman, closed out his business to cast his future in the Copper river country. He returned a few days ago richer in experience and in a knowledge of "roughing it," but glad to get back to Minneapolis, even though the trip cost him in the neighborhood of $1,500. Mr. Peterson said: "All the wild stories, and they were nothing else, that have come from the Copper river country about rich strikes and big diggings have eminated from the steamboat companies, and the outfitting merchants of Seattle. Not an ounce of gold has been taken out by the 5,000 men who went in during the past year. The only sign of gold at all was found occasionally under the moss, and the farther down you went the worse the yield. What little gold there was to be found was what is known as 'floating gold,' and you can dig all day and get about 75 cents for your trouble. During the summer the climate is fine, but the mosquitoes are so large, vicious and numerous, as to make life miserable. Minneapolis will do me nicely, and it is a great relief to me to get back."

A True Hero.

Fred Neimeier, 21 years old, the son of William Neimeier, a farmer living near Albany, and a younger brother were drowned in McGowan's lake. The boys attempted to cross the lake in a small boat, which was capsized about 40 rods from shore. Their cries drew a large number to the shore, but no one was able to offer help. In full view of the excited crowd the older boy placed his brother five times on the upturned boat. Fred Neimeier was a good swimmer and could easily have saved himself, but when advised to do so shouted to the spectators that he would save his brother or die. Shortly after that he became exhausted and sank. The younger boy, unable to hold himself to the boat, sank a moment later. Both bodies were recovered.

One Thousand Dollars Reward.

Gov. Clough has issued a proclamation offering $1,000 reward for ihe arrest and conviction of the murderer of Dr. W. H. Ormond, of Rochester, who on Sept 22 last was drugged to death at Minneapolis. Much work has been done upon the case, but without avail thus far. The offering of this large reward will be an incentive to detectives to take up the matter and work upon it with a diligence that should be successful in bringing to justice those guilty of the audacious crime.

Our Honey.

In the honey department of the Omaha exposition Minnesota captured 67 prizes, three of them being gold medals, 20 silver and the others bronze. Among the highest scores were the following: J. B. Jardin; Parker; Scott Lamont, Garrett; H. L. T. Witte, Medicine Lake; W. J. Stahmann, Weaver; Nathaniel Jones, Howard Lake; D. A. Freeman, Hinckley; Dr. E. K. Jaques, Crystal, and Mrs. H. G. Acklin, St. Paul. A silver medal was also given to the state of Minnesota for samples of honey.

Mail for the Thirteenth.

Maj. Ed. S. Bean, Thirteenth Minnesota volunteers, Manila, asks that all mail matter addressed to members of the Thirteenth regiment be directed under the following form: "John R. Smith, Co. A, 13th Minnesota Volunteers, Manilla, P. I." Much of the mail matter sent to members of this regiment has been sent in care of the consul general at Hong Kong, and is delayed in delivery from six to ten days.

D. E. Branham, collector for a wholesale grocery firm, was held up two thugs in Minneapolis and robbed of $125.

At the Oak street railway crossing in Minneapolis, a switch engine ran into the carriage of Wm. Hamm, of St. Paul, killing Fred Graham, the coachman, and injuring Mr. Hamm and his nephew, Theodore Hamm.

Supt. E. E. Clark, of the Water Power and Mill company's interests in St. Cloud, has completed the improvements at the dam. The improvements have cost in the neighborhood of $15,000.

The log cut of the Duluth district will be larger by 100,000,000 feet or more this winter than in any season before.

The Lindsay Bros.' carriage factory, formerly the Thompson Wagon company's plant, at St. Louis Park, was completely destroyed by fire. It is not known how the fire originated.

The old Jackson house at Minnetonka Mills was burned the other night. The fire was probably started by some boys as a Halloween prank. The house was built in 1857.

Private John Folmer, Company G, Third infantry, died at the St. Paul city hospital of typhoid fever contracted at Santiago.

The saloon of William Feicall, at Hopkins, was entered by burglars and 100 gallons of liquor, 1,000 cigars and some clothing taken.

The Central Methodist church of Winona held a missionary jubilee in celebration of the raising by the Methodist Episcopal church of the United States of the missionary debt of $200,000. The largest contribution from any one church in Methodism to the payment of this missionary debt was made by the Winona Central church.

Burglars robbed the dry goods store of Gardner Bros., St. Paul, securing $175 worth of property.

Charles T. Bristol, a brakeman on the St. Louis road, was fatally crushed between the bumpers of two cars at Hopkins, dying a few hours later.

The Elba mine at Biwabik has begun shipments, and will continue the balance of the season.

At the rate the Fourteenth regiment is being examined, it will take two weeks to muster out.

The Rochester Militia company will be known as Company H, Fourth regiment of Minnesota National guard.

The Mankato Normal football team defeated the St. Peter high school team. Score, 12 to 0.

Frank Ward has been appointed superintendent of the Great Northern railroad

A. Wenzlik committed suicide at the Hotel Borz, New Prague, by taking arsenic.

Duluth now gets her water supply from a point ten miles out in Lake Superior.

The plant of the Hennepin County Barrel company at Minneapolis was burned. Loss $40,000.

BEWITCHING TEA GOWNS.

Filmy, Graceful Creations That Are Delightfully Feminine and Fluffy.

The man who said that "grace is the beauty of form under the influence of freedom" may have been inspired by the sight of a handsome woman in a handsome neglige gown. One thing is certain, and that is that no variety of dress is more graceful than the long-flowing, semiloose tea gown. Every woman who can afford to do so should indulge in the luxury of at least one elaborate garment of this kind. Those who can afford several are the envy of their friends. The tea gown really has a much-to-be-desired influence on the wearer. It makes the poor feel rich and the rich richer and gives one a sense of ease, freedom and luxury that no other frock, however fine, imparts. If a woman has the figure which suits this gown, she is more attractive in this style of dress than any other. This perhaps explains the fondness of women generally for it, to say nothing of men's liking for it.

The new gowns are delightfully feminine and are fussy and fluffy enough to please the most exacting lover of insinuating lines and folds. All of them are made very long in front and at the sides, while in the back they sweep away into a decidedly trailing effect. Those made of very soft materials show a tendency toward the Grecian style, while others of silk or satin are built on modern lines, but relieved of all stiffness by much embellishment in the way of embroideries, plaited diaphanous materials, lace motifs and bands and jeweled trimmings.

A charming suggestion for making this favored garment accord with the latest dictates of Dame Fashion is shown in the model with a polonaise-like overdress. The shaped flounce outlining it is accentuated by lace applique put on garland fashion. The material is pale blue liberty silk, and opens over a full front and skirt of filmy yellowish lace falling from a butterfly bow at the corsage. The same style carried out in turquoise blue embroidered in silver paillettes and turquoises is exquisite, but no more so than rose pink or apricot wrought in cream lace applique in some fashionable design.

Silk muslin, made over soft, unstiffened satin, is one of the best materials for tea gowns at the present moment, and the mode of making in every case seems to be inexplicable. In the hand the robe apparently has no shape at all, but when on, what with soft sashes, crush belts, jeweled girdles, and no end of ribbon bows, it clings to the figure here and there in the most graceful fashion. The more diaphanous and indescribable such gowns are the more fashionable. For a tall, graceful woman nothing could be more excellent than a tea gown like the one shown, of orient satin, in the ivory tint so becoming alike to dark and fair. A handsome girdle of gilt filigree, studded with semiprecious stones, encircles the waist, falling almost to the bottom of the skirt in front. Long sleeves and a neglige jacket of soft point d'esprit net applique in a scroll design, with lace and a fichu of chiffon, complete this artistic creation. Many of the imported tea gowns are made of accordion-plaited chiffon falling from a yoke of fine lace, and, were it not for the expense of the materials, would look for all the world like the old-time Mother Hubbard wrapper, which every woman with an exquisite sense of neatness detested in her innermost heart.

Plain and dotted net, foulards, plain and fancy silks, and brocaded and plain satin are all made into neglige gowns, as well as all gauzy materials. Many of the swellest tea gowns are cut low and have elbow sleeves made of piece lace; then a lace scarf is thrown about the neck with studied carlessness, and its long ends are allowed to fall downward. There is everything in this department to tempt a woman to part with a large part of her income.—N. Y. Sun.

ACTUALLY FORGOT HIS WIFE.

Chicago Lawyer Who Has a Good Claim on the Championship for Absent-Mindedness.

Did you ever know any man so absent-minded as to forget he had a wife while walking in the street with her? Judge Thomas, of Dearborn street, a brother of Congressman Thomas, of Michigan, tells a good story on himself which aptly illustrates this curious phase of psychological phenomena.

"We were living on the South side at the time," he said, "and one night, in company with Mrs. Thomas, I went to hear a lecture in Central Music hall. I do not recall the name of the lecturer, but that cuts no ice in this story. As we were coming out of the hall at the close, I happened to think of a letter in my pocket which I had forgotten to mail—or post, as John Bull would say.

"We walked as far south as the Palmer house, and I left Mrs. Thomas standing for a few moments at Monroe street while I hastened in to post my letter. We were intending to take a south-bound car together as soon as I came out, but for some reason—what was it?—my errand caused me to forget all about my wife. Did some other spirit possess my body while I was taking an astral flight? At any rate, I walked out of the hotel, oblivious of my waiting wife, and hastened away to Adams street and boarded a car alone.

"Suddenly a strange sensation came over me—that I had forgotten something, or missed something—and I began feeling about the seat for imaginary bundles or books or an umbrella. 'Surely I've lost something,' said I to myself, but for the life of me I couldn't tell what it was. In great perplexity I had gone as far as Van Buren street before it suddenly flashed into my mind, 'why, your wife, of course!' I hurried back, you may be sure, but I don't pretend to remember what my wife had to say about the matter."—Chicago Times-Herald.

Apple Salad.

One bunch of celery, cut fine, three large apples cut in small pieces, with celery. Dressing—Two eggs, half a cupful of sugar, one teaspoonful mustard, half a teaspoonful salt, a little butter and pepper, one cupful of vinegar. Boil a few minutes and pour over hot.—N. Y. Ledger.

Probably the Case.

The scarcity of work is not so great as the scarcity of good men.—Atchison Globe.

CLUMSYBY'S LACK OF TACT.

He Had a Philosophic Method of Turning This Lack to His Own Account.

"One of the things that have been most helpful to me in the course of my life," said Mr. Clumsyby, "has been my lack of tact. This may seem like a contradiction, but it is really very simple.

"I have always fancied that I could attend to business for other people all right, but I never had any tact about my own; that is, about my personal relations with people; I always bungle them whenever I attempt to do anything. Thus, if I have a misunderstanding or difference with anybody about anything and I set about straightening it out, I can't possibly do it except in one way; I have to go at it flat-footed; I haven't any more diplomacy than a stone image. And, moreover, besides being clumsy about it, I am pretty sure to say too much; to say things that it isn't necessary to say. In other words, I haven't any tact at all.

"And at first this was a great drawback to me. But after awhile I made a discovery; that if I didn't exercise my tact I shouldn't make any mistakes by it, and, following that course for a time, I came to a realization of the fact that there's a great lot of things that we run up against in life which may be irritating at the time, that are, however, not worth squabbling over at all, whether a man's got tact or not, and I was sure to make a mess of these things if I tried to do anything about them, why, I don't try; I simply let 'em go!

"And that's what I've been doing now for years, not bothering about every little trifle, but letting the little things go, and not bothering about 'em at all; paying no attention to them whatsoever. And so I have been enabled to preserve my equanimity and avoid all useless wear and tear; and thus my lack of tact has finally proved most helpful to me.

"But I have to keep a watch all the time."—N. Y. Sun.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases of of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Surely the best thing out is St. Jacobs Oil for Rheumatism.

STORIES OF RELIEF.

Two Letters to Mrs. Pinkham.

Mrs. JOHN WILLIAMS, Englishtown, N. J., writes:

"DEAR MRS. PINKHAM:—I cannot begin to tell you how I suffered before taking your remedies. I was so weak that I could hardly walk across the floor without falling. I had womb trouble and such a bearing-down feeling; also suffered with my back and limbs, pain in womb, inflammation of the bladder, piles and indigestion. Before I had taken one bottle of Lydia E. Pinkham's Vegetable Compound I felt a great deal better, and after taking two and one-half bottles and half a box of your Liver Pills I was cured. If more would take your medicine they would not have to suffer so much."

Mrs. JOSEPH PETERSON, 513 East St., Warren, Pa., writes:

"DEAR MRS. PINKHAM:—I have suffered with womb trouble over fifteen years. I had inflammation, enlargement and displacement of the womb. I had the backache constantly, also headache, and was so dizzy. I had heart trouble, it seemed as though my heart was in my throat at times choking me. I could not walk around and I could not lie down, for then my heart would beat so fast I would feel as though I was smothering. I had to sit up in bed nights in order to breathe. I was so weak I could not do anything.

"I have now taken several bottles of Lydia E. Pinkham's Vegetable Compound, and used three packages of Sanative Wash, and can say I am perfectly cured. I do not think I could have lived long if Mrs. Pinkham's medicine had not helped me."

What Cuba's Loss Means to Spain.

The loss of Cuba means to Spain the loss of the very sustenance of the nation. Already her tax ridden people are crying for bread. In the same way the loss of your once vigorous appetite means poverty and starvation to your body. If any reader of this paper wishes to be as hungry again as when a child, and wants to fully enjoy hearty meals, we can recommend Hostetter's Stomach Bitters. It cures indigestion, dyspepsia and constipation.

Some of the highest-priced stuff the apothecary sells is a drug on the market.—Golden Days.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 25c.

In warning there is strength.—Lew Wallace.

A mule, a kick, man sick. St. Jacobs Oil cured the bruises.

Stop Coughing

Every cough makes your throat more raw and irritable. Every cough congests the lining membrane of your lungs. Cease tearing your throat and lungs in this way. Put the parts at rest and give them a chance to heal. You will need some help to do this, and you will find it in

Ayer's Cherry Pectoral

From the first dose the quiet and rest begin: the tickling in the throat ceases; the spasm weakens; the cough disappears. Do not wait for pneumonia and consumption but cut short your cold without delay.

Dr. Ayer's Cherry Pectoral Plaster should be over the lungs of every person troubled with a cough.

Write to the Doctor.

Unusual opportunities and long experience eminently qualify us for giving you medical advice. Write freely all the particulars in your case. Tell us what your experience has been with our Cherry Pectoral. You will receive a prompt reply, without cost.

Address, DR. J. C. AYER, Lowell, Mass.

What can you pay for an Organ? Write and tell us. Don't be afraid. You'll have an Estey; yes, an Estey, before you know it.

Estey Organ Co., Brattleboro, Vt.

PIMPLES

"My wife had pimples on her face, but she has been taking CASCARETS and they have all disappeared. I had been troubled with constipation for some time, but after taking the first Cascaret I have had no trouble with this ailment. We cannot speak too highly of Cascarets." FRED WARTMAN, 5708 Germantown Ave., Philadelphia, Pa.

BUFFALO GAZETTE

DELANO, FRIDAY, Nov. 11, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

—The Delano Laundry is now running full blast.

—Even the weather has been fine ever since election.

—Peterson & Son are selling the new beat sugar made at Minneapolis.

—Peterson & Son handle Gold Seal Rubber goods; the best in the market.

—Delano's school appears to have run quite smoothly for a whole week. But then it was election week.

—After all the fuss the women made voting in Delano they succeeded in giving Lee one majority. 18 to 19.

—Presiding Elder, R. R. Atchison is to preach at the M. E. church Sunday evening at 7:30. Come and hear him.

—The Presbyterians have again changed the hour for services to morning and afternoon instead of evening.

—Some of our voters are complaining that the election board of Delano locked up the room to count the votes. The law requires a public count.

—Several candidates ars already running campaigns for Mayor and positions on the school board. The chances are that somebody will be switched off before election.

—Election is over. The day was fine, but a little cool. The Australian system of voting tends to keep down disturbances. Things passed off quietly, generally, a lite vote was polled.

—The Eagle kind of hauls back some of its remarks about Miss Helliwell's leaving the school so suddenly, and claims it was misinformed, possibly it was. We are informed she went home sick and on consulting her people concluded to stay at home.

—It would look much better to honest people if everybody would be out to their own polls voting on election day, than loosing their own vote while attending some other precinct election to influence people to vote against their convictions, no matter how.

—On Saturday evening while engaged in firing a small cannon before the Towne meeting. Joe Niestroy had his eyes and face filled with sand and powder, by a premature discharge. His attending physicion, Dr. Shrader, fears he will loose his sight entirely.

LATER.—Joe was taken to Minneapolis yesterday and Dr. Todd consulted. It is said that his eyes are injured beyound recovery and that he will never see again.

—Monday evenings lecture by Mr. Zink was fairly well attended, though there was lots of room for more people. Mr. Z. is a tolerably good talker but made some funny breaks, as when he said "I believe, I know Mr. Lind to be an honest man" and then went on to tell how Bank Examiner Kenyon (who he didn't say was an honest man) had made statements that Mr. Lind had falsely represented the affairs of the Brown county bank. Now if Mr. Lind is honest as Mr. Zink said he knew him to be of course Mr. Kenyon must have been mistaken, or worse.

—Dr. Ames reports a strange affair as happening on the farm of John Berg, of Greenwood. He was called on Wednesday to dress the wounds of a 12 year old daughter of Mr. B. The little boy 8 years old told that a man rode up on horseback and asked if he could hunt on the farm. On being told by the girl who was in the house, that Papa did not want people to hunt there, he drew up his gun and fired a shot into her face and ear. The girl was not able to give a clear statement of the accident. Mr. B. who was in the rear of the house heard the shot, and the horses steps. The man rode off and is not known. He should be hunted up and properly dealt with.

—The political meeting, at the City Hall, Saturday was by odds the best of the season. Several of the candidates fer county officers and Johnston Mealy and Henry Kelley had seats on the platform. Dr Catlin presided and introduced the county candidates first, each of whom made his bow and spoke a few words. Then the man who needs no introduction, who we believe is honest in his convictions and earnest in his efforts to teach them to men, the Hon. Charles A. Towne, of Duluth, was introduced and roundly cheered. Mr. Towne spoke for about two hours, while his audience, the hall full, many of whom stood in the rear end of the hall, listened intenlly to every word. The stage was nicely decorated with flags, bunting, and pictures of Lind and Towne. Hearty cheers were given at the close of the meeting for the candidates. Thad Kerr got a few of the members of the old brass band together and they played a few selections. The Delano orceestra furnished some music.

What 20 Cents Will Do.

By sending the above amount to The Detroit Free Press, Detroit. Mich., they will send you The Twice-a-Week Detroit Free Press, from date of receipt of your order until January 1, 1899. This special reduced rate is given to introduce the paper to new readers. The Twice-a-Week Free Press is a clean, up to date family newspaper, and everyone should take advantage of this special offer. The greatest value ever offered for 20 cents. Send in your order at once.

Add 25 cents and send to us and get the Detroit Free Press and the Buffalo Gazette both until January 1. This through the coming hot political campaign.

—Delano Fair Day tomorrow Nov. 12.

Personal.

Judge Tarbox visited Delano several times lately.

Louis Mayer and C. W. Kerrick wore in town election day.

Pat Grear, of Minneapolis, spent election day in Delano.

Elmer Gilmer, came home from Graceville for a visit last week.

Mrs. I. H. Grafft, of Hamline, is visiting with her daughter, Mrs. Buckley.

Victor Jucobs has got home from near Herman. He got his hand hurt in a thresher.

Jeff Benner and wife and some friends drove home to Rockford from here Monday evening.

Walter Brothers has returned from the Pacific coast. He has moved into the Grafft house.

Rev. John Doran, of Cokato, made some of his old Delano friends a pleasant visit Tuesday evening.

C. R. Carlton has moved with his wife into the house occupied by his son Charles, south of the track.

George Carpenter, Charley Vorse A. Y. Est. on and other Buffalolites visited Delano since our last issue.

J. C. Johnson and Ed Stewart of Lyndale drove over to hear Towne. So did John McGary, of Independence.

Harry Haines of St. Paul visited Delano friends lately. He has been appointed station agent of Bermidji and will move their soon.

Johnston Mealey, Henry Kelly, James Madigan, John H. Coolen, John O'Leary, Frank T. Hamilton, were among candidates in town the week past.

George Crandall, George Florida, Will Guptil, John Sleight, C. D. and Frank Fredericks and others from Rockford attended the Towne meeting here Saturday evening.

County Cullings.

The county officers elected for next year are.

Senator, E. Y. Chilton.

Representative, Frank Swanson, and G. P. Boutwell. All Republicans.

Auditor, H. S. Swanberg, R.

Treasures, Al Hanaford, R.

Sheriff, John C. Nugent, D.

Register of Deeds, August Hafften, R.

Judge of probate, J. J. Woolly, R.

County Attorney, C. A. Pidgeon, R.

Surveyor, Axel A. Bloom, R.

Superintendent of Schools, J. T. Lee, R.

Coroner, C. B. Powell, R.

County Com. 2nd Dist., Joseph Reems, D.

County Com. 4th Dist., D. W. Flannigan. D.

Arther E. Giddings is elected Judge by a fair majority according to the latest returns.

Those Democrats that thought the best thing to do was to nominate John Nugent for Sheriff and snow him under at the polls, now have, doubtless changed their opinions. If for any good reason, as when a man is known not to be in harmony with party principales, it is thought best not to have a man for an office the proper place and time to say so is at the primary elections, and at the convention, and not sit idly by and see a man nominated that you don't want. Neither is it good politics to put a man up for an office for the purpose of using him for a figurehead. The proper thing for a party to do is to nominate their best men always for every office and make an honest fight for all the offices; and not fool around and wast time and money to get one man in for life, a perpetual motion concern.

Some little fortunes have been made at work for us, by Anna Pape, Austin, Texas, and Jno. Bonn, Toledo, Ohio. See cut. Others are doing as well. Why not you? Some earn over $100.00 a month. You can do the work and live at home, wherever you are. Even beginners are easily earning from $5 to $10 a day. All ages. We show you how and start you. Can work in spare time or all the time. Big money for workers. Failure unknown among them. NEW and wonderful. Particulars free.

W. Hallett & Co., Box 880 Portland, Maine

WE WANT YOU

to act as our agent. We furnish an expensive outfit and all you need free. It costs nothing to try the business. We will treat you well, and help you to earn ten times ordinary wages. Both sexes of all ages can live at home and work in spare time, or all the time. Any one any where can earn a great deal of money. Many have made Two Hundred Dollars a Month. No class of people in the world are making so much money without capital as those at work for us. Business pleasant, strictly honorable, and pays better than any other offered to agents. You have a clear field, with no competition. We equip you with everything, and supply printed directions for beginners which, if obeyed faithfully, will bring more money than will any other business. Improve your prospects! Why not? You can do so easily and surely at work for us. Reasonable industry only necessary for absolute success. Pamphlet circular giving every particular is sent free to all. Delay not in sending for it.

From the Philippines.

Through the courtesy of Miss Viola Cunningham, who received a letter from her nephew, at Manilla, this week we are enabled to give a few extracts to show how the 13th is enjoying itself and surroundings:

Aunt Viola, having neglected writing to you, I enclose this, (a nice silk handkerchief) for a penalty, and must say the silk in this town, Manilla, must be very good, considering the place it comes from, so for a keepsake I send this. * *

I am doing well. I suppose we have run in among the lost tribe of Israel, because first: The natives are similar to Jews in the way they transact business. If they think a thing is worth 50 cts they try to get a dollar; they never do however, go into business on a big basis, they carry a stock from about $10 to $100. in value and live on nothing almost. Second: They hide their money, a comparatively new looking dollar bears date 1765: Then copper money is dark: and a man told me they hid their money.

The more I see of Manila the more pleasant it becomes. Some of the young ladies are charming. Most of them can carry about 50 or 75 pounds on their heads, easy. All those who do not can chew the beatle nut as well as those who do. And all of them can smoke from the cradle up. Although I know one who is more pious, she never smokes nor chews, and dresses about half way decent, that's more than can be said of most of them.

THE SONG OF THE "No. 9."

My dress is of fine polished oak,
As rich as the finest fur cloak,
And for handsome design
You just should see mine—
No. 9, No. 9.

I'm beloved by the poor and the rich,
For both I impartially stitch;
In the cabin I shine,
In the mansion I'm fine—
No. 9, No. 9.

I never get surly nor tired,
With seal I always am fired;
To hard work I incline,
For rest I ne'er pine—
No. 9, No. 9.

I am easily purchased by all,
With instalments that monthly do fall;
And when I am thine,
Then life is benign—
No. 9, No. 9.

To the Paris Exposition I went,
Upon getting the Grand Prise intent:
I left all behind,
The Grand Prise was mine—
No. 9, No. 9.

At the Universal Exposition of 1889, at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France. This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered—the GRAND PRIZE—giving other companies only gold, silver and bronze medals.

The French government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor—the most prized honor of France.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best it will be your own fault.

Ask your sewing machine dealer for the No. 9 Wheeler & Wilcon machine. If he doesn't keep them, write to us for descriptive catalogue and terms. Agents wanted in all unoccupied territory.

WHEELER & WILSON MFG. CO.
Chicago, Ill.

Late Literary News.

That the spy sent by the United States government to Spain during the war should have become the guest of Weyler himself, seems incredible. Yet there is nothing more true. The government selected as its agent a man of position who has lived much in Germany. It was necessary for us to have a trained intellect that would make no mistakes. His story is told in the November COSMOPOLITAN, and the most exciting pages of Dumas's fiction seem tame in comparison with the facts. Crossing the frontier in a first-class carriage, he was by a trifling accident brought into conversation with a young Spanish nobleman; presently who should come along but the son of General Weyler. This acquaintance led to his receiving many attentions from Weyler when they reached Madrid, and the General actually gave up a day to a trip to the Escurial Imagine this grim arch enemy of ours laying himself out to please the secret agent whom the government had sent to find out the weak places of Spain. How trifling the demarcation between the position of honored guest and that of spy who, if discovered, would have been all the more quickly sent to his death! The same issue of THE COSMOPOLITAN contains four pieces of fiction by such famous authors as FRANK STOCKTON, ZANGWILL, H. G. Wells, and the lamented HAROLD FREDRICK, but none of it half so exciting in its interest as this true srory.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Offical Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merrit, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manill. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Large book. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barber, Sec'y., Star Insurance Bldg., Chicago.

ADVERTISE

HERE.

HOW A PUZZLL WAS SOLVED.

When you want a certain article, you want the best make of that article, don't you?

But how to determine which make is best is what puzzles you, isn't it?

And when the puzzle is solved for you, y authority which cannot be questioned, you are pleased, aren't you?

And you would like to hear of one puzzle that has been solved for the people of the whole world, wouldn't you?

Well, we will tell you about that very puzzle, and its solution.

At the Universal Exposition of 1889 at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France.

This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered, the GRAND PRIZE, giving other companies only gold, silver and bronze medals.

The French Government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor, the most prized honor of France.

That is how the puzzle of the best sewing machine in the world was fully solved by the most competent authority in the world in favor of the No. 9 and No. 12 Wheeler & Wilson machines.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best, it will be your own fault.

Ask your sewing machine dealer for the No. 9 Wheeler & Wilson machine, and if he does not keep them, write to us for descriptive catalogue, prices and terms.

Agents wanted in all unoccupied territory.

$1.00 A YEAR FOR DEMOREST'S FAMILY MAGAZINE

The Subscription price of DEMOREST'S is reduced to $1.00 a Year.

Demorest's Family Magazine is more than a fashion Magazine, although it gives the very latest home and foreign fashions each month; this is only one of its many valuable features. It has something for each member of the family, for every department of the household, and its varied contents are of the highest grade, making it, pre-eminently, The Family Magazine of the World. It furnishes the best thoughts of the most interesting and most progressive writers of the day, and is abreast of the times in everything.—Art, Literature, Science, Society Affairs, Fiction, Household Matters, Sports, etc.,—a single number frequently containing from 200 to 300 fine engravings, making it the Most complete and Most Profusely Illustrated of the Great Monthlies.

Demorest's Magazine Fashion Department is in every way far ahead of that contained in any other publication.

Subscribers are entitled each month to patterns of the latest fashions in woman's attire, at no cost to them other than that necessary for postage and wrapping.

NO BETTER CHRISTMAS GIFT

than a year's subscription to Demorest's Magazine can be made. By subscribing At Once you can get the magazine at the reduced price, and will also receive the handsome 25 cent Xmas Number with its beautiful panel picture supplement.

T. J. CATLIN, Publisher

Entered as Second-Class Mail Matter at the Post Office in Delano, Minn

JOHN LIND will be Governor after January 1. It is hoped and expected that he will be careful in selecting his helpers in the administration of State affairs and that even the Republicans will be obliged to admit that an improvement over old ways has been brought about by the change of administration.

REPUBLICANS are already talking about having an extra session of Congress in the Spring for the passing of the McCleary banking bill. We think the verdict of the people is now that it is a bad bill and ought not to pass. This country has had enough of the individual or corporation banking business for the government. The government should make its own money and not give the job out to Syndicates or individuals. A big bank with a lot of branches might be a fine thing for political parties to manipulate; but money should be safe. The old wildcat idea was exploded years ago.

HON C. A. TOWNE, of Duluth, it is said will practice law in his home and has already begun his boom for Congressman in 1900. He made a noble fight this time and gained on Mr. Morris at home, and in other parts of the district. But his former stronghold, Stearns county, was, by a wild bug movement wrested from its normal condition and gave too small a majority for Mr. T. to allow of his carrying the district notwithstanding his gains in St. Louis, Wright and other counties. We hope he may continue the good work and succeed next time in having his views endorsed by the people at the polls.

REPUBLICANS are not even now sure of the election of C. K. Davis to the U. S. Senate. Mr. Davis has some very warm enemies among Republican politicians. He was elected six years ago by a bare majority; simply a "Holler" without the whoops". Mr. Windom was once sure of an election, but, contrary to expectations Mr. Sabin succeeded him. Mr. Washburn had another "sure thing" four years ago, but Gov. Nelson was chosen. Mr. Eustis secured the nomination of the Republican party, for 40 years equivalent to an election, and now John Lind is Governor-elect. "There is many a slip 'twixt the cup and the lip."

Special Offer to Our Readers.

Death From Hazing in Illinois.

DECATUR, ILL., Oct. 3.—The death of David C. Jones, a freshman in the Decatur High School, will stop hazing in that school. When the boys surrounded him on Sept. 6, the first day of school, there was a terrific fight. He was seventeen years old, but strong and heavy for his age. Twenty-two boys, most of them about his age, but none of them a match for him in size, surrounded him and undertook to get him down. He fought desperately, tossing the boys about as if they had been foot-balls. The crowd was too large for him, though, and at last got him down, and succeeded in dragging him fifty feet to the fence, about five feet high, and throwing him over. He fell in a heap on the side walk and lay there, too weak from the struggle to get up. That was his last day at school. He stayed in bed next day. An abscess formed in his back as a result of the strain and death followed. —Boston Evening Transcript.

When (as we are told) not a single case of rowdyism has ever taked place in any Roman Catholic University, College or School in this country, how does it happen that it cannot be stopped in our Protestant educational institutions?

President Wayland told the trustees of Brown University many years ago that he was to have good order in that University if he expelled every student—and he had it.—Our Dumb Animals.

This kind of heathenish rowdyism ought to be stopped. The participants could be put to work.

1898. Official Vote of Wright County. 1898.

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, D. C., Nov. 11, 1898.

It is known that Mr. McKinley feels very keenly the rebuke administered to Algerism by the voteres of the country at the Congressional elections, and probable that if he had it all to do over again, he would not be willing to stand sponsor for Alger. The first Cabinet meeting after the election was a very mournful affair; lasted nearly four hours and was devoted entirely to attempts to extract a few crumbs of comfort from the result in the few states in which the republicans held their own, and from the fact that they will have a majority in in the Senate of the next Congress. The mourners are feeling a little better now, over the probability that the republicans will by the skin of their teeth barely hold control of the House, but they are afraid to count too much even upon that little, for fear that the official count, necessary to determine the result in a number of close districts, will leave the republicans in a minority.

When all the circumstances connected with the campaign are taken into consideration, and the vote cast is compared with that of '96, it will be seen that this week's elections were a great triumph for the democratic party a triumph that was really extraordinary in the face of the obstacles which confronted the party. It seems incredible almost that an administration which had the undivided support of the country in fighting to a triumphant close a foreign war should have so soon forfeitid and lost so much of that support, although all sorts of appeals, ranging from patriotism to cupidity, were used to retain it. If the Democratic party maintains its present aggressive attitude it will surely win the Presidential election two years hence.

Senator Jones, of Ark., chairman of the Democratic National Committee, does not regard the election of Roosevelt as a serious loss to the democracy of the country. On the contrary, he believes it would be decidedly beneficial. He says the democratic leaders in New York went astray on the party platform and that he regards the defeat of the party in that state as the legitimate reward of straddlers and piecemeal politicians. There are many others democrats who are not sorry that the party failed to carry New York, some for one reason and some for another, but the most of them because they think that Tammany should be satisfied with the control of the party in the city of New York and not seek to control in state and national affairs. They say that if Van Wick had been elected governor, Mr. Croker would have attempted to control the National convention, in 1900, and that such attempts bring nothing but injury to the party.

There were several surprising things connected with the testimony of Gen. Lawton, who commanded a division of Shafter's army, in the Santiago campaign, which was taken by a single member of the Commission Col. Denby. His testimony, as a whole did not square with things he had said to Gen. Miles, and which Miles had repeated to others, and he has said since testifying that he did not tell some things he knew. All these things have resulted in a determination to give Lawton another chance to testify when the whole Commission will be present. Capt. Clark Howell, of the commission, is said to have information that will enable him to make the cross examination of Lawton interesting. Some other interesting things are likely to be uncovered by the Commission, now that the administration does not feel called upon to keep them quiet for fear of their effect upon the elections. Individuals who thought they were to be permanently protected by the administration are likely to be found guilty of shortcomings and punished therefor. The report of Gen. Miles, now in the hands of Secretary Alger, ought to be interesting reading to the Commission, if it really wishes to get at the bottom of things. It contains some pointers that would not have to be followed very far by the Commission before pay-dirt would be reached. Gen. Shafter has been ordered to come to Washington to testify before the Commission.

The Peace Commission had another joint powwow, at Paris, this week, but they are still talking in the air and not ready to get down to business. As soon as the price we are to pay Spain for the Philippines, is agreed upon, Mr. McKinley will notify the Commission to settle the business.

The eminent gentlemen, representing the U. S,

The egg crop of the United States last year amounted to 850,000,000 dozens. That is something to cackle over, without saying anything about crowing.

A New England bank cashier who absconded recently is described as being "short and taking in his way." But that will hardly serve to distinguish him from other missing cashiers.

Several scientific papers have recently announced the discovery that the odor of sweet peas is very obnoxious to flies, and that when placed in a room it will keep it free from these very tiresome pests.

A new terror is in store for those who speak the taal. Motor cars are being rapidly introduced into South Africa, as into other parts of the world, and of course some word must be used to denote them. This, in accordance with a decision of the Flemish academy at Antwerp, will probably be Snelpaardelooszonderspooregpetrooirijtuig.

Adjt. Gen. Corbin says that the wearing of medals by volunteer soldiery is not regulated by law. The Army and Navy Journal, however, thinks that it should be and says: "Every soldier in the army should receive a medal or cross for war service, but he ought to get it from the nation and not from his ward neighbors or fellow townsmen."

John Ferguson, who works a farm near Calhoun Ga., is 50 years old, just over eight feet tall and weighs 316 pounds. Up to the age of 20 he was an invalid, but after that time he increased in brawn and muscle with miraculous rapidity, until at the age of 30 he was, as he is now, a veritable giant. He is 48 inches around the chest and 44 around the waist.

A society which aims to be to the soldiers who enlisted for the Spanish-American war what the Grand Army of the Republic has been to the federal army of the civil war has been organized in Lexington, Ky. "The Service Men of the Spanish War" is the title of the new society, and the plan of organization was the idea of Capt. Wilson I. Lavenny, commissary of subsistence of the First brigade, Second division, First army corps.

The Nebraska young man who deserted his bride at the moment of the ceremony because he discovered that she had been indulging in a cigarette, will probably have the sympathy of many a man who is not quite ready for oriental customs among the women. At the same time, it might be interesting to inquire into the habits of the bridegroom. If he is a smoker, has he any real grounds for complaint against the young lady?

The United States is coming to the front as a silk producer. Thirty years ago our annual output of silk was but little more than $6,000,000 in value, while now it reaches over $87,000,000. The imports of silk are falling off also, and from the high-water mark in silk imports of $36,000,000 in 1883 they have now dropped down to $23,000,000. A little export trade has also been built up, and if there is anything that your Uncle Samuel cannot produce we would like to know what it is!

The new woman has scored the victory of her eventful life in Newark, N. J. A judge of that advanced town has decided that wives belonging to clubs have a legal right to a latchkey and to return home at any of the small hours that best suit them, and that husbands who oppose this right as an exclusive one of their own are liable to arrest and fine. This disposes of the whole vexed question. The latchkey unlocks the last fetter binding downtrodden woman to tyrannical conventions.

A telephone man predicts that before the close of the nineteenth century persons on the Pacific coast will be talking by telephone to persons on the Atlantic seaboard. The feat has already been accomplished between Kansas City and Boston. Thirty-three states are now connected by long-distance telephone systems, and within a year nearly every other state will have them. Statistics show that the year 1898 has developed greater activity in the telephone world than any since its invention, and the year 1899 will be the record breaker.

New York has decreed that a teacher in the public schools may not marry and still hold her job unless she can show some very excellent reason why an exception should be made in her case. If a school-teacher—or, for that matter, any other young woman—cannot get a husband who is able to support her she had better remain single, and if she gets a husband who can support her she had better devote herself to the home rather than the school. This appears to be the course of reasoning in New York, and it ought to hold good everywhere.

El Cubano, a newspaper established in Santiago since the occupation by American troops, criticises the American mayor because he works in his office in his shirt sleeves. El Cubano says that it is very undignified and very much beneath the honor of the office. Dignity or no dignity, the American cleaned up Santiago in four weeks after the Spaniards failed to make any progress in that direction for 400 years, and has done more for the people of that city in the past month than the Spanish mayor did in a century. The American is there for business, not for dignity!

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

Gen. Blanco will leave Havana November 20 for Spain.

Gen. Lawton will go to Cuba to investigate the feasibility of utilizing the Havana volunteers as a civil guard during and after the evacuation by the Spaniards.

The Vulcan left Newport News to search for the cruiser Infanta Maria Teresa, supposed to be ashore on Cat island.

The Americans at the meeting in Paris of the peace commissioners declined to recede from the position taken concerning the Philippines.

In Havana Gen. Blanco ordered the arrest of two Spanish editors who wrote insulting articles against Americans.

A Madrid dispatch says that the government has decided to maintain sovereignty over the Philippines, and that Senor Montero Rios, the president of the Spanish peace commission, recommends the abandonment of the negotiations.

The annual report of Maj. Gen. Miles, commanding the army, was made public by the war department.

The stranded vessel off Cat island has been found to be the Infanta Maria Teresa.

W. A. Williams, chief quartermaster at Havana, and his clerk, F. T. Stewart, died of yellow fever.

Admiral Winfield Scott Schley arrived in New York from Porto Rico on board the cruiser Newark.

Dispatches say that the United States demands cession of the Philippines without paying any compensation or assuming any debt. Spain is expected to refuse, and after the islands are seized by the Americans, will lay the matter before the powers.

A Washington dispatch says that Spain will be given until December 1 to accept the peace terms laid down by the United States or to withdraw from the Paris conference. Cession of the entire Philippine group, without recompense, will be insisted upon by the Americans.

FROM WASHINGTON.

In the United States and Canada the fire loss for the month of October shows a total of $7,539,400, against $11,387,500 in October, 1897.

Latest returns from the state elections indicate that the republicans will have a majority of 13 in the next house of representatives and a majority of 16 in the senate. In New York Theodore Roosevelt was elected governor by about 20,000 plurality. Other states elected republican governors as follows: Connecticut, California, Ohio, Pennsylvania, Massachusetts, Michigan, Wisconsin, New Hampshire, New Jersey, Nevada, Nebraska (doubtful), North Dakota, Kansas and Wyoming. The democrats elected governors in Colorado, Texas, Tennessee, South Carolina, South Dakota and Minnesota. On minor state offices Indiana, Illinois, Iowa, Ohio, Rhode Island, Delaware, Washington, New Mexico and West Virginia went republican and the democrats were successful in Missouri, Montana, Utah, Georgia, North Carolina, Louisiana, Kentucky, Alabama, Arkansas, Florida, Maryland, Mississippi nad Virginia.

The November crop report of the agricultural department estimates the total cotton crop at 10,000,000 bales and the corn crop at 1,927,000,000 bushels.

Fourth Assistant Postmaster-General Bristow in his annual report for the fiscal year ended June 30, 1898, shows there were 73,570 post offices in the United States, an increase during the year of 2,548.

There was a reduction of $113,000,000 in imports and an increase of $123,000,000 in exports in the nine months ended September 30 last.

During the last fiscal year the total number of immigrants who arrived in the United States was 229,299, a decrease as compared with the fiscal year 1897, of 1,533. Of the whole number 135,776 were males and 93,254 females.

THE EAST.

In Philadelphia the world's ten-shot pistol record was broken by C. H. Taylor, of the Massachusetts Rifle association, who made the limit of 100.

Over $1,000,000 changed hands on election results in New York.

In the United States there were 211 business failures in the seven days ended on the 11th, against 194 the week previous and 291 in the corresponding period of 1897.

On the Lehigh Valley road two express trains collided near Wilkesbarre, Pa, and five men were killed.

Harvey Lutz shot and killed his father at Reading, Pa., while drunk, and then killed himself.

WEST AND SOUTH.

Fire wiped out one-half of the business part of Bloomville, O.

Six or the eight men engaged in the hold-up of the Great Northern train near Fergus Falls, Minn., have been captured.

Flames in the general store of C. A. Stearns in Hanover, Miss., were followed by an explosion which killed four men.

Flames destroyed 13 buildings in Sibley, Ia., among them being Littlechild Bros.' livery barn, where 19 horses were burned.

The National Woman's Christian Temperance union began its annual session in St. Paul, Minn.

In San Francisco E. O. Kragness went 50 miles on a bicycle in 2:13:29, making a new record.

Highwaymen robbed William Slagle, a messenger for the Exchange bank at Cherubusco, Ind., of $1,200.

While on her way home from Alaska with a fortune of $114,000 a young woman named Crossop, of Minneapolis, was drowned.

Two children named Henderson were killed by a large meteor, which fell near their home in Perry, O. T.

At Virden, Ill., the long strike of coal miners has come to an end.

In Cincinnati John C. Roth, county treasurer and millionaire pork packer, was killed in an elevator in his packing house.

In a quarrel John Nickles shot and killed his wife and his mother-in-law near Shingle Springs, Cal., and then killed himself.

The Chicago university beat the University of Wisconsin in a football game in Chicago by a score of 6 to 0.

Mrs. Charles Taylor and her daughter and a man named Clark were burned to death in a fire at Perry, Mich.

Robbers entered the office of County Treasurer Culbertson at Chariton, Ia., and robbed the vault of $1,600.

FOREIGN INTELLIGENCE.

In Montreal Norman Cole shot and killed Mathilde Lavigueur, his sweetheart, and then sent a bullet through his own brain. Jealousy was the cause.

Luigi Lucchenni, the Italian anarchist who stabbed and killed Empress Elizabeth of Austria on September 10 last, was sentenced to life imprisonment at Geneva, Switzerland.

The United States of Central America government has removed its capital from Amalpala, Honduras, to Chinandega, Nicaragua, which will be the permanent seat of government.

At Kwellu, West Africa, 13 murderers of American missionaries were hanged.

Advices say the duke of Cumberland has reasserted his claim to the thrones of Hanover and Brunswick.

Advices from Berlin say the German imperial party will not land at any Spanish port.

The new governor general of Canada, Lord Minto, took the oath of office in Quebec.

LATER NEWS.

Adjutant General Corbin advises Gov. Adams, of Colorado, that the troops at Manilla will be relieved and returned home as soon as volunteers can be sent to take their places.

Spain offered Havana bankers $4,225,000 paper money to pay off troops. The paper was offered at a few points below commercial rates, but found no takers.

The Filippino junta, representatives of Gen. Aguinaldo and the Filippino government at Hong Kong, has drawn up what they designate as an "appeal to President McKinley and the American people," but what is in reality rather in the nature of an arraignment of American actions in the Philippines.

The Spanish transport Le Gaspi went ashore at Punta Roca, near Cienfuegas, Cuba, and was totally wrecked. All of her crew was saved.

Wm. Hyckley Grosse, archbishop of the Oregon Roman Catholic church, died in Baltimore of heart disease.

The Washington Post states that the war tax will not be abolished at the coming short session of congress and that there will be no revision of the tariff whatever. It bases this announcement upon the positive statement made by Chairman Dingley of the ways and means committee.

Congressman Babcock, chairman of the republican congressional committee, claims that the republicans will have 186 members in the next congress.

The receivers of the Wisconsin Central railroad have applied to the courts for permission to raise money by a loan.

Maj. Taylor, the crack colored cyclist broke another world's records on the board track at Woodside Park, Philadelphia. He rode for the third of a mile record of 30 1-5 seconds made by Willie Windle at Chillicothe, O., in the fall of 1895, and was successful in his first attempt.

As a result of Congressman Fletcher's visit to the president in behalf of sending trained female nurses to Manila, Adjutant General Corbin was directed to send a cable dispatch to General Otis stating that the Minnesota people were very anxious to send nurses to look after the sick of the 13th regiment.

Returning Klondikers bring the news that the city of Dawson was visited by $200,000 fire in which forty of the best buildings were burned.

The Grand Trunk Railway express from Montreal to Toronto collided with a freight near Murray Hill, Ont. Eight persons were killed and several badly injured.

The Spanish transatlantic fleet has been ordered to be prepared for a renewal of hostilities and the forts in the Canary Islands are being rapidly manned.

Mrs. Lillian M. N. Stevens, of Portland, Me., has been elected president of the W. C. T. U.

Capt. McCalla, after examining the Maria Teresa, stranded on Cat Island, has wired the navy department that in his opinion it will be impossible to rescue the ship.

While the governors of the different states are endeavoring to have the troops at Manilla sent home, Gen. Otis reports that he cannot spare any of his men.

James Richardson, the largest cotton planter in the world, died at his residence in Benoit, Miss.

The court of cassation of France has informed the minister of the colonies, M. Guillain, that it has decided that Dreyfus be informed by telegraph that the revision proceedings have commenced, and that he prepare his defense. The ministry of the colonies have received a cable dispatch saying Dreyfus is in good health.

The Spaniards declare that their refusal to sign a treaty based on any Philippine terms thus far suggested by the United States is irrevocable. They say that they do not and can not view the taking of the Phillippines as anything else than a wanton ravishment of their possessions, unless it is accomplished by a financial compensation of appreciable size.

The supreme court of Michigan decides that boycotts are unwarranted and illegal.

MARKETS.

Minneapolis, Minn., Nov. 15.

Wheat—No. 1 northern, 65@66c; No. 2 northern, 64@65c; Dec. 64½c.

Oats—No. 3 white, 22@23c.

Corn—No. 3, 28c.

Cattle—Steers, $3.20@3.50 cows, $2.70.

Hogs—$3.20@3.40.

Sheep—Muttons, $3.10@4.25; lambs, $5.25.

Butter—Creamery, extras, 22@22½c; creamery, firsts, 20@21c; dairy, fancy, 19@20c.

Poultry—Turkeys, 7@8c; spring chickens, 7@8c.

DEADLY RACE RIOTS

Trouble in Wilmington, N. C., in Which Nine Negroes Are Killed.

Three White Men Are Wounded, One Seriously—The Trouble Begins by Wrecking of the Office of the Negro Press.

Wilmington, N. C., Nov. 11.—After a day of bloodshed and turbulence Wilmington has subsided into comparative peacefulness. Nine negroes were killed and three white men wounded during the day, one of them, William Mayo, seriously. The city is in the hands of a new municipal government and law and order is being established.

Cause of the Trouble.

The trouble in Wilmington commenced at 8:30 Thursday morning, when an armed body of men, numbering about 400 and led by ex-Representative Waddell, chairman of a committee of 25 appointed for the purpose, proceeded to the publishing house of a negro newspaper, the Record, to wreck it. The editor of this paper had published an article defamatory of white women, and a mass meeting of citizens on Wednesday ordered his expulsion from the city within 24 hours and the removal of his press. Fifteen leading negroes were called on by the committee of 25 Wednesday night and directed to notify the chairman by 7:30 Thursday morning whether they would agree to the removal of the press. They were informed that if no answer was returned the press would be demolished. No answer was received by the chairman Thursday morning, and after waiting an hour the citizens proceeded in a body and demolished the fixtures of the printing office.

Panic Among Negroes.

The burning of the printing office created a great commotion among the negroes of the town. The rumor spread that the whites were going to burn and murder in the negro quarter. This rumor reached the negro employes of a cotton compress numbering 300 or 400, who quit work and hung about the streets in manifest terror. Other parties congregated in the negro section and it was in one of these that the first tragedy was enacted. The men were standing on a corner and were ordered to disperse. They declined and, it is claimed, fired into the whites.

The Battle Begins.

A fusillade was immediately opened upon them by the whites and three negroes were killed. Two whites were wounded slightly. One negro ran down the street and passing a residence fired a rifle at William Mayo (white) standing on the veranda, shooting him through the left lung. This negro was recognized, pursued and captured while hiding under a bed. It is said he confessed to the shooting. He was riddled with shot by his captors and killed.

Total of Nine Negroes Dead.

About one o'clock some negroes in a house fired upon a passing party of white men. The house was surrounded and four negroes captured and taken to the jail. One negro broke away and ran, but was shot down and killed before he had proceeded half a block. During the afternoon there were other affairs of this kind and eight negroes were killed during various times in the disturbed sections.

As the news of the riot spread through the neighboring state cities they offered to send help, and all such offers were declined, except in the case of Fayette, from which town came about 150 men. As nightfall came the town was completely patrolled and guarded. Very few negroes were on the streets and they were not allowed to congregate anywhere. The action of the citizens in organizing a new municipal government is expected to bring peace and order, and no more rioting is expected.

Bloodshed in South Carolina.

Washington, Nov. 11.—A special to the Post from Greenwood, S. C., says: Five negroes lay dead at Rehobeth all day along the roadside, another was killed Thursday and likely four others are dead and lost in the woods. One white man was buried, three others lie at the point of death and six more have been wounded. Four heads of families have left the country and armed troops of countrymen are scouring the country hunting other victims. All of this is the outcome of an election row at Phoenix.

Eight negroes have been lynched within two weeks' time in neighboring counties.

Ben Collins (colored) was killed Thursday night near Phoenix. He is said to have fired one pistol shot into the polling place and reached for another weapon.

Quiet at Wilmington.

Washington, Nov. 12.—A special to the Post from Wilmington, N. C., says: This city is remarkably quiet, the turmoil and terrible race conflict considered. The military are doing police duty at the request of the city authorities, although no martial law has been proclaimed. There are five companies on duty. They are the Fayetteville riflemen, the Clinton guards, the Kingston naval reserves, Wilmington light infantry and the Wilmington naval reserves. Col. Walker Taylor is in command.

Home Again.

Chicago, Nov. 12.—The Third Illinois regiment arrived in Chicago at noon Friday on three trains, and after being entertained at the Great Northern hotel left for the home towns in Illinois to receive furloughs. Enthusiastic greetings were extended the various companies as they reached Joliet, Elgin, Kankakee, Woodstock, Pontiac, Ottawa, Aurora, Rockford, Rochelle and Streator.

Fusion Victory Conceded.

Lincoln, Neb., Nov. 12.—Election returns serve to remove all doubt of the election of the fusion state ticket with the possible exception of superintendent of public instruction, by average majorities of 2,500. Republicans concede it. The same figures make it certain that the republicans have the legislature on joint ballot and probably both houses.

Rear Admiral Schley Arrives.

New York, Nov. 12.—The United States cruiser Newark, in command of Commander Casper F. Goodrich, and flying the flag of Rear Admiral W. S. Schley, arrived Friday from San Juan Porto Rico, from which port she sailed on November 6. The rear admiral had with him the report of the evacuation commission to the president.

TEMPLE IS DROPPED.

The W. C. T. U. Decides to Discontinue It as an Affiliated Interest of That Body.

St. Paul, Minn., Nov. 15.—Five hours of animated, vigorous and occasionally bitter and personal debating was necessary before the W. C. T. U. delegates came to a vote on whether to abandon the temple project as an affiliated interest, and then by a vote 287 to 71 the temple was abandoned. The opposition to such action declared it was an act of repudiation of a moral obligation, and fought every way possible, but the official interests and most of the leaders were against them, and they fought to the end.

The Temple question was taken up immediately upon the assembling of the convention at its afternoon session. Mrs. Matilda B. Carse, of Illinois, read her report on the Temple, which was a full history of the building and the connection of the W. C. T. U. with the enterprise, and making a strong plea for the convention to stand by the temple. She read a new letter from Marshall Field, dated November 2, 1898, in which he promised to extend such obligations as he may be interested in, and in addition he will give $50,000 cash to pay obligations of interest soon to become due and $50,000 in stock, or a total of $100,000. Notwithstanding the rule adopted against applause, there was a hearty and general burst of handclapping at this announcement. The burden of the report was a plea for the completion of the temple as a fitting memorial to Miss Willard. The annual report of the financial secretary, Miss Sarah G. Johnson, was presented, showing receipts of $26,761.25; expenditures, $11,056.91; balance, $6,632.77.

The evening session was delayed in starting and was devoted to a rejoicing by North Dakota, Indiana, Kansas, Ohio, Minnesota, Texas and Southern California unions over their increasing five hundred or more each during the year.

MANY SHIPS WRECKED.

Disastrous Effect of the Storm on the Great Lakes—Four Lives Are Lost.

Chicago, Nov. 11.—Two ships went down in the storm Thursday, and four lives were lost. This much is known of the fatalities that came in the prolonged and terrific gale that raged on Lake Michigan for the two days ending Thursday evening. There may have been others who went down with the schooner S. Thal, that foundered off Glencoe in the afternoon, but it is known that four of the crew have perished. The schooner barge Iron Cliff went to the bottom just outside the breakwater off the foot of Monroe street, but the crew was rescued by the life savers. These are the wrecks reported on the lakes Thursday:

Schooner S. Thal, lost with all hands off Glencoe.

Schooner Iron Cliff, stranded at Chicago; total loss.

Schooner Sophia J. Luff, waterlogged off Chicago.

Schooner Lena M. Neilson, ashore near New Buffalo, Mich; crew in rigging.

Steamer Hattie B. Pereue, lost deckload on Lake Michigan.

Schooner Fassett, ashore at Sand Beach, Lake Huron; crew rescued.

Steamer Tioga, lost rudder on Lake Erie.

Schooner Minnehaha, broke up and total loss at Sheboygan.

Schooner Montmorency, lost foremast on Lake Erie.

Schooner barge Monticello, adrift on Lake Erie.

Two barges lost from the steamer Schoolcraft and one of them ashore on Lake Erie.

After weathering the storm for 12 hours, the two-masted schooner S. Thal, of Sturgeon Bay, foundered early in the morning off the village of Glencoe. All hands are supposed to have perished. Residents of Glencoe and Winnetka patrolled the beach until midnight and though no bodies were found ample proof was secured that no member of her crew had escaped the fury of the wind and waves. The last hope for the mariners was abandoned when the two life boats, keel upward, were washed high on the beach. Ten thousand Christmas trees for the yuletide season in Chicago comprised the cargo of the unfortunate vessel. The shore for miles is strewn with these in bunches of six tightly bound together.

THE WOMAN'S TEMPLE AT CHICAGO.

It Was Decided by the W. C. T. U. Convention in St. Paul, Minn., to Abandon It as an Affiliated Interest of the Union.

BIG COMBINE.

Movement Backed by English Capitalists to Unite Sash, Door and Blind Interests of America.

New York, Nov. 14.—A movement is on foot looking to the consolidation of all the sash, door and blind interests of America. The new company will probably be known as the Consolidated Sash, Door and Blind company. The combination is backed by English capital.

It is said that there is at present invested in this country $70,000,000 in the sash, door and blind business. In the factories operated by this capital there are 48,000 employes who are paid total yearly wages of $30,000,000, while the value of the output of these factories is estimated at $96,000,000 yearly.

The Gloucester Fishing Fleet.

Gloucester, Mass., Nov. 15.—The books of the Gloucester Mutual Fishing Insurance company, of this city, which will be closed to-day, show the loss for the year of 19 fishing vessels, valued at $88,125, and carrying a total insurance of $66,752. Their total tonnage was 1,287.27. For the year 1897 the losses were 63 men and 11 vessels, valued at $75,750. The average annual loss for the past 25 years has been 16 vessels, aggregating 1,976.18 tons, valued at $81,978, and carrying an insurance of $65,579. The annual loss of life for the same period has averaged ten yearly. This year it was 92.

Drowned with Her Fortune.

Seattle, Wash., Nov. 14.—The steamer Wolcott, from Copper river, Alaska, brings news of the drowning of a young woman named Crossup and a man named Tankerson in Controller bay October 5. They were rowing from the mouth of the Chilkat river to Kayak island, and their boat capsized. The body of the woman was recovered. On it was found $114,000. She formerly lived in Minneapolis. With her sister she ran a dance hall in Controller Bay.

Presents for the Boys in Blue.

San Francisco, Nov. 15.—The United States transport steamer St. Paul, laden with army supplies and Christmas goods for the soldiers in the Philippines, will leave here on Thursday. There are 4,000 packages for the soldier boys, so Christmas will not be devoid of its Santa Claus features to the boys on the other side of the world.

Strikers Win.

Virden, Ill., Nov. 14.—The Chicago-Virden Coal company has conceded all the demands of the miners, and the shaft is expected to open Tuesday. This situation is a source of much joy to the citizens of this city, although it has cost the lives of so many of the citizens of neighboring shafts.

IT IS THE MARIA TERESA

Stores Brought from Stranded Vessel on Cat Island Prove Her Identity.

Nassau, N. P., Nov. 12.—Wreckers who have arrived here have brought with them stores from the stranded vessel off Cat island which establish beyond a doubt that she is the Infanta Maria Teresa. As the vessel is looked upon as being a derelict, the wreckers claim a right to seize the stores which can be saved. They report that the water is up to her between decks, that she has a list to starboard, which side is damaged, and that she is dismantled. The vessel lies between two reefs on a smooth bottom and has her anchor out.

Pingree Secures Writ of Error.

Lansing, Mich., Nov. 11.—The state supreme court has allowed Gov. Pingree a writ of error in his famous mileage book suit and he will now carry it to the United States supreme court. This suit is the one in which the governor sued the Michigan Central railway to compel it to sell him a 1,000 mile mileage book for $20 good for the use of himself and family. The state supreme court a few weeks ago decided the case against the governor.

Dawson's Costly Fire.

Skaguay, Alaska, Nov. 7, via Victoria, B. C., Nov. 15.—Returning Klondikers arriving in this city bring the news that the city of Dawson has been visited with a $500,000 fire in which 40 buildings were burned, including the new post office building and some of the best buildings in the city. The fire took place on the morning of October 16.

World's Longest Telephone Line.

Austin, Tex., Nov. 15.—Monday the last wire was strung by which Austin can have telephonic conection with Bar Harbor, Me. The line is 2,600 miles long and will be opened to the public December 1. This long-distance system will also embrace New York, Washington and all the large eastern cities. This is the longest telephone line in the world.

Kaiser Won't Visit Spain.

London, No. 14.—A dispatch to the Observer from Berlin says the German imperial party will not land at any Spanish port. Owing to Spain's interpretation of the visit as a manifestation of sympathy with Spain in her present difficulty, she will have to forego the pleasure of a formal visit from the kaiser.

Activity of Vesuvius.

Much anxiety has been caused in Naples by the renewed activity of Mount Vesuvius. An overwhelming danger of this description produces universal terror. As a matter of fact there is little likelihood that Mt. Vesuvius will do any serious damage. On the other hand thousands die daily from stomach and digestive disorders, who might have survived had they resorted to Hostetter's Stomach Bitters. It is the greatest of known tonics for stomach and digestive organs. It cures kidney, liver and blood disorders.

Catarrh

In the Head

Is an inflammation of the mucous membrane lining the nasal passages. It is caused by a cold or succession of colds, combined with impure blood. Catarrh is cured by Hood's Sarsaparilla, which eradicates from the blood all scrofulous taints, rebuilds the delicate tissues and builds up the system.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1; six for $5.

Hood's Pills cure all Liver Ills. 25 cents.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c.

Hall's Family Pills are the best.

Not the Same.

Baggs—It is said that Dame Fortune knocks once at every man's door.

Jaggs—Well, it was her daughter, Miss Fortune, who called on me.—Boston Traveler.

You may be sure Neuralgia will be cured by St. Jacobs Oil.

The Sprangles have been boasting a long time about their horseless carriage. It turns out to be only a baby's perambulator.—Boston Transcript.

Will it cure? Use St. Jacobs Oil for lameback and you'll see.

Mr. Oldchap—"Are you interested in fossils, Miss Gushley!" Miss Gushley—"Oh—er—this is so sudden!"—Tit-Bits.

Stop Coughing

Every cough makes your throat more raw and irritable. Every cough congests the lining membrane of your lungs. Cease tearing your throat and lungs in this way. Put the parts at rest and give them a chance to heal. You will need some help to do this, and you will find it in

Ayer's Cherry Pectoral

From the first dose the quiet and rest begin: the tickling in the throat ceases; the spasm weakens; the cough disappears. Do not wait for pneumonia and consumption but cut short your cold without delay.

Dr. Ayer's Cherry Pectoral Plaster should be over the lungs of every person troubled with a cough.

Write to the Doctor.

Unusual opportunities and long experience eminently qualify us for giving you medical advice. Write freely all the particulars in your case. Tell us what your experience has been with our Cherry Pectoral. You will receive a prompt reply, without cost.

Address, DR. J. C. AYER, Lowell, Mass.

A perfect type of the highest order of excellence.

HE GOT EVEN

His Customer Beat Him at the Start, But He Got Back at Him in Good Shape.

There is an old retired merchant in Detroit who delights in recalling his experiences when an active man running a general store in one of the northern cities of the lower peninsula.

"I used to reap a harvest when the men were coming out of the woods," he relates. They were not up in styles, and about any old thing would suit them provided the color was right and the fit even passable. But there were tricksters among them and I had to have my wits about me in order to keep even with them.

"'How much is this hat?' asked a strapping six-footer who arrived from camp one day with a pocket full of money.

"'Two fifty,' I replied.

"Then he informed me that he always had the crowns of his hats punched full of holes in order to keep his head cool, and his hair from coming out. I soon had this attended to, and then he asked what the hat was worth. 'Two fifty,' I responded, in surprise, but he laughed at me for asking such a price for damaged goods. He had me and got his hat for a dollar while the jolly crowd with him had a laugh at my expense. He wanted to look at some 'fiddles,' and after pricing one at $10 concluded to take it.

"'Where's the bow?' he asked, as I was doing up the package.

"'You only bought the fiddle,' I laughed. The others saw the point and laughed, too. The giant tried to bluff me, but I kept good humored and got even on the hat by charging him $1.50 for the bow. I not only got even, but the others were so pleased with my 'Yankee trick' that they spent plenty of money with me."—Detroit Free Press.

Mary Was a Mineralogist.

A teacher in one of the local schools was instructing a class of small children in mineralogy the other day, endeavoring to make clear to their young minds what a mineral really is. Standing before them, she began in her clear voice: "A mineral is an inorganic, homogeneous substance of definite, or approximately definite, chemical composition found in nature. Do you understand me? Come now, you have all seen minerals. And your mothers and fathers have told you the names of them, haven't they? Of course, they have. Now, can any one of you tell me the names of three minerals?" There was no response, and she continued: "Have not some of you been out and seen minerals on exhibition?" One little girl raised her hand. "I thought so. Mary will name three minerals." Mary arose, and, putting her hands behind her, lisped:

"Apollinaris, Vichy and seltzer."—Chicago Chronicle.

HARDSHIPS OF ARMY LIFE.

From the Press, Milroy, Ind.

One of the first to offer their services for the country in the Civil War, was A. R. Sefton, of Milroy, Rush Co., Ind. He made a good record. The life of every soldier is a hard one, and Mr. Sefton's case was no exception. "We were in Tennessee, penned in on all sides. Our rations were very scarce," said he, "and we had begun to go on quarter allowance, and as the rain was not enough to replenish the wells or streams, our canteens went empty. We were hurried on, and the only way to quench our thirst was to go down on our hands and knees and drink from the hoof tracks made by the horses.

Our Canteens were Empty.

"Some of us were taken sick from the effects of this. I was laid up several weeks in a field hospital from fever. From that time I was always afflicted more or less.

"About four years ago I became much worse. Our family doctor seemed puzzled over my case, and it began to look as if there was no hope for my recovery, and that the inevitable end was near.

"Last November I was advised to try Dr. Williams' Pink Pills. The physicians said they were an excellent medicine, but would do no good in my case. But I tried them, and am glad I did for I became better at once. Eight boxes, taken according to directions, cured me. I used the last of the pills about a year ago, and have not been troubled with my ailments since."

The power of Dr. Williams' Pink Pills for Pale People in the vast number of diseases due to impure or poisoned blood, has been demonstrated in thousands of instances as remarkable as the one related above.

Sage Advice.

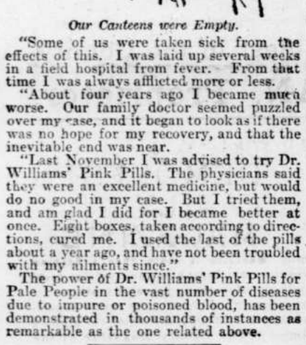
Congressman Botkin's Statement

WASHINGTON, D.C., April 1, 1898.
Dr. S. B. Hartman, Columbus, O.

MY DEAR DOCTOR:—It gives me pleasure to certify to the excellent curative qualities of your medicines:



Hon. J. D. BOTKIN,
Congressman-at-Large from Kansas.

Pe-ru-na and Man-a-lin. I have been afflicted, more or less, for a quarter of a century with catarrh of the stomach and constipation; a residence in Washington has increased these troubles.

A few bottles of your medicines have given me almost complete relief, and I am sure that a continuation of their use will effect a permanent cure.

Pe-ru-na is surely a wonderful remedy for catarrhal affections.

J. D. BOTKIN.

VERDICT OF BALLOTS.

John Lind Defeats Wm. Henry Eustis for Governor.

Republicans Elect Balance of State Ticket in Minnesota.

C. K. Davis Will be Returned to the U. S. Senate.

Minneapolis Will be Governed by a Democratic Mayor.

Minneapolis, Minn., Nov. 14.—With Benton, Otter Tail and Morrison counties to be heard from, the plurality for Lind is 13,007. In all of the outstanding counties save Faribault, Lind will run ahead of Eustis, and it is likely that full returns will place the plurality at 16,000 or more. Fifty-four of the seventy-six counties which are reported, have sent in complete returns. The estimates for the remaining twenty-two are believed to be close.

As to congress, all seven of the republicans are elected. Tawney carries the first district by about 6,700; McCleary the second by about 3,000. Heatwole the third by about 5,400; Stevens the fourth by 4,400; Fletcher the fifth; Eddy the seventh by about 3,700. In the sixth Morris' majority is about 500, and his election is conceded.

The pluralities for the supreme judges as reported, are as follows: Brown, 72,000; Lovely, 84,000; Lewis, 68,000; Mitchell, 6,00; Canty, 65,000; Buck, 52,000. This elects the first three, who are republicans. The republicans elect the balance of the state ticket.

The legislature will be composed as follows:

SENATE.

Republican	43
Democrats	10
Fusionists	7
Populists	2
Independents	1
Total	63

HOUSE.

Republicans	91
Democrats	10
Populists	9
Fusionists	7
Independents	1
Total	118

Below will be found a list of the members of the next legislature. The republicans will have 134 of the 181 members.

In the following list one asterisk (*) denotes a re-election to the same house and two asterisks (**) to the other house, i. e., from the house to the senate or the senate to the house.

First District (Houston)—Senate, *E. K. Roverud, R. House, W. M. Selby, R.

Second District (Winona)—Senate, P. Fitzpatrick, D. House, **W. H. Yale, R.; A. H. Hill, D.; G. M. Torey, R.

Third District (Wabasha)—Senate, *Allen J. Greer, R. House, *W. A. Munger, R.

Fourth District (Olmstead)—Senate, **Joseph Underleak, R. House, H. R. Hymes, R.; A. K. Bush, R.

Fifth District (Fillmore)—Senate, *R. E. Thompson, R. House, *N. O. Henderson, R.; C. D. Allen, R.

Sixth District (Mower)—Senate, *S. Sweningsen, R. House, *L. C. Scribner, R.; *C. L. West, R.

Seventh District (Dodge)—Senate, **Samuel Lord, R. House, E. H. Emerson, R.

Eighth District (Steele)—Senate, Wm. Gausewitz, D. House, *G. E. Sloan, R.

Ninth District (Freeborn)—Senate, *T. V. Knatvold, R. House, W. W. Galt, R.; G. Johnsrud, R.

Tenth District (Waseca)—Senate, **P. McGovern, D. House, Henry C. Chase, D.

Eleventh District (Blue Earth)—Senate, C. L. Benedict, R. House, **G. Gutterson, R.; *Nels Nyquist, R. V. G. Argetsinger, R.

Twelfth District (Faribault)—Senate, *G. D. McArthur, R. House, *S. J. Abbott, R.

Thirteenth District (Martin and Watonwan)—Senate, W. Viesselman, F House, *Thomas Torson, R.; Peter Olson, F.

Fourteenth District (Jackson and Cottonwood)—Senate, **E. J. ...eilicke, F. House, J. E. Johnson, Ind.; D. L. Riley, R.

Fifteenth District (Nobles and Murray)—Senate, Daniel Shell, R. House, H. C. Grass, R.

Sixteenth District (Rock and Pipestone)—Senate, H. J. Miller, R. House, *A. S. Dyer, R.

Seventeenth District (Lyon, Lincoln and Yellow Medicine)—Senate, L. H Schellbach, R. House, Charles W. Stites, R.; John G Schutz, R.

Eighteenth District (Lac Qui Parle and Chippewa)—Senate, Charles Halvorson, R. House, *J. F. Jacobson, R.; *C. A. Fosnes, F.

Nineteenth District (Redwood and Brown)—Senate, G. W. Somerville, R. House, *James A. Larson, R.; Heimerdinger, P.

Twentieth District (Nicollet)—Senate, J. A. Johnson, D. House, J. B. Bean, R.

Twenty-first District (Sibley)—Senate, *C. J. Larson, R. House, Fred Sander, R.

Twenty-second District (Renville)—C. H. Nixon, R. House, G. Peterson, R.; A. E. Kinne, R.

Twenty-third District (Meeker)—Senate, C. H. Dart, D. House, J. W. Torrey, R.

Twenty-fourth District (McLeod)—Senate, **W. W. Eivright, R. House, S. S. Beach, R.

Twenty-fifth District (Carver)—Senate, **F. E. Du Toit, D. House, *Jacob Trume, R.

Twenty-sixth District (Scott)—Senate, Julius Colier, D. House, *P. Poetz, C. and R.

Twenty-seventh District (Le Sueur)—Senate, *Job Lloyd, R. House, *R. C. Von Lehe, R.; John Murphy, R.

Twenty-eighth District (Rice)—Senate, *A. W. Stockton, R. House, **A. B. Kelly, R.; P. J. Doran, F.

Twenty-ninth District (Goodhue)—Senate, W. B. Dickey, R. *C. L. Brusletter, R.; S. B. Barteau, R.; *J. K. Grondahl, R.

Thirtieth District (Dakota)—Senate, *Albert Schaller, D. House, C. F. Staples, R.; John Pennington, D.

Thirty-first District (Washington)—Senate, E. L. Hospes, R. House, August Neubauer, R.; Thomas H. Hillary, R.

Thirty-second District (Chisago, Pine and Kanabec)—Senate, *L. H. McCusick, R. House, S. C. Johnson, R.; J. C. Pope, R.

Thirty-third District (part of Ramsey)—Senate, *T. D. Sheehan, R. House, *W. W. Dunn, R.; Joseph A. Jackson, R.

Thirty-fourth District (part of Ramsey)—Senate, R. S. McNamee, D. House, Andrew Holm, R.; W. B. Hennessy, D.; Walter Nelson, R.

Thirty-fifth District (part of Ramsey)—Senate, **John H. Ives, D. House, Peter Thauwald, R.; C. S. Schuman, R.

Thirty-sixth District (part of Ramsey)—Senate, **H. H. Horton, R. House, J. J. O'Connor, D.; F. L. Kraychbuhl, R.

Thirty-seventh District(part of Ramsey)—Senate, A. R. McGill, R. House, G. F. Umland, D.; Thomas C. Fulton, R.

Thirty-eighth District (part of Hennepin)—Senate, J. T. McGowan, F. House, Peter Jeub, F.; C. O. Lampe, F.

Thirty-ninth District (part of Hennepin)—Senate, *Fred B. Snyder, R. House, **L. J. Ahlstrom, R.; P. C. Deming, R.

Fortieth District (part of Hennepin)—Senate, *E. G. Potter, R. House, W. S. Dwinnell, R.; W. P. Roberts, R.

Sixty-third District (Marshall, Roseau and Kittson)—Senate, A. Grindeland, R. House, C. J. McCollum, R.; P. M. Hendricks, P.

NORTH DAKOTA.

Fargo, N. D., Nov. 10.—Returns from all over the state continue to increase the republican majority. The figures are now palced at 6,200, and may reach as high as 8,000.

The landslide has become so great that the republicans themselves are wondering what has struck the state. Halland gains from latest reports. The republican legislators have increased to 76 out of 93. Complete returns in Cass county give a total vote of slightly over 4,000. Some of the leading figures are: For congress: Spaulding, 2,617; Creel, 1,395. For governor: Fancher, 2,611; Holmes, 1,411. Halland received 2,220. Schafer, 2,135. About 550 women voted in the entire county and probably 150 republicans switched from Halland to Schafer. The state ran from 1,200 to 1,400 majority in Cass county.

SOUTH DAKOTA.

Sioux Falls, S. D., Nov. 11.—The governorship in this state is still in doubt. The republicans set up a claim of 500 for Phillips, with four counties, Roberts, Buffalo, Sully and Minnehaha, to hear from. The fusionists claim Lee is elected by from 600 to 700. Neither party has received any returns from the unorganized counties on the reservation. The fusionists concede the election of both the republican congressmen and the state ticket, aside from the governor. Gamble and Burke for congress, will have majorities from 3,500 to 4,000. Both sides are claiming the legislature, but from what returns are at hand it looks as if the republicans would have control of both branches. Minnehaha county elects five fusion representatives and one fusion senator and one republican senator. From present indications it looks as if the constitutional amendments on equal suffrage, initiative and referendum and state dispensary had carried.

He Wanted Too Much.

Patient—Well, doctor, do you think it's appendicitis?

Eminent Surgeon—I never think, my friend; I always know.

"Yes, I know you always know after the operation, but can't you break over the rule and work up a little doubt now?"—Chicago Evening News.

"Ef a man's wise," said Uncle Eben, "he's boun' ter run up agin lots o' questions dat he can't answer. But if he's smaht he won't own up to it."—Washington Star.

The confirmed cigarette smoker generally has nothing else to do.—Washington (Ia.) Democrat.

One of Them.

"Yes, Miss Biddleton is one of our most celebrated war heroines."

"Indeed! What did she do, go to the front as a Red Cross nurse?"

"No; she got up an endless chain scheme for the purpose of providing the soldiers with ginger snaps."—Chicago Evening News.

A War Blunder.—"You made a great mistake in jilting Lieut. Sparks." "But how could I know he would come back a colonel?"—St. Louis Republic.

During courtship lovers overlook each other's faults, but after marriage they spend most of their time in looking for them.—Chicago Daily News.

WILL WASTE NO MORE TIME.

Delay in Reaching Decision as to Philippines Must End—Spain is Warned.

Washington, Nov. 14.—A final ultimatum to Spain was drafted at the special meeting of the cabinet Saturday night. In effect it declares that there shall be no more discussion by the peace commissioners of the right of America to the Philippines. The president and the cabinet have reached the decision that that issue admits of no further argument. The islands have become conquered territory of the United States, and the Spanish government no longer possesses right or title to them. This being so, the discussion in Paris is to be strictly confined to the manner of the evacuation of the islands by Spain. This radical decision simplifies matters greatly for Judge Day and his confreres. They have become irritated over the dilatory tactics of Senor Rios and the other Spanish commissioners and had begun to fear the negotiations would drag their weary length along until the beginning of the new year.

But the president's firm action stops all this. The matter now narrows down to surrender or no surrender, and the Spaniards know the result of refusal. There is no fear here that Sagasta will get European aid. Private advices to the government show that there will be no intervention. Other and graver concerns than the Philippines are keeping the nations watchful and suspicious of one another. None of them cares to blow on a flame that may cause a conflagration in Europe and in the far east. It is the desire of the president that the treaty shall be ratified by the time congress meets next month.

POWDERLY REPORTS.

The Commissioner Tells of the Work of the Immigration Bureau During the Year.

Washington, Nov. 12.—Commissioner-General T. V. Powderly, of the immigration bureau, in his annual report to the secretary of the treasury, gives the total number of immigrants who arrived in the United States during the last fiscal year as 229,299, a decrease as compared with the fiscal year 1897 of 1,523. Of the whole number, 135,775 were males and 93,524 females. Ten thousand seven hundred and thirty-seven came into the United States through Canada. During the year, 3,030 were debarred, and of this number there were 12 insane, one idiot, 2,261 paupers, or persons likely to become a public charge; 258 diseased persons, two convicts, 79 assisted emigrants, and 417 contract laborers. One hundred and ninety-nine were returned within one year after landing. Of the whole number, over 14 years of age, 1,416 could not write, 43,057 could neither read nor write, 27,603 over 20 years of age had $30 or over, and 96,203 had less than $30. The total amount of money shown by immigrants during the year was $3,872,077, but the actual amount brought over was probably greatly in excess of this amount. Of the whole number of arrivals, 58,612 came from Italy, 27,221 from Russia proper, 25,128 from Ireland, 17,111 from Germany, 16,659 from Hungary, 12,420 from Galicia and Burkowina, in Austria-Hungary, and 12,398 from Sweden, and 9,987 from England.

The total arrivals of male immigrants during the present fiscal year are slightly in excess of those for the year next before it, and it is fair to assume, the report states, represent a more desirable class, since those from European countries show an increase of 2,730, while those from other sources, principally Asiatic, exhibit a decrease of 2,662. It appears again that, although there has been a diminution in the total immigration, yet, in respect of their means of immediate self-support, the arrivals for the present year are more desirable, for they exhibited to the examining officials $3,852,077, an amount in excess of that shown in the fiscal year ended June 30, 1897, of $310,836.

Mr. Powderly recommends that the head tax be increased from one dollar to two dollars, "so as to furnish," he said, "a fund sufficient to enlarge the bureau's operations to their full capacity for usefulness in protecting American citizens from disease, taxpayers from the imposition of unjust burdens, the hospitals, charitable and penal institutions from an influx of aliens, native producers from unjust competition, and the social and political institutions of the country from demoralization by the corrupt citizens of other countries."

WRECK IN PENNSYLVANIA.

Five Are Killed and Several Others Badly Injured as the Result of a Collision.

Wilkesbarre, Pa., Nov. 12.—The Buffalo express on the Lehigh Valley railroad, which left New York at 8:30 at night, ran into the New York & Pennsylvania express going east on Wilkesbarre mountain at three o'clock in the morning.

The killed and wounded taken from the wreck are:

KILLED—William Toxheimer, fireman.
Fred Glasser, fireman.
J. C. McGregor, express messenger, Easton.
Jacob Engleman, brakeman, Easton.
John McNally, engineer, Whithaven.

INJURED—D. E. Price, engineer, New York, badly scalded.
John Rohbling, engineer, Wilkesbarre, badly scalded.
Charles Morgan, express messenger, scalded about head.
John Shamfield, brakeman, cut about head.

An investigation shows that a heavy windstorm prevailed on the mountain, which caused the leaves from the forest to accumulate on the track. The engines plowed into these leaves, which clogged the braking apparatus.

Colombia's New Cabinet.

New York, Nov. 12.—A dispatch to the Herald from Panama, Colombia, via Galveston, says: Senor Manuel Banclement, on assuming the presidency of Colombia, announced this cabinet: Minister of foreign affairs, Senor Felipe Paul; minister of finance, Gen. Olegarce River; minister of war and acting secretary of state, Senor Molina; minister of education, Senor Tomas Herran; minister of the interior, Senor Megia Alvarez. The policy of the new administration will be to institute reforms demanded by the country.

Whaleback Barge Sunk.

Cleveland, O., Nov. 12.—The big whaleback barge No. 104, owned by the American Barge company, parted her tow line in the harbor during the fierce gale of the night and at once drifted against the west breakwater. All attempts to get a line to her from the tugs were in vain, and after pounding against the breakwater for several hours, she finally went to the bottom early Friday. Six men composing the crew of the barge barely escaped with their lives, being rescued by the life-saving crew only with the utmost difficulty and peril.

Li Hung Chang Shelved.

Peking, Nov. 14.—Li Hung Chang has been ordered to proceed to Tsi-Nan capital of the province of Shan-Tung, to concert measures with the viceroy of Shan-Tung to prevent future inundations of the Yellow river (Hoang-ho) This appointment is regarded as virtually shelving Prince Li.

A LITTLE NONSENSE.

"I had to let my French lessons go." "Why was that?" "They were simply ruining my golf accent."—Chicago Record.

She—"Now, dear, we must begin to economize." He—"All right. Begin by making the bread lighter."—Yonkers Statesman.

"Do you really think there can be jealousy without love?" "Did you ever know a married woman who was not jealous?"—Indianapolis Journal.

Jorkins—"What are you thinking so hard about?" Perkins—"I am trying to decide which a man derives the most real enjoyment from, laziness or conceit."—Town Topics.

Wife—"John, is it true that you invited our cook's soldier lover to my birthday dinner?" Husband—"Certainly. I did not want him to get the best morsels of every dish."—Fliegende Blaetter.

"Mamma," said Dot, "do all the rivers empty into the sea?" "Most of them, my dear." "Then why doesn't the sea run over; is it because there are lots of sponges in it?"—Philadelphia North American.

The Leading Question.—"Dat poet Valkin Meeler has arranget all de details for bees funeral pyre." "Funeral pyre? Vot vos dot?" "He vill haf himself set on fire ven he ees det." "Vot insurance does he carry?"—Cleveland Plain Dealer.

He—"Carrie! I saw you flirting with Tom Sweetser last evening." She—"Well, it was all for your sake." He—"For my sake? How do you make that out?" She—"You wanted me to learn to love you, and I was just practicing on Tom."—Boston Transcript.

Bride—"I'm so afraid people will find out that we're just married that I've made Will promise to treat me in public just as if he had no thought for anyone but himself." Matron—"I adopted that plan when I was married and my husband never got over it."—Tit-Bits.

TRAVELS OF COINS.

Some Old Pieces Could Tell Remarkable Stories of Their Wanderings.

"If an old coin could only talk what strange adventures it might tell," remarked a Canal street druggist, twirling a silver piece he had just received from a customer. "Now, this half dollar was coined in 1848, the year the great gold craze began in California, and I should say by its looks that it has been in pretty constant circulation ever since. Think what a volume of trade that represents. If it purchased its face value only once a day, which is certainly a modest estimate, it has done well on to $10,000 worth of business in the half century it has been going the rounds. That's quite a record, isn't it? And I dare say that curious things have happened to it in its journeyings. It has been borrowed and stolen and lost and lent; it has been hoarded by misers and squandered by prodigals, and who knows how often it has been the last coin in the pocket of a suicide? It must have lain on gaming tables and rattled in church boxes and held down the eyelids of the dead. There is no telling in what far countries it has traveled, and what fantastic foreign things it may have bought. I never finger one of these old coins without a certain sense of awe and an inclination to stop, no matter how busy I may be, and do a little day dreaming over its history."

"All that reminds me," said a gentleman who had listened to the druggist's homily, "of a queer experiment I made years ago. I was speculating one day on the possible wanderings of coins, and just to test the matter I had a small steel punch made with my initials cut in the end. By bringing it down sharply on a coin I could leave the letters indented on the surface. Well, for a long time—over a year, in fact—I stamped every scrap of hard money I got hold of—nickels, pennies and all. I suppose at the very lowest estimate I turned adrift 400 or 500 separate pieces wearing my sign manual, meanwhile keeping my eyes open for the return of any of the wanderers. It was in 1881 or 1882 that I began work with the die, and in all these intervening years I have never yet received a coin bearing my stamp. Looking for the initials has become such a habit with me that I do it instinctively almost every time I receive any change. Several years ago I was a cashier in a good-sized retail house here, and handled a great many fractional coins. Hundreds of them had been marked, but none had my particular stamp. This certainly shows how widely money becomes scattered. A young friend of mine tried the same experiment, and after a considerable lapse of time found one of his coins in some change given him in a store in New York. He had a ring put in the piece and wears it on his watch chain."—N. O. Times-Democrat.

A Doubtful Reformation.

"I feel like a man who had escaped from bondage," exclaimed the commuter, who had slid deftly past the bundles he had piled on the car seat, without upsetting one of them. "I feel like a man who had had an aching tooth pulled or who had had an unexpected legacy just as a note came due."

"What's the matter?" inquired the neighbor.

"I've conquered my besetting weakness."

"I didn't know you had any."

"Yes. It was superstition. I'd worry about whether I saw the new moon over my left shoulder, and if I saw a horse shoe I'd drop everything I was carrying in order to pick it up. I'd get my feet wet and catch cold hunting four-leaf clovers, and turn pale if I forgot myself so far as to trim my finger nails on Friday."

"And you gave them all up?"

"Yes, sir.'

"Well, there's no doubt you are better off."

"I should say so. Why, I've noticed the difference already. I was absolutely compelled to call a halt. I noticed that every time I paid attention to these superstitions I had bad luck."—Washington Star.

What Better Proof?

"Confidentially," said the family friend, "tell me, does your husband possess good judgment?"

"Well," said she, "I am his wife."—Stray Stories.

Piso's Cure for Consumption relieves the most obstinate coughs.—Rev. D. Buchmueller, Lexington, Mo., Feb. 24, '94.

You can always get pennies at 12 cents a dozen.—Golden Days.

Fuddy—"Many wonderful things happen in one's life." Duddy—"Especially in autobiographies."—Boston Transcript.

The way out of pains and aches is to rub St. Jacobs Oil in.

THREE HAPPY WOMEN.

Each Relieved of Periodic Pain and Backache. A Trio of Fervent Letters.

Before using Lydia E. Pinkham's Vegetable Compound, my health was gradually being undermined. I suffered untold agony from painful menstruation, backache, pain on top of my head and ovarian trouble. I concluded to try Mrs. Pinkham's Compound, and found that it was all any woman needs who suffers with painful monthly periods. It entirely cured me.—Mrs. GEORGE WASS, 923 Bank St., Cincinnati, O.

For years I had suffered with painful menstruation every month. At the beginning of tion it was impossible for me to stand up for five minutes, I felt so miserable. One day a of Mrs. Pinkham's was thrown into my I sat right down and read it. I then got E. Pinkham's Vegetable Compound and can heartily say that to-day I feel like my monthly suffering is a thing of the always praise the Vegetable Compound done for me.—Mrs. MARGARET ANDERSON, Lewiston, Me.

menstrua more than little book house, and some of Lydia Liver Pills. I a new woman; past. I shall for what it has 363 Lisbon St.

Lydia E. Pinkham's Vegetable Compound has cured me of painful menstruation and backache. The pain in my back was dreadful, and the agony I suffered during menstruation nearly drove me wild.

Now this is all over, thanks to Mrs. Pinkham's medicine and advice.—Mrs. CARRIE V. WILLIAMS, South Mills, N. C.

The great volume of testimony proves conclusively that Lydia E. Pinkham's Vegetable Compound is a safe, sure and almost infallible remedy in cases of irregularity, suppressed, excessive or painful monthly periods.

"The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year."

Lydia E. Pinkham's Vegetable Compound; A Woman's Remedy for Woman's Ills

Not Legal Tender.

"I must request the congregation to contribute generously this morning," said Rev. Mr. Slimpay, sadly. "My salary is eight months in arrears, and my creditors are pressing. I of course work largely for love, and love equally of course is tender, but it isn't legal tender."—Harper's Bazar.

A "doubting Thomas" full of aches uses St. Jacobs Oil. He's cured.

A perfectly trained husband is one who gives the impression that the hardest work of his life was in coaxing his wife to marry him.—Atchison Globe.

You will be disabled by Rheumatism. Use St. Jacobs Oil and cure it.

His Answer.—Little Ikey—"Fader, vot ish 'untoldt vealth?'" Old Swindlebaum—"Dot vich der tax assessor dond't findt oudt aboudt, mein sohn."—Puck.

Genius is a loftier quality than talent in the sense that genius often lives in the attic, while talent has apartments on the ground floor.—Town Topics.

If you want to be cured of a cough use Hale's Honey of Horehound and Tar. Pike's Toothache Drops Cure in one minute.

We blame the devil for many things he couldn't possibly do unless men helped him.—Town Topics.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 25c.

"Do you believe in luck?" "Not until after I've experienced it."—Chicago Daily Record.

What? A Cripple? Cure your sprain in a day with St. Jacobs Oil.

Manners are largely deceit's own name for itself.—Detroit Journal.

Hon. Robt. Dollard of South Dakota

Ex-Attorney General of the State was cured of a most desperate case of Asthma by Dr. P. Harold Hayes, of Buffalo, N. Y., more than twelve years ago, and has never had a symptom of it since.

ASTHMA

is too generally considered an incurable disease, but this widespread belief comes from the innumerable failures where mere symptom drugs are given and suppress the symptoms, leaving untouched the **cause** of the disease. Dr. Hayes employs natural alteratives and tonics, and cures to stay cured by removing the cause from the blood and nervous system.

What's the Matter with KANSAS?

KANSAS OWNS (in round numbers) 900,000 horses and mules, 550,000 milch cows, 1,600,000 other cattle, 2,400,000 swine and 225,000 sheep.

ITS FARM PRODUCTS this year include 150,000,000 bushels of corn, 60,000,000 bushels of wheat and millions upon millions of dollars in value of other grains, fruits, vegetables, etc. In debts alone it has a shortage.

BUFFALO GAZETTE

DELANO, FRIDAY, Nov. 18, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

—Read our interesting letter from the Philippines.

—Roads are in splendid condition; except a trifle dusty.

—Boek Bros. are making some additions to their agricultural depot.

—J. D. Young thinks Eustis was defeated. He thinks so about $50. worth.

—George Geodrich left Monday evening with a crew of men to build a coal shed at Laramore.

—Tom Shaw, Leo Eppel and John Nietzel took a fine lot of fish from Lake Rebecca one night this week.

—Farmers are getting most of their fall plowing done, the ground is in fine condition. Corn husking too is well under way.

—A party was given at the home of John Neisland Wednesday evening in honor of Mrs. Skoogsburg who is moving to Bermidji.

—Debating and literary societies are being arranged for the winter in most of the towns about us. Why can't Delano have the best one of all?

—Anthony Dramala raised some sugar beets. We understand he thinks it would pay about as well to feed them to cows as to sell to make sugar.

—There appears to be an epidemic throughout the country of a disease which causes a difficulty of breathing and in some cases death. Several cases have been reported here.

—The Delano Fair last Saturday was a large one. People were here from far and near. Some of our stores and other businesseses especially saloons were well patronized.

—W. D. Freeman away down to Cincinnati, saw one of John McGarry,s articles in the GAZETTE and proceded to puncture it' in a letter to the Eagle. Just wait till John finds it out.

—If the people voted directly for United States Senator it would, often times, allow them to get the man they want, and would insure a much better set of men usually, for legislators.

—Rev. R. R. Atchison, Presiding Elder of this district preached a very effective sermon Sunday evening at the M. E. church. He is one of the most earnest workers in this Conference.

—Delano now boasts of one entire block surrounded by sidewalk. The little piece from Shaffer,s store to 2nd st., near the school house should be built; also that from Gutzwiller's residence to 2nd street.

—For a list of the members of the next legislature read the inside of this paper. Preserve it for reference, this winter when you want to know who the members are on some vote in which you are interested.

—The M. E. church society are endeavoring to get their parsonage debt into a better shape. They have long been struggling under their load and deserve the helping hand of all citizens of Delano and vicinity at least.

—Look carefully over the "Official Vote of Wright County," in another place. If you file this table away it will be handy for two years from now when you wish to compare the vote then with the one given this year.

—The Delano Orchestra is getting up a dance for Saturday evening, Nov. 26. the proceeds to go towards defraying the expenses of Joe Niestroy, the boy who lost his sight by being too near the cannon when it went off, the night of Mr. Towne's meeting.

—The family of Wm Haines who have had diphtheria for a couple of weeks appear to be on the mend. Mrs. H. had a slight attack. Mr. Hains was thoroughly disinfected Monday and went with a crew of carpenters to build a coal shed at Laramore.

—While in Minneapolis a short time since Ye editor witnessed about 10 minutes of a practice game of foot ball; one of the best men had the wind knocked out of him. And the whole business was entirely too rough for humans to engage in. Much better sport and safer, can be found than foot ball the way they played that day.

—Long winter nights are coming on. Nothing is more pleasant and profitable for entertaining the family than good reading matter. Send us $1.65 and get the GAZETTE, and the New York World for one year. Or $2.35 for the GAZETTE, WORLD and the COSMOPOLITAN, one of the best, up to date, magazines. Don't let your family go hungering for something to read, when it can be secured for such prices as these.

Advertise in
the GAZETTE.

1899 Columbia Calendar.

The Pope Mig. Co., of Hartford, Conn., has issued the fourteenth edition of the well known and very useful little memorandum pad, the Columbia Desk-pad Calendar for 1899. This handy reminder has been for years one of the most pleasing of special advertising features. We note that the new calendar is very similar in design and make-up to the 1898 calendar, although it has more artistic covers and is more profusely illustrated.

Any person may obtain a copy by applying to the nearest Columbia dealer or by sending five 2 cent stamps to the Calendar Department, Pope Mfg., Co., Hartford, Conn.

Personal.

T. S. Kerr and family have returned home from a visit at Waverly.

John C. Arup visited his city cousins returning home Tuesday evening.

Alfred Peterson, who has been down with typhoid is about again, after several weeks.

Mrs. Victoria Brothers, formerly of Delano, now reads the GAZETTE in Coeur de Leon, Idaho.

George Goodrich, Will Aalnes and Andrew Hanseman left Monday, for Larimore, to build a coal shed.

Andrew Skoogsburg and family have moved to Bermidji. Quite a colony of Delanoites have gone there to live.

George Guptil, of Rockford, came over Monday to assist his daughter, Mrs. Haines, in careing for the diphtheria cases.

Frank Girard has bought and moved onto the Scott farm, near Howard Lake. Mrs. Goetsman is making her home there.

T. K. Danforth and his daughter Mrs. Hattie Miller and child, of Kalamazoo, Mich., were guests of Mr. and Mrs. William Lewis this week.

Martin Bland, of Marysville, left this week for Salem, Oregon, to spend the winter. He ordered the GAZETTE sent there for three months, anyway.

Hon. C. G. and Mrs. Halgren, of Watertown, drove over Sunday evening and heard Rev. Atchison preach. Dr. Harry, on his way home from she city returned with them.

Our Old Jackson Democrat subscriber, Sylvanus A. Merriman, of Minnetrista, has gone to Woodston, Rooks county, Kansas, to winter with relatives. He will read the GAZETTE just the same.

County Cullings.

The majorities of candidates elected on the county ticket vary wonderfully.

A. N. Dare, of Elk River, is a candidate for Speaker of the House. We believe he would make a good one, and our representatives will probably support him.

Page Morris insisted that Free Silver was an issue in this campaign and must be killed off. Towne reduced his Wright county majority by several hundred votes.

Notwithstanding the bad sendoff given Angus Grant by some of his opposers, he received a larger vote in his owe town Buffalo, than either of the Democratic candidates for legislative positions, over even Towne himself. What's the matter with them? Can Grants abusers tell us?

Before and After.

Opposition to G. N. influence is now over in this county.—Buffalo Journal.

He is a brave politican, indeed, who isn't a little bit afraid to meet his anti-election talk.—Buffalo Journal.

New York World.

The New York World, Thrice-a-week edition, is almost equal to a daily. You get the news of the entire world. The world is fresh, spicy and reliable. We will furnish the BUFFALO GAZETTE and the Thrice-a-week World fot one year for the small sum of $1.65 in advance. Old paid up subscribers on the same terms.

After Election.

Hurrah for John Lind! The political campaign is over and Eustis buttons are worth only 50 cts on the dollar. For awhile, with some, they were at par with gold, but since election Eustis stock has takes a drop in the market. The Republicans now think if they had only nominated the other fellow they would have got in their man. But Eustis smelled too strongly of Guaranty Loan, and approximated too close to Menage to be Governor of the great state of Minnesota "My people do not understand."

The town of Independence had a very light vote; only 130 votes being polled, of which Eustis had six majority.

This fall's election should be a reminder of 1900; the close of the 19th Century. And Republicans who say the money question is dead are warned to take notice that it will be resurrected in the next Presidential campaign. and it will come with more power than before, and its opponents must prepare to meet it in mortal combat. Important issues like the money question can not be choked off by a few boodlers, and Banty rooster politicians. The issue must be met square in the face. Money is a creature of law.

Business was lively in Maple Plain last Saturday; lawsuit, auction, turkey shoot, town board meetiug, and Seventh day Adventists meeting, and there might have been other things going on which your correspondent did not get hold of.

I think from the number that lost their votes this fall that in 1900 our country will be pretty well naturalized.

Our lumber dealer at Maple Plain, says lumber has come up your correspondent found that out only a few days ago, in buying a small bill of lumber.

Wheat has come down and lumber has gone up. And yet thousands of farmers will throw their hats and holler, hurrah for the man that got $2 per thousand duty on lumber. Is this business, or politics? or both? If I should give the interpretation of it I would say it was neither, and neither is it good common sense for a man to vote against his own interest. Some say it is to help the poor laboring man; but it happens the poor fellow does not get a cent of the benefit, and if he did, two thirds of them, would spend it for whisky. I move we let lumber in free, and make a donation party for those fellows if they are in need. But the rich man's love is so strong for the poor working man that he is willing to increase his wages if the consumer will pay for it.

If farmers are to raise wheat for 50 or 60 cents per bushel, have a gold standard, and high protective duties on all goods imported, and home made, he must work more hours, sleep less, have less luxuries, cut down his church subscriptions, look out of the window when the contribution box is being passed around, and sometimes, receive his Sunday sermon by proxy.

Reform comes by agitation. Is it coming? Echo answers: "Not yet."

A FARMER FOR MANY YEARS.

From the Philippines.

We publish below some extracts from a letter received Tuesday, from Manila:

MANILA, Oct. 2nd, 1898.

BROTHER JOHN,
DELANO, Minn.

Dear Brother: Yours at hand and contents carefully noted:

I am very well indeed, but have a slight cold.

Burt Devinny was in the skirmish, and, of course exposed to danger; but was not shot.

Company I was on the skirmish where the 3000 Spaniards ran against our line; companies F, H, G, D, and K, also being there. The rest of the companies were in their rear; A and B reinforcing L and M. You can get other details from preceding letters.

Perry Ball was digging beside of another feller to josh him, the other lad turned round and said: "This is no place to kid." Another lad got excited and stood behind a bamboo that was about 4 inches thick, for protection. Of course in battle is a very poor place to stop to measure the resistance of your shelter. We threw up some intrenchments, and when ordered to move, the 1st sergeant said: "It is a —— shame, I have a solid rock earth work in front of me. Varney, the lad Elmer knows, said he would have been lower had he not put his poncho under him.

I had to smile when I saw the coal black moustache of Lieut. Fitzgerald just sticking out of the mud. The reason our company was not annihilated was because we laid; and we were not chickens either. I don't believe I can tell of but one who did not like the front: and he waa not in Co. B, but the other one. Two N. Dakota boys entered a cupboard for protection. Part of a Co. of regulars refused to go to the front at command, but changed their minds when looking down the cool blue steel lead thrower of their 1st sergeant. The more Maj. Bean told his men to keep their heads down, the higher he put his over the edge of a stone wall saying: "Fellows, do you all want to be killed? If not lay down. Keep your head down." I have not seen the Admiral yet. We had a small storm at sea. I forgot to say that I was in the fight. I did like it, on account of the noise. I always did like to have a noisy, hot time. The natives seemed to be as cool and collected as possible, smoking their cigarettes and walking on top of the intrenchments. But when the cannon began to talk, shells screech, and the woodpecker sounding Gatling guns were heard, they seemed to think that the safe place was just in our rear. Yes, the Spaniards ran, after their attack was repulsed.

I don't know. I am in the 13th and will probably be mustered out as soon as the rest. Yes, the Astor battery, 13th Minn., 18th and 23d regulars were the advance fighting line. The Utah and three artillery batteries were also in action.

I like the country alright; also the climate; but I don't like the prickly heat.

Yes, we passed an active volcano at sea. No, we were not caught in a typhoon or we would not have landed in Manila. We met a storm at sea that was quite windy. Yes, the waves rolled quite high, had white caps, also. No, I do not bathe in she ocean now, because we have a shower bath. I used to be in the ocean twice a day for quite awhile.

Yesterday I was among ten fellows from our company who visited the battle ground. I must say the battle ground is very much different now. There are large green leaves preventing a person from seeing more than 100 yards unless up the road. The earthworks we threw up are covered with large vines. There is scarcely a bamboo that is not cut off, about 10 feet high. I saw a tree where the Mauser ball penetrated, the tree was Mahogony and about 18 inches through. The insurgents refused to let us go near the block house because that is their quarters. Aguinaldo, the insurgent leader, it is claimed took to the mountains and celebrated the 1st anniversary of the Philippine Republic giving himself $80,000 for being President. I have been on guard several times and had the pleasure of seeing him. He had quite a multitude up in the mountain to help him celebrate.

We are now under the command of Col. Ames. George Dyer is sick in the quarters. I saw him yesterday. All the rest of the boys are very well.

Capt. Berjonson of Co. H. has accepted the Lieutenancy in the regular army.

A report is started that we will go home the 1st of November or before.

I have obtained half a dozen bullets that were shot in the battle of Manila. All the natives are gathering them.

Every two or three days our post condemns a dog and shoots him on account of being mad. Our post also has from 1 to 20 prisoners every night.

What do you think of the present outlook for a war between nations?

I understand we are to get two months furlough when we get to Minnesota so as to wait till our pay accounts are fixed out.

The native circus here takes the cake. First on the programme was airs, then the circus odened with three trapize performers then rings slack and tight wire, etc.

All the boys and girls in the country can whistle "A hot time in the old town to night," they seem to think it the only tune in existance worth noticing. "The gal I left behind me" is also popular.

No I don't think this is a very good place to live at present on account of hostilities now existing. And until the Islands are under the United States for good I don't care to be a resident.

The natiyes here are of the opinion that they can lick the government troops on account of their skill in the use of matchets or sabers. They are very good fencers. The average U. S soldiers would have no show with average natives in fencing. But the U. S. soldier's gun is the best weapon.

Whole companies of Spaniards have gone out not to return on account of being killed by natives. The Spanish officers would say the men preferred to to stay outside rather than come back to the City.

I visited the Governor General's home about a week after the fall of Manila and saw large plate mirrors broken, also a beautiful safe blown open, and all the fine furniture broken and some carried off. I will not bring the safe home on account of its being broke too bad for use.

I have been nearly a week writing this letter so it cannot be very interesting. I will give you some of the fine expressions here. "Bonita Bavia" this is the way it is pronounced meaning Beautiful woman, "Mucha chkeeta Barta" very small boy.

I can probably tell you better than write more.

A sailor was murdered in a saloon about a week ago by a native with a scar under the left eye. Every day since about a dozen natives have been hauled up for identification and let go. Another native picked a Spaniard's pocket. He was arrested and sent to work under guard in the Quarter masters department, and there stole a pair of socks while about a dozen fellows were watching him.

It is rumored that we are to come home via the Mediterranean sea.

Your Brother
ALVA G. CATLIN.
Co. B, 13th Reg., Minn. Vol.

Late Literary News.

That the spy sent by the United States government to Spain during the war should have become the guest of Weyler himself, seems incredible. Yet there is nothing more true. The government selected as its agent a man of position who has lived much in Germany. It was necessary for us to have a trained intellect that would make no mistakes. His story is told in the November COSMOPOLITAN, and the most exciting pages of Dumas's fiction seem tame in comparison with the facts. Crossing the frontier in a first-class carriage, he was by a trifling accident bronght into conversation with a young Spanish nobleman; presently who should come along but the son of General Weyler. This acquaintance led to his receiving many attentions from Weyler when they reached Madrid, and the General actually gave up a day to a trip to the Escurial Imagine this grim arch enemy of ours laying himself out to please the secret agent whom the government had sent to find out the weak places of Spain. How trifling the demarcation between the position of honored guest and that of spy who, if discovered, would have been all the more quickly sent to his death! The same issue of THE COSMOPOLITAN contains four pieces of fiction by such famous authors as FRANK STOCKTON, ZANGWILL, H. G. Wells, and the lamented HAROLD FREDRICK, but none of it half so exciting in its interest as this true srory.

MERCHANT TAILOR,
JOHN BRANDSE.

C. A. French read a resolution which was adopted as follows:

RESOLVED: That we commend the course of Senator C. K. Davis the senior senator from this state, and earnestly urge that the nominees of this Senatorial Convention give him their undivided support, if elected to again return him to the United States senate at the close of his present term.

E. D. Washburn presented the following resolution, which was also passed:

WE, the republicans of Wright County in convention assembled, renew our allegiance to the principles of the republican party, and pledge our loyal support to all the nominees of the party in which as voters we exercise the rights of suffrage.

WANTED—SEVERAL TRUSTWORTHY PERSONS in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $900 a year and expenses—definite, bonafide, no more, no less salary. Monthly $75. References. Enclose self-addressed stamped envelope, Herbert E. Hess, Prest., Dept. M, Chicago. 50-26t.

THE SONG OF THE "No. 9."

My dress is of fine polished oak,
As rich as the finest fur cloak,
And for handsome design
You just should see mine—
No. 9, No. 9.

I'm beloved by the poor and the rich,
For both I impartially stitch;
In the cabin I shine,
In the mansion I'm fine—
No. 9, No. 9.

I never get surly nor tired,
With zeal I always am fired;
To hard work I incline,
For rest I ne'er pine—
No. 9, No. 9.

I am easily purchased by all,
With instalments that monthly do fall;
And when I am thine,
Then life is benign—
No. 9, No. 9.

To the Paris Exposition I went,
Upon getting the Grand Prize intent:
I left all behind,
The Grand Prize was mine—
No. 9, No. 9.

At the Universal Exposition of 1889, at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France. This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered—the GRAND PRIZE—giving other companies only gold, silver and bronze medals.

The French government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor—the most prized honor of France.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best it will be your own fault.

Ask your sewing machine dealer for the No. 9 Wheeler & Wilcon machine. If he doesn't keep them, write to us for descriptive catalogue and terms. Agents wanted in all unoccupied territory. WHEELER & WILSON MFG. CO.

KING WHEAT.

You may tell of your armored cruisers,
And your great ships of the line;
And swift or slow may steamers go
Across the billowy brine,
Like thunder may the cannon boom
To greet their flgs unfurled,
And for an hour they have the power
To rule the frightened world.

From ocean to ocean shore
Lie lines of gleaming steel,
And night and day, we hear alway
The ring of rushing wheel;
Though buffa o have left the plain
And Indian tents are furled,
For steam nor hand at wealth's command
Can rule the busy world.

But where the hillside rises fair
In terraces of green,
And on the plain, where wind and rain
Sweep fields of golden sheen,
Where sturdy yellow stocks arise,
With bannered heads unfurled,
Here you may greet the great King Wheat,
The ruler of the world.

Oh, hills may shake and vales resound
Beneath the flying car,
And driven by steam and winds a-beam
Our ships ride fast and far;
Cities may crumble 'neath the guns
Which guard our flag unfurled:
Yet all shall greet—at last—King Wheat,
For hunger rules the world.
—Youth's Companion.

THAT'S a bold bad game some of the papers are advising the legislators to play in unanimously nominating C. K. Davis for re-election as U. S. Senator. That may be what some of the members were elected for but not all of them. Not by a good many.

STEPS are being taken to change the primary election law in cities of 10,000 or more inhabitants so that the people can have a chance to say who shall be the nominees of their respective parties. This law should be made to embrace all voting precincts. Nothing about our election system is of more importance than the selection by all parties of good men, and this is too often neglected by men who should be most interested.

THAT Sleepy Eye story about John Lind's making some kind of a break in his speech at that famous town, calls to mind the Bramble story, started at Sleepy Eye a year or so ago, claiming that Mr. Bramble, telegraph operator there had invented a rotary Steam engine for the right of which he had been offered a very large sum of money by an English Syndidate. The Bramble story proved a fabrication. How unfortunate for Mr. Lind's would be detractors that he happened to speak in "Bramble" Sleepy Eye.

IN a long editoral the Pioneer Press gives its own views on the race war in the South. It claims there is no remedy in federal interference, and advocates the educational plan. Among other things it takes occassion to say that "It was a mistake of the reconstruction period following the war to have put the ballot into the hands of the recently emancipated slaves, and with it the ruling power over their former masters. An educational qualification, as was then advocated by that paper, would have saved the South from the saturnalia of corrupt carpet-bag and ignorant negro domination which followed."

THAT terrible tirade in the Delano Eagle of last week against Governor elect John Lind is certainly not calculated to make any more votes for his opponent among his countrymen, a few of who reside hereabouts, and are loud in denunciation of the writer of the defamatory article against their choice for govrnor. Mr. Lind as an American citizen had a right to run for Governor, and to be elected, and it comes with very poor grace for imported editors, even though from England, to write the new Governor down in such style even before he has been tried. It is only another attempt to write an obituary for the ever growing free silver cause.

IF Mr. Lind did say, at Minneapolis, that he believed this campaign should be run on state issues, as the gold standard was on trial; and, at Sleepy Eye, as some gold bugs and others, say he did, that his election was a free silver victory, what of it? He evidently was honest in wanting to fight the campaign on state issues, and equally honest in attributing his victory somewhat to the free silver cause, especially in the Sixth District where Page Morris said, in his speeches, that free silver is an issue and must be killed this time to keep it from coming up next time. Page Morris was elected by a reduced majority showing so far as he was concerned that his gold bug cause was loosing ground.

THE Duluth Herald and other papers are commenting considerably on allegations "that the railroads contributed a campaign fund and combined to defeat the re election of Supreme Court Judges Mitchell, Canty, and Buck." It is said this must have been done on account of their favoring the Steenerson bill. If there is any truth in the story it should be brought out plainly to the people. The guilty should be made to suffer the full penalty of the law for such offences. If the allegations are untrue then the "Allegators" should reap their reward likewise. It stands those in hand who are acquainted with the facts to give them plainly to the people fearless of friend or foe. Let the truth prevail.

REPUBLICAN papers are evidently very much afraid of Gov. Clough's well known ability to get what he goes after and are heaping all kinds of abuse upon him; trying to down him; to knock him out of politics. They even compare him to Benedict Arnold and others of that class; though they don't mention Hon. Knute Nelson, who passed through the same gauntlet when he went to the United States Senate. After the newspapers telling us how mean Gov. Nelson was, not to be Governor to the end of his term as he said he would, the legislature turned down that great man Senator Washburn and sent Gov. Nelson to the U. S. Senate. We wouldn't wonder, if the Republican newspapers whoop it up right lively until the legislature meets, if they would succeed in landing Gov. Clough in C. K. Davis' old shoes.

Back From Klondike.

Neal Hessian, one of the St. Peter party who went to Alaska last spring, returned from there last Saturday, wiser in experience by several hundred dollars and with anything but a good opinion of the Klondike. He says this is the last big boom Alaska will have. He left the Copper river country October 15th, passed five days crossing the glacier and experienced the greatest difficulty in coming out and knew hardships which seem almost uncredible. His brother Michael came out with the party and it took them one whole day to come twelve miles, wading through three feet of snow. There feet became so sore that they had to crawl on their hands and knees for three days. There were 4,200 miners in the Copper country and not one of them made a strike, most of them came out broke and Mr Hessian says there are 10,000 men in Seattle and Tacoma who got out of Alaska but who have not the money with which to get back home. The Copper and Tanano country, in which the Hessian party were, had all been prospected ten years ago and here and there would be found rusted pans picks with the handles rotted out and traces of mining having been done there years ago. When he left there, 400 people were still there who intended to go to the Youkon country this winter but he was certain none would get through. The greatest difficulty was experienced in moving and this can well be understood when it is known that in four days the fall of snow was nine and one half feet. Along the trail it was no uncommon thing to find men along the way who had perished either from cold or hunger. One party of people had to live five days without a morsel of food because they could not get their goods. Wood was scarce and sold for fifty cents per pound and even then they guessed at the weight and satisfied to get it at that. Oatmeal sold as high as a dollar a pound and other provisions in proportion. The tales of hunger and cold which the argonauts suffered beggars description. Transportation companies robbed the men and seemed to have no conscience whatever and they appeared to have lost all their sense of decency and respect for manhood. The mosquitoes and gnats were also a source of great annoyance and in fact there was no respite from hardships and suffering. The story of Mr. Hesaian is a grewsome one indeed. Hundreds of dead were seen here and there and disappointment was the general lot. He says that Alaska is the worst country he ever saw and offers no inducement to men as the returns are nothing. On the boat returning men were fed like a lot of animals and some of the details are so revolting as to be nauseating. -ST. PETER HERALD.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Official Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merritt, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the rear of battle at the fall of Manila. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barber. Sec'y., Star Insurance Bldg., Chicago.

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, D. C., Nov. 18, 1898.

Each week since our Commissioners demanded the Philippine Islands friends of the administration have informed the public that an ultimatum had been sent to Spain that would end the business isn't ended, and the answer submitted by the Spanish Commissioners this week, is every bit as unsatisfactory as their first. There has been quite enough talk about ultimatums; it is now high time to actually send one. The Peace Commission has been sitting seven weeks and absolutely nothing has been settled. It is time for this government to show whether it or the Spanish bondholders is the strongest. There isn't the slightest doubt in the world that the delay has been caused by the bondholders, who want to come in somewhere in the game.

There was a pointer as to the probable time that Gen. Fitz Lee's corps will go to Cuba in Mr. McKinley's answer to the delegation of Savannah business men who invited him to come to their city and review Gen. Lee's troops, when he goes to the Peace Jubilee at Atlanta. He told them he would be in Atlanta Dec. 14, and would gladly come to Savannah and review Lee's troops, if they were not sent to Cuba before then. It was evident to his hearers that he thought Lee's corps would be in Cuba before then so evident that they asked him if he could not come to Savannah before going to Atlanta. He told them he could not. But plans as to sending troops to Cuba have been changed so often that they are as likely to be changed again as to be carried out.

Senator Caffery, of La., says he will oppose the ratification by the Senate of a treaty annexing the Philippine islands but upon one condition would gladly support it that all the negroes be deported to those islands and never be allowed to return to the United States. Mr. Caffery said: "If the South could be rid of the negro problem, it would prosper beyond the dream of man. With its great natural advantages of climate and of soil, with its coal and iron hidden away in its mountains and with the vast inducements for capital which it would offer, if the negro problem was setteled, it would take a great stride forward."

The presence of Boss Platt and Representative Odell, chairman of the New York State Republican Committee, at the same Washington hotel, this week, was hardly accidental. Mr. Odell is a candidate for the Senate, and although Boss Platt has apparently sanctioned Chauncy Depew's senatorial aspirations, this Washington meeting has added to the number of those who believe that Odell is the man Platt wishes to have for his colleague in the Senate, or that they are setting up the pins for a dark horse.

Senator Morrill, of Vt., came very near to sizing up the situation in connection with the high jinks beg pardon, High Joint commission that is trying to agree upon a treaty that will smooth out all the kinks between this country and Canada, when he said: "The trouble with the situation is that Canada has nothing to give. She had her houses all painted new by the agreement of 1854 to 1864. Now they have grown weatherbeaten and dingy; she wants them to have a new coat of paint."

Those republicans who talk about the recent election having been an overwhelming endorsement of their party are merely indulging in pipe dreams. There was nothing overwhelming about the election. On the contrary, it was only by the skin of their teeth, as the saying is, that the republicans escaped defeat. It was such a close shave that a change of 300 votes, distributed among eight Congressional districts, would have put the republicans in a minority in the next House, instead of a majority. It should not be forgotten, either, that the republican majority in the next House will be forty less than their majority in the present House. To blow about an "endorsement" as that is simply to exhibit gall.

Senator Faulkner says it is by no means certain that the republicans will control the West Verginia legislature that will elect his successer. The result will depend upon the official count in a number of districts, and Mr. Faulkner expresses confidence in democratic control of the legislature.

Although Representative Grosvernor and other friends of the administration have been industriously denying that there was any lack of harmony between Czar Reed and the administration, or that there was any intention on the part of the administration to try to prevent Reed's election as Speaker of the next House, there are other facts, such as the public statements respectively made by Boss Hanna, and by Representative Dingley, who was made Chairman of the House Ways and Means Committee by Reed, and who is Reed's man, which offset those denials. The two statements are directly opposed to each other. Hanna says the tariff has got to be revised and more money provided for; Dingley says no revenue legislation of importance is needed and that there will be none by Congress. By many who make a study of the intricate undercurrents of politics these two opposite statements are regarded as the first guns in a fight between Reed and the administration.

No Federal troops are to be sent into either North or South Carolina as a result of the race troubles in those states. The administration has decided to confine its interference in those States to trying to get evidence to have any parties who have interfered with any Federal official in the performance of his official duties indicated by the Federal grand juries connected with the U. S. Courts in the two States.

Politics and Things.

We are having our first snow storm, and the people are not all ready but it has come and caught us. Have not heard of any turkey Thanksgiving dinners.

It seems to bother some of our brethren a good deal because John Lind is elected Governor. Well the Republicans nominated Eustis and the Republicans beat him at the polls, so the less they say about it the better. They should take their medicine regular. If the Republicans had put up an all wool man and not a bunch of shoddy they might have elected their man, but the people could not swallow William Henry, he smelt to strong of Guaranty Loan and street car transfer.

D. W. Freeman seems to think it a terrible calamity because Eustis was defeated for Governor of Minnesota. Guess it will not hurt the country much. A few fellows will lose their jobs perhaps.

The State Bank examiner will be one of them and this will be right. He should have lost his job long ago.

Mr. Freeman seems to think every thing is running all right when it goes straight republican, but any thing else is a calamity to the country.

When the republican convention at St Louis, Missouri, in 1896 declared in their platform for a single gold standard and said nothing against trust, combines and corporations, they laid the foundation for a combination that was want to array themselves against the best interests of the common people of this country, and if the proceedings and teachings of that convention is followed up, it will fry the very fat out of the man who has to get his living by the sweat of his brow; it will even go into the very marrow of his bones.

It seems last week's Eagle came out red hot against everything that was not straight laced Republican; seems to think Delano Village has redeemed itself because it went about fourteen majority Republican. But what about the town of Franlin? It gave John Lind about fifty majority.

Here is what the Eagle says about the vote of Delano: "The vote of the Village of Delano is a credit to any precinct, and the count demonstrates the fact that no one can come in and stampede the voters no matter how hard they try. It is but a few years since our village was solidly Democratic but now it is the banner Republican town of Wright county because it can be depended upon to vote straight." Yes some of you fellows always vote straight; never known to vote any other way.

I guess brother Buckley thinks the millenium is coming to Delano because they carried Delano by 14 majority. I think if they keep right on voting the machine ticket they will have a New Jerusalem of their own pretty soon.

Trusts and combines are forming right along and yet the people (or a part of them) seem to think it all right. They seem to take no thought of the morrow. They are willing to let every day provide for itself. You must not say anything if you do you are a crank, and if you believe in free silver you are a repudiator, an anarchist, etc., but if you believe in a gold standard, banks of issue, a high protective tariff, that's all right no matter how hard it it comes down on the common people.

We read in prophetic history given by divine inspiration that the famine was sore in Canaan, and Jacob and his whole house, seventy in number, went down into Egypt that they might have bread for themselves and provender for their cattle and camels. Jacob had a son there who had made arrangements for their sustenance. All went well for a while, but after a lapse of thirty years they were poverty stricken, had sold all their cattle, their lands, and also sold themselves in bondage that they might live and not die. For four hundred years they were held in servitude, and on the self same day Moses led them out with a high hand, across the wilderness unto the borders of Cannan.

Now if we act foolish and let the Pharaoh's take advantage of us in every way by taxing our lands, making us pay a high revenue tax, forming trusts and combines in order to increase their prices on goods that we must have, and a combine of the money power with a single gold standard to back it up. Will some expert philosopher be kind enough to tell me just how long it will take under these state of affairs to bring the poor of this country where the Israelites were, down to human servitude.

This may seem like foolish talk to many, but history often repeats itself. John Adams said give me a free country, or at least the hope of a free country.

I think it is the intention of the party now in power to either fix up or do up this country between now and next presidential election, but I hope all things may be for the best to the Jew as well as the Gentile.

Hope, faith, charity these three but the greatest of these is charity.

WASHINGTON, D. C.

HOW A PUZZLL WAS SOLVED.

When you want a certain article, you want the best make of that article, don't you?

But how to determine which make is best is what puzzles you, isn't it?

And when the puzzle is solved for you, by authority which cannot be questioned, you are pleased, aren't you?

And you would like to hear of one puzzle that has been solved for the people of the whole world, wouldn't you?

Well, we will tell you about that very puzzle, and its solution.

At the Universal Exposition of 1889 at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France.

This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered, the GRAND PRIZE, giving other companies only gold, silver and bronze medals.

The French Government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor, the most prized honor of France.

That is how the puzzle of the best sewing machine in the world was fully solved by the most competent authority in the world in favor of the No. 9 and No. 12 Wheeler & Wilson machines.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best, it will be your own fault.

Ask your sewing machine dealer for the No. 9 Wheeler & Wilson machine, and if he does not keep them, write to us for descriptive catalogue, prices and terms.

Agents wanted in all unoccupied territory.

WHEELER & WILSON MFG. CO.,
165 and 167 Wabash Avenue, Chicago, Ill.

SHORTHAND AND SELF-TAUGHT How? By the study of the Manual of Phonography, by Benn Pitman and Jerome B. Howard. A perfect self-instructor. Over 355,000 sold. Thousands have mastered it; so can you. Sold by all booksellers, or we will send it by mail, with Phonographic Reader and Phonographic Chart for $1.25.

THE BENN PITMAN SYSTEM has for 44 years been the standard. Called by the U. S. Bureau of Education "The American System." First prize, World's Fair. Full information with hints and helps to self-instructed students, free.

THE PHONOGRAPHIC INSTITUTE CO.,
222 W. 4th St., CINCINNATI, OHIO.

AGENTS WANTED
In Every County to Supply the Great Popular Demand for
AMERICA'S WAR FORHUMANITY
TOLD IN PICTURE AND STORY
Compiled and Written by
SENATOR JOHN J. INGALLS,
Of Kansas
The most brilliantly written, most profusely and artistically illustrated, and most intensely popular book on the subject of the war with Spain. Nearly
200 Superb Illustrations from Photos,
taken specially for this great work. Agents are making $50 to $100 a week selling it. A veritable bonanza for live canvassers. Apply for description, terms and territory at once to
N. D. THOMPSON PUB. CO.
ST. LOUIS, MO., NEW YORK CITY
36-3t.

50 YEARS' EXPERIENCE
PATENTS
TRADE MARKS, DESIGNS, COPYRIGHTS &c.
Anyone sending a sketch and description may quickly ascertain, free, whether an invention is probably patentable. Communications strictly confidential. Oldest agency for securing patents in America. We have a Washington office. Patents taken through Munn & Co. receive special notice in the
SCIENTIFIC AMERICAN,
beautifully illustrated, largest circulation of any scientific journal, weekly, terms $3.00 a year; $1.50 six months. Specimen copies and HAND BOOK ON PATENTS sent free. Address
MUNN & CO.,
361 Broadway, New York.

WANTED—SEVERAL TRUSTWORTHY PERsons in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $900 a year and expenses—definite, bonafide, no more, no less salary. Monthly 75. References. Enclose self-addressed stamped envelope. Herbert E. Hess, Prest., Dept. M, Chicago. 36-3mt

If It's Worth Printing the Twice-a-Week Courier-Journal Will Print It.

And Every Democrat, Every Republican, Every Man, Woman or Child who can read will want to read it.

* * * * "We prefer to take our chance with the conservative Democrats, fighting within the party, to reform its excesses, and to restore it to its better uses, than to pursue an Ignis Fatuus which, if it had been more real, would have resulted in the election, instead of the defeat, of the Free Silver Fusion in 1896, and which with singular unanimity, the voters have refused to follow. * * * * The Courier-Journal is a Democrat, not a Republican; and it will under no circumstances or conditions pursue a policy whose only effect is to confiuue the Republican party in power."

The Twice-a-Week Courier-Journal is a Democratic paper, of six or eight pages, issued Wednesday and Saturday of each week. The Wednesday issue prints all the Clean News, and the Saturday issue prints Stories, Miscellany, Poetry, all matters of special interest in the home. It is edited by Henry Watterson.

Price $1.00 a Year.

You get 104 good papers of six or eight pages each, for $1—less than one cent a paper.

The Gazette.

DELANO, Wright Co., - MINN.

Gen. Miles says the Spanish war was without a defeat for the American side. Not a prisoner, a flag or a rifle was lost. The record of success is extraordinary.

Oliver Wendell Holmes used to be an amateur photographer. When he presented a picture to a friend he wrote on the back: "Taken by O. W. Holmes & Sun."

Two little steamers to be built by an English firm are to have a speed of 40 statute miles an hour. Crossing the Atlantic in three days has reached the stage of possibility.

An English newspaper having offered a prize of £5 for the best reply to the question, "Who makes the best wife?" should have given it to that loyal soul who wrote: "Dear Sir: Mine. Yours truly, Bertram Boggs."

A German biologist says that the two sides of a face are never alike. In two cases out of five the eyes are out of line; one eye is stronger than the other in seven persons out of ten, and the right eye is generally higher than the left.

A ship building firm in Belfast, Ireland, has received instructions from a Liverpool company for the construction of a cargo steamer to be 680 feet long and 75 feet of beam. She will be the largest cargo steamer in the world, and will be able to carry more than the once famous Great Eastern.

It is said that Saturday has been a fatal day to the royal family of Britain for the last 185 years. William III., Queen Anne, George I., George II., George III., George IV., the duchess of Kent, the prince Consort, the duke of Clarence, the duke of Albany, and Princess Alice all died on that day.

It has been less than two years since the law making life imprisonment instead of death penalty for murder in Colorado went into effect and yet agitation has already begun looking to a revival of the death penalty. It is asserted by those who wish a reestablishment of the gallows that the life-imprisonment law has resulted in an epidemic of crime.

The Siamese government has informed our government that it is about to reestablish its legation in Washington after a lapse of many years, during which all of its diplomatic correspondence has been carried on through its legation at London. The new Siamese minister has arrived and has presented his credentials at Washington. His name is Phya Visddha Suriyasakti.

A company with a capital stock of $800,000, in which several wealthy Mexican capitalists of Monterey are interested, has been organized for the purpose of developing the oil fields of Mexico, and to place the product on the market in that and other countries. There are several productive oil fields in Mexico, one of the richest of them being located in the state of Tamaulipas.

Adjt. Gen. Corbin's annual report shows that the total strength of the regular and volunteer armies during the war with Spain was 11,108 officers and 263,908 enlisted men—a total of 275,016 men. That report also states that the total deaths from wounds and disease up to October 3 were 107 officers and 2,803 enlisted men—a total death list of 2,910 men, and a death percentage of less than 1.06.

Yankee girls at Bridgeport, Conn., have formed a matrimonial trust to regulate the market on a better basis. The girls have organized what they have named "The Anti-Chair Warming Society of Marriageable Maidens," and will limit the supply of entertainers for the frivolous young men by forcing them to a declaration of intentions on the third visit. This will tend to kill off some of these old ten-year "steadies" that are the despair of every unmarried girl.

The railway system in the United States employs 36,000 locomotives, 26,000 passenger cars and 9,000 mail and baggage cars. These figures seem large till the number of freight cars is stated, which is 1,250,000. The system, with its gigantic equipment, is practically the growth of a single generation. With the additions of another quarter or half a century posterity ought to stand and gaze at its stupendous proportions. But it will probably be gradually educated out of all its capacities of wonder, as we have been out of many of our own.

The duchess of Madrid, the wife of Don Carlos, the pretender to the Spanish throne, recently declared before leaving Lucerne that her husband was perfecting arrangements for the seizure of the throne and that within one year he would be the reigning sovereign in Spain. She expressed it as her opinion that the queen regent will abdicate in favor of her son, and will then allow Carlos to take the throne in order to avoid civil strife and bloodshed, which she says will surely follow in case he is refused his rights when next he makes his demands.

Capt. Sigsbee, who commanded the battleship Maine and later the big auxiliary cruiser the St. Paul, will be the first officer in the navy to secure an allotment of prize money. Capt. Sigsbee has been awarded $975 and his crew $5,525 to be divided according to their pay, for the capture of the collier Restormel off Santiago, to which port the collier was bound in an attempt to deliver coal to Cervera's fleet. Had Sigsbee not stopped the Restormel Cervera would have received his coal and more probably have been out of the harbor before he could have been blockaded.

The old Bradlee house at the corner of Tremont and Hollis streets in Boston is being torn down to make way for a modern one. It is one of the most interesting historic landmarks in Boston. In its wide old kitchen the leaders of the Boston tea party disguised themselves as Indians on the evening of December 16, 1773, before going to the wharf where the cargo of tea was thrown into the waters of Boston harbor. The old South church and Faneuil hall are the only two buildings beside the Bradlee house now left which sheltered the patriots on that eventful day.

The navy department received word from Admiral Dewey that he had contracted with a Hong-Kong firm of wreckers to raise three of the Spanish war vessels sunk in the battle of Manila last May day.

The president notified the American peace commissioners in Paris that the Philippines would be held, that no further argument would be allowed, and that prompt action would be expected.

Malalos, the headquarters of Aguinaldo, were damaged and many villages were destroyed in the Philippines by a typhoon.

Spanish cruisers Isla de Cuba and Isla de Luzon, which were sunk during the battle of Manila, have been floated and docked at Cavite.

The Spaniards surrendered Iloilo, capital of the island of Panay and the second city of the Philippine islands, to the insurgent forces.

FROM WASHINGTON.

For 1898 the world's gold product is placed at $275,000,000 against $237,000,000 in 1897.

In the ten months ended October 31, 1898, the total imports of gold were $143,658,095, exceeding the exports by $129,396,246.

In the United States the total money in circulation at the beginning of the present month was $1,866,575,782, against $1,706,732,904 at the corresponding date last year.

In his annual report Secretary Long recommends the construction of three first-class battleships and five first-class armored cruisers and recommends an addition of 5,000 men to the navy.

F. C. Ainsworth, chief of the record and pension office, in his annual report says that 13,296 cases were received and disposed of during the past fiscal year, a net increase of 43,489 cases over the previous year.

Secretary Alger, in his annual report, and President McKinley, in his annual message to congress, will, it is said, recommend that the standing army be placed on a permanent peace basis of 100,000 men.

A counterfeit ten-dollar silver certificate is in circulation. It is of the series of 1891, check letter B; portrait of Hendricks; J. Fount Tillman, register; D. N. Morgan, treasurer.

THE EAST.

In the seven days ended on the 9th there were 233 business failures in the United States against 211 the week previous and 267 in the corresponding period of 1897.

In a dense fog a Pennsylvania train ran upon a gang of workmen near Hackensack, N. J., and 12 men were killed.

Throughout the country all lines of trade are reported to be enjoying a very fair-sized boom.

The inventor of the Keeley motor, John W. Keeley, died at his home in Philadelphia of pneumonia, aged 77 years.

Harvard, by beating Yale in football in New Haven, Conn., by a score of 17 to 0, is entitled to the eastern football championship for the season of 1898.

Flames in the ship yards of John H. Starin at West New Brighton, S. I., burned seven buildings, the loss being $400,000.

John Wonderlin, aged 100 years, killed himself at Burlington, N. J.

WEST AND SOUTH.

All the interests of the state of Maryland in the famous Chesapeake and Ohio canal are to be sold.

At his home in Paw Paw, Ill., Isaac Thompson celebrated his one hundred and second birthday.

Arnold L. Davis, of Ann Arbor, Mich., was elected president at the annual meeting in Indianapolis of the American League of Republican College Clubs.

Official returns of the late election in Illinois show that the republicans will have a majority of 24 on joint ballot in the legislature.

At his home in Frederick, Md., Admiral Schley received ovation after ovation.

George W. Ferguson was fatally injured, two of his children were killed and his wife and another child were disfigured for life by an explosion of blasting powder at Portsmouth, O.

Near Garden City, Kan., George Neighbors and his son Lewis were shot and killed on their farm by A. F. Potts in a quarrel over a fence.

One of the few surviving generals of the civil war, Gen. Don Carlos Buell, died at his home in Airdrie, Ky., aged 80 years.

J. N. Parsons, of New York, was elected general master workman at the national assembly of the Knights of Labor in Chicago.

Near River Junction, Fla., tramps set fire to the home of Andra Shackelford and three children were burned to death.

Thomas Finney and J. R. Stanley and his brother William were fatally shot in a dispute at Milledgeville, Ga.

In a fit of jealousy Edward Ross, a farmer near Paducah, Ky., killed his wife and child and John Walker.

Near Lima, O., a freight locomotive exploded, killing David Little, the fireman, and fatally injuring Walter Shirtleff, Edward Quick and Frank Smith.

Sam Carr (colored) while drunk shot and killed John Fedoveo and John Stefancin in Cleveland, O.

White caps killed John Smartt, a well-to-do and peaceable negro at Chapeltown, Tenn.

Because she refused to marry him James Collins, a young farmer near Greensboro, Ala., killed Miss Nona Merrill and then took his own life.

FOREIGN INTELLIGENCE.

In a Chinese inland sea off Takami steamers collided and 70 persons were drowned.

The first session of the American board of trade of the island of Cuba was held in Havana.

Orders issued by the Corea government forbid foreigners from trading in the interior.

Fire destroyed an extensive timber shed in St. Petersburg, Russia, and ten persons were burned to death.

In South Africa a heavy and continuous demand exists for corn and also for American corn meal.

Rev. Dr. Lowery and Bishop Earl Cranston, of the Methodist church, and family were mobbed in the streets of Peking, China, and seriously injured.

At Warsaw, Kieff and Vilna, in Russia, a socialistic conspiracy was discovered among students and 80 were exiled to Siberia.

LATER NEWS.

Since the granting of the first pension in connection with the late war to Jesse T. Gates, late private in Battery A, Second artillery, claims have begun to roll into the pension office, and the number now pending is 1,947.

The fight between Corbett and Sharkey at New York the 22d, resulted in favor of the latter, because one of Corbett's seconds jumped into the ring while the contest was in progress, thus constituting a foul.

George and Ed Cotter, married farmers, were found frozen to death near Ash Grove, Mo. The day before they went to Ash Gsove, and after drinking considerably started for home and were caught in the blizzard.

The American steamer W. H. Swan was seized at New Orleans for carrying contraband goods. Besides a lot of cigars not down in her manifest, she had a number of Mauser rifles.

The rumor that the steamer Dixon had foundered in Lake Superior near Two Harbors, Minn., proves untrue.

Buffalo will take the place of St. Joseph, Mo., in the Western Base Ball league.

The steamer Bratten left Savannah, Ga., with 700 tons of food for starving Cubans.

A concerted and well organized movement is under way by the anti-expansionists to prevent if possible, the acquisition of the Philippines by the United States. Andrew Carnegie, who is at the head of the movement, called President McKinley to explain his opposition to any colonial policy.

A dispatch to the London Daily Mail from Biarritz says: "Prominent Carlists declare that a rising is imminent simultaneiously in several towns, where there is hope of military support, the idea being a sharp short conflict instead of prolonging and sporadic risings in the rural districts."

The first real storm of the winter season visited Minneapolis the 21st. The wind and snow were on the rampage all day.

The case of the American Railroad Conductor Temple, who has been held under arrest in Mexico for killing a man on this side of the line, has been satisfactorily adjusted. The Mexican government will surrender Temple to the authorities of Arizona.

The Spaniards deny the story that the insurgents have captured Iloilo.

It is reported that the steamer Dixon of the Booth line running between Duluth and Port Arthur has foundered near Two Harbors, Minn.

In private letters Admiral Dewey advises the retention of all of the Philippine islands.

The grand jury at Philadelphia presented bills of indictment against United States Senator Quay, his son Richard P. Quay and Benjamin J. Haywood, ex-state treasurer. The bills charge the defendants with unlawful use of the state's money.

Ex. Queen Lilioukaiani, arrived at San Francisco on her way to Washington. The object of her visit is to try to influence congress to allow her to retain possession of the crown lands, valued at $5,000,000. Lilioukalani maintains that despite the annexation of the Hawaiian islands to the United States, the crown lands are her absolute private property, and that this country has no more right to assume ownership of the land than it has to take the property of any private citizen.

The United States peace commissioners have undoubtedly made their final proposition at Paris. When the conference opened the 21st, Judge Day, addressing Senor Montero Rios and his colleagues of the Spanish commission, recurred to the protracted negotiations and reaffirmed the desire of the American commissioners to reach an amicable conclusion. Then, handing the American presentation to the interpreter, Judge Day concluded his remarks by saying that the Americans, preferring not to break the armistice or to resume hostilities, had determined to present another and final proposition, which he hoped would lead to a speedy and amicable adjustment. That portion of the presentation setting forth the new proposal, the proposal that the United States must have possession of the entire Philippine archipelago, with a tender of $20,000,000 for a treaty cession of the islands, was then read.

MARKETS.

SPAIN IS INFORMED.

She Is Told What She Must Do Regarding the Philippines.

Must Relinquish Her Claim to the Islands, But Will Be Given the Sum of $20,000,000—Final Answer to Be Made by November 28.

Paris, Nov. 22.—The Spanish and American peace commissions met in joint session at two o'clock in the afternoon. The Americans declared the United States must have the entire Philippine archipelago, and for a treaty cession of the islands the Americans tendered to Spain $20,000,000.

It is further declared that it is the purpose of the United States to maintain the Philippine islands as an "open door" to the world's commerce.

On the terms named the United States proposes a mutual relinquishment of all claims for indemnity, national or personal, subsequent to the outbreak of the last Cuban insurrection.

November 28 is fixed as the date on which the United States commission desires a definite response to Monday's propositions and all other subjects in issue here.

It is also declared that the United States desires to treat the religious freedom of the Caroline islands as agreed upon between the United States and Spain in 1886, and also of the acquisition of one of the Caroline islands for an American naval station, and of cable-landing rights at other places in Spanish jurisdiction, and the revival of certain Spanish-American treaties as heretofore in force

The Americans also refuse to arbitrate article 3 of the peace protocol, bearing upon the future disposition and control of the Philippine islands.

The meeting was then adjourned until Wednesday.

Terms of the Memorandum.

The fact was cited that the proposal presented by the American commissioners in behalf of the government for the cession of the Philippine islands to the United States having been rejected by the Spanish commissioners and the counter proposal of the latter for the withdrawal of the Americans from the islands and the payment of an indemnity by the United States to Spain having been rejected by the American commissioners, the latter, deeming it essential that the present negotiations—already greatly protracted—should be brought to an early and definite conclusion, now begged to present a new proposition embodying the concession which for the sake of peace their government would, under the circumstances, be willing to tender.

The government of the United States is unable to modify the proposal heretofore made for the cession of the entire archipelago of the Philippines: but the American commissioners are authorized to offer to Spain, in case the cession should be agreed to, the sum of $20,000,000, to be paid in accordance with the terms to be fixed in the treaty of peace.

It being the policy of the United States to maintain in the Philippines an open door to the world's commerce, the American commissioners are prepared to insert in the treaty now in contemplation a stipulation to the effect that for a term of years Spanish ships and merchandise shall be admitted into the Philippine ports on the same terms as American ships and merchandise.

The American commissioners are also authorized and are prepared to insert in the treaty in connection with the cession of territory by Spain to the United States a provision for the mutual relinquishment of all claims for indemnity, national and individual, of every kind, of the United States against Spain and of Spain against the United States that may have arisen since the beginning of the late Cuban insurrection and prior to the conclusion of the treaty of peace.

Next followed the terms nearest approaching to a formal ultimatum to Spain. The United States commissioners expressed the hope that they might receive from the Spanish commissioners on or before Monday, November 28, definite and final acceptance of the proposals made as to the Philippines, in connection also with the demands as to Cuba, Porto Rico and the other Spanish islands of the West Indies, and Guam, in the form in which these demands have been provisionally agreed to. In this event it will be possible for the joint commission to continue its sessions and proceed to the consideration and adjustment of other matters, including those which, as subsidiary and incidental to the principal provisions, should form part of the treaty of peace.

The Americans notified the Spaniards that they desired to treat of the religious freedom of the Caroline islands, as agreed to 12 years ago; also of the release of political prisoners now held by Spain in connection with the insurrections in Cuba and the Philippine islands; also of the taking over of the island of Kusaie, or Ualan, in the Carolines, for a telegraphic and naval station; also of cable station rights at other points in Spain's jurisdiction, and also of the renewal of certain treaties previously in force between the United States and Spain, and which may have lapsed or been vitiated by war.

Smallpox on Board.

New York, Nov. 22.—The French line steamer La Normandie, which arrived from Havre, is detained at quarantine owing to smallpox among her steerage passengers. When the health officer boarded the steamer Surgeon Vauquer reported two cases of smallpox, the patients being Syrian children who were taken ill during the voyage and promptly isolated in the steamer's hospital.

Four Men Killed.

Cincinnati, Nov. 22.—Four men were killed at the electric power house at Covington, Ky. They were working on a scaffold that gave way.

Filipinos Claim Damages.

San Francisco, Nov. 22.—At the Palace hotel in this city are registered a number of prominent Filipinos. They come direct from the city of Manila and are en route to Washington, to present large claims for damages before the president and cabinet for valuable property owned by the Filipinos destroyed by the American troops.

Charged with Embezzlement.

Holyoke, Mass., Nov. 22.—Ex-Tax Collector J. C. Keogh was arrested Monday night on three warrants charging embezzlement to the amount of $115,000.

STAR POINTER SOLD.

Ex-Congressman White, of Cleveland, Purchases the Famous Pacer for the Sum of $15,000.

New York, Nov. 22.—Star Pointer, the famous pacer, with the world's record of 1:59¼ for a mile, was sold Monday night at Madison Square Garden to W. J. White, of Cleveland, O., for $15,000, $600 less than he was sold in 1897 to James A. Murphy, of Chicago. The advertised sale of this famous horse sufficed to fill the big arena, and when the horse was led to the auctioneer's block 10,000 persons were present. An unknown man started the bidding with an offer of $5,000, but he hardly mentioned the price when Andy Welch, of Hartford, Conn., raised him $5,000 better. Twelve thousand dollars was the next bid, shouted from the gallery by ex-Congressman W. J. White, of Cleveland, O., who at the time was not recognized. Mr. Welch raised this offer to $12,500.

"Thirteen thousand dollars," came back defiantly from the gallery, only to be answered by Mr. Welch's "$13,500." For a few moments there was silence. The crowd waited almost breathlessly for the voice from the top gallery, but it did not respond as quickly as before.

Just as the crowd was beginning to think the sale over, however, the unknown bidder shouted "$15,000," and there was a mighty cheer. No other bids being received the mighty Star Pointer, the fastest horse in the world, in harness, was knocked down to Mr. White.

WANTS HER LANDS.

Liliuokalani, Ex-Queen of Hawaii, Wants to Be Allowed to Retain the Crown Possessions.

San Francisco, Nov. 22.—Ex-Queen Liliuokalani, of Hawaii, arrived here Monday from Honolulu, accompanied by Col. G. W. MacFarlane and Hon. Paul Neuman. The ex-queen excused herself from newspaper men but it was learned that Liliuokalani will leave for Washington in a few days. The object of her visit is to try to influence congress to allow her to retain possession of the crown lands, valued at $5,000,000. Liliuokalani maintains that despite of annexation of the Hawaiian islands to the United States the crown lands are her absolute private property and that this country has no more right to assume ownership of the lands than it has to take the property of any private citizen. The contention of President Dole, the cabinet and the Hawaiian commission that the crown lands became part of the United States property upon the annexation of the islands she takes exception to and is hopeful that her trip to Washington will result finally in the crown lands again becoming her private possessions.

UNDER MARTIAL LAW.

Gov. Tanner Takes Stringent Measures to Restore Order in the City of Pana, Ill.

Springfield, Ill., Nov. 22.—Gov. Tanner has issued a proclamation placing Pana under martial law, establishing as the military district the corporate limits of the city and all the additions thereto and one mile beyond the limits of the city and its additions, and forbidding all persons to carry any arms, such as guns or pistols, either publicly or privately within the district aforesaid, and commanding all persons who bear arms within such prescribed distance to surrender the same to the officers commanding the national guard at Pana within 48 hours after the publication of the order, who will receipt for the same. The commanding officer is ordered to take possession of all arms in the hands of miners or citizens in the district mentioned, and the governor establishes martial law within the district mentioned as being necessary, in his judgment, to execute the laws. Persons with arms in their hands will be arrested by the military authorities, as if they intended a disturbance of the public peace.

EXPLOSION IN A MINE.

Three Negroes Are Very Seriously Burned in a Colliery at Pana, Ill.

Pana, Ill., Nov. 22.—At 11 o'clock Monday morning a serious and damaging explosion occurred in Mine No 1 of the Pana Coal company, in which three negroes were seriously burned, two of them dangerously. The explosion was of gas, which was set off by negroes with their lamps, and occurred in an entry in the north section of the mine, the only portion of the mine which is in shape for operation. Immediately after the explosion every negro and white man in the mine deserted the pit and were hoisted to the top. John Harris, the pit boss, said the explosion was a very bad one. The force of the explosion could be felt on the surface and in the business section of the city. What damage was done the mine by the explosion could not be learned.

Says Prospects Are Good.

Minneapolis, Minn., Nov. 22.—The Journal says that in spite of the hostile attitude of the Minneapolis millers the prospects for the formation of the flour milling trust are improving.

Sword for Hobson.

Birmingham, Ala., Nov. 22.—A special to the News from Montgomery says: The Alabama house of representatives read and ratified a joint resolution appropriating $500 to buy a sword for Lieut. Hobson of Merrimac fame. The senate is expected to concur in the resolution.

Don't Want American Sausages.

Berlin, Nov. 22.—The Koluische Zeitung, in an article supposed to be inspired, advocates an absolute prohibition of the importation of sausages. This advice is aimed at the American market.

Thousands Are Starving.

Tacoma, Wash., Nov. 22.—Late advices from Japan state that 10,000 or more fishermen living on Etrup, northern Japan, are on the verge of starvation. Some have nothing to eat while others are existing on rats and petrified herring.

Dropped Dead.

Chicago, Nov. 22.—George A. Quimby, a leading business man of Des Moines, Ia., and secretary of the Iowa Central Building and Loan association dropped dead on the street in this city Monday. The cause of his death was heart failure.

A BLIZZARD RAGES.

Furious Storm of Sleet and Snow Causes Much Damage in Several States.

St. Paul, Minn., Nov. 22.—The first general snowstorm of the winter has prevailed throughout the northwest, and it still continues without much abatement. The snow has been accompanied by a high wind, reaching in many places the proportions of a genuine blizzard. The fall of snow has not been great, but the wind has drifted it badly, and many places report considerable delay to railroad traffic. Specials to the Pioneer Press from various points in North and South Dakota, Minnesota, Wisconsin and northern Iowa report the storm still prevailing, and local business impeded during its progress. The weather observer here predicts that the storm will be followed by a cold wave. Battleford and Calgary, in the British Northwest, report temperatures of 24 and 26 degrees below zero, and other places say zero weather is prevailing

Locally the storm has been quite severe. About three inches of snow has fallen, and a 21-mile an hour gale has drifted it badly, causing delay to street car traffic. The mercury has been at about freezing point, but is rapidly falling, and the weather observer believes will go ten or fifteen below zero today. Railroads centering here report trains moving with but little delay. The storm was especially severe on Lake Superior, Duluth reporting a 70-mile gale. A Duluth special to the Pioneer Press says a report is current there that the steamer Hiram R. Dixon, of the Booth Packing company's line, has foundered.

Marshalltown, Ia., Nov. 22.—The rain and sleetstorm of Monday turned into a howling blizzard at night. Telegraph, telephone and street car business is badly crippled, with prospect of a general blockade on the railroads.

Omaha, Neb., Nov. 22.—Nebraska is in the grip of a norther. For 24 hours a strong wind from the northwest swept the state and during the most of that time it has driven a fine snow ahead of it. This snow has been too light and dry to drift badly and consequently the country roads are in no danger of a blockade. Considerable loss of stock, both cattle and sheep, is feared, owing to the fact that many thousands of heads have been brought in from the south for feeding and have not yet had time to become sufficiently acclimated to withstand the stress of the storm. Omaha has had the worst of the storm up to date so far as has been learned. Street traffic has practically been suspended here. The street car lines have had a hard struggle to keep open and two of them have succumbed, the others being able to run cars at irregular intervals.

One death from exposure is reported. F. H. Thompson, of 1335 Twenty-seventh street, Des Moines, Ia., was found dead on the street in South Omaha about seven o'clock Monday evening. He was a canvasser for a St. Louis view publishing firm, and while his clothes were good, they were of summer weight and he had no overcoat. The fall of temperature in 24 hours, from three o'clock Sunday to three o'clock Monday, was 62 degrees.

Springfield, Ill., Nov. 22.—A cold wave struck the city Monday evening, the temperature falling from 62 degrees to 30 degrees in four hours. Snow commenced falling at ten o'clock.

Cumberland, Wis., Nov. 22.—A heavy snowstorm set in Monday afternoon, the first of the season, and several inches has fallen. The mercury is falling rapidly.

Iron Mountain, Mich., Nov. 22.—A snowstorm is raging. There had been a high wind and rain all day, but toward evening the rain turned into snow. Four inches fell in an hour.

Van Buren, Ark., Nov. 22.—A regular norther set in here Monday morning and the first snow of the season fell. The thermometer fell 40 degrees in three hours and the wind blew 50 miles an hour.

San Antonio, Tex., Nov. 22.—A norther of unusual severity swept over western Texas Monday. Freezing weather is reported from many points and there are indications of snow or sleet further west. If this weather continues it is feared there will be a great loss of live stock.

Denison, Tex., Nov. 22.—This city was visited Monday by the most disastrous storm of years. The wind blew a hurricane, unroofing houses, uprooting trees and leveling telegraph poles. There was considerable damage to property. A deluge of rain and sleet accompanied the storm.

QUAY IS INDICTED.

The Senator, His Son and Ex-State Treasurer Benjamin J. Haywood Must Stand Trial.

Philadelphia, Nov. 22. — The grand jury presented to the county court true bills of indictment against United States Senator M. S. Quay, his son Richard R. Quay and ex-State Treasurer Benjamin J. Haywood, charged with conspiracy to unlawfully use public moneys deposited in the People's national bank of this city for the purchase and sale of stocks and for other purposes not authorized by law. John S. Hopkins, former cashier of the People's bank, now dead, is named as a party to the conspiracy.

Teresa Going to Pieces.

Nassau, N. P., Nov. 22.—The wrecking tug Merritt has arrived here. She reports that the tugs Potomac and Vulcan sailed Sunday from Cat island for Norfolk. The cruiser Infanta Maria Teresa has been abandoned. She is going to pieces rapidly, and her contents are floating out through her broken sides.

Famous Engineer Dead.

London, Nov. 22.—Sir John Fowler, who was engineer in chief of the Forth bridge, for which services he was created a baronet in 1890, is dead. He was born in 1817.

Deed of a Jealous Man.

Marinette, Wis., Nov. 22.—A fellow-workman told William Menose, a cedar worker, that his wife, from whom he had separated, was about to marry again. This incensed him and he broke into her home and shot her, inflicting a dangerous wound in the breast. Menose then shot himself dead.

Monument Unveiled.

Shanghai, Nov. 22.—Prince Henry of Prussia on Monday unveiled the monument to the officers and sailors of the German third class cruiser Iltis, which was lost in a typhoon on July 23, 1896, north of the Shan-tung promontory.

Catarrh

In the head, with its ringing noises in the ears, buzzing, snapping sounds, severe headaches and disagreeable discharges, is permanently cured by Hood's Sarsaparilla. Do not dally with local applications. Take Hood's Sarsaparilla and make a thorough and complete cure by eradicating from the blood all scrofulous taints and giving health and vigor to the whole system.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1; six for $5.

Hood's Pills cure all Liver Ills. 25 cents.

BEST TIME TO KICK A MAN.

First Save His Life and Then You May Apply Your Boot with Impunity.

Perk and Quirk were walking along the crowded street, feeling very kindly toward themselves and the rest of humanity. Just as they reached the middle of a crossing one of those aggravating individuals who walk one way and look another stepped directly in front of a cable car which was rounding the corner. Of course the car had no fender on it. Nearly everybody in the vicinity yelled, and naturally the bewildered man looked in the wrong direction.

Quirk didn't yell, though. He jumped to the side of the track and grabbed the man by the collar and yanked him clear of the tracks and almost out of his shoes. Then he gave him another ferocious jerk to get him out of the way of an express wagon, and, getting him at proper range at the same time, he gave the poor man a kick that must have driven his spine up into his hat. And with the kick Quirk roared:

"Confound you, keep your eyes open when you are on the street!"

Quirk looked unutterably savage, but Perk tottered to the curb, sat down and laughed until the tears came. Then he said:

"You are the only big enough idiot on earth to save a man's life and then kick him for it."—Chicago Times-Herald.

Some men snatch victory from defeat, but more snatch defeat from victory.—Chicago Daily News.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CONSULTING A WOMAN.

Mrs. Pinkham's Advice Inspires Confidence and Hope.

Examination by a male physician is a hard trial to a delicately organized woman.

She puts it off as long as she dare, and is only driven to it by fear of cancer, polypus, or some dreadful ill.

Most frequently such a woman leaves a physician's office where she has undergone a critical examination with an impression, more or less, of discouragement.

This condition of the mind destroys the effect of advice; and she grows worse rather than better. In consulting Mrs. Pinkham no hesitation need be felt, the story is told to a woman and is wholly confidential. Mrs. Pinkham's address is Lynn, Mass., she offers sick women her advice without charge.

Her intimate knowledge of women's troubles makes her letter of advice a wellspring of hope, and her wide experience and skill point the way to health.

"I suffered with ovarian trouble for seven years, and no doctor knew what was the matter with me. I had spells which would last for two days or more. I thought I would try Lydia E. Pinkham's Vegetable Compound. I have taken seven bottles of it, and am entirely cured."—MRS. JOHN FOREMAN, 26 N. Woodberry Ave., Baltimore, Md.

The above letter from Mrs. Foreman is only one of thousands.

To California Without Change via "The Milwaukee."

On every Saturday during the winter an elegant Pullman Tourist Sleeper will leave Minneapolis (8:25 a. m.), St. Paul (8:35 a. m.), and arrive Los Angeles, California, at 8:25 a. m. following Wednesday.

Via "The Milwaukee's" famous "Hedrick Route" to Kansas City, thence via the A. T. & S. F. Ry. through Southern California.

A most delightful winter route to the coast.

Quicker time is made via this route between St. Paul and Minneapolis and California than via any other line.

Rate per double berth, $6.00 through from St. Paul and Minneapolis.

Leave St. Paul and Minneapolis every Saturday morning, arriving Los Angeles every Wednesday morning.

For berths, complete information, and lowest rates, apply to "The Milwaukee" agents, St. Paul or Minneapolis, or address J. T. Conley, Ass't Gen'l Pass. Agt., St. Paul, Minn.

No Chance for a Conflict.

"A conflict of arms," he said, "is a terrible thing."

"Of course," she replied, blushing prettily; "and so inexcusable, too. I hold that the disposition a man makes of his arms is none of a girl's business."

After that, of course, there was no chance for a conflict.—Chicago Post.

$100 Reward $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

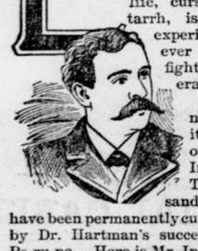
When a man has troubles he increases them by being cross.—Atchison Globe.

EVERY-DAY HEROISM!



Struggling through life, cursed with catarrh, is a common experience. However heroic the fight catarrh generally wins.

Under some name or other it gets the best of us. Frank E. Ingalls, Waco, Tex., and thousands of others have been permanently cured of catarrh by Dr. Hartman's successful remedy Pe-ru-na. Here is Mr. Ingalls' letter:

Dr. S. B. Hartman, Columbus, O.

DEAR SIR:—"Pe-ru-na and Man-a-lin have cured me of one of the worst cases of catarrh any one ever had. My case was so severe that I was compelled to discontinue my business, that of conductor on a railroad; but I am now entirely well."

Ordinary treatment of catarrh is for local relief. Cures are not expected. Dr. Hartman's method eradicates catarrh absolutely. Get his latest book and learn how to combat this insidious disease. The Pe-ru-na Medicine Co., Columbus, O., will mail Dr. Hartman's books free on application.

H. A. Scott, Burt, Tenn., writes:

"I feel very thankful to my Maker and your great medicine that I am cured. I would not be without Pe-ru-na in the house."

Pe-ru-na has been curing catarrh for forty years. It plucks out the roots of catarrh and builds people up. All druggists sell it.

ILOILO SURRENDERS.

Insurgent Forces Occupy an Important Philippine City.

Spanish Garrison Gives Up the Capital of the Island of Panay—Serious Complications Are Feared.

Manila, Nov. 21.—Iloilo, capital of the island of Panay and the second city of the Philippine islands, has been surrendered to the insurgent forces by the Spanish garrison. While this result was long expected, it caused alarm among the Americans, as it marks an important advance made by the forces under Aguinaldo. Immediately on hearing the news Admiral Dewey ordered the United States cruiser Charleston and the gunboat Concord to Panay with orders to prevent excesses by the victorious natives, who are expected to take advantage of their opportunities. Outside of the city and bay of Manila and Cavite, held by the United States, the fall of Iloilo leaves practically all the Philippines in control of the insurgent army. Serious complications are certain, as Aguinaldo has been more independent of late, ignoring his former friends, the Americans. It is feared by the United States officials that the natives can now claim they have won independence and will refuse to submit when the islands are transferred by Spain to America. For a week past Iloilo has been surrounded by the insurgents, and appeals of the inhabitants for American protection were ignored. The city was forced to yield to superior numbers. The victors have probably before this sacked the town.

WANTS MORE WARSHIPS.

Recommended in the Forthcoming Report of Secretary Long, of the Navy Department.

New York, Nov. 18.—A Washington special to the World says: "Secretary Long, in his annual report Thursday recommends the construction of three first-class battleships, five first-class armored cruisers of the highest speed and power and five second-class copper-sheathed cruisers. He also recommends an addition of 5,000 men to the navy. It would require more than $50,000,000 to construct the proposed warships. They could not be built in less than three years. The secretary has not suggested the construction of torpedo boats or torpedo boat destroyers, as congress at its last session authorized the building of 36 vessels of these classes.

Amendments Carried.

St. Paul, Minn., Nov. 18.—All four constitutional amendments submitted to vote at the last election seem to have carried and three of them certainly have. Returns from 37 counties on the proposition to extend the franchise of women on school matters show 27,860 for and 18,079 against. The same counties on the vote to require a majority of the voters present to adop a constitutional amendment show for, 27,577; against, 12,748. The home rule amendment for cities carries by 26,945 to 12,809, and the road commission proposition has 27,320 to 15,261.

Two Men Killed.

New York, Nov. 21.—G. W. Rogers, of Camden, employed as a conductor on the Amboy division of the Pennsylvania railroad, and H. G. Rue, baggagemaster of Rogers' train, were killed at Rahway, N. J., Sunday night. They had completed their run for the day and were walking to the depot to take a train for home when run down by the Chicago limited east bound. Their bodies were cut up and scattered along the track for some distance.

Knights of Labor Elect Officers.

Chicago, Nov. 21.—John N. Parsons, of New York city, was chosen grand master workman of the Knights of Labor at the annual election of officers Saturday to succeed Henry A. Hicks. With one or two other minor exceptions all the other general officers were reelected. Boston was chosen as the place of holding the convention next year.

Manchester Martyrs Remembered.

Dublin, Nov. 21.—The anniversary of the death of the "Manchester Martyrs" was celebrated Sunday. A procession, headed by the stars and stripes and the French tri-color, went to Glasnevin cemetery and placed wreaths upon the graves with the usual ceremonies of decoration. The day was similarly observed in Cork.

Gen. Don Carlos Buell Is Dead.

Louisville, Ky., Nov. 21.—Gen. Don Carlos Buell, whose fame on the battlefield of both the Mexican and civil wars, has given luster to American soldiery, died at his home, four miles from Rockport, Ky., Saturday. The end had been expected, for his condition had been low during the past few months.

Gone from Camp Meade.

Camp Meade, Middletown, Pa., Nov. 18.—Gen. Young and staff left Thursday afternoon for Augusta, Ga., which will be the headquarters of the Second corps until the troops are shipped to Cuba. This completes the movement of the corps to the new camps in Georgia and South Carolina.

WORKMEN RUN DOWN.

A Pennsylvania Train Runs into a Gang of Laborers and Twelve of Them Are Killed.

New York, Nov. 19.—During a dense fog a Pennsylvania train ran upon a gang of workmen on the Hackensack Meadow.

It is now definitely known that 12 men were killed and five injured.

Thomas Dougherty was supposed to be on the lookout for approaching trains. He was a considerable distance up the track from the gang of laborers, and he evidently did not see the train, for he gave no warning. His body was hurled 90 feet through the air.

The train which ran down the workmen was a local from Milltown to Jersey City, due in Jersey City at 8:20 a. m. The fog delayed the train and Engineer John Van Ostrand was endeavoring to make up time. His train was running at a high rate of speed, he believing there was nothing to obstruct a quick run to Jersey City. The first he knew that his train had run into the men was when the engine jarred. Then the cries of the men were heard and he as soon as possible brought his train to a stop.

There were 20 men in the gang, and it is reported that not one escaped injury. They were in charge of Foreman William Cork, of Jersey City.

As soon as the news of the accident reached Jersey City Pennsylvania railroad officials went to the Meadows and superintended the removal of the dead and injured.

REPUBLICAN COLLEGE LEAGUE.

Ends Its Annual Session in Indianapolis—Outline of the Resolutions Adopted.

Indianapolis, Ind., Nov. 19.—The American Republican College league closed its seventh annual session Friday afternoon. The league changed its constitution to provide that hereafter meetings shall be held biennially instead of annually and to declare it to be a cardinal principle of the league to secure suffrage for students where they attend school. The next meeting will be held at Philadelphia just after the national election of 1900. A resolution was adopted upholding Secretary Alger, who is a strong friend of the league, and denouncing his villainous slanderers; also praising President McKinley; indorsing "that gallant soldier, brilliant statesman and champion of clean and popular government, the type of American patriotism, Theodore Roosevelt," and demanding safe currency reform legislation and student suffrage

Spanish Cruisers Raised.

Manila, Nov. 21.—The Spanish cruisers Isla de Cuba and Isla de Luzon, which were sunk during the battle of Manila, have been floated and docked at Cavite.

The merchants of this city have decided to establish a chamber of commerce, which, by Spanish law, they were previously precluded from doing.

Causes a Sensation.

Berlin, Nov. 19.—The news that Emperor William is to return home by a roundabout route without touching at Vienna or Berlin, has created a sensation in political circles, as it is interpreted as being a confirmation of the recent indications that the relations between Germany and Austria are less friendly than they have been.

Make Protest.

Yokohama, Nov. 21.—A dispatch from Seoul, capital of Corea, says the American, British and Japanese ministers there have protested against the action of the Corean government in issuing orders that foreigners are to be stopped from trading in the interior.

Fatal Street Fight.

Macon, Ga., Nov. 21.—W. O. Finney and his son Tom fought a street duel at Milledgeville, Ga., with W. B. and J. R. Stanley. W. O. Finney was killed and Tom Finney probably will die. The Stanley brothers are seriously and perhaps fatally wounded.

Furious Storms.

Paris, Nov. 21.—Dispatches from Perpignan, capital of Pyrenees-Oriental, on the right bank of the River Tet, report that the region has been visited by severe storms. Many villages have been flooded and traffic is interrupted.

Baron Fava Honored.

Rome, Nov. 21.—The Official Gazette announces the appointment of 30 new senators, including Baron Fava, Italian ambassador to the United States, who will, however, retain the embassy at Washington.

Twenty-One Killed.

Buda Pesth, Nov. 21.—A dispatch to the Pester Lloyd from Nikolaief, Russia, at the confluence of the Ingul and the Bug, says that 21 persons have been killed there by an explosion in a rocket factory.

Mustered Out.

St. Paul, Nov. 19.—The Fourteenth regiment, Minnesota volunteers, was on Friday paid off and mustered out of the service of the United States, $90,000 being necessary for this final pay roll.

President Invited.

Montgomery, Ala., Nov. 21.—The Alabama senate has passed a resolution inviting President McKinley to visit the state capital December 17.

SHOWS IMPROVEMENT.

All Lines of Trade Are Reported to Be Enjoying a Very Fair-Sized Boom.

New York, Nov. 19.—R. C. Dun & Co.'s weekly review of trade says:

"The situation is clearer and the improvement in business which was expected after the election has begun. Payments through clearing houses are far the largest ever known for the week, 37.3 per cent. larger than last year, and 33.0 per cent. larger than in 1892. The glass workers have resumed, the anthracite coal output is heavy and much beyond the present capacity of markets, the troubles in Illinois coal mines have been settled and the new strike of shoe workers in Marlboro, Mass., is now the only labor hindrance of consequence. It is noteworthy that in spite of all changes the price of spot wheat has but slightly changed.

"Iron is in bigger demand all the time and yet production steadily increases and at Pittsburgh bessemer pig is slightly lower, at $10.10, the new association being understood. Orders for plates are beyond all precedents, including material for cars, bridges, vessels and work of all sorts, and structural work is seasonably quiet, though the mills have much ahead, while in bars the demand is considerably better at Pittsburgh, with orders for material of 6,000 cars at Chicago. Some works at the east are short of bridges and prices are held back. The expectation is that the proposed rail association will meet an extremely heavy demand for the next year, especially for trolley lines, but it is stated that prices will not be advanced above $29 at the east and $21 at Chicago. In iron products the next will probably be a record breaking year.

"Failures for the week have been 233 in the United States, against 267 last year and 26 in Canada, against 32 last year."

A FATAL BLUNDER.

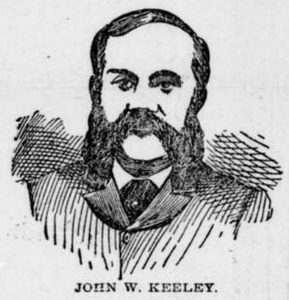
Quarryman Mistakes Blasting Powder for Coal and Tries to Build a Fire with It.

Columbus, O., Nov. 21.—A Portsmouth (O.) special to the State Journal says: By an accidental explosion of blasting powder Sunday morning George W. Ferguson, a quarryman, is dying, two of his children are dead and his wife and another child are disfigured for life. Ferguson was hunting for wood to build a fire and found a powder can apparently full of coal. When he attempted to start a fire with this a loud explosion followed, which knocked one entire side of the house out. At the time Ferguson, his wife and baby in arms and four little daughters were grouped about the stove. All were knocked down by the force of the explosion. Iva, aged six, and Cynthia, aged 11, died almost instantly from injuries, and Ferguson was so terribly injured that he cannot live. The mother and children were terribly burned and bruised and may not live. It transpired that the can was partially filled with blasting powder.

KEELEY IS DEAD.

The Inventor of the Famous Motor Passes Away in Philadelphia—His Career.

Philadelphia, Nov. 19.—John W. Keeley, the inventor of the Keeley motor, died Friday at his home in this city from pneumonia. He was taken ill on Saturday last and continued to grow steadily worse until his death. Mr. Keeley was 61 years of age and leaves a widow.



JOHN W. KEELEY.

Operation of Bankruptcy Law.

Washington, Nov. 21.—The forthcoming annual report of the attorney-general embraces a review of the operation of the national bankruptcy law of July 1, 1898. Since the law took effect 1,700 petitions in voluntary bankruptcy have been filed. The districts of Delaware, eastern Pennsylvania, southern Georgia, Nevada, New Mexico, western Virginia and Wyoming show that no persons therein have applied to be adjudged bankrupt.

First Pension Awarded.

Washington, Nov. 19.—Commissioner Evans, of the pension office, has notified Secretary Alger that Jesse T. Gates, of the Second United States artillery, who lost part of his upper lip in the West Indian campaign, has been awarded the first pension on account of the Spanish war. The president and the secretary of war each took an interest in this case. Gates will receive $17 per month.

Twenty-Four Drowned.

Portland, Ore., Nov. 19.—A special to the Oregonian from Yaquina, Ore., says: The British ship Atlanta, Capt. Charles McBride, from Tacoma to South Africa, with wheat, was wrecked off Alsea, 16 miles south of Yaquina bay, Thursday morning. She carried a crew of 27 men and all were drowned but three.

More Trouble at Pana.

Pana, Ill., Nov. 19.—Several battles between union miners and negroes, in which special deputy sheriffs had a hand, occurred Friday evening, in which it is known several parties were wounded, and it is thought some mortally. Sheriff Coburn's chief deputy, Sid Watts, of Taylorsville, had his right arm shot off.

Harvard Wins.

New Haven, Conn., Nov. 21.—The great game between the Harvard-Yale football teams resulted in a victory for the former. Yale fought desperately, but at the close of the game Harvard had piled up 17 points, while Yale had not succeeded in scoring at all. The grounds were in bad condition.

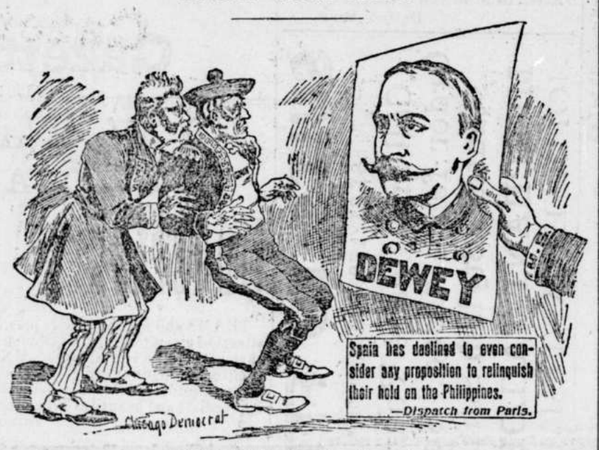
Dreyfus' Treatment Modified.

Paris, Nov. 21.—The government, according to the Temps, has ordered a modification of the prison treatment of former Capt. Albert Dreyfus. Dreyfus is to be allowed to promenade and exercise six hours a day over an area of eight acres.

Will Quit French Politics.

Paris, Nov. 21.—Rene Goblet, former premier and member of the chamber of deputies for the first arrondizement of the department of the Seine, announces that he will soon definitely withdraw from the political arena.

SHOW HIM THIS.



It Might Fetch Him Around.

MINNESOTA NEWS.

Ditching Is Finished.

The contract let by the State Drainage commission for the completion of the Middle river ditch in Marshall county expired. The commission at its last meeting set Nov. 10 as the date when the work should be completed, and a letter from the contractor to Secretary Lomen states that the work has been executed according to agreement.

The completion of this ditch exhausts the last appropriation of $50,000 made by the legislature of 1895 for state ditches in the Red river valley, and winds up the work of the commission extending over a period of five years.

All told, the state has expended $180,000 for drainage in the Red river valley. The Great Northern railway, however, assisted in this work, and $25,000 of this amount was contributed by the railroad company, and expended under the supervision of the state commission.

As a result of this large expenditure the state has secured excellent system of drainage in the valley, which has been worth to the farmers many times its cost. The ditches cover an area of 117 miles and benifit the following counties tributary to the Red River of the North: Kittson, Marshall, Polk, Norman, Clay, Wilkin, Traverse and Grant.

The 18 ditches completed by the commission average in length about eight miles, the longest being the Sand Hill ditch, in Polk county, which is 13 and one-half miles in length.

Can Refuse Drinks.

The supreme court decides that saloons do not come within the jurisdiction of the civil rights law, and saloonkeepers can refuse to serve colored men with intoxicating drinks. This action was brought under the civil rights law. The plaintiff, Rohne, is a colored man, residing at Duluth, and at the invitation of a white man, went into the saloon of the defendant, Loomis, and the white man ordered that both be served with beer. The saloonkeeper refused to furnish beer to the colored man, so the suit was brought. The defense set up that under the state law saloons are exempt from the operation of the civil rights bill, and are not obliged to serve colored people. The plaintiff claimed that the general law regulating hotels, restaurants, "or other places of refreshment," does apply to and include saloons.

Bread on the Waters.

Wm. H. Pankake, of Maine Prairie, did a kindly act last spring and it now rises up to bless him. Theodore Pauman, a bachelor 48 years old, and in very poor health, came to his house, and Mr. Pankake took him and cared for him. It did not appear probable that he would be very liberally recompensed, but he determined to exercise a certain charity, no matter how he was repaid. The other day Pauman died and was buried. Then his will came to light and was offered for probate. It was found that the dead man had left quite a comfortable estate. He had remembered his brothers and sisters in his native country of Belgium by leaving them his personal property, but to his kind benefactor, Mr. Pankake, he bequeathed his farm of eighty acres in Maine Prairie township.

Killed by a Careless Shot.

A shocking tragedy occurred at Woods, seven miles north of Duluth, when Vespasian Smith, 18 years old, son of Frank B. Smith, a well known druggist, was shot through the head and instantly killed by unknown men. Smith and Philip Hamp were out partridge hunting, and they spent the night on a bed of boughs in the woods. About 3 o'clock in the morning Hamp was aroused by a shot and saw two men running. Smith did not stir, and Hamp found that he was dead, though Hamp ran two miles for a doctor and ambulance. It is supposed that the men fired at the reflection of their headlights on Smith's glasses, or at the eyes of his dog, which was lying near.

Want to Borrow It.

Assistant State Dairy Commissioner Lawrence has been requested by Henry E. Alvord, chief of the dairy division of the national agricultural department, to send him at once the apparatus used by the Minnesota dairy inspectors in their field work. The apparatus is contained in a small box and is known as the preliminary test case. By its use adulterations can be detected ninety-nine times in a hundred.

Lots of Spuds.

Reports have been received from the various parts of the state indicating that the potato crop will be considerable better than last year. The northern localities have improved considerably and the total crop will probably be 16,000,000 bushels, against 14,000,000 last year. The demand in the eastern markets has fallen off somewhat, and although the shipments continue to be fair to the east and south, the prospects are not particularly bright.

News in Brief.

Winona had a successful chrysanthemum show.

As far as heard from, Lind carried 54 counties in the state, and Eustis 28.

Gen. C. McC. Reeve is to be given a Christmas present from the Apollo club of Minneapolis, of which he was president before he left for Manilla. The club has sent him a fine revolver, finished with a pearl handle.

Capt. H. C. Buhse will establish a town at Red Lake next spring. The site has already been selected.

The American Whist league and Northwestern Whist association contests, which will probably be held in Minneapolis or St. Paul this winter, promises to stimulate the interest of all whist lovers in that intellectual game.

The body of an old, gray-haired man was found on the Great Northern tracks near Renneby. The remains were lying across the tracks with head and feet cut off.

St. Paul is organizing an anti-cigarette league.

The Minneapolis Press club gave a reception to Governor-elect John Lind and Mayor-elect Gray of Minneapolis. Wm. Henry Eustis and Alderman Webster were in attendance.

Mrs. George Bishop, of Slayton, temporarily insane, locked herself in her room with a revolver. When Sheriff Lowe broke in the door she shot him through the shoulder.

The ladies of St. Cloud have solicited $50 which will be cabled to Manilla at once to be used for a Christmas dinner for Company M, of the Thirteenth Minnesota volunteers.

DANGEROUS PROBING.

When It Came to Prying Into Family Secrets She Didn't Want to Be Insured.

She had concluded to take out a life insurance policy and appeared before the examining physician.

"What's your name?" he asked in his crisp business way, and she looked indignant as she answered.

"Age?"

"I didn't come here to answer impertinent questions, sir. I came to be insured."

"But we must know your age in order to fix the rate."

"What rate?"

"The amount you must pay annually for being insured."

"Thirty-three, then," she snapped.

"You must be accurate or it will invalidate the policy."

"Forty; but I must say that I never heard such impudence."

"Weight?"

"I don't know. Neither does anyone else. Just as though that would make and difference."

"Married or single?"

"Single, thank heaven! Not but what I've had plenty of chan—"

"Of course. Any insanity in your family?"

"Sir!" and she tried her best to congeal him with a look.

"I guess that you don't want to be insured."

"And you guessed it right the first time. I don't propose to be a family encyclopedia for you or any other gossip monger," and she flounced out with a vigor that made the doctor think that she was a pretty good subject after all.—Detroit Free Press.

Devious Definitions.

Forgettery—Better than memory at times.

Kaleidoscope—Another name for a woman's mind.

Chatterbox—The one occupied by a theater party.

Success—The one road on the map that leads to popularity.

Hog—An animal that gets right down to the root of things.

Divorce—The only difference between matrimony and alimony.

Quinine—A bitter enemy of the ague and one that's hard to shake.

Debt—A trap that man baits, sets and then deliberately walks into.

Society—A Punch and Judy show in which the figures are dollars instead of sense.—Chicago Evening News.

Our enemies point out our faults, else we might never improve sufficiently to retain our friends.—L. A. W. Bulletin.

Forget it? Toothache won't let you. Don't forget St. Jacobs Oil will cure.

Most cities have such slow means of travel it requires an hour to reach Sixty-second street.—L. A. W. Bulletin.

Blizzards and frost-bites. St. Jacobs Oil and a cure in a night.

The use of his tongue is not what makes a canine a lap dog.—Golden Days.

Piso's Cure is the medicine to break up children's Coughs and Colds.—Mrs. M. G. Blunt, Sprague, Wash., March 8, '94.

The hardest work is trying to keep out of work.—Washington (Ia.) Democrat.

Hot or cold, Neuralgia will come. Use St. Jacobs Oil; it will go.

The "American Boy" Battleship.

Every patriotic American hopes the school boys of the United States will succeed in their efforts to raise $3,000,000, which will be used in building a battleship to be called the "American Boy." It costs great sums of money to build a warship, but you build up your health with Hostetter's Stomach Bitters at small expense. This remedy is an appetizer, tonic, blood purifier and stimulant. It is for stomach, liver and bowel disorders.

Creeping Consumption

Do not think for a single moment that consumption will ever strike you a sudden blow. It does not come that way.

It creeps its way along.

First, you think it is a little cold; nothing but a little hacking cough; then a little loss in weight; then a harder cough; then the fever and the night sweats.

The suddenness comes when you have a hemorrhage.

Better stop the disease while it is yet creeping.

You can do it with

Ayer's Cherry Pectoral

You first notice that you cough less. The pressure on the chest is lifted. That feeling of suffocation is removed. A cure is hastened by placing one of

Dr. Ayer's Cherry Pectoral Plaster over the Chest.

A Book Free.

It is on the Diseases of the Throat and Lungs.

Write us Freely.

If you have any complaint whatever and desire the best medical advice you can possibly receive, write the doctor freely. You will receive a prompt reply, without cost. Address,

DR. J. C. AYER, Lowell, Mass.

How to Get Strong

A system which has become run down by the trying weather of the past summer is not in a condition to meet the severe winter of this climate and will easily fall a prey to disease unless a proper tonic is used.

Dr. Williams' Pink Pills for Pale People are the best medicine in the world for building up and strengthening an enervated system.

Do not confuse these pills with ordinary purgative pills. They do NOT act on the bowels, thereby further weakening the body. They build up the blood and strengthen the nerves.

Major A. C. Bishop, of 715 Third Ave., Detroit, Mich., is a well-known civil engineer. He says: "When I had my last spell of sickness and came out of the hospital I was a sorry sight. I could not regain my strength, and could not walk over a block for several weeks. I noticed some articles in the newspapers regarding Dr. Williams' Pink Pills for Pale People, which convinced me that they were worth trying and I bought two boxes. I did not take them for my complexion but for strength. After using them I felt better, and know they did me worlds of good. I am pleased to recommend them to invalids who need a tonic or to build up a shattered constitution."—*Detroit Free Press.*

At all druggists or direct from the Dr. Williams Medicine Company, Schenectady, N.Y. Price fifty cents per box.

BUFFALO GAZETTE

DELANO, FRIDAY, Nov. 25, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

—Paul Plotnik has his new residence well under way.

—Jerome Teichnor's new residence on 2nd St S. is nearly ready for occupancy.

—Woolens, overshoes, mittens and such luxuries were in demand the fore part of this week.

—Street commissioner Welker and crew cleaned crossings almost before the blizzard was over Tuesday.

—On account of stormy weather people couldn't get their poultry to market and prices ran up a little.

—An interesting letter from Mrs. Reeves, with her husband at Manila, appeared in a city daily last week.

—Dar Welker got thirtyfive muskrat hides yesterday, the boys say. Dary surely hasn't forgotten how to hunt and trap.

—The Sacred Heart sociable at the City Hall last night was a grand success. The house was full, and things passed off pleasantly.

—Rev. Penny, of the Presbyterian church, preached the union Thanksgiving sermon at the M. E. church, Thursday afternoon.

—Trains on the G. N. were most all late on account of the snow and blizzard early in the week. Even J. J. Hill has to respect such things.

—Delano must have a large amount of latent literary talent. Very little of it seems to come to light. Why can't Delano have a literary society for the winter?

—A few flakes of snow wended their way to the earth Friday evening, as a quiet reminder of what we may look for soon. They melted away almost as fast as they fell.

—The M. E. services seem to be increasing in interest and attendance. The Epworth League and the Sunday School are more largely attended than during the summer.

—Old fashioned spelling schools are being talked of again. Why can't Delano have one? Can't she spell well enough? Let some country school chalenge her and see.

—When will that Delano Literary society be organized? Haven't our young people got snap enough about them to run a literary society? If not what are they good for?

—Quite a number of the K. P's from Delano, and other places attended the organization of a K. P. lodge at Buffalo last Friday night. The Delano boys report a fine time.

—Quite a number of patrons of the school complain that not enough attention is given to reading and spelling; and that their children are too far behind in those important branches.

—Last night Chris Gast, who came home from Tintah with an irreducible hernia, was operated on by Drs. Catlin and Shrader, of Delano, and Shrader of Warertown, and the patient much relieved from suffering.

—Joe Niestroy is still in the hospital at Minneapolis. His eyes will have to be removed from their sockets on account of the injury received by the powder and sand discharged from a cannon. Everybody is sorry for Joe.

—Notwithstanding the tariff on eggs most of the factories have suspended operations. An internal revenue tax will have to be imposed in order to get much revenue from this source, as people are doing without many eggs.

—Word has been received here from John Kuka in Montana, on a visit, that his two oldest children died from Diphtheria, and that his only remaining child is sick of the dreaded disease. Mr. and Mrs. Kuka have the sympathy of a host of Delano friends.

—Thanksgiving day was a typical one for Minnesota. Snow enough for fair sleighing; good bracing atmosphere, enough so to make people keep on the move. Turkey, goose and chicken, with cranberry sauce seemed to be the menue for most folks.

—On Monday snow began to fall, and a gentle breeze to blow; these conditions became more so, and still more so, until by evening and until noon Tuesday one of the worst kind of "blizzards" was upon us. We had jumped from Summer into Winter.

New York World.

The New York World, Thrice-a-week edition, is almost equal to a daily. You get the news of the entire world. The world is fresh, spicy and reliable. We will furnish the BUFFALO GAZETTE and the Thrice-a-week World for one year for the small sum of $1.65 in advance. Old paid up subscribers on the same terms.

Came From Above.

ROYALTON BANNER.

A meteor fell in B. Fietsam's field Monday night about 11 o'clock. Several person's saw it, including Frank Armstrong, Clyde Dragoo and L. J. Dassow. They describe it as one large ball of fire. It traveled rapidly and emitted a shower of sparks as it struck the ground, followed by a peculiar sulphuric odor. A number of people have been hunting the fields southeast of the village for several days but have found no sign of the heavenly visitor till this morning, when two gentlemen, who usually get what they go after, instituted a thorough search and brought back what they claim is a fragment of the meteor. It is now on exhibition at this office.

—Sleighs were in order Tuesday morning. About four inches of snow, on an average, being drifted over the country.

—Some of our citizens took the hint when the blizzard began and put up their storm doors, windows, and other cold weather fix'ns.

—The primary scholars were about town handing out invitations, written by themselves to attend their Thanksgiving exercises at the school house, on Wednesday afternoon.

—Tuesday our citizens began their old trick of shoveling snow off the sidewalks. They evidently havent forgoten how; hardly become rusty at the business.

—The Y. M. C. Association, of Minneapolis are in the habit of sending out bands of five members each to do work among churches in country towns. They have asked Delano if they want a band.

—Street commissioner Welker boasted sometime since that he "would like to see 'em get up a surprise party on him." On the first day of the week in the evening he noticed that a good many visitors were coming into his house all at once, from every direction. They had baskets of good things and Dar says: "I never was so surprised in my life."

Personal.

John Kuka and family is in Montana visiting friends.

Miss Veronica Steffes visited friends in the cities this week.

Dr. J. S. Shrader came home from the cities Wednesday evening.

Albert Kurtz made one of his periodical visits to Delano this week.

Peter Roy, of St. Thomas college came home for Thanksgiving vacation.

Miss Mamie Farber, who is teaching north of Waverly, spent Thanksgiving at home.

Assistant post master Steffes spent Saturday at Minneapolis, P. M. Lindsley officiated in his abscence.

John Cunningham and two daughters Julia and Viola visited Watertown friends Sunday afternoon.

W. H. Frazee, of Delano, has been drawn as a petit juror in the U. S. district court. He will have to be at Winona on Dec. 6.

George Guptil, who has been quarantined with the diphtheria cases, returned to Rockford with his son William Wednesday evening.

Roy Sutton, of the Agricultural college and Guy Murphy and Floyd Roberts of the Hamline Medical School came up for Delano turkey.

Mrs. M. A. Chance has gone to Chicago to spend the winter with her daughter Stella Hopper and family.

Chris Gast came home Tuesday morning from Tintah, where he was attending the water tank. He came on a cot, being troubled with a hernia.

Hans Brandser has returned from Washington. He says Seattle is a nice town, business was good. He liked the country in summer but it is too rainy now.

Miss Grace O'Hair and Sam Coffin of the Academie and John J. Catlin, of the Medical Department, of the State University, came home for Thanksgiving vacation.

County Cullings.

From First Lieutenant to Commander-in-Chief of the military forces was a big promotion for John Lind,—Howard Lake Herald.

The Wright County Times says: "The people are tired and sick of caucuses which are run by a few interested politicians." Yes, they did kind of sit down on French's pet candidate this year.

Messrs Buckley and French are trying to settle which is the banner Republican town, Delano or Monticello. They may as well quarrel over that point as some other. It will tend to soothe their soreness.

District Court is to be held at Buffalo the first week in December. Get two witnesses who have known you for five years and go before the Judge and get your second citizens papers, so you can vote at the spring election in March. Attend to this matter. You don't want to be paying taxes to run the town and have no voice in saying how much or what for.

The Howard Lake Herald is away off when it says "Every Republican connected with any legislative branch was elected." Why, does'nt Mr. Saylor know Hon. H. C. Stivers, former editor of the Brainerd Journal, and Senator John A. Johnson, editor of the St. Peter Herald? If he thinks they are Republicans he will probably learn better before spring.

The latest figures on the congressional vote gives Page Morris a majority of 490. It is not as large as it might be, but it answers all purposes.—Sherbourn County Star News.

Mr. Dare might have added but a vindication of the gold atandard: Page Morris and Towne both talked on that subject, and Towne came nearer winning than he did two years ago. Another two years of gold standard and Page Morris, will surely turn the tide still more in Mr. Towne's favor.

It beats all what a calamity howler the Eagle has got to be. She fairly screeches out her "objections" to the administration of John Lind before he has even taken his seat as chief executive of the state. Tan't any more right, Eagle, for you to oppose the administration of the first governor the Democrats have had in forty years, than for the Democrats to criticize the Republican administration for that length of time, and not a hundredth part as fair, when you commence before he has taken charge of affairs.

WANTED—SEVERAL TRUSTWORTHY PERSONS in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $900 a year and expenses—definite, bonafide, no more, no less salary. Monthly $75. References. Enclose self-addressed stamped envelope. Herbert E. Hoss, Prest., Dept. M, Chicago. 50-26t.

Head English.

A great many young people live in Delano and vicinity who are fast arriving at man and woman hood estates, whose parents are foreign born, and who always talk the mother tongue at home. Many of the boys and girls talk English quite fluently and some read and write in that language. Every young man who wishes to take part in the affairs of his town, county or other government matters must learn the language of this country. Every family should be liberally supplied with good magazines and papers, especially local papers that the children may become interested in what is going on about them, and acquire a better knowledge of how affairs are conducted in this country. Reading matter is now so cheap that few families can well afford to be without plenty of reading matter.

PATENTS

CAVEATS, TRADE MARKS COPYRIGHTS.

CAN I OBTAIN A PATENT? For a prompt answer and an honest opinion, write to MUNN & CO., who have had nearly fifty years' experience in the patent business. Communications strictly confidential. A Handbook of information concerning Patents and how to obtain them sent free. Also a catalogue of mechanical and scientific books sent free.

Patents taken through Munn & Co. receive special notice in the Scientific American, and thus are brought widely before the public without cost to the inventor. This splendid paper, issued weekly, elegantly illustrated, has by far the largest circulation of any scientific work in the world. $3 a year. Sample copies sent free.

Building Edition, monthly, $2.50 a year. Single copies, 25 cents. Every number contains beautiful plates, in colors, and photographs of new houses, with plans, enabling builders to show the latest designs and secure contracts. Address MUNN & CO., NEW YORK, 361 BROADWAY.

Late Literary News.

That the spy sent by the United States government to Spain during the war should have become the guest of Weyler himself, seems incredible. Yet there is nothing more true. The government selected as its agent a man of position who has lived much in Germany. It was necessary for us to have a trained intellect that would make no mistakes. His story is told in the November COSMOPOLITAN, and the most exciting pages of Dumas's fiction seem tame in comparison with the facts. Crossing the frontier in a first-class carriage, he was by a trifling accident brought into conversation with a young Spanish nobleman; presently who should come along but the son of General Weyler. This acquaintance led to his receiving many attentions from Weyler when they reached Madrid, and the General actually gave up a day to a trip to the Escurial. Imagine this grim arch enemy of ours laying himself out to please the secret agent whom the government had sent to find out the weak places of Spain. How trifling the demarcation between the position of honored guest and that of spy who, if discovered, would have been all the more quickly sent to his death! The same issue of THE COSMOPOLITAN contains four pieces of fiction by such famous authors as FRANK STOCKTON, ZANGWILL, H. G. Wells, and the lamented HAROLD FREDRICK, but none of it half so exciting in its interest as this true srory.

List of Patents

Granted to Minnesota Inventors this week Reported by C. A. Snow & Co., Solicitors of American and Foreign Patents. Opp. U. S Patent office Washington, D. C.

W. J. Fletcher, St. Paul, friction-clutch pu'ly.

O. Granum, Montevideo, drill brace.

For copy of any patent send 10 cents in postage stamps with date of this paper to C A. Snow & Co., Washington, D. C.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Offical Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merrit. In the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the Insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manil. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Large book. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barber, Sec'y., Star Insurance Bldg., Chicago.

WEBSTER'S INTERNATIONAL DICTIONARY

Entirely New. Abreast of the Times. A Grand Educator.

Successor of the "Unabridged."

Everybody should own the Dictionary. It answers all questions concerning the history, spelling, pronunciation, and meaning of words.

A Library in Itself. It also gives the often desired information concerning eminent persons; facts concerning the countries, cities, towns, and natural features of the globe; particulars concerning noted fictitious persons and places; translation of foreign quotations. It is invaluable in the home, office, study, and schoolroom.

The One Great Standard Authority.

Hon. D. J. Brewer, Justice of U. S. Supreme Court, writes: "The International Dictionary is the perfection of dictionaries. I commend it to all as the one great standard authority."

Recommended by Every State Superintendent of Schools Now in Office.

A saving of three cents per day for a year will provide more than enough money to purchase a copy of the International. Can you afford to be without it?

Have your Bookseller show it to you.

C. A. French read a resolution which was adopted as follows:

RESOLVED: That we commend the course of Senator C. K. Davis the senior senator from this state, and earnestly urge that the nominees of this Senatorial Convention give him their undivided support, if elected to again return him to the United States senate at the close of his present term.

E. D. Washburn presented the following resolution, which was also passed:

WE, the republicans of Wright County in convention assembled, renew our allegiance to the principles of the republican party, and pledge our loyal support to all the nominees of the party in which as voters we exercise the rights of suffrage.

THE SONG OF THE "No. 9."

My dress is of fine polished oak,
As rich as the finest fur cloak,
And for handsome design
You just should see mine—
No. 9, No. 9.

I'm beloved by the poor and the rich,
For both I impartially stitch;
In the cabin I shine,
In the mansion I'm fine—
No. 9, No. 9.

I never get surly nor tired,
With seal I always am fired;
To hard work I incline,
For rest I ne'er pine—
No. 9, No. 9.

I am easily purchased by all,
With instalments that monthly do fall;
And when I am thine,
Then life is benign—
No. 9, No. 9.

To the Paris Exposition I went,
Upon getting the Grand Prize intent:
I left all behind,
The Grand Prize was mine—
No. 9, No. 9.

At the Universal Exposition of 1889, at Paris, France, the best sewing machines of the world, including those of America, were in competition. They were passed upon by a jury composed of the best foreign mechanical experts, two of whom were the leading sewing machine manufacturers of France. This jury, after exhaustive examination and tests, adjudged that the Wheeler & Wilson machines were the best of all, and awarded that company the highest prize offered—the GRAND PRIZE—giving other companies only gold, silver and bronze medals.

The French government, as a further recognition of superiority, decorated Mr. Nathaniel Wheeler, president of the company, with the Cross of the Legion of Honor—the most prized honor of France.

The No. 9, for family use, and the No. 12, for manufacturing uses, are the best in the world to-day.

And now, when you want a sewing machine, if you do not get the best it will be your own fault. Ask your sewing machine dealer for the No. 9 Wheeler & Wilcon machine. If he doesn't keep them, write to us for descriptive catalogue and terms. Agents wanted in all unoccupied territory. WHEELER & WILSON MFG. CO. Chicago, Ill.

$1.00 A YEAR FOR DEMOREST'S FAMILY MAGAZINE.

The Subscription price of DEMOREST'S is reduced to $1.00 a Year.

Demorest's Family Magazine is more than a Fashion Magazine, although it gives the very latest home and foreign fashions each month; this is only one of its many valuable features. It has something for each member of the family, for every department of the household, and its varied contents are of the highest grade, making it, pre-eminently, The Family Magazine of the World. It furnishes the best thoughts of the most interesting and most progressive writers of the day, and is abreast of the times in everything,—Art, Literature, Science, Society Affairs, Fiction, Household Matters, Sports, etc.,—a single number frequently containing from 200 to 300 fine engravings, making it the Most complete and Most Profusely illustrated of the Great Monthlies.

Demorest's Magazine Fashion Department is in every way far ahead of that contained in any other publication.

Subscribers are entitled each month to patterns of the latest fashions in woman's attire, at no cost to them other than that necessary for postage and wrapping.

NO BETTER CHRISTMAS GIFT

than a year's subscription to Demorest's Magazine can be made. By subscribing At Once you can get the magazine at the reduced price, and will also receive the handsome 25 cent Xmas Number with its beautiful panel picture supplement.

UNPRINCIPLED, UNMANNED.

(Written for the Prison Mirror.)

A man's a man with but his name—
A man's a man devoid of fame,
But when, the name he merits not,
Is when he is unprincipled.
When standing in life's conning tower,
That place is darkest every hour—
The blighted spot—on earth a blot—
Where men do dwell—unprincipled.
The danger signal flies in vain
For men who, for a guilty gain,
Will ruin earthly innocence—
The men of shame—unprincipled.
If man would stop before a sin,
Begotten of the thought within
He'd shudder at the consequence,
Of doing aught—unprincipled.

THE supplement to the Aitkin Age is a fine one and gives a very good impression of the possibilities of Aitkin and surrounding country. The Willmar Argus also came out with a boom edition last week.

C. F. MCDONALD, of St. Cloud, has been appointed a member of the Board of Trustees, of the Minnesota Soldiers' home, to take the place of Judge L. L. Baxter, resigned. Mac will see to the best interests of the old soldiers.

SENATOR HOAR, and several others are determined to fight against the annexation of the Philippine Islands to U. S. territory. It looks now as if the long winded speeches on the subject would prevent action by this Congress. As it is necessary to have two-thirds of the members in favor of the bill to pass it, it may fail to pass. Debate may serve to keep the country in a state of war; our volunteers in the army; the war taxes coming in; and give prosperity generally, if that's what is called prosperity, to our country.

JOHN LIND, Governor elect, is being overrun with applications for appointments to offices of different kinds, by constituents in different parts of the country. Some will not get appointed; they will have to accept disappointment as best they can. There is not enough offices to furnish places for all. And the new Governor will have to be a little careful how he makes appointments in order to be sure of their constitution. We understand there are some aspirants in Wright county. We hope only worthy men will be accepted and Wright should have a few of the offices.

CONGRESS will convene in a few days and then we will begin to read the fiery speeches of the annexationist and of the ante-annexationist. It is hard to say yet what will be the outcome of the Spanish war. We captured the Philippines; that is we took Manila from the Spaniards. But the natives own the balance of the Islands, mostly. After capturing the Spanish possessions there, our Peace commission, headed by C. K. Davis, has agreed to pay Spain $20,000,000 for possession. It looks kind of funny that, after capturing all Spain owned there, that we pay besides, and then don't have the Islands. Some of the strongest men in Congress of all political faiths are opposing annexation.

AFTER weeks of expensive dilly dallying, by the Peace commission Spain has agreed to accept $20,000,000 for a quit claim of her interests, (very small interests when compared to the natives interest) in the Philippine Islands. What else could Spain do? Why not have made the offer and received the answer a long time ago? Everybody knew that Spain was unable to longer fight or hold out against the U. S. Now that the United States owns the Philippines what is she to do with them? Will she take off all tariff; or will she break her rules and regulations and allow a tariff collected between different parts of our own country? Will she place a guard around the Islands to keep out the Chinese; or will she now permit the Mongolian to become a resident and a citizen of the United States? Lots of questions to be settled.

Judge Thomas Canty has every reason to be proud of the splendid vote given him by the people of the state. He is yet a young man and will be heard from in the future.—Aitkin Age.

SOME of the gold bug organs are still trying to kill free silver; though they say it is dead. They are harping on Hon. C. A. Towne. They say if he had taken advice he would not have preached free silver in this campaign, and would have been elected. It don't look just like it. He reduced Page Morris' majority considerably and advocated his pet theory, faithfully.

The idea of Charley Towne not advocating free silver! How big a man would he have been now had he smothered his convictions, in the last campaign; or in the Republican Convention where he walked out; or in the halls of Congress when he was there. When Charles A. Towne goes to Congress he takes with him his convictions.

THE Hurculean efforts of some of the City papers to make the election of Hon. C. K. Davis to the U. S. Senate, unanimous, is bearing fruit. It is serving to stir up the animosity of those who are not favorable to Mr. Davis, and whether their opposition is for personal or political reasons, matters not so long as the opposition unites; and then, there are other men who would have strong followings for one or another reason. The Hon. C. K. is from St. Paul, and has been there for six years. It is now time to give some other place, Minneapolis for instance, a chance. Then there are able men, who are far more popular with the people today than Mr. Davis has been since he attached himself to the corporation interests, about which he used to talk so much. Judge Thomas Canty, of Minneapolis, is such a man. If nominated for U. S. Senator, he would, we believe, by a vote of the people, unhampered, be selected by a large majority over C. K. Davis.

His Remorse is Awful.

HUNTSVILLE Ala., Nov. 29.—Private Lindsay P. Holt, Troop F, Tenth United States cavalry, now encamped here, is resting under a death sentence, the result of a recent court-martial at which it was proven that he was guilty of murder. The orgin of this man's trouble is whisky. His best friend was the victim and the unfortunate's remorse is awful.

This is the first death sentence passed upon an enlisted man since the beginning of the war and for many years previous. It is attracting widespread attention. The order of execution reads as follows:

"The foregoing case of Lindsay P. Holt, the sentence having been approved by the proper authority is, under the tenth article of war, hereby confirmed, and will be duly executed by the provost guard, under direction of the provost marshal, in such manner and at such time and place as shall be ordered by the proper authority. Under the 111th article of war the execution of the sentence is hereby suspended until the pleasure of the president of the United States in this case is known.

"By command of Maj. Gen. Wheeler,
"J. K. THOMPSON,
"Assistant Adjutant General."

May Cause A Strike.

CHICAGO, Nov. 29.—A Pittsburg special says: James J. Hill, president of the Great Northern, has made a contract with West Virginia coal operators for 500,000 tons of coal to be delivered during 1899. It is to be delivered at Sandusky, O., docks, for $1.25 per ton. This is 25 cents below the price at which the operators of the Pittsburg district could furnish it, and may open the miners' scale again and lead to strikes in Pennsylvania, Illinois and Indiana. President Hill, in reply to a telegram, says his company does not publish its purchases of coal or other materials.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Official Historian to the War Department. The book was written in army camps at San Francisco on the Pacific, with General Merritt, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manila. Remarkable facts. Brimful of original pictures taken by government photographers on the spot. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, P. T. Barber, Sec'y., Star Insurance Bldg., Chicago.

WASHINGTON LETTER.

(Fromour Regular Correspondent.)

WASHINGTON, D. C., Nov. 25, 1898.

General Nelson A. Miles is probably the only prominent official in Washington who will be really glad to meet General Calixto Garcia who, with his fellow commissioners named by the recent Cuban Assembly to confer with Mr. McKinley on Cuban affairs, is coming to Washington. General Miles took a great fancy to Garcia when he was in Cuba, during the Santiago campaign, and will give a dinner in his honor, at his club. Members of the administration will be polite to Garcia, but they will not tire themselves throwing boquets at him or his Cuban colleagues. It is generally understood that General Shafter queered Garcia with the Administration. The matter has not been fully decided, but it is thought that Mr. McKinley will refuse to receive Garcia and his associates as a commission representing the Cuban Assembly, but may receive them as private citizens and here what they say, or may direct Secretary Hay to receive them.

The $20,000,000 which we shall have to pay Spain, if our termes for peace and the purchase of the Philippines are accepted, is only about one third possibly not one fourth of the total amount this government will be called upon to pay. One section of the terms provides that each country shall waive all claims that its citizens have against the other for money damages. That will make this Government responsible for all damage done to property owned by American citizens in Cuba, during the two last revolutions. Claims against Spain aggregating more than $25,000,000 are already on file at the Department of State, for this class of damages, and if this Government becomes responsible as many more are certain to be filed. Allowing that these claims would be scaled down one fifth, there would still be left about $40,000,000 for this Government to pay, besides half that amount which it must pay to Spain. There is nothing in those terms for Americans to do any hurrahing over.

Wherever there is a government appropriation there will be schemers devising means for getting some of the money. The probability that the U. S. will build even more warships in the next fifteen years than it has built in the past fifteen years has resulted in the formation of a ship builders trust, embracing practically all of the establishments which are prepared to construct warships. Inasmuch as there has from the first been an agreement among the shipbuilders as to prices when bidding for Government work, it is a little difficult to understand why they have made this new combine, but certain that it is not in the interests of the Government, as was shown by the combine in virtually compelling the Navy Department to agree to its plans concerning the new monitors, contracts for which were recently given out.

Thoughtful persons are asking if the announcement of the administration that its commercial policy in the Philippines would be that of the "open door" equal freedom of trade to all nations which prevails in all of free trade England's colonies, is not the first step towards the abandonment of a strictly protective tariff by the republican party. Many think it is. Whatever may be Mr. McKinley's intention, he will find it a source of constant irritation to our own business men and those of other countries who do business with us to have one commercial policy for the U. S. and another for our colonies.

There are indications in plenty that the end of the investigation conducted by Mr. McKinley's commission into the management of the war is likely to be very different from what its conduct up to election day indicated. The evidence heard, in Washington and elsewhere, since election has not been directed by General Dodge so markedly as it was previous to election and bits of truth regarding official mismanagement are constantly coming to the surface. It is stated on authority that Mr. McKinley has been convinced that individuals as well as the system of the war department which everybody admits to be faulty, were responsible for much unnecessary suffering and many deaths, and that he wishes the guilty punished. Whether any man of prominence is punished remains to be seen, but the opinion is daily growing that the Commission will have to report a number of persons as deserving punishment. The public will not be satisfied if this list includes only a few scape goats in the persons of minor officials. The two men who were directly in charge and who were responsible for every order sent out by the War Department are Secretary Alger and Adjutant General Corbin, and if they escape punishment it will be ridiculous to punish any of their subordinates.

Mr. Andrew Carengie, the multi-millionaire steel maker who finds the country in which he made his money not good enough to live in, and who is said to have taken out British citizenship papers several years ago, in Scotland, where he lives about three fourths of his time, has been raging around Washington this week, on the Philippine question, to an extent that has caused many to believe that he has big money invested in Spanish bonds. That is the only logical explanation of his wild fool talk about hoping that Americans will be shot down when they try to take possession of the Philippines, etc.

THREE PRAYERS.

An infant in its cradle slept,
And in its sleep it smiled—
And one by one three women knelt
To kiss the fair-haired child;
And each thought of the days to be
And breathed a prayer half silently.

One poured her love on many lives,
But knew love's toil and care;
Its burdens oft had been to her
A heavy weight to bear;
She stooped and murmured lovingly:
"Not burdened hands, dear child, for thee."

One had not known the burdened hands,
But knew the empty heart;
At life's rich banquet she had sat
An unfed guest, apart;
"Oh, not," she whispered tenderly,
"An empty heart, dear child, for thee."

And one was old; she had known care,
She had known loneliness;
She knew God leads us by no path
His presence cannot bless;
She smiled and murmured trustfully:
"God's will, dear child, God's will for thee!"

—Kate Tucker Goode, in Alkahest.

Held for His Own Murder

"IT IS all arranged for tomorrow," said Mrs. Latymer-Wynne, as she and her husband took their seats at the dinner table.

"What is arranged?" asked her husband, a little grumpily, for he had had a long and fatiguing day in the city.

"O, the football match, of course."

"And are you going to waste your afternoon in looking on?"

"O, no; I am going to play."

"You cannot be serious, Kate. You, a married woman with two children, going to exhibit yourself in that way before a crowd of loafers! And in that dress, too!"

"Well, the dress is a little unbecoming—that's the worst of it. But as to exhibiting one's self, that's all nonsense. Isn't it a woman's business to exhibit herself? Don't we all exhibit ourselves when we go to a drawing-room?"

Mrs. Latymer-Wynn was decidedly cleverer than her husband, and kept him on the whole, in a state of subjection. He was a good, honest fellow, who did well on the stock exchange, where his high animal spirits and propensity for practical joking were much appreciated; but he was no match for his pretty wife in the little verbal conflicts which sometimes take place between the most affectionate couples.

"I'm really lucky to have the chance," she went on. Mrs. Flyte—that's our captain, you know—said that, on present form, I hadn't much claim to a place on the team, but that, as two of her cracks were down, she'd give me a trial. O, wasn't it good of her?"

"And you're going to allow a lot of cads to criticise you, and perhaps call out: 'Get it, Tommy,' as they did at a ladies' football match the other day. Ladies, indeed! It's positively disgusting!"

"O, I think I'm all right, Harry. And if they like to call me 'Tommy' I don't mind. You know it's meant in admiration."

"You will regret it yourself one day, Kate—I am sure you will."

But Mrs. Latymer-Wynn only smiled. Still, if she could have foreseen the terrible calamity that was about to befall her she would have relented. But who can foresee the future.

Those who are living in Clapham—or, indeed, anywhere in the city, at that time cannot have forgotten the extraordinary sensation that was excited by what was called the Clapham mystery. And the scene of the mystery was Mrs. Latymer-Wynn's house.

It appeared that, as the various rooms in the upper story were in the hands of painters and paperers, Mr. Latymer-Wynn occupied temporarily the library on the ground floor as a bedroom, while his wife slept with the children on another floor.

Nothing occurred during the night to disturb those who slept upstairs. But when the servants came down in the morning and proceeded to call their master they were unable to rouse him. The door was forced open.

There was no sign of Mr. Latymer-Wynn, but there were various indications of a desperate struggle.

One of the windows was open below, and between this window and the bed the floor was strewn with fragments of the heavy china ewer belonging to the washstand. It appeared as if this had been used by the unfortunate man as the only thing in the nature of a weapon within reach. More ominous still, a closer inspection revealed blood stains on the carpet.

A little later Inspector Bickerdyke, the celebrated detective made his appearance on the scene.

It almost seemed as if even Inspector Bickerdyke would for once be baffled. But at last his patience was rewarded; a sweep made his appearance on the scene and informed the detective that as he was passing the house in the early dawn he had seen a man, shabbily dressed in a gray suit, stealing from the premises.

The inspector's small eyes twinkled with satisfaction as he listened to this statement. The mere fact that the criminal wore a gray suit did not seem much to go upon, but Inspector Bickerdyke felt sure that it would be enough for him. He would track that gray suit to the remotest corner of the earth.

The next morning there was in all the papers a long account of "The Clapham Mystery." A well-known member of the stock exchange had been surprised by burglars when asleep, and after a desperate resistance had been murdered and the body carried off. And yet all the efforts of the police to discover where the corpse had been hidden had been fruitless.

But, the investigation having been intrusted to Inspector Bickerdyke, that famous detective had already made an arrest on suspicion. He had succeeded in tracking one of the supposed murderers—the man in the gray suit—step by step from Clapham to Whitechapel, where he had discovered him in a low public house and arrested him. It was added that he would be brought before the magistrates some time that day (Saturday).

When the man was placed in the dock he refused to give his name and address, nor would he give any account of himself. He had, therefore, been taken to the station and there searched and his clothes examined. Blood stains were found upon them.

These might be accounted for by a fresh cut on the thumb of the right hand. He had in his possession a large sum of money in notes and gold, of which he refused to give any account. In fact, he had hadly spoken a dozen words since his arrest.

But the strongest piece of evidence against him was that a watch and chain had been found upon him which had been shown to Mrs. Latymer-Wynne and which had been identified by her as belonging to her husband.

The evidence of the servants and of the sweep (who swore to his identity) was taken, and then Mrs. Latymer-Wynne made her appearance. Apparently even his hardened nature had broken down at the thought of confronting the widow of his victim, for he came back into court holding a handkerchief to his eyes.

Her evidence was short, relating as it did merely to the disappearance of her husband and the identification of the watch and chain. The prisoner declined to put any questions to the witness. He was now asked if he wished to say anything before being removed.

"Well, there is one thing I should like to ask," he said, "and that is whether there is any law in England against a man wearing his own watch and chain?"

"Don't trifle with the court," said the magistrate, sternly.

But something in the sound of the prisoner's voice had caused Mrs. Latymer-Wynne to turn around and to look at him again.

"What, Harry!" she cried, "is it you?"

"What is the meaning of all this?" asked the magistrate, glaring at Inspector Bickerdyke.

"Beg pardon, your worship," he stammered; "it beats me hollow."

"Allow me to explain," said the prisoner, blandly. "I am Mr. Latymer-Wynne, and I am curious to know why a gentleman may not leave his own house early in the morning without being arrested. May I ask what crime I have committed?"

"LADIES, INDEED, IT'S POSITIVELY DISGUSTING."

"Your conduct is most reprehensible, sir," said the magistrate, ruffling with a sense of wounded dignity.

"Pardon me, your worship," said the prisoner. "I have done nothing. I have simply been passive in the hands of Inspector Bickerdyke.

"And what was your object in playing such a farce?" asked the magistrate, gulping down his indignation.

"Well, I had two objects. The first is a private one, with which I will not trouble your worship. The other was to see how far the cleverness of a London detective would go. Now that I have got one of them to arrest a man as his own murderer I am satisfied. I think I have established a record."

"How could you give me such a fright, Harry?" said Mrs. Latymer-Wynne as, a few minutes later, she and her husband were driving home together in a cab. It was cruel of you."

"O, you know well enough. I had to stop you somehow from playing in that beastly football match. Next time I shall do something worse."

"But Harry, dear, you cannot really have thought that I ever meant to play. Why, I only said it to tease you."

"O!" said Harry. "Then I needn't have smashed the water jug to cut my finger, after all. But who is to know what a woman does mean?"—Chicago Tribune.

Knew His Habits.

The following anecdote is given me by an Indian officer as illustrative of the manners and customs of the wily Pathan. A certain general and his staff, while wending their way through one of the narrowest valleys of Tirah, were annoyed by the attentions of a solitary marksman, who from time to time sent a bullet unpleasantly close. At last the general turned to his orderly—a Pathan sowar—and told him to dismount, take his carbine, and try and stalk the mountaineer. The sowar started off, and presently there was a crack, and a gray-bearded old Afridi tumbled headlong down the mountain side. The sowar rejoined and fell into his place. "Well done!" said the general. "But how on earth did you manage it so easily?" "Oh," replied the sowar, "I knew his habits. He was my father."—London Truth.

Woods of the Philippines.

The Philippine islands are rich in native woods, which are almost unknown to the rest of the world. There are said to be 32 tinctorial or coloring woods, which give the entire series of colors or shades. Ebony of very fine grain also abounds, and the Magkano wood, which grows in Mindanao, is said to be absolutely immune from rot.

AGENTS WANTED

In Every County to Supply the Great Popular Demand for

AMERICA'S WAR FOR HUMANITY

TOLD IN PICTURE AND STORY

Compiled and Written by

SENATOR JOHN J. INGALLS, Of Kansas

The most brilliantly written, most profusely and artistically illustrated, and most intensely popular book on the subject of the War with Spain. Nearly

200 Superb Illustrations from Photos.

taken specially for this great work. Agents are making $50 to $100 a week selling it. A veritable harvest for live canvassers. Apply for description, terms and territory at once to

N. D. THOMPSON PUB. CO.
ST. LOUIS, MO., NEW YORK CITY
726 St.

50 YEARS' EXPERIENCE
PATENTS
TRADE MARKS, DESIGNS, COPYRIGHTS &c.
Anyone sending a sketch and description may quickly ascertain, free, whether an invention is probably patentable. Communications strictly confidential. Oldest agency for securing patents in America. We have a Washington office. Patents taken through Munn & Co. receive special notice in the
SCIENTIFIC AMERICAN,
beautifully illustrated, largest circulation of any scientific journal, weekly, terms $3.00 a year; $1.50 six months. Specimen copies and HAND BOOK ON PATENTS sent free. Address
MUNN & CO.,
361 Broadway, New York.

WANTED—SEVERAL TRUSTWORTHY PERsons in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $24 a week and expenses—definite, bonafide, no more, no less salary. Monthly $75. References. Enclose self-addressed stamped envelope. Herbert E. Hess Treas., Dept. M., Chicago. 26-26t

If It's Worth Printing the Twice-a-Week Courier-Journal Will Print It.

And Every Democrat, Every Republican, Every Man, Woman or Child who can read will want to read it.

"Meantime we plan to make our chance with the conservative Democracy, fighting within the party to reform its evil excesses, as it is to-day. It is up to better men, than to pursue an ignis fatuus while, if it had been more real, would have resulted in the election, instead of the defeat, of the Free Silver Fusion in 1896, and which with singular unanimity, the voters have refused to follow. The Courier-Journal is a Democrat, not a Republican; and it will under no circumstances or conditions pursue a policy whose only effect is to continue the Republican party in power."

The Twice-a-Week Courier-Journal is a Democratic paper, of six or eight pages, issued Wednesday and Saturday of each week. The Wednesday issue prints all the Clean News, and the Saturday issue prints stories, Miscellany, Poetry, all matters of special interest in the home. It is edited by Henry Watterson.

Price $1.00 a Year.

You get 104 good papers of six or eight pages each, for $1—less than one cent a paper.

The increase in the foreign trade of the United States this year exceeds in value the entire foreign trade of the country for any year preceding 1850.

The navy department has sent Miss Helen Gould a souvenir of the Spanish American war in the shape of an 800-pound 12-inch projectile from the battleship Iowa.

Time was when the best boxes at the horse show in New York sold for $1,000. This year the management had hard work to find some one to take them for $75 or $50. One more score for the bicycle!

At Hamburg and Bremen last year the imports of corn from this country amounted to $13,800,000, an increase of nearly 50 per cent. The maize missionary work performed in Germany has had valuable results.

In response to an appeal by Gen. Wheeler over 100 American colleges have each offered to take two or more young Cubans to be educated free. The humanitarian side of the Cuban question is not overlooked.

A Paris letter says that when the typesetters in Antwerp recently struck, the Petit Blue published its paper without using a single piece of type, the whole paper being made of photo engravings of typewritten copy.

Gold Bible hill, the mound where Joseph Smith, the founder of the Mormon faith claims to have dug up, under celestial direction, the golden plates on which were inscribed the Mormon Bible, is situated on the farm of Admiral Sampson, near Palmyra, N. Y. The mormons tried to buy the mound in 1893 to erect upon it a memorial chapel, but the admiral refused to sell it.

The United States bureau of statistics announces that the demand for American corn is steadily increasing; that the exports of corn from the United States for October were 5,000,000 bushels larger than for the same month last year; and that the exports of corn for the ten months of this year amounted to 170,086,595 bushels, against 156,356,373 bushels during the first ten months of 1897.

The avowal by the new Japanese minister, Mr. Komura, while on his way to Washington, of the friendship of his country to the United States, and his declaration of its "thorough sympathy with the United States in its demand for the Philippines," will be received with satisfaction from one end of this country to the other. There is no nation in the far east whose friendship the Americans more highly appreciate than the progressive "Yankees of the Orient."

The commissioner of internal revenue decides that city merchants who receive on deposit money from country merchants who are their customers but not from the public generally are not subject to the special tax as bankers. Also that the receiving of employes' deposits on interest does not involve a company or firm in special tax liability as bankers. Also that the lending of money on household goods or other chattel property is not the business of banking contemplated by the law.

The immigration to the United States during the past year was the smallest in 18 years—229,299. A strict enforcement of the laws against the admission of paupers and criminals and dependent persons of all sorts has cut down the number of foreign mendicants, but that the great majority of the immigrants have little or nothing is evidenced by the fact that of all those over 20 years of age 75 per cent, had less than $30. The people stand for a continued strict enforcement of those immigration laws.

The new Maine, whose keel is now being laid, will be larger, more powerful and better in every way than the ill-fated namesake blown up in the harbor at Havana. She will be 12,150 tons displacement and will be rated as a first-class battleship equal to anything afloat. Her speed will be 18 knots an hour, she will have a main battery of four 12-inch and 14 6-inch rapid fire rifles, and a secondary battery of 16 6-pounders, four 1-pounders, one Colt, and two field guns; her complement will be 500 men, and her cost $2,885,000. The Maine will be finished in two years.

An old Pennsylvania law has been revived in Pittsburgh. Fifteen years ago Frank Leslie Gould had a leg cut off by a car of the South Side Passenger Railway company. He has attained his majority, and now brings suit for $25,000 under an act of assembly approved March 27, 1713, which permits a minor to bring an action for damages within six years after he becomes 21 years old, in his own right, and without reference to the time when the cause for the action occurred. In 1881 the supreme court of Pennsylvania decided a case in which the act was declared good law.

Faneuil hall in Boston is being made fireproof, but the process seems to the reverent people of Boston more like destruction. Havoc has apparently been worked in the interior. Stairways have been torn down, floors ripped up and balconies demolished, it seems, ruthlessly. But it has all been done with care and reverence. Each piece of timber and each strip and board that is to be used in the reconstruction has been tagged and stored in fireproof vaults. The foundations have been strengthened and put in condition to withstand the ravages of time for ages, it is hoped.

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

In Havana the members of the colonial cabinet tendered their resignations to Gen. Blanco.

Advices from Madrid say that the cabinet has authorized Senor Montero Rios to sign the treaty of peace.

With ten officers and 233 soldiers the American steamer Florida arrived at Mariano, Cuba, from Savannah, Ga.

An order was issued by Gen. Wood prohibiting gambling in any form in Santiago, with a penalty of $1,000 for the infraction of the law.

Work of preparing the camps for the American troops in Cuba is being pushed rapidly.

In place of Gen. Blanco, resigned, Gen. Jimenez Castellano has been appointed captain and governor general of Cuba.

At a special meeting of the cabinet new propositions from Spain were discussed, after which the president cabled the American commissioners in Paris reiterating his former instructions.

From Savannah, Ga., the transport Chester sailed with the Fifteenth United States infantry for Nuevitas, Cuba.

In Porto Rico the soldier vote elected A. V. S. Cochrane (rep.) congressman from the Nineteenth New York district.

The New York, which during the war was known as the auxiliary cruiser Yale, has been thoroughly refitted for passenger service.

FROM WASHINGTON.

George E. Roberts, director of the mint, in his annual report, says the gold coinage of the world in 1897 was the largest recorded, amounting to $437,719,342, against $195,899,517 in 1896.

In his annual report Capt. Crowninshield, chief of the bureau of navigation, navy department, recommends that congress authorize the increase of the naval force to 20,000 men for general service and 2,500 apprentices.

In his annual report Secretary Bliss of the interior department, recommends that Alaska be allowed representation in congress. He also says that the total number of school pupils in the country is 16,255,093.

In his annual report First Assistant Postmaster General Ferry S. Heath says the general business of the department has increased over $6,000,000 during the fiscal year.

The secretary of the navy in his annual report describes the organization of the various squadrons and fleets that did such effective service in the war with Spain, urges that the grade of vice admiral be revived, says the navy has 190 ships, and recommends that 15 new warships be added.

In his report Dr. D. E. Salmon, chief of the bureau of animal industry, says that during the year 51,335,398 animals were inspected before slaughter.

Paymaster General T. H. Stanton, of the army, in his annual report shows an expenditure of $23,499,960, an increase of $2,326,804 compared with last year.

In his annual report Postmaster-General Smith says that in the fiscal year 1898 the gross revenue was $89,012,618 and the gross expenditure $98,033,523; the number of post offices was 73,000, and the total issue of postage stamps, stamped envelopes and wrappers and postal cards was 4,614,526,090.

THE EAST.

Colburn, Fuller & Co., boot and shoe manufacturers in Boston, failed for $300,000.

The veteran actor, C. W. Couldock, died in New York, aged 84 years.

In New York harbor a storm caused a great loss to shipping and eight lives were lost.

Throughout New England a snowfall ranged from eight to twenty-four inches, blocking railways.

Frank Rhoner, aged 68, killed his wife, aged 55, in New York, and then killed himself. Poverty was the cause.

In Philadelphia the People's bank, which failed March 25 last for $1,500,000, has paid depositors in full.

In a terrific gale 63 vessels were wrecked off the New England coast and 50 lives were lost.

Burglars blew open the vault of the Wrentham national bank at Wrentham, Mass., and $2,600 and notes valued at $65,000 were taken.

WEST AND SOUTH.

Susan Sanders, aged 107, died in the house she was born in on Chucky river in the Watauga valley in Tennessee.

On the Burlington, Cedar Rapids & Northern railroad a train jumped the track near Burlington, Ia., and Mrs. Catherine Davis and Amanda Harmes were killed and 22 other persons were injured.

At the age of 91 years Gen. Andrew T. McReynolds, a veteran of the Mexican and civil wars, who claimed to be the oldest Knight Templar in the United States, died in Muskegon, Mich.

For murdering Charles Askew on September 19, 1897, William Cato was hanged at Eddyville, Ky.

In mountain towns in the west part of North Carolina and southwest Virginia an earthquake shock occurred at the same hour.

On the Lake Shore road a train struck a handcar near Burdick, Ind., killing William Kemper and William Sabinski and his two daughters.

At Anniston, Ala., a riot between members of the Third Alabama negro regiment and the white soldiers resulted in the killing of one man and the wounding of several more.

At Cleburne, Tex., John B. Shaw was hanged for killing Thomas Craine.

In Chinatown, a San Francisco suburb, the bubonic plague, or Asiatic cholera, has been discovered.

Mrs. Mary Tomes, aged 23, a widow, and Levi T. Turpin, aged 21, while driving were struck by a train near Kappa, Ill., and instantly killed.

Flames destroyed the business portion of Cuyahoga Falls, O.

Constable James Driver and his son and Benjamin Boon were killed in a quarrel at Hughes' Springs, Tex.

Rev. William E. Paine, aged 88, late postmaster at Peaksville, Mo., and Mrs. Mary T. Ringer, aged 85, were married at Golden City, Mo., after a courtship of one day.

In San Francisco the battleship Wisconsin was launched and Miss Elizabeth Stephenson, of Marinette, Wis., christened the vessel.

Burglars murdered "Grandma" Wynn, aged 84, the richest resident of Brooklyn, Ill., and owner of half the town.

By the explosion of one of the boilers in a steamer near Stockton, Cal., six persons were killed, ten dangerously wounded and 20 others badly injured.

Four miles west of Meridian, Miss., three negroes were lynched for assaulting a white man.

FOREIGN INTELLIGENCE.

For the first time Santiago de Cuba celebrated Thanksgiving. All the ships in the harbor were decorated with bunting and the day was practically observed by the Cubans.

In Manila Thanksgiving day was celebrated by the Americans and British.

Off Beachy head, near Swansea, England, the British steamship Fitzjames foundered and ten of her crew were drowned.

Hereafter Chili will prohibit the issue of paper money.

From a tour of the Holy Land the emperor and empress of Germany arrived home.

To act as a guard for the United States legation at Peking the United States navy has landed marines at Tien-Tsin, China.

LATER NEWS.

Germany was the first nation to officially express satisfaction with the Paris peace agreement. Even before the president had received official advices from Paris, Baron Speck von Sternburg, the German charge d'affairs, acting under instructions from his government, called on Secretary Hay and expressed the perfect satisfaction of the German government.

Thirty-eight persons were killed or injured by an accidental explosion of powder at Havana.

During the recent storm along the New England coast fully one hundred vessels were wrecked and at least seventy lives lost.

The war department is preparing to muster out 30,000 or 40,000 volunteers, now that peace is assured.

The United States supreme court the 28th occupied its own rooms in the capitol for the first time since the fire some weeks ago. The necessary repairs had been made and the room did not look very different from what it did previously.

Harry B. Weston was arrested at Keokuk, Io., for forgery. He had just been released from the penitentiary.

Madame Dreyfus, the wife of former Capt. Alfred Dreyfus, the prisoner of Devil's Island, has, by permission of the authorities, received the following telegram from her husband: "I rejoice with all of you. My health is morally and physically good."

The joint peace commission met promptly at 2 p. m. the 28th and the Spanish commissioners immediately announced the acceptance of the American demands. The Spanish commissioners announced that they were authorized by the government to the reply that the American propositions were inadmissable on legal principles, but on the Spanish part all diplomatic resources were exhausted, and the Spanish commission was asked to accept or reject the proposition. Spain, inspired by patriotism and humanity, and to avoid the horrors of war, resigns herself to the powers of the victor.

The large furniture establishment of Robert Keith & Co., at Kansas City, was totally destroyed by fire.

An effort will be made by persons interested in lake transportation to have the Angio-American commission to take up the project of a canal joining the great lakes and the Atlantic. This project has been favorably reported upon by a deep waterways commission authorized by congress.

Pitt Cravath of Whitewater, Wis., the well-known democratic party leader, is dead from laudanum poisoning and gas inhaling with suicidal intent. It is supposed dependency caused by the death of his wife was the cause of his rash act.

The steamer Portland, plying between Boston, Mass., and Portland, Me, was wrecked off the coast of Massachusetts and the entire crew and passengers perrished a short distance from land.

The steamer Detroit has been wrecked on Shelter island 20 miles Srom Juneau. The Detroit has 27 passengers, all of whom were saved.

The government has been officially notified of the successful termination of the peace negotiations with Spain.

An attempt to break up the annual meeting of the Eighteenth Ward Republican club at Bricklayers' hall, Chicago, resulted in the death of Charles Lattimore, one of the attacking parties, and the wounding of several of those who participated in the fight.

A trust has been formed in New York to control the output of thread in America.

A Missouri Pacific passenger train was held up near Sedalia, Mo. The robbers secured nothing, but one of them was captured and proved to be Jim Wert, an engineer in the company's employ.

A bomb containing powder and balls, capable of doing great damage, was found in the bourse at Marseilles, France. The fuse had been lighted, but it had not burned.

All of the hotels on Block Island off Providence, R. I. were wrecked by the storm.

The steamer Coptic, which sailed from San Francisco, took 500 Dhinese away, many of whom had been orderd deported by the courts.

MARKETS.

Poultry—Turkeys, 7@8c; spring chickens, 7@8.

WILL SIGN THE TREATY.

Spain at Last Accepts the Peace Terms Dictated by the American Commissioners.

SHE CEDES THE PHILIPPINE ISLANDS.

But in Return Uncle Sam Pays Her $20,000,000—Yields to a Desire for Peace—What the War Has Cost Us and What We Gain—Spain a Heavy Loser.

Paris, Nov. 29.—Spain has accepted the United States' offer of $20,000,000 and at a joint session of the peace commission Monday afternoon consented without condition to relinquish Cuba and to cede Porto Rico, Guam and the Philippine islands. The document presenting this acceptance contained only 300 words. It opened with a reference to the final terms of the United States and said that the Spanish commissioners, after having taken cognizance of the terms proposed by the Americans, replied that their government had tried to give as equitable an answer as possible, but that they were not prepared to commit their government to the acceptance of the principles embodied in the American argument. Spain rejects these principles, the note continues, "as she always has rejected them." Basing her attitude upon the justice of her cause, the note then says, she still adheres to these principles, "which she has heretofore invariably formulated."

Yields to a Desire for Peace.

However, the note adds, in her desire for peace, she has gone so far as to propose certain compromises, which the Americans have always rejected. She has also attempted, it is further asserted, to have submitted to arbitration some of the material particulars upon which the two governments differed. These proposals for arbitration, it is added, the Americans had equally rejected.

Submits to Her Conqueror.

Spain has, however, exhausted all the resources of diplomacy in an attempt to justify her attitude. Seeing that an acceptance of the proposal made to Spain is a necessary condition to a continuance of negotiations and seeing that the resources of Spain are not such as to enable her to reenter upon war, she is prepared, in her desire to avoid bloodshed and from considerations of humanity and patriotism, to submit to the conditions of the conquering nation, however harsh they may be. She is therefore ready to accept the proposals of the American commission as presented at the last sitting.

Well Pleased.

The American commissioners are naturally well pleased at the successful conclusion of their mission. The questions that remain are comparatively unimportant and admit of speedy settlement. The American commissioners will hasten matters with a view to having the treaty signed within ten days or so and of sailing for New York December 17. Judge Day said Monday evening: "We have done the only thing possible regarding the Philippines. Our opportunity of giving them up was lost when Admiral Dewey did not weigh anchor and sail away.

A RESUME.

Provisions of the Treaty—What We Get—Cost of the War.

Following is a brief summary of the provisions of the treaty with Spain:

Cession of Porto Rico to the United States.

Cession of the island of Guam in the Ladrones.

Cession of the Philippine archipelago to the United States upon the payment of $20,000,000.

Renunciation of all claims for indemnity.

Religious liberty in the Carolines.

Liberation of all political prisoners.

Restoration of past treaties and commercial relations.

The taking over of the island of Kusaie, or Ualan, in the Carolines, for a telegraphic and naval station.

Cable station rights at other points in Spain's jurisdiction.

In figuring the cost of the war to both nations Spanish loss is as follows:

Cuba	$200,000,000
Philippines	450,000,000
Porto Rico	150,000,000
Cost of war	125,000,000
Loss of commerce	20,000,000
Thirty ships lost	30,000,000
Total	$1,075,000,000

The United States loses:

Maine	$2,500,000
Cost of war	200,000,000
Indemnity to Spain	20,000,000
Total	$222,500,000

Lost by the United States, about 253 men killed and about 1,324 wounded. About 2,000 men died in camp. These figures do not include the 266 sailors lost on the Maine or the men who have died of fever after being mustered out.

Lives lost by Spain, about 2,500 killed and 3,000 wounded. No official statement of Spain's losses has been made.

Our gains are as follows:

Islands.	Sq. miles.	Population.
Porto Rico	3,500	806,708
Philippines	114,326	8,000,000
Sulu	950	75,000
Guam	120	8,561
Isle of Pines	1,214	2,500
Totals	120,110	8,892,769

This does not include Cuba, area 119,240 square miles, population 1,631,619, of which the United States has possession pending the establishment of a stable government there.

Quiet in Madrid.

Madrid, Nov. 29.—The city is calm. There have been no disturbances resulting from the announcement of Spain's acceptance of the terms of the Americans. The papers, however, publish gloomy articles, sadly reminding the country that the day is one long to be remembered as marking "the closing scene of a glorious colonial history." All agree that the government has adopted the only possible policy, though much bitterness is displayed toward the United States.

Former Relations to Be Resumed.

London, Nov. 29.—The Paris correspondent of the Standard says: It is probable that the former commercial relations between Spain and the United States will be restored without great modification. If a new commercial treaty is required, its negotiation will be left for a new commission as the present American commissioners do not possess the necessary documents and information.

Will Not Sell Carolines.

London, Nov. 29.—The Paris correspondent of the Times, M. De Blowitz, says he believes Spain will decline to sell the Carolines.

Blanco Is Out.

Havana, Nov. 28.—Marshal Blanco Saturday morning formally resigned the office of governor general and captain general of the island of Cuba in favor of Gen. Jaminez Castellanos.

THEY GAVE THANKS.

Thanksgiving Day at the White House—Celebrated at Santiago—Banquets Given Abroad.

Washington, Nov. 25.—Thanksgiving day was observed in the usual manner. A snow and rainstorm kept people off the streets and reduced attendance at the churches. All the executive departments and business houses were closed. The president, accompanied by his brother, Abner McKinley, attended divine service at the Metropolitan Methodist church and listened to a sermon by Rev. Dr. Bristol. The remainder of the day the president spent at home. He ate his Thanksgiving dinner with Mrs. McKinley and his brother, Abner McKinley, and wife, who are visiting at the white house. Most of the members of the cabinet are in the city and spent Thanksgiving day quietly at their homes.

Santiago de Cuba, Nov. 25.—Santiago celebrated its first Thanksgiving since the American occupation. All the ships in the harbor were decorated with bunting and the officers entertained friends at dinner. The day was practically unobserved by the Cubans, except those employed in the government offices. A football game which had been arranged between teams from the Fifth regulars and the Fifth volunteers was postponed until Christmas day, the weather being still too warm for such sport. Several officers stationed at Guantanamo and Manzanillo, who had secured leaves of absence, spent the day with friends here. All the regiments celebrated as well as possible under the circumstances. Turkeys were few, but hopes are entertained by the Americans that their friends in the north will ship turkeys to them in time for their Christmas dinner. The Cuban papers make practically no allusion to the day.

Berlin, Nov. 25.—A Thanksgiving dinner attended by 200 Americans was given at the Kaiserhof Thursday evening. John B. Jackson, secretary of the American embassy, presided at the banquet, and proposed toasts to President McKinley and Emperor William, both of which were received with cheers. President H. E. Gates, of Amherst college, made an address upon the significance of national holidays, after which Mr. Jackson introduced Maj. Gen. Frank Wheaton, U. S. A (retired). Gen. Wheaton in his address said he hoped congress now realized the fact that the United States needed an army commensurate with the requirements of a great nation.

London, Nov. 25.—The Thanksgiving banquet of the American society in London, which was held at the Hotel Cecil Thursday evening, was a glorification of Anglo-American friendship. Three hundred Americans and their English guests sat at a table under the entwined flags of the two nations. Two notable speeches were made, one by Mr. Henry White, the American charge d'affaires, and the other by Sir Edwin Arnold, who was supposed to be nearly at the point of death from paralysis, but who dragged himself into the banquet hall against the orders of his physicians, leaning on the arm of his Japanese wife and supported by a cane.

Paris, Nov. 25.—Gen. Horace Porter, American ambassador to France, held a brilliant Thanksgiving day reception at the embassy, at which many persons were present.

TO BE MUSTERED OUT.

Peace Treaty Promises the Release of Many Volunteer Soldiers—Troops at Manila Ask to Be Sent Home.

Washington, Nov. 29.—The war department, in view of the assurances that a peace treaty will be signed, is arranging to muster out more troops. It is probable that from 30,000 to 40,000 volunteers will be mustered out as soon as selections of regiments can be made. There has been quite a demand for the return of volunteers from Manila, but no troops will be brought from the Philippines unless they are replaced by others. Many of the volunteer regiments in Manila have asked, through the governors and congressmen of their states, to be returned to the United States, but the war department has not been able to make any definite promises pending the peace negotiations. With the acceptance of the American terms by the Spanish commissioners, any further possibility of renewal of hostilities with Spain is at an end, and the only necessity now for troops is to garrison the island and preserve the peace of our new possessions. It is probable that the 30,000 or 40,000 men mustered out will include a large number organized for service in Cuba, and the force at Manila will be reduced whenever Gen. Otis reports affairs in a quiet state in the Philippines.

Blizzard in New York.

New York, Nov. 28.—When the people of New York awoke Sunday morning they found the blizzard that raged when they retired was still in progress. The storm, which began with a soft, sleety snow on Saturday at noon, increased greatly as the day wore on, with heavier snow fall, the wind blowing a gale at midnight. There was a slight abatement of the wind Sunday morning but the snow still fell and drifted high and the temperature dropped rapidly. At ten o'clock a. m. there was a breaking away in the west, and finally the storm ceased altogether and the severest blizzard since the memorable one of March, 1888, came to an end. The wind blew at the rate of 59 to 60 miles an hour during the height of the storm.

It is known that a total of eight lives were lost Saturday night and Sunday and that 16 persons were injured through exposure and freezing. The aggregate loss to street railroads in New York city is put at $110,000; to telegraph and telephone lines, $17,000.

R. & O. Stockholders Meet.

Cincinnati, Nov. 29.—At the annual meeting of the stockholders of the Baltimore & Ohio Southwestern railway here Monday, more than ordinary interest was felt because of the retiring of Capt. W. W. Peabody, who has been so long connected with the road, and the necessary readjustment of the officers in connection with the proposed reorganization of the Baltimore & Ohio road, with which the Baltimore & Ohio Southwestern is so closely allied.

Murdered by Robbers.

St. Louis, Nov. 28.—Aged "Grandma" Wynn, the richest resident of Brooklyn, Ill., and owner of half the town, which lies across the river from here, was murdered Friday night or early Saturday morning by robbers, who cut her throat and left her dead in the front yard, after ransacking the house.

NOT ESTABLISHED.

Relationship Based on Remote Personages Was Difficult to Prove.

There is a young lady not far away who has a little private school and the other day she overheard the following conversation among her pupils:

It was Monday and one of them had evidently been much impressed with her Sunday school lesson of the day before, for as soon as another little girl came in, she astounded her by the announcement: "You are my sister."

"I'm not," said No. 2.

"You are," said No. 1, "haven't you got a Father in Heaven?"

"Yes," grudgingly.

"Well, so have I. Don't that make you my sister?"

No. 2 was entirely nonplussed at that and No. 1 correspondingly victorious; so when another little girl arrived upon the scene she thought she would try the same thing on her, too, and walking up before the newcomer announced as before: "You are my sister."

Now No. 3 happened to be a young lady of a very determined disposition and she declared just as firmly that she was nothing of the sort, and the "I'm nots" and "You ares" flew very fast for a minute, until No. 1 brought out her knockdown argument: "Haven't you got a Father in Heaven?" and stood awaiting the answer with a victorious smile.

But imagine her chagrin and the teacher's amazement when the other sputtered forth: "No, I haven't, and you know it. I've just got one grandfather up there!" and strode on to her seat, leaving the enemy vanquished behind her.—Cleveland Plain Dealer.

AN ASTHMA CURE.

A Most Unexpected Result of Getting Mixed Up with a Cyclone.

"Did the climate out there benefit your asthma?" asked a man on the boulevard of his next door neighbor who had just returned from a new resort in the northwest.

"Say, it makes me short of breath to think about it. I was sitting out in sort of an arbor the first afternoon after I reached there. I was in the shadow of a trailing vine through which the sunbeams sifted in mellow light. The air was balmy and freighted with the odor of roses."

"Must have been delightful!"

"Simply charming! Suddenly there was a sort of gigantic zip athwart the heavens, darkness enveloped the earth like a pall, and before I could cover three rods to the hotel on the dead run, there were six inches of snow on the ground. I never put in a wheezier night than the one that followed."

"Mighty sudden, wasn't it?"

"Yes, but that's the way things go out there. One morning I started to the nearest town, carrying a twig of cherry blossoms and wearing a white tennis suit. Out on the trail it turned cold quicker than you could wink your eye, and I would have frozen if a native hadn't wrapped me up in a horse blanket, a big wire nail serving as a shawl pin."

"Got through all right, did you?"

"Yes, providentially. A cyclone struck me, turned the blanket inside out and blew me for a mile. I don't know what did it, but I'm free from asthma."—Detroit Free Press.

A MUCH-MOURNED MOTHER.

Col. Shafter Thought Twice in One Month Was Too Often for Her to Die.

When Shafter was senior colonel of the army he was temporarily in charge of some western post, and numbered in his command an exceedingly bright, capable fellow whose cleverness was continually getting him the noncommission stripes, and whose escapades were just as frequently getting him reduced to the ranks. One day this soldier turned up at Shafter's quarters with a long face and applied for leave to attend the funeral of his mother, who had died the previous night, he said, in the town. The request was granted, but later on, in looking over the same records, the colonel discovered that the same man had been granted leave the month before on the identical pretext. Shafter said nothing, but a couple of days afterward encountered the bereaved warrior on the parade ground. "Look here, my man," said Pecos Bill, solemnly, "I want to ask you a question. Were you good to that mother of yours while she was alive?"

"Well, sir—yes, sir—that is, I hope so," stammered the culprit, not knowing what was coming.

"I hope so, too," replied the colonel. "I've heard of mothers dying for their sons, but never of one dying twice in 30 days for one. You may go in mourning for a month—at the guardhouse."—N. O. Times-Democrat.

EASYGOING PEOPLE

Those who disregard early indications of disease.

The progress of catarrh is frequently gradual. Chronic catarrh secures possession without the knowledge of its victim.

It has become so common to say, "Everybody has a little catarrh" that many easy going people pay slight attention to it. Yet no class of disease is so difficult to shake off.

Many people well advanced in years find themselves in the toils of catarrh. Mr. and Mrs. Collum, of Giddings, Tex., found help in Pe-ru-na. Mr. Collum's letter follows:

Pe-ru-na Medicine Co., Columbus, O.

DEAR SIRS:—"I think your Pe-ru-na is the best medicine I ever tried for catarrh. I have tried all the catarrh medicines that I could hear of and none of them did any good until I tried yours. I and my wife have both used the Pe-ru-na and Man-a-lin, and we are about well. I am 70 years old and my wife is 66. When we commenced to take your medicines we were not able to see after our work, but now she can tend to her work and I see after my farm. You can use this publicly if you want to."—A. P. Collum, Giddings, Tex.

CatarrhCured

Blood Purified by Hood's Sarsaparilla and Health is Good.

"I was a sufferer from catarrh. One of my neighbors advised me to take Hood's Sarsaparilla and I did so. A few bottles purified my blood and cured me. I have remained in good health ever since." JAS. T. ADKINS, Athensville, Illinois.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1; six for $5.

Hood's Pills cure all Liver Ills. 25 cents.

To California Without Change via "The Milwaukee."

On every Saturday during the winter an elegant Pullman Tourist Sleeper will leave Minneapolis (8:25 a. m.), St. Paul (8:35 a. m.), and arrive Los Angeles, California, at 8:25 a. m. following Wednesday.

Via "The Milwaukee's" famous "Hedrick Route" to Kansas City, thence via the A. T. & S. F. Ry. through Southern California.

A most delightful winter route to the coast.

Quicker time is made via this route between St. Paul and Minneapolis and California than via any other line.

Rate per double berth, $6.00 through from St. Paul and Minneapolis.

Leave St. Paul and Minneapolis every Saturday morning, arriving Los Angeles every Wednesday morning.

For berths, complete information, and lowest rates, apply to "The Milwaukee" agents, St. Paul or Minneapolis, or address J. T. Conley, Ass't Gen'l Pass. Agt., St. Paul, Minn.

The kangaroo is none the less lively because he is on his last legs.—Golden Days.

TRADE-MARK.

MINNESOTA NEWS.

Shot at a Dance.

Kilkenny was all excitement Thanksgiving eve over its first tragedy. One man was fatally shot and others seriously injured. Ted Murphy was acting as floor manager at a dance given by the W. O. W. Attending this dance was William Mullen, who insisted on dancing without paying. Words followed, resulting in Mullen being ejected. About 3 o'clock in the morning, when the dance had ended, Murphy entered a saloon in the town, where Mullen was lying in wait for him. He was attacked, but defended himself. Mullen's brother took a hand in the fight and struck Murphy over the head with a heavy instrument. Mathew Murphy, who was present, interfered, but was dealt a heavy blow over the head with a stove poker. He fell just outside the rear door of the saloon. While down he was shot, the bullet entering just below the heart. He was given medical attention, but little hope is entertained for his recovery. Wm. Mullen received a bullet in the arm, but who shot him is a question, as it is known that Murphy did not carry a revolver. He is not a quarrelsome man, but highly respected in that community.

The New Y. M. C. A.

The people of St. Paul are soon to have the satisfaction of attending the opening reception of the new St. Paul Young Men's Christian Association. The last strokes of the painters' brushes are now being made at the exceedingly fine quarters in the Dyer building on Fifth street, and soon the announcement can be made of the completion of the work. A delay of nearly six weeks on account of the gymnasium apparatus has occurred. The apparatus is of the latest and best design, including plenty of mats and dumbbells, two hand-ball courts, a basketball court, first-class running track built on the most scientific principles, and one of the most perfect bathing plants in the Northwest.

Millions of Fish Eggs.

Whitefish eggs have begun to arrive at the United States fish hatchery in Duluth, and will continue arriving for some time. It is expected that the total hatch of all sorts of eggs this year will be about 200,000,000, of which nearly all will be whitefish, wall-eyed pike and trout of the various varieties. This is a far larger number than has ever been handled in the place before, and more than is to be found in many of the larger hatcheries of the country. During the summer considerable money has been spent in building trout ponds and making other arrangements for taking care of a larger number of eggs, and the winter's work is expected to show better results than ever.

Indians Rob a Boat.

The Indians are still making trouble in a small way. The news of their latest trick comes from the Red Lake Falls agency. Capt. Bowman of the Martin Lally, which navigates the Red Lake river and which is anchored for the winter at the source of Red Lake river near the lake, says that a band of Indians came upon him a few days ago and demanded possession of the boat on pain of death. He saw no alternative than to give in, they taking charge of the provisions and clothing to the extent of $300. It is thought that the band is a party of Cross Lake Indians, who are generally known for their cussedness.

Has Faith in the Osier.

Capt. R. H. L. Jewett of Hennepin County believes that osiers may be cultivated with success in Minnesota for us in weaving baskets. He has written to Germany for cuttings, and will experiment in their growing. Capt. Jewett has made a specialty of orchardry, and has observed that willows thrive in this state, and are pliable.

Struck By a Sign.

E. A. Mattix, proprietor of the Lyceum Drug store at Duluth, was struck by a big sign blown down in a storm, and is fataly injured in all probability. The sign struck him on the head and knocked him into the gutter. He was taken to his home and several hours later became conscious.

News in Brief.

The recent snow storm caused all of the Minneapolis sawmills to close down.

A party of Crookston hunters, while hunting in the woods near Bemidji, are said to have shot a cow, which they mistook for a deer, in spite of the fact that she wore a bell.

Charles Vasho, for several years a resident of West Duluth, was killed at Michell & McClure's banking ground on St. Louis bay. He fell from a tramway to a pile of logs beneath, and his head was crushed. He was dead when his fellow workmen reached him.

Capt. Wm. Leyde, a pioneer resident of St. Paul, and a veteran of the civil and Indian wars, died of heart disease.

A gang of Great Northern bridge builders were struck by a switch engine in the yard at Cloquet. Ole Johnson had his leg broken; Robert O'Brien and Sohn McIntosh were badly bruised and cut. The rest escaped without injury. The engine was backing around a curve and ran onto the handcar without either of them seeing the other.

While walking along Sibley street, St. Paul, Charles Myquist was held up and robbed of $9 and a check for $150.

John Erickson was instantly killed at Winona by falling from the roof of the porch at the residence of E. Gerstenhaur, where he was putting up storm windows.

John Burns, of Montgomery, was found dead in his bed.

At Little Falls the residence of Chas. Schilling and all contents were burned.

Miss Mabel Davidson, who a few years ago was one of the championship skaters of the world, died at St. Luke's hospital, St. Paul, of consumption.

Mrs. Grace Libby, wife of ex-Postmaster Libby, of Elk River, who died last spring, committed suicide by hanging herself to a beam in the barn.

Burglars entered the store of Truwe & Co., at Young America, and secured $50 in money, two gold watches, and some papers, after blowing open two safes.

By the bursting of a steam pipe in the Standard Flour Mill at Minneapolis, Michael Churlik was scalded to death.

Half a square of the business center of Red Lake Falls was burned out.

Frank Cool, a 14-year old boy, was seriously injured at the Owatonna high school. His playmates, who were bouncing, him let him fall and it is feared he may not recover.

INTERIOR DEPARTMENT.

Secretary Bliss Reviews Work of Pension, Indian, Land, Patent, Educational and Territorial Bureaus.

Washington, Nov. 25.—The annual report of Secretary of the Interior Bliss reviews in detail the progress of pension, Indian, land, patent, educational and territorial affairs. Reviewing the gradual diminution of public land area, Secretary Bliss says: "Of 301,000,000 acres of desert land requiring irrigation to render them valuable farming lands, the available water supply is sufficient for only 71,500,000 acres, leaving 229,676,000 acres suitable only for grazing purposes. There are 30 forest reservations embracing an estimated area of 40,719,474 acres."

The Indians are declared to have made substantial progress and the Chippewa outbreak was the only serious disturbance of the year. Referring to this trouble the report points to Commissioner of Indian Affairs Jones' successful efforts in bringing about the surrender of the Indians and says the origin of the trouble is now under joint investigation by the departments of the interior and of justice.

Considerable effort has been made to induce the Mille Lac Chippewas to go to White Earth reservation, but with meager success, though Chippewa Commissioner Hall hopes quite a number will remove this autumn. The senate is urged to ratify the treaty with the Uintah Indians to receive such Uncompahgres as should be allotted to lands on the Uintah reservation. No agreement, however, can be made with the Uintahs for the sale of all their lands in order that all not needed for allotment might be offered for sale. The commission reports its failure and says the terms specified were not acceptable to the tribe. The workings of the Curtis Indian territory act are praised and the more progressive element of the Indians in the territory are reported as inclined to accept the situation in good faith.

Reviewing pension matters, Secretary Bliss reports 635,000 claims of all classes pending, and says a separate division has been organized for the adjudication of claims growing out of the war with Spain. These soldiers will receive their pensions under the general law for permanent disabilities contracted in the service. He also concurs in the recommendation for the creation of a commission to revise the pension laws and regulations in the interest of a future reliable, intelligent and uniform practice. Early legislative enactment for the taking of the twelfth census is urged in view of the necessary large amount of work preparatory to the enumeration of the population.

Assistant Secretary of the Interior Webster Davis, in his annual report, says the 12,681 appeals from the pension bureau and 626 motions for reconsideration filed during the year make up a number unprecedented in any one year or two years in the history of the board of pension appeals. The proportionate increase still continues and on October 1 last there were 11,820 such appeals and motions pending and Secretary Bliss concurs in Assistant Secretary Davis' recommendations for providing for three additional members of this board; for additional legislation amending the act of August 7, 1882, relating to marriages; legislation regulating the payment of pensions to soldiers who deprive their families of the use thereof because of immoral habits and incompetency; and a legislative amendment in behalf of widows whose husbands died while in the service, death not being the result of any violation of any law, regulation or rule of the military or naval service, death under such conditions to be held to be equivalent to an honorable discharge, as now required.

The advancement along educational lines is outlined by an increase of over 250,000 of school pupils in the United States for the fiscal year 1896-7, over the previous one, but yet the total average amount of schooling per individual for the whole United States, measured by the present standard, does not quite equal five years of 200 days each for each inhabitant. The total number of school pupils in the country, in elementary public and private schools, colleges, universities, high schools and academies, is put at 16,255,053.

Secretary Bliss, summing up the report of Gov. Brady, of Alaska, calls attention to the difficulty of preventing the smuggling of liquor into Alaska, it being impossible to enforce present regulations without a fleet of revenue cutters and steam launches to patrol the tortuous channels of southeast Alaskan waters. Smuggling prevails and saloons are open in all of the towns and mining camps. The governor reports a consensus of opinion in favor of a stringent high license law which would tend to stamp out smuggling and liquor selling to the natives. The application to Alaska of the liquor laws in force in the District of Columbia with several minor modifications, is urged as meeting a majority approval. The governor believes that Alaska should and can pay revenue into the United States treasury. Under a high license law he estimates that the liquor traffic would yield an annual revenue of not less than $250,000; a tax of a few cents per case of salmon would produce from $35,000 to $50,000; ten cents per ton on wharfage collected during the past year would have yielded $100,000. He recommends, however, that any system of taxation for the territory be deferred until land laws shall have been provided.

Many sections of Alaska, it is shown, are suitable for agricultural purposes. With proper care, cattle can be raised in the milder districts. It cannot be doubted that in the course of time vast herds of reindeer will cover the plains of northern Alaska and a few thousands of dollars spent now in helping the Eskimo to obtain herds will save the expenditure of many thousands in the future.

Representation in congress for the citizens of Alaska is strongly urged.

The past year has been one of great progress in mining operations. Many Americans who located claims in the northwest territory have abandoned them and have settled on the Alaskan side of the international boundary line, where a new town, Eagle City, has sprung up. There has been great development in quartz mining in southeast Alaska and along the coast as far as Unalaska. Coal has been discovered near the upper Yukon, the Tanana, and on Prince William sound.

Public buildings at Sitka are urgently needed for the accommodation of the officials. It is recommended that congress appropriate $110,000 for the erection of a penitentiary and other buildings.

Soap Factory Burns.

Chicago, Nov. 25.—The factory of Allen B. Wrisley & Co., makers of soap, at 479-85 Fifth avenue, was completely destroyed by fire Thursday evening. It is generally supposed that spontaneous combustion was the cause of the fire, which broke out upon the second floor of the building, which is six stories in height. Owing to the immense amount of oils, tallow, glycerin and other inflammable articles in the building it was impossible for the firemen to stop the progress of the fire, and they were obliged to content themselves with keeping the flames confined to the Wrisley building. The structure burned with great rapidity, and inside of 40 minutes from the outbreak of the flames it was a mass of ruins. The loss is estimated at $105,000.

Decision Reversed.

Washington, Nov. 29.—In the United States supreme court Justice Shiras Monday delivered an opinon in the case of the Green Bay & Mississippi Canal company vs. the Patten Paper company, concerning the use of the surplus waters of the Fox river in Wisconsin. The decision was favorable to the canal company, allowing it to use the surplus waters, but reserving to the government the right to control the places at which it shall be taken. The decision reverses the opinion of the Wisconsin supreme court.

Panama Celebrates.

Colon, Colombia, Nov. 29.—The whole isthmus of Panama celebrated on Monday the eighty-seventh anniversary of the declaration of its independence of Spain, made in 1811, which was followed by an incessant war against the Spanish forces until 1824, when Bolivar was named dictator and brought about the alliance between Colombia and Guatemala that led to the achievement of the former's independence in 1825.

HAVOC OF THE STORM.

More Than One Hundred Wrecked or Ashore Near Boston—Seventy or More Lives Are Lost.

Boston, Nov. 29.—It is known definitely that more than 70 lives have been lost in the wrecks of tugs, schooners and coal barges during the storm of Saturday night and Sunday morning, and if the steamer Portland has also gone down, as now seems possible, the list of casualties will rise to 140 with over 100 vessels of all descriptions ashore, two score of them to be wrecks and an unknown number probably beneath the waves of Massachusetts bay.

There is scarcely a bay, harbor or inlet from the Penobscot to New London that has not on its shores the bones of some stanch craft, while along Massachusetts bay and especially Boston harbor the beaches are piled high with the wreckage of schooners and coal barges. The record, although hourly lengthening, is still incomplete for that ocean graveyard of Cape Cod is still to be heard from.

The annoyance and inconvenience of the railroad and street car embargo, covering the whole of southern New England sunk into insignificance before the destruction wrought by wind and wave, yet it will be many a day before the full import of the disaster is known or even realized. The islands of Boston harbor are without exception strewn with wrecks and wreckage, no less than 29 vessels are ashore at Gloucester. Over 20 in the supposed safe harbor of Vineyard Haven parted their chains, and are high and dry on the beach. Nantasket beach saw two schooners and a coal barge dashed to pieces on its sands, the rocks of Cohasset claimed a staunch fisherman; Scituate, a well-known pilot boat; Manchester, a down-east lumberman, while one tug and three barges known to have been between Cape Cod and Boston, are unaccounted for and probably lost. The upper harbors of Boston, Plymouth, Salem, Portsmouth, Portland and other places where vessels were supposed to be comparatively safe, were the scenes of numerous collisions between the ships and the wharves. Every lifesaving crew performed deeds of heroism in rescuing crews from stranded vessels, and tugboat captains risked life and property in their endeavor to save life.

The property loss may reach $10,000,000. The damage done by the storm at Natasket and Revere beaches is past description. Hundreds of buildings—in fact every structure except the stanchest—bathhouses, cottages, restaurants, dance halls, merry-go-rounds, roller coasters, etc., are flattened. Acres of ruins lie buried in fantastic masses under the snow. Scores of people are homeless in the town of Beachmont, where a veritable tidal wave swept their houses, which were on a low land, out to sea.

THE POSTAL SERVICE.

Further Interesting Extracts from First Assistant Postmaster-General Heath's Annual Report.

Washington, Nov. 29.—The annual report of First Assistant Postmaster-General Perry S. Heath, a portion of which was published a few days ago, was made public in full Monday night. The total appropriations for the first assistant's office asked for the next fiscal year are $31,025,000, which includes $17,000,000 for salaries of all post masters and $11,800,000 for clerk hire. The report recommends strict enforcement of the regulation forbidding postmasters to enlarge their salaries and allowances at public expense. Many postmasters, it says, particularly at post offices contiguous to great business and commercial centers, are actively engaged in the irregular sale of postage stamps and violating the regulations by soliciting the purchase at their offices of postal matter by parties within the jurisdiction of another office, or the mailing at their offices, if of the fourth class, rather than at any others.

The review of operations of the postal service in the military and naval fields is very voluminous, and the work of the Spanish war is compared with that during the civil war. Mr. Heath says more has been accomplished in the establishment and maintenance of the military postal service during the bare six months of the Spanish war than during the entire period from the firing upon Fort Sumter to the Appomattox surrender. A decided indisposition, he says, existed on the part of some of the army officers to cooperate in the performance of military postal work with the department, but later the fullest military cooperation was given.

The past year's transactions show a practical appreciation of the postal order, which, the report says, encourages official efforts to perfect this method of transfer of money. It may be possible so to extend the money order system in the near future that it shall embrace at least one-half of the post offices of the country, and probably, the report says, an opportunity may arrive at no distant day when all offices shall be money order offices. The aggregate number of domestic and international money orders issued during the year was 28,753,412, amounting to $204,593,891, an increase of 2,640,172 in number and of $16,522,835 in amount. The work of the dead letter office was considerably increased on account of the war.

The report is accompanied by reports from the Cuban and the Philippine postal agents. Agent Kempner, for Cuba, recommends that about two-thirds of the employes at the Havana post office be dropped when the United States takes possession, and that 20 clerks be detailed from the United States. During the year free delivery service was established at 59 post offices, requiring 215 carriers and costing $87,000.

An Awful Disaster.

Stockton, Cal., Nov. 28.—The most disastrous accident in the history of Stockton occurred Sunday morning at 4:20 o'clock near Fourteen Mile Slough. When a part of one of the boilers of the river steamer T. C. Walker, which left San Francisco about six o'clock Saturday night, was blown out, killing six and dangerously wounding 11 persons, while probably 15 or 20 were more of less badly hurt. The T. C. Walker is owned by the California Navigation and Improvement company and ran between San Francisco and Stockton. The dead are:

John Tulan, captain of the T. C. Walker.
W. A. Blunt, the agent in charge of shipping of sugar beets from the Moss tract to the Crockett factory.
Watson Henry, of Stockton, engineer of the T. C. Walker.
Mrs. Watson Henry, wife of the chief engineer.
Ferdinand Law, of Seattle.
Jerry Daley, fireman.

Snowstorm in Pennsylvania.

Philadelphia, Nov. 28.—The blizzard which came out of the west reached this city at 11 o'clock Saturday morning and raged furiously until one o'clock Sunday morning. As unexpected as it was violent, it wrought great havoc not only here but throughout the entire state. In those 14 hours the snow fell reached a depth of over nine inches and the wind a velocity of 45 miles an hour. These figures are unprecedented in the November record of the local weather bureau, and the officials there say that the storm in general was the worst since the memorable blizzard of 1888.

CHRISTEN THE WISCONSIN.

The Big Battleship Is Successfully Launched at Union Iron Works, San Francisco.

San Francisco, Nov. 28.—The battleship Wisconsin was launched at 9:21 o'clock Saturday morning. Thousands of spectators witnessed the ceremony. Long before the hour appointed for the launching the visitors crowded the yards of the Union iron works, the adjoining housetops, and the hills. The launching party, which included prominent visitors from Wisconsin and this state, was given a place upon the large platform which had been built around the prow of the vessel.

Miss Elizabeth Stephenson, of Wisconsin, had been given the honor of christening the battleship, and little Miss Lucile Gage, daughter of Gov.-elect Gage, touched the button that started the vessel on the ways.

Saturday evening the management of the Union iron works entertained 200 distinguished guests at a banquet here in a private dining-room of the Palace hotel. Speeches were made by Irving M. Scott, general manager of the Union iron works; Gov. Budd, Gov.-elect Gage, the latter a native of Wisconsin; Lieut. Gov. Baensch, of Wisconsin; United States Senator Mitchell, of Wisconsin, and others.

The battleship Wisconsin is a sister ship of the Alabama, and also the Illinois. Its dimensions are as follows: Length on load water line, 368 feet; beam extreme, 72 feet 2½ inches; draft on normal displacement of 11,525 tons, 23 feet 6 inches; maximum displacement, all ammunition and stores on board, 12,225 tons; maximum indicated horse-power (estimated), 10,000; probable speed, 16½ knots; normal coal supply, 800 tons; coal supply, loose storage, 1,200 tons; full bunker capacity, 1,400 to 1,500 tons. Complement of officers, 40; seamen, marines, etc., 449.

The main battery will consist of four 13-inch breech-loading rifles in Hichborn balanced turrets, oval in shape, and placed in the center line of the vessel, and 14 six-inch rapid-fire guns. The secondary battery will consist of 16 six-pounder rapid-fire guns, four one-pounder rapid-fire guns, two Colt guns and two field guns. She will carry four torpedo tubes.

THE FOOTBALL GAMES.

Michigan Wins Western College Championship—Wisconsin Defeats Northwestern.

Chicago, Nov. 25.—The western football championship goes to Michigan. On a field simply perfect the maroon of Chicago went down before the maize and blue of Michigan Thursday by a score of 12 to 11. The reversal of form shown by the Michigan men since they barely succeeded in defeating Northwestern was remarkable. The Michigan line was simply impregnable, with the exception of ten minutes in the second half when Chicago pushed her opponents aside with apparent ease. Hershberger was a big factor in the game. Every one of Chicago's 11 points were made by him.

Pat O'Dea is king. He demonstrated Thursday in the game between elevens representing the University of Wisconsin and Northwestern university, and before one of the largest crowds ever assembled at Evanston to witness a football game, that he is one of the greatest kickers ever seen on the gridiron. Standing on the 55-yard line he kicked goal from field. The total score was: Wisconsin, 47; Northwestern, 0.

Omaha, Neb., Nov. 25.—The Iowa university eleven defeated the gridiron warriors of Nebraska university in their annual game in Council Bluffs by a score of 6 to 5.

Philadelphia, Nov. 25.—On a field knee deep with mud the University of Pennsylvania football team defeated the Cornell eleven by the score of 12 to 6.

PAYS DEPOSITORS IN FULL.

Creditors of the People's Bank of Philadelphia Do Not Lose a Dollar—A Well-Kept Pledge.

Philadelphia, Nov. 28.—Thomas W. Barlow, receiver of the People's bank, has notified the depositors of that institution that the remaining ten per cent, due them will be paid on and after December 5, 1898. This payment will close every uncontested claim against the bank, including the deposits of the city and state. The People's bank closed its doors on March 25, after the cashier, John S. Hopkins, had committed suicide. When the bank closed its doors the liabilities were about $1,500,000, while the assets were less than $1,000,000. At the time of the suspension President McManes pledged himself to pay the depositors dollar for dollar, and the announcement of Receiver Barlow shows that he has kept his word.

The United States Mint.

Washington, Nov. 25.—In his annual report Mr. George E. Roberts, director of the mint, says: "The most important events of the fiscal year in the world of government finance have been the consummation of the long-planned resumption of specie payments by Russia in gold, the reorganization of the monetary system of Japan with gold as the standard, and the refusal of the government of India to cooperate with the governments of the United States and France in an effort to establish bimetallism by international agreement.

The gold coinage of the world in 1897 was the largest recorded, amounting in value to $417,719,342, against $356,359,517 in 1896. Of the former sum $146,622,194 was recoinage and approximately $291,097,148 a net addition to the stock of gold coins. The principal coinage was by the United States, Great Britain, Russia, Germany, Austria-Hungary, France and Japan. The extraordinary coinage of the year is accounted for by the preparations of Russia, Austria-Hungary and Japan for their monetary reforms. In the case of Russia particularly gold, which has been accumulating for years, much of it in bars, was passed through the mints to prepare it for circulation.

Famous Actor Dead.

New York, Nov. 28.—Charles W. Couldock, the actor, died Sunday night at his home in this city after a short illness from dropsy. Mr. Couldock was stricken on November 3 with what was thought to be indigestion, but afterward diagnosed dropsy. On November 21 his condition became critical, and since then, even though he has had several slight rallies, death was expected. He was born April 26, 1815, at Long Acre, England. Mr. Couldock is best known as Dunstan Kirke in "Hazel Kirke," which part he had played over 1,000 times.

Stuck in the Mud.

San Francisco, Nov. 29.—The battleship Wisconsin is stuck fast in the mud off the Union iron works. When she shot down the ways she ran across the channel and buried herself in the mud flats. The builders have decided to put dredges to work and dig a channel around the Wisconsin.

AN ADMIRER OF WOMEN.

A Matrimonial Repeater Who Got More Enamored with Each Subsequent Wife.

I was riding along the road leading across Hurricane gap, in the Pine mountain range, thinking of the peculiar people who lived in these fastnesses, when I was startled by a voice up the hillside calling to me to come up and give somebody a lift. I had no idea who owned the voice, but whoever it was was in trouble, and I responded and found a man of 60 or more caught by the foot under a fallen tree and unable to get away. He wasn't hurt, and I soon had him on his feet, and he insisted on my stopping further down the mountain and taking dinner with him. He lived in a well-kept cabin with his daughter, and after dinner we sat in the shade of a tree in the yard and he told me about himself.

"Air you married?" he asked, after he told me he was a widower.

"No, but I hope to be some day," I answered, quite sincerely.

"You ought to be; every man ought to be; a man that ain't ain't showin' a right feelin' to'rds what the Lord's done fer him, thar ain't nothin' on the face uv God's green earth that is a patchin' to a woman, I don't keer what kind she is."

"You're hale and hearty yet," I said, "and I don't see why you don't take some of your own advice."

"Don't crowd the mourners, mister," he said, waving his hand as if warding off my attack. "Don't you crowd the mourners. I'm figgerin' on sever'l this very minute, and I ain't quite shore yit which one to pick. I've been married four times, and every time my notion uv women has got so much higher that I'll be derned ef I don't kinder look forrerd to losin' a wife jist fer the satisfaction uv gittin' another one."

The idea was so entirely new that I was overcome by it.—Washington Star.

LOW RATES TO THE SOUTH.

A Splendid Opportunity to Visit Southern Points at Small Cost.

On Tuesday, Dec. 6th, and Tuesday, Dec. 20th, a popular low rate excursion will be run from Chicago to the South via Chicago & Eastern Illinois Railroad. On those days, that Company will sell both one way and round trip first class tickets at greatly reduced rates. One way tickets will be for continuous passage; on round trip tickets stop over will be allowed on going trip at points in the South. Round trip tickets will be good twenty-one days. The Chicago & Eastern Illinois Railroad has two daily through trains which leave Dearborn Station, Chicago, for all points beyond the Ohio River; both trains carry through first class coaches, sleeping cars and have dining cars serving meals out of Chicago. This is the shortest route to the South and the time made by its trains is the quickest. For detailed information, inquire of any ticket agent or address Charles L. Stone, General Passenger & Ticket Agent C. & E. I. R. R., Chicago.

Her Guess.

He—For a week I have not slept an hour at a time. I have tossed upon my bed night after night, only to arise weary and depressed in the mornings. I cannot eat. I come and go and am weighed down with one all-pervading thought. It is with me in my waking hours. It is with me in my dreams.

She—Ah, it is too bad. I'm sorry for you. Marie, have you not guessed what it is that troubles me?"

"Yes. You're afraid there may be another call for men and you'll have to go and fight."

An hour afterward he was still walking around in a circle and wondering whether she really meant it or not.—Chicago Evening News.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. Cheney & Co., Props., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

West & Truax, Wholesale Druggists, Toledo, O.

Walding, Kinnan & Marvin, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c. per bottle. Sold by all Druggists. Testimonials free.

Hall's Family Pills are the best.

A Real Prize.

"If I had such a wife as Mrs. Negley I think I could be supremely happy."

"Why, I don't consider her especially good looking, and it is easy to see that she isn't very clever."

"I know, but when her husband starts to tell a funny story she doesn't assume the look of a martyr or try to change the subject."—Cleveland Leader.

"Dear me," thought the new fence, "I must get a new gait on me."—Golden Days.

Half Sick Half Well

Many persons have their good day and their bad day. Others are about half sick all the time. They have headache, backache, and are restless and nervous. Food does not taste good, and the digestion is poor; the skin is dry and sallow and disfigured with pimples or eruptions; sleep brings no rest and work is a burden.

What is the cause of all this? Impure blood. And the remedy?

Ayer's Sarsaparilla

It clears out the channels through which poisons are carried from the body. When all impurities are removed from the blood nature takes right hold and completes the cure.

If there is constipation, take Ayer's Pills. They awaken the drowsy action of the liver; they cure biliousness.

Write to our Doctor.

We have the exclusive services of some of the most eminent physicians in the United States. Write freely all the particulars in your case. You will receive a prompt reply, without cost. Address, DR. J. C. AYER, Lowell, Mass.

25 CTS. PISO'S CURE FOR CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists. CONSUMPTION 25 CTS.

Confession of a Millionaire.

A millionaire confessed the secret of his success in two words—hard work. He said he put in the best part of his life in gaining dollars and losing health, and now he was putting in the other half in spending dollars to get back health. Nothing equals Hostetter's Stomach Bitters for restoring health to the overtired body and brain. It gets at the starting point—the stomach—and overcomes nervousness, sleeplessness, dyspepsia and indigestion.

"Why is it the mind is brighter when a man is past 40?" "After that age the man gets sense enough not to eat too much."—Chicago Daily Record.

To-day sore and stiff. To-morrow cured. St. Jacobs Oil does that every day.

In angling it is much the same as in love making. The fish we land are very small fry in comparison with the beauties that get away.—Boston Transcript.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets.. All druggists refund money if it fails to cure. 25c.

Dislocated by Scorn.—"Is Glorinda proud, since she has been abroad?" "Proud? She holds her head so high that it hangs down her back."—Detroit Free Press.

The cold keeps active the pain of Sciatica. St. Jacobs Oil drives it out.

Very few people appreciate the importance of doing a thing right in the first place.—Atchison Globe.

Check Colds and Bronchitis with Hale's Honey of Horehound and Tar.
Pike's Toothache Drops Cure in one minute.

Cats are very gentle to their kittens, notwithstanding the fact that they lick them frequently.—Golden Days.

Hard winter, hard aches. Hard rub with St. Jacobs Oil. Easy cure.

It's pretty hard for some men to keep their wants down to their incomes.—Chicago Daily News.

After six years' suffering I was cured by Piso's Cure.—Mary Thomson, 29½ Ohio Ave., Allegheny, Pa., March 10, '94.

Of all the letters in the alphabet, only two are O. K.—Golden Days.

Nothing so common as muscular pains and aches. St. Jacobs Oil cures.

Shingle your house before you plaster it.—Ram's Horn.

A slip, a sprain, a sling. Use St. Jacobs Oil—cured. No sling.

We ought not to judge men as of a picture or statue—by first sight.—La Bruyere.

"Don't say you work like a slave;" say you "work like a fool."—Atchison Globe.

Very cold, very bad Neuralgia. St. Jacobs Oil very sure to cure.

Laziness and dirt never quarrel.—Ram's Horn.

COULD NOT SLEEP.

Mrs. Pinkham Relieved Her of All Her Troubles.

Mrs. MADGE BABCOCK, 176 Second St., Grand Rapids, Mich., had ovarian trouble with its attendant aches and pains, now she is well. Here are her own words: "Your Vegetable Compound has made me feel like a new person. Before I began taking it I was all run down, felt tired and sleepy most of the time, had pains in my back and side, and such terrible headaches all the time, and could not sleep well nights. I also had ovarian trouble. Through the advice of a friend I began the use of Lydia E. Pinkham's Vegetable Compound, and since taking it all troubles have gone. My monthly sickness used to be so painful, but have not had the slightest pain since taking your medicine. I cannot praise your Vegetable Compound too much. My husband and friends see such a change in me. I look so much better and have some color in my face."

Mrs. Pinkham invites women who are ill to write to her at Lynn, Mass., for advice, which is freely offered.

OLD SORES CURED

Allen's Ulcerine Salve is the only sure cure in the world for Chronic Ulcers, Bone Ulcers, Scrofulous Ulcers, Varicose Ulcers, White Swelling, Fever Sores, and all Old Sores. It never fails. READ THIS OFFER.

The Review of Reviews Co. is just about to publish the Standard History

"OUR WAR IN TWO HEMISPHERES"

BEING

A HISTORY OF THE WAR WITH SPAIN

by Albert Shaw (editor of the American Monthly Review of Reviews), and many other notable contributors of special chapters.

Over 1,200 pages, over half a thousand portraits and other illustrations. The first edition of this book is printed on the finest enameled paper, and bound beautifully in half morocco, in three large volumes.

Every American, and especially every American who had a relative or friends "at the front," will wish to own this work. It is far more than the mere story of the fighting. It gives a comprehensive account of the condition of Cuba and of Spain before and after the war, of both the outer and hidden causes of the war, and tells about nearly every one who had anything important to do, at home and in the field, with carrying on the struggle. It is truthful, well informed, and complete, and forms an elaborate picture of the United States at this critical stage of its history, when it suddenly finds itself with imperial duties. There are character sketches, too, by special writers who know their subjects, of Dewey, McKinley as War President, and other notable figures of the war. The naval lessons that the war taught us, the new facts it brought out about the best rifles, machine guns, and equipments, and many other special subjects, are treated in separate chapters by expert military writers. Dr. Shaw (who is the author of "Municipal Government in Great Britain" and other important books) has had the benefit of the official reports and documents issued by the Government, and the history is as authentic as possible. It should stand on the shelves of every American library.

Its hundreds of portraits, maps, scenes in Spain, Cuba, Porto Rico, and the Philippines, are handsomely printed and are selected for their real value rather than for mere ornament. Many striking cartoons are reproduced from Spanish and French papers, showing what the Spanish thought of us, and how they believed they were beating us until the very end.

The history is being published by the Review of Reviews Co., which also publishes the American Monthly Review of Reviews, the monthly magazine. Lawyers, doctors, teachers, clergymen, business men, especially in the country, progressive farmers, and up-to-date people generally rely on this magazine to give them the timely news of the world; it also gives the best that is in the other important magazines all over the world. Its regular subscription price is $2.50 per year.

This edition of the history consists of three magnificent volumes, such as generally are sold for $5 or more each. We make for this month and the next only, a special

COMBINATION INSTALMENT OFFER

by which any one giving their name and address on the coupon, accompanied by only $1, will receive the American Monthly Review of Reviews for a year, and the History as fast as it is issued, the balance to be paid at the rate of $1 per month for twelve months, postage and express prepaid by us. If the books are not satisfactory, they may be returned, and the advance payment, less expressage, will be refunded.

BE SURE AND USE THIS COUPON.

The Review of Reviews Club,
Astor Place, New York City.

I enclose $1 for membership in the Review of Reviews History Club, and agree to pay twelve monthly instalments of $1 per month, beginning Dec. 1, 1898, for one year's subscription for the American Monthly Review of Reviews, to begin with the current number, and "Our War in Two Hemispheres" (three volumes, half morocco), the same to be sent me as fast as issued.

BUFFALO GAZETTE

DELANO, FRIDAY, Dec. 2, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

—Charles M. Cannon, of St. Paul, has purchased the new drug store of McFarland.

—Winter began all of a sudden this year and hangs right to us. Every day is what might be called cold, and the nights rather more so.

—Pete Peterson gave a free lunch at Brandser's talor shop yesterday. John says the reason for Pete's liberality is because he expects to be maried soon.

—At the rate that men in gangs, with dogs, ferrets, etc., etc. hunt patridges, rabits and other small game it want be long until there will be no game to hunt.

—Arrangemetns are already under way to observe Christmas in a proper manner by some of our citizens. The M. E. S. S. expect to have an entertainment of some kind and is getting ready.

—The Delano Literary Society don't seem to materialize for some reason or another. What's the matter with our literary talent. Is it covered up so deep that it can't come to the surface? Let your lights shine!

—An enterprising Hennepin county farmer has constructed a convenient rack for hauling straw and is supplying the Delano market at $1. a load. It gives him something to do and a little pocket money. Several farmers much nearer town burned their straw.

—We understand a Superintendent of schools from Duluth, was in town a few days ago and offered our new teacher, Mrs. Tupper, an advance of $25. per month to come to Duluth and take charge of a school. The temptation of course is great. We haven't heard whether or not the offer will be accepted.

—Those wood dealers, with wood in town, that do not take too much advantage of customers, when roads are poor, and no wood coming in, are striking it rich, often, now-a-days. Frequent blizzards are good for their business. "It's an ill wind that blows nobody any good."

—Joe Niestroy is again at home from Asbury Hospital, Minneapolis, where he had the stumps of his eyes extracted. He is completely blind in both eyes. Delano citizens have collected over a hundred dollars for his expenses. It is expected that he will become a pupil at the school for blind at Faribault, when he has recovered from the operation fully.

—Good girls to do general house work are much in demand. Good cooks and good housekeepers are able to draw good pay and get good places at all times. And any young man that wants to live a happy life carefully ascertains the qualifications of his choice in these directions before he makes his bargain, for life. Every family should school the girls well in all branches of making home a happy place.

—There appears from the tone of the letters received from Manila that the soldiers are not all of a mind about that country, and its inhabitants. Some like them; others are anxious to return home. Perhaps they differ no more there than they would here. Some like our cold winters and snow; others begin to talk about going south or somewhere else as soon as the first flakes of snow are seen. It is always too cold, too hot, too wet or too dry, or too something for some folks.

—That foolish rule made a few years age by our Board of Education, requiring teachers to place $10, in the hands of the Treasurer, as a guarantee that they would come, if hired, should be repealed. It only serves to let out teachers who are conciencious and who would feel in duty bound to keep their obligation otherwise. But when the board places $10. ahead of a teacher's faithfulness to promise, they can't complain when a teacher gets a better offer, if he accepts, and lets the Delano district keep his $10. His forfeit is paid, and he can go conscientiously; whereas he could not, without the forfeit, unless permission was given. Besides we think teachers whose words and obligations are to be considered in a balance against $10, should not be hired to run any school.

—Road bosses, in this county, should be allowed pay for fixing winter roads as well as summer roads. Much, if not most of the heavy hauling is done in the winter, and oftentimes enough extra work and time is used up in one day, by the dozens of teams traveling over a few miles of rough road, or driving through fields, to pay for a team or two with two or three good men to level up the road, taking down drifts and putting snow where it has blowed off, making the road good. When the weather is cold this would often last for weeks and would, if done when the first blizzard is over, make a road bed for the winter. But when a road that, when in good shape, requires an hour to travel it pleasantly, requires half an hour or more for everybody that trrvels it all winter on account of driving around drifts and bare spots, to say nothing of the wear and tear on teams and men is simply awful. Everybody says why don't someone shovel down that drift and put the snow here, and nobody does it. Let our legislators introduce a bill requiring snow to be looked after and roads kept passable, and give credit to the GAZETTE for calling attention to the need of it.

—Several letters from Manila were received in town Wednesday morning.

—Chris Gast who was operated on last week is holding his own to date, nicely.

—Roads in several directions are drifted and unless some work is done in places people will have to drive round all winter.

—Dr. Shrader of Delano, has been appointed a member of the Strte Medical Examining Board instead of Hon. E. Y. Chilton, resigned.

—The entertainment and supper given by the Sacred Heart society last Thursday evening at the City Hall, was well attended and well spoken of by all.

—Charley Kemmer attended the meeting of the Creamery Association held at Litchfield, last week, and was elected Vice President of the Association. Good for Charley.

—William Batdorf, of Maple Plain, has moved into the Martin Nelson house on S. Second St., which he has recently purchased. Wm. Sturman is making his home with him.

—At a business meeting of the Epworth League held at the M. E. Parsonage Thursday evening the following officers were elected for the ensuing term:

President.—Viola Cunningham.
1st. V. Pres.—Julia Cunningham.
2nd. V. Pres.—Mrs. Strickland.
3d. V. Pres.—Mr. Corey.
4th. V. Pres.—Mary Catlin.
Secretary—Grace Farber.
Treasure—Mrs. Corey.
Organist—Mollie Maxfield.

It was voted to hold the business meetings on the first Monday evening of each month, hereafter.

—Every family in the county of Wright should take a home paper. Especeally should foreign born, or speaking people supply their families with papers in which they can read about things occurring about them; and with which they are more or less acquainted and interested. Where so many languages are used as is the case in Wright county, being well on to the number in Europe, it is much better for the rising generation to perfect itself as far as possible in the common langnage of the country, English; then the children of different nationalities will have no difficulty in transacting business and other affairs with each other. Suppose a German or Polish family educates its children finely in its mother tongue, and a neighboring Norweigan or Swede does the same with its rising generation of what benefit would it be for ordinary affairs here, unless they also learned English? Though well prepared in their own language the young people could not teach in our schools. If they attended court or did other business they would have to have an interpreter. This puts them to a great disadvantage. The people of evrey nationality here should see to it that theri children are well educated as possible in English, well supplied with home reading matter in the language of this country so that they may be prepared to take hold of the affairs of the world as well as their neighbor. No matter how well children are aquainted with their mother tongue, in order to be at their best here, they must read, write and speak English in order to transact ordinary affairs of life. Reading matter is cheap. $1. per year gets nearly any of our home weeklies. The long winter eyenings are coming. Supply your children with a home paper, a city weekly or tri weekly, a good magazine and give them something to busy themselves with that will interest them, and instruct them, and make them more useful citizens.

Try

PETERSON'S

New

DOUBLE STORE.

Opposite the

City Hall.

WANTED—SEVERAL TRUSTWORTHY persons in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $900 a year and expenses—definite, bonafide, no more, no less salary. Monthly $75. References. Enclose self-addressed stamped envelope. Herbert E. Hess, Prest., Dept. M, Chicago. 50-29t.

Personal.

Mr. and Mrs. Dannehr, returned from the Cities last evening.

E. W. Ferrell, of Montrose, drove down Monday on business.

John Bukoski, who went west to work sometime ago is home again.

Rev. J. L. Farber drove over to his Renville county farm this week.

Rev. Ryburg held services at the Swedish church Wednesday evening.

Charles Kemmer, stopped off and visited Delano friends Tuesday night.

John Haffner, of Moorton, N. Dak., was in town Saturday; seeing old friends.

L. M. Meister, has gone to LaCrosse to the hospital. Mrs. M. accompanied him.

Dr. J. S. Shrader visited St. Paul yesterday to take the oath of office as Medical Examiner.

W. W. Palm and family visited with Tim Hittsman' his father-in-law, and family, this week.

Miss Mamie Farber moved some household utensils to her school district where she will keep house.

Thomas Berneck, an old settler and an old soldier has returned home from the Milwaukee Soldier's Home.

Allen Williams who has been working for W. H Stacy at Montrose, has returned home to attend school.

L. M. Meister, is still confined to his bed and will be unable to appear in court at the December term where he was interested.

H. C. Parslow, wife and daughter Anna, went to Hankinson last week, to visit Fay and Henry and family. They returned home Sunday night. They report no snow up there.

Mr. Latan and family of Dassel, have rented their buildings there and are on their way to Arizona to make a new home. Some of the family visited Wm. Lewis and family this week.

County Cullings.

The December term of District court meets Monday at Buffalo. We understand the calender is lignt this time.

J. N. Stacy, formerly of Wright county, is to occupy a seat in the state senate in his new home. J. N. is an old hand at the business.

The GAZETTE claims a partial victory as well as the balance of the politicians do this time. We advocatid John Lind, and he was elected. We advised that Democrats ought not to elect Tarbox, whose nomination by a Democratic convention was forced upon the rank and file of Democrats. Tarbox was not elected. Of course we would have liked to have seen Towne in and a few others.

A good Republican who served on an election board in a neighboring town, informs us that the Republicans certainly elected John Nugent Sheriff. He said he had never yet voted for him, but that at the last election he kept a little tag on the tickets and noticed that while many Democratic tickets had him left off there was lots of Republicans that voted for him. This being the case we would suggest that the proper thing for John to do is to get the Republican convention to nominate him next time.

The wicked habit of requiring bills presented to school boards, town boards, and other officials sworn to, should be abolished. Men of respectibility, honest, so honest that no one disputes their bills, or word, present verified bills for some thing done or sold to the district or town, and a set of, oftentimes ignorant, or spiteful, or jealous men cut the bills down; making the honest man appear a perjurer in the eyes of the public; as having presented an exorbitant bill, and sworn to it, to defraud the town or district out of a few dollars or may be cents. Our legislators might look into this matter a little. In some cases they would save some poor fellow paying a quarter or so to sware to his little bills too. It is a thing that needs investigation.

and its PRIVATE N. Y. WIRES
The Full rvice of the ASSOCIATED PRESS

Late Literary News.

That the spy sent by the United States government to Spain during the war should have become the guest of Weyler himself, seems incredible. Yet there is nothing more true. The government selected as its agent a man of position who has lived much in Germany. It was necessary for us to have a trained intellect that would make no mistakes. His story is told in the November COSMOPOLITAN, and the most exciting pages of Dumas's fiction seem tame in comparison with the facts. Crossing the frontier in a first-class carriage, he was by a trifling accident bronght into conversation with a young Spanish nobleman; presently who should come along but the son of General Weyler. This acquaintance led to his receiving many attentions from Weyler when they reached Madrid, and the General actually gave up a day to a trip to the Escurial Imagine this grim arch enemy of ours laying himself out to please the secret agent whom the government had sent to find out the weak places of Spain. How trifling the demarcation between the position of honored guest and that of spy who, if discovered, would have been all the more quickly sent to his death! The same issue of THE COSMOPOLITAN contains four pieces of fiction by such famous authors as FRANK STOCKTON, ZANGWILL, H. G. Wells, and the lamented HAROLD FREDRICK, but none of it half so exciting in its interest as this true srory.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Offical Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merrit, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manili. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Large book. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barber, Sec'y., Star Insurance Bldg., Chicago.

It is currently reported that our new Governor, John Lind, will have nothing to do with an inaugural ball. Good for our new Governor. If all his innovations are as good as that; and all of his appointments are up to the grade of Dr. A. W. Daniels, of St. Peter, member of the Hospital for Insane Board, Mr. Lind will do. Even the G. O. P. organs will have their biggest guns spiked, right at the beginning of the new administration.

The easiest way to go through this world is to float with the current. Perhaps it is also the best way.—Buffalo Journal.

The current in which the genial Editor, A. Y. Eaton, floated this year was flavored most too strongly with the Tarbox for him to go any other way than "with the current."

Become a Voter.

Every man in this country should become a voter and make good use of his privilege upon every occasion. For the benefit of some of our readers who have not yet become voters or who have friends that have not we, publish the following from an article by S. Odell in the Minneota Mascot. It tells what to do to become a voter. Read it carefully:

"Positively every applicant must bring with him his first papers or a certified copy of the same, unless his intentions to become a citizen are a matter of record in this office. The applicant must have been a resident of the United States for five years past, and must bring two witnesses, themselves full citizens, who will testify to these facts.

Any minor arriving in the United States previous to the age of eighteen may become a citizen, without first papers, but must have witnesses same as other applicants. Any foreigner of the age of twenty-one years and upwards, who has been in the armies of the United States, and has been honorably discharged therefrom, may become a citizen on his petition, without any previous declaration of intention, provided that he has resided in the United States at least one year previous to his application and is of good moral caracter. In the latter case only two witnesses are necessary who can testify to his residence for one year and to his moral character."

From the 13th Reg. Minn. Vol.

From the County Line, published at Eden Valley we clip the following of interest to some of our readers:

DEAR FOLKS: I will send a few lines. I am still alive and well; smallpox started but has been stopped. George Cooty, from Co. M, died from it.

I was over to Co. A last Sunday to see Holm and O'Laughlin; both were well.

There are base ball nines in each Regiment now and we have an American soldiers' league. There are four games a week, Tuesday, Thursday, Saturday, and Sunday; tomorrow is the first game of the series but I am on guard, so I guess I won't go.

Co. A has regular Spanish cock fights every Sunday. They have two sections to the Company. Holm's section beat twice last Sunday. In one case the other rooster died in a minute and in the other the other rooster run but they were cut so bad that both died in an hour. Then the Thirteenth Minnesota fought the Eighteenth Infantry. Our rooster killed their's dead first lick but ours died after he was taken to quarters. They use steel gaffs about three inches long in the place of spurs; with one on each rooster. We are settling down to spend six months, at least, here for everything that points to going home is mere rumor.

Your Loving Son,
GEO. W. HARDING.

Camp Old Manila, Oct. 15, 1898.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Official Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merritt, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manila. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barber, Sec'y., Bear Insurance Bldg., Chicago.

President McKinley's Message.

The President's message to Congress is an unusually long one. We give below a few quotations:

"Our people rejoice in a very satisfactory and steadily increasing degree of prosperity."

"The finances of the government have been successfully administered and its credit advanced to the first rank, while its currency has been maintained at the world's highest standard."

"Military service under a common flag and for a righeous cause has strengthened the national spirit, and served to cement more closely than ever the fraternal bonds between every second section of the country."

The President recounts at length the war with Spain. He talks about the saving of the reconcendradoes; the blowing up of the Maine; the campaigns, etc, etc.

He proposes to continue the military rule of our new possessions until Congress has legislated otherwise.

In Cuba, "Spanish rule must be replaced by a just, benevolent and humane government, created by the people of Cuba."

"With the exception of the rupture with Spain the intercourse of the United States with the great family of nations has been marked with cordeality." Most questions setteled or in the way to be with all other nations.

Telegraph communication between all countries he hopes to see under international concert.

It is hoped that the claims of the Austra Hungarian government for subjects killed in the Lattimer, Pa. riots will be amicably adjusted

A plan is cordially approved to have on hand an appropriation in advance to allow the Government to make exhibits in the worlds fairs.

It is hoped Belgian Authorities will rearrange their laws concerning importation of our cattle to their country.

South American questions, and the Nicaragua Canal, are mentioned. The control by this country, of the canal, is recommended.

Trade with China, and our interests in that country, and the Orient, are to be zealously guarded.

The Paris Exposition is favorably mentioned.

The tariffs and inspection laws between this and other countries is mentioned. Placing currants from Greece on the free list is under consideration.

Annexation of Hawai gets section of the message.

Mexican affairs.

The President is in accord with the Czar of Russia and his efforts to have peace, and reduce the standing armies in many countries.

The present monetary standard is endorsed.

Recommends an increase in the army of this country.

Pacific railroad and other railroad matters have been put in shape.

The department of justice needs a better building.

Our postal business grows much more rapidly than our population.

An increass in the navy of, three battleships to cost $3,600,000 each; three armored cruisers to cost $4,000,000 each; three protected cruisers to cost $2,150,000 each; six cruisrs to cost, exclusive of armament, estimated $1,140,800 each, is recommended.

Early action on the taking of the 12th census is urged.

The pension rells show on June 30, 1898 993,714 names, an increase of nearly 18,600 over the number on the rolls on the preceeding year.

Public lands disposed of by the government during the year reached 8,453,896 92 acres, an increase of 614,780 26 acres over the preveous year.

The forest system is doing good work in preserving forests from fires and other destructions.

The general condition of the Indian shows marked progress.

30,000 white children residing in the Indian Territory should be provided with means of education.

The Department of Agriculture has been active in distributing seeds and plants, etc. Experimental stations; the weather bureau and other things are praised.

The national Centennial Anniversory of the founding of the city of Washington for the permanent capital of the government will be celebrated in 1900. An appropriation is recommended and the appointment of a committee to aid in making a success of the undertaking.

The alien contract law needs amendment; the protection of seamen is proposed; the rightful application of the eight hour law, and the principle of arbitration are suggested for consideration.

Hazing Abolished at Princeton.

Princeton, N. J., Dec. 1.—At a monster meeting in Alexander hall to-night the students of Princeton university passed resolutions abolishing hazing. The resolutions had been submitted to each of the classes at previous meetings and the expression to-night was a ratification. An overwhelming majority prevailed and the hazing question, it is believed, has been disposed of finally.

ADVERTISE and SUBSCRIBE.

WASHINGTON LETTER.

(Fromour Regular Correspondent.)

WASHINGTON, D. C., Dec. 2, 189.

Mr. McKinley has made it plain to Senators and Representatives who have called upon him since Spain agreed to our terms for the surrender of the Philippines to us that he has not made up his mind what we ought to do with the Philippines and will not do so until we have had them under military control long enough to get the information necessary to form an intelligent opinion. That sort of talk has strengthened the chances of the treaty of peace for ratification at this session of Congress, as it coincides with the opinion of three fourths of the Senators regardless of party. The opinion is practically unanimous that the taking of the islands away from Spain was the right thing to do, but unanimity ends. What sort of a government will follow our military rule of the islands nobody can say at this time. It will depend largely upon public sentiment in this country, and that will be governed by circumstances

By putting in a vigorous protest Senator Jones, of Ark., succeeded in getting the War Department to change the orders assigning the Twenty-fifth Infantry (negroes) to garrison duty at Fort Logan H Root, near Little Rock, and having a white regiment, the Twelfth Infantry, ordered there instead.

Maj Gen. M. C. Butler, who was ordered from Havana, where he was serving as one of our Military Commissioners, to Washington, to confer with the authorities in regard to the military occupation of Cuba, has gone to South Carolina to spend a few days with his family before returning to Cuba. While in Washington, Gen. Butler spoke freely to his friends of his experience in Cuba. He says the Spanish soldiers are orderly and well behaved as a rule, and that the Cubans are bright and many of them well educated and fully capable of administering the government of the islands. He thinks the Spaniards who will remain in Cuba will get along amicably with the Cubans. Gen. Butler declined to express an opinion as to how long it would be before the government of Cuba was turned over to the Cubans, because it will be largely dependent upon circumstances.

The two democratic Governors elect Sayers, of Texas, and McMillen, of Tenn. who are members of the House will be missed when they retire. Mr. McMillen, the date of whose inauguration will be fixed by the legislature which meets the first Monday in January, will retain his seat in the House until after the adjournment for the holiday recess, and Mr. Sayers, who is the leading democrat on the Committee on Appropriations, and whose inauguration as Gov. will take place January 17th, will keep his seat up to the last minute, so as to have a hand in shaping as many of the regular appropriation bills as possible before retiring. Gov. Sayers is conservative on the expansion question. He did not favor the acquisition of the Philippines by the U. S., and when asked to express his opinion what we should do with them now, that the treaty of peace has given them to us, he said: "The problem of occupation of this territory is no light one, and we will have to proceed by slow steps until we hit upon some satisfactory plan of government."

Senator Cockrell says he hasn't fully made up his mind as to what he will do when the time comes to vote on the Philippine question, and doesn't expect to do so until he ascertains the details of the treaty and the intentions of the administration, but that if he had the power to act for this government, at this time, he would tell the Filipinos to set up their own government, and would recognize its independence. He added: "Who knows the Philippines cannot govern themselves? The world said the same thing when we were struggling for liberty, and some of the best men in the American colonies believed that we would never be able to maintain a republic. I believe that the Filipinos can establish and mantain just as free and just as good a republic as do the French people with all their boasted intelligence, and I should like to see the experiment tried."

The administration will not attempt to secure currency legislation at this session of Congress, for the very good reason that the administration is divided upon the sort of currency legislation that is wanted. It will be remembered that Mr. McKinley in his annual message to Congress, last year, did not endorse the radical financal views expressed in the annual report of Secretary Gage; only called the attention of Congress to them, and suggested that they be studied. Now, Comptroller of Currency Dawes, who was personally selected by Mr. McKinley for that position, has made a straight attack, in his annual report, upon several of the most important of Secretary Gage's recommendations. It is reasonably certain that Mr. Dawes did not do this without the knowledge and consent of Mr. McKinley. There is also another reason why the administration will not try to get financial legislation—fear that it would concentrate public attention upon the financial question and thereby strengthen the silver men.

THREE PRAYERS.

An infant in its cradle slept,
And in its sleep it smiled—
And one by one three women knelt
To kiss the fair-haired child;
And each thought of the days to be
And breathed a prayer half silently.

One poured her love on many lives,
But knew love's toil and care;
Its burdens oft had been to her
A heavy weight to bear;
She stooped and murmured lovingly:
"Not burdened hands, dear child, for thee."

One had not known the burdened hands,
But knew the empty heart;
At life's rich banquet she had sat
An unfed guest, apart;
"Oh, not," she whispered tenderly,
"An empty heart, dear child, for thee."

And one was old; she had known care,
She had known loneliness;
She knew God leads us by no path
His presence cannot bless;
She smiled and murmured trustfully:
"God's will, dear child, God's will for thee!"

—Kate Tucker Goode, in Alkahest.

Held for His Own Murder

"IT IS all arranged for tomorrow," said Mrs. Latymer-Wynne, as she and her husband took their seats at the dinner table.

"What is arranged?" asked her husband, a little grumpily, for he had had a long and fatiguing day in the city.

"O, the football match, of course."

"And are you going to waste your afternoon in looking on?"

"O, no; I am going to play."

"You cannot be serious, Kate. You, a married woman with two children, going to exhibit yourself in that way before a crowd of loafers! And in that dress, too!"

"Well, the dress is a little unbecoming—that's the worst of it. But as to exhibiting one's self, that's all nonsense. Isn't it a woman's business to exhibit herself? Don't we all exhibit ourselves when we go to a drawing-room?"

Mrs. Latymer-Wynn was decidedly cleverer than her husband, and kept him, on the whole, in a state of subjection. He was a good, honest fellow, who did well on the stock exchange, where his high animal spirits and propensity for practical joking were much appreciated; but he was no match for his pretty wife in the little verbal conflicts which sometimes take place between the most affectionate couples.

"I'm really lucky to have the chance," she went on. Mrs. Flyte—that's our captain, you know—said that, on present form, I hadn't much claim to a place on the team, but that, as two of her cracks were down, she'd give me a trial. O, wasn't it good of her?"

"And you're going to allow a lot of cads to criticise you, and perhaps call out: 'Get it, Tommy,' as they did at a ladies' football match the other day. Ladies, indeed! It's positively disgusting!"

"O, I think I'm all right, Harry. And if they like to call me 'Tommy' I don't mind. You know it's meant in admiration."

"You will regret it yourself one day, Kate—I am sure you will."

But Mrs. Latymer-Wynn only smiled. Still, if she could have foreseen the terrible calamity that was about to befall her she would have relented. But who can foresee the future.

Those who are living in Clapham—or, indeed, anywhere in the city, at that time cannot have forgotten the extraordinary sensation that was excited by what was called the Clapham mystery. And the scene of the mystery was Mrs. Latymer-Wynn's house.

It appeared that, as the various rooms in the upper story were in the hands of painters and paperers, Mr. Latymer-Wynn occupied temporarily the library on the ground floor as a bedroom, while his wife slept with the children on another floor.

Nothing occurred during the night to disturb those who slept upstairs. But when the servants came down in the morning and proceeded to call their master they were unable to rouse him. The door was forced open.

There was no sign of Mr. Latymer-Wynn, but there were various indications of a desperate struggle.

One of the windows was open below, and between this window and the bed the floor was strewn with fragments of the heavy china ewer belonging to the washstand. It appeared as if this had been used by the unfortunate man as the only thing in the nature of a weapon within reach. More ominous still, a closer inspection revealed blood stains on the carpet.

A little later Inspector Bickerdyke, the celebrated detective made his appearance on the scene.

It almost seemed as if even Inspector Bickerdyke would for once be baffled. But at last his patience was rewarded; a sweep made his appearance on the scene and informed the detective that as he was passing the house in the early dawn he had seen a man, shabbily dressed in a gray suit, stealing from the premises.

The inspector's small eyes twinkled with satisfaction as he listened to this statement. The mere fact that the criminal wore a gray suit did not seem much to go upon, but Inspector Bickerdyke felt sure that it would be enough for him. He would track that gray suit to the remotest corner of the earth.

The next morning there was in all the papers a long account of "The Clapham Mystery." A well-known member of the stock exchange had been surprised by burglars when asleep, and after a desperate resistance had been mudered and the body carried off. And yet all the efforts of the police to discover where the corpse had been hidden had been fruitless.

But, the investigation having been intrusted to Inspector Bickerdyke, that famous detective had already made an arrest on suspicion. He had succeeded in tracking one of the supposed murderers—the man in the gray suit—step by step from Clapham to Whitechapel, where he had discovered him in a low public house and arrested him. It was added that he would be brought before the magistrates some time that day (Saturday).

When the man was placed in the dock he refused to give his name and address, nor would he give any account of himself. He had, therefore, been taken to the station and there searched and his clothes examined. Blood stains were found upon them.

These might be accounted for by a fresh cut on the thumb of the right hand. He had in his possession a large sum of money in notes and gold, of which he refused to give any account In fact, he had badly spoken a dozen words since his arrest.

But the strongest piece of evidence against him was that a watch and chain had been found upon him which had been shown to Mrs. Latymer-Wynne and which had been identified by her as belonging to her husband.

The evidence of the servants and of the sweep (who swore to his identity) was taken, and then Mrs. Latymer-Wynne made her appearance. Apparently even his hardened nature had broken down at the thought of confronting the widow of his victim, for he came back into court holding a handkerchief to his eyes.

Her evidence was short, relating as it did merely to the disappearance of her husband and the identification of the watch and chain. The prisoner declined to put any questions to the witness. He was now asked if he wished to say anything before being removed.

"Well, there is one thing I should like to ask," he said, "and that is whether there is any law in England against a man wearing his own watch and chain?"

"Don't trifle with the court," said the magistrate, sternly.

But something in the sound of the prisoner's voice had caused Mrs. Latymer-Wynne to turn around and to look at him again.

"What, Harry!" she cried, "is it you?"

"What is the meaning of all this?" asked the magistrate, glaring at Inspector Bickerdyke.

"Beg pardon, your worship," he stammered; "it beats me hollow."

"Allow me to explain," said the prisoner, blandly. "I am Mr. Latymer-Wynne, and I am curious to know why a gentleman may not leave his own house early in the morning without being arrested. May I ask what crime I have committed?"

"LADIES, INDEED, IT'S POSITIVELY DISGUSTING."

"Your conduct is most reprehensible, sir," said the magistrate, ruffling with a sense of wounded dignity.

"Pardon me, your worship," said the prisoner. "I have done nothing. I have simply been passive in the hands of Inspector Bickerdyke.

"And what was your object in playing such a farce?" asked the magistrate, gulping down his indignation.

"Well, I had two objects. The first is a private one, with which I will not trouble your worship. The other was to see how far the cleverness of a London detective would go. Now that I have got one of them to arrest a man as his own murderer I am satisfied. I think I have established a record."

"How could you give me such a fright, Harry?" said Mrs. Latymer-Wynne as, a few minutes later, she and her husband were driving home together in a cab. It was cruel of you."

"O, you know well enough. I had to stop you somehow from playing in that beastly football match. Next time I shall do something worse."

"But Harry, dear, you cannot really have thought that I ever meant to play. Why, I only said it to tease you."

"O!" said Harry. "Then I needn't have smashed the water jug to cut my finger, after all. But who is to know what a woman does mean?"—Chicago Tribune.

Knew His Habits.

The following anecdote is given me by an Indian officer as illustrative of the manners and customs of the wily Pathan. A certain general and his staff, while wending their way through one of the narrowest valleys of Tirah, were annoyed by the attentions of a solitary marksman, who from time to time sent a bullet unpleasantly close. At last the general turned to his orderly—a Pathan sowar—and told him to dismount, take his carbine, and try and stalk the mountaineer. The sowar started off, and presently there was a crack, and a gray-bearded old Afridi tumbled headlong down the mountain side. The sowar rejoined and fell into his place. "Well done!" said the general. "But how on earth did you manage it so easily?" "Oh," replied the sowar, "I knew his habits. He was my father."—London Truth.

Woods of the Philippines.

The Philippine islands are rich in native woods, which are almost unknown to the rest of the world. There are said to be 32 tinctorial or coloring woods, which give the entire series of colors or shades. Ebony of very fine grain also abounds, and the Magkano wood, which grows in Mindanao, is said to be absolutely immune from rot.

WEBSTER'S INTERNATIONAL DICTIONARY

Entirely New. Abreast of the Times. A Grand Educator.

Successor of the "Unabridged."

Everybody should own this Dictionary. It answers all questions concerning the history, spelling, pronunciation, and meaning of words.

A Library in Itself. It also gives the often desired information concerning eminent persons; facts concerning the countries, cities, towns, and natural features of the globe; particulars concerning noted fictitious persons and places; translation of foreign quotations. It is invaluable in the home, office, study, and schoolroom.

One Great Standard Authority.

Hon. D. J. Brewer, Justice of U. S. Supreme Court, writes: "The International Dictionary is a perfection of dictionaries. I commend it to all as one great standard authority."

Recommended by every State Superintendent of Schools Now in Office.

A saving of three cents per day for a year will provide more than enough money to purchase a copy of the International. Can you afford to be without it?

DELANO, Wright Co. - MINN.

Next to France the United States will have the largest space at the Paris exposition.

One trouble about the loss of the Maria Teresa is that relics from Cat islands numerous enough to build a navy will soon be drifting around.

A model farm on the American plan and run with American machinery, stock and methods, is about to be established by a Chinese mandarin who lives near Shanghai.

A Pennsylvania girl decided not to marry and left the bridegroom at the altar. That was better and cheaper than to have left him after the house was furnished.

A wagon went through Manhattan, Kan., the other day and on the wagon cover was painted this device: "Not bound for Missouri. Not busted. Not going to wife's folks. Just doin' this to beat the railroads."

Among the cities in the United States San Francisco has the least and Philadelphia has the greatest debt. The debt of San Francisco is $133,917.01, and of Philadelphia $56,872,795.22. In the bonded debt per capita Boston is the highest with $97.33, while San Francisco is the lowest, being 38 cents.

The papers tell of a woman who had her pocket picked. She discovered afterward that the thief had left a little bit of glass, which proved to be a diamond worth $300. Some people are born lucky. The next time that woman has her pocket picked she will find a deed for a house and lot in her pocket.

At Bayville, L. I., the other day, William Cornell, aged 34, arose in the morning a handsome young bachelor, and that night retired a great-grandfather, with a daughter older than himself and a granddaughter with a child old enough to make remarks about him. He had married the Widow Overton, aged 76.

At a Vienna dinner given by Mark Twain recently one of the speakers, a well-known lawyer, stood with his hands in his pockets as he remarked: "Doesn't it strike you as unusual that a professional humorist should be funny?" "Or that a lawyer should have his hands in his own pockets," interrupted Twain.

According to a note in the Courrier de Paris, the Athenians and Greeks collectively intend to exclude all bachelors from their parliament. The idea seems to be that the bachelor has no stake in the commonwealth; if he is represented, that is as much as he can ask for; a representative he ought never to be, for whom does he represent except himself?

In addition to several Spanish battle ships and 15 or 20 steam launches which are being raised and repaired at Manila, the naval authorities are advised that 25 or 30 Spanish gunboats now in West Indian waters can be repaired and made available for coast duty at small expense. Altogether these converted Spanish ships will make quite a material addition to our navy.

One of the most novel and radical departures from ordinary methods of introducing new improvements in railway management is the formal announcement by an electrical headlight company that it is ready to "guarantee railroad companies from any loss from head-on collisions occurring at night where the locomotives are equipped with our headlights."

Because of the general use of automobile carriages in Paris the council has been forced to pass a law compelling the drivers and conductors of such carriages to graduate from a regular course of training that has been provided before they will be allowed to take their vehicles on the streets of Paris. Ten years ago if a man had suggested such a law he would have been considered daft.

American exports to Africa for the first nine months of the year, as shown by the report just issued by the bureau of statistics of the treasury department, were $1,600,000 greater than during the same period last year. Reports from that country made by our consuls state that American goods are not only favored because they are popular with the people, but particularly on account of their reputation for good quality and cheapness.

The steamer Senior, used by the wreckage company for the storage of salvage while the work of wrecking the Cervera squadron at Santiago was in progress, has arrived in New York. She landed at the Norfolk navy yard on the way four 5.5-inch guns from the Maria Teresa and the Oquendo, ten guns of various sizes from the Colon, 200 5½-inch shells, 100 11-inch shells, the safe of the Colon and tons of small articles. Uncle Sam will have quite a trophy museum when all of the captured munitions of war are assembled.

While the press and people of the middle western and northwestern states are discussing the beet sugar industry and building factories on paper, California goes right along enlarging the business. From a capital amounting to $300,000 in 1890, the total investment in the industry has grown to over $10,000,000, and the area of sugar beet fields from 2,100 acres to 36,000 acres. There are seven factories in the state, which produced, last year, 56,000 tons of sugar. This, however, is but a small fraction of what we consume.

H. H. Vreeland, of New York, the president of the Metropolitan Traction company, which hauls more passengers each day than any other road in the world, has been honored by the Railroad Men's club by being elected president of their organization. Vreeland is a remarkable man, and there are few who can show a record similar. In 1874 he began work as a common laborer, shoveling gravel for the Long Island railroad, and gradually climbing up through the different offices he has at last gained a position about as high in the railroad world as possible.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

WAR NEWS.

Marshal Blanco, the former captain general of Cuba, and his suite left Havana for Spain on the steamer Villaverde.

A contract has been made by the Merritt Wrecking company with the government to float the Reina Mercedes, sunk in the mouth of Santiago harbor, and take her to Norfolk, Va.

The steamer Comal sailed from New York for Savanah, where she will complete the loading of 1,500,000 rations for the destitute people of Cuba.

In Santiago Gen. Wood gave merchants permission to close their business places on Sunday. Under the Spanish law they were compelled to keep open until noon.

With troops for Cuba the transports Chester and Manitoba left Savannah, Ga.

From Ponce the transport Michigan arrived at Savannah, Ga., bringing 500 regular troops which have been in Porto Rico under Gen. Brook's command.

Dispatches from Manila say that the spreading of the insurgent movement is not directed against the Spaniards, but against the Americans.

In Santiago the recently-appointed supreme court was formally installed in office by Gen. Wood.

In Norfolk, Va., the safe taken from the Spanish cruiser Maria Teresa was opened by naval officials and found to contain $75,000 in Spanish and American money.

In Paris the belief was general that there would be a Carlist uprising in Spain the moment the peace treaty was signed.

FROM WASHINGTON.

The statement of the public debt issued on the 1st shows that the debt increased $16,506,565 during the month of November. The cash balance in the treasury was $926,117,182. The total debt, less the cash balance in the treasury, amounts to $1,127,473,487.

For the month of November the coinage of the San Francisco mint amounted to $4,516,250.

The draft of a bill providing for a regular standing army of 100,000 men has been prepared by Gen. Miles, commanding the army.

Secretary of War Alger in his annual report reviews the work of the year, and especially the operations in the Philippines, Cuba and Porto Rico, and gives a general summary of the military operations during the war. The secretary says a standing army of 100,000 is needed, favors the enlistment of natives of the various islands, and suggests that the United States construct Cuban railways.

Charles G. Dawes, comptroller of the currency, in his annual report for the year ended October 31, 1898, shows that there were 3,598 national banks in the country with authorized capital of $624,552,195, and 5,145 state banks with a capital of $370,073,788.

The United States in 1898 for the first time in history exported manufactured articles of greater value than were imported.

THE EAST.

At the leading clearing houses in the United States the exchanges during the week ended on the 2d aggregated $1,535,807,519, against $1,331,844,749 the previous week. The increase compared with the corresponding week in 1897 was 15 8.

In the United States there were 281 business failures in the seven days ended on the 2d, against 188 the week previous and 306 in the corresponding period of 1897.

In Pittsburgh, Pa., a new tin plate trust was formed, to be called the Consolidated Tin Plate company, with a capital stock of $50,000,000.

Philip Metz, aged 35, known as "the heaviest man in Harlem," weighing 425 pounds, committed suicide in New York.

Throughout the country business in November last was the best known in the nation's history.

In the Home Life Insurance company, Postal Telegraph company and Roger, Peet & Co. buildings in New York fire caused a loss of over $1,000,000

The explosion of a steam pipe in the engine-room of the steamer Almo in New York killed six men.

At the age of 79 years James G. Lindsley, who represented the Seventeenth New York district in the Forty-ninth congress, died at his home in Kingston.

In New York a flour trust has been formed to control nearly all the product in this country and also the supply of three-fourths of the world.

WEST AND SOUTH.

A mob lynched a negro who killed Alexander Loin at Madrid, Mo.

H. N. Bradley & Co., dry goods dealers in Denver, Col., failed for $110,000.

At the age of 68 years Barnes Compton, for three terms a member of congress from Maryland, died at Laurel.

Official returns from the late election in Michigan give Gov. Pingree (rep.) a majority of 73,801.

Official returns of the late election in Wisconsin show that Edward Scofield (rep.) for governor has a plurality of 38,737.

On the Baltimore & Ohio road freight trains collided at Walkerton, Ind., and seven trainmen were injured.

The official returns show that in the recent election in Minnesota John Lind, fusion candidate for governor, has a plurality of 20,189, while the republican candidates for the other state offices received pluralities ranging from 26,000 to 14,000.

In Indiana, Ohio, Pennsylvania, New York, Massachusetts and Maryland a snow, sleet and windstorm did great damage to property. In Baltimore 800 houses were unroofed and telegraph poles and trees were leveled.

C. C. Runyon and Alfred Allen killed each other in a fight at Jackson, Ky. An old quarrel was the cause.

Almost the whole business portion of Eufaula, I. T., was destroyed by fire.

The official returns from the recent election in Colorado show that the majority of Charles S. Thomas (fusion) for governor was 43,384.

At Girard, Ill., William Kent murdered his brother, Noble Kent. Both were prominent and a quarrel over property was the cause.

At Fergus Falls, Minn., Link Thayer, convicted of train robbery, was sentenced to 20 years in prison.

FOREIGN INTELLIGENCE.

The report that Germany is negotiating with Spain for the purchase of the Caroline islands is confirmed.

In Paris a decree has been issued forbidding the admittance into France of fruits and plants from the United States.

The Village Belle, a British schooner, was lost at sea, and her skipper, four members of her crew and three passengers were drowned.

Advices received at the state department says the revolution in Salvador is ended.

In Austria the fiftieth anniversary of the accession of Emperor Francis Joseph to the throne was celebrated.

Terencio Sierra has been elected president of Honduras. He is a graduate of the West Point military academy and spent several years in this country.

In the bay of Biscay the British steamer Clan Drummond was wrecked and 37 persons were lost.

In Montreal Pierre Luzon shot and killed Mrs. Adelaid Richot because she spurned his love and then committed suicide.

Under the recent amnesty declaration many of the expatriated natives of Nicaragua are returning home.

LATER NEWS.

Gen. Maximo Gomez, the commander-in-chief of the insurgent forces of Cuba, has ordered that apartments be prepared for him at his residence in Guanabacao, now occupied by his niece.

The French steamer Algeras foundered off the coast of Algeria. Eleven persons were drowned.

The Lincoln theater at Chicago was badly damaged by fire.

General Wheeler introducep a bill in Congress providing for a gold medal for Helen Gould.

Congress reassembled the 5th. At noon the giant form of the speaker pushed through the green baize doors of the lobby in the rear of the hall, and Mr. Reed ascended the rostrum. A wave of applause swept the floor and galleries. While the responses were being made General Wheeler of Alabama came in and took his seat in the row immediately in front of the speaker's rostrum. He was instantly surrounded by half a hundred members and received the ovation of the day. The presidents message was received at 1.45 p. m.

France has made demands at Nankin (the southern capital of China, near the right bank of the Yang-Ste-Kiang and about ninety miles from its mouth), that are equivalent to the alienation of a valuable portion of the Yang-Ste-Kiang valley. The viceroy of Nankin stoutly refuses to accede.

The Mexican legation at Washington will be raised to an embasy.

Corbett deposits $1,000 for a fight with Sharkey.

The nitro-glycerine house of the Hudson Powder company at Binole, Cal., blew up, killing Supt. Charles Kennedy and four Chinamen.

The Spaniards have completely evacuated the province of Puerto Principe, in Cuba.

Seven inches of snow suspended street car traffic at Detroit, Mich., and shut the city from outside communication for 24 hours.

Representative Sulzer, of New York, ranking democratic member of the house committee on military affairs, has introduced a resolution in congress authorizing and directing the committee on military affairs to investigate the war department and the conduct of the Spanish-American war.

PEACE IN SIGHT.

The Commissioners at Paris Have Agreed on a Treaty of Peace.

Paris, Dec. 7.—The peace treaty of Paris is practically an accomplished fact. Yesterday's session disposed of of the essential features of the treaty, which will be embodied in the following eight articles:

First, the customary preface of treaties, in the nature of an expression of amity, and of hope for perpetual peace.

Second, the relinquishment by Spain of her sovereignty over Cuba.

Third, the withdrawal of the Spanish troops.

Fourth, the relinquishment by Spain of her sovereignty over Porto Rico.

Fifth, Spain's cession of the Philippines.

Sixth, the withdrawal of the Spanish troops there.

Seventh, payment by the United States of $20,000,000 for the Philippines.

Eighth, the provision for the "open door" commercial policy in the Philippines.

The rough draft of the treaty, which may be considerably changed, covers the proposals. It makes a long document, which Senator Cushman K. Davis, of the United States peace commission, says will be found to be one of the most interesting papers of its character ever written.

Among the question not yet settled, however, are the coaling station and religious freedom in the Carolines, the Spanish commission not having replied to the American offer. The Americans have agreed to transports the Spanish prisoners home, including the garrison and sailors at Manilla captured by Admiral Dewey and Gen. Meritt, as well as the soldiers and civilians held by the Philipinos, whose return the Americans have guaranteed.

As conpensation, Spain promises to liberate all Cuban, Porto Rican and Philippine political prisoners. Spanish Soldiers electing to remain in the colonies may do so, but it is more a matter of economy for the Americans to return the others, as they must be fed as long as they are kept, and Spain is unable to bear the expense of the repatriation.

Also the Americans have rejected Spain's request for free shipping for 10 years in Cuban and Porto Rican waters, they having given the Spanish commissioners such poor consolation as the latter may derive from the permission to apply when the diplomatic relations have been renewed for shipping concessions under the reciprocity scheme of the Dingley law, for which Senor Dupuy de Lome was negotiating at Washington when the war broke out.

THE FIFTY-FIFTH CONGRESS

Closing Session of That Body Is Called to Order at Washington.

BOTH HOUSES MEET PROMPTLY AT NOON

The Usual Crowds Witness the Ceremony of Opening—President's Message in Both Branches and Listened to Attentively—Warm Welcome Given to Maj. Gen. Wheeler.

Washington, Dec. 6.—Congress reassembled Monday under circumstances of unusual public interest. The same congress six months ago declared war against Spain and now, with the war fought and won, it came together again for the first legislative consideration of the questions developed by the eventful months just passed. The spirit of the occasion was not, however, one of immediate expectancy, for the few months left to the existence of the Fifty-fifth congress gave promise of little more than a beginning on the momentous policies and problems growing out of the war.

SESSION OF SENATE.

Opening Scenes in the Upper House of Congress.

Washington, Dec. 6.—When the senate convened Monday to begin the closing session of the Fifty-fifth congress, the chamber presented a notable and beautiful appearance. By 11 o'clock the public and private galleries were filled to their capacity with a distinguished assemblage, including many ladies in brilliant attire. On the floor of the senate the display of flowers was unusually beautiful even for the opening day of a session of congress.

At the Stroke of Twelve.

Promptly at the stroke of 12 o'clock Vice President Hobart entered, and, ascending to his desk, rapped for order.

Rev. Mr. Milburn, the venerable blind chaplain, in a profoundly impressive manner, returned "devout and reverent thanks for God's goodness to us as a nation and for His care of us since last gathered in this chamber."

A call of the senate developed the presence of 67 members.

The Usual Resolutions.

The usual resolutions were offered and adopted. Senator Cullom (Ill.) offered that to appoint a committee to inform the house that the senate was ready to transact business; Senator Hale (Me.), that fixing the hour of daily meeting at 12 o'clock noon; and Senator Morrill (Vt.), that to appoint a committee to notify the president that the senate was awaiting any communication he might desire to make.

Message Read.

At 1:25 p. m. the committee appointed to wait upon the president reported the performance of its duty and announced that the president immediately would communicate with the senate in writing.

Scarcely had the report been made when Maj. Pruden, executive clerk of the president, entered the chamber and presented the message. Vice President Hobart laid it before the senate at once, and its reading was begun at 1:28 p. m.

The reading of the message occupied two hours and eighteen minutes. Not the slightest demonstration occurred during the reading of the message.

At 3:45, on motion of Senator Platt (Conn.), the senate adjourned.

SESSION OF HOUSE.

The Representatives Reassemble Speaker Reed's Gavel Falls.

Washington, Dec. 6.—The opening session of the congress was a spectacular occasion, animated and brilliant. There were more than the usual number of distinguished personages in the thronged galleries, including many representatives of foreign governments, high officials and ladies and gentlemen conspicuous in social and political life. The greetings of the members were most cordial and there was no outcropping of partisan rancor to mar the occasion.

Warm Welcome for Reed.

Speaker Reed received a warm welcome from both sides of the house when he ascended the rostrum to call the house to order, but perhaps the greatest personal ovation to any member was that given Maj. Gen. Wheeler, of Alabama, who has not been seen by many of his old colleagues since he went to the front at the head of the cavalry division of Gen. Shafter's army.

After the chaplain had offered prayer and the roll had been called, the committee to wait upon the president was appointed. At about 1:30 Maj. Pruden, the president's executive clerk, appeared and announced the message of the president. It was immediately laid before the house.

House Adjourns.

The president's review of the causes leading up to the war, the manner in which the preparations for hostilities were made, the succession of victories on land and sea and other provisions of the message were followed with much interest. As soon as the reading was concluded, on motion of Mr. Dingley, the message was ordered printed, and then, at 3:50 p. m., the house adjourned.

To Honor Miss Gould.

Washington, Dec. 6.—Gen. Wheeler (Ala.) introduced in the house through Representative Stallings a resolution providing that in "recognition of the patriotic devotion and bounteous benevolence of Miss Helen Miller Gould to the soldiers of the army of the United States during the war with Spain the thanks of congress are hereby tendered her, and congress hereby authorizes and directs that a gold medal with appropriate designs be prepared by the director of the mint, and that said medal be presented to her by the president of the United States at such time and in such manner as he may determine."

Asks for Aid.

New York, Dec. 1.—Gen. Jose Gomez called on Stephen E. Barton at the Red Cross headquarters in this city to ask his aid in sending relief to the sick and starving women and children at Las Villas, Sanctus Spiritus, and Trinidad, in Santa Clara province. The general stated that the suffering was more intense there than in any other part of the island, and if the relief did not reach them soon it would be too late.

SUBMITS HIS ESTIMATES.

Secretary Gage Informs Congress of the Appropriations Required for the Year 1900.

Washington, Dec. 6.—In conformity with the requirements of law, the secretary of the treasury on Monday transmitted to congress the estimates of appropriations required for the service of the fiscal year ending June 30, 1900, as furnished by the several executive departments. These estimates, including permanent annual appropriations, aggregate $593,048,378, as against $808,875,513, the amount of the appropriations, including deficiencies and miscellaneous, for the fiscal year 1899 and $462,647,885, the amount of the estimates for 1899. Following is the total recapitulation, cents omitted:

	Estimates for 1900.	Estimates for 1899.
Leg'lative estab'ment	$4,476,995	$4,465,532
Executive estab'ment.	22,308,112	20,025,484
Judicial estab'ment...	707,620	687,620
Foreign intercourse..	1,833,028	1,850,428
Military estab'ment...	145,119,431	24,620,042
Naval establishment..	39,114,652	29,929,526
Indian affairs.....	7,069,316	7,375,617
Pensions	145,233,830	141,257,705
Public works.....	56,927,080	72,364,134
Postal service.....	4,295,838	6,048,112
Miscellaneous	27,314,203	35,187,402
Permanent annual appropriations	128,678,220	117,836,220
Grand totals.....	$593,048,378	$462,647,885

The appropriations for the military establishment for the fiscal year amounted to $287,841,446, and for the naval establishment $107,816,468. For the military establishment, estimates for the year 1900, covering the more important items together with the increase in each item over the estimates for 1899, are given as follows:

Contingencies of the army $450,000, increase $432,000; pay and traveling expenses of the army $35,430,909, increase $41,443,842; subsistence of the army $17,682,437, increase about $16,000,000; regular supplies quartermaster's department $14,000,000, increase $12,000,000; incidental expenses quartermaster's department $3,900,000, increase, $3,300,000; transportation of the army and supplies $29,813,875, increase about $27,300,000; clothing and camp and garrison equipage $14,744,431, increase about $13,000,000; barracks and quarters $2,500,000, increase $1,750,000; medical and hospital department $2,100,200, increase $1,975,000; ordnance, ordnance stores and supplies, $1,750,000, increase $1,150,000; manufacture of arms $800,000, increase $400,000.

For the naval establishment the following are the principal items:

Pay of the navy $13,226,440, increase about $4,500,000; increase of the navy, $10,192,402, increase about $1,750,000; outfits for naval apprentices, bureau of navigation, $112,500; increase $78,750; maintenance naval training station, Verba Buena island, Cal., $30,000 (new); ordnance and ordnance stores $1,875,000, increase $864,000; equipment of vessels, $2,225,480, increase $741,827; provisions $3,000,000, increase $1,595,000; construction and repair $3,000,000, increase $500,000; repairs to United States steamer Constitution, $150,000.

Under the war department:

For the improvements at Rock Island arsenal, Illinois, $225,850; for gun and mortar batteries, $4,410,000; sites for fortifications and seacoast defenses, $300,000; torpedoes for harbor defense, $100,000; for armament of fortifications, $7,071,998. The total amount asked for fortifications and other works of defense is $12,151,898. For buildings and grounds at West Point military academy, $239,778; for construction of buildings at military posts, $1,000,000; for improvements in Yellowstone national park, $40,000; for Chickamauga and Chattanooga national park, $60,000; for Gettysburg national park, $75,000; for Shiloh national military park, $75,000.

The total amount asked for continuing or completing improvements of rivers and harbors is $28,523,778.

ALASKA'S NEEDS.

Gov. Brady Enumerates Some of Them and Makes a Strong Plea for Congressional Action.

Washington, Dec. 2.—The annual report of Gov. Brady, of Alaska, makes a strong plea for congressional action on Alaska's needs at the coming session and points out that Alaska is 13 times larger than Cuba, has been "in our possession for 31 years, and its value has been unknown and unappreciated." Gov. Brady declares that "it would seem as impossible to prevent smuggling of liquor into Alaska as it would be to prevent the clouds from rolling by or the tide from ebbing or flowing."

Recommendation is made for a high license liquor law, a tax of a few cents a case on salmon and ten cents a ton for wharfage. The first two combined would net at least $235,000 annually, the third $100,000, based on this year's wharfage. It also recommended that the general land laws be extended to Alaska; that Alaska be given representation in congress; that Japonsky island be made a naval station and that cable communication be effected with the United States.

SILVER THE BASIS.

Commissioner Harden Reports on the Currency of the Philippine Islands.

Washington, Dec. 2.—An interesting official report on financial and industrial conditions in the Philippines, prepared by Edward W. Harden, appointed last August as a special commissioner for that purpose, has been made public by Secretary Gage. It shows, among other things, that silver is the basis of the island currency, that the per capita circulation for the entire population of the islands is about five dollars on a silver basis, or half that on a gold basis, that the Mexican dollar is the coin chiefly in use, that Spanish oppression extended to finance to such a measure that $6,000,000 of a $40,000,000 bond issue in July, 1897, was floated as a forced loan from those having claims against the government, that practically all the trade is in the hands of foreigners, that exports in 1897 exceed imports by $23,999,290 in total valuation, that the four principal industries are hemp, sugar, copra and tobacco, and that the establishment of a cordage-making plant would probably be a paying investment.

A Million-Dollar Fire.

New York, Dec. 5.—In a blinding rainstorm Sunday night the massive block of buildings on Broadway Nos. 253 to 259 and included between Murray and Warren streets, was almost destroyed by fire. Within three hours more than a million dollars' worth of property was destroyed. The fire began in the five-story brick building occupied by the men's furnishing firm of Rogers, Peet & Co., on the southwest corner of Broadway and Warren street. Adjoining the Rogers-Peet building and south of it was the magnificent white building of the Home Life Insurance company, and next to this was the brown stone building of the Postal Telegraph company, erected at a cost of millions only a few years ago.

TELLS OF THE WAR.

Secretary Alger Reports on the Work of His Department.

History of the Campaign Related Without Criticism—Credit of Victory Belongs to No One Man—Wants Army of 100,000 Men.

Washington, Dec. 3.—The annual report of Secretary Alger is a practically complete official history of the Spanish-American war. The secretary has given to the public not only all the official dispatches that passed directly between his own office and commanding officers in the field and camp, but has supplemented these with short explanatory notes setting forth the reasons for various movements, and then, to complete the record of events, he has included in the body of his report the report of Gen. Miles, of all the generals who participated in the campaign in Cuba, Porto Rico or the Philippines, and finally the reports of all of the bureau officers of the war department. Nowhere is there shown a disposition to criticise, the official dispatches being allowed to tell their own story, and generally the secretary finds much to praise and cause for sincere congratulation in the results obtained.

Had a Big Force of Surgeons.

The report proper begins with what may be described as a chronological history of the war, consisting of a number of short paragraphs, beginning with the declaration of war on April 21, and setting forth the date upon which any event of importance occurred, but making no comment whatever upon the facts. The only exception to this rule is in a reference to the casualties at Santiago. Some criticism having been made that there was a lack of surgeons present, the report states that there were 140 surgeons in attendance, and that of 1,431 wounded only 13 died of their wounds.

Surrender of Santiago.

Touching the surrender at Santiago the report shows that Shafter demanded the surrender on the 3d, and renewed this demand on the 4th. On the morning of the 11th, another demand was made. On the evening of that day Gen. Miles arrived, and on the 13th and 14th of July, he, with Gen. Shafter met the Spanish commander under a flag of truce to discuss the surrender. On the afternoon of the 14th, Gen. Miles left Gen. Shafter's headquarters and soon thereafter went aboard ship preparatory to sailing for Porto Rico. July 17, Toral surrendered 23,000 men upon our terms and the American flag was hoisted by order of Gen. Shafter.

A Great Achievement.

The secretary, coming down in his history to the middle of August, when an order was issued and is now in execution to muster out 100,000 volunteers, says: "Thus an army of about 250,000 volunteers and recruits for the regulars was called into existence from civil life, and, including the regular army, the total force was 274,717 men. It was organized, armed, and equipped (no supplies being on hand other than those for the regulars, save Springfield muskets), and 50,000 men of this force were transported by land and sea to battlefields in the tropics 10,000 miles apart, where they won their victories without a single defeat, and all within the period of 113 days from the declaration of war to the signing of the protocol.

Credit Belongs to No One Man.

"This great achievement can be credited to no individual; it belongs to the nation. It was accomplished through the intelligence and patriotism of all who served, from the commander in chief to the private in the ranks. It also speaks volumes for the prompt, patriotic and intelligent assistance of the people who furnished, in so short a period, the supplies necessary to prepare this great army for the field. To the heroic men who served in distant lands the country will ever offer a true meed of praise, but the mighty army in camp, ready and eager to take the field, should also be given equal credit. It was their presence, ready at an hour's notice for any emergency, that overawed the enemy and proved to him that further resistance would be in vain.

Death Rate of the Army.

"The deaths in the army from May 1 to October 1, including killed, died of wounds and of disease, were 2,910, the smallest death rate recorded of an army in history, a remarkable fact when it is considered that over 50,000 of our troops, born and reared in the temperate zone, were campaigning in tropical climates, subject to rain and heat almost unprecedented."

Wants Army of 100,000 Men.

Under the head of increase in the permanent establishment the secretary says: "In view of the needs of a military force in the islands occupied by the United States, it is earnestly recommended that the regular army be permanently increased to 100,000 men and the requisite officers; that a portion of this army be recruited from the inhabitants of those islands, to be mustered into the service of the United States, commanded by officers of our army, discretion, however, to be given to the president to make appointments of officers from the force so recruited.

Another suggestion is that there should be employed in the United States service a constabulary force for the cities of Cuba, Porto Rico and the Philippines who have had the experience and can speak the language of the islands.

Estimates.

The statement of expenditures and estimates presents some formidable figures. The expenditures for the fiscal yar ended June 30 last were $62,534,784, and the estimates for the next fiscal year, beginning July, 1, 1899, are $195,250,377. Of this great estimate the sum of $55,420,900 is charged to pay of the army. The estimate of extraordinary appropriations required for the six months ending June 30, 1899, is $60,177,530, and the estimate for that period, combined with those for the next fiscal year, reaches a total of $255,427,917.

At this point the secretary includes in his report the reports of Gen. Miles and all the other generals who participated in active operations.

Our Dead in Cuba.

The graves of the soldiers at Santiago, in Porto Rico and the Philippines have been marked, and their remains will be brought home as soon as the plans are completed.

The entire report of the secretary of war forms one of the most voluminous documents of the kind ever issued from the war department.

The Naval Reserve.

Washington, Dec. 2. — Lieut. W. H. H. Southerland, in charge of matters pertaining to the naval militia, has made a report to the assistant secretary of the navy upon the naval militia during the war. At the beginning of the year an allotment of $48,000 was made to several states having naval militia organizations, with a total of 4,445 men. The states were California, Connecticut, Florida, Georgia, Illinois, Louisiana, Maryland, Massachusetts, Michigan, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina and Virginia. The District of Columbia has since mustered in an organization. He says that the war has demonstrated the necessity for the maintenance of a national naval reserve which he recommends. He commends the patriotism of the reserves and in conclusion says that he considers that a continuous annual appropriation of $200,000 will be sufficient to provide for a force of naval reserves to aggregate 7,000 men at the end of three years.

The Public Debt.

Washington, Dec. 2.—The monthly statement of the public debt shows that at the close of business in November the debt, less cash in the treasury, amounts to $1,127,473,487, an increase over the last month of $16,506,565. This increase is accounted for by a decrease of nearly $8,000,000 in the cash on hand, and an issue of about the same amount of bonds which had been paid for in preceding months.

Make it a Point

To Get the Best Every Time, When You Buy Medicine.

Health is too valuable to be trifled with. Do not experiment. Get Hood's Sarsaparilla and you will have the best medicine money can buy—the medicine that cures when all others fail. You have every reason to expect it will do for you what it has done for others. Remember

Hood's Sarsaparilla

Is America's Greatest Medicine. Price $1.

Hood's Pills are the favorite cathartic.

LOW RATES TO THE SOUTH.

A Splendid Opportunity to Visit Southern Points at Small Cost.

On Tuesday, Dec. 6th, and Tuesday, Dec. 20th, a popular low rate excursion will be run from Chicago to the South via Chicago & Eastern Illinois Railroad. On those days, that Company will sell both one way and round trip first class tickets at greatly reduced rates. One way tickets will be for continuous passage; on round trip tickets stop over will be allowed on going trip at points in the South. Round trip tickets will be good twenty-one days. The Chicago & Eastern Illinois Railroad has two daily through trains which leave Dearborn Station, Chicago, for all points beyond the Ohio River; both trains carry through first class coaches, sleeping cars and have dining cars serving meals out of Chicago. This is the shortest route to the South and the time made by its trains is the quickest. For detailed information, inquire of any ticket agent or address Charles L. Stone, General Passenger & Ticket Agent C. & E. I. R. R., Chicago.

He Didn't Sit It Out.

He was a fragile youth and didn't dance all the dances.

"Let's sit it out," he said to his pretty partner.

"Where?" she asked.

"On the stairs."

So they went up a little way and sat down.

"Wh-why, what's the matter, Mr. Stackpole?" cried the fair young girl. For the young man had hastily risen and was gasping for breath. He could not reply. His face was livid, his eyes were rolled up, and with one shaking hand he clawed feebly at the skirts of his Tuxedo.

"What kind of an attack is it?" she gasped.

At this question his voice came back to him.

"What difference does that make?" he harshly growled. Then, without a word of apology he dashed up the stairs and flung himself into the gentlemen's coatroom.

And how was she to know that it was an ordinary carpet tack that the man who canvassed the stairs had carelessly left standing on its head?—Cleveland Plain Dealer.

To California Without Change via "The Milwaukee."

On every Saturday during the winter an elegant Pullman Tourist Sleeper will leave Minneapolis (8:25 a. m.), St. Paul (8:35 a. m.), and arrive Los Angeles, California, at 8:25 a. m. following Wednesday.

Via "The Milwaukee's" famous "Hedrick Route" to Kansas City, thence via the A. T. & S. F. Ry. through Southern California.

A most delightful winter route to the coast.

Quicker time is made via this route between St. Paul and Minneapolis and California than via any other line.

Rate per double berth, $6.00 through from St. Paul and Minneapolis.

Leave St. Paul and Minneapolis every Saturday morning, arriving Los Angeles every Wednesday morning.

For berths, complete information, and lowest rates, apply to "The Milwaukee" agents, St. Paul or Minneapolis, or address J. T. Conley, Ass't Gen'l Pass. Agt., St. Paul, Minn.

We somehow hate little sinners more than we do big ones. A man with enough moral strength to be nearly right should be altogether so.—L. A. W. Bulletin.

SOLVING THE FUTURE WELFARE OF THE CONTINENT.

This Is What Is Now Being Done on the Fertile Prairies of Western Canada.

The rapid progress that is being made in the settlement of the fertile prairies of western Canada is leading to the investigation of its resources by those interested in having provision made for those living in the crowded east, for those who have been struggling for years on impoverished farms, for the renter who is unable any longer to bear up under the strain imposed by the landlord, and for the farmer who unable to purchase farms for his sons in his own neighborhood has to look around for lower priced lands. The investigation shows that it is impossible to meet these conditions successfully outside of western Canada. Already millions of bushels of wheat are being grown there each year, while as many as 50,000 head of cattle were shipped out this year. A representative of the Germania, Milwaukee, one of the leading German papers in the United States, recently made a trip through Manitoba, Assiniboia, Alberta and Saskatchewan, where lie the free government lands of western Canada, and in a future issue will appear extracts from flattering letters contributed to the Germania and other papers by their special correspondents.

As an inducement for immigrants to make their homes in Canada, the Canadian government offers 160 acres of land free of cost to each settler, and information can be had of agents of the government.

Chance to Get Even.

A Kentucky man recently married the granddaughter of a woman who once refused him.

"Gracious; what a vengeance he will be able to wreak."

"I don't see where the vengeance is to come in."

"Why, he will be able to address the woman who had once refused him as 'grandmother.'"—Cleveland Plain Dealer.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases of of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Catch Cold Easily?

Are you frequently hoarse? Do you have that annoying tickling in your throat? Would you feel relieved if you could raise something? Does your cough annoy you at night, and do you raise more mucus in the morning?

Then you should always keep on hand a bottle of

Ayer's Cherry Pectoral

If you have a weak throat you cannot be too careful. You cannot begin treatment too early. Each cold makes you more liable to another, and the last one is always harder to cure than the one before it.

Dr. Ayer's Cherry Pectoral Plaster protects the lungs from colds.

Help at Hand.

If you have any complaint whatever and desire the best medical advice you can possibly obtain, write the doctor freely. You will receive a prompt reply.

Address, DR. J. C. AYER, Lowell, Mass.

M'KINLEY'S MESSAGE.

Synopsis of His Annual Communication to Congress.

The War with Spain the Most Prominent Feature—No Colonial Policy Outlined at the Present Time.

Washington, Dec. 5.—President McKinley's second annual message, submitted to congress to-day, contains about 20,000 words. Following is a brief synopsis—including some direct excerpts of the more important features of the message:

"To the Senate and House of Representatives: Notwithstanding the added burdens rendered necessary by the war, our people rejoice in a very satisfactory and steadily-increasing degree of prosperity, evidenced by the largest volume of business ever recorded. Manufacture has been productive, agricultural pursuits have yielded abundant returns, labor in all fields of industry is better rewarded, revenue legislation passed by the present congress has increased the treasury's receipts to the amount estimated by its authors; the finances of the government have been successfully administered and its credit advanced to the first rank, while its currency has been maintained at the world's highest standard. Military service under a common flag and for a righteous cause has strengthened the national spirit and served to cement more closely than ever the fraternal bonds between every section of the country."

Spain and Cuba.

In reviewing the controversy which led up to the war with Spain, the president takes up the thread of narrative where it terminated in his last annual message. He concludes: "It was honestly due to our friendly relations with Spain that she should be given a reasonable chance to realize her expectations of reform to which she had become irrevocably committed." It became evident, however, that the proposed plans were barren of good results. No tangible relief was afforded the reconcentrados, among whom the rate of mortality frightfully increased; the proffered expedient of zones of cultivation proved illusory; and it was apparent that nothing save the physical exhaustion of Spain or the Cubans and the practical ruin of the island of Cuba could result from the struggles then in progress.

At this critical juncture the destruction of the battleship Maine occurred. Concerning it the president says: "It is a striking evidence of the poise and sturdy good sense distinguishing our national character that this shocking blow, falling upon a generous people, already deeply touched by preceding events in Cuba, did not move them to an instant, desperate resolve to tolerate no longer the existence of a condition of danger and disorder at our doors that made possible such a deed, by whomsoever wrought."

Resuming the war narrative, the president directs attention to the measures, including the $50,000,000 appropriation for national defense, taken to place the country on a war footing, and adds:

Not Unprepared for War.

"It is sufficient to say that the outbreak of war, when it did come, found our nation not unprepared to meet the conflict."

Reference is made to the apprehension of coming strife by the continental powers, voiced in the address to the president through their ambassadors and envoys, and to the president's reply thereto. Still animated, however, by the hope of a peaceful solution of the difficulty and obeying the dictates of duty, the president relaxed no effort to bring about a speedy ending of the Cuban struggle. Negotiations with the Madrid government proved futile, so far as practical results were concerned, and then it was the president presented the question to congress, saying:

"In the name of humanity, in the name of civilization, in behalf of endangered American interests which give us the right and duty to speak, and to act, the war in Cuba must stop."

The result of this statement of the case was the adoption of the memorable joint resolution by congress, declaring the purpose of the United States to intervene between the Spaniards and Cubans. Following swiftly upon the enactment of the resolution came the severance of diplomatic relations between the two countries, the proclamation of a blockade of Cuban ports, the call for volunteers and the formal declaration of the existence of a state of war. All other governments were immediately notified of the existence of war and each proclaimed neutrality. "It is not among the least gratifying incidents of the struggle that the obligations of neutrality were impartially discharged by all, often under delicate and difficult circumstances."

The president reviews at length the work of preparation for war, referring particularly to the enlistment of the volunteers, to the material increase of the navy in both men and ships, and to the preliminary measures taken for the protection of the seaboard coast and cities. "The aggregate number of mines placed was 1,535, at the principal harbors from Maine to California."

Referring to "the difficult and important character" of the work performed by the signal corps, the president says: "This service was invaluable to the executive in directing the operations of the army and navy. With a total force of over 1,300 the loss was by disease, in camp and field, officers and men included, only five." As to the authorized loan of $200,000,000, which was taken entirely by small bidders, the president says: "This was a most encouraging and significant result, showing the vast resources of the nation and the determination of the people to uphold their country's honor."

Review of the War.

Taking up chronologically the events of the war, the president reviews them carefully. The first encounter was the shelling of Matanzas on April 27. This was followed by an engagement which was "destined to mark a memorable epoch in maritime warfare." This was Commodore Dewey's wonderful victory at Manila on May 1. "The effect of this remarkable victory," says the president, "upon the spirit of our people and upon the fortunes of war was instant. A prestige of invincibility thereby attached to our arms, which continued throughout the struggle."

The president says that "only reluctance to cause needless loss of life and property prevented the early storming and capture of the city (Manila), and therewith the absolute military occupation of the whole group." Following the memorable trip of the battleship Oregon from San Francisco to Key West and the bombardment of San Juan and the forts of Santiago, to which special reference is made, the president says:

Hobson's Heroism.

"The next act in the war thrilled not alone the hearts of our countrymen but the world by its exceptional heroism. On the night of June 3 Lieut. Hobson, aided by seven volunteers, blockaded the outlet from Santiago harbor by sinking the collier Merrimac in the channel, under a fierce fire from the shore batteries, escaping with their lives as by a miracle, but falling into the hands of the Spaniards. It is a most gratifying incident of the war that the bravery of this little band of heroes was cordially appreciated by the Spanish admiral."

The campaign of Santiago, resulting in the investment and the capture of that city, is referred to as a brilliant achievement. A brief review is then presented of the decisive naval combat of the war on July 3, resulting in the complete destruction of Admiral Cervera's fleet. Concerning it, the president says:

"Where all so conspicuously distinguished themselves, from the commanders to the gunners and the unnamed heroes in the boiler rooms, each and all contributing toward the achievement of this astounding victory, for which neither ancient nor modern history affords a parallel in the completeness of the event and the marvelous disproportion of casualties, it would be invidious to single out any one for special honor." In this connection the president says: "Nor can we be unmindful of the achievements of our builders, mechanics and artisans for their part in the construction of our warships."

As to the success gained by the arms of the United States in Cuba, the president says that the earnest and lasting gratitude of the nation is unsparingly due. "Nor should we alone remember the gallantry of the living; the dead claim our tears, and our losses by battle and disease must cloud any exultation at the result and teach us the awful cost of war, however rightful the cause or signal the victory."

American Losses.

"The total casualties in killed and wounded in the army during the war with Spain were: Officers killed, 23; enlisted men killed, 257; total, 280; officers wounded, 113; enlisted men wounded, 1,464; total, 1,577. Of the navy: Killed, 17; wounded, 67; died as result of wounds, 1; invalided from service, 6; total, 91.

"It will be observed that while our navy was engaged in two great battles and in numerous perilous undertakings in blockade and bombardment, and more than 50,000 of our troops were transported to distant lands and were engaged in assault and siege and battle and many skirmishes in unfamiliar territory, we lost in both arms of the service a total of 1,668 killed and wounded; and in the entire campaign by land and sea we did not lose a gun or a flag or a transport or a ship, and with the exception of the crew of the Merrimac not a soldier or sailor was taken prisoner."

The president bears testimony and pays fitting tribute "to the patriotism and devotion of that large portion of our army, which, although eager to be ordered to the post of greatest exposure, fortunately was not required outside of the United States." They did their whole duty and earned the gratitude of the nation. The president then says: "In tracing these events we are constantly reminded of our obligations to the Divine Master for His watchful care over us, and His safe guidance, for which the nation makes reverent acknowledgment, and offers prayer for the continuance of His favors."

Peace Negotiations.

The peace negotiations, which followed soon after the capitulation of Santiago, and the preparation and signing of the protocol are discussed at length. Referring to the work of the peace commissioners in Paris the president says: "These negotiations have made hopeful progress, so that I trust soon to be able to lay a definite treaty before the senate with a review of the steps leading to its signature.

"I do not discuss at this time the government or tenure of the new possessions which will come to us as the result of the war with Spain. Such discussion will be appropriate after the treaty of peace shall be ratified. In the meantime and until the congress has legislated otherwise, it will be my duty to continue the military governments which have existed since our occupation and give to the people security in life and property and encouragement under a just and beneficent rule.

"As soon as we are in possession of Cuba and have pacified the island it will be necessary to give aid and direction to its people to form a government for themselves. This should be undertaken at the earliest moment consistent with safety and assured success. It is important that our relations with this people shall be of the most friendly character and our commercial relations close and reciprocal. It should be our duty to assist in every proper way to build up the waste places of the island, encourage the industry of the people, and assist them to form a government which shall be free and independent, thus realizing the best aspirations of the Cuban people.

"Spanish rule must be replaced by a just, benevolent and humane government, created by the people of Cuba, capable of performing all international obligations, and which shall encourage thrift, industry and prosperity, and promote peace and good will among all of the inhabitants, whatever may have been their relations in the past. Neither revenge nor passion should have a place in the new government. Until there is complete tranquillity in the island and a stable government inaugurated military occupation will be continued."

Affairs of State.

The president says that, with the exception of the rupture with Spain, the intercourse of the United States with the great family of nations during the past year has been marked with cordiality. Concerning negotiations with the Argentine government, initiated with a view to removing differences in cable rate charges imposed against messages passing from and to the United States, the president expresses his sense of the fitness of an international agreement whereby interchange of messages over connecting lines may be regulated on a fair basis of uniformity, and adds:

"It would be strange were the nations not in time brought to realize that modern civilization, which owes so much of its progress to the annihilation of space, by the electrical force, demands that this all important means of communication be a heritage of all peoples, to be administered and regulated in their common behoof."

As to the killing and wounding of striking miners in Luzerne county, Pa., which aroused the solicitude of the Austro-Hungarian government, many of the miners being subjects of that government, the president expects to reach a harmonious understanding on the subject with Austria-Hungary.

The hope is expressed that the restrictions imposed by Belgium on the importation of American cattle will at an early day be relaxed, so as to admit live American cattle under proper regulations.

Nicaragua Canal.

The president expects that the Nicaragua canal commission will shortly be able to report finally. "I have not hesitated to express my convictions," says the president, "that considerations of expediency and international policy as between the several governments interested in the construction and control of an inter-oceanic canal by this route require the maintenance of the status quo until the canal commission shall have reported and the United States congress shall have had the opportunity to pass finally upon the whole matter." The president regards, in view of our newly-acquired interests in the Pacific ocean, the construction of such a maritime highway as now more than ever indispensable.

Concerning the extraordinary events transpiring in the Chinese empire, the president says that our position among nations gives the equitable claim to consideration and friendly treatment in this regard, and that it will be his aim to subserve our large interests in the orient by all means appropriate to the constant policy of our government.

Reference is made to several claims of citizens of the United States pending against other nations and to the settlement of other claims during the past year.

After reviewing the work of the Paris exposition commission the president recommends that the appropriation for the exhibit of the United States at the Paris exposition be increased to $1,000,000.

Relations with England.

Our relations with Great Britain have continued on the most friendly footing, and the president says it would give him especial satisfaction if he should be authorized to communicate to congress a favorable conclusion of the pending negotiations with Great Britain in respect to the Dominion of Canada.

The president reports that the Hawaiian commission has fulfilled its mission and that its report will be laid before congress at an early day. "It is believed that their recommendations will have the earnest consideration due to the magnitude of the responsibility resting upon you to give such shape to the relationship of these mid-Pacific lands to our home union as will benefit both in the highest degree."

Referring to the proposal of the czar of Russia for a general reduction of the great military establishments, the president says: "His majesty was at once informed of the cordial sympathy of this government with the principle involved in his exalted proposal and the readiness of the United States to take part in the conference."

The president says that the newly-accredited envoy of the United States to the Ottoman porte carries instructions looking to the disposal of matters in controversy with Turkey for a number of years.

Government Finances.

Alluding to the financial affairs of the country, the president says, in part:

"The secretary of the treasury reports that the receipts of the government from all sources during the fiscal year ended June 30, 1898, including $64,751,223 received from the sale of Pacific railroads, amounted to $405,321,335, and its expenditures to $443,368,552.

"It is estimated upon the basis of present revenue laws that the receipts of the government for the year ending June 30, 1899, will be $577,874,647, and its expenditures $689,574,647, resulting in a deficiency of $112,000,000.

"In my judgment, the present condition of the treasury amply justifies the immediate enactment of the legislation recommended one year ago, under which a portion of the gold holdings should be placed in a trust fund from which greenbacks should be redeemed upon presentation, but when once redeemed should not thereafter be paid out except for gold. "It is not to be inferred that other legislation relating to our currency is not required; on the contrary there is an obvious demand for it."

The president says that in view of the recent acquisition of territory by the United States there should be established regular and frequent steamship communication, under the American flag, with the newly-acquired islands.

In view, also, of the increased importance of the proposed formation of a commission of sanitary experts to investigate the yellow fever problem, owing to the military occupation of Cuba, the president recommends that congress provide for such a commission.

Army Recommendations.

The recommendation made by the secretary of war for the increase of the regular military establishment has the president's unqualified approval. He says that it is his purpose to muster out the entire volunteer army as soon as congress shall provide for the increase of the regular establishment. He recommends the erection of a building for the department of justice and suggests also the advisability of making proper provision for the supreme court. He earnestly approves of the recommendations of Secretary Long as to the increase of the navy and recommends also that the grades of admiral and vice admiral be temporarily revived to be filled by officers who have especially distinguished themselves in the war with Spain. The president earnestly urges early legislation for the taking of the Twelfth census and legislation providing for the education of the 30,000 white children in the Indian territory.

Expensive Luxuries.

Benham—I should like to live in New York.

Mrs. Benham—You'd find it too expensive.

Benham—What makes you think so?

Mrs. Benham—I understand that in the big city you have to use revenue stamps on swear words.—N. Y. World.

Nowadays.

The Embezzler—By Jove! They're not going to do anything with me after all!

The Friend—You don't mean it!

The Embezzler—Yep! They're only going to "investigate," you know.—N. Y. Journal.

DAMAGE BY STORM.

Blizzard Causes Havoc in Ohio, Pennsylvania, Maryland and Other States.

Columbus, O., Dec. 5.—All day terrific storms raged all over the state, particularly in the northern part. Rain and sleet fell here, and the streets were deserted. A special to the State Journal from Lima tells of conditions existing there, saying: The severest storm in years has prevailed here, doing many thousands of dollars' worth of damage to telegraph, telephone and electric light companies. Poles have given way under the weight of the wet snow, and hundreds of wires are down and crossed so as to make them useless. The city was in darkness Sunday night.

Detroit, Mich., Dec. 6.—Detroit has never suffered such complete isolation from the outer world as has been caused by the worst storm experienced in these parts, so far as its effect upon electric wires is concerned, in 13 years. Sunday noon the white particles began to come down, and for two hours it snowed incessantly, a wet, soggy snow, which weighed down trees and telegraph wires and poles until they snapped and fell in all directions. For some time Detroit had no communication with the outside world, but the service is gradually being restored. The damage to street car, telephone and telegraph companies will run up in the thousands of dollars.

Philadelphia, Dec. 5.—A heavy rainstorm which began here Saturday continued all of Sunday with increasing violence, accompanied by winds of almost gale velocity. Shortly before midnight there was a clear sky. At its maximum the wind blew 42 miles an hour. Telegraph wires from this city south were rendered almost useless on account of the heavy winds. Trees, swinging signs and chimneys were blown down, but no great damage is known to have resulted.

Scranton, Pa., Dec. 5. — Sunday's heavy windstorm blew down a signal pole on the New York, Ontario & Western railroad at Peckville. A few minutes later a passenger train that was hurrying to this city through the blinding snowstorm crashed into the pole and the engine and tender left the track and rolled down an embankment killing the fireman, David Davis, of Carbondale.

Baltimore, Md., Dec. 5.—The most severe wind and rainstorm that has visited Baltimore for many years prevailed Sunday, and did thousands of dollars' damage. Sixty miles an hour is the wind velocity given out by the weather bureau, the highest for 19 years. Fully 800 houses in the city and vicinity were unroofed, chimneys innumerable were blown down, trees uprooted and poles leveled. Telegraph telephone, electric light and trolley poles were blown down like so many ten pins.

Dallas, Tex., Dec. 5.—The severest cold weather of the winter prevailed Saturday in this section of Texas. Considerable snow has fallen to the north and east of Dallas. High winds have prevailed and telegraph companies are seriously annoyed by wire trouble.

DOMESTIC PROBLEMS.

Secretary of Agriculture James Wilson Speaks of Them in His Annual Report.

Washington, Dec. 2. — Secretary of Agriculture James Wilson in his annual report, in addition to discussing domestic problems, reviews our agricultural relations in foreign fields. He calls for an emergency appropriation of a lump sum for future requirements that cannot all be anticipated specifically. Discussing agricultural resources in our new island acquisitions, Secretary Wilson says:

"In the territories recently brought under the control of the United States government the agricultural interests urgently call for attention by this department. Hawaii and the West Indian islands depend almost exclusively for their prosperity upon their agricultural productions. It behooves the department, therefore, to place itself in touch at the earliest moment possible in a position to extend to the agriculturists of those territories which have or may come under the United States flag the services and benefits which it renders to the farmers of the United States.

On the practicability of exporting dairy products the secretary says that, owing to a better home demand, it is not commercially profitable to send butter to Europe just now, as the home demand at present absorbs the supply. Whenever our home supply of finest butter exceeds the home demand, the secretary says, it can be profitably sent to both France and Germany. The American farmer is now selling cheap grains and mill feeds to the European dairyman, who meets us in European markets with products made from raw material furnished by us. But there is reason to believe that there is a growing tendency toward the consumption of grains and mill feeds at home and exporting the products of skill and intelligence. The trade in American farm products is growing in the China seas, and, in order that markets may be opened up in Japan, China and other countries of the Pacific ocean, an agent is now in that region establishing agencies.

The secretary recommends the extension and adoption of the provisions of the law regarding the inspection and certification of meats and meat products for export, so as to make them apply to butter and cheese.

The brands "pure butter" and "full cream cheese" should then be affixed by United States inspectors to such products as come up to the required standard of quality. This would place the good butter and cheese of this country in foreign markets under the identifying label and guaranty of the United States government.

"There is an evident necessity," the report says, "for the inspection of many articles imported from foreign countries that contain substances injurious to the public health. The department chemists are doing work along this line that suggests a more comprehensive inquiry. The department now buys samples for analysis in the open market. It may be necessary, however, where there is ground for suspicion and a necessity for the identification of source, to open packages at ports of entry, as it is proposed in foreign countries to do with our exports in certain cases."

Continuing, the secretary speaks of the need of nature teaching in the common schools. He announces that a dip which takes the fever ticks from cattle has been perfected so they can be moved north at any season. Other matters of minor importance are also touched upon.

Murders His Brother.

Springfield, Ill., Dec. 5.—After paying a reward of $200 to secure his relative's surrender to the authorities of Macoupin county, William Kent on Saturday shot and killed Noble Kent, his brother. The tragedy was enacted on a Chicago & Alton train at Girard, while Noble was in the custody of a Macoupin county officer, on his way to the Carlinville jail.

Wants to Be Senator.

Winne Mucca, Nev., Dec. 5.—Congressman Newlands en route to Washington in an interview stated that he is a candidate for the United States senate.

MINNESOTA NEWS.

Agricultural Experiments.

President John S. Pillsbury, of the state university board of regents, has prepared his annual report on the agricultural experiment station. The work that is being carried on at the various sub-stations is described in detail. The farm at Grand Rapids now comprises 95 acres. What was at one time a heavy wooded plat has now been so improved as to allow the use of machinery. In a muskeg swamp open draining work has been in progress, with experiments in what kinds of vegetables will best grow on it.

At the Coteau farm in Lyon county the study of soil moisture, soil fertility, production of forage crops and forestry production has been carried on for some time. The forestry plantation, started in 1894, is reported as being in excellent condition.

The Federal government appropriates $15,000 annually for the work in this state, but the total expense amounts to over $30,000.

Lind's Majority.

The secretary of state has unofficial returns from all the county auditors in the state. Those yet to come in will not alter the figures materially. They show that Lind has a plurality of 20,396 over Eustis, and a majority of 11,746 over all.

Other candidates on the republican state ticket have pluralities as follows: Lyndon A. Smith, lieutenant governor, 25,663; Albert Berg, secretary of state, 38,848; R. C. Dunn, state auditor, 44,664; A. T. Koerner, state treasurer, 43,664; W. B. Douglas, attorney general, 40,833; D. F. Reese, clerk of supreme court, 40,619. For justices of the supreme court, Lovely polled 128,897 votes, Brown, 107,854, Lewis 100,667, Canty 98,715, Mitchell 89,675, Buck, 78,115. Koerner leades in number of votes, having received 140,751. Bob Dunn comes next with 138,980. Douglas and Reese come close after Dunn, the former having 137,550, and the latter 137,877, Lyndon A Smith received only 130,207 votes,

Conscience Stricken.

Harry Root, aged 18 years, walked into the Central station at Minneapolis and announced that he was a burglar and wished to give himself up. Questioned by Captain Coskran, he confessed that he and a companion had gone through a jewelry store at 310 Nicollet avenue, securing six opera glasses, some cuff buttons, watch chains, and pins. He had been a former employe at the store, and in that capacity had managed to get a wax impression of the lock, with which he had a key made to order and thus effected entrance. He had afterwards pawned the plunder. He was without employment and could not agree with his step-mother, for which reason he left home. Urged on by hunger, he had committed the crime.

May Stiffen Cash Wheat.

The mills at the head of the lakes have been given an all-rail rate to the seaboard of 20¼ cents. This is just one-half cent more than the the lake and rail rate now The mills therefore are not very much concerned over when navigation closes. It means, too, that they are in the market for wheat all through December. They have bought much wheat to arive, at one cent over the December option, and flour business has been done on the basis of the spot wheat premium of 3¼ to 4 cents over December, so they are practically 3½ cents ahead on all they have purchased. The result is likely to be a stiffening in the price of cash wheat

State Funds.

The state had $872,000 in the treasury at the close of the month of November, of which $103,000 is in the general fund, $385,000 in the permanent school and university funds, and the rest in special funds. The treasurer has a right to go into the pocket where the state keeps its "roll" to meet a temporary deficit in the change pocket, which is the revenue fund, and such an overdraft would have been made if the state prison had not turned in $125,000 the other day. Money for the October settlements will be coming in now, so that there will be no shortage when the legislature meets.

School Books Stolen.

Thieves broke into the Meyers school house, district No. 9, Dodge county, stole all the library books and scattered them through the streets of Skyberg. The district had purchased about $40 worth of new text books, and it is presumed the thieves intended to take those, and when they found out their mistake were so mad they threw the old books away.

Value of Property in St. Paul.

City Comptroller McCardy has prepared a table showing the valuation of the real and personal property in St. Paul and on which the tax estimate for next year will be based.

The table prepared in assessment districts shows the valuation of personal property in the city to be $15,489,467, the valuation of real property to be $78,523,015, a total of $94,012,482.

Mrs. H. T. Brand, of Money Creek, came near meeting with a fatal accident. Her little daughter let a lamp fall from the table, igniting Mrs. Brand's clothing.

Capt. Joseph Hale's cherished memory will be perpetuated at Fort Snelling by the placing of a bronze tablet, reciting his heroic record and numerous virtues, in the front wall of the administration building.

A stranger attempted to swindle the firm of Evenson Bros., at St. Peter, out of $59.40. He presented a wheat ticket on the Van Duzen elevator and signed by A. F. Evenson. The ticket was regularly made out and called for 110 bushels of No. 1 wheat at 54 cents per bushel.

At the annual meeting of the St. Paul Curling club, Lambert Defiel was elected president.

Albert J. Watson, a brakeman on the Duluth & Iron Range railroad, was run over and killed by a train at Waldo.

The jury in the case of Gebhard Otto for the killing of Mathias Klein, the well known hotel keeper of New Trier, returned a verdict of manslaughter in the first degree, after being out five hours.

A special postoffice inspector has been ordered to Crookston to report on free delivery.

Thirty carloads of flour left Minneapolis in one shipment for Brunswick, Maine.

The Usual Way.

"Time is precious," remarked the minister.

"It is, indeed," replied the man of business, "and I've wasted lots of it."

"By indulging in foolish pleasures, I suppose?" said the good man.

"No, not exactly," replied the other; "I lost it by being punctual in keeping my appointments with others."—Chicago Evening News.

When a man gets far enough along that he quits using tobacco every little while, he may be set down as a confirmed user of the weed.—Washington (Ia.) Democrat.

Limp and lame—lame back. St. Jacobs Oil cures it promptly, surely.

A Race Against Fire.

After a ten days' fight to avoid death, the crew of a steamer from Spain recently arrived in Baltimore. In mid ocean it was discovered that flames were raging in the vessel's hold. For ten long days the crew bravely fought the flames. If men would fight as persistently against disorders of the stomach and digestive organs, there would be fewer premature deaths. The best weapon for such a fight is Hostetter's Stomach Bitters. It is the greatest of tonics, and the best of remedies for kidney, liver, bladder and blood disorders.

It is harder to do wrong than right, if we but knew it.—L. A. W. Bulletin.

A cold—sore and stiff. All right again. St. Jacobs Oil did it—cured.

AN AFFAIR OF THE NATION

It has been said of Americans that they are "a nation of dyspeptics" and it is true that few are entirely free from disorders of the digestive tract, Indigestion, Dyspepsia, Stomach and Bowel trouble, or Constipation.

The treatment of these diseases with cathartic medicines too often aggravates the trouble.

THE LOGICAL TREATMENT

is the use of a remedy that will build up the system, thereby enabling the various organs to act as Nature intended they should. Such a remedy is found in Dr Williams' Pink Pills for Pale People Here is the proof.

In Detroit there are few soldiers more popular and efficient than Max R. Davies, first sergeant of Co. B. His home is at 416 Third Avenue. For four years he was a bookkeeper with the wholesale drug house of Farrand, Williams & Clark, and he says: "I have charged up many thousand orders for Dr. Williams' Pink Pills for Pale People, but never knew their worth until I used them for the cure of chronic dyspepsia. For two years I suffered and doctored for that aggravating trouble but could only be helped temporarily.

"I think dyspepsia is one of the most stubborn of ailments, and there is scarcely a clerk or office man but what is more or less a victim. Some days I could eat anything, while at other times I would be starving. Those distressed pains would force me to quit work. I have tried many treatments and remedies but they would help only for a time. A friend induced me to try Dr. Williams' Pink Pills for Pale People, and after taking a few doses I found much relief and after using several boxes I was cured. I know these pills will cure dyspepsia of its worst form and I am pleased to recommend them."—*Detroit (Mich.) Journal.*

BUFFALO GAZETTE

DELANO, FRIDAY, Dec. 9, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

—C. Gast and Mrs. H. V. Wilder are on the sick list this week.

—Holiday goods are now on exhibition, and Santa Claus is being anxiously looked for by the children of the place.

—The wheat market don't appear to be over lively now-a-days. The farmers who have the golden grain to dispose of seem to be waiting for higher prices.

—A crew of line men have been at work this week changing the telephone lines from Billing's restaurant to Wittman's drugstore and Wittman is to do all the business in the future.

—The parents and friends of Delano's contingent of the Manila troops are fondly hoping and expecting to see the boys home in the early Spring. Orders seem to have been issued for Regulars to go to Manila and relieve the volunteers.

—A Dime sociable will be given at the home of Mrs. William Hawker, on Friday evening, Dec. 9. The proceeds go toward the Christmas entertainment of the M. E. Sunday School to be given Christmas Eve. Let everybody attend both the entertainments. Encourage the children.

—Turkey! turkey! whose got the turkey? Quite a good joke is told on a couple of our fellow townsmen who visited Howard Lake friends, Sunday. Each was presented with a fine turkey at the close of the visit. On arriving at home, George said: "Link take your turkey. Its under the seat." After rolling various blankets about for a time he succeeded in finding one turkey; but the other was missing. The turkeys were alive, with the legs nicely tied. The boys remembered that they did have some kind of a spill, as they were driving along, and that the cutter showed some of the effects. They were so long on the road that Mrs. B. accuses them of following the same road she and a friend traveled, by directions of her husband, once upon a time. All you need to say to George or Link now is "Turkey! turkey! whose got the turkey?"

Epworth Leagde Officers.

President.—Viola Cunningham.
1st. V. Pres.—Julia Cunningham.
2nd. V. Pres.—Mrs. Strickland.
3d. V. Pres.—Mr. Corey.
4th. V. Pres.—Mary Catlin.
Secretary—Grace Farber.
Treasure—Mrs. Corey.
Organist—Mollie Maxfield.

Valley Hearld: The election of John Lind for Governor, will give the democrats first place on the state and county ballot at the next general election two years hence; so says the Hutchinson Leader.

There seems to be a understanding among politicans that Page Morris will not be a candidate for re-election to congress from this district, and already several ambitious politicans are beginning to figure on being his successor.—Star News.

Congress proposes to pay every Cuban soldier $100.00, whereupon the soldiers are to return to their peaceful duties. When it shall have been determined how many are entitled to this sum, we will find that Cuba will cost us more than the Philippines.—Cokato Enterprise.

Valley Herald: The Secretary of War will ask the next Congress to raise the standing army 100,000, on a peace footing. We are rather inclined to think that the annexation of the Philippines will prove a costly experiment to the people of the United States. Bear this in mind.

N. Y. World: Apparently Mr. McKinley has not made up his mind finally as to what to do with the Philippines, for he told the representative of the Anti-Imperialist League that he would "consider any plan the league had to submit for the disposition of the islands except one proviging for the surrender of them to Spain." "Surrender" is rather a strong word, considering that we are not in possession of even one of the 1,200 or more islands. However, if the President has still an open mind, why not try self-government for the islands, under American guidance and protection? It is said the people are not capable of governing themselves. Doubtless they are not according to our standards. But who knows that they cannot institute and maintain a government good enough for their needs? Why not give them a chance?

-AdvertisE-

TEETH: Dr. Niven will be in Waverly. Saturday, Dec. 24. First clas dentistry in all branches. 2t

List of Patents

Granted to Minnesota Inventors this week Reported by C. A. Snow & Co., Solicitors of American and Foreign Patents. Opp. U. S Patent office Washington, D. C.

J. Mealey, Howard Lake, Trace or tug buckle. A. E. Peck, Minneapolis, Bcicycle-saddle. A Pinolehto, Sandstone, Hay-loading attachment for wagons. J. Wilhelm, Wheaton, Cattle-guard gate for railways. C. Young, Mendota, Truck.

George W. Bolton and A. L. Mealey, drove to Howard Lake the first day of the week.

Mrs. George W. Bolton had a pleasant visit with the "Devil" of the GAZETTE office, Wednesday morning.

Hiram Dyer visited Mayor Kiefer and other St. Paul friends returning home Wednesday evening.

County Cullings.

The genial Doctor seems to be of the opinion that he can lead the unterrified to victory at the next heat.—Buffalo Jourdal.

County candidates for office are reported to have expended for campaign purposes as follows:

Frank T. Hamilton	43.50.
E. A. Shannon	24.50.
A. H. Grant	118.25.
J. F. Lee	105 05.
C. B. Powell	11.57.
Johnston Mealey	92.50.
J. C. Johnson	75.00.
Frank Swanson	85.50.
A. P. Ritchie	61.01.
G. P. Boutwell	122 55.
Democratic County Committee	451.-15.

HOW THE DEACON DROVE THE CALF HOME.

A very good and pious man was Deacon
Moses Murch,
A terror to the sinners and a pillar of the
church.
A lover of his fellow-man, and temperate,
they say,
And quite an active member of the S. P.
C. T. A.
That great and good society which, as you're
well aware,
Protects our dear dumb animals and gives
them kindly care,
(Excuse the explanation in this opening
paragraph,
I'll now go on and tell you how the deacon
drove the calf).

'Twas in the little country town of Lothrop
Corners, thence
The deacon came with others, to attend a
conference,
And on the street he saw a boy who led a
calf, and O!
He beat it with a wicked stick when it refused to go.
The deacon said, "With kindness one may
make a beast obey;
I'll show you how, with loving words, I'll
coax him on his way;
There is no need to beat him with that cruel
knotted staff!"
The boy gave up the rope, and so the deacon
drove the calf.

At first they moved sedately, with a staid and
sober tread,
But suddenly that wicked calf bent low his
stubborn head,
And, at a clumsy gallop, o'er a neighbor,s
lawn he flew,
And smashed athwart a garden where the
choicest flowers grew;
But, holding firmly to the rope, with pluck
and courage grim,
And yelling "So boss!" frantically, the deacon followed him:
Through grass and bushes wet with dew,
through clouds of dust and chaff,
The calf, he dragged the deacon and the deacon drove the calf-

Across the berry-pasture next the creature
led the dance,
The briars played the dickens with the deacon's Sunday pants,
His stiff and starchy "choker" fell and wilted
on his neck,
His brand-new shiny "beaver" was a crushed
and shapeless wreck,
And, in a very stony place, the rope caught
'round his legs,
And whirling like a spinning-top the deacon
lost his "pegs,"
But still he never loosed the line, although
his epitaph
Seemed likely to be simply this, "The deacon drove the calf."

Beneath the green old elms that shade the
little village church
The delegates were waiting for good Brother
Deacon Murch;
They gazed upon the clock and said, "Tis
strange he should be late!"
When lo! a cloud of dust that moved at
quite 2:40 rate.
And in that cloud a figure wild that
waved a mighty club
And beat upon a calf's tough hide a
flendish "rub- a-dub,"
A loud familiar voice that screamed, "Yer
cussed, blamed giraffe!
"I'll drive or I'll kill yer!"—and the
deacon drove the calf.

Before the old town pump there lies a
pool of slimy mud,
And from that pool there came a sound,
a sharp and lively "thud!"
And on the air there rang aloud one
awful, wicked word,
And every sister stopped her ears, and
blushed to think she heard;
The calf ran on, with trailing rope,
adown a garden path,
But in the mud the deacon sat, a raging
fount of wrath;
They rushed to help him and to do kind
deeds in his behalf,
But no one asked him how it was he
came to lead the calf.

* * * * *

Among the delegates again the deacon
sits serene,
But no one speaks of what they saw that
day upon the green;
And no one mentions what they heard,
howe'er their feelings chafe,
For, looking at the deacon, each one
knows 'twould not be safe.
And so the world goes calmly on, but
since that awful day
There's been a vacancy within the S. P.
C. T. A.
And still within the village store the gossips roar and laugh,
And tell each summer boarder how the
deacon drove the calf.

—Joe Lincoln in L. A. W. Bulletin.

Politics.

You remember hearing, when a boy that familiar ode sung by the boys: 'Theres a good time coming boys, wait a little longer." This has been the song of the republicans for two years past, and they still insist it is coming; even nigh at the door.

Well, let us see, cotton in the South selling at 5 cents per pound, the cheapest it has ever been.

Leaf tobaco in the south selling for about half what it did this time last year; wheat, in the North, bringing 20 to 25 cents less now than at this time last year, and no old wheat in the country. Corn, oats, beef, and pork worth no more now than at this time last year. These are the staple productions grown in the south, and in the north. And pray tell, how can the farmer and producer expect good times coming to him with these prices staring him in the face, and lumber and building material going up? And yet the 6th Congressional Dist. elected Page Morris to represent them; so he could put more duty on lumber and other articles they have to buy. Would you employ and keep a man working for you who was taking money out of your pocket? Trusts and combinations are forming; nearly every day, under the present administration, in order to put up prices, and yet the people seem to think it all right, any way the business goes right a long.

President Garfield, who was a good republican said "Tell me who furnishes and controls the currency of a country and I will tell you who governs that country." No man of ordinary intelligence will deny this. Alexander Hamilton and Thomas Jefferson agreed that the unit of value should rest upon two metals, and did it not give good satisfaction for nearly a 100 years? But the bankers have sought to destroy this unit of value and they have about accomplished it.

Daniel Webster is quoted as saying that: "banks of issue were the most ingenious device ever invented by the wisdom of man to fertilize the rich man's field with the sweat of the poor man's brow." They are all the time telling us how much money there is, but what good is it to the poor man, when it is not in circulation? In answer to this, they tell you, if you have any thing to sell you can get money. Yes, we farmers have wheat to sell; for it we get about 56 cents cotton at 5 cents tobacco at 5 to 6. How much money does this bring to the farmer after expenses are taken out, say nothing about the work? Some men have labor to sell, but what does it bring them, when Jim Hill can get 500,000 tons of coal put down at the warfs for $1 25 per ton? Please tell how much the man gets that picks the coal. Everything is working all right for the trusts, monopolies, combines and money power.

Secretary Buell said in his circular banks "Do all in your power to sustain such daily and weekly newspapers; especially the agricultural and religious press." Could there be anothing more deceptive than this? And thousands of people read the articles that come ont in these papers favoring the money power etc. and believe it all. I noticed in a paper the other day how many firms and individuals in different states had filed articles of bankruptcy under the national bankrupcy law of July 1st 1898, which took effect August 1st 1898. New York heads the list with 267; Alabama comes next, with 181; and Minnesota comes next, with 144, mind you all this has come about since August 1st 1898.

Do you remember that only a few months ago C. A. Pillsbury, of Minneapolis, was quoted as saying before the New York produce exchange that "the farmers in Minn. had plenty of money; did not have to sell their wheat, and that there was very few mortgages," and yet Minnesota is third in the list, under the provisions of the bankruptcy law. There will be no harm for men to study these matters and see where thet are at. (It is not meet to give your children's bread to the dogs.) Party affiliation and rituatism will not save you. It is in evidence that the money power of this country wants its pound of flesh, and intends to have it. And when we get the McClary new national bank law the money power will have things about complete. Let us see then where we will be, first a single gold standard; second banks of issue; third retired greenbacks, silver and gold certificates, and Sherman notes, silver dollar a legal tender of $25.00; gold the only money of redemption, and then, Mr. Poor man, how are you to pay your obligations? You must pay a premium on gold, to pay your debts For your creditors will take no other money in redemption of mortgages. Now if you think the only salvation is in voting the party ticket keep right on and see where you will come out at.

The coinage act of January 18, 1837, established, 900 as the standard fineness of both gold and silver; it left the weight of the gold dollar unaltered, and reduced the weight of the silver dollar to 412½ grains, and our money was all right until 1873, when by demonitization they stoped free coinage of silver.

The time will come, Mr. Editor, when the people will see they have been fooled, and the sooner they look into this matter the better it will be for them, and their household. These money kings care no more for party than they do for the D-l, only for them to do their bidding Cleveland was their willing tool; he sold himself to Shylock for so much, and what is he to day? A man without principle.

The people of this country need money in their business but I see the chasm between the rich and the poor is growing wider and wider all the time and by and by there will be no communication between me and thee; this will be the motto.

The old proverb used to read "Knowledge is power," but it seems things have taken a change, now it is money, and such fellows as Mark Hanna; brains being only a second consideration.

SILVER DOLLAR 100 CENTS.

Late Literary News.

That the spy sent by the United States government to Spain during the war should have become the guest of Weyler himself, seems incredible. Yet there is nothing more true. The government selected as its agent a man of position who has lived much in Germany. It was necessary for us to have a trained intellect that would make no mistakes. His story is told in the November COSMOPOLITAN, and the most exciting pages of Dumas's fiction seem tame in comparison with the facts. Crossing the frontier in a first-class carriage, he was by a trifling accident bronght into conversation with a young Spanish nobleman; presently who should come along but the son of General Weyler. This acquaintance led to his receiving many attentions from Weyler when they reached Madrid, and the General actually gave up a day to a trip to the Escurial Imagine this grim arch enemy of ours laying himself out to please the secret agent whom the government had sent to find out the weak places of Spain. How trifling the demarcation between the position of honored guest and that of spy who, if discovered, would have been all the more quickly sent to his death! The same issue of THE COSMOPOLITAN contains four pieces of fiction by such famous authors as FRANK STOCKTON, ZANGWILL, H. G. Wells, and the lamented HAROLD FREDRICK, but none of it half so exciting in its interest as this true srory.

Notice of Hearing of Application to Sell Intoxicating Liquors.

Notice is hereby given that Frank Crolley has made application, according to law, to the Village Council of the Village of Delano, in the county of Wright, and state of Minnesota, for a license to sell intoxicating Liquors for the period of one year from the 16th day of December, 1898.

The place where the said business is to be carried on is designated as follows: On the first floor in the front room, of the two story brick building situated on Lot 28, Block 8, Original Townsite of Delano.

Said applicant prays that such License be granted to him pursuant to the ordinance of said village of Delano and the Statutes of said state of Minnesota in such case made and provided.

The above application will be heard at a special meeting of the Village Council, in the council room at the City Hall, in Delano at 8 o clock, Friday evening Dec. 16 1898.

L. M. MAXFIELD.
Village Recorder.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Offical Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merrit, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manil. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Large book. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barber, Sec'y., Star Insurance Bldg., Chicago.

Entered as Second-Class Mail Matter, at the Post Office in Delano, Minn

BE NOT THE FIRST.

Oh! be not the first to discover
A blot on the fame of a friend;
A flaw on the faith of another
Whose heart may prove true in the end.

A smile or a sigh may awaken
Suspicion most false and undue,
And thus our belief may be shaken
In hearts that are honest and true.

How often the light smile of gladness
Is worn by the friend that we meet,
To cover a soul full of sadness
Too proud to acknowledge defeat.

How often the friends we hold dearest
Their noblest emotions conceal,
And bosoms the purest, sincerest,
Have secrets they cannot reveal!

Leave base minds to harbor suspicion,
And small ones to trace our defects;
Let ours be a nobler ambition,
For base is the mind that suspects.

We none of us know one another,
And oft into error we fall;
Then let us speak well of another,
Or not speak about them at all.

—Selected.

WE have oil inspectors, boiler inspectors, and many other fat fee offices which the people pay. What's the matter with having an egg inspector in each village? It is about as necessary from a financial or a sanatary point of view as most of the other useless, and ornamental offices.

IT now seems an assured fact that Mr. Dare, of Elk River, will be the Speaker of the House at the next session. We hasten to congratulate neighbor Dare on his good fortune. Mr. Dare made a good member of the House while Wright County was a part of his district. We think he will make a good Speaker.

DEMOCRATS are expected to be out in full force to witness the inauguration of governor John Lind at the first of the new year. Everybody has an eye out to keep track of the new Governor and the men with whom he surrounds himself in taking charge of the affairs of this great State. Much depends on the men selected to aid in carrying out the plans of the reform governor. Success to him.

THE G. N. Ry. has restored old freight rates since election is over. Just previous to that interesting occasion an express rate was in force, anything less than 100 pounds from Minneapolis came for 25 cts. Now it is 60 cts per hundred. why are things thusly? We havn't heard though of any raising of wages, for employees. Even surgeons along the line of road are asked to sign a contract to work for half fees, when the cases are brought to their offices, and then agree not to touch the patient at the expense of the railroad without written orders from the company's agent. No first class surgeon will belittle his profession and himself enough to sign any such a contract as that sent out by the G. N.

Duluth Herald: It the McCleary bill is withdrawn for a time it will probably be to make it more vicious in character. Every Republican success makes bolder the enemies of government money. And then Mr. Morris, who endorses the bill desires it amended in some particulars. Perhaps for the latter reason it is to be withdrawn.

Waseca Herald: Was there ever before such rot as we have received from the plutocratic republicans during the past few years, namely: that the election to office of an anti-monopolist means "anarchy," "riot," "confiscation of debts," etc., etc? Why do we have these insulting lies heaped upon the 6,500,000 American citizens who voted for William Jennings Bryan? The terrible things about these false accusations is in the fact that the newspapers and politicians who make such statements KNOW THEM TO BE UTTERLY FALSE. John Lind and every other man of the Peoples Democratic party are the men of all men who believe in the rights of man and the rights of every man to the products of his own industry—his capital. Out upon such shameful lying.

Things Not To Do This Season.

Here are a few of the unthinking things we do this season of the year that are productive of much suffering and many doctor's fees:

WEARING thin-soled shoes on damp pavement.

GOING out on rainy days without gaiters.

NEGLECTING to put on flannels for the first raw autumn days.

ALTERNATING fur collars with lawn waists.

SLEEPING in strong draught, that would be harmless and pleasand in August, but that breeds pneumonia and tonsilitis in November.

COOLING off suddenly after a vigorous game of tennis or goff or a long wheel ride.

DELAYING the building of furnace fires.

HOUSE-CLEANING in cold weather.

PUTTING on winter flannels to soon.

BUNDLING the throat to "protect" it from the first stimulating fall breeze.

SHUTTING out the fresh air from a house to "keep it warm."—FROM HEALTH AND BEAUTY," IN DEMOREST'S MAGAZINE FOR DECEMBER.

The Truth at Last.

The gold bug papers which have been telling the people that the Cubans are only a lazy, cowardly, shiftless, thelving set, and entirely incapable of self-government, may be interested in the following:

"General Miles says that General Garcia did the following things: He sent 2,000 men to check the Spanish advance from Holguin, and they succeeded in their purpose. He sent 2,000 men under Perez to hold back the 6,000 Spaniards at Guantanamo. They, too, succeeded in their purpose. Garcia also sent 1,000 men to oppose the 6,000 Spaniards at Manzanillo. Of these Spaniards, 3,500 started for Santiago and were engaged by the small Cuban force no less than thity times, and would have been repulsed if 'General Garcia's request of June 27 had been granted.' This quoted clause is evidently a slap at Shafter, who behaved so outrageously toward Garcia. With an additional force of 5,000 men General Garcia besieged Santiago on the west side of the harbor and had troops in the rear as well as on both sider of Santiago before the Americans arrived."—Ex.

This is General Miles' testimony, and it indicates that General Garcia used considerable more military skill in placing his troops than Shafter did. The Cubans did their full duty as allies at Santiago and got nothing in return but charges of thievery and a direct insult to General Garcia from the general who failed to command the American forces. It is not Shafter's fault that the Cubans did not take to fighting against instead of with the American soldiers.—Waseca Herald.

The Minneapolis Journal says: "It cost C. A. Towne, according to the election expense accounts, more to reach defeat than it did Morris to be elected. This is probably due to the different views as to the value of money held by the two candidates." The exactly opposite is true. The expense accounts show that the Morris congressional committee expended over $5000, while the Towne committee paid out less than $2000.—Duluth Herald.

Thrice a Week World: There will be a great danger to Oriental equanimity when Peking and Tokio hear that the Chinese and Japanese in the Hawaiian Islands are considered unfit for the citizenship to be conferred on "Portuguese and persons of African descent and all persons descended from the Hawaiian race." Peking and Tokio may argue that the Chinese and Japanese in Hawaii are better educated and bigger taxpayers than any of those who are to be honored with citizenship, but what in the world have little things like those to do in the great and glorious progress of expansion?

Thrice-a Week World: Judge Day sententiously says: "A peace treaty can contain anything which the victors put into it." Yes and in this case the victors could have put anything into the treaty which they wanted there as well at Washington two months ago as they are doing now at Paris.

JULIAN RALPH, who has been for seme years in England, writes for the December COSMOPOLITAN a very clever analysis of what seems to him the English ideas of a gentleman; and Mr. JOHN BRISBEN WALKER attempts to consider the American ideals. We are in the formative stage of American manners, and too much stress can scarcely be given to the dangers of introducing those ideas which are least admirable in the character of our English cousins.

WASHINGTON LETTER.

(Fromour Regular Correspondent.)

WASHINGTON, D. C., Dec. 9, 1898.

Republican leaders are as reticent about the Congressional policy of the party at this session as Mr. McKinley's message was about the administration towards the territory acquired from Spain, but, young as the session is, one thing has been plain. That is, that the administration and the leading republicans in Congress have combined for the purpose of preventing an early extra session of the next Congress, if it can possibly be done. The word has been passed around that all of the regular appropriation bill likely to provoke extended debate will be pushed by the leaders.

Mr. McKinley did a clever and politic act when he invited Gen. Joseph Wheeler and his daughter to accompany the Presidential party to the Atlanta Peace Jubilee, next week. "Fighting Joe" accepted the invitation.

Gen. Miles' recommendations for the reorganization of the regular army, based upon the supposition that the strength of the army will be increased to 100,000 men, in accordance with the recommendations made by Mr. McKinley and the Secretary of War, contains much that is calculated to arouse antagonism in Congress. For instance, the proposal to create three new officers, a General and two Lieutenant Generals. Such positions have been created by Congress in the past, but it was done to honor particular officers and the grade was only established temporarily. The proposition of Gen. Miles, if adopted, would establish them permanently and would put men into them who have earned no special distinction, and there would then be no rank to be conferred upon officers who may hereafter greatly distinguish themselves. If there is any officer in our army who earned promotion to Lieutenant General, or to General, in the war with Spain, his achievements have not become known to the public. The claim of friends of General Miles that he was thwarted in every direction and prevented from displaying his military ability by Secretary Alger, is doubtless true, but that certainly furnishes no good reason for promoting Miles to General.

The status of Gen. Miles with the administration is fully shown by the fact that the bills for the reorganization of the army which have been introduced in the Senate by Senator Hawley, Chairman of the Senate Military Committee, and in the House by Representative Hull, of the House Military Committee, ignore the recommendations of Gen. Miles, except as to increasing the army to 100,000 men. Mr. Hull says the recommendations of Miles are good, but that Congress would not pass a bill containing them, on account of the opposition to creating so many high grade officers.

Representative Hay, of Va., tried to get a peep into the administration's hand, by asking unanimous consent for the consideration of a resolution requesting the Secretary of War to inform the House what towns in the islands of Cuba, Porto Rico, and the Philippines will require to be garrisoned by soldiers of the U. S., and how many soldiers will be required, but there was immediate objection on the republican side, and the resolution went to the committee on Military Affairs, to be pigeon-holed.

Although Senator Vest did not submit his resolution, declaring that under the Constitution this government cannot adopt the European colonial system, but that all territory acquired must be governed with the purpose of ultimately organizing such territory into States for admission to the Union, to any number of his democratic colleagues before offering it, and giving notice of his intention to deliver a speech in its favor at an early day, its underlying principle is endorsed by many democratic Senators. Already the republicans are saying that Senator Vest will not be allowed to speak on his resolution in open session, because a speech in favor of the resolution will necessarily be against the ratification of the treaty of peace and must be made in secret session.

Although Representative Sulzer, of N. Y., offered a resolution providing for a Congressional investigation of the conduct of the war, and is a member of the committee on Military Affairs, to which it was referred, he doesn't expect favorable action on the resolution from that Committee, the members of which are under too many obligations to Secretary Alger, for personal favors granted in making army appointments.

Senator Perkins, of California, who probably has more personal knoledge of the Philippines than any other man in Congress says that while he knows all about the Philippines he knows little or nothing that is good. He was asked if the trade of the islands was not valuable, and he replied: "In 1896 the exports of the islands amounted to only a little more than $20,000,000. The revenues to Spain in that year only aggregated to $13,500,000, even under Spanish taxation and it cost $13,200,000 to collect this revenue, leaving a net balance of $300,000. When you ramember that it cost us $8,000,000 last year, to provide for 188,000 Indians in this country, you can estimate how much it will cost us to maintain the Philippines with no balance from the islands in our favor."

World: Quay has succeeded in getting his trial upon criminal charges so far postponed that his conviction cannot be secured until after his re election to the United States Senate. But what must the State of Pensylvania think of itself if he shall be convicted after re-election?

THE VANISHED.

That which hath been it doth exist no more
(Farewell, sweet rose, thou bloomest not again)!
Scarce do we hail the present ere 'tis o'er
The shifting Now become the vanished Then
Wherein no acts exist, no feelings stir—
All gone save for their fossil tracks on memory's blur.

Lord, how the seconds tumble in cascades,
(Farewell, sweet dreams! adieu, ye downy hopes)!
Within whose strenuous current beauty fades—
Dashed into nothingness adown the slopes!
We cannot bid one rapturous moment stay;
Dream-like we do exist, but as we pass away.

Where be the smiles that pleased in other years?
(Sweet face, thou fadest! fare thee, fare thee well)!
The wholesome words that fed the hungry ears?
The sweet emotions that no tongue can tell?
Gone, like the rose's beauty when it fades,
Where seconds roll our hearts adown the swift cascades.

Aweary of this never-ceasing change,
(Sweet eyes, each day age robs you of your fire)!
The soul rebels, and on its cosmic range
Seeks that which doth persist and not expire;
But finds that e'en the starry torches die,
And feels within "naught can endure but God and I."

Ye, gliding ghosts of ever-vanished hours,
Borne in your hands the sweetest roses are;
And sadly smiling, subject to your powers,
The dearest faces follow you afar.
Whilst we do weep and wonder, day by day,
Why you are bearing all that's beautiful away.

—William T. Dumas, in Atlanta Constitution.

The Beacon's Sporting Reporter

THE difference between Morglethorpe and Rhyn was the difference between a grand, glorious, majestic warship and a small, industrious, well-meaning ferryboat. Morglethorpe was superb, magnificent, overawing; Rhyn was a meek little creature who was always busy.

The two of them came into the reporters' room of the Daily Beacon together, but that was a mere accident. Such a thing as two men of that wide difference associating otherwise than by mishap would have been a preposterous thought. The warship might as well have been deemed suitable for ferry service and the ferryboat for the sinking of squadrons.

Still, they were there on the same errand. Each wanted a chance to earn a salary. Morglethorpe, tall, imposing, staunch of build, garbed in clothes that shrieked of the British isles, very naturally caught the eye of the city editor first. The shy little Rhyn was quite overshadowed.

The city editor must have been inspired by the appearance of Morglethorpe, for his first question was one to make the applicant for labor and pay glow with enthusiasm.

"Sport? Anything. Dog fight, elephant race, anything. In India we used to have some bloody brilliant bouts between man-eating tigers and also some gorrilla wrestling matches just for diversion from the ordinary, and they did say my stories in the Simla Mail—"

"Well, this isn't a wrestling match between gorrillas or catamounts or anything of that nature. Harkins, the sporting editor, needs a man to go down and do a billiard match, and if you are up to that line of business I'll send you in to him for instructions."

Morglethorpe looked surprised at the mention of instructions, and the city editor hastened to say that he supposed, of course, he knew all about the general subject of billiards, but it would be well for him to be careful about this specific case, as it was one of some importance.

"And, by the way," he said, "about those gorrilla wrestling matches and the elephant races—if you'll write some stories about them for the paper they will be used."

Morglethorpe bowed grandly and went into the sporting editor's room, and the city editor called the apologetic Rhyn over and said he had nothing himself, but he thought there might be a chance in the telegraph editor's department, as Fergus had come down sick the night before.

I may as well confess right here that my name is Harkins, and that I am the sporting editor. When Morglethorpe came into my small cell and said Mr. Nesmith had sent him I was fairly busy with a lot of matter about a coursing match which was to take place that afternoon out on the Ocean View beach, so I had but a word or two to say.

"Look back in the files and you'll find an article printed a week ago last Thursday which will give you all the information you will need about this tournament," I told him. "Read that and write your story in accordance with it. It's a pretty important thing and I'd make a special effort on it if I were you."

He acknowledged this advice with a superior smile and said something about the weather and then asked if I knew Jervis, of New York.

"Never been east of Kansas City," I replied, as I dug through the copy.

"Then you don't know Jervis, of the Clipper. I was his first assistant for two years. Came from the Forest and Stream." Then he went away.

Here was a find! A Clipper and Forest and Stream sporting editor writing on assignment for us! I decided to hold to that man, despite his offensive clothes.

At two o'clock that morning Morglethorpe came in with his story of the billiard tournament. I looked at the first page of it and wrote a head and was just about sending it in when something suggested that I scrutinize it a bit closer. I ran my eye down the second page and read a line or two which seemed very familiar. Reading further I found more familiarity and familiarity gave way to contempt, for I discovered that after the first page of copy his story was merely a verbatim reproduction of the article I had printed two weeks before.

I don't remember what lie Morglethorpe told about it, but it was a beauty—so good that I did not tell Mr. Nesmith. You've simply got to recognize genius in nerve and in falsehood when you encounter it. And, besides, he was from the Forest and Stream. Weighing all these things and being of lenient mind, I allowed him to continue to help with the sport. I came to the conclusion later that I was quite right in giving him another show, for within two weeks he became indispensable. It was through the game of sargol. The first week Morglethorpe turned in a small story about the Lapland game of "sargol," which, as he hinted at it in a general way, was a thoroughly good field sport. It turned out, however, that he was the only person in the city who had ever heard of it, and interest was aroused. I received three letters asking information, and when I turned them over to Morglethorpe to answer he said he had seven more. Altogether the next day we had a column of questions and answers about sargol. They ran like this:

"J. P. B.—In sargol three points are scored when the opposing whinternick scrumps the territory of the leading barther."

"Venus—Yes, two women and three men can play at sargol if the gurch is lumfitted at proper discount—scientifically arranged at 63."

And so on.

Soon the sporting page was half sargol and mostly the space was given to queries and answers which were about as intelligible as Egyptian. It occurred that Morglethorpe had organized a league of sargol players and had been elected president. He gave a column to the proceedings of the first meeting, which was arranging for a tourney. Racing was dwarfed and I had to scrimp my small yacht gossip to a mere nothing, but I was happy, for I knew that Mitchell on the Brief hadn't one word of sargol in all his week's melange of sport, and that he was desperately chasing about looking for some one qualified to tell him something on the furious subject.

It was about this time that Morglethrope came in and suggested that he be sent down to Los Angeles to report the big football match. I hated to cause any break in the even running of the sargol matter, for which the people were clamoring, as the letters of inquiry indicated, but he said he thought he might fix it all right. So he went, and the night of the game found us all

MOYLETHORP BOWED GRANDLY.

waiting with wonderful interest for his story, for now we knew that a master hand was fooling with the game. Twelve, one, one-thirty came, and no report. It was nearly two o'clock when little Rhyn came in from the telegraph-room and called me over to the operator's table.

"The story's coming," he said. "Better take a look at it." I took the typewritten first page and read it interestedly. It was a magnificent starter—such a crowd description I had never looked over. "That's football for you," I said. "But, say—" and the memory of that billiard adventure came to me. "Doesn't that sound kind of—"

"Yes. Wait for the next page; here it is," said little Rhyn. The second page was a continuation of the enormously good story. Plainly Morglethrope was a star. And yet—and yet—

"Did you ever read the like?" I finally asked Rhyn in delight in which a kind of half-way wonder was mixed.

"Yes. When I was a boy. That is the football chapter in 'Tom Brown at Rugby.' I learned it by heart to speak in school. This fellow has copied it word for word."

We made the wire hot getting a local correspondent to send us a legitimate story of the game, and when Morglethorpe came back next day we started a lynching party, which contented itself with merely throwing him downstairs. For investigation showed many sins of Morglethorpe. In the first place, he had never been in India, had never served in any capacity with any newspaper on earth and had come out of a lawyer's office to bluff all of us into believing him a modern wonder. But of all his villainies sargol was the worst. There never was such a game, there was no inquiry about it; he had written all the questions as well as all the answers, had written the letters which had come to me personally, the Sargol Amateur league was a baseless pretense—no such thing. His whinternicks and scrumps and barthers and gurches were mere creations of his mind. He had simply produced that horrible drivel to impress us and to save his job.

Little Rhyn is not nearly so beautiful, but he makes a thousandfold better assistant in the sporting department.—Chicago Daily Record.

WEBSTER'S INTERNATIONAL DICTIONARY

Entirely New. Abreast of the Times. A Grand Educator.

Successor of the "Unabridged."

Everybody should own this Dictionary. It answers all questions concerning the history, spelling, pronunciation, and meaning of words.

A Library in Itself. It also gives the often desired information concerning eminent persons; facts concerning the countries, cities, towns, and natural features of the globe; particulars concerning noted fictitious persons and places; translation of foreign quotations. It is invaluable in the home, office, study, and schoolroom.

The One Great Standard Authority.

Hon. D. J. Brewer, Justice of U. S. Supreme Court, writes: "The International Dictionary is the perfection of dictionaries. I commend it to all as the one great standard authority."

Recommended by every State Superintendent of Schools Now in Office.

A saving of *three cents per day* for a year will provide more than enough money to purchase a copy of the International. Can you afford to be without it?

Ask your Bookseller to show it to you.

The real name of Jules Verne is Olchewitz. He is a native of Warsaw and lives at Amiens, France.

Army engineers say the defenses of New York and Boston are now equal to any in the world. The country is getting into good shape for a long term of peace.

After a litigation lasting 14 years the will disposing of a San Francisco estate once worth $75,000 has just been sustained and litigation suspended, because the estate has been exhausted in paying legal fees.

Mrs. Gertrude Latty, of 563 South Franklin street, Wilkesbarre, Pa., is the owner of a clock which may have been the original grandfather's clock, for Mrs. Latty is able to account for its existence for over 150 years.

Mrs. Harriet R. P. Stafford, of Cottage City, Mass., presented to the government the first flag bearing the stars and stripes ever hoisted over an American vessel of war and the first that was ever saluted by a foreign naval power.

A popular lecturer is quoted as saying: "The first care in building a home is the selection of a proper place." This is trite. Nothing is easier than to select a place. What the lecturer should have made clear was how to get possession of the place after it is selected.

The Vermont legislature has passed a bill creating the office of attorney-general of that state. Vermont has now no attorney-general, and the plan to establish the office had its origin in Connecticut, where, for the first time this year, an attorney-general was voted for.

An inventor has hit upon a method of putting stone soles on boots and shoes. He mixes a waterproof glue with a suitable quantity of clean quartz sand and spreads it over the leather sole used as a foundation. These quartz soles are said to be very flexible and practically indestructible, and to give the foot a firm hold even on the most slippery surface.

The ingenuity of the counterfeiters now appears to be chiefly devoted to the turning out of bogus copper and nickel coins, rather than those of larger denomination. According to the report of the United States treasurer for the fiscal year, no less than 69,265 pieces of this character were detected last year, and they circulated chiefly in Boston, New York and Philadelphia.

Because of the fact that 2,000,000 people in Italy are attacked by the malaria every year, and 15,000 of that number die from the disease, a great society has just been formed in that country to study the malady, and if possible to master it. During the present year 63 provinces have been besieged by malaria and it has rendered impossible the cultivation of 5,000,000 acres of land.

Reports from recruiting officers of the regular army show that during the month of November there were nearly 4,000 enlistments and over 7,000 rejections. Of the enlistments 1,982 were in the general recruiting service and about 2,000 special were enlistments for particular regiments. The figures indicate an increase rather than diminution of interest in the regular army service.

John W. Merriam, a wealthy tobacco merchant of New York city, has been directed by the supreme court to contribute to the support of his wife, Adelaide M. Merriam, so that she may live in the style she has been accustomed to. This decision is given notwithstanding Mr. Merriam obtained a divorce in North Dakota on the ground of cruelty and violent temper. It is the first decision of the kind in that state.

The almshouse in Chester county, Pa., is at the present time giving shelter to three very interesting characters, viz.: A man who 25 years ago was worth $200,000, but largely by reason of his generous nature lost it all; Sallie Elbert, one of the last of the Lenape tribe of Indians that were numerous in Chester county years ago, and Rebecca Thomas (colored), said to be 103 years old, and who says she remembers seeing the town of Havre de Grace, Md., burned by the British soldiers as she stood on the porch of her master's house.

Thomas C. Boone, one of the three men who made ascents in the war balloon at Santiago, in telling of his experiences in Boston said: "Newspaper correspondents have condemned the balloon, but in my opinion there can be no question of the value of the balloon in warfare. We were able to locate the enemy, and in one particular instance saved many lives when we informed our men of a body of the enemy about 300 strong lying hidden in the pass on the slope commanding a narrow path up which a regiment of our men were about to march."

Four men—all of them veteran soldiers—playing with a gun. One goes through the manual of arms and winds up with a burlesque of shooting at another. The joke is so good that a second veteran essays it. This time the cartridge in the "unloaded" gun explodes, and to-day there are a widow and two orphans in the town of Wheeling and a man half crazy with unavailing self-reproach who would kill himself if he were not prevented. Grown-up men, veteran soldiers, "fooling" with firearms! Is it any wonder that children do such things?

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

FIFTY-FIFTH CONGRESS.

The appointment of John Hay as secretary of state was confirmed by the United States senate on the 7th. The deaths of Representatives Northway, of Ohio, and Love, of Mississippi, were announced and the senate adjourned as a mark of respect to their memories. In the house the anti-ticket railway scalping bill was passed and a bill was introduced increasing the regular army to approximately 100,000 men.

Senator Vest introduced a bill in the United States senate on the 8th for a joint inquiry into war scandals and also a bill opposing the appointment of senators on presidential commissions. Senator Mitchell introduced a bill amending the existing law in regard to volunteer soldiers' homes so as to admit volunteer soldiers who were disabled by the war with Spain. The nomination of Assistant Naval Constructor Richard P. Hobson to be a naval constructor was received from the president. Twenty-six pension bills were passed. Adjourned to the 12th. In the house the urgent deficiency bill, to provide for the support of the military and naval establishments, was passed. Adjourned to the 12th.

WAR NEWS.

Health reports to the war department from the commanding officers show a great improvement in the health of the troops in Cuba and Porto Rico.

In Paris the United States and the Spanish peace commissioners settled the terms of the treaty of peace, and the signing of the document will conclude the work.

The Roumania sailed from Savannah, Ga., carrying the entire First regiment of North Carolina to serve as part of the garrison of Havana.

Guns are being placed by the war department along the coast from Maine to Florida.

Advices from Admiral Dewey show a notable improvement in conditions in the Philippines and the growth of a better spirit among those factions of the natives which promised to give trouble.

The United States war vessels are to be restored to their former color and the "white squadron" will be revived.

The Second Illinois regiment left Savannah, Ga., on the transport Michigan for Marianao, Cuba.

Under Gen. Davies the Two Hundred and Second New York regiment, numbering 1,500 men, arrived in Havana.

Col. William Jennings Bryan, of the Third Nebraska regiment, has, it is said, resigned.

On the transport Panama Gen. Lee and staff sailed from Savannah, Ga., for Cuba.

The commissioners signed the treaty of peace between the United States and Spain in Paris.

FROM WASHINGTON.

A report that Japan has offered $200,000,000 for the Philippines is said by Washington authorities to be entirely without foundation.

Secretary Gage has designated Maj J. W. Cronkite, of New York, to act as chief customs officer at Cienfuegos, Cuba.

Figures of the agricultural department place the 1898 crop of corn and oats as worth $83,000,000 more than the crops of 1897.

At the age of 59 years Gen. Calixto Garcia, the distinguished Cuban warrior and the head of the commission elected by the Cuban assembly to visit this country, died in Washington of pneumonia.

The president, it is said, contemplates a trip to Cuba and Porto Rico at an early date. Mrs. McKinley and several members of the cabinet, with their wives, will probably accompany the president.

James K. Taylor, supervising architect of the treasury, shows in his annual report that during the last fiscal year ten public buildings have been put under contract and 15 have been completed and occupied.

THE EAST.

At the age of 76 years Henry Mortimer Platt died in New York. He established in New York city the first gold and silver refinery in the United States.

By an explosion in the Dupont powder works at Wilmington, Del., three men were killed and eight injured, three fatally.

In business circles throughout the country increased activity is reported.

In wrecks on the Clarion River railroad near Portland Mills, Pa., three persons were killed and three wounded.

In New York Charles W. Miller, of Chicago, won the six-day bicycle race, making 2,007 miles. On the last day Miller was married in the rink to Miss Genevieve Hanson.

The bursting of a water pipe in Brooklyn, N. Y., damaged property to the extent of $1,000,000.

Near Governor's Island, N. Y., the battleship Massachusetts grounded and was badly damaged.

Joseph Noblett and his wife and her mother and Thomas Winne were burned to death in a fire in a flat building in Brooklyn, N. Y.

WEST AND SOUTH.

Edward Herbrand, of Waukesha, Wis., and Nicholas Pitts, of Mineral Point, same state, were killed by the accidental discharge of their guns while hunting.

For defrauding a bank Karl Decker, known all over the country as the prince of forgers, was sentenced to seven years in prison at San Quentin, Cal.

In the jail at Norfolk, Va., John Andersen, the murderer of Mate Saunders, of the schooner Olive Pecker, was executed.

At the age of 65 years Samuel McKee a member of congress from 1864 to 1869 died in Louisville, Ky.

At Courtland, Va., Jordan Webb (colored), who committed a criminal assault upon Mrs. Lucy Bowden, an aged lady, was hanged.

Percie Ponder, the 16-year-old son of E. E. Ponder, committed suicide in Louisville, Ga., rather than take a whipping from his father.

John William Showalter, judge of the Seventh judicial district of the United States circuit court, died in Chicago, aged 54 years.

Lulu Johnson, of Pond Creek, O. T., is in jail and will be tried on the charge of poisoning her sixth husband at Lawrence, Kan.

Theodore N. Morrison, pastor of the Epiphany Episcopal church in Chicago, has accepted the office of bishop of Iowa.

Negroes in Kansas are pushing a movement for the deportation of 2,000,000 negroes to Cuba, Porto Rico, Hawaii and Africa.

William Hitchings killed John Hunt and wife and Thomas Haywood at Free Soil, Mich., and then took his own life. He was insane.

FOREIGN INTELLIGENCE.

The steamer Londonian was lost at sea while en route from Boston to London, and Capt. Lee and 24 of the crew perished.

The river Neva inundated the lower quarters of the city of St. Petersburg, Russia, causing great loss of property and lives.

Transvaal troops have committed wholesale butcheries of women and children and unarmed natives in the campaign against the rebel chief Mpefu in South Africa.

The death of William Black, one of the most prolific writers of fiction, occurred in London, aged 57 years.

LATER NEWS.

While Captain General Castellanos was in his bedroom in Havana the roof fell in and wounded him on both shoulders, the breast and face. His orderly was also wounded in the face.

A mutiny occurred in the state penitentiary at Canon City, Col., and three men were injured, one seriously. E. E. Van Gohren, a guard, was cut about the face and neck with a razor; wounds may prove fatal. H. O. Fitzpatrick, guard, was cut in the same manner, though his injuries are comparatively slight. George Miller was injured in the shoulder.

Senator Vest, of Missouri, in the U. S. senate, spoke in strong terms against the proposed policy of territorial expansion. He took the grounds that it was a violation of the constitution.

All doubts respecting the intentions of Colonel William J. Bryan were removed by the receipts by the war department of a telegram from him stating that he had mailed his resignation of his commission as a colonel of volunteers and that it was approved by the division and corps commanders.

Nebraska City, Neb., has been placed under quarantine on account of small pox.

The Two Hundred and Second New York regiment landed in Havana the 12th. A column about 1,000 strong marched from San Jose wharf to the Christina railroad station. The troops were led by Colonel Seyburn and Major Abbott, the regimental band playing simple march airs. The color sergeants bore the stars and stripes and the blue and gold banner of the state of New York.

General J. Ruiz Rivera, the Cuban general recently liberated by the Spanish government arrived in New York.

James A. Frank, probate judge at Springfield, Mo., was indicted on five different counts for collecting and failing to report fees.

Rioting occurred at Havana, in which three Cubans were killed, and one Spanish officer and two Cubans were wounded.

The United States peace commissioners gave a banquet to Ambassador Porter at Paris.

Secretary Alger designated General Ludlow to act as military governor of Havana City, with full powers to deal with all local questions. He will leave for his post shortly. General Greene at Havana will remain there until relieved by General Ludlow, and then come home to be retired.

Gideon W. Marsh, formerly president of the wrecked Keystone bank of Philadelphia, was sentenced to prison for twelve years for making false reports of the bank's condition.

The funeral of General Garcia, the Cuban patriot, was held at Washington with military honors.

Major General Brooke has been named as military governor of Cuba. Each of the six provinces of Cuba will have its own military governor, just as General Wood is now military governor of the province of Santiago, but all of these will receive their instructions directly from Major General Brooke, who is in supreme authority of the island.

At Havana, while a funeral procession was escorting the remains of one of the victims of the recent riot, an affray took place between the members of the funeral party and some of the employes of the military hospital. A number of both parties were wounded.

The warships Texas, the Brooklyn, Castine and Resolute have been ordered to Havana.

The feeling among Americans at Manilla is that, for physical reasons, Admiral Dewew ought to go home. It would be inexact to say that he is a sick man, but to those who have seen him frequently during his hard campaign there since May last it is evident that the long strain is beginning to tell on him.

The Third Illinois volunteers have been mustered out.

Chicago meat packers will spend a large amount of money in erecting immense cold storage plants at various points in Cuba.

Mexico offers inducements for Spaniards to locate in that country.

It is asserted at Madrid that the premier, Senor Sagasta, will obtain a royal decree dissolving the chamber before the ratification of the peace trgaty.

MARKETS.

Oats—No 3 white, 22@23c.
Corn—No. 3 28c.
Cattle—Steers, $2.20@3.50 cows, $2.70.
Hogs—$3.20@3.40.
Sheep—Muttons, $3.10@4.25; lambs, $5.25.
Butter—Creamery, extras, 22@23½c; creamery, first 20@21c; dairy, fancy, 19@20.
Poultry—Turkeys, 7@8c; spring chickens, 7@8c.

WORK IS FINISHED.

Peace Commissioners at Paris Sign the Treaty.

The Essential Features of the Document—President Sends His Congratulations—Expenses of the Commission.

Paris, Dec. 12.—The treaty of peace was signed at 8:45 Saturday evening. The treaty as signed consists of 17 articles, it having been found advisable to subdivide two or three of the articles in the draft agreed upon at the last meeting. The commissioners of the two nations wrote their signatures on two copies of the treaty, one copy being for the archives. The document was prepared by Secretary Moore, in behalf of the United States commissioners, and by Senor Villa Rutia for Spain, on account of the continued illness of Secretary Ojeda, of the Spanish commission. Each copy contains the English and Spanish texts of the treaty in parallel columns. The wording had been approved previously by the commissions without a joint meeting, so there was no controversy on this subject.

Principal Features.

The essential features of the peace treaty are as follows:

First—The customary preface of treaties in the nature of an expression of amity and of hope for perpetual peace.

Second—The relinquishment by Spain of her sovereignty over Cuba.

Third—The withdrawal of all Spanish troops.

Fourth—Relinquishment by Spain of sovereignty over Porto Rico.

Fifth—Spain's cession of the Philippines.

Sixth—The withdrawal of the Spanish troops there.

Seventh—Payment by the United States of $20,000,000 for the Philippines.

Eighth—The provision for the "open door" commercial policy in the Philippines.

Ninth—Cable station rights in other Spanish colonies.

Tenth—Release of Cuban and Philippine political prisoners.

Eleventh—Mutual abandoning of all claims for indemnity.

President Sends Congratulations.

Washington, Dec. 12.—The official news of the signing of the peace treaty was received in Washington a little later than the press reports. It was in cipher form, as usual, from Judge Day. It was at once transmitted to the president, who was alone at the time, but within a comparatively short time all the members of the cabinet had either called or sent their congratulations. The president's congratulations were promptly cabled to the commission.

The news of the signing had been so thoroughly discounted that the actual receipt of the official advices created little stir here. There was a general feeling of relief, however, that no unforeseen circumstances intervened at the last moment to block the peaceful close of the negotiations.

Expenses of the Commission.

The following figures give the estimated expenses incurred by the American members of the peace commission, now spending their seventy-first day in Paris, up to this time:

Salaries of commissioners, $30,000; salary of secretary, $10,000; compensation of interpreters, legal advisers, etc., $20,000; steamship passage for party, $5,000; hotel accommodations, $10,000; personal expenses of party, incidentals, etc., $15,000; services of special employes, $10,000. Total, $100,000.

The American peace commission is composed of five members, a secretary, a score or more translators, tpye-writers, stenographers and a retinue of servants. In all, 32 persons were in the party.

A RICH HARVEST.

Oat and Corn Crops Bring to Farmers of the United States $83,000,000 More Than in 1897.

Washington, Dec. 12.—On the basis of the farm prices of December 1, the agricultural department figures place the 1898 crop of corn and oats as worth $83,000,000 more than the crops of 1897. Statistician Hyde accredits this largely to the difference in price. The corn crop is a trifle larger than in 1897, and the average price per bushel is 2.4 cents higher, while the oat crop is similarly a little larger than in 1897, and the prices were 4.4 cents higher.

Ashes of Columbus.

Havana, Dec. 13.—The ashes of Columbus were transferred from the cathedral to the Conde de Venadito Monday morning. A large company of notables attended upon the removal. The steel casket was borne to the cathedral steps by the canons, amid the tolling of bells and placed on a gun carriage heavily draped with flags and decorated with floral garlands. A solemn procession then moved to the Machina wharf, where the casket was taken in a launch, between lines of 25 men-of-war boats to the cruiser. A salute of 15 guns was fired. At intervals of a quarter of an hour all day a single gun boomed the honors paid to an admiral.

Vote to Liquidate.

Boston, Dec. 9.—The stockholders of the Boston national bank on Thursday voted to liquidate. More than 8,000 of the 10,000 shares in the bank were represented. Only 12 shares were recorded as unfavorable to the liquidation plan. The bank was organized in 1853 and has never passed a dividend. Its affairs are so clean that the liquidating bank advances $1,000,000 to reimburse its stockholders. It is thought that the bank will liquidate $120.

Killed by Express Train.

Burgettstown, Pa., Dec. 13.—Carl McBride and his wife were instantly killed by an express train at Raccoon Station, on the Panhandle road. They were driving in a sleigh from their home, near North Star, to this place and were crossing the tracks when the train dashed into them, both being terribly mangled and almost instantly killed. McBride and his wife had been married but a few weeks.

Miller Again Champion.

New York, Dec. 12.—Charles W. Miller, of Chicago, last year's six-day champion, won the great race at Madison Square garden again this year, beating the world's record, his own, by 24 miles, and leading the next man to him, Frank Waller, of Boston, by 22 miles. Miller's score was 2,007 miles; Waller's score, 1,985 miles.

Bryan Out of the Army.

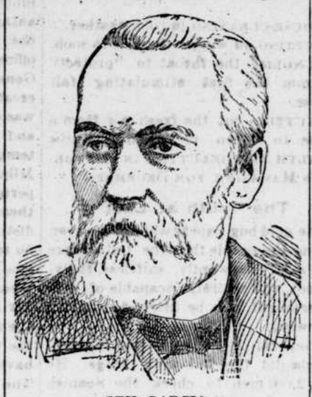
Washington, Dec. 13.—The written resignation of Col. William J. Bryan came to hand at the war department Monday afternoon by mail and was immediately accepted, notice of that fact being telegraphed to Bryan.

GEN. GARCIA DEAD.

The Noted Cuban Hero Succumbs to an Attack of Pneumonia at New York City.

Washington, Dec. 12.—Gen. Calixto Garcia, the distinguished Cuban warrior and leader and the head of the commission elected by the Cuban assembly to visit this country, died here Sunday morning shortly after ten o'clock at the Hotel Raleigh, where the commission had its headquarters. The sudden change from the warm climate of Cuba, with the hardships he had there endured, to the winter weather of New York and Washington is responsible for the pneumonia which resulted in his demise. He contracted a slight cold in New York, which did not assume an alarming stage until the early part of last week. On Tuesday night Gen. Garcia, in company with the other members of the commission, attended a dinner given in his honor by Gen. Miles, and it was a result of the exposure that night which culminated in his death.

Gen. Garcia was a man of culture and refinement, of splendid education and came from a distinguished family of Jiguani, of Santiago de Cuba province. He was born in Cogquin, October 14, 1839, and was therefore in the sixteth year of his age. Gen. Garcia was educated in Havana and in Spain. In 1864 he was married to Isabel Velez. Gen. Garcia was the original conspirator in the uprising of the Cubans against Spain in 1868, and in the war under Gomez he attained the rank of a brigadier



GEN. GARCIA.

general. In October of 1868 he captured the towns of Jaiquani and Baire and recruited many hunlreds of patriots. He had command of the eastern departments during that revolution after 1873 and won many notable victories, including those at Melones and Aures.

In 1880 he was banished to Spain for attempting another revolution, but at the outbreak of the last one he escaped to France and later to New York. After two unsuccessful attempts he finally landed in Cuba with one of the largest filibustering expeditions ever undertaken.

For his participation in the revolutionary movement Gen. Garcia was sent to Spain, where for years he was confined in castles and fortresses, remaining there until the peace of Zanjon.

At Macco's death Garcia was elected lieutenant general of the Cuban army, which position he held to the close of the war.

All the officers who participated in the active work around Santiago bear testimony to the great aid, assistance and loyalty manifested by Gen. Garcia during the campaign. When the Cuban assembly met at the close of the war Gen. Garcia was one of the principal advisers and was elected chairman of the commission directed to come to the United States and confer with the authorities here with reference to the work in hand.]

TROOPS ENTER HAVANA.

Intense Feeling of Joy Displayed by Cubans Upon Entrance of a North Carolina Regiment.

Havana, Dec. 13.—The First North Carolina regiment, which arrived here Sunday morning on the United States transport Roumanian, disembarked Monday morning and marched through the city with band and colors to camp at Marianao. By the time the regiment had reached the suburbs of Cerro many hundreds of men, women and children were following, all showing deep emotion, the men embracing one another, the women weeping from excessive pleasure, and the children shouting endearing names as the North Carolinans marched along. The troops were amazed at the intensity of feeling displayed. Several hundred Cubans followed the regiment all the way to Marianao, a distance of seven miles. The troops, in heavy marching order, made a fine appearance.

A Tragedy in Camp.

Huntsville, Ala., Dec. 13.—Henry Nelligan, cook, and George W. Beverly, bugler, both of company G, First Florida, were killed Sunday night. Nelligan and Beverly, were on bad terms and had a fight in camp. Nelligan drew a knife and stabbed Beverly, who pulled out a pistol and told him to stand back. Nelligan's brother, H. F. Nelligan, seeing Beverly with a pistol in his hand, killed him with a Springfield rifle. Beverly's brother, Roy, emerged from his tent at this time and saw his brother fall. Thinking he had been killed by Cook Nelligan he shot the cook dead.

Resignation Accepted.

New York, Dec. 12.—The congregation of Plymouth church, represented by a large advisory committee of the prominent members, decided Sunday to accept the resignation of Rev. Dr. Lyman Abbot, to take effect on May 1. After January 1 Dr. Abbot will be relieved from all participation in the active management of the church and will preach only when his health permits.

Sails for Manila.

New York, Dec. 8.—The cruiser Buffalo left her anchorage off Tompkinsville about noon Wednesday and sailed for Manila by way of Suez. She had on board about 700 men for Admiral Dewey's fleet at Manila and who are to replace those whose terms have expired. She also takes ammunition and various supplies for Admiral Dewey's ships.

Killed His Little Sister.

Danville, Ill., Dec. 10. — Orvill Willus, aged six years, accidentally killed his three-year-old sister with a shotgun Friday afternoon at their home in Kellyville. The top of the child's head was blown entirely off. The children were alone in the hose at the time of the accident. The boy stated they were playing soldier.

Will Remain in the Army.

Washington, Dec. 9.— Maj. Gen. Wheeler will resign his seat in congress and retain his commission in the army. He made this decision Thursday as a result of the question raised as to the legality of his holding two positions under the United States government.

TO AMEND WAR TAX.

Commissioner of Internal Revenue N. B. Scott Suggests Changes in the Act of June 13, 1898.

Washington, Dec. 10.—Chairman Dingley, of the ways and means committee, has received a letter from the commissioner of internal revenue, N. B. Scott, recommending a number of amendments to the act of June 13, 1898, known as the war revenue act. The recommendations cover changes of an administrative character under schedules A and B; also for the monthly payment of excise taxes on sugar refineries, and for a penalty for failing to stamp parlor car tickets. Further provisions are suggested as to the examinations by internal revenue officers of articles subject to internal revenue taxes. The following are the proposed changes to the war revenue act:

In paragraph 1, section 2, relative to bankers, insert in the proper place the following: "Undivided profits shall be considered as surplus in estimating the tax due from banks, the amount to be estimated by taking the average for the preceding year; provided, that the word 'capital' shall not be understood to mean money borrowed or received from time to time as deposits in the usual course of business, from any person not a partner of nor interested in the bank, association or firm."

The suggestions proposed that lectures, local clubs and amateur performers be not subject to tax.

Papers used as bank checks and orders for the payment of money to be taxable except in case of withdrawal of funds from savings banks.

Recommendation is made that the stamp tax on mortgages or pledges, leases, insurance policies and deeds of release be removed.

The provision taxing brokers' notes or memoranda of sale of goods, stocks, bonds, exchange, etc., to be removed.

Persons or firms engaged in refining petroleum or sugar and subject to the act to be required to pay the tax monthly.

Penalty to be provided for not affixing stamps to parlor and sleeping car tickets.

Aliens or persons having resided outside the United States for five years to pay a tax of five dollars on every $100 of money that is received as legacy.

Packages of tobacco, in whatever form, it is suggested, shall not contain any printed offer or prize, gift or premium.

Revenue collectors are to be authorized to examine national banks to ascertain whether the law is being complied with in regard to checks and other papers or documents.

IN THE PHILIPPINES.

Admiral Dewey Sends Information of Existing Conditions in the Islands.

Washington, Dec. 10.—The navy department has received a cablegram from Admiral Dewey summarizing the existing conditions at Manila and such points in the Philippines as have been visited by his officers. Advices also have been received from Gen. Otis, the commandant of the United States military forces in the islands, and they both go to show a notable improvement in conditions and the growth of a better spirit among those factions of the natives which promised to give trouble. This fact is particularly gratifying, as the United States government is already giving consideration to the best means at hand to redeem the pledge it will be placed under by the treaty of Paris to secure the release of the Spanish prisoners held by the Philippine natives. There are about 500 clerical prisoners and the government is confident that their captors will deliver them up on proper representations from Gen. Otis and Admiral Dewey, made possibly through Consul Wildman. It may be necessary to call the navy into service in this matter, for the reason that some of the prisoners are held in captivity on other islands than Luzon, which can be reached best and most effectively by Admiral Dewey's ships. Besides these clerical prisoners, the Americans themselves hold nearly 15,000 Spanish soldiers as prisoners, men captured at the fall of Manilla. These are actually on parole about the city and the question is how are they to be returned to Spain. This must be settled by the peace commissioners in Paris.

Labor Leaders Meet.

Kansas City, Mo., Dec. 13. — The eighteenth annual convention of the American Federation of Labor was called to order in Strope's hall at ten o'clock Monday morning. About 150 delegates from all parts of this country and two from across the water, namely, William Thorne and William Inskip of London, representing the British Trades Union congress, were present. Delegate Inskip's mission was to plead for a closer alliance between the United States and the mother country along industrial as well as political lines. The work mapped out for the opening day included the committee reports, the seating and rejection of contested delegates, of whom there are several, and the annual address of President Samuel Gompers.

No Fifty-Year Franchise.

Chicago, Dec. 13.—The ordinance extending the franchises of Chicago street car companies for 50 years came up in the city council Monday night, and were referred to the council committee on railroads. On all votes touching the ordinance friends of the measure were a strong minority, and unless they can muster much greater strength there is no probability that they will ever be able to pass it over the veto of Mayor Harrison.

Huge Snowdrifts.

New York, Dec. 9. — Owing to a severe snowstorm which raged for three days in the upper part of the state, burying the tracks of the New York Central railroad under miles of snowdrifts four and six feet deep, few western trains have been able to reach this city. Several of the western express trains were stalled at Rochester and Syracuse, and it was impossible to proceed further, their runs having been discontinued.

Perish in a Fire.

New York, Dec. 12.—After a fierce fire that occurred Sunday in a flat building at 134 Prospect place, Brooklyn, four bodies were recovered, and the police expect to find more dead in the ruins. The house was occupied by five families and a boys' club had rooms in the basement. It is supposed the boys accidentally set the place on fire, as the flames were first discovered coming from the basement.

Kent Still at Large.

Virden, Ill., Nov. 9.—Officers have been unable so far to arrest William Kent, the murderer of his brother Noble on a Chicago & Alton train at Girard. A search of the vicinity failed to find any trace of him. It is almost positively known he has not been in this vicinity since the crime. No reward has as yet been offered for his capture, a fact much commented on by all citizens.

Sharp Pains

Darting from one point to another, stiff and swollen joints, inflammation, intense suffering, are characteristics of rheumatism. All these painful symptoms are cured by Hood's Sarsaparilla which purifies the blood and neutralizes the acid which is the cause of rheumatism. Why continue to suffer when you may be relieved by

Hood's Sarsaparilla

America's Greatest Medicine. Price $1. Prepared by C. I. Hood & Co., Lowell, Mass.

Hood's Pills cure all Liver Ills. 25 cents.

SCIENTIFIC CONSCIENCE.

An Interesting Tale of Two Geologists and an Exceedingly Beautiful Fossil.

Happening to know two men who were deeply interested in geology and who did not know each other a Detroit man brought the two scientists together recently at the house of one of them and then left them to enjoy the occasion. A day or two later he met the host in the case and heard this strange story from him:

"Well, Mr. Cooper, that was a fine man you brought out to see me the other night—a fine man. Why, he's as crazy about geology as I am, if not a trifle crazier. We sat up together until after midnight, looking over my specimens and talking about them, and I'm going down to see his cases. He tells me he has almost bankrupted himself indulging his taste for rare and beautiful fossils. A funny thing happened the other night, too; he's a great one—that man! On my library table I had one remarkably beautiful fossil—too choice to be hidden away in a case and yet too valuable to be left lying around. I needn't tell you what it was, for you don't know one from another. Your friend does, however, and he returned again and again to admire this particular specimen. Of course, I enjoyed his enthusiastic appreciation of it, and when he was about to go I said: 'Mr. Badger, you admired this fossil so much I'm going to give myself the pleasure of parting with it to you. Please add it to your collection.' So saying, I extended my hand for the fossil, and behold it wasn't there. On the table and under the table I looked, behind the lamp, and under papers—no fossil—a mysterious disappearance. I felt nonplussed and looked at my guest. He looked sheepish, fumbled in the inside of his sacque coat and said: 'Well, I'm glad you are going to give me that fossil. I already had it in my pocket.'"

"As I had often done the same trick myself I couldn't utter a word of protest.

"'Well, well,' I said, 'take it along and heartily welcome.'

"I've annexed fossils myself. Art has no conscience."—Detroit Free Press.

A CHEEKY BLUFF.

The Monumental Gall of a Nervy Man Gains for Him His Difficult End.

A local banker of a small Iowa town was called suddenly to a larger town at considerable of a distance to intercept his eloping daughter, who had been visiting there. In order to get there that day he would have to change cars at Des Moines and the train that connected with the Des Moines train left earlier in the day. Consulting his time table, he learned that the train he would be obliged to board reached Des Moines just 15 minutes after the train for B——, his destination, pulled out. Remembering an old adage of his cashier: "He who works the greatest bluff wins," he sent the following message to the Des Moines train officials:

"Hold the 2:30 train until I arrive.

"G. G. BLANK."

Not knowing but that G. G. Blank was in some way highly connected with the road and fearing to incur his displeasure, the "bluff" worked. When he stepped off the train at Des Moines a man hurried toward him, and, lifting his hat respectfully, inquired: "Are you Mr. Blank?"

"Yes."

"We received your message. The train is waiting."

And that is how G. G. Blank, who is not known outside his little county, passed for an official of a great and mighty corporation and was able to reach his destination just in time to give the paternal blessing to his daughter and her newly made husband. —Chicago Chronicle.

His Way of Advertising.

Charles—I don't see how Blank can make any money out of that tobacconist's business of his. He's always smoking the best cigars himself.

Fred—Oh, that's his method of advertising.

"How so?"

"Puffing his goods."—Stray Stories.

Worthy of Worship.

"Faw gwacious sake, deah boy, who was that common fellaw you let shake youah hand?"

MINNESOTA NEWS.

Prison Affairs.

The board of prison managers, in their biennial report, gave a thorough history of the binder twine business transacted during the past two years, saying in part:

We have increased the capacity of our twine factory from 2,500,000 to 5,000,000 pounds per annum, adding new machinery of latest improved pattern, and making other important changes for the gradual extension and improvement of the plant. We can say with pardonable pride that we now have one of the best twine plants of its size and secofld to none in the United Ltates. We have made gradual progress in the quantity and quality of all grades of twine manufactured, and our product is now generally conceded to be as good as the best twine that can be found on the market.

Early the past season the conditions were as usual. Orders for twine were sent in by dealers and in clubs, after which prices suddenly jumped up. It must be conceded by all fair minded and honest men that to have canceled the orders which had been received would have been a great injustice to honest dealers who could have bought elsewhere at the time orders were placed, at prices but little above the prices finally fixed by the board of managers.

The fact that the twine industry has been a success to the state financially and through it a direct benefit to all the taxpayers, and by its competitive effect has held down the prices of other twine sold in the state, ought to be proof that the affairs of the plant have been honestly and faithfully conducted.

Was a Success.

The beet sugar factory at St. Louis Park has closed its first run and the experiment has proved a complete success. The mill ran night and day for seventy-five days, and a daily average of 350 tons of sugar beets were used. About 2,500,000 pounds of sugar were manufactured, and nearly all was sold in the Twin Cities. So great was the demand for the native Minnesota product that the managers of the St. Louis Park plant were compelled to go into the market themselves to fill requisitions from outside points.

The farmers who sold beets to the factory received on an average of $4 a ton and are well satisfied with their part in building up the new industry. One hundred and ten men were employed by the mill when in operation. Next year the mill will probably run at least 160 days and use 400 tons of beet roots daily. The managers of the plant hope that the farmers will see the advisability of keeping the factory well supplied. The beets raised this year contained a larges quantity of saccharine matter than those of any other state except California.

Thayer Goes to Stillwater.

Link Thayer was taken to Stillwater to serve the 20 year sentence imposed by Judge Searle for the hold-up of the Great Northern train near Carlisle. To a man of his age the sentence virtually means life imprisonment. The sheriff delayed his departure a few days to enable Thayer to bid his friends farewell. The prisoner has the utmost confidence in the ability of his attorneys and still hopes for a new trial. He attributes his conviction to the fact that public sentiment was arrayed against him, and claims the Great Northern used money lavishly to induce his witnesses to absent themselves from the trial. This is Thayer's first sentence to Stillwater, although the other members of the gang have interesting prison records. The detectives regard him as the best man in the lot and will be very much disappointed if his companions do not follow him to Stillwater.

Robbery Attempted.

The mail line by stage from Rochester to High Forest, via Stewartville, is a daily trip each way, the driver reaching his home in High Forest at 7 o'clock in the evening. When about half a mile from the little town the other night, just between two fords of the river, a man stepped out from a clump of underbrush, bidding him halt and throw up his hands. He thought it was one of the local boys trying to get a joke on him, and answered promptly: "Go to the devil." Immediately a revolver flashed in his face, and a stinging pain in his leg assured him it was no joke. The driver answered with four quick shots from his own protector and dashed on, not knowing the fate of the would-be robber.

News in Brief.

The annual meeting of the Minnesota Valley Medical association was held at Mankato with a large attendance.

S. O. Starkson, while crossing the railway tracks near Canby, was struck by a train and badly injured.

Wm. J. Birmingham, a clerk at Winona, was killed by falling from a high stepladder.

Thomas Nelson, a storekeeper at Owatonna, was indicted for receiving stolen goods.

The Brainerd & Northern railroad is completed to Bemidji.

John G. Lennon, postmaster at Blooming Prairie, was arrested by the U. S. authorities, charged with a shortage in his accounts.

Burglars broke into the store of W. S. Sullivan, at Swansville, Morrison county, blew open the safe and secured about $400 in money and some clothing. Three hundred dollars of the money belongs to the Northern Pacific, whose safe was located in the store.

In a Winona grocery store, Mrs. Loftus assaulted Kate Minzure with a catsup bottle, beating her into insensibility. It was a family row.

Romeo Saucy was robbed by highwaymen of $5.40 and a package of laundry in St. Paul.

The cash earnings for the state prison in November were the largest in its history, being $143,674.11.

A man who owns some Pomeranian dogs says that at the sound of his cornet one of the little animals will rush around the house wild with delight, begging and dancing. Another of the Pomeranians will not notice the cornet, but delights in the picco pipe, begs, wags his tail, and, if he can get the chance, licks the small instrument that produces the music he loves.

Vorspiel is the German word for prelude.

Don't marry a brunette—she will never be fair to you.

FARMERS' CONGRESS.

The Body Completes Its Labors at Fort Worth, Tex.—Will Meet Next in Boston.

Fort Worth, Tex., Dec. 9.—The Farmers' National congress was slow in getting down to business Thursday on account of the bad weather. Among the resolutions adopted was one favoring aid in constructing the Nicaraguan canal, government control of the same, and another favoring development of the beet sugar industry. A committee to engross the resolutions and present the same to congress was appointed, composed of Messrs. Clayton, of Iowa; Candidge, of Massachusetts; Evans, of Colorado, and President Hoard. Resolutions commending the passage of laws providing that grain be separated from seeds of noxious weeds before being put on the market were ordered forwarded to the proper authorities. The congress also passed resolutions favoring the lease or sale of arid lands so as to make them taxable, and asks the United States congress for increased appropriations for rural free mail delivery; favoring national legislation to do away with the privileges accorded to original packages of oleomargarine under the interstate commerce law; prohibiting the branding of dairy products with the name of the state or territory in which they are produced, and urging the necessity for instruction in the principles of agriculture in public schools. The resolutions urge harbor improvements in interstate commerce as well as for national defenses.

After some lively competition Boston was chosen over Des Moines and Denver as the place where the next session will be held. The congress then adjourned sine die.

REVIEW OF TRADE.

Increased Activity Shown in Business Circles in the Past Week, Says Dun.

New York, Dec. 10.—R. G. Dun & Co.'s weekly review of trade says: "The most significant thing this week has been the entire absence of the customary nervous fright before or after the meeting of congress, the president's message and the treasurer's report. No one showed the least alarm, and nobody could find a reason for any. Money and stock and grain markets moved on exactly as if the government were automatic, certain to do or say no more than the people had already decided and expected, and so the gradual betterment since October continues. There is a larger demand for products in nearly all the great industries, larger export demand for foreign needs, a more healthy domestic demand since seasonable weather arrived, and a comforting conviction that November business, the biggest ever done in this country in any month, was but a step toward something better.

"Exports last year in December were marvelous, but this year are starting far ahead. The Atlantic wheat exports, flour included, have been for the week 5,636,761 bushels, against 4,312,137 last year, and Pacific exports 556,523 bushels, against 973,032 last year, and prices have declined 2¼ cents for cash, but western receipts of 10,135,169 bushels, against 6,213,471 from last year's great crop stops argument. The wheat does not come out at low prices if the people have less to sell than last year at 20 cents more per bushel. So the corn exports were 4,151,981, against 3,313,686 last year, and such a foreign demand at prices much higher than last year and with wheat cheaper, is proof of a state of things abroad which Americans hardly appreciate. The price declined only one-fourth cent with enormous receipts.

"This week's failures have been 248 in the United States, against 312 last year, and 23 in Canada, against 29 last year."

Gillett Disappears Again.

Kansas City, Mo., Dec. 10.—A dispatch to the Journal from Chihuahua, Mex., states that Grant C. Gillett, the fugitive Kansas cattleman, has disappeared from the vicinity of Chihuahua and is now believed to be either in the City of Mexico or at Mazatlan, on the Pacific coast, or en route for South America. For ten days previous to his disappearance the dispatch says Gillett found refuge on the ranch of J. M. Fisher, 60 miles south of Durango. Fisher is a former Kansan, whose career in Kansas was not unlike that of Gillett. He failed in the banking business at Abilene in 1889, and the bank has since paid only five per cent. on deposits amounting to $300,000.

Flood in Brooklyn.

New York, Dec. 12.—For several hours Sunday an area of 20 blocks in the Twenty-eighth ward in Brooklyn was inundated by raging waters, which washed out the foundations of houses, tore down trolley and telegraph poles imprisoned people in their houses and nearly drowned some who were caught by the flood. The damage will reach several hundred thousand dollars; the police think $500,000. The great water main at Hobart street and Central avenue burst at five o'clock in the morning.

For a Larger Army.

Washington, Dec. 13.—Maj. Gen. Miles appeared Monday before the house committee on military affairs for a hearing relative to the proposed reorganization and increase of the army. Two bills for this purpose are pending, one drawn by Gen. Miles and introduced in the senate as the Hawley bill and another introduced in the house by Chairman Hull, of the military committee.

Fast in the Ice.

Detroit, Mich., Dec. 13.—Ice extends from St. Clair cut, down through the Detroit river and for about 40 miles out into Lake Erie in such depth as to badly block the progress of and endanger vessels. From three to six inches of ice are reported at the mouth of the Detroit river, and there are many steamers and tows fast in that locality.

Will Advance Wages.

Nashville, Tenn., Dec. 10.—It is authoritatively stated that the Nashville, Chattanooga & St. Louis railway on January 1 will increase wages five per cent., thus placing the wages of operatives on the same scale they were two years ago, when a cut of ten per cent was made. A five per cent. advance was made last summer.

Noted Forger Sentenced.

San Francisco, Dec. 10.—Karl Decker known to the police all over the country as the prince of forgers, was sentenced to serve seven years in San Quentin Friday for defrauding the Nevada bank, of this city, out of over $20,000 by means of a raised check which he and three others presented to the bank for payment.

Military Governor of Havana.

Washington, Dec. 13.—Secretary Alger has designated Gen. Ludlow to act as first military governor of Havana city with full powers to deal with all local questions. He will leave for his post shortly. Gen. Greene, at Havana, will remain until relieved by Gen. Ludlow and then come home to be retired.

WENT LOOKING FOR LADUKE.

An Exciting Incident in Potsdam When the Log Drivers Had Been Paid Off.

When the spring freshets swell the Adirondack rivers they carry northward millions of feet of lumber in the shape of 13-foot logs, freshly cut and clothed in bark at the outset, splintered and stripped for the most part when they reach the sorting boom of some mill town in the St. Lawrence valley. Often for miles one can scarcely see the surface of the river, nothing but a stretch of restless, fidgeting, nudging logs. That is the "big drive," and the men who wait on the caprices of these logs from mountain slope to mill pond are the "river drivers."

Some 50 of these river drivers were paid off in Potsdam village one Saturday night. Obviously, since local option had decreed that the town should be "wet" that year, there was only one course for the men to pursue. Within two hours the whole gang was drunk and happy, with that comprehensive happiness that comes to an Irishman in the first stages of intoxication. With hats shoved back and arms locked they progressed cheerfully down Market street from saloon to saloon.

Then it was that Jerome Petrie, a ratlike little Canadian shoemaker, contrived to trip big Mike Donovan as he swung, a trifle unsteadily, around a corner. Mike hung on to the next man and the whole line went down. A howl of rage burst from the crowd behind. In a flash the merry stage of intoxication had given way to the furious and Jerome was running for his life. He made for his own home, and the torrent of raging, red-shirted lumbermen poured into the narrow, dingy streets of the Canadian quarter. The little shoemaker dodged his pursuers somewhere among the tumbledown shanties. The swarming children scuttled indoors, lights went out behind the dirty windows and the "French village" was very still except for the shouting men in the street. It took their muddled heads a minute or so to understand that they had missed their game. Then some one yelled:

"Let's clean out the whole Canuck nest."

With a yell the gang surged forward against the nearest shanty. There was a shattering of window panes, and the crazy door, hastily barricaded with household furniture, was giving at the hinges, when Antoine Laduke came round the corner. He was a Canadian blacksmith, only five feet four in his stockings, but with muscles that stood out like twisted cables on arm and thigh and shoulder. As he caught the meaning of the tumult he stooped, lifted from the neglected sidewalk a huge, flat slab of red sandstone and broke into a trot. He went through that howling mass like a cyclone through the woods. When he had mowed one swath he turned to repeat the process, but there was no need.

Next day Potsdam was full of shaggy men in red shirts with their heads tied up, all looking for Antoine Laduke, in sincere desire to "treat" him as long as he would be treated or the remnant of their pay held out.—N. Y. Sun.

EXPLORES THE CAROLINES.

Interesting Researches in the Group of Islands Made by an Oxford Professor.

During his residence of nearly eight years in the Caroline islands P. W. Christian, of Balliol college, Oxford, visited nearly every one of the five-and-twenty islets which compose the group and practically carried out a scientific survey of most of the larger islands. He gave special attention to the philology of the natives, noting some 40,000 words in about 40 different dialects spoken in the various islands. Many of the words are of undoubted Mongolian descent, but it is not a little strange that Mr. Christian should have recorded in his vocabulary as many as 450 words of English origin. His philological researches are in many other details of extreme scientific interest, and when he has classified his observations much light should be thrown on the history of the early inhabitants of the Carolines, the great majority of whom are at present of Malay-Papuan race, while others betray Chinese descent.

The explorer also amassed a very interesting collection of ethnological and zoological specimens, several of the latter being, it is believed, new to science. One of the most important results of Mr. Christian's explorations is his discovery of remarkable ruins indicating the existence of large cities, built on marshy sites, or lagoons, very much after the fashion of Venice. The character of the structure of the walls, built of huge blocks of basalt 40 feet high, and other evidence, such as carvings and drawings, would seem to point to the fact that the people who once inhabited these cities must have had a civilization and been possessed of much engineering skill.—Manchester (England) Guardian.

Great Sprinting.

One night a few weeks ago, as the flying fast mail on the Lake Shore was making up lost time across the Indiana swamps, a big red fox dashed out ahead of the locomotive and took the straight, level track right in front of the train. In another instant a great black-and-tan hound, with his tongue protruding, and his long, lank body stretched out at full speed, took the roadbed just 50 feet behind the fox. More steam was turned on, and with their heads out the engineer and fireman watched the contest of speed. It was a grand race between the two animals, with the mighty engine coming close after them 65 miles an hour, and the headlight showed the fleet fox straining every limb and muscle and his enemy slowly falling behind. The old hound appeared to know that there was danger in his rear and took to the westbound track, and in another minute the rushing train went past him, but the fox, taking advantage of the complication, disappeared in the woods again.—Harrisburg (Pa.) Telegraph.

Had She No Brothers?

After he had kissed her and pressed her rosy cheek against his and patted her soft, round chin she drew back and asked:

"George, do you shave yourself?"

"Yes," he replied.

"I thought so," she said. "Your face is the roughest I ever—" Then she stopped, but it was too late, and he went away with a cold, heavy lump in his breast.—N. O. Times-Democrat.

THE HOPE OF THE CONTINENT.

Western Canada the "Bread-Basket of the Empire."

The attention directed to the wheat fields of western Canada during the past year has caused thousands of settlers from different parts of the United States to make their homes there during the past few months. They report that their experience corroborates what had been told them of that wonderful country, and they are sending back to their friends most favorable reports. During the past summer a number of Wisconsin and Michigan and Minnesota editors visited western Canada, and the following extracts are from a very flattering letter written to the Germania of Milwaukee by its able contributor, Prof. Sheridan.

"The numerous elevators along the line, towering so far above the surrounding country that they may be seen for many miles distant, sufficiently indicate that the chief industry is the growing of wheat. At the village of Indian Head, more than 1,000,000 bushels of wheat were marketed last year. This was but a fraction of the amount of the same product marketed at the larger cities of Brandon and Regina. At Indian Head the representative of the Germania was told by a farmer that he was about to harvest his third crop of wheat from the farm upon one plowing given it the fall of 1895; the crops of the current year and of last year having been sown upon the stubble of the preceding crop. This farmer expected a yield of not less than 40 bushels to the acre. The farms are very large. The absence of hills and rocks contributes to making farming on a large scale an easy matter. There was an abundance of evidence that the country surrounding the cities named above is an extensive region of fertile lands furnishing as great an opportunity for cattle raising and dairying as for the growing of wheat."

"We were surprised to find here a rich growth of nearly every species of cultivable plant known in Wisconsin. Various species of trees were growing, showing that its soil and its climate are favorable to the growth of forests. The writer had never seen a more promising growth of wheat, oats and garden vegetables than was observed here. The experimental farm of Wisconsin, located at Madison, produces nothing better."

"The people along the line of the railroad, however, assured us that we were still far distant from the northern limit of the wheat growing belt, and that 500 miles farther north, wheat and other agricultural products were cultivated with success. The inhabitants do not depend solely upon the growing of wheat, but utilize vast acres in raising cattle. The growing grain and vegetables showed that a plentiful supply of rain had fallen during the current year."

"From this city (Calgary) our party was taken north 200 miles to Edmonton, a town of 5,000 people, situated on the north Saskatchewan river. The country at this point is beautiful, presenting very much the appearance of many sections in central and southern Wisconsin. The people are engaged in mining for gold, and in raising wheat, potatoes and cattle. Dairying is also followed. This valley seems to be favored with sufficient rainfall to produce a luxuriant growth of grain and vegetables. The soil is very fertile and timber is abundant. Fields of wheat were observed that promise a yield of 40 bushels per acre. The many good farmhouses seen from the railway are evidence of the prosperity of the settlers. Edmonton is the terminus of the road and the place where the overland expeditions start from for the Yukon, it being about 800 miles from Dawson City."

"The members of the association made the acquaintance of the Canadians of the northwest and learned something of the vast extent of their territory and of its great resources, which are destined to make it our most formidable commercial competitor in the world's markets for the sale of agricultural products. We learned that the northwest territory of Canada, instead of being a barren waste as taught by our geographies of a quarter of a century ago, is capable of sustaining an empire of 50,000,000 people."

Too Big a Risk.

"Yes, I've made up my mind to have my life insured."

"Any particular reason for it?"

"Going to be married next week."

"Let's see, you're one of these popular fellows, aren't you?"

"Why, I fancy I'm pretty well known."

"Well, we can't insure you until after the wedding is over."

"Why not?"

"Because there's no telling what your foolfriends will do to you before you get out of town."—Cleveland Plain Dealer.

Can You Solve This Puzzle Verse?

"A simple go-between am I,
Without a thought of pride;
I part the gathered thoughts of men,
And liberally divide.
I set the soul of Shakespeare free,
To Milton's thoughts give liberty,
Bid Sidney speak with freer speech,
Let Spenser sing and Taylor preach,
Though through all learning swift I glide,
No wisdom doth with me abide."

If you can solve the foregoing, and send the correct answer to George H. Heafford, General Passenger Agent, Chicago, Milwaukee & St. Paul Railway, Old Colony Building, Chicago, together with a two-cent stamp, he will send you what it calls for.

Blood.

The duke was beside himself with rage.

"Your family have only plebeian blood in their veins!" hissed his grace.

"Well, you ought to know; you've bled them enough," replied the duchess, the fair American—her mien quite in keeping with the haughty legend, "Non Cura, Non Merces," upon the trade-mark of her father's justly celebrated Combined Hair Vigor and Stove Polish.—Detroit Journal.

Some men even pretend to be well informed by pretending to forget what books they have read.—Washington (Ia.) Democrat.

Railroad Trains to Run Slower.

Railroad officials claim that it is very expensive to run their lightning express trains, and are talking about reducing the speed. It is likewise expensive to the health to rush and struggle and compete in business affairs as men do nowadays. The brain, the nerves, the muscles, the whole system gives out. For restoring strength after business worries, Hostetter's Stomach Bitters is the proper remedy. It is an ideal tonic for the tired, the run-down and the weak.

The Modern Idea.

A teacher in a local primary school in an endeavor to inculcate a moral lesson in the receptive minds of her little charges asked them what they would do if they had a great deal of money. With remarkable unanimity the pupils replied that they would donate it to pleasing others. They didn't say so in chorus, but the answers ran down the line in about this fashion:

"I'd buy a present for papa."

"I'd get something nice for mamma."

"I'd spend it for my baby brother."

"I'd buy a nice cloak for grandma."

And so it ran on until it reached little Jimmie Peters, the last boy in the line.

"Well, Jimmie," queried the teacher, "what would you do if you had lots of money?"

"Burn it," said Jimmie.—Cleveland Plain Dealer.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. Cheney & Co., Props., Toledo, O.

Did you ever See a Snow Storm in Summer?

We never did; but we have seen the clothing at this time of the year so covered with dandruff that it looked as if it had been out in a regular snowstorm.

No need of this snowstorm.

As the summer sun would melt the falling snow so will

Ayer's Hair Vigor

melt these flakes of dandruff in the scalp. It goes further than this: it prevents their formation.

It has still other properties: it will restore color to gray hair in just ten times out of every ten cases.

And it does even more: it feeds and nourishes the roots of the hair. Thin hair becomes thick hair; and short hair becomes long hair.

We have a book on the Hair and Scalp. It is yours, for the asking.

If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be easily removed. Address,

DR. J. C. AYER, Lowell, Mass.

T. L. Randolph, Cameron, Texas, wrote to Dr. Hayes in 1897:

"I have not had Asthma since taking your treatment for six weeks in 1893, nor have I had any symptoms of it."

Now here is a case of the most severe type of

Asthma

which Dr. Hayes cured by the use of constitutional alteratives and tonics, and Mr. Randolph has **stayed cured** for six years. The idea that Asthma is incurable because physicians generally can do no more than give temporary relief, is a most deplorable error. The use of **symptom drugs** is so universal, and their failure so inevitable, that people are slow to believe that the disease can be cured at all. But Dr. P. Harold Hayes, of Buffalo, N. Y., quotes hundreds and even thousands of cases from his practice similar to the above.

OLD SORES CURED

Allen's Ulcerine Salve is the only sure cure in the world for Chronic Ulcers, Bone Ulcers, Scrofulous Ulcers, Varicose Ulcers, White Swelling, Fever Sores, and all Old Sores. It never fails. BUFFALO GAZETTE

DELANO, FRIDAY, Dec. 16, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

—A good girl for general housework or a good kitchen girl wanted at once. Apply at Meisters Hotel.

—The High school will take a two weeks Christmas vacation begining Friday night, Dec. 23d.

—The cold weather has continued to hang on well. We believe that so far December has been the coldest for years.

—The M. E. S. S. is busy at work on an entertainment for Christmas eve. Everybody invited. The children will welcome you.

—A Sociable by the Presbyterian aid Society, for the benefit of the S. S. will be given to night at the City Hall. Turn out and encourage the S. S. children.

—Bock Bros. have been sawing wood by steam this week, for the villagers. They had quite a break down in moving up the alley near Roosen's Opera House, Wednesday.

—A Red, White and Blue Cinch party is to be given by Dr. and Mrs. Shrader and F. H. and Mrs. Lindsley, Saturday evening, at the I. O. O. F. hall.

—The Scandia is reported on her way to San Francisco with the largest mail that ever left Manila. Letters from the boys will probably reach Delano about the 20th inst.

—If some of the 13th Reg. Minn. Vol. at Manila could have a few of our big snow drifts to roll in, and to furnish ammunition for a good battle with snow balls, they would, doubtless be happy for a little while.

—Nick Klein seems to have tired of Delano saloon business soon, and has sold out to James E. Murphy, of Minneapolis. Frank Crolley will open up a saloon in the Casper Janikula place. Delano will again have her regular quota of seven saloons.

—Everything indicates that the volunteers now at Manila will soon be returned home, and the regulars will proceed to take their places there. The 3d Reg. at Ft. Snelling has already been ordered to prepare for their long journey. Likely the boys will get back here by spring.

—We notice the Eagle has nominated Doctor Catlin for Oil Inspector While she is advising Governor Lind what to do for the doctor why don't she ask for a medical position; such as Wright county is entitled to; State Board of Health, Board of Hospital for Insane, or something in the doctor's line?

-AdvertisE-

—Station agent Bolton is mourning the loss of a helper, his having gone to Dassell to be agent for a few days. It seems owing to the absence of five agents and seven conductors between here and Willmar, attending court, that the company is putting up with most any kind of service for the present.

—Notice has been given out at the M. E. Church by the pastor, that a vote will be taken on the first Monday evening in January, at 7:30 P. M., on the question of selling a part of the church property, or of trying to secure a loan at a cheaper rate of interest than the one now being carried. All members should attend.

—Next week we will have the shortest days and the longest nights of the year. Then the days will grow longer, the sun shine longer and the backbone of winter will be broken. If this is not the case it will be an unusually cold winter, for seldom does the winter set in so severely and continue as cold as this one has, for so long a time without a day that could be called warm.

—Some of the people on the Rockford road have done as the GAZETTE last week recommended; they have shoveled snow onto the bare spots and made hard roads good. It looks like a very poor plan for dozens of teams every day, for a month, to be obliged to haul heavy loads and a merciless driver over bare roads, around high snow banks, pulling and straining their lives away in useless toil, wearing out the sleigh shoes and the patience of travlers, who must sit out in the cold from onehalf longer, to twice as long, as necessary to make the trip, when a couple of men with shovels, or a team, scraper and a few men would make the road A 1, in a day. Let our legislators cover themselves with glory by passing a bill at once providing for keeping snow shoveled and on off the road where and when needed.

—Isn't it about time The Old Bird up street was pointing out to her readers the fact that, owing to the protective tariff on "hen fruit" farmers are now enabled to sell at advanced prices. Hurrah for the Dingley bill! About this time of year for some time she has referred to this particular product of the country with fond pride. But notwithstanding the protective tariff eggs are scarce in the market. The manufactories have nearly all been closed down during the cold snap, and about the only eggs in the market are those that have been kept over since prices were cheap, and are now sold for high prices, which as a rule, are, when the cook comes to sort them over, much too high, even for protective prices. Can't something be done to start up the factories and reduce the price of eggs? Answer, Old Bird.

Personal.

L. M. Maxfield visited Minneapolis one day this week.

Santa Claus is expected to visit Delano in the near future.

Mr. and Mrs. Conzet, visited Rockford Wednesday afternoon.

Mrs. Wolfendon and Freddy Peters have gone to Faribault.

Miss Hattie Gross is home from St. Paul, and her brother from the west.

Mr. and Mrs. Roosen and Mrs. F. H. Lindsley visited in the cities Wednesday.

Dr. Catlin was called to Rockford, professionally, a couple of times this week.

Word comes from LaCrosse that L. A. Meister is quite low. His leg is to be amputated.

Mr. Pope representing William Wood & Co. of New York, interviewing our Aesculapae on Wednesday.

Dr. Guy Murphe and a friend came home Thursday evening from the Saw-dust City, for a couple of weeks vacation.

Miss Rudberg drove in with Mrs. Chancellor Thursday evening to get the mail. She is teaching in the Borke district.

L. M. Maxfield visited the school last Friday. He reports things as moving all right. Grammar especially is receiving good attention.

Mrs. Cal Mattison and daughter Mrs. Beach drove over from Rockford Tuesday for medical advice for Cal who has been sick since Sunday.

Vernon Wilder has been helping A. W. Wittman tend central, for several days. A. W. says the new combination is enough to set a man wild.

Epworth League Officers.

President.—Viola Cunningham.
1st. V. Pres.—Julia Cunningham.
2nd. V. Pres.—Mrs. Strickland.
3d. V. Pres.—Mr. Corey.
4th. V. Pres.—Mary Catlin.
Secretary—Grace Farber.
Treasure—Mrs. Corey.
Organist—Mollie Maxfield.

County Cullings.

The genial Doctor seems to be of the opinion that he can lead the unterrified to victory at the next heat.—Buffalo Jourdal.

The Republican county committee claim to have expended during the last campaign $528.30, while the Democratic county committee was paying out $451.15.

Judge Tarbox's court at Buffalo seems not to be so short an affair, after all, as some would lead us to believe. The usual stir about the county seat seems to be going on.

Ashley C. Riggs, of Monticello, convicted of burglary in the third degree and sentenced by Judge Tarbox to three years in the penetentiary has been given his liberty by the Supreme Court. Judge Collins claiming that a monstrous injustice had been done Riggs in convicting him of burglary on the evidence given.

James E. Madigan, of Maple Lake, wrote rather an uniquie report of expenses incurred by him in the last election. He claims that $187.85 was the sum total. He closes his report as follows: "I am still a firm believer in substantially the principles set forth in the Chicago Platform, with such modifications as new conditions may require, and if the reform forces be willing and myself able to vote I intend to cast my ballot, in 1900, for W. J. Bryan."

Wonder just how many of the candidates running on the ticket with Mr. Madigan, would be willing to express themselves as clearly, at this time?

The County Commissioners held a session last week.

The County treasurer was authorized to visit towns and villages in January and Febuary, to gather taxes.

The Board ordered advertising for bids for County Printing, to be opened at the January meeting.

Bids for wood wanted.

The County road in Otsego and Frankfort will be considered at St. Michaels, Dec. 12.

Seventy dollars was appropriated for the town of Albion.

A long list of claims was allowed.

A resolution was passed authorizing the acceptance of one half of the bond in the case of State vs. Mayor and costs, and assign Sheriff's certificate of eighty acres of land in Otsego town.

District Court at Buffalo, has disposed of cases.

Mary E. Higgins vs Thomas Wren, Jury gave verdict for plaintiff $256. Court set aside verdict, new trial ordered.

Warder, Bushnell, Glessner Co. vs J. W. Larson, stricken from calendar.

Minnie Westphal vs Geo. and Adelbert Westphal. Judgment on pleadings granted defendant.

John H. McHale vs. Joseph Bednoz order of lower court affirmed.

court reversed. Plaintiff recover costs in this court.

Mat Cech vs Henry Franey Lower Ann Powell, Administratrix, vs. G. N. R'y. Co Court ordered verdict for defendant.

State vs. Elof Holmberg. Defendant fined $75., or 50 days in jail.

State vs. Flemming. Lower court reversed.

WANTED—SEVERAL TRUSTWORTHY PERSONS in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $900 a year and expenses—definite, bonafide, no more, no less salary. Monthly $75. References. Enclose self-addressed stamped envelope, Herbert E. Hess, Prest., Dept. M, Chicago. 50-3tt.

Politics.

When in the course of human events, it becomes necessary for every man to look after himself. In the days of ancient chivalry it was conquest by the sword, and it seems it is coming to that again. But politics and war are getting a little stale, and it is about time we were having our memories freshened up with other important matter. Just now I am reminded that this part of uncle Sam's domain has been settled for 43 years, and this winter, so far, seems like one of our old fashioned winters; way back in the fifties; and hard times was knocking at the door.

Most of us farmers are on full rations at present' because it is the time of year for butchering pork, turkey, chickens etc., but do not know how long it may continue. Maple Plain has been improving some during the fall and winter, quite a number of houses gone up, and other improvements have been made, all owing to the war, acquiring the Philippines, and the shower of prosperity that has struck us like a shower both, in mid winter.

It would seem now that this country had aquired about every thing it needs except a few missloaries to send to the Philippines to convert that monkey race of people to christanity and civilization.

The Odd Fellows of Maple Plain had Dedication of their hall last Thursday afternoon, we learn there was quite a good many present from a distanc, St. Paul Minneapolis, Alexandria, and other places. In the evening they had a grand supper.

Ed Mills is pushing the work on his new house.

The wood trade seems to be good at Maple Plain this winter.

The President's message was of great length but his recommendations were not very numerous, had a good deal to say about what we already know, the war with Spain. Little was said about the interest of the laboring man. The President says in his message "That when any of the United States notes (now mark the language) United States notes, a non bearing interest currency, are presented for redemption, in gold and gets it from the government he should not receive back from the government a United States note without paying gold for it" It looks as if there was a scheme to get the non bearing intrest notes out of circulation, for no man will pay out gold to get a non bearing intrest note. This is a blind but it can be seen by some. He also recommends a trust fund from which greenbacks should be redeemed in gold, but when once redeemed should not thereafter be paid out, except for gold, with a single gold standard he flouts this kind of sophistry in the face of the people and expects them to swallow it, and take it for good Statesmanship. But Mr. President, we can not accept that kind of policy. We do not need a locomotive head-light to look it up either. It smells too strong of a single gold standard.

We're floating down the stream of time
We haven't got long to stay."
The Goldbugs soon are coming,
To carry us away.

It also seems that our friends on the other side of the house have become choked on the tariff. It seems too much tariff is no tariff at all.

Late Literary News.

"What do I fear?" is a questions worth asking by each man or woman. Perhaps without recognizing it the reader of this paragraph is being influenced in his or her daily life by groundless fears that are ruinous to character. THE COSMOPOLITAN Magazine has taken up this subject and is obtaining the views of a great many prominent people, where they are willing to open their minds frankly. A great many other prominent people have refused THE COSMOPOLITAN'S request, being afraid to tell the public what they fear perhaps even afraid to confess to themselves what they fear. The December issue includes statements from WM. DEAN HOWELLS, RICHARD CROCKER, Admiral GHERARDI, CHAUNCY M. DEPEW, VIOLA ALLEN, Mme. JANAUSCHEK and ELLA WHEELER WILCOX. The second series will, it is promised, be even more interesting.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Offical Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merrit. In the hospitals at Honolulu, in Hong Kong. In the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manil. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Large book. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barber, Sec'y., Star Insurance Bldg., Chicago.

Notice of Hearing of Application to Sell Intoxicating Liquors.

Notice is hereby given that Frank Crolley has made application, according to law, to the Village Council of the Village of Delano, in the county of Wright, and state of Minnesota, for a license to sell Intoxicating Liquors for the period of one year from the 16th day of December, 1898.

The place where the said business is to be carried on is designated as follows: On the first floor in the front room, of the two story brick building situated on Lot 28, Block 8, Original Townsite of Delano.

Said applicant prays that such License be granted to him pursuant to the ordinance of said village of Delano and the Statutes of said state of Minnesota in such case made and provided.

The above application will be heard at a special meeting of the Village Council, in the council room at the City Hall, in Delano at 8 o'clock, Friday evening Dec. 16 1898.

L. M. MAXFIELD.
Village Recorder.

Notice of Hearing of Application to Sell Intoxicating Liquors.

Notice is hereby given that Jas E. Murphy has made application according to law to the Village Council of the Village of Delano in the County of Wright and State of Minnesota, for the transfer of Nick Klein's License to sell Intoxicating Liquors for the unexpired term of said Nick Klein's License from Dec 23, 1898.

The place where the said business is to be carried on is designated as follows: On the first floor in the front room, of the two story brick building situated on Lot 19, Block 8, Original Townsite of Delano.

Said applicant prays that such License be granted to him pursuant to the ordinance of said village of Delano and the Statutes of said state of Minnesota in such case made and provided.

The above application will be heard at a special meeting of the Village Council, in the council room at the City Hall, in Delano at 8 o'clock, Friday evening Dec. 23 1898.

$1.00 A YEAR FOR DEMOREST'S FAMILY MAGAZINE.

The Subscription price of DEMOREST'S is reduced to $1.00 a Year.

Demorest's Family Magazine is more than a Fashion Magazine, although it gives the very latest home and foreign fashions each month; this is only one of its many valuable features. It has something for each member of the family, for every department of the household, and its varied contents are of the highest grade, making it, pre-eminently, The Family Magazine of the World. It furnishes the best thoughts of the most interesting and most progressive writers of the day, and is abreast of the times in everything,—Art, Literature, Science, Society Affairs, Fiction, Household Matters, Sports, etc.—a single number frequently containing from 200 to 300 fine engravings, making it the Most complete and Most Profusely illustrated of the Great Monthlies.

Demorest's Magazine Fashion Department is in every way far ahead of that contained in any other publication.

Subscribers are entitled each month to patterns of the latest fashions in woman's attire, at no cost to them other than that necessary for postage and wrapping.

NO BETTER CHRISTMAS GIFT

than a year's subscription to Demorest's Magazine can be made. By subscribing At Once you can get the magazine at the reduced price, and will also receive the handsome 35-cent Xmas Number with its beautiful panel picture supplement.

T. J. CATLIN, Publisher

Entered as Second-Class Mail Matter at the Post Office in Delano, Minn

L. A. ROSING seems, as private secretary to John Lind, to have his hands about full. When John gets into the Governor's chair may be he will need an assistant Secretary.

WE want no man nominated for empty honors, against C. K. Davis. We want a man who is worthy of the office and who will be voted for by every senator and representative opposed to C. K. Davis and the corporation rule represented by him. Such a man we believe is Justice Thomas Canty. There is a possibility of his election.

GEORGE N. LAMPHERE, of the Moorhead News is being boomed by The Railway Employes Political League, of Minnesota, for Commissioner of Labor. Mr. Lamphere is an able, and fearless worker in the reform cause, runs a live newspaper and would doubtless look after the interests of employes as any man the state could furnish.

Them Resolutions.

The Maple Lake Messenger has discovered that we have been running the two resolutions passed by the Wright county Republican convention before election. Don't the Messenger know the campaign for 1900 is now open, and that those resolutions are about as good campaign literature for the Democrats as can be found in the county. Let everybody read them over. Here they are:

C. A. French read a resolution which was adopted as follows:

RESOLVED: That we commend the course of Senator C. K. Davis the senior senator from this state, and earnestly urge that the nominees of this Senatorial Convention give him their undivided support, if elected to again return him to the United States senate at the close of his present term.

E. D. Washburn presented the following resolution, which was also passed:

WE, the republicans of Wright County in convention assembled, renew our allegiance to the principles of the republican party, and pledge our loyal support to all the nominees of the party in which as voters we exercise the rights of suffrage.

Now if Bros. Tarbox, French & Co. follow up these resolutions as closely as they did during the campaign just closed, of course C. K. Davis will have lots of opposition. Besides, how can any friend of Hon. Knute Nelson support a candidate for the high office of United States Senator, whose scheming political friends have passed a resolution commending the course of C. K. Davis the senior senator and said nothing of Senator Nelson?

Smashing an Ideal.

Fifty thousand troops for Cuba! That is the force needed according to Adjutant General Corbin. Can it be possible? Fifty thousand troops to look after a peaceable, agricultural people that are weary of the stress of war and are impatient to begin their spring plowing. General Corbin has had excellent opportunities to study the situation in Cuba; and if he says 50,000 men are needed we shall be disposed to believe him. But what a shock to our ideals respecting the Cuban. For three years we have wept for him, yelled for him, tried to recognize his independence. And finally we have rescued him from the clutches of Spain only to find that 50,000 American troops are necessary to keep him in order. Perhaps, however, it will be wise to wait until we hear from Mr. Hoar and Leader Bailey.—Duluth News Tribune.

List of Patents

Granted to Minnesota Inventors this week Reported by C. A. Snow & Co., Solicitors of American and Foreign Patents, Opp. U. S Patent office Washington, D. C.

G. P. Albright, Minneapolis, mechanical motor. J. D. Hatcher, Minneapolis, plaited fabric. S. Holmgren, St. Paul, heating stove. A. Johnson Minneapolis, wheat separator and washer. H. A. Muckle St. Paul, running gear for vehicles. A. L. Neubert, Minneapolis, bung branding machiner J. B. Robbins, Minneapolis, reusing old asphalt pavement.

For copy of any patent send 10 cents in postage stamps with date of this paper to C A. Snow & Co., Washington, D C.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Official Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merritt, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manila. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barbor, Sec'y. Star Insurance Bldg., Chicago.

Among Our Exchanges.

Willmar Argus: COL. W. J. BRYAN has resigned his commission in the volunteer army service of Uncle Sam, preferring not to do garrison duty. There are others.

Sampson writing a description of the destruction of Cervera's fleet reminds one of Tom Moore's gorgeous descriptions of the Orient. Moore never visited the East.—Duluth News-Tribune.

Willmar Argus: The election of Hon. A. N. Dare to the speakership of the next Minnesota house of representatives is practically assured. Mr. Dare will proye one of the best speakers the House eyer had.

Mr. French of the Monticello Times appears to delight in butting his head against stone walls. He is now opposing the election of Mr. Dare for speaker and is supporting Staples. Experience seems to teach him nothing.—Anoka Herald.

Oregon Agriculturist: The beet sugar factory at Lehi, Utah, has this year received about 43,000 tons of beets, of which 12,000 tons were grown at Lehi. The Banner reports the average yield of beets at Lehi at 16½ tons per acre, which is by far the best average ever secured there.

Duluth Herald: The New Paynesville Press says: "The Duluth Herald says Charles A. Towne is a candidate for senator to succeed C. K. Davis." The Herald never said anything which could be construed to mean what the New Paynesville Journal says. Misrepresentation seems to be the forte of some papers.

Oregon Agriculturist: A correspondent of the Ohio Farmer figures the cost of producing wheat on his farm in the state of Ohio at 44 cents per bushel. This includes interest on the value of the land, taxes and hauling to market. The yield of wheat in the field which was figured on was a little less than 16 bushels per acre.

Thrice-a-Week World: —Eight hundred million dollars "cash down" and about two hundred millions a year for all time to come is the price that our careful Washington correspondent estimates that we must pay for the glory of "imperial expansion." Do the people of this country want to pay "that price for that whistle?"

Litchfield Review: Our friend Linn tington, of the Windom Reporter, is being talked of for president of the state editorial association next year. This is the highest office of any kind in the state, according to the opinion of most of the newspaper boys, and we don't know of anyone whom we would rather see in the position than this same man Huntington.

New York World: Major Simpson, of the Adjutant General's Bureau, who has lately returned from Manila, said to the House Committee on Military Affairs; "I did not see an officer in the Philippines who wished to retain the islands." He gave it as his opinion that "if trouble should arise with the Filipinos a great many troops would be required, as the physical features of the islands were favorable to a guerilla warfare."

Anoka Herald: Minneapolis is organizing to fight the cigarette habit. Anoka has nearly solved the problem, all its tobacconists and confectioners having mutually agreed not to sell the delusive soul destroyers. The habit has not been stamped out entirely, but if the custom adopted by the local dealers is continued, in a few years cigarette slaves here will be few and far between. Can Minneapolis do as well as Anoka?

Waseca Herald: Are the "round money" (?) men all fools? They tell us that a bank note, SECURED by the government, is perfectly safe. Yes! But, say they, a greenback (a note issued by the government, itself) is UNSAFE and UNSOUND. In other words, the government is a good surety for the banker, but not a good principal. Are the bank and gold conspirators themselves such fools, or do they take the people for fools? Be not deceived by the money combine.

Sherburne County Times: We do not hesitate in saying that the choice is a good one. We have been well acquainted with Bro. Dare for 15 years or more, and while he is not a brilliant orator, and may not be up to some of his competitors in parliamentary practice, he is faithful, honest, conscientious, prudent and economical, and the people of Minnesot a can rest assured that the interests of the entire state are in safe hands so far as the lower house is concerned, with A. N. Dare in the chair.

Waseca Herald: Cush K. Davis, United States senator, by the grace of Jim Hill, says, "I favor a treaty of alliance including the United States, Great Britain, and Japan for the protection of all their interests. The rest of the world would have a wholsome fear synonymous with respect for us." We suggest to the young men of this country, before they swallow this doctrine, that they read the farewell address of Washington and Andrew Jackson. Davis has lost his head since he became the attorney of Jim Hill plutocracy.

ADVERTISE and SUBSCRIBE.

St. Peter Herald: It is quite probable that Judge Canty will receive the compliment of the vote of the minority in the legislature for senator. Canty is a man that all of the fusionists can consistently vote for and there is some talk in that direction. It is not likely that effort will be made to give C K. Davis the unanimous vote of the legislature but that he will be elected without opposition in his own party seems to be a foregone conclusion A story originated in Minneapolis to the effect that a fight would be made on him, but it was a pipe story, in all probability.

County Line: AN anti-cigarette crusade is being organized in Minneapolis. When the crusaders have completed their work in the Flour City they might be induced to come to Eden Valley.

ADVERTISE IN THE GAZETTE.

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, D. C., Dec. 16, 1898.

Senator Vest made a spirited attack on the evils of the present pension system, saying that the government had fallen into a most iniquitous expenditure by its ill-advised legislation and thorough political influences", and was now acting as a sort of political accident insurance company. He declared that he did not wish to deprive a single honest applicant of his pension, but he did wish to have the abuses stopped. He said that although Illinois had furnished 65,000 more soldiers for the civil war than Indiana did that the pension payments in Indiana exceeded those in Illinois by $1,500,000, and charged that the reason was that Indiana is a pivotal state politically, and that it was a notorious fact that pensions had been granted to almost every applicant in districts that were close.

The Lodge Immigration bill is thought to have received its death blow, this week, when the House, by a majority vote declined to take it from the Speaker's table, where it has been since it passed the Senate, early in the last session. This makes twice that the House has refused to take the bill up, and it is regarded as very doubtful whether its friends will make another attempt.

Representative De Armond, of Mo., had the pleasure of nagging Czar Reed into making a speech this week. The incident was started by Representative Grow, of Pa., a Republican, making a speech attacking the gag rules of the House. Mr. De Armond then took the floor and charged that Reed had compelled the committe on Rules to refrain from reporting a new set of rules, in order that the rules of the last House, supposed to have been adopted temporarily at last year's extra session, might continue in force. Mr. Reed tried to wriggle out by being funny. He made the House laugh—any clown could do that—but he didn't convince anybody.

Col. Bryan is in Washington conferring with the democratic leaders in Congress.

When Ross Platt was asked whether anything else besides the demands of his private business had influenced Secretary Bliss to resign the portfolio of Secretary of the Interior, he could hardly keep his face straight. He didn't answer the question in words; he wasn't expected to. Bliss was taken into the Cabinet to head off demands made by Platt, and he has been used for the same purpose at various times since. So Platt isn't grieving over his resignation. Indeed, it is altogether probable that Platt has done his part to push along the petty annoyances which have resulted in convincing Mr. Bliss that his private business needs his attention. While it is not likely that the resignation of Mr. Bliss was brought about by any open rupture, it was probably the culmination of dissatisfaction because of a thousand and one little things, no one of which is important enough to be assigned as a reason for resignation. It has been an open secret in Washington that Mr Bliss didn't like his job.

Representative Bailey, of Texas, has made a statement concerning his attitude towards Gen. Wheeler and three other members of the House who hold commissions in the volunteer army. He quotes section 6 of Article 1, of the Constitution—"That no person holding any office under the U. S. shall be a member of either House during his continuance in office" and cites two cases in which the House decided members to have forfeited seats, one by accepting a Major's commission in the District of Columbia Militia, and the other, by becoming Colonel of a volunteer regiment, in the Mexican war. Mr. Bailey thus defines his own position: "I am one of those who believe that it is the highest duty of every man to obey the law and to respect the Constitution; and I have little patience with the weak suggestion that a member of Congress shall shrink from his sworn duty because public sentiment would allow a brave and distinguished man to hold two high offices, even though it be against the Constitution of our country". Another phase of the same question is now being discussed in the Senate—the Constitutional right of Senators to serve as government or Presidential Commissioners.

Senator Turpie never minces words when he has anything to say. He favors the Nicaragua Canal, but does not favor letting the Maritime Canal Co. have anything to do with its construction. In the course of a short speech advising the postponement of action on the question until the report of the commission sent over to investigate, is submitted to congress. Mr. Turpie said the object of the Maritime Canal co. was not to cut a canal, but "to cut a channel of communication at the least possible cost between the Treasury of the U. S. and the empty coffers of that beggarly corporation."

Senator Berry has offered an amendment to the Nicaragua canal bill, providing for direct appropriation of money to construct the canal instead of guaranteeing interest-bearing bonds, and to limit the cost to $115,000,000, and stated that Senator Morgan was willing to accept the amendment so far as it related to appropriating money instead of issuing bonds. Senator Rawlins has offered an amendment to the bill, providing that the act shall not go into effect until the U. S. secures by treaty the right to fortify and garrison the canal, to send armed vessels and munitions of war through it in time of war, and to close it against any other nation with which the U. S. may be at war.

MY LADY.

My lady's fair, and more than fair,
With poppy cheeks, and angel's hair,
And sweet moist eyes, as freshly blue
As violets through a drop of dew.
My heart she has with snares beset
Till I'm her captive bound—and yet,
(I must confess, though fondly weak),
Her "ways and customs," so to speak,
Are most decidedly unique!

Her countenance is oft obscured
Like some full moon in clouds immured—
Berouged with berries, daubed with smears
Of "lassers canny," streaked with tears.
But never, for such hap as this,
Does she deem fit that I should miss
The pleasure of her honeyed kiss!

Her kisses—I've no need to sue
For these sweet boons, as many do—
I sometimes fear, in her delight,
She'll blot my features out of sight!
Though 'tis not to my dullness clear,
She shuns my lips, with frown severe,
But singles out my nose, or ear.

My lady's hands are brownly tanned,
And gray with grubbing in the sand,
And making "mud pies," smooth and round,
And digging clam shells from the ground;
Or green with toiling to uproot
The pretty plants, or to compute
The seeds in papa's garden fruit.

My lady's robes are filled with rents;
And though a man, untaught and dense,
And ignorant of lady-lore,
I think they're sometimes hind-side-forel
Her shoes, kicked out at heel and toe,
Are dreadful quite with mud pie dough,
And buttons parting company—
And yet, most condescendingly,
They stand upon my tailored kneel

Of most, my lady will be met
With due reserve and etiquette,
While I, her worshipper and slave,
The more outlandish I behave
The more I win, with painful art,
My way to her coy maiden heart!
And so I stand the wear and tear
Of constant playing "hunkey-bear,"
And agitate my aching side
In showing how the "farmers ride"—
Her highness on my boot astride!

No other lays such hard commands,
No other makes such vast demands,
For when our way the "sandman" creeps
She uses me for couch, and sleeps!
And yet I know—a-nodding down
Above the fuzzy, frowsy crown,
The round fist doubling might and main
About my "tick, tick watch's" chain,
And feeling warm against me pressed
The small nose burrowed in my vest—
Of all my loves I love her best!
—Catharine Young Glen, in Youth's Companion.

Miss Peckitt, Our Dressmaker

MISS PECKITT used to come to our house to sew. She sewed my frocks and she sewed my pinafores, and sat among her tapes and pins and yard measures telling me old stories that no one else cared about, for Miss Peckitt had no relatives, and had always, as she said, kept herself to herself.

And of all her stories the one I liked best was the one about the pincushion. It was a large, heavy cushion, and I wondered why Miss Peckitt always brought it with her when she came for the day.

"It has a brick inside to keep it steady when I pin my work to it," she said; "and I carry it with me because it was the last thing my young man made for me."

"O, did you ever have a young man? Do tell me about him!"

At ten years old one is not discreet. I suppose Miss Peckitt was not inclined to be hard on youthful indiscretion. She threaded her needle and began:

"It was when I was a young girl."

She could not have been more than 30 at this time, but to me she seemed immeasurably old, as I said:

"It's a long time ago, then," as sympathetically as I could.

"Yes," she said, "a long time. He was the son of a farmer, and we was courting ever since we was quite little things and went to Sunday school. But it was not to be."

"What happened?"

"Why, his father died, my dear, and when it came to looking into things it was found he'd borrowed money on the land, and the interest hadn't been paid. So, then, my Willie said he'd pay the interest and all, if they'd only wait. But they wouldn't—and the old place was sold up—houses and buildings and the beasts, and the land with the standing crops. They may say it's law, but it ain't justice."

She bit off her thread sharply, and I said it was a shame.

"So it was—a black shame. My Willie would a' paid them every penny if they'd only a' waited. But no; they sold the old place, and it fetched more than they looked for, and there was near $1,000 over, and that they gave to Willie, as was only fair. And after the sale was over I saw nothing of him for two days, and then he came to me looking like a dog that the boys are after with stones.

"'I'm off,' says he; 'with this bit of money I'll make a fortune over in America, which is a free country, and I'll come home for you, my girl, or I'll write and you'll come to me.'

"'If it was to the world's end,' says I.

"Then he gave me this pincushion; it seemed a funny present, being quite plain, as you see, and it had big stitches but sewn strong, and I almost laughed as I took it. I was glad after that I hadn't laughed, for Willie he says:

"'Blossom, my dear, do you know what makes it so heavy?'

"So I said, 'no, I didn't.'

"'It's a brick out of the old south wall at home,' says he, 'where the yellow rose is, and where the apricots fruit so free, and it's covered with a bit of silk gown my mother was married in—it's faded, but you can see the rose sprigs on it yet. You'll keep it for my sake?'

"'Well?" I asked, for Miss Peckitt had stopped abruptly.

"Well, that's all," she said, shortly; "he never come back, but I know he was true—and he would a' come back if he's been living, and the Lord's will be done," she added.

"Did you keep the piece of the old dress?" I asked, "when it wore out and you ripped it off? I should like to see it."

"I never ripped it off," she said. "I covered it with a bit of damask, meaning to show it to him fresh and bright when he come home; but I dare say it's worn out now, underneath, with all the needles and pins I've stuck in it—worn out."

Time did not stand still in our village. A bicycle factory reared its gaunt ugliness by the church, and the moss-grown well was replaced by a galvanized iron pump. The old families moved away, and new people came; smarter people, in their grimcrack way, who got their dresses made in the county town, and despised Miss Peckitt's old-fashioned patterns. I was finishing my education in France and Germany. When I came home I hardly knew it. Almost my first visit was paid to the little white house with the green railings.

"It will do the poor thing good to see you," said my mother. "I fear she is horribly poor. She gets hardly any work now. And she won't accept anything she does not earn."

She did not know me at first, and was dusting a chair that was already of a spotlessness to shame our chairs at home, when suddenly she recognized me—the shock shattered for a moment the reserve of years—she threw her thin little arms around my neck and kissed me—faltered an apology for the "liberty", and then sat down on the doubly dusted chair and cried piteously.

I listened to such a tale of poverty and self-denial as my young ears had never heard before. Work scarce and growing scarcer, hardly enough to live on, and to crown all, the urgent necessity for saving, for hoarding every possible penny.

"But why?"

"For my funeral, my dear," she said. "I've kept myself respectable all these years, and if the parish was to touch me I should turn in my coffin—I know I should."

"Your needle's crooked," I said, fighting with a choking feeling in my throat. "Let me thread you another."

"Dear miss," she said, "this is the only needle I've got. It's not so crooked—and a cent's a cent—and needles in penny packets isn't what they used to be. No, and I won't let you buy me even needles, miss. It's the principle I think of; I won't be beholden."

"You've got the old pincushion there still," I said; "there must be lots of needles in that; let me empty out the sawdust and see. I'll put it all back carefully."

I think Miss Peckitt's will must have been weakened by long fasting and trouble, for she let me rip up one side of that sacred cushion and pour out the bran into that little black tea tray with the gold border. I found in that bran 67 good needles, to say nothing of broken ones.

Then I began to put the bran back, and as I pushed it in to make it hard and tight I felt a hollow in the brick.

SUCH A TALE OF POVERTY.

There was something in it. I pulled it out.

"O, Miss Peckitt," I cried; "look what I have found in your pincushion!"

A little canvas bag—and in it several bills and a little letter.

"My Dear Blossom: This is $350 of my money, so as you will have something if I am not lucky with the rest. You will find this when you rip off the cover. If all goes well, as please God it will, it will pay for things of our home. Your true friend and affectionate lover, WILLIAM BEALE."

"Pay for things for the house? It will pay for my funeral."

Miss Peckitt was on my mind. I had seen that the money and the words from the dead had brought her more pain than joy—and after dinner that evening I slipped on a dark cloak and ran down the quiet street to a little white house. I opened the door softly and peeped in.

There was a fire in the grate, and before it in the armchair with the patchwork cushion sat a middle-aged man. Miss Peckitt sat on his knee and her arm was around his neck. In her cheeks was the "fresh color" I had never seen there, and in her eyes the light of youth and hope.

"It is my Willie," she cried; "he's come back! O, miss, dear, to think of it—he was coming home to me, with his fortune made, and the ship was wrecked, and him and the others has been living like Robinson Crusoe, and only fetched away by a ship the other day."

I am sure they were both persons of sentiment, because they bought back the old farm, with its south wall where the apricots "fruited so free," and when they went to church Miss Peckitt wore a gown of faded silk with a rosy sprig. The cousin in Maidstone had been faithful to his trust, and there was enough of the silk that the bridegroom's mother had worn at her marriage to clothe the little bride on her wedding day.—Longman's Magazine.

Those Dear Girls.

Algy—In regard to my proposal Enid says she doesn't know her mind yet.

Anna—Huh! It's not because she hasn't lived with it long enough.—N. Y Journal.

Webster's International Dictionary
Successor of the "Unabridged."
"Standard" of the U. S. Gov't Printing Office, the U. S. Supreme Court, all the State Supreme Courts, and of nearly all the school books.
Warmly Commended by State Superintendents of Schools, College Presidents, and other Educators almost without number.
Invaluable in the Household, and to the teacher, scholar, professional man, and self-educator.
THE BEST FOR PRACTICAL USE.
It is easy to find the word wanted.
It is easy to ascertain the pronunciation.
It is easy to trace the growth of a word.
It is easy to learn what a word means.
The Chicago Times-Herald says:—Webster's International Dictionary in its present form is absolute authority on everything pertaining to our language in the way of orthography, orthoepy, etymology, and definition. From it there is no appeal. It is as perfect as human effort and scholarship can make it.
GET THE BEST.
Specimen pages sent on application to G. & C. MERRIAM CO., Publishers, Springfield, Mass., U. S. A.
CAUTION. Do not be deceived in buying small so-called "Webster's Dictionaries." All authentic abridgments of the International in the various sizes bear our trade-mark on the front cover as shown in the cuts.

AGENTS WANTED
In Every County to Supply the Great Popular Demand for
AMERICA'S WAR FOREGRAMTY
TOLD IN PICTURE
AND STORY
Compiled and Written by
SENATOR JOHN J. INGALLS,
Of Kansas
The most brilliantly written, most profusely and artistically illustrated, and most intensely popular book on the subject of the war with Spain. Nearly.
200 Superb Illustrations from Photos, taken specially for this great work. Agents are making $50 to $100 a week selling it. A veritable bonanza for live canvassers. Apply for description, terms and territory at once to

M, Chicago. 35-38

If It's Worth Printing the Twice-a-Week Courier-Journal Will Print It.
And Every Democrat, Every Republican, Every Man, Woman or Child who can read will want to read it.
* * * * "Meantime we prefer to take our chance with the conservative Democrats, fighting within the party, to reform it of its excesses, and to restore it to its better uses, than to pursue an ignis fatuus which, if it had been more real, would have resulted in the election, instead of the defeat, of the Free Silver Fusion in 1896, and which with singular unanimity, the voters have refused to follow. * * * * The Courier-Journal is a Democrat, not a Republican; and it will under no circumstances or conditions pursue a policy whose only effect is to confuse the Republican party in power."
The Twice-a-Week Courier-Journal is a Democratic paper, of six or eight pages, issued Wednesday and Saturday of each week. The Wednesday issue prints all the Clean News, and the Saturday issue prints Stories, Miscellany, Poetry, all matters of special interest in the home. It is edited by Henry Watterson.
Price $1.00 a Year.
You get but good papers of six or eight pages each, for $1—less than one cent a paper.
USEFUL PREMIUMS.
Are given Club Raisers, and good-paying commissions are allowed agents.
Daily Courier-Journal, 1 year, $6.00
Daily and Sunday, 1 year, 8.00
Sunday alone, 1 year, 2.00
Twice-a-Week Courier-Journal
And the
Buffalo Gazette

The Gazette.

DELANO, Wright Co., - MINN.

The United States may now be described as a nation that is situated here and there throughout the world.

A Newark (N. J.) man has sued for divorce because his wife insisted on having snakes as pets. He probably felt that she was encroaching upon a man's prerogatives.

No less than 37 per cent. of the fishermen of Gloucester, Mass., lose their lives in their calling. After such a schooling the Yankee sailor must consider a naval battle a safe place.

An eastern genius of the crank-adept order is founding in New York an "angel-voice college." This is what the man who comes in "easy" at 1:30 a. m. sometimes hears on the stairs.

An old lady says that sleigh riding for sport is like sitting with your feet in a pail of cold water and ringing a bell. It is perhaps useless to say that the old lady writes "Miss" before her name.

Gum chewing is undoubtedly one of the greatest sins of the age. A Minnesota bandit insists that it is responsible for all of his crimes, and his catalogue shows that he is right up to date.

An interesting test has just been made by a Frenchwoman. With a view to finding out the sustaining powers of chocolate, she lived on that alone for 60 days, and lost but 15 pounds in the interval.

In the cathedral of Santiago de Cuba, before a great congregation, Abbe Bernardo gave public thanks to God and the United States for the "end of 400 years of cruelty, extortion and misery in Cuba."

French serum is being exploited as an improved cure for snake bite. The cure may be all right in France, but no self-respecting American will have himself snake-bitten if it necessitates a resort to these foreign mixtures.

The Smiths of Michigan will be represented in the next congress by Henry C., of the Second district; William Alden, of the Fifth, and Samuel W., of the Sixth. They are all three republicans, all lawyers and all young men.

A San Francisco man, who is an enthusiastic admirer of Dewey, gathered and sent to the great naval hero a large number of newspaper clippings which told of preparations for a grand reception throughout the land when he returns home. In due time he received a letter in answer in which Dewey said: "Perhaps I had better remain here!"

A Berlin dispatch says that a wave of suicidal mania is sweeping over the school children of Prussia, and so alarming has been the increase in suicides among mere boys and girls that the government contemplates a thorough investigation. An official report just issued shows that an average of 40 school children a year are committing suicide.

The great Armstrong shipbuilding yards of England have turned out the most remarkable vessel afloat. It is nothing more nor less than a giant ice crusher to be used in keeping open the trade routes of the Baltic sea in winter. Ice crushing boats are used in several of the harbors on the great lakes in this country, but they are insignificant when compared in size and power to this giant. Even nature has to step aside nowadays and make way for the world's commerce.

American firms have practically a monopoly in supplying the world's market with typewriting machines. Firms in other countries make the machines, but they cannot be considered in the light of competitors to the American article, the superiority of which is generally conceded. To adapt the machine to universal use special keyboards are now made for various languages, such as German, French, Greek, Russian, etc.

An enterprising Greek merchant has discovered that American flour can be brought to Constantinople and sold for less than the same quality of the Russian production, and he has placed several large orders with western millers There is no doubt that with the improved freight service, which is bound to come within a few years, American butter, cheese, hams, and many other agricultural products, as well as manufactured articles of every description, will find a ready market in Turkey.

The average man, if asked what is the most important crop of the world, would unhesitatingly say: "Wheat." This is true in the United States, but far from the case in the world as a whole. The first place must be given to the potato. Of all the staple crops of the world the potato takes the first place, the annual crop being more than 4,000,000,000 bushels, against 2,500,000,000 bushels of wheat, and 2,600,000,000 bushels of corn. Of the total potato crop Europe produces fully seven-eighths, and one-half times as much as her wheat.

The ability of the American people to get together on anything that affects the whole family is aptly shown in the farewell review of Gen. Lee's troops, previous to their departure for Cuba. The old Jeff Davis legion formed Gen. Lee's escort, the Maine and Georgia regiments marched side by side, and Nellie Grant Sartoris had a seat by the Misses Lee on the reviewing stand. The best of it is that these evidences of complete reconciliation have been so common within the past year that they no longer attract any special notice. We are all "Yankees" now.

It was not exactly in accordance with the law, but very few will doubt that the punishment meted out to a wife-beater in Wilkesbarre, Pa., one day recently by Alderman John F. Donahue was pure justice. The circumstances were such that the alderman had to pass judgment on the man who pounded his wife, and he did it. He ordered the doors closed, took off his coat, called upon the prisoner to stand up and defend himself, and then gave him what Donohue called "a good Irish beating." When he finished the prisoner was hardly able to walk.

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

FIFTY-FIFTH CONGRESS.

The urgent deficiency bill was passed in the United States senate on the 15th and a joint resolution was introduced to present the thanks of congress to Clara Barton, of Massachusetts, founder of the Red Cross society, for their services in the late war. Adjourned to the 19th. In the house the pension appropriation bill was passed and a bill to incorporate the International American bank was discussed.

The United States senate was not in session on the 16th. In the house the bill to extend the customs and revenue laws of the United States over the Hawaiian islands was passed without opposition and the bill to incorporate the International American bank was defeated. Mr. Rixey (Va.) introduced a bill for the admission of confederate as well as union soldiers to all soldiers' homes and government institutions maintained by the government.

There was no session of the United States senate on the 17th. In the house the Indian appropriation bill was passed and bills were introduced giving two months' extra pay to volunteer troops recently serving abroad and one month for those serving at home, and to extend the navigation, shipping and marine laws of the United States to the Hawaiian islands.

WAR NEWS.

It is said that 9,000 Spanish soldiers from Cuba are literally dying from hunger in the streets of Madrid.

In Paris the American and Spanish peace commissioners were received by President Faure at a farewell audience.

The recent commander of the United States military forces in the Philippines, Gen. Wesley Merritt, and his wife arrived in New York.

In an interview in Manila Admiral Dewey said that he believed the Filipinos would bow to American rule, and declared that he was ready to hold his position against the whole earth.

Gen. Davis says in a report to the war department that one-half of the former population of Pinar del Rio, Cuba, has been killed or starved to death.

The American peace commissioners left Paris for New York.

At 15 ports in Cuba army officers have been assigned to duty as collectors of customs.

The president will submit the peace treaty to the senate during the present session.

Spain's peace commissioners arrived in Madrid from Paris.

FROM WASHINGTON.

In session in Washington the national board of trade adopted resolutions favoring a national trade-mark, construction by the United States government of the Nicaragua canal, and the gold standard.

In the 11 months ended November, 1898, the exports of the United States amounted to $1,117,681,199, exceeding the imports by $537,837,046, an increase over the same period in 1897 of $143,026,115.

In November last the imports of gold amounted to $5,825,201 and the exports $913,467. The silver imports amounted to $2,268,635 and the exports $4,023,079.

THE EAST.

At the age of 53 years Calvin S. Brice, railroad financier and former United States senator from Ohio, died from pneumonia at his home in New York.

At the leading clearing houses in the United States the exchanges during the week ended on the 16th aggregated $1,691,765,298, against $1,631,682,131 the previous week. The increase compared with the corresponding week of 1897 was 23.4.

In the seven days ended on the 16th there were 261 business failures in the United States, against 248 the week previous and 329 in the corresponding period of 1897.

Mrs. Ellen Allen and her daughter and Mrs. Allie Alger and Jennie Cremer were killed by the cars at a crossing while returning from a Christmas shopping trip to Asbury Park, N. J.

The death of Harlan P. Halsey, the author known as "Old Sleuth," occurred at his home in Brooklyn, N. Y., aged 61 years.

The city of New York is suffering from an epidemic of the grip as pronounced as the great epidemic of 1890.

WEST AND SOUTH.

The president visited the colored normal school at Tuskegee, Ala., and addressed the students, and from there went to Montgomery and spoke in the state capitol building to an immense audience.

At Urbana, Ill., Dick Collier was hanged for the murder of Charles Freebryant at Sydney in September last.

The Minneapolis mills refuse to enter the proposed flour combine, which practically kills the scheme.

In Ypsilanti, Mich., Jonathan McGee, aged 110 years, was married to Mrs. Amelia Day, aged 50. Both are colored.

At Charleston, Ill., Carter Eugene Martin was hanged for the murder of Albert Buser on October 3 last.

At the age of 86 years Henry A. Chapin, said to be the richest man in Michigan, died at his home in Niles. His wealth is estimated at $30,000,000.

The pioneer editor of Wisconsin, Edward Beeson, died in Fond du Lac, aged 84 years.

Almost the whole of the business part of Tifton, Ga., was burned.

Guy Churchill and his wife were killed by a Michigan Central train near Athens, Mich. They were but recently married.

At DeKalb, Ark., a mob of farmers lynched Newton Gaines (colored) for assaulting a white woman.

In a railway wreck near Guion, Ind., T. M. Wills, of Argola, Ill., superintendent of the schools of Douglas county, was killed.

In the lower part of Monterey county, Cal., hundreds of people were on the verge of starvation because of the long drought.

During the season of navigation just closed 94 victims were claimed by the great lakes.

Masked men entered the store of Mrs. Ida Meyers in Josie, Ala., killed her and her married daughter, and stole $3,000 and then burned the store.

William Lowenstein, a wealthy farmer, killed his wife and himself at their home near Jasper, Mo.

The president spoke at a banquet in Savannah, Ga., and received a cordial welcome. Secretary of the Navy Long also made an address, in which he referred tenderly to the queen of Spain, and said she deserved the tenderest sympathy of every mother, every woman, in America.

In San Francisco wireless telegraphy has been introduced through the efforts of local scientists.

FOREIGN INTELLIGENCE.

The British occupation of the island of Crete is to become permanent.

The new viceroy of India, Lord Curzon, left London for his new post of honor.

Mr. Mueller, who was vice president for 1898, has been elected president of the Swiss confederation.

Thousands of persons have starved to death in the Chin-Chow-Fu province in China and many more were in a destitute condition.

The Canadian attorney-general says that a marriage ceremony performed in the dominion by a minister resident in the United States is not legal.

The British steamer Ilios was sunk in a collision in the North sea and 20 persons perished.

LATER NEWS.

The U. S. cruiser Resolute sailed for Havana with a force of marines and supplies for the naval station.

The next international meeting of the W. C. T. U. will be held at Seattle Oct. 20 to 25, 1899.

According to a dispatch from Shanghai, the rebels have seized the town of Chung Yang, 50 miles from Shanghai. They have massacred a French priest and 100 converts.

A fire at Fort Adams, R. I., destroyed the stables of the Fourth artillery. The fire was communicated to a gun shed and an explosion followed, killing one artilleryman and seriously injuring many more.

In a glove contest at Chicago between Joe Choynski and Ed Dunkhorst, the decision was given to the former at the end of the sixth round.

A resolution was introduced in the U. S. senate inquiring into the alleged outrages committed upon Bishop Earl Cranston and other American citizens in China by subjects of the Chinese emperor.

About $700 in spurious coin was captured in an Italian tenement house in Buffalo, N. Y. The supposed counterfeiters are under arrest.

It is semi-officially announced that the Spanish ministers will place their resignations in the hands of the queen regent.

The Midland Railway Company of London has ordered twenty freight engines in Philidelphia and New York. As a consequence of the engineers' strike the English firms are only able to cope with arrears of work.

There is a report that the president proposes to be very emphatic in his dealings with the Filipinos, who have had the temerity to demand, according to reports from Manilla, a ransom of $20,000,000 for release of the friars and the military prisoners.

The United States battleships Oregon and Iowa have arived at Valparaiso, Peru, and immediately left for Calloa.

A disastrous fire occurred in the wholesale district of Terra Haute, Ind., destroying over $1,000,000 worth of property.

The Carnegies have received an order from England for 40,000 tons of steel rails for the Cape.

In the United States senate a committee has been appointed on the centennial celebration of the city of Washington as capital of the nation.

A dispatch from Shanghai says a powder magazine exploded in the center of the Chinese camp at Hang-Chow, China, leveling a square mile of houses. It is estimated that 3,000 soldiers were killed, including the general commanding the forces.

The American Federation of Labor closed its 18th annual session at Kansas City, Mo., the 20th. Samuel Gompers was re-elected president.

The plant of the Chomo Patent Leather company at Newark, N. J., was destroyed by fire. Loss, $100,000.

Twenty-five business houses and two residences were burned at Maiden, Mo. The fire was of incendiary origin.

A slide occurred in Chilkoot Pass, Alaska, that killed six people. Five bodies have been recovered.

A strike of gold in the Trickler tunnel now being driven through Pikes Peak to increase the water supply of the city, has caused the most intense excitement in Colorado Springs. A splended vein bearing large quantities of sylvanite has been encountered by the contractor, George W. Jackson, and samples of the find assay up into the thousands.

Gen. Shafter appeared rather unexpectedly before the war investigation commission the 21st and told his story of the Santiago expedition. He was supported by his aide, Col. Miley, who was with him in Cuba, and flanked by a large portmanteau of papers to which his aid occasionally applied for reference.

Miss Belle Hite attempted suicide in a crowded street car in St. Louis by drinking the contents of a bottle of carbolic acid. No reason is known for her action.

The residence of Charles H. Raymond, in New York, was burned and three persons lost their lives. The dead are: Mrs. Charles H. Raymond, Mrs. Victoria Underwood, and Henrietta, a domestic.

Poultry—Turkeys, 7@10c; spring chickens, 6¼@7c.

DEATH OF CALVIN S. BRICE.

The Ex-United States Senator from Ohio and Noted Financier Expires in New York.

New York, Dec. 16.—Former United States Senator Calvin S. Brice died at 3:15 o'clock Thursday at his residence in this city of pneumonia. He contracted a severe cold one week ago. On Friday last he took to his bed, and on Monday morning his physician said that pneumonia had developed. Everything known to medical science was done to save him, but he grew steadily worse.

[Calvin S. Brice was a native of Ohio and was born in 1845. He was the son of a Presbyterian minister. Three years before the civil war he entered Miami university, but in 1861 he enlisted in a university company, for the war. He served in West Virginia in the Ninety-sixth Ohio infantry. In 1863 he graduated from the university, and after teaching school a few months he became captain of a company in the One Hundred and Eighth Ohio and served to the end of the war. He then went to Ann Arbor (Mich.) law school and afterwards was admitted to the bar in Cincinnati. He took an active interest in politics, and in the campaign of 1876 he was an electoral candidate on the Tilden ticket and again on the Cleveland ticket in 1884. In 1888 he was a delegate at large to the democratic national convention at St. Louis, where the Ohio delegation chose him as a member of the national committee. He was chairman of the executive committee during the 1888 campaign and, on the death of William H. Barnum, was elected chairman of the democratic national committee. In the winter of 1890 Mr. Brice was elected United States senator to succeed Henry B. Payne, and took his seat March 4, 1891. In the senate Mr. Brice became a prominent figure. He was soon made a member of the democratic steering committee and became also a member of the committee on appropriations. Mr. Brice seldom spoke in the senate, but was a close observer of everything that was going on and was always deep in the councils of the party.

CALVIN S. BRICE.

During the past year he had devoted considerable attention to the exploitation of certain Chinese concessions and was at the head of a syndicate known as the American Development company. This company is said to control several valuable railway concessions in China.]

WAGES TO BE RESTORED.

A Welcome Holiday Gift Awaits the Employes of the L. & N. Railway Company.

Louisville, Ky., Dec. 20.—It has been announced from the general offices of the Louisville & Nashville Railroad company in this city that the remaining five per cent. cut, which was made in August, 1893, will be restored to the employes of the road on January 1. Five years ago, the Louisville & Nashville cut the wages of every man in its employ, from the president down, ten per cent. Half of the cut was restored on the first of last July and the road promised to restore the remainder on the 1st of January, 1899, if the earnings of the road kept up as they were then. This has been the case and therefore five per cent. will be added to the salary of every employe in the service of the company on January 1. This will be the most substantial Christmas present that the 18,000 employes of the great system could have.

They Robbed Post Offices.

Chicago, Dec. 16.—Chief Post Office Inspector James E. Stuart has celebrated his return from Cuban battlefields by causing the arrest of four men who for some time past have been looting post offices in the smaller towns of Illinois. At Central station the prisoners confessed that they had robbed six post offices, the aggregate of their plunder amounting to several thousands of dollars. The offices robbed were Hammond, Ind.; West Chicago, Morgan Park, Danforth, Ill.; West Pullman and Winnetka.

Capt. Sigsbee Ordered to Havana.

Washington, Dec. 16.—Capt. Sigsbee, of the Texas, has been ordered to Havana by rail and steamer to take command of his ship there. The order is the result of the hasty departure of the Texas under recent orders. Capt. Sigsbee was at Albany at the time and the orders to sail were obeyed so promptly that Capt. Sigsbee had no time to reach his ship and in the nautical phrase he and other officers were "left on the beach."

Will Be Preserved.

Santiago de Cuba, Dec. 16.—Gen. Wood, governor of the military department of Santiago, is determined to protect what is left of the "surrender tree"—the tree beneath which the Spaniards consented to the capitulation of Santiago—and has had it enclosed with a wire fence, issuing an order imposing a fine of $100 or imprisonment for 100 days as a penalty for mutilating the tree, which is already not a little injured by relic hunters.

Negotiations Have Failed.

Washington, Dec. 20.—The negotiations for a new commercial treaty between the United States and Peru have failed, for the time being at least. The Peruvian government having denounced the existing treaty, it will terminate next October, and the two countries will be left without special arrangement for the regulation of their commercial intercourse.

Off for South America.

St. Louis, Dec. 17.—A special to the Republic from the City of Mexico says: Grant G. Gillett, the absconding cattle plunger of Woodbine, Kan., and his attorney, C. R. Troxel, left here Friday for Vera Cruz, where they will take a steamer for South America. Their ultimate destination is the Argentine Republic, where Gillett says he will go into the cattle business.

Death of Edward G. Mason.

Chicago, Dec. 19.—Edward G. Mason, one of Chicago's most prominent and successful lawyers, died at his home in this city Sunday morning early. The name of Mr. Mason had been frequently mentioned in connection with the presidency of Yale college, as the successor of President Dwight, who recently resigned.

THE SOUTHERN TOUR.

President and Party Are Enthusiastically Received in Many Cities of Georgia.

Savannah, Ga., Dec. 19.—President McKinley, on his entry into Savannah at 10:30 o'clock Saturday morning, was welcomed with a salute of 21 guns, fired from brass cannon presented by Gen. Washington to the Chatham guards, of Savannah, 108 years ago. Ten thousand people were massed at the front of the De Soto hotel to greet him, and against their determination to get close to the carriages of the presidential party the Georgia hussars, acting as escort, and the provost guard, were as toy soldiers.

After a brief halt at the hotel, the presidential party proceeded to the reviewing stand, erected at Forsythe park.

Fourteen thousand soldiers of the Seventh army corps, commanded by Maj. Gen. J. Warren Kiefer, passed in review before the commander in chief, and the impressive military ceremonial was witnessed by 30,000 civilian spectators.

Three hundred persons were present at the banquet table at night, and when President McKinley arose to respond to the toast, "The United States," the cheering was as enthusiastic as any that has characterized his week of triumphs.

Secretary of the Treasury Lyman J. Gage, of Chicago, was heard earlier in the evening in an address dealing with the growing commerce of the nation.

Secretary Alger responded to "The Army," and Secretary Wilson spoke upon "Agriculture." Gen. Wheeler, amid intense enthusiasm, replied to the toast, "Woman," with a glowing, chivalrous tribute, which, though brief, touched the hearts of his southern audience. Secretary Long responded to the toast "The Navy."

Sunday morning the president attended divine service and in the afternoon he visited the Georgia state agricultural and mechanical college (colored), where he delivered an address.

Macon, Ga., Dec. 20.—The president and his party reached Macon promptly on time and were received by the largest crowd which has gathered in Macon since the last visit of Jefferson Davis to the city. They were met at the station by a reception committee consisting of a number of the most prominent citizens of the town.

The presidential party was driven in carriages to the stand where the president reviewed the troops of Gen. Bates' division of Gen. Wilson's army corps. After the review the president spoke to a great crowd gathered about the stand, though a steady rain was falling. Gen. Shafter, Gen. Bates and Gen. Wilson also spoke.

The presidential party was taken in charge by the committee, and driven about the city until it was time to take the train for Augusta.

Milledgeville, Ga., Dec. 20. — The presidential party stopped here, the former capital of Georgia, on its way to Augusta. An intensely enthusiastic crowd was at the depot and salutes were fired by the local military companies. President McKinley made a short address from the rear platform of the train.

Augusta, Ga., Dec. 20.—The demonstration in Augusta in honor of President McKinley was a fitting climax to one of the most remarkable presidential tours ever undertaken. The president spoke briefly. Gen. Wheeler, Gen. Shafter, Secretary Alger, Secretary Gage and Postmaster-General Smith also spoke. After the speaking the party was driven to the commercial club, where a reception was tendered on behalf of the citizens and a delightful repast was served. At half-past seven the journey to Washington was resumed.

A Million Dollar Fire.

Terre Haute, Ind., Dec. 20. — The worst fire in the history of the city of Terre Haute took place Monday night. The blaze started in the big show windows of the Havens & Geddes company, wholesale and retail realers in dry goods and notions. The cause is not definitely known, but it is supposed that a live electric wire set fire to the cotton with which the window was decorated, and before the blaze could be extinguished the fire spread to the decorations of evergreens in the store and the building was wrapped in flames in an incredibly short space of time. A conservative estimate of the damage is $1,000,000.

Indicted.

Muskogee, I. T., Dec. 19.—Two more prominent citizens of the territory have been indicted for complicity in the Creek warrant funds, by which over $70,000 was obtained. C. H. Warth, former cashier of the First national bank of Muskogee, and S. B. Callahan, former private secretary of Chief Isparhecher, are the culprits, the federal grand jury having returned indictments against them.

Bought a Railroad.

St. Louis, Dec. 19.—William J. Orthwein, acting for his father, Charles F. Orthwein, on Saturday signed a check for $2,280,000 in payment for the stock of the National Railway company, which owned and operated what are known as the Hamilton syndicate lines of street railroads in St. Louis. The formal transfer of the property will be made in Chicago to-day.

The Holiday Recess.

Washington, Dec. 19.—The holiday recess, by the terms of the resolution reported by the ways and means committee, is to begin Thursday and extend until Wednesday, January 4. It is likely, however, that the resolution will be amended so as to make the recess begin Wednesday instead of Thursday.

Spanish Commissioners at Home.

Madrid, Dec. 19.—The Spanish peace commissioners arrived here Saturday evening on their return from Paris. Senor Gamazo, the leader of the dissenting liberals, with many politicians and high officials, met the commissioners, whose homecoming was marked by no special incident

Victim of Heart Failure.

New York, Dec. 19.—Former Police Capt. John J. Mount died suddenly of heart failure Sunday night, aged 80 years. Capt. Mount was appointed to the municipal police force in 1850, became a captain in 1861, and distinguished himself in the draft riots of war times.

THE CIVIL SERVICE.

President Taken to Task by the Reform Association for Apparent Violation of the Rules.

Baltimore, Md., Dec 17.—The National Civil Service Reform association, in convention here, at its second day's session devoted almost the entire morning to a discussion of the report of the committee on resolutions, which charged the present national administration with a violation of the spirit, if not the letter, of the civil service rules. The resolutions as finally adopted congratulate the lovers of good government on "the failure of the recent attack in congress upon the merit system," assert that the convention has heard with grave concern the report that the president of the United States intends to withdraw from civil service rules a large number of positions under the government, and express the belief that such action is contrary to the interest of the public service; cite a number of instances of alleged departure from civil service rules within the past year; charge that the administration has failed to redeem its promise to "extend the rule wherever possible," and in conclusion assert that the rule of the newly-acquired dependencies will result in disaster and disgrace if conducted on the plans of the spoils politicians.

Carl Schurz was reelected president.

MEETS WITH DEFEAT.

Effort to Extend Franchise of Chicago Street Car Lines Is Practically Killed.

Chicago, Dec. 20.—The ordinance providing for an extension of the franchises of Chicago street car lines was again a subject of debate in the city council Monday night, but no decisive action was taken on it. On motion of Alderman Mavor, an opponent of extension, the ordinance was taken from the railroad committee and referred to the committee on city hall. This motion prevailed by a vote of 32 to 31, although a point of order was made that the committee on city hall was not an appropriate committee. Mayor Harrison overruled this point of order, and the ordinance is now in the hands of the city hall committee, which is regarded as anti-extension in sentiment. The reference of the ordinance to this committee is considered by Mayor Harrison and other opponents of extension as a victory. The committee on city hall is largely a perfunctory one, and it is not thought likely the ordinance will ever be reported out or even considered by them. Advocates of the ordinance generally admit defeat.

SOCIALISM DEFEATED.

American Federation of Labor Kills the Tobin Resolution by an Overwhelming Majority.

Kansas City, Mo., Dec. 19.—Socialism as a solution of the wage problem has failed by a decisive majority to secure the indorsement of the American federation, the combined forces of the social democrats and socialist labor party men being unable to make more than a respectable showing against the advocates of trades unionism pure and simple. When the roll was called on the Tobin resolution ballots representing 492 votes, or a membership of less than 50,000, were cast for it, and ballots representing 1,923 votes, or a membership of nearly 200,000, were cast against the proposition. The debate, which was continued from Friday, lasted through the entire forenoon Saturday. No question that has come before the federation in five years has aroused such deep interest. President Samuel Gompers took the floor and spoke against the resolution. He declared it involved the integrity of the whole labor movement.

Would Care for All.

Washington, Dec. 17. — Representative Rixey, of Virginia, Friday introduced a bill for the admission of confederate as well as union soldiers to all soldiers' homes and government institutions maintained by the government. Although somewhat in line with the president's suggestion in his speech at Atlanta, this referred to government care of confederate cemeteries whereas the Rixey bill refers to "living exconfederates who are maimed, crippled or needy."

Tragedy in Texas.

St. Louis, Dec. 20.—A special to the Republic from Dallas, Tex., says: Col. I. G. Randle, one of the best-known men in Texas, was shot to death near the city hall at eight o'clock Monday evening by H. P. Erwin, of Forney, Tex. Col. Randle was talking to friends when Erwin walked up briskly, and with the words: "I've got you now," fired five shots just as Randle drew a revolver. Randle dropped dead, shot through the brain.

Enormous Amount of Coal Stored.

Pittsburgh, Pa., Dec. 19.—The Pittsburgh coal operators have stored at the lake front 60,000 tons of coal, which is to lie there until the opening of the lake trade season. It is stated here that it is a move to be prepared for strike emergency next spring.

French Evacuate Fashoda.

Cairo, Egypt, Dec. 20.—Maj. Marchand and his party evacuated Fashoda during the morning of December 11, when the French flag was lowered and the British and Egyptian flags were hoisted. The French detachment started for the Sobat river.

Many Locomotives Ordered.

Philadelphia, Dec. 19.—The Baldwin locomotive works has within the last few days received orders for 56 locomotives, of which 16 are for the Imperial railway of China, making the second order received from that country within ten months.

Killed by Falling Walls.

Paris, Dec. 19.—Four persons were killed and others seriously injured Sunday by the collapse of a house in course of construction on the Rue Des Apennins. It is feared that five bodies still remain buried in the debris.

Sent to Prison.

Leipsic, Dec. 20. — Theodore Heine, the artist who caricatured Emperor William's trip to the Holy Land, has been sentenced to six months' imprisonment for so doing.

Aged Professor Is Dead.

Princeton, N. J., Dec. 17.—Prof. John Stillwell Schanck (Emeritus), died Friday. He was in his eighty-second year and death came from old age.

Good Digestion

Waits on appetite, or it should do so, but this can be only when the stomach is in a healthy condition. Hood's Sarsaparilla so tones and strengthens the stomach that it digests food easily and naturally and then all dyspeptic troubles vanish.

COMBINATION OF HEALTH AND WEALTH.

New Districts in Western Canada Adapted to Ranching and Mixed Farming.

Calgary, Alberta, Nov. 4, 1898.

To the Editor of the Duluth "Evening Herald," Duluth, Minn.

Dear Sir—As to many replies to the home-seeker of Minnesota, I can cheerfully say that this country is better for a poor man than Minnesota, if he wants to farm and raise stock. I have spent one winter and two summers which I find more pleasant than any winter I have seen in Minnesota for eight years. The seasons are short, but the effect of long days of bright sunshine produces a very rapid growth of vegetation. There is good money in raising coarse grains and feeding to hogs and cattle, for pork and beef always bring a good price here. Hogs are worth from $4.00 to $4.50 live weight per cwt., and beef about the same. There is plenty of railroad land to be had very cheap and on long-time payments. A man does not want to think he can pick up money on the ground here, but there is lots of it in the ground and labor will take it out.

There is a vast scope of country north of Edmonton, Alberta, which can be settled, and a large scope of country west of Edmonton adapted to ranching and mixed farming.

This country is the best place I have ever seen for the cure of consumption. I could refer you to different people here who were in the last stages of consumption, who are now in perfect health and able to do any kind of hard work and are very prosperous.

Hoping this may benefit home-seekers who are willing to work for an honest living, I remain, yours very truly,

(Signed) CHARLES M. SCOTT.

Any agent of the Canadian Government will gladly give information as to settlement terms and rates.

Diplomacy.

Tommy—Papa, what is that diplomacy the papers talk so much about?

Papa—Diplomacy is the art which enables one man to inform another that he is a scoundrel without giving him a chance to get mad about it.—Chicago Evening News.

$100 Reward $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Exasperated Skipper—I'm Afraid not, ma'am.—London Tit-Bits.

Can You Solve This Puzzle Verse?

"A simple go-between am I,
Without a thought of pride;
I part the gathered thoughts of men,
And liberally divide.
I set the soul of Shakespeare free,
To Milton's thoughts give liberty,
Bid Sidney speak with freer speech,
Let Spenser sing and Taylor preach.
Though through all learning swift I glide,
No wisdom doth with me abide."

If you can solve the foregoing, and send the correct answer to George H. Heafford, General Passenger Agent, Chicago, Milwaukee & St. Paul Railway, Old Colony Building, Chicago, together with a two-cent stamp, he will send you what it calls for.

The Climate Forbids It.

Biggs—Is it true that Smith, the iceman, is dead?

Boggs—Yes, poor fellow. He cuts no ice now.—Life.

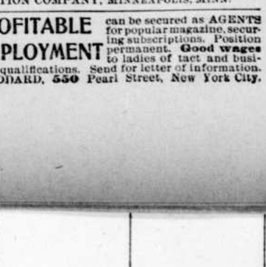
Sore and stiff from cold; don't wait and Suffer; use St. Jacobs Oil and get cured.

Some lovers think that in order to be constant they must be frequent.—Town Topics.

A sprain may cripple but St. Jacobs Oil Will cure it before it can. It cures.

He who sows thorns must not go barefoot.—Spanish Proverb.

SYRUP OF FIGS



NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO.

Love's Birthday

ONCE on a snowy
Christmas eve I
wandered down
the street,
A chance adventure
scarcely thinking
on this night to
meet;
When right before
my eyes appeared
a little vision fair,
With eyes of blue
and cheeks of
rose, and waves
of golden hair.

She stood behind a little group of children
poorly clad,
Who gazed upon some wondrous show a
shopman's window had;
And as they wished for this and that, and
pointed here and there,
The fairy took me by the hand and tossed
her golden hair;
And standing on her little toes, she whis-
pered in my ear
The sweet request that I should bless these
little children here.
Within my inmost soul I felt that I must
do her will.
I bade her tell them what I knew their
little hearts would thrill.
Thus each small waif became the owner
of the longed-for toy,
And sweet it was to know that I had
brought them Christmas joy.
I stole away and left them with their
happy faces there,
And wandered through the busy streets to
breathe the spruce-rich air.
Not long it was, I felt those fingers steal-
ing through my own;
My fairy had come back again, those eyes
were hers alone.
She smiled with tender sweetness, and her
cheeks were rosy red;
"You were so kind to me, good sir, to do
just what I said,
I want to show you how I make this good
old city glad,
And how I carry joy and peace to hearts
so often sad."
Then, aided by her magic power, I fol-
lowed where she led;
Above the city's twinkling lights we rose
and onward sped.
Beyond a shadowy spire we met old Santa
Claus' sleigh,
And took a seat behind him as the reindeer
sprang away.
From house to house we flew, the while the
fairy laughed with glee,
And squeezed the good old Santa's hand;
I wished that I were he.
How danced her merry eyes so bright, the
good old saint to aid,
For as he filled each stocking small, a
present she, too, made.
Then, as the midnight chimes rang out, we
left the King of Snow,
And hurried off to other homes where
Santa could not go.
Upon each sleeping face my fair companion
left a kiss,
That when the sleeper woke he should re-
member only this,
That he had dreamed a happy dream that
vanished not with night,
But lingered with the Christmas morning's
glad and blessed light.
Again the fairy clasped my hand, this time
to say farewell.
"Before I go I am quite sure my name I
ought to tell,
And why I am so happy on this night of all
the year.
'Tis Christmas day that's dawning; see, its
light is drawing near,
And soon 'twill be my birthday, sir, for I
am Love, you know,
And Love was born on Christmas day, two
thousand years ago."

—Arthur Cleveland Palmer, in N. Y. Sun.

A Family Man's Christmas.

IT all came about—the best and happiest Christmas that the Jones family had ever known — through Mr. Jones missing the train to the city two days before Christmas. A heavy snow and rain storm had come up in the night, and in the morning the suburb of Jonesville was a thing of beauty to the eye, but a thing of discomfort to the feet of pedestrians, especially to those who must catch the early morning train to the city. Breakfast had been a little late; the coffee had been poor, the muffins underdone and the eggs overdone; the dining-room was cold and Mr. Jones in one of his most irritable humors. Had his wife been at the breakfast table he would have indulged in a few sarcastic remarks about the incompetence of women to manage a household or to train and direct servants, but the poor woman had not come down owing to the fact that the baby had wakened and set up a loud demand for attention just as the breakfast bell rang. Little Robbie, three years old, had come downstairs half dressed and had been sent back with a sharp reprimand and—must it be confessed—a sharp slap on his little bare legs. Yes, Mr. Jones was an educated, Christian gentleman, but all the same he slapped his little son so smartly that the child cried out with pain and started to climb the stairs to his mother. For a moment Mr. Jones realized the atrocity of his act and its utterly unwarranted nature, and then he excused himself to his conscience by saying that he was naturally irritable, and that a cold house, a poor breakfast and the prospect of wading through the unbroken snow-drifts to the train were too much for human nature—his human nature—to bear. As he thus excused himself his temper began to rise again, and just before leaving the house he called to his wife from the foot of the stairs:

"Tell that old fool Hans that if he can't manage the furnace so as to get the house warm in the morning he can get another job." Then, remembering that for several days his wife had been telling him that something about the furnace was wrong that Hans could not fix, and had asked him to see about it, he hurried off to avoid hearing her reply. He knew his wife would feel badly to have Robbie hear his father call names and exploit his ill-temper, but Mr. Jones was in that very common, very human, yet very cruel frame of mind that finds a satisfaction in venting its discomfort and ill-temper on some other human being; and although he loved his wife and was in the main a kind husband, yet when he was in one of his "irritable spells" she was usually the victim.

It was a good half mile to the station, and when Mr. Jones reached it he was in a glow of perspiration, besides being almost exhausted with his walk through the deep unbroken snow. Arriving there, he learned what he had not suspected before, that the storm was one of the heaviest and most disastrous of the season; that wires were down in all directions and that no trains had passed or were likely to pass for some hours. The alternative seemed to be either to stay in the cold and dismal station or to return home. The idea of a morning at home was not very alluring to Mr. Jones. He was at home so little except on Sundays that he really felt quite awkward and out of place there at any time but evenings and Sundays. Then he had not forgotten the encounter with Robbie, nor forgiven the household management for the poor breakfast and the cold house.

Just at this juncture a neighbor drove up to the station in a beautiful cutter, filled with furs. His horses were full of life and spirit and their silver bells jingled merrily on the frosty air. He was accompanied by his wife, whose rosy cheeks, sparkling eyes and merry smile told of her enjoyment of the ride. On learning the state of affairs regarding the trains, he said:

"Well, wife, it's no use fretting; there mayn't be a train till noon. Let's go home and get the children and have a jolly sleigh-ride. It will be a real lark to have an extra morning with them. Here, Jones, jump in and we'll take you home."

Mr. Jones climbed into the sleigh, well pleased to be saved the laborious walk home. But what affected him most was the unaffected good humor of his friend and his friend's wife. Both were enthusiastically remarking on the beauty of the morning, the trees covered with icicles to the tip of every

THE SLEIGH RIDE.

slender, leafless branch; on the brightness and intense blue of the sky; on the feathery snowdrifts piled on every side. Mr. Jones had noticed none of these things; he had been affected only by the inconvenience of the walking and the loss of his day in the city. But such good humor as that shown by his neighbors was contagious, and, since his attention was directed to it, he realized that the snow-covered landscape was truly magnificent. "No artist could ever begin to represent its beauty," said his neighbor's wife. "What were all the art galleries of the world compared to this?"

By the time Mr. Jones was set down at his own door, his feelings had undergone an entire change. He felt ashamed of his petulance, and especially of the slap he had given Robbie. He determined to find the little fellow and make the best amends he could. He also felt a glow of kindly sympathy for his wife in her care for the babies that was somewhat unusual to the hurried business man. Yet he shrank from meeting his wife directly; he was not quite ready to acknowledge the meanness of his irritability and language of the morning, so he decided to go through the dining-room, which was still very cold, and make a detour through the basement and kitchen to look at the furnace.

In the kitchen Bridget, who had long been the faithful maid of all work, stood gazing into the cooking stove, where smouldered a few black dying coals. Her countenance wore an expression that was a mixture of distress and anger. An hour before Mr. Jones would have begun at once to rate her sharply for her badly prepared breakfast, but now he only said:

"Why, Bridget, what's the matter with the stove?"

"Well, sir, sure there's no dhraft at all at all, and whin I thry to make a quick fire there's the way it serves me. Sure it's the grate that's broken and dropped down that chokes the fire. A poor gell can't do any cooking on that stove."

Mr. Jones' conscience pricked him. His wife had told him several times about the broken grate; had written down the name and number of the stove and begged him send it from the city, but he had forgotten it. He saw the impossibility of doing any good work with such a poor instrument as this, and then he said:

"Well, Bridget, I believe the best thing in this kitchen would be a new stove entirely."

Bridget's face brightened. "O sir," she said, "if only I had a good stove, and the pump fixed, sure I'd stay. I gave the mistress warning this morning."

Again Mr. Jones' conscience pricked him. How often had his wife asked him to be sure and send the plumber to fix that pump. But it had seemed a very small thing to him that stove and pump were out of order, and so he had paid no attention to the matter.

Passing into the furnace-room his eye fell on poor old Hans, the man whom he paid a dollar a week to take care of the furnace. He was on his knees in front of the furnace trying with all his poor old strength to shake the heavy grate by means of the iron lever. It was a pathetic face and figure the old man presented. Bridget had overheard Mr. Jones' message about the furnace and had conveyed it to Hans, who had received it as the knell of his hopes; for the poor little dollar that he thus earned was all that enabled him to keep peace with the shrewish daughter-in-law who gave him shelter and a bed. But for some reason the shaking of the furnace had been almost impossible for more than a week, and old Hans was in despair. When he saw Mr. Jones he thought the end had come, and the expression of his face as he looked up at him was ludicrously appealing.

"What's the matter, Hans? Has the grate got stuck? Let me try it."

Mr. Jones was a strong man, but he could not budge the furnace grate. Instead, however, of calling old Hans a fool and threatening him with dismissal he only said kindly:

"Well, Hans, let me go upstairs and get an old coat and we'll see what's the matter."

When Mrs. Jones saw Mr. Jones coming up the stairs her heart sank within her. She divined what was the reason of his return, but what with the baby crying, Robbie still undressed, the house cold and Bridget in a temper and going to leave, she felt utterly overwhelmed, and felt also that her husband's presence would only add to the perplexity of the situation. She had never been accustomed to special help or sympathy from him in her household troubles, and so she regarded him as he entered the room with eyes that were half inquiring and half resentful.

"Hello, Robbie, hurry up and get dressed and maybe we'll take a sleigh-ride," was Mr. Jones' first rather sheepish yet altogether pleasant remark addressed to the little fellow who had started to run to his mother on first sight of his father. "And wife," he continued, "as I can't get to the city this morning I believe I will just stay at home all day and see if I can't fix up a few things. I am going down now to help old Hans find out what is the matter with the furnace."

Mrs. Jones' surprise was judiciously concealed while Mr. Jones donned some old clothes, and then disappeared into the basement. Two hands proved better than one, and when main strength had dug out a lot of impacted clinkers, the furnace grate swung easily on its pivot and old Hans' face was lit up with pleasure. In a little time the furnace began to glow and a pleasant warmth to diffuse itself through the house. Bridget was instructed not to worry trying to make a fire in the kitchen stove, as Mr. Jones expressed the intention of having a new one before noon if a suitable one could be bought in Jonesville. With a bright face she had gone upstairs and informed her mistress of Mr. Jones' intentions in regard to the stove and the pump, and had said that she would like to withdraw her "warning."

The comfortable glow of the doctored furnace was, however, a small circumstance compared with the comfortable glow of the household atmosphere when Mr. Jones again appeared in his wife's room. What a transformation from the chill, petulant, misery-begetting domestic atmosphere of the early morning. Robbie with the sweet forgiveness of childhood held up his little face for a kiss and asked about the sleigh-ride. The baby, soothed by the warmth, had dropped off asleep, and Mrs. Jones' cheeks grew pink and her eyes bright under the genial looks and conduct of Mr. Jones.

"It's a good thing for a man to stay at home once in awhile," said Mr. Jones. "and find out the things that need his attention. I declare, wife, I don't know how Bridget has gotten along with that stove at all. And poor old Hans! he was not strong enough to move that furnace grate. But it's all right now. And as to the sleigh-ride, I propose, wife, to go and get a sleigh and take you down to the village to see if we can't buy a new stove for the kitchen."

"And the pump," said Mrs. Jones, "can we have that fixed, too?"

"Certainly we can. I'll devote the day to things. Now Robbie, be ready in half an hour and papa will be here with a sleigh and bells."

Half an hour later saw Mr. Jones and his wife and Robbie wrapped in furs and dashing through the snow as gayly as his good neighbor had done in the morning. The stove was found in the only little hardware store in the village, and the check that Mr. Jones gave the careworn-looking man who kept the store caused a brightening of his countenance to a degree that attracted the attention of both Mr. and Mrs. Jones. How easy after all to spread happiness! What simple acts will procure and dispense that which money alone can never buy. And since his thoughts had been turned in that direction, Mr. Jones thought it would be a good thing to buy a snow shovel and give poor old Hans a job of cleaning the walks, thus enabling him to put a special Christmas dollar in his poor old pockets. And so by noon the new stove was set up, and Bridget surpassed herself in the lunch she prepared by its help. Such delicate flaky biscuits, such deftly broiled ham and such perfectly baked potatoes had never been seen under the regime of the old stove. And as Mr. and Mrs. Jones lingered over the cheerful table, Mrs. Jones said:

"Oh, what a burden is lifted from my heart. Day after to-morrow is Christmas, and this morning I looked forward to it not only with no pleasure, but with dread. What a transformation, dear, has your being at home today and your loving thoughtfulness wrought in every surrounding of our home. We were cold and inconvenienced and cross; now we are warm, rich in conveniences and comfort, and happy. That was a beautiful snowstorm, but its best beauty for us was keeping you home a day. I feel now as if I wanted to get up a splendid Christmas dinner and share it and our happiness with some one else who is less fortunate than we are."

Mr. Jones smiled. He, too, had thought a few days before that they ought to share their Christmas with friends, but he had checked the impulse with the thought that with the babies and Bridget's incompetence it was no use to try; it wouldn't pay. But with the new spirit and atmosphere that had begun to develop in his home his heart went out in generous feelings towards others; so true is it that happy homes are the seed-beds of kindness for the world.

"There is your cousin John with his wife and two children, and my cousin Will with his little ones. Both of them are struggling along with small salaries and I suppose the last thing they would think of would be an invitation from us to dinner. Shall we invite them? If so, I will go to the city this afternoon if there is a train, and invite them and lay in a special stock of good things for the occasion."

As it proved, there was a train about three o'clock; and the man who went to the city on it, bound on his errand of kindness, was an entirely different man from the petulant, moody, disgruntled one who had missed it in the morning. And the final outcome of the whole matter was the happiest and best Christmas that the Jones family had ever known.—Helen E. Starrett, in Chicago Interior.

CHILDREN AT CHRISTMASTIDE.

Joy and Mirth to Their Hearts' Content Should Be Unrestrained on This Day of Days.

"If there is one day in the year which rightly belongs to the young it is Christmas day," writes Edward W. Bok, in the Ladies' Home Journal. "It should be given over to them, therefore, without stint or reservation. And I think sometimes that parents do not always understand this. It is right and all-essential that restrictions upon the amusements of the young should prevail in every home. But Christmas day is the one day when these barriers ought to be lifted, and the young given free play. No wholesome liberty nor indulgence should be withheld from a boy or girl on that day. What of it, my dear friend, if such liberties do mean a tear here, or a broken chair there? Suppose the boy is particularly noisy on Christmas. What of it? Tell me, if you can, a better sign of strong, young health than the noise from a boy's lungs! Suppose he does throw himself, or even jump or stand, on your best lounge, and soil or rumple your pet tidy! Pass over it, don't notice it, but let the boy have his Christmas day. And if the little girl does insist upon putting her sticky candy fingers on your dress what of it? Let her romp and tear all over the house. Give her the joy of feeling that for one day the house is hers in every nook and corner of it. Let her put her smutchy little hands on the white paint of door or wall. I know a home, my dear woman where the marks of four little smutchy fingers may be seen any day on the white paint of a door, and they are treasured above the costliest ornaments in that house. Nothing could induce the mother of that home to wipe off those finger-marks, and gayly would her heart sing if the little fingers that put them there could make others all over the doors and windows of that house. . . . Let each one of us who can, give freedom and zest to the dearest treasures of the Christmastide; the young barbarians of our homes. God bless them, I say. May each child in this land of ours have a Christmas day this year fashioned after its own heart."

THE MEAN THING.

Amy—What did Charley bring you for a Christmas present?

Mabel—The mean thing didn't bring me anything but a sprig of mistletoe.—Bay City Chat.

Good Deeds for Christmas.

Don't shut your door to pity the poor.
Give the children a bushel of happiness, and they'll share it with you.
Raise the preacher's salary—but not so high that he can't reach it.
Make the Christmas tree a green spot in memory.
Don't lose sight of the fact that you were a boy yourself in the early years of the century.
Don't let the tin horn blast your happiness. Christmas will soon blow over.
Make somebody happy, even if you have to settle an old bill to do it.—Atlanta Constitution.

Christmas Eve.

Secrets, secrets everywhere,
Swarms of secrets in the air!
Something's hid from papa's eyes,
May and Slyboots look so wise,
Even baby's lips are close,
Folded like a crimson rose;
Wee, sweet secrets everywhere,
I can feel them in the air!
—Youth's Companion.

Time Is Required.

"My wife has to take two weeks to do her Christmas shopping."

"Does she buy so many presents?"

"No; but she has to go downtown every day and exchange all the things she got the day before."—Chicago Record.

By Mail or Express.

Oh, sing me not of Christmas past,
For though that may be pleasant,
And Christmas future just as bright,
I want the Christmas present.
—M. Landburgh Wilson, in Brooklyn Life.

What He Remembered.

Teacher—Now, Johnny, you tell the story of Christmas. What is there to be chiefly remembered concerning it?"

Johnny—School closes on that day ma'am.—Judge.

MINNESOTA NEWS.

THE STATE FAIR.

From the report of Secretary E. W. Randall of the state agricultural society, as filed with Governor Clough, that association has no reason to complain of the past year. Making a total of bills receivable and cash on hand it has between $9,000 and $10,000 in its treasury to represent the success of the last state fair. The total receipts were $66,033.70, and expenditures $56,850.83.

That the attendance this year was smaller than last the report attributes to the fact that the typhoid fever on the grounds kept many away, and to the unfavorable weather. Notwithstanding, the ticket sales reached a total of nearly $37,000. In referring to the water supply of the grounds the report says that it seemed as if the wells of the vicinity had become contaminated and therefore an expenditure was authorized by the governor for a connection with the artesian well in Como park. This water is available in summer only, however, as the pipes are not laid below the frost line.

Two new buildings are considered as necessary, an amphitheater in which to show off stock and an agricultural hall. The latter department has grown to such a degree that the former betting ring of the grand stand was utilized this last year for a display of agricultural produce.

WILL HAVE A CARNIVAL.

A hundred representative business men of Minneapolis decided to "Stand Up for Minneapolis," as the motto of the new carnival association has it. The decision was arrived at in the meeting called by the board of governors of the association and held at the Nicollet house. After a long enthusiastic session the meeting adopted the following resolution on motion of J. T. Wyman:

"Moved, as the sense of this meeting, that the organization of the carnival association proceed, and arrange for and hold some celebration next fall at a date to be decided upon later."

It was understood that the adoption of this resolution meant that all present would give their personal aid and encouragement to the carnival association. The vote was unanimous and emphatic.

WE WILL HELP UNCLE SAM.

The material manufactured by the Fire Proof Door Company of Minneapolis will probably be used exclusively hereafter on American men-of-war in place of the fire-proofed wood which so signally failed to stand the test of fire during the late war.

A commission, appointed by the navy board to investigate, examine and report on improved fire-proof material, has decided in favor of the Minneapolis product. There will be such a demand for the material that the company will probably have to quadruple its plant. The great advantage of the local product over all chemically fire-proofed lumber is that it will not splinter, its surface being of metal. As the article is patented, the Minneapolis company will have an exclusive contract.

TREE CULTURE.

For the encouragement of tree culture in some of the prairie counties of the state, the legislature makes an annual appropriation of $20,000, known as the tree bounty appropriation.

State Auditor Dunn yesterday made a distribution of this fund among the 2,800 applicants for its benefits. Every man who plants and grows an acre of trees received $2.40 per acre as a bounty. No one is allowed a bounty on more than 10 acres. To be exact, Mr. Dunn made out checks aggregating $19,553.68, representing a reward for the culture of 8,147 acres of shade trees. The amounts ranged from $2.40 to $25, requiring the signature of the state auditor 2,800 times.

BAPTISED IN A BATH ROOM.

Joseph S. Baker, a young citizen of Minneapolis, was baptized with due ceremony by representatives of the Mormon church, the chief of whom was John S. Beal. The plunge bath in the Lumber Exchange barber shop was used because of the rigidity of the river, and in addition to the Mormons there were several interested spectators, who saw little difference in the Mormon and other methods of immersion. The Mormon missionaries live in the city and this is their first baptism in Minneapolis.

PLEA FOR PARDON.

Archbishop Ireland has written a letter to Attorney-General Griggs, urging the commutement of the sentence of the Indians sentenced to imprisonment at Duluth for resisting the marshals. It has been represented that some of the Indians are in danger of dying if they are not released, and the archbishop also bases his recommendation for mercy on the broad ground of their sentences being too severe.

In the old case of the First National bank of Minneapolis, as plaintiff, vs. The City of St. Cloud, for hydrant rental, the jury returned a verdict of $1,500 in favor of plaintiff. The amount claimed with interest was $8,800. The city fought the claim on the ground of defective service and once offered $2,700 to settle, which was refused.

L. D. Lord, president of the Moorhead normal school, will accept the presidency of the Charleston, Ill., state normal school, and assume his duties at the commencement of the school year next September.

J. V. Brewer has presented the State Historical society with 15,000 curios gathered in Northern Minnesota.

In the United States court at Winona the $25,000 damage suit of Patrick Nacey vs. the Chicago-Great Western Railway company was decided in favor of the defendant.

The president has granted a pardon to L. O Partello, sentenced to Stillwater in 1896 for printing counterfeit money in St. Paul and Minneapolis. The pardon will take effect Jan. 3.

Capt. Castle and Congressman Fletcher have secured a permit for G. A. R. people of St. Paul and Minneapolis to erect a tablet at Fort Snelling in memory of Major Wilkinson, killed in the battle at Bear Island a short time ago.

The twenty-fifth annual convention of the Minnesota State Dairymen's Association was held at Austin with large attendance.

A co-operative company has been organized at Duluth for the manufacture of wagons and sleighs on large scale.

Edward Randall, of St. Paul, was seriously if not fatally burned by the explosion of a lamp. The explosion occurred while he was in bed and burning oil fell on him and the bed clothes.

Fire in a Minneapolis lodging house sent a hundred or more inmates into the street about midnight. No casualties.

The World's Supply of Wheat.

An English expert prophesies a universal dearth in the wheat supply. He claims that the wheat producing soil is unequal to the strain that will be put upon it. Even now when the food supply of the world is ample, thousands die because their disordered stomachs fail to properly assimilate the food they take. Hostetter's Stomach Bitters strengthen and tone up the stomach and digestive organs, and enable them to perform their proper functions. This great remedy cures dyspepsia, torpid liver, nervousness and fever and ague.

Agricultural.

"Our town," exclaimed the man who had accumulated most of the desirable lots, "has flourished like a great tree."

"Yes," said the town cynic, "we have done the rooting and you the grafting."—Cincinnati Enquirer.

Very Low Rates Via the Missouri, Kansas & Texas Railway.

Semi-monthly excursions to the southwest. The greatest opportunity to visit Texas, the Empire state of the Union, unparalleled as to resources and products and with an area exceeding all the Eastern and Middle States. The statistical reports of products, as compiled by the commissioners of Texas, indicate this section as having the greatest possible advantages in its mild and equable climate and in the variety and productiveness of its soil. For further information, descriptive pamphlets and dates of excursions, apply to T. B. Cookerly, Dist. P. A., Des Moines, Ia.

The wise man always stops to think, but it's the really wise one who thinks without having to stop.—N. Y. Journal.

The pain that tortures—sciatica. The Cure that cures it—St. Jacobs Oil.

Some people are so skeptical that they even doubt their own doubts.—Chicago Daily News.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets.. All druggists refund money if it fails to cure. 25c.

Some people seldom lend a helping hand unless it is to help themselves.—Ram's Horn.

Use St. Jacobs Oil promptly and freely And say good-bye to neuralgia.

Trouble gets into many a home by means of a night latch key.—L. A. W. Bulletin.

If you take a cat to bed do not complain of its claws.—Spanish Proverb.

Stand straight and strong—St. Jacobs Oil cures lame back—cures promptly.

When eyes snap, it must be the lashes that crack.—Golden Days.

Use St. Jacobs Oil and say to rheumatism: "Will see you later."

Does Your Head Ache?

Are your nerves weak? Can't you sleep well? Pain in your back? Lack energy? Appetite poor? Digestion bad? Boils or pimples? These are sure signs of poisoning.

From what poisons?

From poisons that are always found in constipated bowels.

If the contents of the bowels are not removed from the body each day, as nature intended, these poisonous substances are sure to be absorbed into the blood, always causing suffering and frequently causing severe disease.

There is a common sense cure.

AYER'S PILLS

They daily insure an easy and natural movement of the bowels.

You will find that the use of

Ayer's Sarsaparilla

with the pills will hasten recovery. It cleanses the blood from all impurities and is a great tonic to the nerves.

Write the Doctor.

BUFFALO GAZETTE

DELANO, FRIDAY, Dec. 23, 1898

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

—Merry Merry Christmas!

—Wagons are again fashionable, the few warm days melting the snow off where it was thinnest.

—The High School is having some holiday exercises today after which there will be a vacation of two weeks.

—Blacksmith's harvest has arrived. The hard and slippery roads require sharp shoes for heavy hauling or fast driving.

—Arrangements for Christmas entertainments by the several Sunday schools and churches are being completed.

—J. W. & F. Q. Lindsley and J. E. Borsch & Co. how have telephone communication between their places of business.

—Dar Welker and his nephew started out muskrat hunting yesterday evening. Dar claims to be the boss hand at the business.

—Merchants say trade was good the three first business days of the week but Thursday was uncommonly dull; why, none of them seemed to know.

—J. D. Young played Santa Clause Thursday and carried over to Dad Gast, who has been confined to the house for a month, a fine rooster, for Christmas. Dad says he thinks he can take care of him all right.

—The Eagle thinks Dr. Catlin would make a good egg inspector. That's what the school meeting thought when they appointed him on the committee to inspect some of the "eggs" presented by the Old Bird to the School Board for payment.

—Unless the powers that be succeed in letting their lights shine a little brighter there will soon be a dropping off in the receipts from that source, and the Standard Oil Company's local agent will wear a correspondingly larger smile.

—Rev. J. L. Farber has announced to his congregation, that on Monday evening at 7:30 at the M. E. church, a vote will be taken as to whether the property shall be re-mortgaged or a part or all of it sold to pay debts. Let all the members be present and vote.

—We understand the case of the State vs Dr. Ames in Justice court has been settled by the Dr. allowing the $15 in the hands of the Justice to be paid over to C. Gast. The Dr. says that he didn't steal the money but that the easiest way out of the trouble is the one chosen.

—Fred Strauch will soon occupy the new house bought by his father from Peter Lathman on the Minneapolis road. He says his partner John Brenner has left him, so now he will hire a man and run the broom business alone, and raise his own broom corn. He has all the land he needs for that.

—Peter Pogreba, a west side lad of ten canvassed the town a week before Christmas and took orders for Christmas geese. He had 18 to sell, had sold 9 when we bought ours. He said why he was selling them he got 5cts apiece and would get a new pair of skates. He is a good salesman.

—Health Officer Catlin, inspected the Delano jail, according to law, as directed by the State Board of Charities, yesterday. He reports the jail and bedding as in a dirty condition, not fit for any respectable person to use, and recommends that a general scrubbing, whitewashing and painting be had, and some suitable bed and bedding and a Lockup Register be procured.

—The city authorities should make some different arrangements for protecting the electric light poles from horses hitched to them. The wire wrapping now used gets broken and sticks out onto the sidewalk getting fast in peoples clothing as they go by. Sometimes they bring up a lady to a sudden standstill as her wraps are jerked on rather harshly. Besides being annoying, the wires are liable to injure somebody and cause a suit for damage against the village.

—The remains of C. Kobler, formerly hotel keeper at Watertown, but lately stopping with his daughter in St. Paul, were taken through town on Wednesday, to be buried at his old home. He had not been feeling well for sometime and it seems concluded to take his life, which he did by plunging into the Mississippi at St. Paul. Although he was seen to take the fatal plunge life was extinct before he could be fished out. He was an old resident at Watertown and leaves a numerous family of grown children to mourn his untimely death.

—The M. E. Sunday School will have a Christmas tree on Saturday evening at the church and will give the following programme:

Organ Voluntary.
Song, Joy to the World, School.
Prayer, Pastor.
Responsive Reading, Luke 2; 8—19.
Solo, Mollie Maxfield.
Dialogue, "Christmas Holly".
Song, Infant Class.
Recitation, Elsie Ziebarth.
Song, Miss Gross' class.
Recitation, Alvin Sell.
Song, Miss Cunningham's class.
Emmisent Women, Mrs. Hawker's class.
Song, Chime the Bells, School.
Responsive Reading, Mr. Corry's class.
Recitation, Ella Sturman.
Song, Merry Merry Christmas, School.
Christmas Star.
Recitation, Geo. Revoldt.
Tribute to Nations.
Recitation, Elmer Johnson.
Song, Neta Gunn and Annie Bergren.

Personal.

John Moore, of Rockford, was in town yesterday.

John Maver, Roadmaster of the Wilmar division, was at home for Sunday.

Dr. and Mrs. J. E Soper went to Minneapolis Wednesday morning for a visit.

Bud Reeve, of Buxton, Dakota, on his way to Minneapolis was a caller, Monday.

Oscar Gast, of Louisville, Ky., is visiting with his father and family for a couple of weeks.

James Murphy, late of the 15th Reg. Minn. Vol. has received a discharge and is again in Delano.

John Sutton arrived in town Tuesday night, from Montana, and will spend several weeks at home.

Mr. and Mrs. George Guptil, of Rockford, visited with their daughter, Mrs. Will Haynes, Saturday.

C. J. Buckley and family are to spend Christmas with Grandma and Grandpa Grafft at Hamline.

Alfred Sandberg, who is attending business college in Minneapolis came up Monday evening, for a couple of weeks vacation.

Messrs Laury Dillum and Geo. Shillock, of Minnetrista, were in town Tuesday. Shillock made arrangements for attending school here after the holidays.

Rev. J. E. Chase, who has been holding meetings in the M. E. church at Watertown for a few weeks past, was a caller Thursday. He reports much interest at that place.

D. LeRoy Sutton went down on the Wednesday evening train, to the State Agricultural school, which he attended this fall until about three weeks ago, to take the mid year examination.

Miss Grace O'Hair, and Messrs Samuel D. Coffin and John J. Catlin, of the State University, came up the latter part of last week to spend the two week's Christmas vacation with parents and friends.

County Cullings.

Gov. Clough has raised the reward offered for apprehension of the Boxell murderers from $250 to $500. It is claimed that a Minneapolis detective has a clew liable to lead to an arrest.

The new City Hall, costing $4,000, was opened, at Annandale, last Friday evening. A local company gave an entertainment, highly spoken of. The hall is a credit to the enterprise of Annandale and its citizens. The officers are Pres., W. S. Huntington, Recorder, J. C. Rousseau, Treas. J. H. Buri, Councilman, J. J. Rennie, A. M Ridgway, and W. D. McDonald.

State of Minnesota vs Fred Flannigan. Jury returned a verdict of guilty sentence $100 or nine months in jail. Fine paid, and prisoner discharged.

State vs Charles Skifstrom. Jury found guilty of bastardy. Court directed that he pay $45 and costs, $50 to Hannah Ahlbricht, mother of his child and $6 per month, after Jan. 1st '99 until the child is 14 years old or be confined in jail until he complies with the order or is discharged as provided by law.

State vs Emil Erickson. Motion to dismiss granted and prisoner released.

State vs Geo. H. Allen charged of selling liquors without license. Jury found not guilty.

Frank Selover vs G. N. Ry. After hearing all the evidence the court directed a verdict for the Ry. Co.

Robert Workman vs. G. N. Ry. Co. Dismissed on motion of plantiff.

Jarold Comer vs. G. N. Ry. Co. After hearing evidence of the plaintiff case was dismissed by the court.

Joseph Ferrell & Co. vs. Leslie McClay and Ernest Brabec vs. Matt Cech were continued.

A motion to replace the case of Henry Krause vs. Christian Krause Jr. et al on the calendar was denied.

Minnie Westphal vs. George Westphal. An order was issued by Court directing him to comply with the order of the court or be committed to the county jail.

Jury discharged for term and court adjourned to Jany. 9 1899.

A Good Investment.

"Knowledge is power" according to the old adage, but it is also said that a man never knows a thing until he can tell it, and he who can express his knowledge in language more terse, vigorous, and appropriate than others becomes a leader of men. In gaining this power of expression as well as knowledge itself there is no aid so helpful, from which so much may be obtained, and for so small an outlay as Webster's International Dictionary. This work is the universally acknowledged standard for the derivation, spelling, pronunciation, and meaning of words, and with its numerous tables of useful and reliable information it quickly and satisfactorily answers the thousand and one questions which are constantly arising in our reading and study. The purchase of this source of knowledge and power will prove a profitable investment for every household, and for every teacher, scholar, professional man, and self educator.

Trials of an Inventor.

In an interview in Demorest's Magazine, Mr. H. Barringer Cox, the inventor, says: "No one can really understand the word 'disheartening' until he sets himself to discover something in electricity. I would prepare a machine and attend supposedly to every detail. My hope would rise with every step towards its completion. Then all would be ready, only to find upon the application of heat that all was wrong, the work of months and the value of time and money all dissipated in a few minutes. At the collapse of the last machine which preceded the successful one, one of my assistants, a man who had worked with me for years, broke down and cried. I remember he turned tearfully to me and said, 'Why don't you cry?' 'That's what you're hired for,' I answered. He quit then, unable to begin again, but two weeks later I had the machine perfected."—From Demorest's Magazine for January.

Consequences and Perplexities of Imperialism.

It is said by expansionists that the President was induced to claim the Philippines by the public feeling in the Northwest. That is moonshine! The idea for this expansion rests solely with the president and his cabinet, because long before his trip the republican leader, John Sherman, was dismissed from the cabinet because he was against that expansion. These trips were only made to raise artificial enthusiasm for the new faith and to whip the remonstrating republican leaders into line.

The annexation of the Philippines is a fact. The tax payer pays twenty million dollars for their possession. That is an exorbitant price considering that Spains' supremacy was established only on half of its inhabitants and that this supremacy was unredeemably destroyed by the uprising of their former subjects. To the other part of the islands, to the independent chiefs, Spain, or the religous orders, who were the actual rulers, paid a yearly tribute to keep them in peace.

How much will it cost the tax payer, under these circumstances to establish the American supremacy on the islands? As all of the natives are now independent and naturally want to be so, it will take at least an army of 40,000 men to subjugate the islands at a cost to the tax payers of sixty million dollars yearly. The pestilential climate will make this a long war with a fearful death rate and consequently a large increase of our pension list. Every family may be prepared to pay for a long time, for the re-establishment of this extinct sovereignity from $4 to $6 war tax yearly. Will our boys voluntarily enlist in this fight of oppression? Not likely! Consequently we must either force them, or we must collect all the social driftwood of America, the same as the Netherlands and England did in Europe, to send them as our fighters to these Asiatic islands.

But as we ape our dear cousins as colonial oppressors we might just as well ape them in that line too and establish an army of American Hessians.

There are three parties in the islands; first the independent chiefs, mainly Mahommedans, which we must fight; second, the monkish order, immensely rich, because they usurped all the areable lands from the dependent natives, using these as serfs on the lands, in the atrocious, humiliating and degrading style of the middle ages; and third those dependent natives, who revolutionize mainly against these monkish rules and usurped rights. We have our choice, but what party we take, we will have the others against us.

Under the American rule to levy taxes without discrimination, the war taxes rest heavier on the common tax payer than on the rich.

Take the tax of 10 cts a pound on tea. Tea siftings which the common man uses was 10 cts a pound wholesale, good tea 40 cts and fine tea $1.

Consequently, adding the 10 cent tax the common man pays 100 per cent the wealthy 25 per cent and the rich man 10 per cent taxes on this article.

The tax on money orders, checks, etc. is two cents each. This tax on business transactions favors the rich more flagrantly. You pay for the smallest money order two cents war tax, and the capitalist pays on a hundred thousand dollar check 2 cts tax too.

What has the western farmer for returns from this indefinitely prolonged war tax? Not one cent!

Possible, that, after the subjugation of the islands industry may be started there, because labor is cheap with the open door policy established by our president; free trade will rule there. But if the natives should use afterwards, farmers products, they will get these from Australia, because the freight from there is insignificant against our freight rates. The American taxpayer pays the cost and our dear Australian cousins and the capitalists reap the profit.

But it is our duty to raise these people to our standard. Nonsense! We gathered them in our folds, being the scum of Christendom, Malays, Spaniards, halfbreeds, illiterate bigotted fanatical Catholics.

Will their priests allow us to educate them in our style? Can you obliterate the race and religous prejudice of such a class of people? Show me one example in history where the race and religous prejudice was peacefully obliterated. These people, under any form of dependency, will never be faithful to us in time of need

The proposition of Bryan to ratify the treaty is good. There is neither peace, nor power, nor profit in this business. Let us dispose of our acquisitions as quick as we can.

INDEPENDENT.

TEETH: Dr. Niven will be in Waverly. Saturday, Dec. 24. First clas dentistry in all branches. 2t

WANTED—SEVERAL TRUSTWORTHY PERsons in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $900 a year and expenses—definite, bonafide, no more, no less salary. Monthly $75. References. Enclose self-addressed stamped envelope. Herbert E. Hess, Prest., Dept. M, Chicago. 50-26t.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Official Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merritt, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manila. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Large book. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, P. T. Barber, Sec'y., Star Insurance Bldg., Chicago.

Late Literary News.

"What do I fear?" is a questions worth asking by each man or woman. Perhaps without recognizing it the reader of this paragraph is being influenced in his or her daily life by groundless fears that are ruinous to character. THE COSMOPOLITAN Magazine has taken up this subject and is obtaining the views of a great many prominent people, where they are willing to open their minds frankly. A great many other prominent people have refused THE COSMOPOLITAN'S request, being afraid to tell the public what they fear perhaps even afraid to confess to themselves what they fear. The December issue includes statements from WM. DEAN HOWELLS, RICHARD CROCKER, Admiral GHERARDI, CHAUNCY M. DEPEW, VIOLA ALLEN, Mme. JANAUSCHEK and ELLA WHEELER WILCOX. The second series will, it is promised, be even more interesting.

Giving.

In giving Christmas presents, what people usually lack is not money so much as common sense. They buy and give with a liberal spirit, and frequently with an utter disregard of the tastes and habits of the recipient.

Study the taste of the person who is to receive a gift.

Never spend more than you can easily afford.

Never give a present out of policy.

There are people whose natures are so warped that they "don't like to get presents"; save your good gifts for those who do.

Be judicious in giving to the poor in any walk of life. Do not make to one lacking worldly goods a gift to fine, or to poor, lest on one hand you force an obligation, or on the other you press home the knowledge of poverty.—From "Etiquette in Christmas Present-Giving," by Esther Buckingham, in Demorest's Magazine for December.

Notice of Hearing of Application to Sell Intoxicating Liquors.

Notice is hereby given that Jas E. Murphy has made application according to law to the Village Council of the Village of Delano in the County of Wright and State of Minnesota, for the transfer of Nick Klein's License to sell Intoxicating Liquors for the unexpired term of said Nick Klein's License from Dec. 23, 1898.

The place where the said business is to be carried on is designated as follows: On the first floor in the front room, of the two story brick building situated on Lot 19, Block 8, Original Townsite of Delano.

Said applicant prays that such License be granted to him pursuant to the ordinance of said village of Delano and the Statutes of said state of Minnesota in such case made and provided.

The above application will be heard at a special meeting of the Village Council, in the council room at the City Hall, in Delano at 8 o'clock, Friday evening Dec. 23 1898.

L. M. MAXFIELD.
Village Recorder.

"AM I MY BROTHER'S KEEPER?"

M. E. BENNETT.

In the time of the long, long ago,
And outside of Eden's barred gate,
Stood the Cain, the slayer of Abel,
The father of war and hate.

With head bowed he gazed on his victim;
Hate triumphs, his place is assured.
His red hand holds the scepter o'er ages.
Though accursed he will not be subdued.

To that voice that asks, "Where is thy brother"?
From hells darkness made denser and deeper,
His defiant question responds,
"Am I my brother's keeper?"

"Cursed be Cain" the voice replied,
Under this shadow of wrath go people the earth,
This dark red mark will thy life insure,
By thy seed of strife shall nations have birth.

And Cain went forth with the spirit of wrath.
Took his westward course to the land of Nod,
Where he wed. His race subdued the land.
What a trail of blood marks the way they trod.

And when war ceased and the spirit of peace
Descended to earth with a will to reign,
Her rest was desturbed and her work defaced
By the ceaseless clink of slavery's chain.

To the voice of love that still calls from on high:
"Why comes up the constant wail of the weeper?"
Is heard in answer the question of Cain,
"Am I my brother'skeeper?"

True, love and mercy have lived on earth,
But they never held sway through the nation's might.
They have dwelt in the humbler actions of men,
But great power is not guided by a weak ones right.

In the race for power and the greed for gain,
We must crush the weak and heed not the weeper.
To mercy's call we give Cain's response,
"Am I my brother's keeper"?

Jesus the man God chose to live with men
To teach them to conquer the curse of Cain.
Justice and love were the weapons he gave,
But the ancient curse left its deep, dark stain.

Though the gospel of peace from the book is read,
And Christ's birth is hailed as the centuries pass,
Grim war still lives and numbers his dead.

Christian nations and creeds join the struggle for power;
Where Christ has sown they made Cain the reaper.
To the Master's call comes the old response,
"Am I my brother's keeper"?

Peace on earth; to men good will,
The angel's anthem in the churches roll,
While competition and war holds the honors still,
The inn is yet thronged and the stable cold.

Dives sits down to his Christmas feast,
Served in splendid rooms on plates of gold,
While the human dust from his mill of greed
Live in dens of vice or hovels cold.

The voice from on high still calls and asks,
"Where are thy victims, Oh! fortune seeker?
The answer is, (this must ever be)
"Am I my brother's keeper"?

Will the faith and love Jesus brought to man
Ever conquer the fear and hate of Cain?
Will nations and men forever find
That one must loose when the others gain?
Shall the voice of victims of war and greed
Be drowned in the pomp and show of the victor?
Will the response to the justice call be ever,
"Am I my brother's keeper"?

DAILY papers are poking all kind of fun at William Jennings Bryan because, they claim, he don't know what to do with the Philippine Islands. Do the daily papers know what to do with them?

FUSIONISTS seem agreed that only a man who represents Democracy in its honesty and sincerity should be nominated for the U. S. Senate against the present incumbent. This don't look much like voting for unanimously C. K. Davis.

THE citizens of St. Paul are getting up a reception for Gov. and Mrs. Lind, which promises to be one of the events of the season. Invitations have been issued and notices published asking all, even though they may have been overlooked by the invitation committee to attend the reception at the Ryan Hotel, Tuesday evening, Jany. 3, 1899.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Official Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merritt, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manila. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barber. Sec'y., Star Insurance Bldg., Chicago.

From Manila.

MANILA, Oct. 31, 1898.

Father: We are all well, speaking of Co. B., with the exception of two, Sim Coates and Frank Varney, who are at the hospital. There are three late arrivals from the hospital. Three others have ailments more or less severe, one of them a hernia caused by a kick while arresting a disorderly sailor.

Co. H., occupying one half of our quarters, has 19 in the hospital and more liable to go. It is rumored that there are 2,000 in the hospital out of a little over 14,000.

The Colorado regiment had a little trouble about grub and the way they way they were treated and so on, about a week ago. The privates prepared a cablegram which the officers refused to let go. So the American geniuses arose in their dignity and sent the cablegram to Hong Kong, to be sent from there. I don't know whether or not the attempt was a success.

There has been several deaths from smallpox, a couple of weeks ago. But of late we have not heard much that occurs on account of the close quarters the men have. At present the orders are not to go over 100 yards from the quarters after retreat, but then you can go down town one day in three from 1:00 till 5:00 p. m.

Since pay day the company has been eating fair grub; that is we get it at the restaurant about half the time. Some of the rations in flour have been sold and now we are again chewing hard tack.

Minnesota has several companies who are short of shoes. Our company has four men relieved from duty on that account including myself.

All the native stores and restaurants in our district have assumed the American style of doing business, and for a couple of days closed doors and awaited pay day. They have been running ever since, but at present some of the boys owe about $20 Mex., some more and some less. The pay rolls were signed about a week ago; perhaps we will have been paid by the 5th of Nov.

I have an invitation to visit the S. S. Olympia, which I expect to accept as soon as pay day arrives, when I shall visit all the important boats of navies represented here.

Some of the girls here are very beautiful, considering. When you visit a native girl you have to sit on a bench or chair on one side of the room with her on the other and two or three old folks sitting around the room to talk to. Nearly all the natives can throw their lingo mixed with Spanish so we can understand a great deal. We hold quite lively conversations at times.

We get mail about every month or six weeks. We have about half a dozen papers published daily here, without news.

Slitz and Pabsts beer signs are beginning to be quite common. The Spanish seem to relish the new (to them) substance.

We, the 13th Reg. Minn. Vols. have been and are now on patrol duty, every hour of day and night, except from 10:00 to 3:00 in the heat of the day. Since we commenced patrol duty our company hasn't lost a man.

I saw Perry Ball and O. J. Billings of Dakota, formerly from Delano. They are enjoying good health.

Wishing you all a Merry Christmas and a Happy New Year. I will close.

Your son,
A. G. CATLIN,
Co. B. 13th Minn. Vols.

WASHINGTON LETTER.

(From our Regular Correspondent.)

WASHINGTON, D. C., Dec. 16, 189.

Gingerly as the War Investigating Commission handled Gen. Miles, who shocked them at the beginning of his testimony by refusing to be sworn, he managed to say that much suffering in the Santiago campaign was the result of Gen. Shafter's failure to obey orders; that the Commissary General was inefficient, and to twit the Commission for not having "got onto" the "embalmed" beef sent to his men in Porto Rico, against his protest, in order that contractors favored by the War Department might pocket big profits. He also by his answers to several questions—he was not allowed to make a general statement—made it plain that the ignoring of his recommendations by the War Department had resulted in much unnecessary suffering.

The trusts are to be directly represented in the Cabinet. Mr. E. A. Hitchcock, of Mo., now Ambassador to Russia, who was nominated to succeed Mr. Bliss as Secretary of the Interior, and confirmed by the Senate a few minutes before adjournment for the Christmas recess, is the head of the plate glass trust and a multi-millionaire. The administration has decided that 50,000 more volunteers may safely be mustered out, and it will be done as fast as possible.

The Hull bill, which ought really to be known as the Alger Corbin bill, for reorganizing and increasing the regular army, has been reported favorably to the House by a strict party vote in the Military Committee. The five democratic members of the committee are opposed to the bill and will prepare and submit a bill of their own, which will be offered as a substitute.

The House committee on Appropriations loses two of its members to furnish governors for Texas and for Pennsylvania. Before Congress adjourned for the Christmas recess the Committee unanimously adopted resolutions setting forth the esteem of the Committee for Hon. Joseph D. Sayers, Governor elect of Texas, and Hon. Wm. A. Stone, Governor elect of Pa. The Sayers resolution was one of the strongest ever adopted under similar circumstances. He has been a member of the committee for twelve years, during two of which he was its Chairman, and has left a record that any man would be justified in being proud of.

Under the latitude allowed in debate when the House is in committee of the whole, Representative Williams, of Miss., made a strong speech against the annexation of the Philippines, which he declared would be a mistake whether viewed from a social, a political, or a material standpoint. Frequent applause from his democratic colleagues showed which way their sympathies were. After stating that the islands should not be returned to Spain, Mr. Williams said: "I should leave the islands where they were the day after Dewey's glorious victory at Manila. I should haul down the American flag. I am for the flag for what it means, not for itself. It is nothing but a piece of bunting, and when some one announces that it must not come down, I care not how high his station, he says something unworthy of himself and his country. The flag should come down if it is right that it should do so, and the American people must pull it down. We would not let any other country do it."

Senator Butler, of N. C., has given notice of his intention to offer an amendment to the Pension appropriation bill that will give Confederate soldiers and sailors precisely the same status under the pension laws as those of the U. S. Mr. McKinley's original proposal was to assist in the care of the Confederate dead, then Representative Rixey, of Va., introduced his bill to open all government Soldier's Homes to needy and crippled Confederates, but Senator Butler's proposition is the most astonishing of all.

Gen. Henderson, chairman of the Home Judiciary committee, to which Representative Bailey's resolution for an investigation and report as to whether any member of the House had forfeited his seat by accepting office under the government, asked the house to order the resolution referred to the committee on Rules, and it was done. The members of the Committee on Rules are Speaker Reed, Henderson, of Iowa, and Dalzell, of Pa., republicans, and Bailey, of Texas, and McMillin, of Tenn., democrats.

Ex Senator "Joe" Blackburn, who was in Washington when Congress adjourned for the holiday recess, said of a gentleman who is conspicuously before the country, just now, by reason of his opposition to the expansion policy of his party: "I have known Senator Hoar for over 25 years, and in all that time I have never been quite able to fix his status in my mind; to decide whether he was an able and disinterested patriot or the meanest type of a bigoted, narrow, hypocritical Puritan that God ever let live. I know that he is either the one or the other; he does not occupy any middle ground, but for the life of me I cannot yet say under which classification he should be placed. He has kept me guessing all these years, and I will frankly confess that I am no nearer to a solution of the problem than I was 25 years ago. I am almost inclined to give it up".

Among Our Exchanges.

Duluth News Tribune: It will present a rather attractive spectacle, Mr. Bryan and Andrew Carnegie working together for the little America. The iron king offers to furnish the silver leader all the funds he may need to carry on his fight against expansion.

Duluth Herald: As soon as it was rumored that Governor-elect Lind was proposing to recommend in his message that the various state boards be abolished and one board of control be given charge of all state institutions. Auditor Dunn hastened to write a similar recommendation in his biennial report so that he could claim the credit of originating the idea. This is one of his old tricks—stealing other men's ideas and palming them off as his own.

IN THE
GAZETTE.

The Head of a Rebel.

By R. Clyde Ford.

THIS is not really my own story—it is my grandfather's. Still, since it is all in the family, I may as well tell it; and, besides, it has special interest now, when so many people in this land are looking and longing across the Pacific to where our flag flouts over Manila bay.

In the year 1842, my grandfather, a young man of 20, shipped as common sailor on the three-masted ship Polly Ann, of New Bedford, bound from New York to the Philippines with a cargo of flour. The voyage was uneventful, and 136 days after passing Sandy Hook the Polly Ann dropped anchor in Pasig river, Manila.

During the ship's stay there, grandfather, who was of an investigating disposition, looked the city over pretty well, and believing there were chances for a wideawake Yankee to make a fortune in the islands, he quitted the ship and took service with a trading firm on the harbor front. In ten years he was manager of a business of his own, and a man of influence among the foreign traders. The Spaniards, too, looked up to him and respected him.

As his business grew he was unable to manage all the details of the increasing trade, and so called to his help a young Filipino named Juan Aguado, a bright young man, half Spanish, half Malay, who had formerly been an assistant in the packing house. Aguado possessed polished, courtly manners, and a good education; he had received his schooling at a monastery—and grandfather trusted him implicitly, for in the course of time he made him chief clerk and adviser.

Aguado was absolutely fearless—that was where his Malay blood showed out, grandfather would remark; when he himself had occasion to refer to the story. They were out hunting one day in a jungle tract, some ten or fifteen miles away from the city, when they were charged by a maddened buffalo that dashed out of a water hole upon them. They both ran for cover, but grandfather by some misstep tripped on a vine and fell, and before he could regain his feet the animal was upon him. It was no time to use a gun—they were armed with nothing but light fowling pieces for pigeon shooting. When grandfather fell, Aguado, who was a little behind him, made a leap to one side to pass him; but he was not thinking of saving himself. Quickly drawing his kris, which was another mark of the Malay in him, he rushed back upon the buffalo and stabbed it through the neck again and again with all the dexterity of a veteran matador. The buffalo fell dead in its tracks and grandfather crawled away with a broken arm.

From that time on the two men were like brothers. Juan seemed glad that he had had an opportunity to show his regard for his employer and benefactor, and grandfather was too much of a man to be anything but generous to one who had saved his life.

But it was about the end of their comradeship. One day a native from up country called at the warehouse for Aguado. They retired to a distant part of the building and talked long and quietly together. Then the stranger went away and the clerk returned to his desk.

That night, when it came time for closing, Aguado said: "Senor, I must leave you—I am wanted at home and it will be useless to try to detain me."

Grandfather was surprised beyond belief, almost; but he did not try to dissuade him. He paid his arrears of salary, added a handsome bonus, and said good-by to the only man in the east of whom he was truly fond.

Two years passed and not a word came from Aguado; but that was not very strange, for the province where he lived had been in open revolt for some time, and as the fighting on both sides was constant and relentless, communication with Manila was practically cut off.

However, as time went on the rebellion was crushed, and the insurgents were scattered or captured. The leader of the revolution, one Luiz Berceo, was a man of considerable generalship and resources, for without munitions or money he had held his ground against the Spaniards for a long time, and had intrigued successfully among the native troops sent to oppose him. But he could not hold out forever, and he, too, was a fugitive.

Then it was that the government resorted to an expedient often tried in Spanish countries for catching those who will not surrender—a price was set on Luiz Berceo's head. Placards were posted in Manila and throughout the islands wherever Spanish authority was recognized, proclaiming a reward of 40,000 Mexican dollars to the one who would bring the head of the insurgent leader to the authorities.

My grandfather had frequently seen these announcements, and wondered what sort of a man it was who caused the captain general so much annoyance. Both the captain general and himself were soon to know.

One afternoon the captain general sat alone in his office. He was in a complacent mood, for certain documents before him related to the disposition of the surrendered insurgent bands who had been harassing his chosen province for the last two years. Suddenly, without any warning, the door opened behind him and a man stepped quickly into the room, at the same time slipping the bolt again into its place. He was dressed like a priest, in a long black gown and had a hood over his head.

"Peace upon you," he said, coldly, and Don Xavier Macia turned in his chair.

"Who are you and what do you want?"

"Do not talk too loud," said the visitor, pushing back the cowl from his face. "Who am I? See for yourself."

The captain general gave a start of terror and his face blanched. It was Berceo, the insurgent chief, who stood before him.

"Listen to me, senor, and I'll tell you what I want. You have offered $40,000 for my head. See, I have brought it myself and claim the money."

Berceo stepped nearer and drew from under his cloak a long native knife.

"I can't very well carry Mexican dollars. I will take Spanish bank notes. Hurry!"

Gen. Macia ground his teeth in rage, but dared do nothing except obey. He knew well the character of the man he was dealing with. From a desk near by he counted out the equivalent of $40,000 in Bank of Spain notes and handed them to the rebel leader who began to back toward the door. "Good day, senor," he said, politely, and sprang out. A guard at the end of the hall tried to restrain him, but Berceo cut him down with the knife, and then throwing off his monk's garb, he reached the street and made good his escape.

That same night grandfather sat smoking on his wide veranda which looked out upon the bay. One or Two acquaintances from the neighboring compounds had dropped in for a chat, but by ten o'clock he was alone again. As he sat dreamingly gazing out at the twinkling lights on the ships at anchor, he heard a step on the stairway behind him; he thought it was his Chinese servant. Soon, however, a familiar voice spoke:

"Senor, excuse the intrusion."

He turned around, and there stood his former clerk, Juan Aguado.

"Why, Juan, what a pleasure! But how you startled me! Come, sit down and tell me all about yourself."

Aguado smiled. "Are we quite alone, senor?" he asked; glancing around furtively.

"Yes, entirely so; the servants have gone to bed."

"Well, then, you want to know all about myself. I can tell you in a word—I am Berceo."

My grandfather was a cool man. "Come inside, it's damp here," he said,

BERCEO STEPPED NEARER.

and led the way to a room back of the veranda.

Briefly Aguado told him what had taken place in the last two years. The man that had called upon him the day he left brought evil news. His home village had been destroyed, and his father, a petty official up country, had been imprisoned on some trumped-up charge, his two brothers had been killed in a fight with their Spanish guards. He had long known what Spanish rule was in the out provinces—but, alas! his revolution did not succeed.

Next he told how he had just braved the captain general in his very palace and wrung from him the price set upon his own head.

"By the grace of God, I escaped; but it will not be for long, unless, senor, you help me."

"Not knowing what I should have done in your place, Juan," said grandfather, slowly, "I'm not the man to see you handed over to Gen. Don Xavier Macia, anyway. Let me think."

After awhile grandfather said: "I think I have it. A captain friend of mine sails for Hong-Kong on the morning breeze. If I can get you on board his ship you are safe. Come, put on some of my clothes. I don't think the authorities will be looking for you here; they don't know that Luiz Berceo is such a dear friend of mine, and I think we can get out to the ship all right."

Talking English, they made their way quietly to the harbor front and called a sampan. They looked like two belated English captains going out to their ships.

A half a mile out in the bay lay the John Dorset, ready to weigh anchor. My grandfather hailed, and, when the captain appeared, he climbed on board, leaving Aguado below in the boat. Grandfather drew the captain below and told him who the man was in the sampan, and what he wanted.

Capt. Higgins, of the John Dorset, was an old sea dog of the genuine Yankee type. He liked a man who had what he called "sand for ballast," as Luiz Berceo evidently had.

"Shiver my mainmast, but I'll take him," said Capt. Higgins. "He can have my cabin till we are well past Corregidor and out to sea."

This is about the end of the story. Aguado escaped safely to Hong-Kong. A year or two afterward, just before grandfather sold out his business and started home, he received a package from a Chinese port. It contained a beautifully-jeweled Malay kris with the name "Juan Aguado" upon the blade.—Detroit Free Press.

The Birth of Modesty.

"Swiggs has quit bragging."
"Why?"
"He says our country is so superior to all others that we ought to be ashamed to mention it."—Puck.

Webster's International Dictionary
Successor of the "Unabridged."

"Standard" of the U. S. Gov't Printing Office, the U. S. Supreme Court, all the State Supreme Courts, and of nearly all the School Books.
Warmly Commended by State Superintendents of Schools, College Presidents, and other Educators almost without number.
Invaluable in the household, and to the teacher, scholar, professional man, and self-educator.
THE BEST FOR PRACTICAL USE.
It is easy to find the word wanted.
It is easy to ascertain the pronunciation.
It is easy to trace the growth of a word.
It is easy to learn what a word means.
The Chicago Times-Herald says:—
Webster's International Dictionary in its present form is absolute authority on everything pertaining to our language in the way of orthography, orthoepy, etymology, and definition. From it there is no appeal. It is as perfect as human effort and scholarship can make it.
GET THE BEST.
Specimen pages sent on application to G. & C. MERRIAM CO., Publishers, Springfield, Mass., U. S. A.
CAUTION. Do not be deceived in buying small so-called "Webster's Dictionaries." All authentic abridgments of the International in the various sizes bear our trade-mark on the front cover as shown in the cuts.

AGENTS WANTED
In Every County to Supply the Great Popular Demand for
AMERICA'S WAR FOR HUMANITY
TOLD IN PICTURE
AND STORY
Compiled and Written by
SENATOR JOHN J. INGALLS,
Of Kansas
The most brilliantly written, most profusely and artistically illustrated, and most intensely popular book on the subject of the war with Spain. Nearly
200 Superb Illustrations from Photos.
taken specially for this great work. Agents are making $75 to $100 a week selling it. A veritable bonanza for live canvassers. Apply for description, terms and territory at once to
N. D. THOMPSON PUB. CO.
ST. LOUIS, MO., NEW YORK CITY 26 St.

WANTED—SEVERAL TRUSTWORTHY persons in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $18 a year and expenses—definite, bonafide, no more, no less salary. Monthly 75. References. Enclose self-addressed stamped envelope. Herbert E. Ross, Supt., Dept. M, Chicago.

If It's Worth Printing the Twice-a-Week Courier-Journal Will Print It.

And Every Democrat, Every Republican, Every Man, Woman or Child who can read will want to read it.

* * * * * "Meantime we prefer to take our chance with the conservative Democrats, fighting within the party, to reform it of its excesses, and to restore it to its better uses, than to pursue an Ignis Fatuus which, if it had been more real, would have resulted in the election, instead of the defeat, of the Free Silver Fusion in 1896, and which with singular unanimity, the voters have refused to follow. * * * The Courier-Journal is a Democrat, not a Republican; and it will under no circumstances or conditions pursue a policy whose only effect is to continue the Republican party in power."

The Twice-a-Week Courier-Journal is a Democratic paper, of six or eight pages, issued Wednesday and Saturday of each week. The Wednesday issue prints all the Clean News, and the Saturday issue prints Stories, Miscellany, Poetry, all matters of special interest in the home. It is edited by Henry Watterson.

Price $1.00 a Year.

You get 104 good papers of six or eight pages each, for $1—less than one cent a paper.

USEFUL PREMIUMS.

Are given Club Raisers, and good-paying commissions are allowed agents.

Daily Courier-Journal, 1 year, $6.00
Daily and Sunday, 1 year, 8.00
Sunday alone, 1 year. 2.00

Twice-a-Week Courier-Journal
And the
Buffalo Gazette
Both one year
For Only $1.30.

We have made a special clubbing arrangement with the Twice-a-Week Courier Journal and will send that paper and ours for the price named to all our subscribers who will renew and pay in advance, or to all new subscribers who will pay in advance. Sample copies of either paper sent free on application.

The Gazette.

DELANO, Wright Co., MINN.

Gold is known to exist in nine of the Philippines. The fact that so many of the islands have not been prospected will be a great attraction for adventurous Americans.

In Prussia 413 school children under 15 years of age have committed suicide within the space of ten years. Three hundred and thirty-seven of them were boys and 76 girls.

Maryland has revived an old state law providing that when one person kills another he must pay the family of the murdered man $5,000. It does not, however, prescribe a place for finding the $5,000.

Two new papers started in Manila are called "Freedom" and "American." Journals printed in Spanish are suspending, and Manila will henceforth get the latest news in the English language.

The Americans are the greatest travelers in the world. In the United States a train runs 13 miles annually for every man, woman and child in the country; in England, 8; in Germany, 4½; in Belgium, 3½.

The Aleutian islands number 150, the Hawaiian group 15 and the Philippines, according to one estimate, 1,400. A total of over 1,500 islands in the Pacific insures for Uncle Sam a commercial future in the region where the day begins.

Ours is the greatest producing and exporting nation in all the world. Hitherto we have held at best second place to Great Britain. This year, with our exports amounting to $1,230,000,000 we leave even Great Britain behind by more than $60,000,000.

The Mr. Knaak, of New York, who called the kaiser a "sheep's head" while in Berlin, and had himself thrown into jail upon a charge of lese majeste, has been acquitted on the ground that he was drunk. What a nice thing it must be to gain an international reputation for being drunk!

The orders issued for the last force of regulars to be sent to the Philippines direct that commissioned and noncommissioned officers be permitted to take their families with them on the transports. This signifies that the troops are not to make a flying trip, but will remain at their new post of duty for an extended period.

The official records of the rebellion, comprising 111 volumes with an aggregate of 118,216 pages, have just been completed. The work of the compilation and publication of those records has required 24 years, and the set undoubtedly constitutes the most expensive series of books ever published. Up to June 30 last there had been expended on the work $2,625,088.50, or something like $235,000 per volume.

The queen of Spain and the youthful king have had a pleasant little windfall. Some time since there died in Madrid an old gentleman named Soler, who bequeathed to the young king a legacy of 3,000,000 pesetas. The relatives of the testator opposed the will, but the queen, as her son's next friend, supported it, and has won her cause. It is stated that Soler was a natural son of King Ferdinand VII., and hence great-uncle of the young king.

The Garton Brothers, of England, are agricultural scientists likely to make a figure in the world. They have doubled the yield of Fife wheat by crossing it with an Asian variety, increased a barley head with two rows to six rows, crossed English and Japanese oats until 50 pounds to the bushel is the yield, and not only crossed white and red clover, but made red clover a perennial. The benefactor who produced two blades of grass where one grew before is distanced by these experiments.

No death sentence has been executed on any Yankee soldier in the late war for any of the crimes that are punishable by death under the rules of war. And President McKinley's commutation of the death sentence passed upon a private soldier for having murdered one of his comrades helps to preserve that remarkable record. It is interesting to note, by the way, that in this case the offender was a colored trooper, who killed a white man, and that the recommendation for mercy was made by Gen. Joe Wheeler, of Alabama.

In her annual report, Miss Reel, superintendent of Indian schools, makes a strong plea for the industrial feature of educational work among the Indians, and says that the rising generation may be made useful members of society by means of practical methods adapted to their needs and capacities. It now costs Uncle Sam upwards of $5,000,000 a year to take care of his Indians, and that the coming generation of red men may be educated so that they will be self-supporting citizens is a matter of great importance.

It is not often that a man returns home after he is officially dead, but Leonard Wood, of the Sixth Massachusetts volunteers, has just had that experience, and has even seen a little monument erected to his memory in his home town of Passiac, N. J. He enlisted with a Massachusetts regiment, went to Porto Rico, and caught the yellow fever. Through a mistake he was officially reported as dead, but the other day, "just to surprise the folks," he slipped up to the front door and burst into the room with a hearty yell. It was a surprise indeed.

The resignation of Cornelius Bliss as secretary of the interior makes the fifth change in the cabinet during the present year. John W. Griggs, of New Jersey, took the place of McKenna, attorney-general, upon the latter's appointment to the supreme court in January; Charles E. Smith, of Pennsylvania, that of Gary, postmaster-general, in April; W. R. Day, of Ohio, that of Sherman, secretary of state, in the same month; and John Hay that of W. R. Day in August. But four members of the original cabinet remain—Gage, treasury; Alger, war; Long, navy; Wilson, agriculture.

A WEEK'S HISTORY

The Important Happenings of a Week Briefly Told.

IN ALL PARTS OF THE UNION

All the Latest News of Interest from Washington, From the East, the West and the South.

THE LATEST FOREIGN DISPATCHES

FROM WASHINGTON.

Maj. E. G. Rathbone, of Ohio, will have charge of the postal service in Cuba.

The president appointed Ethan A. Hitchcock, of St. Louis, Mo., now ambassador to Russia, as secretary of the interior.

Very encouraging reports of the condition of affairs in Manila and Porto Rico reached the war department from the officers commanding the troops in those departments.

An army bill prepared by the house military committee provides for a standing army of 30,000 men, with an auxiliary force of 50,000 for present exigencies.

In his report Robert B. Porter, special commissioner for the United States to Cuba and Porto Rico, says that the military government is running smoothly, and that Santiago is rapidly becoming a healthy city.

The government has decided to muster out all the volunteers in the Philippines as fast as they can be replaced with regulars.

It is shown by the preliminary report of the Nicaragua canal commission that it will require about $135,000,000 to build the canal.

A counterfeit one-dollar silver certificate has been discovered. It is of the series of 1896, Bruce, register, Roberts, treasurer.

Great efforts are being made to put enough American troops in Cuba to meet any call upon them through the speedy evacuation of the Spanish garrisons.

It has been determined by the government to hoist the American flag over Wake island, the westernmost of the Hawaiian group.

After many years of faithful service to his country Rear Admiral Francis M. Bunce has retired. This makes Rear Admiral George Dewey the ranking officer on the active list.

The president will submit the peace treaty to the senate on January 4

THE EAST.

The death of Patrick Haggerty, who would have been 109 years old January 17, occurred near Malone, N. Y.

In Philadelphia Rear Admiral Schley was presented with a sword valued at $4,200 from citizens of New Jersey, Pennsylvania and Delaware.

In New York, Brooklyn, Philadelphia and other eastern cities many deaths from grip were reported.

In Boston Miss Margaret Dodge, a prominent literary worker, was found dead in a pew in a church. She had taken poison.

A company in Pittsburgh has received a contract from the United States government to re-equip Morro castle in Havana.

During the week ended on the 23d the exchanges at the leading clearing houses in the United States aggregated $1,673,030,023, against $1,691,765,298 the previous week. The increase compared with the corresponding week in 1897 was 25.7.

In the United States there were 258 business failures in the seven days ended on the 23d, against 261 the week previous and 292 in the corresponding period of 1897.

Dispatches show that more business is being done now by the merchants and manufacturers of the United States than at any previous time in the history of the country.

With Admiral Sampson and wife on board the United States cruiser New York from Havana arrived in New York.

From Paris the American liner St. Louis arrived in New York, having on board the United States commissioners who concluded the treaty of peace with Spain.

Fire destroyed 11,000,000 feet of lumber at Burlington, Vt., belonging to the Shepard & Morse Lumber company of Boston, the loss being $250,000.

Mrs. Christina Hoob, 92 years old, jumped from a window in Philadelphia and was killed.

WEST AND SOUTH.

Deputy Sheriff Frank E. Nye was forcing an entrance to a residence in Chicago when he was shot and killed by Thomas E. Crosby, aged 13 years.

At her home near Galena, Ill., Mrs. John Quark, aged 100 years, died.

Bound for Havana the third and last battalion of the Tenth infantry, 443 strong, sailed from Charleston, S. C.

Because of family troubles Mrs. Olive Barnes, aged 20 years, wife of C. P. Barnes, a prominent attorney in Woodstock, Ill., committed suicide with poison.

In Fort Scott, Kan., an ordinance passed by the city council puts a stop to all sorts of business on Sunday, including preaching in churches by pastors for pay.

The death of Herman Grunberg occurred at the Pacific Hebrew home in San Francisco, aged 102 years.

At Oakfield, Wis., Mrs. William Tanzer killed her six-months-old babe with strychnine and then took poison herself. Temporary insanity was the cause.

One of the prominent and leading citizens of Ottumwa, Ia., Robert Fellows, dropped dead while he and his wife were celebrating their fiftieth wedding anniversary.

At the age of 76 years Ithomar C. Sloan died at his home near Janesville, Wis. In 1862 he was elected a member of congress and was reelected in 1864.

Jeff Bolton (colored), charged with barn burning, was lynched by a mob near Harmony Grove, Ga.

Burglars entered the American national bank at Lima, O., and carried off $18,000.

At Belleville, Ill., an incendiary fire destroyed the plant of the News-Democrat, the loss being $12,000.

At Covington, Ky., Joseph Johnson shot Mrs. James Anderson, his paramour, and himself.

Because of family troubles William Shaver, a farmer living near Greenfield, Mo., shot and killed his wife and then shot himself dead.

In their home near Hillsboro, Tex., Mrs. Isabel, her daughter, Mrs. Ossie Malone, and Mrs. Malone's infant were burned to death.

FOREIGN INTELLIGENCE.

The well-known composer and pianist, Sebastian Bach Mills, died in Wiesbaden, Germany, aged 60 years.

The programme was finally agreed upon at a joint meeting in Havana of the United States and Spanish military commissioners for the exchange of flags on January 1 at noon.

Seven additional military postal stations established in Cuba are as follows: Pinar Del Rio, Guanajay, Mariel, Trinidad, Las Tunas, Sancti Spiritus and Cardenas.

At Malate the first American flag over a Philippine educational institution was raised over the schoolhouse.

Advices say that several hundred Montenegrin soldiers who were overtaken by a snowstorm in the Lara pass in Austria were frozen to death.

Owing to the difficulty of formulating a constitution the so-called congress of the revolutionary government of the Filipinos has adjourned.

The entire population of the Bemini islands, the western group of the Bahamas, is threatened with famine.

Spanish troops are evacuating Havana so rapidly that it is almost impossible for the Americans to provide promptly for the preservation of peace.

An expedition that was sent out by the Swedish government, in search of Andree, the arctic explorer, has returned to Stockholm unsuccessful.

LATER NEWS.

Orders have been cabled by the navy department to Captain Barker of the Oregon, the senior and commanding officer of the little fleet of battleships and supply vessels now at Callao, to remain at that port until Jan. 10 next.

The British coasts were swept by a heavy gale the 27th.

Major General Keifer and the headquarters of the Seventh Army corps, sailed for Havana from Savannah.

Hon. Justin S. Morrill, senior United States senator from Vermont, died the morning of the 27th, in the 88th year of his age, after an illness of less than a week. He was elected United States senator six successive times. He was the author of Morrill's tariff of 1861, which was the basis of all the tariff legislation of war times. In 1864 he became chairman of the committee on ways and means, the principal committee of the house, and at that critical time of especial importance.

A prisoner arraigned in the courts of New York city was identified as the Greek brigand Soteras de Santeras, for whom the Greek government has offered 8,000 francs dead or alive.

Mrs. Charles Hagerman and three children were drowned in the St. Lawrence river, north of Watertown, N. Y. The children broke through the ice and Mrs. Hagerman perished trying to save them.

Admiral Dewey asks for crews to man the three captured Spanish vessels which are to be refitted and added to his fleet.

The citizens of Havana read in their morning paper the 27th an order from Captain General Castellanos permitting the display of Cuban and American flags inside the lines of Spanish jurisdiction, and soon the stars and stripes and the lone star of Cuba floated over many buildings in the heart of the city and in streets where the Spanish soldiers still kept guard.

The retirement of Admiral Bunce placed Admiral Dewey at the head of the American navy.

Robert G. Wells, connected with the Nicopol-Mariopol mining and metallurgical company, of Mariopol, Russia, is in Pittsburg to place orders for machinery aggregating $1,000,000 for mammoth mills to be erected at Marlopol on the sea of Azof.

Commodore J. W. Phillips will probably succeed Admiral Bunce as commandant of the Brooklyn navy yard.

L. M. Howland of New York, is appointed as director of customs at the Paris exposition.

MINOR NEWS ITEMS.

Free milling gold ore worth from $25,000 to $35,000 a ton has been found near Rat Portage, Ont.

The Midland Railway company of England, has ordered 20 freight engines in Philadelphia and New York.

James S. McIndoo, the "Minnesota giant," died at Madela. He was 18 years old and seven feet two inches tall.

Galileo's original manuscript treatise on the tides has been discovered in the vatican library. It was completed in 1616.

The discovery of gold five miles southwest of Canyon City, Col., has caused a new town to spring up in a night, as it were.

Ex-Secretary of State John Sherman says the administration was negotiating with Spain for the purchase of Cuba when the war feeling rose and swept everything before it.

Ex-Gov. Sprague, of Rhode Island, when recently in Washington met his two daughters for the first time in 18 years, during which time they have lived abroad and in the west.

By direction of the president, Brig. Gen. M. V. Sheridan, United States volunteers, has been assigned to temporary command of the department of the lakes, relieving Brig. Gen. Bacon.

William Steele, former cashier of the wrecked Chestnut Street national bank, Philadelphia, was sentenced to six years and six months' imprisonment and to pay a $300 fine. He was convicted of conspiracy.

Thomas Jones, living near Greer, W. Va., attempted to light a fire with crude oil. An explosion occurred and the clothing of his twin daughters, aged six years, ignited. Jones was too badly burned to assist them and the children were burned to death.

An unusual wedding took place near Meldrim, Ga., at the home of F. M. Goodson. His two daughters, Rosalie and Ruthie, were married to two brothers, Charles P. and Elliott A. Morgan. The father of the young men, Rev. J. A. Morgan, performed the ceremony.

There is great excitement at Spokane, Wash., over repeated rich strikes in Republic camp on the Colville reservation. It is now demonstrated that the gold belt is at least seven miles long and three miles wide, and in that area rich ore chutes are being discovered almost daily.

OHIO BANK ROBBED.

The American National, of Lima, Is Looted of $18,000 in Gold and Currency—Leave No Clew.

Lima, O., Dec. 27.—The American national bank was robbed Sunday night of over $18,000. The stone vault was entered without the use of tools or destroying the time lock. The bank is at Main and High streets, the most prominent corner in the city. When the janitor went to the bank Monday morning he discovered the outside door of the vault open. The officers were notified, and an investigation was made which disclosed that the other doors were locked, but that the vault had been looted of all its paper money and gold. There were two doors to the vault, the outer one being operated by the time lock. The inner door was locked with a combination lock. When this was opened by the officers a large sack containing $1,000 in silver, done up in packages, was found on the chair, where it had been left. Not a dollar of silver had been taken, although several sacks containing hundreds of dollars more were found on top of the safe. Saturday night about $16,000 was deposited in the vault. This was stolen, as well as about $2,000 which had been thrown on top of the safe after it had been locked, the money having come in late.

There is nothing for the detectives to work on. The manner in which the robbery was done demonstrates, they say, that it was the work of experts. There was not a scratch left on the vault and nothing was molested except the money that could be easily carried away. On top of the safe inside the vault was a large number of drafts signed in blank. They were not taken.

WAKE ISLAND.

Uncle Sam Will Take Possession of It for Use as a Station for New Cable.

Washington, Dec. 24.—The government has determined to hoist the flag over another island far out in the Pacific ocean, and orders were sent out late Friday afternoon to the commander of the Bennington, Capt. Taussig, to proceed at once to take possession in the name of the United States government of Wake island, lying in latitude 19 north, longitude 166 east. It is distant about 2,000 miles from Nihau, the westernmost of the Hawaiian islands, and 1,300 miles east from Guam. It is almost in a direct line between these possessions of the United States and is admirably adapted for use as a station for a Pacific cable to connect the Philippines with Hawaii and the United States. It is about three miles in length and incloses a lagoon of salt water. The average height of the island is eight feet above high tide. It is scarcely capable in itself of sustaining life, but it is expected that a cable station can be maintained without difficulty by the erection of a condenser to supply fresh water. Some station in this locality is deemed to be absolutely necessary to the maintenance of a cable, and for that reason the American peace commissioners at Paris endeavored to secure one of the Caroline islands, but without success. Wake island is said to be by right already American territory, for in 1851 Admiral Wilkes surveyed the place and asserted title. It is not inhabited, so far as known at the present time, though in the past some guano gatherers have temporarily lived on the island.

A MOTHER'S AWFUL CRIME.

Mrs. Tanzer, of Oakfield, Wis., Poisons Her Baby and Cuts Her Own Throat.

Fond du Lac, Wis., Dec. 27.—Oakfield, this county, was the scene of a shocking tragedy, in which Mrs. William Tanzer killed her six-months-old babe with strychnine and took the poison herself. This failing to end her life, she secured her husband's razor and cut her throat. The husband was away at the time. The couple were young and Tanzer says the relations of himself and wife were happy. She had never shown symptoms of insanity and there was nothing so far as he knows to cause her to commit her terrible act. Temporary insanity, it is thought, may have caused it.

Verdict Causes Indignation.

San Francisco, Dec. 24.—An attempt has been made to arouse the people of this city to violence as a result of the acquittal of Walter Rosser, the Tennessee soldier who killed Henry Hildebrand. Flaming posters bearing the following inscription were conspicuously displayed on billboards Friday: "Tar and feathers for the 12 jurors who acquitted Murderer Rosser." Chief of Police Lees does not fear trouble, but says that he will make an effort to have Rosser indicted for the attempted murder of Willie Lynch, whom he fired at when he killed Hildebrand.

Christmas in Manila.

Manila, Dec. 27.—Christmas was generally observed among the Americans here with special religious services by Protestants and Catholics alike. The services for the Colorado and Pennsylvania regiments were conducted by Chaplain Harris, of the former. Father McKinnon preached a sermon to the California regiment, though the usual midnight mass was not held, as the archbishop of Manila refused his sanction. The city was crowded with Filipinos, holiday making.

Sold to the Trust.

Canal Dover, O., Dec. 27.—The Black Plate plant of the Reeves Iron company, which manufactures plate for the tinning plant here, owned by Philadelphia capitalists, has been sold to the American tin mill trust, recently organized, with headquarters at Chicago. Negotiations are also pending for the sale of the tinning plant.

New Extradition Treaty.

New York, Dec. 23.—A dispatch to the Herald from Mexico City says Ambassador Clayton and the minister of foreign affairs, Senor Marisial, have agreed upon the form and substance of the new extradition treaty between the United States and Mexico, which is thought to be acceptable to both governments.

Illinois Teachers.

Springfield, Ill., Dec. 27.—The Illinois State Teachers' association will open its forty-fifth annual session in representatives' hall in the statehouse this morning. The meeting will last three days. Indications point to a prosperous meeting both in attendance and general interest.

SUBMITS HIS REPORT.

Robert B. Porter, Special Commissioner to Cuba, Returns from the Island.

Washington, Dec. 23.—Robert B. Porter, special commissioner for the United States to Cuba and Porto Rico, has returned from Santiago de Cuba and has submitted his report to the secretary of the treasury. While in Porto Rico Mr. Porter held public hearings, and all persons interested in the welfare of the island were invited to submit statements and give oral testimony. The chamber of commerce, representing the commercial and industrial interests of the province, responded. The machinery of the military government, Mr. Porter says, is running with a fair degree of smoothness, and the men responsible for it understand their business thoroughly. The disagreeable smells of the tropical Cuban city, the report says, are less pronounced in Santiago de Cuba, while whitewash, limewash, painting and all sorts of disinfectants have deodorized the surrounding atmosphere and made the old town quite habitable.

The law courts, which were abolished when Gen. Shafter took the city, have been reorganized. The supreme court, the report continues, is composed of carefully selected Cuban judges, the appointees nominated wholly on account of legal attainments, the Bar Association of the province having been consulted as to the character and qualifications of the new judges. The Spanish, when in possession in Cuba, not only assumed absolute control of the judiciary, but of the municipal government, the larger portion of the taxes raised for municipal purposes being diverted, with the other revenues, in channels, which, says the report, either led to Spain or into Spanish pockets.

Mr. Porter advises that these taxes hereafter must be used exclusively for local purposes, and, as far as may be deemed practicable, that they be collected and disbursed by properly constituted local authorities.

The internal, industrial, professional, licensing and other miscellaneous taxes have so far been remitted in this part of Cuba, but the authorities are now preparing to enforce them. Now that the customs tariff has been disposed of, Mr. Porter recommends that an immediate scheme be prepared for the levying and collecting of internal revenue for the entire island. The question of separating these taxes from purely municipal taxes should also be considered.

The large amounts of delinquents during the last three years, which have amounted to about $6,000,000, was, of course, due to war. In normal times there are $4,000,000 or $5,000,000 of revenue that must not be overlooked, revenue which, if properly and economically employed, would aid in the industrial rehabilitation of Cuba.

OUR SOLDIER DEAD.

Bodies of Those Buried on Montauk Point to Be Reinterred in a New York Cemetery.

New York, Dec. 27.—Arrangements are complete for disinterring the bodies of the soldiers who were buried in the improvised cemetery at Camp Wikoff, Long Island. Lieut. William F. Chase, of the Sixth artillery, will supervise the work. Forty coffins were shipped Monday to Montauk. It was at first thought the bodies would be removed to the national cemetery at Washington, but they will be buried in the military grounds in Cypress Hill cemetery, in East New York. At the head of each grave at Montauk Point was placed a bottle, in which was sealed a slip of paper with the name, rank, company, regiment and all particulars obtainable concerning the dead. By this means there will be no trouble identifying the bodies. There are about 200 dead buried in the cemetery at Montauk, and it will probably take until the middle of January to complete the work of removal.

COURT MARTIAL FOR MILES.

Commissary General Eagan Is Said to Be Preparing Charges Against Him.

Washington, Dec. 24.—Commissary General Eagan is much wrought up over the testimony of Gen. Miles in regard to the so-called "embalmed" beef, and has demanded a certified copy of the general's evidence. He intends, if possible, to show before the commission the charges made by the commanding general are false, and then proposes to bring the matter to the attention of the secretary of war and the president. The commissary gen-

On November 3 last Tyler shot and seriously wounded his wife and then made an ineffectual attempt to suicide. His last trial was to have taken place January 13. The coroner's inquest will take place Monday.

Zola in England.

London, Dec. 27.—The Paris correspondent of the Times gives an interesting account of the way in which Emile Zola escaped to London after the sentence imposed upon him last July in the trial on the charge of libel, brought against him and M. Perroux, managing editor of the Aurore, by the officers of the Esterhazy court-martial. According to M. De Blowitz, M. Zola has lived at various country places in England quietly ever since. It appears that his Paris friends had the greatest difficulty to persuade him to seek refuge in England, the course they considered best for the interests of Dreyfus revision.

Duel in the Street.

Little Rock, Ark., Dec. 27.—At Harrison, Ark., Frank Pace, ex-prosecuting attorney, and his brother Henry met M. L. Aderholtz, a prominent stockman, on the street and a duel ensued in which Aderholtz was mortally wounded. The trouble grew out of a difficulty a few days ago between Aderholtz and Capt. Pace, father of the brothers, in which Capt. Pace was dangerously shot and a bystander killed by a stray bullet.

A Gigantic Consolidation.

Pittsburgh, Pa., Dec. 23.—The gigantic consolidation of the local gas, light and heating companies was consummated Thursday. The capital invested exceeds $26,000,000. An idea of the incorporation of the combine will be appreciated when it is stated that one company will in the future control the gas, light and heating supply of Pittsburgh and Allegheny and will have absolute power to make, raise or lower the price to all consumers.

EVACUATION OF CUBA.

The Event Will Take Place at Noon January 1 — The Formal Surrender.

Havana, Dec. 24.—At a joint meeting of the United States and Spanish military commissioners Friday the programme was finally agreed upon for the exchange of flags on January 1 at noon. Just before 12 o'clock the American war vessels will fire a salute of 21 guns in honor of the Spanish flag. Promptly at 12 o'clock the Spanish flags on the various public buildings will be lowered, and immediately thereafter the stars and stripes will be hoisted over El Morro and the public buildings of the city, while Spanish artillerists at Cabannas fortress will salute the American flag with 21 guns, Spanish warships in the harbor participating the the salute. At the same hour the Spanish troops, if any then remain in the city, will be paraded in barracks, and will render proper salute to the American forces passing.

Just before noon the American and Spanish commissioners, Gen. Jiminez Castellanos, the Spanish captain general, and the American ranking officer in Cuba, Maj. Gen. John R. Brooke, if he arrives in time, and otherwise Maj. Gen. Lee, will assemble at the palace. The Spanish commissioners will then surrender the government to the United States commissioners, who will immediately transfer it to the American general commanding. After this the various functionaries will remain awhile to receive those who may wish to pay their respects to the incoming authorities.

THE NICARAGUA CANAL.

Will Take About $135,000,000 to Build It—Preliminary Report of Canal Commission.

New York, Dec. 24.—The preliminary report of the Nicaragua canal commission, consisting of Gen. Haines, Admiral Walker and Prof. Haupt, has been compiled and will be read before the senate committee either during the Christmas recess of congress or immediately afterward.

This report will give many details of construction in regard to the proposed route, and will give a close figure on the cost of the entire undertaking, as far as human ingenuity can foresee.

A summary of these costs has been made out in sections.

A total of 115,000,000 cubic yards of all kinds of excavation will be needed to the harbor at Brito, and, allowing 9,000,000 cubic yards for dredging at the western division, the total estimate will come to nearly 125,000,000 cubic yards, exclusive of all dams and embankments. It will be seen that $135,000,000 will be a conservative estimate of the entire cost of the canal, and this almost agrees with that of Gen. W. Ludlow's report of 1896.

WOMAN BUYS A TOWN.

Village of Glen Eyre, Pa., Sold at Auction to Mis Mary Carpenter for $7,500.

Binghamton, N. Y., Dec. 27.—Mrs. Mary T. Carpenter, of Scarsdale, N. Y., bought for $7,500 a village at auction last Friday, and is probably the only owner of a village corporation in the United States, and possibly in the world. The village is Glen Eyre, in Pike county, Pa., on the line of the Honesdale branch of the Erie railroad. It covers 842 acres of land, and consists of a dozen houses, railroad station, post office, dry goods store, storehouse, blacksmith shop, sawmills, stone yard and factory buildings. The property was originally owned by John Deeming and his wife, who gave a mortgage, which was foreclosed. The amount of the mortgage was $6,000. A crowd attended the sale, and the bidding was spirited, but none of the villagers succeeded in raising enough money to buy the whole. The borough was knocked down to Mrs. Carpenter for $7,500.

MARINE LOSSES.

Those on the Great Lakes Heavier Than Ever Before — Estimate Places Total at $2,600,000.

Chicago, Dec. 23.—Marine losses during the season of 1898 were much greater than during any previous season on the lakes. On the total losses, no two underwriters will make an estimate within $500,000 of each other. The general average places the aggregate loss at $2,600,000. Vesselmen protest that these figures are too high, and say the insurance companies do not lose heavily. Lake Michigan has been the scene of the greatest number of serious losses, with Lake Superior as second. Lake Huron was remarkably free from disaster, while Lake Ontario produced a larger number of serious losses than Lake Erie. The number of boats destroyed is 56; aggregate tonnage, 29,194 tons.

In Danger of Starvation.

Havana, Dec. 27.—News that famine threatens the entire population of the Bemini islands, the western group of the Bahamas, is brought here by the Spanish mail steamer Alicante. Capt. Olive said that when the Alicante was passing through the Old Providence channel she was signaled from a small sailboat, in which were three famine-stricken men. The men told him that severe storms had recently swept over this group of small islands, causing the loss of many lives, the destruction of growing crops, and the wreck of all the storehouses.

Presents from Manila Held.

St. Paul, Minn., Dec. 27.—Something over 100 packages of mail from Manila, supposed to contain souvenirs of the Philippines from the Thirteenth Minnesota volunteers, sent probably as Christmas presents for friends and relatives in this city, are being held at the local post office for a ruling by the treasury department as to whether duty must be collected. The packages have just arrived and were held at the request of Collector of Customs Peterson.

Bunce's Retirement.

New York, Dec. 24.—On Christmas day Rear Admiral Dewey will become the ranking officer in active service of the United States navy. Rear Admiral Bunce commandant of the navy yard, now holds that place, but as he has reached the age limit he will, while still remaining commandant of the yard until his successor there is appointed, be officially retired.

Rheumatism

Is caused by acid in the blood. Hood's Sarsaparilla neutralizes this acid and cures the aches and pains. Do not suffer any longer when a remedy is at hand. Take the great medicine which has cured so many others, and you may confidently expect it will give you the relief you so much desire.

Hood's Sarsaparilla

Is America's Greatest Medicine. Price $1. Prepared by C. I. Hood & Co., Lowell, Mass.

Hood's Pills cure sick headache. 25 cents.

TRADE-MARK.

BAKER'S CHOCOLATE

Celebrated for more than a century as a delicious, nutritious, and flesh-forming beverage. Has our well-known

YELLOW LABEL

on the front of every package, and our trade-mark

"La Belle Chocolatiere"

on the back.

ESTABLISHED 1780.

A SURPRISE PARTY.

It Came to a Man Who Used to Make Himself Solid with the Waiters.

"Brown had received a setback that he will not recover from for some time," said Dodson, as he sipped his coffee. "I honestly believe that he has corrupted every decent waiter in the city by his outlandish system of overtipping, making it almost impossible for a modest tipper to get any service at all.

"He had a habit of starting with the head waiter, and tipping them all down the line. I don't know whether he had ever tipped the dishwashers or not, but I have my suspicions that he did.

"The result has been that the waiters looked upon him as a sort of Indian nabob, or a returned king from the Klondike, and would pay no attention to anyone else when he was present.

"You might complain and storm all you liked, but it would have no effect. When Brown entered everything else was dropped until the imaginary specks of dirt were wiped from the immaculate table cloth and spotless china, and Brown seated in all his solitary glory at his favorite place, which was always reserved for him. But all that is changed now, and he is looking around for some anti-tipping society to join."

"Find a fly in his soup?" asked Smith.

"Worse than that. All his life Brown has been trying to get money enough ahead to build himself a home, and now he has discovered that the house he is renting is owned by his former head waiter."—Detroit Free Press.

Swift Retribution.

There was a wicked leer in Meandering Mike's eye as he saw the little girl coming out of the restaurant side door, carrying a small tin pail. "The idea!" he exclaimed to his comrade, "of incouraging sich luxuries in de young." "It's our duty to stop it," was the rejoinder. Before the little girl could turn the corner the tramp loomed up before her and exclaimed: "I'm sorry, lady, but I couldn't see ye carryin' dat pail any furder. It's agin me gallantry." The little girl began to cry. Mike seized the bucket and in a moment had the bottom of it pointed toward the blue sky. The effect was volcanic. Foam flew in all directions. His one ejaculation solved the mystery: "Soap suds!" And when the restaurant proprietor came out and desired to know why his children could not blow soap bubbles without being interfered with the victim of poetic justice had not a word to say.—Washington Star.

Advance of Science.

"I see you've got your lightning rod up for office again," said the friend of the candidate.

"The lightning rod," replied the candidate, who was a matter-of-fact sort of man, "is one of the exploded humbugs of the past. What I'm trying to do is to get my trolley poles up for the office."—Chicago Tribune.

RELIEF FROM PAIN.

Women Everywhere Express their Gratitude to Mrs. Pinkham.

Mrs. T. A. WALDEN, Gibson, Ga., writes:

"DEAR MRS. PINKHAM:—Before taking your medicine, life was a burden to me. I never saw a well day. At my monthly period I suffered untold misery, and a great deal of the time I was troubled with a severe pain in my side. Before finishing the first bottle of your Vegetable Compound I could tell it was doing me good. I continued its use, also used the Liver Pills and Sanative Wash, and have been greatly helped. I would like to have you use my letter for the benefit of others."

Mrs. FLORENCE A. WOLFE, 515 Mulberry St., Lancaster, Ohio, writes:

"DEAR MRS. PINKHAM:—For two years I was troubled with what the local physicians told me was inflammation of the womb. Every month I suffered terribly. I had taken enough medicine from the doctors to cure anyone, but obtained relief for a short time only. At last I concluded to write to you in regard to my case, and can say that by following your advice I am now pefectly well."

Mrs. W. R. BATES, Mansfield, La., writes:

"Before writing to you I suffered dreadfully from painful menstruation, leucorrhœa and sore feeling in the lower part of the bowels. Now my friends want to know what makes me look so well. I do not hesitate one minute in telling them what has brought about this great change. I cannot praise Lydia E. Pinkham's Vegetable Compound enough. It is the greatest remedy of the age."

A WATCHWORD FOR THE NEW YEAR.

WHEN you find a certain lack
In the stiffness of your back
At a threatened fierce attack,
Just the hour
That you need your every power,

Look a bit
For a thought to baffle it.
Just recall that every knave,
Every coward, can be brave,
Till the time
That his courage should be prime—
Then 'tis fled.
Keep your head!
What a folly 'tis to lose it
Just the time you want to use it.

When the ghost of some old shirk
Comes to plague you, and to lurk
In your study or your work,
Here's a hit
Like enough will settle it:
Knowledge is a worthy prize;
Knowledge comes to him who tries—
Whose endeavor
Ceases never.
Everybody would be wise
As his neighbor,
Were it not that they who labor
For the trophy creep, creep, creep,
While the others lag or sleep;
And the sun comes up some day
To behold one on his way
Past the goal
Which the soul
Of another has desired,
But whose motto was: "I'm tired."

When the task of keeping guard
Of your heart—
Keeping weary watch and ward
Of the part
You are called upon to play
Every day—
Is becoming dry and hard—
Conscience languid, virtue irksome,
Good behavior growing worksome—
Think this thought;
Doubtless everybody could,
Doubtless everybody would,
Be superlatively good,
Were it not
That it's harder keeping straight
Than to deviate;
And to keep the way of right,
You must have the pluck to fight.
—St. Nicholas.

FOR TOMMY.

IT WAS New Year's eve, but the tramp did not know that. He was tired and hungry. He had been walking all day and had not been well treated. At many houses he had been turned away without ceremony; at others work had been offered. Only one woman had taken him in and fed him for nothing, and she had given him soda bread which always disagreed with him, and cold tea. The profession was not what it had been cracked up to be, thought the tramp, and he began to think that the burglar had the best of it after all. He had always called himself an honest man, and he now and then split wood, when he could not get food without, but, after all, was honesty the best policy? He knew burglars who had their little houses as neat and pretty as anyone would ask to see. Texts round the walls, too, "God bless our Home," and all that. The tramp liked a pretty text This very afternoon he had been walking with a burglar—they separated when they came to the village in mutual though friendly distrust—who was going home with a New Year's present for his little boy—a gold watch it was. He had taken it from an old curmudgeon who kept it locked in a box doing no good to anybody. That burglar was going home to have a cozy time with his wife and child, and here was he, a tramp, an honest man, and not able to get a bite of supper. Decidedly, tramping was not what he had been led to believe it. He thought he should try stealing, after all; he stopped, full of thought, and looked around him.

A bright light shone from the window of a cottage hard by; the blind was up; the tramp stepped to the window and looked in. A neat, bright, cozy kitchen, a little old woman busy over the stove. No sign of masculine presence anywhere.

"I'll try here!" said the tramp.

He opened the door without knocking and went in. The little woman looked up. "Good evenin'!" she said. "I didn't hear ye knock. What can I do for ye?"

"I want some money," said the tramp hoarsely, for he had made up his mind now.

"Well, I haven't got a cent!" said the little woman, "and if I had I wouldn't be fool enough to give it to you. So there it is, you see! But you can do something for me!" she added, brightly. "You've come just in the nick of time. I want this soup taken to a sick boy round in the next street. His mother is sick, too, and can't cook things nice as he ought to have 'em; hasn't means to get 'em, neither, I expect; and I set out that he should have something good and hot to go to sleep on and begin the new year with nourishment inside him."

All the time she was talking the little woman was busy getting out a bowl and cover and finding a clean napkin.

"Here!" she said, and she poured some of the steaming broth into a small cup. "See if that ain't good! I guess likely 'tis."

The tramp glowered at her, but drank the broth and said it was good

"Then you take this!" said the little woman. "Go round the corner to the fourth white house and say it's for Tommy. What ye waitin' for?"

"I didn't come here to do errands!" said the tramp.

"Yes, you did!" said the little woman, sharply. "That's just what you come for. I've been waitin' the past half hour for the Lord to send some one—I can't go out at night myself, fear of the asthmy—and He's sent you. Reckon He knows what He's about!"

She pushed the tramp out gently but decidedly and shut the door on him.

"Well, I swan!" said the tramp.

He carried the bowl safely to the fourth white house from the corner. Once, indeed, he stopped on the way and muttered to himself.

"Tommy!" he said, and his tone expressed deep injury. "You'd think they might have called him William, or something else. There's names enough, you'd think, without hittin' on Tommy. But that's the way! A man don't have no chance!"

A horse and buggy stood before the white house, and when he knocked the door was opened by a short, square man with "doctor" written all over him.

"What's this?" asked the doctor.

"Soup!" said the tramp, "for Tommy!"

"Who sent you?" asked the doctor. "Old woman, brown house round the corner? All right! If she sent you I suppose you are a respectable fellow. Just jump into my buggy and drive to 140 Gage street! Give this note to my wife—Mrs. Jones—and bring back the medicine she will give you. Hurry, now! I can't leave this boy, and I've been waiting half an hour for somebody to come along."

He nodded, and shut the door.

"Well, I swan!" said the tramp again.

He pocketed the note and drove rapidly away. He did not know where Gage street was, but a few questions put him on the right track, and after a drive of some minutes he drew up before a neat white villa standing back among shrubberies.

A lady answered his ring. She began to speak before she saw him. "Why, John!" she cried. "Did you forget your key? I heard the buggy wheels — O, mercy! Who is this?"

The tramp gave her the note, which she read quickly.

"Yes," she said, "O, certainly! I will get them at once. And while you are waiting"—she looked at the tramp, doubtfully. "The doctor sent you—it must be all—I wonder if you would be so very obliging as to look at the furnace for me? Our man is gone off; I don't know where he can be, and I am sure there is something wrong. The house is cold as a barn, and I can't leave the baby more than a moment, and my girl is sick. If you would be so kind!"

She showed him the cellar door and ran to get the medicine.

The tramp stumped down the cellar stairs, shook the furnace thoroughly, put coal on and shut it up.

When he went up the fire was burning well, and the doctor's wife was waiting for him with a packet and a cup of hot coffee.

"You must be cold," she said. "And I am so much obliged. I cannot imagine where Thomas can be."

"You're a lady, mum," said the tramp.

On the way back he was hailed by a woman who came to her gate with a shawl over her head.

"Say, mister, was you goin' anywheres near the post office?"

"SAY IT'S FOR TOMMY."

"Most probably I was," said the tramp. "I'm in the delivery business to-night."

"Then if you'd post this letter for me I'd be a thousand times obliged to you. It's to my son, and he'll fret if he don't hear from me New Year's day. Thank you, sir! I hope your mother feels comfortable about you this cold night."

The tramp winced at this. He said nothing, but took the letter and went.

As he drove by a street lamp a rough voice called to him to stop. He checked the horse, and was aware of the burglar with whom he had walked and talked a few hours before.

"Hello, pal!" said the burglar. "You're in luck! Seems to me you was the feller that was goin' to stay an honest man, was you? And got a team a'ready! That's smart business. Gimme a lift!"

The tramp grunted and shook his head.

"I'm on an errand," he said, "for a sick child."

"Sick granny!" said the burglar. "You go shares or I'll give you up."

He grasped the horse's bridle as he spoke, and his looks were ugly enough.

"All right," said the tramp. "Jump in."

He threw back the robes and held out his hand. The burglar left the horse's head and was in the act of springing into the buggy when a well-planted blow sent him sprawling on his back in the road.

The tramp drove on rapidly. "Some folks ain't no sense of what's right and fittin'," he muttered. "There's a time for everything. That's Scripture."

He found the doctor waiting at the door of the white cottage.

"Sharp's the word!" said the doctor. "I was getting uneasy, my man."

"So was I," said the tramp. He explained that the hired man was gone and the lady had asked him to see to the furnace.

"Gone, has he?" said the doctor, and his face darkened. "Then that's the last time. He needn't come back, the tipsy rascal."

Again he looked keenly at the tramp, who was shifting a buckle of the harness in a very knowing way.

"Know anything about horses?" he asked.

"Reckon," said the tramp.

"Who are you, anyhow?" asked the doctor.

"Well, I was wonderin'," said the tramp. "I took care o' horses five years. I been sick, and since then I been trampin' a spell. To-night I started out to be a burglar, but I ain't had no chance. I might as well go back to work again and done with it."

"I think you might!" said the doctor. "Come in and help me with this boy. He's pretty sick, and his mother's not much better"

"Well, it's all in the night's work," said the tramp. "I'll be dressmakin' before I get through with this."

He stepped inside, but stopped short at the bedroom door with a white face. A child's voice was heard within, asking for water.

"Who's that?" asked the tramp, staring at the doctor. "Whose voice is that?"

"Tommy's," said the doctor. "Tommy Trent."

"O, my Lord!" said the tramp. "How did he come here?"

"His mother came some weeks ago," said the doctor, "to get work in the mill. Good, steady woman. She was doing well till she fell sick, and then Tommy took this fever. Nice boy, Tommy. Do you know anything about them? They seem to be quite alone. There was an older son, I believe, but he seems to have got into bad ways and gone off. Do you know anything about Mrs. Trent?"

"Reckon," said the tramp. He hid his face against the wall for a moment; then he turned upon the doctor with flaming eyes. "Something's ben after me to-night!" he said, fiercely. "Things is all of a piece! I don't say what it is. You may call it the Lord if you're a mind to. I shan't say nothin'. I tell you I ain't had no chance." He put the doctor aside with one hand and slipped noiselessly into the low room. "Tommy," he said, softly, "how's things?"

The sick boy started up on his elbow with a cry, looked, then fell back on his pillow laughing and crying. "It's all right!" he said. "Mother, it's all right! I'll get well now! Brother Jim's come!"

"Reckon," said the tramp.—Laura E. Richards, in Congregationalist.

A PECULIAR CUSTOM.

Among the Greeks a New Year's Celebration Takes the Place of Christmas Festivities.

A great New Year's celebration among the Greeks, including all of the Greek church, whether Russian, Bulgarians or Hellenic Greeks, is described somewhat as follows: Christmas being a holy day but not a holiday, New Year's takes its place as a time of gifts, frolics, family gatherings and general rejoicing. The women usually give presents of beautiful embroidery, often their own work, but the father of a family, however poor, must give his wife and each child a present of money. The children's money is placed in a little earthen jar and kept, so when the child grows up there is a snug little sum for him to start in life. The gentlemen of the higher, wealthier classes call on their fair friends and must always take a present. The caller is offered sweetmeats, a glass of water, a cup of Turkish coffee, but no wine or liquor. When he leaves he finds the servants all drawn up in a row and he presents them each with money. This is repeated in every house he visits, and he must visit all his friends and friends' wives on New Year's or be forever deprived of their friendship. He must also give his own servants presents of money. The children have a few cheap toys, candies and dried fruits. "Watch service" is held, and on returning from church the head of the family breaks a pomegranate on the floor to insure good fortune and health. They then have a feast of all kinds of nuts, candied fruits, raisins, figs and dates. Some nutshells are thrown into the four corners of the room to blind the evil one. Then each one must eat some of each article on the table. At night they have an immense cake in which are two coins—gold, silver or copper. It is set upon the table and each person receives a piece. The ones having the coins are elected king and queen of the feast and are crowned with much ceremony. The young girls bite off a piece of their cake, wrap it in blue paper, and place it under their pillows to dream on; the man they dream of will be the husband designed for them by fate.—Elizabeth T. Nash, in Chautauquan.

The Way of the World.

"Why do you bow to that fellow? He was mixed up in some swindling scheme."

"What was it?"

"Oh, well, I don't remember now whether he was swindled or one of the swindlers."—N. Y. Journal.

Floored.

"Waiter!" he said, bringing all his knowledge of French into play, "can you understand what I say?"

"Oui, monsieur," replied the French waiter, politely; "I haf vaire good knowledge of Engleesh."—Philadelphia North American.

MINNESOTA NEWS.

The 13th Minnesota.

A dispatch from Washington says: Minneapolis volunteers in the 13th regiment at Manilla will be given a 60-days' furlough with pay and mustered out on their arrival in Minneapolis. They are expected there the latter part of March. The order was made by the acting secretary of war at the instance of Congressman Fletcher.

It is needless to say that the soldiers who have so uncomplainingly endured the monotony of police duty will be given an ovation when they arrive in Minneapolis that will surpass anything of the kind ever accorded a Minnesota regiment.

When the regiment arrives it will march up Nicollet avenue, and it is safe to say that nearly every man, woman and child in the city will be present to welcome the boys home. In all probability the new Fourth regiment of militia will turn out to act as an escort for the Thirteenth in its parade. Besides this, local militiamen, those who have formerly served in the various national guard regiments, are planning to act as a part of this guard of honor. There are over 500 men in Minneapolis who have at one time or another been members of the guard, and it is understood that they will hold a meeting some time after the first of the year to discuss the scheme.

The Training School.

The Minnesota state training school at Red Wing has completed its bi-ennial report for the two years ending July 31, 1898, and it will be presented to the legislature at the coming session. A short abstract is as follows: A school in sloyd, or the Swedish system of manual training, has been put in operation with twenty-five benches. Here, under a competent instructor, four classes receive instruction for two hours each day. A blacksmith shop with eight forges has also been added to the list of industrial occupations.

In addition to these, the industries before established, such as printing, cabinet-making, carpenter work, engineering, painting and decorating, tailoring shoemaking, farming and gardening, florticulture, cooking, baking and laundry work, afford fair opportunities for learning much that will be useful in life.

Affirmed.

Secretary Bliss affirmed the land office decision in the contest of the Northern Pacific against the Manitoba road, involving two lists of lands embracing respectively 23,344 and 223 acres in the St. Cloud district. The lands are in conflicting limits of the grants to both roads and the lists held for rejection were filed by the plaintiffs. The first list involves lands selected on account of the grant to aid the construction of the St. Vincent extension, and certified to the governor of Minnesota. The secretary therefore rules that the land has passed from the jurisdiction of the department and holds the list for rejection. As to the second list, the patents therefor had been issued to persons who settled thereon prior to selection by the Northern Pacific and are therefore held to be excepted from the grant.

Game Protection.

The first steps were taken for the organization of a game protective association by a well attended meeting of Minneapolis nimrods. The meeting was presided over by H. C. Hanke, and E. H. Bass acted as secretary. The objects of the proposed organization were discussed and it was the concensus of opinion that there should be a rigid enforcement of present laws, and the adoption of new ones. The hunters favor the license feature, which was discussed by the game wardens of the northwestern states at their meeting held recently in Chicago, which would impose a license of $1 on resident hunters, and $25 on such as come from other states.

The Last Year.

Commissioner Hermann, of the general land office, announced that the logging of dead and down timber will be resumed on the Chippewa Indian reservation this winter, but will not be continued after this year. He said the decision was the result of the recommendation of special agents who investigated the subject for the general land office and of the recommendations of several of the congressional delegation, the idea being that the larger part of the timber can be logged this year.

Mayor Kiefer, of Moorhead, has vetoed the ordinance providing for the removal of screens and curtains from windows of saloons.

Deputy Game Warden Chase seized 15 dead deer, five antler heads and a moose head that had been secreted by a party of hunters.

The committee selected to arrange for the golden jubilee of residents of Minnesota who have been within the borders of the state for 50 years, have decided to give their banquet at the Merchants hotel, St. Paul, the afternoon of Jan. 12.

James Kellogg died in the hospital at St. Paul from the effects of freezing near Faribault.

Joseph Lemay, a convict received at the state prison from Stearns county, June 13, 1893, on a 10-year sentence for carnal knowledge, died of tuberculosis.

The postoffice at Salem, Nicollet county, has been discontinued.

Nels Wilson, night car inspector in the Northern Pacific yards at Brainerd, was struck by a switch engine and died from his injuries.

City Attorney G. W. Stewart, of St. Cloud, has received a letter from the attorney of the First National bank of Minneapolis, which says that they will not further fight the case against the city for hydrant rental, and will accept the $1,500 awarded by the jury recently. They could have settled with the city once for $2,700, but refused. They claimed $8,800.

The Clerk's Exchange at Winona was forced to suspend on account of lack of funds.

At Crookston a drunken man fell from the Great Northen bridge to the ice 30 feet below and was only slightly bruised.

Crookston's $0,000 issue of 5 per cent bonds was sold to the State Savings bank of St. Paul for $33,015, the bank to furnish blank bonds and pay accrued interest.

The 2-year old son of Richard Ryan while playing at his home in Duluth found a bottle of carbolic acid and swallowed some of the poison.

Mail messenger postal service has been established to Minnehaha Park from the C. M. & St. P. railway.

A WISE HERO.

He Wanted the Magazine Rights Before He Did Any Charging on the Enemy.

"No," declared the captain, "I positively decline to lead my company up that hill."

"Sir," exclaimed the colonel, "do you know that what you are saying is rank insubordination?"

"Call it insubordination or what you will," the captain returned, "but I refuse to go."

The colonel was furious. The company that he had detached for the purpose of storming the hill and capturing the fort on top of it was the only one that could be spared, and unless his plans as arranged were executed the whole campaign would fail. Not only that, but his little army would in all probability be cut off from the main body and wiped out of existence.

It was a critical moment. The captain could be court-martialed and shot for his refusal to obey orders, but what of it? Every man was needed. To court-martial and shoot the obstinate captain would not be to take the hill and the fort. He was the only man who could do it with the force at his command.

What was to be done? The colonel gnawed his mustache and thought hard. At last he decided to appeal to the captain instead of ordering him.

"Think, man, think of the glory that you will win if you do this thing," he urged.

"I know all about that," the captain replied.

"Well, for heaven's sake, don't you want to be a hero? Think of it! The entire nation will applaud you!"

"I realize that, and am anxious to become a hero; but I positively refuse to do it until you drive all those correspondents back and keep them off the field. I propose, if I do this business, to retain the sole magazine rights on it. I'm not going to do a heroic thing and then let somebody else get $500 a page for writing it up!"

So the hill was taken, and the far-seeing captain is now living in luxury and winning new laurels with his pen.—Cleveland Leader.

The Enormous Gold Product of 1898.

This will be the greatest gold year in history. From South Africa, the Klondike and Australia the precious metal is being shipped in large quantities. It is believed that this year's output will nearly double that of any previous twelve months. The sales of Hostetter's Stomach Bitters are also increasing very fast, and this year that famous remedy will cure more people of dyspepsia, indigestion, constipation, nervousness and weakness than ever before.

His Last Proud Right.

Mrs. Henpeck—Do you dare to look me in the face and say that?

Mr. Henpeck—Not on your life. I propose to always reserve the right to dodge whenever I make a remark to you.

The rolling pin struck a corner of the mantel and fell harmlessly to the floor.—Cleveland Leader.

Very Low Rates Via the Missouri, Kansas & Texas Railway.

Semi-monthly excursions to the southwest. The greatest opportunity to visit Texas, the Empire state of the Union, unparalleled as to resources and products and with an area exceeding all the Eastern and Middle States. The statistical reports of products, as compiled by the commissioners of Texas, indicate this section as having the greatest possible advantages in its mild and equable climate and in the variety and productiveness of its soil. For further information, descriptive pamphlets and dates of excursions, apply to T. B. Cookerly, Dist. P. A., Des Moines, Ia.

There are many subjects on which you have no right to have an opinion, for the reason that you know nothing about them. —Atchison Globe.

DEFENDING THE NATION.

Catarrh is our country's enemy. La grippe, lung troubles and other diseases of the mucous membrane take hold of our people and fatal results follow with alarming frequency. All of these troubles are catarrh, and cannot exist where the membranes are clean and healthy.

Mrs. Lou Davis, Fayetteville, Tenn., tells in her letter how Dr. Hartman's great catarrh remedy, Pe-ru-na, cured her of la grippe and serious lung complication. She says:

"I was afflicted with a disease commonly known as la grippe two years ago; the doctors said I had consumption. I got one bottle of Pe-ru-na and the second night my cough stopped. I took several bottles, and I will say that I believe I would be a dead woman now if it had not been for Pe-ru-na.'

Mary M. Pruitt, Palpa, Mo., says:

Pe-ru-na Medicine Co., Columbus, O.

"I had la grippe for three successive years; it seemed to get a tighter hold on me each year. It seemed I was in the jaws of death. What had helped me before would not do me any good. I saw an advertisement of Pe-ru-na. I procured two bottles and it cured me. I have not felt any symptom since. You may use this in any way you please."

PISO'S CURE FOR CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists. CONSUMPTION 25 CTS.

St. Paul, Minn., Feb. 24th, 1898.

Our little boy was afflicted with hip disease, or bone ulcer, when he was about three years old. He suffered severely for a year and nine months. We had seven different doctors for him, but they could not cure him. They took out one piece of bone about 3½ inches long, the shape of a shoe, and one smaller piece. The hole in his hip was about 3½ inches deep, and the sore kept running all the time. The doctors ordered us to keep the hole filled with cotton, saturated with some kind of medicine. This we did, and used a probe to insert the cotton. We could introduce the probe about 3½ inches; and found by moving the probe about that there was a large cavity next to the bone, and we could feel the bone with the probe. The child was very pale, thin and weak and could not sleep, and we had no hope of his recovery. The treatment we gave him under the doctors' directions did him no good. We finally commenced using Allen's Ulcerine Salve and it soundly and permanently cured him in about six months. He has been well about four years and is strong and quite fleshy, but limps a little on account of one leg being a little shorter than the other. He is a picture of health, and runs, scuffles and plays with other boys as though nothing had been the matter with him. We believe Ulcerine Salve saved his life.

LAURA PEDERSON.

Sworn to before me this 24th day of February, 1898.

F. O. HAMMER,
Notary Public, Ramsey Co., Minn.

Discipline.

"That child must be taught that it can't have everything it wants," said Mr. Blykins, sternly.

"Yes," said the mother, "but I don't think we ought to devote too much attention to that part of his education. After he grows up it probably won't be many years before he realizes, as most people do, that he's lucky to get anything he wants."—N. Y. World.

STATE OF OHIO, CITY OF TOLEDO, } ss.

BUFFALO GAZETTE

DELANO, FRIDAY, Dec. 30, 1898.

OFFICIAL PAPER OF THE VILLAGE OF DELANO.

DELANO DIARY

--Rev. Savs reports about 125 pupils in attendance at the parochial school this winter.

—Last night the mercury went down among the twenties. It was a snapping cold night.

--"Old Virginia Jubilee Singers" are advertised to be at the City Hall Tuesday evening, Jan. 3.

--C. R. Carlton has purchased the Dugan property, on the corner of Bridge and Second Streets. He intends to rent it.

—Sunday will be New Years Day. Every body should resolve to do better than heretofore; and everybody should keep their resolutions for a year.

--A number of young folks took a sleigh ride to Lyndale Wednesday evening and incidentally to call on Sam Coffin, a former school mate.

—The new calendar for 1899, lately received from the Minnesota Type Foundry, with a good picture of Minnesota editors at Whitefish Bay, Wis., is a nice one.

—Archie McNaughton and Oscar Berry, a miller, of Norwood, Minn., were in town Monday. Archie was drumming and said he left a lot of good cigars in town.

—We hereby acknowledge the receipt of two very nice invitations to the reception to be given Governor and Mrs. Lind at the Ryan Hotel, St. Paul, Jan. 3. Thanks.

—An illustrated Cuban lecture will be given Monday evening, Jan. 2. at 8 P. M. in the City Hall, by three students of the Gustavus Adolphus College, of St. Peter.

—It requires a wonderful stretch of imagination to interpret the illustrated edition of the Eagle, even after reading the labels. Many of the buildings are represented as being on other people's lots.

—H. C. Parslow, who is a first class gardener and prides himself on his achivements in this direction, treated a few of his friends last week to some fine winter radish. We got one. Thanks Henry.

—Every member of the Delano M. E. church should be at the church Monday evening, January 2, at 7:30 P. M. Rev. Farber has called a meeting at that time to vote on whether or not the church property shall be remortgaged, or a part or all of it sold to pay debts.

—A man named Henhouse who was driving across the track at Quinn's crossing a few days ago had the rear end of his bob runners broken off and himself thrown out upon the ground and bruised. He was taken aboard the train and brought to Delano for Medical assistance. Dr. Shrader dressed his wounds.

—Bud Reeve, of Buxton, Dak., who drove through Delano last week with a log cabin on wheels writes us that he arrived all right at Minneapolis, and from the pictures, of him and his outfit in some of the city dailies we believe he did. He sells his interesting book, "What I think after thinking", and gives away another. His books are readable. Try them.

—Rev. Says is contemplating the erection of a nice new Catholic church in Delano. The lots where the church now stands are nicely located and an edifice costing about $15,000 which the people contiguous are abundantly able to pay, would be an addition to the village worthy of the congregation, and a credit to the energy of their priest.

—Already, political wire pullers are seen parading about the streets occasionally discussing who shall be elected to the offices of President and Trustees and Recorder and Treasurer of the village in March. It is thought that a few have had office long enough and some talk is heard of electing new men for positions long held by some of the oldest in office.

--The much advertised "Ten nights in a Bar-room" by a traveling company billed for last night in the City Hall, we are told, didn't materialize. After getting together those desirous of seeing a play it is hardly fair to put on another. It was claimed some of the troupe were away. Such doings tends to make Delano a worse show town than it even now has the reputation of being. We presume more shows have disbanded in Delano than in any other town of its size in the state, and a good many of them ought to have disbanded.

—In another column we give most of a letter from Alva, our son in the Philippines. We received another dated Nov. 10. In it he thinks when Gen. Reeves sent word home that the boys were all right and quite well that either Gen. Reeves or himself were misinformed as to facts. He thinks since there is no more war, and they only have to stand guard over places they don't approve of they could as well come home. He says he reported a case of leprosy to the Board of Health. The fingers and toes were nearly eaten off. "I now have a game cock. He crows between 11:00 and 12:00, at 2:00 and 5:00 every morning. He is the hottest thing on the pike." "I have received a pair of shoes now and am once more doing duty. I am not in a position to dwell on the subject of climate and country on account of being in the army and not allowed out in the interior, but at present it is quite nice on the bay."

—Skating on the river is being enjoyed these moonlight evenings.

—The Delano Creamery company held a business meeting Tuesday

—News from Old Tennessee says Miss Daisy Johns formerly of Delano is married, and her sisters Ollie and Bertha are to be soon.

—The few flakes of snow that fell lately helped sleighing wonderfully. A little more would make excellent sleighing as the roads are smooth and fine.

—The S. S. Christmas trees and entertainments seem to have passed off pleasantly. The one held at the M. E. church was well attended and everybody seemed pleased.

—The Eagle's subscription list seems to be deteriorating. While ago she announced to her readers that Judge Tarbox had paid up and quit her; last week it was Dr. Ames who didn't want her visits to his office any longer. What can the matter be?

Personal.

Lafe Nelson, of Willmar, visited Delano friends Saturday.

Henry Dick, of St. Michaels, visited Delano, yesterday, on business.

Rev. R. R. Atchison, P. E. was a guest at the M. E. parsonage Christmas eve.

Col. Matteson, of Rockford, who has been sick for some time drove over to Delano yesterday.

Judge J. J. Woolley, of Buffalo, passed through town Wednesday, on his way to Howard Lake.

Mr. and Mrs. Earl Holsington, old settlers in Independence, drove up to attend to business, Wednesday.

Frank T. Hamilton, of Minneapolis, passed through town Tuesday, on his way to Buffalo, on Business.

Mrs. Farnsworth, of St. Paul, visited with her father, Wm. Gross, and family, a couple of days this week.

Frank Curry and family and Mrs. J. R. Davies and daughter spent Christmas with Wm. Stanley and family.

Chris Gast, who was operated on for hernia a few weeks ago, was up and dressed Christmas. He is feeling quite like himself again.

Dr. Soper returned home Wednesday from a Christmas vacation with friends in Minneapolis. Mrs. S. remained in the city for a longer visit.

Miss Viola Cuningham went to the city this evening in answer to a telephone message stating that her brother Charles' wife was sick.

Miss Georgia Guptil, of the St. Cloud Normal, and Miss Ethel, of the East Side High School, Minneapolis, visited Delano friends and relatives this week.

Rev. J. R. Davies, of Excelsior, whose family stopped with Mrs. Davies' parents here, while he went to Ohio to visit his sick mother, has returned. His mother was buried Sunday.

John Guptil, of Greenwood, was over Wednesday. His brother Martin and son Roscoe, of Mc., have been visiting him for awhile. They were about leaving for Denver, Colorado, on account of Roscoe's health.

Among those from abroad home for Christmas we notice Misses Mamie Farber, Grace O'Hair, Stella Davis, Emma Hitaman, Stella Jacobs, Annie Erickson, and the two Misses Bullen, and Messrs Fay Parslow, Roy Wilder, Fred Farber, Alfred Sandberg, Harry Young, John Catlin, Sam Coffin, John Sturman and J. P. Berneck.

County Cullings.

The county Treasurer will start out collecting taxes at Clearwater, Monday Jan. 9. Silver Creek 10, Monticello, 11. Otsego, 12. St. Michaels 13. The next Monday 16 at Rockford others later.

Frank T. Hamilton seems destined to represent Wright county in some capacity under the new administration. Frank has ability to fill most any position he might succeed in getting, and has done some good hard work for the fusion cause.

With a new bank recently established at Howard Lake, one to be at Rockford and another at Watertown it looks to us as if there would soon be an overproduction. They will all have to make a living out of their patrons, and it looks as if somebody must pay the expenses.

The Minneapolis Times of Wednesday has under the head "Out for Places" among other things the following, of interest to Wright county politicians: "Sheriff Nugent, the only opposition—that is to say fusion—candidate who won out in Wright county, was present." What can John want now? And can he be as successful with the Democrats as he was with Wright county Republicans on election day?

A German Christmas Legend.

Among the more recent of the German legends the honor of originating the Christmas tree is given to Martin Luther. One Christmas Eve, when the great reformer was traveling over a snow covered forest country, the sky, sparkling with its myriads of stars above the bright evergreen trees, made such a deep impression upon his mind that upon reaching home he tried to describe the beauty of the scene to his wife and children. Suddenly an idea suggested itself to him, and rushing out into the garden he cut down a small fir tree. After dragging it into the nursery he covered the branches with candles and lighted them, thus giving a faint and imperfect reproduction of the scene that had so enchanted his beauty loving soul.—From "Origin of the Christmas Tree," by Mary Annable Fanton, in Demorest's Magazine for December.

WANTED—SEVERAL TRUSTWORTHY PERsons in this state to manage our business in their own and nearby counties. It is mainly office work conducted at home. Salary straight $900 a year and expenses—definite, bonafide, no more, no less salary. Monthly $75. References. Enclose self-addressed stamped envelope, Herbert E. Hess, Prest., Dept. M, Chicago. 50-26t.

ACTIVE SOLICITORS WANTED EVERYWHERE for "The Story of the Philippines" by Murat Halstead, commissioned by the Government as Offical Historian to the War Department. The book was written in army camps at San Francisco, on the Pacific with General Merrit, in the hospitals at Honolulu, in Hong Kong, in the American trenches at Manila, in the insurgent camps with Aguinaldo, on the deck of the Olympia with Dewey, and in the roar of battle at the fall of Manill. Bonanza for agents. Brimful of original pictures taken by government photographers on the spot. Large book. Low prices. Big profits. Freight paid. Credit given. Drop all trashy unofficial war books. Outfit free. Address, F. T. Barber, Sec'y., Star Insurance Bldg., Chicago.

Politics.

With some people they seem to think it a crime for a man to be a democrat, and should be punishable by fine or imprisonment or both. They claim now days we have none of the Thomas Jefferson and Andrew Jackson principles, but this is a mistake. They believed in hard money, both gold and silver, and a sound currency, and so do we. They believed in tariff for revenue only, and so do we. They were opposed to banks of issue, and so are we. They believed the greatest good to the greatest number and so do we. They were in favor of equal rights to all and special privileges to none, and so are we, and we might go on and enumerate but this is enough. Mr. Editor, if you will allow me to go back 35 years or more to the beginning of the rebellion when our country was in great peril, I would like to explain a little on that line. We had for our leader then a great and good man, Abraham Lincoln. His equal we have not had in that place since. Our country was divided North and South, the Mason and Dixon line being the dividing line. It so happened that the extension of slavery was the whole cause of the difficulty between the two sections of country, the South claiming they had a right to take their slaves into new territory north of Mason and Dixon line, and the North claiming they had not, according to the Missouri compromise and this was the beginning of the trouble and the rebellion. It was not a political war as some claim, but a war for the extension of slavery, and as the majority of the South were democrats, this lead many to believe that the name democrat was antagonistic to a republican form of government. This belief was indulged in more freely among the ignorant class of people who did not seem to understand the condition of things, and the meaning of the word democrat, therefore the northern democrats who were loyal to the Union and did not believe in slavery, had to suffer on account of the southern democrats taking up arms against their country and establishing or trying to establish a confederacy of their own, and it has been the cause of great prejudice against the democratic party. Even the young and rising generation inhaled it and took it into their very life and being. Had the South been strongly republican instead of democratic, the rebellion would have happened just the same, for with them (the South) it politics but for a selfish motive, to extend slavery and increase in property. They tried to make it appear that state rights was constitutional in regard to slavery. At this time things have taken a different turn. While slavery was sectional, we have now a more dangerous institution, which is universal, and that is the money power of this country aided and abetted by combines, trusts and monopolies. If the rank and file of the republican party (or any other party that may happen to be in power) think that the millionaire, money lords, national bankers etc are paying millions of dollars to help create a campaign fund just for the love they have for the party is a delusion and a snare for they care no more for party than the Devil cares for holy water, further than to use that party for selfish motives and their own aggrandizement.

Men that are intelligent, who read and think, must see there is many things out of joint, and that we can not always run things as we are running them now without a collapse. Our taxes do not decrease but are rather on the increase. Men who are in office get just as much salary now (or even more) than when times were good and produce bringing a good price. Our jails and prisons are just as full as ever, tramps as numerous, and the poor is on the increase. Poor houses and alms houses are as much needed as ever. Pray tell me if you can where is that mountain of prosperity talked of two years ago, it must be far below the horizon. Two years ago the republicans claimed when they got into power they would bring about a regenesis. While there are thousands of good republicans yet they are human and liable to err, and I believe the majority of them want what is best for the country and the people, but I fear the money power has got their leaders so entrapped that it will take more than a Moses to get us out of our difficulties.

When a farmer or any individual has a home free of encumberance and is out of debt he feels as though he was prosperous and so does a county, a state, or a nation.

Our national debt is large and still on the increase. At the close of Andrew Jackson's and Franklin Pierce's administration our national debt was the smallest it was any time before or since, and both of these were democrats. As a rule working people spend their money freely, and when they have plenty of money times are good.

The man of money, who makes his living by usary, produces nothing, only wealth and that for himself. He is ever looking after his own interest and not yours. When it will bring him gain he is a democrat and if it will be a republican, but will always be found where he can make the most money.

In the beginning of the war with Spain, it was claimed it was begun for humanity only, and yet the buzzards picked the bones of many of the reconcentradoes and now it seems it was for expansion. Yet we do not blame the president for bringing it on but seems he was rather opposed to it. The Philippine Islands are 9,360 miles from Washington. This is a long ways from home, and will cost a good deal for transportation, and this is what our transportation companies want. It seems that our country does some very foolish things. Only a short time ago our country excluded Chinese immigration from coming here, and in getting those islands we get a much worse class of people, but somebody expects to make some money out of it.

Here's luck to the American Eagle that flew over the cloud capped summits of the Rocky mountains and lit upon the highest peak of the Philippine islands and screamed aloud. Glorious Union.

ONE DOLLAR.

Republican Resolutions.

The Eagle has at last concluded to notice "Those familiar resolutions of an old time Republican county convention," as she calls them, which we have been running in the GAZETTE. The Old Bird is mistaken though about their being in our columns for "lo! these many years." They are the freshest they have got. They are the very resolutions on which the Repub's. elected nearly their full ticket; on which the Senator and Representatives were sent to St. Paul, and they bind the vote of our Senator to C. K. Davis but not to Knute Nelson. The Hon. Mr. Nelson's friends may deem it proper to look after their own interests just a little bit, and if they do these resolutions may come in handy by way of argument for knocking the props from under the once great lecturer on Feudalism but now corporation admirer. It seems now-a-day to be a kind of tree for all fight, every man for himself, and Old Knute is known to be up to snuff in that kind of a scramble for office.

C. A. French read a resolution which was adopted as follows:

RESOLVED: That we commend the course of Senator C. K. Davis the senior senator from this state, and earnestly urge that the nominees of this Senatorial Convention give him their undivided support, if elected to again return him to the United States senate at the close of his present term.

E. D. Washburn presented the following resolution, which was also passed:

WE, the republicans of Wright County in convention assembled, renew our allegiance to the principles of the republican party, and pledge our loyal support to all the nominees of the party in which as voters we exercise the rights of suffrage.

A Storehouse of Information.

This is an age of Encyclopedias, and their value is not to be questioned, but the average person is far too busy to spend time in poring over encyclopedias, and will consult a dictionary a hundred times to an encyclopedia once. Nor will much be lost either, if the dictionary is WEBSTER'S INTERNATIONAL DICTIONARY, which contains a wealth of information, making it really an encyclopedia, condensed, it is true, but all the more valuable for that very reason.

In fact, the INTERNATIONAL should be considered a necessity in every family (though the style in which it is presented makes it a luxury as well), and a saying of three cents a day for a year will provide more than enough money to purchase it. The publishers, G. & C. Merriam Co., of Springfield, Mass., cheerfully send free a prospectus containing specimen pages, in itself well worth a careful reading.

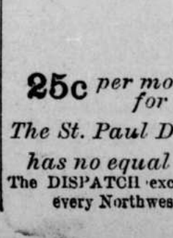
$1.00 A YEAR FOR DEMOREST'S FAMILY MAGAZINE.

The Subscription price of DEMOREST'S is reduced to $1.00 a Year.



Demorest's Family Magazine is more than a Fashion Magazine, although it gives the very latest home and foreign fashions each month: this is only one of its many valuable features. It has something for each member of the family, for every department of the household, and its varied contents are of the highest grade, making it, pre-eminently, The Family Magazine of the World. It furnishes the best thoughts of the most interesting and most progressive writers of the day, and is abreast of the times in everything,—Art, Literature, Science, Society Affairs, Fiction, Household Matters, Sports, etc.—a single number frequently containing from 200 to 300 fine engravings, making it the Most complete and Most Profusely Illustrated of the Great Monthlies.

Demorest's Magazine Fashion Department is in every way far ahead of that contained in any other publication.

Subscribers are entitled each month to patterns of the latest fashions in woman's attire, at no cost to them other than that necessary for postage and wrapping.

NO BETTER CHRISTMAS GIFT

than a year's subscription to Demorest's Magazine can be made. By subscribing At Once you can get the magazine at the reduced price, and will also receive the handsome 25-cent Xmas Number with its beautiful panel picture supplement.

Remit $1.00 by money order, registered letter or check to the
